

# Jones Increases County Scoring Lead To 232 Points

## Driskill Is Second With 121 And Shaw Is Third With 106; Metts Is Fourth

**By KENT CHELAIN**  
Larroping Johnny Jones, Oviedo's 16-year-old boy wonder of the basketball courts, despite the effects of a severe cold, has forged ahead undisturbed as Seminole County's leading high school scorer with a 12-game total of 232, which is more than double his nearest opponent, this week's official records show.

Jones, leader Seminole hoopsters in almost every scoring and playing category having the most baskets, 96; points, 232; games, 13; and average points per game, 17.8. Only in free throws is Jones' record surpassed. Sanford's Junior Bobby Driskill, Johnny Jones' classmate, is second with 121 points, 10 games, and an average of 12.1 points a game. Driskill's teammate, Charlie Shaw, senior forward, stands third in the scoring parade with 106 points in 11 contests for the second county point producer with a 12.4 average.

## Major College Quintets Must Choose NIT Or NCAA Tourneys

**By BEN PILEGAR**  
NEW YORK (AP)—The hour of decision is approaching for the nation's tournament-minded basketball teams. The NIT from three directions. The NCAA National Invitation Tournament (NIT) is readying bids for its 12 berths. And this year for the first time colleges with postseason ambitions are forced to choose between the NIT and the rival NCAA Championships.

New NCAA rules, which affect almost all of the leading colleges, bettered it by almost six months. The NCAA enlarged its tournament field to 23 teams, picked conflicting dates and told colleges they no longer could play in both.

One of the 23 NCAA berths was filled last night when Idaho State clinched the Rocky Mountain Conference championship. This conference is one of 14 which automatically qualify their champions for the NCAA Tournament.

In past years many teams have made a double run for tournament glory at City College of New York, both in 1959. Duesen, St. John's of Brooklyn St. Louis and Dayton all tried both last year.

Seton Hall may prefer the NCAA. The school has tried the NIT three times without success. It's last loss was in last year's NIT to La Salle.

The tournament has to have several New York teams to ensure financial success. The NIT is thought to be Manhattan College and other New York University or St. John's of Brooklyn possibly both.

Sponsors of the NIT say they are studying carefully the records of every possible team but so far nothing official has been announced. The first acceptance may come next week. The tournament opens March 7.

Good bets for invitations would seem to be Holy Cross, Seattle University, Louisville, Western Kentucky, Davidson and Tennessee. From last year's field plus Wagner, Tulsa and Oklahoma City University. These would be in addition to Seton Hall, La Salle and the New York schools. Since some of the teams might prefer the NCAA Tournament, the original NIT invitation list is bound to include more than the final dozen entries.

NEW YORK (AP)—The closest parallel in basketball history to tonight's great excitement at Chicago, all elements considered, must have been the famous fight at Boyle's 30 Acres back in 1921 when Jack Dempsey, then at the peak of his career as heavy-weight champion, and Georges Carpentier, the orchid man from France.

As almost any student of the game knows now, it turned out that the 172-pound Frenchman had no earthly business in the same ring with Dempsey. He got knocked kicking in the fourth round, much to the relief of promoter Tex Rickard, who had feared the gorgeous one might get himself killed.

But the fact remains that before the fight many millions of Americans were convinced that Carpentier had a real chance, just as they are convinced that Chuck Davy, the orchid man of television, will whip Kid Gavilan, the tough heavyweight champion, tonight. The proof is that they paid a total of \$1,789,238, the fourth largest gate ever, to witness the one-sided encounter.

There was no television then but the printed word served adequately. There had been a war in which Carpentier had served as a dashing lieutenant of aviation, and he had knocked out the veteran Battling Levinsky to win the world light-heavyweight title. The public, from all accounts, became somewhat maudlin at the idea of a war hero winning the crown, just as it has thrilled to Davey, the man with two college degrees.

The parallel does not last quite through when Rickard saw Carpentier close up and realized he was promoting a massacre, he ordered the Frenchman into "secret" training to perfect some sort of nuclear punch. The customers were not permitted to see him in action again until he climbed bravely between the ropes. He said later he knew he was dead the first time Dempsey hit him.

**Bob Pettit And LSU Dash U-F Title Bid**

**GAINESVILLE (AP)**—Louisiana State virtually eliminated Florida from the Southeastern Conference basketball race Tuesday night, 66-56, but the Bayou Bengals had to do some fast moving.

Florida was ahead 21-13 three minutes before halftime, and at the moment it looked like the nation's eighth ranked team was on the way to home.

Then the Bengals turned on the juke, scoring 17 quick points which sent them to their midtime rest ahead, 38-35. They never were behind again.

Six foot 9 Bob Pettit, who had been averaging 34.3 points a game, led LSU with 24 points.

Forward Curt Culp was Florida's high man with 21.

LSU, having an unexpected collapse, now appears to have a lock on the SEC championship. The team with slight victories, as Florida, a poor second, has a 5-3 conference record.

**Tampa Defeats FSC As Montz Scores 25**

**TAMPA (AP)**—The Tampa Spartans won a 77-51 basketball victory over Florida Southern Tuesday night with their high scoring guard George Montz scoring in 23 points.

Senior Bill Lamb, who sparked a 10-point first quarter, made 10 of 13 free throws.

Tampa was ahead 13-10 at the end of the quarter and 35-23 at halftime. FSC's defense was almost perfect in seven points and Tampa replied by turning on more shots.

**LSU Asserts SEC Supremacy In Big Win Over Florida**

**By The Associated Press**  
Louisiana State University, which hasn't won the Southeastern Conference basketball crown since 1952-53 conference champion.

The Bayou Bengals, undefeated in eight SEC games this season, thumped the second-place Florida Gators 66-56 at Gainesville last night.

The loss gave Florida a 5-3 conference mark and all but ended Gator hopes of winning their first title.

The home team started out like it meant business. Florida led 14-9 at the end of the first quarter and had LSU 21-13 three minutes before halftime.

Then the Tigers exploded for 17 points to grab a 31-20 lead at intermission.

Bob Pettit, LSU's second team All America center last season, hit five field goals in the third quarter while the Gators were in a slump.

Pettit got 20 points, slightly over his 17.1 average so far this season. Curt Culp, Gator forward, got 21.

A word has been defined as a plant growing in the wild place.

**European Sports Autos Will Make Record Attempt**

**DAYTONA BEACH, Fla. (AP)**—European and American sports cars zoom over the measured mile on the Ocean Beach sands here today, but they will have to go some to match the record busting of American stock auto Tuesday.

Eleven drivers drove late model speedsters in a 100-mile race and all 11 bettered the old record of 100.28 in an hour.

Bob Pennington, 28-year-old, old 4.6 inch Chevrolet, led the rush with an average of 113.25 mph in a 1953 Oldsmobile.

Joe Littlejohn, who set the old mark in 1950, driving a 1950 Olds, bettered it by almost six months.

Bob Pennington, 28-year-old, old 4.6 inch Chevrolet, led the rush with an average of 113.25 mph in a 1953 Oldsmobile.

Joe Littlejohn, who set the old mark in 1950, driving a 1950 Olds, bettered it by almost six months.

**CYPRESS GARDENS, Fla.**—John Hamfield, who will appear in Metro Goldwyn-Mayer production, "EASY TO LOVE," starring Esther Williams which will be shot here during February and March, poses for a quick swim with his lovely wife, Corinne Calvet.

## Champion Kid Gavilan To Defend Title Tonight With Chuck Davey

**By JERRY LISKA**  
CHICAGO (AP)—Champion Kid Gavilan, bordering a 3 to 1 favorite, defends his world welterweight title against television's Cinderella Kid, suburban Chicago Davey, before 20,000 at the Chicago Stadium tonight.

They were scheduled for a 10-round, EST-weight fight. It will be Gavilan's fifth defense of the 117-pound crown he won from Johnny Bratton May 16, 1951. The 15-round bout will be broadcast on TV from 8:30 p.m. EST.

Seldon has a championship match brought together two men so unmatched in style, temperament, background and — the experts say — in ability. Seldon has a championship match brought together two men so unmatched in style, temperament, background and — the experts say — in ability.

