

## Worry Clinic

Thanksgiving Day should really be Every Day for an American. Take a lesson below from the shameless pathetic Christ curd of leprosy. And never again be guilty of those "idle silences" that Benjamin Franklin describes. Join the Compliment Club and open your eyes to the beauty of this world.

BY GEORGE W. CRANE, Ph. D., M. D.  
CASE D-400: Rabbi G. George Fox is a popular Chicago clergyman.

He is now emeritus from the South Shore Temple, so he occasionally pinch hits for me in my Bible Class when I am out of town.

"Dr. Crane," he mentioned at our last luncheon, "I think church people are still far too selfish. In their prayers they ask many favors from God for their children and themselves, but often fail to give thanks."

REMEMBER, "THANK YOU" If you disagree with Rabbi Fox, then go back to your last meal. Did you say "Thank you, God," even in a brief whisper, let alone a formal spoken prayer?

And how many of you readers have even complimented your mother or father, wife or child today? How about yesterday and the past week?

Christ healed 10 lepers from what was a sure death sentence. But how many came back to say "Thank you, Master?"

Was it half of them? Or even 25%? No, only ONE, and he was an alien Samaritan.

"As we must account for every idle word," said wise old Benjamin Franklin, "so we must for every idle silence."

You and I are generally guilty of these "idle silences." We should have thanked God or praised our wife or complimented our child or stated our appreciation of something nice our co-worker or neighbor has done.

But we keep silent. At least, till the funeral, when we sadly wake up too late and then try to make amends via an extra lavish funeral wreath.

OPEN YOUR EYES When our 8 Crane children were young, they would occasionally grumble about the food on the table.

"He who grumbles has too much," I would then announce. They would later use that back on me, too, when I would grumble about something to Mrs. Crane.

But it is true of all of us. We Americans live like the royalty of most other countries, yet we gripe and complain or are guilty of envy and covetousness.

So let's resolve to open our eyes and look not upon the many wonders granted to us on this earth. Most of you readers are not ravaged with cancer and suffering.

### AEC Kicks Off Research Nuclear Test Program

WASHINGTON (UPI) — The Atomic Energy Commission exploded two small charges in a Louisiana salt mine today to kick off a program of research on detection of underground nuclear tests.

Each charge consisted of 20 pounds of non-nuclear high explosive. The AEC plans to detonate up to 10 charges, the largest to be about five tons.

The AEC firms are related to the Defense Department's Project Vela, a multi-million-dollar program to test the feasibility of detecting underground atomic explosions.

Chances of an East-West agreement to ban nuclear tests may hinge on the results obtained. Of particular concern is whether sneak tests could be carried out in such a way as to defy detection.

from the terminal pain that even morphine may not be able to banish. So be grateful.

Two million Americans can't see colors either of flowers or pictures or sunsets or birds. They are color-blind and view the world as if it were black & white TV. If you can see colors, be thankful.

Millions now can hardly hobble because of arthritis, or they are chair cases due to amputations.

Think of the paraplegics in our Veterans' Hospitals. Better say "Thank you, God!" for your own two feet, even if your knees creak when you walk on them.

You aren't starving, either, and you don't gnaw the bark of trees or forage in garbage pails, like many Korean orphans. So how about a "Thank you"?

Thanksgiving Day should be EVERY DAY for us Americans. So change your mental attitude. You can do it in a moment of time, as Scrooge did.

Please pay more compliments to your companions, as well as to God. It will soon become a habit, and also prevent your becoming a hypochondriac.

(Always write to Dr. Crane in care of this newspaper, enclosing a long 4c stamped, addressed envelope and 25c to cover typing and printing costs when you send for one of his booklets.)

# The Sanford Herald

WEATHER: Fair today and tonight. High today, 66-70. Low tonight 46-54.

VOL. XLIX United Press Leased Wire Established 1908 TUESDAY, DECEMBER 22, 1959 SANFORD, FLORIDA NO. 591

## Elks Expect 200 Kids At Party

The Sanford Elks Club expects about 200 children at the annual Elks Christmas Party Thursday, Gene Walters, chairman of the event, said today.

Invitations have been sent out for the big Elks party which is held each year for underprivileged children of the area, Walters said. The party will begin at 2:30 p. m. and presents and Christmas stockings will be distributed.

Presents for the party have been donated by Sanford Civic Clubs. The Elks will assist Santa Claus in distributing the gifts and will serve refreshments.

The Herald had a picture in Monday's edition which was described as being an Elks party. That event was sponsored by the Benevolent Patriotic Order of Does and was not connected in any way with this annual Elks party for underprivileged children.

## Dr. Harry Silsby Dies At His Home After Long Illness

Dr. Harry E. Silsby died early this morning at his home in Flora Heights after a long illness.

Born in Greenwich, Ohio, Dr. Silsby has practiced medicine in Sanford since 1946, when he came here following military service in World War II. He lived in New Smyrna Beach for about 30 years before his wartime service.

A Presbyterian, Dr. Silsby was a member of the Sanford Elks Lodge, the Masonic Lodge, the Morocco Temple of the Shrine and the Seminole County Medical Association.

Dr. Silsby is survived by his wife, Mrs. Jane Griffin Silsby; a son, Harry Z. Silsby Jr.; two daughters, Miss Linda and Miss Julia Silsby, all of Sanford; a son, John Silsby, of Jacksonville; a daughter, Mrs. Martha Ellen Hood, of Woodbury, N.J.; four grandchildren, and four brothers: O. P. Silsby of Houston, Tex.; C. K. Silsby of Cleveland, Ohio; Lincoln Silsby of Vero Beach; and Val Silsby of Hammond, Ind.

Dr. Silsby was the son of the late M. and Mrs. W. T. Silsby of New Smyrna Beach. Funeral services will be at 10:30 a. m. Tuesday at Brison Funeral Home with burial to follow at New Smyrna Beach.

## Woman Trudges Toward Proof She's Superior

LONDON (UPI) — A woman doctor trudged toward London on her 56th birthday today, hoping to end a 373-mile odyssey before midnight and prove she is a superwoman.

Dr. Barbara Moore was reported marching steadily along near St. Albans, only 90 miles from her goal.

Dr. Moore began her current walking program by heating the 110-mile record. Someone claimed she rode part of the way to she walked it again the next week.

Then she announced the 373-mile walk, saying she "would do what no man can do" and prove she is a superwoman.

## AF Recovers Body Of Pilot

CAPE CANAVERAL (UPI) — The Air Force said today the body of a pilot whose jet trainer plane skidded into the Banana River Monday has been recovered.

Capt. Forrest G. Gentry, 41, was attempting to land when his plane skidded off the south end of the runway at Patrick Air Force Base and plunged into the river.

## E. T. Hamil Funeral To Be Wednesday

Funeral services for Mr. Edwin T. Hamil will be at 2:30 p. m. tomorrow at the Chulouta Baptist Church, with the Rev. Charles Swagerty officiating. The Oviedo Masonic Lodge will conduct Masonic graveside services in the Chulouta cemetery. Mr. Hamil died Sunday.

## Youth Dance Jan. 1

The Sanford Youth Council will hold a New Year's Dance at the Civic Center from 7:30-10:30 Jan. 1. Admission to the dance for senior and junior high students is 25 cents stag, and 50 cents for couples. The Youth Council is composed of Seminole High students working with city recreation personnel.

CHANGE OF COMMAND ceremonies for VAH-5 were held at the Naval Air Station yesterday with Cdr. I. M. Rowell center, turning over command of the squadron to former VAH-5 executive officer Howard S. Moore, at left. HutWing One commander, Capt. J. D. Ramage, gave Rowell several commendations while Moore and new VAH-5 executive officer, Augustino Smith, looked on. Rowell will go to the aircraft carrier Independence. (Staff Photo)

## 15 Nations Back Summit Proposal

PARIS (UPI) — The NATO foreign ministers today threw the full weight of the 15-power pact behind the Big Three invitation to Soviet Premier Nikita Khrushchev to meet at the summit April 27 in Paris.

The NATO Council was convened by Secretary General Paul-Henri Spaak to state individual nations' opinions on decisions made at the Western summit meeting which closed Monday. The council session was closed but its support of the summit invitation was announced.

## Steelworker Vote Of Offer Asked

WASHINGTON (UPI) — The Steelworkers' union is conducting its own "vote" on management's last offer in the steel dispute, informed sources said today.

It has asked the 500,000 Steelworkers to indicate on postal card ballots whether they approve or oppose the rejection of the company's proposal by top union officials.

