

### MINE TOLL DROPS 37 PER CENT IN 4 YEAR PERIOD

WASHINGTON, Apr. 25.—Coal mine fatalities declined from 1,471 in 1942 to 928 in 1946, a drop of 36.3 or 37 per cent, the Bureau of Mines informed the House Appropriations Committee.

A tabulation, made public in printed hearings on the Department of the Interior appropriation bill, shows that the number of accidental deaths from all causes in bituminous mines fell from 1,246 in 1942, when the Federal coal mine inspection act became effective, to 758 in 1946. For anthracite mines the figures were 226 in 1942 and 170 in 1946.

Falls of roofs and mine facings were the chief causes of death, accounting for 523 deaths in bituminous mines in 1942 and 425 deaths in 1946. For anthracite mines, the figures were 132 in 1942 and 102 in 1946.

The tabulation shows that the fatality rate is higher in anthracite mines than in bituminous mines. The rate of fatalities per million tons of coal mined in 1942 was 3.708 for anthracite and 2.139 for bituminous. In 1946 the rate was 2.801 for anthracite and 1.422 for bituminous.

Going Down for Five Years  
Dr. R. R. Sayers, director of the Bureau of Mines, told the committee that the number of coal-mine fatalities—bituminous and anthracite combined—has been "going down for this five-year period of Federal inspection, and that is the first time that has ever occurred during the whole time we have had a history of statistics on coal-mine accidents."

Another tabulation given in the committee report shows that the number of deaths from coal-mine explosions declined from 136 in 1917 to 80 in 1946. The figures are for deaths caused directly by explosions and to deaths from explosions of gas and dust caused by blasting or explosives.

The tabulation lists the death rate per million tons of coal mined in 1917 at .208. In 1946 it was .034.

The deaths from explosions were listed by years as follows: 1917, 136; 1920, 175; 1925, 195; 1930, 88; 1931, 41; 1932, 74; 1933, 34; 1934, 37; 1935, 50; 1936, 52; 1937, 46; 1938, 86; 1939, 61; 1940, 110; 1941, 40; 1942, 41; 1943, 37; 1944, 55; 1945, 48; 1946, 20.

Lack of Funds Cited  
"They (the uninspected mines) are small and there is lack of funds," he said. "We do not have enough personnel to get around to all these mines. Therefore, we take those where there are the greatest hazards. We have to do a selective job."

He said there are 157 inspectors and this number probably will be increased to 200. He said 400 mines a month are being inspected, which means that each mine is visited once a year.

But, he added, "that certainly is not enough."  
He said that in general the bureau was receiving co-operation from the mine operators and workers.

A House Labor Subcommittee is planning to check mine safety in seven or eight states—Missouri, Alabama, Indiana, Illinois, Kentucky, West Virginia, Montana and perhaps Oregon. The chairman, Representative Max Schwabe, Republican, of Missouri, told a reporter the group will split into two teams and probably will set out next week.

The House Appropriations Committee said in its report on the Interior Department fund bill that

if the bituminous coal industry needs statistics it should compile them itself. The committee denied funds for the Bureau of Mines to continue such statistical work because "if there is sufficient demand for the collection of such statistics the work should be performed by private industry which is the beneficiary of such information."

### CAPITAL ENJOYS CONCERTS GIVEN IN SUMMERTIME

By JANE FADH  
WASHINGTON—Each summer since 1935 the National Symphony Orchestra has played on a barge moored about 40 feet out in the Potomac river just below the Lincoln Memorial.

Concerts are held three times weekly. Capital music lovers look forward to hearing select music in a natural setting, despite kicks that airplanes taking off and landing at the National Airport down the river a little way some times drown out some of the music.

Chairs are arranged along the bank for the Watergate, or Sunset concerts, as they have come to be known. The chairs, which are rented from Government Services, a private concern which also supplies a watchman, are put up and taken down before each concert.

But people can hear the concerts from Memorial Bridge, from canoes tied up near the barge, from autos parked in the surrounding driveways. Lots of people sit on the velvety grass in front of the Memorial. Last season some 208,000 people heard the concerts, but only 68,000 paid admission.

All winter the barge is kept at the District of Columbia docks in the Anacostia river and brought up around the first of May. The season begins on June 19.

The barge is the property of the National Capital Parks. This is the third barge and was built in 1938 by WPA workers. It is in pretty bad shape . . . keeps sinking an inch or two. Engineers

have to keep pumps in the bottom.

The first barge was an old mud scow used for dredging in the Potomac. The second barge was the first barge "revived."

There was a lot of comment, favorable and otherwise, last year when the Symphony association decided to make the barge setting "more decorative and gay," as a barks official put it.

Up until then the barge shell was merely painted blue, and the only "prop" was the American flag.

"We put in a sort of symbolic background with painted red columns and so on to make it look more like a stage than a hole in the wall," said the official.

There are tentative plans for building a new barge. The National Capital Parks has acquired a hull from the War Department's surplus property list and it has been brought here from St. Eustace, Va., where it saw service all during the war.

"It is metal and the experts say it ought to last for the next 50 years if it's handled right."

### MENU

- (Serves Four)
- Shrimp on Cocktail
- 2 pounds cooked shrimp
- 1 clove garlic
- 2 tablespoons flour
- 2 tablespoons melted butter or margarine
- 1 cup cream
- 1/2 teaspoon salt
- 1/2 teaspoon pepper
- Paprika
- 1/2 cup catsup
- 1 1/2 tablespoons Worcestershire sauce

Buttered Bread Crumbs  
Rub pan well with a split clove of garlic. Blend flour with melted butter or margarine. Add cream gradually and cook, stirring constantly until smooth and thick. Add seasonings and shrimp. Fill shells or ramekins. Sprinkle with crumbs and place in a hot oven (400 degrees). Cook 10 to 12 minutes until nicely browned on top.

Clover and grass to be seeded in the spring of 1947 will be fed as hay in the winter of 1948-49 and later.

### Director Declares Public Health Nurses Are Needed In Florida

JACKSONVILLE, Apr. 25 (Special)—Florida is taking time out this week to pay tribute to her blue-clad army of mercy—her more than 305 public health nurses and 35 supervising nurses—joining the rest of the country in observing Public Health and Nurse Week.

Specific objective of the celebration this year, according to Miss Ruth Mattinger, Director of the State Board of Health's Division of Nursing, here and over the country is the recruiting of public health nurses—vitaly needed to show individuals and families how to protect their own health. Thus, preventing sickness and suffering.

To carry on their many duties effectively, the public health nurses in Florida need 36 new members to fill their ranks. At present, five counties in Florida are without a public health nurse and many counties have only one. And, eight supervising nurses are needed.

Many and varied are the "good" deeds done by these nurses as a matter of routine. They help private physicians and health officers break the chain of infection. They direct patients to available sources for diagnosis and treatment. Their activities cover the fields of child hygiene, maternity service, venereal disease, tuberculosis control and industrial,

school and home sanitation. Specifically, they demonstrate bedside nursing care to people who are sick at home and they teach other members of the family to give necessary care.

Service rendered by them is NOT charity. It is a community service to which everyone may turn for help.

All public health nurses are registered, graduate nurses and are expected to have special postgraduate training.

During this week, in order that the public might become better informed about the work being done by their nurses, there will be special radio programs, newspaper articles, exhibits, films showing the public health nurses on the job and talks to various groups.

About half of all the oranges and lemons, and practically all the grapefruit produced in the world this season were grown in the United States.

## Union Rejects Wage Offer Of Iowa Company

### Union Spokesman Says \$2.50 Offer Is Not Enough, Gives \$6.00 Raise As Minimum

DES MOINES, Iowa, Apr. 28—Striking telephone workers in Iowa today definitely rejected a raise of \$2.50 a week as a condition for ending the walkout. The offer was made last night by the Northwestern Bell Telephone Co.

The offer was later extended to 17,500 telephone employees in five midwestern states, including Nebraska, Minnesota and the Dakotas as well as Iowa. The position of the union in Iowa was stated by A. R. Tappier, secretary of the Northwestern Union of Telephone Workers in that state, as follows: "As far as we're concerned, a \$6-a-week boost is the minimum offer we'll consider at present. They've got to come across with something better than \$2.50 before we'll consider it."

