NUMBER 285

FORCES OF OCCUPATION HINDERED IN EVERY WAY BY ACTS OF SABOTAGE

GERMAN AUTHORITIES ARE IN LEAGUE TO PUT PLANTS OUT OF COMMISSION

FRENCH TO ACT

And Will Adopt Extreme Measures to Prevent Shutting Down Utility Plants

(By The Associated Press)
ESSEN, Feb. 24.—Extra precautions to guard public utilities in the Ruhr have been taken by the Franco-Belgian authorities because of an order issued by General Wilhelm Geuser, German minister of transportation to the striking railroad workers to cut off gas, water and electric light power wherever possible. According to information in the hands of the French intelligence staff the strikers have been given a peremptory order to perpetrate acts of sabotage of this kind immediately at various points so as to hinder in every conceivable way the forces of occupation.

The German customs house in the Ruhr was taken over yesterday, the German officials being replaced by customs officers from France. Gradually all the Germans in the customs service in the occupied area are to be let out, and in a few days the French and Belgians will be in complete control. No serious incidents arose over the day's procedure. At Spier, however, the German customs chief refused to vacate his office. He was arrested by French guards and taken to a German prison.

The German authorities refused to accept the prisoner, whereupon the prison director himself was arrested by French soldiers and locked in his own jail with the customs chief as a companion.

The telephone and telegraph strike in the Ruhr is beginning to spread to the Rhineland. At Mayence yesterday the postal workers refused to serve the French. Consequently the post office was occupied by French troops. Almost immediately the mail, telephone and telegraph employees quit work and the German population is now without wire communication to outside points. Strikes are still increasing here and at other points in the occupied region.

Several shooting affrays were reported in the various parts of the Ruhr yesterday. At Oberhausen there was trouble between the security police and French gendarmes who were disarming them. One of the police was killed and another wounded. In Witten a German workman who was attempting to kill a soldier was shot and killed.

BERLIN, Feb. 24.—The French occupying forces yesterday dissolved the meeting of the municipal council of Bochum and arrested the Oberbürgermeister and 22 members of the council. They had refused to carry out the French orders regarding delivery.

Ten tanks were stationed outside the town hall while the arrests were being made.

ESSEN, Feb. 24.—Nine Germans have been shot dead, including one child, and 13 seriously wounded by the military forces of occupation since they entered the Ruhr early in January, according to figures compiled by authorities here.

Two hundred and seventy persons are known to have been arrested; 97 arrested and then deported; 396 deported immediately without other formalities and 10 officials removed from office, according to this statement.

More than 100 other persons whose names are unknown, have been reported arrested, it is added.

Pensacola Boosters Were Here Yesterday

The party of Pensacola Boosters, 52 in number, stopped off at Sanford on Friday afternoon en route to lower west coast points. A delegation from the Sanford chamber of commerce was at the station to extend them a welcome to Sanford. Unfortunately their itinerary did not permit their making a longer stay at Sanford. Before leaving, however, a generous supply of celery was placed aboard their special car with the compliments of the Chamber of Commerce.

CELERY GROWERS FEELING FINE OVER PROSPECT

Weather Has Been Great and Market Getting Easier

The unusually low temperature which prevailed throughout the state during the past week proved of decided benefit to the growers of the Sanford district, permitting them to hold their crops for a much longer period than would have been possible had the previous warm spell continued. Shipment of celery to date is 288 cars in excess of last year. At the time the California crop had been frozen and there was a greater market for the Sanford product. This year, however, California has had an unusually large production and this, together with the large movement from Sanford has not been conducive to maintaining favorable prices. With the advent of cold weather and the conclusion of the California shipments this week, prospects for stronger markets for the Sanford product in all markets are extremely favorable. The damage resulting from the cold weather was negligible. Early peppers, squash and beans and a few tomatoes being all that were affected.

PRESIDENT IS WRITING NOTE TO CONGRESS

WILL BE IMPORTANT DOCUMENT —CONTENTS ARE UNKNOWN

(By The Associated Press)
WASHINGTON, Feb. 24.—President Harding is engaged today writing a note which is described as an "important communication to congress." White House officials declined to indicate the subject and beyond announcing it would be an important document and would be forwarded later today all information was withheld.

BANK CASHIER SHOT AND KILLED BY BANDITS

Mount Pleasant, Ohio, Bank Visited This Morning

(By The Associated Press)
YORKVILLE, O., Feb. 24.—Harry Price, cashier of the People's Bank at Mount Pleasant, Ohio, was shot and killed by two robbers shortly after the bank opened this morning, according to reports here. The robbers escaped in an automobile in the direction of Steubenville.

STEUBENVILLE, O., Feb. 24.—A sheriff's posse armed with machine guns and rifles left here this morning hoping to intercept the bandits who held up the Mount Pleasant bank and shot the cashier. The cashier was shot after he had complied with the order to put up his hands, according to another bank employe who fired at and wounded one of the fleeing bandits. So far as could be determined no funds had been taken by the bandits.

Bandits Rob Factory at Petersburg, Va., Get Ten Thousand

Pay Roll Was Taken from Safe After Gagging the Watchman

(By The Associated Press)
PETERSBURG, Va., Feb. 24.—Six masked bandits forced an entrance to the Seward Trunk and Bag factory here early today, bound and gagged the watchman, broke open the vault and escaped with ten thousand dollars.

The money was in small envelopes ready to be paid to the employes at the factory today. The robbers, officials believe, entered the building by a side door. The lock on one of the doors was tampered with and it is thought a key was used in gaining admission.

SENATE AND HOUSE APPROVE WAR DEPARTMENT APPROPRIATION BILL RIVERS AND HARBORS

Senator Fletcher Cited in Detail the Needs of River and Harbor Improvements

(By P. H. McGowan)

WASHINGTON, Feb. 24.—The senate and house have approved the annual war department appropriation bill and it is now before the president for final approval. Included in the bill is an appropriation of \$56,000,000 recommended by the Chief of Engineers for the improvements and maintenance of river and harbor projects heretofore adopted by congress, representing an increase of \$29,000,000 over the estimates submitted by the Director of the Bureau of the Budget for the next fiscal year.

During the debate in the senate this proposed increase was vigorously attacked and opposed by senators, some of whom went so far as to accuse their colleagues of sponsoring "pork barrel" legislation.

Senator Fletcher, of Florida, in an able defense of the proposed increase cited in detail the report and recommendations of the Chief of Engineers and the hearings on the bill before the senate committee on commerce, of which he is the ranking Democratic member, and showed the need for the completion and maintenance of existing projects, and the ultimate economy of following that course. He stated that for the period of one hundred years during which the government has been improving the rivers and harbors of the country congress has never, with possibly one exception, adopted a project not favorably reported by the Board of Engineers for Rivers and Harbors, which is charged with the duty of carrying out the work from the preliminary examinations and surveys to the completion and maintenance of all projects adopted.

