GIRL ATHLETE TO KEEP STANDING AS PROFESSIONAL

Babe Didrikson Will Disregard Action Re-Instating Her

ST. LOUIS, Dec. 23.—(AP)—Mildred Babe Didrikson announced here today the re-instatement action of the Southern A. A. U. will not effect her decision to turn professional. "I do not in the least regret the decision I made," she said as she boarded a Chicago-bound train. She refused to let her destination and merely said "I am going West."

commercial advertisement and lifted her suspension as an amateur, acted only a few hours after the young Texan had announced she would turn professional. Lawrence Di-Benedetto, chairman, said the committee was not concerned with Miss Didrikson's professional plans but had desired to investigate carefully the charges and when they were found unwarranted, to restore her amateur status. He said the resignation from the Union had been received but that her athletic future "is up to her."

An innovation handicap air race from Daytona Beach to Coral Gables, Florida, on Jan. 3, for permanent possession of the new Henry L. Doherty Trophy and \$2,500 in cash prizes, has been announced by the United States Amateur Air Pilots' Association. The race will be held on the last lap of the Association's second annual winter trials to Florida in which forty to fifty flying sportsmen and their wives will participate.

Father Kills Wife, Two Children And Then Kills Himself

WILSON, N. C., Dec. 23.—(AP)—A dependent father yesterday wiped out his family of four with an axe and a gun. The dead are Rodney Eatman, 28-year-old farmer; his wife Margaret, 21, and two children, Georgia Marie, 3, and Josephine, aged one. The wife and children were killed in their sleep with an axe by the father who then ended his life with a shot gun. Coroner V. C. Martin of Wilson county, said Wednesday night Mrs. Eatman and the two children returned to Eatman's home near here "after spending several days with Mrs. Eatman's mother. Early yesterday, Claude Wells, a brother of Mrs. Eatman, went to his sister's home to see her. He could get no one to answer. He and another brother broke in to discover the tragedy. The bodies of Mrs. Eatman and the two children had been crushed with an axe. The bodies, attired in night clothing, were in beds as if the victims had met death while asleep. Eatman's body, torn by a shotgun wound, was found sprawled across the bed. Associates said Eatman had been dependent over his financial condition and the health of his wife who had been ill lately.

Many Industrial Projects To Help Give Employment

NEW YORK, Dec. 23.—Upkeep, repair work and modernization projects in industrial plants throughout the country, involving aggregate expenditures of \$100,000,000, are under way or will be started soon after Jan. 1, according to Mr. A. W. Robertson, of Pittsburgh, chairman of the National Committee on Industrial Rehabilitation. These figures do not include expenditures for public works, highways, public buildings, governmental projects or new construction. The work ranges all the way from painting and repair jobs in stores, factories, foundries and refineries to actual construction of new buildings called for by industrial modernization plans, the report said. A great deal of the work has been undertaken in response to intensive rehabilitation campaigns which the chairman and members of the committee have conducted in the 12 federal reserve districts and in important business and manufacturing centers. Maj. Gen. James G. Harbord, chairman of the Committee on Industrial Rehabilitation for the Second Federal Reserve District centering in New York City, is making plans for an intensive campaign in his territory, the report said. Rehabilitation projects in the Twelfth Federal Reserve District, of which San Francisco is the banking capital, call for a total outlay of \$10,722,905, and those for the Eighth District centering in St. Louis for \$6,070,098 according to the report. Rehabilitation work which will cost \$5,490,370 was reported by Col. Theodore Swann, of Birmingham, Ala.

Hamilton Holt Gives Address On Colleges

CHARLESTON, S. C., Dec. 22.—(AP)—Three "besting aims" of American colleges, said Dr. Hamilton Holt, president of Rollins College, Winter Park, Fla., here last night are: "material expansion, glorification of research at the expense of teaching and lack of human contact between teacher and student." Dr. Holt addressed the one hundred and thirteenth annual banquet of the New England Society of Charleston. Both recitation and lecture systems were severely criticized as destroying "human" contact between the professor and the student. The first, Dr. Holt said, reaches but about 10 per cent of the students and the second is worse than the first, for lectures can teach nothing, although they may prove inspiring to the student who already has some familiarity with the subject. A message of greeting from chairman of the committee for the Sixth Federal Reserve District. Plans in the Seventh District, centering in Chicago, call for expenditures totaling \$2,429,326.

# Religious Services Will Mark Opening Of Christmas Holiday Observance Locally

Beginning at midnight tonight when Rev. J. J. Kellaghan of All Saints Roman Catholic Church and Rev. H. I. Louth of Holy Cross Episcopal Church conduct religious services before crowded audiences, the local observance of Christmas Day will continue with more joyous and peaceful observance than any previous year.

City-wide observance of Monday is in order, and as a result, every business house, professional office, and city and county offices will remain closed, drug stores, news-stands and restaurants being the exception.

"Total weather" is in prospect, although the weather men have promised probable rain as he did yesterday. Therefore it is reasonable to expect that religious services in the City's several churches will be more than well attended. Ministers have planned special services for the occasion, with the children will sing with the joyful strains of Christmas carols and songs of the season.

## HOOPER ARRIVES AT SAVANNAH ON VACATION JAUNT

Chief Executive Spends Morning On Sequoia In Onahaw Sound

WITH HOOPER ON OSBAW SOUND, Ga., Dec. 24.—(AP)—Frank and Mrs. Hoover were on a vacation jaunt today as the U. S. Sequoia, carrying the Chief Executive and Mrs. Hoover, steamed into this broad sound to allow Mr. Hoover his first of 10 days of fishing.

During a three hour cruise from Savannah under easy skies, the President and the First Lady, and their five guests, settled themselves in the polished "115 foot craft" that will be their home for at least a week. A Christmas Eve party aboard after the days fishing was planned by Mrs. Hoover, who has a truckload of carefully wrapped parcels are packed in the Sequoia's hold.