The union survey was viewed as a "dry run" of a government-sponsored poll to be taken next month under the Taft-Hartley law. There was speculation that union leaders wanted to check for possible weak spots in their ranks.

The postal cards were sent out last week and to union members across the country. Union officials said the results of the balloting would be made public.

The disclosure came as federal mediators called both sides into joint negotiations to a final bid for a settlement before President Eisenhower returns tonight from his overseas tour.

DANCING AND SINGING BOLLS, Joy Wester, Gini Taylor and Sonja Wester are shown at right facing out a skit at the 16th Lake Mary Christmas Party. Below is part of the crowd which packed the Chamber of Commerce building for the traditional event for children. Mrs. Frank Evans was chairman of the party. Mr. Evans decorated the Christmas tree and Al Case was in charge of the entertainment. (Staff Photos)

## Commission Acts On Zone Cases

The County Commission today modified a zoning board proposal requiring floor levels on all new homes to be 18 inches above the crown of a road.

The zoning board had recommended that the floor level be 18 inches to allow for adequate drainage.

However, Zoning Director Robert Broan said the FHA recommendation is 16 inches and the board agreed to have that in the county building code.

The board also set Jan. 12 for a public hearing on the proposal. In other zoning board recommendations, the board okayed a request to hire William Hutchinson to serve as attorney for the board.

The commission today approved a zoning board request to zone 75,000 square feet in an area adjacent to Lake Jennie for a future shopping plaza.

The area will be zoned C2 and is behind the Mar-Lou Motel on U. S. 17-92.

Also approved was a plat of 119 lots west of Altamonte Springs for a new subdivision to be called Dol-Ray Estates.

Action on rezoning a portion of a subdivision in Crystal Lake in Lake Mary was postponed. Mrs. Otis Siphon of Lake Mary opposed the rezoning move pointing out that a dedicated park area is involved.

The board turned the matter over to attorney Mack Cleveland for legal study until the next board meeting.

The board also approved rezoning an area adjacent to Big Tree Park as C-1.

## Post Office Site Discussed Today

The 12 Sanford businessmen selected to find a site for a new city post office facilities are meeting this afternoon to recommend a site to the federal General Services Administration. The meeting is scheduled in the First Federal Savings and Loan Association Building.

City Manager Warren E. Knowles said today that the City Commission has agreed to let postoffice trucks park on the south side of Second St. near Oak until next Monday. Postoffice trucks also will be allowed to back across Second St. to unload at the postal annex during this period. The commissioners agreed to this procedure to ease handling of Christmas packages by the trucks, and to give them room to unload at the annex.

## 28 Longwood House Permits Issued

Four more homes are being built in Longwood's Greenwood Estates. Winter Park developer W. S. Wolter has a permit to build 28 houses in an area on Marvin St. just off Eastlake Ave. The first four houses are finished. The three bedroom houses are in the \$10-\$12,000 class.

# Seminole, Orange Drain Pact Asked

Seminole and Orange Counties may work together to finance a large scale \$172,960 comprehensive drainage improvement to eliminate flooding in 1,900 acres in both areas.

County Commissioner Vernon Dunn will appear before the Orange County Commission Jan. 4 to urge that board to study the importance of the joint project. The project was outlined this morning at a meeting of the county commission where a representative of the engineering firm of Brill and Gray presented 27 pages of recommendations to eliminate flooding in the Tanglewood and Temple Terrace areas of Seminole County and the Eastbrook area of Orange County.

All three areas are in a "critical" drainage basin, according to Carlton Bliss of the engineering firm.

Bliss pointed out that 47 per cent of the areas was in Seminole County and 53 per cent in Orange County.

Bliss said his firm, after the two month survey, decided on three plans, including main canal, storm sewer and drainage wells.

Bliss said the best was the storm sewer plan which would include improvements to existing ditches and canals in the basin, construction of a canal South from SR 436 to Eastbrook to SR 15 A and the installation of a 48-inch storm sewer north from Tanglewood to Howell Creek at Lake Howell Road.

Cost of the complete job was estimated at \$172,960 with Seminole County paying \$168,825 and Orange County the remainder.

County Engineer Robert Davis concurred with Bliss' recommendation because it allows for "stage by stage construction" and the storm sewer could be constructed as the first step.

If Orange County goes along with the plan, the board agreed to set up a special drainage district in the Seminole County areas involved.

## Traffic Lights Asked For Intersections Of Hwy. 17-92

Three critical intersections on U. S. 17-92 will get traffic lights in the near future to avoid the danger of traffic mishaps.

County Engineer Robert Davis acting on the board's recommendation, will write to the State Road Department of the need for the added lights on Onara Road, SR 436 and Muller Ave.

During the past year 29 traffic accidents have occurred at these points and one resulted in a fatality.

In other business during the meeting, Clerk David Gatchel advised the board that he was refusing an affidavit regarding certain lots in the county.

Gatchel said that surveyors have come in with plat changes after the county commission had already approved the original plat and it was recorded in the county clerk's office.

Gatchel pointed out that one affidavit listed 15 corrections and asked the board to adopt some policy to eliminate all these changes in his office.

The board agreed to study the matter on the advice of attorney Mack Cleveland Jr.

## Two Break-Ins Reported Here

Break-in attempts were made at two Sanford oil companies last night, Sanford police reported today. An office window was broken at the Sinclair Oil Co. bulk plant on Persimmon Ave. but nothing else was disturbed. The burglar was probably frightened off, police said. Someone also tried to pry the hatch off the front door of the Texas Oil Co. building on McClracken Rd. but didn't get in.

## Vandalism Admitted

Sanford police sergeant Ben Butler picked up two eight-year old boys who admitted breaking window panes in Herman Jacobson's 220 South Ave. garage Dec. 8. The boys' parents agreed to pay for the windows, Butler said.

estimated at \$172,960 with Seminole County paying \$168,825 and Orange County the remainder.

County Engineer Robert Davis concurred with Bliss' recommendation because it allows for "stage by stage construction" and the storm sewer could be constructed as the first step.

If Orange County goes along with the plan, the board agreed to set up a special drainage district in the Seminole County areas involved.

# Pledge Of Gas Tax Eyed For SR 436

The County Commission today authorized Attorney Mack Cleveland Jr. to investigate the possibility of pledging 20 per cent of the county's secondary gasoline funds for the next 24 years to purchase the right-of-way on SR 436 to start the ball rolling in four-laning the road from Altamonte Springs past U. S. 17-92.

SR 436 has been called the worst primary road in the county.

The board agreed that money from the gasoline fund also would be used to improve Bear Lake Road, Geneva Ave. and SR 427.

Commissioner Vernon Dunn asked the group if it were possible for land owners in the SR 436 area to give the right-of-way but most of the other commissioners agreed that owners would want "hard cash" in giving up any property.

Krider emphasized the importance of getting the right-of-way money as soon as possible by finding out the procedure for pledging funds out of the gasoline tax.

"Other counties are doing it all the time and some have even pledged themselves until the year 2000," Krider said.

The board agreed to let Cleveland find out the means to pledge the money and then hold a public hearing on the issue.

A recent SRD traffic count showed that 3,000 cars passed daily on SR 436.

## News Briefs

**More Schools Asked**  
JACKSONVILLE (UPI) — Real estate owners in Duval County voted today on a proposed \$36 million school bond issue. Passage of the referendum would earmark the funds to build 28 new schools plus 345 additions and other improvements to existing school facilities.

**Complaints Welcome**  
WASHINGTON (UPI) — Consumers were invited today to take their complaints about phony bargain and other deceptive selling methods directly to the government for action. Officials of the Federal Trade Commission issued the invitation at the end of their first Christmas-week effort to wipe up the buying public.

**Rescuers Helpless**  
MIAMI (UPI) — A plane and two boats stood by helplessly today as a Dutch freighter with eight persons aboard pounded on a Cuban reef in heavy seas unable to lower its lifeboats. The Coast Guard reported the heavy seas prevented lifeboats from being sent to the stricken vessel and kept the amphibious plane from landing on the water nearby.

**It Keeps Going Up**  
WASHINGTON (UPI) — The national living costs edged upward last month in another record high, the government reported today. The Labor Department said its consumer price index rose 1.10 of 1 per cent to 125.8 per cent of average 1947-49 prices. It was the sixth time in the last seven months that it climbed to an all-time peak.

**7,300 Volts Fatal**  
MIAMI (UPI) — Lloyd Backmaster, a 34-year-old construction worker was fatally shocked by 7,300 volts of electricity here Monday as he worked on a crane. Authorities said Backmaster, of Zionsville, Ind., was holding a cable attached to the crane. The crane apparently came in contact with an overhead wire and the electricity traveled through the cable, electrocuting him.

