#### Restriction Investments

The suggestion that may be compelled by law to make three-fourths of their inclines, admittedly will work no hardship on the vast suggesty, these where includes action down from ten thousand a year. Neither will it, though it is not so generally admitted, affect in any material way those incomes that scale upward from ten thousand, those, for instance, in the million dollar a year class.

With few exceptions, exceptions which are usually characterised as "misers", everyone spends all, or nearly had income oven though it runs into tremendous figures. It is only in the event that this "proposed" law figures. It is only in the event that this proposed in further defines what a man may spend his income for that it would become burdensome and obnoxious to the very rich and suffortunate for the public.

Suppose, for instance, that the law should provide that

Suppose, for instance, that the law should provide that a man must spend 75 percent of his income on his food, clothes, household furnishings and other ordinary living eigenses. A man with a million dollar a year income to eat, \$750,000 worth of food a year, or to spend such an amount on other consumable goods.

We believe a certain Mr. Brewster demonstrated the difficulties involved in spending a million a year in a well known work of art known as Brewster's Millions." No matter her beautiful their respective code authorities.

The effect of the order would be this:

An automobile manufacturer who is a member of the NRA and subject to code authority prices.

We believe a certain Mr. Rewater demonstrated the difficulties involved in spending a million a year in a well known work at art known as Brewater's Millions. No matter how favorable their resting stables, very few millionstress can contrive to spend how fash to be favorabled, very few millionstress can contrive to spend how fash to be favorabled, very few millions can contrive to spend how fash to be favorabled, very few millions can contrive to spend how fash to be favorabled, very few millions can contrive to spend how fash to be fashed to their resting stables, very few millions can contrive to spend how fash to be fashed to their resting stables, very few millions can contrive to spend how fash to be fashed to the fash to be fashed to the fash to be spend on their resting stables, very few millions can control to see a manufacturer on their resting stables, very few millions can control to see a manufacturer on their resting stables, very few millions can control to code authority prices and track. Under the new fash to be successful to the construction of office buildings, the buildings of home, we saw seed to design the fash to be successful to the construction of office buildings, the building of home, we saw seed to construct the code authority to the code authority of the construction of fash to the seed of the top of the construction of the very fash to the code authority.

The suggestion would certainly appear to Come to the work of the code authority.

The suggestion would certainly appear to Come to the work of the code authority of the construction of heavy goods industries. It is certainly sort in fash water required by law not to invest them in government would into the code authority.

The suggestion would certainly appear to Come to the public contract. Again he income per in the top the code authority. The suggestion would be to fash the code authority of the construction of heavy goods industries. It is certainly sort in fash water required by law not to invest them in government would inth

erament bonds is supplying the money with which FERA activities are actually carried on. And the man who spends a large part of his income on the construction of a new office building is helping to make FERA appropriatons Unnecessary.

It seems to us it would be better to encourage people The More Deal was not the first to spend more of their money on construction and development to alphabet some. There's ment, than to pass a law compelling them to spend 75 percent of their incomes on themselves.

#### Take That Vacation

There was at least one part of President Roosevelt's speech the other night which we feel sure will appeal particularly to the tired business man, "It is a good thing,"
the President said, "for everyone who can possibly do so
to get away for at least once a year for a change of scene." at British case that it would No one who has known the burden of constant application the present in to a difficult job will be-grudge the President his well carned vacation to the Hawatian Islands.

It is equally true that everyone who has been working hard during the past few years should try to get a little rat and relaxation in some convenient resort. One does not have to go to the Hawaiian islands, to New York, or even to the mountains, to find the change of environment to beneficial in a vacation. A fishing pole, a conch hat, and

One should not neglect these vacations too long. person who is working hard does not realize the extent to some illness, and then it is apt to be too late to do anyvacation may not do him much good.

## WHY A COMMUNITY NEWSPAPER

Theodore | Receivable was once asked, during a friendly discussion of relative value, to name three things which he would consider most essential to his welfare about he be marconed on an uninhabited island. His answer was most significant when he said:

"First, I would dealer my family Beauth my hometown newspaper. Third, my gun."

The fact that his home-town namespaper came accord in importance to his family speaks volumes for that institution and it is not altogether strange that a person

er strange that a person

altogether strange that a person fill Rossewith perception of values should make this choice.

The community newspaper is securitally a serial, history, and biography, combined, of the people and symme in the territory which it surces Through its succeeding volumes the community's progress retrogression—a unconstructive progression—b unconstructive percentaged. It makes its subsenders problems its own

designed for public benefit, and it opposes with equal determination that which is detrimental. It is the clearing-house for opinions ex-pressed by expert and reader,

The community newspaper oc-cupies a traditional place in the existence of its home town parallel in importance to the school and the church. It is an integral part of the realization of pioneering effort to constructive living, the mouth-piece of an enterprising and pro-gressive element of national life. The spirit of neighborlinenss is engaged by the familiarity with which it treats im family of readers; its flexible editorial poli cies permit of the same reportoriortance. And at the same fine

ment departments of the difficulty in obtaining materials because of uniform bids submitted

#### CLOSING BOOKS FOR THIS YEAR

ation is currently anything but 4th.-Adv.

The rather striking recovery in England, where industrial produc tion has topped 1928, is perhaps scarcely comparable with the per ord in the United States, for Engand was enjoying no such boom as ours in that year. The entire post war period was one of much complaint in Great Britain. In France, the depression struck later than in most other leading countries, and recovery thus far has been unimpressive. The Japanese situation in a special one, reflecting severe carrency depreciation and the in flationary effects of her expensive military campaign in China.

World recovery generally appears to have set in during 1932. The banking crisis early the next year gave the United States a setback, which may account in part mers Advisory Board of the for the indication that 1928 indus trial activity may not as yet have been so closely approached here. It occur only in those prod- should also be pointed out that index figures of industrial production for the various countries are not based on identical factors, and are therefore comparable in only a very general way

Among the smaller countries' Sweden has been enjoying a mod est boom, with industrial produc tien getting up to 105 percent of the 1928 level. The gold bloc coun tries generally have not been making much progress. Belgium, with

## The FLAG goes by!

HATS OFF! Symbol of a mighty organization, a whole people united in a common cause, the flag goes by!

Since man first left the chase and the nomadic way of existence, and settled down to living, he has looked to some standard which represented his ideals, The spirites a second control of the second second

The Egyptians and the Assyrians carried staffs bearing emblems. The Persians bore an eagle fixed to the end of a lance. The Greeks had a piece of armor on a spear. The Romans had their vexillum and, later, their labarum of purple silk embroidered with gold.

The organized way of life has always had its ensign. Today, the great manufacturing companies that provide the means of existence—food, clothing, shelter -have their standard, their trademarks of which they are as jealous as ever was any people of its flag.

Hats off to the modern trade-mark-symbol of reliability square dealing, guarantee of your money's worth! Whatever you buy, be sure it bears a familiar, advertised trade-mark, and you can be sure the money you spend for it is well-spent.

Buy advertised goods. You know they are reliable
