THE SAN LEON,

MRS. K. GILMAN, Mgr.

SANFORD, FLA.

This Hotel, late St. Cloud, is now under remanagement of Mr. Gilman, Manager of the St. Leon Springs Hotel, Quebec, Canada. This is well and favorably known to the traveling public throughout that section of country.

Hotel San Leon has been repaired, repainted and partially refurnished, and will be found second to none of its size. In the kitchen, table linens, and everything connected with the management will be in the Northern style. Cook and servants brought from the North by the Proprietors. No pains will be spared by them to make guests comfortable, endeavoring to make it a home of moderate price for all travelers. Rooms with bath. Rates \$2.00 to \$2.50 a day for transiently depending on location of guests. Reduction to parties by the week or month. GILMAN & CO., Proprietors, Sanford, Fla., Dec. 28, 1887.

D. HUGHES.

ATTENTION!

FERTILIZERS

The Home Fertilizer Co.

OF

SANFORD, FLORIDA.,

MANUFACTURERS OF HIGH GRADES

FERTILIZERS FOR ALL CROPS.

Consult your interests and procure a reliable Raw Bone Fertilizer, manufactured at home, and not send 1,000 miles for an inferior article, at a higher price. With increased facilities for manufacturing and preparing materials, we are now in a position to offer to the Orange Growers and Truck Farmers of Florida superior grades of Fertilizers, at prices Northern manufacturers are unable to compete with for the same quality of goods—that is, a genuine raw Bone Fertilizer.

We would call the attention of parties interested to distinguish between our goods made from Pure Raw Bone, Fish, Animal Fleesh and Blood, and the highest grade of actual Potash made from wood ashes, and from those composed of second-hand Bone Black or Animal Charcoal, (obtained from Sugar Refineries), Mineral or Rock Phosphate, Crude Chemicals, Mineral Potash, viz. Kalnit, Muriate and low grades of Sulphate.

It must be apparent to any understanding mind that a Fertilizer made up of such materials as enter into the composition of ours, which are conceded by all the eminent Agricultural Scientists as the best elements of plant life, cannot otherwise than produce good results.

We would cordially invite all interested, who can make convenient to do so, to call at our works and examine for themselves the materials used, manner of combination, etc.

Price, \$40.00 per Ton, f. o. b. Sanford.

For information, circulars containing testimonials, etc., call on or address,
