

## FIVE STORM VICTIMS OF S. CAROLINA TORNADO WILL BE BURIED TODAY

### Authorities and the Red Cross Doing Good Work

### MANY HOMELESS

#### IN THE DEVASTATED DISTRICT AND SEVEN INJURED ARE IN AIKEN HOSPITAL

(By The Associated Press) AUGUSTA, March 8.—While morticians at Graniteville are completing arrangements for the funerals today of five victims of yesterday's storm in Horse Creek valley of South Carolina the mill authorities and the Red Cross are doing all possible to make comfortable the homeless and injured. Almost two hundred persons made homeless were cared for last night. Seven injured still in Aiken hospital.

AUGUSTA, Ga., March 8.—Five deaths appeared to be the total of fatalities in the tornado which ravaged mill villages near here in Georgia and South Carolina. The storm centered, according to reports received here, at Warrenville, S. C., where, in addition to the five persons killed, a number were injured. The nearby Carolina towns of Langley and Graniteville reported no casualties but accounts of extensive damage from all three places brought out numerous instances of hairbreath escapades.

In Warrenville, where 25 houses in the southeastern section of the village were demolished, the homeless uninjured immediately set about the work of rescue, guided through the blinding rain in the darkness by cries for help. Many said they had been awakened by the rumbling of the storm and the trembling of their homes just in time to escape.

The residence of Mr. and Mrs. Tillman Beard was demolished, except for the roof, but they and their five children were not injured. The youngest of the Beard children, an infant a few months old, was trapped under the roof which was left intact like a huge chicken coop and laughed gleefully when taken from a comfortable pillow by a rescuer.

Clothing, furniture and wreckage generally were scattered over the ground and in tree tops by the wind, which, with whimsical generosity left a large mirror without a crack under the debris of a house and moved a small corrugated iron fire house a hundred yards without disturbing the leaves of a huge oak tree which sheltered it. The small hand reel in the center of the building also remained undisturbed.

WILSON, N. C., March 7.—Cutting a clean swath four hundred feet wide for a stretch of more than two miles, a tornado at 9:30 yesterday morning killed one person, injured two scores or more, and destroyed property to the value of more than \$50,000 near Evansdale, eight miles east of Wilson. The storm was the heaviest ever visited on this section during the space of the minute and a half that it lasted. In its path the destruction was complete. Trees were uprooted and houses were wrecked.

## Cheboygan Threatened By Fire Destruction—Flames Beyond Control

### Two City Blocks Gone and Fire Still Raging at Noon

(By The Associated Press) CHEBOYGAN, Mich., March 8.—The town town section of Cheboygan was threatened with destruction today by fire of undetermined origin. The fire broke out early this morning and at 9:00 o'clock still was beyond control. That hour two city blocks had been swept by the flames. Frank J. Hoover, a baker, was burned to death when he entered his shop in an attempt to recover valuables and two boys are reported missing. The buildings destroyed included Frost-Kessler block, the largest in the city, and the First National Bank. Latest reports say the flames sweeping northward and were threatening the Thompson Department store. The loss at nine o'clock this morning was placed at a half million dollars.

## GREAT INTEREST IN THE REVIVAL THIS WEEK

### METHODIST CHURCH IS FILLED EVERY NIGHT WITH BIG CROWD

Great interest is being manifested in the revival services in progress at the Methodist church. The meeting opened Sunday morning with the church packed to capacity at both services. Dr. Walker is doing the preaching. The members of his official board were unanimous in their wish that he hold the services rather than call in an evangelist. It is well known that Dr. Walker has, himself, had wide experience in the evangelistic field and that his work in that line has been wonderfully successful. Mr. Boyd is lending the singing. New song books have been purchased and a new choir organized. The choir is doing splendid work, but the volumes of melody which "arise unto the Lord," proclaim Mr. Boyd's real talent which lies in stimulating congregational singing. His solos are a feature of each service.

Notwithstanding the unfavorable weather of last evening, a large congregation was present. The message brought by Dr. Walker from the life of Elijah was that of faith and constancy. Elijah, having prophesied against Ahab is sent to the brook over at the back of the desert. Then because of the droughts sent upon the land as a punishment for Ahab's unfaithfulness the brook dries up day by day, but Elijah stays by the brook. It takes a courage born of faith to "stay by the brook."

There was a fine meeting this morning. A fine sermon on "Half-Heartedness." No other negative thing in the world, says Dr. Walker, works greater ruin than half-heartedness. This is true of business, true of home, and true of the church.

Tonight the members of Dr. Phillips' Brotherhood class and Dr. Walker's class will be out in force and occupy the middle block of pews. They have invited the men of Sanford to join them.

Mrs. Boyd will play a violin solo. Come to the meeting.

## Ministerial Association Asks State Attorney to Investigate Death

### OF YOUNG BOY WHO WAS NOT ALLOWED SERVICES OF A PHYSICIAN

(By The Associated Press) ST. PETERSBURG, March 8.—The St. Petersburg ministerial association has asked state attorney Wilson of this judicial District to investigate the death of Gibson Bell, son of Mr. and Mrs. A. Bell, who died last week of diphtheria, after the parents, who are Christian Science practitioners, had refused to permit the child to receive medical attention.

City Attorney Mack also asked Wilson to come here, and local physicians joined in the request.

The Ministerial Association, which adopted a resolution by a unanimous vote, asked Wilson to prosecute Bell, if any law justifies such a proceeding.

## LIQUOR BANDITS BREAK DOWN DOORS GRAB OFF WHISKEY

FREDERICK, Md., March 8.—(By The Associated Press) —Overpowering three guards and smashing down the doors, a gang of liquor thieves beloveted to number thirty, early today escaped with twenty-one hundred gallons of whiskey from Outhridge Horsey distillery warehouse at Burkettsville, near here. The liquor was valued at \$35,000.

## VIRGINIA MUD BOUND—PEOPLE CANNOT TRAVEL, CAUSES FOOD SHORTAGE

### Frequent Rains and Snow Cause of Condition Unheard of Before

RICHMOND, Va., March 8.—(By the Associated Press).—Reports from rural sections of Central Virginia indicate many settlements are virtually mud bound as the result of frequent rains, and snows since early January. Some sections of business are reported at a standstill and merchants, unable to reach railroad stations to obtain goods shipped there, are putting their customers on short rations. Many county physicians are said to be unable to reach patients even by horseback. State Prohibition Commissioner Smith says country merchants in the hills and mountains north of the Southern Railway line between Charlottesville and Washington are unable to reach stations and get freight. They have been compelled to limit customers to five pounds of sugar and correspondingly restrict the sale of other merchandise. Mud is knee deep throughout the section. One physician said he is advising patients by telephone as he is unable to make personal calls.

