Dear Sir:

We are the largest handlers of Florida Potatoes, Tomatoes Garden Truck, Berries, etc. in Pittsburgh, which is now the leading Market for Southern products at the present time. We can safely assure you more money here than any of the Eastern Markets to-day. We enclose our price-current, also stencil, and would say that Market is firm and moderately active and prospects fairly good. If we can handle a portion of your consignments, we will try our best to please you with prices, and can place same promptly on arrival. Will arrange remittances to suit you. Will make liberal advances on consignments made direct to us. Let us hear from you quick, what you have to ship. Our references above will vouch for our responsibility; write them for special report on us.

Hoping to hear from you by return mail, we are

Friendly yours,

How about WATERMELONS ?