This attitude put a dent in hopes that the nationwide strike might be settled with acceptance of the offer from Northwestern Bell as a starter. Henry Mayer of New York, attorney for the Northwestern Union, had said the strike could be settled if the \$2.50 offer were accepted.

The fourth week of the nationwide telephone strike began this morning with the prospect that the day would produce the first real break in the issues since the walkout started.

There was new optimism among both government and union officials that the strike might be near an end. This view was spurred by an offer of a flat pay increase of \$2.50 weekly to 17,500 employees of the Northwestern Bell Telephone Company.

This wage offer was the first proposed by any Bell System company. It covers northwestern Bell employees in five states: Minnesota, the Dakotas, Iowa and Nebraska.

The Northwestern negotiations are among the more than 20 in a nationwide Bell System subsidiaries throughout the nation. All the companies have offered to arbitrate the wage issues involved. (Continued on Page Three)

## Senator Bridges Hails Marshall's Firmness

WASHINGTON, Apr. 28—Republican Senator Styles Bridges of New Hampshire said today that Secretary of State George Marshall did an excellent job at the Moscow conference of foreign ministers. Bridges, chairman of the Senate Appropriations Committee, attended last night's White House conference in which Marshall gave a private review of the Moscow meeting for President Truman and key lawmakers.

Bridges disclosed that the White House conference revived entirely around the Moscow meeting, with other subjects brought up. "I feel that General Marshall's firm stand at Moscow on the principles we believe must be carried out if there is to be a lasting peace that will give hope and courage to all the people of Europe, the British Commonwealth, and the United States," he said.

"From his report I believe he has clarified the issues in such a way that we may hope for eventual progress."

## Britain-Poland Trade Pact Is Agreed Upon

LONDON, Apr. 28—Britain and Poland today agreed to sign a \$22,000,000 trade agreement. If the pact goes through, it would make Poland the first nation in the Soviet sphere to agree to a major trade accord with the western powers. A well informed Polish source, sympathetic to the Communist-dominated Warsaw government, said the agreement could be interpreted as what he called "a thin edge of the wedge" coming between Poland and Russia.

It was said that Prime Minister Stalin was informed of the move by the Poles and was told the step had to be taken because Poland net in goods which Russia could not provide.

## Last Rites for Motorcyclist

A CATHOLIC PRIEST administers last rites to Joseph S. Nufer, 22, as he lays under the wheel of an automobile a few minutes before he died. Nufer was riding a motorcycle when he was hit by one car and thrown in front of another (above) driven by William H. Allen. Police are seeking the first driver, who sped away without stopping. (International)

## Many Are Injured In Two Railroad Train Accidents

### Derailed In California Is Followed By Indiana Wreck

ONTARIO, Calif., Apr. 28—Sixteen cars of the Southern Pacific's New Orleans-bound Argonaut passenger train were derailed last night on a 25-minute run after the train left Los Angeles.

Thirty-seven passengers are said to have been injured, seven or eight of them seriously. There was no mention of fatalities in early accounts of the wreck.

The locomotive and two baggage cars of the 18-car train remained on the rails, but the first chair car left the track and the next car ripped the side off the derailed chair car. Timmen said there were only three passengers in the first car.

About 300 yards of track were ripped up. A Pullman conductor, H. E. Lindblom of Los Angeles, said there was no panic among the passengers.

Ambulances were rushed to the scene from nearby communities to take the injured to hospitals. The train left Los Angeles with its 176 passengers at 8:20 P. M., Pacific Standard Time. The wreck occurred near Guasti, Calif., as the train was running at about 65 miles an hour on a straight level stretch of track. There was no immediate explanation for the wreck.

The Southern Pacific sent another train from Los Angeles to pick up the uninjured passengers and continue the trip.

WARSAW, Ind., Apr. 28—Ten cars of the Pennsylvania Railroad's Dearborn Limited left the tracks in the center of Warsaw today. All of the 147 passengers were shaken up but only four persons, including a crossing watchman, were hurt seriously enough to need hospital attention.

Railroad workers said the Limited apparently tore a rail loose at the crossover of the Big Four and New York Central lines. The double line of rails was torn up for about four blocks.

Several cars were leaning to one side but none overturned, neither did the engine leave the rails. Most of the passengers were taken back to Columbia City. (Continued on Page Three)

## GI Mental Patient Remains At Large

SAN FRANCISCO, Apr. 28—The search continued today for one of the four dangerous mental patients who escaped from the Army's Letterman General Hospital in San Francisco Sunday. In making their break, the four patients took along a hospital orderly as a hostage.

Three of the fugitives were released last night. The search now has widened for the fourth escapee and the orderly.

The patient who is still at large is 24-year-old Frank Wallrath of Long Island City, N. Y. The orderly who has not yet been found is Wallace Williams of Fort Worth, Tex.

MAIL SCHEDULES  
Due to changes in train schedules the city mail carriers will be approximately 30 minutes later on each trip than has been customary. It was announced this morning by postmaster Joel S. Field. The new schedules went into effect today.

## Hearings End Wednesday On Tax Cut Bill

### OPA Frees 28 Areas In 22 States From All Rent Control; Florida Unaffected

WASHINGTON, Apr. 28—Chairman Eugene Millikin of the Senate Finance Committee today set Wednesday as the deadline for the group to wind up its public hearings and start coming to a decision on an income tax measure. That will give the committee two or three days to reach decisions on essential points.

The measure in the fire is the House-approved bill which would provide 30 percent cuts for those in the low income brackets, 20 percent for the so-called middle brackets and 10 and a half percent reductions for those in the top brackets.

Under the House bill, these slashes would be retroactive to last Jan. 1. What the Senate committee must decide is: Either adopt the House formula or some other tax-cutting measure such as the one put forward by Democrat Scott Lucas of Illinois.

He said he doesn't think any cuts should be made before next Jan. 1. He advocates personal exemptions increased by \$100 and two percentage points should be dropped off each surtax bracket.

Today the Senate Committee heard testimony from the United States Chamber of Commerce in support of the House bill.

The Office of Price Administration ordered 28 areas and portions of 11 others freed from rent ceilings. The order becomes effective Thursday. Meanwhile, Congress is moving nearer to a showdown on divergent House and Senate bills to extend rent controls beyond June 30.

The OPA de-control order issued today is expected to be the last before the OPA rent division is transferred to the office of Housing Expediter Frank Greenwood. The transfer is to take place on May 4.

Rent controls abolished by the government in 248 areas and portions of 11 others in 22 states affect only one Florida section, a portion of the Panama City area.

The decontrol in other sections applies to all living accommodations in the areas concerned, including homes, apartments, hotels, tourist camps and rooming houses. OPA Commissioner Max Meade (Continued on Page Three)

## Sheriff Reports No Law Violations At Seminole Club

"There is no gambling or other law violations now taking place at the Seminole Club," Sheriff Percy Mero declared this morning after visiting the former notorious gambling resort late Sunday night. Only a dozen automobiles, a few tables of bridge and a few people lounging around the bar were discovered, the Sheriff, who was accompanied by five deputies, reported.

"The club closed its gambling operations upon my instructions two weeks ago Saturday night," the Sheriff said. "I told them then that if they re-opened for gambling I would make arrests and confiscate all gambling paraphernalia. Reports have come to me since then that there has been more gambling there, but my surprise visit at 1:15 Sunday morning convinced me these reports are in error."

The Seminole Club which is located on the old Orlando Highway between Altamonte Springs and Maitland was built early in 1946 and operated as a gambling resort that winter and again early this winter. It is owned by Art Harper of Orlando and is said to be one of the most elaborate resorts of its kind in this part of the state.

"The bar and the cocktail lounge are perfectly legal," Sheriff Mero said, "and I can do nothing about that. But I intend to make frequent checks of the place, and if I find any gambling or other law violations I will make arrests."

