

SANFORD'S GREAT PROSPECTS FOR THE COMING SEASON ARE THE BEST IN HISTORY

Many Big Propositions Contemplated to Put City on the Map

NOT MADE PUBLIC

BUT ARE NONE THE LESS REAL AND WHEN GIVEN OUT WILL MAKE PROPERTY RISE

With new business starting up in every part of Sanford, with many new business blocks contemplated and big business of every kind that will locate here in a few weeks, with the hundreds of dwelling houses being erected all over the city, Sanford presents a most busy appearance to the newcomer. In fact Sanford has gained the reputation of being among the real live cities of the state and with good reason. Last month the total of dwelling houses ran well over the \$50,000 mark and there are more to follow this month.

Several new sub-divisions will be opened this winter close to the city's boundary lines and the lots will be priced at a figure that the many home builders can reach and there will be at least 500 new dwellings started in the months of October, November and December. There are several big projects on foot that will be made public through the columns of the Herald in a few days that will make property take a rise and will also place Sanford in the front ranks of the cities of the state. These projects will go into the thousands, one of them at least being a \$200,000 proposition and will bring Sanford's truck raising from a gamble to a stable business and one that will have a good chance to make good with markets assured.

It seems that the many claims of Sanford to being the greatest trucking center, the greatest shipping center and the fastest growing city in the state as well as the future tourist city are being made good with a rush. All it takes is a little more pep, a little more push and supreme confidence in your own home town. Other people recognize our claims—why not you?

NO FURTHER SERIOUS DAMAGE IS EXPECTED AS RESULT OF FLOOD.

(By The Associated Press)
HOUSTON, Tex., Sept. 13.—Nothing more serious from now on than crop damage possibly the loss of a few cattle, is anticipated by Dr. C. C. Bunney, weather observer, as the result of the overflow of the lowlands along the lower reaches of the Brazos and Colorado rivers.

Dr. Bunney sent out warning Saturday and repeated them Sunday to all points along the two rivers, advising the people to remove their cattle and to leave the lowlands until after the high water stage passed.

KILLER OF AUTO DRIVER FOUND GUILTY OF MURDER AT COLUMBIA TODAY.

(By The Associated Press)
COLUMBIA, S. C., Sept. 13.—S. J. Kirby, first of three men to be tried for the murder August 9, of William Brazell, a Columbia taxi driver, and college student, was found guilty of murder in the first degree today in the Lexington county court. This automatically carries death by electrocution.

THREE PER CENT IMMIGRATION ATTACKED MAY CUT ALL OFF.

(By The Associated Press)
WASHINGTON, Sept. 13.—Attacks upon three per cent immigration law is being made with specific intention to discredit the law. Secretary Davis said today, adding that efforts to bring the law into disrepute were more than likely to result in congress shutting off immigration altogether.

PRESIDENT PLAYS GOLF TAKES YACHTING TRIP.

(By The Associated Press)
NEW YORK, Sept. 13.—President Harding left New York today for a game of golf at Piping Rock, and a yachting trip on Long Island Sound. He is expected to return tomorrow.

PROMINENT MOTOR MAN DIED AT OMAHA TODAY STRICKEN BY PNEUMONIA.

(By The Associated Press)
OMAHA, Neb., Sept. 13.—Melville L. Goodrich, former president of the United States Motor Sales Transportation Co., of Massachusetts, was stricken with pneumonia recently while being taken from Los Angeles to Boston on a larceny charge, died here today.

Gompers Comes South and Will visit Georgia Tennessee, Carolinas

In An Effort to Check Wage Cuts in Textile Mills

(By The Associated Press)
NEW YORK, Sept. 13.—Samuel Gompers, president of the American Federation of Labor planned to leave New York today for Atlanta where he will aid in the inauguration of a campaign Thursday to check the wage cuts in the textile mills of Georgia, Tennessee, North Carolina, South Carolina and Alabama.

POLICE CHIEF OF MIAMI AND CITY DETECTIVE RECEIVE ANONYMOUS NOTES

(By The Associated Press)
MIAMI, Sept. 13.—Chief of Police Quigg and Detective Bishop received anonymous letters from persons signing themselves as bootleggers, threatening to tar and feather them if they do not let up in their campaign on rum runners here.

EXEMPTION TO FAMILY HEADS IS INCREASED

INCOMES UNDER \$2,500 EXCLUDED UNDER NEW LAW

(By The Associated Press)
WASHINGTON, Sept. 13.—The senate finance committee voted late yesterday to retain the 32 per cent maximum income tax rates as provided for by the house bill. It has under consideration a proposal to change the percentage in the different brackets so as to effect a reduction of about 1 per cent on incomes in each racket.

The question of the effective date of the proposed repeal of the excess profits tax will be voted on this morning, it was announced. It was said sentiment in the committee now was to accept the house measure making exception of this tax as of next January instead of retroactive to last January 1 as suggested by Mr. Mellon.

The committee also approved provisions of the house bill increasing from \$2,000 to \$2,500 the exemptions to heads of families having annual net incomes of \$5,000 or less and also increasing exemptions on account of dependents from \$200 to \$400.

Chairman Penrose stated that the committee had decided to vote on the bill, all amendments and questions relating to it, not later than next Friday, so as to give the draftsmen and experts ample time to get the measure in shape for the senate on Wednesday, September 21. He said the committee would sit each day and, if necessary hold night sessions.

Questions pertaining to the bill such as the tax on transportation will not be taken up until the committee has fixed the effective date of the repeal of the more important sections.

JUSTICE AGENTS END PROBE OF SHOOTING.

(By The Associated Press)
PETERSBURG, Va., Sept. 13.—The department of justice agents sent here to probe the shooting one week ago of J. Porter Stokes, traveling man by R. H. Sisco, a civilian guard, at Camp Lee, has completed their investigations and left the city. The findings in the case have not been made public, but Sisco is still under technical arrest on the military reservations, while it is said at a local hospital that Stokes is showing some slight improvement and now he has a fighting chance to recover.

Bernhardt Sleeping in Her Coffin

Sarah Bernhardt, the famous actress, is said to be critically ill, and as she is seventy-seven years old, there are fears that she will not recover. A decade ago she startled Paris by adopting the habit of sleeping in her coffin. Here is a photograph taken at that time.

PERJURY BROUGHT INTO THE ROSCOE (FATTY) ARBUCKLE CASE; WITNESSES UNDULY INFLUENCED

Further Developments Determine Whether Arrests Are Made

(By The Associated Press)
SAN FRANCISCO, Sept. 13.—In a statement expressing conviction of perjury committed by one of the chief witnesses for the prosecution at the grand jury investigation last night in the death of Miss Rappe for whose alleged murder Fatty Arbuckle is under arrest, was issued today by District Attorney Brady. Brady also charged he believed "undue influence and pressure of a sinister character had been brought to bear" upon certain witnesses. Whether arrests would be made in connection with his charge of perjury, he said, would depend upon further developments. The grand jury adjourned after one o'clock this morning without concluding the examination of the testimony. Investigation will be resumed at a date convenient to Brady. Arbuckle was brought into the grand jury room at one o'clock this morning but remained only three minutes when he was led back to his cell.

ATTORNEY POPE INDICTED TODAY FOR MURDER

IN FIRST DEGREE JOINTLY WITH RAWLINGS FOR MURDER OF HICKMAN

(By The Associated Press)
JACKSONVILLE, Sept. 13.—John Pope, local attorney, jointly indicted with Frank Rawlings by the Duval grand jury this afternoon for the murder in first degree as a result of the shooting to death of Hickman a week ago Sunday night by Rawlings during an attempt to steal the Sunday box office receipts of the theatre of which Hickman was manager. Irwin Novitzky, arrested Saturday with Pope, was ordered held for further investigation. John Novitzky, arrested near Fort Myers as an accessory before the fact was exonerated by the jury but will probably be held as material witness. Rawlings was previously indicted but joint indictment necessitates new arraignment. It is understood, Pope and Rawlings will be arraigned tomorrow morning.

