NUMBER 7

Paving of Streets and Construction of Sidewalks in Greenwood Gardens to Start Soon

PARKER-BENNETT

Miss Rita Bennett and W. Lawrence Parker were married at the Methodist Church in Winter Park at half past nine Wednesday morning June sixteenth the Rev. Harry Ingham officiating. The wedding was very quietly celebrated owing to a recent bereavement in the bride's family.

Both young people are well known in Maitland, Miss Bennett is the daughter of Mr. and Mrs. J. H. Bennett who came to Maitland four years ago from Massachusetts. Mr. and Mrs. Bennett are both active in public affairs, Mr. Bennett having served in the Council for two years and on the Executive Council of the Chamber of Commerce and Mrs. Bennett being secretary of the Maitland School Trustees.

Mr. Parker is the son of Mr. and Mrs. W. F. Parker who have been respected and permanent citizens of Maitland for many years.

Mr. and Mrs. Lawrence Parker, after a short bridal trip will be at home at the Parker cottage on Maitland Avenue.

PUPILS FROM MAITLAND SCHOOL RECEIVE HONORS

Four of the pupils of the Home Demonstration Class of the Maitland School have been rewarded for their excellent record by being sent to the summer course at Tallahassee, where they will receive ten days instruction in domestic science work. The girls who have received this honor are Twila Horton, Lily Tucker, Christine Ponder and Ella May MacIntyre. Miss Mamie Fugate, principal of the school has accompanied the girls and will remain in Tallahassee during the course.

NOTICE

J. H. Bennett is the agent for the Florida Public Service Company in this vicinity. Any trouble on the line or any lamps burned out should be reported to him and the matter will receive prompt attention.

ALVORD L. STONE WINS PRIZE

Dr. Alvord L. Stone, upon his graduation from The Jefferson Medical College of Philadelphia, June 4th, 1926, was awarded the Henry M. Phillips prize of seventy-five dollars. This prize is awarded upon the recommendation of the Professors of Surgery to the graduate in their opinion most worthy of recognition, and together with a similar prize awarded by the Professor of Medicine, was the highest prize given in a class numbering one hundred forty-four members.

Dr. Stone was born and and has lived all his life in Maitland. After four very successful years at Rollins College, he graduated with the B. S. degree. The following fall he entered Jefferson Medical College of Philadelphia where he has been for the last four years.

At the close of his Junior year he married Ruth Waldron and came to Florida on his wedding trip, returning to Philadelphia in the fall.

For the next two years Dr. Stone will take his intern work in the Episcopal Hospital, the largest and finest hospital in Philadelphia, and he and Mrs. Stone will live at 322 W. Huntingdon street.

EPISCOPAL RECTORY

TO BE MADE OVER

Plans are being made for the remodeling of the rectory of the Episcopal Church in Maitland as it will be occupied next year by Right Rev. Wing, Bishop Coadjutor of the Diocese of South Florida, and his family. The house will be thoroughly renovated, and many changes made both inside and out. Bishop and Mrs. Wing will make Maitland their permanent home.

The church is also to be repaired this summer. A new roof will be put on and the church will be painted. Rev. R. P. Cobb will hold services as usual next winter.

The paving of the east side of the double boulevard of Maitland Avenue from George street north to Lake Maitland, and of East Robinhood Drive, Gamewell Avenue and Marion Way through the first section of Greenwood Gardens, the master suburban development now being put on the market by the Maitland Realty Company, is scheduled to start within the next few weeks.

The necessary legal proceedings preparatory to the issuance of ten year assessment bonds under the act of 1923 are now being completed and contracts for the paving work will be let by the Town of Maitland within a few days.

All streets in Greenwood Gardens are to be paved twenty-four feet wide of "Finley Method" type, except Maitland Avenue, which will be paved with brick. Twenty-four inch concrete curb and gutter is to be used, thereby assuring ample drainage facilities as well as making a much more substantial and better appearing street.

Storm drainage will be taken care of by ample storm sewers placed in the street right-of-way before the paving is put down, a main sewer will run the full length of Maitland Avenue, discharging the drainage water into Lake Sybelia on the south and Lake Faith on the north.

Sidewalks four feet wide, of concrete, constructed upon the specifications of the municipal engineer will be put in place on both sides of each street simultaneously with the paving.

On all sixty foot streets such as East Robinhood Drive the sidewalks will be placed on the property line thereby leaving a parkway fourteen feet wide on either side of the paving. This parkway will be levelled and sodded with grass and set with live oak trees for shade purposes interplanted with hibiscus, dwarf ornamental palms and other ornamental plants.

CONGRATULATIONS TO HERALD

The Maitland News wishes to congratulate the Winter Park Herald on the success of the special edition gotten out last week. The splendid layout and the promptness in publication show an attention to detail and care in compilation that do great credit to the paper. The people of Maitland appreciate the fine way in which the Maitland section was handled.

GROWTH IN MAITLAND

On reading the article in the Herald on "New Building in Maitland" during the past year, we have been thinking back over the past twelve months and find that we can count up over twenty houses in addition to those mentioned in the article, which to our own knowledge have been erected in Maitland during that period. This may look small to cities whose building permits run into the hundreds, but when we consider that it is about a twenty percent increase in the number of residences in the town we feel that Maitland is showing a very satisfactory growth. When we come to consider the number of permanent business buildings that have gone up in the town this last year, we find that it is an increase of two hundred percent over the permanent buildings here one year ago.

