Don't Have Roaches In Your Home

They crawl through sewers and drains and then over dishes and tables and scatter disease germs and a filthy poisonous odor. Don't use a paste for killing roaches for roaches travel through it trail it about your home on their wings and legs, and the least speck of phosphorous paste will kill a person. Many persons die in this way and 'tis never known what killed them. You do know that if a chicken eats an insect that has been killed with a paste, it is a dead chicken, and if a dog eats the chicken it is a dead dog, and if a buzzard eats the dog it is a dead buzzard.

Ash's Roach Pepper

Contains no poison and has no odor, and one application will rid any home of all roaches, ants, bedbugs and other insects. 25c a Box at All Druggists

A Chiel Is Among Ye Taking Notes and Faith, He'll Prent 'Em'— So Says Saunterer

A Spanish doctor is the latest inventor of concentrated food tablets. Although some concentrated tablets of this sort have been on the market for some time the Spanish physician is perfecting these tablets so that any food may be served in concentrated form. With the addition of a little water and a little heat a full meal may be served if one uses the new tablets. The only tablets heretofore that have been a success are tablets that are

compound of beef and that, when dissolved in water, form bouillon. The Spanish doctor's tablets are concentrated—vegetables, meats, soups, and sweets. By the use of five or six tablets of various kinds one may prepare a whole meal in a few minutes.

The tablets are light in weight and are being specially prepared for explorers, aviators and for automobilists who are making long cross-country runs. They are made into practical housekeeping, if they can be reduced in cost of manipulating large enough quantities.

Many of the varieties may be eaten without being altered in form, but according to their inventor, they improve in taste by the addition of water. They are a dull brown in color and are a sort of powder. This powder is compressed with great force into a solid cake, which is wrapped in oil paper and tin foil. Oiled silk will be used to protect those taken by explorers.

Some of the varieties prepared by the Spanish doctor so far are various kinds of soups; tablets, potato flavor; tablets, onion flavor; tablets, asparagus flavor; tablets, beef flavor; tablets, mutton or lamb flavor and tablets, chicken flavor. The Spaniard has great faith in his invention, and says when it is perfected the tablets will be rich in nutrition and entirely digestible.

A movement is on foot to make the American road congress an annual training school for road and street officials whereby they may increase their efficiency through attendances at lectures given by leading specialists, and by study of the government and commercial exhibits of materials and equipment. This year's session of the congress which will be held in Detroit during the week of September 29 will bring together the greatest authorities in the land on every line of road and street work and will be supplemented by the most remarkable and instructive series of exhibits ever.

It is contended that a great deal of money can be saved to states, counties and municipalities by having the road and street officials attend the American road congress at the expense of the state and local governments. The reason of this is that the officials can then see and critically examine and compare every known labor saving device and equipment for road and street work; critically examine every known road material in competition with all known road materials; study the government exhibits, which illustrate the exact methods of constructing every recognized type of road, obtain without cost practically a library of natural, state and commercial publications which will be available for distribution by the various exhibitors, hear addresses and discussion by men, whose advice, if rated at its commercial value, would cost hundreds of dollars; become personally acquainted with the men who are actually directing the building, maintenance and administration of streets and highways and obtain the benefit of personal discussion with them. The supporters of this plan of official representation call attention to the fact that in many cases private corporations, and even states, and cities, send representatives to various points in this and other countries to study a single device, method or material, and that nowhere could a greater amount of knowledge concerning the construction and maintenance of roads and streets be acquired in so short a space of time as at the road congress.

My old friend on the Lakeland Telegram, being in a reminiscent mood seems to take my thoughts at the same time

and his ideas on church going are so near akin to mine that I reproduce his excellent sermon below:

Tomorrow being Sunday when so many people will be making excuses for not going to church, the subject of church going is live matter for discussion, and why we go and why we don't go are questions which call for answers. Most of us don't go because merely we don't want to go, which is not a very intelligent reason for intelligent people to give; but the non-church goers are too tired or too indifferent to hunt up a better one and it will have to go at that. But the other question—why we go to church—offers a wider range of thought and more room for the expression of the deeper sentiments of the soul.

Many years ago out in Texas the writer of this had a little child friend, a boy of five or six years old of singular grace and charm, who had inherited in large degree the rare talents of his distinguished but erratic father. And as the child grew to boyhood he grew in strength of character and the quiet, steady light of high and serious purpose was kindled in his soul and shone in his handsome eyes. In long Saturday afternoon walks in the woods and along the shining waters of Elm the little lad poured out his mind and heart to the writer and told how he would grow up to avoid his father's mistakes and some day make his voice heard on the floor of congress.

The writer went away and never saw the boy again nor even heard of him, and the other day in an exchange we saw an article taken from Leslie's entitled, "Why He Goes to Church," and credited to Congressman Claude Weaver of Oklahoma. The name is unusual; Oklahoma is full of Texans who rushed there on the opening of the new state, and looking in the latest congressional directory where the biographies of the members are printed, we saw that the Oklahoma congressman was none other than the little Texas boy who had bared his ardent young soul to the writer years ago and had kept his promise to go to congress. And because of his sentimental association and the beauty and force of the article itself as a good reason for going to church, we herewith reproduce it:

"I go to church because I find peace there, that peace which De Quincey describes as a resting from the human labors, a Sabbath of repose, a respite gained from the secret burdens of the heart, as if I stood at a distance and aloof from the uproar of life, as if the tumult and fever and strife were suspended, as if there brooded over me a dove-like and halcyon calm.

"I go to church because I love the music that I hear there, the mighty roll of the great organ, mingled with the marvelous symphonies of that divine stringed instrument, the human voice, untwisting all the chain that genius and consecration that untie the gidden soul of harmony.

"I go to church because I delight to hear the teachings of the preacher, whose soul is dedicated to God, whose field is as white as God's universe, whose theme is the destiny of man, and whose words are the oracles of fate. Marvelous is the spell of the preacher, to whom God has given power of illustration drawn from the old, sacred, immortal book, and from the miracles of nature, no less revealed in the crimson tipped flower turned up by the plowshare of Robert Burns upon the soil of Ayr, than in the long reaches of the star girt skies."

Would it not be a good plan for the county and city to combine on the hospital, poor farm, county infirmary and

pest house and purchase fifty acres near the city where fruits and other crops could be raised to make the various institutions self supporting. The hospital could be far enough removed from the patients would not come in contact with those in the other buildings and we could have a good hospital of our own. Sanford has a fund already made up for hospital purposes but nothing has ever come of it and it does seem strange that we have to send our patients to Orlando for operations when we have as good physicians here as there are anywhere. This plan of concentrating the county and city patients on one place could be worked with the best results and Sanford and Seminole could have one of the best hospitals and infirmaries in the state. There are many good locations near this city for such an institution and the time is ripe for such a movement.

The greatest scare of all the patients seems to be the removal to Orlando of some other city, as no one cares to be separated from home and family when there is an operation to undergo and then the expense is almost doubled in transportation charges.

By all means let us have this matter taken up at once by both city and county authorities and let every one get together on the hospital idea.

AWFUL BLOW TO SEMINOLE

Colonel (?) Code Hill Will Vote In Orange County

Isn't an awful shame!

Colonel (?) Code Hill of Bear Lake (wherever that is) will not vote in Seminole, preferring to remain a citizen of Orange where he can get his whiskers cut on the public square and be somebody. How expect world will Seminole county ever in the to do business without Code and his hair. For he will have his washing done in Orange county once a year to qualify as a citizen, if the following in the Reporter-Star is true:

When the line cutting off Seminole county was run on the northwestern border of Orange, Colonel Code Hill, sage of Bear Lake, and forty-two years a resident of the county of Orange, had his residence taken into the new county by a space of about fifty feet. "Well," said Col. Hill, who is a native of Georgia, but now a thoroughly "crackerized" Floridian, "this does not mean that I am to vote in Seminole county by any means," and with a broad grin and a cunning twinkle of the eye, he related how the officials of Seminole county had promised to build a brick road from the court house to his home if he would keep his residence in the new county and not move his house back into Orange.