## COMPROMISE BONUS BILL INTRODUCED IN THE HOUSE, WILL COME UP MONDAY

### Chairman Fordney Says New Bill Will Pass and Lines Obliterated

(By The Associated Press) WASHINGTON, March 8.—The compromise soldiers' bonus bill, carrying a bank loan provision in place of the cash installment payment plan originally proposed and once approved by the house finally was agreed to yesterday by Republican members of the ways and means committee. It was introduced later in the house by Chairman Fordney, who announced that it would not be called up until next Monday, if then.

Passage of the bill was predicted by Mr. Fordney. His opinion appeared to be shared by members of the house generally, some of whom said that on the final vote party lines would disappear. There was some speculation in-house lobbies and corridors as to President Harding's views of the compromise plan, and also as to whether he would find occasion to express those views before the house voted. Chairman Fordney still declined to say whether he had discussed the compromise with the executive. At the White House it was said that Mr. Harding had not studied, and consequently had not formed an opinion of the bank loan provision. He was represented, however, as maintaining the same position that he did when he wrote Mr. Fordney on February 16 that the bonus either should be paid by a sales tax or the legislation postponed.

Some of the majority members of the committee believe that since the new plan defers for three years any large drain on the federal treasury the president will not object to it. They say the compromise will enable needy veterans to obtain cash without the necessity of imposing additional taxes on the general public. Mr. Fordney said the entire ways and means committee would meet on Saturday when the Democrats would have an opportunity to pass judgment on the bill.

Aside from the substitution of the bank loan provision for the cash payment plan the bill as introduced is very similar to that previously passed by the house. The only immediate cash payment proposed is to the veterans whose adjusted service pay would not exceed \$50. Other veterans could select one of these four options: Adjusted service certificates, combining a loan and insurance plan. Vocational training. Farm and home aid. Land settlement.

The ultimate cost of the bonus to the government, it was said, would depend upon the number of men selecting each of the options. It was estimated that the immediate cash payment to those entitled to not more than \$50 each would be around \$16,000,000. The final cost might range all the way from \$1,000,000 to \$4,750,000, the maximum figure being predicated upon all of the veterans selecting certificates and holding them until maturity or until their death. The adjusted service certificate would be dated October 1, 1922; would mature in 20 years, or at the death of the veteran, and, in either case, would have a face value equal to the sum of (1) the adjusted service credit of the veteran increased by 25 per cent plus (2) interest thereon for 20 years at the rate of 4 1/2 per cent compounded annually. The total amount would be "approximately equal to 3.015 times the adjusted service credit service credit of the veteran."

This credit would be figured on the basis of \$1.25 for each day of over-seas service and \$1 for each day of home service, but in no event could the credit exceed \$500 in the case of a veteran who performed no over-seas service, and \$625 in the case of a veteran who served over seas.

Prior to September 30, 1925, any national bank, or any bank or trust company incorporated under the laws of any state, territory, possession, or the District of Columbia, would be authorized to loan to a veteran on the certificate any amount not in excess of 50 per cent of the adjusted service credit plus interest at 4 1/2 per cent from October 1, 1922. The loan would have to mature not later than September 30, 1925, and the rate of interest charged by the bank could not exceed by more than 2 per cent a loan for the discount of ninety days commercial paper by the federal reserve district in which is located the bank making the advance to the veteran.

## AMERICAN CITIZEN MURDERED AT VERA CRUZ ASSAILANTS UNKNOWN

(By The Associated Press) WASHINGTON, March 8.—Alexander Matherno, an American citizen, was murdered at Losaranjos, state of Vera Cruz, Mexico on the night of March fifth, the State Department announced today. The advices said his assailants were unknown.

The Herald, 15c per week, delivered

## WESTERN MARYLAND RY. PUT OVER A NEW DEAL IN MAINTENANCE DEPARTMENT

## FOUR POWER TREATY HAS BIG FIGHT

### BEFORE IT WILL PASS THE SENATE WITH BORAH LEAD- IN OPPOSITION.

(By The Associated Press) WASHINGTON, March 8.—After a preliminary lull, the senate fight over the four power Pacific treaty is about to break in full fury.

Under an announcement program of aggressive action to bring the treaty actively under discussion and to expedite a vote upon its ratification, Senator Lodge of Massachusetts, the republican leader, will address the senate today and will challenge opponents of the pact to bring their case openly to the senate floor.

That an organized group of "irreconcilables" will range themselves on the other side was assured yesterday when it became known that a definite plan of action had been agreed upon after long consultation by Senator Borah, republican, of Idaho, and some of the friends of former President Wilson.

How far reaching may be the understanding thus effected by the "irreconcilable" leader, or to what extent it may involve the personal sentiments of Mr. Wilson himself is not revealed. Senator Borah and the former president are said not to have conferred directly, although their friends say there has been consultation by letter regarding the four power pact.

Senator Lodge's determination to take the offensive in the treaty debate followed a complete suspension of the discussion yesterday, and was coupled with private suggestions from administration senators that the treaty opponents were seeking to delay consideration. At the conclusion of a prepared address by Senator Kellogg, republican, Minnesota, urging acceptance of the treaty without qualification, the subject disappeared entirely from the surface of senate proceedings and Mr. Lodge announced that unless senators were ready to speak by today he would ask for a vote on ratification.

## Contract Let For \$500,000 Worth of College Buildings

LAKELAND, March 8.—Southern College will open its classes here October 3, according to Dr. H. R. Alderman, president of the institution, who announced today the definite award of the contract for the buildings to comprise the institution's new site to the Huggar Bros. Construction Company, of Montgomery, Ala.

The building program involving an outlay of approximately \$500,000, according to Dr. Alderman, will be gotten underway forthwith and will be rushed to completion as rapidly as the funds pledged in support of the work become available. Anticipating no delay because of insufficient funds, however, the board of trustees' meeting yesterday, set October 3 as the opening date for the 1922-23 term.

The buildings will be erected in the following order, according to Dr. Alderman:

Administration, dormitory for men, dormitory for women and social hall. The social hall will house the dining room and the conservatory of music. The contract might be termed "elastic." The contractors were given to understand, and of course agreed to the terms, that the buildings were to be completed in the order set forth by the building committee, which will go ahead with the work just as fast pledged by the Methodists throughout the state. Ultimately the plant will be worth a minimum of a million dollars, as \$784,000 has been pledged for building purposes, and the people of Lakeland and the city have given a building site of seventy-eight acres on Lake Hollingsworth, and other valuable gifts such as free lights and water adding about \$245,000 in value.

## MIAMI DOCTOR RECEIVES \$12,000 WORTH OF RADIUM

(By The Associated Press) MIAMI, March 8.—Dr. A. R. Parrott yesterday received a shipment of five glass tubes scarcely larger than a pin and somewhat shorter. They contained \$12,000 worth of radium.

