Norwood-Reid Battle At Armory Draws Eyes Of Fight Customers Tonight

Tonight's attraction at the armory is expected to draw one of the largest crowds in Sanford since history when Willie Norwood, popular lightweight, goes into the ring against Jimmy Reid, Tampa fighter, in the main go of a scheduled evening card that looks to be one of the best the promoters have pushed across in a number of weeks. Norwood and Reid, both at a weight of 130 pounds, are to attempt to dodge punches for 10 rounds.

Reid holds decisions over the prime bluffer of local fistdom, "Kid" Crosby, who was also in the way of Norwood's punches on several occasions before he decided to leave for another school. A decision over Ted Sloan is much to Reid's credit and for this reason it looks as though Willie was in for some heavy fatigue duty this evening.

Willie just naturally can't let anybody chase him around the ring and as Reid is said to have an aversion to running away, the customers at the weekly show are looking forward to fast entertainment. Norwood has been trying to get that punch into such mean proportions that it will put somebody to sleep. He may have succeeded.

Reid is to get here this afternoon and the first course of the party is to be served at 8:30 o'clock when the battle royal will be dished up. Following this is to be some preliminaries and the semi-final. The semi-final is the meat course having as principals two bees, of the 145 pound variety.

Greyhound Fans Of City See Favorites Score At Longwood

The 1500 greyhound racing fans who flocked to the Sanford-Orlando Kennel Club last night saw the favorites enjoy an evening of supremacy which has not been equaled during the present meeting. Farm scores throughout and the odds tumbled with each victory.

Floridan Is Among Favorites In Miami Beach Golf Tourney

MIAMI BEACH, Fla., Feb. 2.—(INS)—On the strength of the first two days' play, two Chicagoans and a Floridan were picked as favorites in the Miami Beach amateur golf championship as they entered the second round today.

T. W. Palmer, former Florida champion, turned in a par card of 71 to defeat G. H. Atchinson of Rye, N. Y., two up.

Douglas Casey, Riverside country club, Chicago, repeated his smooth performance of the qualifying round when he beat in an either 74 and defeated Bert Jones, Chicago, one up. Ben Stevenson of the Beverly course club, Chicago, bettered his opening performance by four strokes and shot 74 to defeat Frank Springer, Illinois junior golf club, two up.

Horseshoe Tossers To Hold Annual Tourney At St. Petersburg Soon

ST. PETERSBURG, Fla., Feb. 1.—(INS)—The annual horseshoe tossers were beginning to limber up in preparation for America's winter time sport classic, the annual Baryard Golf tournament for the world's championship and prize aggregating \$1500, which is to be staged here during the week of February 14.

Topnotchers in this old-fashioned game are expected to appear from all sections of the United States, only "the cream" comes to the annual tournament because the competition is too keen to afford a mediocre contestant a chance to cop the honors.

O'Dowd Bests Peck In Ten-Round Bout

JACKSONVILLE, Fla., Feb. 2.—(INS)—Tim O'Dowd, clever local lightweight, today boasts a victory over Kid Joe Peck veteran of Rockford, Ill., who has hung up a record of 101 knock-outs in his 12 years of boxing.

Giving away four pounds in weight, O'Dowd decisively outpointed Peck here last night in 10 rounds, jabbing his way to victory with his left hand while displaying an admirable footwork in avoiding the rushes and murderous swings of Peck.

Nelson Wears Skating Crown In Abbreviated Program At Detroit

DETROIT, Feb. 2.—(INS)—Henry Nelson, of Chicago, is unofficially wearing his first major skating crown and Elise Muller, of New York City is the new women's champion today as a result of the abbreviated program of national outdoor skating races held here.

MIAMI, Fla., Feb. 2.—(INS)—Forrest Reed, 21, business school student, is dead and police are scouring the city today in search of his two companions following an attempted holdup of H. L. Hall at his grocery store last night.

WASHINGTON LETTER

By RODNEY DUTCHER

Washington—It may be, as Senators Bruce and Washworth say, that very few senators can be prevailed upon to refuse a drink. But, if so, it must be said for the others that they can carry their liquor.

And not many of them can be prevailed upon to offer a fellow a drink.

An intoxicated senator is a very rare specimen for one's butterfly net. There are people who claim to have seen this inspiring sight, but there has been no obvious exhibition on the Senate floor during this session of Congress or, for that matter, even on the streets.