REPRESENTATIVE TAYLOR OF ARKANSAS DIED TODAY RANKING MEMBER ON R. & H.

(By The Associated Press)
WASHINGTON, Sept. 13.—Representative Samuel M. Taylor, of Arkansas, died here today after several weeks illness of pleurisy and pneumonia. He was sixty-nine years of age. He was a ranking Democratic member of the Rivers and Harbors committee.

SASKATCHEWAN HAS TWO FOOT FALL OF SNOW.

(By The Associated Press)
WINNIPEG, Sept. 13.—A two-foot fall of snow, which caused much damage to crops, was reported from Saskatchewan today.

NEGRO CAPTURED HERE SUSPECTED OF MURDER OF JACKSONVILLE WOMAN

MANY DELEGATES TO LEAGUE OF NATIONS CHOOSE JOHN MOORE.

(By The Associated Press)
GENEVA, Sept. 13.—The many delegates to the assembly of the League of Nations in session here, predicted today that John Bassett Moore would be elected Judge of Court of International Justice, Wednesday.

Pinellas Grand Jury Investigates the Death of Virginia Turner

Dr. Belcher Charged With Manslaughter, Waives Preliminary

(By The Associated Press)
CLEARWATER, Sept. 13.—The Pinellas grand jury began its investigation today of the death of Virginia Turner in connection with which Dr. I. J. Belcher, Tarpon Springs physician is charged with manslaughter. Belcher waived his preliminary hearing yesterday allowing the case to go directly to the grand jury.

SUPPOSED PAUPER WAS REALLY RICH WOMAN—"FRENCH SAIL" PASSES

(By The Associated Press)
CHICAGO, Sept. 13.—"French Sail," eighty-four years old died here yesterday in a dreary little attic, was found today to have one hundred thousand dollars in stocks hidden in her room. For years she begged from the rich and dispensed thilathropy to the poor. Her identity is not known.

ORLANDO EXTENDS AN INVITATION

The secretary of the Sanford Chamber of Commerce is in receipt of an invitation from the Orlando Chamber of Commerce extended to the members of the local chamber to be present at a banquet Tuesday evening, September 27th, the place of the banquet to be designated later.

The meeting of these two organizations, which was held here last month, was the occasion of bringing them into closer relationship than anything that had been attempted previously. As a result of this new understanding, and with the assurance of co-operation from each other, the many problems which heretofore had seemed insurmountable will be more easy of accomplishment.

Both organizations are efficient, and this efficiency is due to the support of the prominent citizens of both communities. These individuals are primarily working for their respective communities, but are broad-minded enough to realize that their communities will develop in the same proportion that the natural resources of this section of the state are utilized.

The members of the Sanford Chamber of Commerce will have the opportunity to again mix with these civic dynamos of Orlando, at which time, no doubt, the same enthusiastic spirit will be prevalent as was evidenced at the meeting in Sanford.

Members of the Sanford Chamber of Commerce are requested to notify the secretary if they will be present on this occasion. This advice should be given at least one week before the event.

Keep Tuesday evening, September 27th open. Orlando advises they are making arrangements to give the Sanford contingent a big time.

CROP DAMAGE HEAVY.

HOUSTON, Tex., Sept. 13.—Aside from the report from Taylor that 40 Mexicans had been drowned, and a report from Hearne that seven negroes had been drowned as they tried to make their way from the bottoms, reports of loss of life today were few and scattered. Tremendous loss to livestock and corn and cotton crops, however, are expected to send the total damage in this section into the millions. Observers were inclined, early today, to believe that the worst is over so far as the Houston county is concerned.

Will Foster Working in Turpentine Camp, Said to Be Guilty

COLD BLOODED ACT

WOMAN WAS BEATEN TO DEATH WITH CLUB AND MURDER NEARLY CAUSED A RIOT

The following from the Jacksonville Metropolis is interesting:

Suspected by the authorities to be connected with the slaying of Mrs. Sarah Viola Lee, of No. 110 Townsend street, was beaten to death in her home nearly a month ago, Will Foster, a negro, arrested in Sanford several days ago by the Seminole county authorities, was brought to Jacksonville Thursday night and locked in the county jail it became known Monday.

The man, according to a letter received by Chief of Police Abel J. Roberts from the Seminole officials, told a negro turpentine hand at a still near Sanford that he with an accomplice killed "a white woman in Jacksonville a short time ago and got by with it." The turpentine hand told the foreman at the still and Foster was taken in custody.

In the letter received by Chief Roberts, it was stated that a billy was used in the attack and that after the assailants had beaten her they left her for dead. The man is also said to have told of getting \$40 and complained about the small amount of money secured after killing the woman, the letter says.

Sheriff R. E. Merritt, after Chief Roberts received the letter, told Henry Lillenthal, county detective, about the affair. County Detective Lillenthal was scheduled to leave for the prisoner but the sheriff of Seminole county had business in Jacksonville and brought the man here.

County Detective Lillenthal declined to talk about the arrest as to what the authorities intended to do.

How the Seminole county authorities' informant learned about the affair was described in the letter received by Chief Roberts.

The informant was first lodged in the Seminole county jail and held several days pending an investigation by the Seminole county officials and correspondence to Chief Roberts in Jacksonville. The informer stuck by the story he first told about Will Foster, the letter stated, and he was released. The man is being kept under surveillance and can be secured as a witness, it is declared.

The sheriff of Seminole county intended to keep the informant confined in jail as a material witness to be used in Jacksonville against Foster, according to the letter but because the man had lived near Sanford for years and was said to be reliable, he was released.

Will Foster had just secured employment at the camp, the letter to Chief Roberts stated.

Several nights after he was put to work he, with some of the turpentine hands were discussing recent murders, according to the letter received by Chief Roberts. Foster, it is stated, boasted of "killing a white woman near Jacksonville" and told his audience how easy it was to commit murder and "get by with it."

The following day this information was conveyed to the sheriff by the camp foreman who brought Foster and the informant to Sanford and ordered them locked up in jail. The Seminole county authorities investigated the reports and informed the Jacksonville police about the prisoner and the material witness.

Utmost secrecy was attached to the man's transportation to Jacksonville and confinement in the county jail. Chief Roberts wired immediately to the Seminole county sheriff asking for the negro to be held until the police investigated.

326 STUDENTS IN ORLANDO HIGH.

ORLANDO, Sept. 13.—The Orlando High School opened this morning with an enrollment of 320 students, as compared with 226 present on the opening day a year ago.

LET THEM ENJOY THE GREAT OUTDOORS IN
KAYNEE BLOUSES

Let your boys frisk and frolic in the wonderful out-of-doors. Let them enjoy the playful exercises that build strong muscles and sturdy frames, for a strong body is one of life's most precious treasures. This boyish play that helps to make them better men is very hard on their blouses and it is needful to buy blouses that will endure.

KAYNEE BLOUSES are made from strong materials that are sun-proof and tub-proof. Every button is sewed on to stay and all the seams are lock-stitched.

Buy them KAYNEE BLOUSES and SHIRTS at

Sanford Shoe & Clothing Co.

