Seminole Memorial Hospital Has Ingredients To Make It Success

The flowers were lovely; the young woman in the hospital bed paid an hour's attention during the visiting hour. She admired them collectively and separately—the azaleas and the cyclamen, begonias, chrysanthemums, and other very beautiful flowers.

But often the patient's gaze would turn to something else, something that a casual visitor might not have given a second glance. This was a piece of paper with a crude pencil drawing on it, fastened near the bed with a bit of tape.

The drawing was an eight-year-old's view of the hospital, complete with autos parked outside. An arrow pointed to a window labeled "Mom's Room". The drawing was signed—rather shakily, but legibly enough—"Love, John."

The flowers were indeed lovely. The patient looked at them often as she talked. But there was something special in her gaze as it returned to the wobbly drawing with its message of love and devotion more radiant than the flowers.

"And here we've been talking about our

big fine building—the special care—the modern facilities. A wonderful addition to our city and county. While all the time there was something even bigger . . . and greater . . . and lovelier than we could imagine—the love of a son for his mother—the mother's love for her son.

But don't you think that there was a faith in the youngster's heart—knowing that his mother was secure, well cared for, yes, even better than ever before—in that big new hospital.

It takes much of all of those ingredients—faith, love, devotion, beauty, and strength—to make our hospital successful.

We believe that all of them exist at Seminole Memorial Hospital.

Florida Vacation

Two Youngstown, Ohio, aluminum plants suspended operations for a week this January while their entire force of employees—president, clerks, executives and janitors—flew to Florida on a week's all-expense-paid vacation. Furthermore, employees were paid their regular wages while they were sunning at the company's expense.

The jaunt, part of the firms' employee welfare program, was conceived by the four brothers who own the two firms, because they wanted to provide their employees with an unusual treat.

It's possible to be cynical about the idea, to contend that the firms were arranging a handsome tax deduction for themselves or something of that sort. The fact is, though, that the employees of the Calx Corporation and of the Campbell Sash Works received a pleasure which few of them would have provided for themselves.

It is somewhat hackneyed to say that this could have happened only in the United States. But it's true. While few firms fly their firms to Florida on expense-paid vacations, many companies today are solicitous of their workers and try without compulsion to provide them with extra services and benefits.

Too, it would be wonderful if those firms providing Florida vacations for their employees send their groups here to Sanford to enjoy Florida at its best.

About 2,500,000 people now live in mobile homes. This house trailer population is enough to make it the third largest U. S. city, ranked only by New York and Chicago.

Soap that is good enough to eat will soon be on the market. It is made of sugar. Good! That's another Florida product that will get a boost—sugar.

Something must be in the air. We're beginning to receive those survey and polls, prognostications, and dreams. The mails are full of political propaganda.

No doubt that there is something being planned for the near future.

"As the days grow longer, the cold grows stronger," said the old folks. But stronger, also, grow the thoughts of spring. It's not too early to begin planning the town clean-up.

HE'S WANTED GOLDEN

HAL BOYLE

SAM DAWSON

Uncle Sam Is Striking Gold Now

NEW YORK (AP)—Uncle Sam is striking gold these days in the canyons of New York—and it's a much richer vein than almost anyone expected even just a few weeks ago.

In their New York counting houses, the nation's big corporations are totting up their gross profits for 1955. In numerous cases the results astound even those who already knew 1955 was a remarkable year.

With the federal income tax rate on corporations rising as high as 52 per cent, the U. S. Treasury's share of these gross profits is impressive—and the total grows with each day's batch of corporate earnings reports.

U. S. Steel has just announced it has set aside 366 million dollars to pay Uncle Sam.

The other day Jersey Standard Oil estimated its net income after taxes would be a record 717 million dollars, a gain of 22.5 per

cent over 1954. A roughly similar sum will be on hand for the federal tax collector.

General Motors, yet to report, is widely expected to cross the one billion dollar net profit mark—the first such figure ever reported by an American corporation. Its tax contribution to Washington should be close to one billion dollars.

Just these three corporations alone, therefore, will be handing Uncle Sam around two-billion dollars in tax money.

That's more than the President's budget allows for spending on atomic energy. It's more than he asks for building dams and developing natural resources.

U. S. Steel's net profits increased 89 per cent over the 1954 figure. But nine other steel companies report their profits more than doubled during the year.

Your City Charter

Such liens or any of them may be enforced, at the option of the City, or the holder thereof, in lieu of any manner of enforcement elsewhere provided in this Act, in the following manner by the City or in the name of the City by the holder thereof:

(1) By suit in equity to foreclose the lien against the property on which such improvement was made, or

(2) By suit at law against the owner of the property for judgment or the amount of such lien, which judgment shall be a lien against all the property of the judgment defendant.

The option to use the method of enforcement herein provided shall in no event be construed to prevent the use of any other method of enforcement, provided elsewhere in this Act or under the general laws of the state of Florida.

Section 177. PARTIAL INVALIDITY NOT TO AFFECT REMAINDER OF ACT. If any section, or part of section, of this Act proves to be invalid or unconstitutional, the same shall not be held to invalidate or impair the validity, force or effect of any other section or part of section, unless it appears that such other section or part of section is clearly or necessarily dependent for its operation upon a section or part of section so held to be unconstitutional or invalid.

