It appears that there is small hope in being governor of Indiana... As we understand it, when better government is available, Indiana will not elect them... The Seminole High School opened this morning with prospects for one of the most successful years in its history.

Youth Is Again Served

The Davis Cup, the most widely sought tennis award in the world, has passed to France after being in the possession of America since 1920. To the dazzling Rene LaCoste and scintillating Henri Cochet goes the credit of lifting the crown which has rested so securely for several years in the United States.

Saturday's matches furnished a brilliant climax to the most colorful meeting ever staged with the Davis Cup at stake. In the opening rounds of the championship play, Tilden outdressed the tennis world with a decisive defeat of Cochet and with Francis T. Hunter, he copped the doubles event while Johnston was losing a hard-fought match to LaCoste.

The dynasty of Tilden and Johnston has come to an end. It reigned supreme for years but it has met the inevitable. Big Bill and Little Bill are no longer possessed of the wizardry which used to make them invincible.

Coolidge And Congress

With a most enjoyable summer vacation ended, President Coolidge has returned to Washington from the Black Hills of South Dakota. Back at his desk once more, the chief executive faces the task of disposing of several important problems.

In connection with Mr. Coolidge's probable recommendations to Congress, whether it meets in extraordinary session or at the regular time in December, it is interesting to know how the Chief Executive feels about certain questions of national interest.

"Tax reduction and flood relief: These are thought of together because what the government plans to pay out in the Mississippi valley it must plan to take in from the whole country.

Farm relief: The President will not compromise with liberal congressmen on anything like the equalization feature of the McNary-Haugen bill.

"Tariff: The President is opposed to any revision. "Mexico and China: The Chief Executive foresees no change of the American policy towards either country.

With a Senate that is almost evenly divided between the major parties the President faces a tremendous obstacle in carrying out all of his wishes with regard to the above questions.

WHY NOT WORRY

A lot of people find consolation in worry. This seems the only answer to that old question, brought up again the other day by a New York health authority: Why worry, since worrying never gets a person anywhere?

OUR DRIPPING BORDER

From sea to sea Canada is wet again. New Brunswick put into effect on Wednesday her "government control" act, patterned after that of Ontario, and with it she passed a damp cloth over the last strip of our northern border to remain dry.

JUSTICE BOTH WAYS TAMPA TRIBUNE

The way to put down mob law is to show that the state will not submit to it; that it will punish those who take "enforcement of the law" into their own hands.

When a mob undertakes to assault a jail and intimidate a public officer in order to take vengeance upon an accused prisoner, without granting him the right of trial by jury, it's itself guilty of a crime against the state which should not be ignored.

Mrs. Mamie K. Whittle Becomes The Bride Of Archie Coleman Hall

A very quiet yet most impressive wedding was that of Sunday morning at 8:30 o'clock when Mrs. Mamie Kate Whittle became the bride of Archie Coleman Hall. The impressive ceremony took place at the bride's home on Oak Avenue in the presence of only the immediate families, with Dr. F. D. King, pastor of the First Baptist Church, officiating.

The bride was beautifully gowned in a stunning frock of French rose crepe, with embroideries of gold and deeper rose tones. Her chic hat, shoes and other accessories were in matching tones.

A pretty setting for this affair was arranged with quantities of exquisite pink radiance roses combined with asparagus ferns, together with many potted plants and ferns.

Immediately following the ceremony the young couple left by motor for a short wedding trip and upon their return will make their home at 1401 Oak Avenue.

Mrs. Hall is the only daughter of Mr. and Mrs. Austin C. Williams and has made Sanford her home since early childhood. She attended the local schools and for the past two years has held a responsible position in the office of J. D. Jenkins.

The groom came to Sanford about two years ago from Virginia, and is associated with the Seminole Pressery Company. He is a brother of Mrs. Marion B. Smith of Sanford.

Their many friends will join in wishing them every future happiness.

Press Agents Of Country Flooding Washington With All Kinds Of Free Publicity

WASHINGTON—One of the best ways of obtaining a liberal education is to become a Washington correspondent and read all the free publicity stories sent in by the press agents. Neither the press agents for the government departments nor the propaganda artists for the various organizations let up during the time Congress is away. Just because everyone else throws these handouts into the waste basket unread, your correspondent is going to reveal some of the stuff that the press agents have sought to get into the papers, as gleaned from the mail of the past week or so: Motorists are "conservatively estimated" to be buying \$100,000,000 worth of farm produce at roadside markets in 1927, according to the American Automobile Association. Out of every thousand car owners, twelve get "out of gas" every month, according to the same organization. The Department of Agriculture announces that 1,000,000 less pounds of tea were imported in the last fiscal year than in the year before. The Baltimore & Ohio Railroad insists that it is erecting a huge grandstand with a capacity of 12,000 for its centenary pageant late this month. The National Geographic Society announces that Bath was once England's favorite watering place, that the Bolivian Indians are related to the Incas, and that Sinaia, Rumania, is a beautiful resort in the pine-clad Carpathian Mountains. The Department of Commerce announces that the output of by-product coke for the 31 days of July exceeded the output for the 30 days of June by 6,000 tons, or 1.7 per cent. The Department of the Interior announces that the oil industry has been aided by tracing of rocks in the Rocky Mountains of Colorado, Wyoming and Montana. The Department of Agriculture announces that scrub bulls are unprofitable investments and reduce herds of cows to the level of herds of goats. The Shipping Board announces that the advertisement of the American-France Line and the American West African Line has been postponed until October.

James J. Corbett says, "Faversham's advice decided me on Luckies"

Famous former heavyweight champion, with Mrs. Corbett after breakfast at their home at Bayside, L. I., recommends Lucky Strikes.

William Faversham, The Popular Actor, writes:

"For years I have been a Lucky Strike enthusiast, in fact, I never smoke any other cigarette. In all this time I have never been troubled with throat irritations. In addition to the enjoyment that I get from the superior quality of Lucky Strikes, it is wonderful to know that my voice will never be affected by smoking."

William Faversham

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.

BIG GAINS SHOWN BY NEW ENGLAND INDUSTRIAL HEAD

Three New Plants Are Under Construction At Lynn And Worcester Is Scene Of Much Activity In Recent Months. BOSTON, Mass., Sept. 12. (INS) Important gains by New England industries have been reported by industrial centers in the last few weeks all of which indicates that the drive made by the leaders of industry in this section to boom New England apparently is bearing fruit. Outstanding among the reports was that from Lynn, Mass., where three new plants are under construction. They will be utilized in the manufacture of ice cream novelties, gas heaters and shoes. Worcester will gain a new industry by the formation of a company to handle sales audit machines, employing over 200 workers. A new stove factory has been completed and operators commenced in Hudson, Mass. Woburn, Mass., has a new patent leather factory. VanOrman is shown with his invention. The inset is H. Kaulen of Germany, holder of the world's ascension record, who, like VanOrman, is entered in the international balloon race from Detroit Sept. 10.

WASHINGTON LETTER

WASHINGTON, Sept. 12 There seems to be some confusion as to just what was done to repair the White House at public expense of \$375,000.

The fact is that not only has the White House been given a handsome new roof but it also has acquired a new floor. In other words, instead of being a two-story building as in the past, it is now a three-story building.

Furthermore, the new roof is so designed as to leave a large area on which the president can amuse or entertain.

These are the principal changes in the White House and it becomes obvious that the facilities and occupable portions of the residential mansion have been greatly expanded.