CITY OFFICIALS OF CHESTER INVESTGATING

BRIDGE DISASTER THAT LOST LIVES OF TWENTY-FOUR PEOPLE

(By The Associated Press)
CHESTER, Pa., Sept. 12.—City officials and citizens alike turned their attention today from the death scene at Third street and Chester river where twenty-four persons lost their lives Saturday night in a bridge collapse, to investigations which are expected to fix the responsibility for the accident. The Board of county commissioners which were responsible for the bridge, has initiated an investigation of its own and police are gathering all information available for the city administration.

CHESTER, Pa., Sept. 12.—Twenty-four persons were drowned and five seriously injured in the collapse Saturday night of the bridge spanning Chester river at Third street, in the heart of the city's business district. The police made this announcement last night after divers had definitely determined no more bodies remained in the water.

A small wrought iron gusset plate, part of the support of a footwalk, along the side of the structure, which had been half eaten by rust, gave way under the weight of nearly a hundred persons who were attracted to the spot by the cries of a drowning boy and precipitated the victims into the river.

The last body to be dragged from the deep mud at the bottom of the river was that of eight-year-old Charles Apostolus, the child whose death was the inadvertent cause of the accident. It was recovered shortly before noon yesterday and placed at the end of the row of twenty-four victims whose bodies reposed in White's morgue awaiting removal to their homes.

Will Belcher Belch Up Any More News Regarding Mystery?

(By The Associated Press)
CLEARWATER, Sept. 12.—Dr. I. J. Belcher, Tarpon Springs physician, charged with manslaughter in connection with the death of Virginia Turner, whose body was found in Booker Creek August 27th, waived preliminary hearing today and was bound over under \$10,000 bond to await action of the Pinellas county grand jury which convenes tomorrow. Dr. Belcher did not appear in court this morning but made his motion through his counsel.

CLEARWATER, Sept. 12.—Lively interest is expressed locally as to what will be the outcome of the preliminary hearing of the charges against Dr. I. J. Belcher, Tarpon Springs physician, who is at liberty under \$10,000 bond, on a manslaughter charge, in connection with the death of Miss Virginia Turner, daughter of A. C. Turner of this city. Miss Turner's body was found floating in the waters of Booker Creek, some miles from Clearwater and close to the point where the creek enters Lake Butler, on August 27th, about 9 p. m. Miss Turner had been missing from her home here since the previous Wednesday, having last been seen on Wednesday at Tarpon Springs.

Belcher was arrested after Detective Fred Thomas of Tampa, and Sheriff George Lindsey of Clearwater found that early Saturday morning the Tarpon Springs physician had made a trip to the vicinity of Booker Creek bridge, near where the body was later found floating. The physician first denied the trip but later admitted taking it, saying that he had gone to answer the call of a patient. His car had been stuck in the mire of the roadside in turning to leave the vicinity and the fact that he secured aid from Ballard's garage at Oldsmar, finally led to his arrest.

The body of the dead girl bore a knife wound, which pierced the heart, but which is said to have apparently been inflicted after death. The right shoulder was also broken. The Tarpon Springs physician is suspected of having performed an illegal operation on the young woman, which it is thought resulted in her death. Belcher, however, has denied performing the operation, although he admitted that on the Wednesday in question he was visited by some young woman who requested his aid to get a girl friend out of trouble. He refused to assist her, he has declared.

The fact that Belcher admits having been appealed to, to perform an illegal operation, coupled with statements of other people who it is said claim to have seen Miss Turner enter his office and the fact that he first denied but later admitted the trip to the vicinity of Booker Creek bridge so shortly before the girl's body was found, is regarded locally as among the most damaging evidence against him.

ARBUCKLE HELD IN FRISCO ON A MURDER CHARGE

(By The Associated Press)
SAN FRANCISCO, Sept. 12.—A formal charge of murder in the first degree, police have announced, will be preferred today against Fatty Arbuckle under arrest here in connection with the death of Miss Virginia Rappe, motion picture actress. The girl's death followed her attendance at a party in Arbuckle's suite at a local hotel a week ago. She died of injuries which the district attorney and other authorities alleged were inflicted by Arbuckle. Arbuckle is held without bail. The case is scheduled to be brought before the grand jury tonight. Coroner's inquest was called for next Thursday.

SAN FRANCISCO, Sept. 12.—Roscoe (Fatty) Arbuckle, moving picture artist, was booked on a charge of murder Sunday night in connection with the death Friday of Miss Virginia Raphe, film actress, during a party in Arbuckle's suite in a hotel here last Monday. Arbuckle was locked up in the city prison for the night. Arbuckle was charged, according to Assistant District Attorney Milton U'Ren, under the section of the California code providing that life is taken in rape or attempted rape is considered murder.

Captain of Detectives Duncan Matheson said the evidence showed that there had been an attack made on the girl.

"Today a formal complaint will be filed against Arbuckle," Mr. Matheson said.

He added that Arbuckle is expected to make a statement. The complaint against Arbuckle was made following examination of Dr. M. E. Runwell, Miss Zey Reiss and Al Seminacher, motion picture manager for Miss Raphe and others. Under the California penal code no bail is allowable to a person charged with murder. If District Attorney Matthew Brady returns to the city in time, the case is expected to be presented to the grand jury tonight, according to Matheson. An inquest will be held Thursday.

Miss Raphe, who died Friday, was removed from Arbuckle's rooms in a hotel last Monday, in a critical condition, after the party which five men and four women were present. Autopsy surgeons said death was due to peritonitis, superinduced by an internal injury.

PROFITABLE MILK PRODUCTION WILL BE DISCUSSED AT MEETING IN MIAMI.

JACKSONVILLE, Sept. 10.—Profitable production of milk depends upon handling cows which can utilize their feed and convert a large part of it into milk. One reason why the dairy industry in Florida has not developed to larger proportions is that the cattle fever ticks in infested counties have taken a large toll of the cow's blood and reduced both the milk flow and the vitality of the animals.

The Florida Dairy Association's fourth annual convention will be held in Miami on September 20-21, in the county where original tick eradication work was done in Florida, resulting in getting Dade county released from quarantine. Broward county and Palm Beach county are also released from quarantine and in those three counties there are more high class dairy cows than in all of the other fifty-eight counties in the state. M. A. Milam has in his dairy near Miami as many Register of Merit Cows on the official roster of the Jersey Club as there are altogether in the rest of the state. Each of the records was made on his farm, using very largely Florida produced feeds.

The dairy industry investment in the three counties will total approximately one million dollars and is growing rapidly. The people who attend the dairy convention will have an opportunity to see what can be done under tick free conditions and the association officers earnestly invite all who are interested in dairying to attend the convention.

Orlando is showing its heels to quite a number of other Florida cities, its industrial, commercial and general expansion being made. To keep pace with this spirit of progress, Editor Glenn, of the Orlando Sentinel has rolled up his sleeves and inaugurated a general overhauling of this plant, adding new equipment, including another linotype machine and a new 10-page Hoe press. Orlando is a thrifty, forward-going city, and the Sentinel helped materially to make it what it is.

Of French invention is a portable airplane hanger, made of balloon material and inflated by a motor driven air pump until it forms a substantial arch.

FIRST BIRTHDAY FOR NEW COUNTY WILL BE STAGED.

GAINESVILLE, Sept. 10.—Union county, created by the last legislature and formed of part of Bradford county, will stage its first birthday party October 1, when the fair grounds at Lake Butler, capital of the new unit, will be the scene of a barbecue and celebration held in conjunction with the fair of the Swine Growers' and Marketing Associations of Suwannee and Union counties, and the proportions of which, it is indicated, will equal anything similar ever attempted in this section of the state.

