Estimate Called 'Generous'

Mosquito-Control Program Set At \$400,000

By DONNA ESTES
Herald Staff Writer

Seminole County figures it will cost \$400,000 a year for a countywide mosquito control program.

A state official today called the estimate "generous" and includes all the equipment necessary for a start-up operation. But, he said, it obviously wouldn't cost as much after the equipment is purchased the first year.

Dr. John Mulrennan, director of entomology for the state Department of Health and Rehabilitative Services, also noted that since mosquitoes do not breed year-round, extermination of mosquito larva need not be continuous.

He also noted that \$15,000 is available from the state toward the cost of a mosquito control program, plus a grant of about 5 percent of the operating budget.

The county is currently using the \$15,000 from the state for fly control at sanitary landfills.

The 5 percent grant would have to be divided between the landfill and the mosquito program as long as the county insists on its fly control program, Mulrennan said.

He added, however, that his department has been trying for years to stop grants for sanitary landfill programs.

"The money should be used for mosquito control. This is more important," Mulrennan said.

He disagreed with a statement attributed to County Administrator Roger Neiswender that most cases of mosquito-related diseases in Florida involve refugees from Haiti, Cuba and South America.

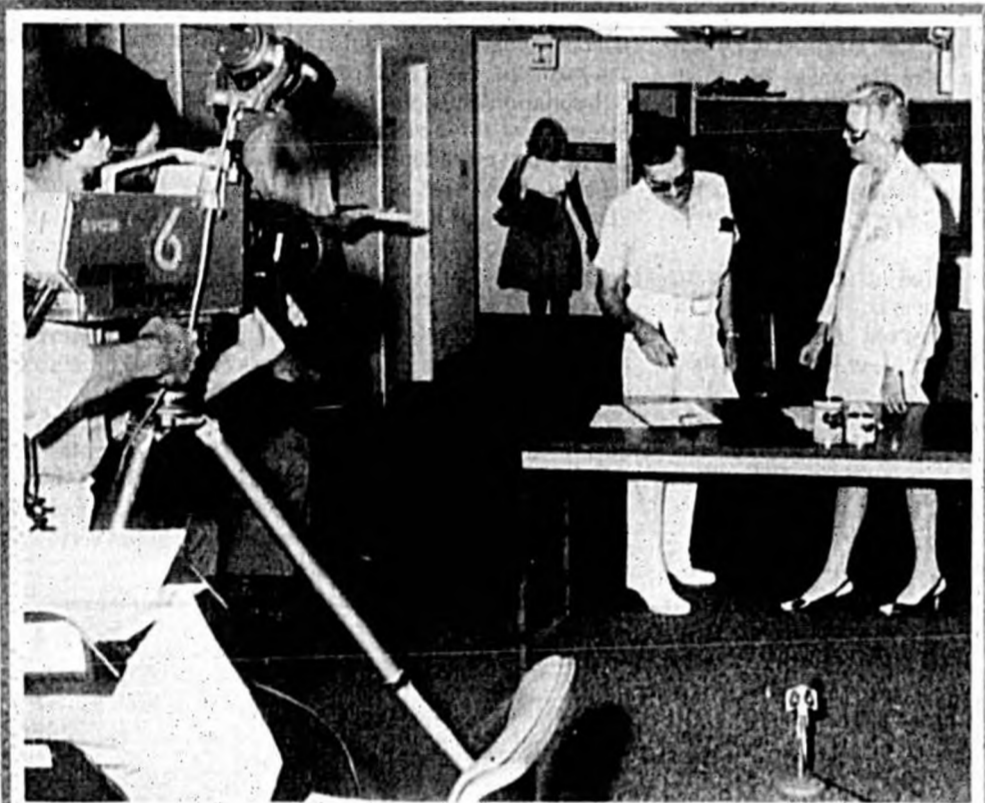

"We have had one human death in Orange County from encephalitis this year," Mulrennan said. "Sure, the refugees who have come into Florida from Haiti have a lot of diseases, but those diseases have been tuberculosis and venereal diseases and some malaria," he said.

"It's been our own citizens living in Florida who have gotten eastern encephalitis and St. Louis encephalitis from mosquitoes," he said.

The mosquito control study conducted by county staff showed that \$115,346 would have to be spent on equipment for a mosquito adulticiding program and another \$200,000 for larvaciding equipment.

In addition, the report said \$75,000 would be needed for personnel for adulticiding and \$72,000 for other larvaciding equipment, staff and chemicals.

Sanford City Manager W.E. "Pete" Knowles on instructions from the Sanford City Commission has been discussing the possibilities of a countywide mosquito control program. The idea broached by the city would have had the county administering and conducting the program with the participating cities paying a portion of the cost.

LIGHTS, CAMERA, BUT NO ACTION

What if they had a big opening and nobody came? That's just what happened Wednesday afternoon when county personnel and members of the news media gathered for what was supposed to be an opening of bids to purchase the vacated Seminole Memorial Hospital in Sanford. But no bids were received.

SMH: Sell It Or Convert It To County Offices?

By MICHAEL BEHA
Herald Staff Writer

Although there have been no bids submitted for the purchase of the old Seminole Memorial Hospital (SMH), there remains a chance the county may still sell the property.

Commission Chairman Robert Sturm today said the lack of bids is a reflection of what has happened to the economy.

"I was displeased, but not shocked that there were no bids," Sturm said.

Sturm said several firms have apparently shown an interest in the property even though they did not submit bids Wednesday.

"I've not heard any specific names but I heard rumors that there were other companies, not in health-related fields, that were interested in it," Sturm said.

Commissioner Bill Kirchhoff echoed Sturm's feelings that there may be some interest in purchasing the property.

"There is still a possibility that bids will come in," he said, adding that the process would take 60-90 days.

Commissioner Barbara Christensen also was surprised that no bids were received.

"I don't know what we'll do now," she said. "I have an open mind. I know it will be quite costly to renovate the building into office space. We'll just have to look at the options."

"We all were hoping that someone could take that property and develop it, put it back on the tax rolls," she said. "We could take the money and put it toward a new building."

John Percy, county director of public services and development, said he had expected several developers to submit bids to convert the building into a nursing home.

"But I guess they were concerned about getting a certificate of need from the state," Percy said. "There just isn't that much need for another nursing home in Sanford."

The county received an inquiry from the George M. Kline Co. of Bethesda, Md. The inquiry had no written proposal or a bid on the property and expressed only an "intent to submit a proposal" and asked county commissioners to discuss the project with the firm.

The commissioners will meet Monday with Don Hahn, of the Walter E. Sobel & Associates consulting firm, Chicago, to examine the county's projected office space needs and the ways the hospital could be used to help meet them.

Commissioners have already authorized advertising for architects to work on renovation schemes for various county facilities.

Meanwhile, two bids were received Wednesday for property adjacent to the hospital building.

Jeno F. Paulucci Enterprises Inc. offered \$20,000 for a 1-acre parcel with a building at the corner of First Street and Mellonville Avenue as a senior citizen housing and health care facility.

The Central Florida Blood Bank offered \$25,500 for a .38-acre parcel at the northeast corner of San Carlos Avenue and Second Street.

Fired County Parks Chief To Fight Charges He Misused Public Property And Labor

By TENI YARBOROUGH
Herald Staff Writer

A former Seminole County facility and parks coordinator, who was fired from his \$22,422-a-year job following his arrest Monday plans to fight charges that he used public property and personnel for personal gain.

Mark Lubet, lawyer for John D. Varney, 39, of Route 1, Lake Sylvan Park, said he has sent "a written plea of not guilty to the state attorney's office and we are now awaiting notification of a trial date."

Varney, charged with four counts of grand larceny, was arrested following a three-week investigation into allegations from maintenance department employees that county property, time and labor were being misused.

The unidentified employees contend that Recreation Department materials and labor were used for non-county benefit at the direction and discretion of Varney.

County Administrator Roger Neiswender subsequently fired Varney, saying, "This wasn't any great criminal plot, but more a case of bad judgement." County personnel

said today they have received no indication from Varney that he intends to appeal his firing from the position he has held since March 22, 1976.

Lubet added that he is "looking into the possibility of working something out with the prosecutors which would allow for reduced charges against Varney in exchange for information from his client which could lead to further arrests in connection with the incident."

According to prosecutors and Sheriff John Polk, no other arrests have been made in connection with the allegations, but further arrests are a possibility.

The charges against Varney involve building a doll house for a fellow county employee, building a motorcycle trailer for his own use, purchasing and installing electrical wiring for a county employee's trailer, and body repair work on Varney's pickup truck, deputies said.

Varney was released from the Seminole county jail Tuesday on a pre-trial release program.

School Board Adopts \$111 Million Budget

Despite some concerns about the long-range effects of growth on county schools, Seminole County School Board members have voted 4-0 to tentatively accept the fiscal 1982-83 \$111 million budget up from this year's \$97 million.

Board members Roland Williams, Pat Telson, William Kroll and Nancy Warren all voted Wednesday in favor of the budget and tax rate. Alan Keith was absent from Wednesday night's public hearing. Final approval of the budget will come in September.

The new tax rate, \$6.99 per \$1,000 assessed valuation, is 17 cents per \$1,000 higher than the amount advertised by the board last week. The change was made necessary by a state adjustment, School Superintendent Robert Hughes said.

The rate is lower than last year's \$8.27 tax rate. Taxpayers may end up paying more in taxes despite the rollback, however, because of an average 20 percent increase countywide of taxable properties.

Williams echoed his concerns of the last meeting that school lunch prices should not be increased at the elementary schools. The new budget calls for a nickel increase in lunch prices at elementary and secondary schools in the county.

Williams congratulated his colleagues, saying, "This is one of the better prepared budgets in my time on the board. Tremendous amounts of time were spent by board members."

He said the board has begun to address the growth problems in the past two years with its comprehensive building program. Tuskawilla Elementary School and wings for exceptional children were built and construction of elementary schools in Oviedo and Sanford are planned in this year's budget.

But one area of concern, a year-round program, that has surfaced sporadically over the past few years, was raised again.

John Russell of Longwood, one of four people who addressed the board, asked why the board doesn't go to a year-round program to alleviate the strains of continual growth upon existing buildings.

Mrs. Telson, a longtime supporter of year-round school programs, asked the same question. She said there was a report conducted by a school administrator several years ago, but nothing came of it. She said she would like more research on the subject.

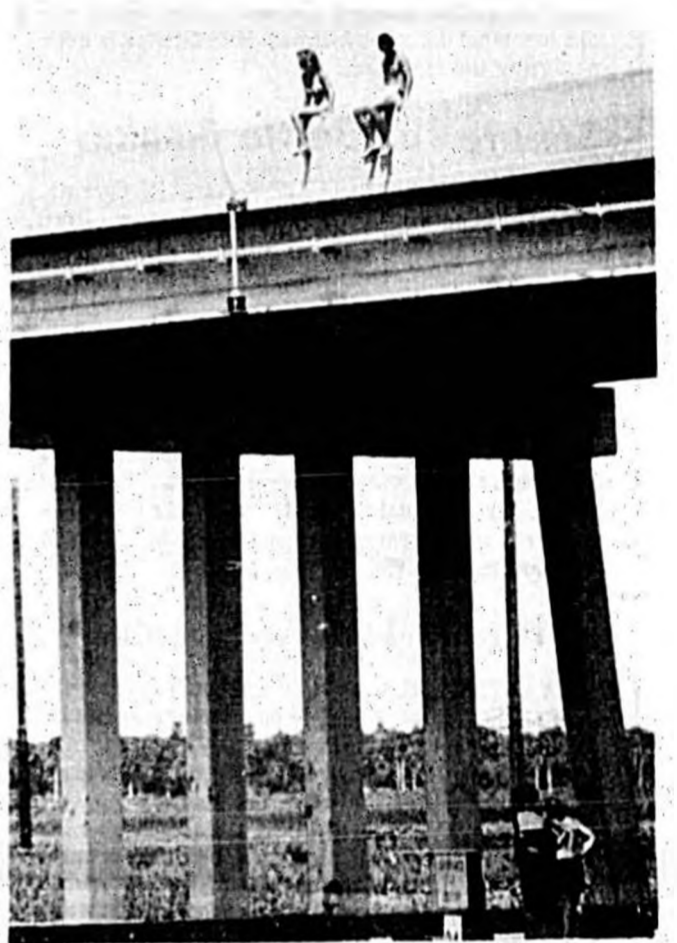

Kroll said the year-round programs in seven states were examined in the report. "The answer always returned to building additional schools. They always revert back to traditional methods, traditional schedules."