Gavilan, 27-year-old Cuban with meager education, is a veteran of 103 fights, knocked down only once, and subboxed in 20 straight fights since a 16-round loss to Gene Harkin Oct. 30, 1950.

Davey, 26-year-old Irish lad from Detroit, who holds a master's degree from Michigan State University, has bobbed behind a stingy, tantalizing southpaw attack to 37 victories and two draws in a previous TV success.

The bout may pay Gavilan as much as \$150,000 of his 40 per cent slice of the net and TV and Davey as much as \$55,000 from his 20 per cent take.

The TV sponsor guaranteed the matchmaking International Boxing Club a \$200,000 net gate. Resort attendance will be realized from a 20,000 attendance.

In that case, the TV sponsor will kick in \$80,000 for Gavilan and \$40,000 for Davey to split at his 40-20 basis.

On the eve of the fight, Gavilan was a 13 to 1 favorite with the odds being 10 to 1 when the gladiators entered the ring.

Davey's betting support has not evidenced itself in real money. The carriage trade all likes the underdog, says columnist who completely dominated the NCAA ranks a few years ago.

But the betting on Davey is mainly neighborhood neighbor, based on his previous TV success.

Gavilan has fought 25 rounds with former welter and middleweight champion Robinson, losing a 15-round decision in 1948 and a 15-round title affair a year later.

In his 10-year career, Gavilan has won 89 of his 103 bouts and knocked out or stopped 25 foes. He has stepped into the back yard of the local favorite—Billy Graham in New York, Bobby Davis in Philadelphia, to achieve brilliant victory.

It will be the Kid's sixth fight over the 15-round round, Davey has some 15 rounds and presumably must slow his usual blistering pace to stay close to Gavilan for the distance.

Davey's most punishing punch is left to the body. It was this blow which twice crumpled Chico Vejar, once as bright a TV hero as Davey himself. In several bouts, particularly in a second match with a journeyman scrapper, Carmen Basilio, Davey has been severely cut about the eyes.

In the experts expect it won't take the champion long to move in for the kill.

**FSU Beats Stetson; Westhafer Nets 29**

**TALLAHASSEE (AP)**—Florida State took the lead at the start and won in front all the way Tuesday night to whip Stetson, 76-52, and end a six-game winning streak for the Hatters.

Jerry Westhafer paced the Florida State basketball team with 39 points while Ham Wernke looped in 21 to run his total to 323 for 15 games.

Ed Hansel was high man for Stetson with 14 points. At one point Florida State was 20 points ahead but Stetson got going late in the game to whittle the lead.

Florida State now has a 4-5 record while Stetson won 11 and lost 2.

Davey defeated southpaw challenger, "Twenty" — one of those favoring Gavilan thought the kid would score a knockout or technical knockout.

# Blues Vote To Launch Negotiations With Cardinals

President Callahan Is Instructed To Consummate Pact Between 2 Clubs

By KENT CHELSEA  
Directors of the St. Louis Blues baseball club took the first step toward accepting the working agreement offered by the St. Louis Cardinals for the 1953 season by adopting a resolution to open negotiations with the Cardinals at the specially called meeting in the radio studios of WTRR last night.

President John B. Callahan was given the authority to contact the Cardinals immediately and assure them that the Blues club was willing to accept the working agreement as soon as a few details have been worked out, such as the name and salary of the Cardinals-appointed manager.

The decision to open negotiations came after an open meeting and discussion with the six Blue officials and six interested citizens which was followed by a closed session and vote by the directors and officers of the Sanford Club.

John Krider, former Blue general manager, announced the meeting by turning the letter of simple working agreement over to President Callahan for study and discussion. In doing so, Krider warned the club members that to delay action on the offer might mean the Cardinals will have found another minor league club, thus leaving Sanford out.

The working agreement, which was sent to Krider by St. Louis farm director Joe Mathes over the weekend, offered to field an entire team of Cardinals farm hands, recommended an approved manager from the Cardinals, offered to assist the Blues with a subsistence check of \$500 a month, while guaranteeing the Cardinals the right to purchase back their own players from the Blues for a sum not to exceed \$2,500 at the end of the season.

In the agreement the Cardinals asked the Blues to pay no more than \$100 for the spring training and to pay the spring training board and room of the Cardinals minor league spring training camp at Albany, Ga.

During the general discussion the various points in the agreement were hashed out point by point and the ensuing debate resulted in a preliminary feeling of general approval of the pact with some minor points to be ironed out, or clarified, by consultant Callahan in his forthcoming negotiations with the Cardinals.

This morning Callahan said he was going to telephone Mathes and that the Blues favored the accord in general and would further information in order to consummate the deal.

One point of question arose last night over the clause in the pact which proposed that while Callahan was not committed to the Cardinals, the Cardinals recommended manager the St. Louis club favored this Winston-Nelson club. Mathes even asked the Blues how much they could afford to pay a manager which indicated, if Sanford would agree to accept the recommended manager, the St. Louis club would make up the difference in salary to procure him.

Since under the conditions of the working agreement the Cardinals would be furnished, it would permit the sale of the seven players now remaining on the Sanford roster carried over from last season.

The Blues will be free to dispose of the following players: Joe Parke, veteran first baseman who batted .305 and hit 14 homers with 82 RBIs; John Imbra, temperamental, flashy fielding second baseman who hit .302 and knocked out 10 homers; George Kenis, limited service outfielder-infielder-pitcher who hit .272 and had a 2-7 hurling record; Jesse Blasco, new veteran pitcher with a 14-14 record; Lewis "Chien" Gonzalez, limited service shortstop who hit .261; Murray Byrd, limited service pitcher with a 14-16 record.

In addition the Blues own Jesus "Chien" Gonzalez as a limited service pitcher who posted the lowest earned run average on the club, .872, and had a mark of 12-14. Gonzalez, however, is in the 4-year at Fort Benning, Ga., and will be unavailable for at least two years. Also listed on the Blues' roster, but on the suspended list, is Florensic "Yoni" Petrovich, who hit .116, veteran reliever who joined the club after the first week last season, when he was hitting a miserable .118.

These players will probably be sold as soon as the working agreement with the Cardinals is consummated. It has been rumored that the Oakland Red Hats may be interested in Joe Parke and that since the Jacksonville Beach club for Chien Gonzalez of 1-24-52 fell through, the San Birds are still in the market for Imbra, who they al-

## Leading Quintets Have Nation's Top Shooting Average

NEW YORK — Accurate shooting is still the best way to win basketball games, the NCAA services bureau contended today in pointing out that the five most accurate major colleges have an 88 per cent winning average.

Despite an upset loss to Syracuse Tuesday night, Niagara (16-4) has the highest average in the country, connecting on 44.3 per cent of its field goal attempts. Second is Seton Hall (22-0), top ranking team in the Associated Press poll, which has a 43.8 mark. Then come Furman (13-3) with 42.5, Seattle (20-2) with 41.7 and Western Kentucky (20-3), No. 9 team in the poll with 40.9.

The four shooting leaders also have been successful as a group. George Washington, the top scoring team all season with 87.1 points a game, is also No. 1 from the foul line, sinking 74.3 per cent of its shots. Second is Pennsylvania, Ivy League leader which has a 73.2 record, and third is Loyola of Chicago (19-11). Fourth is Washington, No. 3 team in the poll with a stranglehold on the Pacific Coast Conference, a 77-game winning streak and a 20-1 record second only to Seton Hall's.

The increased importance of accuracy is underlined by the constantly rising point production in the past, high scoring has often indicated greater quantity, not quality of shooting. But now the top scoring teams are, in order, George Washington, Seattle, Furman, Navy, Western Kentucky and Indiana, No. 2 in the poll.

Just how completely the ceiling is off on point making can be seen by these comparisons: there are 15 teams scoring 80 or more a game compared to one last year at this time; Oklahoma A. & M., the leader in defense, has allowed 52.5 points a game, Wyoming 54.4 and Maryland 51.0, while a year ago there were 27 teams at 55 or prep.

WEDNESDAY'S FIGHTS  
Chicago — Kid Gavilan, 146-lb., Havana, stopped Chuck Davey, 147, Detroit, 10. (For world's welterweight title.)

In the France of the Middle Ages "vaillance" meant "prowess in arms" and the word only gradually came to mean subservience.

most acrid last May for slinger Bill Martin, who was recruited to Greenville, S. C. before the transaction could be completed.