Invitations to attend the celebration are being extended Governor Hardee, Senator Trammell, Mayor Martin, of Jacksonville, and other prominent Floridians, and it is expected that speeches by these men will be features of the occasion. Fifteen hives, ten kids, ten muttons, ten porkers, a ton of ice, fifty bushels of sweet potatoes, 1,500 loaves of bread and large quantities of accessories, will constitute the bill of fare, according to plans devised Labor Day at a mass meeting of citizens at Lake Butler. A brass band also will be secured.

BUILD TRADE BY STOPPING WASTE

\$70,000,000 lost to our state each year—\$200,000,000 cash each three years. What would that not do to develop our cities if spent in Florida? Yet notwithstanding that our businesses are strangled for lack of money to strike out in new developments that would awaken trade. We usually throw this vast sum away to northern and western states for our meat and dairy products.

And what of Florida, is she no good as a cattle country? With her wonderful climate, water and shade in abundance, all the year round grazing in three years she could be the greatest cattle country in the world if we had the right men to do it.

For fifty years the Texas, Kansas and Oklahoma cattle dealers have looked on Florida as their gold mine. Year after year they have bought our little range steers and cows by the train loads, shipped them west into a good corn and bean belt, after a few weeks finish the steers go to Chicago as fine western beef and from there are shipped to the packing houses and through Jacksonville we get much of our own beef back, dead two years, kept edible by embalming fluids and gladly pay 40c to 60c per pound in some of our city markets.

A Texas farmer asked by Mr. McRae why they bought so many Florida cows, replied, "Why man alive, don't you know there is not a steer in the world that will finish for market so quickly and economically and make such a profit as the Florida grade steer. We breed your cows to our fine western bulls and the steers they breed make us rich." He was asked why and his reply was "Because the range cattle are born hustlers and can make good use of even a bit of paper. Our western cattle, grown on abundant rich pasture are lazy and if we get caught by the winter short of feed or by a long summer drought they lose flesh heavily and we cannot make good the loss at a profit. Florida steers can always find enough to carry his flesh with but little assistance."

This vast leakage of funds from our state, however, has come to a point where it must be stopped.

We hope before another year goes by to see a fenced ranch in each county on rich agricultural soil to fatten range steers while they are still young and tender and properly finish him for our own markets.

In the meantime a demonstration here is being put together by the lending bankers, chambers of commerce, business men and women's clubs of the state representing to consumer to prove the quality of well finished Florida beef. A ranch down south has been loaned for the purpose of finishing. The Miami meat men have offered 17c to 22c per lb. for every lb. of dressed meat marketed this winter in their city from the herd.

A quick tour is being made of the leading towns of the state asking of each 5 to 10 steers for the herd and if the first herd is the success anticipated, there will be no difficulty in starting the county herds immediately following.

The subscription to the herd is \$25 which is the cost price of good grade steers ready for the finish; the cost of finishing and marketing is already arranged for by Miss Carey and her friends. When the steers are marketed each subscriber will receive back their \$25 out of the proceeds of the sale plus half of the profits, the other half going to those who put up the capital for marketing and finishing.

Probably no agricultural movement in the state for long years has won such general support of bankers and city men as this movement known as "Buy a steer movement." Full information can be had through the Chamber of Commerce and president of the Women's Clubs of Sanford. Miss Carey is with us at the Seminole hotel only a day or two and passes on hoping to close the tour at Tampa this month.

More corn and less wheat than was predicted a month ago. The weather that was damaging to wheat was just the thing for corn. That condition makes for the safety of diversified farming. The farmer who practices it may lose one crop, and win out on another.

The government of British East Africa has appointed an expert to explore the country and report on the probable success of drilling wells for water.

To save welders the discomfort caused by wearing helmets a face shield that can be hung from the shoulders, leaving both hands free, has been invented.

AMONG BEADED BLOUSES

Here is a beaded blouse which will compel many an admiring glance wherever it is worn. For the theater, dinner party or any other place where splendor-loving women undertake to look their best, it is sure to triumph. Those two rivals in beautiful fabrics—crepe de chine and georgettes—have joined forces in this blouse. Imagine it in sapphire blue crepe de chine with beads in sapphire blue and steel and falling flounces on the sleeves made of black georgette similarly beaded.

Daily Fashion Hint

ALWAYS IN GOOD STYLE

Appropriate for almost any occasion is this foudard silk frock trimmed with heavy silk crepe de Chine. The blouse crosses at the front, closing at the left side. A long collar, edged with dyed lace, finishes the open neck, the cuffs corresponding with the collar. The bow and ends of the sash are tacked to the extension on the right front of the blouse. Three bias bands trim the straight, gathered skirt. Medium size requires 5 1/2 yards 36-inch foudard, with 3/4 yard 40-inch crepe.

Pictorial Review Blouse No. 9517. Sizes, 34 to 48 inches bust. Price, 33 cents. Skirt No. 9545. Sizes, 24 to 36 inches waist. Price, 30 cents.

COMIC OPERA UNIFORM

An officer of the British royal air force wearing the full-dress uniform adopted for officers of the British air service. The new "comic opera" uniform is creating much amusement in army circles. The helmet is made of black leather and trimmed with fur. It has a gold and blue plait across the front and an ostrich feather, dyed blue, in the center. The feather is held in position by a hidden gilt ring. The belt is blue and gold with a gold clasp.

Rewards, aggregating \$5,500, are offered for the conviction of the person who dynamited the A. B. & A. railroad Thursday night, killing the engineer and seriously wounding three trainmen. There has been a strike on the road since last July, with much bitterness of spirit manifest.

An inventor has designed a fan to be fastened to the hub of a metal automobile wheel to direct a current of air against the steel rim to keep it cool.

HOLD HAL CAMPBELL RESPONSIBLE FOR THE DEATH OF MOSES.

DAYTONA, Sept. 13.—A coroner's jury investigating the death of C. T. Moses, of Newport, Me., and St. Petersburg, who was killed Saturday afternoon when an automobile in which he, accompanied by his wife, was en route to St. Petersburg, was struck from the rear by another automobile, returned a verdict today that Moses met death as the result of criminal negligence on the part of Hal Campbell.

Warrants will be issued for Campbell's arrest tomorrow, officials said. He is at present confined to his home with minor injuries.

His brother, Almer, is still in a serious condition at a local hospital. The jury's findings were to the effect that Campbell was driving the second car while intoxicated.

Mrs. Moses, who was uninjured, although their automobile was thrown several feet and overturned expects to continue her trip to St. Petersburg, possibly tomorrow, accompanied by F. G. Parsons and daughter, who were making the trip by automobile from Maine to St. Petersburg also, their car preceding the Moses car at the time of the accident. No arrangements have been made for the removal of Moses' body from a local mortuary.

PRICE OF GAS DOES NOT TAKE ONE CENT TUMBLE ANTICIPATED.

here seems to be considerable fluctuation in the price of gasoline, some Orlando dealers giving 19 1-2 cents as the wholesale price paid others citing the figures as 20 1-2 cents. The retail price varies also from 22 cents to 23 cents a gallon. Other Florida cities comment on the unstable price of the liquid, Lakeland announcing a retail price of 23 cents, while, according to the reports, Tampa motorists are enjoying a price of 20 cents. According to unconfirmed advices gas was due to take a tumble of one cent on the wholesale market all over the southeast yesterday, but local dealers state that they do not anticipate any cut in the immediate future.—Orlando Sentinel.

Why Fido Wags .. His Tail ..

To advertise! It is his mode of telling the world of that particular mental state known as happiness.

