Joe Justice Raps Homer To Decide Fed-Senator Tilt

Zedalis Bests Kettles In Hurler's Duel To Cop 4 To 3 Game A's Here Tomorrow

ORLANDO, June 10, (Special) —Joe Justice's sailing home run in the seventh frame with Craig Lybrand resting on the keystone sack proved to be the needed margin of victory for the Orlando Senators in a hard fought 4 to 3 contest in which Stan Zedalis and Carl "Goose" Kettles tangled in a nip and tuck hurlers duel.

Justice's four ply poke was the second game deciding blow of its kind that the former Rollins College star has unleashed this year against the Celery Feds.

The Orlando infield gave Big Zedalis nearly perfect support and turned in four sparkling double plays, one of which proved to be fatal for the Feds. In the ninth canto with the tying tally on the third sack a brilliant dounle play killed a would be Fed uprising.

The Sanford aggregation outhit the locals 8 to 4, and the new Fed skipper paced the attack with three hits in five appearances at the plate.

The only Senator batter able to reach the offerings of Kettles, the Fed stellar mound ace, for more than one hit was Lybrand who blasted a single and a double in four appearances. Right fielder Ty Brazil hit one single and the bag cleaning round tripper by Justice were the only other hits by the Senators.

Jim Blalock made his first appearance in the Sanford lineup last night and played an excellent contest in the right field garden. Blalock also hit once in four trips.

The Sanfordites continued their errorless play afield. Jerry Silverman, Manager Murray, Johnny McManus and Don Ricketson formed the errorless infield who gave Kettles perfect support afield.

Sanford is slated to invade Palatka tonight and will return to the Municipal Park for a single contest tomorrow evening.

COMMENTS from the SIDELINES

By ARTHUR BECKWITH, JR.

Jersey City

We note that Arnold Finnefrock announced in his column in the Florida Times Union today that the Jersey City club will maintain their Spring training headquarters here in Sanford next year.

Jersey City is a farm club of the New York Giants, and is a mighty good aggregation to have in anyone's park for spring training, but the only catch is that there is not any confirmation in the City of Sanford that the team is going to be in Sanford next year.

It is true that the Giants have inspected the local facilities for the Jersey City outfit, but at 9:00 o'clock this morning there was no confirmation from official sources that negotiations have been completed.

Several central Florida towns are concerned over the change in training sites for the Jersey City club. DeLand is working for the team as well as Daytona Beach and Palatka.

Sanford has the best baseball park and the best hotel facilities in the state for a Spring training session for that matter, but that does not say that the Giants will send their team here.

We sincerely hope that Carl Stubbel and his associates see fit to send the International League club here for their Spring activity, but we are not getting too "hepped up" over the possibility until we are really sure that they have fully agreed to make this their headquarters.

Sanford certainly will welcome the Jersey City team if they come here for their preseason activity next year. We want the New Jersey city aggregation to come here next Spring. Sanford needs the Giant farm club and the Giant farm team needs Sanford.

The Boston Red Sox led the American League in fielding in 1946 with a .977 mark, the same percentage posted by the Cleveland Indians in 1945, fielding leaders that year.

ROLLINS SIGNS GRID CONTRACT WITH FLORIDA

ORLANDO, June 10, (Special) —Rollins College and the University of Florida football aggregations are slated to meet in Gainesville on Oct. 16, 1948 it was announced here yesterday by Jack McDowell, athletic director at Rollins College.

McDowell stated that Coach Ray Wolf of the University of Florida made the initial offer of the contract over a month ago.

Ted Williams Tops Tribune Star Team

CHICAGO, June 10, (AP)—Ted Williams, lanky Boston Red Sox batting star, still was the top vote-getter as the second tabulation in the all-star baseball poll was released today.

Williams polled 948 votes from the 2,865 early ballots forwarded by a few centers. The fans' voting is being sponsored by the Chicago Tribune and 192 newspapers, radio stations and magazines.

The fans' votes will determine the starting lineups, with the exception of the pitchers—who will be selected by the rival managers for the National and American leagues in the 14th all-star encounter in Wrigley Field July 8.

The slugging Walker brothers, Dixie of the Brooklyn Dodgers, and Harry, of the Philadelphia Phillies, also were among the favorites in the opening returns.

In the second-day tabulation, Lou Boudreau, Cleveland's manager and shortstop, dropped from first place to second as Luke Appling, Chicago White Sox veteran, surged ahead.

Eddie Miller of Cincinnati belted four home runs for his first four hits this season.

MODEL Ingg Perten of Yugoslavia is shown wearing the newest in bathing suits at the International Exhibition of Textiles in New York. The suit is made of transparent plastic materials (International)

Dick Singletary To Play In Semi-Pro Baseball League

NORMAN PARK, Ga., June 10, (Special)—The Wrightsville club of the Ogeechee League has been bolstered by the addition of three Florida members of the Norman Junior College baseball nine.

Catcher Gilbert Coleman of Haines City, Pitcher Dick Singletary of Sanford, and Secondbaseman Bob Hall of Apopka will perform with the semi-professional team until returning here for football practice September 1.

Aurelio Ibanez, the Bears' sensational Cuban shortstop, is on loan to Statesboro's entry in the Ogeechee loop. He will join a former Norman ace moundsman, James D. Hall of Norman Park, in the Statesboro line-up.

NASHVILLE IN THIRD

ATLANTA, Ga., June 10, (AP)—Nashville, currently hitting .330 as a club, held third place in the Southern Association today after Rube Walker's 11th and 12th home runs gave the Vols a 4-1 victory at Atlanta last night.

Walker, the League pacesetter in circuit blows, poled one in the fourth to tie the score, drove in the winning run with a long fly in the sixth, and then hit his second roundtripper in the eighth for good measure and a victory for Pete Mallory. George Diehl was the loser.

Babe Didrikson Is In Fourth Round

GULLANE, Scotland, June 10, (AP)—Mrs. Babe Didrikson Zaharias of Denver and Miss Ruth Woodward of Fall River, Mass., fought their way into the fourth round of the British Women's Amateur Golf Championship today as their fellow American—Miss Helen Sigel of Philadelphia—bowed out in a third round match.

Playing true to form, the highly favored Babe had little difficulty in polishing off Mrs. Val Reddan, former Irish champion, by a score of six and four.

YESTERDAY'S STARS

NEW YORK CITY, June 10, (AP) —Walker Cooper, Giants, hit two home runs to drive in five runs in their 13-10 triumph over Pittsburgh yesterday; his second homer came in the bottom of the ninth inning with two on.

New Federal Farm Program Is Suggested

Need Cited For Universal Training; Truman Urged To Sign Tax Cut Bill

By WILLIAM T. PEACOCK
WASHINGTON, June 11, (AP)—A new scheme for government planning to keep farm prices approximately steady today was offered to Congress.

Its big points:

1. A government-backed "buying pool." This would stand ready to buy non-perishable farm products at "fair" prices. The idea is that in times of surplus, when prices tend to go down, this buying would hold them up to the "fair" level. When supplies were scarce, the pool would sell.

2. A special tax on the first sale of commodities coming under the plan. This would provide money to take care of losses on the pool operations.

John Brandt, of Minneapolis, president of the National Cooperative Milk Producers Federation, presented the plan to the House Agriculture Committee which is studying the question of a new long-ranged federal farm program.

The House itself took up a bill to appropriate $58,856,257 for those government agencies which have run into unexpected expense and need the money to finish out this month, last of the government's current fiscal year. A big part is for the Veterans Administration which has found many veterans benefit laws are costing more than was anticipated. The

Bulgaria Hit By U.S. For Arrest Of Anti-Red Chief

WASHINGTON, June 11, (AP)—The United States today denounced the Bulgarian government's arrest of Nicola Petkov, anti-Communist leader in Bulgaria.

A statement issued by the State Department said that in putting Petkov on trial, the Bulgarian government also will go "on trial in the minds of many Bulgarians and certainly in the opinion of all freedom-supporting peoples outside Bulgaria."

Petkov was arrested "arbitrarily" last week on a charge of conspiring with subversive foreign and domestic elements to overthrow the existing government, the department statement said.

WASHINGTON, June 11 (AP)—The United States today sent Russia a strong protest against the Soviet upset of Hungary's government. The State Department note reportedly carries a threat to take the case before the United Nations if necessary.

The main proposal for action contained in the protest is understood to be a request for a joint American-British-Russian in-

(Continued on Page Four)

Plan Outlined To Aid Small Businesses

WASHINGTON, June 11, (AP)—Small firms will suffer most if business recedes, the committee for economic development said today. It urged tax reduction and the formation of private "capital banks" to strengthen little business.

A system of capital banks, organized expressly to provide long-term loans and buy stock in new or small companies, would help give needed assurance to small business "that its credit sources will not dry up in emergencies," a CED statement said.

FUGITIVES CAPTURED

HEIDELBERG, Germany, June 11, (AP)—The U. S. constabulary was believed tonight to have captured all but one of the eight American soldiers who escaped from Mannheim military prison Sunday and left a trail of robbery and violence.

FLOOD OUTLOOK

ST. LOUIS, June 11 (AP)—The prospect of additional rain in the Missouri River watershed worsened the outlook along the flooding river in central Missouri today, but the flood picture improved gradually in northeastern Missouri and northern Illinois as the Mississippi continued to fall in that ravaged area.

Mongolian Invasion Of China Extends Red Expansion Pattern

By GLENN BABB
AP Foreign News Analyst

If the alarms being sounded in Nanking prove true, the world-wide struggle against the spread of Communism has extended to the great interior plateau of Asia, the roof of the world. That is an area where nearly all factors are in favor of the Red Forces; there is little the anti-Communist elements can do to oppose any advance.

The Chinese official news agency's version is that troops of the Mongolian People's Republic (outer Mongolia), supported by four planes bearing Soviet insignia, crossed the border into Sinkiang, or Chinese Turkestan, and marched some 200 miles before meeting opposition. That would be easy enough in those distant, desolate wastes.

The reason for the invasion, if such it is, remains obscure. Doubtless if there is military action in progress we shall have shortly some account from the other side, some familiar story of border violation or other justification for punitive action. It is doubtful that the outside world ever will know much about what really is happening.

However, it is impossible to separate this flareup on one of the frontiers from the world-wide pattern of Russian pressure and expansion. Outer Mongolia ostensibly is an independent republic, having won its freedom from China late in 1945 as the result of a plebiscite which followed the Soviet model of near-unanimity. The plebiscite itself was one of the concessions the Kremlin wrung from China in the treaty signed just as Japan was collapsing and which carried so many seeds of Russian-Chinese discord.

