NUMBER 17

Post Office Robbery Attempted

Friday night of last week thieves broke in through the rear door of the Maitland Post Office and attempted to force the door of the safe without success. Only a small amount of cash was kept in the safe and apparently nothing else was disturbed.

While no clues as to the identity of the thieves have been discovered up to the time of going to press, a sledge hammer and other tools said to have been taken from the Maitland Garage were found in the Post Office near the safe. Evidently these implements had been used to batter the lock, the handle of which was driven through the door against the inner lining making it impossible to open the safe.

The attempted robbery occurred some time between the closing of the Post Office at six o'clock P. M. Friday and 8:30 A. M. Saturday, April 23rd.

MURRAY-JOSLIN

Miss Margery Murray, who has made her home with the family of Dr. K. E. Kilbourne for the past four years, was married to Mr. Ralph Joslin in the Congregational church in Winter Park, Wednesday evening, April 20th. The church and also the Sunday school building were tastefully decorated by Mrs. Cammack and the Christian Endeavor Society. Rev. C. A. Vincent performed the ceremony assisted by Rev. Brower.

After the ceremony an informal reception was held in the Sunday School building and refreshments of cake and fruit-punch was served.

Miss Murray is the daughter of Mrs. Wallace Wilson, is a member of the Christian Endeavor and was assistant organist of the Congregational Church in Winter Park. Mr. Joslin is originally from Vermont but is now located in Orlando where the young couple will make their home. Many friends of the young people from Maitland and Winter Park witnessed the ceremony and lavished congratulations and good wishes on the happy couple.

BROWN RENTS PEARSON HOUSE

J. A. "Red" Brown, for some months in the citrus business with headquarters in Ocala, has rented the Pearson house on Vanderpool Avenue and will move in at once.

NOTICE

The Maitland Chamber of Commerce is sponsoring a Bridge Party to be given at the Maitland Library, Thursday evening, eight o'clock, April 28th. Tickets will be 50 cents and the public is invited. Proceeds will be used toward the liquidation of the debt on the C. of C. building. Let's make this a big party and pay all of our bills!

CHAMBER OF COMMERCE

Maitland Hostess to County P.-T. A.

On April 28th at the Library, kindly lent for the occasion, there will be held the last meeting of this year of the Orange County Council of the P. T. A. The meeting will take the form of a lunch and will commence at 12:30 p. m. Speeches will follow, notably a welcome from Mr. F. E. Adams, Mayor of Maitland, endorsement of the work by the President of the Chamber of Commerce, Mr. Horner. A special address from Mrs. A. B. Lemmon on the affairs of the P. T. A. as formulated at the recent State Convention at Pensacola, and another speech by a well-known man yet to be announced. There will be music and Mrs. Harold R. Peat will occupy the Chair in her capacity as President of the County Council.

All members of the Maitland Parent Teachers' body are urged to attend. The Maitland Hill School has a high reputation throughout the County for its high standard of excellence, the good health of its children, the capability of its teachers and school board, and for the fine manner in which the school enterprises are supported by the members of the P. T. A. and the townspeople generally. There will be a representative from Seminole County present to see how these Conventions are put over and it is without doubt that Maitland's handling of this matter will be used as a criterion for other centers.

MAITLAND GARAGE ENLARGES SHOW ROOM

M. LeRoy Kyle, industrious proprietor of the Maitland Garage, has added a large repair shop to the rear of his building on the corner of Maitland Avenue and Packwood Street to make room for a larger show room in front. The latter is just completed and adds much to the attractiveness of the establishment as well as to the convenience and utility of the plant. Mr. Kyle has moved and added to his battery building and repair department and states that he is now ready for the increased business that he expects to get. Mr. Kyle has shown himself to be "out for the business" and has built up a reputation for accommodating and reliable service to the motoring public.

C. E. BOWERS TO JOIN FAMILY IN CALIFORNIA

Mr. C. E. Bowers, who has for some months been giving his personal care to his fleet of Swan Boats on Lake Eola in Orlando, left Sunday for California where he will spend some time with Mrs. Bowers and her sister who have wintered there. The Bowers party plan to motor home to Florida in June via Yellowstone National Park and other places of interest. Mr. Bowers is the owner of "The Oaks" recently leased to the Central Florida Gun Club.

