## Polish State Is Set Up On French Soil

### Former President Of Senate Takes Over Government Reins; Ciano To See Hitler

## Danish Freighters Seized By Germans

### Turkey To Close Dardanelles To Belligerent Nations

The Polish government was established on French soil today with the resignation of Ignace Moscicki, executive interned in Rumania, and the inauguration of Wladyslaw Raskiewicz, former president of the Polish Senate, in Paris.

Moscicki and other Polish leaders who fled there from their own land; Rumanian and German reports at the time said the action had been taken under Nazi pressure to prevent the establishment of the Polish government in France.

The German government, meanwhile, invited Italian Foreign Minister Count Galeazzo Ciano to Berlin where he is expected to arrive tomorrow.

German sources in Berlin and his foreign minister, a first-hand German-Rumanian agreement in Moscow.

Danish lightships in the Baltic, reported being destroyed by German destroyers, and the British destroyers seize three Danish freighters and make off for a German port. Two of the vessels, the *Stena* and *Diana*, were loaded for England with bacon and butter. The third, the *Lynx*, was loaded with wood, and was bound for Sweden to the Netherlands.

Ciano's invitation to Berlin was only a part of an intense diplomatic activity precipitated by Soviet Russia's emergence as Germany's partner in redrawing the map of Eastern Europe.

Turkey, caught between ties with Russia, and the British-French allies was reported, first, to have notified Britain and France her mutual assistance obligations to them would be suspended if they went to war with Russia. Second, to have agreed with Russian leaders that she would close the Dardanelles to warships of all belligerent nations, thus neutralizing the Black Sea.

Other developments reflected uneasiness in Southeastern Europe. Rumanian foreign minister prepared to go to Moscow Monday with a staff of experts; a German mission at Bucharest; Bulgaria was reported to be negotiating territorial concessions; British officers conferred with King George II of Greece.

The German cabinet called off to hear a declaration by Reichschancellor Hitler, will meet in the coming week, it was announced in Berlin.

The Italian cabinet met with Benito Mussolini to discuss a proposed loan to meet an unbalanced budget and "new military expansion."

Poland partitioned and Austria in a separate agreement to form a central British mission in Paris appeared to be ready to resist the Nazi-German mission.

Germany and German emissaries related comparative quiet in Western Front.

There will be several openings in the city for guards. Guards are being recruited in the city and are being trained in the city. The city is in need of guards and is looking for men who are willing to serve. The city is in need of guards and is looking for men who are willing to serve.

## PRESERVED FROM WAR

Three safe and happy little refugees in one big life preserver. They're a long way from war now, as liner Donald McKay brings them into Boston harbor from the war zone. ## Contraband List Garner Expected Similar To That Of World War

### U. S. Plans No Protest On Rules Governing Shipments

WASHINGTON, Sept. 30.—(AP)—After a study of the contraband lists issued by Great Britain and Germany, two conclusions have been reached in official quarters here: (1) The lists look different, but are essentially the same. (2) They correspond very closely to the American contraband list of 1917, and consequently no protest against them will be made by the United States government.

An American ship which carries contraband to a belligerent port can be stopped, searched and her cargo seized. There are many precedents under international law which establish that the ship can be seized, too.

If the ship carrying contraband to a belligerent is stopped by a submarine which cannot escort her into port or place a prize crew aboard her, she may be sunk after careful provisions are taken for the safety of her crew and passengers. That leaves little leeway for diplomatic action on the part of the government.

The German list has thirteen categories of contraband articles compared to the British five, but the latter include everything contained in the German divisions.

In general, virtually any article could be included under the various categories. The first embraces arms, the second means of transportation, the third means of communication, the fourth money, and the fifth food and clothing. All ingredients or materials or machinery used in their manufacture are included.

There is one important difference apparent between the British and the German lists of which the United States is aware. Under international law ships may carry contraband to Germany, but they may not carry contraband to a belligerent port.

It would seem, therefore, that an American ship could carry a cargo of wheat to Germany if it was not definitely known that the wheat was to be used for the Nazi army, navy or air force. But German experts and experts are controlled by the state. Her opponents, therefore, probably would allege that every shipment of wheat to Germany was destined to the Nazi army, navy or air force.

The State Department has not received a French contraband list, but it is presumed to be similar to the British one.