**Unions To Vote**  
PALATKA (UPI) — Members of four striking unions voted today on a contract agreement that could end a six-week-old strike at the Hudson Pulp and Paper Mill Corp. plant here. The first of seven striking unions voted in favor of the agreement Monday night, a spokesman said. The unofficial count was about 31 to 7 for returning to work among members of Local 681 of the Pulp Sulfite Workers.

**Hoodlums Fade Out**  
CHICAGO (UPI) — Police turned back to "scientific methods" today in a search for the killers of Roger Touhy, but an anti-crime leader said the hunt faded away as Chicago's hoodlums faded out. Virgil Peterson, head of the Chicago Crime Commission, charged that police didn't act fast enough to prevent hoodlums from slipping out of town for the holidays. He said this was typical of gangland investigations.

**City To Take Bids On Street Work**  
Sanford's City Commission will hear bids on resurfacing three city streets at their regular meeting next Monday. Notices of bidding have been sent to six companies. City Manager Warren Knowles said yesterday.

Bids will be on resurfacing 3,210 feet of Second St. between McIlhennyville and Sanford Ave., W. Third St. from French Ave. to Persimmon Ave. from First St. to Third St.

# Dairymen Have Reduced Danger Of Milk Contamination By DDT

WASHINGTON (UPI) — Government scientists said today that the danger of milk contamination by insect killers such as DDT is being reduced.

Their statement followed publication of a 1958 government survey showing that some milk in 11 cities across the nation was tainted with substantial amounts of pesticides containing chlorine.

A spokesman for the Food and Drug Administration (FDA) said there was no evidence the insect killers cause cancer in humans. But he said the milk contamination was a problem "worth working on."

The scientists credited two developments with cutting down the risk of milk being contaminated by use of the pesticides on cattle feeds and in storage barns. They said the FDA has warned the dairy industry it would crack down on any sales of impure milk in interstate commerce and an educational drive among dairymen also has been effective.

## Job Placement At State Agency Is At Lull Now

Job placement at the Seminole County branch of the State Employment Service is at a lull now but should pick up in the near future, Service Manager Daniel B. Hahn said yesterday.

Lay-off claims are greatest from construction workers, Hahn said. He mentioned the steel strike and a patching up in local home building as possible reasons for the number of applications received by the employment agency. Hahn said that the necessity of an employer filling out twice as many tax forms for a man hired in 1959 as he would have to submit for a man hired in 1958 is "definitely a factor" in employers waiting for the new year to do their hiring.

Jobs are open at the Second St. employment service agency for salesmen, television electricians, 50-75 sewing machine operators, a night guard, service station attendant, waitress, cook, bellhop, drycleaner and presser, kitchen helper, roustabout. Most of these jobs are in Sanford with the rest in Seminole County, Hahn said. The manager said that there is a fairly constant need for sewing machine operators among the three garment mills in Sanford. There is still some demand for truck pickers. There is definitely a local shortage of these workers since many are recruited from out of the state, Hahn said.

## Miami Is Nixon's First Stop In State

MIAMI (UPI) — Local Republican officials said today Vice President Richard M. Nixon will make Miami his first stop Jan. 16 when he begins his nationwide canvass for support for the GOP presidential nomination.

The Nixon tour will be single-stop appearances, unlike the recent tour of Gov. Nelson Rockefeller of New York who staged a concentrated series of visits.

## In A Hurry

SARASOTA (UPI) — Tampa truck driver Ralph Sanbury was arrested three times during a trip from Tampa to Fort Myers—once for speeding, once for willful and wanton reckless driving and once for reckless driving and speeding.

## State Cabinet May Okay Lawyers In Guard Case

TALLAHASSEE (UPI) — The Florida Cabinet will hear recommendations today that the state hire attorneys to defend 12 of 14 prison guards indicted by a federal grand jury for alleged maltreatment of convicts.

The Cabinet's Prison Committee proposed Monday the state hire private counsel on a theory the guards were carrying out orders of superiors in any mistreatment of inmates during riots at Raiford State Prison a year ago.

However, the committee refused to recommend that any guards found innocent at the federal trial be automatically re-hired. Instead, each case would be reviewed on its own merits.

Any guards re-hired would receive full back pay, plus credit toward state retirement and accumulated pay, the committee proposed.

The recommendations were agreed on at a closed meeting Monday between the committee and State Prison Director H. G. Cochran Jr.

Cochran ordered 11 guards suspended last week after the federal indictments were issued. Two already had been fired and one resigned.

The prison committee recommended the state hire lawyers for the 11 guards who were suspended and the one who resigned. The other two, former guard Capt. James Dunn and ex-guard Lt. Earl Chesser, would have to furnish their own counsel.

Cochran said after Monday's meeting the state was satisfied the lesser guards were acting under orders from superiors presumably Dunn or Chesser—when they abused the prisoners by tying

them to cells or blasting them with water hoses. He said Atty. Gen. Richard Ervin would confer with the guards about private counsel. However, the arrangements, including the number of attorneys and fees, must have the approval of the full Cabinet.

Cochran said the committee did not reach a decision on where the money to pay the defense fee would come from.

## U. S. Canadians Launch 'Javelin'

WASHINGTON (UPI) — American and Canadian scientists launched a four-stage "Javelin" rocket from the Wallops Island, Va., test station early today to measure radio signals from space and test a new U. S. space engine.

The National Aeronautics and Space Administration announced here that the 7,000-pound rocket blasted off at 2:56 a. m. east and fell into the Atlantic about 600 miles away 18 minutes later.

The "Javelin" was designed to reach an altitude of 300 miles. Scientists did not know immediately whether the rocket climbed that high. But an NASA spokesman said preliminary data indicated the test went "real fine."

## Carolers Plan Community Tour

Pastor Ernest Bolch of Good Shepherd Lutheran Church will take a group of carolers touring the community Wednesday at 7:30 p. m.

The will sing favorite Christmas carols at several designated places enroute. Among the stops they will make are Seminole Memorial Hospital, Suptea Rest Home, the County Home for the Aged, and homes of students of Good Shepherd Church living and Sanford and DeBary.

**Ike Keeps Blind Date With Spanish Miss**  
MADRID, Spain, (UPI) — President Eisenhower kept a blind date with a little Spanish miss today which made him late for breakfast with Generalissimo Francisco Franco.

The date was 7-year-old Rosa Maria Jimenez Calvo, who planted a kiss smack on Eisenhower's lips in a burst of affection. The President blushed noticeably.

It all began last Sept. 8 when tiny dark-eyed Rosita wrote to President "Eisenhower" — which is how his name sounded to her — and asked to see him when he visited Spain.

U. S. Ambassador John Davis Lodge learned of the letter from the little girl, who referred to Eisenhower as "the good-looking grandpa."

Lodge arranged for the meeting this morning as Eisenhower left the palace where he spent the night to drive to El Pardo palace for breakfast with Generalissimo Francisco Franco.

Rosa, scrubbed to shining cleanliness, and wearing a prim blue dress and white stockings, was waiting at the bottom of the broad stairway of Moncloa Palace at 7:40 a. m. when the president came down.

**YOU'D NEVER KNOW** that beautiful Teresa Mola, 20, of Uruguay, walked any different than any other pretty girl as she strides toward a plane at San Francisco's airport. But Teresa lost both legs in a skiing accident and now walks on artificial limbs encased in nylon, the latest development of the University of California.

## Police Hunt For Expert Marksman For Questioning In Murder Of 4

SARASOTA (UPI) — County authorities sought an expert marksman with cuts inflicted by a woman's high-heeled slipper today for questioning in the murder of a family of four.

Cliff Walker, 25, his wife and two young children were found murdered Sunday. The couple and their son were shot through the head with a .22-caliber weapon and their daughter was drowned. State Atty. V. M. Smiley disclosed late yesterday that officers had found a blood-stained high-heeled shoe in the Walker home. He said it was believed Walker's 22-year-old wife, Christine, fought her attacker with the shoe before she was shot.

Walker was found lying on the living room floor, his 8-year-old son, James, was lying beside him. Mrs. Walker was a few feet away in the hallway leading to a sitting room. Debbie, 2, was found floating face down in the bathtub. Officers theorized that the killer was fighting with Mrs. Walker when Walker and the two children walked into the house.

## BPW Club Presents Christmas Program

The Sanford Business and Professional Women's Club held their December meeting, Wednesday evening at the Civic Center. The business and program meeting was in the form of a Christmas party with Mrs. Olga Hunter and Billy Baker in charge of the program.