One cannot speak with such authority for members of the House, for they are harder to keep track of. A congressman is likely to look like almost anyone and it's hard to pick him out in a crowd.

Although your correspondent has made no searches through hip-pockets, desks or drawers, it seems likely the common theory that every wet senator and nearly every dry senator either packs a flask or has a bottle tucked away in his office is rather a fallacy.

None of them has ever pulled out such a tap-root of evil in this correspondent's presence and it is still a puzzling problem. Just how strongly one must hint in order to effect such a phenomenon. Apparently one almost needs a club. A senator can stand and talk to a thirsty newspaperman with a breath that is very powerful and still neglect the first principles of hospitality.

Of course, one congressman promised always to have a drink available in his office and another to have his secretary bring a bottle back from New York after the holidays, but neither has ever produced and one of these day these perfidious deceivers may find themselves publicly exposed.

RED PEPPER HEAT QUICKEST RELIEF FOR RHEUMATISM

Red Pepper Rub takes the "ouch" from sore, stiff, aching joints. It cannot hurt you and it certainly stops that old rheumatism torture at once.

Albatross, Rarely Ever Seen In State; Killed Recently At West Palm Beach

PALM BEACH, Fla., Feb. 1.—A strong visitor came here the other day—and today "it" is dead. An albatross, rarely seen here in these waters, appeared at Rainbow Pier, in an exhausted condition, and a few hours later it died despite heroic efforts to save its life. The bird will be stuffed and carefully preserved. Sailors consider it ill luck to throw away the feathers of these rare birds. They regard the albatross as omens.

"The Ancient Mariner," whose ghost is supposed to follow the bird, has not yet been seen, although some have enjoyed a thrill of superstition, wondering if the gray old man will go missing through Palm Beach streets.

It is believed the British hurricane blew the bird out of its way at sea and that it came to tropical waters for refuge. A flock of South American butterflies swarmed the island here after the Vera Cruz hurricane last fall, and scientists testify that birds and butterflies may be blown hundreds of miles on the wings of a high wind.

The albatross fell into the hands of Charles Smith, a life guard and he tended it carefully, hoping to prolong its life. The bird measured more than six feet from tip to tip of its wings and—perhaps due to its exhausted condition—was very thin, a peculiar characteristic of the species.

The last bird of this kind seen here came in from the sea ahead of the storm in the winter of 1886 when seales were seen in Flagler Park and citrus trees, killed by severe weather had to be replanted. Superstitious sailors blamed the storm on the fact that the albatross was killed.

CHANGES IN RED ARMY ARE MADE BY WAR COUNCIL

Soviets Prepare For Their Conflict With Poles Which They Believe Will Break Out Sometime This Spring

By H. R. ANKLEBUCKER
International News-Service Staff Correspondent

MOSCOW, Russian capital, under the stress of reports of a new Soviet offensive against Poland which many Soviet politicians predict will break out in the Spring, the Revolutionary War Council has directed a series of changes and innovations in the Red Army with the purpose of improving its efficiency.

Measures decreed range from reorganization of the reserve to adoption of new uniforms for officers.

Consistent with the announcement that an extra hundred million rubles would be assigned to the army this year, a decree was issued ordering all men between the ages of twenty-four and thirty-four to register with military service boards.

This order contained considerable provisions along the lines in operation had already registered in previous years. It was declared, however, that the re-registration was necessary in order to carry out the plan for a reorganization of the reserves.

New Regulations

At the same time were announced new regulations aiming at the reorganization of a large body of non-commissioned officers. All graduates of high schools will hereafter be allowed to leave the army after one year's training provided they take the necessary courses for non-coms. In the recently established schools for non-commissioned officers.

It was also decreed that all power men volunteering for the army before being conscripted will be given the privilege of choosing what branch of service they wish to serve in, and when possible the privilege of serving in the branch where they live. This latter privilege is also to be extended to graduates of high schools.

The new uniforms for officers present a striking departure from the previous policy of keeping officers and non-coms as nearly as possible upon the same level in the matter of clothing as well as of social distinction. Officers hereafter will wear blue uniforms while the non-coms will continue to wear khaki.

Commanders of all branches of the army will wear blue uniforms.

