RED ERRORS AID IN TOUGH 8 TO 2 LOSS TO DELAND

Wet Ball Slides From Fingers Of Players; Lake Pitches Nicely

By PETER SCHAAL.

Two of the dardest errors you ever saw rained what might have been a jam-up baseball game at Municipal Park yesterday afternoon, when before a large crowd of baseball hungry fans, the Cafederos went down to an 8 to 2 defeat at the hands of the league-leading DeLanders. The visiting team earned three of their eight runs, and was able to gather but seven hits off the great pitching of Buddy Lake, the sensational 17-year-old hurler who has now pitched his way through the strongest opposition in the league with great credit.

Yes sir, if it hadn't been for those two errors, which should have been easy outs, your Cafederos fight had either lost a game by a one or two to nothing count, or won it by a 2 to 1 count. How do you figure that? Easy.

To begin with, young Lake had the hard-hitting DeLandites eating from his hand for three innings, not once being in trouble, and easily disposing of Sams and Roberson, also Hogan, three of the most dangerous batters in the league. Then, along came a young cloudburst which held up play for 15 minutes and made the ground and the ball wet as anything.

Well, the Feds apparently took the field too soon, and, as luck would have it, it was DeLand's turn at bat. Roberson, first man up hit a slow roller toward second which Lopez kicked around when he should have thrown Roberson out at first by five feet. Break Number One. Next, Phillips hit one toward Manager Deetch which should have resulted in a double play, but, the hard-working Fed boss messed up the play with the result that two men were safe, and none were out.

Well, the ball was getting harder than ever to control because it was wet and water-logged. But, Lake forced Gulp to pop out to short. Jack Hogan worked Lake for a walk, and the bases were filled. Along came Underhill who hasn't hit a ball for weeks. With the count two and two, he hit a pretty single to left, scoring Roberson and Phillips. Hogan going to third. Underhill stole second on the first pitched ball to Link Silaby, the University of Florida hurler who went in to bat for Burkhardt left-hander who was going nicely.

Martin the new Fed center-fielder, made a wonderful back-handed running catch of Silaby's hard drive to draw a big hand.

10 days, Cal Dennis will return to Sanford. Cal is now in Virginia enjoying fried chicken, hams, and an occasional sip of that beverage known as ale. He writes in that his arm is slowly rounding into shape, and that he will come back here ready to do battle against any club in the league.

Manager Deetch was particularly well pleased at the antics of his new outfielder, Martin, the mystery man. The sorrell topped center-fielder not only made a couple of sparkling catches, but baited out a stinging single in two trips. The newcomer bids fair to becoming the star of the team, and he will certainly find that the fans are back of him solidly.

By the way, the Feds will play a practice game with the Lake Mary town team tomorrow afternoon at 5:00 o'clock at Municipal Park. Either Jack Peters or John Higgins will pitch. Be there, the admission is free.

and two were out. Cecil Beck then hit a liner to right which should have gone for not more than two bases, but which Miller overran, resulting in a triple for Beck and Hogan and Underhill's scoring. Beck came on home when Lopez threw the ball past third base. Whitely Wilkes popped up to short and it was all over.

That king of baseball, three errors and two hits, to score five runs, certainly took the sap out of the locals, and you could hardly blame them for whatever else might happen. In the next inning, the DeLanders scored another run on two hits, the second hit coming when Britt and Martin failed to get together as to whom should catch the ball. Britt could have caught it easily, and a run been avoided. In the seventh the DeLanders scored two more runs on errors. Sams was safe at first on Deetch's third error of the game. He stole second and third, and after Roberson had been walked, they both scored when Harrison threw the ball into the dirt in front of the plate, where it rolled

Joel while Phillips, who hit it to Harrison for at least a double play, went on to second. What a life!

But, there's no use talking about what might have happened. Let's talk about what did happen which might lead you fans to believe that the Feds can get going if they get a little support from the fans.

In the first place, the heavy-hitting visitors were practically stopped by Bud Lake, who allowed only seven hits, three of which were knocked out by Cecil Beck, the former University of Florida speed artist. DeLand didn't get a hit after the sixth inning, and only two in the first three innings. The youngster improves with each game, and a little more polishing off, to be done this week, will find him standing any club on its ears. He gets a chance against Winter Park here next Sunday. Be there.

The Feds have signed up a real ball player in this red-headed, freshly-faced youngster named Martin. He comes to Sanford under a cloud of mystery for it is reported that he is a Pacific Coast

longer who was unable to come to terms with a prominent Eastern club. He is living at Ocofino for a few weeks, visiting relatives, and will remain on the club as long as he is in Sanford. Boy, he looks like a million dollars at the plate, and as a fielder, well, he snagged a couple out there yesterday that were labeled "hits" without a doubt.