In the course of his argument in defense of the proposed increased appropriation, Senator Fletcher said: "In my judgment, Mr. President, no money is expended out of the Treasury of the United States that is so thoroughly safeguarded as the money we expend on rivers and harbors. You may call it 'pork barrel'; you may try to discredit it; you may call it a trading proposition, or what you may, but there is absolutely no instance where money appropriated by congress and expended out of the Treasury is so well protected and safeguarded as

the money appropriated for rivers and harbors.

"It will be borne in mind that the engineers are officers in the United States army. They hold life positions, subject to good behavior. They are not subject to any wire pulling or hauling or political influence. They do not hold their positions at the instance of any member of the House or Senate, or under any conditions that make them subject to any sort of influence. It is their business to determine the merit of each proposal from the standpoint of the government. If we reduce the appropriation from \$56,000,000 to \$27,000,000 we cannot go on with the work on these approved projects in any orderly, economical or proper way. We may take care of the maintenance provisions, but we cannot go on regularly with the improvement.

"Those who are proposing this reduction are against this sort of expenditure. They have been all along; but I take it they will not undertake to reverse the policy of this government, which has been in effect for a hundred years, that the obligation and duty of the government is to take care of these highways of commerce over which the government has jurisdiction. The states cannot do it, individuals cannot do it, because these are navigable waters under the control and jurisdiction of the federal government. Now it is proposed to reduce this expenditure to an amount which will be ineffective, and will not carry out the policy that has been adopted by congress, and which can only be put into effect by certain expenditures of public funds. That provision is made here in the House bill. Those who propose to reduce it will cripple the whole work, so that we had almost as well not make any attempt to carry it out."

It is reported in the press that while the president will approve the bill, he will direct that not more than \$27,000,000 of the \$56,000,000 be expended during the next fiscal year for the completion and maintenance of the River and Harbor projects heretofore adopted by congress, but in the judgment of Senator Fletcher that would be an absolute assumption of authority on the part of the president, and the senator does not believe he has any such purpose in mind.

LOCATION OF LIBRARY; OWNERSHIP OF UTILITIES, AND NEW ATHLETIC FIELD

Were Live Subjects Taken Up By the Chamber of Commerce Yesterday

The weekly meeting Friday of the Board of Governors and the members of the Chamber of Commerce was an unusually long one, due to the number and importance of the matters brought up for consideration and action. The location for the new public library building was thoroughly discussed. Due to the objection of a number of property owners adjacent to the park, in which it was originally proposed to place the library, the matter of location has been one of considerable contention. The city commissioners have been hoping that the Library Association and these property owners would compromise on the situation. It was decided at the meeting that the Library Association be asked to definitely advise within ten days a location for the library. Several sites were suggested which could be purchased, and inasmuch as the amount voted in the bond issue for the library did not include the cost of a site, it devolves upon the library association, which has the necessary money for this purpose to arrive at a decision.

The subject of an athletic field for Sanford was also discussed. Report of the committee appointed to secure this project contained recommendations for the purchase of the old aviation field. This recommendation was approved and referred back to the committee, with the suggestion that a concrete proposition for the purchase of this site be submitted at the next meeting.

The ownership of public utilities was

another important subject engaging the attention of the meeting. A recent visit of J. G. White, President of the Southern Utilities Company to Sanford was primarily for the purpose of negotiating with the city for the purchase of the water works. There is a strong local sentiment, however, that the commissioners take immediate steps to secure not only the water-works, but in addition the gas and electric light plant, and the meeting went on record to this effect. The city commissioners will also be requested by a special committee from the Chamber of Commerce to immediately take whatever steps are necessary to secure a reduction in the rates for light and power. Recent statistics gathered by the organization show that Sanford is paying a higher rate for this service than any other city of similar size in Florida.

Anti-mosquito day, which was scheduled for February 21st, has been postponed at the request of State Health Officer Simonds to Wednesday, March 7th, and the Chamber of Commerce anticipates that the responding benefits will be even greater than those obtained in other cities where similar programs have been carried out. Featuring this day will be a mass meeting in the evening, at which time property owners and tax payers will be requested to attend the meeting for the purpose of hearing addresses on the bulk-heading of that portion of the lake front from the Volusia County Bridge to Mallowville avenue, a distance of approximately 4

BIG LOT SALE BEGINS MONDAY

The big sale of "Flora Heights" will be in full swing next Monday morning, February 26th at ten a. m. At that hour it is the purpose of the management to have some free-for-all draws. It will therefore be well for all who wish to be in on the very first draw to be present by nine a. m. in order to be registered by the opening time. The prices are all on the lots and the streets are marked so investors can look the proposition over intelligently between now and ten a. m. Monday, when the sale will be on. Please bear in mind when you desire to purchase a lot to have the ticket from the stake in front of that lot with you at the clerk's office on the ground where settlement will be made, you will then receive a purchaser's ticket and participate in the purchaser's drawing during the rest of sale except where eliminated from further drawing by having been successful in drawing a new crisp twenty dollar bill or a new crisp fifty dollar bill as the case may be.

It might also be well to look over the entire property before deciding just which lot you desire. My judgment is in favor of some of the lots in line with where Judge Housholder centrepieces building and where Mr. Caraway now lives. This is on the west facing east on "Lain Way" which is eighty feet wide and a nice distance from the rapid traffic on Sanford avenue. I took my wife back there and called her attention to the beauty and advantages of this more retiring position as being to my notion and she quite agreed with me. Encouraged by this Mr. Taylor and others who came to see me while working on the property, I also called their attention and they said, "Guess you're right." There is one lot No. 10, as I remember in Block 5 that I especially appealed to me. It is on the corner of "Palm Way" and "Rose Drive" faces the east and has as fine a little garden spot as one could wish. My wife, like women folk, says: "Yes and it would grow fine roses, wouldn't it, tho'?" Sounds like a woman, doesn't it? Oh yes, I have marked three lots with special prices as I stated in my advertisement. It would be a wise thing to look these up, pull off the tag and bring it to the secretary's office and you have secured a bargain on same terms as the others, with the exception that only one of these bargain lots will go to one purchaser, whereas otherwise a purchaser can have as many as desired—yes and with this bargain lot you will receive a ticket in the purchaser's box participating in the drawing for these valuable bills which to put it in the language of Chief Killebrew, "Any of that money will buy grins."

Well now I have told you enough for this time, tho' at the sale Mrs. Check will have further interesting news. Come on early and we will have a good time together.

