Sen. Holland Is Speaker At Jaycee Meet

Nation Is Over The Hump, Senator Says In Talk On State Of Defense Effort

The United States is over the hump in its national defense effort and "if we can get through this winter without a war, we will be as strong, both in this country and abroad, as any nation which is very rash indeed will dare attack us," Senator Spearhead Holland told the Seminole County Junior Chamber of Commerce at its regular meeting at the Yacht Club today.

The American Army has passed the 3,000,000 mark, and is well on its way toward a 4,000,000 man army, Congress has approved Universal Military Training and necessary enabling legislation will probably be enacted after the first of the year, we now have considerable strength in Korea to meet whatever emergencies may arise there, our atomic bomb program is well ahead of that of any other nation in the world, in the field of foreign affairs our diplomats have made considerable progress toward the conversion of the nation's economy to national defense has reached about 30 percent which is the goal at the present time, Senator Holland said.

He was introduced by Karlyle Housholder in a meeting presided over by President Tim Crawford who introduced the presidents of the various civic clubs, Jack Haligan of the Rotary Club, Joe Field of the Kiwanis Club, and Mrs. Verna Messenger of the Pilot Club. Other visitors were also welcomed.

Housholder introduced Senator Holland as "a man who has been an inspiration to me all my life" and "as one who sets a fine example for all young men, and who teaches everything that is good in America."

Sen. Holland Says Cement Shipments Are On The Way

Relief for hard pressed builders and workers in the building trades whose operations in Florida have been curtailed by a severe shortage of cement was today announced by Senator Spearhead Holland, who stated that the shortage would be greatly relieved by cement shipments from the Midwest, Europe and by increased production within the state.

He was advised of the increased cement supplies by Charles Maitland, head of the OPS regional office in Tampa, and S. M. Selden, NPA specialist in cement distribution, who was summoned to Florida at the request of Senator Holland to seek a remedy for the shortage, which has been especially acute in Central Florida and the Tampa-St. Petersburg area.

Senator Holland said that he felt that the shortage problem is being solved by shipments now moving to this state, and that he had no doubt that it is not critical in the nation as a whole but that cement is in short supply in Florida and California on account of the increased demand.

Florida, he pointed out, building construction amounted to \$200,000,000.

Football Parade To Precede Game

Seminole High School's motorcade parade celebrating the team becoming game host tomorrow night will get underway at 4:15 o'clock in the afternoon at the High School. The route of the parade will be "There is no place like home."

The route of the parade will be east to Park Avenue, south to Second Street, east to Pine Street and north to First Street. With the S.H.S. band and pep squad leading, the parade will get west on First Street to Park Avenue, south to Second Street, west to Mainline Avenue, turning at the corner of Tompkins for the pep meeting at about 8:00 o'clock.

Game sponsors elected by the team members are the Misses Norma Fave Harvey, Corveta Perkins and Jess Wilson. Their sponsors are Robert Kippen, Ed McKinley and Douglas Wilkey.

ADDITION TO ELKS CLUB

Plans and sketches for the proposed addition to the Elks Club as drawn by Elton J. Moughton, architect, will be shown tonight at 8:00 o'clock to members of the lodge by Earl Higginbotham, chairman of the building committee. Located back of the Elks Club building on Second Street, the new building of one story masonry construction will measure approximately 10 by 80 feet and will cost about \$25,000.

The special United Air Lines plane carried the General and his wife to Portland to the echoes of Democratic criticism of the political phases of his nationally broadcast address at the opening of the Centennial Celebration.

Photo of Architect's Drawing by R. L. Cox, The Essex Studio membership in the Elks Lodge will be acted upon tonight, Secretary Leo Butner stated this morning.

City Released From Terminal Bond Contract

State Supreme Court Determining Validity Of Bond Issue

At a special session yesterday afternoon of the City Commission, an agreement was reached with L. R. Ghorzley, representing the L. R. Ghorzley and Fisher law investment company of Knoxville, Tenn., for a release of the city from its terminal bond issue.

Mr. Ghorzley, according to City officials, agreed to release the contract upon payment of the actual amount of pocket expenses incurred by the firm in the promotion of the bond sales, and totaling \$2,500.

He said, would cover the cost of surveys, trips to Sanford and prospectuses circulated. He informed the commissioners that he had nearly completed sale of the bonds twice, but due to delays in validation, had to cancel the sales.

Meanwhile the State Supreme Court has taken the information furnished by the City and the interveners and is in process of determining if the bond issue is valid or not.