Meanwhile, last night discussion and examination of the working accord revealed that it would in no way interfere with the plans to operate the club for the For-nahl-Laughton Hospital, nor would any agreement change the local ownership like the Grant outright operations did from 1948-51.

Callahan promised prompt action to consummate the Sanford-Cardinal tie up.

## White Sox Players Depart For Drills

CHICAGO — Five early birds in the Chicago White Sox contingent will leave tonight for El Centro, Calif., to launch spring training Sunday.

Leaving by train tonight will be pitchers Harry Dorish and Jim Suckeck; outfielder Jim Rivera and Sam Mele; and catcher Bob Wilson, former University of Wisconsin football and baseball star.

Coach Lum Harris will join the group at Kansas City. Pitcher Lou Kretlow plans to go to school at Tucuman, N. M. Pitchers Saul Rogovin and Tommy Byrne, who have been ailing with the flu, will try to reach El Centro by plane Sunday.

The Sox received a surprise Wednesday in the return of the Wilson contract of Earl York, first base candidate who played with Tulsa last season. York previously has told the Sox he would play only semi-pro baseball this year, while working in an industrial job in Fort Worth, Tex. York was the 35th Sox player to sign.

## Sports Roundup

By GAYLE TALBOT

NEW YORK — The dog show has come to the Garden and gone without our having sought expert advice on a problem which threatens to leave lasting scars on one of the best bred poodles on Long Island.

What we had in mind to ask was whether a dog which is happy and well adjusted to begin with should be taught such tricks as fetching the morning paper off the lawn. There's probably something about it in the book.

The dog which is in danger of becoming unbridled is a cairn terrier, not much bigger than a breakfast food box. He's young and surprisingly bright—or was until this thing happened to him.

Well, a couple months ago a younger member of the family spent the better part of a Saturday evening in a state of nervous energy to tear out and bring in the paper. Once he got it through his head, you never saw a mutt more pleased with himself.

Then one morning there was no paper. Full of vim, our canine prodigy saved the yard a thorough frisking and returned a crushed dog. He was assured there was nothing for which he could be faulted, but he still crept into the most isolated corner he could find and whined softly through breakfast.

What happened, it developed, was that the newspaper delivery union had gone out on strike and that the trip might continue indefinitely. It might, on the other hand, end overnight, the principals indicated.

As a prelude to the paperless day followed paperless days, the nerves of our poodle pup became steadily more ragged. Telling him to relax did no good whatever. He insisted on looking, and each morning his considerable length of tail, which normally stands erect as a flagpole, was dragging a little lower when he finally got up.

Fearful that a complete breakdown was imminent, the family considered ways and means. No body wants to go shopping for a canine mental home. One suggestion was that a fake, or decoy, paper be planted the last thing each night until the crisis had passed.

This plan was discarded after considerable argument.

The upshot was that nothing was done, and our frustrated fido was permitted to go until a few days ago losing weight from his body and luster from his eyes. There wasn't a really dry eye in the house on the memorable morning he came wagging in with his mouth full of newspaper again.

The strike is ended and the little fellow is dry as a fast recovery, but there still remains the question we had hoped to propound to some of the more important members of the show dog set. Should we attempt to break him of this paper fetching fixation now or risk a recurrence?

Who knows but when the paper drier will try to again a couple of years from now? The pup is young enough to shake this experience off. Will he bounce back the next time?

## Field Of 168 To Tee-Off In Texas

Open Tournament

SAN ANTONIO — A field of 168, including four former champions, all tournament winners along the winter golf trail and the National Open and National PGA champions, started the search for gold and glory in the Texas Open today.

Jack Burke Jr. of Klamath Lake, N. V., who began a four-tournament winning streak here last year when he took the Open's first money with a great 280 for the 72 holes, was one of a host of favorites. Many like Burke's chances of repeating. He's an adept putter and the 6,400-yard Brackenridge Park course with a 36-35-71 par is the place where the best putter comes through.

They like Jimmy Demaret, also of Klamath Lake, too. Jimmie, three times runner-up in this hazy tournament—it was started as the first big money event of the winter tour back in 1922—has been the sensation of the tune-up rounds. He took Brackenridge's par cap in his first round and finished with regulation figures of 71 at the Oak Hills Country Club by six in pro-amateurs. Jimmie has been over par only one hole in 30 played.

And there's Chandler Harper of Portsmouth, Va., playing his last tournament for a spell. Harper, former National PGA champion, won second at Tucson and first at El Paso. Harper still favors a sore left forearm and will go home from here for a medical check-up.

Julius Boros of Midway, N. C., National Open champion, and Jim Turnesa of Bricefield, N. V., National PGA title, round out what is considered the strongest array in the Texas Open's history.

Former champions in the field are Burke; E. J. (Dutch) Harrison of Ardmore, Okla. who won in 1929 and 1951; Ed Oliver of Palm Springs, Calif., champion in 1947, and Dave Douglas of Newark, Del., who came through in 1949.

Another ailing long-fighter is Tommy Bolt of Maplewood, N. J., who is playing with a swollen right hand. Bolt had to withdraw at El Paso last week when his thumb was mangled by a swinging car door. He has undergone treatment and yesterday was able to play a round in 69.

## Nine Conference Leaders Get Byes In NCAA Drawings

KANSAS CITY — Nine conference champions will get byes in the first round of the National Collegiate Athletic Association basketball tournament.

Walter Byers, NCAA executive director, said today the first round games will be played March 9 at sites convenient to the participants.

The regional playoffs will be held March 13-14 and the finals March 17-18.

A total of 23 teams—14 league champions and 9 at large or independents—will take part. Idaho State is the only team qualified thus far. The Idahoans clinched their NCAA berth Tuesday. They beat Colorado College, 82-65, to clinch the Rocky Mountain Conference championship, thus automatically qualifying for an NCAA spot.

Idaho State will meet an independent team in the opening round. Other conferences whose champions will play first round games include New England Conference, Mid American, Border, and Middle Atlantic. All will have independent teams for opponents.

Champions of these leagues have first round hosts: Mountain States Conference, Eastern Intercollegiate League, Big Ten, Big Seven, Southeastern, Southwest, Missouri Valley and Pacific Coast.

The regional playoffs will be held at Raleigh, N. C.; Chicago, Manhattan, Kas., and Corvallis, Ore. In major games last night in western Seton Hall, sparked by Walt Duke's 26 point, best Siena, 62-49, for its 23rd straight victory. Princeton beat Cornell, 58-50; Harvard nipped Dartmouth, 50-46; to Hamline, 17-60; Navy nipped Penn. and a 17-game losing streak in the Ivy League; Colgate edged Villanova, 91-72; Notre Dame Army, 70-74; Holy Cross downed Louisville.

# Blues Vote To Launch Negotiations With Cardinals

**President Callahan Is Instructed To Consume Pact Between 2 Clubs**

By KENT CHETLAIN  
Directors of the Sanford Blues baseball club took the first step toward accepting the working agreement offered by the St. Louis Cardinals for the 1953 season by adopting a resolution to open negotiations with the Cardinals at the specially called meeting in the radio studios of WTRR last night.

President John D. Callahan was given the authority to contact the Cardinals immediately and assure them that the Sanford club was willing to accept the working agreement as soon as a few details have been worked out, such as the name and salary of the Cardinals-appointed manager.

The decision to accept the Cardinals offer came after an open meeting and discussion with the six Blue officials and six interested citizens which was followed by a closed session and a vote by the directors and officers of the Sanford Club.

John Kridler, former Blue general manager, opened the meeting by turning the letter and newsclippings to the directors and officers.

The working agreement, which was sent to Kridler by St. Louis farm director Joe Mathias over the week-end, offered to field an entire team of Cardinals farm hands, recommended an unnamed manager from Winston-Salem, offered to send the Blues with a substitute check of \$500 a month, while guaranteeing the Cardinals the right to purchase back their own players from the Blues for a sum not to exceed \$2,500 at the end of the season.

In the agreement the Cardinals asked the Blues to pay no traveling expenses for all players and to pay the spring training board and room of the Sanford designated players at the St. Louis minor league spring training camp at Allany, Ga.