## Detroit Workers Hold Giant 'Save Labor' Rally

## Cox And Field Are Elected Top Officers By Postmasters

### Sanford Radio Station To Go On Air May 5

### Rivers And Parrish Tell Rotarians Of Plans For Station

The new Sanford radio station WTRR will begin broadcasting on May 5, or at the latest by May 7. Joe Parrish, commercial manager, told the Rotary Club today at its regular weekly luncheon. James S. Rivers, owner, revealed that the towers will be 250 feet high in order to provide for Frequency Modulation broadcasting.

Introduced by Orville Touchton, who had charge of the program, both speakers expressed their appreciation for the cooperation they have received here from the business leaders of the community. The transfer is to take place on May 4.

Rent controls abolished by the government in 248 areas and portions of 11 others in 22 states affect only one Florida section, a portion of the Panama City area.

The decontrol in other sections applies to all living accommodations in the areas concerned, including homes, apartments, hotels, tourist camps and rooming houses. OPA Commissioner Max Meade (Continued on Page Three)

WTRR will be a 250 watt station operating on a wave length of 1400 kilocycles and will be on the air from 6:00 A. M. until 8:00 P. M. It will begin operation without a network program. Mr. Rivers explained, but arrangements will be made for network broadcasting as soon as possible.

The station will have complete United Press news coverage. Mr. Parrish stated, over U. P. leased wires will be made including late afternoon sports summaries.

At the suggestion of G. W. Spencer, it was decided to hold the annual Rotary Club boat ride on May 23. Arrangements were referred to a committee headed by Earle Turner. Roy Holler, who presided, announced that President G. A. Speer and H. H. Coleman are attending the Rotary Convention in Daytona where the principal speaker last night was Suffragan Bishop Henry Louttit, a past president of the Sanford Rotary Club.

## Nine Persons Donate To Blood Bank Clinic

Blood bank donations totaled nine pints at the clinic held Friday afternoon from 1:00 until 3:00 o'clock. It was reported by Mrs. Mary Rawlins in whose office in the Sanford Clinic Building was conducted by technicians of the Central Florida Blood Bank.

Six girls who volunteered to donate blood were unable to do so as they were under the 18 year age limit, said Mrs. Rawlins. Several applicants were refused due to having eaten lunch, she declared. This is because fats taken into the blood interfere with serum.

Donors were Miss Marjorie Esdrige, John Hanlon; Miss Janie Spotts, Miss Jessie Lee Williamson, Carl A. Lee, Mrs. Naomi Hester, Miss Veronica Goodwin, John Green and Miss Versa Woodcock.

## Price-Cutting Plan Outlined To Sanforians

NEWBURYPORT, Mass., Apr. 28—A detailed account of the price-cutting Newburyport plan was sent to Senator Ralph Flanders of Vermont today. Merchants behind the plan said the report was prepared for Flanders after the House-Senate subcommittee he heads showed interest in the plan.

Meanwhile, the lower price campaign is in its sixth day. Merchants of Newburyport will meet Thursday night to decide whether to continue the plan beyond the original 10-day schedule.

GUERRILLAS KILLED  
ATHENS, Apr. 28—Dispatches reaching Athens today said 200 guerrillas have been wiped out west of Salonika. The dispatches said the guerrillas were moved down when they tried to break through military encirclement.

## Measure Covering Auto Accidents Is Sent To Governor

### Bonus For Veterans Introduced In House

FLORIDA HOUSE OF REPRESENTATIVES today completed action on an automobile accident responsibility measure. Shortly after noon, the House convened in two Senate sessions and the bill to Governor Charles S. White.

The bill would require persons involved in auto accidents to produce evidence of financial responsibility in case he should be involved in future accidents. If his motorist does not comply within 15 days, he could be held liable for the cost of the accident.

The bill would also require persons involved in auto accidents to produce evidence of financial responsibility in case he should be involved in future accidents. If his motorist does not comply within 15 days, he could be held liable for the cost of the accident.

Another proposed constitutional amendment would amend the constitution and Dade County to be re-named county of Miami. The measure was submitted by Representatives (Continued on Page Three)

## R. T. Humphrey Gets A.C.L. 25 Year Award

Robert T. Humphrey, engineer for the Atlantic Coastline Railroad, was this morning awarded a 25 year emblem for continuous service. The presentation was made by E. M. Carroll, general foreman, in the presence of a group of friends of the recipient.

Mr. Humphrey, who was born in Longwood, has lived in this section all his life. He entered the employ of the A. C. L. on Dec. 21, 1920. He makes his home in Sanford.

## Hesse Jewel Theft Trial Gets Underway

FRANKFURT, Germany, Apr. 28—The military court trying Col. Jack Durant in the Hesse jewel theft will begin deliberations tomorrow on the Army officer's fate.

Arguments ended today with the prosecution describing Durant as "the mastermind behind the whole foul piece of thievery." In asking for his conviction, Maj. Joseph Robinson said the honor of the United States Army was at stake.

Durant's wife and another Army officer already have been convicted of stealing jewels, valued at \$1,500,000.

## British Withdrawal

LONDON, Apr. 28—The House of Commons was advised today that Britain still has not set a definite date for withdrawal of all its troops from Greece. The question was brought up by Communist member Philip Piratin. In reply, foreign under-secretary G. P. Mayhew said the government planned to withdraw the troops "as soon as practicable."

## Optimism Over Russia Is Felt By Marshall

### Report Of Meeting To Be Given On Radio At 8:30 Tonight By State Secretary

WASHINGTON, Apr. 28—American hopes for the easing of tension between the United States and Soviet Russia were raised today by word that Secretary of State Marshall believes that this country's firmness on peace treaty issues may cause Russia to give ground.

Marshall's view was presented to congressional leaders at a White House conference Sunday night. The Secretary of State is going on the air at 8:30 P. M. EST tonight to report to the nation on the results of the Moscow conference of foreign ministers.

Some of those who attended the two-hour session with the President and his Cabinet Sunday night said they came away with the impression that Marshall believes the unbounding attitude he displayed at the Big Four meeting already has had the effect of making the Russians less sure of themselves.

The soldier-diplomat was said to have advised patience with the Russians in the hope that as they digest the American position they may go to London in November more amenable to suggestions from their wartime allies.

The Secretary of State was understood to have related to the proposed American action to support Greece and Turkey against Communism appears to have made a profound impression on the Russian people and their leaders.

In dealing with his talk with Prime Minister Stalin, near the close of the Moscow sessions, the Secretary was said to have told the White House meeting that he talked for 90 minutes with the Soviet leader and for more than an hour of this time, they discussed America's position on world issues.

## Swedish Motorship Has Engine Trouble

STOCKHOLM, Apr. 28—A Swedish motorship, S. S. Matrosen, has advised that its engine is completely out of commission at a point 405 miles southeast of Oahu, Hawaii. The vessel is carrying 14 passengers from Australia to San Francisco.

The vessel has radioed that it is not in danger, but has asked for a tug with a powerful lawser to take it in tow. The master of the Matrosen explained that the cylinder and piston rod of its main engine are broken and that it is impossible to make repairs at sea.

A Hawaiian sea frontier command—the Navy tug serrano—proceeding from Pearl Harbor and should reach the disabled ship tomorrow morning. The Navy said that the tug, with the Swedish vessel in tow, should reach Honolulu by Saturday morning.

BEAUFORT, S. C., Apr. 28—A wealthy oil company executive, Clayton Boardman, is recovering from an ordeal of nine hours in the ocean. During the time Boardman was battling the sea he kept promising himself that he would live ten minutes longer.

Boardman was one of four men swept out to sea on an abby tide when their 16-foot fishing boat was swamped Saturday. He clung to a small cushion until he was washed ashore early Sunday. The body of one of his companions has been recovered. The other two men still are missing.

Boardman told Sheriff J. R. McTeer that he promised himself that he would stay up just ten minutes longer. He said that when that ten minute period was up he would say to himself: "You have gone this far—try ten minutes more."

## Wealthy Oil Man Spends Night In Sea

Robert T. Humphrey, engineer for the Atlantic Coastline Railroad, was this morning awarded a 25 year emblem for continuous service. The presentation was made by E. M. Carroll, general foreman, in the presence of a group of friends of the recipient.

Mr. Humphrey, who was born in Longwood, has lived in this section all his life. He entered the employ of the A. C. L. on Dec. 21, 1920. He makes his home in Sanford.