But Mongolian independence is strictly qualified. The first major act of the infant republic was to sign, on Feb. 27, 1946, a treaty of friendship and mutual

Less Than 5,000 Jews Have Gained Palestine Entry

Plans Underway For Mass Movement Of European Jews

NEW YORK, June 11, (AP)—Eri Jabotinsky, who has spent nearly 10 years guiding Jews out of the labyrinth of Europe, said today that between 3,000 and 5,000 Jews have infiltrated the British blockade of Palestine since World War II ended.

Jabotinsky is a member of the Hebrew Committee of National Liberation, which is at odds with the Jewish Agency for Palestine. A spokesman for the Jewish Agency declined to comment on Jabotinsky's remarks, made in an interview.

Jabotinsky said the British blockade is now so effective that "the operation today is more a demonstration of a will to go to Palestine than actual going."

But, he said, plans now are under way for a single mass movement of between 50,000 and 100,000 Jews from Europe.

He told a newsman:

Since the end of the war about 30,000 Jews have attempted to reach Palestine. Of these, 16,000 are now on Cyprus and about 9,000 subsequently entered Palestine under British quotas. The remainder slipped through the blockade.

(A Jewish Agency source said that from November, 1945, through

1947-48 Resident Fishing Licenses Now Available

Resident State fresh water fishing licenses for 1947-48 numbering 2,250 arrived this morning at the office of County Judge R. W. Ware and were immediately put on sale at $2.00 each. Present licenses, according to the Game and Fresh Water Fish Commission, expire on June 30, and the new licenses are good until, June 30, 1948.

During the past season, approximately $5,181 was received at Judge Ware's office from sale of fishing licenses. This amount included 2275 resident licenses at $2.00 each; 100 non resident licenses at $7.50 each and 275 of the 10 day licenses at $2.75 each. Resident fishing licenses issued in 1946 totalled 1,175.

In order to secure a resident license a person must be a citizen of the United States who has lived in Florida for six months or more. Licenses are not transferable and should be carried on the person while fishing. No license is required for fishing with pole and line in the county of legal residence. County residents may fish with up to three poles and lines.

The day's bag limit per person is indicated on the license as eight black bass not less than 12 inches long from nose to fork of tail; 20 speckled perch; 15 jack; 20 pike, bream, shell cracker, warmouth perch, red breast, stump knocker, other species of bream or 25 of a mixed string.

Sales or shipment of any fresh water fish except catfish, garfish, mudfish or black fish is prohibited. March is the closed season on black bass for the Fifth District which includes Seminole and adjoining counties.

FBI Loyalty Checks Delays Foreign Aid

WASHINGTON, June 11, (AP)—Time-consuming "loyalty checks" by the FBI and other preliminaries raised the prospect today of a delay of several weeks in the start of full-scale American military-economic aid to Greece and Turkey and emergency relief to other countries.

Congress directed individual FBI investigations of all key personnel in approving the $400,000,000 Greek-Turkey recovery undertaking and the $350,000,000 relief program for six European nations and China.

CIVIC MUSIC

Miss Katherine Brock is expected to arrive here Friday noon to confer with officers of the Seminole County Civic Music Association in regard to the program for the coming season, according to H. H. Coleman, president. Miss Brock introduced the program to Sanford during the Fall and four highly successful concerts were given.

Committee Finds Federal Housing Agency "Failure"

By WILLIAM F. ARBOGAST
WASHINGTON, June 11, (AP)—The House Appropriations Committee declared today the Federal Public Housing Authority has "failed miserably" to meet its purpose.

It said more than 31 percent of all public housing, intended for low income tenants, is occupied by persons who make more money than the maximum permissible or are otherwise ineligible.

"The FPHA," it said, "has taken virtually no action to rectify this situation."

The committee said a provision of the U. S. Housing Act which called for the elimination of one slum dwelling unit for every dwelling unit built by the government "has been almost completely ignored and the slums have continued to develop and grow."

BILL

The report, prepared by the committee's investigating staff, was released as the House pre-

(Continued on Page Four)

Automotive Industry Faces New Strikes

DETROIT, June 11, (AP)—The automobile industry became ensnarled in new labor troubles today that forced production shutdowns at plants of the Hudson Motor Car Company and the Continental Workers developed a few hours after 15,000 Hudson CIO United Auto Workers refused to cross picket lines set up by an estimated 600 Hudson office workers who are seeking wage increases.

These two newest strike developments came within hours after a threatened crisis had been averted through a zero-hour contract agreement between the CIO United Auto Workers and the Briggs Manufacturing Co.

First Step Taken In Vote Fraud Inquiry

KANSAS CITY, June 11, (AP)—The government took its first major step today in a federal investigation of the 1946 primary election here with U. S. District Attorney Sam M. Wear calling for 4 court order to impound all records and ballots in the election.

Wear simply said he would ask for the impounding order "to be on the safe side" but the action indicated the possibility of a federal grand jury since that is the only federal authority empowered to open ballot boxes.

Caldwell Says No Money For TB Sanatoria

Governor Tells Boys State People Wanted Appropriations Without Taxation

TALLAHASSEE, June 11, (AP)—Governor Caldwell said today the $2,500,000 appropriated by the 1947 Legislature for construction of new tuberculosis sanatoria probably will not be available for expenditure.

In a letter to Chairman W. T. Edwards of the Tuberculosis Board and to its members, Caldwell said "in view of the fact that the Legislature failed by about $25,000,000 to match its appropriations with revenue, it will be impossible to make the allocation in the near future if at all."

Addressing about 350 American Legion Boys' State delegates today, Caldwell said the 1947 Legislature "failed to match its appropriations with money to meet them because the people of the state said 'appropriate, not tax.'"

BILL

He said the deficit occurred "not because the legislature was unable to add but because the people of the state had not said that if $78,000,000 were appropriated for schools, $78,000,000 had to be placed in the Treasury.

"If the people of Florida had said, the University of Florida is going to have 9,000 students in the next scholastic year and their needs must be met, the Legislature would have put money in the Treasury. Then we could have said to the University 'make your plans. There is money in the Treasury to meet your demands.'"

Caldwell told the youngsters the Legislature had made "great strides in education because the people of Florida came to the conclusion Florida's future is wrapped up in the degree of education given future citizens of the state.

"All of the troubles of the State will be over when the people of

$1,000,000 Honolulu Fire Destroys Hangar

HONOLULU, June 11, (AP)—A roaring fire destroyed the mammoth hangar and two transport planes at Honolulu airport last night.

Unofficial estimates placed the loss at $1,000,000 or more. Flames destroyed equipment, machinery and plane parts as well as a Navy C54 "Skymaster" and a Trans-Pacific Airlines DC3. One fire-fighter was treated for minor injuries in the only reported casualty.

The fire started in a corner of the 200-yards long wooden hangar used by Pan-American, United and Trans-Pacific Airlines. It was controlled within an hour by Honolulu, Pearl Harbor and Hickam Field firemen. The cause was not immediately determined.

Greek Says Soviets Poised For Invasion

ATHENS, June 11, (AP)—Foreign Minister Constantin Tsaldaris says that several thousand "Communists" are poised on the northern Greek border for invasion.

He told newsmen yesterday that the border situation, which has been investigated by a United Nations commission, "is more serious than ever before."

Truman Pledges U.S. Efforts In Promotion Of Peace And Prosperity Of The World

Awaiting Rescue In Flooded Ottumwa Street

President Addresses Canada Parliament; Okeys St. Lawrence Waterway Project

OTTAWA, June 11, (AP)—President Truman told a handclapping, desk-thumping Canadian Parliament today that the United States intends to aid those nations who seek to live at peace and proposes to "expend our energies and invest our substance" in promoting world recovery.

The American Chief Executive drew round after round of applause as he drove home to the legislators of this "good neighbor" to the north his oft-repeated challenge to aggression.

"We intend to aid those who seek to live at peace, without coercing or being coerced, without intimidation or being intimidated," he declared.

The President's speech was interpreted by many as a proposed extension of the Truman Doctrine beyond the $400,000,000 Greek-Turkish aid program and the $350,000,000 relief measure for other devastated countries.

Mr. Truman also called for completion of the St. Lawrence Waterway Project, which has long been the subject of controversy in the United States.

Asserting that the hope of the future was "to multiply the fruitfulness of the earth and to diffuse its benefits among all mankind," the President added:

"At this critical point in history, we of the United States are deeply conscious of our responsibilities to the world. We know that in this trying period, between a war that is over and a peace that is not yet secure, the destitute and the oppressed of

Light Co. Employees Given Pay Increase

Nearly 100 local employees of the Florida Power and Light Company will receive pay increases, averaging 13 percent, retroactive to May 3, as provided by a renewal of a labor contract with the International Brotherhood of Electrical Workers according to information received today by H. H. Coleman, local manager, from McGregor Smith, president of the firm.

Similar pay raises for other non-supervisory employees not of the operating department covered by the contract are also being made effective back to May 3, said Mr. Coleman.

Base pay raises for both groups of employees are state-wide and total about $700,000 per year and affect about 30 percent of the company's employees.

Red Hat Manager Bill Steinecke Will Not Return Under Old Conditions

DELAND, Fla., June 11, (AP)—A possibility that Bill Steinecke may remain manager of the DeLand club in the Florida State League appeared today although he said he would not return "under the old conditions."

Speaking from his home in St. Augustine last night, Steinecke said that Jim Sweeney, a spokesman for DeLand, had informed him his resignation had been refused.

The Red Hat manager said earlier he had given his resignation to Jimmie Roberson, DeLand Club president, but Roberson was unavailable for comment.

Business Manager Bill Page said he had received no official notification of Steinecke's action but expressed the opinion "things will iron themselves out."

"Sweeney is a good friend of mine and I understand there may be a new deal at DeLand," Steinecke said. "If Sweeney has anything to do with it, I think something can be worked out and I'll be back. But I won't return under the old conditions."

While the Red Hats, directed by acting manager Gene Cioles, an outfielder, were dropping their ninth consecutive game at St. Augustine last night, DeLand baseball fans, headed by Sweeney, held a special meeting to discuss the situation. Sweeney is not a club officer.

Steinecke said "It all dates back to Chuck Aleno leaving the club. Since then the club has gone from bad to worse and it might be better if I stepped out."

Aleno, former Cincinnati Reds third baseman, played for DeLand until a week ago, leading the league in hitting with a .420 average. He since has accepted a contract with the Atlanta Crackers of the Southern Association on the basis of a provision in his agreement with the local club.

Steinecke also said there were "two strikes" on him in the circuit, the umpires were after him and that some persons in the loop were out to get him.

Arabs To Strike In Protest Over Inquiry

JERUSALEM, June 11, (AP)—Emil Ghouri, Palestine Arab leader, predicted today that Arabs would effect a "100 per cent stoppage of work" Monday as a token strike on the first day of the United Nations Inquiry Commission's meetings in the Holy Land.

