ENERGY & UTILITY SYSTEMS GROUP

Management Personnel
Fellow Engineers & Scientists

Mr. Frank R. Bakos, General Manager of the Power Generation Business Unit (PGBU), announces the following appointments, effective immediately.

PGBU has the responsibility for providing equipment and service to all operating electrical generating customers worldwide, and the supply, installation and erection of new steam turbines and electrical generators. The Business Unit will be comprised of three divisions covering operations, service and marketing, respectively.

The Business Unit headquarters will be located at the Energy Center - Orlando, Florida.

Mr. D. Howard Pierce is appointed General Manager, Power Generation Operations Division with responsibility for all engineering and manufacturing operations within PGBU. Reporting to Mr. Pierce will be:

D. A. (Nick) Bartol, Manager, Engineering
Al F. Axt, Manager, Turbine Plants (Charlotte)
Paul B. Messina, Plant Manager, LRA - East Pittsburgh
Robert E. Nowak, Manager, Turbine Generator Parts
Richard J. Rahenkamp, Manager, Materials and Systems
Alan D. Cooper, Manager, Quality Assurance
John F. Williams, Manager, Human Resources
H. Art Vedner, Controller

Mr. Donald H. White remains as General Manager, Power Generation Service Division with responsibility for servicing and maintaining steam, combustion and hydro turbine generators worldwide. Mr. Jack Simons III is appointed Controller, PGSD. All other members of the current PGSD staff will continue to report to Mr. White.

Mr. Romano Salvatori is appointed General Manager of the Power Generation Marketing Division with responsibility for maintaining a single point marketing contact for all products of the Power Generation Business Unit and the operating plant products of the Energy Systems Business Unit. All current members of the Operating Plant Projects Department will continue to report to Mr. Salvatori, as well as Mr. John P. Kessinger, Manager, Commercial Policy and Planning.

In order to maintain effective coordination and direction of the marketing activities of the Energy Systems Business Unit, Mr. Salvatori will report to Dr. Slember on a matrix basis.

The balance of the Power Generation Business Unit staff is comprised of:

Mr. Robert P. Daigle, Controller, PGBU

Mr. Joseph O. McWhertor, Director, Human Resources

Mr. Richard G. Johnson, Director, Strategic and Commercial Affairs

Messrs. Pierce, White, Salvatori, Daigle, McWhertor and Johnson will report to Mr. Bakos. Mr. Daigle will also report on a matrix basis to Mr. Carmen J. Torockio, Controller, Energy & Utility Systems. Mr. Bakos will report to me.

It is intended that this organization will make the transition into the Westinghouse - Asea Brown Boveri joint venture upon its formation.