Gini Taylor and Mary Ann Humphrey, two guitar pupils of David Mathes, played "Silent Night" and "Joy To The World." David also played several selections.

Dorothy Jardine (the young violinist) and her boy friend, O.

He entertained the group with a Christmas story.

Following the turkey dinner, with all the trimmings, Christmas carols were sung by the members accompanied at the piano by Mrs. Eula Grantham, Mrs. Eunice Horton, a new member, introduced her guest, Sadie Weisma Dolores Barnett was also a guest. Mrs. Hunter read an essay, written by a 10 year old boy, entitled "Why We Celebrate Christmas." Each one brought a gift to be sent to the Ocala Girls School for Christmas.

**THE SANFORD GRAMMAR SCHOOL GLEE CLUB**, composed of sixty sixth grade girls and boys under the direction of Mrs. Roberta Richards, presented its sixth annual Christmas concert last Thursday evening. The children sang "Jingle Bells," "A Very Merry Christmas," "Season's Greetings," "Christmas Party," "He'll Be Comin' Down the Chimney," "Twas the Night Before Christmas," and a Christmas cantata "Song of the Holy

Night." Soloists included Randy Dean, Debby Weigle, Steve Harris, Diane Utterback, Michael Scott, Stefany Westgate, and Chris Akers. Announcers for the program were Steve Higgins and Earl Tilson. Accompanists were Sandra Richards and David Wieboldt at the piano and Miss Helen McMullen and Dianne Beach at the organ. Following the program the Glee Club enjoyed a party in the school lunchroom.

## VAH-5 Coffee At Smith Home

A green net tablecloth trimmed with red felt poinsettias, silver sprayed driftwood hung with red Christmas balls and sterling candlesticks with red tapers, gave a festive holiday look to the VAH-5 wives coffee, Dec. 17 at the home of Mrs. A. W. Smith.

Mrs. E. W. Foote, Mrs. William D. Fries, Mrs. C. N. James, Mrs. H. A. Lackey II, Mrs. J. L. Morgan, J. T. Osborne, Mrs. R. E. Osterholm, Mrs. R. W. Repp and Mrs. P. J. Ryan.

Mrs. H. G. Goben served as co-hostess. Mrs. H. S. Moore presented Mrs. I. M. Russell Jr. with a silver tray, on behalf of the squadron wives. Mrs. E. G. Tiffany won the door prize.

Mrs. D. W. Caswell was appointed alternate delegate to the all wives club. Other appointments were Mrs. Goben, publicity and Mrs. C. D. Schoonover, hospital.

Others attending were Mrs. J. H. Bailey Jr., Mrs. A. J. Blaha, Mrs. D. J. Brough, Mrs. D. E. Dearolph, Mrs. J. A. Dezanahl.

Mrs. Elizabeth Carol De Prater and Robert F. Hamilton of Enterprise and formerly of Lake Monroe will be married at 4 p. m. Christmas Day at Barnwell Methodist Church, Enterprise, Mr. Hamilton is the grandson of Mrs. S. E. Norwood of Monroe. All friends of the couple are invited to attend.

By IDA MAY SJOBLUM

Mr. and Mrs. P. D. Anderson attended the reception following the wedding of Miss Barbara Jean Flach and Eugene Scott Greenleaf, held Saturday evening at the Longwood Hotel, Longwood.

Relatives of the P. D. Andersons gathered Sunday afternoon, to help celebrate the birthday of Mr. Anderson. Ice cream, coffee and the traditional birthday cake were enjoyed by the honoree, his great nephew and his family. Dr. and Mrs. John Mansell and son David, of Sanford, Mrs. Anderson and her aunt, Mrs. Louise P. Wilson and her cousins, Mr. and Mrs. J. V. Richards, all of Enterprise.

Recent dinner guests of Mr. and Mrs. Frank Evans were the Rev. and Mrs. J. M. Thompson and Mr. and Mrs. P. D. Anderson.

**SANTA CLAUS DISTRICT** LONG GIRLS to members of the Does at their Christmas party. Left to right, with Santa, are Mrs. Jackie Caruthers, president and Mrs. Florence Mapes. Back row, standing, Brad Foley, Eleanor Wolford, Pearl Hope, Steven Anrosko, Agnes Walker, Mae Rahn, Peggy Hardin, Esther Barber, Anna Bukur, June Foley and Dick Mapes.

## Santa Claus Visits Does At Yule Party

A small informal gathering and a Christmas gift exchange was held by the Does at the Elk's Club, Friday evening. Banquet and games contributed to the festivities.

At the close of the party, refreshments were served to the group and Santa Claus presented the gifts from under the Christmas tree.

Members attending were Mr. and Mrs. Stephen Anrosko, Mr. and Mrs. Pete Bukur, Mr. and Mrs. Jack Hope, Mr. and Mrs. Ed Hoffman, Mr. and Mrs. John McDonald, Mr. and Mrs. William Hardin, Mr. and Mrs. Edward Pratt, Mr. and Mrs. W. J. Dumont.

Mr. and Mrs. Bernard Wolford, Mr. and Mrs. Wesley Barber, Mr. and Mrs. Richard Mapes, Mr. and Mrs. Penn Rahn, Mr. and Mrs. Garfield Walker, Mr. and Mrs. Bradford Foley, Mr. and Mrs. Pete Jowersox and Mrs. Robert Caruthers.

## Medical Research Finds Evidence

Medical researchers are continually finding new evidence that ailments which once seemed to be isolated are actually linked with others.

For this reason, heart research today is no more limited to heart and blood vessels—it extends from top to toe. Scientists are looking to such organs as the lungs, liver and kidneys to crack riddles of the heart.

In a Heart Fund study in Massachusetts and Ohio, for instance, it has been found that many persons with cirrhosis of the liver may also have unsuspected kidney disease—and kidney disease is related to such disorders as high blood pressure, a major cause of death in Massachusetts and the nation.

### Personals

Bruce Anderson, a student at the Baylor School for Boys at Chattanooga, Tenn., is spending the Christmas holidays with his parents, Mr. and Mrs. R. W. Anderson, 4000, Orlando Dr.

Mrs. J. Ericson and son and Mrs. H. Wiseman of Orlando, were recent visitors at the Serepta Rest Home. They were visiting their sister, Mrs. C. Barrett who is 84 years "young" but is enjoying life, despite her advanced years.

Brenda Kay Carroll returned home Sunday from Seminole Memorial Hospital after a two week stay there.

Misses Marcia and Cindy Lippincott, 314 Elm Ave. left Saturday by train for Baltimore, Md. to spend the holidays with their grandparents Mr. and Mrs. W. E. Lippincott. This was the first long distance train trip, alone, for the young ladies who are eight and eleven years old.

The discovery came to light in the course of analysis of 30 cirrhotics by Dr. Sheldon Summers of the Massachusetts Memorial Hospital, and another 30 by Dr. J. M. H. Himmelforth of Ohio State University.

Three-quarters of the persons with cirrhosis of the liver whose organs were analyzed in both centers were found to have kidney lesions as well—lesions which went undiscovered in standard tests of blood and urine.

The new kind of kidney injury, which differs from other forms of kidney disease, occurred regardless of the type liver cirrhosis with which the patients were afflicted.

Dr. Summers now is studying chemical properties of the abnormal kidney tissue in an effort to determine the factors responsible.

Preliminary investigation indicated the possibility that hormones from the adrenal cortex and gonads may be involved. The abnormalities in some aspects resemble those occurring in diabetes.

Dr. Summers also is seeking to find out why an atrophied, non-functioning kidney appears to cause high blood pressure. Removal of the kidney in most cases lowers the blood pressure.

Special staining of all functioning units of the kidney and a painstaking mapping of the organ to find the percentage of weight of different areas are now under way.

"Where Quality is Higher Than Price"

## Working Wives Now Influence Markets

The wage-earning wife is one important reason for the increasing trend toward prepared and semi-prepared foods. This shift toward use of more processed fruits and vegetables in the last 15 or 20 years coincides with the increasing employment of women, particularly homemakers, says Myrtle Wilson, Home Demonstration Agent.

Today one out of every three persons employed is a woman. In January 1938 about 21 million women were employed outside their homes, compared to only 12 million in about 1910. In the same period the processing of vegetables increased from a third to a half of the total supply, with a substantial rise in freezing in recent years.

We've been eating considerably less fresh fruit per person in the past 15 years to 20 years and more frozen fruit, frozen concentrated juice, and other processed fruit. We've been eating substantially more processed vegetables, too, and somewhat fewer fresh vegetables.