"I will still remain a voter in Orange county," said the Colonel, "I am sleeping in Seminole, but having my washing done in Orange, which under the law, still continues my citizenship in my old county. The washing place is at the lake, where that part of the household duties have been carried on for the past thirty years. The law says that where a man has his washing done there he is presumed to live, so on this basis I still continue to vote in Orange."

Notice

Teachers' Examination in and for Seminole county will be held at Sanford, Tuesday, Sept. 2nd. For white teachers, in the High School; and for colored teachers in Hoppers' Academy. An examination fee of one dollar each will be required. D. L. THRASHER, Supt.

President's Message On Mexican Situation

Policy of the United States and Efforts for Peace

Other News About the Happenings of the World in Tabloid Form for The Herald

President Wilson appeared before Congress yesterday in person and laid before the world the details of the United States' efforts to bring about peace in Mexico...

Harry K. Thaw reconciled with his Canadian lawyers to the procedure to be followed tomorrow when, according to present plans he will be arraigned in the superior court on a writ of habeas corpus...

Besides Great Britain, France and Japan, practically all the Central and South American countries are lending their support to the efforts of the United States to bring about a peaceful settlement of the Mexican revolution...

The power of the administration forces in the house to the criticisms of the new currency bill made by the conference of bankers at Chicago Saturday will be a tightening up of the lines and a more vigorous endorsement of the bill as it now stands...

Americans are Warned Washington, Aug. 29.—President Wilson tonight warned all Americans to leave Mexico at once. At the same time the American embassy and all consular representatives throughout the southern republics were instructed to "notify all officials, civil and military, in Mexico, that they would be held strictly responsible for harm or injury done to Americans or their property."

Sanford's third bank, the Seminole County Bank, will soon be opened. Sanford will have as many as St. Petersburg if she hustles.—St. Petersburg Times.

Fine Farm Changes Hands at Good Price

One of the Oldest Growers in Celery Delta Has Faith in Growing of Winter Vegetables

With the advent of the seed planting time in the celery delta the "growers" thoughts turn lightly to land.

There is buying and selling and trading and renting preparatory to getting the great crops of celery and lettuce going good in August and September and October.

This is the time for lands to move—this and the early spring when the fields are in vivid green and the visitors get the craze for celery raising.

L. A. Brunley purchased the Hughes farm on Celery avenue, consisting of nineteen acres and a fine concrete lagoon which gives Mr. Brunley just a crop of celery and a total of \$6000 worth of land not counting the residence.

Marlow Lovell At the residence of Mr. and Mrs. M. W. Lovell on Cypress avenue yesterday afternoon their daughter, Miss Carry Lovell, was married to Mr. J. P. D'Oize.

Miss Eugenia Flagg, leading lady in the production of "The Merchant of Venice" at the Imperial Theater on the evening of Sept. 5, 1913.

May Operate Trolley Over Seaboard Tracks

Orlando and Winter Park Will be Joined by Line

ORLANDO FOR HEADQUARTERS

Other News About the Happenings of the World in Tabloid Form for The Herald

Rumor has it that Orlando may yet have an electric line operating between this city and Winter Park before the tourist season sets in. It has been whispered that there is a possibility of the Seaboard Air Line Railway Company, taking up the proposition and operating gasoline electric cars.

Mrs. T. J. Appleyard of Tallahassee, wife of Florida's state printer, who was stricken with paralysis on her right side two weeks ago just as she entered a railroad car to return to her Florida home, was sufficiently improved to return to Florida yesterday.

The clerks of the counties of Orange and Seminole were in conference yesterday over matters pertaining to the division of affairs between the two counties.

Clerk E. A. Douglass of Seminole spent some time in the office of Clerk B. M. Robinson and together they went over a number of things that will have to do with the settlement of the business of their offices.

Frank Gets Death Sentence Atlantic City, Aug. 28.—While Leo M. Frank awaited the death sentence for the murder of Mary Phagan, his attorneys were busy preparing an appeal from the verdict returned against him late Tuesday.

It was understood that the appeal to be taken in Frank's behalf would embody in substance the motion for mistrial made by his attorneys just before Judge Roan delivered his charge to the jury.

There will be a union meeting conducted by the young people's organizations of the Presbyterian, Congregational Baptist and Methodist churches Sunday evening, Sept. 7th at 7.30, in the Congregational church.

At the Baptist Church Pleading by Dr. C. T. Douglass at the First Baptist church next Sunday.

Other News About the Happenings of the World in Tabloid Form for The Herald

That Orlando will be chosen as headquarters for the Florida Growers' and Shippers' League, which he is organizing was the opinion expressed yesterday by R. S. Hamner, secretary of the temporary organization.

The League is at this time the strongest association of the kind ever begun in Florida, said Mr. Hamner, "and we hope to have the organization perfected by the latter part of October or on the first of November and in operation for the coming season."

Trammell Takes First Prize Colorado Springs, Colo., Aug. 29.—Governor Park Trammell of Florida, has won the title of the handsomest Governor attending the Governors' conference here.

At the annual banquet of the Governor's conference, Trammell was not on the program for an address, but he is winning just about as much attention in the beauty contest as the "high brow" state chieftains who have been telling their should be.

Entered as second-class mail matter August 22nd, 1908, at the Postoffice at Sanford, Florida under Act of March 3rd, 1879.

Office in Herald Building Telephone No. 148

The mosquito plague has struck New York harder than ever known. It is said to be largely due to present styles of clothe.

Since Walton has returned to Orlando from Kentucky we can look for an able article from Clarence Woods of the Eustis Lake Region on what a good state Kentucky is to come from.

What gets our goat about all this Harry Thaw stuff is why in the world they want to get him back into the United States. Wouldn't it be a good riddance of bad rubbish to let him get out and stay out?

That September Morn picture is getting a lot of Florida editors off their feet and they are writing all kinds of stuff about the beauties of such pictures. The Inverness Chronicle even goes so far as to attempt to describe "Cupid" as a "she."

Editor Howard of the Orlando Citizen is taking a vacation for two weeks which accounts for his slighting The Herald and Forrest Lake in his last issue. How he ever issued a paper without mentioning one or the other was pronounced a miracle until the nouncement of his absence was chronicled.

While we are casting about for something to help Sanford become great we should not lose sight of the fact that we have no tourist hotel and no place for our many winter visitors. One of the most important subjects to discuss at the present is the tourist hotel that we have not and every other city in Florida has and we may as well face the charge and plead guilty. We have it not.

How to pronounce Huerta is the question. Whether you say "You-hurt-her" or "You-err-ter" or "Hew-er-ta" There's a significance in any one of the three emphasized syllables—Orange County Citizen.

As a man who is competent we would say that it is pronounced "Werta" with a peculiar whistling through the teeth such as only the Spanish language can accomplish.

The Orlando Sentinel is getting along with every issue and we can only describe it to Joe Reese marrying such a fine lady and getting down in the next best city in Florida. Not only is the Sentinel improving in matter but in equipment, and their latest addition to the office is a fine large Miehle press that will print several thousand papers per hour, fold them and mail them and collect for the subscriptions. We congratulate the Sentinel on their good fortune.

Ed Walton has moved back to Orlando and taken his accustomed place as part owner of the Reporter-Star. We welcome him back to the Florida fold. He is a man in every sense of the word and before the boys of the "press gang" had but little time to make his acquaintance, but now that he is here to stay they will get better acquainted with him and The Herald editor commends him to the "professah" as a man to tie to. Like all of us he has had his troubles but they have only chastened his spirit and he is the same whole souled, genial, Kentucky gentleman that one can always look for in the Blue Grass State and when they come to Florida the balmy climate always ripens them and makes them better if such a thing is possible.

