THIS five-and-one-half foot diamond-back rattler, with six buttons, was killed with a .22 rifle by Jim Muck (right) in the city limits of North Orlando. With Muck at the time were Ray Ayala (left) and Tom Haze. (Herald Photo)

MAP to be adopted with North Orlando's new comprehensive zoning ordinance is on display in the village clerk's office. Specified zoning classifications for all areas of the entire incorporated municipality are shown in detail.

Zoning Law Airing Set At N. Orlando

By HAYMOND WAHE
First public hearing on North Orlando's new comprehensive zoning ordinance, Ordinance 44, is scheduled for 8 p.m. Wednesday in the village meeting hall.

Husband Admits Defeat

ROCKFORD, Ill. (AP) — Hank Paris often boasted to his wife Colleen that he could take care of their six boys "standing on my head."
"No longer."
He placed this ad Thursday in the Rockford Morning Star and Rockford Register Republic: "Colleen, hurry home. I admit I can't take care of the boys standing on my head. Hank."

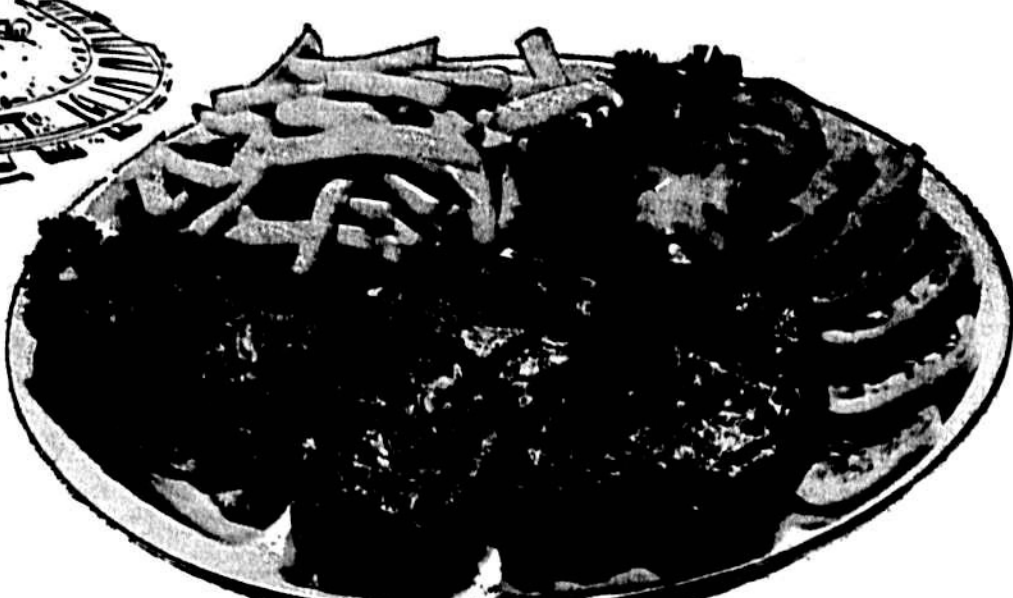

Colleen is in a Rockford hospital where she gave birth Monday to their first daughter.
Regardless of Hank's plea, Colleen's doctor says she cannot come home until her baby is born.

AROUND THE CLOCK

By LARRY VERSHEL
AFTERMATH OF THE RACIA
The way to treat sunstroke... wrap the patient in a blanket... prop his feet up, give him a shot of ammonia and call an ambulance...
When I grow up I'd like to be a crowd counter... Some say 25,000... Some say 25,000...
How do you know? You count the toes of every one and divide by two.

AND SOME MORE... Two people were treated for sunstroke at the complex... (counted about 200 boats on the outskirts of Lake Monroe watching the festivities...
Near Castle Brewer Court... Ah, I wish I were 21 again...
Come to think of it I wish I were 21 again...

In the merry old year of 1950 the city built a small recreation center in the Goldsmith area...
Near Castle Brewer Court... Nobody used it and so it was abandoned...
Tonight our city fathers will discuss borrowing \$10,000 on a five-year basis for a new center there...

Here's the latest from the fishing capital of the world...
The two big winners in the fishing derby yesterday at the Regatta were Beth Anderson of 812 W. Seventh St. and Willie Patterson, 1962 Poplar Ave...
As a matter of fact there were only two fish caught...
Beth, age 15, caught a four ounce rattler... and Willie, 54, landed a mummichog one pound bass...
And so we leave the fishing capital of the world...

How come \$100 is included in the budget of Seminole County Community Action, Inc. for the next fiscal year for attorney? Are they going to hire an attorney at \$18 an hour when their president and one of the board members are attorneys? ...
Even the volunteer worker for Seminole County Action doesn't work for free according to the budget of the poverty organization. The volunteer worker will receive \$1,500 for 1,000 hours work at \$1.50 per hour. That is still somewhat less than \$5 an hour the director will be earning, so we shouldn't complain, I guess...