J. E. SPURLING,
Owner.

P. S.: Please do not be excited for fear of missing a draw if you are looking over the lots on the morning of the sale. The bill will ring before we draw a sufficiently length of time to enable all to gather before the drawing takes place.

Senator Underwood May Be Candidate For President 1924

HAS GIVEN MATTER VERY CAREFUL CONSIDERATION AND COUNTED HIS MONEY

(By The Associated Press)
WASHINGTON, Feb. 24.—Senator Oscar G. Underwood, of Alabama, the Democratic floor leader in the senate, may again be a candidate for the Democratic presidential nomination. He has informed his friends that after "very careful consideration" to the many suggestions to enter the race in 1924 for the nomination of the party.

This project, which has long been a vision of the progressive element of the city, if permitted to be developed, will serve a two fold purpose of giving Sanford one of the most beautiful waterfront driveways in the state and will also eliminate numerous breeding places for mosquitoes. It is proposed to have whatever legislative action necessary prepared and submitted to the meeting, at which time the true sentiments of the people can be obtained.

Sanford Men Take Memberships In Water League

FIVE THOUSAND MEMBERS WILL BE SECURED FOR WATER TRAFFIC LEAGUE

The liberality of Sanford men and growers in their contributions to membership in the Central Florida Water Traffic League testifies to their enthusiasm in the movement for water highway development, which the league is fostering. The solicitors report that despite the fact that a number of business men had previously taken out a membership, they were again contributing and that several had taken out plural memberships in the league. Reports from Orlando are also most encouraging to the league officials and as the campaign progresses the outlook for securing the minimum of five thousand members is unusually favorable.

Stock Salesmen Have Hard Time Selling Stock Here

Chamber of Commerce Trying to Keep People's Money at Home

The publicity committee of the Chamber of Commerce is again ready to engage in a battle with stock salesmen who invariably invade the Sanford section when knowledge is received of the returns from the crop movement. The action of the committee last year resulted in the saving of hundreds of thousands of dollars to the county, in fact Sanford was the first city in Florida to start this campaign against vendors of doubtful securities. These high-pressure gentry have dubbed Sanford as being hard-boiled, and the Publicity Committee is justly proud of the fact that thru its efforts Sanford is organized to the extent that it is impervious to the machinations of "Get Rich Quick."

SHIPPING BILL KILLED AFTER MANY DAYS FIGHT, SENATE LEADERS AGREED

When Final End Comes Bill Will Be Defeated Says Opponent

WASHINGTON, Feb. 24.—Final disposal of the administration shipping bill which was conceded to be dead by a vote either late today or Monday was agreed upon today by the Republican and Democratic leaders in the senate. Proponents as well as opponents of the measure which had been blocked five days by filibuster agreed pending motion to take up bill on which final test will come that it will be defeated. Senator Jones, who has been in charge of the measure said it was proposed in such event to make no further efforts in its behalf.

OF THE ENTIRE WINTER WITH LESS THAN TEN ABOVE ZERO

COAL SHORTAGE BECOMES ACUTE BECAUSE HUDSON IS BLOCKED WITH ICE

(By The Associated Press)
NEW YORK, Feb. 24.—New York today shiveringly faced a biting north west wind and promised the lowest temperature of the winter with coal bins almost empty. The temperature early today was less than ten above zero and weather bureau officials declared it was due to go lower. So acute had the shortage become largely to bring coal from New Jersey because ice blocked the Hudson that the city administrator Goethals had the city on a prescription fuel basis.

C. J. RYAN OF SANFORD WILL BECOME NEW CITY MANAGER OF FT. PIERCE

FORT PIERCE, Feb. 24.—C. J. Ryan, present city manager of Sanford, has been chosen by the local city commission to be city manager of Fort Pierce under terms of the commission-manager charter recently adopted. He was selected from fourteen applicants for the position.

It is expected that Mr. Ryan will accept the position and get on the field probably within a month. He was a visitor here recently, at which time the commissioners interviewed him at length, following up the interview with personal investigations that satisfied them of his qualifications for the position of city manager of one of the East Coast's fastest growing towns.

Mr. Ryan has been city manager of Sanford since 1920. Previous to that year he was manager of the public utilities at Lake City. At one time he was connected with the U. S. Engineer's corps in jetty construction and harbor improvements at Jacksonville.

The commission has not yet appointed a city clerk-auditor-assessor nor a treasurer-collector, but expects to do so at a called meeting to be held within the next few days.

Though the commission is greatly handicapped by the lack of funds with which to do any work or employ the needed personnel of the new administration, it is hoped to get everything in good working order in due course of time.

CELERY MARKETS

LOCALS

Read the advertisements in this issue. The five merchants of Sanford are bidding for your trade and they quote you the prices. You can save money by reading the advertisements in the Daily Herald.

Weather is fine this afternoon.
Born to Mr. and Mrs. Rolla Keel a daughter.

Dr. Blackman of Lake Monroe was among the visitors to the city today.

Deputy Sheriff Stone of DeLand was in the city today on official business.

Two cars of Pensacola hoisters were here today at 2:30 enroute to points south on an observation tour.

Many people in the city today and the merchants report a fine trade for every day in the week. Advertising in the local paper is bringing results.

The Sanford Chamber of Commerce had a fine meeting today and those who think the Chamber of Commerce is not doing anything should attend these Friday noonday meetings.

Miss Mary Waters, of Atlanta, is the attractive guest of Mr. and Mrs. B. C. Waters at their home in Fort Road.

WATERWAYS DRIVE WILL BE LAUNCHED IN OTHER COUNTIES

The campaign of the Florida Waterways Traffic League will be carried into Ocala, Lake, Volusia, Clay and Putnam counties the first of the week, although the drive for new members here will not be stopped. It was said at the organization's headquarters in the Christ building yesterday.

More memberships are constantly being obtained in Orange and Seminole counties, it was said. The merchants of Orlando have been especially liberal in their support and the citrus companies are also backing up the league wholeheartedly, according to campaign workers.

Because there is no enterprise that will not share in the benefits if the waterways of the state are developed, the league is appealing to all business men and it is meeting success on every hand, a fact which will be pointed out at the hearing before the government engineers in Sanford March 16, to show that the people are greatly interested in waterways development. —Orlando Sentinel.

WOMAN'S CLUB COLUMN

Tuesday—Social Department Bridge, with Mrs. Fred Williams as hostess. Wednesday—Literature Department.

There will be a bridge party for the members of the Social department of the club on Tuesday afternoon with Mrs. Fred Williams as hostess. Phone 2303 for reservations.