SPEAKING OF BRICKS

Our friends of Sanford claim that Sanford is "the first city in the south for paved streets." A pretty big claim that for a "city" of the size, and it appears to be made in positive and not relative terms. For instance, the boast taken literally means that Sanford has more paved streets than Tampa or Jacksonville, or Atlanta or New Orleans. The ville, or Atlanta or New Orleans. Herald must evidently be taken cum grano salis. But really the "Celery City" is doing remarkably well even if she does not draw the long bow in boasting of holding the prize for being the "best paved city in the south" and for being the pioneer in the making of brick streets. Though the two places are several classes apart, it may be worth while to mention that Tampa had fifteen years ago more miles of brick streets than Sanford will have when all her projected pavements are finished and that she had a greater mileage than Sanford has now before the latter had laid a single brick.—Tampa Times.

You forget the figures in population. Tampa although decreasing in tax val-

ues considerably is several thousand ahead of Sanford and can have more miles of brick streets. In proportion to population, Sanford is at the head of the procession.

WILSON MAKING CLEAN SWEEP

While President Wilson is being lambasted by Democratic politicians on all sides for not making changes more rapidly in the personnel of the government service in the various departments, not even the most hypocritical spoilsman can find ground upon which to assail him for lack of speed in revolutionizing the diplomatic service.

The President has not dilly-dallied in displacing Republican diplomats and appointing Democrats to succeed them. There are forty-two ministers and ambassadors in the foreign service. The have no civil service shield to protect them, as they are clear outside of the civil service. Twenty-one of them already have been displaced. Their successors have been appointed and practically all or, them have been confirmed by the senate.

Evidently it is the purpose of the Wilson administration to make a clean sweep in the upper grades of the diplomatic service and it is believed that within two or three months there will not be more than one or two of the old ministers or ambassadors remaining. The secretaries and all others in the lower grades of the diplomatic service are not to be disturbed.

Knowing President Wilson's general reputation for conservatism in ousting Republican office holders, Democratic senators and representatives are somewhat amazed to find that he has speeded the removal machinery so fast in getting rid of diplomats who were left over from the Taft administration. Many of the diplomats appointed by Taft or his predecessors have expected that they would be retained. This is especially true of many who have been in the service a long time and who have risen from the ranks, but it appears that they will have to walk the plank also.

THE TRUTH ABOUT FLORIDA

More people are interested in Florida than in any other state in the Union. A Floridian who travels is constantly questioned by men who want to know the truth about the state. But there are few men who can tell the truth about Florida.

It isn't because they don't want to tell the truth but because they only see one side of it. The large majority of the people of this state are pleased with Florida. They are so well pleased that they don't see anything but the bright side and their optimistic talk is calculated to lead to the belief that a man can make money here with scarcely half an effort.

Some men believe this. So favorable is the general impression of Florida that a lot of men are ready to believe what whatever they hear and from men of this class who come to this state one is apt to hear the other side of the case. The man who comes to this state expecting to make a fortune without hard work finds he was mistaken and afterwards sees only the dark side and tells what he sees through jaundiced eyes.

Four or five crops can be raised in Florida on the same ground in one year. In fact in some cases six crops have been grown from the same land. It scarcely needs an argument to convince a sane man that more money can be made off an acre of land that can mature from four to six crops a year than from one that can mature only one or two. It is little more than mere multiplication.

But does this show that one can live without working in Florida? It shows the reverse. There is no need of any argument to prove that the man who raises from four to six crops must work longer than the man who raises only one. In the states in which one crop can be produced in a year the farmers have three or four months of leisure every year—three or four months in which there is nothing they can do. But the man who raises five or six crops a year has no leisure. He has a whole year in which to work.

We think a given amount of work will produce better results in Florida than in any other state, but the man who wishes to do the best he can for himself will not stop when he has done an amount of work equal to that which can be done profitably in states further north. He has time to do more work and double his results.

So the main advantage of Florida is not in tempting to idleness but in lengthening the time during which they can work with profit. The man who understands this and acts on it intelligently will never be a knocker, for he will never be a failure. He will see the bright side of Florida and live the bright side of life and if, in after years, he wishes to rest he will be able to rest with a full heart of content.—Times-Union.

Caught Big Loan Shark

Trenton, N. J., Aug. 29—The loan shark business of the country received a death blow today when Daniel H. Tollman, alleged to be the head of practically the entire business of the country was sentenced to pay a fine of \$1,000 and was placed under probation for three years. Should Tollman be detected in operating a loan-agency in any part of the United States, his probation will be revoked and he will be brought back to Trenton to serve a prison term.

Spring Primaries to be Interesting

Florida voters next spring are going to have some (un) exciting and to their new primary system for the primary, as it will be operated under the new law, is just about as different from the old system as it was from the convention plan.

For one thing, there won't be any second primary. The voter will mark first and second choice. The voter has to register his party affiliation and Republicans cannot vote in a Democratic primary, and then turn around the next fall, and vote against the primary nominee. Every one will have to stay in his own political back yard. Elimination of the second primary will mean the elimination of much nauseating mud-slinging, for it has always been that feature which has made the voters tired—except the few that like to see that muddled.

The amendment for the direct election of senators is in force now, but it is difficult to see what difference it will make in Florida. The primary nominee wins, anyhow. It only means that the Hon. Thilly Thusly, of Nowhere Crossroads, will not be able to get his name in the papers when the legislature meets as having placed in nomination before the legislature the name of the senators-to-be, who has already been decided upon by the Democracy of the state.

The senatorial race promises to be a three-sided affair. That Senator Duncan U. Fletcher will stand for re-election goes without saying. From present appearance he is likely to be opposed by former Governor Albert W. Gilchrist and by J. N. C. Stockton.

Senator Fletcher has most creditably represented the state. There is no questioning the fact that he has won respect and honor in Congress and is one of the best known men the state has ever sent to the national capital. But down Tampa way they still blame him for the transfer of the customs district headquarters to Jacksonville and here and there are little animosities which will have their effect. Senator Fletcher will have the backing of the more conservative voters of the state. But there is no doubting he will have to put up a hard fight.

Former Governor Gilchrist would like to go to the senate. That is certain. But all of the Governor's old supporters are not enthusiastic about it. They believe him to have been a splendid Governor, but they are not quite ready to send him higher yet. But if he runs he will have the backing of a part of the conservative element, and also of the wet or local option forces. There's one thing sure about Albert Gilchrist—he was an honest Governor.

John N. C. Stockton is a veteran at the political game. Time after time he has gone down in bitter defeat, some unexpected move just heading him off from the goal. He doesn't care especially for any more of it. But he is being strongly urged from different sections of the state to make the race. He is being urged to do these things and if he remains in his campaign on the same high plane as in his last fight he will prove Fletcher's strongest opponent and not meaning any disrespect to the Hon. Albert Waller Gilchrist.

Either S. J. Hilburn of Palatka or W. A. MacWilliams of St. Augustine will prove Claude L. Enge's strongest opponent in the new fourth or "shoe-string" district with the odds in favor of Hilburn. The district extends from Jacksonville to Key West and includes the counties of Duval, Clay, St. Johns, Putnam, Volusia, Seminole, Orange, Brevard, Osceola, St. Lucie, Palm Beach, Dade and Monroe.

Hilburn came within a few votes of defeating powerful Frank Clark the last campaign, and he stands about the best show in this fight, if he enters. Frank Chase of Jacksonville is a strong entrant, but he is not known enough down in the populous east coast counties, and then, too, he comes from Jacksonville. That oughtn't to be against him, but there's jealousy of too many officials coming from the big Florida metropolis. L'Enge makes his race from this district this time, and, of course, is entrenched by his two years in office. Albert Williamson, editor of the Floridian, is a seeker also, but then—he's from Jacksonville.

Of course the contest the slowly but really shaping up in all of the districts, But under the new law there won't be much money spent, there will be less mud-slinging and altogether things political will doubtless move along er plane. The development and advancement of Florida has broadened the view of some who were once narrow minded. A comparison of today's issue of the papers of the state compared with an issue of the same papers ten years ago would strikingly prove this fact. The demagogue hasn't much show. The voters are not fools. They will appraise the candidates for what they are and send them to Washington or encourage them in the "back to the farm" movement according as they are fit.—Savannah News.

ENTERPRISE NEWS

Last Friday evening a party of Enterprise people chartered Capt. Pagenhart's launch Mamie and enjoyed a moonlight excursion to Fort Florida.