The President was given a special remembrance of Christmas days when he arrived at Savannah this morning after an uneventful run from the National Capital.

Howard E. Coffin, who will be left to the Chief Executive, is a member of the Coffin family that went West with the Hoovers from the Carolinas in covered wagons in the early 1800's and settled on adjoining claims in Ohio.

As the Coffin estate on Sapelo Island, the President and Mrs. Hoover will be guests at Christmas dinner Sunday evening during.

## Trade Body Committee To Meet Tuesday Night

Members of the Seminole County Chamber of Commerce special committee that is studying the problem of raising the banking night in America will meet at the City Hall next Tuesday night at 7:30 o'clock to continue their deliberations.

Those expected to meet are: Lynn E. Allen, chairman, Gordon Bennett, Randall Chase, Hawkins Connelly, W. L. Cooper, R. L. Jones, Counts Johnson, J. W. Harrell, J. A. Logan, R. E. Hoffman, J. L. Mills, Jr., S. G. Gray, H. C. Bullock, P. J. Feitner, E. F. Haines, W. C. Hutchison, C. E. Lee, H. J. Lehman, H. M. Papworth, W. M. Scott, E. O. Shinhoffer, and W. H. Tammcliffe.

## Central Park Expected To Be Alive With Action Early This Evening

Central Park tonight from 8:30 o'clock on promises to be alive with action, with the arrival of Santa Claus, the rendition of a special concert by the Sanford City Band and the distribution of thousands of toys and bags of goodies.

Santa Claus will make his appearance at one corner of the park at about 7:00 o'clock under a special light. He will be carrying a bag full of toys that will be placed under the huge, lighted Christmas tree, later to be distributed to the children.

Members of the Board of the park will be on hand to see that all children, holding tickets, should be taken care of, and to assist in distributing the toys and goodies.

The band will play a concert beginning at about 8:45 o'clock and continuing for about an hour. Refreshments have been placed in position for the park-goers to enjoy.

# INGERS PLAN TO SELL BEER DEBATE UNTIL 1933

Circus Manager Ropes To Colonize Florida Tract With Foreign People Living In U.S.

NEW YORK, Dec. 24.—(AP)—Details of the development of the Ringling's 34,000-acre sugar beet tract south of Ringling, Fla., a farming colony were announced yesterday by the circus king's agents, the Interstate System Corporation of New York.

"It's a humanitarian gesture on Mr. Ringling's part," said Albert J. L. Dueth, of the Interstate System. "He's desirous of helping the foreign language inhabitants of the United States who are being discouraged because of present economic conditions and who are suffering from the depression."

The plan, Dueth said, is to sell the large tract at prices ranging from \$100 to \$150 an acre, and to divide the land into lots of 10 acres and more will be sold at \$50 an acre.

The deeds to the land have been turned over to the Harriman National Bank & Trust Company which has been named trustee of the property, Dueth said.

Before going into the undertaking Ringling, through his sales agent, conducted a survey of domestic conditions of foreign language people in the United States and found, Dueth said, that the majority of them originally came from the farm and have a desire to return to the soil.

The sugar beet tract, drained by an extensive system of canals, is regarded as particularly adapted to truck and citrus fruit farming. There are extensive fertile meadow lands along the canals and a sandy soil in the wooded Hamner Glenn section. The trust company will issue a certificate of contract to purchase, permitting the buyer to fill whatever acreage he will be able to develop, but giving him a deed to whatever part of the parcel he can pay for, thus avoiding mortgage difficulties.

A long-range plan has been worked out to assure the buyer's heirs in the event he died before completing his purchase, full title to the property.

## Important Finding Of Germs Character Is Listed Among Many

CHICAGO, Dec. 24.—(AP)—Medical research made many important health discoveries during 1932.

A review of the year's work in the field was made yesterday by Dr. Morris Fishbein, editor of the Journal of the Medical Association, and the organization's health magazine, Hygie.

Prefacing his retrospect with the reminder that "medical advances in any year represent a dozen contributors to human health."

New attention was given to the possibility that germs are characterized by their characters and virulence from time to time.

Dr. Fishbein also noted the application of vitamins D and creation of new concentrates of vitamins A from halibut and salmon livers.

"New experience was developed with the active principle from the cortex of the adrenal gland," he said. "It was also discovered that there may be excessive action of the parathyroid glands, leading to a serious crippling of the body because of withdrawal of calcium from the bones. This is overcome by surgery."

## Throng Of Kiddies Milane Guests Today

Gales of laughter rocked the Milane Theater this morning when a crowd of more than 500 children had gathered to be the guests of Mrs. L. Maronette, manager of the theater at its sixth annual free Christmas party.

Children present were from every part of the county and represented every walk of life, the rich and the poor, the lame and the well, the young and the old, but all happy and gay over having seen a program that was all comedy, with an old Charlie Chaplin comedy topping the bill to perfection.

Most of the children brought with them gifts of candy, toys, clothing, and food, and the theater lobby was crowded with articles of this kind. Shortly after the performance they were loaded into a truck and taken to the Seminole County Welfare Board office at the fire limits of Sanford tomorrow in Christmas baskets that will be sent to every indigent family in the county.

## Chicago Postoffice Is Marvel Of Modernity

CHICAGO, Dec. 24.—(AP)—The world's largest postoffice has railroad trains running through its basement, a provision has been made for airplanes to land on the roof—and is costing \$21,000,000 to build.

A trip through the nearly completed building revealed yesterday that Uncle Sam has been no laggard in making things modern. For instance, there are 15 miles of wide conveyor belts capable of distributing 10,000,000 a day through the building.

Not until just before the Christmas rush of 1933 will decorators apply the finishing touches to the huge building, but postal employees will start working there in a few weeks.