He said the system also means hiring more teachers.

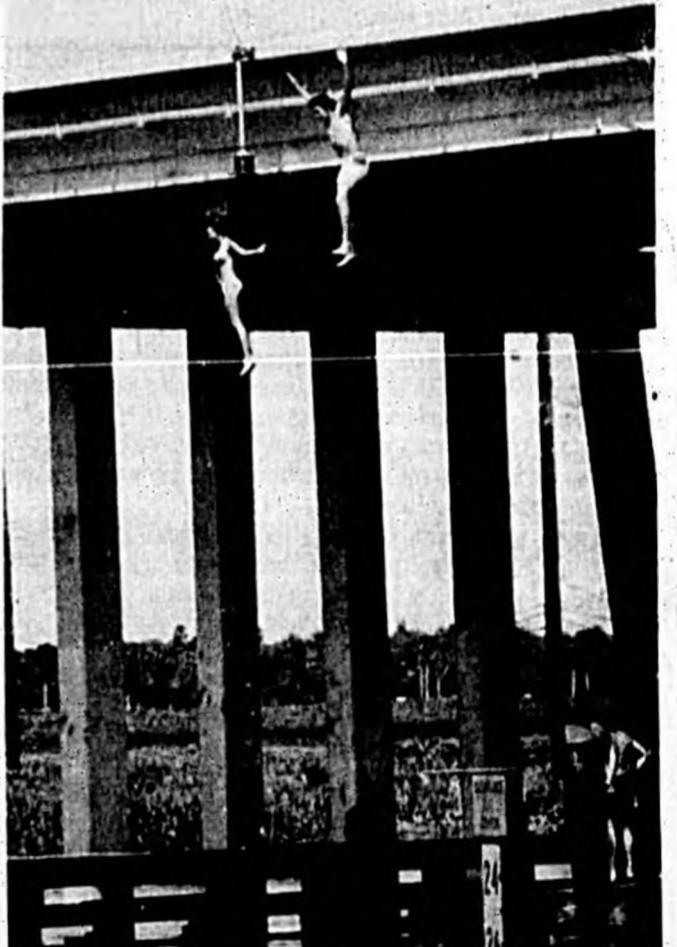

Mrs. Telson said, "One day we're going to have to find another way of doing things. We can't tax the people to death."

Seminole County experiences about 3 percent growth annually. About 600 new students are expected in county schools this year adding to the current enrollment of 36,495. That number is expected to accelerate each year through the year 2000. — MICHAEL BEHA

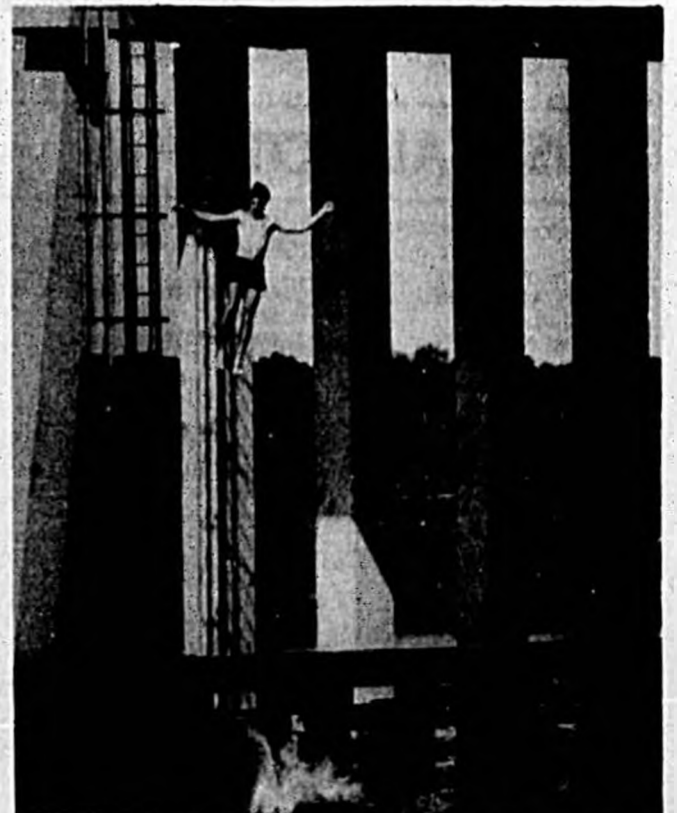

Taking The Plunge

...two young divers ponder a 30-foot plunge off the Osteen Bridge as their friends eagerly await their decision.

...It's anchors away for the daring duo

...having witnessed their buddies' successful leap, the two onlookers take a flying leap themselves. But don't try it. Besides being dangerous, it's also illegal.

CHRIS MARLETTE
...replaces Bill Payne

At Seminole High School

Marlette New Varsity B-Ball Coach

By SAM COOK
Herald Sports Editor

Chris Marlette, winner of three Seminole County Freshman Tournament championships in five years at Crooms High School, was named Seminole High School varsity basketball coach today by Principal Wayne Epps.

Marlette, 35, will replace Bill Payne who took the Seminole Community College basketball position on July 12. Payne coached at Seminole High for five years.

"Chris has a philosophy that is similar to ours, plus he is a strong disciplinarian and a hard worker,"

Epps said. "His kids played with a character and a style we liked and we hope he'll continue to do that for us."

Marlette was one of five candidates considered by Epps. Colonial High School's Zeke Kinney, Lake Howell High School's Greg Robinson, Bishop Moore High School's Gregg Robinson and Seminole High junior varsity coach Tom Smith were also in the running.

"I knew a lot of people had more experience," Marlette said, referring to Kinney, Robinson and Robinson. "But I had worked with all the kids and I'm just glad I

received the opportunity."

Marlette, who produced an awesome 98-17 record during his five years at Crooms, coached all but two of the present players in the Seminole program.

Prior to taking the Crooms coaching job, Marlette coached three years of varsity basketball at the now-defunct Sanford Naval Academy on Lake Monroe.

Marlette was an honorable mention All-State basketball player for R. H. Watkins High School in Laurel, Miss. He also played football and ran track.

After graduation, Marlette attended Jones County Junior College (Ellisville, Miss.) on a basketball scholarship where he once again earned honorable mention All-State his sophomore year.

He graduated from Southern Mississippi University, Hattiesburg, with a degree in health and physical education in 1970.

Marlette will receive approximately \$18,000 for the position based on his teaching experience in Seminole County. He and his wife Peggy and their son Andy, 2, live in Sanford.

NATION

IN BRIEF

1 Killed, 16 Hurt When Crane Topples

NEW YORK (UPI) — Crews today removed a dangling, 137-foot-long crane that snapped in two, rumbled into an office building and showered glass and granite over a business-district street, killing one person and injuring 16 others.

The crane which weighs several tons, was atop a partially completed 44-story Manhattan office building, the Continental-Illinois Center, when it broke while being dismantled Wednesday morning and was left dangling over a midtown street.

Looking Inside TMI Core

MIDDLETOWN, Pa. (UPI) — A tiny videotape camera has given Three Mile Island officials their first look inside the reactor some experts say was reduced to a "rubble bed" by the nation's worst commercial nuclear accident.

Technicians lowered the \$25,000 underwater camera into the reactor Wednesday in a test designed to help officials plan the next major step of the plant clean-up — removal of the highly radioactive core, tentatively set for 1985.

Douglas Bedwell, spokesman for plant operator General Public Utilities Nuclear Corp., would not disclose what the camera filmed. He said experts were analyzing the videotape.

Senate Tax Battle Smokes

WASHINGTON (UPI) — Senate Democrats, defeated in an effort to overhaul the proposed record \$99 billion tax hike, are now trying to chip away at parts of the plan — including a proposal to double the cigarette tax.

The Republican-led Senate voted, 54-45, Wednesday, generally along party lines, against a Democratic amendment aimed at deleting tax increases that would mainly affect poor and middle-income groups.

Today, Sen. Wendell Ford, D-Ky., intended to try to eliminate the proposal to raise the federal cigarette excise tax from eight cents to 16 cents a pack. The measure would generate an additional \$4 billion in revenue through 1985.

Ill Health Led To Suicide

SWARTHMORE, Pa. (UPI) — Dave Garroway, the original host of the "Today" show who was known for an unflappable manner that mixed wit and warmth, committed suicide because he was depressed about his long-running health problems, his son says.

Garroway, 69, had been in and out of hospitals for the past six months suffering from complications of open-heart surgery, family members said Wednesday. He left the hospital two weeks ago and for the past week had been under a nurse's part-time care, the housekeeper who discovered his body, said.

Garroway shot himself in the head with a .12-gauge shotgun in a hallway of the tree-shaded, single-story ranch house where he lived with his third wife, Sarah Lee Lippincott, a spokesman for the Delaware County Coroner's Office said.

WEATHER

NATIONAL REPORT: Heavy thunderstorms rumbled across northern Illinois, dumping nearly 5 inches of rain on northwest Chicago suburbs. Lightning struck and killed an Alabama cemetery worker and injured 10 youths working an Illinois farm field. State police reported 4.8 inches of rain — but no flooding — at Lake Villa, Ill., Wednesday night as intense storms doused the northern part of the state and churned into Indiana and Kentucky. The storms blasted St. Louis with damaging winds and hail earlier Wednesday. In Montgomery, Ala., a cemetery worker was hit in the chest with a lightning bolt as he sat out a rainstorm under a tree. He was killed and his coworker was injured.

AREA READINGS (9 a.m.): temperature: 79; overnight low: 74; Wednesday high: 92; barometric pressure: 30.06; relative humidity: 79 percent; winds: south at 5 mph; rain: .18; sunrise 6:41 a.m., sunset 8:22 p.m.

FRIDAY TIDES: DAYTONA BEACH: highs, 11:06 a.m., 10:31 p.m.; lows, 4:43 a.m., 4:54 p.m.; **PORT CANAVERAL:** highs, 10:58 a.m., 11:23 p.m.; lows, 4:34 a.m., 4:45 p.m.; **BAYPORT:** highs, 4:32 a.m., 3:44 p.m.; lows, 9:58 a.m., 10:54 p.m.

BOATING FORECAST: St. Augustine to Jupiter Inlet, Out 80 Miles: Wind mostly south to southwest 10 knots or less through Friday. Seas 3 feet or less. Wind and seas higher near widely scattered thunderstorms.

AREA FORECAST: Partly cloudy today with a 50 percent chance of afternoon thunderstorms. Highs low to mid 90s, wind southerly 10 mph. Tonight, partly cloudy with a 30 percent chance of evening thunderstorms. Lows in the low to mid 70s. Light variable wind, Friday, partly cloudy with a 50 percent chance of afternoon thunderstorms. Highs in the low to mid 90s.

Ex-Deputy Says He'll Sue Over Arrest

By TENI YARBOROUGH
Herald Staff Writer

A lawyer for a former Seminole County sheriff's deputy, arrested last year on drug-related charges which were later dropped, has notified three county law enforcement agencies the deputy intends to sue them.

Sheriff John Polk, Sanford Police Chief Ben Butler, the Sanford Police Department and the Longwood Police Department have received letters from William M. Stern, lawyer for Arthur C. Price, 38, of 2903 S. Park Ave., Sanford, that Price intends to seek undisclosed damages in connection with his December, 1981 arrest. The pending suit is "based on Price's false arrest," Stern said.

According to Polk, the "letter of intent to sue is required to be sent to the parties a person plans to file suit against within six months before the actual lawsuit is filed."