LONDON, Sept. 29.—(AP)—The British press announced today that the government had received a French contraband list. The list is presumed to be similar to the British one.

## Road 288 May Be Completed Soon By State

### Finish Of Highway No. 44 To East Coast Is Still Indefinite; 288 Being Surveyed

With assurances on the part of the State Road Department that the proposed improvements on State Road No. 288 will be carried to completion with the least possible delay, the opposite is true concerning the improvements of State Road No. 44, connecting 1 1/2 miles to the East Coast, in Seminole County, according to information received today by County Attorney E. F. Housholder from officials of the department.

A crew of engineers from the road department have been engaged in making a survey of the proposed route for No. 288 and are designating the ownership of the property to which title has not yet been obtained by the Board of County Commissioners. In all there are 14 such parcels and a special session for the Circuit Court has been called for Thursday when a jury will hear the condemnation proceedings and set the amount to be paid for the property by the County.

An appropriation is included in the State Road Department's budget for the current fiscal year for the construction of a road bed and it is hoped by local interests that an appropriation for hard surfacing the highway can be set up in next year's road budget.

Efforts to secure the improvement of State Road No. 44 in Seminole County, have been stymied, however, with an announcement from the department that no final surveys of the route of the road through the county have been made and that there are no prospects that such surveys can be made any time in the near future. This announcement from the department, it is said, leaves the County Commissioners powerless to obtain the necessary rights-of-way and complete other incidental matters until the required surveys can be made.

It had been hoped by the Chamber of Commerce, an interested party to prevail upon the State Road Department to include in their budget for the coming year, sufficient funds for the proposed improvements to this thoroughfare.

The letter concerning the status of the projects for the improvement of the road through Seminole County was cited in a letter from G. J. Deacons, division engineer, to County Attorney E. F. Housholder. The letter is as follows:

"With reference to your inquiry, I wish to say that I have discussed the situation with regard to this road with the Highway Engineer and with Mr. Masie, division engineer of the Land.

"As to project No. 1229 (improvement of the road west of Sanford), we have a right-of-way submitted by the Division Office several years ago and have in our files deeds in title of the property which is to be acquired for the east approach to the Wakiva River bridge. The Highway Engineer advises me that he knows of no plan to re-locate this road in such a way as to divert it from its present location on First Street. He has requested, however, that the Division Engineer make a relocation of some of the curves near the west end of this project.

"On Project No. 956 (improvement of the road west of Sanford), we find that a partial right-of-way map has been prepared and we hold in our files 18 deeds covering a portion of this right-of-way. I am advised that a part of this location is also due for revision.

"In response to the inquiry you made, I am instructed to advise you that the department does not have the authority to complete the surveys that will be necessary before the County can be advised definitely as to these locations or as to the width of right-of-way that will be required. The time of the Division Location Engineer will be entirely taken up for some months to come on projects that are in the Department's program for early construction.

Under these circumstances I can not see much chance of giving you any definite information in the near future.

In a lengthy letter to Mr. Deacons, the County Attorney stated that he will be pleased to have you make an examination of your records in regard to the location of State Road No. 44 and advise me as soon as possible just what steps can be taken to get this question solved.

Mr. Housholder also pointed out in his letter that during the past 18 or 19 years State Road No. 44 has been a main thoroughfare in Sanford.

## RUSSIA AND GERMANY PARTITION POLAND

## Deepening Of River Channel Is Recommended

### Andrews, Hendricks Report Survey Ordered For Canaveral

The maintenance of a channel 100 feet in width and 10 feet deep in the St. Johns River from Palatka to Sanford has been favorably reported by the War Department, according to a telegram received today by Mayor Edward Higgins from Senator Claude Pepper.

The telegram is in part as follows: "The report recommended that the existing project for the St. Johns River be modified to provide a channel 100 feet wide and 10 feet deep at mean low tide water from Palatka to the Municipal terminal at Sanford with a channel of like dimensions from terminal to Enterprise with provision for raising and lowering locks, providing local interests furnish five feet of coal to the United States and lands required for the construction of said channels, cut-off, and locks and for their future maintenance."

"I am advised by the War Department that a five foot channel (from Sanford to Lake Harney) requested by local interests was not recommended for the reason that benefits to be expected would not be sufficient to justify the cost."