## Hesse Jewel Theft Trial Gets Underway

FRANKFURT, Germany, Apr. 28—The military court trying Col. Jack Durant in the Hesse jewel theft will begin deliberations tomorrow on the Army officer's fate.

Arguments ended today with the prosecution describing Durant as "the mastermind behind the whole foul piece of thievery." In asking for his conviction, Maj. Joseph Robinson said the honor of the United States Army was at stake.

Durant's wife and another Army officer already have been convicted of stealing jewels, valued at \$1,500,000.

## British Withdrawal

Former POW Camp Is Used For Housing

AP Newsfeatures INDIANOLA, Neb.—Where defeated Nazis once sulked out the war a peace-loving American community is rising here.

The site, a former German prisoner of war camp, is being converted to house Bureau of Reclamation workers and their families.

From surrounding hills a former prisoner would see little difference. The barracks still stand in orderly rows. The main gate still stands. But some buildings have been torn down to make it possible to convert the others to new uses.

One compound building was converted into a hospital. The prison camp jail now makes up 41 apartments for families of men whose business it is to bring water to semi-arid region.

Only Bureau workers and their families live in the apartments at the camp. There are now 150 of

sorts of approaches to get on the program in attempts to circumvent the regular auditions which all aspirants must undergo.

The other day a lad in Baltimore tried a fresh tack, telephoned Bessie Mack who handles the auditions, told her to hang on while he sang a song to the accompaniment of a player piano. When he finished, Bessie patiently told him to apply for an audition any time he was in New York, but so far as she was concerned, he had simply wasted the money on the call.

Guy Lombardo predicts a hit for "It Takes Time," a song written by an amateur tune-smith from Boston named Arthur Norb.

Sometimes a guy can get a bit curious about what cooks in Broadway's various nozzles. A press agent for the Fanny Brice radio show says a lad named Jess Oppenheimer, one of Fanny's script writers, has found a cure for biting his finger nails during broadcasts. "He sits backstage and peels used flash bulbs," the tub thumper notes, thereby lowering gag writing reputations just a hint more.

And looking over the names of the dancers in the show at the new night club, Vanity Fair, it appears that one young lady's name is June July and another is Claxon Horn!

Wanna bet?

TODAY'S GARDEN-GRAPH

Melons You Can Brag About

By DEAN HALLIDAY Distributed by Central Press Association

MUSKMELOON seed cannot be started outside until the weather and soil are warm, so for an extra early crop, especially in areas where the season normally is late, seeds should be started in the hot bed. When a hot bed is not available, start them indoors in a window box, inverted soda, old strawberry boxes or paper cups.

Muskmelons, like cucumbers, resent being transplanted, therefore, when they are planted on soil, as illustrated in the accompanying Garden-Graph, each chunk of sod can be set outdoors without disturbing the seedling plants.

Still another method of getting an early start calls for planting the seeds outdoors but under an open box with a piece of glass over the top. This entails a box for each hill. Old seed-flat frames can be used with a pane of glass set over each one.

The glass-covered box acts as a small cold frame, keeps the soil warm and protects against frost. When the sun shines brightly, the glass will have to be raised slightly at one end for ventilation. When warm weather finally arrives the boxes can be removed. Planting the seeds early under "hot-caps" which can be purchased at most seed stores, serves to give the same protection.

Like cucumbers and squash, muskmelons, to have size and flavor that you can brag about, must have a constant supply of nitrogen throughout the growing season. For this purpose, a shovelful of rotted manure should be placed in the bottom of each hill, as illustrated. Cover it well with soil before you sow the seeds. If manure is not available, put a couple of tablespoons of balanced plant food beneath each hill.

8 pounds; 3 pounds low, process at 7 pounds; 4 pounds low, process at 6 pounds.

Careless smokers and careless handling of matches are responsible for more home fires than any other single cause.

Hints To Housewives

Weekly from Home Demonstration Specialist, Tallahassee

GAGE CHECK Before starting the season's canning, be sure to have the dial gage of a pressure canner tested for accuracy. This advice to home canners is stressed by Katherine Taube, equipment specialist in the home canning research laboratory of the U. S. Department of Agriculture.

Low-acid foods—which are canned safely only in a steam pressure canner—include snap beans, corn and all the other commonly home-caused garden vegetables except tomatoes; also meats.

Mrs. Taube explains that the canner's pressure gage is all-important to proper processing of these foods. Unless the gage registers accurately, food being processed may get too little heat for safe keeping, or may be needlessly overcooked with loss in vitamins and flavor. The Bureau recommends processing low-acid foods at 10 pounds pressure, the equivalent of 240 degrees Fahrenheit in temperature.

Here are the Bureau's recommendations for seeing that a gage is dependable.

If the pressure canner has a weighted gage, this needs only to be very clean and properly put on the canner.

A dial type gage, new or old, should be checked for accuracy before each canning season and also during the season if the canner is used a great deal.

About checking a dial gage, ask your county home demonstration agent, or the dealer, or the canner manufacturer.

If a dial gage when tested is found to be off 5 pounds or more, it should be replaced with a new one. If a gage is not more than 4 pounds off, correct for it according to the following directions, and tie a tag on the corner to show what the gage should read when jars or cans of food are being processed.

When the food is processed at 10 pounds pressure:

If the gage reads high; 1 pound high, process at 11 pounds; 2 pounds high, process at 12 pounds; 3 pounds high, process at 13 pounds; 4 pounds high, process at 14 pounds. If the gage reads low; 1 pound low, process at 9 pounds; 2 pounds low, process at

SHOCKINGLY PINK

SELMA, Ala., Apr. 28—Confronted with the shortage of newsprint, the Times-Journal edition of Apr. 14 and several issues thereafter were printed on pink paper, and in almost tabloid size. The pink was a quantity of newsprint that had been ordered for the printing of their comic section.

In explaining why it was necessary to come out in a new spring dress of "Shocking Pink," the Times-Journal stated that while it prefers a conservative, "full-skirted" white dress more becoming to an old lady of 120 years, the readers may be greeted at intervals with the smaller-than-usual edition and on pink paper.

The planet of Venus is less than 26,000,000 miles from the earth at some periods of the year.

IVEY'S

BROADWAY

By JACK O'BRIAN

NEW YORK—A magazine story entitled "The Decline of Bing Crosby" has a good many Bing fans mad at Author George Frazier. . . Tommy Lyman, first of

all the crooners, has quit Jimmy Ryan's East Side saloon and will open one of his own. . . Quick success story: Young Don Richards, just out of the Army and into the lead of the hit musical, "Finian's Rainbow," has landed the plush assignment to headline the next show at the Waldorf's Wedgewood Room.

Martha Raye and her husband Nick Condos, erstwhile tap dancer, will produce a vaudeville unit to be called "Mirth Time," although they won't be in it. . . So far they've made offers to Danny Kaye, Joe E. Lewis, Harry Richman, Jane Froman and Willie Howard, all of whom ask sky-high salaries.

Sportscaster Red Barber is increasingly concerned with civic and charity projects, his latest being a drive to raise half a million by Easter to rebuild St. Barnabas House, the 83 year old shelter for women and children here in New York. He even will take to the pulpit, delivering several talks in Episcopal churches during the drive.

Will You Be Prepared

WHEN FLORIDA ENACTS AUTOMOBILE FINANCIAL RESPONSIBILITY LAWS

States automobile financial responsibility laws impose heavy penalties on motorists who cannot pay damages done by their car or truck in an accident involving bodily injury and property damage to others. If you cannot pay damages or establish your financial responsibility immediately you will suffer certain inconveniences, possible attachment of your automobile, perhaps a stay in jail, besides possible serious or even disastrous financial losses, and in most States, you lose your drivers license. These laws apply to non-residents as well as to residents of the State.

Do you know that in at least 23 States a person who fails to pay a judgment in an automobile damage suit can be jailed until he does? No matter how carefully you drive, it is easy for the other party to charge you with maliciously operating your car should you be involved in an accident. If the jury finds against you (and juries usually sympathize with the plaintiff) it will almost invariably affirm the charge of malice, especially if you are a STRANGER in another State. There you can be imprisoned unless you can and do pay the judgment.