Price, who operates an aircraft maintenance business at Sanford Airport and maintains the sheriff's department aircraft, was arrested Dec. 30, 1981 on charges of aiding and abetting in conspiracy to traffic marijuana in connection with what police called a multi-million-dollar drug operation. However, the charge against Price was later dropped after police and prosecutors said they did not have a strong enough case against him.

Meanwhile, 10 other people arrested as suspects in the case are awaiting trial, police added.

DUI ARRESTS

The following people were arrested in Seminole County on charges of driving under the influence (DUI) of alcoholic beverages or drugs:

— Jay Dee Friend, 22, of 319 U.S. Highway 17-92, Longwood, arrested 2:01 a.m. Monday, charged with DUI and driving without a driver's license. Friend was arrested along U.S. Highway 17-92 in Casselberry, police said. Bond was posted at \$500.

— Maxine Clark Wixson, 54, of 164 Maitland Ave., Altamonte Springs, arrested 1:10 a.m. Monday, charged with DUI. Ms. Wixson was arrested along State Road 434, Longwood, deputies said. Bond was set at \$500.

— Russell Marvin Martin Jr., 723 Bldg. B, Wyman Court, Orlando, arrested Saturday, charged with DUI after being stopped along Mellonville Avenue, near 30th Street, Sanford, police said. Bond was set at \$500.

— Donald Grady Shuler, 24, of 818 Logan Drive, Longwood, arrested 3:40 a.m. Sunday, charged with DUI. Shuler was arrested after being stopped along Selma Drive, Longwood. Bond was set at \$500.

— David Hunter Lasley, 21, of 2185 Hunterfield Road, Maitland, arrested 4:10 a.m. Wednesday, charged with DUI. Lasley was arrested at Newburyport Avenue and State Road 436, Altamonte Springs. Bond was set at \$500.

— William Joseph Weller Jr., 35, of 218 Charles St., Winter

★ Police

Springs, arrested 2:33 a.m. Wednesday, charged with DUI and failure to drive in a single lane. Weller was arrested by Winter Springs police along State Road 434. Bond was set at \$500. —Matthew L. Simpson, 24, of Momenon, Ill., arrested 2:04 a.m. Wednesday, charged with DUI. Bond was set at \$500.

FIRE CALLS

The Sanford Fire Department responded to the following fire alarms Tuesday:

—1:37 a.m., 2024 Lake Ave., rescue.

—9:32 a.m., 1006 Palmetto Ave., rescue.

—2:32 p.m., Lake Monroe, capsized boat.

AUTO ACCIDENT

A 16-year-old Sanford youth was charged with careless driving Monday following a two-car collision at 15th Street and U.S. Highway 17-92.

Police said about \$700 worth of damage was caused to the boy's 1971 Chevrolet truck and about \$250 damage was caused to a 1973 Plymouth driven by Matthew Taylor, 24, of Orange City. No one was injured in the collision, police said.

SANFORD MAN BATTERED

A Sanford man told police that he was struck on the head by two men who attempted to rob him, but learned he wasn't carrying any money.

Arius Collins, 35, of 2143 E. Second St., told police he was attacked near his home at about 1:50 a.m. Wednesday by two men. He said the men tried to take his wallet but later discovered he did not have any money, struck him and fled, police said. Collins was not seriously injured, police said.

BOATS BUMP IN THE NIGHT

No one was injured and only minor damages were reported after two boats collided along the St. Johns River about a mile east of Coffee Slough, deputies said.

Deputies said the accident occurred at about 10:15 p.m. Saturday when a boat, driven by Duane D. Fitzmorris, 45, of 516 Jupiter Way, Casselberry, was involved in a collision with a pontoon boat piloted by Gary Winn, 34, of 2580 Ridgewood Ave., Sanford.

Deputies said both boats were operating along the river from opposite directions, utilizing navigation lights on both vessels. When the two boats hit, Fitzmorris and an unidentified passenger were thrown overboard but reached shore unscathed, deputies said.

"I heard one of them, the passenger, yelling he couldn't

swim," said Winn, Sanford's building official. "I told him to keep talking and I swam to where he was and pulled him out. They were both OK though."

Winn said his passengers included his ex-wife, Susan, 31, and "her children and my children but they were sleeping when we hit."

No one was charged in connection with the accident, deputies said.

MAN RELEASED TO SHORE PATROL

A 22-year-old New York man, discovered sleeping in a car which was parked at First Street and Summerlin Avenue in Sanford Saturday morning was released to the U.S. Navy Shore Patrol from the county jail Tuesday.

Police said Roger Lee Riegert of Afton, N.Y., was observed sleeping in a vehicle in Sanford at about 3:27 a.m. Saturday. Upon investigation, police determined Riegert was wanted by the Navy for desertion.

WOODSHOP BURNS

About \$500 damage was caused to a Fern Park man's wood shop, located behind his home, after lightning hit the structure at about 6:04 p.m. Monday.

Edgar L. Lyons, 60, of Lake Irene Road, told deputies and fire investigators that he and his wife, Mary Frances, 59, observed the lights of their home "flicker when lightning struck nearby." About 20 minutes later, Lyons said, he saw smoke billowing from his wood shop and notified fire personnel who extinguished the blaze.

WOMAN HOSPITALIZED

A 63-year-old Sanford woman is listed in fair condition at Central Florida Regional Hospital, Sanford, after she was taken there from her home for treatment of a heart ailment and dehydration, hospital officials said.

Sanford police said Estelle McIntyre, of 105 Castle Brower Court, was transported to the hospital after they discovered she had apparently been beaten with a belt.

Hospital officials said Ms. McIntyre was admitted to the Sanford hospital in critical condition at about 1 p.m. Sunday but that her condition has improved.

Police added that the incident is under investigation by State Health and Rehabilitative Services personnel.

MAN SENTENCED

A 22-year-old Fern Park man was sentenced Tuesday to 30 days in the county jail, five years probation, 200 hours of community service to be worked within a two-year period and ordered to repay the public defender's office \$500 for his legal defense.

David Lester Huntington was arrested Dec. 18, 1981 on charges of selling Qualaludes to undercover drug agents at the Fern Park Station bar, Fernwood Boulevard, Fern Park.

Circuit Judge C. Vernon Mize withheld adjudication of guilt in the case which means that after Huntington has served his sentence, he will have no criminal record.

Layman's Anatomy Of The Economy

Slowly and painfully, Americans are learning economics. As we once boned up on Southeast Asian politics and, in another generation, Pacific island-hopping, Americans are now learning the rudiments of supply-side economics, floating interest rates, inflation, recession, and finally the most painful term of all, unemployment. But few who use those terms, and few leaders who try to influence them, understand much about economics. And rarely will disagreeing economists admit that their colleagues understand the workings of the economy either.

This confusion is usually considered bad. We want to control the economy as we would drive a car.

But what if the almost infinite number of transactions, the contradictory trends, the foreign influences add up to an unpredictable model, an organic chain of reactions—in short, a human organism? We want to order the economy about, but it has its own personality, its memories and fears, its weaknesses and hidden strengths and perhaps its age in the life cycle of economics.

If the economy is unpredictable, at least it's human; and that is comforting. But the human organism is in pain. It doesn't have the energy it used to. Its industrial heartland is suffering from a near cardiac arrest. Its farm belly is aching. Recession has hit below the Sunbelt. The extremities of poverty and age have been stricken.

Some people believe the problem is in our heads. Just raise some expectations and voila, economic recovery!

Some people believe the problem is in our feet. If there's no work where you live, take a walk to a region that has jobs.

Some people believe the problem is in our back. Just pry off the government and we'll run like kids.

Some people locate the problem in our sides. The left is wasting too much on welfare spending. The right is transferring all the wealth to the rich. Some people complain of the heavy military uniform we wear to protect us from the Russians. Run naked under the nuclear umbrella.

Some people feel we're too young to have the sense to stop squandering our resources.

Some people declare we're too old to compete anymore.

The economy is almost as good a subject of speculation as the weather. And who knows, maybe all the interpretations have some sense in them.

But imagine the poor organism who is criticized for all these things at once and marched off in a different direction every four years to correct his problems.

It might be better to be ignorant of economics after all. Then at least we'd know we were dealing with something fragile and alive and mysterious. And we'd be careful not to hurt it. For by over-manipulation and misunderstanding, we only hurt ourselves.

Watches Geniuses?

Administrators of the highly-touted sperm bank to produce intellectually superior humans certainly demonstrated a lack of smarts in their first attempt toward creating genius.

It turns out the woman who gave birth to the first child conceived through the Escondido, Calif.-based Repository for Germinal Choice was involved in a child abuse case and went to prison for fraud. Also she and her husband reportedly have been paid \$20,000 by the National Enquirer for the exclusive story on the birth. Sheer hucksterism.

"It indicates that we may not have chosen as wisely as we might have the first time around," says Robert K. Graham, who founded the repository. It certainly appears so.

The mother, Joyce Kowalski, was inseminated with sperm from an eminent mathematician and a daughter, Victoria, was born last April. The object was to improve the quality of the human race — create more highly intelligent children who will grow up as leaders.

We hope it works out that way, but we have our doubts at this point. The Repository for Germinal Choice had better overhaul its selection processes and make sure there's a potential for genius on both sides of the family.

BERRY'S WORLD

"If I'm so smart — why am I not Steven Spielberg?"

By TENI YARBOROUGH

By now, most Central Florida residents know there is at least one other thing that is certain among life, death and taxes—that is, the ever-faithful afternoon rainstorm.

And because this is Florida's rainy season—a time when any self-respecting Floridian wouldn't be caught in a torrential downpour without his umbrella—local law enforcement officials are encouraging residents to use caution while driving during and after these rainstorms.

In 1981, Florida experienced 229 fatal, traffic-related crashes during rainy weather, according to Florida Highway Patrol officials.

One FHP official said "wet pavement should have the same meaning to motorists as a caution flag does to a race driver," adding that the first thing a driver should do when rain begins is to

slow down, turn on windshield wipers and low-beam headlights.

Police say motorists should avoid sharp braking because such action may cause the vehicle to skid along the roadway which is slippery with oil, dirt and water.

The distance between vehicles traveling down roads should also be increased as much as double that which would be expected in dry weather, police said. Officials also suggest driving in the tracks left by another vehicle without following too closely to improve traction and prevent planing or the water-skipping effect in heavy rain.

Police say if you must drive through water deep enough to wet your vehicle's brake linings, hold your foot lightly on the brake pedal for a few hundred feet afterwards to help dry the linings

and avoid having your brakes malfunction.

Note: Sheriff's spokesman John Spolski is on vacation this week but is expected to return Monday, July 26. Meanwhile, anyone needing assistance from his department is encouraged to call Capt. Jay Leman or Sheriff John Polk's office.

In addition, officials in the Seminole County state attorney's office are attending state and national conferences this week. State Attorney Douglas Cheshire is attending the National District Attorney's Conference in Boston this week, while his executive assistant, W.J. "Buzzy" Patterson attended the Florida Prosecuting Attorney's Conference in Fort Lauderdale, Monday and Tuesday.

DON GRAFF

OPEC Loses One

These are tough times in the cartel business.

First the South Africans, who for as long as young lovers and much older ones can remember have dictated world supply and price, have lost their grip on the diamond trade.

Now the Organization of Petroleum Exporting Countries, which for a decade held the whip hand over the world's major industrial economies, is not only losing its grip but coming apart in public.

The predicaments of both have some points in common—weakening of world demand for their products and new sources of supply outside their control are factors.

But OPEC has an additional problem that raises a question as to whether it is a genuine cartel at all. While its 13 members were all to effective in working together to raise world oil prices in a period of demand, they have proven themselves flops at cooperating to limit price declines in a time of surplus.

They proved it at their emergency Vienna meeting, which was supposed to repair the leaks that had developed in the production ceilings they had set in March in Geneva. Instead, members are now technically free to pump as much as they think they can sell, at prices undercutting each other.

Saudi Arabia, which last year demonstrated its ability to curb the price-boosting ambitions of its partners by increasing production to the point of flooding the world market, still has the power to make some impact on the supply situation by sharply reducing output. It alone produces more than a third of OPEC oil—6.5 million barrels a day out of 18.2 billion. But even if the Saudis cut back to the vanishing point, others would happily make up most of the difference.