During the general discussion the various points in the agreement were hashed out point by point and the members of the club resulted in a prevailing feeling of general approval of the pact with some minor points to be ironed out, or clarified, by committee.

This morning Callahan said he was under the impression that the Blues favored the accord in general and would further information in order to consummate the deal.

The point of question arose last night over the manager the Cardinals proposed. Mathias failed to name the name in his letter to Kridler and indicated that while Sanford was not compelled to take the Cardinals recommendation, since the St. Louis club owned the Winston-Salem club, Mathias even asked the Blues how much they could afford to pay a manager which indicated, if Sanford would agree to accept the recommendation, the St. Louis club would make up the difference in salary to procure him.

Since under the conditions of the working agreement all the players would be furnished, it would permit the sale of the seven players now remaining on the Sanford roster carried over from last season.

The Blues will be free to dispose of the following players: Joe Parise, veteran first baseman who batted .305 and hit 11 homers with 92 RBIs; John Imbra, temperamental, flashy fielding second baseman who hit .302 and knocked out 9 homers; George Kenis, limited service outfielder- infielder-pitcher who hit .272 and had a 2-7 hurling record; Lewis Rivera, pitcher- veteran pitcher with a 1-1-1 record; Jesus "Chico" Gonzalez, limited service shortstop who hit .261; Murray "Cory" Howard, service pitcher with a 1-1-0 record.

In addition the Blues own Jesus "Chico" Gonzalez, limited service pitcher who posted the lowest earned run average on the club, .272, and had a mark of 18-14. Gonzalez, however, is in the Army at Fort Rucker, Ga., and will be unavailable for at least two years. Also listed on the Blues' roster, but on the suspended list is Demetrius "Vee" Brown, who had hit-line veteran reputation but formed the club after the first week last season when he was batting a miserable .108.

These players will probably be sold as soon as the working agreement with the Cardinals is complete. It has been rumored that the DeLand Red Hills may be interested in Joe Parise and that since the Jacksonville Beach deal for Chico Pinford is pending for a while, the Sanford club may be interested in the San Diego club, who they al-

THE SANFORD HERALD  
Page 1 Thurs. Feb. 12, 1953

## Leading Quintets Have Nation's Top Shooting Average

NEW YORK (AP)—Accurate shooting is still the best way to win basketball games, the NCAA service bureau contended today in pointing out that the five most accurate major colleges have an 88 per cent winning average.

Despite an upset loss to Syracuse Tuesday night, Niagara (16-3) has the highest average in the country, connecting on 43.3 per cent of its field goal attempts. Second is Seton Hall (22-0), top ranking team in The Associated Press poll, which has a 43.8 mark. Then come Furman (13-3) with 42.5, Seattle (20-2) with 41.7 and Western Kentucky (20-3), No. 9 team in the poll with 40.9.

The foul-shooting leaders also have been successful as a group. George Washington, the top scorer in the Ivy League which has a 43.2 record, and third is Loyola of Chicago (31-1). Fourth is Washington, No. 3 team in the poll with a stranglehold on the northern division title in the Pacific Coast Conference, a 17-game winning streak and a 20-1 record second only to Seton Hall's 24-0 mark all season with 87.1 points a game, is also No. 1 from the foul line, sinking 74.3 per cent of its attempts. Second is Pennay; Indiana, No. 2 in the poll, has a 73.2 record, and third is Washington, No. 3 team in the poll with a 72.1 record.

Just how completely the ceiling is off on point-making can be seen by these comparisons: there are 15 teams scoring 60 or more a game compared to one last year at this time. Oklahoma A. & M., the leader in defense, has allowed 52.5 points a game, Wyoming 51.4 and Maryland 51.9, while a year ago there were 27 teams at 55 or below.

Jack Burke Jr. of Klamath Lake, N. Y., who began a four-tournament winning streak here last year when he took the Open's first money with a great 260 for the 12 holes, was one of a host of favorites. Many like Burke's chances of repeating. He's an adept putter and the 6,000-yard Brackenridge Park course with a 36-35-71 par is the place where the best putter comes through.

They like Jimmy Demaret, also of Klamath Lake, too. Jimmie, three times runner-up in this hoary tournament—it was started as the first big money event of the winter here in 1922—has been the sensation of the tune-up rounds. He took Brackenridge's par captive by seven strokes and tipped regulation figures of 71 at the Oak Hills Country Club by six in pro-amateurs. Jimmie has been over par only one hole in 36 played.

And there's Chandler Harper of Portsmouth, Va., playing his last tournament for a spell. Harper, former National PGA champion, won second at Tucson and first at El Paso. Harper still favors a sure left forearm and will go home from here for a medical check-up.

Julius Boros of Midland, N. C., National Open champion, and Jim Torrance of Detroit, Mich., National PGA titleist, rounded out what is considered the strongest array in the Texas Open's history.

Former champions in the field are Burke; E. J. (Dutch) Harrison of Ardmore, Okla., who won in 1939 and 1951; Ed Oliver of Palm Springs, Calif., champion in 1947; and Dave Douglas of Newark, Del., who came through in 1919.

Another ailing top-fighter is Tommy Bolt of Maplewood, N. J., who is playing with a swollen right hand. Bolt had to withdraw at El Paso last week when his thumb was mashed by a swinging car door. He has undergone treatment and yesterday was able to play a round in 69.

## St. Louis Browns Open Spring Drills

Marty Marion's St. Louis Browns open their spring training camp today.

Virgil (Fire) Trucks, veteran right hander, who pitched two no-hitters for Detroit last year, was the first to arrive. He told Marion he wants to start with the early birds and get into condition fast, and he hopes he's going to have a good year.

Among the other arrivals yesterday were outfielder Vic Wertz, who came to St. Louis from Detroit in a big winter swap last year, and Gene Harden, outfielder Dick Kokos, catcher Babe Martin, pitcher Harry Brecheen and lefties Jim Upchurch and Harry Wilson.

The Browns expect to have 30 men in camp by the end of the week.

Over at Glendale, boss Casey Stengel watched his yanigans play in the University of Southern California with a coat of white wash. The Yank youngsters are working out in advance of the regular Yankee spring training stint.

## Nine Conference Leaders Get Byes In NCAA Drawings

KANSAS CITY (AP)—Nine conference champions will get byes in the first round of the National Collegiate Athletic Association basketball tournament.

Walter Byers, NCAA executive director, said today the first round games will be played March 9 at sites convenient to the participants.

The regional playoffs will be held March 13-14 and the finals March 17-18.

A total of 23 teams—14 league champions and 9 at large or independent—will take part.

Idaho State is the only team qualified thus far. The Idahoans clinched their NCAA berth Tuesday. They beat Colorado College, 62-66, to clinch the Rocky Mountain Conference championship, thus automatically qualifying for an NCAA spot.

Champions of these leagues have first round byes: Mountain States Conference, Eastern International League, Big Ten, Big Seven, Southern, Southeastern, Southwest, Missouri Valley and Pacific Coast.

The regional playoffs will be held at Raleigh, N. C.; Chicago, Ill.; Manhattan, Kas.; and Corvallis, Ore.

In major games last night unbeaten Seton Hall, sparked by Walt Dukes' 20 points, beat Siena, 62-41, for its 23rd straight victory; Princeton beat Cornell, 58-56; Har-

vard nipped Dartmouth, 50-46, to Hamline, 77-66; Navy nipped Penn. and a 17-game losing streak in the Ivy League; Colgate edged Villanova, 91-72; Notre Dame Army, 76-74; Holy Cross downed whipped Louisville.

## Business Community Watching All Signs To Indicate Future Trends

**By SAM DAWSON**  
**NEW YORK**—The economy appears so strong at the moment that an increasing number of businessmen—worriers by nature—are paying more attention than usual to the weak spots beginning to show.

They figure that the economy is nearly balanced on a high fence. And they wonder which way the cat is going to jump—and when.

Commodity price weakness—and declining farm income—attract most attention right now. Farmers had less money to spend in 1932 than they did in 1931. And prospects are for more of the same this year. Businessmen who sell to farmers are worried.

And many who don't are also beginning to ask: If farmers spend less, will this trend be catching—say, among industrial workers?

Another spot of potential weakness, in the view of many financial leaders, is the record high level of private and public debt. The present prosperity supports it comfortably. But what will happen if a slump?

