

My dear Harry -

My dear old fellow
Now I wish I was with
you but I am thankful to
write you Harry is better
and so when he is well
I feel as if it could not
be long before I was you
the way I wish the "Cong" could
be counted by hours. Well
some day it may be.
I am so sorry he has had
this poor spell for I shall
feel more anxious to wait
for cooler weather for him
but we have had so little
that we can call real
cool weather yet. I am so

hopeful we shall have a few
pleasant days soon - we have
had rain every day except Sun-
day since Saturday and of
course it is pleasant for us
all to think the springs will
fill and there will not be a
dearth of water all winter.
Here on the hill they have
been using for some
time rain water for every
thing some of the time
the bucket do not dip down
in the well. I have not
heard from my ^{brother} Day
yet - I tried to get his
address but could not
from Ed Shelton for he was
away - I hope it will not
be long before I see him -
It will seem as if I had

got back to Sanford when
I do - Now I long to be
there - Well - I won't complain
as I said before. I only ask
for my dear husband com-
fort and our darling boy's
life - Well - I only can
trust in our Heavenly
Father's care for his creatures
and that He will watch
over us and be with us
wherever we may be -
God bless and keep
you darling and may
I be with you very
soon dear dear Husband

Truly yours

Anna

Mr. Henry L. DeForest.