"Our people are in despair about the future of their country," he said in an interview. "They will strike, and, if necessary, they will act. Arabs have learned many things from the Jews. Among them is the fact that force seems to be the only way a people can protect its rightful position."

PRESBYTERIAN SYNOD

LAKELAND, June 11, (AP)—The Rev. W. Monte Johnson of Lakeland today assumed the post of moderator of the Florida synod of the Presbyterian Church, succeeding the Rev. R. A. Campbell of Fort Pierce.

James Rivers Is Guest Speaker At Kiwanis Meeting

Management, Organization Of Station WTRR Is Outlined

Tolver Randolph Rivers, infant son of Mr. and Mrs. James Rivers, provided the inspiration for the first three letters of Station WTRR. Mr. Rivers, owner of the station, today informed Kiwanians at their luncheon at the Tourist Center. The W he said was given by the Federal Communications Commission. He was introduced by the Rev. W. P. Yerkey who with John Leonardy had charge of the program.

Tomorrow Will Be Final Day To Take TB X-ray Exams

Thursday will be the final day for X-ray tests by the State Mobile Unit, which will be located in Midway near Sipes Avenue, and the stationary unit which is inside the Seminole County Health Unit headquarters on Commercial Avenue. Hours are 9:30 to 11:30 A. M. and 2:00 to 4:30 P. M.

Today the mobile unit conducted tests of negroes on Sanford Avenue near the Lovett Grocery store.

Dr. W. V. Bitting, president of the Seminole County Chamber of Commerce, today urged all members of the organization, employees and friends to take advantage of this free xray check up offered by the State Board of Health.

"It is imperative that we protect the health and welfare of our community by cooperating with this effort of screening the populace from tuberculosis and knowing where the sources of infection lie," Dr. Bitting said.

George Touhy, president of the Tuberculosis Association, today urged civic groups and residents to telegraph Governor Caldwell to make House Bill 538 as passed by the State Senate and House a law. He warned that if the bill is vetoed new sanatoriums at Tampa and Marianna will be closed. The bill permits counties to send more patients to TB hospitals by reducing the per day cost per patient to the county from $1.25 to 75 cents each.

SPINS TO DEATH

NORFOLK, Va., June 11, (AP)—Ens. Richardson A. Odum, 23, lost his life yesterday afternoon when his Hellcat plane went into a spin and crashed in the Atlantic ocean 37 miles southeast of Chincoteague.

Odum was a member of a squadron attached to the operational development force, Atlantic fleet and based at the Chincoteague Naval Auxiliary Air Station. He was the son of Clarence R. Odum, of Holly Hill, Fla.

Gromyko Offers New Proposal On Atomic Control

LAKE SUCCESS, June 11, (AP)—Russia today called on the United Nations to establish a world commission "for strict international control over all facilities engaged in mining of atomic raw materials and in production of atomic materials and atomic energy."

Speaking in English, Soviet Deputy Foreign Minister Andrei A. Gromyko told the 12-nation U.N. Atomic Energy Commission that such an international group, operating within the framework of the veto-conscious Security Council, would have access to "any facilities for mining, production and

Reds Charged With Mongolian Invasion

NANKING, June 11 (AP)—A Chinese government spokesman, declaring "this is no ordinary frontier incident," charged Russia today with partial responsibility for an outer Mongolian invasion of China's remote Sinkiang Province.

The government instructed its ambassador in Moscow to protest the incident to both the Soviet government and "to the outer Mongolian minister there as the aftermath of a punitive campaign which carried a Mongol cavalry battalion 50 miles into China.

Chang Yuang-Chang, foreign office spokesman, gave no reasons why China was protesting directly to Moscow and declined comment on whether warplanes with Soviet markings had sup- reported by the official Central reported by the official Central News Agency, Outer Mongolia, however, is pro-Soviet.

BUS BIDS

Bids will be received Thursday on two school busses to be purchased by the County when the Seminole County Board of Public Instruction meets at 10:00 A. M. it was announced this morning by Supt. T. W. Lawton. Bids have also been advertised for sale of shop equipment at the Lyman School in Longwood, which equipment has not been in use for several years due to lack of an instructor in shop practice.

WEDNESDAY, JUNE 11, 1947

BIBLE VERSE OF THE TODAY

WHERE THERE IS NO VISION, THE PEOPLE PERISH: BUT HE THAT KEEPETH THE LAW, HAPPY IS HE. WHERE HE WILL BE SAFE HAD ISRAEL DEPARTED AWAY THERE WOULD BE NO LOST THREE-FIFTHS Five-sixths of the land of Judah, and their capital—Jerusalem—would be left desolate, according to prophecy there. Amos 5:1,2.

Melbourne celebrated the opening last week of the new half million dollar catgway across the Indian River.

Recent political developments in the Republican party may make it appear that Governor Millard F. Caldwell was as successful as the Far Savage Campaign.

In spite of all the current obstacles to new building, there is more construction going on at Sanford at the present time than ever before except possibly during the 1925 boom.

How did you like the pink paper our sports page was printed on yesterday? That doesn't mean we're easy communists . . . it just means that we are operating in the red. It just means that the newsprint situation continues tight.

A friend of ours comes in to remind us that Fathers Day this year is on June 15 and that as a special reward for his devotion to his family and his loyalty to the state and nation he will be privileged to pay his second installment on his 1946 income tax.

Henry Wallace says the Truman Doctrine is the strongest weapon Communism ever had. We are respected," he says, referring to his country, the United States, "for our power and hated and feared for the way in which we are using it." Yes, the countries of Europe are really scared to death of suppression from the Truman regime. We may even have to force them to accept our food.

The National Coal Association is confronted with the possibility of another strike, says the miners are already the highest paid industrial workers in the United States "when they work full time." Meanwhile, despite repeated wage increases production has continued to decline since 1940. Every $10 of wages this year produced 9.1 tons of coal. Today every $10 of wages produces 4.99 tons of coal. Is there any wonder why prices are high?

Senator Pepper calls upon the Senate for a minimum wage level of 75 cents an hour. Thus, office boys, inexperienced clerks and stenographers, beginners in all trades, anyone and everyone fortunate enough to find anyone willing to pay that amount while teaching them their job, would have to be paid 75 cents an hour. And presumably, if these beginners are to get a 33 1/3 percent increase in pay, those who make more than the minimum and are more or less experienced in the trade, would also expect a 33 1/3 percent increase. And if all wage earners get such an increase in pay, you may be sure there will be a similar increase in prices. All of which is probably fair enough, except to those poor devils, like widows and orphans living on life insurance annuities, salary workers who might not get the increase, and others on fixed incomes, who already find the price level high enough.

The Legislature's Work

Although the legislative session which has recently closed is bound to go down in history as one in which legislation was influenced by graft and bribery, the cold fact remains that it was probably no worse in any sense in this respect than any of the predecessors and there is no doubt but clear its skirts by punishing the guilty party or by passing the bill he sought to defeat, still it did appear those corrupt influences and denounce such practices something which had not previously been done in many years.

What the Legislature actually accomplished will not be clear until the Governor has had time to act upon the various bills which have been brought before him for his signature and sent on their way to become laws. Among the more important of the new laws appropriate additional funds for schools, health, and various other functions of the state can be accurately gauged in the light of practical realities. For what good does it do to say, "There is another $16,000,000 for the schools" if the fund is empty?

A logical explanation for the failure of the Legislature to levy additional taxes comes from Senator Boyle who says that she deliberately, and with full knowledge apparent, before 1946 when another election will have been held and another Legislature will be in session. If it develops that sufficient revenues are not available to the state to meet existing demands upon it, then new taxes can be levied, and, as he sees it, the blame will be placed where it belongs.

The Legislature has made constructive achievement to which it can point with pride. It did broaden the power of the Road Department to build and maintain secondary roads in communities that have contributed to the state highway fund and that in recent years have received little or no benefit from the expenditure of state motor vehicle license tax money. It did provide for the establishment of an automobile driver license examiner in every county, which at least encourages motorists to take out liability insurance protecting themselves and others against damages in the event of accident, and it passed a bill for a Everglades National Park bill.

Seminole County has reason to feel proud of the work of its delegation in the Legislature. Senator Boyle was a member of such important committees as Finance and Taxation, Judiciary, Rules and Calendar and Constitutional Amendments, and was chairman of two of them. And as a member of the minority report on the Finance and Taxation Committee, he wrote the report which rejected the iniquitous slot machine bill.

In the House Sanford's Representative Bailey Odham brought forth the charge against a lottery involving one of the greatest upheavals in the history of Legislature, and when it was over, though he was a member of the minority, he was the hero of the session. He was also the author of a bill for a local and gained an enviable reputation for courage and doing.

Typographical Boners

The heading of a story in a recent issue of the Tampa Tribune about the state hunting and fishing school at the University of Florida, reads: "Gadsden Students Turn Not Yet Picked" but it almost didn't come out that way. Paul Wilder, writer, writes the column "In Our Town" reports that "until just a few minutes before Christmas we was rolled into the street pigpy room, the head read "Santa Was Rolled In Yet Not Yet Kicked." A last minute correction saved the day. But says Wilder, "sometimes we just don't get lucky." He points out that one time, the Atlanta Journal ran a society headline supposed to say "Arcadia Girl Wed Recently" came out "Arcadia Girl Wed Decently." The embarrassment of editors and makeup men alike was profound the time a standing head for sports page—"Fishing Luck"—appeared over the birth notices.

No newspaper, says Wilder, is without typographical errors. Good Housekeeping Magazine this month has a whole article listing hilarious errors that have appeared in journals over the U. S. We remember a book once kept by Wayne Oliver (now night radio editor for the Associated Press in New York) in which he kept clippings of word mixups he had found in other newspapers besides his own. Every time he found a typo in his own paper, he would calmly mix up the clippings in the scrapbook, and reading of other people's similar troubles.

One of the clippings we remember had was clipped from an Orlando paper. The story was a frilly society piece about how "Mrs. John Jones announces the marriage of her daughter, Mary, to Mr. . . . and so on. Heads apparently had been transposed, for the bold heading over the wedding story read: "Girl Loses To Death."—Exchange.

Truman and Wallace

Truman and Wallace will be the Democratic ticket in 1948, says ex-Gov. Harold E. Stassen of Minnesota, who is a Republican but may be giving a disinterested opinion. If his prediction is correct, it would be one of the few cases where the vice-presidential nominee either attracted or drove away votes.

One such case may have been in 1944 when the Democratic ticket headed by John W. Davis, attorney for the house of Morgan, was balanced by Charles W. Bryan, brother of William J., for vice-president. This nomination may have held William in line, but anti-Bryan conservatives used it as an argument for voting Republican. The real damage, however, was done by the 103-ballot deadlock that preceded Davis' nomination.