The action taken yesterday by the Commission, said City Manager Clifford McKibbin this morning, does not withdraw from the Supreme Court the appeal by the group of interveners against the validation decision by the lower court, as the Circuit Court has held that the bond program was valid.

The Commission requested Mr. McKibbin to inform the firm of Smith and Gillespie, engineers who drew up the plans for the port-terminal, and the law firm of Caldwell, Marshall, Trimble and Mitchell that the City had been released from the delivery of the bonds by Mr. Ghorzley and the Fisher-Hawes firm.

Sanford Man Wins U. Of F. Blue Key

GAINESVILLE, Nov. 14—(AP)—Eight University of Florida students have been awarded membership in Florida Blue Key honorary leadership fraternity.

The eight, chosen for leadership and scholarship abilities, are prominent in such fields as sports, government, organization, campus politics, and public relations. Membership in Blue Key represents one of the highest campus honors a student can receive.

The eight: Robert C. Bauer, Ponce de Leon; Edward M. Boyd, Macdonald; J. Wiggins, Sanford; Edwin Wilton Jackson, Jacksonville; Bill A. Fleming, and Edward Sigel, Miami; J. Paul Horton, Sanford, and J. Byron Mills, Ft. Lauderdale.

Farouk Declares Egypt Not Going To Be Pressured

Talk To Parliament Accuses British Of Sheer Force

By EDWARD POLLAN
CAIRO, Nov. 14—(AP)—King Farouk in a three hour speech yesterday declared that Egypt will not yield in the Anglo-Egyptian dispute "in any pressure or coercion."

The speech, read in Parliament by Prime Minister Muftah El Nahas Pasha as the King sat listening, said the world can see Egypt "is resolved to recover her full rights and redeem her full sovereignty."

The government, he added, is determined "to proceed along the path it has outlined for itself without hesitation or delay."

The speech said that the British—after Egypt's recent abrogation of the 1936 treaty and the 1937 agreement between the two nations—"chose a course of violence and sheer force" instead of a way of peace and recognition of reality.

Britain has refused to recognize the one-sided scrapping of the treaty and replied to Egypt's act by rushing strong military reinforcements into the canal area.

Before the address, the deputies and senators gave three minutes of applause to King Farouk.

Kidnapper's Car Is Found Near Sanford

DAYTONA BEACH, Nov. 14—(AP)—A black and charrette convertible in which two escaped convicts are said to have kidnapped a Tampa salesman and Michael that the City had been released from the delivery of the bonds by Mr. Ghorzley and the Fisher-Hawes firm.

State highway patrol head quarters at Land and the car was being checked for fingerprints and other evidence that it had been used by A. R. Walker and Robert G. Dalton, who escaped from Indiantown State Road Camp last Saturday.

Pictures of the two men, who are described as "extremely dangerous" are being forwarded to Tampa where the kidnap victim, Philip L. Hayes, 22, will be asked to identify them.

Democrats Rap Gen. MacArthur For "State Of Union" Message

SEATTLE, Nov. 14—(AP)—Gen. Douglas MacArthur took off on his homeward flight today after stirring up a political controversy over his "State of the Union" address.

The special United Air Lines plane carried the General and his wife to Portland to the echoes of Democratic criticism of the political phases of his nationally broadcast address at the opening of the Centennial Celebration.

It was the speech in which the General charged the Truman Administration with leading the Nation down a road to a Third World War, to Socialism and to ruinous taxes and spending.

The general's address drew praise from some of his supporters.

In a brief talk at Tacoma yesterday, he commented: "When I left New York, a friend said 'Oh, politics? I answered, 'no, Americanism.'"

Sen. Harry P. Cain, Washington Republican, said of the General's controversial speech: "A brave and bold American speaks the truth in a candid and direct and honest manner."

Cain himself was involved in the controversy. Some of the labor union criticism in advance was specific and pointed out for Cain in the Seattle civic sponsored program.

The sharpest criticism of the MacArthur speech was by Seattle Democratic Congressman Hugh Mitchell. The Seattle Times

Swedish Author Is Awarded Nobel Literature Prize

STOCKHOLM, Nov. 14—(AP)—Two pioneers in British study research today were awarded jointly the 1951 Nobel prize for physics, they are Sir John Cockcroft, the British government's top atomic scientist, and Prof. E. T. Walton of Dublin's Trinity College. Two American atomic pioneers are expected to receive the joint chemistry award later in the day. They are Dr. Glenn T. Seaborg and Dr. Edwin M. McMillan, both of the University of California at Berkeley.