About nine days ago the city received a letter from industrialist Jean Paulucci saying he would pay half of that \$12,000 paving project... The city had not even acknowledged the letter. It was marked "confidential" and apparently will remain so...
Crowds also jammed the Regatta yesterday while visiting the zoo yesterday. Wouldn't it have been nice with a new zoo? Of course, the city cut that out of the budget...
As a matter of fact they also cut out added maintenance to the present facility...
Some \$2,000 for a laborer...
A sailor knocked his car into Onsen bridge early this morning...
Sorry to report the car was wrecked but the bridge still stands...
City garbage truck took off a part of "Doby" Eggs building yesterday to the tune of \$200...
One teacher at Paula School handles 20 youngsters while at Westside there's a teacher taking care of 40 children...
When the Firestone interests tear down that old paint shop (Continued on Page 2 Col. 3)

Plante Says County Killed Consolidation

Any possibility of the consolidation of Seminole County and its six municipalities and other communities into one political subdivision was "killed" by the Seminole County Commission early in the Legislature session just closed.
This was pointed out this morning by Sen. Kenneth Plante (R-Altamonte Springs) when he and other members of the Seminole-Orange legislative delegation returned after five months in Tallahassee. "Seminole County Commission requested legislation setting up a study commission on consolidation," Plante said adding that "the County Commission refused to put a price on it. We had considerable correspondence on the question but the county absolutely refused to place a maximum dollar sign on the study commission."
Plante pointed out that John Alexander, county commission chairman, and Harold Johnson, county attorney, "sat in" with the legislative delegation at Tallahassee early in the session.

Rep. John Ducker (R-Winter Park), said Plante "continually pressed Alexander to name a maximum amount for expenses for the study commission but Alexander hedged" by saying no such figure was necessary.
"How did we know," Plante questioned, "whether the Seminole County Commission might hire a New York expert at a quarter-million dollars? So, we killed the proposition."
Senator Plante expressed the opinion the Legislature, which closed Friday, "did some good." He pointed to article 7 of the proposed revision of the Constitution which will give more jurisdiction... "more authority"... to the counties in home rule.
In local legislation the Republican lawmaker pointed to legislation supporting the Seminole County Port Authority and to charter revisions for the various municipalities.

MIAMI (AP) — The National Hurricane Center said today it was tracking two weak tropical depressions in the Atlantic Ocean, the weaker of which was about 600 miles east of Cuba and the other was about 700 miles east of the French Antilles.

Building Valuations Near Million

Building permits for Sanford and Seminole County totaled close to a \$1 million for August, officials reported today.
In the county there were 100 permits issued for a valuation of \$810,732. The big permit issued was for a new service station on Hwy. 17-92 for \$40,000.
Last year for the same period there were 65 permits issued for \$34,000.
In Sanford, valuations totaled \$670,000 with 58 permits issued. The biggest permit was for a service station on Florida Ave. for \$30,000.
Last year for August there were 40 permits issued but valuations totaled only \$29,732.

County Seeking Free Rights-Of-Way To Tie-In Grapeville With Onora

Inclusion of the extension of Onora Road westward and northward to tie in with Grapeville Avenue in the county road program for the next fiscal year appeared today to hinge on whether rights of way for the project can be obtained through donation in the next few weeks.

County Engineer William Bush told the Herald the Onora Road extension would be in line with the city of Sanford's long-range plan for several years. "It would provide a way to tie in with Grapeville Avenue in the county road program for the next fiscal year appeared today to hinge on whether rights of way for the project can be obtained through donation in the next few weeks."

Kirk And Teachers Sparring Over Cash

TALLAHASSEE (AP)—Youngsters in new back-to-school clothes ended their long summer vacations today as their elders warred on two fronts in the battle over money for Florida's schools and teachers.

Gov. Claude Kirk was to present his long-awaited formula for solving Florida's educational problems on statewide television tonight.

On another front, 2,000 teachers who have signed resignation forms, were to meet in Broward County for a strategy session.

Both same as school reopened in half of Florida's 67 counties.

Gubernatorial press secretary Jim Wolf said Kirk's television address would last 28 minutes.

EDMUND S. Kaminski, son of Mr. and Mrs. Stanley G. Kaminski, 19 Hibiscus Drive, DeBary, was commissioned an Army second lieutenant upon graduation from the Engineer Officer Candidate School, Fort Belvoir, Va. (Army Photo)

Broadcasters Plan Strike Of ABC And NBC

MIAMI BEACH, Fla. (AP)—A broadcast union said it plans to call a strike that could affect all live programming on the NBC and ABC radio and television networks after the network rejected the union's "rock-bottom" terms.

The minimums turned down Monday during negotiations in Miami Beach included a four-day work week for 2,000 members of the National Association of Broadcast Employees and Technicians, AFL-CIO, according to Tim O'Sullivan, a NABET spokesman.

O'Sullivan said the starting time of the strike would be announced in a news conference at 2 p.m. EDT today.

The introduction of the new television season, which begins tonight, was not expected to be hampered by a strike. Regular series are taped in advance.

24-Hour Marches Planned

MILWAUKEE, Wis. (AP)—Milwaukee's marathon marching band will be on a "round-the-clock" basis, Dick Gregory said today as he marched a band of 100 demonstrators along the city's northwestern boundary.