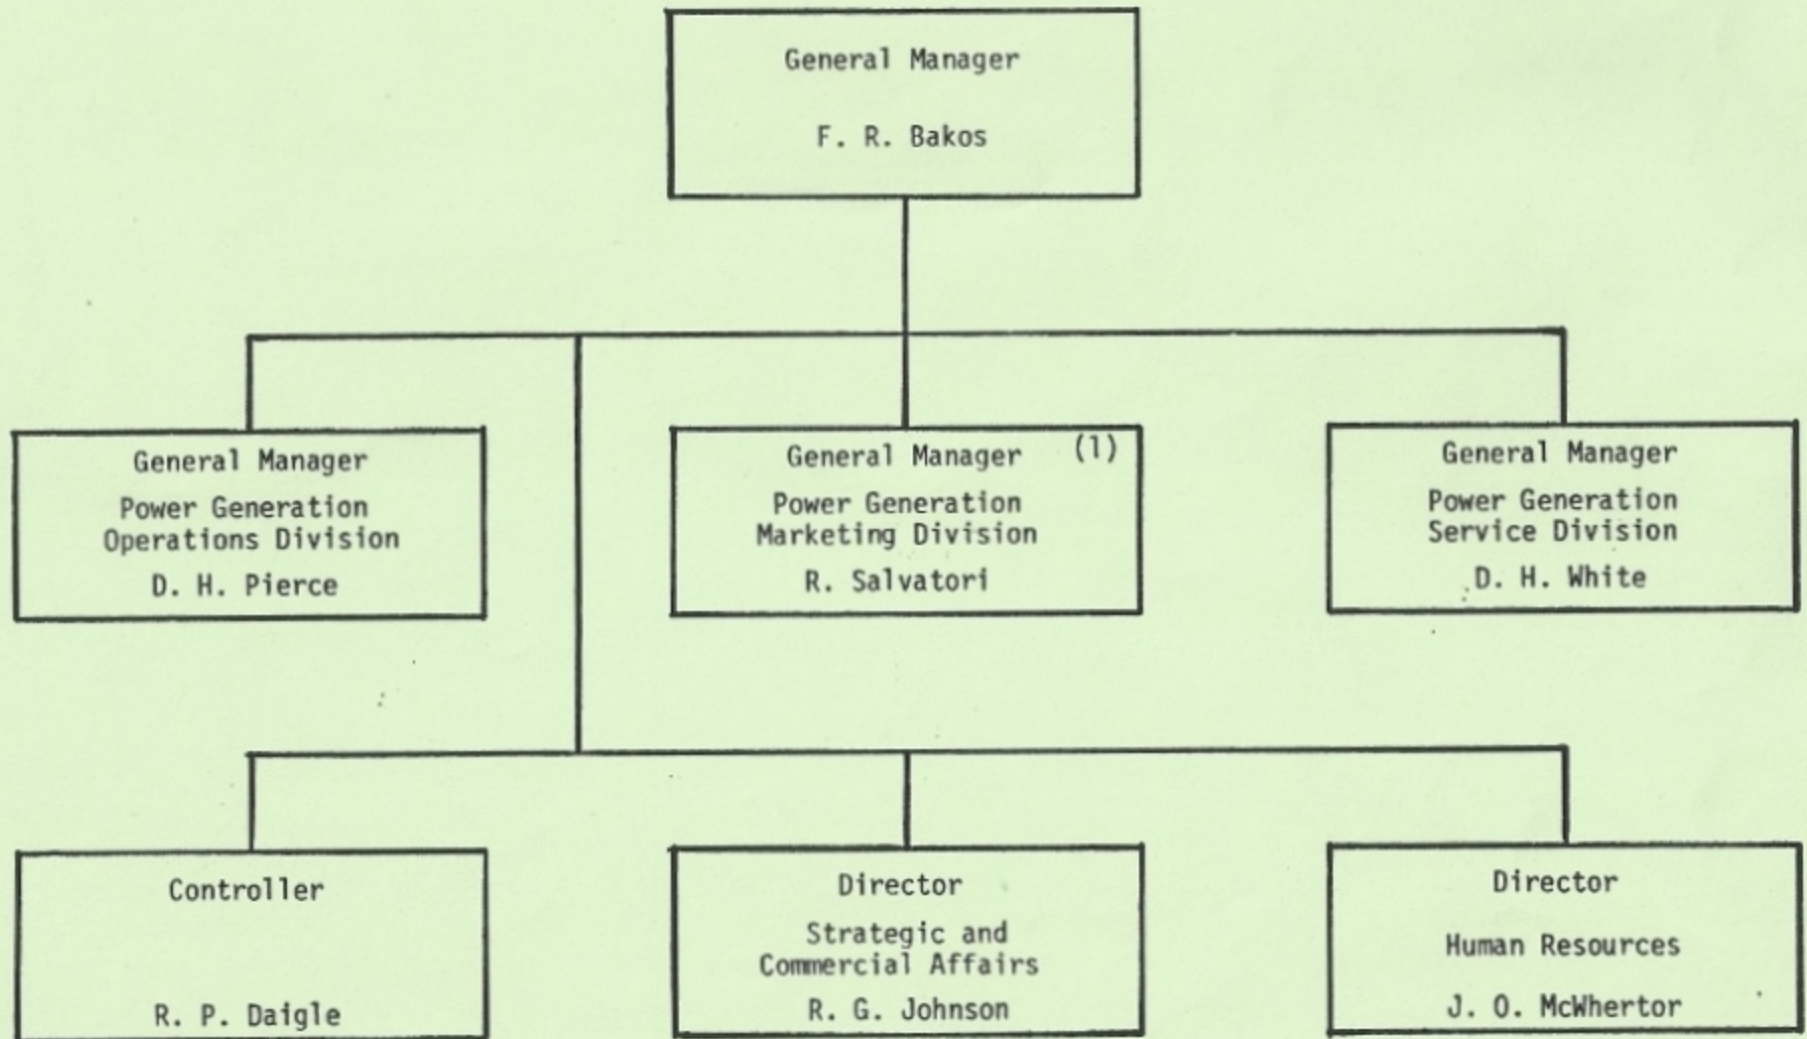

Organization charts for the Business Unit and the three divisions are attached.

Theodore Stern
Executive Vice President