Do you know that if your car or truck is driven in ANY State and involved in an accident you can be compelled to return to that State to defend a damage suit?

Do you realize that in an automobile accident anywhere, you and the occupants of your car may be seriously injured or killed incurring large doctors, nurses, hospital and funeral expenses?

You can save yourself all these worries and expenses by carrying adequate AUTOMOBILE LIABILITY INSURANCE WITH MEDICAL PAYMENT. It takes your place, pays: your attorney fees, court costs, doctors, nurses, hospital, funeral expenses and judgment against you up to the limits of your policy. It may save your Home, your Farm, your Business and your Bank Account.

We offer you BETTER THAN AVERAGE SERVICE—LOWER THAN AVERAGE COST on all forms of property insurance. A delay may be costly - so please phone us today for details.

Postmasters' Meet

(Continued from Page One)
The Department of Post Office, Atlanta, Ga., director of the Fifth United States Civil Service Region, gave clear and definite answers to many problems relating to civil service.

At the Friday morning session, Jefferson Gaines, State president of FBNDLP, a rival postmaster organization, told of progress initiated in Florida toward merging the two national groups, and told of plans for a committee meeting of his organization and a committee meeting of the organization and a committee appointed by Charles S. Ashbrook, president of the Florida Chapter at St. Augustine to meet on June 16 to discuss this merger and thus to set an example for the entire nation.

Also receiving hearty endorsement was the plan of Joe Nicolas, for 26 years an Orlando Rural carrier, and chairman of the Highway Safety Florida Rural Carriers Association, for his proposed bill to be brought before the State Legislature to request the State Road Department to build cut offs at quarter mile intervals on main traveled rural routes.

Arthur Albright, president of the Alabama chapter of the NAP was so impressed with this idea with which Mr. Nicolas presented charts, that he stated that he will bring a like proposal to the attention of the Alabama Legislature.

Addresses were given Friday afternoon by O. E. Myers, who explained new peace time civil service rules set up by President Truman, and Dan L. Gibson of Albany, Ga. NAP executive committee member, who commended the Florida chapter on its growth to nearly 400 members and told of growth of the Georgia chapter.

In behalf of the Junior Chamber of Commerce, Jack Ratigan, president, welcomed the postmasters at the Friday morning session, and according to Mr. Field created a fine impression among many postmasters who stated that when they returned home they would start Junior Chamber groups. Friday evening the postmasters enjoyed a barbecue served at his Legion Hut, and prepared by W. E. Hathaway. They were entertained at the hotel by the Seminole High School Glee Club in the evening.

Assistant Comptroller J. W. Askew of Washington Post Office Department in his Saturday morning talk, termed the post office the largest business institution in the world with total annual transactions of 15 billion dollars. Operating expenses amount to \$1,400,000,000 annually, most of which is paid to the 400,000 employees.

During 1946, more than 19 billion postage stamps were offered for sale in post offices in addition to four billion post cards and stamped envelopes, he said.

Fred U. Mills brought the greetings of Assistant Postmaster Donaldson, commended Mr. Field for the fine courtesies shown him and praised the postmasters for their "loyal and faithful service during the war. Due to present economy mindedness of Congress he told of the inability of the Post Office Department to authorize additional funds for additional employees and services and cautioned postmasters to keep strictly under allowances provided. Mrs. Linville, outlined NAP history and problems and provided sparkling wit and humor.

Diets, Alton sang several songs at the banquet with Mrs. Biewert as Gatchel accompanying. Three songs were sung by the Kiwanis quartet composed of Dr. H. W. Rucker, Martin Stinecpher, Edwin Shinholser and Rodger Horris. The Rev. J. E. McKinley gave the invocation. The postmasters lunched Friday at Fellowship College and Saturday at the Florida Methodist Home at Enterprise. There was a dance in the Hotel Ballroom at 10:00 o'clock Saturday evening.

(Continued from Page One)
Zavi Lauml, has repeated demands for an end to Britain's mandated Palestine government and military occupation.

The Irgun broadcast asserted that there will be no peace in the Holy Land, the Middle East or in the entire world until the Palestine problem is settled.

Official leaders of Palestine Jewry are said to have decided to issue a pamphlet urging an end to underground violence. The Jewish leaders are said to be ready to try to impress the Holy Land's Jewry that "murder and bloodshed" would hurt their cause before the UN assembly.

Meanwhile, the British are holding a threat of collective punishment for underground action over the entire Palestine Jewish community.

The British high commissioner for Palestine, General Sir Alan Gordon Cunningham, has written the mayor of the all-Jewish city of Tel Aviv describing the possibility of collective punishment. "When the next post office vehicle is stolen, the Jewish community must necessarily suffer the loss of its postal services," Cunningham said.

A postal truck was used Friday to haul explosives that killed five British officials and wounded six others in a Tel Aviv suburb.

Cullough said that he believes that today's order covers all areas that should be removed from rent controls before June 30.

While the OPA completed arrangements to turn its rent control functions over to the Housing Expediter, the lower house in Congress set Wednesday as the tentative date for the start of full debate on its bill to continue rent controls at least until next Dec. 31.

The measure has been reported out favorably by the House Banking Committee. Under the bill, the President would be permitted to extend controls three months more by proclamation if he deemed it necessary.

The Senate Banking Committee has approved a bill to continue rent controls until March 1, 1948. The Senate bill also proposes to set up local rent committees to make recommendations on increases asked by landlords.

January 1 stocks of corn and oats per grain-consuming animal unit were the largest on record for that date.

Orchids grow in profusion on the mountain slopes of Venezuela.

Cape Cod Compact and Economical, They Rate High in Popularity

THERE IS an appeal to the Cape Cod style of house which endears it to the hearts of thousands of prospective home builders. Distinguishing features of Cape Cod houses are the steeply-pitched roof with gable ends, with the eave line low (coming to about the level of the first-floor ceilings), and with the chimney designed to accommodate several flues. Double-hung windows and shutters are generally used. The walls may be clapboards or shingles, though brick, too, is used, and often stone is combined with siding for the exterior. Dormers are popular, as pictured in the three styles featured here. The main entrance is generally placed in the exact center of the front elevation, and the windows are arranged symmetrically on either side. The Cape Cod house is an economical one to build, easy to keep up, and easy to heat. It looks good on either a small or a large lot which contributes to its universal appeal. (International)

THIS is a true Cape Cod with a two-car garage attached in the rear.

SMALL or large, the Cape Cod retains its charm.

WHITE-WASHED brick is a popular variation of style.

State Legislature

(Continued from Page One)
It would provide that all Gautier, Oakley and Lanoff of the city of Miami would be merged with the county government, the various other municipalities in the county would retain their individual status unless they should be joined later by special act of the legislature.

Rep. Smith of Clay County offered a bonus bill for Florida veterans. He estimated the bill would cost the state about \$60,000,000.

The measure would give Florida veterans \$10 for each month of foreign service, and \$7 for each month of domestic service. The payments would be limited to persons who were residents of the state when they entered the service.

Another proposed law offered today would repeal the present three day waiting period required for marriage licenses.

The legislature may come face to face with a financial crisis this week.

For three weeks it has been coasting along, spending sparingly from an ample bank account. That is \$4,500,000 and the estimated balance of somewhere between 35 and 40 million dollars available for the next two years.

The appropriations bill and requests for about \$91,000,000 above Budget Commission recommendations have been placed before the House and Senate, but only two sizeable checks have been sent down to Governor Caldwell for endorsement.

He immediately signed the measure putting up \$2,000,000 for purchase of private lands for the Everglades National Park. The clerks haven't put before him a \$2,500,000 bill for construction of tuberculosis sanatoria. He vetoed a similar bill two years ago.

That is \$4,500,000 and the Legislature has spent out of that estimated \$40,500,000. There is plenty left, but there is a good chance the big House-approved public school bill, carrying an appropriation of \$46,000,000 extra from the State Treasury for education in the next two years, will be passed before another week has gone.

If the Senate doesn't make any major changes, the Governor is sure to sign it... and the bank account will be close to the red line.

From then on, Governor Caldwell's edict that further appropriations must be accompanied by new tax bills probably will be in effect.