Prospects of much sharper competition also are being watched by many industries. Auto sales forces, for instance, are being alerted to

the coming fight to get the consumer's dollar.

The buyers' market in many lines will become a hard fact by the end of the year, warns Howard L. Franks, manager of sales personnel and control for the chemical division of General Electric. He tells the marketing conference here of the American Management Association that management must start now cutting costs of effective selling—or lose out in the coming year.

At the American Bankers Association's mid-winter trust conference here, Dr. Marcus Nadler, New York University finance professor, tells delegates to watch the signs of weakness in the economy. He says it's impossible now to tell which way the cat will jump.

The association's president, W. Harold Brenton, Des Moines, Ia., bank president, councils both business and government to draw up plans now to cushion the shock of any slump that might develop.

But the signs of strength in the economy are still very much with us.

The American Iron and Steel Institute reports that January set an all-time record for steel production in any one month—13,280 tons, a gain from the furnaces and mills every hour in January, for a total of 9,888,000 tons.

The steel industry says orders are still holding high. Its chief immediate worry is that the union may be seeking another wage boost in the months ahead. The industry claims that would force another price rise.

At the retail level, there are cheerful reports from the chain stores. For instance, the December's upturn in sales carried over into January.

## Lack Of Patronage Peace Big Barrier To Party Harmony

**By JACK BELL**  
**WASHINGTON**—The Eisenhower administration has failed thus far to make patronage peace with members of Congress and a political blowup may be in the offing.

Despite attempts by Wesley Roberts, the new Republican national chairman, to iron out the kinks, some senators and congressmen remain highly displeased, although they aren't saying so publicly.

One Republican senator from an outwestern state told this reporter that thus far he has not named a single man to any of the jobs filled by the new administration, although he has added four men from his state to have been appointed to relatively important Washington jobs.

He said he learned about two of the appointments in advance only by accident and was called on the phone to ask if he had any objections to other selections that already had been made.

At the same time, he said, no person from a list of suggested appointees he had submitted had received any kind of a job.

The issue revolves around the point that the senators and congressmen want to pick their own men and generally don't give a political fig for mere notification that somebody from their state is going on the payroll. Of course, they want to be notified, too.

Most of those picked for Washington jobs have been men against whom the senators involved don't care to complain publicly, even though they would have liked to see someone else a close political friend, perhaps get the appointment.

But some changes in the judiciary are coming along soon, to fill vacancies caused by death, retirement and creation of new judgeships.

There the senators can turn thumbs down on nominees they don't like. And Administration officials apparently have been told that the senators are going to have something to say about picking new judges or else.

THE PRESIDENT AND MRS. EISENHOWER here with Barney Raban, university Abraham Lincoln's headquarters, proposed to abolish slavery. The ceremony took place in the Lincoln Park of the New York Presbyterian Church in Washington, D.C. Mrs. Raban, whose husband donated the Lincoln paper, presided at the ceremony.

## Wallpapering Job Will Be Easy Task With New Adhesive

**By EDWARD S. KITCH**  
**AP Newsfeature**  
**CHICAGO**—Hanging wallpaper may will be easier for the amateur decorator.

That is a dream come true for millions of "one-armed" paper hangers, and Joseph Seguin, 46, spent the last two years developing a revolutionary wallpaper adhesive. Put directly on the wall, the adhesive enables an expert job to be done with no fuss, mess or rearranging of the room.

Seguin, a wallpaper manufacturer at Hammond, Ind., says the job can be done with simple tools. With the new adhesive, all one needs are a paint roller, a clean cloth to wipe the paper on the wall and a razor blade for trimming.

Seguin says he has applied for a patent on his adhesive, which is made with a resin base. He demonstrated his new product during the Winter Furniture Market at the Merchandise Mart.

The new stuff is water soluble and can be reactivated by soaking it with water for easy removal at any time. For a wallpapering job, siding is hotted professionally by each strip. The wallpaper design is headed out, made right-side up, to reduce mistakes.

Seguin said he and a chemist friend tested the adhesive for 14 months under intensive testing conditions. He reports that a major mid-winter house tested it for six months and has accelerated it for over-the-counter sales in all 48 states.

The adhesive is packaged in quart and gallon containers. It is prepared ready to use.

Seguin suggests that the adhesive and these three simple steps make wallpapering the easiest method of room decorating.

1. Pour the adhesive into any flat kitchen pan or the quart or gallon container if available at paint store.
2. Apply it on the wall with the roller which spreads it evenly. Begin at the upper left-hand corner of the room with your plumb line in place.
3. Then hold a roll of pre-trimmed wallpaper in the left hand and slowly unroll it down against the adhesive-covered wall. Press it at the bottom of the roll and cut wallpaper with a razor blade at the baseboard. The next board will be applied the same way.

A special feature of the new adhesive is that it does not dry immediately. Suspension lasts for 30 to 60 minutes, permitting the wallpaper to slip in place against the edge of the first strip. This enables matching of wallpaper patterns at a lower price. The paper easy to put on and easier to take off. Taking paper off the wall is the big bugaboo of the decorator.

"The new adhesive makes wall papering the big bugaboo of the decorator."

**Convicted Gambler Sues His Attorneys**

LAKELAND (AP)—A Polk County gambler who got three years in the state penitentiary for a \$125,000 suit against the lawyers who represented him on those charges.

Emmett H. Canaker alleged in the suit that E. P. Martin and D. M. Martin, Plant City, did not defend him properly under terms of a \$10,000 agreement.

Canaker said they induced him to plead guilty to charges of attempted bribery of a public official and conspiracy to operate a lottery. His complaint alleged they promised to help him again free through appeals and a pardon.

Canaker said in the circuit court action, filed here Tuesday, that the Martins did not appeal the case to the supreme court, took no action to get a pardon and did not represent him in efforts to get back \$2,000 seized in raids in 1931.

Canaker sent the complaint by mail from Buford State Prison where he is serving the three-year sentence. He contended damages are due him for loss of cash income, mental pain, loss of his home and loss of companionship of his family.

**Hopes Brighter For Higher Citrus Price**

LAKELAND (AP)—Hopes of higher prices for Florida citrus followed today in the wake of a government report forecasting price increases of the size of the orange and grapefruit crops.

The U. S. Department of Agriculture Tuesday placed the Florida orange crop at 77 1/2 million boxes, 2 1/2 million less than estimated in January and down 7 1/2 million from the first estimate for the 1932-33 season.

The new grapefruit estimate is 31 million boxes, compared to 22 million in January and 23 million at the start of the season.

Generally when a government estimate drops there is a stronger demand for the remaining fruit and consequent boost in prices. Just how soon any increase will come to help the grapefruit slump is a question, Robert C. Evans, general manager of the Florida Citrus Commission, said. Prices for grapefruit going into fresh fruit channels have dropped to where some growers are barely getting back the cost of production.

Changes have been made well but any increase in returns is always welcome. The tangarine estimate remained at 4,700,000 boxes.

Thirty thousand German troops were utilized by the British against America in the Revolutionary War.

**US Seeks To Refute Communist Charges**

PRAYDA'S REPORTERS TELL ALL ABOUT DIXIE

FRANKFURT (Germany)—The U. S. State Department authorized a statement today that the intensive wartime bombing of Dresden, Germany, by American and British airmen was done in response to Soviet requests and was cleared in advance with Soviet authorities.

The statement was published as East German Communists prepared a mass "Hate America" demonstration in Dresden Friday on the eighth anniversary of the bombing when 100,000 persons were reported killed.

The Dresden demonstration is sponsored by the Russian occupation authorities who ever since the war have tried to turn East Germans against the West by blaming the Dresden bombing solely on the British and American airmen.

Pravda's readers were told today that Southerners in the United States consider them the only real Americans and refer to Southerners as "Dixie Yankees" both in conversation and in writing.

A consideration of life in the South is traced back to Prayda by two correspondents of the official Communist party newspaper who are writing the story.

The correspondents said they included in their story a white youth named Seguin who was walking down a street in New York when he was stopped by a Negro. The Negro said he had a letter for Seguin and asked him to take it to the Negro section of the city.

The youth was described as a "Dixie Yankee" and an "American offensive" against the Negroes. The correspondents said Seguin was afraid to talk with them in the Negro section of the city.