It is a good idea to nominate vice-presidential candidates about whom people have heard, so that they can form opinions. It is also a good idea to take into consideration the fact that the vice-president may become president. Will he be good at that job? Voters are more interested in realities at this time than they are in the question of who gets which political jobs.

TOO LATE TO CLASSIFY

By RUSSELL KAY

To the average citizen, how a bill gets through the legislature is a family affair, for it affects his pocketbook. Whether it be favorable or unfavorable, committee reports, passage of measures by house and senate, but it all adds up to a question mark as to what really happened.

Bill publisher suggested that I devote this column to a resume of the session. This would be a large order and I doubt if it could be covered in a book, let alone a column. What they didn't do would make another sizable volume.

Maybe I can draw a word picture that the average person can understand. Let's reduce the legislature to a family circle. Let's argue this family group gathered around the living room during the evening and discussing family problems that must be considered during the next two years.

Dad gets out his pencil and pad and figures his income has been pretty good and he has some money in the bank. He also has made provision for his insurance and certain fixed expenses.

Mother suggests that "we ought to stay stating that she needs a new car and a lot of new clothes. Bill, the eldest son, wants to go to college and wants a radio, clothes and a lot of other things. Sister Sue wants her room done over, or a whole new set of furniture. Grandma says the house needs to be painted and a new roof set over her head as it leaks.

Before they get through enough needs are advanced to wipe out the family bank account. Dad calculates that for several thousand dollars he can do only a few of the things they want. But these needs as expressed by the various members of the family represent bills introduced in a legislature. The discussion about each need represents consideration of committees.

Mother's demands are considered reasonable and everyone agrees they should be provided. The same goes for all the other proposals. Dad has a few ideas of his own. He wants to expand his business, build a new building and purchase needed equipment. He says such action is imperative if he is to make sufficient money to take care of all the other items of expense.

The family committee thinks this is all right, too, as long as they get the things they want. But Dad's place must not interfere with theirs and each member of the family feels that one or two demands is the most important and should receive the first consideration.

Dad points out that to do everything that should be done is impossible on his present financial basis, so they go into a huddle to consider ways and means of raising more money. Sister Sue thinks she could get a job and contribute something. Bill offers to sell his stamp collection and thinks maybe he could realize enough on it to pay for the radio he wants.

Dad has prepared a budget based on his past earnings and the present bank balance but he is afraid he won't do so well during the next two years and doubts if he can count on as much income. He thinks maybe they should try and cut expenses. Maybe he the maid go and do less entertaining. But these suggestions don't set very well.

So, the conference winds up with everyone mad at everybody and the next two years mother must have a new car, dad must build a new building and expand his business and the house must be painted. Everybody must have a lot of new clothes. Bill must go to college, and this represents the passage of bills in the legislature calling for improvements or services for which they have failed to provide funds. It is like authorizing 20 new school buildings, several new four-lane highways and a big state hospital and not providing the necessary money.

Well, the 1947 legislature proved that a lot of things should be done, and passed measures calling for changes and improvements that will take a lot of money if carried out. They took it for granted that present revenues will continue on about their present level and decided to let Dad worry about where the money was coming from. It made little effort to reflect accomplishments or indications are that the money will run out before the program it approved is half way through.

But Dad can "always call another family conference. In the meantime he will sweat it out trying to make ends meet and when the family gathers with the result or can't meet his payroll, he'll gather the family together to explain why he can't do more. Maybe the parlor and have another try at untangling his financial backlash.

In the meantime, you can help by buying gasoline, cigarettes, more cigarettes, playing the ponies or hot on bookie joints and burning up money.

As a third baseman, Cincinnati pitcher Bucky Walters hit Pacific Coast League hurling for a .276 average with San Francisco in 1933.

Europe Needs U. S. Civic Clubs

Florida Times-Union

What makes the American civic club the influence it is in shaping the life of the United States is the fact that it draws membership from the type of men who addressed the opening meeting of Rotary International Sunday in San Francisco.

It will be recalled that Dr. Robert Gordon Sproul, the featured speaker at Sunday's meeting, presently is serving as his post as president of the University of California at a reported salary of several times the fee he was then receiving. He preferred to remain where he is because, apparently, he felt that he could do more good there.

Approximately a quarter of a century ago, Sinclair Lewis, who depended for his popularity as a novelist largely on a sense of cynicism that was, unexpected in the United States at those days, wrote a book, entitled "Babbitt," which purported to depict a smugness of character in American business men.

The institution to suffer most perhaps, from Mr. Lewis' vitriolic pen was the civic club, which he saw as the author devised it, was made up of men who were so busy making money that they had no time for anything else. Mr. Lewis's thesis was that if men were to be saved they must gather together to glorify their profession, which was placed on a luncheon meetings.

Since that time, civic organizations have come into their own in a fashion that should put any former critic to shame. At all times, it has been wonderful to see the Rotarians, Kiwanians, and other the way in which the relaxed civic club, which is called in the United States, is fulfilling a need for certainly, in the case of Rotary, a membership of America's leading businessmen, can point to a long record of constructive service to the community, leadership through the United States.

As a person who is acquainted with the work of Rotary clubs in towns around him and who has served the many programs we are being carried out by the profit of young America under the sponsorship of American civic clubs, he is compelled to say that similar bodies could do no Europe today, when the outlook is darkened with a good deal of little people.

Eastern Shore Diamond Loop Easy On Umps

EASTON, Md.—The best attended Sunday school class will take outdoor exercise in the Eastern Shore Ball League, if President Ernest Kibler has his way.

As the loop opened its campaign, Kibler issued a bid to "anyone who has included in his open drinking or slander or profane language" to come from players benches and back-talking umpires, no longer the limp with a pop bottle or similar rough stuff.

Also in line with the effort to make the Eastern Shore umpire's paradise, Kibler decreed managers and coaches, not players, could better forth from the bench to argue with the umpires in black.

That longs weren't always this are limited by the fact that umpires have signed up for another term with the league after last year's season.

First Time in 6 Years! GENERAL'S FAMOUS BIG SAVINGS TRADE-IN SALE

Here's your chance to get off those risky wartime tires and get rolling on skid-safe GENERALS!

up to 25% SAVINGS ON GENERAL TIRES & TUBES

We have Factory authority to go the limit to give you a trade-in deal you can't refuse. It's our way of winning new customers. We know we can count on the long term patronage that Top-Quality wins.

Check your size for the amounts you save during this sale:

GENERAL TIRES AT SAVINGS OF $3.80 TO $10.85 PER TIRE

Minimum amounts you save per tire . . . depending on condition of original treads or recaps:

6.00-15	3.80 to 6.20	6.00-16	3.90 to 5.30
6.50-15	4.60 to 6.25	6.50-16	4.70 to 6.40
7.00-15	5.10 to 6.95	7.00-16	5.20 to 7.15
		7.50-16	7.90 to 10.85

STILL GREATER ALLOWANCES ON FULL SETS

$1.45 A WEEK buys any 6.00 x 16 General Tire in Sale Stock. Other sizes proportionately low.

Mongol Invasion

(Continued from Page One)

aid with the Soviet union. Soon thereafter Moscow was sponsoring its application for membership in the United Nations, a bid which was rejected by the western powers.

Actually the Mongolian people's republic is one of the oldest examples of the puppet state, and one of the most effective. It moves at Moscow's bidding and if Russia does have designs on Sinkiang, and she has given evidence of such in the recent past, Mongolia would be the logical instrument for pushing them. The Mongolian army, a far-removed and feeble descendant of the hordes of Genghis Kahn before the Russians came in, now is trained, supplied, guided by the Red army.

A movement into Sinkiang would be a flowing back of Russian power, rather than a new expansion. Russian influence for decades has been strong in that westernmost territory of China. The building of the Soviet's great Turksib Trunkline brought it well within the Soviet economic orbit and this hold has been reinforced by the new feeder branches of the Turksib built and building as part of the Soviet Union's current five-year plan.

From 1934 to 1942 Sinkiang, which has a population of perhaps 4,000,000 and an area of about 600,000 square miles, was under virtual Soviet domination. Russian controlled agency, the Sovintorg, monopolized all Sinkiang's export trade. Russian troops, wearing Chinese uniforms, were reported stationed at Hami. In 1942 when Russian fortunes in World War II were low, the Chinese succeeded in negotiating a Russian withdrawal and resumption of full Chinese control.

Sinkiang lies at the juncture of three tremendous land masses, Russia, China and India. Were it more developed and less savage physically, Russian penetration there would doubtless cause immediate alarm throughout the western capitals should the Reds. But some of the world's greatest mountain ranges and most forbidding wastelands isolate it from the great Asiatic centers of population. Even so, with India soon to be cut loose from British protection and with China in tragic upheaval, there will be added cause for concern in the western capitals should the Reds banner be carried across Sinkiang to the mountain passes.

Housing Failure

(Continued from Page One)

pared to consider cuts in Housing Agency funds for the fiscal year starting July 1.

Other general statements made by the committee included these:

1. The FPHA has failed to dispose of wartime housing and has inaugurated a "socialized scheme of disposition to mutual organizations which completely ignore any veterans' preference, unless the veteran was already in occupant."

2. Despite the housing shortage in this country, the FPHA sold to France last year 8,110 new prefabricated units.

3. Some FPHA records were in such an "atrocious condition" that a reputable accounting firm declined to audit them.

4. The agency has followed "extravagant personnel policies resulting in overstaffing and duplication of work." The investigators recommended the closing of all regional offices.

5. The veterans' emergency housing program is "a dismal failure.

6. There has been definite indication that the agency appears partial and paternal to the United Puplic Workers of America (CIO), and in San Diego employees used their positions "to intimidate local housing authorities into giving preferred treatment to CIO strikers."

7. In the San Francisco area allegations were made that building materials "were fraudulently given to private builders by FPHA employees; that political contributions were solicited and obtained by FPHA; that regional offices gave lucrative contracts for serving surplus material to individuals who had no facilities and took no responsibility."

8. In one instance, an FPHA desk made available to the committee investigator was found "crammed with copies of the local Communist paper."

9. Many FPHA bulletin boards "carry propaganda urging pressure on Congress on behalf of the CIO unions and castigating Congress for its attempts to shackle labor."

Bulgarian Issue

(Continued from Page One)

vestigation of the situation in Hungary.

It was possible that some last minute changes were made in the text of the note by Secretary of State Marshall, who went over it finally shortly before it was sent out.

State Department officials declined to detail the note's proposal immediately, but it was learned that the message on this country's ripe was sent to Soviet Lieut. General V. I. Svirdov, chairman of the Allied Control Commission in Hungary, with copies to Moscow and to London.