Particularly the Iranians who, their war with the Iraqis victoriously concluded, are moving back into the business in a big way. It was their demand to double Iran's production quota — 1.2 million barrels daily under the Geneva ceiling—and their pursuit of political grudges against the Saudis that effectively scuttled the Vienna talks. Before the glorious revolution, Iran was pumping 6 million barrels a day. So you can see how it could go.

It would be nice to be able to sit back and enjoy OPEC's discomfort.

Unfortunately, the discomfort is not OPEC's alone. There may be some advantage to the consuming countries in continuing soft prices — industry analysts are now forecasting stable gasoline prices in the United States through the summer and possibly beyond. But that could be more than offset by other problems.

After the first shock of the transfer of wealth from consuming to producing countries, the world economy adjusted to the flood of petrodollars that were recycled through the Western banking system. Vast numbers were channeled into economic development loans in the Third World.

With that surplus no longer available and the depressed economies of the industrial countries unable to generate the necessary billions in loan capital, a lot of recipient countries are going to be hurting.

Mexico, oil-rich itself, is one. It has borrowed heavily to develop its own production, to the point that it has one of the highest foreign debts in the world — more than \$55 billion. The Mexicans are the largest non-Communist exporters outside OPEC. But the more they market to meet their obligations, the weaker prices become for them as well as OPEC.

Despite its disarray, there is no immediate likelihood that OPEC will go away.

JACK ANDERSON

Iraq Backers Pull Away From Khomeini

WASHINGTON — Even as Iranian troops renewed their attack upon Iraqi forces last week, secret intelligence assessments had convinced some American analysts that Iraq dictator Saddam Hussein's days were numbered.

A classified intelligence report, quoting Iraqi sources, claims that Hussein's principal financial backers, Saudi Arabia and Kuwait, have cut back the flow of funds that prop up his shaky regime. If the report is accurate, this would mean that wealthy Arab nations are hedging their bets in case the Ayatollah Khomeini succeeds in his avowed determination to oust Hussein from power.

What worries the Saudis and Kuwaitis is the prospect of Khomeini's Shiite Moslem militancy spreading into their own Sunni Moslem territory. That's what led them to funnel their petrodollars to Hussein, though

EDWARD J. WALSH

Bringing Back Railroads

President Reagan moved to avert a nationwide rail strike on July 8, two days before it was to begin. His executive order declared a 60-day cooling off period, and appointed a special panel to look into the dispute between the Brotherhood of Locomotive Engineers and the rail management negotiating arm.

If the strike had occurred, it would have affected 90 percent of U.S. railroad trackage, according to the White House. It would have added some 620,000 people to the nation's unemployment rolls in two weeks, and 1.1 million after a month. Such is the power of the Brotherhood of Locomotive Engineers.

Although the dictatorship of organized labor in the rail industry has not gotten the same public attention as labor clout in the auto or steel industries, it is even more serious. America's railroads have been on a productivity slide for years, thanks to incomprehensible union work rules and overgenerous wages and benefits. The current recession has caused a sharp downturn in rail traffic, exacerbating further the crisis and industry is facing. According to Railway Age, orders for new rail cars in May dropped to 487 from 539 in April, and from 2291 in May 1981—a decline of 79 percent for the year.

Historically, collective bargaining in the rail industry has been on a nationwide basis. The two major rail unions, the Locomotive Engineers and the United Transport Union, have bargained with the single management group, the National Carriers Committee of the National Railway Labor Conference. As in other heavy industries, the system has created a monster of nationwide monopoly union power.

The principal drag on railroad productivity is archaic work rules. For example, the "hundred mile" rule requires trainmen be paid a full day's wage for traveling one hundred miles—a trip that today takes only a few hours. Professor John F. Due of the University of Illinois, in a study of railroad productivity analyzed in the Spring issue of Transportation Journal, declared that "The rail industry could earn a reasonable rate of return with drastic revisions in labor union contracts to increase labor productivity." Among the changes he urges are: reductions in crew size; payment for an 8-hour day regardless of distance traveled, and flexibility in the kinds of work individuals are allowed to do. He adds further that "Much of the blame rests with the federal government, which has consistently supported labor's

position."

The idiocies of rail union work rules are highlighted by the exceptions to them. The vast majority of U.S. trains are forced to operate with a four-man crew: an engineer, conductor, and two brakemen. For years, however, European trains have been run with only one or even no brakemen. Only one American rail line, Florida East Coast Railways, has broken the union stranglehold on crew size. Throughout a thirteen year strike which ended in 1976, it operated with two-man crews, and continues to do so.

There is, thus, some light at the end of this tunnel. AMTRAK, the government-owned passenger rail line, recently forced six of its non-operating unions to scale back their wage demands from a 30 percent pay hike over 30 months to 18.7 percent. AMTRAK also won concessions on work rules, and will now be able to require employees to perform work formerly done by those in different job classifications.

Another salutary development is the intention of Pullman Standard, long America's premier rail car manufacturer, to get back into the business it left several years ago.

Pullman president Jack Krulzerga says he expects to be producing cars at the company's Bessemer, Ala. plant by early 1983—"if Pullman can reach agreement with a productivity-minded union." Pullman had shut down its Butler, Pennsylvania plant due to a nightmarish relationship with the United Steelworkers.

At Butler, Pullman paid USW members \$11 per hour plus \$7 per hour in benefits. There were 160 job classifications at the Butler plant. Incredibly, the USW classification system was less rigid than the rail unions'.

Labor costs and work rules are at the heart of the railroad industry's decline in the United States. This must change.

BUSINESS WORLD

Some Packing Advances

NEW YORK (UPI) — The extensive development of multi-property layered plastic films promises another revolution in the packaging of foods, pharmaceuticals and hundreds of other products.

These multilayer films, coextruded composites of as many as seven different types of plastics, are making big inroads as a replacement for glass and metal containers — and may even replace coated paper cartons.

The packages are 75 percent or more lighter than glass or metal, yielding savings on freight and trucking. Their initial cost is as much as 50 percent below glass and metal containers, and they require less energy in manufacture. They can be molded into a huge variety of efficient shapes.

But most important, the coextrusion of layers of film in a single step to provide high-performance properties such as barriers against moisture, gases, and temperature and the right strength and rigidity or flexibility, can reduce the need for refrigeration in stores and greatly extend the shelf life of many products. For example, in aseptic or in-process sterilization packaging, milk can be kept unrefrigerated for weeks in multilayer film containers.

It may even be possible in the not distant future to package fresh meats and produce in multilayer film packages that have been flushed out with nitrogen to get rid of oxygen, making it possible to keep them with little or no refrigeration for fairly long periods.

Laminated multilayer film packaging has been used for some years but the process is more labor intensive and expensive. Coextrusion turns out the multilayer film in a single high-speed operation and that's what gets the cost down.

According to Jack Hill, a Stamford, Conn., research writer, coextrusion of packaging film has been going on for a dozen years and at least a dozen companies in the United States build machines for making coextruded films.

In recent years, two companies, Composite Containers Corp. of Medford, Mass., and Ball Plastics of Muncie, Ind., have developed highly specialized coextrusion film machinery for making a wide variety of small containers. Ball is using a process developed by Dow Chemical Co. of Midland, Mich.

David Bernard of Composite Containers and Jim Vaughn of Ball told United Press International they agreed with Hill that coextruded multilayer film in time could replace nearly every other type of packaging.

It probably will not be used, however, for highly corrosive chemicals, for which a strong, inert material like glass is ideal, and there are many products that do not require the extensive protection afforded by multilayer films.

Nevertheless, the fact that coextruded multilayer film can be formed by heat and pressure into any desired shape, plus the fact that there is no material waste in making it, gives it a big edge over other materials.

In the long run though, Bernard and Vaughn said, the ability of coextruded multilayer film to provide aseptic packaging may be as important as the cost savings.

They said such packaging not only protects perishable products for extended periods without refrigeration but is ideal as sterile packaging for drugs, hypodermic needles and other medical and hospital supplies.

Bernard said multilayer film packaging might even ultimately reduce the size refrigerator needed in the home because many products now in the family refrigerator could be stored on pantry shelves.

the majority of the population. Allied with Khomeini's Shiites, the new Iraqi regime could spread its revolutionary virus to Saudi Arabia and other moderate Arab states in the Persian Gulf. This scenario spells disaster for U.S. interests in the region.

This alarming scenario is obviously the worst case imaginable for the Saudis. So in hopes of avoiding offense to Khomeini, they stopped sending their oil billions to Hussein.

Footnote: I reported on July 5 that "factions in Iran want to mount a military invasion to punish the Iraqis for the devastation they wrought in Iran," that this "conflict could go up in flames, with consequences more dangerous than the chaos in Lebanon" and that "revolution could spread to the neighboring Arab states." Time magazine reported the same story a full week later and was credited by the wire services with predicting the Iranian invasion.

FLORIDA IN BRIEF

Riot Police Patrolling

Refugee Detention Camp

MIAMI (UPI) — Riot-helmeted "reaction teams" patrolled the Krome Avenue detention center today, maintaining order following a disturbance involving 150 of the 450 Haitian refugees anxiously awaiting release from the fenced-in Everglades compound. Club-carrying Border Patrolmen were brought into the camp to prevent another "incident" after two Haitian men destroying furniture with makeshift weapons were seized by guards Wednesday in one of the dormitories, U.S. Immigration and Naturalization Service officials said. Last month, U.S. District Judge Eugene Spellman ordered about 1,850 Haitians incarcerated nationwide released pending political asylum hearings. Red tape and "foot dragging" on the part of officials and resettlement agencies has slowed the process. Haitian representatives claim, delaying releases until sometime in late July or early August.

Lawyer Jailed For Contempt

MIAMI (UPI) — Prominent Washington attorney William A. Borders has been ordered jailed for refusing to testify before a federal grand jury investigating U.S. District Judge Alcee L. Hastings, a former Altamonte Springs resident. Borders was found in contempt of court Wednesday and ordered to report next week to the federal prison at Allenwood, Pa. The Washington lawyer was convicted by a federal jury in Atlanta this past March of conspiring to solicit \$150,000 in bribes for Hastings, who faces similar charges.

WORLD IN BRIEF

Israelis Attack Syrian

Targets, Palestinian Forces

TEL AVIV, Israel (UPI) — Israeli forces attacked Syrian targets and Palestinian guerrilla bases today along the cease-fire line in the Bekaa Valley of Lebanon, the military command said. Meanwhile, Israel warned it will wait only "one to two weeks" before attacking PLO guerrillas trapped in west Beirut and shelled the city's southern suburbs in retaliation for one of its worst days of troop losses since the siege began.

Five Israeli soldiers died and six were wounded in clashes along cease-fire lines Wednesday. "The government is determined to set in motion a military plan to take Beirut ... unless an agreement to dislodge the terrorists from west Beirut is reached within one to two weeks," said Israeli Cabinet minister Yitzhak Modai.

Modai, Prime Minister Menachem Begin's minister without portfolio, said the plan "takes into account house-to-house fighting."

Polish Martial Law Relaxed

WARSAW, Poland (UPI) — Poles celebrated their National Day today with news of a relaxation of martial-law regulations and hopes military rulers may order a total end to the restrictions by December. On the eve of the 38th anniversary of Poland's communist government, military chief Gen. Wojciech Jaruzelski announced the changes Wednesday in a nationally broadcast speech to Parliament. He also named a hard-line foreign minister.

Lake's Snake, Rat Problem Unresolved

First it was three long, dry summers. Then it was too much rain. Now, it's rats and snakes.

Both homeowners, whose property abuts Mud Lake, and Longwood city officials are trying to take action on the body of water that belongs to the city.

City Commissioners Monday took a step to solve possible drainage problems while residents are awaiting word from the Department of Environmental Regulations on what actions they can take to correct snake and rat infestation sparked by heavy spring and summer rains.

The commission approved an expenditure of \$28,000 Monday for the purchase of a right-of-way easement on Mud Lake of property owned by George W. Jones.