The decline in fresh vegetables used has been more moderate than that of fresh fruit because many fresh vegetables on markets today are convenience foods—trimmed, washed, and packaged—to save the homemaker preparation time in her kitchen. Also, salad vegetables now come to market the year around by fast, refrigerated transport from winter-growing areas in the South.

The wage-earning wife is likely to shop either for the processed vegetables that require little cooking or heating or for vegetables suited to a quick salad. She shops with time and labor-saving in mind for the items she can get to her family dinner table in a

Robert Williams was called to New Orleans by the serious illness of his brother, Melvin Williams.

Mrs. Charles Brown of New Smyrna Beach spent the past week visiting Mrs. Harry Dalton, Mrs. Lou Brooke and other relatives in the area.

Mr. and Mrs. John Juras attended the Radiation Inc. Christmas party at the V.F.W. hall in Orlando, Friday evening.

Tari Lynn and Cathy Juras attended a birthday party in honor of their cousin, Linda Pfeiff, in Sanford, Saturday.

### LINDA SUE PFEIFFAU Birthday Party Honors Linda

Linda Sue Pfeiffau, daughter of Mr. and Mrs. Nick Pfeiffau was guest of honor at an informal family birthday party, Saturday afternoon at her home on Orange Ave.

The young miss was two years old and her aunts and cousins helped her celebrate the important event. The guests all wore paper hats and made use of noise makers.

The party was staged in the Florida room amid decorations of crepe paper streamers and balloons hanging from the ceiling. The balloons were pulled down from the ceiling by the young merry-makers as souvenirs when the party was over.

Assisting Mrs. Pfeiffau with the entertaining were Mrs. John Juras, Mrs. Betty Snyder, and Mrs. Edward Bennett.

Refreshments of birthday cake and ice cream were served to Tari Lynn and Cathy Juras, Johnny Snyder, Sheryl and Denise Bennett and Linda Sue.

# Christmas Programs Spread The Spirit

One thing we notice especially in the Christmas season news we get locally is the many, many children's programs at the schools and churches and others sponsored by social and civic organizations.

The outstanding thing about most of these is that the children do a lot of work in preparing the programs. Even the first graders do a workmanlike job, the teachers say. For instance, the Osteen School Christmas tree was decorated by the pupils of the first three grades and all the classes helped dress up the school building for the holidays. The boys of the woodworking class built the stable and manger for the Nativity scene.

All over the county, the youngsters are busy in these programs. Many teachers, Sunday School supervisors and parents are putting time and effort into them. And the important thing about them is that they tell the Christmas story and don't just emphasize the fact that Santa is coming. All the details do not get in the paper, but we would like to take this space to commend every person, child and adult, who takes part in these events.

## Letters To The Editor

One of the hardest working groups in Seminole County is the Lake Mary Volunteer Fire Department and the only compensation these men receive is the thanks of the people whose lives and property they protect. At this Christmas season it seems fitting to give them a pat on the back.

The volunteer fire fighters are the business men and residents of Lake Mary. When the siren "wails," they depend on wives and friends to take over the care of their places of business and they head for the firehouse — man the truck and get to the troubled spot.

On Tuesday of last week they received a call at 2:45 in the afternoon that a 30 acre tract of woodland was on fire. It was just west of the Lake Jeanie site of the new high school and there were many homes threatened by the flames. The Lake Mary volunteers responded pronto and worked four hours, keeping the homes from catching fire and the brush fire from spreading. Anyone who has watched the men fighting a brush fire realizes the tremendous physical energy it takes and the strain on these men. There is a verbal agreement among these men that they will respond to calls from other districts who need help, and they will to the limit of their ability as far as equipment is concerned. They look forward to a new engine within the next year. The present engine is doing a mighty fine job, but the new one will be just that much more effective.

Lake Mary is fortunate to have such a dedicated group of workers, and the firemen are proud that during this past year their wives have formed an active Ladies' Auxiliary which has already procured some necessary fire fighting equipment and items for the firehouse through the production of suppers and other activities.

Mrs. Olan Boutwell

### A Thinking Man's Musician Keeps Right On Trying

ATLANTIC CITY, N. J. (UPI) — "People don't seem to think any more," says Stan Kenton, the creator of "progressive jazz," and "today's music shows it."

Kenton, who has been a big name in the business ever since he introduced his "artistry in rhythm" on the West Coast in the early 1940's, complained that rock 'n' roll has reduced interest in creative jazz practically to zero.

While he said he's "still in there punching," the lanky Californian conceded it's growing more and more difficult to get bookings for his big, brassy band. Mostly, he said this orchestra have been playing one-night stands.

"It's murder for the musicians to hold up under such a strain," he said, "and it's certainly difficult to create anything fresh and interesting when your body and mind are strained almost beyond endurance."

American jazz appears to be more popular in Europe than in its native land today, Kenton went on. "There's no difficulty finding audiences in Europe, but an American orchestra there is in such demand that it's forced to play two different cities.

## Yule Season Brings Bad News Too

By FRANK ELEANOR WASHINGTON (UPI) — All is not glow at this Christmas time. There's bad news with the good.

According to a Senate committee, our phones may be tapped. The steel strike isn't really over, at all. And Edna Wallace Hopper, the symbol of perpetual youth, has died. Although they didn't know for sure, she probably wasn't a year over 85 or 90.

John L. Lewis has announced

he's quitting as head of the United Mine Workers, after 40 years. All the editorial writers consider him respectable now, he complained recently, and the job's no fun anymore.

Nelson Rockefeller ran out of money in Dallas, shattering another illusion. It's true though the store finally saw its way clear to let him have a few items on credit.

Postmaster General Arthur E.

Summerfield says now we may have to start soon paying five cents for a stamp. To be safe, I'm going to buy up some four. But if you look hard enough, there's always a bright spot or two.

The government says dividends are up and we're all richer than ever before. Of course this does raise a question exactly what group they've been sampling. I guess Perle Meata, the Washington hostess, was one of those counted. She's just solved one of her Christmas gift problems with a nice milk coat for her poodle.

## Reds Beating The Drum For East German Participation At Summit

By PHIL NEWSOM UPI Foreign Editor

Soviet Embassy officials in East Berlin have started to beat the drums for East German participation in a summit conference. They say both East German Premier Otto Grotewohl and West Berlin Chancellor Konrad Adenauer should attend because Germany will be discussed. Adenauer, trying to keep the East Germans away, says he does not want to go to the summit. But Grotewohl blithely replies to this that in such a case he will speak for all of Germany.

The "old guard" at the Vatican wants to screen all photographs taken of Pope John XXIII. The ultra-conservatives did not care for pictures showing President Eisenhower and the Pope laughing during their audience Dec. 8—too distracting from a serious mo-

ment. They were further upset by a sequence of pictures published in an Italian weekly showing the Pope energetically using his handkerchief when he had a cold. There is no indication the Pope himself is behind the move. He has given every indication he wants to appear as is.

A serious dispute is brewing between private American businessmen and Chinese Nationalists in Formosa. Some American businessmen complain the Formosan government is blocking their development projects while publicly inviting foreign capital. At least one American, faced with the shutdown of his cement plant, has received a sympathetic hearing at the U.S. Embassy. The dispute may amolder or break into the open.

Diplomatic sources report that the days of "one of the last of the so-called "moderates" in Fidel Castro's Cuban cabinet appear to be numbered. They foresee early replacement of the U.S.-educated finance minister, (Rafael) Lopez Fresquet. Likely successor: Carlos Rafael Rodriguez, editor of the Communist daily "Itoy."

Amid all the talk about a Latin American disarmament conference, Colombia is seeking to modernize its Navy. It wants two U.S. world war destroyers to replace its two obsolete warships. The big hitch is that Bogota wants Washington to pay the tab.

Also on the sunny side, it's too late now to mail Christmas cards, so you can get ahead and forget it. And the Internal Revenue Service assures me the postman shouldn't deliver your tax form 1040 until at least two or three days after Christmas.

There's no use at all brooding over the aminotriazole that no longer contaminates our cranberry jelly, or the alibetral which farmers no longer inject into the heads of their chickens.

And since television reformed, I guess we can also forget about rigged quiz shows and payola. One network tells us now it has even quit canning the laughs.

So cheer up. The optimistic way I figure it, it's 300 days before next Christmas.

## New Way To Find Lost Children

PHILADELPHIA (UPI) — A new method for finding lost children is working out well here, reports Police Commissioner Thomas J. Gibbons.