When the baby laughs, when the sun shines, when the flowers bloom... when dinner sends out its inviting aroma—when any one of a thousand other things happen which attract your attention—you are being advertised too.

The whole purpose of any advertisement is to excite your curiosity, gain your interest, arouse your desire; to tell you something you don't know; to remind you of something you have forgotten; to convince you of something over which you have been hesitating; to help you get the best at least cost.

In short, the purpose of an advertisement is, in one way or another, to make you happier. Think it over. Read the advertisements in this paper and see if that isn't so.

Now is the time to start your ad in the Sanford Daily Herald

Opening of NEWBERRY'S DRUG STORE

Wednesday, Sept. 14th, at 8 A.M.

In the Welaka Block

Sanford is to have a first-class drug store operated on the strictly cash basis, saving you money on all your purchases. No goods charged. Big reduction in price on every line.

TO THE LADIES

Every lady visiting my store from 12 noon, to 10 p. m., will be served with a dish of FROZENRITE ICE CREAM FREE.

TO THE CHILDREN

Every child visiting the store from 12 noon, to 6 in the afternoon will be given an ice cream cone FREE containing the FROZENRITE CREAM.

If its Real Ice Cream its "Frozenrite"

Best by Test

Our Fountain will be supplied by the Florida Frozen Products Co., of Tampa, with FROZENRITE ICE CREAM. FROZENRITE Products are made in the most modern plant in the entire South. Every known method to protect the health of the public has been adopted, even to requiring each employee to pass a medical examination at stated intervals. A pure and healthful food is "FROZENRITE," served at a modern, sanitary fountain.

STATE NEWS

FOR LAUDERDALE—What is believed to have been the largest tarpon ever caught on the east coast of Florida was landed early Saturday morning by Charles T. Link, of this city, after a battle of four hours. The fish, according to officials of the local Anglers' Club, weighed 156 lbs., was 7 feet 2 inches over all and 42 inches in girth. It was hooked in Tarpon Bay, a favorite fishing spot on New River, located within the city limits. The strike was made shortly after 8 o'clock last night and it was after midnight when the fish was finally landed in after dragging the motor launch four miles through Lake Mabel and out to the Gulf stream. The tarpon was taken with a 15 thread line. Mr. Link is director of the local Anglers' Club and is a holder of many prizes for record catches.

GAINESVILLE—A practical course in poultry training, the fourth of its kind will be conducted at the College of Agriculture at the University here in January, beginning the first Tuesday of the month and continuing for ten days. The course is for men and women and is without fee or entrance requirements.

MIAMI—In an effort to speed up the collection of personal taxes from citizens of Miami, C. B. Selden, director of finance, has placed two collectors on the streets to remind persons of their obligations and bring to his office as much money as possible. Mr. Selden declared thousands of dollars is past due.

PALATKA—The local Kiwanis Club, recently organized, has been presented with its charter. Approximately 100 members of the Kiwanis Club of Jacksonville, with their families, attended the presentation ceremonies, coming from Jacksonville by boat. An elaborate program featured the exercises incident to the presentation. Colonel S. J. Hilburn, was installed as president of the club.

FORT MYERS—A deal which will serve to make Fort Myers an important cigar manufacturing center, it is

said, has recently been entered into by the Old King Cigar Co., of New York, and the Jose Gonzales Co., of Fort Myers whereby the latter company is to supply the New York firm with its cigar needs. The output of the local firm under the terms of the contract will be from three to ten million cigars annually, officials said. The enterprise is expected to afford employment for approximately three hundred cigar makers, with a payroll estimated at four thousand a week. Details of factory and warehousing facilities are to be worked out in addition to the arrangements for adequately housing the employees.

BERGDOLL'S FAMOUS POT OF GOLD WILL BE SOUGHT BY U. S.

WASHINGTON, Sept. 13.—The government is going after the famous Bergdoll "pot of gold," Thomas W. Miller, alien property custodian announced today that a complaint had been prepared demanding of Mrs. Emma C. Bergdoll, mother of Grover Cleveland Bergdoll, as attorney in fact for her son, all property in which he held an interest, including gold coin taken from the treasury before the draft evader escaped from federal authorities and fled to Germany. It is expected the complaint will be filed today in the federal district court at Philadelphia.

Demand was made on Mrs. Bergdoll last May for delivery of all property belonging to her son or in which he had any interest, Mr. Miller said, but despite repeated extensions of time allowed Mrs. Bergdoll, the property had not been turned over to the government. This, he added, made it necessary to take the action planned.

It is stated that Manager Campbell, of the great orange grove at Templetown, is preparing to plant twenty acres in avocados near Lake Wales. The avocados grown in that section are declared to be of very fine quality and always in demand. The planting of some acreage in this fruit, however, is something new for that section, there having been only a few trees therabouts. The avocado is growing steadily in favor as its exportation increases. Florida will need to produce a much larger supply of the fruit when the avocado is better known.

EXTENSION SCHOOLS FOR NEGROES ESTABLISHED IN 21 COMMUNITIES.

GAINESVILLE, Sept. 13.—Extension schools for negroes will be conducted by negro agents of the Agricultural Extension Division of the University in twenty-one communities of thirteen counties of the state beginning September 20 and ending October 21, under the personal direction of A. A. Turner, B. L. Perry, Cora J. Harrison and B. B. Hawes. Programs have been arranged for men and boys and women and girls, and for joint sessions of both sexes and all ages.

The men and boys will be taught selecting and testing seed corn; care of purebred pigs; saving the sweet potato crop; methods of fertilization and cultivation; and record keeping.

Women and girls will be given instruction in home made household conveniences; fine needle work; shuck work, rug making and plain sewing, home sanitation and good health, canning, pickling and preserving, and record keeping.

Joint sessions will be held at which the following subjects will be discussed: Preparation and marketing of farm produce through farmers' unions, how to grow a year round garden; the farm dairy and how managed; the family, the proper care of infants; the home medicine cabinet; good food, and the savings account.

ITCHING ECZEMA DRIED RIGHT UP WITH SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Mentho-Sulphur from any good druggist and use it like a cold cream.

—Got your Scratch Pads from The Herald—by the pound—15c.

TO DARKEN HAIR APPLY SAGE TEA

LOOK YOUNG! BRING BACK ITS NATURAL COLOR, GLOSS AND ATTRACTIVENESS

Common garden sage brewed into a heavy tea, with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store, all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two your hair becomes beautifully dark, glossy, soft and luxuriant.—Adv.

SECOND TRIAL MATTEWAN CASE BEGAN YESTERDAY.

WILLIAMSON, W. Va., Sept. 13.—Taking of testimony in the second Mattewan battle trial began here yesterday before a jury composed of residents from Pocahontas county. The men on trial, Reece Chambers and Fred Burgraff, are charged with the killing of W. J. Ferguson, one of seven Baldwin Felts detectives, slain during the gunfight at Matewan in May, 1920, when ten men met death.

It is expected that the trial will be a short duration in that only two of the 24 men originally indicted are to be tried. The first trial in which Sid Hatfield, recently killed on the steps of the court house at Welch in a pistol fight, was the principal defendant, resulted in the acquittal of nearly a score of co-defendants and consumed several weeks. Spectators were not permitted to enter the court room today.

For first class job work—the Herald

According to a letter from J. H. Coffee, secretary of the DeSoto county Chamber of Commerce, the merchants and other business men of Arcadia and DeSoto county are much interested in the proposal to establish a boat and truck line between Arcadia and Tampa through Punta Gorda, a meeting of the Chamber of Commerce having been held Tuesday night when the matter was discussed.

Trying to force open a window equipped with a new automatic lock only fastens it more securely.