F. N. Purdey of Osteen was among the visitors to the city today.

## Construction Co. Takes Over Maintenance of Way Work

## WAGES ARE CUT

### ALL SUCH WORK WILL BE TAKEN ON CONTRACT AT 25c PER HOUR

(By The Associated Press) BALTIMORE, March 8.—The Western Railway Company announced yesterday to its three thousand maintenance of way employes that at midnight the Dickson Construction and Repair Company of Youngstown, Ohio, would assume control of maintenance of way work on the entire system. Youngstown firm, which will undertake work on contract basis plans to retain the company's present force of laborers, it is said, with wages reduced from thirty-nine and one-half to twenty-five cents per hour.

## ALLIGATOR HUNTER ARRESTED AT MIAMI; SUSPICION OF MURDER

(By The Associated Press) MIAMI, March 8.—Charles Vebber, an alligator hunter and trader was arrested here today on suspicion in connection with the murder shortly after midnight of Jack Tigertail, Seminole Chief, in an Indian village on the outskirts of the city. Indians identified Vebber as the man with whom Tigertail quarreled with several hours previously.

## FORMER MIAMI MAN TAKES OWN LIFE

(By The Associated Press) PHILADELPHIA, March 8.—A man who committed suicide at a local hotel last week was yesterday identified as Charles D. Murdock, formerly of Miami, Fla., where his wife is said to live. Murdock who is said to have been a mechanical engineer and to have made and lost a fortune, left a note in which he said:

"I have one body 53 years old, false teeth, had eyes, hum foot, bad shoes, no job, no friends nearer than 1,500 miles away. I can't beg, I can't steal and I will not be a bum."

## SOUGHT THE HEREAFTER—AND FOUND IT.

(By The Associated Press) NEW YORK, March 8.—Seeking data for his book "The Hereafter," Thomas W. Weggelius, of Brooklyn, a 23-year-old chemist, swallowed what he thought was just enough anesthetic to take him to death's portals.

The book will never be finished for young Weggelius miscalculated the dose and the portals swung wide for him. An autopsy will be held today.

## BARNES AND WARD MCGRAW'S TWO STARS HAVE SIGNED UP

NEW YORK, March 8.—Joss Barnes, McGraw's pitching ace of last years World series, and Aaron Ward, second baseman for the Yankees, have come to terms and signed contracts, according to reports from the training camps. Kelly and Douglas are the only Giants not signed and Kelly telegraphed McGraw that he would arrive at the training camp by next Monday.

## PRESIDENT SAYS MAKING PROGRESS IN AGRICULTURE

WASHINGTON, March 8. (By The Associated Press) —The declaration that "We are making splendid progress toward dissipation of our agricultural difficulties" was made by President Harding in a letter to Eugene Meyer, Jr., managing director of the War Finance Corporation, made public at the White House today.

**MAKE YOUR MONEY WORK FOR YOU**  
 We pay 4 per cent Interest on Savings Deposits  
**IT'S EASY TO START A SAVINGS ACCOUNT**

**If You wish to Start a Savings Account, Walk Into Our Bank, and Tell any of Us You Want to Start a Savings Account**

Our teller will give you a card on which to write your signature, your address, and such other information as required for records. This card is filed away in our records, and whenever you wish to draw money out the original signature is compared with the signature on your withdrawal check. So the teller knows it is genuine.

If the teller does not remember your face, he will ask certain questions, which you have hereto answered on your original new account form.

By this means we guard against paying out money to imposters and protects your interests.

**Two Dollars Will Start a Savings Account and Put This Calendar Bank in Your Home**

The teller writes your name on the deposit bank book and enters the amount deposited. You then walk out of the bank, in possession of a SAVINGS ACCOUNT BOOK. The next thing to do, is to form THE DAILY SAVING HABIT. It's about as easy as buying the daily paper.

 11:00—Our Association and the Campaign.  
 11:30—The Gospel of the Kingdom. Recess.  
 Afternoon  
 2:00—Devotional.  
 United Prayer for the Success of our work.  
 2:30—The Task in Our Churches.  
 3:00—Stewardship.  
 3:30—Two Minute Reports from the Churches.  
 Evening Hour  
 7:30—Results of the Campaign.  
 Inspirational address by a prominent speaker.  
 We have saved a place for you.

With two grand juries busy grinding out indictments, possibly some of New York's bucket-shop keepers may get it alright.

**VIERRA'S HAWAIIANS AT THE PRINCESS TONIGHT**

In the early seventies Mark Twain made an extensive trip to the Hawaiian Islands, and we have the result of his travels in his book "Roughing It". To say that he simply raved over the beauty of these islands, would be putting it mildly. He saw references to this enchanted land throughout all his works. This has been more or less the experience of all who have been permitted to travel to these isles.

In 1898 these islands came under the ownership and control of the U. S. A. and since that time the wonders of the Hawaiians have been made better known, for now they have many boat lines that run regularly, also a cable by which they are in touch with the entire world.

These islands are 2,000 miles from San Francisco, and an equal distance from any other land, are indeed alone in the broad expanse of the Pacific.

Vierra's real Hawaiians will appear at the Princess Theatre tonight in a complete new program of their sweet mystic and songs.

This is the Hawaiian Company that has set the standard for Hawaiian music in America.

The big 12- to 18-page Weekly Herald entirely covers Seminole County and is published every Friday.

MEMBER THE ASSOCIATED PRESS

The potato growers of Hastings are looking forward to a big crop and good prices.

The bonus bill will finally be put in the shape suggested by the Daily Herald and will then pass the house and senate and become a law.

Young man in New York writing a book on the hereafter swallowed enough anaesthetic to bring him to the portals of the next world thinking he could come back and tell about it.

Looks like poor old Georgia and especially the country around Augusta, has had enough misfortune without having a big storm up there yesterday to complete the work of destruction.

After thinking the matter over the British people have decided that they were too rough on Lloyd George and they had better keep him awhile longer to lead them out of the wilderness.

An editorial in a recent number of the Sanford Daily Herald entitled, "Please print this," reminds us of an experience we once had in Kentucky.

THE WORLD AT YOUR DOORSTEP

We wonder if you appreciate the great service of a daily paper of your very own such as the Daily Herald, coming to your home each evening and telling you of the events of the world, of your own country, or your state and county and city.

QUALITY GROCERIES from "the cheapest that's good to the best that's made!" We carry everything a first class grocery should. —A Trial Will Convince— DEANE TURNER WELAKA BLOCK Courtesy and Prompt Service Our Motto

that they are not forced to take a paper published in some other city as formerly for they can now get the same news at least twelve hours in advance of any other news source delivered in Sanford.

"The newspaper reporter is the most nonchalant and at the same time the most alert fellow in the world. 'No' to him is not an end; it is a beginning. As far as it is humanly possible he is immune from insults, because he is very impersonal in his work, although sometimes he is very personal in his methods.

"In this modern age, when any news that breaks may affect the whole world, reporters are stationed in all corners of the globe, some of whom spend the greater portion of their time just waiting, while others are hot on the trail of facts twenty-four hours in the day.

Thanks to the reporter, the world is thrown on your front porch every evening.