Miss Geneva Cason returned Saturday from Knoxville, Tenn.

Miss Sue Sisler, a trained nurse from Atlanta, Ga., is the charming guest of Mrs. John Sauls and Mrs. Emma Count.

W. Brown spent last week in DeLand on a business deal.

John H. Padgett has gone for an extended visit with Henry Murray and family of Franklin, Ind.

Hon. Y. E. Alexander and wife of DeLand were guests of Mr. and Miss Chandler at Epworth Inn, Sunday.

Mrs. A. W. Brown has returned from several days visit with Mr. and Mrs. F. Gordon at Daytona Beach. She reports a delightful trip.

Thayer Thursday is spending a week with his grandfather, Hon. W. S. Thayer.

Through the efforts of A. W. Brown we are having a very pretty and tasty illustrated booklet, setting forth the advantages of Enterprise and vicinity as a desirable site for winter homes. Situated as it is on a high plateau overlooking beautiful Lake Monroe, with its tropical appearing streets, its fine medicinal springs, its shell roads, its beautiful walks and drives, there is no good reason why Enterprise should not in a short time be one of Florida's popular winter resorts.

W. H. Mowers of DeLand makes frequent trips here with auto parties.

The Southern Oaks Poultry farm is having extensive improvements made in their plant. A new 72 ft building is now being erected under the supervision of the superintendent, Bert Winkhous.

Mr. and Mrs. Ralph Fernald have returned from their vacation spent throughout the north-west.

Mr. and Mrs. V. A. Bishop are spending their vacation with home folks in Kentucky.

Mrs. Emma Count has returned from a pleasant visit with friends in New Smyrna.

The orphanage children, under the charge of Miss Lizzie Stork and Mrs. Josephine Street, are enjoying and picnic at Bono Retreat near Green Springs Wednesday last. Bono Retreat was a few years ago one of the prettiest of places, but having fallen into decay has now but few of the attractive features of the old times. Recently purchased by Mr. John Tuttle it will be transformed into a beautiful and desirable place.

OWEDO OCCURRENCES

Mrs. Nita Crawford and little son, King Crawford are spending some time at the Beach.

Mrs. Wheeler left last week for White Springs, where she will join her husband.

Big Excursion

Excursion to Woodland Park, Launch Alma May and Mamie will leave city dock at 2:30 p. m., Sunday. 25c round trip. 85-Fri-14

In the Circuit Court, Seventh Judicial Circuit, State of Florida, Seminole County, In Chancery H. E. Ware and Mattie Grey Johns, as Executors of Estate of W. T. Johns, deceased, Complainants.

Sanford Opera House Company, a corporation of Florida, by J. L. Brady and Robert H. Ramsey, Trustees, Defendants.

Notice is hereby given that the undersigned will apply to the Governor of the state of Florida, at Tallahassee, on the 25th day of September, A. D. 1913, for letters patent, incorporating Seminole County Bank, under the following proposed charter, the original of which is now on file in the office of the secretary of state of said state of Florida. Witness our names this 20th day of August, A. D. 1913.

Prepared Charter of Seminole County Bank The undersigned incorporators hereby associate themselves together for the purpose of being incorporated under the laws of the state of Florida, with and under the following proposed charter: ...

In the county of Seminole, city of Sanford and state of Florida.

I, President, do hereby certify that the general nature of the business to be transacted shall be that of a general banking business, under the laws of the state of Florida.

The amount of capital stock of said corporation shall be Fifty Thousand Dollars to be divided into Five Hundred Shares of the par value of One Hundred Dollars each, to be paid in cash.

The term for which said corporation shall exist shall be Ninety-Nine Years.

The business of the said corporation shall be conducted by the following officers:

A. President, one or more Vice Presidents, a Board of Directors, Cashier and Forfeited Officers.

The directors shall be elected by the stockholders at each annual meeting. All other officers and employees shall be elected annually by the Board of Directors. The annual meeting of the stockholders shall be held on the first Thursday in January in each year.

Meeting of the officers elected at the first annual meeting of the stockholders shall be qualified, the business of said corporation shall be conducted by the following named officers:

Officers: A. President, one or more Vice Presidents, a Board of Directors, Cashier and Forfeited Officers.

The names and residences of the subscribers and the amount of capital stock subscribed by each are as follows:

Name	Residence	No. Shares
Forrest Lake	Sanford, Fla.	200 shares
D. L. Thrasher	Sanford, Fla.	100 shares
A. P. Connelly	Sanford, Fla.	50 shares
A. T. Hometter	Sanford, Fla.	30 shares
Joe Cameron	Sanford, Fla.	30 shares
T. E. Wilson	Sylvan Lake, Fla.	30 shares
N. H. Garner	Sanford, Fla.	20 shares
F. L. Woodruff	Sanford, Fla.	10 shares
W. H. Wright	Sanford, Fla.	10 shares
J. C. Bennett	Sanford, Fla.	10 shares
John Meuch	Sanford, Fla.	10 shares

On this day personally appeared before me, Forrest Lake, D. L. Thrasher, A. P. Connelly, A. T. Hometter, Joe Cameron, T. E. Wilson, N. H. Garner, F. L. Woodruff, W. H. Wright, J. C. Bennett and John Meuch, all to me personally well known, and known by me to be the individuals described in and who executed the foregoing proposed charter of Seminole County Bank, and each being duly sworn severally acknowledged that he executed the same for the use and purpose therein expressed.

In witness whereof, I have hereunto set my hand and affixed my seal this 20th day of August, A. D. 1913.

H. C. DUFFOSE Notary Public State of Florida My Comm. Expires Feb. 15, 1914

In re Estate of Emmett H. Herndon To All Creditors, Legatees, Distributees and All Persons Having Claims or Demands against said Estate.

You and each of you are hereby notified and required to present any claims and demands which you, or either of you, may have against the estate of Emmett H. Herndon, deceased, late of Seminole county, Florida, to the undersigned administrator of said estate, within two years from the date hereof.

Dated August 19th A. D. 1913 W. H. BISHOP, Administrator Estate of Emmett H. Herndon (Deceased)

THIS IS THE CITY

In the best of all so-called New Orleans coffees. It is a peculiarly rich, smooth, doubly strong, flavorful coffee, pleasing to the palate and bracing to the whole system.

LUZIANNE COFFEE

Ask your grocer for it and accept no substitute

Avoid Trouble at Home

To run the kitchen range is a nuisance—especially on a warm day, and an ironing day at that. There's no need to bother with the range, however, if you have electric light. You can operate G-E Electric Flatirons and G-E Electric Disk Stoves from any electric incandescent lamp socket.

"Kill two birds with one stone"—avoid troublesome household work and economize by using G-E Electric Heating and Cooking Devices.

Come in and take your pick of The Leaders of The Market.

Sanford Light and Fuel Company

Sanford, Florida

Use Of Calomel

Practically Stopped

For Billous Attacks, Constipation and Liver Troubles, Dangerous Calomel Gives Way to Dodson's Liver Tonic. Every drug in the state has failed to give relief in the case of Calomel. They all give the same result—Dodson's Liver Tonic.

"Calomel is often dangerous to people know it, while Dodson's Liver Tonic is perfectly safe and gives best results," say L. R. Phillips & Co.

Dodson's Liver Tonic is guaranteed by L. R. Phillips & Co. to sell it. A large bottle costs 50c and if it fails to give easy relief in case of sluggishness, you have only to ask for your money back. It will be promptly returned.

Dodson's Liver Tonic is a pleasant tasting, purely vegetable remedy, harmless to both children and adults. A bottle in the house may save you a day's work or keep your children from missing school. Keep your liver working and your liver will not keep you from working.

Summary Of The Floating Small Talks Succinctly Arranged For Herald Readers

F. P. Rines was in the city yesterday calling on his many friends and getting ready to remove his family to Lakeland where he has charge of the ice plant.

Mrs. F. P. Rines and family have returned from a trip to points in Tennessee and they are now preparing to move to Lakeland. We hate to lose Mr. and Mrs. Rines and the family from our midst but wish them well in their new home. Sanford's loss will certainly be Lakeland's gain.