The "round-the-clock" marching technique began Monday night after demonstrators who were vowed they would add steam to their campaign with a school boycott today.

While Gregory and 100 marchers continued to keep city police occupied, the demonstrators reentered the city and set up headquarters and rest at St. Paul's Roman Catholic church in the predominantly Negro Inner Core.

"The longer we march, the longer the match, the longer the match, the longer the match," Gregory told newsmen.

The Chicago-based Negro comedian said he has canceled three months of engagements and would "stay in Milwaukee as long as I'm needed."

The demonstrators have walked more than 100 miles from New York City to Milwaukee, where they are expected to be interrupted only for rallies, strategy meetings and speeches of sleep.

They added to the burden of their police escort Monday night by splitting into two columns, one of about 500 persons led by Father Gregory and one of about 500 headed by Gregory.

The Florida Education Association, which counts more than 80,000 of Florida's 60,000 teachers in its membership, was pessimistic about Kirk's plan. Kirk, who calls the FEA a union using union tactics, says the plan to raise pay and to discuss local problems. Broward teachers, he said, would be encouraged to ask county legislators to push for a special session on education.

The FEA is demanding a special legislative session to approve higher pay and to discuss local problems. Broward teachers, he said, would be encouraged to ask county legislators to push for a special session on education.

FEA Executive Secretary Dr. Phil Constans said mass teacher resignation could come in November if a special session on education has not been called by then.

"Some time our effort will reach a peak, a point when we've done everything we know to do," Constans said Monday. "If, at that time we will have failed, we will submit our resignations and leave."

Constans said a steady stream of resignations was pouring into the FEA offices in Tallahassee. He said the resignation forms were mailed to all teachers in Florida public school systems and teachers were told signing them was an "individual decision."

So far the FEA has invoked sanctions against Kirk and the legislature and held a "protest" annual day Aug. 24 which was attended by more than 30,000 members. The teachers roared their approval when FEA leaders called for mass resignations at the Orlando meeting.

Two Florida newspapers, the Orlando Tribune and the Tampa Tribune, have said the governor's program calls for a \$300,000 study but no money for salary increases and a special session.

Kirk's program, the newspapers said, would create a 2-year moratorium to study the state's education needs. The commission would be headed by New York consultant firm, the Academy for Educational Development, the newspapers said.

31 Persons Die In Plane Crash

GANDER, Nfld. (AP)—A Czech jetliner with 69 persons aboard crashed in a ball of fire shortly after taking off from Gander for Cuba today. The Canadian Mounted said 31 persons were killed, 5 are missing and 23 were injured.

The Soviet-built Ilyushin 18 had stopped here to refuel on a flight from Prague, the Czech capital.

The controller in the tower at Gander International Airport said he had talked to the pilot after the plane lifted off. He said there was no indication of trouble.

"I didn't see what happened," he said. "The first thing I knew was when I saw a ball of flames hit the ground. The ground was lit up by the flames. It was a frightful sight."

The plane came down in a patch of woods two miles from the runway near railroad tracks that skirt the airport. The crash occurred at 2:40 a.m.

The injured, identified as Czechs, Poles and Cubans, were being treated in the hospital here, but arrangements were being made to transfer 13 persons suffering third-degree burns to Halifax for special treatment.

The dead included the plane's pilot and copilot and two other crewmembers. The engineer, radio officer and two hostesses survived.

Helicopters of Eastern Provincial Airways and the Newfoundland mines and resources department headed for the crash scene shortly after the accident and began shutting bodies and injured back to the airport.

The helicopter pilots said the jetliner was deep in mud when they arrived and they had to ferry lumber to the site for use in prying the twisted fuselage out of the mire.

One pilot said several bodies were found under the tail section and rescuers were finding bodies every few minutes.

"There's nothing left of it," he said. "There's nobody alive out there now."

18 Killed In Holiday Traffic

MIAMI (AP)—Eighteen persons had died on the state's highways as the long Labor Day weekend came to a close Monday night.

The total was one fewer than the Florida Highway Patrol predicted would die during the 72-hour period.

CHICAGO (AP)—Highway traffic took a heavy toll in deaths during the three-day Labor Day weekend, but the total for summer's last holiday fell short of the record set a year ago.

The 588 deaths reported at the end of the 78-hour weekend at midnight local time Monday compared with last year's record Labor Day toll of 636, and with a toll of 523 on a recent nonholiday weekend.

Although late reports were expected to raise the final 1967 Labor Day toll, a National Safety Council spokesman said Monday, "It appears we're going to do better than last year."

The council had predicted that 500-600 persons would die in car, truck or motorcycle accidents during the period which began at 6 p.m. Friday. Last year's toll was the worst for any Labor Day since statistics were first compiled at the end of World War II.

The largest death toll for any American holiday—732—was set on the Fourth of July weekend this year, a four-day period. The 1967 Memorial Day weekend, the same length, also was a record-setter in terms of highway deaths with 608.

The Associated Press recorded 533 highway fatalities during the holiday weekend of Aug. 31-Sept. 2. The same survey also revealed 14 deaths in boating mishaps and 37 by drowning.