"He is the medium through which you see many of your friends, your city, your country, the whole world; the detective who investigates things for you because you do not have time to do it; the messenger the world sends forth daily and who always returns with a report; the sentinel in whom you unconsciously place implicit confidence.

CO-OPERATION FOR FARMERS

For years co-operative marketing has been preached to the farmers by political economists and others. Gradually the evils of independent action impressed themselves on the minds of the farmers. They tried co-operation in a small way in many lines and found it good. But when they tried to carry out the same principle in a larger way, covering national areas for example, they found an immovable obstacle in their way in the shape of the Sherman anti-trust law.

The department of agriculture experts tell us there are 14,000 state co-operative associations in operation, some of them handling commodities to the value of fifty millions of dollars. But always the farmers have been hindered from co-operating on a national scale by the Sherman law.

Cotton associations claim to control half this year's American crop of 8,000,000 bales. Livestock associations are now mostly local, but one at St. Paul controls more than a quarter of the livestock shipped into that important packing center.

UNCLE HANK

Nowadays, when a young gal grows up, she has to have her dresses shortened.

More than 75 per cent. of the citrus fruit of that state. Fifty per cent. of the national apple crop, 80 per cent. of the English walnut crop, 50 per cent. of the Georgia peach crop, and lesser percentages of raisin, almonds, prunes and other crops are similarly controlled.

Farm leaders who are active in these movements are not blinded to the bigness of the problem they are tackling. Among them are the most conservative of farmers. They are in many cases working within the old system, seeking to absorb it rather than overturn it.

"IF IT ISN'T THE PARTY—IT'S US"

Editor J. H. Benjamin of the Ocala Star has written a classic in reviewing the political history of the United States and in discussing present-day economic and social problems.

We notice in the Democratic papers the usual old stuff preparatory to a campaign—denunciation of the Republicans for high taxes and high prices, and promise of relief with Democratic victory.

We should be glad to have the campaign result in a Democratic House of Representatives. It would safeguard the South for a while from vicious partisan legislation, but we doubt that it would make any difference to the country.

We are rather surprised to know of any well-informed man at this time, expecting a change in party control to lessen the pressure on the consumer and taxpayer. We can remember back well-nigh fifty years, and can certify that the rearguard of every administration, so far as the cost of living was concerned, always camped on the ground from which the vanguard had marched out.

In the first presidential campaign we can remember, that of 1876, the issues that have functioned later—tariff, taxes, currency, etc., did not come up. The Republican party was on the defensive in that campaign—its long lease of power had made it very corrupt; the South, of course, was solid for Democracy and in the northern states the independent votes were gravitating toward the Democratic candidates.

The economic side of the question came to the front in 1880. The opposition candidates both being strong union men, the Republican party had little opportunity to sound its slogan of disloyalty. It is probable that if Gen. Hancock had been as much of a statesman, or rather politician, as he was a soldier, he would have been elected; as it was, the masses of the North feared business and industrial disaster and Garfield was elected.

Garfield was killed before the policy of his administration could affect the country one way or another. It was during the administration of his successor, Arthur, that the Democrats began to make an organized warfare on the tariff, which they denounced as the root of all evil and the cause of high prices and taxes.

in Georgia were less than one per cent. People had not near so many luxuries and conveniences as now, but they had more and better food, more comfortable and durable clothing, and despite the ten and twelve hour workdays, most of them had more sleep.

Mr. Cleveland in 1884 made his campaign on the tariff and the "public office is a public trust" idea. Mr. Cleveland was an earnest and honest man and was elected. Owing to the Senate remaining Republican, there were no economic changes during his administration.

The McKinley administration was aided by the inevitable rebound from depression; also at the same time, the country triumphed in war over Spain. The country increased in prosperity, luxury, taxes and prices.

We all know there was nothing of either, and the outbreak of the world war probably saved the country from just such another experience as it had during Cleveland's second administration. Reform of the national financial system was probably the one wise and scientific measure of the Wilson administration.

The defeat of the Democratic party in 1920 was due to discontent about the war. It was in control of the government during the war, and was blamed for all the mistakes and consequences of the mistakes. There is no reason to believe that it made any more mistakes than the Republicans would have made, but the people were sore and mad and took it out of the party in power.

The truth is that electing a president has become a game. We nominate our man and go out to elect him in pretty much the same spirit that we watch a ball game or a horse race. It is only the raw and inexperienced or the hopelessly boneheaded that expects the result to benefit the people.

Here in the South, we have a vital issue—white supremacy. That will never bother the North. It wouldn't bother the South if the North would let it alone. Otherwise you may take any hundred Americans, from all over the country, mill them around, divide them equally, and they will come very near counting up 50-50 in ability and honesty as well as numbers.

The reasons why taxes and expenses are so high are our steadily increasing laziness and extravagance and the steady decrease of our natural resources. In the past fifty years, there have been invented and put into use more labor-saving devices than in all the centuries together before in the history of the world.

health—to everything that is really worth while. But such a large portion of them are pandering to idleness or useless activity and luxury that the good result of all has been more than neutralized.

The American stock that won this continent from the wilderness was industrial and frugal. It had some gross vices, but they did not debase and deteriorate mind and body as do the more refined dissipation today.

The sons of old American stock are chiefly concerned in finding sun-proof jobs, where they do not need to raise a sweat and the daughters to either marrying money or not marrying at all, and in either case to avoid as far as possible the bearing of children.

What is the remedy? There isn't any. Mankind never learns wisdom except through suffering. We will go on pyramiding—only from the apex up—until dire want, sheer inability to live, brings about a debacle, and then what is left of the nation will painfully retrace its road.

## Pattison Kline to Deliver Notable Chautauqua Lecture

"What Do You Think When You Think?" will be the challenging lecture subject of Pattison Kline, well-known educator and lecturer, at the coming Hedpath Chautauqua. This address is designed to arouse men and women everywhere from mental lethargy in regard to the problems

PATTISON KLINE

which are facing America and the world today. Mr. Kline has achieved a splendid reputation as a lecturer on questions of current import. During the past year he lectured over 50 times in various cities. His addresses are always constructive contributions to the thought and are always enthusiastically received by his audience.

## WATER LEAGUE TO PLAN CANALS BIG ORLANDO MEETING

ANY CITIES TO BE REPRESENTED—DISCUSS MEANS CHEAPER TRANSPORTATION

Definite plans for a big meeting of the Central Florida Water Traffic League in this city on March 24th were made yesterday at a meeting of the directors of the league held in the local Chamber of Commerce building. Every city in Central Florida will be invited to send representatives and it is expected that the industries interested in transportation problems will be well represented. The meeting will be held in the city courthouse and Senator Park, former Congressman C. D. Lines, of New York and Altamonte, W. T. Donnelly, a naval engineer Brooklyn, and other well known men will be speakers. S. J. Sligh, a local fruit shipper, president of the league, said that the proposed canal system from Kissimmee to the St. Johns river at Sanford and thence to the Indian river on the East Coast would be the subject of discussion, although other means of obtaining reductions in transportation costs would be brought

both Mr. Sligh and W. M. Tarpley, the manager of the P. Phillips Co. pressed the belief that the present high rates would cause permanent injury to the citrus industry of the state. Immediate means of transportation to the Northern center at a cheaper rate are necessary, they said.