The city has been in the process of purchasing right-of-way easements should drainage of the lake be necessary in the event of a hurricane or 100-year storm. The purchase of the Jones parcel was one of the last needed by the city to complete the drainage project.

Meanwhile, a combination of dry weather in the past and now an abnormally wet summer has caused

severe rat and snake infestation problems for lake-side homeowners. And until word comes back from DER on a permit to clean out the lake, the homeowners have to sit tight.

"In the last few years the dry summers just about completely dried out the lake almost to the lake bottom," said City Clerk Donald Terry.

"It became a natural home for rat and snake nests. Now with all the rain we've had this year, the rats and snakes are getting flushed out." Homeowners in the Devonshire

Estates subdivision near the lake say the problem is so bad that rats and snakes are literally showing up on their back door steps. The homeowners have turned to the city for help and city officials have in turn taken the problem to DER. DER must approve any action that will affect bodies of water within the state.

Homeowners want to clean out the weed-infested lake in hopes of ruining the homes of the rat and snake population. But until a dredge and fill permit can be obtained from DER, that action would be illegal.

DER official Mike Zimmerman first met with residents about the problem six months ago and advised them to file for a dredge and fill permit. But the homeowners took no action on the problem at the time.

The city has since used prisoners on a work release program from the county jail to occasionally clean up areas of dead vegetation along the banks of the lake, which the DER does not see as a technical violation.

DER officials have informed the city that Longwood must apply for another dredge and fill permit. — JOE DeSANTIS

Adjustment Board OK's Project

Developer Gets OK To Split Lots, Build Homes In Longwood

By JOE DeSANTIS
Herald Staff Writer

Longwood's Board of Adjustment has approved a request by Altamonte Springs Developers to split one large lot into two smaller lots on Bistline Drive and construct homes that neighbors contended didn't meet city building codes.

But a check by board members at the Seminole County Tax Appraiser's office brought to light the proposed lot split and home construction would not only meet, but exceed building code requirements for homes along Bistline and Lyns Drive.

The decision came at a special meeting Wednesday night. The board last month tabled action on the lot split request by Dowling and Lunsford, Inc., of Altamonte Springs after neighbors whose homes on Lyns Drive abut back lots on property owned by the developers on Bistline, complained that the developers promised two years ago that they wouldn't build on back lot parcels.

The developers were requesting the lot split to construct two L-shaped homes on 87-by-300 foot parcels. Total square footage for each of the two homes would be 1,500 square feet.

Residents contended the 1,500 square foot homes would be smaller than those allowed in the area by city code requirements. But the developers contended that many of the homes already in the area were smaller than the two they planned to construct.

A check at the tax appraiser's office by board members revealed the developers' contentions were correct.

The average square footage for homes presently in the area is between 1,100 and 1,300 square feet. A few of the homes were

as small as 800 square feet.

At last month's meeting, residents told board members that the developers had assured City Attorney Marvin Rooks, who in turn assured the homeowners, that they wouldn't change anything on the lots. Rooks, however, is on vacation, thus the board, satisfied with its findings on average sized-homes in area, approved the split on the basis that the 1,500 square foot homes would, in essence, upgrade the neighborhood because of their increased size.

Batchelor Campaign Walking

Dick Batchelor, Democratic candidate for the U.S. House of Representatives from Florida's fifth district, will begin his walking door-to-door campaign in Sanford today.

Batchelor and his supporters from the area will meet at 5:15 p.m. today at Winn-Dixie parking lot at French Ave. and 25th St. and begin walking at 5:30 p.m. The canvassing of homes will end at dusk.

The streets listed in Batchelor's walking itinerary today include Lake Gem Park, Hartwell, Marshall, Chase, Lake, Cedar and Holly, according to his campaign aide, Bobbi Wise.

Batchelor will be facing incumbent U.S. Rep. Bill McCollum, R-Altamonte Springs, in the November general election.

KNIGHT, HERBERT A. — Funeral services for Herbert A. Knight, 42, of Wellington, Fla., who died Tuesday, will be 2 p.m. Friday at graveside in Evergreen Cemetery, Sanford, with Rev. Paul Murphy officiating. Brisson Funeral Home is in charge of arrangements.

Beach, Fla.; daughter, Miss Gina Knight of Gainesville; mother, Mrs. Margarette Knight of Sanford; brother, Don Knight of Sanford; sister, Mrs. Dorothy Stapleton of Sanford.

Brisson Funeral Home Sanford is in charge of arrangements.

ANGUS McINNIS
Mr. Angus McInnis, former pastor of the First Presbyterian Church, Sanford, during the 1950s died Wednesday at Charlotte, N.C.

AREA DEATHS

MR. HERBERT A. KNIGHT

Mr. Herbert A. Knight, 42, Wellington, Florida, died Tuesday at Wellington following a long illness.

Mr. Knight was the brother of prominent Sanford businessman Don Knight, owner of Knight's Shoe Store in downtown Sanford.

Mr. Knight was born June 14, 1940 in Sanford. He was owner and manager of the Yacht Basin.

Survivors: wife, Mrs. Sherry Knight of Wellington; son, Todd Knight, Deerfield

EVELYN POTASCH

Mrs. Evelyn Potasch, 61, of 103A Georgetown Drive, Casselberry, died Wednesday at Florida Hospital-Orlando.

Mrs. Potasch was born Jan. 11, 1921, in Warren, R.I., and moved to Casselberry from Bay Harbor in 1976. She was a homemaker and Jewish. Mrs. Potasch was secretary of New York Hadassah, founder of Alden Terrace Jewish Center, Long Island, N.Y., and a member of O.R.T., Orlando.

Survivors: husband, Bernard; daughters, Mrs. Phyllis Holt, Bloomington, Ill., Miss Lois, Orlando; sister, Mrs. Claire Silver, Merrick, N.Y.; brother, Isadore Phillips, Br 1, N.Y.

Baldwin-Fairchild Funeral Home of Orlando is in charge of arrangements.

PRE-ARRANGEMENTS

The funeral serves a wide range of purposes, with religious, psychological and physical significances. There are many aspects and details to the meaningful funeral that are arranged with the assistance of the professional funeral director, usually at the time of need. However, some people prefer counseling prior to need.

We offer complete information on pre-arrangements and pre-financing, available without cost or obligation of any kind. Feel free to contact us at your convenience.

No Cheese Comeback Stuns Bellamy, Sanford

By SAM COOK
Herald Sports Editor

After the offensive display Reggie "Cheese" Bellamy put on Wednesday night against Ormond Beach, it didn't figure the Sanford Americans' season would end with Bellamy standing helplessly on the mound as the winning run trotted across.

Truth, as it is often pointed out, is often stranger than fiction and there was no stranger—and more heartbreaking to the Americans—ending than what transpired at the District 4 Little Major Tournament at Fort Mellon Park in Sanford.

The Americans, on the strength of a two-run homer by Jason Heffington, took a 9-4 lead into the bottom of the sixth inning against scrappy Ormond Beach.

Bellamy, the stopper all year for manager Lawrence Hawkins, was summoned to secure the final three outs and a position opposite the Sanford Nationals tonight at 7.

Eight hitters, two balks, three walks, two wild pitches and two errors later, however, it was over. Bellamy tossed ball four to Kenny Burdi with the bases loaded and one out to force in Tyler Phillips with the winning run in a wild 10-9 victory for Ormond Beach.

"Heart attack city again," was all Ormond manager Pete Frazier could say after the game. "When I saw him (Bellamy) coming into pitch, I knew we had to get the guys fired up some way."

That way turned out to be patient. Bellamy's wildness and some shoddy fielding supplied the rest as Ormond snatched victory from the jaws of defeat.

"It was just one of those things," said disappointed American coach Ronnie Sippio after the game. "I think we might have gotten overconfident in the top of the sixth when we got that lead."

"But we still felt 'Cheese' would get us out alive."

Baseball

The sixth-inning mound troubles overshadowed an outstanding offensive show by the tall 12-year-old. Bellamy ripped a line-drive solo homer in the first inning, then crushed a three-run shot in the third to hand the Americans a 4-2 lead.

In the fourth the lead jumped to 5-2 when Tommy Mitchell scored on a dropped fly. Ormond, though, got out of further damage when it strategically walked Bellamy to load the bases and Beto Moreno lined out to shortstop.

In the bottom of the inning, the Volusia County team picked up two more runs to pull within, 5-4, off starter John Shuler. Two passed balls and a sacrifice fly on a dropped fly ball created the runs.

Sanford, nevertheless, struck for two more in the fifth. Bernard Mitchell was plunked by a pitch and Von Eric Small rapped a single. Shuler fanned for the third time, but Tommy Mitchell roped a single to left to score Mitchell and Small tallied when the catcher threw the ball away.

It was Ormond's turn again in the bottom of the frame. Shawn Madden singled and came around on three passed balls by Small. Phillips walked and eventually scored on a ground ball to shortstop by Jay Lendway.

In the eventual sixth, Heffington, who clubbed 10 round-trippers during the regular season, picked on a pitch up in his eyes and slammed it out of the park to score Bellamy ahead of him.

With the count, 9-6 Sanford, "Cheese" appeared ready to finish with a flourish and conclude his exceptional—up to now—evening with three outs.

"I guess it just wasn't meant to be," Sippio would judge later.

No truer words were spoken. Ormond Beach must now beat the

Sanford Nationals twice for a trip to Tallahassee and the state tournament. A victory tonight for manager Gylvestor "Slick" Franklin Jr.'s club gives them the berth.

Herald Photo by Brian LaPera

Sammy Edwards, Sanford American second baseman, leans back from an inside pitch during Wednesday's game against Ormond Beach. Ormond rallied for four runs in the last inning to

stun the Americans, 10-9. Ormond plays the Sanford Nationals tonight at 7. A Sanford victory earns the Nationals a trip to state. A loss forces another game on Friday.

Extra-Inning Loss Upsets Juniors, 8-6

By CHRIS FISTER
Herald Sports Writer

ORMOND BEACH — Bryan Debose and Donald Grayson undoubtedly would have savored a victory a lot more than the free spaghetti dinners they received.

Both Debose and Grayson were given the dinners for hitting home runs, but the Sanford Junior League All-Stars found it hard to digest its 8-6 eight-inning loss to Ormond Beach Wednesday night in the opening round of the District Tournament at Ormond Beach.

Sanford trailed 5-2 going into the bottom of the sixth inning when Debose led off with an opposite field homer to make it 5-3. And, in the bottom of the seventh with two outs and Alvin Jones on first, Grayson drove the first pitch some 360 feet over the center field fence to tie the score and send it into extra frames.

Ormond Beach came back for three unearned runs in the top of the eighth to sew up the win. Dewaine Mitchell went

the distance for Sanford and allowed only four hits while striking out 11. But, the Junior All-Stars struggled in the field at times as Ormond Beach had only two earned runs.

Sanford will try to rebound tonight at 6 against New Smyrna Beach in Ormond Beach. New Smyrna Beach was the victim of a 14-1 drubbing at the hands of Port Orange in Wednesday's first game.

Sanford out-hit Ormond Beach seven to four but stranded eight base runners in scoring position.

Ormond picked up an unearned run in the top of the first. With one out, Byron Byers drew a walk and advanced to second on a fielder's choice. Byers went to third on a passed ball and scored when Ken Connell struck out but the third strike eluded Sanford catcher Mike Wright.

Sanford took a 2-1 lead in the second behind key base running and a clutch hit. Debose drew a walk, stole second and

Baseball

advanced to third when Grayson was thrown out at the plate on David Rape's grounder in short. Debose scored on a wild pitch while Rape stole second and scored on Wright's booming double to the left field fence.

A two-run double by Connell capped off a three-run third inning for Ormond Beach. Sanford had a chance to get out of the inning without giving up a run but a two-out error opened the door for Ormond Beach.

Sanford stranded a runner at second in the third inning, runners on second and third in the fourth, a runner at third in the fifth, a runner at second in the sixth, a runner at third in the seventh and a runner at second in the eighth. The Juniors had plenty of opportunities but ran into a score of bad luck on both offense and defense.