Although cool temperatures and inclement weather prevailed in many parts of the nation, boating accidents claimed 15 lives and 22 persons drowned over Labor Day.

Four Boaters Saved, 20 Hours In Ocean

CAPE KENNEDY (AP)—Two Florida couples, who at times thought one member of their party was dead, clung to a capsize boat in heavy seas for nearly 20 hours before they were rescued from the Atlantic off Cape Kennedy Monday.

One man, Ernest Austin, was knocked unconscious when the 22-foot fiberglass boat flipped over a mile and a half from shore and was caught in ropes in the helm. The ropes held his head up in an air pocket for a half hour.

"All I can remember is waking up and wondering where I was," Austin said. "My first thought was that everyone was dead."

The other three, Mrs. Austin and Mr. and Mrs. R. F. Schneider, were clinging to the top of the boat and believed Austin was dead.

"Connie (Mrs. Austin) just kept crying 'Where is he?'" Mrs. Schneider said. "I thought for sure he had drowned."

Schneider said he and the women scanned the turbulent waters for Austin who had been presumed a news conference at 2 p.m. EDT today.

"Then about 20 minutes later, when Austin regained consciousness we heard a knock coming from under the bow," Schneider said.

Israel Accuses Jordanians Of Wounding Two

By THE ASSOCIATED PRESS

Israel accused Jordanians of firing on Israeli soldiers during the period which began at 6 p.m. Friday. Last year's toll was the worst for any Labor Day since statistics were first compiled at the end of World War II.

The largest death toll for any American holiday—732—was set on the Fourth of July weekend this year, a four-day period. The 1967 Memorial Day weekend, the same length, also was a record-setter in terms of highway deaths with 608.

KNEE IN OUTDOORS

Monday was the first annual Monroe Harbor Regatta and with it was a fishing derby, besides a lot of other events.

Talked with Jim Crowe this past week and he went up to Tallahassee to talk with Gov. Claude Kirk, and in the five minutes that Jim had to talk with the Governor he pointed out the boaters that are in a newly published fisher's guide to Florida, and, partner, I mean some real boobies, like a nice big picture of a nice big mad fish and a wonderful girl fish.

Jim also talked to the head of the State News Bureau, Edna White.

The Game and Fresh Water Fish Commission began an experimental program to use a 200-year-old muskellunge set in Lake Doris by Ocala, recently, according to Harold W. Ashley, Commissioner for the Fifth District of the Game and Fresh Water Fish Commission.

This is a joint program with Lake County paying 50 percent of the total cost of the project. The same time that was purchased for Lake Griffin will be used on Lake Doris. Lake County will use funds collected from the \$1 increase in fishing license sold in Lake County. The \$1 increase came about by a local bill enacted by the 1967 Legislature for Lake County.

A total of 100 year boats will be made under the direct supervision of the Game and Fresh Water Fish Commission. Headquarters for operations will be the public boat ramp on Lake Doris across from Gilbert Park.

South Seminole Attorney, Bob Petree, opened the Red fish season recently with the first Red fish caught in Mosquito Lagoon. Job reports the big males are already moving into the lagoon and that should be followed by the females and fishing should be really improved. Same trip produced several nice trout.

DIRTY, DIRTY, DANGLE!
If you've ever seen "dangle" for trawls and bass in one area, you probably would have done some "jiggling" in another. In the west, this same technique of using a long pole and a short line under the water, called "dangle" fishing.

There probably are more names for fishing techniques than there are fish, yet the local descriptions vary in various methods often make you wonder if fishing is even involved. What's familiar in one section of the country is unknown in another.

"Casting" and "trotting" probably won't raise many eyebrows in the name descriptions, as most folks have tried that kind of fishing. However, some of the others which are covered may not be so well known.

Now "dunking" may apply to coffee and doughnuts in the city, but on a lake it's associated with minnow fishing, worms and doughballs. A winter steelhead fisherman goes "plinking" — an exciting exercise of lobbing salmon eggs into the current, plunking a bell-equipped rod in a hole, and hauling back to a warm bonfire. "Drifting" is the animated version of dunking a baited hook.

During cold weather, "ice stumping" is a popular sport which frays the nerves and gives your disposition to the city, which frays the nerves and gives your disposition to the city, which frays the nerves and gives your disposition to the city.

Whatever your choice or the name you give it, it's all fishing. However, don't ever try to change a name. That's sacred ground.

Hydro Boats Thrill Sanford Scene

SOUTHEASTERN REGIONAL POINT LEADER John Ormsley of Miami Beach ran into motor trouble with his 'Bald Eagle' and was unable to complete the race.

Engines raced, people cheered, as the First Annual Central Florida Regatta's hydroplane races got under way. Lake Monroe cooperated beautifully for a few hours, but as the sun started to set, the water became choppy and the drivers believe in playing the game safely.

Hal Wienges, the young 17-year-old driver from Miami, increased his National Point Series standing by winning the first heat. A very close second was Art McDougal, from Orlando, as he picked up 10 points in the category of the "45 hydro."

Stofa Is In! Griese Out?

Unheralded John Stofa, a retiree who almost quit football a year ago, today the Miami Dolphin quarterback job in his hands today while the New York Jets and San Diego Chargers awaited the leftovers — three high-priced youngsters.