Former Head Of Rollins College To Write History Of Orange County

Henry M. Fitch, through the courtesy of the publishers of the Sanford-Star and the Morning Sentinel, I shall have access to the files of these newspapers.

I am anxious to make this history accurate, as full as the necessary limits of space will permit, and interesting—a worthy tribute to this fine county, which has been my home for more than a quarter of a century, and to the men and women who have made it, and are making it, what it is, a stimulus to civic pride and patriotism, and a part of our education which they will cherish all time.

I need not say that I shall write as a historian, not as an advertiser, a promoter, a "booster." There are all legitimate and unobjectionable subjects of endeavor, but they have nothing to do with the writing of history. I shall try to tell the story of the founding and the development of Orange county simply and comparatively its territory, its population, its civil and political institutions, its industries, its commercial expansion, its roads and streets and railways, its churches, schools, clubs, newspaper press, and so forth.

Turpentine Yield In Florida Brings In Over 19 Million

By JOSEPH L. LAUBE
International News Service Staff Correspondent

TALLAHASSEE, Fla., Feb. 2.—Florida's production of turpentine and resin brought into the state approximately \$19,000,000 last year, according to the United States Department of Agriculture, a report issued here today.

In 1926, Florida's output of turpentine was 172,000 barrels, and of resin, 377,000 barrels. There are 429 turpentine distillation plants representing an investment of \$25,000,000, or a total of 35,000,000 gallons of turpentine capacity, and a total of \$11,000,000. Florida has been in the lead in turpentine production for fifteen years following the virtual extinction of the industry in the other States.

"Some Florida turpentine is used in rural areas production, it has just about lost its own as far as the dollar value of the business is concerned," Harry Lee Baker, assistant forest inspector of the United States Department of Agriculture, says in a paper prepared for the Florida Forestry Association.

"This is due to the rise in price of turpentine and resin. Production dropped from 1,422,000 barrels of turpentine and resin in 1908, the peak year, to 750,000 barrels in 1925, a decrease of 47.3 per cent. The downward trend may be attributed in part to the increased cost of labor and to other commonly recognized influences. But the ever-increasing number of living pine trees from which the crude gum can be obtained is recognized as the primary factor in limiting production."

Sleep ought to be and eventually will be abolished, according to one of science's new precepts. Maybe the radio is having something to do with it.

Two Road Construction Companies Draw Fire From State Department

TALLAHASSEE, Fla., Feb. 2.—(INS)—The Noon-Lawrence Construction Company and the J. B. McHenry Engineering Corporation of Atlanta have drawn fire from the Florida State Road Department for alleged failure to comply with specifications in road contracts recently awarded them.

Noon-Lawrence's contract was for state road project 14 on road 1 in Marion county from Tallahassee to a point 12 miles east and J. B. McHenry Engineering Corporation's contract called for paving in project 47 on road 4, north of St. Augustine.

The Road Department wanted the contract in question to be let to the Noon-Lawrence Company on a basis of a price higher than that contained in the bids offered by other competitors.

Up to date we have seen no evidence of any activity in the setting up of any equipment and the placing of materials on the ground for the starting of the work. The department declared in a letter to the Noon-Lawrence firm.

"Failure to get on the job and begin work within the time limit set by the department," said, "in awarding you the contract at a higher price and will, furthermore, work a financial hardship on your company. We would advise you not to let this warning go unheeded," the letter concludes.

Similar warning was given the Atlanta firm, which has practically completed 9,000 yards of grading but has not poured any concrete called for in their contract, according to the road department.

Large Shark Caught By Two Tampa Men

TAMPA, Fla., Feb. 2.—(INS)—George E. Cook and E. V. Ains were telling their friends today all about it and how they did it.

They caught a shark, eight and a half feet long and weighing 185 pounds, in the bay off Pine Point.

The big fish gave them a hard fight, but they held on and landed the "young man" ragged for nearly two hours.

"Finally, however, the shark's resistance became feeble and they landed him with a line.

"This isn't any large fish story, either," they chorused.

MIAMI, Fla., Feb. 2.—(INS)—After making 2,500 miles to Miami in search of an eagle he feared had been lost in the hurricane, John Kowder, 26, is somewhere on the water today nearing his native Canada, making the return trip at the expense of the United States government.