Mr. and Mrs. A. Berker of Baltimore are visiting in the city this week. Mr. Berker is of the well known commission firm of A. Berker & Co., and they are spending the month of August in Florida, where it is cooler than in Baltimore.

Mr. Berker had his machine shipped from Baltimore to Tampa and is making the trip through the state in his car enjoying every minute of the time.

Willie Stringfellow spent several days of this week in the city, coming over to take a ride on the new elevator in the court house. Willie says that many DeLand people are anxious to come over and ride the beast as soon as it is in running order.

Reports from Braxton Perkins at the Orlando hospital are all good and he is improving every day.

Mrs. Jm. D. Jinkins and children and Mrs. H. V. Perry have returned from a visit to relatives in Menomonee, Wisconsin and Kansas City, Kansas.

C. W. Crim, night agent at the Coast Line depot, accompanied by his wife and daughter, Miss Erva of the postoffice force left Wednesday for a month's visit to their old home in Indiana.

Col. Steffy, circulation manager of the Tampa Times was in the city on Wednesday looking after business for South Florida's great afternoon paper.

Miss Minnie and Ruth Stewart left on Saturday last to spend their vacation of two or three weeks sight seeing in New York city.

Miss Linda Leber left for Alabama, where she will visit various points in the state and expects to be back about one month.

Dr. Carl Butt is home from the hospital where he was called by the serious illness of his mother. He left her greatly improved but her recovery is very slow.

The Star Theatre is being renovated by brick foundations and all the work greatly improved. R. W. H. purchased the building and will put the same in first class shape.

T. J. Moseley is in the city on official business and will be in the city for several days.

Mr. and Mrs. Low Fisher are spending a few weeks at Coronado Beach.

Horace Williams of Lumpkin, Ga., is in the city the guest of Edward Miller. His many little Sanford friends are glad to greet their old playmate again.

Mr. and Mrs. H. R. Stevens and family left on Tuesday for Philadelphia and other points in Pennsylvania, where they will spend the month of September.

Mr. and Mrs. W. W. Long are expected to return today from Seaboard, where they have been enjoying a vacation.

Dr. J. C. Fletcher of the Seminole Pharmacy, together with his wife and family left yesterday for Live Oak, where they were called by the serious illness of Mrs. Fletcher's mother. Dr. Malnes is in charge during the absence of Dr. Fletcher.

Hon. Cary D. Landis, states attorney residing in DeLand was in the city yesterday on official business.

Florida Receives Publicity

That Florida is receiving much desirable publicity and boosting in various sections of the country is evident from the following from the pen of the New York correspondent of the Cincinnati Enquirer, which appeared in the Ohio paper of a recent date:

"I have met a number of the active business men of Florida in New York this week and it amazes me to listen to the story they tell of Florida's progress in every form of business.

Stockton Will Run

The announcement has been made from Jacksonville that F. N. C. Stockton consented to make the race for senator against Duncan F. Fletcher. Stockton is a heroic figure in Florida politics.

In 1904 he made the race for senator against Senator James P. Taliaferro, since retired, and came near to being nominated. That race was one of the most spectacular in the history of the state, being decided by the arrival of Florida as the year that Napoleon B. Broward was elected governor over ex-Congressman Robt. W. Davis.

In the year 1908 Mr. Stockton was again a candidate, this time offering for governor in the primaries against Jefferson B. Brown, ex-Gov. Westcott Albert W. Gilchrist of Punta Gorda, and Gilbertson won by a large majority.

Again in 1910 Mr. Stockton was a candidate in the primaries against W. A. A. Blount of Pensacola and N. P. Bryan of Jacksonville for the senatorship. Former Governor Broward had won the nomination for the office against James H. Roper.

Mr. Stockton's political career after he had succeeded in making the political fact of his life and was upon the verge of realising his ambition to be elected governor of Florida.

Mr. Stockton's political career after he had succeeded in making the political fact of his life and was upon the verge of realising his ambition to be elected governor of Florida.

REJUVENATING THE PICO BLOCK

Ancient Citadel of Plant System Putting on New Habillments

The Pico Block famous in the early days of the old Plant System when the building was a hive of railroad industry is being put in first class shape and from the cobwebs of ancient history the building is being placed in first class condition for offices and schools and lodge rooms.

The Pico was not successful in becoming the county court house, but placing the court house in the Welborn Block made many tenants for the Pico, among them the Eagles who now have the finest headquarters that could be found in this section. Their lodge room while small is very convenient and the reading rooms and club rooms are well located.

The entire building is being painted and casemented and made new again and the Pico Block will be one of the best buildings for offices in the city.

Florida Receives Publicity

That Florida is receiving much desirable publicity and boosting in various sections of the country is evident from the following from the pen of the New York correspondent of the Cincinnati Enquirer, which appeared in the Ohio paper of a recent date:

"I have met a number of the active business men of Florida in New York this week and it amazes me to listen to the story they tell of Florida's progress in every form of business.

Fruits, vegetables, cotton, corn, shipments of lumber, timber, phosphate, tobacco, cigars, etc. trade in all of these is said to be very much enlarged, as compared with former years, while never in the history of the state have so many new settlers come in as during the last twelve months.

The agricultural districts of the state are producing wonderfully and the prices of lumber keep steadily advancing.

All the cities of the state are showing large gains in population with constant standing business while the railroads are making new records in receipts.

These gentlemen are of the opinion that the coming year will completely transform the business of Florida and make it a power in the trade of the Panhandle although the railroads and the short lines of transportation from the Gulf to the north.

Stockton Makes Statement

F. N. C. Stockton, a debater but not a politician, has made the following statement regarding his candidacy for the senatorial race.

When I was first asked whether or not I would run for the senatorial race I felt that this was the opportune time for me to enter and such has been the expression of all my friends.

For this I am a convinced supporter of the principles with which I have been associated all my life. I have a great desire to have my life devoted to the service of the people and to draw all the abuse of vested interests to my head while others fighting for the same principles have gathered in the rewards. I feel that the people of the state understand my position and that they are ready to recognize me for the efforts I have exerted in their behalf.

With this announcement of my candidacy for the United States senate to succeed Senator D. C. Fletcher I pledge myself if nominated and elected, to give my undivided attention to the duties of that office. I shall close up all my business affairs and devote my entire time to the service of the nation. I believe that a man in public office should have but one idea and that is the promotion of the public good.

The office of United States senator does not call so much for an orator or finished speaker as for a tireless and intelligent worker whose whole sympathy is in his work and in sympathy with the people. I believe that I am in sympathy not only with the interests of the business world, but also with those of the people at large, and if elected I shall dedicate my life to the happiness and welfare of my country. The people of Florida know me and they know my attitude on every public question. I shall continue the fight along the lines I blazed out over twenty years ago. Many of the reforms advocated during that time have become laws of both the state and nation, but there is still much to be done and I shall devote all my time to the study of the needs of our people.

I have had such strong assurance of support from every section of the state that I am convinced that my candidacy will meet the approval of the majority of the voters of Florida. I shall hereby absolutely on the principles that I have always stood for to carry me to victory.

Well, Hardly Ever.

and they will spend the remainder of the summer in the mountains.

We are glad to know that B. G. Smith's father, who has been very ill at his home in Georgia is better and able to be up again.

L. W. Rigby of Montgomery and C. F. Rigby of Charleston arrived on Monday. They came to be with their mother, Mrs. M. A. Rigby, who is very ill. She is with her daughter, Mrs. B. G. Smith.

Mr. and Mrs. Olsen of Winter Garden are spending sometime at Cushing Hotel. They are the guests of their brother, D. D. Daniels, one of our prosperous business men.

J. H. Steinmyer and family are visiting Mrs. H. B. McCall on Bay street.

Last Tuesday morning Mrs. T. W. Lawton entertained for her sister, Mrs. Matherson of Ft. Myers. There was a large number of guests and the contesting games were very much enjoyed by

all. A delicious luncheon was served by the hostess, assisted by her sister, Mrs. J. W. Lawton.