Stofa was given the starting position Monday by Coach George Wilson after turning in the last game of the 1966 season and turning in the best performance of the four quarterbacks in exhibition games this year.

It means Bob Griese, the prize rookie from Purdue; Jon Brittenum, another rookie from Arkansas; or Dick Norton, a bonus pick from Kentucky, several years ago, will have to go when the Dolphins cut to the 40-player limit today.

The Chargers, who need a backup man for John Hadl after trading Steve Tensi, or the Jets, who need a replacement for injured Mike Taliaferro behind Joe Namath, reportedly are eager for Wilson's decision. They can claim him on waivers for \$100,000.

"We've tried to trade a quarterback, but all the other clubs know we're going to have to get rid of one," Wilson said, "so they're just laying back waiting for us to put one on waivers."

The guess is that Norton will be the man. Stofa, who spent 2 1/2 years in the minor leagues and was cut once by Miami and again by Pittsburgh, only got his chance last year when Norton broke his jaw.

Other AFL and NFL teams dropped players Monday, but most were unnamed until today. Only Baltimore revealed two of its six cuts — rookie defensive tackle Lee Anderson of Bishop College, Tex., and Bill House, picked up from Cleveland.

Buffalo lost tight end Bob McLeod, recently obtained from Houston, but the Bills don't know why. Tainted from a six-year veteran signed his contract Saturday and then left camp Monday without any explanation.

Falcons Cut Falcon, Going

A veteran, two second-year men and four rookies have been placed on waivers as the Atlanta Falcons trimmed their roster to a mandatory 40 players.

The cuts came Monday as the Falcons moved to comply with a 40-man deadline set by National Football League rules.

Some 2,000 persons bought tickets Monday for the final pre-season contest for both the Atlanta Falcons and the Georgia Tech Yellow Jackets.

Former Georgia Tech star Herb Rose had predicted a crowd of 60,000 for the game. Donald R. Smith, Saints public relations director, said 100,000 season ticket books also were sold Monday. The Saints have sold about 40,000 season tickets.

Oops! Sidelined

BALTIMORE (AP) — Rookie defensive tackle Bubba Smith will be sidelined with a knee injury when the Baltimore Colts visit Dallas for a National Football League exhibition game against the Cowboys Saturday night.

OVIED'S LIONS ... under the close scrutiny of Head Coach Herman Lofton (left) go through their daily scrimmages at John Courrier Field in preparation for their opener at Oklawaha on Sept. 16.

SEC Football Coaches Report

SEC Football Coaches Report. The National Point Series standings, Wienges had a good weekend in gaining additional points by winning first place at Ocala on Sunday and copying the flag coming in first in the First Central Florida Power Boat Regatta yesterday here in Sanford.

HAL WIENGENS ... is the National point leader in the 48 cu. in. Hydroplane. He was given the starting position Monday by Coach George Wilson after turning in the last game of the 1966 season and turning in the best performance of the four quarterbacks in exhibition games this year.

It means Bob Griese, the prize rookie from Purdue; Jon Brittenum, another rookie from Arkansas; or Dick Norton, a bonus pick from Kentucky, several years ago, will have to go when the Dolphins cut to the 40-player limit today.

Buffalo lost tight end Bob McLeod, recently obtained from Houston, but the Bills don't know why. Tainted from a six-year veteran signed his contract Saturday and then left camp Monday without any explanation.

Petty Is Batting Over 500 Mark In Stock Racing

DARLINGTON S.C. (AP) — Richard Petty continues to bat above the 500 mark in stock car racing as he is doing this year. The brilliant 30-year-old driver very well could put a career record on the books that never could be equaled.

Petty, driving his electric blue factory Plymouth, added to the Southern 500 by victory again Monday, finishing a second-place finish. He led for most of the race, but was overtaken by Bobby Allison in the final laps.

Some 2,000 persons bought tickets Monday for the final pre-season contest for both the Atlanta Falcons and the Georgia Tech Yellow Jackets.

Former Georgia Tech star Herb Rose had predicted a crowd of 60,000 for the game. Donald R. Smith, Saints public relations director, said 100,000 season ticket books also were sold Monday. The Saints have sold about 40,000 season tickets.

El Birdos Drop Two

By THE ASSOCIATED PRESS. The Braves to a quick lead. Atlanta rushed six runs across in the first inning of the nightcap and Chicago coasted.

The Cubs split a holiday doubleheader with Los Angeles Monday, winning the first game, 2-1 on Ernie Banks' 11th inning home run and dropping the nightcap 8-6 when the Dodgers rallied for five runs in the ninth.

The two games ended a string of four doubleheaders. In many days for the Cubs, Chicago split three of the twinnings and swept the other.

And if the Cubs thought they were out, consider St. Louis' pitching staff, which suffered through a 3-2 hit 10-8, 9-3 doubleheader loss to Pittsburgh Monday.

Elsewhere in the National League, Atlanta swept a pair from Philadelphia, 8-2 and 8-0. Cincinnati nipped New York 2-1 and San Francisco edged Houston 4-3.