Tomorrow's Trend Just as the first Chrysler initiated today's vogue

ROYAL SEDAN \$1595 F. O. B. DETROIT

In the light of past Chrysler achievements it is easy to appreciate the full significance of the finer Chrysler "70".

It is easy to understand how its distinctive style and smartness forecast a fresh vogue in motoring.

Three years ago the first Chrysler with its previously unknown measures of performance, and a host of refinements and improvements new to the industry at its price, created a new school of design, which others promptly emulated.

And now, this finer "70" with its more exquisitely graceful bodies, its greater luxury, its smaller wheels and its more attractive color blendings—and its new low prices—further widens the gap between itself and the conventional and commonplace.

Joined to Chrysler's characteristic speed and

pick-up, unvarying dependability and enduring long life, proved by hundreds of thousands of owners, this new eye-compelling beauty and alluring luxury and comfort, leave today's trend as far behind as the original Chrysler "70" advanced beyond the styles of three years ago.

distinctive, different

Those terms have sometimes become hackneyed and meaningless as applied to real estate which had nothing to justify their use, but as applied to Highland Park, they are of vital significance and indicate the many things which render this development really distinct and different from any other in Sanford, and set it apart in a class by itself.

The name, Highland Park, expresses two of the main features which make it different from all others, for it is indeed Sanford's highlands, water flowing from it in all directions, north, south, east and west, and instead of the conventional checker board street lay out of the ordinary town lot subdivision, its entire surface is landscaped as a park, and within its borders are three areas devoted exclusively to park purposes, all of them actually under development, and one of them

RAINBOW GARDEN AND POOL on Colonial Way, near French Avenue, has been nearly completed at a cost of several thousand dollars. All around this garden has been set a hedge of Hibiscus and Alamanda. Flame Vines have been planted at the feet of the trees growing inside and on the building lots surrounding. An Azelea garden has been planted. Cannas have been set in a five foot bed around one side of the circle. Sweet Peas and Nasturtiums are growing around the other half of the circle. Yellow Jasmine Vines are growing by the rustic summer house. A fountain springs from an imitation Calla Lilly in the center of the beautiful pool, and all over the water's surface are now blooming white and yellow flowers. Tropical Lillies, white, purple, red, pink, blue and yellow have been planted in the pool. A water sprinkler system is installed all over the area, and the plants alone which have been set in and around this garden cost nearly \$500. They do not make much show now, but in two or three years this pool and the gardens around it will be surpassingly beautiful.

SWAN OVAL, another of the parks, just within the Main Entrance at Elm and Hughey, occupies the most commanding situation in the city for a public park. A fountain costing nearly \$2,000.00 stands at its northern end. More than 6,000 flower plants, Phlox and Petunias, have just been set around its borders, a water sprinkler system has been installed, and in a few weeks, if we have no more freezing weather, it will be among the most beautiful features of this show place of Sanford.

REVONAH PARK covering a full block at the southeastern corner of the property, bounded by Oak and Franklin on the east and south, and Revonah Circle on the north and west, will be for the exclusive use of owners of property in Highland Park. Here will eventually be erected a club house, courts for tennis, roque and croquet, and a swimming pool, a part of the work already having been done on the latter.

MORE THAN A THOUSAND FLOWERING SHRUBS are growing in my nursery rows, and these, with palms and shade trees, will be set out along the drives all over Highland Park. This planting will not be haphazard, as must always be the case when the planting between the curb and sidewalk is left to the individual taste, or entire lack of taste or to the whim or caprice of the lot owners along the street, many of whom do not even plant at all; but will be under a single control and will follow a carefully matured design, harmonious, artistic, and as time goes by and Nature carries on her work, an environment will be created that will attract to the two hundred home sites of Highland Park a group of kindred spirits whose beautiful homes and the grounds surrounding them will reflect the ideals of beauty in which this superb development has been conceived and is being carried out.

ALL OF THESE THINGS made Highland Park distinctive, different and in a class by itself, but there are others.

IT IS CLOSE IN, being exactly midway between the northern and southern city limits, and with Sanford growing at its present rate, sure to be right in the center of the built up part of the city very soon.

IT IS FAR REMOVED FROM THE SMOKE and soot and noise and unsightliness of railroad trains. As the population of the state and county grow, the railroads running through the residential part of Sanford will become more and more objectionable. In what other city can one find fine homes built near the railroads?