STOCKHOLM, Nov. 14—(AP)—The Swedish Academy today awarded the 1951 Nobel Prize for literature to one of its own members, Per Lagerkvist, author of the novels "The Dwarf" and "Barabbas." Lagerkvist, who is 60 years old and a playwright, poet, essayist and writer of short stories as well as a novelist, received a check for 167,412 crowns (\$32,357) from King Gustaf Adolf at the Nobel Prize presentation ceremony to be held in Stockholm on Dec. 10.

The selection of Lagerkvist for this year's literature prize was not unexpected here. He was mentioned among contenders in 1949 and again in 1950, running second to American novelist William Faulkner in the Academy's balloting in the latter year.

Man Is Killed In Gun Battle With Miami Patrolmen

MIAMI, Nov. 14—(AP)—The arrest of two men shot with a .38-caliber handgun today in Miami.

Detective Sheriff Tom B. Hop of the sheriff's homicide squad today said the man, Jack Holaday, 44, was trapped in a hotel (W) on room and shot. He died an hour later at Jackson Memorial Hospital.

Holaday told the story of his running fight and eventual death.

Local Farm Bureau Hears Allen Kline

Members of the Seminole County Farm Bureau of which John Flanagan is president, were among those who heard this morning the talk of Allan B. Kline, president of the American Farm Bureau Federation at its convention in the Orange Court Hotel, Orlando.

Forest E. Breckenridge, manager of the Seminole County Chamber of Commerce, was chosen to lead the group singing at the convention.

Scheduled to address the convention this afternoon was Mrs. Catherine DeBasso, secretary of the Associated Women of American Farm Bureau, Loring Raoul president.

RED CROSS MEET

The meeting of the directors of the Seminole County Red Cross Chapter, which had been scheduled to be held tomorrow night at the Montezuma Hotel, has been postponed until further notice, the Rev. H. L. Zimmerman, chapter chairman, announced this morning.

Mrs. Velma Gonzales, executive secretary of the Chapter, returned Tuesday from Atlanta, Ga., where she took a 10 day course of training for secretaries in Red Cross work.

U.N. Is Told Red Armies Poised On Yugoslav Border In '52 Campaign

25 Russian Satellites Divisions Called Threat To Peace

By STANLEY JOHNSON
PARIS, Nov. 14—(AP)—Communist Yugoslavia charged today that Russia is drafting 25 divisions poised on her borders, threatening world peace.

Speaking before the United Nations General Assembly, Yugoslav Foreign Minister Edvard Kardelj claimed this was about double the number of troops the satellites Hungary, Romania and Bulgaria had stationed there two years ago. The figure he said did not include the Soviet troops in those countries.

The charge was part of a 11-point indictment Kardelj presented to the 40-nation assembly to back up Yugoslavia's complaint of hostile acts against her by the Soviet Union and other Eastern European satellite states.

Kardelj said Russian aggression against Yugoslavia had caused an isolated incident but was part of a worldwide series of hostile acts which threaten the peace of the world. He cited the case of Korea as another example of warlike Soviet policy.

Kardelj was one of the main speakers today in the continuing opening debate before the United Nations General Assembly.

Sgt. Robert Hodges Home From Korea

Sgt. Robert Hodges, who served seven months with the Second Division in Korea, returned this week to spend 30 days leave with his parents, Mr. and Mrs. J. H. Hodges of Lake Monroe.

HOUSING BAN

BOSTON, Nov. 14—(AP)—Complete curtailment of all residential construction except in critical housing shortage areas was urged last night by Tighe E. Woods, National Real Stabilization director.

The curtailment is necessary, he said, "to insure adequate housing for defense workers and military personnel in critical areas."

President Will Ask For Changes In Taft-Hartley Law

By ERNEST B. YACARO KEY WEST, Nov. 14—(AP)—President Truman declared today he is drafting a "State of the Union" message committing the Democratic Party to campaign in 1952 under a "Fair Deal" banner.

But under a bombardment of questions from reporters at a White House news conference he refused to comment on whether he intended to support repeal of the Taft-Hartley law, the Democratic presidential nomination or whether he will seek re-election.

He said that at no time did he discuss domestic politics with General Eisenhower in their recent conferences on the Western European defense program in Washington.

He said he had made that clear to the press and that he had no intention of discussing the matter with anyone else.

He said he had no intention of discussing the matter with anyone else.

He said he had no intention of discussing the matter with anyone else.