Incidentally, efficiency experts have estimated the government would save in less than a year as much money on the building work. Much of the money will result from the elimination of the railroad tracks.

Architects and engineers have called the building "a masterpiece of modern architecture."

## Pope Pius Broadcasts Christmas Greetings

VATICAN CITY, Dec. 24.—(AP)—In a Christmas message to the world today Pope Pius the Eleventh announced a year's "jubilee" observance of the 19th century of Christ's passion and death and His resurrection is to begin on Apr. 8 next. The Pope replied to greetings from a score of cardinals and bishops throughout the world, who had gathered in Consistory Hall.

"Following an ancient custom the Pope enumerated his joys and sorrows of the past year. Among the joys were the spread of a sense of Catholic action and activities, and the Eucharistic Congress. Among the sorrows were listed "Very sad conditions" in Russia, Mexico, and Spain.

# Local Clergy Join Voices In Expressions Of Sentiment Over Arrival Of Christmas

Ministers of Sanford's leading religious offices today joined their voices in expressions of joy and appreciation at the advent of another Christmas season, and called for all to read anew the story of the birth of the Christ Child so that the deeper meanings of tomorrow's festive occasion may be well known in every heart and mind.

Here are the sentiments of some of the local ministers, addressed not only to their charges but to the public in general.

Rev. E. D. Brownlee, dean of Sanford's clergy, of First Presbyterian Church:

"Christmas, gives the advance first of all that the great God, Creator and Keeper of the world is a friendly-hearted God. His heart is filled with peace and love. We need this message just now. The whole world seems so tangled and so upset. Some are loaded with abundance and many are hungry and cold. Suffering and jealousy and hatred are in many hearts. How can God permit such things? Sorrow abounds on every hand. Where is the God of Comfort? As we think of Christmas, of the God-child born that day, and His life of wondrous kindness and love, we know we must seek some one else upon whom to lay the blame for all these ills. God is a friendly-hearted God.

"Then if Christmas is to be kept, it must be in hearts of men. Would that all of us could keep it as Bishop Brooks suggested: 'Then let every heart . . . Keep Christmas within, Christ's pity for sorrow, Christ's hatred for sin, Christ's care for the weakest, Christ's courage for right, Everywhere, everywhere, Christmas tonight.'"

Rev. Wm. P. Brooks, Jr., of the First Baptist Church:

"Amid all our pleasure and joys of this Christmas season, let us remember that the world is a better place because of the birth of our Lord Jesus Christ."

## Bingham's Attempt To Force Immediate Action On House Bill Is Handed Set-Back

WASHINGTON, Dec. 24.—(AP)—The Senate smothered an effort yesterday to force immediate action on the House 3.2 percent beer bill, throwing the controversy into the new year with assurance of prompt consideration there.

A single-handed attempt by Senator Bingham, Connecticut, Republican, to put the bill before the Senate failed by a vote of 23 to 40, with Democrats taking the lead in opposing the maneuver.

Defeated, Bingham drew a applause from the galleries by halting the vote as the death knell of hopes for "beer for Christmas" and adding:

"We will be lucky if we have beer for next Christmas."

Senator Robinson, of Arkansas, leading the Democratic opposition, charged Bingham with seeking "partisan advantage," a charge he was unwarranted in saying the bill would be given prompt consideration.

Senate leaders asserted the vote was not a test of strength on the beer issue, but merely meant the Senate wanted to consider the beer legislation in the usual manner, after study by its committee.

The House bill has been referred to the Senate Judiciary committee and Chairman Norris has called a meeting to begin its consideration next Monday.

It is more likely that action will be postponed until after the Christmas recess, because even Norris concedes it will be difficult to obtain a quorum of the committee Monday.

The Senate vote came yesterday after brief statements of their respective positions by Bingham and Robinson. The galleries were only partially filled and there was none of the excitement which usually accompanies an important Senate action.

Sitting in the second row of the gallery, listening intently to the debate and voting was Bishop James Cannon, Jr., long a prominent figure in the prohibition cause.

Twenty-one Republicans joined with 26 Democrats and the lone farmer-laborite, Shipstead, of Minnesota, to block Bingham's move. A dozen Democrats and 11 Republicans voted to take the beer bill up immediately.

## No Fireworks Will Be Allowed In Fire Limit

Every boy, girl, man or woman caught shooting fireworks within the fire limits of Sanford tomorrow or any time during the holidays will be arrested and brought before Municipal Judge R. W. Ware for trial.

That is the text of a drastic order issued this morning by Acting Chief of Police C. H. Shearer as he announced to his force that the City's new ordinance against the shooting of fireworks will be enforced to the limit, and all violators should be arrested at sight.

The penalty is a fine not to exceed \$200 or a jail sentence, not to exceed 90 days. The fire limits of Sanford are encompassed in an area bounded on the north by French Avenue, on the south by Third Street, and on the east by Chapman Avenue, Sanford Avenue to the west, and on the west by the Union Depot is also considered in the fire limits.

## YOUNG ROBBER KILLED

CLEARWATER, Dec. 24.—(AP)—Oscar Williams, 23, was shot and killed here today by special deputy George Bolton during the attempted robbery of a newsstand. Bolton, who was wounded at the stand following several recent robberies there shot Williams when he ran after entering the place with a key. Police said they are holding another suspect in the case.

## Fire Chief Cleveland Issues List Of Warnings For Christmas Celebrators

In an effort to make Christmas not only joyous and colorful but safe as well, Fire Chief Mac Cleveland this morning issued a number of warnings which he declared would insure safety provided the co-operation of every man, woman, and child in this community is extended.

He urges every home owner to read the following list of "Do's and Don'ts" as carefully as possible and to do all in his power to enforce them.