The youth, the correspondents said, took a street car and rode to the Negro section.

**Confederate Vet Has Many Offers To Wed**

AUSTIN, Tex. (AP)—Thomas Evans Riddle, 106-year-old Confederate veteran, has received 12 marriage proposals since action was started to break the estimated four million dollar will of the late Samuel D. Riddle.

Thomas Riddle claims he is a half brother of the late fortune owner of the famed race horse "Man o' War."

Persons who claim relation to Samuel Riddle have asked that he will—leaving the bulk of his fortune for the establishment of a hospital in Media, Pa., he said.

An attendant of the tomb here, Veterans Home here said the proposals came by letter from Missouri, Pennsylvania, New Jersey, Minnesota and Texas.

The attendant said Riddle, who is very feeble and nearly blind, couldn't read the letters, but he enjoyed getting them.

**New Test Will Help Identify Carriers**

TALLAHASSEE (AP)—The State Board of Health is offering county health units a new blood test for identifying typhoid carriers.

The carriers are people who are not themselves ill with typhoid fever but who bear the bacilli of the disease within their bodies and transmit them to others.

Only a small percentage of the carriers in Florida are known to public health authorities because they are so hard to discover. Their carriers are uncertain because they are discharged only from time to time, not constantly.

**Life of Lincoln  
Is Narrated By  
Famous Writer**

**Emancipator's Birthday Being Observed Over Country Today**

NEW YORK (AP)—This is the story of Abraham Lincoln's early life, told in his own words. The Great Emancipator did not write it in a single narrative, but Stefan Lorant, author of the book "Lincoln: A Picture Story of His Life" (Harper) and other volumes on American history, has performed the feat of piecing together the letters and writings of the president to compile from Lincoln's own words a narrative of his early life. All the words are Lincoln's (except the three bracketed ones in the later part of the second paragraph), but they are written at different times, but always together they read (I hope) as a continuous story.

The following is Lincoln's story: I was born Feb. 12, 1809, near where Hodgenville (where I am now), in a point within the few miles of La Rie, a mile or a mile and a half from where Hodges's mill now is. I know no means of identifying the precise locality. It was on Maine Creek.

My parents were both born in Virginia, of undistinguished families—second families, perhaps I should say. My father, at the death of his father, was but six years of age, and he grew up literally without education.

My mother, who died in my 16th year, was of a family of the name of Hanks, some of whom now live in Adams, and others in Mason County, Illinois.

Before leaving Kentucky, I and my sister were sent, for short periods, to all schools, the first kept by Zachariah Hise, the second by Calvin Hise.

I can remember our life in Kentucky; the cabin, the stunted trees, the sale of our possessions and my journey with my father and mother to southern Indiana. We removed to what is now Spencer County, in the autumn of 1816. I then being in my eighth year. This removal was partly an account of slavery, but chiefly on account of the difficulty in land titles in Kentucky.

We settled in an unbroken forest, and the clearing was a hard task. I was very young, and my father, at my age, and had an axe put into my hands at once, and from that time within my 23rd year I was almost constantly handling the axe as a tool—less, of course, in planting and harvest seasons.

Our new home was a wild region with many bears and other wild animals still in the woods. There I took an early start as a hunter, which was never more proved afterward. A few days before the completion of my eighth year, in the absence of my father, a flock of wild turkeys approached the new log cabin, and one of them, standing inside, shot through a crack and killed one of them. I have never since pulled a trigger on any larger animal.

I was pretty plaining times at first in Indiana, getting the cabin built, and clearing for the crops, but presently we got reasonably comfortable.

NEW YORK — Ladies, do you feel that the female of the human species on the way out? This fascinating possibility of a woman's world is no mere urban dream puffed up by a mere crowd of mad men. The average man today may never be able to make the use of his brain, but he is able to do so. That is, he is able to do so in a way that is not only profitable but also enjoyable. He is able to do so in a way that is not only profitable but also enjoyable. He is able to do so in a way that is not only profitable but also enjoyable.

Women who have brought this new world into existence on the way out of the male world have not only brought it into existence but also have made it a reality. They have made it a reality by their own efforts and by the efforts of others. They have made it a reality by their own efforts and by the efforts of others. They have made it a reality by their own efforts and by the efforts of others.

Women who have brought this new world into existence on the way out of the male world have not only brought it into existence but also have made it a reality. They have made it a reality by their own efforts and by the efforts of others. They have made it a reality by their own efforts and by the efforts of others. They have made it a reality by their own efforts and by the efforts of others.

**Dutch Damage Is Put At Billion Dollars**

THE HAGUE, The Netherlands, Feb. 12.—The Dutch government has today announced that the first official estimate of the damage from the recent Dutch floods in Holland amounts to a billion dollars.

With the Dutch nation as much as the world, the dollar does not seem to be doing so well at the moment. The exchange rate of the dollar against the Dutch guilder is at its lowest since the war, and the Dutch government reports that 265 million dollars are needed to cover the cost of the damage.

The Dutch government has been instructed to inform the United States government of the extent of the damage and to request that the United States government should contribute to the relief of the Dutch people.

The Dutch government has also announced that it will accept any offer of aid from the United States government.

**Kefauver Proposes Help For Accused**

WASHINGTON, Feb. 12.—Sen. Kefauver (Dem., Mo.) has proposed legislation that would help persons accused of crime who are unable to pay for a lawyer. The bill would provide that if a person is unable to pay for a lawyer, the court should appoint one for him.

The bill would also provide that if a person is unable to pay for a lawyer, the court should appoint one for him. The bill would also provide that if a person is unable to pay for a lawyer, the court should appoint one for him.

Fair and colder this afternoon and tonight. Lowest tonight 30 to 35 and scattered frost in north portion, and 50 to 55 in interior of extreme south. Increasing cloudiness and slightly warmer Saturday.

## Pope Pius Seeking Mercy For Atomic Spies Facing Death

### Pontiff's Action Believed To Have Occurred Before Decision Of President

VATICAN CITY (AP)—The Vatican newspaper said today Pope Pius XII has interceded for Julius and Ethel Rosenberg, the atomic spies sentenced to death under a law passed by the United States, seeking mercy for them.

Vatican sources said they believed the pontiff's action occurred well before President Eisenhower rejected clemency for the Rosenbergs on Wednesday.

Previously, the pope interceded for the atomic spies in an announcement in L'Osservatore Romano, the U. S. has no diplomatic representation at the Vatican and President Eisenhower's press secretary said in Washington "neither the State Department nor the White House has received any notification on this subject." He said he did not know whether such a clemency plea had been received by the Truman administration.

Emmanuel H. Bloch, attorney for the Rosenbergs, said he welcomed news of the pope's intervention. The Rosenbergs are Jews and the Communist press has been claiming that their sentence for their death is to be set soon.

Pope Pius interceded on their behalf in a brief, top of page one, item in L'Osservatore, which the Vatican often uses to release information it wishes made public. The wording made clear the pope's action was being discussed because of Communist press insinuations that the pope was not interested in the fate of the Rosenbergs.

While the pope not uncommonly intercedes on charitable grounds to try to save human lives, normally such intervention is kept secret, Vatican informants said.

"The Vatican never cited two reasons why it was almost certain the pope's action came some time ago—well before President Eisenhower's final refusal of clemency. They said the pope often uses to release information it wishes made public. The wording made clear the pope's action was being discussed because of Communist press insinuations that the pope was not interested in the fate of the Rosenbergs."

## Israel Blames Red Intimidation For Latest Rift

### First Official Reaction To Diplomatic Break Is Revealed

TEL AVIV (AP)—Israel's first official reaction to the rupture in Soviet-Jewish relations today blamed the rupture on a Kremlin desire to intimidate the estimated 2,500,000 Jews still behind the iron curtain.

Rebelling an earlier press comment here, a foreign office spokesman declared:

"The true purpose is the utter desecration and intimidation of Soviet Jewry, for whose fate grave anxiety is felt."

The Soviets, in a sharp note to Israel, had blamed the rupture on the bombing of the Russian legation in Tel Aviv, in which three Russians were injured—none fatally. They also accused Israeli leaders of inciting hostile actions against the Soviet Union.