Section 178. GENERAL LAWS

OF STATE APPLICABLE WHERE NOT IN CONFLICT WITH PROVISIONS OF THIS ACT, ORDINANCE, ETC.: THIS ACT NOT LIMIT UPON POWER OF MUNICIPALITY. All General Laws of the State applicable to municipal corporations, now or which may hereafter be enacted and which are not in conflict with the provisions of this Act or with the ordinance and resolutions hereafter enacted by the City Commission shall be applicable to this City, provided, however, that nothing contained in this Act shall be construed as limiting the power of the City Commission to enact any ordinance or resolution not in conflict with the Constitution of the state or with the express provisions of this Act.

Section 179. That all laws and parts of laws in conflict herewith are hereby repealed.

Section 180. That this law shall take effect immediately upon its passage and approval by the Governor, or upon its becoming a law without such approval.

Became a law without the Governor's approval.

Filed in the office, Secretary of State, June 13, 1955. (Editor's note: This is the final section of Your City Charter. The Sanford Herald has published the entire document of the City Charter of the City of Sanford, Florida, as a public service to inform our readers of the Act which is the basic laws of the City.)

Cheerful Anniversary

We can all be excused if we failed to celebrate February third as a cheerful anniversary. It was on that date, February 3, 1918, that Wyoming became the thirty-sixth state to ratify the constitutional amendment which made a graduated tax on incomes a part of the law of the land.

The tax was denounced as socialistic and as a usurpation of individual rights. It was first proposed by President William Howard Taft and it did little to make him a popular president.

The income tax remains to plague us. No one wants to pay taxes—and when the time comes to pay them they are even more irritating. Yet we live in the freest land in the world. We enjoy the best government and the greatest amount of services. Perhaps we should not complain too loudly. Justice Oliver Wendell Holmes once said that he considered taxes the price he must pay for civilization. It is a comforting way to regard them. At present we are paying, also, with every defense dollar, to maintain our freedom.

The price of freedom is high but it is cheaper than the burden of slavery.

TODAY'S BIBLE VERSE
And this thing became a sin: for the people went to worship before the one, even unto Dan.—I Kings 12:30.

JAMES MARLOW

Doctors Seem To Be Disagreeing

WASHINGTON (AP)—President Eisenhower, if he decides soon on whether to run again, may also have to decide on which of his doctors to listen to.

They seem in disagreement now on when he can tell whether he is physically able to try for a second term. And one of the doctors is either in disagreement with himself or for some reason has changed his mind since December.

Last December Eisenhower's White House doctor and friend, Maj. Gen. Howard M. Snyder, and the President's chief medical consultant, Dr. Paul Dudley White, Boston heart specialist, told news men:

After a final physical checkup in mid-February, Eisenhower should be able to know enough

about his physical condition to decide whether to run for a second term. By mid-February Eisenhower will have been 64 months past his attack.

"It takes longer," Snyder said. "He should have more time—all the time he needs. He is not in a position yet to know whether he can go ahead and hit the ball."

At a news conference Dec. 30 Snyder was asked: "At what date will you be able to pronounce recovery? How much longer would the convalescence have to go?"

Snyder said: "Well, I think if I were in the President's berth and could analyze the situation from his viewpoint, from my knowledge as a physician, that I would not be able to make such a determination . . . for two months . . ."

He was asked: "Are you now saying that it will be at least mid-February before the President's recovery will be complete enough to determine whether he would be physically able to run for a second term?"

Snyder replied: "I would say that . . . I wouldn't do it before mid-February . . ."

On Dec. 17, seven days after the Snyder news conference, White held one and said Eisenhower's

doctors would make their crucial test in mid-February.

He said he wanted Eisenhower to resume "pretty much his full job" about Jan. 9 and "four or five weeks added on to that would be the time that we doctors would think desirable for that more or less final test."

He was asked: "Would you think your mid-February examination will determine whether or not he has made a complete recovery?"

White said: "Yes. To date he has made a good recovery. But we haven't had quite long enough time to be sure of his final adjustments."

He was asked: "Do you think you might determine the final adjustment in mid-February?"

White said: "It is quite possible."

At another news conference Jan. 30 White was asked whether Eisenhower is physically fit to withstand the rigors of a political campaign and four more White House years.

White replied: It is a "question that has to be decided when I see him again (meaning mid-February). We will give him the information. He has to make the decision himself."

Men Leary Of Woman With Razor

NEW YORK (AP)—If there is one thing the average fellow feels least in need of a woman's advice, it's probably while he's shaving.

"But he's wrong," insisted pretty Ram Schoen, who believes she is the world's only lady career pogonomist. "Most men don't really know how to shave properly—even though they do it about 16,000 times in their lifetime."

Nis Schoen, a former Paterson, N.J., grade school teacher, got into the field of pogonomy, the art of shaving, by accident.

While working temporarily as a model, she learned that executives of the Gem Safety Razor Co. were depressed over the fact so few men knew how to get a really good shave. She sold them on the idea of letting her tour the nation and give demonstrations of proper shaving techniques in high schools, colleges, offices and factories.

To prepare for her career Miss Schoen tutored for several months under Elbridge J. Casselman, a Staunton, Va., scientist. She feels Casselman is to pogonomy as Shakespeare is to literature. He's the titan of the beard world.

"He has been studying shaving scientifically for more than 25 years," she said. "A remarkable man—always clean-shaven. I don't think I ever saw him with stubble on his face."

During her demonstration Miss Schoen admits she sometimes finds it difficult to get a map to act as juncea pig while she shows off her shaving grace.

"Men seem instinctively distrustful of a woman with a razor in her hand," she said, smiling. "But so far I've been lucky. I haven't lopped off a nose or ear yet."

What mistake do most men make while shaving?

"They are too slap-dash," she said. "The hairs in their beard contain a chemical known as keratin which makes them as tough as copper wires. This must be dissolved before you can get a good close shave."