Buck Toth turned in a gutsy pitching

performance for Ormond Beach. He was the third pitcher for Ormond and hurled the last six frames. Toth gave up four runs on five hits, and two homers, but he settled down to get out of numerous jams on his way to the mound victory.

At Ormond Beach
6 p.m. Sanford Juniors vs. New Smyrna Beach
8 p.m. Port Orange vs. Ormond Beach
At Seminole Baseball Complex (Winter Springs)
7 p.m. Sanford (Seminole) Broncos vs. Semoran Broncos (best 2-out-of-3 for District championship)
At Eustis
7:30 p.m. Altamonte Seniors vs. West Oak Ridge (best 2-out-of-3 series)

Hasty Bo Jack Too Fast For Derby Field

By BENTON WOOD
Herald Part-Mutuels Writer

The only thing that George Wells promised was that son David's Hasty Bo Jack wouldn't quit.

True to Wells' word, Hasty Bo Jack not only never quit, but he came from behind for a length and a half victory over Robert Mendheim's Little Ruler to capture the \$10,000 1/8 Mile Super Seminole Derby in front of 2,828 fans on Saturday night July 17.

"He's my kind of greyhound," George Wells said. "Everytime you know he's gonna give a 100 percent. He's just like his father. (G.E.'s) Dewin Devil gave one hundred percent everytime he went to the track."

Going into the final, Hasty Bo Jack's 79 points matched him with D.O. Williams' Dominie as the point leaders. Jack had three firsts, four seconds and a third in eight qualifying starts including two consecutive victories heading into the championship.

However, the 79 points didn't help either hound out of the box in the Derby final with Hasty Bo Jack breaking

Dog Racing

seventh and Dominie coming out in dead last.

Instead, Mendheim's Little Ruler swiped the lead from the one hole.

"I'd rather have had her draw an outside box," Mendheim proclaimed before the race, "because if she breaks, she crosses over and cuts off the whole field."

And although Little Ruler grabbed the early lead, Skeen kennel's Mountain Halo had little problem clearing right behind her from the eight hole. But while it seemed to be a two dog race from that point, Hasty Bo Jack was still lurking in the background.

"The draw didn't help him any," David Wells said of his March '80 dog who was in the four hole between fast breaking Lou Lola (Hal Gill Kennel) and betting favorite George Nordt (Dick Andrews). "But if he clears second or third he has a good shot."

Yet Hasty Bo Jack rounded the first turn seventh. He quickly moved inside

and by the time he was at the scoreboard he had climbed to fourth.

He caught a fading Lou Lola at the far turn and was right behind Little Ruler and Mountain Halo as they made the turn for the stretch run. Jack crossed the wire at 39.44, less than two tenths of a second behind the fastest three eight mile at Seminole this year, a length and a half ahead of Little Ruler and two and a half over Mountain Halo.

The winner paid \$17.40 to win, 5.40 to place and 4.40 to show.

"Before the race I thought he was the best dog in the final, and I still think so now," George Wells said after the victory. "He had to run 'em all down. They had no excuse."

The other finalists were Florlando's Nephew Havoc, who was tied with Andrews' George Nordt with four stake qualifying wins, and Mads Hopper Jack, Andrews' second entry who holds the Seminole marathon record.

Hasty Bo Jack is trained by veteran Greyhound specialist Bob Fraher of Longwood.

Altamonte Hosts District

American League baseball District Tournament action opens at Lyman High School in Longwood Friday with four teams competing in a double-elimination format.

The winner will advance to the state tournament on Aug. 14 at Ft. Pierce. Altamonte Springs Post 183, 10-1, has to be considered the favorite. Manager Bob McCullough's crew has speed, power, good defense and solid pitching.

Altamonte takes on Apopka Friday at 8:30 p.m. Boone and Winter Park open the tournament at 5:30 p.m. The two winners meet at 8:30 Saturday night while the two losers play at 5:30. Action continues with a 7:30 game Sunday night and a 7:30 game Monday night. If necessary, a 7:30 p.m. game will also be played Tuesday.

"We're in pretty good shape," said McCullough Wednesday about his club which is dotted with players from Lyman and Lake Howell high schools. "We'll either go with (Jeff) Barefoot or (Billy) Stripp Friday."

Right-handers Kevin Brubaker and Randy Ramroth complete Altamonte's impressive pitching corps. Stripp, also a righthander, tossed a no-hitter against

BOB McCULLOUGH
...Altamonte manager

Colonial last week.

Kenny Brown, (third base), Todd Marriot (shortstop), Tom Gibbons (second base), and John Reich (first base) comprise the Altamonte infield. Brent Smartt will catch the first game and Mike "Duck" Sawyer will be the designated hitter.

Valencia-bound David Martinez roams center field and is flanked by Tom Perkins in left and smooth-swinging Doug Chiodini in right.

Admission, payable to Art Haight, is \$1 in the "House That Henley Built."

—SAM COOK

Brewers Turn On Bats, Maul Twins

United Press International

After a fight-marred game the night before, the Milwaukee Brewers Wednesday night used their bats to beat the Minnesota Twins.

Ben Oglivie had a grand slam and Don Money drove in three runs with a pair of homers to power the Brewers to a 10-4 victory.

"There was no carryover at all," insisted Milwaukee Manager Harvey Kuenn. "We had to win a ballgame. We can't afford to be playing games out there."

Moose Haas, 7-5, scattered 11 hits and struck out seven in eight innings for his third straight victory. He gave way to Rollie Fingers in the ninth.

"Three wins in a row and this is probably the best stuff I've had," Haas said.

Oglivie hit his 22nd homer of the season over the right field fence to cap a six-run fourth inning.

Money hit his first homer of the game in the third to give the Brewers their first run and added a two-run shot in the ninth.

"I haven't had a two-homer game since

American League

a long time ago," said Money, who has 12 home runs this season.

In other games, Boston and Texas split a double-header, the Rangers winning the opener, 6-3, and the Red Sox the second game, 6-1, Kansas City defeated Toronto, 9-7, Baltimore beat California, 8-7, Oakland topped Cleveland, 6-4, Chicago downed Detroit, 9-3, in 12 innings, and Seattle shaded New York, 6-5, in 12 innings.

In the National League, it was Houston 2, Chicago 1; New York 6, San Francisco 2; Pittsburgh 3, Cincinnati 2; St. Louis 8, Atlanta 0; Philadelphia 7, San Diego 1; Montreal 4 and Los Angeles 1, in 11 innings.

Rangers 6-1, Red Sox 3-6

At Boston, Mike Torrez pitched a two-hitter over eight innings and Jim Rice hit a home run to carry Boston in the second game. In the opener, Dave Hosteller and Jim Sundberg drove in two runs each as Texas snapped a seven-game losing streak.

Royals 9, Blue Jays 7

At Toronto, Willie Wilson capped a 4-for-5 performance with his ninth career inside-the-park homer, to raise his AL-leading batting average to .348 and lead the Royals and snap Toronto's six game winning streak.

Orioles 8, Angels 7

At Baltimore, Benny Ayala's two-run pinch double in the eighth lifted the

six-run 12th that carried the White Sox.

Mariners 6, Yankees 5, 12 innings
At New York, Bobby Brown scored from third base on Manny Castilla's grounder in the 12th inning to lift the Mariners. Reliever Bill Caudill was the winner.

Linescores On 8A

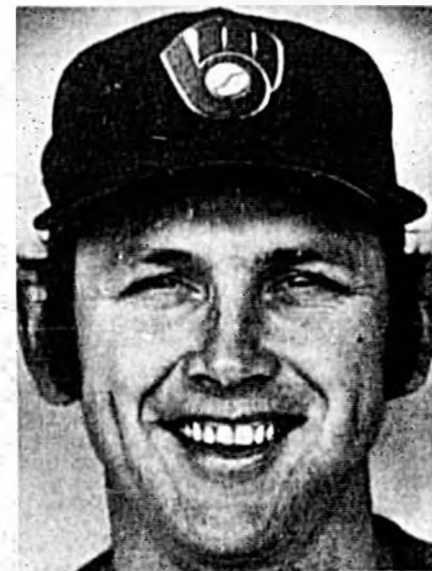

Orioles. Ayala's hit came off Doug Corbett and made a loser of Andy Hassler.

A's 6, Indians 4

At Cleveland, Dan Meyer singled home two runs to highlight a five-run fifth inning and Brian Kingman picked up his first save of the year to help the A's.

White Sox 9, Tigers 3

At Detroit, Greg Luzinski's 12th homer of the season, a solo shot, highlighted a

 New York (NL) — Activated third baseman Muble Brooks from the disabled list; sent third baseman Phil Mankowski to

But Melody Lingers On With Another Loss

McNamara's Band Plays Last Song

United Press International
 McNamara's band has played its last song for the Cincinnati Reds ... yet the melody lingers on.

John McNamara was fired as manager of the Reds early Wednesday, but his replacement, Russ Nixon, couldn't turn things around immediately and watched the Reds blow a lead and lose, 3-2, to the Pittsburgh Pirates.

"They didn't win but they sure played hard," said Nixon, who has coached for the Reds since 1976 after managing successfully in the minor leagues. "I know we got beat, but I hope you guys up in the press box saw a little different team tonight."

Willie Stargell's pinch-hit home run in the eighth inning off Tom Hume gave the Pirates a three-game sweep of the series. It was Stargell's 475th career homer over a 21-year span, tying him with Stan Musial for 14th on the all-time home-run list.

Larry McWilliams, 64, was the winner with relief help from Kent Tekulve, who retired all six batters he faced to record his 15th save and third in the past three games.

The loss was the Reds' 59th of the season, most in the National League, but some players felt Nixon could start the club in the right direction.

National League

"He's not going to be as low key as Mac," said rookie Paul Householder. "He's going to be a motivator."

"I don't think it was Mac's fault," added Ron Oester. "It's unfortunate the manager is the one who gets it. Russ will be real aggressive and he'll stress fundamentals."

Mets 6, Giants 2
 At San Francisco, Mookie Wilson had two RBI and scored two runs to pace the Mets to victory. Pete Falcone, who gave up six hits, went five innings to get the victory.

Astros 2, Cubs 1
 At Chicago, Art Howe singled home Danny Heep with the winning run in the sixth inning and Nolan Ryan, who was forced to leave the game with a hip injury in the sixth, earned his 10th victory in pacing the Astros.

Phillies 7, Padres 1
 At San Diego, Mike Schmidt, Bob Dernier and Bo Diaz each homered and Dick Ruthven scattered eight hits in leading the Phillies.

Expos 4, Dodgers 1
 At Los Angeles, Tim Wallach doubled home three runs in the 11th inning to give the Expos a victory.

Cardinals 8, Braves 0
 ST. LOUIS (UPI) — Keith Hernandez, George Hendrick and Darrell Porter are supposed to form the heart of the St. Louis Cardinals batting order.

Lately that heart has been a little weak and its beat a little irregular. The doctor, however, is prescribing medicine to improve the condition and the prognosis is good for a complete recovery.

"All of them are trying to do it by themselves," said the doctor, Manager Whitey Herzog. "They've been trying to hit six-run homers — and nobody's ever done that."

Herzog's medicine paid dividends Wednesday night as the trio — the third, fourth and fifth-place hitters in the lineup — combined for six hits and seven RBI to lead the Cardinals to an 8-0 romp over the Atlanta Braves.

"For us to be a successful team we have to get RBI production from those spots," Hernandez said. "I've been pressing a little bit and I just told myself to relax and do what I was capable of doing."

Hernandez had a double and single and two RBI; Hendrick drove in three runs with a triple and single and Porter, the section of the heart that has been the most in need of attention, contributed a pair of doubles and two RBI.

JOHN McNAMARA ... song over

The beneficiary of the attack was Steve Mura, who pitched a five-hitter for his first shutout of the season and second of his career.

"It was a very positive thing that happened here tonight," said Hernandez. "The speedsters are supposed to get on base and we're supposed to drive them in."

"When you're not playing up to par, it bothers you. It's been a disappointing year for me. It's been one of my most inconsistent years and there's really no reason for it."