Young Rich Ney pitched six perfect innings in the first game for Chicago and had a 1-0 lead with a three-hitter in the ninth inning. Then Los Angeles ripped a two-out homer, which broke the game and sending it into extra innings.

Banks' 21st homer of the year, leading off in the 11th, broke it up. Monday night at St. Louis, the Cardinals pitched in the doubleheader.

Lois Brock smashed three home runs in the doubleheader for St. Louis. Clay Carroll pitched his first complete game on the majors and came up with this pitcher for baseball experts.

What do the following mean? "What do the following mean?" "What do the following mean?" "What do the following mean?" "What do the following mean?"

Yanks Take 32nd Medal. TOKYO (AP) — The United States, given a record start by its swimmers and divers, completed its domination of the World University Championships by capturing a 32nd gold medal as the competition drew to a close Monday.

Madeline Manning of Tennessee State provided the form prize with a victory in the women's 80-meter run by a margin of 1/100th of a second over Canada's Abigail Hoffman in 2:06.8.

Japan, which won three of the eight titles decided on the final day, finished with 21 of the 86 gold medals awarded. Germany had eight, and the United States had 34 competing nations.

Kathy Wins. SPRINGFIELD, Ohio (AP) — Kathy Whitworth of San Antonio, Tex., defeated Carol Mann of the United States to win the 1967 World Series of Golf.

Red Sox Muff Their Chance Twins Split; Still Lead

By THE ASSOCIATED PRESS. Detroit, who also divided home runs, led the Twins to a 2-1 victory over the Red Sox Monday night at Fenway Park.

Luckily for the Twins, their pursuers in the American League pennant race, were running to daylight until Harmon Killebrew ran off the bases.

Cleveland's Chuck Hillman, who led the Twins to a 2-1 victory over the Red Sox Monday night at Fenway Park, led the Twins to a 2-1 victory over the Red Sox Monday night at Fenway Park.

Groundbreaking Slated Sept. 17 For Sanctuary

By JANE CASSELLBERRY
Plans for construction of the new sanctuary will be unveiled Wednesday at Casselberry Community Methodist Church following a 6:30 p.m. fellowship supper and papers will be signed negotiating a plan with South Seminole Bank.
Participating will be Jack Toole, president of the bank, architect J. J. J. Jones, members of the building committee, officers and trustees.
Groundbreaking ceremonies for the new edifice are scheduled for Sunday, Sept. 17, at 12:30 p.m.
Rev. T. Howard Norton, district superintendent, will preach at 8:30 a.m. and 11 a.m. services prior to the ceremony.

'Flying Saucers' Prove English Students' Hoax
LONDON (AP)—Six 10-pound "flying saucers" found in a limestone quarry in England were made and planted by students at Farnborough Technical College as a hoax.
Chris Southall, 21, who was terminated the project, said he and his class wanted publicity for their school's Reg Week during which they hope to collect \$5,000 for local charities.
Southall said he and 13 other students planted the silver-gray objects Sunday night at intervals of about 30 miles from the Thames Estuary to the Bristol Channel. Made of mottled plastic and fiberglass, about 4 by 3 feet, they sent out "bleep-bleep" signals and gave off a faint sizzle. Some flashed red and green lights.
"There was no panic or hysteria among the finders, who calmly informed the police."
One was flown by helicopter to the Royal Air Force station at Alnston for examination. Army bomb disposal men blew another open and found inside two British storage batteries and a British transmitter and loudspeaker to send out the signals.
Southall said the small came from a mixture of flour and water paste.
"Of course," said one official, "the boys could be accused of creating a public nuisance, but this seems very doubtful."

Convicts Build New Church

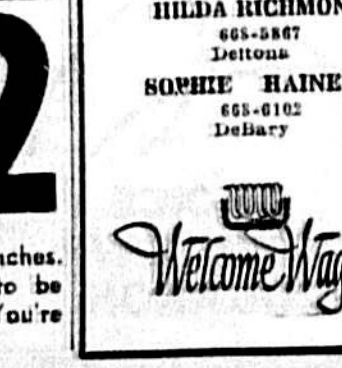

LAKE TOMAHAWK, Wis. (AP)—Eight men with time on their hands have helped complete a church construction project that lasted for years.
The eight inmates at South State Prison Camp volunteered their services in their free time. They helped hammer, saw, plane, sand, stain and cement and painting the Lake Tomahawk State Church. The church was built on a 10-acre tract owned by the Wisconsin State Penitentiary. The inmates were given extra credit for their work.
"After they do work some evenings," he said, "Mrs. Hickox, the pastor's wife, would treat them to a big feed—which they didn't mind a bit."

Work On Diet

VANCOUVER, B.C. (AP)—Two professors at the University of British Columbia are working on a \$200,000 project to discover perfect foods for anti-animal. If the project is successful, animals could be reared more economically and world hunger might be eased.

WE'RE FLATTERED, INDEED, BUT...

There's only one Welcome Wagon.
It's the only one that's been around for over 50 years. And as a much-improved organization, we're certainly flattered.
But as many have learned, the "measurable" technique too often tells about "the real thing."
So beware of substitutes, for there is no real substitute for the service of and the benefits provided through Welcome Wagon.