In his decree, the Chief said that business houses selling fireworks should keep them in an enclosed box or show case, and that these "explosive toys" should never be fired near public buildings, theaters, churches, paint shops, garages, or filling stations, and that large fireworks should only be used in the residential section, under the supervision of an older person, and under no condition, should anyone use them in the business section.

The list of "Do's and Don'ts" is as follows:

"If you must have a candle in the window on Christmas Eve, make it an electric one—that is safe."

"If a Christmas tree is used, make sure that it is securely set up so that it will not topple over, and keep it away from heating and lighting fixtures."

"Use metal tinsel, flake asbestos, and powdered mica for snow effects instead of the highly dangerous paper clippings and cotton."

"Do not illuminate the tree with candles. Colored electric light assemblies are more ornamental and if used with care, are safer. A spot light focused upon the tree is, however, the safest method of all, and gives a pleasing effect."

"Smokers should exercise great care with their matches and smoking materials while near trees and decorations. Keep matches out of reach of small children."

"Toys requiring alcohol, gasoline, or kerosene should be avoided as should the flimsy toy motion picture machines using inflammable film."

"Cheap electrical pleythings should be forbidden, as they are often defectively wired and have insecure, dangerous connections. Such electrical apparatus has caused serious burns and fires."

"If it is felt that Santa Claus must be present at the celebration, he should be persuaded to avoid long cotton whiskers, and should keep away from open lights and stoves. As an additional caution, his costume should be made partially fireproof by spraying upon it a solution of water glass."

## Herald Staff Receives Gift Of Fruit Tomatoes

Officials of Chase and Co., one of Florida's oldest organizations today expressed Christmas greetings to the staff of The Herald in the form of a box of choice Florida oranges taken from one of their many groves.

Delivery of the luscious fruit was made this morning along with several boxes distributed among various business and professional houses to other Sanford persons. Needless to say, the fruit will grace the table in the homes of each member of The Herald staff.

Nigh Tjorneson, prominent grover, also extended greetings to the Herald in the form of a crate of large tomatoes taken from his grove in Bradford Avenue.

Tjorneson's gift was appreciated as was the one from Chase and Co. as the staff of The Herald.

## Roosevelt Will Be Handed Debt Problem Intact

WASHINGTON, Dec. 24.—(AP)—President Hoover yesterday closed the book on his interchange with President-elect Roosevelt, deciding with the aid of his cabinet officers to transmit the debt and allied problems to the next administration in much their present form without further consideration.

In a source informed of administration activities it was stated Hoover would make no reply to a statement issued Thursday night by Roosevelt expressing surprise at the President's remark that his successor-elect had considered it "undesirable" to co-operate on the debt disarmament and world economic problems. The President was represented as feeling the New York governor's suggestion that he appoint his own tax-financing commission had made no change in the situation. He held fast to his decision that such an agency would be of little real value unless it could continue active after Mar. 4. The President has indicated a willingness, however, to deal with any immediate problems in international affairs.

Fresh assurance that attempts would be made to bring an agreement between Hoover and Roosevelt on an approach to international problems arose yesterday.

## Ships Limp Into Port With Tales Of High Waves During Blow

SAN FRANCISCO, Dec. 24.—(AP)—Nature spangled highlands of the Far West with a Christmas coat of snow yesterday while brief but heavy rain showers swept the Pacific Coast in the wake of a gale which caused havoc with shipping Thursday.

The snow extended from the Canadian border to the mountains of Southern California and inland across Nevada.

Eight inches were added to the pack on Donner Summit, Southern Pacific Railroad pass over the High Sierra. Depths of new snow at other points in the High Sierra ranged from eight to 18 inches. The total depth at Donner Summit was 38 inches.

Los Angeles, San Francisco and interior valley communities of California were soaked by heavy showers, but clearing weather was forecast by the Weather Bureau.

On the Pacific Northwest Coast, ships which were tossed about by Thursday's wild gale came limping into port with weary crews who had new tales about the fury of the storm. Capt. J. E. Boden, skipper of the Union Steamship Company's Ventura, arriving at Vancouver, B. C., 12 hours late, said waves broke over trees on the shore at the height of the gale.

## SENTENCED TO PRISON

LOS ANGELES, Dec. 24.—(AP)—Ray Wagner, fifth member of the Sheddah gang, convicted for kidnaping E. L. (Zack) Gars, wealthy betting commissioner, was sentenced yesterday to serve 10 years in prison. Others sentenced to serve were Ralph Sheldon, Louis Frank, Bill Ballie, and Jesse Oratta.

## Garillon Recitals To Be Heard At Bok Tower

LAKE WALES, Dec. 24.—(AP)—Three recitals at the singing tower carillon, Mountain Lake, near here, will be given today and Sunday, in observance of the Christmas season. The regular recital today at noon will be followed by a special program at midnight. The regular recital will be given Sunday afternoon at 2 o'clock.

The programs to be played by Anton Bruck, Beethoven, will include such Christmas favorites as "Hark, the Herald Angels Sing," "O Come, Thou Emmanuel," "The First Noel," "In Excelsis Deo," "O Little Town of Bethlehem," "Joy to the World," "Adagio Etivo" and others.

# PRETZELS MADE BEFORE TRADE BODY WORKERS AS PLANT TO PLANT'S OPENING

Golden brown pretzels, dozens and dozens of them, this morning were removed from the Ramsey Pretzel Factory ovens before a group of Seminole County Chamber of Commerce members who had been invited to witness the first tests at Sanford's newest and most unique commercial plant.

With Charlie Ramsey and Guy R. Ramsey, the latter a former City Commissioner at Orlando, presiding, the plant's outside body leaders who had assisted in bringing the factory to Sanford, was conducted on a tour of the plant, located in the old South Bakery building on North Elm Avenue, to learn that everything is in readiness for the official opening on next Tuesday morning.