IT IS AN ADVANTAGE TO HIGHLAND PARK that the new high school is only two blocks away, but it is much better that it is two blocks instead of one.

IT IS AN ADVANTAGE TO HIGHLAND PARK that its winding drives will tend to keep out heavy traffic, which will naturally follow the straight avenues surrounding it, thus tending to seclusion and to keep it apart in a class by itself.

YOU WILL NEVER FIND A BETTER TIME TO BUILD. MATERIAL IS CHEAPER THAN AT ANY TIME SINCE THE WAR.

Some of the main items of construction are actually selling for less than cost to manufacture, due to the necessity of unloading large accumulations of stock. Framing lumber, for instance, can be bought today for much less than half prices prevailing six or eight months ago.

THERE HAS BEEN A DECLINE IN LABOR COSTS OF NEARLY ONE-THIRD when both rate per day and efficiency are taken into account.

YOU CAN BUY A BUILDING SITE AT A PRICE THAT WOULD HAVE BEEN IMPOSSIBLE A YEAR AGO and can arrange for terms of payment that would not have been considered then, when everybody was looking for "good buys" and half the owners did not want to sell.

If you can pay all cash for your building site, I will make prices that will astonish you. If you can go ahead with building now if you had your lot paid for, but can not finance at once the house and lot, I will take a second mortgage for a part or even all of the price of the lot, but these concessions both as to price and terms are only temporary and will be withdrawn as soon as I have eight or ten high class homes under way. Right now is your time "to get in on the ground floor."

And do not overlook the fact that with the opening up of spring many skilled mechanics are likely to return north, and thus send the price of skilled labor up again.

I have many books of building plans, containing hundreds of illustrations with floor plans and estimated costs. Come in and see me and let us talk it over, or telephone me and I will go to see you.

The Morning Watch: O Lord, in the morning shalt thou hear my voice...

When the coming hours again A thousand days...

Arthur Brisbane, world's foremost editorial writer, commented last night in his column in 'The Herald'...

Everyone knows that at least an operation has a weakening effect upon the patient and the leucocytes are put to a strain far greater than in resisting germs...

That was the trouble with Rudolph Valentino. He was a consistent drinker. Though apparently strong and in good health...

Two Democratic Parties: NEW YORK HERALD-TRIUNE

Mr. McAdoo's Toledo speech is more important in its political than its legal aspects.

The grandeur of Chicago's famous city, Peter Palmer is suffering from sleeping sickness in Paris.

H. P. Smith, Palm Beach banker, somewhat incidentally known, went on trial yesterday on charges of violating state banking laws.

The murderer had been sentenced to die in the electric chair; a woman nearly saved his life.

Fernand Lake, who is now serving his thirteenth term as mayor of Sanford, is one of the ablest men in his section of Florida.

Mr. McAdoo recalls Thomas Jefferson's famous dicta about the impossibility of anything good coming out of the voting people.

Vaccination

It is a peculiar thing how prejudices based on old-fashioned notions persist in spite of everything that scientists, publicists and speakers can do to controvert them.

Nowadays this seldom, if ever happens. The progress of science while being such as to make vaccination the only safe means of avoiding small pox, makes it attended by very little inconvenience and discomfort to the patient.

It is most fortunate that this is the case. There is in Florida a law compelling quarantine, but it is terribly inadequate.

Though the fact has again and again been brought out and proved that small pox in tropical climates is not serious and nowhere nearly as virulent as that found in colder states.

As Brisbane Sees It

Congratulate Detroit. A Flying Office. Roubin Has Money. Twin Automobiles.

ENTERPRISE American communities will be glad to bear that Detroit is still growing. More than 1,700,000 people live in the metropolitan area.

CALIFORNIA, determined to be the flying machine state, will have competition from Detroit. Business men are only making but use flying machines.

AMERICAN BUSINESS men with their heads to sell will be glad to know that Russia is in the market with cash to buy for things.

THE CROP of young people produced by a population of 118,000,000, will keep calling for new cars as it reaches the license age.

THE LATEST IDEA in buying cars is the "twin motor" plan. "One car to a family" is old-fashioned.

UNLIKE HORSES, automobiles do not eat when not working. The "twin car" idea will spread, especially in suburbs and country where the garage problem is simple.