Income Tax Cut

(Continued from Page One)
Cullough said that he believes that today's order covers all areas that should be removed from rent controls before June 30.

While the OPA completed arrangements to turn its rent control functions over to the Housing Expediter, the lower house in Congress set Wednesday as the tentative date for the start of full debate on its bill to continue rent controls at least until next Dec. 31.

The measure has been reported out favorably by the House Banking Committee. Under the bill, the President would be permitted to extend controls three months more by proclamation if he deemed it necessary.

Offer Rejected

(Continued from Page One)
in the walkout, but until North western's proposal, none of the Bell system companies had made even a token wage offer. The Bell companies had maintained their wages were comparable to those paid by other industries to workers with comparable skills.

The striking federation of telephone workers, meanwhile, cut its wage demands from \$12 to \$6 a week. That was done to match the 15 cents-an-hour wage boosts in the steel, automobile, electric, coal and other industries.

Additional labor difficulties have been poured on the industrial city of Akron, Ohio, the rubber capital of the world. All public transportation has been tied up by a strike for higher wages by 142 AF of L mechanics at the Akron Traction Company. Private automobiles and taxis were the only transportation available.

The union caught most Akronites by surprise, since it generally was expected that a last-minute settlement would be reached as to the case of a drivers' dispute a month ago.

Tomorrow, John L. Lewis and the soft coal operators begin talks on a new work contract—with another mine strike possibly hanging on the outcome. The New York conference has been arranged by the federal government to get the two sides together on an agreement before June 30, the deadline for the return of the government-operated pits to the operators, but there is little hope on any side that a new pact will be negotiated in time.

If there is no agreement, the miners are expected to leave their jobs.

Yesterday... Today and Tomorrow

There are two days in every week about which we should not worry, two days which should be kept free from fear and apprehension. One of these days is Yesterday with its mistakes and cares, its faults and blunders, its aches and pains. YESTERDAY has passed forever beyond our control.

All the money in the world cannot bring back YESTERDAY. We cannot undo a single act we performed. We cannot erase a single word we said, YESTERDAY is gone.

The other day we should not worry about is TOMORROW with its possible adversities, its burdens, its large promise and poor performance. TOMORROW is also beyond our immediate control.

TOMORROW'S sun will rise, either in splendor or behind a mask of clouds, but it will rise. Until it does, we have no stake in TOMORROW, for it is as yet unborn.

This leaves only one day - TODAY. Any man or woman can fight the battles of just one day. It is only when you and I add the burdens of those two awful eternities-YESTERDAY and TOMORROW that we break down. It is not the experience of TODAY that drives men mad - it is remorse or bitterness for something which happened YESTERDAY and the dread of what TOMORROW may bring.

Let Us, Therefore, Live But One Day At A Time.

If any one wants to stop drinking or knows of any person who may want to stop, please write - Alcoholics Anonymous, Post Office, Gen. Delivery. All names are absolutely confidential and all letters will be promptly destroyed.

Veterans Service

Any veteran in need of service (free of charge) in any of the following categories is requested to visit the office of the responsible agencies listed below.

Adv.

Hollywood

HOLLYWOOD—"The Sea of Grass" takes its title from the wind-waved miles of prairie-grazing land, which Spencer Tracy seems to love more than Katharine Hepburn, his pretty wife from St. Louis.

Tracy, the rock-jawed and wealthy cattle baron, despises and persecutes the settling farmers because they spoil his cow-fencing domain. Opposing him is the farmer's lawyer friend, Melvyn Douglas.

Fed up with Tracy's cruelty to a farm family, Miss Hepburn flees to Denver and, some time after a fadout kiss from Douglas finds herself with a child. The stigmatized boy grows up to be wild and reckless Robert Walker. Miss Hepburn separated from her embittered husband, her son and her daughter, suffers and suffers through the years but without apparent cause.

"Grass" is two hours and five minutes long and seems every minute of it. The only comedy relief is provided by dependable Edgar Buchanan as the ranch cook.

This is Douglas' first picture after more than four years in the Army. Prairie scenes were filmed on 35,000 acres of grassland near Valerius, Neb.

Phyllis Calvert, beautiful British actress, makes her American film debut in "Time Ourselves" a movie based on Rachel Field's novel about a New England sea captain's family.

The gruff old mariner, Leo G. Carroll, wants his son, Robert Hutton, to follow the family sailing tradition, but the son, who both wants to be a concert pianist.

Miss Calvert, his foster sister, who returns with a rich man's daughter as his wife, whose giddy interference with his work drives him to drink. Again Miss Calvert comes to the rescue.

All this is grim and humorless stuff but well acted. Ella Raines is Bob's sister, Eddie Albert a hard and practical man, John Abbott a cynical music critic. The role of Aunt Melinda is played by Lillian Fontaine, mother of Joan Fontaine and Olivia de Havilland.

If you missed the tuneless and generally uninteresting "Alexander's Ragtime Band" seven years ago, you can see it now during reconstruction by 20th Century Fox. Tyrone Power, looking slighter than now, leads a jazz band. Alice Faye is his singer, Don Ameche his pianist, Jack Haley his drummer.

To keep brown sugar from hardening, remove it from the paper container as soon as it is opened and store it in a tightly sealed jar. An ounce out of the jar.

Aples continued to "bleed" even after they are packed and put in storage. This apple bleed includes nectric acid and various esters which contain the delicate perfume of the fruit.

A Message To SOUTHERN BELL EMPLOYEES

The following are answers to questions which are frequently being asked the company.

Question: Does the company want employees out on strike to return to their jobs?

Answer: Yes. We have stated publicly that we are anxious for our employees to return to their work. Nearly 4 thousand employees have returned since the strike began. The company feels that all employees, management and non-union, have a duty and obligation to render adequate telephone service to the public. The company tried to avoid this strike. It made an offer before this strike began to arbitrate wages by allowing an impartial group of citizens in the south to determine whether or not Southern Bell wages compare favorably with other wages in this region, with both sides to abide by the decision. That offer is still open to the union.

Question: Will employees who return to work after the strike occupy a more favorable position with respect to seniority, continuity of service, wage progression or otherwise, than those who return to duty during the course of the strike?

Answer: No.

Question: Does the company have an agreement or does the company expect to make an agreement with the union under which the company through payroll deductions will collect fines that may be assessed against individuals by the union.

Answer: The company has no such agreement with the union and its policy is opposed to the making of such an agreement. Since there is no union shop or other form of agreement making union membership a condition of employment the assessment and collection of fines is a matter between the union and the employee.

Question: Have those employees who have returned since the strike begun suffered any loss of seniority or break in the continuity of service?

Answer: No. Those employees who have returned have done so without any loss of seniority or break in service.

Question: What is the position of the company on the union shop?

Answer: The company has publicly stated its position that membership or non-membership in union should not be a condition of employment and has stated its pol-

icy being that of opposition to any form of company-union agreement under which membership in a union, or payment of dues to a union would be a condition of employment. Moreover, the union shop is unlawful in some southern states.

FEDS WIN TWO, DROP ONE TILT OVER WEEKEND

By ARTHUR BECKWITH, JR., Herald Sports Editor

The Sanford Celery Feds fared well over the weekend as they won two contests and dropped one. Friday night the locals downed the Daytona Beach Islanders in the resort city by a 12 to 5 margin. Saturday night in a return engagement at the Municipal Park the Feds were tripped by the Islanders in a heart-breaking 6 to 5 contest.

Yesterday the locals posted a defeat on the league leading St. Augustine by a 5 to 2 margin. The Saints' two markers came in top of the ninth.

Big Bill Stanton worked on the hill for the Feds in the contest with the Saints yesterday, and tossed a masterful contest. Stanton allowed but three hits as he went the entire route.

In trouble but once, Stanton was the king of the Saints all the way. Only two visitors advanced as far as the keystone Anderson in the eighth and advanced to second on an infield out by pitcher Rocco Rotunno.

The Saint runs came in the ninth. Manager Don Anderson singled to center and advanced to second as Paulick was safe on an error by Johnny McManus. In an attempt to catch Anderson off second, Martin was tossed to second and hit Anderson with the sphere, allowing both runners to advance.

