Thus the marks of the true Christian are on the surface contradictory. He is completely involved in making this a better world to live in. He is completely concerned for his neighbor at work, at play, and at home. But he considers all these as a preparation for a better world to come. His true goals are established in the kingdom of heaven promised by Christ. In the long run theirs is no centradiction, since loving neighbors is a fulfillment of our Lord's commandment. And fulfilling the commandment is the path to heaven.

GREGORY LUMBER of Senford

Parallel lines always converge at the same point on the harison. If we stand in the center of a highway, and look straight about, we discover that the lane seem to disappear at one central point. The artist must deal with this certicus fact when he points a curves. We call it perspective. It is the way our open so the picture. If we stand at a different position, the same disages, and the venishing point is moved to a new place on the horizon. By changing our position

This is true of life. How we look at our afflictions and our troubles is very largely determined by our inner attitude. In a very real way our ideas about God will determine our perspective.

The Church can help you to place all areas of life in balance. Many people today are confused and disturbed because they see things in the wrong perspective. Visit your church this Sunday and see if the world doesn't look better

THE CHURCH FOR ALL ... The Church is the preston faster on earth for the building of diameter and good estimately. It is a proceedings of application where. Without a strong Church, neither demonstry nor stylination on nervive. There are four sound should attend services regularly and support the Church.