Here is her recipe for a good shave:

"First, wash the face thoroughly in soap and hot water to get rid of

A balloon-borne device that etches meteorological data on a smoked glass plate is one of the latest instruments being used in smog studies at the Los Angeles campus of the University of California.

Legal Notice

They Torqued it up for the BEST TAKE-OFF YET

First thing you need in a car, of course, is power to spark performance.

And you get that in a 1956 Buick in plenty—from big 323-cubic-inch V8 engines that hit new highs in horsepower and compression.

But the power under the hood must be carried to the rear driving wheels in the form of twisting force on the drive shaft.

That's torque—the end-product of your transmission.

And the higher the torque build-up—the greater the torque multiplication—in starting and accelerating—the better the getaway and response.

So if you want to feel take-off that leaves your breath behind you, come try a '56 Buick with Variable Pitch Dynaflow.

For in this airplane-principled transmission, Buick engineers raised the ceiling on torque to give you the best getaway yet.

They did it with something they call "double

regeneration"—a new way to make flowing oil add to its own velocity.

And when you use the full torque of a Buick beauty like the one pictured above, you're using the highest torque multiplication to be had in any standard-production American automobile today.

Come see for yourself what that means in new thrills and new safety.

You'll find brilliant new getaway response in the first inch of pedal travel—plus greater gas mileage to boot.

You'll find an electrifying new safety-surge of full-power acceleration when you floor the pedal and switch the pitch.

And you'll find this spectacular performance blended into the smoothest-traveling, the sweetest-riding, the highest-powered and the easiest-handling Buicks yet built. Drop in on us this week—today, if you can—and judge things for yourself.

*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick built today. It is standard on Roadmaster, Super and Century—optional on modern extra cost on the Special.

Best Buick yet

Limelight On Lyman

BY ALVIN WINTER
Well, we're back again with more news and views. Hope that you enjoyed reading our first column and that you will equally enjoy reading this one.

As in most other schools the most important and most discussed subject is sports. The boys' basketball team of Lyman has successfully defeated the opposing teams in the last two games. Last Friday, January 27, they beat Mount Dora with a score of 61 to 36. Ralph Farina, high scorer with 27 points, was backed up by Donald Stevens, the team's captain who played a good defensive game. Billy Lammons was second highest scorer in the Mount Dora game.

On Tuesday night, game at Umatilla (Jan. 31) almost ended in a tie. Donald Stevens assured Lyman of the tie in the last remaining seconds of the game with two free shots the last 15 seconds of playing time. The score was 63 to 61. Backing up Farina were Donald Stevens and Jimmy Hopkins who averaged 11 points each.

The boys play Kissimmee tonight. Hope that they come out on top once again.

The girls of Lyman, who were on a "winning streak", did not come out on top with Umatilla Tuesday. The team put up a good fight, however, with Joan and Lynn Joyce backing up the team by making 10 points each.

THE JUNIOR PLAY IS ON ITS WAY!
The books for the Junior Class play have been ordered and will arrive shortly. The play is entitled, "You Can't Kiss Caroline." From what I have heard, the play will be quite good and I am looking forward to seeing it. The play is about high-school life. Caroline, who has been going to a new school, is considered to be different from the rest of the girls.

The boys decide to do something about it. Plans are being made, however, and they decide that "you just can't kiss Caroline." What finally happens to Caroline remains to be seen on March 18, the opening date of the play.

It might be a more attractive school in the near future. Some of the classes, especially Miss North's eighth grade, are staging a cleanup campaign. It has gone to the extent where the students of one room are sanding the tops of their desks. I hope that the campaign will be successful. Anything to improve the school is worthwhile. I hope that in the future more campaigns such as this one will be started.

The sophomores have also started a project recently: a school paper. They do not want to dis-

Smart Ladies Make Most Of Artifice, Says Lily Dache

BY VIVIAN BROWN
AP Newsfeatures Beauty Editor
"The smart woman makes the most of artifice," says Lily Dache, famous for her chic hats, perfumes and cosmetics. She explains:

"If a woman wishes to be unforgettable, a pretty dress and hat are not enough. She must appeal to all the senses with a good perfume, and a complexion that complements her fashion scheme."

She suggests that any woman can wear any color she likes, providing she remembers to redo her complexion to harmonize with costume colors.

That even goes for brown, she says, and even gray haired women can wear it, providing they lighten their complexion color with properly blended powder.

Miss Dache touts the powder wardrobe making the complexion an accessory to fashion. It works this way: Eight tins of powder and four powder toners are packaged together so that with a miniature powder mixture serving as a wand, you can whip up your own powder to flatter your complexion in from 30 to 60 seconds.

Four powder wardrobes for eight types labeled under hair colors from blonde to dark brown, gray and white are available. The proper lipstick, rouge, mascara, eyebrow pencil, eye liner and eye shadow are listed for each type too. You look up in your instruction book under yellow for instance, then mix according to directions and put the blended powder in a storage box and label it "daytime yellow costume."

Fashion fabric color swatches are in the instruction booklets too so that an accurate color description might be noted. New instruction guide books with spring and fall colors will be made available to powder wardrobe users every year.

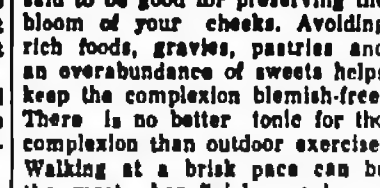

close to such information about it but I am sure it will be both interesting and humorous. Some "roving reporters" have been going around the school getting all sorts of gossip and stories. If the paper is supported by the students, it is hoped that it will become a regular feature in the Lyman School.