March 12th and 13th the Sanford Woman's Club have the honor of entertaining the Board of Directors of the Florida Federation of Women's Clubs. The board is composed of all state officers, chairman of all departments, presidents of all clubs, past presidents of Federation. We expect to have with us at least seventy-five women from all sections of the state.

It is earnestly hoped that each club member will keep these dates in mind (March 12 and 13) and when called upon by the chairman of any one of the committees, you will be ready and willing to help to make this board meeting a success in every way possible.

We need the everlasting team work of "Every Blooming Soul". All club members are invited and urged to attend these meetings.

The chairman of the committees appointed to look after the comfort of our guests are as follows:

- Transportation—Mrs. Ed. Higgins.
- Entertainment—Mrs. McAllister.
- Music—Mrs. Hinley.
- House—Mrs. A. M. Phillips.
- Decorating Club House, Mrs. A. F. Fitts.
- Reception, Country Club—Mrs. J. M. Wallace.
- Decorating for Reception at Country Club—Miss Ruba Williams.
- Lunch—Mrs. Fred Williams.

Regular monthly meeting of the Literature department Wednesday, February 28, at 3:30 p. m.

All members are urged to be present. The annual election of officers for the year will be voted for by ballot according to the constitution.

The Daily Herald, 15c per week.

Supreme Court Today Remands Cotton of Pensacola New Trial

(By The Associated Press) TALLAHASSEE, Feb. 23.—The supreme court today remanded for a new trial the case of Herbert Cotton convicted and sentenced to death at Pensacola for the murder in April of Sid Miller, sexton of Christ church. Cotton's case came before the court on a writ of error from the Circuit court of Escambia county.

STENFER STIRS SANFORD

John Stenfer is stirring them up again today with an advertisement in the Daily Herald and his prices on all kinds of fresh and smoked meats is bringing the people in from miles around to trade here. He has the prices and he has the goods and a glance at his advertisement will convince you of this fact.

PIGGLY WIGGLY MAKES 'EM WIGGLE AND GIGGLE

See the advertisement and the prices will take you to Kanner's where you save money every time.

Attorney General Will Pass on Legality Tariff on Calcium

(By The Associated Press) WASHINGTON, Feb. 23.—The efforts of the Attorney General to pass on the legality of the tariff on Calcium Arsenate were begun at a conference between a delegation composed of Senators Smith Harris, Georgia, Representatives Crisp, Larsen, and Collier, and State Director of Markets Jackson, state entomologist Williams and Ernest Camp, chief of the division of customs of the treasury department. The delegation contended the discussion of the tariff in congress indicated it was the intention to place calcium arsenate on the free list.

WHAT DOES WOMAN'S INTUITION WHISPER?

It must be woman's intuition that whispers the coquettish tilt of her hat; stans a her elbow when she selects the shade of fabric that best complements her coloring.

But no "sixth sense" need prompt her in idealizing those lovely lines of hers. Good judgment will tell her to be fitted with a Modart Corset.

There are nearly a million women who wear just one kind of corset—the Modart—and not one will give you the usual woman's answer, "because," if questioned about the matter of corsetry.

They have very definite reasons for wearing the Modart, for it does just what a corset should do

and does nothing it shouldn't. That's the skill of Modart design. The Modart wearer has none of that constricted look or feeling.

Every type of figure will find a Modart—just the proper Modart—to bring out the ideal lines. And it fits splendidly—just smooth and perfect curves that follow the figure and the fashion as well.

Women might choose the Modart because it is so dainty and feminine and perfectly tailored. But they go on wearing the Modart because it gives so much better lines and so much more comfort than they ever believed a corset could. That is because there is no other corset like the Modart.

Your travels may take you from New York to Palm Beach, from New Harbor to the Golden Gate. Whichever you go among the gay throngs on the promenade, women more sedate in trimness, or colorful figures about the

going gown, you are sure to find Modart Corsets. Furnishing the background of your good taste is the character of delicate frocks or gowns, there always is Modart—the choice of fastidious women

Jacksonville will pass an ordinance to control firearms. If this can be done it will be the biggest thing that Jacksonville has ever put over.

Our band will play in Orlando tomorrow afternoon and the Orlando band will play in Sanford. Probably going on the principle that a "fair exchange is no robbery."

Warren Harding, newspaper man, now president, can go fishing with us when he comes to Florida. We will talk over the reasons why the ship subsidy bill didn't pass.

The Orlando Sentinel says that for the first time in the history of Orlando an attempted bank robbery took place there yesterday. We suppose Bill Glenn means by this that all the money in the Orlando banks has already been heard out to the Orlando newspapers.

We were glad to see a delegation from Pensacola here yesterday but we feel slighted that they did not stop. However we met them at the station and gave them some Sanford celery and made them feel ashamed of themselves for not stopping in the greatest city in South Florida.

This is the season of fires and while Sanford has been very fortunate in the past in this respect there is always the danger that fire will break out any time and consume part of the city or at least turn some family out of doors on a cold night or some children be burned to death. And then the property loss is usually considerable and insurance rates are too high for anyone to take enough to cover a real fire loss. Prevention is the best Watch your step.

Headlines in papers say "Democrats in Michigan consider Ford Chance." If we know anything about it Henry will have a chance and it will be a chance to spend some of that jenny money that so many other people are worrying about. It is always pleasant to put up a rich candidate—pleasant for everyone connected with the campaign except the candidate. Henry Ford will run just close enough for president to be defeated and as we have often stated Henry Ford can do more on the sidelines than he can in the game and he should be contented to stay on the sidelines. As a president he would be a good car manufacturer.

Maybe you have not noticed it, but Sanford people are getting together on many big questions of the day and Sanford in the next five years will go ahead faster than it has ever advanced before. And all factions and clans can get together under the banner of the Chamber of Commerce and under no other body of men. The Chamber of Commerce plays no favorites and is democratic to the core barring no one and admitting all citizens into full membership. And every member

has an equal right to put over his ideas at any time and every member has his say and his part to do. You are a citizen of Sanford or do you live outside of the Chamber of Commerce?

Such is the interest in canned grapefruit, steps are being taken by the Florida Citrus Exchange to increase the output, by increasing the number of canneries, in order to meet the demand. At a meeting held in Bartow, the managers of the Citrus Exchange took under consideration the erection of eight additional grapefruit canneries in Polk county. One of the canneries which will be built and put in operation in time to take care of next season's pack, will be located in the Alturas-Lake Garfield section of the county and another will be erected in the Lakeland Highlands district. Other canneries will be located at various points along the "Ridge" from Haines City, where there is already one cannery, to Frostproof, in the northern part of the county.—Florida Grower.