Maitland Represented At Ocala

Mrs. I. Vanderpool and daughter Kitty and Mr. and Mrs. C. N. Beecher attended the Beautification Convention at Ocala, Saturday, April 10th. This was the eighth state meeting and was very well attended. It was an exceedingly interesting and enthusiastic meeting. There were several prominent people on the program, people who have spent many years in beautification work, as well as some of our well-known nurserymen. Mr. N. A. Reasoner of the Royal Palm nurseries gave a very interesting talk on "Roses and Their Place in Florida Beautification." All of the talks will appear in "Beautiful Florida." This is a very worth-while magazine to any one interested in flowers and needs the support of Florida flower lovers.

The next convention was secured by the Sarasota delegates and will take place in the Fall. The Ocala Chamber of Commerce and Town Officials were very hospitable and extended the courtesy of a trip over the beautiful Silver Springs, which was a great source of delight. It is hoped that more Maitland people will be able to go to the Convention at Sarasota in the Fall. They will find it not only instructive and interesting but will have the opportunity of visiting the Royal Palm nursery, which is decidedly worth while.

REVEREND VISER TO REMAIN WITH MAITLAND CHURCH

Members and friends of the Maitland Presbyterian Church are much pleased with the decision of Pastor E. D. Viser to remain in charge of the Apopka and the local church. Mr. Viser was called to the Calvary Presbyterian Church in Orlando last month and after earnest consideration decided that his most important mission lay in the field of his present service. It is hoped that Mr. and Mrs. Viser can arrange to make their home in Maitland. They have purchased property here.

Under Mr. Viser's leadership the Maitland church has doubled its membership and organized a Sunday school and several young peoples' organizations.

CHILDREN'S MOVIES ARE TO BE FREE NEXT SATURDAY

Announcement is made by the Committee in charge of the Children's Movies at the Baby Grand Theatre in Winter Park that the last program of the season will be given at 10 o'clock Saturday morning, April 30th. This program will be free through the courtesy of the theatre, the feature film being Douglas Fairbanks in "When the Clouds Roll By." All children are cordially invited to attend this closing program.

Vernon Ayers returned last week from his former home in Oshkosh, Wis., where he went recently to take the remains of his late wife.

Hill School Honor Roll---7th Month

Eighth Grade—Herbert Kyle, B; Twilla Horton, B; Augusta McNair, B-plus; Christine Ponder, B-plus. Seventh Grade—Willfred Stiggins, B; Rosa Belle Allen, B.

First Grade—Vera McIntyre, B; Betty Peat, B; M. P. Ponder, B; Curtis Kyle, B-plus.

R. A. WHEELER TO RETURN FROM WEST INDIES

Word is received from R. A. Wheeler, vice-president of the Maitland Lumber Company, who has been in Cuba, Jamaica, Porto Rico and other points in the West Indies, on a business trip for a large export lumber company, that he expects to return to Maitland about the first of May. Mr. Wheeler reports business conditions in Cuba rather bad but in spite of this he has closed considerable valuable contracts.

J. A. HOWELL BUYS HOME IN WINTER PARK

Mr. and Mrs. Howell, who have been coming to Maitland for many years, occupying the E. R. Hall cottage, have purchased the C. G. Weston home in Virginia Heights, Winter Park, into which it is understood they will move when they return to Florida next winter. The Howells bought in Winter Park to be near the Conklins who also recently purchased in Virginia Heights. Maitland people are sorry to lose these two families as residents but are glad that they are to be so near.

WILL SPEND SUMMER IN EUROPE

Mr. and Mrs. J. H. Hirsch are expecting to sail soon for Europe where they will spend some time touring France, Italy, Germany and Switzerland. Mr. and Mrs. Hirsch spent last summer on a Mediterranean cruise.

ADVERTISING RATES ON APPLICATION

WHY NOT?

Sometimes one issue of the News has an article, notice or statement in it that is worth the cost of a whole year's subscription to you alone. Nearly always there is something of interest to friends who are away. Why not be sure your subscription is paid up so you will not miss a number? Why not subscribe for a friend so you will know that every week your friend is getting the news of the old home town? The cost is so small that no one interested in Maitland need miss a single issue of the News. Why not subscribe now?

HOW IS IT?

It is understood that members of the council have stated that if new petitions for the paving of certain streets were presented now that work would commence at once on those streets under a new contract with a certain local contractor. We would be interested to know what is to be done with the contracts already let by the town for the paving of these same streets together with others to an entirely different firm of contractors some months ago. The town needs paving, but care should be exercised in repudiating contracts where there is serious liability. Business is business, whether it is the town's business or our personal business. The taxpayers pay the bills for litigation, delay and errors of judgement.