Outside of the fourth and seventh, the Sanford infield moved smoothly, although Lopez was being tried out there. The astute Cuban didn't look as good as he might have, but he hasn't played that position in years, and, on top of that, he was playing against a club which had released him a few weeks ago, and naturally he was a little over-anxious to play his part in whipping them. Pete Schirard handled the catching assignment in his usual easy manner, and, as usual, contributed a hit.

For the DeLanders, the surprising thing was the fact that their heavy-hitters fell, almost to a man, before Bud's pitching. Billy Sams,

for instance, who in the past days has been hitting at a .400 clip, he has been hitting at a .000 clip in the second game of the league slugger. He failed to even get close to a hit in four trips. Wilkes, Roberson and Phillips, more had hits, were only able to get one hit apiece, where ordinarily they get two or three.

Their new left-hander, Burkhardt, a product of the Jacksonville City League's looked pretty good out there on the mound, but when the rain fell, he got cold, and asked to be relieved, although the Feds were getting next to him, having put men on the sacks in the first three innings. Link Silaby, the brawny Florida star who replaced him, had the Feds worried for an inning or two, but the boys opened up in the seventh and scored two runs on successive singles by Harrison, Peters, and Miller, the last named, driving in two runs. The DeLand outfit still looks like the class of the league so far, and they should win the first half without trouble. Good pitching, good batting, and good

Legion Auxiliary Has Meeting on Friday

At the meeting of the American Legion Auxiliary held last Friday afternoon at the home of Mrs. C. B. Stone on Cameron Avenue, it was announced that the proceeds of Poppy Day were \$24.88, half of which will be sent to the federal government for the benefit of soldiers. In appreciation for feeding a number of children last year in the South Side Primary School and the Junior High School, letters of thanks were read from the P. T. A. organizations of the schools.

Mrs. H. B. Lewis was elected to serve as rehabilitation chairman. It was then announced that prizes were awarded to Miss Gretchen Lewis and Miss Carrie White for making the most attractive Poppy Day posters.

It was decided that the work of the coming year centers around giving proper markers for the graves of all veterans in the cemetery. Mrs. J. H. Hinton, minister, appointed chairman of this year. All members were then invited to attend the mid-summer picnic to be held in St. Petersburg on July 5 and 6.

It was stated that in the usual membership drive conducted last year, Florida won second place. The meeting then adjourned for a social period when refreshments were served by Mrs. Stone.

MEMORATE ANNIVERSARY

In celebration of their fifth anniversary, Mr. and Mrs. Jack Flynn entertained with a delightful buffet supper party Saturday evening at their home, 1108 Myrtle Avenue, with guests in attendance. 450,000 Judgment Against City if Set Aside On Appeal

(Continued from Page One) The City of Sanford, Fla., is ordered to surrender City of Sanford certificates of indebtedness which were given by the Seminole County Bank as collateral for notes executed Nov. 8, 1928, and on Dec. 27, 1929; those on the former date being for \$300,000, and on the latter date one for \$100,000 and another for \$50,000, making a total of \$450,000.

The cash judgment for \$450,000, allowed by Judge John C. Knox of the United States district court, is set aside and cancelled. The opinion was written by Presiding Justice Martin T. Manton. After reciting the facts of the suit brought by the City of Sanford, and quoting the laws regarding the authority of the City to issue the certificates, he says that the letter of the City Attorney dated Nov. 8, 1928, in which the legality of the certificates was certified, was "legally ineffective," as his opinion was given, not as the charter provides to an officer of the City, but to the Seminole Bank. This letter was sent to the Chase Bank by the Seminole Bank with the certificates.

Referring to the loans made by the Chase Bank to the Seminole Bank both in November and December, 1928, the decision says, "These loans were not restricted and were not for the purpose of the Seminole Bank. No record of municipal authority for issuing these was found. The other two members of the commission did not know of the execution of these bonds until the following July.

It is not necessary for you to give up your telephone when you go away on your vacation. You can have your service suspended during your absence, and restored promptly on your return.

The "temporary suspension" plan offered telephone subscribers eliminates such items as the signing of a new contract on your return; time required for a new installation; and the loss of your present number and listing in the directory.

Under the "temporary suspension" plan, persons calling your number are informed that your telephone is "temporarily suspended," thus indicating to your friends that you are out of town.

The "temporary suspension" plan is available whenever you will be absent from home for a period of not less than one month nor more than six months. The rate for telephone service under this convenient arrangement is one-half your regular rate.