Lyman had an assembly today which centered around the subject of safety on the highways. Florida State Patrolman, Chuck Saunders, was a guest at the assembly. Mr. Saunders, a familiar T.V. personality, showed a movie and talked about the fine points of driving. He gave important rules to assure highway safety and answered questions that the students had. With all the new cars the kids at Lyman are getting, the assembly was very timely.

I guess that is all until next Friday, when we will be back with more news for your enjoyment. Hope that you enjoy reading this article as much as our school enjoys presenting it.

Happy Birthday

Patil Glenn Johnson

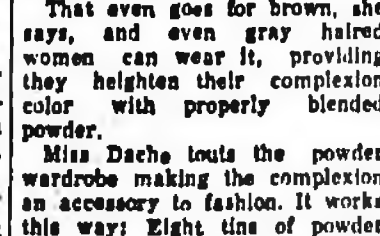

I'm in love with a wonderful gal . . .

. . . is the tune your husband will hum when you serve extra good meals for less money. Follow these tips to cut down the cost of eating and still have tempting goodness on your table:

Buy fruits and vegetables that are plentiful. They cost less and usually are in the peak of their season which means the peak of their flavor.

Add inexpensive glamour to your meals (or refreshments) such as this Valentine Appetizer.

On the day of hearts make your dinner table "sparkle plenty," have glasses filled with hot V-8 juice. Serve with a pat of butter and green glassy "stirrers." These nutritious juices are squeezed healthfully from 8 different vegetables. Keep them on hand to capture appetites at any season.

Stir-fry your leftover meats with a can (1 1/4 cups) of rich beef gravy. For example, make a double-decker hot beef sandwich with slices of leftover beef between and over pieces of toast and pour warm brown gravy over all. (A man-sized meal for the man of your home.) Check grocery ads for items at special low prices. Do this each week just before you do the week's marketing.

Use lower priced meats and fish in your menu planning. There is often a plentiful supply (such as now, when pork is so reasonable) for the different meats, fowl and fish.

Argument a "short" meal with a piping hot bowl of soup. It warms the soul and tingles all the way down to the toes and gives the eater a feeling of well being which makes him thoroughly enjoy all of his meal . . . and get up from the table humming: I'm in love with a wonderful gal.

DeLand Garden Club To Present Flower Show

The Garden Club of DeLand is presenting the "Parade of Beauty" flower show at its Florida National Guard Armory Friday, Feb. 10 from 1 p. m. until 8:30 p. m.

Beautiful artistic arrangements along with interesting commercial displays, horticultural exhibits, a food bar, background music and hostesses to answer questions will be among the things highlighted.

A wonderful book mart, and conservation table will be among the many surprises in store.

Entries for the artistic arrangements will be accepted up to and including Feb. 8.

Mr. C. E. Lee is entering this notice against his wife who has deserted him. He is not responsible for any debts incurred in the name of Mrs. C. E. Lee, Mrs. Edgar Lee, Mrs. Charles Edgar Lee or Eva L. Lee, or any obligations made by anyone other than himself. (Signed) C. E. Lee

BILL FOR DIVORCE
IN THE NAME OF THE STATE OF FLORIDA
TO: FRANCIS ROBINSON
Address and residence unknown
You are hereby required to appear in the Bill of Complaint filed herein against you in the above entitled cause on or before the 21st day of February, A. D. 1956.
The Sanford Herald, Sanford, Florida, is hereby designated as the newspaper in which this order shall be published once a week for four consecutive weeks.
The nature of this suit is a bill for divorce.
WITNESS My hand and seal of office at Sanford, Seminole County, Florida, this 21st day of January, A. D. 1956.
D. P. Herndon
Clerk Circuit Court, Seminole County, Florida.

\$450 TIP GIVEN
RAWLINS, Wyo. (AP)—A man finished eating breakfast in a Rawlins cafe, shoved a roll of bills to William Koonz and said: "Give this to the little lady who has been waiting on us."
The waitress, Mrs. Koonz, returned the money to other members of the party who had not finished eating. The only explanation they received from one of the party was: "That was my brother. He's been having his troubles."

OPERATION BIG SWITCH

for better Florida farming.
Today's big news on the farm scene is the 'big switch' to electricity to save time, reduce labor, and make bigger crops, higher profits possible. Check your farm... see where you could profitably use electricity to save time and work... for easier, better Florida farming!

for better farm living...
Back before Kaddy Kloover, the family wash added to the back-breaking chores of farm life. No more! Now electricity washes and dries clothes, even makes ironing easy with new sit-down electric irons! Go all-electric in your laundry and kitchen... remember, for these operations it's cheaper to use electricity alone than to use a combination of fuels!

VAH-5 Gets Set For Deployment

Army Will Display Big Mobile Exhibit At Fair Next Week

A giant mobile Army exhibit with a specially designed Ordnance Corps theme is being brought here from Headquarters, Third Army, Atlanta, for the Seminole Fair which begins Feb. 13. Arrangements for the exhibit were made by M. Sgt. Henry Jacobson, Station Commander of the recruiting office for this area, who said that the bus was completely outfitted by personnel of the Third Army Ordnance section.

"The overhead of the bus shows in photographs the activities of the Corps, such as the Ordnance School at Aberdeen, Md., the Ordnance Automotive School at the Atlanta Arsenal, Huntsville, Ala. Also on display are samples of work turned out by the ordnance students at the automotive school, such as gears, lathe work and milling. An interesting item to be exhibited will be a working model of an automotive oil pump in operation.