MY DESIRE

"I desire to radiate health, cheerfulness, sincerity, calm courage and good will. I wish to live without hate, whim, jealousy, envy or fear. I wish to be simple, honest, natural, frank, clean in mind and clean in body, unaffected; ready to say 'I do not know' if so be it; to meet all men on an absolute equality, to face any obstacle and meet any difficulty unafraid and unabashed. I wish others to live their lives, too, up to their highest, fullest, and best. To that end I pray that I may never meddle, dictate, interfere, give advice that is not wanted, nor assist when my services are not needed. If I can help people I'll do it by giving them a chance to help themselves; and if I can uplift or inspire, let it be by example, influence and suggestion rather than by injunction and dictation. That is to say, I desire to be radiant—to radiate life."
—ELBERT HUBBARD.

Every Florida farmer should plan to "eat fruit from his own vine and fig tree" this year.

MUST HAVE PERMIT TO BUILD SEPTIC TANKS

Mr. E. T. Owen, town clerk, advises that all persons must apply at his office for permit and specification for building septic tanks before starting construction.

This is in accordance with the instructions of the State Plumbing Inspector.

BRYAN'S BARBER SHOP MOVES TO POST OFFICE BUILDING

M. C. Bryan, proprietor of the local tonsorial parlor, has removed his place of business from his Jackson street location to the office formerly occupied by the city engineer in the Maitland Building Association building.

MRS. E. D. VISER ON VISIT TO ATLANTA

Mrs. E. D. Viser left last week for a month's visit to her parents in Atlanta. Mrs. Viser is very active in church and social work both here and in Apopka. She will be welcomed back by many friends who miss her pleasant and efficient leadership.

A GAME TO PLAY

SACKED

Give each guest to a party a yellow sack which he must put on over his head, punching holes for the eyes, nose and mouth. Charcoal and black crayons are applied so that each one may draw any facial expression he desires on his own face. When all have put on sacks, they start shaking hands with each other, calling by name anyone whom they recognize. If a person's guess is correct, he is privileged to mark a large X on the face of the one whose identity he guessed. The one who first gets his face full of X's is taken in hand by the leader of the game, and penalized in any way to suit the audience.

WATCH TANGERINE AND YOUNG TREES FOR APHIDS

The citrus aphid has not yet recovered from the setback received during the freezes of January, but it is increasing rapidly and is to be found generally distributed on young growth, says J. R. Watson, entomologist of the Florida Experiment Station. The first flush on most orange trees is now out of danger. But indications are that many tangerines are going to suffer damage unless control measures are taken. Aphids are now producing winged ones in large numbers, which means that they are going to fly around a great deal, so that growers who have had no aphids up to the present time are liable to find trees infested from surrounding groves. Tangerines on which the growth has not yet hardened are liable to receive damage as the aphids will fly to them from hardening oranges.

Young trees severely damaged by the cold also should be carefully protected from aphids. Such trees probably will have no resting period in the spring, but there will be more or less young growth on some trees at all times. If the small amount of growth which they may be able to put out since the freeze should be allowed to be stunted by the aphids, the resulting shock would be hard on the trees. It may result in the death of many of them.

REGULAR APRIL MEETING OF COUNCIL TUESDAY

The town council will hold its regular monthly meeting in the Town Hall on Thursday evening, April 28th. Aside from routine business it is expected that Mr. Coite of the Florida Public Service Company will be present to take up with the town the matter of a revised contract for the white way and also a reduced rate for the water works current. Citizens and taxpayers interested are invited to be present.

MAITLAND STUDENTS IN "CAPTAIN KIDD" PLAY

Betty Rowland, Wesley Widdis and Ruth Russell were Maitland children playing in the Winter Park High School Glee Club's presentation of "Captain Kidd, or The Daughters of Robinson Crusoe" at the High School Thursday evening, April 21st. The play was quite successful as presented by the school children and directed by Virginia Lee Richardson with a cast of some forty pupils, proceeds being used for local school activity funds.

MUCK FROM LILY LAKE IS HAULED TO PARK

In order that the soil in the two triangular parks north and south of Lily Lake may be enriched and grow more luxuriantly the flowers and trees being set out by Mrs. Beecher, chairman of the beautification committee, muck is being hauled in from the shores of the lake and spread generously. When the county agreed some years ago to build the two way street around Lake Lily to take the place of the former west side road, it was a part of the agreement that the town should dedicate and maintain these two triangular tracts as public parks for beautification purposes. Mrs. Beecher is doing conspicuous work along the line of making these parks attractive to the passersby as well as to the townspeople.

AUXILIARY MEETING POSTPONED

Miss Stella Waterhouse, secretary of the Maitland Auxiliary, has asked the News to state that the regular meeting of the Auxiliary has been postponed from Thursday, April 28, until Thursday, May 5.

