

SUPPLEMENTAL MEMORANDUM OF UNDERSTANDING

between the

SEMINOLE

SOIL AND WATER CONSERVATION DISTRICT,

State of Florida

and the

SOIL CONSERVATION SERVICE

UNITED STATES DEPARTMENT OF AGRICULTURE

The SEMINOLE Soil and Water Conservation District, of Seminole County, Florida and the Secretary, United States Department of Agriculture, have entered into a basic Memorandum of Understanding, which was signed by the District on the 24th day of May, 1962. That Memorandum establishes a basis for the cooperation of agencies of the Department with the District.

Under the terms of the Soil Conservation Act of 1935 and other Acts, the Soil Conservation Service is authorized to cooperate with and to furnish assistance to the District for conservation and resource development work.

The District and the Service have the common objective of helping to bring about the conservation, development, and wise use of land, water, and related resources. They, therefore, enter into this memorandum of understanding as the foundation for an enduring cooperative working arrangement. This memorandum supplements the Memorandum of Understanding between the District and the Department referred to above, and is subject to all the provisions of that Memorandum of Understanding.

#### A. What the Service Will Do

1. The Service will make available to the District the services of personnel qualified in carrying out resource planning, conservation and development, and will provide such facilities as its employees may require. Through its State Conservationist, the Service will designate a Conservationist as its primary staff member for assisting the District.

2. Service assistance will be allocated in accordance with an annual plan of operations prepared by the Service in consultation with the District and based upon the District's annual work plan. The Service will consult with the District whenever substantial changes in assistance to be made available are contemplated and will notify the District in advance whenever changes are to be made.

#### B. What the District Will Do

1. The District will (a) adopt a procedure for the orderly and progressive development and application of conservation and resource development plans for farms, communities, watersheds, and other land units, (b) be responsible for determining the recipients of services provided by the District and for setting priorities for the kind and amounts of work to be performed in the District, and (c) develop a systematic method for group and individual followup work essential to the carrying out of conservation and resource development plans.

2. The District's annual work plan, which will be prepared as a guide for its work and activities for the year ahead, will include such information as is needed for the preparation by the Service of its annual plan of operations.

3. The District will keep records of all materials and equipment furnished it by the Service in accordance with agreements regarding such materials and equipment. Such records will be available for examination at any reasonable time by accredited Service representatives.

C. It is Further Understood

1. Either party, as mutually agreed upon, will provide or arrange for such additional services, facilities, equipment, materials, and arrangements as may be required to achieve common objectives.

2. Service personnel and facilities, all of which will be under the jurisdiction of the Service, will be located insofar as feasible at headquarters mutually satisfactory to the District and the Service. The Service retains the right to establish headquarters for its personnel at such places as it deems most appropriate.

3. This Supplemental Memorandum of Understanding will be effective when signed by both parties and will continue in effect for the duration of the basic Memorandum of Understanding referred to above, except that it may be modified or terminated at any time by mutual consent of the parties hereto, or may be terminated by either party by giving sixty (60) days' notice in writing to the other party.