63 GIs Die In Heavy Fighting

SAIGON (AP)—The heaviest ground fighting in two months was reported today in allied war communique listing 262 Communist and 63 American killed, air strikes against a new target in the Hai Phong area and another Air Force jet shot down in the North.
The ground action erupted Monday as allied troops redeployed for battle after guarding South Vietnam's presidential elections. Fighting continued today, particularly in the northern zone adjoining the 17th parallel border.
American warplanes attacked three miles from the center of the North Vietnamese port of Hai Phong, and pilots reported dropping two spans of a major

ELECTED by South Seminole Junior High School faculty are Howard Harrison, Seminole Education Association representative, and Miss Vivian Hurston, Classroom Teachers representative.

490-foot bridge previously on the restricted target list and never before bombed.
Ground fighting in northern South Vietnam, the coastal plains, the jungles and in the Mekong delta shattered a hill that had been broken only by short, sporadic battles in the two months that the South Vietnamese, the Americans and the Communists had been preoccupied with the political campaign.
The election of Chief of State Nguyen Van Thieu as president may have ushered in a renewed test of muscle on the battlefield.
The heaviest fighting cost the Communist forces 160 dead and 23 prisoners in a dogged slug-gang match with U.S. Marines in the coastal plains, rice paddies and bamboo stands about 25 miles below the big American base at Da Nang.
The Marines estimated they had more than 1,000 of the enemy in an area where planes, helicopters, artillery and ground

fire could batter the Reds repeatedly.
Latest reports from the battlefield said enemy resistance was all but beaten down and gunships and artillery were sealing off the valley outlets to the plains while Marine tanks plowed into the fray.
Marine losses in 24 hours were 56 dead and 84 wounded and the fighting was continuing.
Air Force Navy and Marine jets carried the air war deep into North Vietnam with 127 raids Monday. The Marines pounded Red gun positions above the demilitarized zone, the Air Force hit rail lines leading from Hanoi to Red China and the carrier-based Navy planes swept into the heavily defended skies above Hai Phong.
The big target of the day was the untaunted live-span bridge southeast of Hai Phong, one of the two bridges leading south from the major port. The raid was an evident warning that the

other bridge southwest of the city also unembowed is now on the U.S. target list.
Cruiser and Skyhawk jets from the carrier Oriskany at sea lashed the bridge and returning pilots reported that two center spans each about 150-feet long were dropped into the river.
Hanoi Radio claimed that three American jets were lost in the Hai Phong raids.

In the merry old year of 1964 the city purchased the Woodruff Building property at First and Park for \$68,000. . . They used parking meter revenue to pay for it. City put \$10,000 in the property including paving. The next year the city took away the meters from downtown. . . Now, they are putting the lot on the market. . . Asking price \$75,000. . . But they will negotiate.

Commission Chops \$70,000 In Budget

Laying aside their budget axes for a few minutes, the City Commission last night yielded to the pleas of City Manager W. E. Knowles and voted to keep the refuse department intact for the new fiscal year at a figure of \$121,164.
It was considered a major victory for Knowles who has been battling for 18 years for first class refuse department.
During three budget sessions with the commissioners chopping over \$125,000, Knowles, who drew up the requests with department heads, usually sat in stony quiet.
Not so when it was the refuse department's turn.
"We're at the breaking point here," Knowles emphasized as he cited the need for a new crew and packer which would add some \$25,000 to last year's \$40,472 for the Industrial Commission. \$3,000 for hand-bill beautification and \$1,100 for the air station maintenance when the base is prorated out next year.
"We need \$120,000 for the year," he said, "and we need \$50,000 for a new truck and let the budget stand."
The board held off any action until the next budget meeting scheduled for Thursday night. Commissioners were cited figures from City Manager W. E. Knowles that revenue from both pools would be \$115,000 in the proposed 1967-68 budget.

Improvements Budget Ripped To Shreds

City Manager W. E. Knowles' capital improvement budget which totaled some \$750,000 was literally ripped to shreds last night by the City Commission. \$40,472 for the Industrial Commission, \$3,000 for hand-bill beautification and \$1,100 for the air station maintenance when the base is prorated out next year.
"We need \$120,000 for the year," he said, "and we need \$50,000 for a new truck and let the budget stand."
The board held off any action until the next budget meeting scheduled for Thursday night. Commissioners were cited figures from City Manager W. E. Knowles that revenue from both pools would be \$115,000 in the proposed 1967-68 budget.

City May Put Lock On 2 Swimming Pools

City Commission last night stressed he would favor closing both of them. "I won't close one and not the other," he said.
Both Al Wilson and W. V. Roberts spoke of the possibility of leasing both of the pools to civic-minded groups but Knowles said he wouldn't have any ball's chance in hell "in accomplishing that."