NOTICE OF INTENTION TO APPLY FOR LETTERS PATENT

Notice is hereby given that we, the undersigned, with the application in this case, Herold, governor of the State of Florida, at his office in Tallahassee, Florida, at ten o'clock in the morning of the 10th day of September, 1921, or as soon thereafter as we may be heard for Letters Patent to be issued to and incorporated in the

RAFFIELD-HONIG COMPANY, Inc., under the following proposed articles of incorporation.

ALBERT RAFFIELD,
ERNEST HONIG,
MORRIS HOEHNBERG.

ARTICLES OF INCORPORATION
We, the undersigned hereby associate ourselves together for the purpose of forming and recording a corporation under the laws of the State of Florida, and do hereby declare and subscribe the following as the Articles of Incorporation of our incorporation.

ARTICLE 1.
The name of this incorporation shall be the RAFFIELD-HONIG COMPANY, Inc. and its principal place of business shall be at Sanford, Seminole County, Florida, and principal branch office and place of business shall be at No. 1102 Broadway St., New York, N. Y., but it may establish other offices and places of business in any other place in the United States or in any other state of the United States of America where ever necessary or convenient; provided that any other branch office or place of business shall be first authorized by the Board of Directors of this corporation.

ARTICLE 2.
The general nature of the business to be transacted by this corporation shall be as follows, to-wit: To manufacture, buy, sell and deal in at wholesale or retail or both, dry goods, clothing, wearing apparel and leather articles of every kind, hats, caps, millinery, boots, shoes, furnishings, fancy goods, and all articles of merchandise of like general character and description, and to conduct the business of general dry goods and clothing merchants, tailors, drapers, haberdashers, milliners, dressmakers and general outfitters, to conduct and carry on a general commission business, that is to buy and sell dry goods, boots and shoes, hats, millinery, and other merchandise on commission, and to make advances on any of such assignments, and to charge for such sales and advances; to open up and conduct a general commission business at the principal place of business or at other places for the purpose of carrying on any, either or all of the several kinds of business herein allowed; to purchase, improve, develop, hold and enjoy real estate in fee simple, upon ground rent or lease, and to lease, mortgage, and sell the same in such parts or parcels, improved or unimproved, and on such terms as to time and manner of payment as may be agreed upon.

ARTICLE 3.
The amount of capital stock of this corporation shall be ten thousand dollars (\$10,000.00) divided into two hundred shares of a par value of fifty dollars (\$50.00) each, payable in legal tender money of the United States of America, or in property, labor or services at a just valuation thereof to be fixed by the Board of Directors of the corporation at a meeting called for that purpose.

conducted by a president, a vice-president, a secretary and a treasurer, the offices of secretary and treasurer may be filled by one and the same person, and a board of not less than three nor more than seven directors, the number to be fixed by the by-laws of the corporation. The directors shall be elected by the stockholders of the corporation at each annual meeting. All other officers of the corporation shall be elected by the Board of Directors. The annual meeting of this corporation shall be held on the first Tuesday after the first Monday in January of each year. The first meeting of the stockholders of this corporation shall be held as soon as convenient after receipt of letters patent of the incorporation, for the purpose of accepting said letters patent and adopting by-laws for the corporation.

ARTICLE 4.
The officers to be elected at the first annual meeting of the stockholders shall be qualified the business of the corporation shall be conducted by the following, to-wit: Albert Raffield shall be president, Ernest Honig shall be Secretary-Treasurer, and Morris Hoehnberg shall be vice-president. And Albert Raffield, Ernest Honig and Morris Hoehnberg shall be the Board of Directors.

ARTICLE 5.
The highest amount of indebtedness or liability to which this corporation may at any time subject itself shall be twenty thousand dollars.

ARTICLE 7.
The names and residences of the subscribing stockholders hereto and the amount of stock of the corporation subscribed for by each, set opposite their respective names, are as follows, to-wit:

Name Residence, No. of Shares, Amt.
Albert Raffield, Sanford, Fla., 50 \$2,500.00
Ernest Honig, New York, N. Y., 25 1,250.00
Morris Hoehnberg, Wehauken, N. J., 25 1,250.00

In witness whereof, the undersigned, the incorporators of the Raffield-Honig Co., Inc., have hereunto set their hands and seals, this 10th day of August, A. D. 1921. (SEAL)
ALBERT RAFFIELD (SEAL)
ERNEST HONIG (SEAL)
MORRIS HOEHNBERG (SEAL)

Are you shipping by water?
 The big campaign will begin after tonight's meeting.
 Those Orlando boys are waiting for Sanford on the night of Sept. 27.
 And we will probably build that forty foot road and plant shade trees all along it that night.
 Fatty Arbuckle seems about to get his. It is hard to believe that he could be guilty of such a crime. If he is, the Arbuckle pictures should be banned for life.
 That youth of twenty, in Chicago, who killed two auto salesmen in cold blood just to gain possession of a new Packard, was only in the third stage of "auto intoxication," that strikes most of the people from time to time.
 Senator Park Trammell is visiting throughout the State while he is taking his vacation. This is the proper thing to do. No statesman can keep up with his State when he spends all of his time at Washington, and none of his time in the State. Florida is growing and changing every day, and to have an idea of the different needs of the State, our representatives should come home as often as possible and get acquainted. Senator Trammell does not look for any opposition as this is his first term, but if he has any, it should not worry him any. Park Trammell is still Park Trammell, and the Senator handle to his name has not swelled his head any. He still remembers the men who made him which cannot be said of some of the representatives of the people at Washington.

THE REVENUE BILL.

On August 20 the House of Representatives passed the revenue bill which, according to estimates, will reduce the revenue collection to about \$3,300,000,000 for the current fiscal year and to \$2,779,670,000 in 1923, when the new rates will be fully reflected in the revenue receipts. This amount is considerably below that considered necessary by Secretary Mellon, but meets the general appeal for a reduction of the existing tax burden.
 The new bill repeals the excess profits tax, increases the corporation income tax rate, repeals many of the so-called "nuisance" taxes the transportation taxes, except those imposed on telegraph and telephone messages, and affects a number of other important changes.
 The most significant feature of these changes is the repeal of the excess profits tax and the reduction of the surtaxes. Business interests have looked forward to the elimination of these taxes, but the postponement of the effective date to January 1, 1922, meets with the general dissatisfaction of industries which have confidently expected this relief during the current year. The continuance of these taxes will undoubtedly have a tendency to defer business revival. It is, however, still possible that the action of the House may be reversed by the Senate and the repeal made effective as of the beginning of the calendar year.—Florida Grower.

TOO MANY LAWS.

We have just been looking over the laws passed by the last session of the legislature, more than 16 newspaper pages of them in small type. The editor of the Highlander has never been of those who poke fun at legislators merely because they are in the public service. After all they are put where they are by people like you and I and they represent on the whole, an average cross section of the communities from which they come. To think otherwise is to doubt absolutely the representative system of government and while the Highlander may get a little pessimistic at times, has never doubted that that was the best form yet in use in this vale of tears.
 But this session passed too darn many laws!

A rather cursory scanning of the titles impresses us that they bulk in percentages as follows:

Private pension bills.....20
 Formation of new counties and laws to let them function.....30
 Amending laws to permit some lawyer to win a case.....10
 Appropriation bills.....15
 Relief for persons fired by the former governor.....10
 Curing financial difficulties of county commissioners and school boards.....10
 Laws of general interest and benefit.....5

Of course private pensions bills are, in many cases, for deserving persons. The Highlander would not have one deserving person slighted, but it is a fact that nearly every such bill is for some person who cannot get a pension under the general laws.
 Amending a law so that some lawyer may win a case he might otherwise lose, is more common than the general public suspects but generally they are well camouflaged.
 Of the making of new counties there was apparently no end and besides the special powers for each county there was considerable legislation for new counties as a whole designed to set their financial arrangements going. In some of these counties the people will regret that they have saddled themselves with the taxes that will be imposed.