Meanwhile, Senator Charles C. Andrews and Congressman Joe Hendricks advised The Herald that another project in which his county is interested has moved closer to actuality.

The engineer said that official notice of the order will be released some time tomorrow. It also advised that the survey should be commenced in the near future to determine the location and cost of the project.

"It has been a pleasure to cooperate with you and others who have been interested and active in the development of this project," Senator Andrews said. "This is the most important progress ever achieved towards construction of a harbor at Canaveral," Congressman Hendricks said, adding that "I will continue to push this project to completion because of its great benefits to my friends in Central Florida."

## Louis P. McCuller Named ROTC Captain

Louis P. McCuller of this city, has been appointed to the rank of captain in the University of Florida's R. O. T. C. brigade, according to an announcement received from Gainesville today. McCuller was one of 28 candidates and 26 first lieutenants selected by the university's military department.

The infantry regiment will have six companies with 10 captains and 14 first lieutenants, while the artillery regiment will be composed of 18 batteries with 18 captains and 18 first lieutenants.

The 146 senior military students will serve as officers of the brigade and will command more than 1,500 students who are in the military organization.

## Reds Should Be Disbanded, Says Sen. Martin Dies

### Suggestion Approved By Spectators At Committee Session

WASHINGTON, Sept. 30.—(AP)—Chairman Dies of the House committee on an American revolution received a standing ovation from spectators at a committee hearing yesterday when he suggested that the United States should demand and follow the Communist Party.

His statement was made to William Z. Foster, chairman of the United States Communist group and yesterday that committee witness who had contended that Soviet Russia's occupation of eastern Poland was "100 percent justified because of world peace."

Asked a question whether he would be firm in the United States if it entered the European war on the side of Great Britain and France, Foster replied that he would.

The chief of his committee said that the issue of disbanding the Communist Party in this country and debating it should be a question of the United States and not of the world. Spectators stood up in approval.

Just before the session Dies asked Foster to state the committee a list of all party officials in this country as a preliminary to obtaining a complete list of all members of the party in the United States.

Foster said he would submit the request to party officials and suggested that Dies add Mr. (Henry) Ford, father of the Chicago Packard and the Associated Farmers of California to that list.

## U-Boat Commander Denies Sub Capture

NEW YORK, Sept. 30.—(AP)—Lieut. Capt. Herbert Schultz, commander of a German U-boat who claimed to have sunk the British freighter *Fiby* and to have advised Winston Churchill of his action, denied last night in a transatlantic radio interview that he had been captured. (Churchill, the British first lord of the admiralty, said in Commons last Tuesday that the destroyer of the *Fiby* was "now in our hands.")

Schultz, speaking from Berlin over the CBS network, said he got no reply to his message about the *Fiby* "except the (Churchill) speech in Parliament."

## Major Bivins Dies Of Heart Attack

Major Hugh A. Bivins, husband of Mrs. Norma Herndon Bivins, formerly of this city, died of a heart attack at his home in Daytona, O., last night, according to information received today.

## Committee Is Told To Watch War Profiteers

### President Sees Constant Surveillance As Necessity For Prevention Of Greed

## Embargo Repeal Still Debated

### Opponents Strike At 90-Day Credit Provision Of Proposal

WASHINGTON, Sept. 30.—(AP)—President Roosevelt asked the temporary National Economic Committee today to keep "a constant eye on increases in prices of basic materials" to prevent profiteering.

In a letter to the committee chairman, O'Mahoney, (D-Wyom.), the President said he believed "constant surveillance is clearly in keeping with the purposes and objectives for which the N. E. C. was established, and I believe that, in carrying forward such a program, your committee can well become an important part in our first line of national defense against ugly and inhuman greed."

Roosevelt referred to a statement made by O'Mahoney in the opening of the series of committee hearings last Monday. O'Mahoney said then that the committee's work would be emphasized by the prospect of profiteering resulting from the European war.

Speaking of the administration mortality bill involving "credit and carry," not "cash and carry," opponents of the measure yesterday made its financial section an issue second only to that of repealing the arms embargo.

The measure, flung by Roosevelt during the day, would prohibit selling credit to buy arms or other supplies here on 90-day non-renewable credit, subject to the approval of the President.