Since the league was organized in this city last fall, shipments to all other points by water routes have been than doubled, and if the canal which is proposed should go through there is little doubt but that thousands of dollars would be saved annually in this section of the state. Those who attended the meeting yesterday were: Robert J. Holly, editor of the Sanford Herald; J. C. Bull, of the Bull Hardware Company, of Sanford; G. W. Knight, president of Sanford Chamber of Commerce; R. W. Pearman, secretary of the Sanford Chamber of Commerce; W. Donnelly, of New York and Sanford; and S. J. Sligh, W. M. Tarpley, Benjamin R. Cox, of Orlando.—Orlando Sentinel.

## Potato Growers' Prospects Bright Hastings District

ST. AUGUSTINE, March 8.—A tour of inspection made yesterday afternoon through the potato section of St. Johns county revealed the fact that the potato growers this season have perhaps the best prospects for a big crop that they have had for many years.

The farms in the vicinity of Elkton, Spuds, Hastings and Orange Mills which comprise the majority of the acreage in this county, all look marvelously well and in almost every case the potato fields are showing practically a hundred per cent stand.

The fields which were planted early in January are now a solid space of green. The plants are all healthy and strong and growing vigorously every day. There are a number of the farmers who were late in getting the seed in the ground, but these are also showing plants of smaller size, but also of uniform growth and in perfect condition.

The weather up to this time has been ideal for the crops. There has been just sufficient rains and the cool weather has kept the plants in a strong and healthy condition and free from any sign of blight.

The acreage planted in Irish potatoes this season is somewhat larger than last year and the farmers will harvest the crops somewhat earlier this year than usual. In fact, they are now busy assembling the barrels in their barns to have ready for harvest time.

The only possible handicap now to banner crop would be a severe cold spell which is hardly to be expected so late in the season. There is a slight element of danger from frost, however, for the next week or two.

The growers are assured of good prices for hte potatoes this spring. The stock of old potatoes throughout the country is almost exhausted and the markets will be almost bare and eager for the new crop when they make their appearance commencing early in April.

## "SATURDAY NIGHT" PLAYERS DANCE PUPILS

If you aspire to be a leading woman in a Cecil B. DeMille's production, you must have had some aesthetic dance training under Theodore Kosloff, famous Russian dancer and screen actor.

Since Mr. Kosloff's appearance in DeMille productions two years ago, the director has sent many of his famous players to the Russian dancer for training and exercises that develop grace. So satisfactory has this proved that the producer now requires all his leading women to attend Kosloff's dancing classes.

Leatrice Joy and Edith Roberts, who share the principal feminine honors in "Saturday Night," which comes to the Star Theatre Friday and Saturday night are the latest additions to the training school. Conrad Nagel, Jack Mower, Theodore Roberts, Sylvia Ashton, Edythe Chapman, Julia Faye, James Neill, John Davidson and the other members of the cast of this picture also have been pupils of Kosloff while appearing in previous Cecil B. DeMille productions.

## DR. HYMAN GOES TO TAMPA APRIL FIRST

Last week we published a print from the Tampa Tribune telling of the election of Dr. George Hyman as the Director of Activities of the First Baptist Church of that city. On last Sunday evening Dr. Hyman resigned the Pastorate of the First Baptist Church of this city in order to accept the work in Tampa. He will take charge of the new work on April 1st.

The First Baptist Church of Tampa is the largest in the state and one of the largest in the South. Already work has begun on the erection of a new building to cost \$250,000. A Sunday School building to accommodate 2,000 is in course of construction.

When Dr. Hyman came to Sanford there were only 200 members of the Baptist Church here. Since that time over seven hundred have been welcomed into the membership of the church. The small frame building has been replaced by a magnificent place of worship arranged for the modern Church and Sunday School. There will be but three or more Sundays of Dr. Hyman's pastorate and his letter to the church when he resigned, stated that he wanted to redouble his energies during those days for the advancement of the church.

## DEATHS

### DORA STAFFORD BALLARD

Mrs. Dora Stafford Ballard, wife of Richard Ballard, and the daughter of Mr. and Mrs. E. Stafford, of Lake Monroe, died in Chattanooga, Tenn., Wednesday, March 1st.

Mrs. Ballard was stricken some two weeks ago with influenza and was thought to be recovering from this dread malady when pneumonia was contracted and her death resulted within a few days.

Mrs. Ballard was born in Tarboro, Ga., January 20th, 1869, and removed with her parents in early childhood to Lake Monroe, where she attended the public schools, and later she attended school in Sanford, having graduated here in 1916.

She was married to Richard Ballard October 27th, 1910, and has since that time resided for the most part until her death in Chattanooga. Mrs. Ballard was loved by all who knew her and had a host of friends in Lake Monroe, Sanford, DeLand and Chattanooga.

Besides sorrowing friends and other loved ones, Mrs. Ballard leaves a grief-stricken husband, Richard Ballard, her two year old daughter, Cherry; her father and mother, Mr. and Mrs. E. Stafford; and four brothers, Guy, Will, Rush and Brownie Stafford of Lake Monroe, and one sister, Mrs. R. N. Cone, of Orlando.

The funeral of Mrs. Ballard was held Saturday morning at the Allen Chapel, in DeLand, and interment was made in the DeLand cemetery. Dr. R. W. Thiot, of the Baptist church, officiating.

A sad incident in connection with the death and funeral was the fact that the husband was also suffering with influenza and was unable to attend the funeral of his wife.

## CANOE RACE FROM MIAMI TO JACKSONVILLE SCHEDULED

(By The Associated Press)  
MIAMI, March 7.—A canoe race from Miami to Jacksonville will be held soon, if the challenges and acceptances hurried back and forth by aspirants for canoeist honors here are carried to the bitter end.

Messrs. Neville and Perry, Duluth, Minn. Canoe Club, issued a challenge for the race to the local club, and it was promptly accepted by Dick Hilton and Richard Steele, of the Miami Club. The Duluth consists have returned home for a canoe and it is planned to hold the race upon their return.

Under present arrangements, each canoe will carry two men, and the winner will be determined by the actual paddling time. Stop-overs along the route will be permitted.

## BREAKS BOWLING RECORD.

(By The Associated Press)  
TOLEDO, O., March 7.—N. Lundgren, of Chicago, rolling on the third shift of the singles event yesterday broke the American bowling congress tournament record and rolled into first place with a score of 729. Lundgren had games of 234, 232, and 263.

## A YEAR'S RESIDENCE

(By The Associated Press)  
RICHMOND, Va., March 7.—The Virginia house of delegates yesterday passed a measure providing that before a person can institute proceedings for a divorce, domicile in the state for not less than one year must be shown.