IKER MANAGER

NEW ORLEANS, Nov. 14—(AP)—Sen. James H. Duff (R-Pa.) says Sen. Henry Cabot Lodge, Jr. (R-Mass.) will accept the leadership of a campaign to elect Gen. Eisenhower president.

LAWYERS POLLED

TALLAHASSEE, Nov. 14—(AP)—Florida's 4,600 lawyers are being polled on their preferences for appointment to three new state Supreme Court positions that may be created next year.

The law journal, official monthly magazine of the Florida Bar, has in its current issue a ballot on which attorneys may nominate their first three choices among lawyers in their own judicial circuits.

Reported Red Atrocities Enrage U.S.

Communists Abandon Insistence On Immediate Truce On Korean War Front

By ASSOCIATED PRESS
Reports that the Communists have murdered 5,000 U. S. prisoners in Korea and a wave of outrage and anger throughout the United States today, and brought a call from a Congress member for losing of atomic weapons against the Reds.

At the same time, it was plain in Washington that the defense and state departments were startled by the news that the Communists had sought off balance and unprepared.

They were unable to say whether the government officially supported the charges as true.

The surprise to top officials was reflected also at Key West where President Truman is vacationing.

Although denouncing the reported slaughter as horrible and unprovoked, Mr. Truman and he had not been told officially of the compilation made public by Col. James M. Hanley, chief of the War Crimes Section of the Eighth Army.

Asked by reporters if it brought the day closer when the atomic bomb might be used in Korea, the President replied that he had no comment on that.

The question was prompted by a call from Rep. C. C. Brannan for one of the A-bombs of the reports was true.

William Barnard, Associated Press War Correspondent, and in a dispatch from Tokyo that at present no one in Army headquarters there knew in advance that the report would be released. He said that all Gen. Mark W. Clark's staff were back home.

He reported that Hanley's intention also was not known to Gen. James A. Van Fleet, the Eighth Army commander.

In an interview at Pusan, Korea, Col. Hanley said he thought the figures because he thought American soldiers at the front ought to know what they are up against.

Hanley said the story of a "war-crime" of prisoners held in (Continued on Page 14)

Ellender Claims Truman Will Not Seek Re-Election
WASHINGTON, Nov. 14—(AP)—Senator Ellender today declared that he would not seek re-election, he said the President's re-election would be a "disaster" to the country.

Ellender, a former foe of the President's Civil Rights Program, said Mr. Truman would find a "difficult" and "tough" fighting him and added there was "no such opposition to his re-nomination he probably would not consent to be placed on the ticket."

He said Mr. Truman, coming on a platform similar to that of 1948, would lose at least eight additional states in the "electoral college" of the White House.

"I think the Republicans are going to profit by their experience in 1948," the Senator said.

Ellender told reporters he expects the Republicans will elect Senator Robert A. Taft of Ohio in their 1952 "landmark" election. He said he would not seek re-election.

But he declared emphatically he hopes the General would run in Europe on which he may visit.

"If I thought I could convince him he ought to stay where he is, I'd try to do it. I also mean to say General Eisenhower is a competent, or anything of that, but we need a man of proved administrative experience in the White House," Ellender continued.

"But if Eisenhower is the Republican nominee, and Mr. Truman runs again, I know very well some of the Southern states would go Republican. Eisenhower could be elected on either ticket, I believe, but I believe his chances would be better on the Republican ticket, if he doesn't follow too closely the anti-Europe plan he now has to follow. He could beat any Democrat because of his popularity, not because of his ability."

Entered as second class matter October 27, 1919, at the Post Office of Sanford, Florida, under the Act of Congress of March 3, 1879.

THURSDAY, NOV. 15, 1951

Be it said to the credit of the State Highway Patrol, they are cracking down on reckless driving. More than 23,000 arrests have already been made this year as compared with only 17,710 last year.

We regret the decision of Mr. H. B. Pope to run again for County Commissioner. It is not often that a county of our size has an opportunity to benefit from the services of a professional engineer of Mr. Pope's training and experiences at virtually no expense to itself.

Members of the Seminole County Chamber of Commerce give some thoughts to projects which may be sponsored by the organization during the coming year. There are as many ideas about what ought to be done as there are people to express them.

The atrocity story in Korea was apparently released without that knowledge of either the Defense or State Departments. That is to say, they knew American soldiers taken prisoners by the Chinese Communists were being butchered without regard to the Geneva Convention.

What courage and faith in a community is able to accomplish is shown by Martin Andersen in the Orlando Sentinel following a recent visit to Cocoa and Merritt Island where "the most amazing and outstanding development of all Florida is the Caneval Harbor."