Charter Meet

The alternate Springs County Board will meet at 8 p.m. today to plan for town hall meetings informing the public on the charter vote Oct. 17.
Having just returned from a FEA leadership conference in Clearwater, Laver pointed out that the large counties' teacher groups feel FEA is not sufficient enough while other counties such as Orange and perhaps Seminole are lukewarm, feeling that FEA is going too far too fast. "The FEA is trying to alter the middle ground and hoping for the best," he added.
Commenting on Gov. Kirk's Tuesday night television speech, Laver agreed with the

Says Teachers Here Will Resign

By JANE CASSELLBERRY
William P. (Bud) Laver, president of the Seminole Education Association, told members of the Council of Teachers and Parents at South Seminole Elementary School Tuesday night in Casselberry that he believes that teachers should resign on mass and schools will be closed or taught by the parents. He pointed out it would take the resignation of 20 per cent to close the school.
Evidently believing that and justifying the news, Laver said that he is "willing to sacrifice two or three months of school to gain in the long run."
"There has been a lot of backsliding in educational responsibility from both the public standpoint as well as the legislative," he stated. In his talk which he tagged "non-partisan politics" he blasted the states educational problems on the fact that Florida's education since 1957 (two of which were democratic) pledged "no new taxes."
"State allotment to support public schools has decreased from 75 per cent state aid in

Garbage Wins Okay City Backs Chamber Funds

The City Commission, in a budget session last night, gave the Chamber of Commerce its wholehearted endorsement by approving its 1967-68 budget requests of \$14,200.
A delegation of Chamber officials, headed by President W. W. Matthews, stressed the impact of the Chamber on the community during the past year as he said: "Never has the Chamber needed your help more, more than ever before . . ."
The Chamber kept these projects alive and pushed them in their formative stages. Matthews as well as other officials said.
Bill Rees, chairman of the promotions committee of the Chamber outlined an ambitious campaign in conjunction with the Holiday Inn and marina to promote the area with some \$8,200 in advertising billboards stretched across the area. The Chamber will pay 40 percent of the cost, Holiday Inn, 40 and marina, 20 percent.
Some 13 signs would be erected spelling out the complex in Sanford.
The Chamber's budget is the same as last year, \$10,000 for operations of the office and promotions and an additional \$4,200 for billboard advertising. C. O. officials will also participate in the billboard advertising project which will include the State complex lease agreement to the tune of \$7,200.

Three Priorities Listed By County

Comprehensive plan for a \$1 million plus five year county road program will be discussed by the County Commission behind closed doors at several workshop meetings to be scheduled by the Board during the next three weeks.

Drive Gains Momentum For 520 Widening

The bill brought by Commissioner Robert Parker urging widening and resurfacing of 520 from Oviedo to the Florida Technological University, "to safeguard" growth in Seminole County north of the University gained momentum last night with full support of the Oviedo Town Council of the project.
County Commission Chairman John Alexander said today, "I have recommended the five year plan rather than an annual road program with the county engineer and county planner giving a professional analysis of the road needs. I hope the professional staff will have a long range program to submit to the Board for consideration prior to the time of adoption of this year's program."
Idea of a five year plan was greeted with the exclamation of "excellent" by County Engineer William Bush. "Even with the best of five year programs, new road needs would appear each year, so the plan must be flexible, it would be a step toward the right direction."
"Such a plan would take the planning out of the road program," Commissioner Robert Parker quipped. "However, I do not know if it (the five year plan) can be done this year. I could not find out myself into suggesting it until I go into it further."
Parker pointed out that a five year plan would most likely favor his district since the major growth over the next few years is expected there. "I would have to be flexible in preparing for changes where necessary," he said.
Parker cited the need in his district in the program for the new fiscal year of resurfacing of Tuskawilla Road from Red Bank north to Florida Power. The new franchise calls for an increase from three to four per cent franchise tax. Florida Power officials had deleted the section which previously had been questioned by the council concerning comprehensive administration when the franchise was issued.

Roberts To Resign Action Post

Dr. W. V. Roberts will quit as president of Seminole County Action tonight, he told the Herald today.
Robert DeFreese, vice president of the organization is expected to be named president if there is a quorum present.
"I definitely feel the growth of the area will be hindered if at least one road is not provided. I hope we can get \$200 done before or at least by the time the university opens in the fall of 1967."
It should be given top priority. This would fall in with the resurfacing of SR 128 and provide a link to the university," Parker declared.

Bulletin

WASHINGTON (AP)—President Johnson today named a Negro — Walter Washington, now head of New York City's housing authority — to be mayor of the nation's capital.

SJC Opening Day Roster At 1,400

Opening day Tuesday at Seminole Junior College brought enrollment to date over the 1,400 mark, with registration for fall time students still open through Friday and for part-time students through Monday.
Registration and admission offices, the business office, and the bookstore will be open from 6 until 8 p.m. today and Thursday, and again on Monday.
Most of Tuesday was spent in rearranging classes, working out problems of student parking, and in general, trying to get things off to a good start. Dean Robert A. Schreiber said today,

STOP and COMPARE...

CONSULT THIS SAMPLE PAYMENT PLAN when you shop for your car.

Amount of Loan	Monthly Payment With Life Insurance	Monthly Payment With Life Insurance
\$1,500	\$47.00	\$47.00
\$2,000	\$62.00	\$62.00
\$2,500	\$77.00	\$77.00
\$3,000	\$92.00	\$92.00