Israel Prime Minister David Ben-Gurion previously had denounced the bombing as a "senseless outrage" and offered apologies and compensation. The Moscow note, however, dismissed these offers as attempts by Jewish officials to cover up their responsibility.

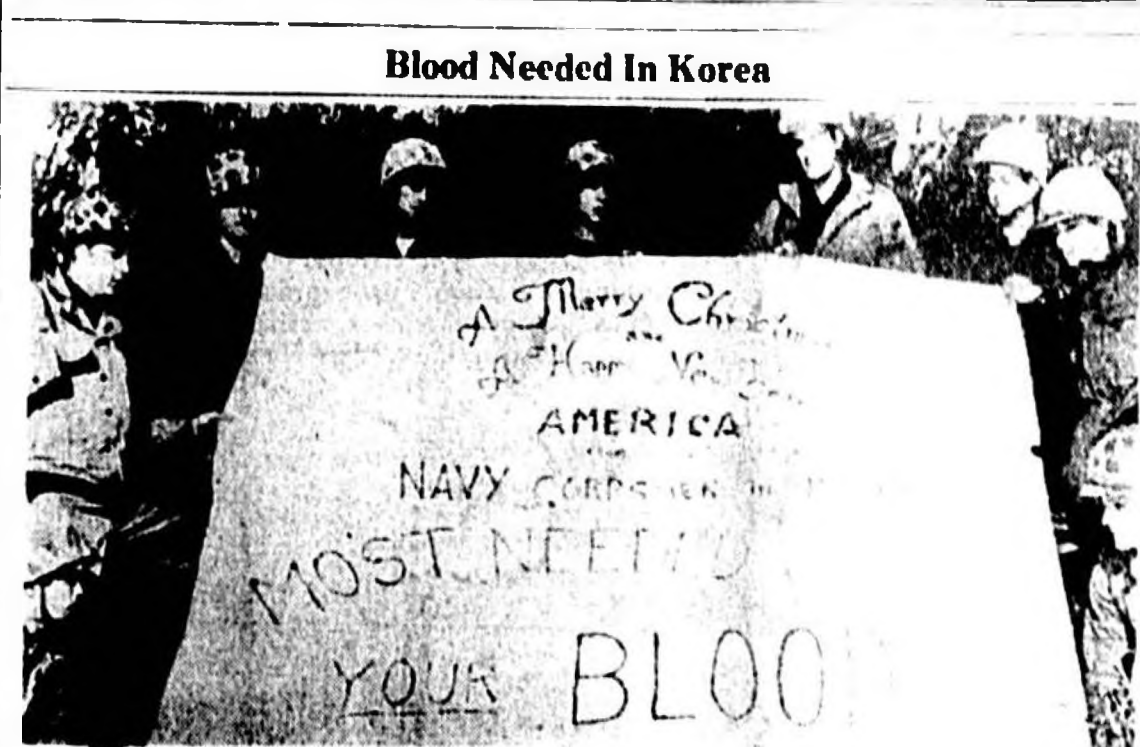

The foreign office spokesman said the Russian decision to break relations was "in effect the culmination of a campaign of virulent slander and outspoken hostility against Israel, the Zionist movement, Jewish organizations, and Jews as such, which has been conducted within the Soviet bloc for a long time past, and has within the last few months been ominously gaining momentum."

By mid-morning, the Soviet legation here still had made no application for exit visas and given no indication when its staff and family members would be permitted to leave the Kremlin's call here.

However, Mrs. Claudia Yershov, the Soviet minister's wife, made a midnight visit to Ben-Gurion, a small village on the outskirts of nearby Jaffa where most of the legation staff live.

A covered dish supper and the regular business session will precede the flag ceremony at the tourist building at 6:30 p.m. Group singing and games will follow the ceremony.

A report of the recent shuffleboard tournament and the results of the contest Longwood and Sanford teams which will be given Tuesday afternoon will be given.

Navy hospital corpsmen in Korea dramatize the need for blood from people back home. They realize the inestimable value of blood donations because it is their job to save the wounded in Korea. The monthly Armed Forces blood donor day will be held here Tuesday with hours from 8:00 a.m. until 1:00 p.m. Prospective donors may contact the American Red Cross office, telephone No. 50. Drawing of blood will be conducted at McKinley Hall. Another blood-drawing will be held next week on Thursday at the Sanford Naval Air Station for Navy personnel and civilian employees at the base.

## Bomber Crashes Near Labrador Killing 3 Men

### Another Wreck Near Tokyo Claims Lives Of Eight Americans

FORT WORTH, Tex. (AP)—A Caravel - based B-24 bomber crashed and burned 16 miles from Eastland last night, Labrador, just before midnight last night, Labrador.

Three crew members were killed, six suffered major injuries and eight others were slightly injured, Caravel Air Force base officials said here today.

The giant bomber returning from a flight to England, was making a scheduled stop en route to Caravel.

First reports from Goose Bay indicated the bomber was preparing to land when the accident occurred.

The weather was reported to have been clear and unrestricted. A C-47 flew to the scene and a two-man rescue team jumped to render aid.

Deep snow prevented the landing of aircraft and early Friday morning Air Rescue Service helicopters evacuated the dead and injured.

The plane was one of 14 returning to Caravel. Two others remained in England as planned.

## Fresh Barrage Of Criticism Turned Loose On Secretary Of Agriculture

WASHINGTON (AP)—Democratic senators turned a fresh barrage of criticism on Secretary of Agriculture Benson today. Sen. Eastland (D-Miss.) said farmers had not voted for a crusade to "pull the rug" from under them.

Hardly was the senate session underway this afternoon before Eastland hit into a speech Benson made in St. Paul, Minn., outlining the new administration's farm policies. It already had come under attack from other members of Congress.

Benson said that government price supports should be used to insure against disaster and not to encourage uneconomic production. He, however, pledged to carry out price guarantees provided by law.

Eastland observed that Benson had stated his goal by saying that the "great crusade" proclaimed by President Eisenhower to reduce farm production was under way.

But Eastland and very many farmers in the reported Eastland speech, the "crusade" to reduce farm production was under way.

Sen. Maybank (D-S.C.) took to task Benson for the election returns were no mandate for a program of insurance against disaster and not to encourage uneconomic production. He, however, pledged to carry out price guarantees provided by law.

Eastland observed that Benson had stated his goal by saying that the "great crusade" proclaimed by President Eisenhower to reduce farm production was under way.

## Three New Members Initiated Into Elks

Three new members were initiated into the Elks Club at their meeting last night, Leo Butler, secretary, said today, which was attended by the vice-president of the Florida State Elks Association, William Knight, Coosco.

New members are John J. Mueller, Charles E. Meeks and Earl H. Allen.

At the Elks, chairman of the subcommittee, made a report concerning plans for a benefit concert which will be conducted at the club Tuesday night at 8:00 p.m. The concert is being given in aid of the club's fund-raising drive.

The Elks Club is located at 92 S. Barbecue will be served starting at 8:30 p.m. Mr. Butler said.

Proceeds of the concert are to be used for the Elks crippled children's home at Umatilla, he said, where 60 children reside.

An Easter egg hunt is being planned for a later date. Tentative plans are to have another for children of Sanford.

## Fire Control Tower At Longwood Ready

Seminole County now has more adequate protection from forest wildfires with the recent construction of Longwood Tower, Ranger Joe Carroll said today.

Completed with modern two-way radio and commercial telephone, Longwood is the second tower and supplements Seminole Tower in the spotting of wildfires in the county.

G. H. Otto was appointed as towerman and began work on Jan. 23.

Ranger Carroll asked for the cooperation of residents of Seminole County, who he said can help by calling one of the following persons if they see a woods fire, or if they are planning to do burning on their land:

G. H. Otto, towerman, Longwood Tower, phone 26-2060, Winter Park; Joe Ramey, ranger, phone 198-70, Sanford; Alvin Johnson, towerman, phone 4151, Oviedo.

## Only One Showing Of "Enterprise" Film

Only one showing of the short feature, "Enterprise," which deals with industrial progress of a small Georgia community will be made tomorrow at the Ritz Theater, Robert Harris, manager, said today.

The film which lasts about a half hour, will be shown, free of charge to the public, tomorrow at 12:00 noon.