## Daily Fashion Hint

## FOR GINGHAM AND DIMITY

Asserting a versatile readiness for any daytime demand, these tub frocks herald the coming of Summer. Check gingham is used to fashion the first model, which closes on the left shoulder and at the left side. The front of the dress, in panel effect, is slashed at the center, underlaced and rolled with a convertible collar. The sides are gathered to a long-waisted blouse. Medium size requires 5 yards 32-inch gingham.

Draped at the sides to correspond with the skirt, the blouse of the dimity frock to the right is strikingly original. Organically in the color of the draped sections on both skirt and waist. The edges are piped. Medium size requires 4 1/2 yards 36-inch figured, and 1 yard 36-inch plain, material.

First Model: Pictorial Review Dress No. 9278. Sizes, 34 to 44 inches bust. Price, 35 cents.  
Second Model: Blouse No. 9269. Sizes, 34 to 42 inches bust. Price, 30 cents. Skirt No. 9262. Sizes, 24 to 32 inches waist. Price, 30 cents.

## TAR AND FEATHERS FOR ROBBERS NOW

New Jersey Has a Unique Punishment For Highwaymen.

CAMDEN, N. J., March 7.—Tarring and feathering will be the punishment for highway robbers at Wood Lynne, near here, in the future, Mayor William D. Kramer announced last night. Many residents of the community recently have been held up and robbed of small sums.

"We have obtained a big tank for

Chapped hands and faces needn't bother. MENTHOLATUM soothes and heals chaps and chilblains quickly and gently.

## STATE WILL HAVE MONEY FOR CAPITOL ADDITION WHEN THE TIME COMES

### Claims it Has Been Practice to Spend Money in Advance

TALLAHASSEE, March 8.—It is the practice in state governmental circles to let contracts and spend money before it is in hand, provided there is a good likelihood of it being in hand when the time comes to pay, according to answer filed in circuit court by counsel for the Board of State Institutions defending against the action of tax payers of Marion county who are seeking an injunction to restrain the awarding of the contract for the addition to the capitol of the continuances of work under any contract already awarded. The answer also denies that the legislature adopted any specific plans for the addition, or that the present plans differ to any substantial degree from those shown the solons. The board's counsel also filed a demurrer to the taxpayers' bill for injunction.

These citizens of Marion county sought to enjoin the Board of Commissioners of State Institutions from proceeding to have constructed the extensions and alterations of the capitol building under the provisions of Chapter 3422, Acts of 1921, on the grounds, that the board has adopted a plan for the extension of the capitol building different from that adopted or authorized by the legislature. They contend that the legislature in passing and enacting the statute did so with reference to a plan for extending the north and south wings to the west thus giving the enlarged building the shape of a U. They further claim that such plan was submitted to them and adopted by the legislature and that the board has adopted and is proceeding with a plan by which the completed building will have the shape of a maltese cross.

They further claim that at the time the Board of Commissioners of State Institutions let the contract for the construction of the extensions and alterations of the capitol there was not then sufficient funds in the state treasury to meet the appropriation made for capitol extensions and other appropriations made prior to the passage of Chapter 4822 and that all earlier appropriations had priority over that for the enlargement or alteration of the capitol.

They also claim their right to invoke the aid of the court in preventing the board from constructing the extensions according to the plans which they have adopted and from paying out any money to the contractors, on the ground that the complainants are citizens and tax payers of the state.

The Board of Commissioners of State Institutions in their answer deny that the legislature in fact ever adopted any plan or that any plan for such work was ever submitted for it, notwithstanding the fact that the act itself does refer to plans submitted. The defendants allege that no plans whatever were furnished the board by the legislature or its authority but that the legislature vested in it the authority to enlarge and alter the capitol building as it might in

its judgment and discretion deem best.

The defendants also claim that in order to be authorized to make contracts for the expenditures required by the act in question it is not required that there should be at that time actually in the treasury money to meet the appropriation made for that purpose and all other appropriations made earlier; that the law contemplates and it has been the recognized practice in this state always for appropriations to be made and contracts calling for the expenditure of public money to be made whenever there would be funds available for the purpose or payments would come due; that appropriations and contracts in pursuance thereof are always made with reference, not only to the money actually in the treasury but as well as with reference to anticipated revenues to be collected under levies already made or authorized.

The defendants also allege that even had the legislature specifically adopted the plan for a U-shaped building that the plan adopted under which the work is now progressing is no substantial departure therefrom but is in conformity to such general plans and no greater change in such supposed plan than the act authorizes. The defendants deny that the complainants as citizens and tax payers of the state have such an interest in the matter as to entitle them to maintain a suit or to enjoin the said board from constructing the building according to the plans adopted by it as the complainants have no personal or direct interest in the matter greater or other than has every other citizen of the state, whether taxpayer or not.

The defendants also claim by way of demurrer incorporated in their answer that the court is without jurisdiction to control the judgment or discretion of the Board of Commissioners of State Institutions in the matter because the duties imposed upon it by the act in question are not merely ministerial but are also of an executive and governmental character.

Easter Monday the ball of the season. 295-2tc

### TAMPA WILL HAVE NEW SCOTTISH RITE TEMPLE; WORK STARTING

(By The Associated Press) TAMPA, March 7.—Work on the new Scottish Rite Masonic Cathedral, now building here, will be completed in a few weeks, it is understood. The building, involving an outlay of approximately \$100,000 is to stand at the northeast corner of Lafayette and Marion Streets. It is a brick structure, 105 feet square and 42 feet high, or about the height of an ordinary three-story building. It will be trimmed with terra cotta and marble, the exterior being of Egyptian architecture. The interior of the lodge room is of a Grecian type.

The first floor will be devoted to a secretary's office, lounging and smoking apartments, lavatories, library, banquet hall and kitchen. The banquet hall will have a seating capacity of 400 persons.

### GREEN CATERPILLAR THE WORST ENEMY OF THE TOMATOES

(By The Associated Press) GAINESVILLE, March 7.—A greenish almost hairless caterpillar is the tomato's worst enemy, according to Prof. J. R. Watson, entomologist of the Florida Experiment Station, whose business is to evolve ways and means to ameliorate the farmers' troubles insofar as plant protection is concerned.

This little insect eats its way into the tomato, and consumes its contents, but because of the worm's predilection for corn, especially sweet corn, tomato damage can be prevented Prof. Watson says.

An occasional double row of corn should be planted across the tomato field at intervals of about 50 feet, and the corn should be planted at a time when it will be coming into silk when the first fruit is forming on the tomato vines.

Further in the matter, Prof. Watson says:

"The corn should be dusted with lead arsenate for bud worm when about knee high. The bud worm is the first generation of this tomato pest and, if allowed to reach maturity will greatly increase the amount of worms in the tomatoes.

Cowpeas should be planted between the double rows of corn. They will afford shade for the moths which lay eggs from which the troublesome worms hatch. By thus affording cool shades, the cowpeas attract the moths away from the tomatoes.