Kristie dropped a slow roller to shortstop Lastris and was thrown out. Paulick scored on the play. Paulick scored on the infield out. Paulick scored on a wild pitch by Stanton.

The Feds opened hostilities in the second as Manager Buddy Lake drew a free pass, went to second on an infield out and scored on a triple by Don Ricketson. Ricketson tallied on another triple by Jerry Silverman. Silverman crossed the plate when Zuba singled.

Fashion Show Opens Season in Berlin

AP Newsfeatures - BERLIN—A tendency toward better materials and a determined effort to ape American (Paris and London) styles characterized the opening fashion show of the Berlin season. A number of American wives attending saw suit, coat and dress models with such U. S. inspired names as "Florida," "Manhattan," "Martini," "Look at Me," "Caroline," "Sweet," "Tip-Top," "SOS," "Little Girl," "Texas," "Regatta" and "Yacht Club." International influence was added by "Budapest," "Cambridge," "Piccadilly," "Bern," and "London-Paris" numbers.

Vermont has a base of white wine, fortified with alcohol and then aged for a year or more in wooden casks.

Fighters Made Of Baby By Scientists

AP Newsfeatures

If your baby grows up to be a prizefighter, you can thank the research scientists of the Toy Association, who have discovered that the newest and best thing to develop Baby's biceps is a crib-size punching bag.

The bag claps firmly on the bars of crib or playpen and provides His Majesty with a miniature punching ball which is safe, soft, yet resilient enough to respond to baby-size punches.

The researchers have been busy this year determining just what toys are scientifically suited to the proper development of the crib set, says H. D. Clark, secretary of the Toy Association. There's the matter of rattles, for instance. The post-war rattle comes in a variety of new shapes, and makes different sounds, to educate your offspring's sense of hearing as well as manual dexterity.

Toylans has developed a number of devices to develop the manual skill of the diaper brigade. There's a long necked stuffed swan that has big baby appeal because baby hands can grasp the long neck easily and the plump body is fine for cuddling.

A new line of dolls and animals made of sponge rubber with a special jersey-like covering are eminently suitable for bathtub play; they dry quickly and are ready for crib or carriage use.

Now that material shortages have eased, Toylans again caters to baby's love of different textures—stockinette dolls, plush teddy bears, wooden quack ducks and smooth rubber and plastic toys. The return of good quality rubber has made available an abundance of colorful rubber balls and animals, beloved by the crib set.

American toy manufacturers are realistic about the fact that baby puts everything in his mouth, and have chosen paints and designs which are completely safe for young teeth. There are no loose parts or sharp corners.

LEGAL NOTICE

NOTICE TO APPEAR: ARCHIE WILLIAMS, who residence is Westgate, Long Island, New York, and whose mailing address is P. O. Box 638, Westgate, Long Island, New York.

YOU ARE HEREBY NOTIFIED that there has been instituted and is now pending in the Circuit Court in and for Seminole County, Florida, in Chancery, a suit against you for absolute divorce wherein you Archie Williams, are the respondent, and Clara Marian Hall Williams is the complainant, and an abbreviated title to the case is CLARA MARIAN HALL WILLIAMS, Complainant, vs. ARCHIE WILLIAMS, Respondent.

Artists Of Central Florida Hold Exhibit At Rollins College

WINTER PARK, Apr. 28 (Special)—Painters and sculptors of Central Florida are exhibiting their work at the Morse Gallery of Art, Rollins College. The show opened yesterday and will continue through May 11.

Florida landscapes and semi-tropical flowers keynote the exhibition. Outstanding among the landscapes are "Cypresses on Lake Norris," by Harry Worthman; "Summer," a landscape with palmetto hammock by Florence Hudson; and "Florida Lake," by Lu Halstead Jerome.

"Royal Poineiana," by Wilhelmina Greene; "Marmola," by Kathryn Vinton Williams; and "Milk and Wine Lily," by Irma Fisher, illustrate the beauty of Florida's semi-tropical flora.

Exhibiting in the show are: Rosemary Bage, Mrs. Elizabeth Calver, Mulford Foster, Pauline Garvin, Alison Fraser Hill, Florence Hudson, Mrs. Lu Halstead Jerome, Mrs. Blance Jones, Mrs. Harrie Klotz, Maxwell Tibor, Marian McCall, Pataky Tibor, Mrs. Maybelle Pennington, Josephine Reid Regan, W. van Anden, Mrs. Blenms Williams, Miss Edith Fairfax Davenport, and Mrs. Malcolm Fraser of Orlando.

Also: Doris Bigelow, Virginia Keep Clark, Eugene Coleman, Martin Dilmer, Leonard Dyer, Ullric Fisher, Irma M. Fisher, Wilhelmina Greene, Mrs. Florence Hudson, Tracy Hoppin, Victoria Huntley, Edith Tadd Little, Mrs. C. D. Moon, Miss Louise McCormick, Mrs. Mildred Pelzer, Ruth Doris Swett, Mrs. Josephina Whitney, Adele Whitfield, Harry Worthman, William Krusen and Ruth Sherwood of Winter Park.

Also: Newton Merrill and Harold McIntosh of Maitland; C. E. Shaw of Eustis, and Miss Edith Fairfax Davenport of Zellwood. The gallery is open from 3 to 6 P. M. on Sundays and 2 to 5 P. M. weekdays. The public is cordially invited to attend.

REWARD! 5,000.00

A \$5000.00 cash reward is offered by Dr. Neff to any person or persons that can prove that Dr. Neff uses any plants, stogoes, decoys or confederates of any kind in any of his audience participation illusions and scenes in "Madhouse Of Mystery" the magic-spooks extravaganza coming (on the stage in person) to the RITZ theatre for ONE MIDNITE SHOW ONLY, FRIDAY, MAY 2nd.

Dr. Neff, in offering this reward hopes to erase from the audience's mind the common conclusion that any audience participation scenes presented by any magician is a pre-arranged affair. Dr. Neff's "Madhouse Of Mystery", is one show where the boys and girls who come on the stage to assist or watch the performance from close range are strictly on their own and every one is welcome.

### HELPS KIDNEYS

Remove Harmful Impurities  
Backache, loss of the old pep, getting up at night, and headache are often caused by nothing more than improper kidney action due to excess acid in the urine. The kidneys are one of Nature's ways of removing impurities from the blood. And when these impurities back up, trouble may start.  
So if you have these troubles, give your kidneys and bladder a good flushing out by taking Dr. Kilmer's Swamp-Root. It works on the kidneys to flush them out, increasing the flow of urine to help relieve that excess acidity and ease that burning sensation when you pass water. For a trial supply, send to Dept. X, Kilmer & Co., Inc., Box 1733, Stamford, Conn. Or—get full sized bottle of Swamp-Root today at your druggist.

## FACTOGRAPHS

The fine Gothic church of Notre Dame, at Mantua, France, occupies the site of a prior church which was burned by William the Conqueror in 1087. He destroyed the town but here received the injury which caused his death.

The first painting by Whistler to be acquired by a public gallery was his portrait of Carlyle which was bought in 1891 by the city of Glasgow, Scotland. The Luxembourg bought his "Portrait of Whistler's Mother" at about the same time.

New York City had its first fireboat in 1800. It was called "Floating Engine" and was a powerful hand-operated pump mounted on a scow. The vessel had hose, hooks and pipes and was manned by 12 oarsmen who responded to alarms with other members of the fire department.

Archaeologists have discovered evidence that decorative glass bottles were in use in Egypt more than 4,000 years ago.

The Gonds, a Dravidian people inhabiting mainly the central province of India, are said to have formerly offered up human sacrifices to their gods, but now instead they sacrifice an image of straw.

The book "Uncle Tom's Cabin" was first published in the Washington National Era, a noted anti-slavery paper, which was published by Gamaliel Bailey in 1847.

Among the Gonds of India the worship of such plagues as smallpox, cholera, etc., prevails, and many reverence the dog, horse and tiger.

"Old Man Eloquent" was a sobriquet for John Quincy Adams, sixth president of the United States.

Chlorine, a derivative of salt, is used both as a poison gas in warfare and as a purifier for water.