The old-fashioned "tramp printer" is rapidly disappearing—a modern age where efficiency and reliability are the first requisites has driven him out of existence—but newspaper folks of yesterday remember the figure quite vividly. The Montgomery Journal pays tribute to him.

We confess to a weakness and a deep sympathy for the old tramp printer. He is now in the past, but we love his memory. Often he would be so dressed, just from tiding on a train without taking the time to pay his fare, as to resemble a vagabond, one who ought to be forced to earn an honest living. But he would be with us a few days, doing his work like a gifted artist at the "case," and would soon be looking, not care-worn but happy and contented. The tramp printer, we soon came to know, was not the ordinary printer, but an extraordinary one. He could often write a better editorial than those for whom he was working, but he never made any remark that would betray his secret.

When you pay two cents for the average daily newspaper, do you realize the cost of the news it contains? If the telegraph messages in a single issue, including those of the Associated Press, were sent to you personally, it would cost you at current rates about \$142.72. This amounts to \$16,612.74 a month, or \$200,559.48 a year, against \$6 a year which you actually pay for your daily newspaper.

Thus, for \$6 a year you pick up what would cost you over \$200,000 for mere toll service alone. And no consideration is given in this estimate of the cost of sending or receiving or cost of printing and publishing.

Writing of the cost of news is not every citizen of average intelligence who reads the light and power service, do you realize what it would cost if science, invention, and business brains had been lacking? They do services for you which would necessitate thirty servants. At a low average weekly wage of \$20 this amounts to \$600 a week or \$31,000 a year. Earning this amount is equivalent to 7 cents on every dollar of income you would need a total yearly income of \$415,000.—Southern Utilities Magazine.

The citizens of Orlando own the water and light plant. It is their property, bought with their own money. They feel a deep interest in it because it so closely affects life and enjoyment in this community.

The buying of a property approaching a million dollars as a purchase price and the transforming of that property from a worn-out utility into one that is modern and capable of serving a large and growing city like Orlando is no small task. Yet the work has progressed with all the speed that could have been hoped for. It is near completion and will be one of the best plants in the state.

It has been the aim of the city commissioners to put the utility commission on a basis where it would have a fixed and legal status and would function independently of the city, though a part of the city and city business. To this end the utility commission was asked for suggestions as to how this could best be done to carry out the original purpose of keeping the management out of politics. The auditor, in making a statement for the commission, has made certain recommendations and the utility commission is now endeavoring to work out a bill to be presented to the next legislature which will fix the status of the Orlando utility commission.

Wisely the commission has provided for an extra unit in its new plant that will take care of the future needs of Orlando. The city is growing so rapidly that good economy warrants

THE HERALD'S PLATFORM FOR 1923

- 1.—A new Library Building in the center of the city.
2.—Extension of the present bulkhead on the lake shore.
3.—The new pier and boat basin finished before January, 1924.
4.—A big Auditorium that will seat at least 5,000 people.
5.—New home for the Campbell-Lossing Post, American Legion.
6.—A Community Chest out of which all funds will be drawn.
7.—Two mill tax for publicity purposes.
8.—Municipal ownership, starting with water works and soft water.
9.—Systematic mosquito campaign and cleaner city.
10.—Ten thousand people here one year from today.

this additional expenditure at this time as it can be done much cheaper now than at any other time. The city will have to extend its boundaries very soon, and additional service will thus be demanded. The foresight of the utility commission has provided for this.

The members of the commission are all good and careful business men. It is asking a good deal of them to give their time for nothing but that is what they have been doing and giving it freely. Their responsibility is no small matter. The people expect the practice of economy in every detail of this business. There are always larger expenditures than the original estimate call for. This seems to be the general case. The present will cost more than was expected, and more than was provided for, and we may as well face the music as to look for a miracle.

Just as the builder of a home employs an architect to make plans and supervise the building of that home, so the commission employs an engineer to make plans and supervise this project. The commission must be infinitely depend upon these men employed to supervise and manage the utilities to give them a thorough understanding of the work they are doing.

They are not only things. They are capable of much turning and twisting. However, a man of ordinary intelligence can tell the difference between good and profit, and the honest man will endeavor to read nothing into figures that is not there. It is just as easy to tell exactly where we live with regard to the cost of the plant. At the present time, however, there is reason to believe that the plant with its additional cost when put into full operation will yield a revenue that will pay operating expenses, interest and at the same time provide a sinking fund for the retirement of the debt. Of course, it cost more than this. It must take care of wear and tear and replacement of machinery and electrically used up material.

It is a fact that utility plants will not be a paying proposition. The city commission and the utility commission seem to be co-operating nicely for an efficient and economic management and this is what will guarantee a successful and profitable operation.

The result of the first test made by the utility commission is that the plant was a profitable investment. Profits from the entering of the water and light plants have all been taken care of the interest and sinking fund. When it is taken into consideration the plants at the time the city took them over were in a run-down condition, and the operation under municipal ownership was new to all concerned, the showing made is all the more remarkable. If the management of the plants can do as well and show as large a profit with a sick horse, what may we not expect when the new plant is in operation and production cost is cut to a minimum? Orlando Reporter-Star.

BY WAYSIDE

They say that great minds run in the same channel and my extreme modesty would prevent my saying this about this particular subject and yet it is the truth. The other day while gazing up at the great height of one of our new sky scrapers Frank Woodruff came along and asked me how I liked it and we fell into a reminiscent mood over the new projects in Sanford and the old days when there were no big buildings in Sanford and as we gazed down Park avenue to the lake Frank unconsciously called up something that I had often thought of but never even mentioned in my dreams of Sanford.

It is nothing more or less than a bridge across Lake Monroe at the foot of Park avenue and connecting with the Volusia county side at En-

FROM OTHER SANCTUMS

We have a change of momentary activities. Science is bringing many changes in both work and recreation. It is exposing the fallacies in old economic arrangements and forcing new adjustments. The old order is changing. We need to drive the old order out of the world. We need to drive the old order out of the world. We need to drive the old order out of the world.

The strenuous life may be lived without departing from the simple life. It is possible to meet the complexities of changing orders without losing the appetite for the rationalizing influence of simple living. But because too few of us find the way to do these things in the face of these amazing changes, we become bewildered by the innovations and yield to force these changes to yield to us.

In these new changes youth finds interests. These interests too often lead the youth away from home. We allow the morals of American youth to be turned down. Joy-rides are but a part of the expression of that unrest that grows out of an eagerness for new found distractions, letting them be masters of us rather than us masters of them.

The spirit of adventure is stimulated by a lighter and more prolific literature that exhibits itself on all our periodical stands. These make alluring to the untutored youth the pawnshop's exhibit of firearms.