Moody charging at the proposition of the legislation, the opposition considered it a challenge when Chairman Pittman, Democrat, majority of the Senate committee, said yesterday that the extent of the 90-day credit bill would amend the Johnson Act. That law is a statute dear to the hearts of senators who have traditionally considered an American ally.

From the affairs of Europe, a part of them are allied with the opposition to the new bill.

The Johnson Act was passed in 1917 and after an intricate history of the defaults of the United States in the early part of the century, it has been amended several times. It is now in effect, and is being amended to allow the United States to supply arms to other countries.

## Fall Meeting Of UDC Held Friday

The first fall meeting of the N. De V. Howard Chapter of the United Daughters of the Confederacy was held Friday afternoon at the home of Mrs. F. L. Woodruff on Oak Avenue with the president, Mrs. A. K. Rossetter, presiding.  
The meeting opened with the Lord's Prayer and the following pledges were read in unison: "I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands; one nation, indivisible, with liberty and justice for all," continuing with "I salute the confederate flag with affection, reverence, and undying remembrance."  
After singing "America, the Beautiful," accompanied by the piano by Mrs. Claude Herndon, the meeting was devoted to the business activities of the chapter. The delegates elected to the state convention to be held in Jacksonville on Oct. 17, 18, and 19 were as follows: Mrs. A. K. Rossetter as president, of the chapter; her alternate, Mrs. R. J. Holly; Mrs. J. M. McCaskill and her alternate, Mrs. J. J. Bolly.  
Mrs. F. E. Roumillat announced that she was in receipt of a letter from the state president, Mrs. Mary Noel Moody, of Plant City, appointing Miss Lucy Roumillat to be Mrs. Moody's special agent at the state convention. Mrs. Moody also appointed Miss Roumillat to serve as a Florida state page at the general conference which will be held in Charleston, S. C. in November.  
The president, Mrs. Rossetter, appointed Mrs. Margie Hagan, Miss Margaret Robin and Mrs. J. J. Holly as the nominating committee for the selection of officers at the November meeting.  
Owing to inability of Mrs. J. N. Whitner to give the scheduled talk on "Founder's Day," Mrs. F. E. Roumillat gave a reading on "Benjamin Memorial Home" dedicated in 1935 in Bradenton.  
After singing "Swanee River" refreshment were served by the hostesses, assisted by Mrs. B. L. Perkins.  
Members present were: Mrs. B. L. Perkins, Mrs. J. H. Trulluck, Mrs. Claude Herndon, Mrs. E. A. Douglas, Mrs. F. E. Roumillat, Mrs. R. J. Holly, Mrs. Margie Hagan, Mrs. J. J. Holly, Mrs. A. K. Rossetter, Mrs. J. M. McCaskill, Mrs. F. L. Woodruff, and honorary guest, Mrs. E. G. Tyson.

## Women Shouldn't Be Too Casual In Selecting Apparel

NEW YORK, Sept. 30.—No truly chic woman says, "Now I must buy a Fall suit," or "I think I'll get a new hat next week."  
Indeed, her conversation with herself goes about like this: "How do I want to look this Fall? If I get a suit, what kind of accessories will I need to go with it? What type of clothes best suits my kind of figure? Should I do something about my figure before I even consider anything new? Is my hair right with the hat I'll want to wear with the suit I have in mind?"  
In other words, she's a planner and a schemer. She isn't what's being talked about in the stores at the moment. She thinks twice before picking a style that is being talked about too much.  
Before trying on a single suit, she has made up her mind what accessories will be needed. She looks straight down her nose at the shopper who gets a hat on the spur of the moment and then has to buy dress, shoes, bag and gloves to wear with it.  
Once she has completed her shopping list, she has a new 7-millimeter camera and a decided list of things to buy for her shops for a suit. She knows that suits have taken on a new importance this Fall.  
Every silhouette, every fabric and every type of trimming as perfectly represented in suits in day dresses and separate coats. You can be as famous-looking in a dressmaker's suit as you can be trimly tailored in a day dress.  
The new costume suits glow some with short boleros over matching or harmonizing dresses, many with longer jackets, quantities with full-length coats. The best named is after utilitarian, of course. The coat will go over other dresses and the dress may be worn under a fur jacket of heavier winter weight.  
For trimming, the highlight is with such outstanding American designers as Helen Cookman putting fur jackets, as well as its sleeves and every kind of collar on becoming dressmaker suits.  
Fur, moderately fitted, occurs at the backs of suit jackets give the popular full-length at the back effects. The new fur-trimmed suits are showing long-length jackets. The pencil slim or cigarette silhouette is as handsomely worked out in suits as in day dresses.  
It's now to wear them blouse with tweed. It's smart to buy two sets of accessories to wear with your suit one tailored, the other after-noonish. For variety's sake, have several scarves as well as the right gloves. And use a little imagination about tying the former. Ascot ties are one good dinner, but so are any number of beautiful cravats. Incidentally, to keep a cravat, but instead, scarf in place, fasten lingerie-type ribbon to both ends and tuck the ends of the tape together in the middle of your back.  
Since men's dark-colored hose often run when laundered, they are likely to stain other clothing. So wash the hose separately, hang them up quickly and don't let them come in contact with the rest of the laundry.  
Tweed coats are seen in Lutwin's collection. They have a dark blue back, a lighter blue front. Another wool model is purple-back and fuchsia-fronted, making a pair of a coat plain wool, the opposite side plaid.