Mrs. J. Fred Turner, Jr., of Jacksonville is visiting her sister, Mrs. T. L. Cushing.

CELERY AVENUE NEWS

Mrs. W. H. McGuire, a former resident of Sanford but now from Norfolk, Va., is spending a couple of weeks among old friends, at present staying with Mrs. Babbit on Mellenville avenue.

Miss Ramona McLain from Geneva is visiting Miss Isabel Raynor.

Miss Annie Weeks and Miss Thelma McDoigall send word from the North Carolina mountains that they are enjoying their vacation immensely.

Fred. Dorner is improving, his truck farm on the avenue by adding a large barn.

We are glad to hear that Mr. Brumley has purchased the former Huggins farm which adjoins his own place.

Mrs. Will Squires, who at present is visiting her old home at Long Island, N. Y., expects to return soon to her

adopted home in Ljucky Sanford.

Miss Ether Hickson has been spending some time with friends in Orlando.

Quite a number of young folks assembled at the residence of Will Raynor and attended the surprise party for Miss Ramona Wilson.

Celery avenue is beginning to get lively. Our farmers are getting the seed beds ready and are shaping the fields for the fall crops.

GENEVA JOTTINGS

J. W. Flynt and family have returned from a pleasant visit spent with friends in Georgia.

Mrs. G. A. Nicholson is visiting her son at Osteen.

Mrs. Aubrey Moran and children are visiting friends in Lockhart.

Mrs. J. P. Musselwhite and daughter, Agnes of Orlando were guests of Mrs. Agnes of Orlando were guests of Mrs. Emter Curlett last Friday and Saturday.

Mrs. David Speer was hostess for the M. M. S. Society, Thursday afternoon. Nearly all of the members and a large number of visitors were present. In absence of the president, Mrs. Burley vice president presided at the business meeting, nothing special being brought up. Those present were soon at liberty to enjoy Mrs. Speer's interesting program, which gave every one something to do and kept up a lively curiosity all the afternoon as to what would come next. At its close a delicious lunch was served consisting of sandwiches, salads, wafers, salted peanuts and after dinner mints. Those assisting Mrs. Speer were Mrs. Wicks, Mrs. Walker, Mrs. Culpepper and Miss Mabel Tarbell.

Mrs. R. O. Gresham has returned from a month's visit with friends in Jacksonville and nearby towns.

The women of the W. O. W. Circle gave an ice cream supper for the Woodmen and their families Friday night Aug. 15th, which every one greatly enjoyed.

Rev. A. L. Hope preached at both services of the Methodist church Sunday. Next Sunday being the fifth Sunday he will give Geneva the morning service.

A. P. Curry of Orlando, tenor soloist for the minstrels was the guest of Mr. and Mrs. Endor Curlett Tuesday and Wednesday, coming over for rehearsal.

Saturday night Aug. 23rd, Mrs. M. E. Dwoley gave a small dinner party in honor of her son Paul's sixteenth birthday. Promptly at six o'clock the invited guests who were Miss Barbara McLain, Miss Tarbell and Tommy McDoigall, gathered for the repast. The table was tastefully decorated, the centerpiece being a large birthday cake, which at the close of the dinner the young host cut and served. It goes without saying that these young people enjoyed Mrs. Dwoley's hospitality and that they all wish for Master Paul many happy returns of Aug. 23rd.

R. O. Gresham, Miss Addie Gresham and Ira Tillis spent last Monday in Sanford.

HAVE WE A HOTEL?

People Throughout the North Would Like to Know About It

E. T. Woodruff writes The Herald this week from Detroit, Mich., and wants to know about our hotel—our new hotel that has not materialized and states that there are many people up there who could be directed this way if we could guarantee the accommodations. Following is his letter which speaks for itself.

Detroit, Mich., Aug. 23, 1913

Dear Mr. Holly: Am wondering how everything is going in enterprising Sanford and our new Seminole county. We note with pleasure the improvements contemplated and already underway, and among other things, prospective attractions for tourists the coming season, as set forth from day to day in your excellent journal of news. Especially I would like to know about the hotel probabilities. Many whom we meet here are planning wintering in Florida, and of course we want as many as possible to make their stay in Sanford. I am wondering just what I am justified in saying relative to an up-to-date and desirable accommodations, as well as attractiveness, additional to previous years.

We are greatly enjoying our visit with our northern friends. Weather fine, entertainments galore, feasting and visiting to heart's content. But when the winter chill strikes us we shall hie us back to our beloved Sanford and its delightful, equable, sun-lit, heaven-blessed, perennial of blossom and verdure felicities.

Cordially yours,
E. T. WOODRUFF.

This is only one of the many, conundrums received by us every week from northern people who are anxious to come to Sanford for the winter and willing to pay the price for suitable accommodations.

When can we tell them to come? That we have the best tourist hotel in Florida? When can we tell them that the pessimistic trust has been broken in Sanford and the people who really want to build a hotel here will be allowed to purchase the Sanford House and put up a real hotel?

All we can reply to Mr. Woodruff or any other man is to urge them to get some good hotel man to come here and build a hotel for the field is here and he will have plenty of assistance in promoting the new hotel. There is no place in the world that offers so much to the prospective hotel man as Sanford.

Brick Paving Cost May Go Much Higher

Every State In The Union Wants Vitriified Brick

Brick Manufacturer Gives Interesting Facts And Figures Regarding Same

The question that seems to be agitating the minds of county commissioners and town councils all over the United States and especially in the south is the price of vitriified brick and cheaper weight rates on the same. The trouble with the south at present or at least in Florida is the exorbitant freight rates and there has been much discussion and contention regarding the establishment of a brick factory in Florida that could turn out paving bricks cheaper. The present prices are all right at the factories but the freight rates are almost as much as the brick themselves and the establishment of a factory here would cut down the freight rates considerably. Another item that goes to make the price high is the fact that every community in the United States with a few exceptions are discarding all other materials for paving and taking bricks. This demand for vitriified brick keeps the factories working full time to supply the states where the bricks are manufactured and has a tendency to boost the prices. The following letter from a gentleman in Ohio who has been studying the situation to the Orlando Sentinel is interesting:

Editor Sentinel:—I just read your editorial, "Isn't It Worth While," and want to say to you that the price of the best vitriified brick for paving roads and streets are worth \$13.50 a thousand and the cars at the plants or kilns. I had an agent say that he expected to have to sell for \$15 inside of the next six months.

Ohio has passed a law to pave some of the state roads, and factories here where shale is plentiful and of the best quality can't make them fast enough. All the farmers who own farms are getting autos and they begin to realize the importance of good roads. Our vitriified paving brick are 3 by 4 by 10 inches, weigh 10 pounds each, or 5 tons to each 1000 brick. I asked the Pennsylvania railroad to give me prices of freight on brick to Orlando, Fla., by car load, and they said \$5.95, so that you see the freight from factory in Ohio will be \$20.75, added to price at factory, which will make the price prohibitive.

From factory to Orlando will go over at least four systems, or different roads, and each one will have a nip and cut out up here. I am interested in a factory that has about 331 kilns. Most of the kilns hold only 5,000, a few 8,000 and we can't make and burn and take out in less than one month, or twelve kilns each year. It is to be hoped that the right kind of brick shale can be found near, or in Florida, so that they may be made cheaper than to get from a distance. All vitriified brick have to be heated by the tumbler process—every kiln has to take 50 brick and put in tumbler and tumbled four to six hours, and if they wear over a certain amount of weight, they or that kiln, is rejected. For Tampa it might be possible to ship to Ohio river, down to Gulf of Mexico, and then to Tampa, and get such cheaper rate than by rail; also light ship from Tampa to Orlando. These are just thoughts that come into my mind while writing.

HENRY HILDEBRANT,
Wilmington, Ohio.

Financial Statement Finished

Yesterday witnessed the completion of the financial statement of the affairs involved in the division of Orange county and the creation of Seminole.

Messrs. A. B. Johnson, representing Orange, and H. C. DuBose representing Seminole, finished the work that they have been engaged on since the joint meeting of the county boards nearly a month ago when a written agreement was signed by the members of each board. This agreement set forth the details which were to be followed by accountants in making up the statement.