A disrespect for law creeps in. Because a majority of our states have decreed that sobriety makes for better credits, more savings accounts, better industry, healthier bodies and happier homes, we find the constitution of the United States made the subject of jest by those who insist that "personal liberty" is worth more than any common denominator of good.

STATE BOARD ACTIVE

Never before in history have Florida municipalities been so generally engaged in the planning and building of community centers and public buildings as since the Anti-Mosquito campaign held by the State Board of Health in Daytona during last December. Mr. Simmons, the chief sanitary engineer for the board and secretary of the Florida Anti-Mosquito association says "Today there is being created throughout Florida a healthy

community action in this line of endeavor. From every direction requests for community programs are being received daily at the headquarters of the state board of health.

Announcement has just been made that the next meeting of the Florida Anti-Mosquito association would be held in St. Petersburg on March 21 and 22. At this meeting a record attendance of enthusiastic, ardent mosquito control workers is expected. The executive committee of the association is emphasizing the importance of this particular meeting; as President Porter states, "this meeting will be the opening gun of the 1923 campaign, and that community not launching constructive control measures subsequent to the St. Petersburg meeting will indeed be an unfortunate community."

This meeting of the association is being held in cooperation with the state board of health and this organization expresses the hope that every city, town, civic and development organization in Florida will attend. The cry is "On to St. Petersburg."

IN CIRCUIT COURT, SEVENTH JUDICIAL CIRCUIT, IN AND FOR SEMINOLE COUNTY, FLORIDA, IN EX PARTE

First National Bank in Orlando, a corporation under the laws of the United States of America, Complainant,
Fred H. Fitting, Defendant.

CITATION
To Fred H. Fitting, the said Fred H. Fitting being a resident of Dexter, Iowa, that there is no person in the State of Iowa,
It appearing from a sworn bill of complaint filed in this cause that you, Fred H. Fitting, are a resident of a state other than the State of Florida, and that your place of residence is Dexter, Iowa, and that you are a resident of the State of Florida, the service of a subpoena upon whom would bind such Fred H. Fitting,
Therefore, you, Fred H. Fitting are required to be and appear before our said Circuit Court at the Court House in Sanford, Florida, on the 2nd day of April, 1923, and then and there make answer to the bill of complaint exhibited against you in a foreclosure of mortgage, and to show cause why you should not be held liable for the debt of the defendant Fred H. Fitting.

Witness my hand and seal of the said Circuit Court at Sanford, Florida, this 2nd day of February, A. D. 1923.

UPSALA AND GRAPEVILLE

Mrs. Volie Williams, Mr. and Mrs. Trumond Boli and Carl Pierson were among those attending the fair at Orlando.

Mrs. Westerdick spent Monday with her daughter Mrs. Beck, as Barnwell Beck has been quite sick with flu for a few days.

Emil Magnuson motored up Sunday from Windermere, bringing some friends with him to see Upsala, calling at the home of Mr. and Mrs. Vihlen. Their nephew, George Vihlen, was one of the party.

Gardner Lundquist took a trip to Jacksonville Saturday, returning home Tuesday, visiting at the home of his brother Aaron and wife. They have a little son now, about a month old.

Little Muriel Henderson is still under the doctor's care with stomach trouble.

Mr. and Mrs. Hamil Tolar and children and their sister, Mrs. Elsie Henson of Daytona visited Sunday, with their sister, Mrs. Alma Neese and father, Mr. Malm.

Mrs. Charles Cramer and Mrs. Westerdick attended a party in Sanford on Monday afternoon with a number of other ladies, in honor of the birthday of their hostess, Mrs. Clute.

Friends of Mr. and Mrs. Lucas are sorry to hear of their illness. Mrs. Lucas has been taken to the Orlando hospital with pneumonia and he is sick with the flu. Her mother has the children caring for them.

Mr. and Mrs. V. C. Collier and his nephew, Will Collier who has been spending the winter with them were out our way making some calls on the 22.

Mr. and Mrs. Elmer Lundquist and children called to see his brother, Edwin and wife, Sunday and Mrs. J. E.

and Mrs. Hilmer Lundquist and Melva visited there on Thursday.

There was a surprise party at the home of Mrs. Alma Neese in honor of the birthday of her father, Gus Malm's seventieth birthday anniversary last Tuesday evening. Over forty were present, a number coming out from town. All seemed to enjoy the good time, nice cakes and coffee, if it was cold, and wished him long life and much happiness.

Fire burned out one of the old landmarks of Sanford last Monday, when it wiped out the old home of General Sanford on the famous Belair grove, which is now owned by S. O. Chase and occupied by Leonard Vihlen and wife and their family of five, now at home. We understand it is quite a loss to Mr. Vihlen as very little was saved. The house was insured, we hear and Mr. Chase will soon build again. It had been built some forty years ago and the grove was for a long time one of the show places in Florida. The fire started in the roof and though the fire department came out, nothing could be done. Sorry for the owners and for our neighbors. They are staying nights at the home of their daughter, Mrs. Kenneth Robbins.

Glad to hear that T. O. Tyner now has work as night watchman in one of the new buildings going up in Sanford.

B. O. Seltzer and daughter Miss Mamie of Pennsylvania but one time residents of Upsala are here for two weeks and are calling on their old neighbors on Thursday. They are staying at the Montezuma for a few days.

Earthquake Shock That Shook Pacific is Recorded Today

(By The Associated Press)
WASHINGTON, Feb. 24.—Another heavy earth shock apparently centering in the same locality as the tremendous quake that shook the Pacific February 3, was recorded early today on the seismographs of Georgetown university.

ANOTHER PAIR OF WINS CHALKED UP TO CREDIT OF THE CELERY FEDS

Games Played on Grammar School Court and Play Slowed Up Somewhat

The many fans that braved the cold weather of last night and gathered around the court at the grammar school did not see as swift or as snappy a game as they would have had on an indoor court, but nevertheless they saw a pair of victories that left no doubts in their minds as to who was the best.

The boys' game was played first, and all during the first half the game was very slow, the court being rougher than they were used to playing on and larger than the Parrish house, and when the gong sounded for rest at the end of the half the score stood 6 to 4 in Sanford's favor. It was during the second half that things picked up and the boys found their stride, both the lads from Daytona and the Celery, and when the game ended the final count was in Sanford's favor, 28 to 14.

Cowan, who had his nose injured in the last game, was out of the line-up and Peck held down his job in grand style. Smith also played a good game. Stone, who played but a few minutes, got one field goal, and the other forwards, McLucas and Moye got eleven between them, Leonard getting six and Bill five, and Vic McLaulin played in his usual form. The feature of the game was the small number of fouls called on both teams, Sanford getting no free goals and Daytona two.

