fruit and a few hundred crates joy. of celery in their midst?

Judge Herlong made a fine impression in Sanford where he spoke before a large crowd Saturday night. The Leesburg candidate a well known here, particularly in baseball circles where he is president of the Florida State carrie and when we say "baseball circles" that and rabout inhow it should be dealt with, and continuing cost will be. on this subject he found himself

week all that was needed to start of a continent from the ruin left by war. the bombs falling again is re- work successfully within it. cipline of the forces in Berlin, Hoffman well. However, where so much tension exists with so much at stake, it is hardly reasonable to expect such self-restraint to continue indefinitely. Time for action on the part of the statesmen of the world is growing short.

We wonder if the people o Bogota who participated in last weekend's rioting realize to what estent they are burting their city and country. Imagine what is mean to Sanford, for inance, if an inter-American conbrence, with all the leading states. men of the Western Hemisphere attendance, were to meet in nford! But imagine what it would also mean if while they of newspaper reporters and camgramen from all the largest cities, not were to break out in

The Next War

Some pretty dire predictions are being made these days as the world stumbles closer to the brink of a third World War. Germ warfare, atomic bombs, guided missiles, Entered no second class matter to the Post Office and many other instruments of destruction are being pictured as completely wiping out Western civilization. "There of Cassums of March 8, 1807. will be nothing left," someone has said, "but the ground remain obscure, but there is at to bury them in."

Cord Meyer, president of the United World Pederalists, says that "the most common immediate cause of war is the all countries are so organized as threat of war. The preparations which both sides are makleast one clear warning in this upsays that "the most common immediate cause of war is the threat of war. The preparations which both sides are making will soon lead them to a point from which they can't retreat." and that "Either some measure of world governretreat," and that "Either some measure of world governments, to harrans and, if possible, over-ment will be achieved by voluntary consent or our particular civilization will be destroyed."

And the Emergency Committee of Atomic Scientists, like origin. Colombia seems so would eventually mean the loss this program so far seem to inthe extreme step of breaking off the commission to reach an accord for the diplomatic relations with More and the reduce these looking into. UN Atomic Energy Commission to reach an accord for the diplomatic relations with Moscow, control of the atomic bomb was one of the most fateful This dramatic move is officially The Herald is a member of the Annorhated Press which is entitled events in the history of mankind and warns that "another war may bring the total collapse of our traditional civilization this newspaper, as well as all the newspaper. events in the history of mankind and warns that "another stated to have come after the ar-

OUR BOLERO COTTON With Petticoat Ruffles

Dress 14.95 Blouse 6.98

Justin McCarty creates our smartly striped bolero dress from Dan River's cotton . . . and, adds our white broadcloth, short sleeved blouse wonderfully fashioned with tiny pin tucks. You'll like the way the cummerband gives a stem-slim waist-you'll love the little petticoat ruffle on the full circular skirt. Grey, tan, or green. 10's to 18's.

(Continued from Page One) 4 P. M., the second plane was

Thomas Dozier of Time Maga-Thomas Dozier of time Maga-aine and I got the news in mid-morning that we might cover this evacuation and make sure cabled reports of the recovery of the sacked city did not suffer more censorship. We planned to return immediately to resume coverage of the reliabilitation.

of the rehabilitation. We had made our way earlier in the morning from our "pillbox hotel," the Aster, across a twolane colonial street from the pres-idential paince. Again for the third day it had been necessary to have an armed escort. Our hotel has been taken over for the sniper positions by the army defending the president and the of-ficers where the coalition govern-ment was trying to resultate the

city.

After a rationed breakfast of most Bogotanos undoubtedly had. we started out with one soldier ahead and one behind. We ducked across the intersection still block-ed by a light tank bearing a 37-

millimeter gun. Our seven-block route to th American embassy went past shuttered and closed stores typical of small colonial cities. Larger buildings had been looted and debri was still strewn in the streets. All hodies had been picked up The previous morning we had stepped over five. At each corner we heritated while the soldier in the lead got charance to cross. Lower floors of the commercial

building housing the embassy were still smoudering. After finding out we could ac company the next plane, we migrange for departure and to bring out messages, photographs and newsreel film from the correspondents remaining. Our armed motorcade reached the airport shortly after # P. M. as rain began. All American flags which had greeted the delegates gaily

tow weeks ago were at half mast. The plane waited for the weather to clear a bit for the two and one-half hour non-stop flight to Balboa and the famous Albrook Field used by both Army and civilian planes. Most of us on the plane had had some food during the day. One woman was overheard to say she had had just

overheard to say she had an just coffee and water so far.

The plane loaded some military rations but they were not generally distributed. Some had a said this:

"A requirement as to political belief. imposed upon the use of a facility, is not a mere condition over until the unrestricted Americal and the does not believe the present program will tion upon a privilege; it is, in require such controls. ican zone was reached.

Those aboard the plane appeared to be in good spirits. A woman said: "I am relaxing more cans, Mrs. Mabelle Nardin of McCarthy plans to send lefthand-language and the capitol building, (Inter-Americal about 40 percent between 1950 won three of the five games in

ican) Conference headquarters.
We had not time to shave or to have more than soup for lunch We had to make the return trip from the hotel in time for a 1:30 o'clock rendezvous. It was hard to leave the prospects of a bean and vegetable lunch for we were due to have no more food until dinner in the Canal Zone. We arrived back at the umbassy under similar care of an armed escort and found a jeep ready to leave. Eight of us piled into the jeep and careened our way to the ren dezvous about one mile away. We had no armed escort. We heard no shots near us. But again saw a mass of evidence of looting, fires, dynamiting and general

vioting.

People had begun to move back into the atreets, but President Ospina Perez's request for people to return to work apparently could not be met. Electric wires were down and everyone seemed bent on queing up for food at small stores likely to risk re-

WICHITA, Kas. Apr. 13 (P)— The Cleveland Indians hoped to even their exhibition series with the New York Giants today. The Giants have won six out of 11 meetings so far. Gene Bearden. Al Gettel and Lyman Linde will face the Giants today while for-mer Indian, Ray Poat, is slated to open for the New Yorkers,

Only the KAISER and FRAZER have it! RUE ECONOI With Your Kind of Driving

No matter what speeds they drive or roads they travel . . . Gasoline Bills are Lower in a KAISER or a FRAZER

How many more miles per gallon will you get from your 1948 Kaiser or Frazer? There is only one honest answer. Mileage varies with the speed you drive over the roads you travel. It may be anything up to 26 or more miles per gallon. Thousands of K-F owners verify this. Yet in each case they report many more miles per gallon from their Kalser or Fraser, than from car they drove before.

Top Economy for '48!-others claim it-Kalser-Frazer delivers it! Among 1948 full-sized American motor cars, only the Kaiser and the Frazer have highest compression engines as stundard equipment. That alone means less waste and more wallop in every drop of gasoline you buy. You get new power and a combination of top performance with top economy that is brand new to motoring.

Four 1948 models now on display—at no increase in price! See them! You'll insist we let you drive one!