Going into the game, Hernandez was hitting .281 with four homers and 52 RBI. Hendrick was at .268 with 14 homers and 57 RBI. Porter followed at .231 with five homers and 26 RBI.

CANCER BENEFIT

Irene Brown, president of the Seminole County Unit, American Cancer Society, and "Duke" Adamson, crusade chairman for the Seminole Unit, are putting their heads together to finalize plans for a dinner party to benefit the Seminole Unit. Dolly and Anthony Paparella of Longwood are the volunteers in charge of the dinner and dance on July 31 at the Knights of Columbus, 1527 Cornelia Ave., Orlando. The hospitality hour, featuring a cash bar, is from 6:30 to 7:30 p.m. Dinner begins at 7:30 followed by dancing until 11 p.m. Donations are \$30 a couple through Mrs. Brown, Adamson or by calling the American Cancer Society in Sanford, 322-0849, from 10 a.m. to 3 p.m.

Wedding Gift Ethics Puzzle Unwed Parents

DEAR ABBY: Last month I had a baby girl. The baby's father and I are not married, but we have lived together for over a year. Many people sent us baby gifts, but one couple — friends of my parents — sent us a wedding gift as well as a baby gift!

I don't think we should keep the wedding gift, but would the couple be offended if we returned it? I can, of course, understand why they would assume that we are married, but we aren't and don't have any plans to be.

What would be the proper way to deal with this wedding gift for a wedding that never happened?

ONE PRESENT TOO MANY
DEAR ONE: The couple would probably be more surprised than offended were you to return their wedding gift. However, since they are friends of your parents, and obviously don't know very much about you, ask your parents how to deal with it.

DEAR ABBY: I am desperate. After five months of marriage, my wonderful

Dear Abby

wife (I'll call her Jane) has left me. Our marriage got off to a very bad start when I lost my temper on our honeymoon and struck her. I didn't beat her up or anything, I just hit her a couple of times in the face. She wanted to leave me then and there, but I promised never to lay a hand on her again if she would give me another chance. She agreed and tried to get me to go for counseling, but I thought I could handle it alone.

Well, everything was fine until three weeks ago when I lost my temper again and hit her. This time she went home to her mother and I haven't heard from her since. When I call, Jane's mother refuses to let me talk to her. I've gone to the house, but I am not allowed to see Jane. This woke me up, so I went to the

pastor who married us for counseling.

Abby, I love Jane and she loves me, but her mother is keeping us apart. I feel certain we could work things out between us if I could just see her. Jane's mother says all Jane wants is out of this marriage. You've got to help me! I want my wife back. Please tell me how I can prove to Jane and her mother that I have learned my lesson.

LEARNED MY LESSON
DEAR LEARNED: Stick with your counseling. Your only hope will be for your pastor to plead your case with Jane when he believes you've really learned your lesson. You can't expect Jane to turn the other cheek. She has only two, you know.

Do you have questions about sex, love, drugs and the pain of growing up? Get Abby's new booklet: "What Every Teen-Ager Ought to Know." Send \$2 and a long, stamped (37 cents), self-addressed envelope to: Abby, Teen Booklet, P.O. Box 38923, Hollywood, Calif. 90038.

'Cocktail Hour' Aids Children's Hospital

On Aug. 11, all ABC Cocktail Lounges in Florida will hold their annual "Cocktail Hour" from 8:00 p.m. until 7:00 p.m. for the benefit of St. Jude Children's Research Hospital.

During the benefit "Cocktail Hour" ABC Lounges will lock their cash registers and monies collected for cocktails will be placed directly into St. Jude Hospital canisters.

All cocktails will be sold for the same charge as usual, however, customers can donate additional money for each cocktail if they wish.

ABC Lounges will donate 100 percent of the merchandise, supplies and their time for the event to increase the hope of children stricken with cancer and other catastrophic diseases.

St. Jude Children's Research Hospital, the largest childhood cancer research center in America was founded in 1962 by entertainer Danny Thomas. Located in Memphis, Tenn., the hospital conducts world leading research and treatment of cancer and other catastrophic childhood diseases.

More than 7,000 children from 43 states and 29 foreign countries have been admitted to St. Jude and no child has ever been turned away because of inability to pay. Even transportation, food and lodging are provided whenever needed.

St. Jude Hospital is supported mainly by volunteer contributions and many varied special events such as the "ABC Cocktail Hour."

SBT Summer Term

Openings for the second half of the summer term at the School of Southern Ballet Theatre are now available, offering classes in ballet, modern, jazz and pointe with special evening programs for adults and creative movement for five and six year olds.

Classes are structured for beginners through professionals. The summer term will run thru Aug. 21. Class size is limited. Call now for placement. Contact Roy Peterson at Southern Ballet Theatre 894-0133.

An Understanding About Your Pills

ATLANTA (UPI) — There ought to be a firm understanding between doctors and their patients about how many and what kinds of pills the patient is taking, says Dr. Neil Shulman, an Emory University medical researcher.

Shulman is a firm believer in "pill counts" or surveys of drugs taken by patients.

He bases his belief on findings from the recently-completed Hypertension Detection and Followup Program which involved the treatment of 10,940 people with high blood pressure in 14 U.S. communities.

Shulman was Emory director of the program in Atlanta, which involved an inner-city community.

In a survey of data from the program, Shulman found that patients who brought their pill bottles into clinics for inspection were more likely to have their blood pressure under control than were those who did not.

"One of the best indicators of whether a patient was taking his medicine or not was to ask him to bring his pill bottle back to us and if he did he generally had his blood pressure under control."

Another finding was that people with higher educations tended to comply better in taking their medication than did less well-educated individuals.

"We found that patients with less than a seventh-grade education had a 74.7 percent compliance rate in taking more than 80 percent of their pills, while people above college level scored 89.7 percent in compliance," Shulman said.

"I think every physician should ask their patients to bring their pill bottles back with them, and every patient should do this when they go to the doctor," said Shulman.

"This is crucial because lots of times the patient thinks he is doing everything right and the doctor thinks so, too, and they are talking about two completely different things."

"The doctor can say, are you taking your so-and-so medicine and the patient says, yes, yes, yes. But herein may lie a lot of problems."

"Has the pharmacist given him the right prescription? Is it generic or is it a brand name? Are the directions right on the prescription? Did the physician make a mistake in writing the prescription? Did the pharmacist make a mistake? Does the patient understand what he's taking? All of these are factors in good medical care."

Shulman also said there were interactions between drugs. "Many times a patient has a problem and the doctor has tried to work it out, but the patient is taking another drug that another doctor gave him. And that drug is interacting with this one and the present doctor doesn't even know he's taking it."

NOTICE OF A PUBLIC HEARING TO CONSIDER THE ADOPTION OF AN ORDINANCE BY THE CITY OF SANFORD, FLORIDA.

Notice is hereby given that a Public Hearing will be held at the Commission Room in the City Hall in the City of Sanford, Florida, at 7:00 o'clock P.M. on July 26, 1982, to consider the adoption of an ordinance by the City of Sanford, Florida, as follows:

ORDINANCE NO. 1045
AN ORDINANCE OF THE CITY OF SANFORD, FLORIDA, TO ANNEX WITHIN THE CORPORATE AREA OF THE CITY OF SANFORD, FLORIDA, UPON ADOPTION OF SAID ORDINANCE, A PORTION OF THAT CERTAIN PROPERTY LYING BETWEEN WEST 26TH STREET AND WEST 27TH STREET AND BETWEEN ELM AVENUE AND OAK AVENUE; SAID PROPERTY BEING SITUATED IN SEMINOLE COUNTY, FLORIDA, IN ACCORDANCE WITH THE VOLUNTARY ANNEXATION PROVISIONS OF SECTION 171.04, FLORIDA STATUTES, PROVIDING FOR SEVERABILITY, CONFLICTS, AND EFFECTIVE DATE.

WHEREAS, there has been filed with the City Clerk of the City of Sanford, Florida, petitions containing the name of the property owner in the area described hereinafter requesting annexation to the corporate area of the City of Sanford, Florida, and requesting to be included therein; and

WHEREAS, the Property Appraiser of Seminole County, Florida, having certified that there is one property owner in the area to be annexed; and that said property owner has signed the Petition for annexation; and

WHEREAS, it has been determined that the property described hereinafter is reasonably compact and contiguous to the corporate area of the City of Sanford, Florida, and it has further been determined that the annexation of said property will not result in the creation of an enclave; and

WHEREAS, the City of Sanford, Florida, is in a position to provide municipal services to the property described herein, and the City Commission of the City of Sanford, Florida, deems it in the best interest of the City to accept said petition and to annex said property;

NOW, THEREFORE, BE IT ENACTED BY THE PEOPLE OF THE CITY OF SANFORD, FLORIDA:

SECTION 1: That the following described property situated in Seminole County, Florida, be and the same is hereby annexed to and made a part of the City of Sanford, Florida, pursuant to the voluntary annexation provisions of Section 171.04, Florida Statutes, to-wit:

Block 4 of AFG Vegetable Tract, Plat Book 7, Page 14, Lot 25, Block B, of M.M. Smith's Second Subdivision, Plat Book 1, Page 101; Lot 26 (Less the West 100 feet), Block B, M.M. Smith's Second Subdivision, Plat Book 1, Page 101;

Block 58 (Less the North 328 & 347, 349, 371, and 372 FRANK L. WOODRUFF'S SUBDIVISION, as recorded in Plat Book 3, Page 44, of the Public Records of Seminole County, Florida.

The above described property is further described as a portion of that certain property lying between West 26th Street and West 27th Street and between Elm Avenue and Oak Avenue; Seminole County, Florida.

SECTION 2: That upon this ordinance becoming effective the property owner and any resident on the property described herein shall be entitled to all the rights and privileges and immunities as are from time to time granted to residents and property owners of the City of Sanford, Florida, and as are further provided in Chapter 171, Florida Statutes, and shall further be subject to the responsibilities of residence or ownership as may from time to time be determined by the governing authority of the City of Sanford, Florida, and the provisions of said Chapter 171, Florida Statutes.

SECTION 3: If any section or portion of a section of this ordinance proves to be invalid, unlawful, or unconstitutional, it shall not be held to invalidate or impair the validity, force, or effect of any section or part of this ordinance.

SECTION 4: That all ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

SECTION 5: That this ordinance shall become effective immediately upon its passage and adoption.

A copy shall be available at the Office of the City Clerk for all persons desiring to examine the same.

All parties in interest and citizens shall have an opportunity to be heard at said hearing.

By order of the City Commission of the City of Sanford, Florida.

NOTICE OF A PUBLIC HEARING TO CONSIDER THE ADOPTION OF AN ORDINANCE BY THE CITY OF SANFORD, FLORIDA.

Notice is hereby given that a Public Hearing will be held at the Commission Room in the City Hall in the City of Sanford, Florida, at 7:00 o'clock P.M. on July 26, 1982, to consider the adoption of an ordinance by the City of Sanford, Florida, as follows:

ORDINANCE NO. 1046
AN ORDINANCE OF THE CITY OF SANFORD, FLORIDA, TO ANNEX WITHIN THE CORPORATE AREA OF THE CITY OF SANFORD, FLORIDA, UPON ADOPTION OF SAID ORDINANCE, A PORTION OF THAT CERTAIN PROPERTY LYING BETWEEN BEVIER ROAD AND AIRPORT BOULEVARD AND BETWEEN THE SEABOARD COAST LINE RAILROAD RIGHT OF WAY AND TRUMAN BOULEVARD EXTENDED WESTERLY; SAID PROPERTY BEING SITUATED IN SEMINOLE COUNTY, FLORIDA, IN ACCORDANCE WITH THE VOLUNTARY ANNEXATION PROVISIONS OF SECTION 171.04, FLORIDA STATUTES, PROVIDING FOR SEVERABILITY, CONFLICTS, AND EFFECTIVE DATE.