This game finishes Sanford's season at home and after the last game of this year's schedule at Seabreeze to-night the Herald will publish the individual work and records for the season. The summary and line-up was as follows:

Sanford (28)	Daytona (14)
--------------	--------------

McLucas (6)	F	Cameron (4)
W. Moye (5)	F	Espadahl (1)
Stone (1)	F	
McLaulin (1)	C	Merrydell
Smith (1)	G	Merrell
Peck	G	Iulther

Free goals—for Sanford 0; for Daytona, Cameron 1, Espadahl 1. Time of Quarters, 10 minutes. Referee, Wilkinson.

Girls Game

The girls, with a little more experience on an outdoor court, playing against a team that plays all the time on an outdoor court, started things off pretty lively from the very beginning and when the curtain rang down on the finals Sanford had tucked away another victory, the score being 24 to 14. At the end of the first half the score was 12 to 3 in Sanford's favor.

Miss Tillis, coach for the girls, was laid up with the "flu" and was unable to superintend activities but Capt. Caraway took her place in an able manner until the last part of the last quarter when she was taken out of the game, having fallen on her arm. Her injuries were not serious, however. The entire team played a nice game, with Holly carrying off the honors for the evening with ten field goals to her credit. Spencer got the other two. The lineup and summary follows:

Sanford (24)	Winter Garden (14)	
Spencer (2)	F	Briley (6)
Holly (10)	F	Beckmeyer (1)
Stile	C	Mosley
Echols	C	Sadler
Caraway	G	Bell
Cameron	G	Jones
Maxwell	G	Tilden

Free Goals, for Sanford 0; for Winter Garden, Briley 2. Referee, Shanahan.

ROD AND GUN CLUB MAKE PLANS

The Sanford Rod & Gun Club held the first meeting of the season last night and made tentative plans for the big registered shoot that is to take place in Sanford this spring.

It was decided last night to hold the tournament in May if permission can be obtained from the American Trapshooters Association, of which the local club is affiliated. The dates selected have been forwarded to the headquarters of the Association and their action on the matter will be made known in a few days.

This tournament will be one of the big events in Sanford of the year. These registered tournaments are held annually and Sanford is fortunate indeed to have this one for 1923. Fully 300 marksmen and followers of the sport of trapshooting will be in Sanford for the three day shoot, coming from all parts of the state.

The weekly shoots by the local club will start on March 8th at 4 p. m. and it is expected that a great deal of interest will be shown this season as the boys will be anxious to get in good trim for the big shoot.

If you want ALL the NEWS, and want it FRESH from the wire, and want it in a legible condition, and before it gets stale, subscribe now for the Daily Herald and you will sure get what you want.

CELERY SEED

Another pair tucked away. Daytona has a nice team—but you must watch Sanford.

Game looked kinder rough in spots last night. Playing outside the boys thought they were playing basket ball.

Or maybe because they saw so many people lined up around them they thought they were in a boxing arena.

Nice game—that girls game. The Sanford girls would have played an even better game were they on the inside court, but even at that they went well. Ask Winter Garden.

Another victory tonight with Seabreeze as the victims and we will say "a season well done." Guess Coach Wilkinson will have to carry the boys right onto the base ball diamond. How about it, coach?

A base ball park for Sanford. That's what we want, and we believe we are going to get it. The Chamber of Commerce usually puts across what they start out to do, and this will prove no exception.

It's going to be a long summer if we don't have base ball—except for the golfer and the ones having a note come due every thirty days.

Had that golf lesson yet? Better get it if you want to be in the big ring this summer. There are going to be some golfers on the old links before long and you might as well be a good one, too.

Otis George leaves for the north before long and he has time yet to give you a course of lessons if you get in touch with him at once. His charge is less than most places. See him.

NOTICE TO THE PUBLIC

The Osteen Ferry will be closed to the public on and after Thursday, February 22nd, 1923, for a period of about 10 days. Bridge is in a dangerous condition and is undergoing repairs.

FOR THE MOVIE FAN

"Ebb Tide" is some picture. And if you were not fortunate enough to see it last night, see it to-night.

Mr. and Mrs. A. W. Smith and daughter, are the invited guests for tonight, and will see "Ebb Tide" without charge.

Never before was there a picture with any larger number of real stars playing as there is in this picture. And tonight is your last chance to see it.

Another big week ahead of us. It seems as if the programs keep getting bigger and better in every way every week. Get a copy of the program and give it the once over—you'll agree with us.

"The Four Horsemen of the Apocalypse" is one of the big pictures of next week. It has been shown here before, but there were ever so many that haven't seen it and for that reason, and by special request, Osborne has booked it a second time.

And the nice part of it is that he has been fortunate enough in getting this feature picture at a much reduced price. If you haven't seen it, take advantage of this time and look it over. It's worth far more than the small price you will have to pay.

FALOR IS STILL UNDEFEATED IN SLIPPER CONTEST

ST. PETERSBURG, Feb. 24.—Ralph Spencer, Oklahoma horse shoe pitching champion, did the unexpected in yesterday's round of the barnyard golf world series when he trounced Frank Jackson, the Kellerton, Iowa, farmer, twice holder of the world title, in the final game of Friday's matches, winning 30 to 30. It was by far the hardest fought and most exciting contest of the meet in which the rivals saw-sawed the entire distance, one giving way to the other through the 40 innings played. Spencer was forced to toss 43 ringers, 13 of them doubles, to win, while Jackson hooked the pegs for 43 ringers, 12 of them doubles.

Spencer's victory over his 63 year old rival, broke wide open the "big four" deadlock which leaves Frank Ladin, present champion; C. C. Davis, ex-champion, and fifteen-year-old Harold Falor leading the field with clean slates—and incidentally, the westerner has a chance to cop the title himself. He is to meet each of the leaders in today's games ending the meet while the trio of top-notchers are on the schedule for games to be played between themselves for supremacy.

Pedlam reigned during the Spencer-Jackson battle, the fans standing on their seats pulling hard for their favorites. Prior to the start of the tournament, Jackson was picked by barnyard golf followers as the logical candidate for the crown to succeed Ladin.

The three leaders and Spencer have four more games to go while Jackson is on the schedule for three.

Jackson has twenty-five victories to his credit and the one defeat of yesterday afternoon. Spencer has lost three games out of 25 played. Ladin, Falor and Davis came through their Friday games with victories, the boy having the hardest time of the three. He was pressed hard by L. M. Wilks, Michigan champion, yesterday

EVERY STATE IN UNION REPRESENTED IN FLORIDA IN AUTOMOBILES

TALLAHASSEE, Feb. 24.—There was an automobile moving in Florida from every state in the union except for, on January 24, according to a traffic report made public by the state road department, covering a check by its representatives in 23 stations throughout the state. This was the first time the department had made such a check.