### BUT YOU CAN'T "PLUG" A CAN OF TOMATOES!

Did you ever "plug" a watermelon? If so, what did that little upside-down pyramid mean when you cut it out of the melon's rind? It meant protection. With it, you could make sure you were getting what you were paying for—a good ripe watermelon.

In most purchases, of course, you can't take that protection. You can't, for example, cut into a can of tomatoes... or a box of biscuits... to see what's inside. But you can still protect yourself when you get

The Eustis Panthers produced a fast backlog to outgain the Sanford Celery Feds in a 12-6 victory. The Panthers' offense was led by Dick Cassiano, who carried the ball for Pittsburgh against Washington in Seattle, Sept. 20.

## CHALKING 'EM UP

After Sanford's win over the great Augusta Tigers of the Florida League last night, we're tempted to do some chalking. But on second thought, that would be a bit unbecomingly. After all, the Tigers did outscore the Lookouts the night before on the feet and it was the Augusta boys who really made it look like they were the better team. And last night, in all fairness to the Sanford boys, they were the better team. If they had their early season pep, they'd have finished off the Augusta boys in the regulation nine innings. While not being facetious, we'd like to suggest that perhaps the Sanford boys had better stick to their own class from now on. That's the kind of Joe Louis comment to fight Henry Armstrong and then find that while he could knock Henry out if he could ever touch him, the lightning jab and cross punches that he himself hasn't a chance. That was the situation with the Augusta boys. They have a Joe Louis in the traditional Yankee style. But one thing they did do well at was to outscore the Sanford boys in the regulation nine innings. If you can't get it both Frank and Sid Hudson pitched hard and fast. They were in the game from August appeared somewhat overworked. But they weren't fed ashamed. The Florida State League teams long ago resigned themselves to fate... Now, on to Miami!

## Cheer Leaders Are Selected By SHS Students

Last Thursday the auditorium was the scene of some of the best cheering we have had. There were six boys and six girls all of whom are very good cheerleaders. Everyone wished that all of them could have been selected for the coming year but unfortunately we had to choose one girl and three boys. Mary Beldin was elected. She joins Estelle Hurt and Dorothy Kader who were elected last year. Jack (Butterball) Birtney, Dickie Brown and Bruce Birtney are our cheerleaders.

The cheerleaders think that their costumes this year will be very effective. The girls will wear orange skirts and white shirts, and the boys will wear orange and white shirts. Mr. Yowell kind donated to the leaders the H. S. socks which are black and orange. When it turns cold they will wear the school sweat-suits and black.