According to Guy Ramsey, the new plant will be operated for the present with a small crew, working 10 hours per day and turning out approximately 500 pounds or 30,000 pretzels daily. Just as soon as the volume of business warrants, a night shift will be employed and the output doubled and Ramsey hands the pretzels will then have become widely known in every section of the state.

Present plans call for distribution in Sanford and Orlando, with salesmen going on the road at a later date. Both the Ramseys expect to appear before P. F. A. groups during the next few days to sell them on the value of including pretzels in the food supply set before children of all ages.

All pretzels will be sold in two and five pound cans. Housekeepers, soda-fountain and restaurant owners, and schools will be the first groups solicited for the sale of the new product, made just as they are in Pennsylvania, where pretzels are said to be better than they are anywhere in the world.

Asked why pretzels will not be placed into small boxes and sold from grocery stores, Mr. Ramsey said, "The secret of the pretzel's success is its freshness. We believe that when we succeed in making a child pretzel-conscious, he'll be able to help his parents consume a two-pound can in less than four days, so fresh pretzels should be eaten at home in this section."

Under the supervision of the Ramsey fathers and their head baker, D. S. Scheiffenheimer, Howard Orth, an expert at twisting the pliable dough into form, will act as instructor to others who will be employed for the task as soon as possible.

Pretzels are made of flour and water, Mr. Ramsey said, and as he pointed out to his guests, are baked in an oven from five to six 400 degrees. As they are removed from the oven they are stacked in wire baskets and conveyed to a large kiln to be dried for nearly 30 hours.

Dough is mixed in special machines and carried to a conveyor along side which stand the twisters. The dough is forced through a small opening and as it is dropped to the conveyor, it is automatically cut into strips of uniform size. After it is twisted, the pretzel is dipped in water, placed on long paddles, salted, and placed in the oven.

Those witnessing the first tests this morning included: H. M. Fawcett, Mayor T. L. Dumas, L. J. Connelly, Linton E. Allen, R. J. Holly, Sr., Karl Lehmann and Walter L. Cooper.

## HEAVY RAIN HITS PACIFIC COAST IN WAKE OF GALE

SAN FRANCISCO, Dec. 24.—(AP)—Nature spangled highlands of the Far West with a Christmas coat of snow yesterday while brief but heavy rain showers swept the Pacific Coast in the wake of a gale which caused havoc with shipping Thursday.

The snow extended from the Canadian border to the mountains of Southern California and inland across Nevada.

Eight inches were added to the pack on Donner Summit, Southern Pacific Railroad pass over the High Sierra. Depths of new snow at other points in the High Sierra ranged from eight to 18 inches. The total depth at Donner Summit was 38 inches.

Los Angeles, San Francisco and interior valley communities of California were soaked by heavy showers, but clearing weather was forecast by the Weather Bureau.

On the Pacific Northwest Coast, ships which were tossed about by Thursday's wild gale came limping into port with weary crews who had new tales about the fury of the storm. Capt. J. E. Boden, skipper of the Union Steamship Company's Ventura, arriving at Vancouver, B. C., 12 hours late, said waves broke over trees on the shore at the height of the gale.

## HOOPER ARRIVES AT SAVANNAH ON VACATION JAUNT

Chief Executive Spends Morning On Sequoia In Onahaw Sound

WITH HOOPER ON OSBAW SOUND, Ga., Dec. 24.—(AP)—Frank and Mrs. Hoover were on a vacation jaunt today as the U. S. Sequoia, carrying the Chief Executive and Mrs. Hoover, steamed into this broad sound to allow Mr. Hoover his first of 10 days of fishing.

During a three hour cruise from Savannah under easy skies, the President and the First Lady, and their five guests, settled themselves in the polished "115 foot craft" that will be their home for at least a week. A Christmas Eve party aboard after the days fishing was planned by Mrs. Hoover, who has a truckload of carefully wrapped parcels are packed in the Sequoia's hold.

The President was given a special remembrance of Christmas days when he arrived at Savannah this morning after an uneventful run from the National Capital.

Howard E. Coffin, who will be left to the Chief Executive, is a member of the Coffin family that went West with the Hoovers from the Carolinas in covered wagons in the early 1800's and settled on adjoining claims in Ohio.

As the Coffin estate on Sapelo Island, the President and Mrs. Hoover will be guests at Christmas dinner Sunday evening during.

## Central Park Expected To Be Alive With Action Early This Evening

Central Park tonight from 8:30 o'clock on promises to be alive with action, with the arrival of Santa Claus, the rendition of a special concert by the Sanford City Band and the distribution of thousands of toys and bags of goodies.

Santa Claus will make his appearance at one corner of the park at about 7:00 o'clock under a special light. He will be carrying a bag full of toys that will be placed under the huge, lighted Christmas tree, later to be distributed to the children.

Members of the Board of the park will be on hand to see that all children, holding tickets, should be taken care of, and to assist in distributing the toys and goodies.

The band will play a concert beginning at about 8:45 o'clock and continuing for about an hour. Refreshments have been placed in position for the park-goers to enjoy.

# INGERS PLAN TO SELL BEER DEBATE UNTIL 1933

Circus Manager Ropes To Colonize Florida Tract With Foreign People Living In U.S.

NEW YORK, Dec. 24.—(AP)—Details of the development of the Ringling's 34,000-acre sugar beet tract south of Ringling, Fla., a farming colony were announced yesterday by the circus king's agents, the Interstate System Corporation of New York.

"It's a humanitarian gesture on Mr. Ringling's part," said Albert J. L. Dueth, of the Interstate System. "He's desirous of helping the foreign language inhabitants of the United States who are being discouraged because of present economic conditions and who are suffering from the depression."

The plan, Dueth said, is to sell the large tract at prices ranging from \$100 to \$150 an acre, and to divide the land into lots of 10 acres and more will be sold at \$50 an acre.