MERCHANTS know that business is trending toward bigger and bigger units, and will be interested in the consolidation of two important department stores in Detroit.

MISS MARGARET HARDY HONORED AT BRIDGE PARTY ON WEDNESDAY

Miss Margaret Hardy of Savannah, Ga., the attractive house guest of Mrs. William Jennings Hardy, was the charming honor guest Wednesday afternoon when Mrs. Hardy entertained most delightfully at bridge at the Country Club.

The spacious lounge where the card tables had been spread for play was abloom with quantities of deep red roses, arranged in silver baskets and bowls. Red candles burned in silver candlesticks, and the Valentine ideas were carried out in every detail.

Receiving the guests upon arrival were Mrs. Hardy and the great of honor, Tally card, dressed in a smart frock of French beige, edged with gold. Her flowers were a shoulder bouquet of lilies of the valley and violets.

Mrs. Stewart Dutton Hostess At Delightful Party On Wednesday

Mrs. Stewart Dutton was a gracious hostess Wednesday evening when she entertained the members of her bridge club and one extra table of players at her home in Highland Park, honoring her house guest Mrs. Ger on Brantley, of Daytona Beach.

Sweet peas in the pastel shades combined with asparagus ferns were used in profusion in the rooms where the guests assembled for play. The color scheme of pink, lavender and mauve was carried out in every detail.

Decorations for the interesting card game were kept on tallies done in large yellow daisies. The prize for top score among the club members, an embroidered guest towel, was won by Mrs. C. W. Stouffville. For having held high score among the guests, Miss Frances Dutton was given a lovely louvered pillow. Mrs. Dutton presented her guest of honor with a delightful guest towel as memento of the occasion.

2 Charming Visitors Are Honored At Party Given on Wednesday

A pretty compliment to Mrs. Robt. Collyer of Jacksonville, the guest of Mrs. George A. De Groat, and Mrs. Harry Boyer, of Minneapolis, Minn., the guest of Mrs. Harry D. Law, was the bridge luncheon given Monday by Mrs. De Groat at her lovely home on Park Avenue.

In the spacious living room, quantities of fragrant white narcissus and red roses were used with pleasing effect, carrying out the scheme of the Valentine season. In the dining room the pastel tulle predominated, and were carried out with sweet peas and pink candles in silver holders tied with pastel tulle.

Well-laid calendars were artistically used in the salarium with its hangings of orange and black.

Luncheon was served at small tables spread with exquisite hand-made covers and centered with silver baskets filled with sweet peas. The place cards were painted Dutch girls.

Nellie Turner Circle Meets On Wednesday With Mrs. A. L. Kelly

The Nellie Turner Circle was pleasantly entertained Wednesday afternoon at the home of Mrs. A. L. Kelly in Oak Hill.

Quantities of cut flowers and ferns were used in decorating, together with Valentine suggestions. Centering the dining table was a large white basket studded with red berries. Attached to the handle was a large clip. This was arranged to receive the "show" gifts brought by the members.

In the absence of the club chairman, the business session was presided over by Mrs. L. B. Hrag, the vice-chairman.

Social Part Woman's Club Meeting Proves To Be Very Delightful

The social side of the business meeting yesterday of the Woman's Club was beautifully taken care of by Mrs. A. Douglas, the gracious president, with her business committee, Mrs. L. P. Hagan, Mrs. R. H. Berg, Mrs. J. T. Newby, and Mrs. Fred Williams.

All guests were cordially welcomed on arrival, and after the program with Mrs. Williams presiding at a beautifully appointed tea table, dainty refreshments were served during the social hour which has become a pleasant

Mrs. D. L. Thrasher Entertains At Bridge And Luncheon Today

Entertaining in her usual charming manner, Mrs. David L. Thrasher was hostess at luncheon and bridge on Thursday at her home on Park Avenue. The guests were members of the Duplicate Luncheon Club.

Silver baskets and bowls filled with red sweet peas and candy tuffs adorned the living and dining rooms. The dining tables were laid with an exquisite lace luncheon set, centered with a large low silver bowl of red sweet peas and baby breath. At either side were silver candle sticks holding red Cathedral candles. Scattered on the table were butterflies. The unique nut cups were girls' heads, the salt-hats being concealed in the large bouquets. Marking the place of the