The short feature, sponsored by the Sanford Industrial Board and brought to Sanford through the efforts of the Chamber of Commerce, shows how Buchanan, Ga., with a population of 540, raised \$20,000 to put up a building which later was leased to the Arrow Shirt Co. as a factory site. Resultant improvements in the town also are shown.

## TRUCE VIOLATION CHARGED

MUNSAN, Korea, (AP)—Red liaison officers at Panmunjom today charged that an Allied patrol broke into the neutral zone surrounding the truce site last night and shot a Communist security guard in the hand.

They also charged that another U. N. patrol invaded the neutral zone Tuesday night and shot and burned an occupied house and two sheds.

Col. William Carlisle, U. N. command liaison officer, told the Reds to produce evidence and the U. N. C. would investigate.

Panmunjom has been virtually deserted since truce talks were broken off last October.

## SHRINE SPEAKER

Ray Kennedy former big league baseball player, now operator of the Automatic Laundry, will be the guest speaker tonight at the meeting of the Sanford Shrine Club, slated for 7:00 o'clock at the Montecarlo Hotel.

## ON BOLLING PROGRAM

WINTER PARK (AP)—Gov. Earl L. Morris, India's ambassador to the United States, writer and former editor and shipping executive, will be among speakers at the Bolling College Animated Magazine Feb. 28.

## Controls Scrapped On Steel, Copper and Aluminum Products

### Pat Ward Says Jelke Beat Her Scores Of Times

### Witness Declares Her Love For Him Kept Her From Leaving

NEW YORK (AP)—Red-haired Pat Ward said today that she had loved Mickey Jelke beat her scores of times but she wouldn't leave him because "I was very much in love with him."

Jelke, 25, is on trial charged with forcing Miss Ward and two other young women into prostitution today and then being off Miss Ward's profitable earnings.

General sessions Judge James L. Valente has barred the press and public from hearing testimony today. So witnesses can't hear what their lawyers and witnesses will say out of the courtroom into the corridors.

Today's scene was the same as nearly each day in the week-old trial. Miss Ward, 19, entered wearing a demure smile and simple costume with peler pin collar. She was accompanied by nearly 200 reporters, a hotel manager named J. Roland Sala who likes to be called "Joke" and is intensely interested in the trial and acting as a witness.

Both were immediately engaged in a wave of reporters.

Sometimes Miss Ward talks to the press and other times she is silent. Today she let her talk. She made the statement about Jelke beating her "scores of times."

Reporters: "How many times did Mickey Jelke beat you?"

Miss Ward: "I never kept count. I was very much in love with him. And I was afraid I received many threats. He threatened to shoot me if I didn't want to talk about it any more."

One of Jelke's attorneys, Martin Benjamin, declared that Miss Ward had testified before her into prostitution by repeated beatings. There has been no specific testimony on this point.

### Relentless Tide Threatens New Loss In Europe

### Critical Phase Being Reached In Effort To Hold Back Seas

LONDON (AP)—A relentless tide thundered against Britain's price and wage controls today as the Netherlands and Belgium today threatened a new battle with the United Kingdom.

On both shores of the North Sea, the battle to hold back the tide of inflation against the controls reached a critical phase today.

Britain, aided by the United States and eight other nations, has been waging a battle against inflation since the outbreak of the war. The battle has been fought on the home front and in the markets of the world.

Not only have controls been imposed on the home front, but they have been extended to the markets of the world. The United Kingdom has been waging a battle against inflation since the outbreak of the war. The battle has been fought on the home front and in the markets of the world.

### Three Basic Metals May Now Be Unreservedly For Civilian Economy

WASHINGTON (AP)—The Eisenhower administration today announced that it would unreservedly release for civilian use the three basic metals—steel, copper and aluminum—without restriction.

The ODM action also means that production ceilings, such as the 100 million limit on passenger jet production on each quarter, are lifted as of today.

The "controlled materials plan" of the Eisenhower administration will continue to operate on a "basis until June 1, 1954," Director Arthur S. Flemming said.

However, he announced some simplified machinery will be established to insure deliveries of the three basic metals to military and some other agencies.

The order will mark another step toward a free economy and free markets.

And with these moves toward dismantling the controls system, the government had laid some 200 price control workers for dismissal.

## Hobby Named Head Of Freedom Fund Campaign Effort

John J. Hobby has been named head of the campaign for the Freedom Fund, a permanent fund for the defense of freedom.

The Freedom Fund is a permanent fund for the defense of freedom. It is a fund for the defense of freedom. It is a fund for the defense of freedom. It is a fund for the defense of freedom.

## Funeral Services Held For Mrs. Peck

Funeral services were held on Tuesday afternoon at 3:00 p.m. for Mrs. A. S. Peck, who died on Feb. 8 in an Orlando hospital. The services were conducted at her home at 818 Palmview Avenue. Mrs. Peck had lived for approximately 60 years. Interment was in Lakewood Cemetery.

## Flag To Be Given By Mrs. Carl Eisenhower

Three Scouts in uniform, Cub, Boy and Explorer, and John Pierson, Scout chairman of the Seminole district, will present a gift American flag Tuesday night from Mrs. Carl Eisenhower, Williamsport, Pa., to Roderick McDonald, president of the Sanford Tourist Club.

## Herbert Prevatt To Attend Convention

Herbert C. Prevatt, Sanford representative of the Interstate Life and Accident Insurance Company, has qualified to attend the annual convention of the company being held Mar. 4, 5, 6 and 7 in New Orleans. The group will meet at the Hotel June. In order to participate in this yearly convention an agent must produce a specific amount of new business and have a high average of collections during the year.

## Luncheon For Demos Is On Ike's Schedule

WASHINGTON (AP)—President Eisenhower plans to have all the Democrats in Congress for lunch at the White House, sooner or later, in addition to all the Republicans.

It's just coincidence that the first of a series of bipartisan bread breaking comes on Friday the 13th.

Invited today were 10 Republican and 10 Democratic House members. The luncheon was the new President's only appointment today. The White House said he hoped to catch up on paper work.

White House ushers said Eisenhower has started the heaviest flow of legislators to the presidential table since the days of another Republican chief executive, Calvin Coolidge.

Coolidge had scores of senators and House members of both parties to the White House at a long series of breakfasts. A thirty-verse menu, he once remarked to the press, cost about \$100,000.

Eisenhower's original announced plan was to limit his congressional luncheon guests to members of his own party. But the White House announced yesterday that he now hopes to include all the House members and all members in the Senate.

Other representatives from Central Florida who are qualified are O. A. Cannon and Anna Howard of Orlando; J. A. Thompson of Florida; H. L. Marshall, Central Florida district manager, and J. H. Bass, Central Florida trainer will also attend.

## GRAND FIRE

Firemen answered a call early Tuesday afternoon to a grass fire at Melvilleville and Randolph Avenue. The fire was extinguished by the Central Florida Fire Department.

## Another Sanford Industry

City Manager Tom Lemon, right, made good his endorsement of the new garbage can rack, which was invented recently by Sanford's Tim Crawford and Alex Smith, by making the first purchase from Gordon Sweeney, center, in front of Sweeney's Gift Shop on Magnolia Avenue this week. Forrest Brockenridge, left, manager of the Seminole Chamber of Commerce, expresses his pleasure with a broad grin as the initial sale is made of the Seminole County invention. Mr. Smith and Mr. Crawford have distributed about 50 of these racks for sale on an experimental basis in Sanford and Orlando. They are constructed in Smith's garage on Route 17-92 and built by the same firm, Smith who created the famed "Snapping" Turtle power mower.

## NEW GARBAGE CAN RACK

NO MORE UPSET CANI  
NO MORE RUTTING BOTTOMS  
designed & manufactured  
in Sanford  
SUPPORT A HOME TOWN INDUSTRY

## Movie Time Table

RITZ  
"The Story of Robin Hood"  
1:08 - 3:11 - 5:21 - 7:32 - 9:40  
MOVIELAND  
"Indian Uprising"  
6:40 - 7:17 - 8:32, last feature 9:19

## Hand Meeting

The Band and Orchestra Association of Seminole High School will hold its monthly meeting Tuesday night at 8:00 o'clock at the band hall. Mrs. W. L. Vance, secretary, said today.

The general meeting will be preceded by a board meeting at 7:00 p.m.