## Series Of Chapel Programs Planned For Junior High

The home rooms at the Junior High School are each planning a chapel program which is to be presented sometime during the school year. One of these programs will be presented each month. On Tuesday morning, Sept. 22, Miss Lawton's section of the seventh grade presented the first program. The program was operated with several short numbers which were followed by a play which had as its fundamental theme the fact that America is the "great melting pot" of all nations. The students who took part in the presentation were: Scripture—Mary Yates, Dances—Mildred Robson, Reading—Lucy Ward and Nell Powell, Announcer—Carl Sumner, Play Characters—Elizabeth Audrey Bach, Storchid, Boy-Jerry White, Irish Girl, Virginia Weddie, Hebrew Boy—Louis Temple, French Girl—Lydia Weibull, Dutch Boy—Cavin Temple, Italian Girl—Mary Louise Smith, Scotch Girl—Emma Rumbley, Spanish Boy—Rodolph Wallers, American Boy—Charlie Sparkman, American Girl—Mary Ann Welch, and Flag Bearer—J. ## Peace Shall Reign

By LAURELLE DUTTON  
If everyone were satisfied;  
If no one killed, no one lied,  
The world in peace would always be,  
There'd be no war for you and me.

The men and women of tomorrow  
Would have no hatred and no sorrow;  
There'd be no warring days to come;  
No roaring cannon, no beating drum.

The earth would see that least-work counts,  
There'd be no horrid war  
'amunals with happiness  
The world would glow  
In a universe of plenty, where  
there is no foe.

## Swimming Class Is Formed At Seminole

A group of students who were interested in having a swimming class met Tuesday. It was decided to meet at Sanlando Springs Tuesday of every week. The means of transportation will be by bus. Forty members have enrolled in the class. In the Spring, the best swimmers and divers will have a meet with other teams.

## Sophomores Practice Paragraph Writing

The Sophomore English classes were given as an assignment topic sentences around which paragraphs were to be developed. A few of the sentences are given:

Cabbage, oak, and cypress trees dotted the swampy banks. Moss hung gracefully from the tree trunks. Wild flowers grew in the fertile soil along the banks. Logs lazily floated in the reddish water. Fern, water lilies, and hyacinths added to the beauty of the dike water. The sun glistened on the little ripples in the water like starry birds flew overhead. The only sounds which broke our motor boats, the soft lap, lap of the water, and the occasional song of a bird. A soft breeze was blowing, gently swaying the moss on the branches, rippling the water, and moving the flowers and shrubs. All was peaceful. Even the fish were still. The wonders of nature form the most fascinating scenes I have witnessed. It was a beautiful sight.

## THELMA JOINS.

The game was in the seventh inning and the bases were full. Jack was at bat. Strike one. Strike two. Strike three. Jack went down leaving the score tied one to one. The eighth inning went by with neither side scoring. Then the opposing team scored three runs in the half of the ninth inning making the score four to one in its favor. In the last half the bases were loaded again and Jack was up. The count was three balls and two strikes. The pitcher wound up and threw the ball; Jack swung. There was a mighty cheer from the crowd for Jack who had reformed himself by hitting the ball over the center field wall for a home run. Finally the game was won.

## JUNIOR BROW.

We had driven through mud and rain to see this panorama and now that we were approaching our destination we were quite sure our efforts would be rewarded with a picture that would remain in our memories forever. As we came to the top of the last incline, the full glory of this view burst upon the water falls, the river in the distance, and the little town nestling in the valley. Indeed, it was a beautiful sight.

## First Meeting Held By Dramatic Club

The first meeting of the Dramatic Club for this year was held at the home of Patty Hodge, Thursday, Sept. 21.

Plans were made for putting on three or four plays which will be presented before Christmas. The play has not been selected yet. A committee was organized to arrange for stunts to be presented before the club as a means of raising prospective members. The first tryouts will be held during the next week.

After the business meeting was over refreshments, served by Patty and Mrs. Hodge, were enjoyed by the members. Those who attended were Misses Nellie Williams, Patty Hodge, Margaret Goodard, Martha Emerick, Nancy Dickson, Wilma Lewis, Dorothy Rung, and Grace Scherer.

Also Bill Brown, Mack Cleveland, Harry Brown and others.

## Housholder Speaks On Constitution

Presentation of the Flag—by Boy Scouts.  
The Star Spangled Banner—led by Mrs. McCracken.  
Scripture—by Mr. McKay followed by the Lord's Prayer.  
Address—by Judge Housholder.  
Since this was Constitutional week Mr. Housholder spoke on the preservation of our Constitution. He also stressed the fact that the young men and women of today should spend more time to the problems here at home and less to those in foreign countries. He said that he believed that someday all nations would see that democracy was the only successful way of having peace.