"We have attempted to follow the terms of the agreement faithfully," said Mr. Johnson yesterday. "We have done it article by article and have gone to the work carefully and with the agreement always before us, and I believe that we have made up a statement that will be satisfactory."

"There may be some dissatisfaction," said Mr. DuBose, "but we have done all we could. There is no talking at the commissioners may do when they get together, but I think they will recognize the fact that we have done the

work as we understood the agreement." Mr. DuBose said that he hated to think that he would have to give up his habit of coming to Orlando, as he did in days ago, and he was advised not to quit. "Oh, I have no feelings over the division," added Mr. DuBose, "but we've got a home of our own now, and so I shan't come to town like I used to."

The work done by Messrs. Johnson and DuBose has gone ahead with a smoothness and rapidity which will be cause for congratulation. It was hardly expected by some that the work would be done in time for the next monthly meetings of the boards, but so it has turned out, and this will be a source of satisfaction to all who are most intimately concerned with the division.

—Orlando Sentinel

DREDGE WORKING AGAIN

St. Johns River Will be Put in First Class Shape Shortly

Capt. Sharpe and his jolly crew are again in the river and expect to go into the upper St. Johns river and dredge all the bars and give the river from Sanford to Harney a channel eight feet deep the entire distance. The dredge is busy this week at the head of Lake Monroe dredging the bar and in a few days the big boats and barges that are now filling the upper St. Johns will be enabled to make the trips in safety.

The appropriation that was made some time ago of \$60,000 for the St. Johns river from Palatka to Harney is now said to be available and the crews of the dredges will be seen in this part of the world the greater part of the winter season.

When this work is finished the St. Johns river will be in fine shape for navigation and the winter season will witness a greater number of pleasure crafts than ever before upon this Father of Florida rivers.

Wagner Wins Trip

D. G. Wagner, the enterprising manager of the Arthur E. Donegan Real Estate and Insurance Agency, left Tuesday night for a visit of ten days or two weeks in Virginia, during which time he will attend the conference of agents of the New York Life Insurance Company at Hot Springs, Va.

Mr. Wagner will go from Jacksonville, Fla., to Baltimore on the Merchants and Miners S. S. Co.'s steamer and will probably spend a day or so at Baltimore and Washington, after which he will go to Hot Springs, Va., where the insurance conference will be held.

Mr. Wagner enjoys the distinction of belonging to the "100,000 Club" of the New York Life Insurance Company, he having written insurance for more than that amount during the nine months in which he has engaged in the business in Kissimmee, and wins the above vacation thereby, as the insurance people pay all his expenses during the trip.

Mr. Wagner is one of the many men who have made good during their career in Kissimmee, and has demonstrated beyond a doubt that the business is here for the fellow who will hustle to get it. He is popular, personable, and it is a pleasure to know such a man, leaving out all business considerations, and his many friends in the city congratulate him on the excellent record made in business and wish for him the greatest possible pleasure during his vacation.

—Kissimmee Journal

Newspaper Advertising

The commercial associations of DeLand, Daytona, and New Smyrna are making a request that the board of commissioners of Volusia county appropriate \$2,500 for advertising what the county has to offer horse seekers.

A mighty good idea. And the money could not be expended in a more profitable manner than in circulating their county newspapers. The newspaper is the backbone of advertising. What the person contemplating a change reads in a newspaper, not owned or controlled by a land corporation or real estate firm, sinks in deeper than any of the flowery language appearing in booklets that are for the express purpose of boosting and sometimes goes a little too far in their efforts.

—Zolfo Sprints Truth

Auditors File Reports For County Commissioners

Orange And Seminole Ready For The Division

Amount Due Seminole Will Be Nearly Thirty Thousand Dollars—Fine Work On Report

Putting the result of their labors for the past month in the form of a typewritten document Messrs. A. B. Johnson and H. C. DuBose, who have been preparing a financial statement of the affairs of Orange and Seminole counties have put the finishing touches to their task and filed the statement with Clerk B. M. Robinson for the consideration of the commissioners of the two counties when they meet Tuesday.

The report covers some twenty pages, in which the auditors take up the accounts that they have audited and make full report of the finances of the counties and the division of the funds in accord with the articles of the agreement made by the two boards in joint session in Orlando early in August.

Immediately following the meeting of the commissioners J. B. Jones, treasurer of Seminole county, was given an Orange county warrant for ten thousand dollars to enable the new county to start its affairs on a cash basis. This amount was paid out of the general revenue, fine and forfeiture and road and bridge funds, five thousand dollars from the first and twenty-five hundred dollars each from the latter two. In making their reports these amounts are deducted from these funds, leaving the net amounts now due Seminole from Orange county as follows:

General revenue	\$5,450.94
Fine and forfeiture	1,038.00
Roads and bridges	6,192.43
Public school taxes	1,119.41
	\$13,790.78

The audit of the books of Orange county dated May 5 1913 was used as a basis from which the accounts were made up. The work has been carefully done and has been conducted in perfect harmony. The auditors followed the terms of the agreement faithfully, they say, and never left a point until an agreement was reached.

The report which they have made does not include the tax redemptions, but it was impossible to arrive accurately at these figures until the report which was made from Orange county to the state comptroller has been received from the comptroller's office. It is not expected that this report will be forthcoming for some time yet.

The report which is destined to become a historic document so far as the two counties are concerned is a beautiful piece of clerical manuscript and was the work of Mr. Cyril Vivian, a clerk in Mr. Robinson's office. Two copies were made one for each board of county commissioners.

The Real Florida

Editor Howard of the Orlando Citizen is exactly right when he says:

"The railroad tourist never sees the real Florida. He takes the train at Jacksonville and railroads it forty miles an hour through the pine barrens, skirts the saw grass lakes or rivers, dashes in on the wrong side of town, makes a pop call here and there and returns home and gives a moving picture description, good or bad, as it happens to strike him. But the real Florida he has actually passed by and knows nothing about, because the real beauty spots, the finest properties, the best orange groves and Nature's own rare scenes are not along the beaten highway, but nestles away in nooks and crannies, oftentimes hidden from public view and must be searched out."

Will Supply Fertilizers

With commendable enterprise Manager Brown has made arrangements with other branches of the Virginia-Carolina Chemical Co. to supply his trade with fertilizers and that the business will be resumed as usual and the trade will not know that the plant has been destroyed. The buildings will be rebuilt as soon as possible but none of the customers will be disappointed in that they will receive the same prompt deliveries as heretofore.

Pleasant Occasion

Thursday afternoon a very pleasant social was held at the Robbins Nest Hotel where the members of Seminole Chapter Order of the Eastern Star met to celebrate the birthday of Dr. Robert Morris the founder of that beautiful order. Those who had applied for membership had also been invited to attend. A very interesting program was

carried out by members of the order. History of the life of Dr. Morris was read by Mrs. Sarah E. Parker; "What Masons Think of the Eastern Star" by Mrs. Alice E. Robbins; "The Spirit of the Eastern Star," by Miss Carrie Eslinger; "Wear the Colors," by Mrs. Bertha Biggers. Mrs. Alice Harvey rendered some beautiful musical selections. The last number on the program was very interesting to all present, and each one did full justice to the delicious cake and cream served by the committee.

Stork Express
Mr. and Mrs. Vance Douglass are the proud parents of a fine girl baby and Clerk Douglass has another granddaughter.

KEY MADE CASHIER

Seminole Bank Takes Sanford Boy For Responsible Position

A source of gratification to his many friends is the recent appointment of A. R. Key to the position of cashier of the New Seminole County Bank.

The rapid rise of this young man is worthy of more than passing notice in this day and age when the young men are supposed to have difficult progress in reaching the topmost rungs of the ladder of success.

A. Raymond Key was born in Eustis 27 years ago and lived there during early boyhood. Moving to this city with his parents he attended the Sanford High School, leaving that institution to take the position of collector at the First National Bank. He was a good collector and advanced from that position to bookkeeper, then to teller and a few days ago was made assistant cashier. He has been with the First National Bank for over ten years and leaves them with their best wishes for success in the new bank. He was offered the position of cashier of the Seminole County Bank because of his thorough knowledge of banking business and his popularity among the customers, being ever obliging and courteous.