Harvest the corn before the worms have matured; the corn should be gathered for roasting ears.

### CROSS STATE ROAD IS NOW BUILDING WILL LINK COASTS

(By The Associated Press) FORT PIERCE, March 7.—Road projects, which it is said, will put into fairly good shape, the entire cross-state highway from Fort Pierce to Tampa, are in the offing.

Highland and Polk County Commissioners are planning to get together to formulate arrangements for the repair of the Frost Proof to Avon Park section, while early action is expected on the stretch from Lake Annie, north to Sebring, for which \$1,000 is now available. According to word from Sebring a meeting of the Highlands county commissioners has been called to discuss the latter portion with W. W. Clark of the state road department.

The work on Okeechobee county's share of the highway from Okeechobee City to the St. Lucie county line, is expected to be completed within a few weeks.

### DROWNED IN STREAM.

(By The Associated Press) WINONA, Minn., March 7.—Mrs. Gunder Midboe and four children were drowned while her husband and George Wealand, a neighbor, escaped when the sleigh drawn by two horses overturned in fording Beaver creek, near Caledonia, late Sunday.

### WILL HAYS IS IN THE MOVIES NOW

(By The Associated Press) NEW YORK, March 7.—Will H. Hays, former postmaster general took up his duties Monday as executive president of the motion picture manufacturers and distributors of America. He spent most of the first day in his sumptuous new offices receiving best wishes of leading motion picture producers, reading sheafs of congratulatory telegrams and admiring bouquets sent in by friends.

Mr. Hays denied he had been employed to bolster the industry asserting the following two clauses against attacks on its morality, asserting the following two clauses from his contract told the whole story of his duties.

"To obtain and then maintain the highest possible standards of moving picture production.

"To develop to the highest degree the moral and educational character of the industry.

### SELL BUM REAL ESTATE.

(By The Associated Press) WASHINGTON, March 7.—Declaring that there was a nation wide scheme to sell real estate of questionable value at Muscle Shoals, Ala., contiguous to the government nitrate and power properties, Irving B. Hiett, president of the National Association of Real Estate boards, yesterday urged the convention of that organization to investigate the situation. He insisted the executive committee take steps to protect the county. Mr. Hiett said the had heard that practically worthless marsh las was being subdivided and sold y unscrupulous promoters.

### SHOT FROM HIS HORSE

(By The Associated Press) CHARLOTTESVILLE, Va., March 7.—George V. Garrison, a merchant at Campbell, Albemarle county, was shot from his horse yesterday in front of the home of Max Proffit and died before medical aid could reach him. Proffit, the alleged slayer, surrendered to a magistrate and is in jail here.

### PROPERTY OWNERS TAKE NOTICE

The law provides that "If taxes upon real estate shall not be paid before the first day of April of any year, the Tax Collector shall advertise and sell."

This is to notify all concerned that the requirements of law will be complied with and the Tax Books will positively be closed on April first as provided by law and all lands on which taxes have not been paid will be advertised and executions issued for unpaid personal property taxes.

**PERSONALS**

The Lakeland Laundry branch office is sporting a new laundry delivery wagon.

Mr. and Mrs. E. A. Ball were among the visitors to Orlando yesterday from Sanford.

M. M. Smith of Winter Park was in the city today looking over his real estate and property.

Are you observing Lent? If you are you will not be interested in the new place cards at the Herald office. You can look at them, anyhow.

The members of Campbell-Lossing Post American Legion are getting ready to invade Palm Beach next week and attend the meeting of the State Association.

J. G. Ball, R. W. Pearman, W. T. Donnelly, G. W. Knight and R. J. Holly attended a meeting of the directors of the Central Florida Waterways Traffic League yesterday in Orlando.

Hats were exchanged at the Methodist church last night and N. J. Lillard received one that while it suits him alright is not his own and he feels that during the revival it would not be right for him to keep it. Therefore if the owner of Mr. Lillard's hat will return it all will be peace and prosperity at the Herald office again.

Have you noticed the new advertisements of the Seminole Bank in reference to the savings bank department. Mrs. Victor Check has charge of the new advertising and they are snappy and right to the point and will get results. The Seminole Bank has also doubled their regular space as they believe in advertising and get results thereby.

**THRILLING IS STORY OF POLA NEGRI'S GREAT PARAMOUNT PICTURE, "THE LAST PAYMENT"**

One of the most remarkable stories ever screened is that of "The Last Payment," a splendid Paramount picture starring Pola Negri, the famous screen actress, which will be the feature at the Star Theatre for one day, next Thursday. Screen fans who saw Pola Negri in "Passion" and "Gypsy Blood," will find her role in "The Last Payment," even more fascinating than those she essayed in the pictures named.

The celebrated star is seen at Lola, the prett wife of a South American cattle dealer. She meets a young Parisian and when her husband is slain by vengeful vaqueros, she accompanies the young man to Paris. It develops that Lola has been previously married and driven her husband to ruin, but when she again enters his life, he recognizes and exposes her to the man who vainly loves her. Tragedy then enters into the lives of those concerned and the subsequent developments are as thrilling as they are dramatic and appealing.

Pola Negri vests the role of Lola with exquisite are in her support appear some of the best known screen artists of Europe. There are several

big scenes in the picture all of which have been splendidly handled by George Jacoby, the director.

**WHAT'S IN A NAME ANYHOW?**

Pola Negri, Despite Her Name, Is Superb in "The Last Payment."

Pola Negri, famous screen star, was called by one critic "a serious dramatic star with a funny name." It is a name quite unlike "anything else on the market" and it earns the distinction of being unique. Mlle. Negri is a Continental star, who has never visited this country and, hence has not been subjected to the grueling interviews of American newspaper men. Pola Negri won enviable fame as the star of "Passion," and she will be seen at the Star Theatre tomorrow night in "The Last Payment," a Paramount picture. Her portrayal in this superb photoplay is said to be one of the best ever seen on the silent stage.

**OVEIDO ORCHESTRA IS MAKING GREAT STRIDES IN MUSIC CIRCLES**

Among the really fine musical organizations of Seminole County is the Oveido Orchestra recently organized under the leadership of E. A. Ball of this city. The organization is officered as follows:

Mrs. W. J. Lawton, president; Mrs. McCall, vice-president; Miss Mitchell, secretary and treasurer.

The orchestra is composed of twenty-five members and is a stringed and brass instrument orchestra that is destined to take its place among the musical organizations of the state in the near future. They expect to give their first concert at Oveido some time soon and will also give a concert in Sanford and other cities. Just another instance of the women taking the leadership in all things good and their first appearance on the stage will be awaited with much interest. Oveido has long been noted for great local talent in many lines and their fine orchestra is only one of the big things organized in that thriving little city.