ORLANDO BAND TO PLAY HERE SUNDAY IN THE PARK

Sanford Organization to Give Concert in Orlando at Same Time
Trading bands will be the order of the day for Sanford and Orlando tomorrow when the Pythian organization of this city goes to the Seminole metropolis for a concert while the Sanford band plays in Eola Park.

The exchange of concerts was suggested by the Sanford Chamber of Commerce and B. B. Cox, secretary of the Orlando chamber, announced yesterday that details of the exchange had been settled.

The Sanford band's concert will be given in the park here beginning at 3 o'clock tomorrow afternoon.—Orlando Sentinel.

LOCALS

Roy Symes and A. C. Kort of Winter Park were in the city today on a business visit. Their many friends were glad to see them.

The Orlando band will render a fine concert here tomorrow afternoon and a big crowd should greet them at Central Park at 4:15.

Mrs. H. Cigner and her two sons Allie and Herbert of Jacksonville are spending a brief sojourn in Sanford visiting their friends Mr. and Mrs. Harry Bandel.

Nice warm weather is in the offing. New York is shivering while Florida is basking in the sun.

All Rotarians going to the Theatre Jessamine at Altamonte Monday night can get tickets from Secretary Walter Haynes.

The Lu-Beth Cafeteria offers something fine for dinner tomorrow. Read the menu in this issue of the Daily Herald. The Lu-Beth is the new cafeteria in the new Meisch block.

The Seminole Cafe is the place that makes you feel at home and where the cooking is always "just like mother's" and where you get real service. Read their Sunday menu in today's Herald.

The Valdez Grill has a new electric sign that calls attention to this fine grill day and night. And the Valdez is catering to your Sunday appetite by an elegant Sunday dinner. See the special menu in this issue of the Daily Herald.

LONGWOOD

Mr. and Mrs. J. B. Overstreet are announcing the birth of a daughter born Feb. 15th.

Mr. and Mrs. J. E. Pomeroy are making Longwood their home again. George LeVigne was a visitor in Orlando Wednesday.

Mrs. Reiter, Mrs. Vabor and Mrs. Potter were visitors in Sanford Tuesday.

Mrs. George Clark and daughter returned Monday from Maine.

Mrs. Mary McCurdy and two daughters Miss Mary McCurdy and Mrs. Ruth Gunbert are guests at the St. George hotel for several weeks.

Mr. and Mrs. Smith Thompson and little son Mrs. Russell, C. H. Corn, Miss Ruth Corn, Miss Wilson and J. E. Phipps motored to Eustis Friday.

H. F. Phipps of Tampa and Hiram Miller of Jacksonville were the guests of J. E. Phipps.

Mrs. E. E. Hardy was the gracious hostess Thursday afternoon when she entertained with a benefit 500 party for the library. There were five tables of players. The afternoon was quickly spent in an interesting game of 500, Miss Ruth Corn receiving the highest score. At the conclusion of the card game the hostess served cake and punch.

J. E. Phipps entertained at his home on Crank Hill with a recent roast. Those enjoying Mr. Phipps' hospitality were Miss Ruth Corn, Miss Olive Dinkel, Mrs. Roy Saur, Miss Wilson, H. F. Phipps, Willard McWorlespan, and C. H. Corn.

There were services at Christ church Sunday afternoon, having the pleasure of hearing Father Anderson of New York city.

Friends of Miss Etha Hartley will be interested to know that she has resigned from the Orlando Bank and Trust Co., and has accepted a position in one of the banks in Winter Park.

Daily Herald on sale at Joe's Smoke House, Mobley's Drug Store and Hunt's Pharmacy.

SALE—ARMY SHOES—SALE—We have just bought a tremendous stock of Army Munson last shoes to be sold to the public direct. Price \$2.75. These shoes are 100% solid leather with heavy double soles sewed and nailed. The uppers are of heavy tan chrome leather with bellows tongue, thereby making them waterproof. These shoes are selling very fast and we advise you to order at once to insure your order being filled. The sizes are 6 to 11 all widths; PAY postman on receipt of goods, or send money order. Money refunded if shoes are not satisfactory.—The U. S. Stores Co., 141 Broadway, New York City. 182-tfe

TORTURED MANY YEARS BY KIDNEYS.
"I have had kidney trouble for twelve years," writes H. P. Pinkney, West Jackson, Miss. "Pains in back, joints, catches in the hips, run down and getting up too much during the night. But since taking Foley's Kidney Pills, my suffering is over, and I feel like a new man." Backache, rheumatic pains, kidney and bladder trouble quickly relieved with Foley's Kidney Pills. Refuse substitutes. Insist upon Foley's Honey and Tar. Sold everywhere. Adv.

And Only Four Lots at the Last Figure

BARGAINS

All of them, but just to create a little interest there will be three lots located over the tract with special price. Only one to a purchaser of these special priced lots, otherwise the purchase will be the same as others. An idea of the bills and coins to be given away may be had by a peep into the display window of Dr. Bower's Drug Store on First Street, just in front of the Seminole County Bank. To secure one or more of these, holder of ticket must be present with duplicate stub when number is drawn from box. Complete announcement will be made on the ground at 10 a. m. on Monday, February 26, 1923. DON'T FAIL TO BE PRESENT.

Terms of Sale are simple—ONLY THIS: 10% of price, cash; 10% each month until paid, 8% per annum interest to be paid with last payment.

For cash: 10% discount. For half cash but must be \$100.00 or more, a discount on payment of 10% will be made. Pass book will be issued each purchaser. Deed and certified copy of abstract will be placed in the Seminole County Bank (where payments are to be made) to be given purchaser upon fulfillment of contract as above. I WILL PAY 1923 TAXES. Don't forget to be present at the opening at 10 a. m., Monday, February 26th, 1923, and be prepared.

CASH—Long Green and Gold will be strewn all along as lots are sold. Get your share—successful draw does not eliminate you but each time you have a chance—COME ON. In event of cold or rain we have shelter and will do business RAIN or SHINE. COLD or WARM, WINDY or CALM, SO COME!

SALES FORCE—Clerk, H. C. DuBose; Cashier, Mrs. J. E. Spurling; Sales Directors: Mrs. Victor Check, Ira E. Southward, M. G. Carraway. All local People. Mrs. Check will Distribute the Cash Prizes
J. E. SPURLING, Owner

If you should fail to be present at the very opening you will miss just that many draws. If you fail to purchase in the morning of the first day that many chances at receiving a crisp twenty or a crisp fifty dollar bill will be thrown needlessly away.