VITAMIN AND HEALTH CONTAINED IN GREENS

Spring has come! Gardens are growing! How is your appetite? Do you feel the call of the "garden sass"?

"Hygeia" tells us in the April number that the U. S. A. is becoming a nation of green eaters; that the teaching of the value of vitamins has borne fruit in thousands of acres devoted to the growing of succulent green vegetables. The nation's garden patch, except for potatoes, is now 2,100,000 acres.

Florida ranks high as one of the great all-year vitamin factories. Here sunshine is again proving itself the life giver of the race. The products of its rays, formed by Nature's chemistry in the cells of growing plants, have been shown to possess vital properties—vitamins—life and health giving factors.

What science has found out for us, let us use to advantage. Instead of sulphur and molasses in the spring, eat lettuce and mustard, kale,

spinach or other "greens."

Spring greens, if cooked, should be steamed in a small amount of water and kept covered. This saves the mineral and vitamins. They should be cooked only long enough to become tender. They may be seasoned to taste. Butter added before serving adds to the palatability and food value. If more water is left in the cooking vessel than is needed, save it for making soup.

"We Like Greens"

Raw greens should be taken in generous amounts. Lettuce, green cabbage, celery, dandelion, onions, green peppers, radishes, tomatoes, carrots have all come to be exceedingly popular in the natural state. Vitamins and minerals are all there! Vitamin C often lacking in sufficient quantity in milk, is abundant in these fresh vegetables. Now that oranges are getting scarce on the market in many sections, get your Vitamin C from green fresh vegetables.

MARY A. STENNIS,
Nutrition Specialist.

TOWN BEAUTIFICATION PROGRESSES

With the planting of the Lily Lake parks to phlox and petunias and the setting of palms and other shrubs around the lake a conspicuous beginning has been made toward making Maitland blossom as it should. The town marshal has

started a small nursery near the town hall where plants can be rooted and flowers started. Mrs. Beecher has done some splendid work with the roses and other flowers at the Chamber of Commerce building, and is faithfully caring for the plants around Lily Lake Park. Anyone who has plants, shrubs or flowers which they might wish to give to the town should get in touch with the town marshal or with Mrs. Beecher at the Chamber of Commerce building.

AFFINITY TAG

This may be played in two or three ways, depending on how the group are dressed.

(a) One person is "it." All the rest are being chased.

(b) In order to be safe, each boy must find a "soul (sole) mate."

To do this a boy and girl must sit facing each other on the ground or

Arthur Wellons has moved from the Bennett apartments to the Woodruff bungalow on Packwood street.

Johnnie Stever and Clyde Clark returned last Friday from a business trip down the east coast.

THE WEEKLY PAPER FOR ADVERTISERS

Circulation Alone Proves No Fair Test of Value As Medium

No form of publicity costs so little in proportion to service performed as newspaper advertising.

The weekly newspaper is entitled to a higher rate per thousand than the daily because its life is seven days instead of one, and because of the intimate character of its circulation.

These are two points made by A. C. Olmstead, city editor of the Aledo (Ill.) Times Record, who is convinced that the weekly home newspaper has outstanding advantages as an advertising medium.

"To reach as many readers by any other method costs more for postage or delivery alone than the entire cost of newspaper advertising," says Mr. Olmstead.

Mr. Olmstead does not believe the value of advertising in a weekly newspaper should be assayed on the basis of circulation alone. He says:

"Advertising in a weekly newspaper is part of an interesting news carrier that talks about familiar people, tells of local doings in the county, and retains its vitality and pulling power for seven days—until the next issue replaces it in the public eye.

"The advertiser buys good will as well as inches. Space plus prestige of the newspaper means greater value to the advertiser. Space without prestige means a handbill.

"Successful advertisers study advertising values. They know that the local weekly newspaper—if it is a real one in the test of community service—is read with confidence and interest in the home. Its readers know that they can depend on it for correct news service, entertaining features, and advertising information that relates to their needs.

Of the \$720,000,000 worth of advertising carried by newspapers in 1925, it is significant, Mr. Olmstead points out, that two-thirds of this, a half billion dollars, went into local newspapers as against one-third spent in national publications.

"Statistics of newspaper production show an average daily circulation of about 34 millions, and an average weekly circulation of approximately 44 millions. The total circulation of weekly newspapers in one week, is therefore, greater than the total daily circulation in any one day" concludes Mr. Olmstead.

Discords spoil a good orchestra—and a good community as well.