For a young man but twenty-seven years of age to take the responsible position of cashier of a home institution demonstrates that Mr. Key received his early training in a good institution and the Seminole Bank recognized the worth of a home boy for the position.

Living Fast

The Sanford Herald came out this week dated August 62nd. Does time hang so heavily at Sanford since the little burg has gotten off into a county by herself that Editor Holly is led to the belief that August has doubled its number of days?—Reporter-Star.

Get the Saturday Evening Post

Get the Ladies Home Journal

Get the Country Gentleman

By getting them all you get the best literature in the land and something that will entertain every member of your family. These three big papers are bigger and better than ever and the mid-summer fiction stories in every one of them is said by the constant readers to be away ahead of anything ever before attempted by the Curtis Publishing Co. You can have any of these papers or all of them carried to your door each week or better still subscribe for them and get all three for only \$4.50 for the year. You cannot afford to miss one number of these Big Three. Reginald Holly at the Herald office will take your order for a year's subscription or will deliver them to your door each week.

Virginia-Carolina Company Suffer Loss By Fire

Fine Sanford Plant Now Mass Of Ruins

One Of The Most Complete Fertilizer Plants In Florida Destroyed By Fire

One of the worst fires that has occurred here in the past twelve months was that of the Virginia-Carolina Chemical Co., plant that was totally destroyed about ten o'clock Sunday evening. The origin of the fire is a mystery, although in a fertilizer factory there are innumerable materials that are most inflammable. When the night watchman did discover the fire his extinguishers were powerless to prevent the spread of the flames.

The first intimation of the fire, given to the people of Sanford was the continual tooting of the A. C. L. engines followed by the siren whistle of the water works plant and by this time the immense blaze in the northwest attracted an immense crowd to the scene.

The fire company was on the scene early, but not having a plug closer than French avenue were unable to render any material assistance and the fire was allowed to burn without interruption until the factory was a smouldering mass of ruins.

The loss of this plant, one of the best of the kind in the state will probably reach the \$100,000 mark and on account of the time of year will be a much heavier loss as the stock was exceptionally large getting ready for the fall and winter trucking.

Mr. E. B. Brown, the manager being interviewed could not state whether the plant would be rebuilt on the same large scale or not, and is awaiting the arrival of the state manager who is expected today.

The loss of this factory is not only a loss to the company but to the city of Sanford as well.

NOTICE TO THE PUBLIC

Although our entire plant was totally destroyed by fire last Sunday night we have made arrangements for temporary quarters for the storage of a large stock of fertilizers and will be enabled to supply our customers with our usual promptness.

We are here to stay and serve the growers of this section of Florida and will give all orders large or small prompt attention. With the many large factories in other states and one other in Florida the Virginia-Carolina Fertilizer Co. can guarantee quick shipments and prompt service to the many customers as heretofore and solicit a continuance of your patronage.

Virginia-Carolina Fertilizer Co.
E. B. Brown, Local Manager

Junior Class Picnic

It was a gay little party of Junior boys and girls of the Congregational church Sunday school that picnicked at Woodland Park last Thursday chaperoned by their teacher, Mrs. F. P. Strong and Mrs. R. A. Terheun. Notwithstanding the inclement weather of the afternoon the young people fully enjoyed the bathing pool and other amusements afforded by the park and returned to the city voting the picnic the best ever. Those enjoying the frolic were Ruth Iserman, Helen and Alice Randall, Marguerite and Isabel Strong, Gustie Frank, Sarah Wight, Gladys Ingold, Vera Terheun, Lila Hutchinson, Bertha Macey, Clifford Walker, Lawrence Randall, Edmond and John Meisch, Earl Waldron, Johnnie Musson, Dick Terheun, Charles Anderson, Landis Jenkins, Paul Strong, Billy Fitts and Pee Wee Tillis.

Our Paper Company

It is said that the largest paper plant east of California is located at Sanford, where it is making fruit wraps. This is an establishment that should do well in Florida, and certainly should have the support of Florida growers in preference to outside concerns.—Ft. Myers Press.

Robert H. Freeman

After an illness of three weeks Mr. Robert Henry Freeman died at the home of his daughter Mrs. Anna Walker last Thursday morning at four o'clock.

Mr. Freeman had been in failing health for several months but only in the last three weeks was he confined to bed. He was 79 years old and a native of Ohio but for thirty-one years had been a resident of this section of the state. His was one of the many who lost heavily in the freeze that ruined so many homes but with Christian fortitude and resignation he bore his adversities striving always to retrieve his fallen fortunes.

A devoted husband and father, faithful friend and loyal citizen Mr. Freeman leaves a large circle of friends to mourn his loss. He is survived by a son and daughter Mr. Douglas Freeman of Tampa and Mrs. Anna Walker of this city; six grandchildren and one great grandchild; also one sister Mrs. O. C. Carr of Grand Rapids Ohio. Funeral services were conducted at the home of Mrs. Walker Friday morning at seven o'clock by the Rev. Mr. Hardaway of Longwood assisted by Rev. F. P. Strong. "Nearer my God to Thee" and "Asleep in Jesus" were sweetly rendered by members of the Congregational choir and others. There were many beautiful floral tributes testifying to the esteem in which Mr. Freeman was held. The interment took place at Longwood.

An Home Institution

Sanford is now preparing to open its third banking house. The First National Bank and the Peoples Bank of Sanford have creditably served the residents of this section of Florida for a long period of time, but the march of progress and the rapid development of this locality demands greater banking facilities and, as has been usual with the expansion of Sanford and environs, the bank is to be opened by local talent and backed with local capital.

The Sanford Telephone Company is a local concern. The Sanford Traction Company is a local concern. The Sanford and Everglades Railway is a local concern. The Sanford Gas Company was organized by local capital. The Sanford Electric Light Company was organized by local capital. The Sanford Water Works Company is also local, as is the ice company. Some of these public utilities have proved so profitable that they have been bought up by outside parties, but the fact still remains that they were launched by Sanford men and backed by Sanford dollars that were wrested from Mother earth via the vegetable route. And now comes the organization of the Seminole County Bank with a capital stock of \$50,000, all of which is fully paid, the paying, as usual, being done by Sanford men who have made their money here.

Bates in T. T.

Old Folks Service

To aid in fostering the spirit of fraternity among the churches in Sanford, we are inviting any of our old friends to send their names and addresses to Postmaster Haskins, so conveyances can be sent for those who cannot otherwise easily come to our Old Folks' service, Sept. 14th, 11 a. m.

F. P. STRONG,
Pastor Cong. Ch.

Report shows that the net earnings for the last year by the United States Steel Corporation have been gratifying. One hundred and eighteen million dollars, as against \$112,000,000 for the past year is the record. Of this sum, \$25,400,000 was paid as dividends on the common stock, which was originally issued as water. There are, according to this report, 221,000 men working for this corporation, and a quarter of this number of wage workers work 13 hours a day at a wage which is less than \$630 in Chicago, and \$721 in Pittsburg—these two figures being established by the investigations of the Sage foundation as the minimum at which a bare subsistence can be maintained by a working man's family, including husband, wife and three children.

Special Meeting of Stockholders of Sanford & Everglades Railroad Co.

Special meeting of the stockholders of the Sanford and Everglades Railroad Company to be held at the office of the company at Sanford, Florida, at three o'clock p. m., the 17th day of September, 1913, for the purpose of considering and determining upon the selling of the railroad, tracks, right of way locomotive and stations of the Sanford & Everglades Railroad Company, subject to the lien of the Company's mortgage now existing thereon, and for the purpose of considering at said meeting any matters that may be considered at regular annual stockholders' meeting.

J. N. WHITNER,
Secretary.

It is perhaps possible for a man to ape the nobility without getting as drunk as a lord.

The wheel of fortune turns so fast for some men that it makes the rest of us dizzy.