As the document was originally prepared, it accused the Soviets of unjustified interference in the internal affairs of Hungary and of violating the Yalta agreement. It proposed the three-power investigation with the threat of taking the whole case to the United Nations unless satisfactory information can be turned up absolving Russia of the American accusations.

The late President Roosevelt, Prime Minister Churchill of Britain and Generalissimo Stalin of Russia reached an agreement at a Yalta conference regarding policies to govern occupation of enemy nations.

Diplomatic officials indicated today that the term "United Nations" is not actually used in the text of the note as finally sent, but said there was no mistaking that an appeal to the United Nations is the ultimate move.

Wallace Sponsors

(Continued from Page One)

(R-N.J) has called committee members to a meeting Thursday to approve and sign the report.

Senator Pepper (D-Fla) is scheduled to introduce Wallace, former vice president and secretary of commerce, on a program arranged by the Southern Conference at the Water Gate Amphitheater on the banks of the Potomac River here Monday evening.

Also on the program are Zero Mostel, radio and stage comedian, Dr. Clark Foreman, conference president, and Dr. Joseph L. Johnson, chairman of the Washington committee in charge of the event.

The conference is charging 60 cents to $4.60 for some 9,000 seats. A conference spokesman said Wallace and Mostel will be paid for travel expenses only, and net proceeds will be used for "regular work" of the organization, chiefly in Washington.

The Water Gate, near the Lincoln Memorial, is operated by Government Services, Inc., under control of the National Capital Parks System. Government Services is a non-profit organization which also runs cafeterias in government buildings and various recreation facilities.

FRIGID JUNE

CHICAGO, June 11, (AP)—Temperatures fell considerably below normal over the northern great plains and upper Mississippi Valley today, with some readings below freezing.

In addition, the U. S. Weather Bureau reported a new storm developing in the southern Rocky Mountain region, which it said would bring additional rain to the flooded middle Mississippi Valley by tomorrow night or Friday.

The frigid June temperatures fell as low as 28 at Bend, Ore.; 34 at Austin, Nev.; 34 at Williston and Dickinson, N. D., and Chadron, Neb., as at Rapid City, S. D.; and 37 at Lewiston, Mont., and Houghton, Mich.

Jewish Refugees

(Continued from Page One)

last May 19 a total of 29 Haganah ships with 31,620 passengers had been intercepted. Haganah is the Jewish underground defense organization in Palestine. The Hebrew committee has sent one ship, the Ben Hecht, which was intercepted.)

Favorite debarkation points in around Marseille. Other ships have sailed from Italy and a few from Yugoslavia.

The most frequently used Black Sea port is now Constanza. Most ships are purchased in America, and sail under the registry of some South American republic.

Jews have little trouble in leaving any European country except Russia, which officially frowns on the Zionist movement.

Immigrants move across Europe on transit visas to concentration points. At these points leaders experience the greatest difficulties of the migration when as many as 1,000 persons from five or six different countries must be housed, and fed, then moved with the careful timing of an army's movement to a rendezvous with a vessel.

Truman's Speech

(Continued from Page One)

the earth look chiefly to us for sustenance and support until they can again face life with self-confidence and self-reliance.

"We are keenly aware that much depends upon the internal strength, the economic stability and the moral stamina of the United States. We face this challenge with determination and confidence.

"Free men everywhere know that the purpose of the United States is to restore the world to health and to re-establish conditions in which the common people of the earth can work out their salvation by their own efforts.

"We seek a peaceful world, a prosperous world, a free world, a world of good neighbors, living on terms of equality and mutual respect, as Canada and the United States have lived for generations.

"We intend to expend our energies and invest our substance in promoting world recovery by assisting those who are able and willing to make their maximum contribution to the same cause.

"We intend to support those who are determined to govern themselves in their own way, and who honor the rights of others to do likewise.

"We intend to aid those who seek to live at peace with their neighbors, without coercing or being coerced, without intimidating or being intimidated.

"We intend to uphold those who respect the dignity of the individual, who guarantee him equal treatment under law, and who allow him the widest possible liberty to work out his own destiny and achieve success to the limit of his capacity.

"We intend to cooperate actively and loyally with all who honestly seek, as we do, to build a better world in which mankind can live in peace and prosperity.

"We count Canada in the forefront of those who share these objectives and ideals.

"With such friends we face the future unafraid."

Mr. Truman, who arrived in this country yesterday with Mrs. Truman and their daughter, said that Canada and the United States had set an example to the world of living together for years "in harmony for the common good."

Canada and the United States have reached the point where we no longer think of each other as 'foreign countries,'" he said, but as "peaceful and cooperative neighbors on a spacious and fruitful continent."

CARDINAL DEAL

COLUMBUS, O., June 11, (AP)—The Columbus Dispatch said today that "Postmaster-General Robert Hannegan and associates may soon own the world champion St. Louis Cardinals and the vast chain of farm clubs that includes the Columbus Red Birds and the Rochester Red Wings."

Holland To Talk

(Continued from Page One)

by the Coast Guard Auxiliary, the directors voted to underwrite the project to the extent of $750 after it was indicated by Mr. Coleman and Al Lee, speaking for the Coast Guard, that sufficient revenues could reasonably be expected from the affair to provide the prizes and meet all expenses.

Frank Shames, vice president, presided at the meeting in the absence of W. V. Hitting who was ill. Mr. Coleman read the treasurer's report and George Stine reported on the American Legion's memorial project. Mr. Higgins said that the membership drive of the trade body has been even more successful than last year and that the organization now has 314 members.

He also commended the Seminole County delegation in the State Legislature and reported that efforts to have French Avenue made a state road have been successful and that work on resurfacing of this thoroughfare will begin in the near future.

Kiwanis Meet

(Continued from Page One)

munity. Mr. Rivers declared that WTRR is a station of strictly modern equipment. In from 12 to 18 hours it could be changed from the present AM (amplitude modulation) to FM (frequency modulation) which is the reason the tower was built so high. Power can also be increased easily by addition of but little equipment he said.

Records of more than 4,000 musical selections, popular and classical, sacred and folk tunes are kept on file at the station and these are added to as new tunes come out from publishers under ASCAP, BMI and other groups with which the station has contract, he declared.

Scripts are required for all programs other than those of devotional nature, he revealed, and a written log is kept for a three year period of all announcements. The station has the right to edit scripts, he pointed out and can reject copy if necessary.

United Press service comes by leased wire from New York to the teletype machine with the latest news, also from U. P. correspondents in Florida, he said.

Asked if television will come soon to Florida, he replied that he did not look for this soon due to the fact that relays are necessary about every 50 miles to build up the power.

Guests introduced by Joel Field included Dan Murray, new Celery Fed baseball manager, Buddy Lake, Lieut. A. W. Epps, Jr. and Frank Sandler of Haines City. The Rev. D. E. Charles, Presbyterian minister of Richmond, Va. was introduced by Dr. E. D. Brownlee.

Dr. H. W. Rucker led the singing of Happy Birthday for Jack Russell following the birthday announcement by Raymond Kader. Lester Tharp presided at the meeting.

United Nations

stockpiling of atomic materials."

Gromyko said that in fulfilling its tasks of control and inspection, the proposed commission would have the right of "requesting from the government of any nation and checking of various data and reports on the activities of atomic energy facilities."

He added the Soviet Union would insist that the task on prohibiting atomic weapons be considered from the viewpoint of its "necessity." He did not change his basic position for immediately outlawing the bomb and only then for a convention setting up atomic controls.

In a speech given wide advance publicity through Gromyko's request for a meeting of the full commission, its first since Mar. 19, Gromyko laid down these points:

1. The International Control Commission should be set up within the framework of the council, where the veto applies.

2. The commission shall have its own inspectorial apparatus.

3. Composition, rights and obligations of the commission, as well as provisions on basis of which it shall act, shall be determined by a special international convention signed by nations.

4. The commission shall be composed of nations of the Atomic Energy Commission, shall select its personnel on an international basis, and "periodically carry out inspection of facilities for mining and production of atomic materials."

5. The commission shall check existing stockpiles, investigate and verify the accounting and study production operations.

6. The commission shall "have access to any facilities for mining production and stockpiling of materials."

7. Signatory states to the convention prohibiting atomic weapons must have a right to carry on "unrestricted scientific research" directed toward discovery of methods for use of atomic energy for peaceful purposes.

Congressional Action

(Continued from Page One)

House itself was down for $65,000. Its committee expenses and telephone bills are running ahead of estimates.

The Senate went on with debate on the so-called Bulwinkle Bill, concerned with railroad rate-making, which has occupied it all week.

Senator George (D-Ga), top Democrat on the Senate's tax-writing Finance Committee, urged that President Truman sign the GOP-backed income tax reduction bill.

WASHINGTON, June 11, (AP) Dr. Karl T. Compton urged Congress today to speed military instruction for the nation's youth, saying it would not be "safe" to count upon international disarmament.

Dr. Compton, chairman of President Truman's special commission on universal training, told the House Armed Services Committee that it would be "too late" to muster a big army in the event of a sudden attack in another war.

"We'll need trained men and we'll need them fast," he said.

Compton, a scientist and President of Massachusetts Institute of Technology, testified at the opening of hearings on the commission's recommendation for compulsory training of America's youth.

Replying to a question from Rep. Cole (R-NY), Compton insisted that the United States ought to get the training program underway while working simultaneously in the United Nations for disarmament and universal peace.

He argued that the American effort to attain that objective would be strengthened in international council by adoption of the program.

He made these other points:

1. The United States will not be "shielded" by Great Britain for two or three years if another war occurs.

2. There "certainly will be a period of extreme uncertainty" in international affairs during the next five or six years.

3. Asked whether there was any other possibility for safeguarding the country's security, he said: "We don't see any alternative."

4. Acknowledged that he had advocated universal training before being named to the President's commission, but said he had done so because he felt that "we should not let the things we fought for slip from our grasp by being unwilling to follow through."

5. Conceded that there would have to be some "adjustments in educational programs but that they wouldn't be "too serious" and would be more than made up by the values received from the program.

WASHINGTON, June 11, (AP) Members of the Senate Foreign Relations Committee dashed cold water today on a proposal to record Congress as favoring a United States of Europe, despite endorsement by Secretary of State Marshall and Winston Churchill.

Senator Hatch (D-NM), a close friend of President Truman, told a reporter he does not think it would be wise for Congress to act at this time on the proposal, offered by Senator Fulbright (D-Ark).

"I think the majority of the American people would like to see a United States of Europe, but the initiative must come from there, not here," the New Mexico senator said.

In fact, he added, it might be "harmful" to such a move for Congress to attempt to tell Europeans what they should do. They might resent our interference, or become suspicious of our motives, and that would retard any such movement."