NEW BOOKS AT THE LIBRARY

Among the books recently contributed to the Maitland Library are: McAllister's Grove by Marion Hill. Red and Black by Grace Richmond. Shavings by Joseph E. Lincoln.

Two Shall be Born by Marie Conway Oemler.

Tetherstones by Edith M. Dell. Dawn by Eleanor H. Porter.

The librarian will be glad to receive lists of books which patrons are willing to donate and check those which the library needs. While the Association purchases a number of new books every year it is impossible to place all the desirable books on the shelves and it is a great help if friends will donate such books as they can spare.

LOCAL ITEMS

Mrs. W. P. Breed, who has been the guest of Miss Waterhouse for the past ten days, is visiting Mrs. John McCullough in Orlando.

Mrs. N. R. Draper who has been spending the past three weeks with the Misses Treat, has returned to her home in Chicago.

Mrs. C. E. Bowers entertained at bridge Monday afternoon. Mrs. R. A. Wheeler received first prize.

VISER-ASHE

Rev. and Mrs. E. D. Viser, whose marriage was solemnized recently, have returned from a brief honeymoon and are at home at the Wayside Inn in this city.

Mr. Viser is pastor of the Apopka and Maitland Presbyterian churches and during his residence in our community he has made many warm friends who will be interested to learn of his marriage. The ceremony, simple and beautiful, was quietly solemnized in the Green street Presbyterian Church at Augusta, Georgia, on May 19th. The bride was formerly Miss Mary Ashe of that city.

The Chief unites with a host of friends in extending to Mr. and Mrs. Viser a hearty welcome to Apopka and best wishes for much happiness.—From the Apopka Chief.

Mr. Viser, in the few months of his pastorate in Maitland, has materially strengthened the church by his faithful and efficient service, and the people of Maitland and the Maitland News join with our friends and colleagues in Apopka in offering our congratulations to Mr. and Mrs. Viser and our best wishes that they may remain with us for a long time.

May 10, 1926.

Miss Anna B. Treat,
Maitland, Florida.

My dear Miss Anna:—

Thank you very much for the copy of the Maitland News. This is a mighty interesting publication and I believe it will grow in size and influence.

Maitland has surely been making wonderful progress these past two years, and this is due in no small measure to the fine work done by you all.

With every good wish for you, I am,

Your sincere friend,

KARL LEHMANN,

Secretary, Orange County
Chamber of Commerce.

TEN COMMANDMENTS FOR THE HOME TOWN

V. Thou shalt defend the health of thy home town from the death that lurks in marshes, swamps and heaps of filth. Thou shalt exterminate the fly and mosquito, for they carry typhoid and malaria. The tubercle and bacillus thou shalt drive before thee, with the sun and fresh air as thy allies.

Greetings

CURRENCY-YESTERDAY AND TODAY

Currency is probably the most familiar form of credit in existence today, and its origin is of great interest.

The earliest record of the issuance of bank notes gives their origin as about 1670, but in a vastly different form than that of today. The first bank notes were simply issued by goldsmiths to people who had left money in their custody, and these notes bore the name of a definite payee. The following is a specimen of one of the early notes.

Nov. 28, 1684.

I promise to pay unto ye Rt. honble ye Lord North & Gray, or bearer ninety pounds on demand.

For Mr. FRANCIS CHILD &
Myself JNO ROGERS.

It seems that the right to issue such notes as above was never questioned until their use became so widespread that the state was forced to step in to protect the interest of society at large. Then this right to issue notes was restricted to a select number of persons of well-known character, generally, but not always, incorporated as a bank.

In our country today national banks have the right to issue notes of their own, but must first protect the notes by depositing Liberty Bonds or other suitable security with the Treasury department. Then the notes are printed in the government printing office, and countersigned by the President and Cashier of the issuing bank. Such notes are accepted by the public as readily as direct government obligations.

All government notes and federal reserve notes are secured by gold or silver bullion which is held in the national treasury in Washington. Any person who holds a gold certificate can demand of the treasury department gold coin in exchange. Thus we find that gold and silver, principally gold form the basis of all national wealth. Without this gold and silver held in reserve, our currency would be worth nothing more than the government's guarantee, but the tremendous wealth in actual gold which is held as a reserve behind these notes makes them just as good as the bullion itself, because the reserve is never touched unless an equal amount of paper money is first cancelled and destroyed.

Grass and Weeds

HAVE you noticed how the grass grows this kind of weather? Look at the sand-filled brick pavements in some of the residential suburbs you know. Do you see how the the grass grows between the bricks?

It is expensive to keep such a street neat and even heavy traffic will not keep the grass down this season of the year?

That's why we are using a rock base asphalt type of pavement in GREENWOOD GARDENS. There won't be any cracks for weeds and grass to grow in.

And we are not "letting any grass grow under our feet" either. The city is paving all the streets in the first section this summer. (See resolutions published herein.)

If you ever expect to own a nice home you should investigate Greenwood Gardens now. Several of our "June Brides" are still available at prices that can't be duplicated later.

Don't let any grass grow under YOUR feet!