Here is what Race Drivers with Life and Victory at Stake have decided about Tires

FOR twenty-two years the Indianapolis two-hundred-mile circular track, surrounded by a concrete wall to keep the cars from leaving the track, has been the arena where the world's best drivers and mechanics have tested their skill and endurance. The Indianapolis two-hundred-mile race is the most important of the world's automobile races. It is the only one in which the drivers and mechanics have to endure the heat and the strain of a two-hundred-mile race. The Indianapolis two-hundred-mile race is the most important of the world's automobile races. It is the only one in which the drivers and mechanics have to endure the heat and the strain of a two-hundred-mile race.

Louis Schaeffer and mechanic on Saturday won this race in a heavy 5-cylinder car. He made an average of 100,000 miles per hour—on the Indianapolis two-hundred-mile race he finished 140 miles and 140 laps of 6,000-20 Firestone High Speed Tires with racing tread. He did no tire trouble.

He said Firestone Tires because Firestone engineers and mechanics have through twenty-one years made this race as a challenge to the world's best drivers and mechanics. They have developed these tires for the world's best drivers and mechanics.

1. Gum-Dipping. Tires had to be stronger and able to hold the heat of a hot road. Firestone met this by developing and perfecting the dipping of cords through a rubber solution to insulate each fiber of every cord to overcome heat and give the cord greater strength and 50% greater flexibility. This is the famous Gum-Dipping Process used in the making of every Firestone Tire.

2. The Ballon Tire. was developed by Firestone to permit greater speed with comfort and safety by increasing road grip and absorbing shocks. It was made possible by the added strength and flexibility given by Gum-Dipping. In the 1926 Indianapolis two-hundred-mile race the Ballon Firestone tires. Peter de Pous on Firestone Ballon tires made a world's record in the race when he drove in on Firestone Ballon tires. He held the lead tire for everywhere he stopped.

3. Double Cord Breakers. The higher-powered cars and the step-up in speed demands still more tire toughness. At the Indianapolis race in 1926, the tire breakers in a Firestone tire were more than 100% and this is the reason for the double cord breakers in every Firestone tire.

These are some of the reasons that Firestone tires are the most popular in the world. They are the most popular in the world because they are the most popular in the world. They are the most popular in the world because they are the most popular in the world.

There are 72 million Firestone tires in use in the world. They are the most popular in the world because they are the most popular in the world. They are the most popular in the world because they are the most popular in the world.

Porto Rico Revives Demands Of U.S. For Independence

SAN JUAN, Porto Rico, June 14 (AP)—Reviving with vigor its demand for the independence of Porto Rico from the United States, the party which has been known for more than 50 years as "Unionist" last night resumed its convention held for the purpose of modifying its platform.

The convention was presided over by Senator Antonio R. Barcelo, for many years a dominant political figure in Porto Rico. It still was undetermined last night whether the party's platform will include independence as its sole aim or whether a compromise might be reached.

By a recent decision of the Porto Rico supreme court the party has been denied use of its old name, "Unionist," in the next election.

Barcelo denounced American rule in scathing terms, asserting that imperialism had now reached such a stage as to be a complete denial of the nation's heritage, democracy, and "mere humiliating" than the shameful tyranny of the ancient Caesars.

After 33 years of American administration, Senator Barcelo said, Porto Rico is found more than ever to an oppressive colonial system in which American tariffs "forced the island to buy at prices which were convenient to national industry."

"Our people paid \$90,000,000," he said, "with their blood, to favor American products although the American tariff system in Porto Rico favors only foreign capital. Our condition is worse than that of the medieval serfs."

CHRISTIAN SCIENCE CHURCHES

"God the Only Cause and Creator" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 7.

The Golden Text was from Psalms 33:9, "Let all the earth fear the Lord; let all the inhabitants of the world stand in awe of him. For he spoke, and it was done; he commanded, and it stood fast."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "In the beginning was the Word, and the Word was with God, and the Word was God. All things were made by him; and without him was not anything made that was made" (John 1:1, 3).

Mexico Is Planning Military Reserve Of 1,500,000 Troops

MEXICO CITY, June 14 (AP)—The newspaper El Universal Grafico yesterday said plans to create a Mexican military reserve of 1,500,000 trained men will be worked out by a government commission and presented to President Ortiz Rubio for his approval this month.

According to the newspaper, the scheme involves military training in all public schools, starting in kindergartens where children will be taught to play with toy soldiers and given other preparatory training.

From the first grade up, actual military studies will be given. The newspaper estimates that within a few years the upper schools will be turning out thousands of trained soldiers each year.

This reserve force would be in addition to the standing army of approximately 60,000 men and the present agrarian reserve estimated at 100,000.

Several months ago an official announcement was made of plans to install compulsory military training in the schools, but nothing further had been mentioned in this connection until yesterday's published story. The paper did not quote any official source, but indicated it has obtained the information from reliable quarters.