Scale models of the famous "Nike" rocket propelled surface to air missile, complete with trailer and elevated firing ramp; the "Corporal", a powerful guided 3.5 bazooka rocket will be displayed," the recruiter explained.

Threat Of Possible Blockade Raised By East Germany

BERLIN (AP)—Communist East Germany raised the threat today of a possible blockade of Western air traffic into isolated West Berlin.

The threat came from the President of the Volkskammer—Ludwig Piech—on a protest concerning "unfriendly" actions. A statement asserted the Allies would be "well advised" if they remembered that planes flying to West Berlin are traveling through the "sovereign air territory" of East Germany. Berlin is 110 miles inside East Germany.

Western political experts said it was the first time East Germany has ever referred to its air territory in such strong terms.

The President's declaration was reported by the official East German News Agency ADN.

The U. S. mission in Berlin said it would have no comment on the Volkskammer declaration. One top Western official said: "It's a veiled threat, but it's a question whether they will implement it."

F. Frazer To Visit Fleet Reserve Here

The Fleet Reserve Association, Branch 147, of NAAS, Sanford, will host F. C. Frazer, vice-president, Southeast, who will address the local branch at its regular monthly meeting to be held tomorrow night at the CPO Club at NAAS, Sanford.

Frazer is currently on a speaking tour making stops at Key West, Miami, St. Petersburg, Sanford, Gainesville, and Tampa. All members of the local Fleet Reserve Association, Branch 147 and their wives are invited to hear in view of Frazer's service organization in Sanford with over 150 members since July, 1955.

Interested retired Naval or Marine personnel are invited to this event as well as those Naval and Marine personnel on active duty with six years of service or more.

Officials of the local Fleet Reserve Association term their branch as "the greatest growing service organization in Sanford with over 150 members since July, 1955."

Unexpected Meet

An unexpected meeting has been set for the Zoning and Planning Commission of the City of Sanford for tonight at 8:30 p. m. in the commissioners room of the City Hall.

The meeting has been called to consider the rezoning of a section of Sanford area.

May of this year marks the advent of another development to Port Lyautey, French Morocco, Africa of Heavy Attack Squadron FVA and the return to Sanford of VAH-5.

To prepare for the squadron movement and subsequent detachments aboard aircraft carriers of the U. S. Sixth Fleet in the Mediterranean, pilots of VAH-5 must become qualified in landing their aircraft both night and day aboard any U. S. Navy Carrier.

Before a pilot is considered fully carrier qualified he must complete 20 day and eight night landings aboard ship. These exercises are the fleet carrier qualification operations normally conducted aboard available ships along the Atlantic Coast and Cuban waters.

A pilot new to an aircraft such as the AJ "Savage" may not attempt a carrier landing until he has undertaken many hours of practice landings. These FCLP or Field Carrier Landing Practice sessions are conducted aboard the Naval Auxiliary Air Station under the strict supervision of Squadron Landing Signal Officer, Lt. Frank Dauer.

Under Dauer's watchful eye and the guidance of his paddles, the AJ fly a pattern around the air station identical to that flown around a ship. On the final leg of the approach, Dauer determines whether the plane is high, low, fast or slow. Since the AJ, the Navy's largest operational carrier based aircraft, has only limited space to land aboard ship, each landing must be the apex of precision.

A plane flying too high will have to circle the ship; too low and he is in danger of hitting the deck ramp; excess speed multiplies errors in placing the plane on the desired spot; lack of speed can cause a plane to fall in mid-air and plunge into the water like a wounded bird. The combination of "too and slow" has ruined the reputation of many good pilots.

Before Dauer gives a pilot the go-ahead to fly aboard a flat-top, he must execute a minimum of 120 day and 48 night FCLP landings. For the night landings Dauer wears an illuminated suit and uses fluorescent paddles to guide the planes in the deck.

Beginning tonight and continuing through next week flying will be a round-the-clock operation aboard the Naval Auxiliary Air Station for night Field Carrier Landing exercises have begun for the Savage Sons of Sanford. From Feb. 23-27 the AJ's land aboard the USS Coral Sea to culminate the many day and night hours of flight at Sanford prior to crossing the Atlantic in May.

Program Released For Founder's Day Event Thursday

Mrs. J. P. Wilson, chairman of the P.T.A. Founder's Day, to be celebrated at 8 p. m. Thursday at Pinerest School, has released the following program:

Mrs. Marion St. John, president of the Seminole County Council, will preside over the assembly, with a greeting from Harry Weir, president of Pinerest P.T.A. The devotional will be given by Mrs. Grady Herman, of West Side School and Mrs. W. E. Giles of Grammar School will introduce the distinguished guests and the speaker.

Mrs. James Pierson of Oviedo will present the state P.T.A. President's message. Mrs. Roy Mann will talk on the work of P.T.A. during its 39 years of existence.

Highlight of the annual meeting will be an address by Harland C. Merriam, Professor of Education of State University, who will speak on "Today's Community, Tomorrow's World."

To add a note of informality and fellowship Miss Gene Nunally will lead the group in singing.

Sam G. Kenis, 58, Dies In Orlando Hospital Yesterday

Sam G. Kenis, 58, died in an Orlando Hospital at 9:50 yesterday morning. He was ill for about 2 1/2 months.

He was born on Nov. 13, 1897 on the Isle of Rhodes, Greece. He made his home in Sanford at 405 Willow Ave.

Mr. Kenis had lived in Sanford most of the last 44 years. He is a member of the Holy Cross Episcopal Church in Sanford.