Despite Marshall's favorable reaction, Senator George (D.-Ga.) said he doubts that congressional resolution would have any effect on the European countries involved.

TB Sanatoria

(Continued from Page One)

the State come to the conclusion it's good, bad or indifferent according to what they do or fail to do," the Governor declared.

Meanwhile in St. Petersburg, Comptroler Clarence M. Gay said he was "confident" the State Cabinet would be "able to get by and do a good job" in running the state on funds available it during the next two years.

Speaking before the Florida Sheriffs Association, Gay said the cabinet would fulfill the state's salary obligations to teachers. He explained the cabinet, if necessary, would curtail capital outlay educational fund expenditures to help pay the teachers.

Gay had recommended that the recent session of the Legislature raise about $9,500,000 to help balance legislative appropriations with estimated revenue, but the Legislature went home without passing new revenue measures.

In 11 games with the Cards at Crosley Field last year the Reds hit seven homers. This year Cincinnati collected six homers in the first three meetings of the season.

Bride Steals Home To Trip Azaleas

Locals Score Five Runs In Seventh To Gain Victory; A's Here Tonight

PALATKA, June 11 (Special)—A five run uprising in the seventh inning by the Sanford Celery Feds proved to be the needed margin of victory as the visitors pounded out a 6 to 5 victory over the Azaleas here last night.

Southpaw Johnny Tomat went the route for the invaders and held the locals to nine scattered hits while striking out three and issuing five free tickets.

On the Sanford roster, Tom Tyler and Jimmy Blalock, two former Rollins baseball stars, continued their merry pace with the hickorf as Tyler banged out two safeties in three trips to the platter and Blalock hit safely twice in five appearances.

Manager Don Murray, Buddy Lake and Dave Bride each gathered two hits during the evening. Ernie Motler banged out the only other hit received by the Feds.

The Celeryfeds picked up their winning run in the eighth when Dave Bride stole home on a double steal.

Tomat pulled himself out of the quagmire in the final frame by sending the Palatka shortstop, Danson, down by way of the strikeout route with three men on the runways to retire the side.

The Celery Feds will entertain the Azaleas at the Municipal Park in Sanford tonight, and tomorrow night the DeLand Red Sox invade the Fed home grounds.

Didn't Like School Name --- Changed It

LANSING, Mich. (AP)—Michigan State College gained the nickname "Spartans" 21 years ago when a pair of sports writers imposed the silent treatment on a contest-winning nickname and imposed one of their own.

In 1926, Michigan Agricultural College became Michigan State College and the college sponsored a nickname contest to replace "Aggies." The name "Michigan Staters" was chosen.

However, two local newsmen decided the new name was too cumbersome for headline writers and they chose "Spartans" from among the list of rejected names.

The writers first used their own nickname sparingly, and then ventured into headlines with it. It caught on and soon the student publication picked it up. Incidentally, the two writers first spelled the word "Sparton" and eliminated the "o" two days later on the advice of readers.

Ute Coach To Address Cornell Cage Conclave

ITHACA, N. Y. (AP)—Vadal Peterson, University of Utah basketball coach whose teams have reaped national championships in two of the last three years, will serve as instructor of the court game at the New York State Public High School Athletic Association's annual coaching school at Cornell University, Aug. 25-30.

Peterson's style of coaching, with five players serving as forwards on the offense and as guards on defense, brought the 1944 NCCA championship and in the Madison Square Garden invitation this spring.

In his 20 years with Utah, Peterson's teams have won three conference titles and tied for a fourth.

The Clubhouse

By JIM BECKER
AP Newsfeatures Sports Writer

NEW YORK—Sports fans are notoriously fickle and their emotions fluctuate the fastest when baseball managers are concerned.

Eddie Dyer and Mel Ott, the managers who handled respectively, the World Champion St. Louis Cardinals and the cellar-dwelling New York Giants last season, testify to the rapid change of heart a baseball fan can exhibit.

Dyer was the toast of St. Louis when he master-minded the Cards to the big prize last October, but when his Redbirds got off to a miserable start this year the skipper must have felt like using alley entrances to ball parks.

Master Melvin is in just the other position. The Giants hadn't gone anywhere since the great outfielder took over the reins in 1942 and there were repeated howls for his scalp from the direction of the stands. This year his Giants picked up after a slow start and spent the second month of the season flirting with the league lead. Ott suddenly has become a second McGraw.

If you win you're a hero, if you lose you're a bum. It is this reaction from the fans and press that accounts for the sunny smile on the faces of Bill McKechnie and Del Baker who have traded their managerial headaches for a soft spot on the coaching lines.

Deacon Bill, reportedly the highest paid coach in the game, can sit back and watch Lou Boudreau take the rap when a Cleveland pitcher goes sour or the batting attack doesn't produce runs. Baker, a top sign-stealer, openly admits that he finds his Red Sox coaching job a cinch because he doesn't have to "take the second guessing from the press box."

Dyer's elevation from favorite to outcast in one month recalls many cases in baseball history where a manager was bounced soon after winning a pennant.

Luke Sewell brought St. Louis its only American League pennant in history in 1944, only to be dumped by the club after the 1946 season.

The New York Yankees' Joe McCarthy won the last of seven flags and six world championships for the Stadium forces in 1943, but resigned his post within a month after the 1945 season got underway.

Most flagrant case was that of Rogers Hornsby who won the world championship with the St. Louis Cards in 1926 but was not asked to manage the team the next year. Hornsby had the last snicker when the Cards failed to repeat in the National League.

The Cincinnati Reds recently produced perfect pinch-hitting in a double bill at Philadelphia. Eddie Lukon got two hits in a pinch role, and Ray Mueller, Kermit Wahl and Benny Zientara got one each.

GOLD FILTERS DOWN

MITCHELL, S. D. (AP)—The Golden Era of sports hasn't been limited to the big time. A recent survey in central South Dakota showed no less than a dozen towns, many with populations under 1,000 easily raising by public subscription the funds needed for night baseball lights, in many of these communities the lights also will be used for football.

NORTHERN COACH HONORED

WINNER, S. D. (AP)—This aptly-named town, home of Notre Dame football coach Frank Leahy, has named its athletic park after the Irish skipper. Leahy starred in Winner as a high school athlete.

CHOOSE SPARTAN LEADER

EAST LANSING, Mich. (AP)—Bob McCurry, Lewiston, Pa., junior, will be the first captain-elect to lead Michigan State College football teams in 15 years. Spartan teams in the past have had game captains, with honorary captains named at the end of the season.

Never before have the sales of one brand of bread climbed so high and so fast as Twin-Pack. This tremendous success didn't just happen. There's a good reason for it as these pictures show. Only Twin-Pack has the handy zipper opener with the money-saving, freshness-preserving, separately wrapped half loaves inside.

Now more grocers than ever are carrying much larger stocks of Twin-Pack Bread to meet the constantly growing demand. If your grocer doesn't have delicious Twin-Pack Bread, ask him to get it for you. Insist on the one and only Twin-Pack—an exclusive Southern Bread feature. Once you try it you'll never be satisfied with any other.

House Group Will Probe Union Reds

Un-American Activities Committee To Send Observers To Hear Wallace Talk

WASHINGTON, June 12 (AP)—Rep. J. Parnell Thomas (R.-N.J.), chairman of the House Un-American Activities Committee, reported today he has received a letter threatening him with death and has turned it over to the FBI. Thomas said the three-page, hand written letter warned him of death in June and Rep. Rankin (D.-Miss.), a committee member, of death in July.

Thomas said the letter is of more serious tone than many other "crackpot" letters that are received frequently. He said that he had intended to say nothing about it and let the FBI have full opportunity to try to trace it, but was informed that Rankin had mentioned the threat on the House floor.

WASHINGTON, June 12, (AP)—The House Committee on un-American Activities decided today to start hearings June 23 on what Chairman J. Parnell Thomas (R-NJ), described as "infiltration of Communists into the labor unions.

Witnesses, Thomas announced, will be members of the CIO Electrical Workers Union from Bridgeport, Conn., Schenectady, N. Y., and New York City.

Thomas announced also that the committee unanimously approved a report on the Southern Conference for Human Welfare which will be released to newspapers Sunday. The committee plans to send several observers to a meeting here Monday, sponsored by the conference, at which Henry Wallace will speak.

The committee in 1944 had reported the Southern Conference was a Communist Front organization.

Thomas also announced:

1. Upon recommendation of a Subcommittee on Fascism, "there will be instituted an all-inclusive program of investigations and hearings on Fascism." Dates have not been set. Additional members will be added to the committee staff to help on the inquiry.

2. Victor Kravchenko, former Russian army officer who worked for the Soviet Purchasing Commission in New York, will be heard by the committee on June 23.

Thomas said Kravchenko will "tell us how Communism operates in Russia and what we can expect here under Communism. Kravchenko gave up his job with the Russian government and wrote a book called "I Choose Freedom."

Wallace Expected To Toss Hat Into Presidential Ring

JAMESTOWN, N. D., June 12 (AP)—Mrs. Eleanor Roosevelt declined today to become a candidate for Vice President, saying "nothing could induce me to run for any public office."

WANTAGH, N. Y., June 12 (AP) — Governor Thomas E. Dewey, introduced at a political rally as "the next president of the United States," declared today in reply that "I am very happy right where I am." Dewey spoke at a luncheon meeting of the Nassau County Republican Committee.

LOS ANGELES, June 12, (AP)—The Los Angeles Times asserted today that "Henry Wallace will toss his hat in the ring for President within the next two months."

A story by Kyle Palmer, Times political editor, said that Wallace "will be a candidate for the Democratic presidential nomination in the preferential primaries of California and in at least a dozen other states.

"Machinery looking to the organization of a Wallace-for-President committee here is in operation—with the knowledge and consent of the former Vice President and cabinet officer.

"Hoping to stir the fires of insurgency among 'progressive' Democrats throughout the nation, Wallace and his supporters will center their drive in the west and along the Pacific coast."

The paper said Robert W. Kenny, former California attorney general and ousting Democratic candidate for governor, "and others not yet willing to publicly identify themselves with the Wallace revolt" were supporting the movement.

Meat Prices Reach New High; Sugar Rationing Is Abandoned

CHICAGO, June 12, (AP)—The bawling steer and the grunting hog jumped back again into the public spotlight today and there were innumerable charges and counter charges in explanation for the sudden boost in meat prices in livestock markets and in butcher shops.

Average price of steers and yearlings at Chicago yesterday rose to an all-time record high at approximately $26.00 a hundred pounds according to the Department of Agriculture. This topped the peak of $25.40 established last October immediately after OPA ceilings were removed. For the first time since Mar. 5 the top reached $30.