WHEREAS, there has been filed with the City Clerk of the City of Sanford, Florida, petitions containing the name of the property owner in the area described hereinafter requesting annexation to the corporate area of the City of Sanford, Florida, and requesting to be included therein; and

WHEREAS, the Property Appraiser of Seminole County, Florida, having certified that there is one property owner in the area to be annexed; and that said property owner has signed the Petition for annexation; and

WHEREAS, it has been determined that the property described hereinafter is reasonably compact and contiguous to the corporate area of the City of Sanford, Florida, and it has further been determined that the annexation of said property will not result in the creation of an enclave; and

WHEREAS, the City of Sanford, Florida, is in a position to provide municipal services to the property described herein, and the City Commission of the City of Sanford, Florida, deems it in the best interest of the City to accept said petition and to annex said property;

WHEREAS, the Property Appraiser of Seminole County, Florida, having certified that there is one property owner in the area to be annexed; and that said property owner has signed the Petition for annexation; and

WHEREAS, it has been determined that the property described hereinafter is reasonably compact and contiguous to the corporate area of the City of Sanford, Florida, and it has further been determined that the annexation of said property will not result in the creation of an enclave; and

WHEREAS, the City of Sanford, Florida, is in a position to provide municipal services to the property described herein, and the City Commission of the City of Sanford, Florida, deems it in the best interest of the City to accept said petition and to annex said property;

WHEREAS, the Property Appraiser of Seminole County, Florida, having certified that there is one property owner in the area to be annexed; and that said property owner has signed the Petition for annexation; and

WHEREAS, it has been determined that the property described hereinafter is reasonably compact and contiguous to the corporate area of the City of Sanford, Florida, and it has further been determined that the annexation of said property will not result in the creation of an enclave; and

WHEREAS, the City of Sanford, Florida, is in a position to provide municipal services to the property described herein, and the City Commission of the City of Sanford, Florida, deems it in the best interest of the City to accept said petition and to annex said property;

WHEREAS, the Property Appraiser of Seminole County, Florida, having certified that there is one property owner in the area to be annexed; and that said property owner has signed the Petition for annexation; and

WHEREAS, it has been determined that the property described hereinafter is reasonably compact and contiguous to the corporate area of the City of Sanford, Florida, and it has further been determined that the annexation of said property will not result in the creation of an enclave; and

WHEREAS, the City of Sanford, Florida, is in a position to provide municipal services to the property described herein, and the City Commission of the City of Sanford, Florida, deems it in the best interest of the City to accept said petition and to annex said property;

NOTICE OF A PUBLIC HEARING TO CONSIDER THE ADOPTION OF AN ORDINANCE BY THE CITY OF SANFORD, FLORIDA.

Notice is hereby given that a Public Hearing will be held at the Commission Room in the City Hall in the City of Sanford, Florida, at 7:00 o'clock P.M. on July 26, 1982, to consider the adoption of an ordinance by the City of Sanford, Florida, as follows:

ORDINANCE NO. 1046
AN ORDINANCE OF THE CITY OF SANFORD, FLORIDA, TO ANNEX WITHIN THE CORPORATE AREA OF THE CITY OF SANFORD, FLORIDA, UPON ADOPTION OF SAID ORDINANCE, A PORTION OF THAT CERTAIN PROPERTY LYING BETWEEN BEVIER ROAD AND AIRPORT BOULEVARD AND BETWEEN THE SEABOARD COAST LINE RAILROAD RIGHT OF WAY AND TRUMAN BOULEVARD EXTENDED WESTERLY; SAID PROPERTY BEING SITUATED IN SEMINOLE COUNTY, FLORIDA, IN ACCORDANCE WITH THE VOLUNTARY ANNEXATION PROVISIONS OF SECTION 171.04, FLORIDA STATUTES, PROVIDING FOR SEVERABILITY, CONFLICTS, AND EFFECTIVE DATE.

WHEREAS, there has been filed with the City Clerk of the City of Sanford, Florida, petitions containing the name of the property owner in the area described hereinafter requesting annexation to the corporate area of the City of Sanford, Florida, and requesting to be included therein; and

WHEREAS, the Property Appraiser of Seminole County, Florida, having certified that there is one property owner in the area to be annexed; and that said property owner has signed the Petition for annexation; and

WHEREAS, it has been determined that the property described hereinafter is reasonably compact and contiguous to the corporate area of the City of Sanford, Florida, and it has further been determined that the annexation of said property will not result in the creation of an enclave; and

WHEREAS, the City of Sanford, Florida, is in a position to provide municipal services to the property described herein, and the City Commission of the City of Sanford, Florida, deems it in the best interest of the City to accept said petition and to annex said property;

WHEREAS, the Property Appraiser of Seminole County, Florida, having certified that there is one property owner in the area to be annexed; and that said property owner has signed the Petition for annexation; and

WHEREAS, it has been determined that the property described hereinafter is reasonably compact and contiguous to the corporate area of the City of Sanford, Florida, and it has further been determined that the annexation of said property will not result in the creation of an enclave; and

WHEREAS, the City of Sanford, Florida, is in a position to provide municipal services to the property described herein, and the City Commission of the City of Sanford, Florida, deems it in the best interest of the City to accept said petition and to annex said property;

SECTION 1: That the following described property situated in Seminole County, Florida, be and the same is hereby annexed to and made a part of the City of Sanford, Florida, pursuant to the voluntary annexation provisions of Section 171.04, Florida Statutes, to-wit:

Block B of AFG Vegetable Tract, Plat Book 7, Page 14, Lot 25, Block B, of M.M. Smith's Second Subdivision, Plat Book 1, Page 101; Lot 26 (Less the West 100 feet), Block B, M.M. Smith's Second Subdivision, Plat Book 1, Page 101;

Block 58 (Less the North 328 & 347, 349, 371, and 372 FRANK L. WOODRUFF'S SUBDIVISION, as recorded in Plat Book 3, Page 44, of the Public Records of Seminole County, Florida.

The above described property is further described as a portion of that certain property lying between West 26th Street and West 27th Street and between Elm Avenue and Oak Avenue; Seminole County, Florida.

SECTION 2: That upon this ordinance becoming effective the property owner and any resident on the property described herein shall be entitled to all the rights and privileges and immunities as are from time to time granted to residents and property owners of the City of Sanford, Florida, and as are further provided in Chapter 171, Florida Statutes, and shall further be subject to the responsibilities of residence or ownership as may from time to time be determined by the governing authority of the City of Sanford, Florida, and the provisions of said Chapter 171, Florida Statutes.

SECTION 3: If any section or portion of a section of this ordinance proves to be invalid, unlawful, or unconstitutional, it shall not be held to invalidate or impair the validity, force, or effect of any section or part of this ordinance.

SECTION 4: That all ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.

SECTION 5: That this ordinance shall become effective immediately upon its passage and adoption.

A copy shall be available at the Office of the City Clerk for all persons desiring to examine the same.

All parties in interest and citizens shall have an opportunity to be heard at said hearing.

By order of the City Commission of the City of Sanford, Florida.
H.N. Tamm, Jr.,
City Clerk

ANSWER TO PREVIOUS PUZZLE

(NEWSPAPER ENTERPRISE ASSN.)

HOROSCOPE

By BERNICE BEDE OSOL

For Friday, July 23, 1982

YOUR BIRTHDAY

July 23, 1982

Don't discount any bright ideas you get this coming year for new inventions, methods or products. There may be broad uses for that which you conceive.

LEO (July 23-Aug. 22) You continue to be in a rather fortunate cycle for things which could spell personal gain. Without being greedy or selfish, focus on ways to add to your resources. Find out more of what lies ahead for you for each season following your birthday by sending for your copy of Astro-Graph, Mail #1 for each to Astro-Graph, Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth date.

VIRGO (Aug. 23-Sept. 22) You're likely to come out better today with things which you originate or initiate than you will in taking the ideas of others and trying to build upon them.

LIBRA (Sept. 23-Oct. 23) Stay in control of things today, but strive to do so without calling too much attention to yourself. You function best as the power behind the throne.

SCORPIO (Oct. 24-Nov. 22) Unusual conditions could prove to be beneficial for you today. Be alert for a unique opportunity that may enable you to fulfill a secret ambition.

SAGITTARIUS (Nov. 23-Dec. 21) This should be a day of achievement for you, but your route to success might not follow the course which you originally laid out for yourself.

CANCER (June 21-July 22) Don't delay or postpone situations today which could be of benefit financially. In fact, doubling your efforts should afford success before tonight.

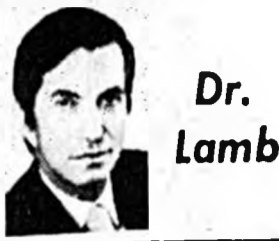

GARFIELD

ANNIE

Constipation: Diet Often The Offender

Dr. Lamb

DEAR DR. LAMB — I am 58 years old and very active. I have a problem with my bowels becoming sluggish all the time. I can hardly keep them functioning without taking laxatives or enemas. How could I get them working regularly again? I take quite a few vitamins, could that be the cause for constipation? I would really appreciate your help.

DEAR READER — There are many causes for constipation. One of the most frequent is the diet. If you eat food that contains less bulk you will have less undigested food residue and less frequent elimination or your movements will be smaller.

The small intestine is from 10 to 23 feet long and the colon is about five feet long. Good studies show that individuals who eat diets that contain less refined foods and more bulky foods have a shorter transient time through the intestines.

As people get older they frequently eat less food. That automatically means less bulk. You might review your diet and add foods that provide bulk, which includes whole wheat products and perhaps some bran. Don't neglect apples which do provide a different type of bulk and are helpful for some.

Medicines often increase constipation problems. That includes medicines to eliminate water from the body and to lower blood pressure.

Habits are important as well. If you train the bowel to respond to regular signals it will contract and the trained flex will stimulate normal, fairly regular movements. Laxatives and enemas are not a good substitute for proper bowel training.

Anxiety and tension can cause constipation. So can a disruption of your normal living patterns, as on a trip. It is not necessary to have a bowel movement every day. That mistaken idea has led to a lot of excessive use of laxative products. There are many myths about constipation.

To give you more details I

am sending you The Health Letter number 164, Spastic Colon, Irregularity and Constipation. Others who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, N.Y. 10019.

DEAR DR. LAMB — My 35-year-old husband has been bothered with bursitis of his left shoulder for about 10 years. Our family doctor said he has calcium deposits in his shoulder. He has taken cortisone shots but they don't relieve the pain except for a month or two. Now the bursitis has gone into his left elbow and left shoulder blade. He is beginning to have pain in his right shoulder too. Our doctors say there is nothing more to do other than the cortisone shots.

We are afraid of too many shots and they don't help much. Is there any type of operation that will help? Or is there other medicine that might be used?

DEAR READER — Bursitis is hard to treat in chronic cases. It is an inflammation of the bursa sacs that cushion the joint structures and tendons. A tendon is often involved (tendonitis).

The pain is caused by phagocytizing the calcium crystals that form in the bursa. Steroid shots help in acute cases; in chronic recurrent cases they are less helpful. Surgery is rarely indicated. Your best alternative is to use one of the nonsteroidal anti-inflammatory medicines such as indomethacin or phenylbutazone. Both are more effective than aspirin. Heat and gentle motion and, in some cases, rest are all important management tools.

how North could make it. However, this pair got to five clubs.

The defense started with two rounds of spades. South ruffed, led a high club and a club to dummy's queen. Then came a low heart with the successful finesse of the queen.

Now South cashed his last two trumps to discard a heart and a spade from dummy.

South was now ready to try the diamonds. If they would behave perfectly he would have his 11 tricks. If they didn't, he wanted to be in dummy after three rounds. So he played the ace and king and then led to dummy's queen.

East, who had discarded a spade on the last trump, had to chuck another one to retain protection for his king of hearts.

The hand was down to a three-card ending and all South had to do was to decide that East was holding two hearts and one high spade. Then he led dummy's last spade.

East had to win and lead away from his king of hearts to give South his club game. (NEWSPAPER ENTERPRISE ASSN.)

By Oswald Jacoby and Alan Sontag

We don't know how today's hand should be bid. Maybe North and South should get to four hearts. If they did we could produce a pretty good article to show