The deeds to the land have been turned over to the Harriman National Bank & Trust Company which has been named trustee of the property, Dueth said.

Before going into the undertaking Ringling, through his sales agent, conducted a survey of domestic conditions of foreign language people in the United States and found, Dueth said, that the majority of them originally came from the farm and have a desire to return to the soil.

The sugar beet tract, drained by an extensive system of canals, is regarded as particularly adapted to truck and citrus fruit farming. There are extensive fertile meadow lands along the canals and a sandy soil in the wooded Hamner Glenn section. The trust company will issue a certificate of contract to purchase, permitting the buyer to fill whatever acreage he will be able to develop, but giving him a deed to whatever part of the parcel he can pay for, thus avoiding mortgage difficulties.

A long-range plan has been worked out to assure the buyer's heirs in the event he died before completing his purchase, full title to the property.

## Important Finding Of Germs Character Is Listed Among Many

CHICAGO, Dec. 24.—(AP)—Medical research made many important health discoveries during 1932.

A review of the year's work in the field was made yesterday by Dr. Morris Fishbein, editor of the Journal of the Medical Association, and the organization's health magazine, Hygie.

Prefacing his retrospect with the reminder that "medical advances in any year represent a dozen contributors to human health."

New attention was given to the possibility that germs are characterized by their characters and virulence from time to time.

Dr. Fishbein also noted the application of vitamins D and creation of new concentrates of vitamins A from halibut and salmon livers.

"New experience was developed with the active principle from the cortex of the adrenal gland," he said. "It was also discovered that there may be excessive action of the parathyroid glands, leading to a serious crippling of the body because of withdrawal of calcium from the bones. This is overcome by surgery."

## Throng Of Kiddies Milane Guests Today

Gales of laughter rocked the Milane Theater this morning when a crowd of more than 500 children had gathered to be the guests of Mrs. L. Maronette, manager of the theater at its sixth annual free Christmas party.

Children present were from every part of the county and represented every walk of life, the rich and the poor, the lame and the well, the young and the old, but all happy and gay over having seen a program that was all comedy, with an old Charlie Chaplin comedy topping the bill to perfection.

Most of the children brought with them gifts of candy, toys, clothing, and food, and the theater lobby was crowded with articles of this kind. Shortly after the performance they were loaded into a truck and taken to the Seminole County Welfare Board office at the fire limits of Sanford tomorrow in Christmas baskets that will be sent to every indigent family in the county.

## Chicago Postoffice Is Marvel Of Modernity

CHICAGO, Dec. 24.—(AP)—The world's largest postoffice has railroad trains running through its basement, a provision has been made for airplanes to land on the roof—and is costing \$21,000,000 to build.

A trip through the nearly completed building revealed yesterday that Uncle Sam has been no laggard in making things modern. For instance, there are 15 miles of wide conveyor belts capable of distributing 10,000,000 a day through the building.

Not until just before the Christmas rush of 1933 will decorators apply the finishing touches to the huge building, but postal employees will start working there in a few weeks.

Incidentally, efficiency experts have estimated the government would save in less than a year as much money on the building work. Much of the money will result from the elimination of the railroad tracks.

Architects and engineers have called the building "a masterpiece of modern architecture."

## Pope Pius Broadcasts Christmas Greetings

VATICAN CITY, Dec. 24.—(AP)—In a Christmas message to the world today Pope Pius the Eleventh announced a year's "jubilee" observance of the 19th century of Christ's passion and death and His resurrection is to begin on Apr. 8 next. The Pope replied to greetings from a score of cardinals and bishops throughout the world, who had gathered in Consistory Hall.

"Following an ancient custom the Pope enumerated his joys and sorrows of the past year. Among the joys were the spread of a sense of Catholic action and activities, and the Eucharistic Congress. Among the sorrows were listed "Very sad conditions" in Russia, Mexico, and Spain.

# Local Clergy Join Voices In Expressions Of Sentiment Over Arrival Of Christmas

Ministers of Sanford's leading religious offices today joined their voices in expressions of joy and appreciation at the advent of another Christmas season, and called for all to read anew the story of the birth of the Christ Child so that the deeper meanings of tomorrow's festive occasion may be well known in every heart and mind.

Here are the sentiments of some of the local ministers, addressed not only to their charges but to the public in general.

Rev. E. D. Brownlee, dean of Sanford's clergy, of First Presbyterian Church:

"Christmas, gives the advance first of all that the great God, Creator and Keeper of the world is a friendly-hearted God. His heart is filled with peace and love. We need this message just now. The whole world seems so tangled and so upset. Some are loaded with abundance and many are hungry and cold. Suffering and jealousy and hatred are in many hearts. How can God permit such things? Sorrow abounds on every hand. Where is the God of Comfort? As we think of Christmas, of the God-child born that day, and His life of wondrous kindness and love, we know we must seek some one else upon whom to lay the blame for all these ills. God is a friendly-hearted God.

"Then if Christmas is to be kept, it must be in hearts of men. Would that all of us could keep it as Bishop Brooks suggested: 'Then let every heart . . . Keep Christmas within, Christ's pity for sorrow, Christ's hatred for sin, Christ's care for the weakest, Christ's courage for right, Everywhere, everywhere, Christmas tonight.'"

Rev. Wm. P. Brooks, Jr., of the First Baptist Church:

"Amid all our pleasure and joys of this Christmas season, let us remember that the world is a better place because of the birth of our Lord Jesus Christ."

## Roosevelt Will Be Handed Debt Problem Intact

WASHINGTON, Dec. 24.—(AP)—President Hoover yesterday closed the book on his interchange with President-elect Roosevelt, deciding with the aid of his cabinet officers to transmit the debt and allied problems to the next administration in much their present form without further consideration.

