NEW METHODS of detecting and correcting perceptional problems in children are being used at South Seminole Elementary School at Casselberry under the direction of Mrs. Mary Elizabeth Dunn, first grade

teacher, for the first time in this county. Pictured are some of the youngsters demonstrating equipment designed by Mrs. Dunn and built by some of the fathers. Shown clockwise, starting upper left; 1) treat-

ment for poor saccatic movement of the eyes is shown by Mrs. Dunn as she swings a ball pendulum fashion over the head of Jeffrey Nelms as he lays on his back on the floor; 2) right to left eye habits are develop-

ed through the use of this especially made marble board being used by Richard Neal under the direction of Mrs. Dunn; 3) Valerie Paulding demonstrates cross pattern walking using walking beam to develop directionality; 4) developing visual motor coordination through the use of this fascinating lock box built by Charles Lockyer of Casselberry are Danny Strong and Rhonda Fisher; and 5) basic shapes and the ability to recognized and respectively.

nize and reproduce them are important as a good indication of the

child's perceptive ability. Jimmy Court and Bennie Simmons match

yooden pieces made by Jimmy's father.