Survivors include two daughters, Mrs. William O'Neill, Pacific Grove, Calif., and Mrs. Wallace Tyne of Sanford; two sons, Nick Kenis and George Kenis, both of Sanford, one granddaughter, Rose Marie Kenis of Sanford; and three grandsons, Billy and Timothy O'Neill of Pacific Grove, Calif., and Mark Tyne of Sanford.

Funeral services will be conducted at 4 p. m. tomorrow afternoon at Brown Funeral Home with the Rev. H. L. Zimmerman officiating. Burial will be in Oak Lawn Memorial Park.

FSU Band Starts On Annual Tour

Florida State University's Symphonic Band left the campus today in two chartered buses on its second annual State concert tour.

Accompanying the band on the tour are two members from Sanford, Dawn Bishop and Ronald Anderson.

Make up of 80 talented musicians, mostly working for professional degrees in music, the band is directed by Stanley Whitcomb.

The band will give concerts at high schools, mostly open to the public, in Ocala, Orlando, Miami and Bradenton. The only special performance on this year's tour will be Bradenton where the FSU band will stage an all-day district clinic at the Manatee High School, and then give a public concert that night at the school.

Twelve high school bands from Central Florida and South Florida are scheduled to participate in the clinic, all represented by 10 top student performers and the school band director. Both high school and FSU students will take part in demonstrations.

Program Features Marty Cameron

The Student Club, popular teenage WTRR radio program, will feature tonight Miss Marty Cameron in a reading. There will also be an interview with a member of the Latin Club on its coming Variety Show, which is an annual affair.

The usual school news, couple of the week, song of the week along with a little gospel will be heard. All teenagers are asked to tune in for a good time.

PROPOSAL TURNED DOWN
PENSACOLA (AP)—West Pensacola by a 251-151 vote yesterday turned down a proposal that it be annexed to Pensacola. Pensacola's estimated population is 37,300, and the metropolitan population is 123,300.

Man Admits Breaking, Entering Two Firms

A 32-year-old white man who gave his address as 803 West First St. has been lodged in the Seminole County Jail charged with breaking and entering to commit a misdemeanor.

Following the entering of Slime Machine Shop on West Second St., law enforcement officers followed the tracks of John Riley Shirley, an employee of the Florida Power Corporation, to his place of residence.

Sanford Police Department officers John Rumbley, W. R. Cochrane and Herman Harriett, along with Constable J. Q. "Slim" Galloway, followed footprints of Shirley from the Slime Machine Shop.

They obtained a warrant from Justice of the Peace W. Hugh Duncan for the arrest of the white man who admitted the breaking and entering of Slime Machine Shop and an earlier breaking and entering of Galloway's Service Station at 401 West First St.

Constable Galloway said that a search of the room where Shirley lived revealed all of the cigars and candy that had been taken from the filling station Feb. 3. Value of the stolen goods was placed at \$10. There were four partial boxes of cigars and three partial boxes of candy recovered from Shirley's room.

According to the report on the arrest of Shirley, he was employed by Florida Power Corporation as a member of a pole crew.

The three Sanford Police Department officers and Constable Galloway had to wait at Shirley's residence for his return from work.

7 Plats, Replats Okayed By Board Of Commissioners

Significant of the growth of Seminole County is the approving of a number of plats and replats by the Board of Seminole County Commissioners at yesterday's meeting.

Seven plats and replats were okayed and approved by the Constitutional growth of the county.

Plats approved by the commissioners yesterday included Lake Wood Shores, Pine Acres, Forest Curve Homes, Forest Hills, Lake Kathryn Shores, Mirror Lake Manor, and St. John's Village replat.

Seminole County Commissioners are presented, at each of their meetings, with plats for proposed subdivisions throughout the County.

The large number of requests for plats reflects and demonstrates to local citizens the tremendous growth here.

C. A. Ponder Dies At Home Yesterday

C. A. Ponder, 79, passed away at his home at 113 East 5th St. here in Sanford, yesterday afternoon at 3:20, after a lingering illness.

Mr. Ponder was born in Wadley, Ga., Nov. 5, 1876, and has lived in Sanford for the past 31 years.

He was a member of the First Methodist Church of Sanford.

Survivors include his widow, Mrs. Ada Ponder; one daughter, Mrs. Jesse E. Jones, Perry; one son, Julian A. Ponder, Belle Glade; six grandchildren; three great grandchildren; two sisters and one brother.

Funeral services were conducted this afternoon at 2 o'clock at the First Methodist Church with the Rev. Milton H. Wyatt officiating.

Remains will be taken to Wadley, Ga. this afternoon where graveside services will be conducted at 11 a. m. Thursday.