Live hogs have not advanced as sharply as beef cattle, the top here yesterday being $24.75 a hundred pounds compared with $30.00 on Feb. 25.

Cattle receipts at Kansas City yesterday, the largest for a June 11 in 25 years, advanced to the best price since January.

While the price for top grade cattle is lower, the Department said steers of medium and low goods are higher than last October. A smaller percentage of strictly good and choice cattle are arriving and the price spread between various grades is narrowing.

Meanwhile the last war-imposed coupon control over the American public vanished, as sugar rationing for home, restaurant and hotel use ended at midnight.

After five years in which ration stamps meant more than money—when it came to meat, canned goods, shoes, tires, gasoline and a host of other things—individual Americans are free of coupon worries for the first time since Apr. 28, 1942.

The last ration book can be thrown away. However, sugar price controls remain. So does rationing of industrial sugar. But these two curbs are scheduled to end Oct. 31.

Secretary of Agriculture Anderson ordered the sugar ration end late yesterday, thus beating the republican-controlled Congress to the draw. The House had set for a vote today a bill calling for an immediate end to household sugar rationing. A Republican spokesman indicated Congress would go ahead with the bill to make sure no return to controls could be ordered.

Anderson said he had acted because larger quantities of sugar are available. Asked by a reporter whether the pending congressional move influenced his action, he said: "A better way to put it would be: Did Congress hurry it because it knew this action was coming?"

Sugar was the first food rationed and the last freed from coupon control.

Anderson gave three specific reasons for his action: 1. The International Emergency Food Council allotted the United States

(Continued on Page Three)

Babe Didrikson Wins British Open Golf Tournament

Texas Tomboy Vanquishes Jacqueline Gordon 5 And 4

GULLANE, Scotland, June 12, (AP)—Mrs. Babe Didrikson Zaharias of Denver, became the first American ever to win the British women's amateur golf title today by defeating Jacqueline Gordon of London, 5 and 4, in the 36-hole final.

Held even during the morning's 18 hole round while she was dressed in grey culottes and a yellow sweater, Mrs. Zaharias switched to her battle dress of blue corduroy slacks at the lunch hour and quickly won a five up advantage in the first six holes of the afternoon. She was out in 36 as compared to women's par of 37, blasting an eagle three on the 20th hole.

On this hole Babe outdrove her opponent by almost a 100 yards and dropped her second 18 feet beyond the cup. She rammed home the long putt for an eagle three.

She needed three strokes to reach the green on the 21st while Miss Gordon over-shot the carpet in the same number of blows. Babe's next was to within 10 feet of the cup and she dropped it for a par five. Miss Gordon seemed to be wavering after Mrs. Zaharias's display of power and needed a six.

The gallery had grown to huge proportions with the word "phenomenal" heard most frequently. Babe won two more holes and was five up on her London rival through the 24th hole.

Miss Gordon, native hope to keep this title in Britain, drove her second on the twenty-third into a bunker while the Babe played it safe and won, five strokes to six.

The American challenger pulled her drive badly on the 24th, sending it into the crowd in the rough.

"Didn't hit anybody, did it," she asked the steward.

"No," he replied.

"I don't want to hit nobody," she explained.

Miss Gordon's drive was 40 yards further down the fairway but her second again went into a bunker while Mrs. Zaharias' recovery landed on the green 25 feet from the cup. She measured the distance carefully. The putt hung on the lip and she was down in four.

The native Texan carried the five up advantage through 27 holes, reaching the turn of the

(Continued on Page Three)

Memorial Services Held For Mrs. Root

Memorial services were held on Tuesday afternoon at 2:00 o'clock in the Congregational Church for Mrs. J. B. Root, wife of the Rev. J. B. Root, who died in Johns Hopkins Hospital in Baltimore, Md. Friday, June, following a long illness.

The services were conducted at the same hour funeral services were being held in Waltham, Mass. for her. Those taking part were Dr. E. D. Brownlee, Rev. J. E. McKinley, Rev. Mark T. Carpenter, Rev. W. P. Brooks, Jr. and Rev. W. P. Yesley.

Tal baskets of pale pink gladioluses were used throughout the church and a vested young people's choir sang "Nearer My God To Thee" and "Abide With Me." Miss Helen Witte, organist, accompanied.

Members of the Daughters of the American Revolution, of which Mrs. Root was an active member, attended the services in a body.

Truck Driver Killed In Ringling Tent

BALTIMORE, June 12, (AP)—Five shots touched off a stir among the tents of the Ringling Brothers Barnum and Bailey Circus at breakfast time today and police found the body of a circus truck driver tentatively identified as Richard Sheehan, 46, of Arlington, Va.

There were five bullet wounds in the victim's chest and police Capt. Oscar Koch said witnesses told him three men were seen running from a rest tent where a dozen other drivers were washing and shaving.

The body was found beside a stack of tires under the front flap of the tent. Reporting he had encountered "considerable reticence" when he mentioned the circus men, Captain Koch ordered five drivers held for investigation. No gun was found.

Truman Seeks To Continue Credit Rules

Consumers Affected On Installments; Truman Continues His Tour Of Canada

WASHINGTON, June 12 (AP)—The Civil Service Committee today recommended House approval of legislation providing for the removal of federal employees found to be disloyal to the government. And the House passed and sent to the Senate a $70,856,257 deficiency appropriation bill after adding $12,000,000 for emergency flood control work in the midwest and west.

WASHINGTON, June 12, (AP)—President Truman recommended today that Congress pass a bill permitting continuance of controls on consumer credit in peace times.

Unless Congress does this, Mr. Truman said he plans to end the present regulations, based on wartime legislation. These regulations, under executive order, fix the size of down payments and fix the length of time in which the balance due must be paid by installments.

These controls affect purchases of such things as household goods, refrigerators and automobiles.

Mr. Truman's views were stated in a letter to Marriner S. Eccles, chairman of the Federal Reserve Board, which wields the controls on installment-buying credit. Eccles read the letter to the House Banking Committee when he asked the committee to pass a measure giving the reserve board power to continue operation of controls in peacetime.

Meanwhile, President Truman wound up his trip to Canada with a holiday from official business today before starting back to Washington tonight for vital decisions on labor and tax cut legislation.

Turning tourist for a day, the United States Chief Executive took his official staff for an outing and a view of the Canadian countryside around Ottawa. The state visit ends tonight when he boards his 11-car special train at 11:05 o'clock for the trip back to Washington via Toronto, Buffalo and Niagara Falls.

The United States chief executive will view the famous falls from his private car when his train halts for ten minutes at 9:05 A. M. Friday for an educational stop.

He will return to Washington to face a vital decision on whether to veto a four billion dollar tax cut by a Republican-controlled Congress and legislation imposing new curbs on labor unions.

The deadline for vetoing the tax cut is Monday. Mr. Truman has said repeatedly that the time is not ripe for reducing taxes.

Soil Conservation District Is Planned

A public hearing will be held in the near future at the Court House in regard to establishment in Seminole County of a soil conservation district, it was announced this morning by County Agent C. R. Dawson who said that he had a petition with the 25 signatures of residents necessary to bring about the hearing.

If the testimony is favorable and funds are available the Soil Conservation Department will establish the Seminole County area as a district, and their engineers will establish a complete survey of drainage.

Five growers will then be selected as a board, and these in turn will select the projects to be carried out. The overall survey, said Mr. Dawson, will correlate the whole drainage area and provide a master plan for drainage now performed by the many privately dug farm ditches.

The program of soil conservation hearings has been initiated by the Extension Service of the Department of Agriculture at Gainesville, he said.

Certain county owned ditches have been designated for cleaning soon by the drainage committee of the Seminole County Farm Bureau, said Mr. Lawson. Leo Hutner is chairman of the committee.

SWEDE IS SHOT

STOCKHOLM, June 12, (AP)—The Swedish Foreign Office said today it had been advised by the Swedish charge d'affaires in Vienna that a car belonging to the Swedish relief mission in Austria had been fired upon by Russian soldiers early last evening.

The foreign office said the driver of the car, identified as a man by the name of Carlsson, had been killed and that Torsten Arnaus, leader of the mission, had been wounded.

Russia And United States Moving Toward Showdown

Hitch-Hiker Says Slam At Veterans Led To Murder

He Skot When Marscheck Called Them Bums And Thieves

BRONSON, Fla., June 12, (AP)—J. C. Jennings, 22, of Lagrange, Ga., told a circuit court jury in his murder trial here today that William Marscheck enfuriated him by disparaging remarks about service men. He admitted shooting the 60-year-old Detroit, Mich., man who had given him a hitch-hike ride to Florida.

Jennings said that during the ride he informed Marscheck he was an ex-service man and Marscheck called them "bums and thieves."

"That's what I got mad about," he said.

Jennings said Marscheck stopped the car near the spot where he was slain and ordered him out to get out. The lieutenant said it was then he threw a pistol on Marscheck and forced him to walk about 50 or 75 feet from the car where he shot him.

He said he had 17 months service overseas during the war and was shot twice. Jennings' attorney had announced that his plea would be insanity, but there was no attempt by the defense to prove this by testimony.

Negro Is Drowned In Schoolhouse Lake

J. D. Brantley, middle aged negro of Oviedo was drowned yesterday afternoon in Schoolhouse Lake, a small circular body of water in the Oviedo area near where more than 200 negroes were holding a picnic.

The drowning was reported to the Sheriff's office at about 1:30 o'clock, according to Deputy Charles Beck who with the assistance of Bobo Mero, son of Sheriff P. A. Mero, recovered the body with grappling hooks in about eight feet of water late in the afternoon. There was some delay in securing a proper boat equipped with an outboard motor, which was provided by an Oviedo resident, according to Deputy Beck.

Record Is Established On Food To Germany

BERLIN, June 8 (AP)—A new weekly record for food imports from the United States into the combined Anglo-American zones of Germany was set the first week of June with the arrival of 141,000 tons of foodstuffs valued at approximately $18,000,000, the American Military Government announced today.

The food is paid for by American and British taxpayers through government-appropriated funds.

The imports included 137,000 tons of grain and flour and approximately 4,000 tons of other foods, to be used mainly in child feeding. They represented an average of about nine pounds of food for every non-farm consumer in the combined zones, which have been beset by a food crisis.

PROTEST LABOR BILL

LOS ANGELES, June 12, (AP)—Some 50 automobiles, in a joint CIO-AFL motorcade of 150 unionists, left today for Washington to protest the Taft-Hartley Labor bill, now before President Truman for signature or veto.

DISCRIMINATION

WASHINGTON, June 12, (AP)—Rabbi Stephen S. Wise, president of the American Jewish Congress testified today that "discrimination in employment because of race, religion, color, national origin or ancestry must be made illegal."