As to relieving persons fired by the late governor that costs about \$25,000 in cash out of the pocket and fully as much more in loss of legislative time, running expenses, etc. A costly experience.
 Literally scores of special acts were passed, allowing counties, school boards, cities, and various sorts of taxing districts to issue time warrants or validate some already issued in defiance of law. Most of these were special acts and do not appear in the 16 pages of law now being dealt with, though they will appear as a burden in the tax receipts for years to come. In addition to these special acts there were a number of general acts authorizing the spending of money.

All in all as we have said, too darn many laws in our humble opinion. We do not feel impelled to offer any spirit of laurel to the legislature.—Lake Wales Highlander.

SEND HIM TO HIGH SCHOOL.

The schools are opening all over the country. The little children will enter for the first time, or return to their appointed grades, as a matter of course. The outlook is not so sure for the boys and girls of high school age. Many of these will be kept out to go to work. Where such a probability exists it is to be hoped that those responsible for the child's welfare will give one more thought, make one more effort before consenting to deprive the child of a complete public school education.
 In a time of unemployment like the present it is especially difficult in many homes to take the child from an earning job and put him back into school, but for all this it should be done. What looks like economy today will be recognized a few years hence as bad management, when the boy or girl, instead of forging upward to increasingly remunerative employment, comes to a standstill in a mediocre job. This will not happen in every instance, but carefully gathered statistics prove that it is the rule.
 In every community there should be committees of interested citizens to co-operate with the school board to see that help is given in families where otherwise it would be utterly impossible to complete the children's education.—St. Augustine Record.

Members of the Florida division of the Farmers' Union were in session in Ocala last week, and while the attendance was not reported as large, a considerable number of agriculturists from various parts of the state were delegates and many matters of general interest were discussed. Ocala had prepared to welcome the farmers and made the occasion memorable for all who came. Among the features of convention week was a delightful picnic at Silver Springs.

THE IMMUNITY OF FLORIDA FROM FLOOD AND CYCLONE.

The awful details of the floods in Texas, involving serious loss of life and property furnish additional reasons for congratulation that we live in a land where floods are unknown, to every citizen of Florida. We have many severe rains during the rainy season but they never culminate in destructive floods. The porous nature of our soil absorbs a heavy rainfall quickly, and the surplus, if any, runs off through natural channels without creating destructive floods.

Nor are we subject to destructive tornadoes or cyclones which occur with such frequency in the states to the north of us. The highest wind which ever visits us has none of the characteristics of a cyclone. Many great storms and hurricanes are generated in the Caribbean sea, but the peculiar configuration of the peninsula of Florida deflects them far to the westward before they strike the coast.—Tampa Times.

ABOUT FLORIDA RESOURCES.

Even the most casual glance at existing things here will reveal that the vast resources of Florida have hardly been touched. As season succeeds season newcomers come in and new and profit by things that the oldest old-timer never thought of. This is just what it should be, for as we begin to diversify both in growing things and in a business way, our wealth increases and we begin to develop in a bigger way. For all our growth during the past decade we are a mere infant compared to what we will be ten, or even five years hence. Were glad we are here to be a part and parcel of the making of a greater Florida. May we live to see all our predictions come true! And we are confident that we are not wishing for a greater span of life than ordinary to see the realization of our dreams.—Florida Grower.

ORPHANAGE AT ENTERPRISE.

I am writing to tell you something about our home life and surroundings. Our home, the Florida Methodist Orphanage, is located in the small town of Enterprise. We have fifty children ranging in age from three to eighteen years.
 Our place is located on the shore of Lake Monroe, and we always have beautiful sunsets. Our lawn contains seventeen acres of land, about twelve of these are used for gardening, the other five contain the house, playgrounds, barn, five different springs, a flowing well, and a bathing pool.
 We have about one hundred trees of many different kinds. We have lovely times here. The girls do all of the house work. Every child that is old enough makes its own bed.
 The boys help with the garden work, cut wood, keep the yard in order, and they do the other little odd jobs around the place that a boy should do. We have about one hundred laying hens, fifteen rabbits, and five young ducks. In the summer time we do all of our own canning. We are canning tomatoes this week. We sent some of our canned goods to the Mid-Tropical Fair this year, and won four first prizes.
 We are all quite proud of our record this year in school. Only one out of forty-five children did not make the grades. We had four graduates from the eighth grade. They have just built a new dormitory for our boys.
 A good many of our friends have contributed to the building fund of this new dormitory, if they could realize how many more boys it will accommodate and how much more comfortable it will be for all of us, I am sure that their hearts would rejoice that they had a part in this great work of caring for Christ's little ones.
 We had the pleasure of hearing Mrs. William Jennings Bryan at the laying of the corner stone of this new dormitory. We have a Senior, Intermediate, and Junior Epworth League. We have recently organized a Junior Missionary Society in our home with twenty members on the roll. All attended regularly and seem to be very much interested in the work.
 We have an interesting Sunday school of six classes. We have church services every fourth Sunday at 11 o'clock, and at night. Nearly all of our children over ten years of age are members of the church.
 We are all tithers and all have made a pledge for the Centenary, and so far we have paid up in full. All of our children are in perfect health except one little girl with a broken arm and a little boy with a sprained knee.—Euretta B. Faber, in Florida Christian Advocate.

It may not be generally known, but a bitter civil war is raging in China between the northern and southern provinces, and heavy casualties are reported on both sides. The door for slaughter of the Chinese seems to be wide open.

ST. PETERSBURG UTILITIES GROW.

ST. PETERSBURG, Sept. 10.—Business done by the St. Petersburg municipal gas plant in August was double the total for the same month in last year, reports made to Director of Utilities R. E. Ludwig, show. There was a gain in gas sold and in collections of 100 per cent. breaking all records for increase in any one month. There have been gains of as high as sixty per cent. in a month but never before anything as big as for last month. The number of gas customers has increased rapidly and the fact that sales jumped 100 per cent. in a month shows, it is contended by city officials, that there must be nearly twice as many persons in the city now as at this time last year. The gas plant put out in August this year, a total of 4,850,000 cubic feet of gas, and last year, in August, the total was 2,431,000 cubic feet. The collections for August, this year, were \$5,369, and in the same month last year the total was \$2,470. The municipal railroad showed a big gain in August but nothing like so large as the record for the gas plant. The business of the street car lines gained 42.2 per cent over the same month last year. In August, this year, the cars carried 143,560 passengers and the cash fare collections amounted to \$6,058.90. In the same month last year the cars carried 100,436 passengers and fares collected totalled \$4,892.10. The gain is rather more than usual for a month's business and city officials say that the whole summer's business is well ahead of last year, indicating that there were a great many more persons here than in any previous summer.
 Lakeland is well pleased over the completion of extensions and improvements at the light and water plant. The city contracted for a big, new generator some time ago and a few days ago the great machine was set to work. It is a turbo-generator and cost \$35,000, but the expense is not considered excessive when understanding that it will give at least double capacity to the plant. The Lakeland plant was seriously overtaxed last winter, and it was necessary to make changes; now the city has power enough for all purposes in the new generator, and has retained one of the two in use previously, giving the city a reserve to be used in emergency.
 An appreciative patron of Orlando's curb market writes to the Orlando Sentinel as follows: "We are used to appreciating the curb market as an advertisement for our winter visitors; but quite another phase of it was exhibited last Saturday morning, when the tables were piled high with dewy turnip and collard greens, eggplants, radishes, cowpens, okra, asparagus, peppers, guavas, pineapples, bananas, parsnips and bright flowers. All of us remember the days when we expected nothing more than nokra, cowpens and green peppers during August and September. Of course the supply of other vegetables is quite inadequate to the demand."