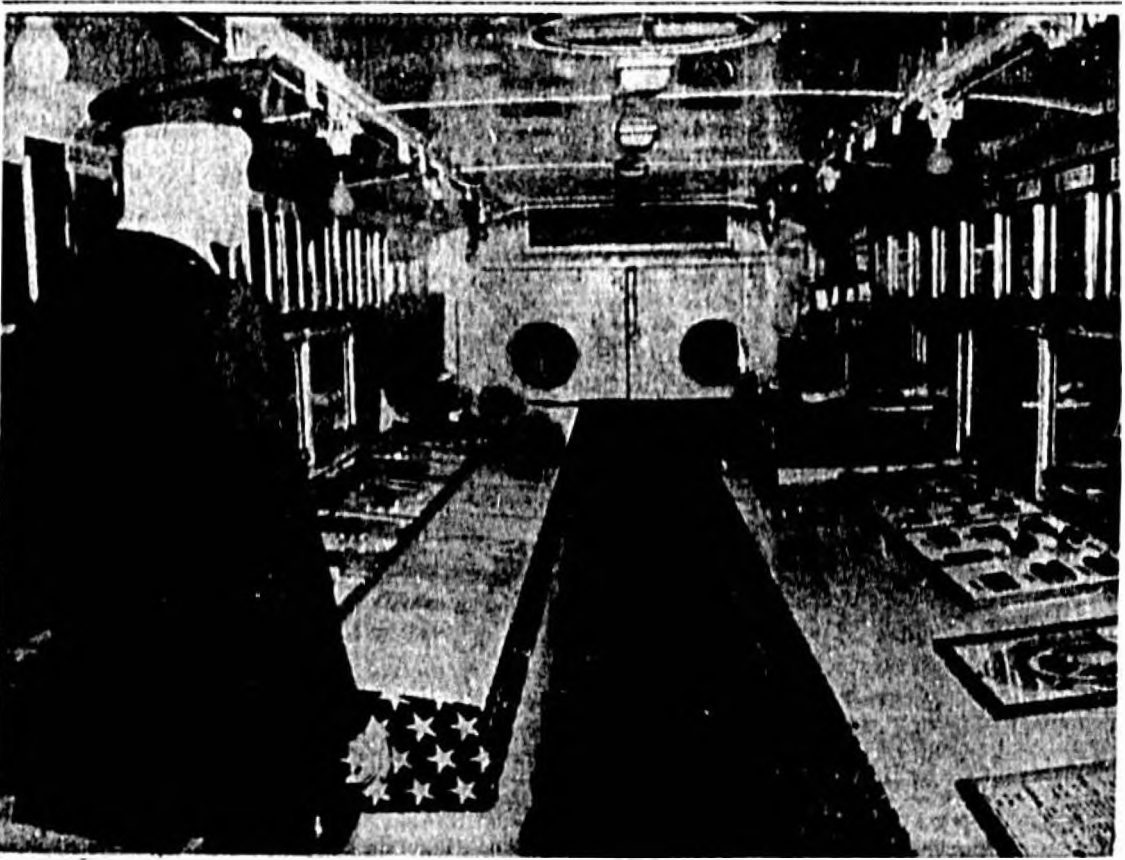

Tampa Fair Tempo Is Slowing Down

TAMPA (AP)—The tempo of the Florida State Fair slowed today after Gasparilla invasion day Monday and governor's day yesterday.

Gov. Collins toured the fair yesterday and last night he and Mrs. Collins attended the Gasparilla coronation ball and watched Frank Frankland, Tampa fair company executive, and Miss Lydia Helms, daughter of Dr. and Mrs. John S. Helms, crowned king and queen of Gasparilla.

Fair activities yesterday included judging of Hereford cattle, Santa Fe River Ranch or Alachua had the reserve champion bull.

Today also is busy second day. All accents in uniform get in free.

Voting Machines Seen As Possibility

12 States Will Be Represented Tonight In 'Band Of Hour'

Twelve states will be represented within the University of Miami's "Band of the Hour," which has scheduled a concert at the SHS Auditorium here in Sanford tonight as guest of the SHS Band at 8 p. m.

Besides a great number of former Florida high school musical stars, other states which have sent band members to Miami are Pennsylvania, New Jersey, Virginia, New York, Indiana, Texas, Georgia, North Carolina, Rhode Island, Alabama and Delaware.

Not restricting their interests to music alone the UMERS are students in the College of Arts and Sciences, and the school of business administration, education, engineering and the graduate divisions of the university.

Their annual spring tour is just one of many activities for the popular college band, which Paul Lavalle has described as one of the finest in the world on campus.

Their annual spring tour is just one of many activities for the popular college band, which Paul Lavalle has described as one of the finest in the world on campus.

Board Is Presented Proposals

The possibility of voting machines for a number of Seminole County precincts for the May 8 Democratic Primary and the November elections was revealed at the meeting yesterday of the Seminole County Board of Commissioners.

Two companies manufacturing the complicated machinery presented proposals to the commissioners yesterday. However, representative of the manufacturing concern were not present at the meeting.

Representatives of the two companies will probably attend the meeting of the commissioners on March 6 or possibly later this month to explain their proposals to the commissioners whereby the machines could be used on a loan or trial basis for the two 1956 elections.

However, the possibility of the purchase of the machines was in evidence as commissioners discussed the voting procedure and the length of time that the counting of ballots consumes during heavy elections.

Commissioner John Melich stated that he had received a number of requests from citizens that the voting machines be used in the larger precincts of the county.

It was also revealed that the Seminole County Democratic Executive Committee had requested some time back that the machines be installed in the county precincts.

Commissioners stated that the proposal for the purchase or rental of the machines had come before the Board on previous occasions but that the proposal was tabled.

The Group Voting Machine Company offered the use of five machines for the two 1956 elections on a loan basis with the agreement to lend every possible assistance in the use of the machine and in educating the public on the voting procedures and use of the machines.

Commissioners authorized Clerk O. P. Merriam to contact the representatives of two companies requesting that they be present at the next meeting to present their proposals.

Supreme Court Told Odham Had Right To Make Comment

TALLAHASSEE (AP)—The Supreme Court was told today that W. L. Odham had every right to comment unfavorably on a political poll which said he was "slipping" as a candidate for governor and that the Florida Times-Union was within its rights in quoting the comment.