Replacing the previous "all-points bulletin" procedure of notifying police throughout the city, the new system is based on a concentration of manpower.

The report of a missing child 10 years or younger marshals the forces of the Juvenile Aid Division, policewomen, division detectives, traffic division motorcycle police and patrolmen, detectives of the intelligence squad and the uniformed men of the district station.

Dozens of men and women are thus thrown into a concentrated search in the area where the child was last seen. In every case where the new system has been used since it was inaugurated last June, the missing child has been found within a matter of hours.

## Parliament Recedes

LONDON (UPI) — Parliament recessed Thursday for the Christmas holidays. It will meet again Jan. 26.

# Washington Calling

BY MARQUEE CHILDS

ATHENS — If Prime Minister Nehru is at all disturbed by the attacks on him at home and by the threat of further Chinese aggression on India's northern frontier, he shows not the slightest sign of it. In an hour's talk with this reporter just before leaving New Delhi with the press caravan accompanying President Eisenhower, he ranged over a wide variety of topics, speaking with the brilliance and the subtlety that are his hallmark.

Nehru talked at length about the nature of the border on the northwest and northeast frontiers. It is the widest and most isolated country and now the impenetrable silence of winter has set in, with the mountain passes at 12,000 feet and the peaks at 16,000 or above shut away for many months.

"It is in a deep freeze just now," Nehru says, smiling a little as he uses this American expression.

While he would not discuss directly the military or political future of the border dispute with China, and according to all reports he was reticent on this score even in his conversations with President Eisenhower, he gave the impression of wanting to believe that the dispute itself is in the deep freeze. With the word "wonderful" he praised the tact with which Mr. Eisenhower in all his public statements in New Delhi, avoided any apparent involvement in India's crisis.

Nehru leaves no doubt that the last offer made by Red China's Premier Chou En-lai is unacceptable. That was for both sides to withdraw from the line presently claimed by the Chinese so that a no man's land of approximately 30 miles would be left the opposing forces.

"That would, of course mean that we would surrender all the checkpoints that we have established," he said. "That we could not do."

The Indian counterproposal calls for a no man's land of about 20 miles but it would not sacrifice the strongpoints that Indian mountain troops have established in this wild country at so much cost of money and effort. As an example of the difficulty of operating in this terrain, Nehru talks of the northeast frontier border point of Longju which the Chinese seized in the late summer. The Indian force that was driven but is less than 10 miles away but it takes five or six days to cover that distance over mountain passes and precipices that must be scaled with ropes and the other equipment of skilled mountaineers.

What is to do about the Chinese incursions across the border and particularly the road they have built on the northwest frontier between Tibet and Sinkiang, which at several points crosses Indian territory? Nehru gives no prescription beyond indicating that the buildup of strength on these remote frontiers, which never really have been demarcated, together with the work to bring the wild tribesman of the northeast frontier within the Indian framework, must be accelerated.

"Perhaps we could have moved faster, perhaps we could have done more." This is his only concession to his critics. So much must be done in India—that is the theme he returns to. And he makes no secret of the massive assistance in long-term credits that India must have if the third five-year plan is to be a success.

These credits, according to Nehru, must be for 15 or 20 years—two to three years would be of no use — for capital investment. He is hopeful that a plan now under discussion for a commission of German, British and American bankers to pass on India's needs and recommend a program for private and government participation will go through. A prominent British banker, Sir Oliver Franks, has, according to Nehru, already signified his willingness to serve on such a commission. John J. McCloy of the Chase-N Manhattan Bank in New York is suggested as the American member, but McCloy is still to be heard from.

There is a sense of quiet urgency in this discussion. India cannot stand still.

On the subject of the Khrushchev-Eisenhower talks, Nehru speaks with warmth. He believes that Khrushchev is just as genuinely desirous — for his own purposes — of peace as is Mr. Eisenhower. And he believes, too, that the Soviet Premier is making every effort to restrain Red China and quiet the dispute with India.

"When Mr. Khrushchev was here four years ago," Nehru said, "he spoke to me about America and Great Britain. He said you're friends with them. Why can't you help me to get together with them. Then he went off to Burma and there something angered him and he delivered an attack on British imperialism.

"I have to come back here I ventured to suggest that this was not the way to be friendly, that this would, in fact, offend every British citizen. I have never forgotten what he said to me in reply: "You must know that we have lived in a state of siege for 40 years and we cannot be insulted."

In Nehru's view Khrushchev desires to lift this siege and give his people some of the rewards of life for which they so deeply long. This, he feels, is at the heart of Khrushchev's desire for peace. A war between China and India would destroy all his hopes.

On the talk he has just concluded with Mr. Eisenhower, Nehru was reticent but he spoke with warmth of the 1 1/2 hours of discussion that they had three years ago when the Prime Ministers went to Washington. He recalls that during all that time Mr. Eisenhower only once lost his temper and that was when he spoke of Red China and the fact the Chinese still held American prisoners.

What a stupid thing, Nehru says of the Chinese refusal to release all the Americans.

But Nehru the politician pales alongside Nehru the symbol of this vast continent with its fantastic contrasts of people and climate. He talks with an enthusiasm that is young and almost dynamic, of the air strip that the Indian Air Force has built on the northwest frontier. At 14,000 feet the Air Force claims it is the highest landing field in the world.

"I said I wanted to go there and they took me," Nehru said. "The ground is frozen all the time, of course, and there are no trees so it was simply a matter of leveling off the strips, taking the stones away and that sort of thing.

"I can't tell you how wild and remote it was. They pointed to a mountain and they said: 'There, that is China.' And you know what impressed the tribesmen most? It was not the plane itself, it was the jeep the Air Force had brought with them. That, in a country completely without roads, simply awed and bewitched them. Of course, I stayed only two or three hours."

That is Nehru the man of imagination, the adventurer, the restless seeker who is so often impatient with the claims of government and politics. It helps to explain why he is for the indefinite future the indispensable man for India and for Asia.

# Cinci Holds Cage Poll Rating Lead

NEW YORK (UPI) — Cincinnati remained No. 1 in United Press International's major college basketball ratings today for the third straight week but West Virginia replaced Ohio State in second place.

Ohio State slipped to third while California remained fourth. St. Louis was fifth, Utah sixth, Baylor seventh, Georgia Tech eighth, Kansas ninth and Indiana 10th.

Georgia Tech, moving up from 12th, and Indiana, which advanced from 11th, were the newcomers in the top 10. North Carolina dropped from fifth to 11th and Southern California slipped from 10th to 11th in the latest balloting by the United Press International Board of Coaches.

The 33-leading coaches who rate the major schools for UPI based their latest votes on games played through Saturday night, Dec. 19. The top four teams boasted perfect records through that date.

North Carolina headed the second 10 group. Kentucky, New York University, Villanova, Southern California, Texas A & M, Iowa, Illinois, Michigan State and Notre Dame rounded out the first 20 in that order.

Each coach votes for 10 teams in the order he ranks them nationally. Points are awarded on a 10-9-8-7-6-5-4-3-2-1 basis for votes from first through 10th place.

Cincinnati received 20 first-place votes and a total of 327 points, four more than last week. West Virginia, which drew only two first-place votes and 252 points last week, received eight first-place votes and 208 points. West Virginia picked up the additional support because of its impressive triumph over Kentucky Saturday night in the final of the Kentucky Invitation tournament at Lexington, Ky.

Ohio State received two first-

place votes and 264 points. California drew the other five first-place votes and 247 points.

St. Louis received 138 points and Utah was close behind with 137. Bradley received 111. The last three teams in the top 10 were separated by only two points. Georgia Tech drew 47, Kansas 46 and Indiana 45. North Carolina, in 11th place, was close behind Indiana with 43.

# Coaches Clamor For Platoon Return

MIAMI (UPI) — Four of the nation's younger major college coaches joined in the clamor today for a return to the good old days of platoon football.

Dale Hall, of Army, Wade Elliott, of Mississippi State, Pete Elliott, of Michigan and Jim Hekey, of North Carolina all agreed that the football rules committee would be fulfilling the wishes of an overwhelming majority of the coaches by restoring unlimited substitution.

Hall, a rugged two-way half-back when he played at Army during the famed Blanchard-Davis era, was the most outspoken in his criticism of the present limited substitution rules, which require a complicated bookkeeping system by the teams and the game officials.

"I don't see how the fans can enjoy waiting around for a line of substitutes to be checked into the game by an official," commented Hall, who is head coach for the North squad in Saturday night's Shrine All-Star game.