**ON TO OCALA IS THE SLOGAN OF CENTRAL FLORIDA**

"On to Ocala," will be the slogan of Orlando at least and should be the slogan of all the other cities in central and south Florida. Sanford will be represented at the meeting officially by Forest Lake and D. L. Thrasher but other citizens should attend this state division or capital removal meeting. Sanford is vitally interested in the meeting and a large crowd of people should be there. Orlando is going with the band and all sails are set as the following from the Sentinel would indicate:

"The board of directors of the Chamber of Commerce had a session yesterday. One thing endorsed was encouraging the dispatch of a monster delegation of Orlando citizens headed by the Cola-Santo band to the state capital removal meeting to be held at Ocala next Monday. At least 100 Orlando citizens are urged to notify Secretary Cox that they will go. List your cars. Orlando is going to Ocala to find out what is doing and Orange county boosters are expected to make a big showing and Cola-Santo will blow Orlando's "horn." Got in line."

**SANFORD'S TEMPERATURE**

Our weather observer gives the weather for part of yesterday in the report today and 83 looks "rawther twisted" you know, but it is cooler than 83 today and the finest weather that could be hatched for the vegetable growers. Nothing could be better, everything is lovely, the city and country is saved and the banks are still loaning money. What more do you want?

Barometer	30.28
Rain	.51
North and clear.	

**THE WEATHER**

For Florida: Fair tonight followed by increasing cloudiness Thursday; somewhat warmer on the mainland.

**State Automobile Association to Meet at Lakeland Monday**

The State Automobile Association will meet at Lakeland Monday and it is hoped that a large delegation will go down there from this part of the state and help to reorganize the association and get ready for a big summer season. M. M. Smith, the president of the Association, has labored long and faithfully for the organization and the troubles that have come upon the body have nothing to do with the active head for he has worked for co-operation, for organization and for the upbuilding of the association early and late. Every member of the Florida Automobile Association should go to Lakeland Monday and help to put new life into the club that means so much to the state in many ways. Every state in the union has an active, live automobile association and up to a few months ago Florida had one but it has fallen into decay and is not functioning properly. The auto clubs all over the world do a wonderful work in good roads, better spirit of co-operation among the owners of autos and better legislation for the benefit of good roads and auto owners. Florida that now has more miles of good roads than many states and has as many automobiles as any of them, should by all means have an active auto club or association. It is up to the members to either inject new life into the club at the Lakeland meeting or reorganize into a new club or drop the matter altogether.

**BANKRUPTCY SALE**

Selling out Bandel's stock Friday, March 10th, 316 Sanford Avenue.—J. D. Parker, in charge of sale. 295-316

**CARD OF THANKS**

We wish to thank the many friends in Seminole, and Volusia counties, for the kind thoughts, expressions of condolence and the magnificent floral offerings, offered, expressed and received, in connection with the recent death and funeral of our beloved wife and daughter, Dora Stafford Ballard.

RICHARD BALLARD,  
MR. and MRS. E. STAFFORD.

**ATTENTION REBEKAHS**

Regular meeting of Seminole Lodge Friday, March 10th, at 6 o'clock, so that all who wish can go to DeLand to the District meeting. Notice the change in hour.

MRS. D. S. E. STARR, Noble Grand  
MRS. LOSSING, Secy. 297-21p

**MEN'S CLASSES TONIGHT**

The men's classes of the Methodist church are going in a body to that church tonight to the revival, where Dr. Walker will preach a special sermon.

Mr. Boyd is leading the singing which is a guarantee of its quality. Mrs. Newberry will sing tonight as well as Mr. Boyd. Mrs. Boyd will play the violin. Good thing in store for all who go.

This cold weather is making celery prospects loom much brighter and while the prices may fluctuate from time to time the price of good celery is bound to go higher and all authorities on the subject think it will go lower than \$2 a crate here in Sanford during the season.

**OUT WITH THE ROAD SIGNS**

The County Commissioners of Orange county at their meeting yesterday ordered every road sign on the Orange county roadways to be taken down at once. This means that Orange county will not only plant trees and flowers along the right-of-way but they do not purpose to have the beauties of nature spoiled by the objectionable road signs that now stare you in the face every time you glance out of a car and try to see something of the beauties of nature in this favored part of Florida. The action of the Orange county commissioners is very commendable and their action will be followed by the commissioners of other counties in the state until Florida will be as clean as other states that have adopted this plan long ago. Left with a free hand to put up as many signs as they please the sign board advertisers will go on and on until there is nothing left of the roadways except a solid wall of advertisements. Seminole county is getting as bad as the rest of them and it would be a good thing for the Woman's Club and the other clubs to call the attention of the county commissioners to the action of the Orange County Commissioners in their efforts to make the roads beautiful as well as substantial. The Orlando Sentinel news item about the action of the Orange County board is as follows:

"The highway beautification movement took a long leap forward yesterday when the county commissioners unanimously ordered that all advertising signs and bulletin boards along the rights of way of the county should be removed by April 15.

"The order was introduced by Commissioner S. S. Sadler, who has cooperated with the committee appointed by the Orlando Chamber of Commerce and the sub-committees named by other cities in the county to force the highway beautification plans. It provides that persons who now have such signs along the county roads may have until April 15 to remove them. If any remain after that date they will be destroyed by the county road superintendent.

The number of signs and bulletin boards has greatly increased in the last two years and numerous protests have been made by citizens to the board of county commissioners. Others have expressed their disapproval of the so-called disfiguring advertisements through the columns of the newspapers.

"In many places laws prohibiting the erection of billboards and signs have been passed and the ruling of the commissioners is expected to meet with the general approval of the people of the county.

"I. W. Phillips, chairman of the Chamber of Commerce committee, said last night that enthusiastic meetings were being held in the various towns of the county and that the work of beautifying the highways would go forward with renewed vigor, as a result of the commission's action.

**NOTED LECTURER HERE TONIGHT**

Will Speak at First Baptist Church. Admission Free.

Dr. W. J. Christenberry, of Richmond, Va., is a visitor to our city today, and will lecture tonight at the First Baptist Church. Dr. Christenberry has just returned from an extended tour through China and also the South American countries. His subject tonight will be "Child Life in China."

The public generally is invited and admittance is free. The lecture begins at 8 P. M. There will be a song service preceding the lecture and a short address by Dr. C. M. Brittain of Jacksonville, Fla.

**SANFORD AT ORLANDO FAIR**

Busy at home and lack of push, Sanford failed to get in the blue ribbon class. But here on the job where she always keeps the step, she cleaned up both the blue ribbon and the long green, as witness her net market budget of \$2,652,000.00, which does not include express and boat shipments, approximately 50,000 packages now, the corn and hay coming off the same acreage, thanks to our long seasons, sub-irrigation and intensive system of farming. Here we do live, never failing to make a saving average, pay labor weekly and keep business up and going. The world outside should know these facts and its to our growing interest to inform them. Data in easy size for mailing out with letters can be had at the New Era printing office, west end corner, Sanford avenue and 4th street.

Me, too, for Sanford.  
C. H. LEFFLER.