The court heard an appeal by Jacksonville political pollster Joe Abraham from a Duval County Circuit Court ruling dismissing a one-million dollar libel suit he brought against Odham and the Times-Union.

No immediate decision was reached by the Supreme Court. Gerald R. Hart of Jacksonville, representing Abraham, said Odham's comment that "Joe Abraham is a phony and his poll is a phony" was malicious and was quoted by the Times-Union "for the purpose of ridiculing the deciding Joe Abraham."

Odham's comment was made during his unsuccessful 1954 campaign for the governorship.

Hart declared Odham's comment and its publication by the Times-Union caused the public to lose confidence in Abraham's poll with a resulting drop-off in returns to questionnaires on which the poll was based and subscriptions to poll results.

Hart told the court that the Times-Union had reported Odham's comment "in the ordinary course of reporting a political campaign."

\$90 Million Gain Is Shown In Report

In his annual report this week, S. Kendrick Gierney, President of the Gulf Life Insurance Co., Jacksonville, formerly of Sanford, said that there was a gain of more than 90-million dollars of insurance in force.

He particularly pointed to the fact that, "the year 1954 was a year of development and that in the one 12-month period were accomplished some of the objectives which customarily extend over a period of many years."

Gierney said, "We sought a goal of \$750 million of insurance in 1954 actually in force and in the final moments of that year the ambition was achieved with more than two millions to spare."

"Then came the information that Gulf Life Insurance Company," he said, "had been awarded more than 70-million dollars of insurance in the Federal Government's employee group plan which brought the total insurance in force at that time to \$782,900,191, a combined increase for the year of more than 90-million dollars."

Citing the fact that the federal insurance would not be particularly profitable but it is a high compliment that Gulf Life Insurance Company met the very rigid requirements for participation, and because of this participation, Gierney said, "Our field men are afforded entry to all government employees for the sale of additional insurance, a distinct advantage over competitive companies not an honored."

The Gulf Life Insurance Company has an office located in Sanford.

Report Submitted On Hobby Earnings

A supplemental report submitted to the Seminole County Board of Commissioners yesterday revealed that former Sheriff Luther Hobby earned a total of \$7,530.00 covered a period of Dec. 1, 1955 through Dec. 31, 1955.

According to the new state statutes a sheriff of Seminole County is allowed to earn up to \$9,000.

The report covering the period Dec. 1, 1955 through Dec. 31, 1955 when Sheriff Denver Cordell was appointed to the office, shows his earnings for the portion of December as \$1,331.69. According to the report, receipts of the Sheriff's office were \$4,135.45 and expenses \$2,803.46.

Auxiliary To Share In SOKC Proceeds

The Seminole Memorial Hospital Auxiliary will share in the proceeds of the Sanford-Orlando Kennel Club dog track races tomorrow night, it was revealed today.

Several civic and fraternal organizations will benefit in the proceeds tomorrow night when all net proceeds will go to charity and benefits.

Quartet To Give Concert Friday

The Melody Quartet of Knoxville, Tenn., will give a sacred concert Friday night at 7:30 at the First Baptist Church.

This quartet has had a radio ministry in Knoxville now for some years and has appeared in Sanford on several occasions. It is unique in that three of the members are in wheel chairs and have never walked. The public is cordially invited to attend.

Sportsmen Invited To District Meet

Porter Lansing, president of the Seminole County Sportmen's Association, announced today that there will be a meeting of the Fifth District, Sportmen's Association, tomorrow night at the City Hall at 8 o'clock. Russell Saxton of New Smyrna is president of the Fifth District.

Discussion will be held on making a recommendation to the Game and Fresh Water Fish Commission to set the fishing season. The subject of putting catfish on the game fish list and of protecting alligators will also be heard. All sportmen are invited to attend.

Pastor P. Stone To Resume Pulpit Duties Next Sunday

Pastor Perry L. Stone, who underwent surgery a month ago, will resume his pulpit duties Sunday at the First Christian Church. At the morning hour he will begin a series of sermons on "Figures of the Church in Ephesians", using as his first subject "The Church as the Body of Christ." At the evening hour he will preach on "Enduring Counsel for Life's Changing Circumstances" (Jas. 1:12-18), the 13th and final message in a series on "Major Ideas in the Epistle of James." During Mr. Stone's illness the pulpit was supplied by a retired minister, Rev. Lester C. Doerr, Mt. Dora, who was for many years pastor of the Cascade Christian Church, Grand Rapids, Mich.

Last Sunday, Mr. and Mrs. John Bair, Park Ave. Trailer Court, transferred their membership from Kingsville, Texas, bringing the total number of additions to the church to 40 since Aug. 21 when Mr. Stone began his ministry here.

Word was received this week that Executive Secretary Wm. T. Pearce, Board of Church Extension, of Disciples of Christ, Indianapolis, Ind., will be here Feb. 24 for a conference with the congregation on a proposed educational building.

On Tuesday afternoon 13 women of Group Two went to the County Home to present a program and non-citrus fruits for the guests there.

The church board Tuesday night appropriated \$250.00 from the missionary treasury for several causes at home and abroad.

Prisoner Leaps Off Truck Early Today

A negro prisoner leaped off a truck transporting a number of convicts from the Oviedo Work Camp in a job early this morning. The prisoner ran and at noon today had not been apprehended.

The truck was passing the vicinity of the Lake Charm Fruit Company in Oviedo at the time of the escape.

Sheriff Denver Cordell, Florida Highway Patrol Trooper T. Mark Mack, and Constable George Kelsey were all called to the scene to aid in the locating of the prisoner.

The name of the escapee had not been reported at noon today.