"It seems that the Coaches Association doesn't have any control over the rules committee," he continued. "Last year the coaches voted four to one against limited substitution. But our views were ignored."

"The rules committee is honest in its belief," Hall went on. "However, they're not in office to enforce their own views but rather to carry out the wishes of the majority."

The rules committee is a 12-man group headed by Gen. Bob Neyland, former Tennessee coach. Among its other members are Amos Alonzo Stagg, Fritz Crisler of Michigan, Wally Butts of Georgia, Bud Wilkinson of Oklahoma, Ray Eliot of Illinois, Dave Nelson of Delaware and Jess Neely of Rice.

Walker, who played both ways at tackle for Oklahoma during the 1910's, said he would like to adopt the pro rules of unlimited substitution and permitting a coach to talk to his quarterback during time-out.

"I don't like the two-point conversion rule," added the head coach of the South All-Star squad. "You'll find few coaches who do. It puts too much emphasis on just one play. A single play involving just three yards can decide a whole game."

# Covington Covers Sports

**By JERRY COVINGTON**

When you see fine young high school athletes sitting on the bench during a ball game it proves a little further that scholastic sports are operating under a situation that shouldn't exist.

All of the pressure that alumni groups and sportswriters pile upon college coaches to stress the point of winning has also worked its way from junior high schools right on up.

The prime purpose of scholastic athletics is that of building character but this has been long lost in the public's cry for a winner. No matter how wonderful a coach is at teaching his team right from wrong, and building sound and healthy minds and bodies, he is forced to use only the best of material to try to win as many games as possible.

Of course you can't blame the poor coach because it is either produce a winner or move on. Because of this lack of a coach to do a fine job on the starting team have to sit it out because there might be someone that is just a little bit better.

It is quite a bit different in college where most of the athletes are hand picked and they all have a pretty equal chance

but in high school where a boy has never been seen in action by the coach, he might never get a proper chance. It makes you wonder how many great athletes have gone all the way through school and never got in a ball game.

Of course, I like a winner just as anybody else, but let's always try to keep in mind the real purpose of our athletic programs throughout our school system and emphasize character building rather than win, win, win.

This is one thing that I am proud of when it comes to our coaching staff at Seminole High. All of them want to win but, if a player is falling down in his grades they stress the importance of bringing them up before getting back in the lineup. Head Football Coach Jim Pigott has based all of his training program on a sound Christian background and insists upon clean living first of all. Before every ball game he leads his team in "The Lord's Prayer" and it is not done for show but to stress upon his players their need for a strength greater than their own.

With a coaching staff based upon this, we should be very proud.

# Buckeyes, Tech Fall By Wayside From Basketball's Unbeaten Ranks

United Press International Ohio State and Georgia Tech have fallen by the wayside and tonight it could be Cincinnati's turn to be bounced from college basketball's unbeaten ranks.

Utah snapped third-ranked Ohio State's winning streak at six

games and ran their own string to seven with a 97-92 triumph at Salt Lake City Monday night while Southern Methodist handed eighth-ranked Georgia Tech its first loss, 80-71, at Dallas.

Neither was in the nature of a shocking upset since Utah is ranked sixth in the country and SMU is one of the favorites in the Southwest Conference. And, there's little question that Oscar Robertson and Cincinnati face their toughest hurdle of the season to date when they take on seventh-ranked and unbeaten Bradley tonight.

## Mather Paces Bowling Play

The Sanford City Bowling League had a lot of trouble getting started last Wednesday night, and bowled with short teams on most alleys, but had some top-flight action in spite of the difficulties.

In the game-of-the-week, Mather of Sanford came back after losing the first game to take the last two from Gene's Seminoles (Cieslers and Laundry, John Uhr led the Furgitremens with a 499 total, while George Swann worked hard for the losers, getting a 322 series.

In other action, Burnett Painters made a clean sweep of their match with Celery City Printing Company, as Dick Richards rolled a 323 night, and Larry Pivec had a big 213 game. For the Printers, Hal Gilstrap was high with a 513 series. With both teams bowing a blind, Harry's Liquors took the last two games from New York Life Insurance Company to stay only two games behind the leaders. George Krus had a 203-341 for the Liquormen, while Jim Maloney led the Lifers with a 504 total.

"Split-shrinkers" for the night included John Uhr's 3-7-10, George Swann's 3-7, and Dick Richards 2-10.

The Utah-Ohio State game was billed as a meeting between two of the country's best sophomores—Utah's Billy McGill and Ohio State's Jerry Lucas — and it turned out to be a mighty show between the two 6-9 giants. Lucas "won" the personal duel, 32 points to 31, but McGill's neutralization of Lucas enabled his team mates to control the game. Utah led by as much as 14 points in the first half and had a 40-44 lead at intermission.

PLENTY OF FREE PARKING ALWAYS

See "THE STEVE ALLEN PLYMOUTH SHOW," Monday nights, NBC-TV. Solid!

This car is built a new solid way by Chrysler Corporation engineers. It simply doesn't have many parts that work loose and need fixing in some cars. We'd like to answer some questions about this car now:

**Q. What is this new way of building?**  
A. Chrysler Corporation's virtually trouble-free version of unit construction. Body and underparts are joined in a single unit of enormous strength, locked by close to 5400 welds. In Dura-Quiet Unibody, there is no frame and no conventional body bolts, struts, braces, etc., to loosen and rattle.

**Q. What about power and performance?**  
A. There's the new 30-D Economy Six, a new "inclined" six that delivers outstanding economy in normal driving. The standard V-8 is the Fury V-800 which three times in a row topped its class in the Mobilgas Economy Run. Or you may choose the extra-cost SonoRamic Commando V-8.

If you ask us, this is the best built, best performing low-price car of all. Give it a real try soon, won't you?

A Chrysler-engineered product, built a new solid way to give you solid satisfaction.

### Nikita Injects Self In Spotlight At West Summit

United Press International Soviet Premier Nikita Khrushchev managed himself the fifth man at a four-man conference this week.

Khrushchev, although sitting behind the walls of the Kremlin, still managed to inject himself into the Big Four Western summit conference just concluded by President Eisenhower and the heads of government of Great Britain, France and West Germany.

The publicity-minded Khrushchev managed it in two ways. In Geneva, a Soviet diplomat sought out Western newsmen to impress upon them the Soviet Union's concern and embarrassment over Red China's seizure of territory traditionally considered Indian.

So far as the West is concerned, Khrushchev put the cart before the horse. On his arrival in France last weekend, Eisenhower, made it clear the West would negotiate with the Soviets only from a position of strength.

The Western leaders reinforced this position in Paris when they said that political settlements must go hand in hand with disarmament.

Therefore, no disarmament until the Russians have proven the sincerity of their desire for peace on such questions as a German peace treaty and guarantees for the continued freedom of West Berlin.

WILL NOT 'INFORM'—Dr. Willard Uphaus of New Haven, Conn., goes to jail in Concord, N. H., for defying a Supreme Court order to name guests at a World Fellowship summer camp.

### Commiss Accept Film Depicting Atom Destruction

HOLLYWOOD (UPI)—Gregory Peck, who just returned from a Moscow trip, says Russians feel the same as Americans do about a motion picture showing atomic destruction of the world.

"There was no essential difference in their reactions to 'On The Beach' when it premiered here," Peck said.

The picture shows the end of the world as the result of an atomic war. Peck travelled to Moscow for the Dev. 17 premiere of the film in which he co-stars with Ava Gardner, Fred Astaire and Tony Perkins.

"The Russians I talked to said it was a serious film, that it was good it was made," he said.

# Nikita's Goal: Match U.S. Farm Output

MOSCOW (UPI) — Premier Nikita Khrushchev today opened a Communist Party Central Committee meeting to deal with a problem close to his heart — how to increase farm production in Russia's "breadbasket" seven-year plan.

Ex-Soviet Khrushchev summoned the 150 party leaders for the third time within a year in his capacity as first secretary of the Soviet Communist Party.

Last June, as part of the seven-year plan aimed at catching up with and outstripping the United States in production in all fields, the committee mapped action to meet the boosted industrial goals set during last February's 21st Party Congress.

Today Khrushchev, possibly spurred by the prodigious farm output he saw in Midwest America

last September, directed the 150 committee members and 115 candidates to turn full attention to boosting already soaring agricultural production.

The meeting coincided with the 50th anniversary of the birth of former Premier Josef Stalin who seldom convened a Central Committee session preferring to go-alongs with virtual one-man rule.

Immediately after Stalin's death in 1953 Khrushchev publicized the critical condition of things down on the collective farms and said livestock production was worse than in 1913.