In and About The City

Summary of the Floating Small Talks Succinctly Arranged for Herald Readers

THE WEATHER

For Florida: Fair tonight and Wednesday; no change in temperature.

Rev. A. S. Peck motored to Mont Verde yesterday on business.

J. B. Lawson returned last night from a business trip to Jacksonville.

H. M. Robinson, of Jacksonville, was a business visitor here yesterday.

S. M. Harvey, of Lakeland, spent the day here yesterday attending to business.

W. B. Underwood, of Albany, Ga., was in the city yesterday transacting business.

Clarence Fields left yesterday for Greenwood, S. C., where he will enter Bailey Military Institute.

George Rieder, of Jacksonville, representing the Reider Clothing Co., was in the city yesterday calling on the local merchants.

Miss Edith Stewart, who graduated in June from St. Timothy's Memorial Hospital, Philadelphia, and later took a post-graduate course in Columbia University, New York, has now accepted a position as instructor in the Methodist Hospital, Philadelphia. Miss Stewart writes that she is delighted with her work.

Mrs. J. W. Rutledge, of 307 Third street has just returned home from an extended visit with her daughter in Lincoln, Ill. Returning by way of Princeton, and Evansville, Ind., where she visited many friends and relatives.

Have your watches and jewelry repaired at McLaulin's. Two first class watch makers. Prompt service. 140-tfc

Mr. and Mrs. Martin Raines and little son, and O. W. Brady, left yesterday for Miami, where the Raines are residing and where Mr. Brady will visit for a few days. He will return to Sanford for a short visit ere returning to his home in Chicago. Mr. Brady has property interest here and is thinking of returning some time in the future.

Send your old mattress to Bradley factory. Make them like new, for \$5.00. 50 lb. new cotton mattress only \$8.00. Guaranteed. 500 W. South St., Orlando, Fla. 122-26tc

The fall showing of ladies apparel at the Princess theatre tomorrow night, by Bannell's Specialty Shop, promises to be one of the big events in Sanford's history. A fine musical program has been arranged and several good specialties, and aside from the showing of beautiful gowns that will interest the ladies, the men will be regaled with a good program that will be the equal of a good vaudeville show.

Cal. McCaughan and A. W. Gustus, of Orlando, were in the city today looking over the business prospects and expect to return at an early date. Both of them are well known in San-

ford, and their many friends were giving them a warm welcome. Mr. McCaughan married a Sanford girl, Miss Maude Wagner, and Mr. Gustus resided here for several years.

Mr. and Mrs. Jack Wilkinson are rejoicing over the arrival of twins at their home Sunday. This makes the second pair of twins at the Wilkinson home and they have been blessed with five children in three and one half years of married life. They are receiving the congratulations of many friends upon the new arrivals. Jack is a popular employee of the A. C. L. railway.

The many friends of Andrew Lee will be glad to hear that he has recovered from a recent attack of acute indigestion.

Mr. and Mrs. F. P. Langley were among the Sanford people going to Lakeland yesterday to attend the funeral of J. D. Watkins, conductor on the A. C. L. Railway.

KISSIMMEE WELCOMES TIN CAN TOURISTS.

KISSIMMEE, Sept. 13.—With the completion of the roof of the 30x30 community kitchen, the new free auto camp secured by the chamber of commerce, and financed jointly by it and the city, is nearly ready for the unprecedented number of tourists which preliminary correspondence predicts. As inquiries began pouring into the chamber's offices it was soon apparent that the old camp on Main street would be inadequate for this year's, and the present site was selected from a number under consideration as the more ideally suited to the needs of the finest camp in Kissimmee's territory. More than twice as large as its predecessors, and located within a short distance from stores, its moss-covered oaks and magnolia trees will afford an enviable camping spot for the winter gasoline visitors.

The camp is completely fenced, except for the three entrances, one-two, and tree blocks, respectively, from the brick highways. Coming over the Dixie Highway from Orlando the tourists will be directed three blocks to one entrance, while the other two are short distances from the paved portion of Vine street and the Hilliard's island road.

The camp will be electrically lighted and city water is now being piped from a considerable distance. The city administration and the local chamber of commerce are sparing no expense nor effort in making the place adapted to all the needs and conveniences which the tourist may want.

PROTEST WAGE CUT.

KINGSTON, Sept. 13.—Approximately 200 of the 300 employees of the Kingston cotton mills went out on strike this morning following the taking effect of announced wage cuts by the management. There was no disorder reported.

Ship-by-Water Committees Meet in Orlando Tonight to Organize

The Ship-by-Water Campaign will receive a decided impetus tonight when all the various committees from the Chambers of Commerce throughout this part of Florida will meet in Orlando to perfect the organization. All of the live wires and the expert traffic men and the shippers and merchants will be there. They are all vitally interested in this great movement to reduce freight rates and from this meeting will spring the future prosperity of Florida business men and shippers.

The Sanford Chamber of Commerce will be represented by a live committee and it is certain that the meeting will be productive of great results. Nothing much can be done this year as the question came up too late for concerted action but the movement will get a good start and with better waterways, better roads and many other improvements the ship-by-truck and ship-by-water campaign will sweep the state in the next twelve months. It is not a spasmodic movement that springs up to die when the rates are lowered but an earnest effort to help the growers and shippers and the merchants of Florida toward a definite and final settlement of the vexing question of whether they intend to give all their money to the railroads now and forever or intend to save some of it for themselves in the ship by water move.

ST. AUGUSTINE FIRM DONATES EXPENSES OF JUDGING TEAM BOY.

GAINESVILLE, Sept. 13.—The Model Land Co., of St. Augustine has donated \$150 to be used by State Club Agent R. W. Blacklock in paying the expenses of one of the members of the boys' live stock judging team to and from the southeastern fair in Atlanta in October.

This company is an old contributor to the club cause, having consistently donated handsome sums for club activities for many years.

In informing Mr. Blacklock of this donation, President J. E. Ingraham said: "We recognize the great value of your club work to the state. We gladly contribute this amount to pay the expenses of one of your judging team to and from Atlanta."

Auto Matches Jewels. For the benefit of your wife, you might tell her that, if she wants it, many of the automobile manufacturers will have her 1921 car match her jewels. This is a fact in many sections of the East, where amethyst, amethyst, topaz, sapphire and other gems are used in the upholstery, tops and the body made to correspond. In any your wife will know that her jewels harmonize with the car. Of course, if she hasn't the jewels, she can order the car as she wants it, and then buy the jewels to match.—Chicago Tribune.

Playing Safe. The firm of Hansen & Fransen was started in war-time and did very well for a couple of years. But last year things were on the downward grade, and the other day, when the two partners had finished making up their nose too good record for the year, Hansen said, "This would make anyone thoughtful. Now that the good times are over, how about a little honest business?" "No, thanks," said Fransen. "I never indulge in experiments." —Houston Post.

There are homes which are so painfully neat and orderly that all comfort for the masculine element is completely banished, and there are others where hubby is permitted a few privileges. Woman can be one of the worst of tyrants if she is so disposed. And some husbands never find it out. Others live and suffer while pretending to like it.

When the Russian paper money is finally thrown on the market, look out for a drop in the wood pulp business.