## Union Hails Offer Of Bell Unit As Break

Contract Discussions Between Lewis And Operators Start; June 30 Is Deadline

WASHINGTON, Apr. 28.—Leaders of the striking telephone unions today hailed the pay boost offer by Northwestern Bell as a break in resistance to their wage demands in the nation-wide tie-up, now in its 23rd day, but officials of three other key Bell units give no evidence that they plan a general wage offer as they return to government-sponsored negotiations in Washington.

On the other hand, Assistant Vice President George Dring of the American Telephone and Telegraph Company said he has the power to make a wage offer to the long lines workers, but only, Dring says, if he decides the offer is fair and reasonable thing to do. The union have been contending that Dring came into the negotiation sessions without that power.

Federal conciliators, company officials and union representatives began again today in the continuing efforts to end the 22-day-old nationwide telephone strike. A new session began at noon at the Labor Department following a day in which hope for an end to the strike ran high for a time and then waned.

Still the major obstacle to a settlement in the negotiations in Washington are two factors. These are:

- (1) The union's insistence on a dollar-and-cents wage offer from the Bell System companies and
- (2) The company's firm stand that the wage dispute be arbitrated.

These obstacles are said to have frustrated a stormy session at yesterday's daylong conference. A Bell System official has asserted that the situation now stands just where it was ten days ago.

But this view seemingly is not shared by President Joseph Bieren of the striking Federation of Telephone Workers. In a nationwide broadcast, Bieren has declared that the end of the strike is now closer than at any time since the 22-day-old strike began.

The Federation president asserted that the \$100 a week wage increase the striking unions are demanding is not unreasonable.

Dr. Quillman revealed that the tuberculosis mobile x-ray unit will be in Seminole County from June 3 to June 12 at which time it is hoped to x-ray every adult in the county. Children under 15, he explained, will not be x-rayed at this time unless there is a history of tuberculosis in their particular family.

Mrs. Grace Zimier, field secretary for the State Health Board, commended the work being done by the Seminole County Tuberculosis Association especially in the case of those thousands of population who have been gaining ground by leaps and bounds during the past ten years, and as a result the number of cases per thousand of population has been tremendously reduced.

Local delegates at New Smyrna Beach were James Huff, Pat Johnson, Roy Gordy, William Savard, Earl Dossy, William Hardin Benjamin, and J. E. Baker, Ocala, as district chaplain and John Scazzah, DeLand. Installations will take place at Sarasota, June 15.

The last board of the plane was a radio message from the C-54 transport, in which the plane said that it was preparing to come in for a landing. The accident index state that the plane probably was over Vanuatu Island. However, it was later reported that the plane had crashed in the Pacific Ocean.

## Taft Attacks Snyder For Tax Rebuff

Prediction Made Taxes Could Be Slashed \$4,000,000,000 And Debt Payment Made

WASHINGTON, Apr. 29.—Republican Senator Robert Taft of Ohio said today that Treasury Secretary John Snyder is refusing to revise federal income estimates for next year "for fear they may show a surplus which would justify a tax cut by the Republican Congress."

Taft predicts in a statement that taxes can be cut almost \$4,000,000,000 a year simultaneously with a \$4,000,000,000 payment on the national debt, with the proviso that Congress holds spending \$4,000,000,000 or \$5,000,000,000 for the previous year's estimate of \$37,500,000,000 for next year.

The Ohio Republican asserts that Snyder's estimate of revenue for the current fiscal year has proved almost \$4,000,000,000 wrong and that consequently, estimates submitted at the same time for 1948 also are wrong.

Taft asserts that President Truman has opposed all suggestions of tax reductions, adding: "President Truman's record on prices and wages all seem directed toward preventing a tax cut by the Republican Congress, although such a cut is necessary."

Meanwhile, Republican Senator Arthur Vandenberg of Michigan introduced a bill to amend the National Tax Code to broaden labor legislation in the Senate. Taft is backing an amendment to the labor bill which would allow private employers to seek injunctions against jurisdiction, strikes and secondary boycotts.

Vandenberg declines to comment on Taft's bill, but says he is a member of the committee to amend the bill.

Dr. T. C. Black, assistant superintendent of the State Tuberculosis Sanatorium at Orlando, told the 35 members present that medical science knows all that is necessary to be known in order to eradicate tuberculosis completely. All that is needed is to put into practice the means of detection and methods of cure already known.

Dr. Quillman revealed that the tuberculosis mobile x-ray unit will be in Seminole County from June 3 to June 12 at which time it is hoped to x-ray every adult in the county.

## State Senate Gets Record Money Bill

Appropriations Measure Exceeds Requests Of Commission By \$5,500,000

TALLAHASSEE, Apr. 29.—The Florida House of Representatives today passed a bill authorizing \$29,269,000 for the fiscal year 1948, a record for the state.

The measure was introduced by House Speaker J. P. C. Sells and passed by a vote of 70 to 10.

The bill provides for an increase in the state's general fund from \$29,269,000 in 1947 to \$34,769,000 in 1948.

The bill also provides for an increase in the state's special fund from \$1,000,000 in 1947 to \$1,500,000 in 1948.

The bill also provides for an increase in the state's debt service from \$1,000,000 in 1947 to \$1,500,000 in 1948.

The bill also provides for an increase in the state's education fund from \$1,000,000 in 1947 to \$1,500,000 in 1948.

The bill also provides for an increase in the state's health fund from \$1,000,000 in 1947 to \$1,500,000 in 1948.

The bill also provides for an increase in the state's highway fund from \$1,000,000 in 1947 to \$1,500,000 in 1948.

The bill also provides for an increase in the state's water fund from \$1,000,000 in 1947 to \$1,500,000 in 1948.

The bill also provides for an increase in the state's other funds from \$1,000,000 in 1947 to \$1,500,000 in 1948.

The bill also provides for an increase in the state's total fund from \$30,269,000 in 1947 to \$36,269,000 in 1948.

The bill also provides for an increase in the state's total debt from \$1,000,000 in 1947 to \$1,500,000 in 1948.

The bill also provides for an increase in the state's total education fund from \$1,000,000 in 1947 to \$1,500,000 in 1948.

The bill also provides for an increase in the state's total health fund from \$1,000,000 in 1947 to \$1,500,000 in 1948.

The bill also provides for an increase in the state's total highway fund from \$1,000,000 in 1947 to \$1,500,000 in 1948.

## Wallace Predicts U. S. Depression

U. S. Will Face Economic Crisis Unless Action Taken

WASHINGTON, Apr. 29.—Henry A. Wallace, former vice president of the United States, today predicted a severe economic depression for the United States unless action is taken to avert it.

Wallace, speaking at a luncheon in New York, said that the United States is facing a "grave economic crisis" and that the only way to avert it is to take "drastic action."

Wallace said that the United States is facing a "grave economic crisis" and that the only way to avert it is to take "drastic action."

## Marshall's Report Of Meeting Draws Favorable Comment

Vandenberg Lauds Attitude Of Realism; Soviet Newspapers Reflect Optimism

WASHINGTON, Apr. 29.—The House today voted to slash a \$238,000,000 foreign relief fund bill. The House action has cut the bill down to \$200,000,000.

Meanwhile, the Senate Foreign Relations Committee, by a unanimous vote, approved the bill authorizing relief for European areas and China.

The reaction is not in from all corners of the Secretary of State. George Marshall's report to the nation on the Moscow conference, but first congressional comment was favorable. His radio broadcast to the nation last night served as notice to Russia that the United States intends to work for speedy recovery of Germany, despite Premier Stalin's contention that compromises will be reached, eventually, after all Big Four powers have won themselves out in disputes.

## Various Leaders Reveal Policies For World Peace

Bevin Urges Patience; Stassen, Forrester Want Powerful U.S.

LONDON, Apr. 29.—High Foreign Secretary Ernest Bevin returned to London by plane today from the foreign ministers' conference in Moscow and said he is not unduly optimistic about international affairs.

In New York, former Minnesota Governor Harold Stassen said the peace can be won in the world but at least a generation of American youth must be raised to work for speedy recovery of Germany, despite Premier Stalin's contention that compromises will be reached, eventually, after all Big Four powers have won themselves out in disputes.