CCHURCHILL IN BED

LONDON, June 12 (AP)—Winston Churchill's doctors reported today that the 72-year-old former Prime Minister, who underwent a hernia operation yesterday, "had a good might and his general condition is quite satisfactory."

HOLLER HONORED

NEW YORK, N. Y., June 12 (Special)—Roy Holler of Sanford, Florida, a leading member of the New York Life Insurance Company's Field Force of more than 5,600 agents throughout the United States and Canada, has been named a winner of the National Quality Award given by the National Association of Life Underwriters. It was stated today at the New York Life's Home Office in New York City.

Communist Tactics Denounced By Party Leader In Hungary

BUDAPEST, Hungary, June 12, (AP)—A prominent member of Parliament denounced the new Communist-controlled government today and called on the Small Holders Party to adopt Communist tactics if it ever hoped to set up a real democracy in Hungary.

Freedom Party Leader Dezso Sulyok made a sarcastic, hour-long, denunciation of the new regime, set up after the resignation of Premier Ferenc Nagy. He said it had made Hungary a police state.

"The wildest and most objectionable political terror reigns in Hungary," he said. "There is no freedom of press, assembly or opinion."

Deputy speaker Istvan Kossa, a Communist leader and secretary general of the Trades Union Council, arbitrarily adjourned Parliament until next Wednesday when Sulyok concluded his speech.

Uproar among the anti-Communist members, who charged that Kossa was trying to silence two other opposition members who had scheduled speeches.

Earlier an American informant said the Russians had denied clearance to enter Hungary for Harold Snyder, an American representative of the United Nations Educational, Scientific and Cultural Organization.

Parliament was in turmoil throughout Sulyok's address. Angry Communists shouted and jeered Matyas Rakosi, the deputy premier and Communist leader who also is a Russian citizen, went from desk to desk, whispering with members of his party.

Garsson Defense Plans To Summon Mead As Witness

Other High Politics May Be Brought Into Bribery Trial

WASHINGTON, June 12, (AP)—Justice Henry A. Schweinhaut granted today permission to the defense to call former Senator James M. Mead (D-NY) as a witness in the May-Garsson war fraud trial. Mead is a former chairman of the Senate War Investigating Committee which probed wartime connections of former Congressman Andrew J. May and munitions makers Henry and Murray Garsson.

WASHINGTON, June 12, (AP)—A defense plan to call former Senator James M. Mead (D-NY) and "other high political figures" as witnesses gave a new twist to the May-Garsson case today.

Charles J. Margiotti, chief defense attorney, said he will ask advance court permission to call Mead for questioning "about his motives" in handling a 1946 Senate probe of the $70,000,000 Garsson munitions combine.

Margiotti declined to identify in advance the other politicians he will ask Justice Henry A. Schweinhaut to allow to testify.

Andrew J. May, wartime chairman of the House Military Committee, and munitions makers Henry and Murray Garsson are on trial together charged with bribe conspiracy. The government has contended in the eight-week trial that May took $35,000 from the Garssons for government favors for their firms.

Mead was chairman of the Senate War Investigating Committee which investigated the May-Garsson case last summer. The New Yorker ran for governor in his home state in November but lost to Gov. Thomas E. Dewey.

Margiotti told reporters he intended to show through Mead that the Senator used the May-Garsson investigation to advance "his own personal ambition to become governor of New York, with his eye on the White House."

"While he was a candidate for governor," Margiotti said, "he turned over his committee's evidence to the Department of Justice, demanded a grand jury investigation and demanded, also, that an indictment be returned before the November election."

The indictment being used as a basis for the present trial was returned last Jan. 23.

Margiotti said he had not intended to call Mead but that the prosecution has queried defense witnesses about their conversations with Mead committee investigators "and therefore I think the whole thing has been opened up."

"I don't know whether the court will allow me to examine Senator Mead, but I intend to try," Margiotti said. He added that he thought Mead had conducted the Senate probe with "undemocratic, or un-American, methods."

BASEBALL INTERVIEW

Tim Tyler and Jim Blalock, new Sanford outfielders from Rollins College, will be interviewed by Julian Benstrom over the WTRR Sports Parade this evening at 6:30 o'clock over the

TVA Is Accused Of Wasting Funds On Navigation

Congressional Hearing Record On TVA Is Made Public

WASHINGTON, June 12, (AP)—These comments by members of a House Appropriations Subcommittee highlighted hearings the record of which was made public today, on 1948 funds for the Tennessee Valley Authority:

Discussing the TVA navigation program, Rep. Ploeser (R-Mo.) asked:

"Should Congress continue indefinitely throwing good money after bad into the navigation program of the valley when TVA seems utterly incapable of getting the ten-mile costs down anywhere near those by rail?"

TVA Chairman Gordon Clapp replied:

"Mr. Ploeser, the increased shipments on the Tennessee River since it has become fully navigable as a result of building these dams and locks has been very, very substantial. We do not regard navigation expense as throwing good money after bad."

On the topic of employe loyalty, Chairman Jensen (R-IA) told Clapp:

"We shall expect them (government corporation heads) to make a determined effort to ferret out all such people (who seek to overthrow this government) . . . (If) it has been shown that the heads of any government corporation have not fulfilled this request, then I shall make a recommendation that such corporation heads be taken off the payroll of the taxpayers of the United States."

On sale of TVA fertilizer to cooperatives, Rep. Ploeser questioned Chairman Clapp at length and this discussion took place:

Clapp: "If we were to put those materials (fertilizer) on the open market, most of the material that would be bought up would find its way to the farmer after it had been diluted and mixed with

60 Seminole Boys To Attend Camp Winona

More than 60 Seminole County boys will attend the 22nd annual YMCA sponsored outing at Camp Winona, July 14-26, it was announced today by Herman E. Morris, director of the outings since they were established.

The camp, which is located near DeLeon Springs, has been equipped with electricity, said Mr. Morris, has an electric pump and a new deep well which has been approved by the Health Department.

Now for the first time, motion pictures can be shown at the camp on Saturday evenings, said Mr. Morris. Mrs. Morris will have charge of the meals and handicraft. Mrs. O. C. Tanner will be the cook in charge of preparing the meals.

All cabins have been put in good shape and fitted with new screens, Mr. Morris said. The camp is owned and maintained by the UMCA branch at Daytona Beach.

More Positive Action In U. S. Expected To Take The Place Of Futile Protests

SOFIA, BULGARIA, June 12 (AP)—The Bulgaria Grand National Assembly last night expelled its 23 Agrarian Party members, who formed the chief opposition to the Communist-dominated Fatherland.

ATHENS, June 12 (AP)—The Greek Army today called up all men in military classes of 1941 to 1945 inclusive. Greece has asked American approval for the expansion of her army with U. S. loan funds, but an official U. S. military source said no action had been taken as yet.

A new Communist blow to non-Communists in Southeastern Europe — expulsion of the hard core of the opposition from Bulgaria's Parliament — was presented to the world today amid growing indications that a Balkan showdown was impending between Russia and the West.

An authoritative source in Washington said the United States was reviewing the whole American policy in Southeastern Europe to determine what lines of future action might be more effective than the long series of futile protests sent to Moscow and other Communist capitals in the past few years.

Diplomatic authorities in Washington were predicting freely that Russia either would reject or try to hamstring demands for a big three inquiry into the Communist seizure of power in Hungary, and that, in either event, the United States in all probability would carry the case to the United Nations.

The Bulgarian parliament voted last night that 23 members of Nikola Petkov's Agrarian Party had resigned of their own volition and therefore "are no longer members of the Grand National Assembly."

The Parliament acted on information from a government prosecutor that the written resignations of the 23 had been found in Petkov's private papers, but the deputies, insisting this simply was routine party practice, declared in final pleas that "we do not resign." Petkov's agrarians have had a total of about 90 members in the Parliament.

Petkov, general secretary of the Agrarian Party, is under arrest on charges of conspiring against the state. His arrest was the subject of a sharp statement by the U. S. State Department yesterday, which said that in trying Petkov, Bulgaria herself would

Guernsey Elected Head Of Rotary International

SAN FRANCISCO, Cal., June 12 (Special)—At the 38th annual convention of Rotary International, which winds up its five-day session here today, delegates representing 6,200 Rotary Clubs with a membership of 302,000 business and professional executives in 76 different countries, elected S. Kendrick Guernsey of Jacksonville, Fla., as president of that world-wide organization for 1947-48.

Mr. Guernsey is executive vice president of the Gulf Insurance Company of Jacksonville, and since 1933 he has been secretary of the National Boys and Girls Week Committee. For the State of Florida he is chairman of the Citizens Committee on Education, a member of the State Highway Commission, and a director of the State Chamber of Commerce. In Jacksonville, he is a director of the Children's Home Society, the Boy Scouts and the Y. M. C. A. A Rotarian for 27 years, he is a past president of the Rotary Club of Jacksonville and he has served Rotary International as vice president and as district governor.

Elected to Rotary's 1947-48 board of directors were Tom Benson of Sussex, England; Lauro Bosba of Recife, Brazil; Daniel de Iongh of Rotterdam, The Netherlands; Gil J. Puyat of Manila, The Philippines; Charles Jourdan-Gassin of Nice, France; Aly Emine Yahia Pasha of Alexandria, Egypt; and six additional directors from the United States and Canada.

One of the largest conventions held anywhere in recent years, and perhaps the most international, the Rotary Convention attracted more than 13,000 Rotarians and members of their families from some 50 different countries.

Wright Discusses Florida Airways At Jaycee Meet

"Air service is an unquestioned asset to a community," A. T. Wright, superintendent of stations for Florida Airways, stated at the noon luncheon meeting of the Seminole County Junior Chamber of Commerce at the Mayfair Inn today.

"An airway company like ours is a feeder line for the larger trunk lines. Our planes are not war surplus material, but are new, and carry the latest in communication equipment and are operated under strict Civil Aeronautics regulations," Wright said.

"Florida Airways maintains stations in ten Florida cities and have applications submittal to the CAA for 19 additional stations. Our planes now cover 2,260 miles daily serving the state of Florida," he said.

William Lasater suggested that the Jaycees sponsor one entry in the National Glider meet which will begin on July 4 at Wichita, Texas. Steve Bennis, local glider instructor, stated that several gliders from Sanford would be entered in the contest.

Daryl Swann volunteered his services for the coming year as chairman of the program committee.

Mrs. Dorothy Fox, station manager of the local branch of Florida Airways, was introduced as a guest. Warren Schwain was also introduced as a guest.

POSTPONED GAME

The W.O.W. softball team is slated to meet the Mather entry in the City Softball League tomorrow night. The game will be a contest that should have been played last Tuesday night.