## Outside Fountain Is Installed At School

To the pleasant delight of the students of Seminole High, the school board has had a new water fountain installed. It is placed at the back of the building on the left side of the back steps, going in.

The students appreciate the installation of this fountain immensely. It is especially an advantage during the hot weather. It is also an advantage to the attendants and to the players when practicing because this is the only outside fountain at the High School.

## Girls Study Rhythm In Gymnastic Classes

The girls of the gym class are taking rhythm as their first unit of work. This is an elementary course in the study of rhythm.

The girls will be taught the older, fundamental steps. A few of them are schottische, the mazurka, the polka, the gavotte, and the waltz. These steps will precede the modern folk dances that they will study later. The history of the dances and music of the different countries will also be studied as progress is made.

The principle of this study is to help the students appreciate and gain a better understanding of the folk dances and to help them understand the origin and the development of the different dances.

## GRAMMAR SCHOOL NOTES

Monday morning at the convocation period, the Grammar School observed "Constitution Day." For a week each room has made a study of the Constitution and Monday a "Constitution Quiz" was held in the auditorium.

Each one of the room libraries received several new books this week. The children are enjoying reading these books very much. Each room has at least 20 books of fiction which the children can check out and read. They can also borrow books from any of the other rooms.

Copies of the Christmas operetta have been ordered and tryouts will be held soon for this play which will be given either Dec. 1st or 8th, depending on the date that is finally set for Thanksgiving. Miss Richter and Miss Purkin, fifth grade teachers, will direct the play.

The Parent-Teacher Board met in the school office to plan the meetings and activities for this year. The meeting was presided over by Mrs. E. C. Harper. Mrs. J. L. Clark, finance chairman, Mrs. J. L. Niblack, publicity chairman, Mrs. M. C. Hagar, publication chairman, Mrs. J. J. Gorman, treasurer, Mrs. E. J. Routh, vice president; Mrs. J. K. Wathen, welfare chairman; Mrs. Porter Lansing, membership chairman; Mrs. J. B. West, secretary and Mr. R. Earl Kipp.

The fifth grade boys and girls are enjoying the spacious campus, and the games which they are permitted to play on it at the athletic and gym periods.

The girls play diamond ball, volleyball and hand ball, under the direction of Mrs. Irma Flirt and Mrs. Frances Stone.

The sixth grade boys play diamond ball, hand ball, and basketball under the direction of Mrs. E. J. Routh and Mrs. Q. Brown. The boys play diamond ball, volleyball, hand ball, and basketball under the direction of Miss Lillian Thornley and Mrs. Gertrude Page.

Schedules are rearranged every day so that during the course of the week every child gets to play all of the games.

## Celery Feds Suffered Many Costly Losses

Our football hopes are not quite as bright as last year due to the loss of such players as Buck and Darrell Ferguson, Rod Williams, Pete Tillis, Pete Eckels, Sam Walker, James Young, Tiger Howell, Warren Odhart and many other good players, but we still have Jimmy Roper, Deb Epps, Charlie Lawitt, Jimmy Eppard, and many more.

Serimmaga started this work and I'm sure we have some future stars among the new players, who will bring glory to our school.

Go to it "Celery Feds" and give 'em all ya got!

## Students Hear About Snakes At Special Assembly

Charlie Morrison, manager of the Rita, again presented a guest speaker at a special chapel Monday. He was George K. End of Battleman, Fla., who has made a study of snakes for the past 15 years.

One of the most interesting facts he told us was that there are only four kinds of poisonous snakes in Florida. These are the diamond back rattler, pigmy rattler, moccasin, and the coral snake. He also described for us the treatment for a rattlesnake bite. The gila monster and the diamond back rattler, delighted the students. The remainder of the program was devoted to the students asking various questions on this particular subject.

## Students Hear About Snakes At Special Assembly

Charlie Morrison, manager of the Rita, again presented a guest speaker at a special chapel Monday. He was George K. End of Battleman, Fla., who has made a study of snakes for the past 15 years.

One of the most interesting facts he told us was that there are only four kinds of poisonous snakes in Florida. These are the diamond back rattler, pigmy rattler, moccasin, and the coral snake. He also described for us the treatment for a rattlesnake bite. The gila monster and the diamond back rattler, delighted the students. The remainder of the program was devoted to the students asking various questions on this particular subject.