In his sweeping agriculture reform program Khrushchev cut farmers' compulsory delivery quotas forgave back taxes hiked farm prices, did away with taxes on produce from farmers' individ-

ual plots, equipped collective farms with tractors, and sent thousands of trained farm experts into the field.

Perhaps the Soviet Premier's most daring reform came in the clearing of nearly fifteen million acres of virgin farm land in Siberia. The project replaced the Ukraine as the Soviet breadbasket and it was credited with saving the nation from famine when crops failed in European Russia.

Khrushchev says Soviet industry has reached 30 per cent of America's industrial output but the farmers have managed to equal only 20 to 25 per cent of U. S. farm production despite the fact the majority of the Soviet Union's 200 million citizens work in agriculture.

Comparatively only ten per cent of America's estimated 110 million citizens work on farms.

# India Must Negotiate, Nehru Says

NEW DELHI (UPI) — Prime Minister Jawaharlal Nehru said today India must either negotiate with the Chinese Communists over the Sino-Indian border dispute or face up to the grim prospect of "indefinite war" between the two nations.

The Indian people have a right to be angry over Chinese incursions across the nation's borders, Nehru said in the upper house of Parliament, but they would be better off translating their anger into building industrial and military strength and national morale.

The prime minister said international disputes such as the one in India and China are engaged in now may be settled only through diplomacy or war but any Sino-Indian conflict would be "an indefinite war because we will never give in and they will never give in."

Nehru Monday rejected Chinese Premier Chou En-Lai's suggestion that the two men meet Saturday to discuss the border dispute. The

suggestion came in a letter from Chou Dec. 18.

The Indian prime minister said today that although the Chinese note reiterated past charges India considered untenable, it still contained "certainly a strong desire to meet and discuss."

"I welcome it," Nehru added. "When the time is suitable I will avail myself of the opportunity" of meeting with Chou.

Some advance publicity said this episode would be a satire of "Dragnet." If this was the case—and I think it was a press agent's blunder—then Mr. Praskins never saw Jack Webb in action.

Dialing And Filing: Two special events shows on NBC-TV Sunday night — led by Chet Huntley and Frank McGee, respectively—seemed to borrow from CBS-TV's new habit of explaining every thing in a "moment of truth." Both men took pains to explain how and when the newscasts and tapes were made.

On Saturday, ABC-TV presented an hour-long documentary, "Christmas and Christianity in a Shrinking World." Produced by Yale University, it was informative and thought-provoking, although somewhat amateurish in many of its production values.

The Channel Swim: Sunday Workshop, the CBS-TV series that will feature new talent in original TV works, makes its debut on Jan. 24, from noon to 12:35 p.m. e.s.t. Vacation replacements for NBC-TV's Jack Paar: Arlene Francis for the first week, starting Dec. 28; Joey Bishop for the week of Jan. 4.

The public affairs programs that replace NBC-TV's Five Fingers starting Saturday, Jan. 23 will come in under the title of World Wide 60. The comedy team of Wayne and Shuster will offer a sequel to their "Julius Caesar" sketch on the Jan. 10 Ed Sullivan show. It's called, "The Burning of Rome."

One marriage in four ends in divorce today, according to the Conciliation Court of Los Angeles, which said divorce affect 300,000 children a year.

# Girl Grabs Bag With \$5,675

NEW YORK (UPI) — Was the little girl a gambler or a trained robber? Was the man who ran off with the money her father, her mentor, or just a bystander who saw an opportunity?

These questions were unanswered today because the little girl, the man and a bag containing more than \$5,000 cash were all missing.

Monday afternoon Miss Catherine Bacon, 62, a bookkeeper for a West Side cafeteria, was walking to a bank to deposit \$5,675 which she carried in a paper bag. While she was waiting to cross the street a girl about 8 grabbed the bag and started running.

Miss Bacon ran after the girl shouting "Help! A thief."

A woman passerby stopped the little girl.

Just when Miss Bacon reached the scene, a man of about 40 with a black mustache appeared and said "let me help you."

In the confusion the man scooped up the money and fled.

When police arrived they found Miss Bacon left holding a \$50 bill, a \$1 bill—and a piece of the bag.

# Athlete's Son Dead

ROYAL OAK, Mich. (UPI) — John Thomas Tracy Jr., a seven-week-old son of Pittsburgh Steeler fullback Tom (The Bomb) Tracy, was found dead in his crib Monday. Police said death apparently was due to suffocation. The Tracys also have a 2-year-old daughter.

# Makes Fight Offer

PHILADELPHIA (UPI) — Promoter James Riggo of the Alhambra Boxing Club said Monday night that he has offered Gene Fullmer a \$100,000 guarantee to defend his NBA middleweight championship against Joey Giardello at Philadelphia next spring.

**NEWCOMER?**

# GE Theater 'Comics' Play Is Refreshing, Perky

NEW YORK (UPI) — One successful cartoon-based family series deserves another, I suppose.

Sunday night, CBS-TV's G.E. Theater — presumably noting the TV success of Dennis the Menace — presented Crockett Johnson's old cartoon characters, Mr. O'Malley and Barnaby in a half-hour colorcast written by Louis Felleiter.

Bert Lehr starred as the winged, cigar-smoking, fumbling fairy godfather, Mr. O'Malley, and Ronny Howard was his little pal, Barnaby. The approach was slowed by a schmalz-slippery path, but in general, it succeeded in showing off a refreshing, perky spirit.

I especially enjoyed the sight of Lehr as he flapped around, or grumbled about nose cones and rockets in his flight path, or the utter unpredictability and unreliability of leprechauns. "When you want a leprechaun, you never can find it," he snorted. But the prize line went to Barnaby, who told an uninitiated little friend, "people will think you're goofy if you go around imagining you don't see things."

Although master Howard was strident and Dody Goodmanish at times, the videotape was badly corrugated and the saccharine was unhandled. I'll go on record as pro-O'Malley anytime he wants to fly around again.

The time-honored cry of "we'll head em off at the pass," rang out Sunday night as part of another tongue-in-cheek Maverick episode called, "A Cure For Johnny Ryn."

In a ABC-TV hour, Jim Garner announced that a town's best-loved male citizen—fellow named Johnny Ryn — became a low-down highway robber when soaked. After Garner captured this Jekyll-Hyde character, no one in town wanted to punish the loveable bandit.

Up to the three-quarter mark, the plot was suitably entertaining, breezy and easy-to-take. But writer Leonard Praskins seemed to run out of gimmicks at that point and finished off with some standard western flourishes and some puzzling exits that only diluted the show's quality.

# Chessman Says 'Thank You' After Hearing Date Of New Execution

LOS ANGELES (UPI) — The wheels of justice turn slowly but inevitably, moving closer each day to the extinction of Caryl Chessman's life.

For the eighth time in nearly 11 1/2 years, the notorious convict-author was sentenced to death Monday during a brief court session carried on in the impersonal tones of justice.

"It appears to the court that there is an unexecuted penalty of death in this case," said Superior Judge Herbert V. Walker. There was no rancor or sympathy in his voice. He was performing only one of the numerous duties of his office.

"The court now fixes Feb. 19, 1960 as the date for execution," he said.

There was no emotion heard from the few spectators in the courtroom, no visible excitement—most of them were waiting around for other cases.

To Chessman, sitting in his cell in San Quentin's death row where he has been lodged since shortly after his conviction of 17 felonies May, 1948, the news had been ex-

pected.

"Thank you," he said simply when a guard told him the date.

The ruggedly handsome Chessman, now 38, was busy preparing new appeals. Such appeals in the past have forestalled his other execution dates, although some have yet earned him his hope of getting a new trial.

The eighth execution date was set because the U. S. Supreme Court recently turned down his latest appeal.

# Teachers 'Safe' From Typhoon

MANILA (UPI) — One hundred schoolteachers who had been missing for five days in the typhoon-lashed central Philippines turned up safe and sound today, reducing the toll of the storm to 64 persons dead or missing.

Reports from Samar quoted constabulary Lt. Col. Simplicio Cristobal as saying the teachers, who had set out from Zamarraga for Samar in a launch when the typhoon hit, succeeded in returning to Zamarraga.

Elsewhere in the Philippines, 14 persons were known dead and 20 missing in the wreckage of the inter-island steamer Rial; 19 were killed and one missing at various points in southern Luzon and three were dead on southern Romblon Island.

Two other ships in addition to the Rial—the freighter Eduardo Caremains and the motorship Basilian—were disabled by the storm. No casualties were reported on either ship.