In a source informed of administration activities it was stated Hoover would make no reply to a statement issued Thursday night by Roosevelt expressing surprise at the President's remark that his successor-elect had considered it "undesirable" to co-operate on the debt disarmament and world economic problems. The President was represented as feeling the New York governor's suggestion that he appoint his own tax-financing commission had made no change in the situation. He held fast to his decision that such an agency would be of little real value unless it could continue active after Mar. 4. The President has indicated a willingness, however, to deal with any immediate problems in international affairs.

Fresh assurance that attempts would be made to bring an agreement between Hoover and Roosevelt on an approach to international problems arose yesterday.

### Merry Christmas

As another Christmas eve rolls around and the time arrives to again wish our readers all the joy and happiness so universally felt throughout the Yuletide season, the thought uppermost in our minds is how abruptly and completely the cares and sorrows of the world are overcome as rich and poor unite in one joyous celebration of the Christ child's birth. From the mansions of the city to the cabins of the countryside, the atmosphere is pervaded with the good cheer of Christmas time. The spirit of giving takes the place of the customary grab.

Again the stockings are hung by the fireside. Father makes a hasty pilgrimage to the nearest woods for a pine or cedar of just the right size. Perhaps he makes another when mother says it is too big. The attic is searched for all the old tinsel, crystals, snow, and candles which have had to do for three seasons now. Gingerly and desperately the tree is set up and decorated, while in the hall above some pajama-clad urchin, sent to bed post-haste from dinner, watches wide-eyed and breathless.

It matters not where you live, whether you come from the rich or poor, high or low, city or country, the picture is much the same. Tonight is Christmas eve and there is just one thing everybody does, it as efficiently and unquestioningly as the discipline of fifteen centuries can exact. There is no time for grumbling or gloom. Though the tree falls over or the packages won't stay tied, it's all part of the game, the game of playing Santa Claus, of turning all the world over to the children, once a year.

Tomorrow when the squeals of delight from the youngsters get the old folks out of bed an hour or two earlier than usual, there will be no disappointment when the packages fail to reveal the expensive treasures of a few years ago. A sticky piece of candy may take the place of the bright red automobile, but to the boy who knows his Santa Claus the thrills will be quite the same. The excitement of opening the package whether it is a handkerchief or a brooch is the result of the spirit of Christmas.

We are glad that this spirit has survived. Nothing that the depression has wiped away, none of the paper profits, none of the stocks and bonds, or other physical values, could be quite so serious as the destruction of this spirit of giving. As long as we have that, we have the very cornerstone around which our civilization is built. We have the heart which gives life to the body, the solace for the pains of want.

We hope that this spirit has penetrated the homes of all our readers, and that the cheer which it brings will be theirs throughout the day, and throughout the year which is to follow.

### The Beer Bill Comedy

Agitation against the Prohibition Amendment has centered chiefly around its infringement upon personal liberty and the impossibility of its enforcement, causing a disrespect for law and leading to all the evils of bootlegging, gangsterism, and official corruption.

A bill has been passed by the House and is now before the Senate which is designed to legalize 3.2 per cent beer. The measure is based upon the assumption that 3.2 per cent beer is not intoxicating but that it has sufficient alcoholic content to satisfy man's craving for a stimulant, the idea being that the great consuming public will stop buying really potent beer from bootleggers who, as a consequence, will go out of business.

By no manner of reasoning has the Collier bill anything to commend itself. In the first place it attempts at one and the same time to say that 3.2 per cent beer is not intoxicating but that it will satisfy thirsty throats. If 3.2 per cent beer is intoxicating it is unconstitutional, and if it isn't intoxicating then it is absolutely worthless as a help or solution to the prohibition problem.

But the Collier bill is not only fundamentally unsound but some of its provisions are as impractical and conducive to law violation as the Eighteenth Amendment, the evils of which it seeks to remedy. One of these provisions is that in order for a person to make home brew he must have a license which will cost \$1,000. If this isn't a violation of personal liberty and if it isn't impossible of enforcement, then we are ready to admit the world isn't round.

Of all the silly laws this provision takes the prize. If what process of reasoning does anyone think people will pay a thousand-dollar license to make home brew, by what process of reasoning do they think people will stop making home brew, and by what process of reasoning do they think people will stop drinking home brew, especially if 3.2 per cent beer is what they say it is, non-intoxicating?

Wouldn't it be just as easy to enforce the present law against the manufacture of liquor as it would be to enforce the payment of a license to make home brew?

### SANFORD, TWENTY YEARS AGO

Miss Florence Moore, who is teaching in the Oakland-Winter Garden school, is spending the holidays with her sister, Mrs. Morton Hooper.

Miss Lucy Newsome left on the boat Saturday morning for Jacksonville to enjoy the Christmas holidays.

Vance Douglass, formerly of the Sanford Shoe & Clothing Co., has accepted a position with Palmer & Seigh.

Vall Lovell is home for the holidays from Atlanta where he is taking a course at Georgia Tech.

Mr. and Mrs. George L. Hoy will spend the winter at the Comfort Cottage.

This morning the city was excited over the report that Capt. E. E. Murrell had dropped dead at his farm on the west side, and so quickly did the report spread that it was seen on everyone's tongue. The report started by the telephone message to Kenneth Shinnell that his grandfather, John A. Moore, of Ninety-Six, S. C., had dropped dead and Kenneth interpreted the message to read that his father had dropped dead and he being the only one to die the great Captain enjoying his birth and death.

The Florida annual conference of the Methodist Church, South, came to a close this morning with the reading of appointments for another year. The Rev. C. H. Summers will not return to Sanford, having been appointed to Jasper. The Rev. H. T. Gaines, who has been preaching at Kissimmee, has been appointed to Sanford.

GREEN POPE  
VATICAN CITY, Dec. 24.—(AP)—The 20 odd cardinals of the Curia will call on Pope Pius today to wish him heartily "Merry Christmas." Cardinal Pignatelli de Belmonte, 81 year old dean of the Sacred College, will congratulate him, in the name of all the cardinals, including the four Americans, on completing another year as supreme pontiff on the Roman Catholic Church.

### A REAL CHRISTMAS

TAMPA TRIBUNE

The Christmas holiday is expected to signalize recognition of its distinctive appeal to the young. Its best celebration is that which gives foremost thought to the children. It is only when this idea is enlarged and expressed that the season secures its happiest celebration. The disposition to make the season one for the indulgence of extravagant adult practices and dissipations is destructive of the real joy and meaning of Christmas.

The displays that greet you from Tampa store windows and which are offered in the advertising columns of The Tribune serve more than a practical or commercial value for shoppers. They recreate, in mature minds, the eternal joy of childhood. The season's memories are the grown people's chief joy, or should be. No other season so stirs the heart of those who are now the providers of those same joys that were once theirs. If this spirit is not confined to the mere selfish and narrow limits of those "of our own," but is expressed in making richer and fuller the lives of those who need help, this Christmas will be the happiest and most useful of our lives.

### MEMORIES OF CHRISTMAS

"Twas the night before Christmas" Will it ever grow old, Though countless the number of times it's been told? Though eyes that have read it are smiling through tears; Though lips that have said it, these weary long years Have been singing the carols of Heaven, their ears Attuned to a music the world never hears

"Twas the night before Christmas" In the fire's cherry glow I see the glad memories of days long ago The candlelights gleaming; the wreath on the door; The joyous confusion of toys on the floor;

There are voices—"Please say—we'll be still as a mouse—" "Twas the night before Christmas and all through the house!"

"Twas the night before Christmas" I hear it again, And I'm holding my breath, as I often did then! In fancy I hear tiny feet on the roof, And the prancing and pawing of each little hoof!

I see good St. Nick, as Y did long ago, But he floats off in flames in the firelight's soft glow!

Perhaps the dear Christchild, whose birthday we keep, If He were a child again, falling asleep, And asked for a story—would Mary the Mild Repeat that old favorite to her drowsy child?

"Twas the night before Christmas" Oh, what glory could dim Its eternal appeal, if she told it to Him?

—Jean Fraser Macdonald, Tarasov, Florida.

Iberia, Bond took a pitchfork to a hoot owl perched in the barn loft. The owl flew against his lantern and knocked it off a rafter, starting a fire which destroyed the barn.

happiest and most useful of our lives.

American men, women and children should engage in a conspiracy to make Christmas merry for every needy adult and child. On Christmas Day, the country over, hundreds of thousands of Christmas baskets will be distributed by individuals and organizations. This means good food for all, clothing for the poorly clothed, toys for the children and, in many cases, coats for cold bodies and shoes for unshod feet. Christmas is for both rich and poor in America.

In Tampa, the "Good Fellows," sponsored by The Tribune, will be abroad, carrying comfort and cheer to unprovided homes—but this is only one of the agencies operating to make Christmas mean something to those Tampans who are victims of misfortune, deprivation, want.

Between those who have, the Christmas exchange of gift is a pleasure. But sacrificing for those who have less is a joy that gratifies the soul. People who give generously to the needy poor at Christmas time know that charity is its own reward.

### Moscow Satisfied With Election Of Democratic Ticket

MOSCOW—Although no public statement on the long-quieted subject of Soviet-American relations followed Mr. Roosevelt's election, the prospective change of administration in Washington has aroused at least modest satisfaction in Moscow.

"There is at least one good thing about Soviet-American relations—they cannot change for the worse," was the remark of one high Soviet official in an interview.

Rightly or wrongly Mr. Hoover was regarded here as an unswerving and implacable opponent of more cordial Soviet-American relations. Moscow's attitude toward the Russian policy of his successor may be described as expectant and receptive, if not overoptimistic.

As a result of talks with responsible spokesmen for Soviet foreign policy your correspondent is able to offer the following resume of the Soviet attitude on various points which will presumably come up in the event that the new administration decides to inaugurate any changes in the traditional policy of abstaining from official intercourse with the Soviet Union.

The belief prevails in Soviet official circles that there is small likelihood that any considerable part of the war debts in general will ever be paid, and Russian debts to America are of wartime origin. The Soviet Government, however, adheres to its previously expressed willingness to negotiate with American representatives on the question of these debts, reserving its right to present counter-claims for damages allegedly caused by American participation in intervention in north Russia and Siberia. Whether any payment will be made in settlement of the debts would seem to depend chiefly upon whether the granting of new American credits is closely linked up with

### FIRST CHURCH OF CHRIST SCIENTIST

Christian Science services are held every Sunday morning at the church at East Second Street at 11 o'clock. Subject for tomorrow is "Christian Science."  
Wednesday evening church at 8:00 E. 2nd St., at 8:00 o'clock.  
This church maintains a free Reading Room at the church where the Bible and all authorized Christian Science literature may be read, borrowed or purchased. Open Tuesdays and Fridays from 3 to 5 P. M.

### OVIEDO METHODIST CHURCH

W. J. Carpenter, pastor. The usual Christmas sermon will be preached Sunday morning, the theme being: "What Is The Meaning Of All This Excitement?"  
Special music will be rendered.  
Song, "The Goose Hangs High," "The Code of the West," and "Into the Net"—all in between "Cythera" and "Rockabye."  
It has been a long steady trail, but never once has there been a Constance Bennett picture with any but a prosperous career.  
Other stars in occasional pictures, and a few do luxe productions, may have topped this or that of her pictures; but Miss Bennett's films, in the aggregate, have had no equal in point of consistent popularity.

May your Christmas day be a delightful one and may it usher in a year of happiness and health.