BRUCE GETS LEAVE
FORT MEADE, Md., Nov. 14 (AP)—Lt. Bruce A. Bruce, 28, of Thomas A. Brown of Lake Wales, Fla., was granted 10 days leave to visit his family in Florida.

Upward Price Change

The Office of Price Stabilization has announced new changes in regulations which permit generally higher prices. The agency carefully pointed out that the changes were the work of Congress, since they were required by the Caperhart amendment to the economic controls law.

The price and wage controls represent an attempt to dampen the rise of prices and wages, while the basic causes of inflation remain untouched. A flat, rigid, all-encompassing freeze of everybody's prices and everybody's wages might work for a while.

Part of the inflationary pressure is provided by the military program. It takes goods off the market while providing a large amount of employment, resulting in larger demands for goods. Higher prices are an inevitable result.

Every year of an unbalanced federal budget inescapably takes a few more pennies away from the real value of the dollar. Attempts to control inflation by means of a federal agency are futile as long as the rest of the government continues to create inflation.

Citizens' Committee

Citizens' committees in work for certain accomplishments or reforms in government might become excellent devices for increasing popular knowledge of the workings of government. These committee enterprises sometimes may be disappointing as to the achievement of their specific objectives.

A community which has one or two of these citizens' committees at work has a small nucleus of persons who are acquiring a keener interest in local affairs than they ever had before. The circle of learners can be broadened by rotating the membership on a committee, and by forming a new committee to tackle some other job as an old one winds up its task.

The specific accomplishment of a citizens' committee is often of great and lasting value to the community. But of even greater value may be the interest which has been awakened among the people who worked on it, the enthusiasm they have generated for other enterprises to bring the people into closer relationship with the community.

Dickens On Television

The efforts of television producers to improve their programs took an interesting turn recently when a two-hour showing of Dickens' "Nicholas Nickleby" was presented. It is one of the Dickens novels most likely to impress screen watchers.

The characters are vivid, ranging from the grotesquely terrible schoolmaster, Wackford Squeers, to the mauling mother of Nicholas. The central theme of the plot, the abuses of the Yorkshire boarding schools, is calculated to stir pity and sympathy in the watchers.

Dickens' "A Christmas Carol" has long been a favorite story for dramatization. There is much other promising material in the works of the most popular novelist of the nineteenth century.

Lost U. S. Plane Found In France; All Aboard Killed

CHAMBER SUR-LAC, France, Nov. 15.—(AP)—Rescue workers today found the shattered snow-crusted wreckage of a missing U.S. Air Force transport plane 5,000 feet up a mountain slope in northern France. All aboard were dead.

American and French rescuers began bringing the battered and burned bodies of the 36 passengers and crewmen—all U.S. military personnel—down the side of the mountain where the twin-engine, flying box car crashed Tuesday.

A team of French soldiers first sighted the wreckage just after dawn. They had trekked 300 feet up the side of a three-foot snow layer, to reach the crash scene. Later they were joined by 10 U.S. Air Force rescue workers.

The plane disappeared Tuesday in a routine flight from Frankfurt to Bordeaux with 29 airmen, a U.S. soldier and six crewmen aboard. It crashed into a peak in the Mont Dore group some 20 miles south of Clermont Ferrand.

Today the plane lay glistening in the sunlight, a few feet below the opening of a gully toward which the pilot apparently had headed. Chamber residents said the weather on Tuesday at the time of the crash was foggy, with visibility very limited.

Aerial search for the missing craft had been hampered for the past two days by ice on the planes and dense fog which blanketed southwestern France. The weather cleared today, however.

First trace of the missing plane discovered yesterday was a partly burned U.S. Air Force training certificate found in the Mont Dore area. It was identified as having belonged to one of the passengers. The airmen aboard were on

United Nations

(Continued from Page One)

General Assembly. French Foreign Minister Robert Schuman is expected to be the last speaker Friday.

Kardelj called on the assembly to recommend to the Soviet Union and other governments of the Soviet bloc x x x to use all means for the peaceful adjustment of the outstanding problems existing between them and the federated peoples republic of Yugoslavia.

He also suggested that a meeting of President Truman, Prime Minister Churchill, Prime Minister Stalin and France's Premier Rene Pleven would be a "positive step" towards peace.

Referring briefly to the military aid pact his country signed yesterday with the United States, Kardelj regretted that "Soviet aggressive pressure" made it necessary for Yugoslavia to spend aid she receives from outside arms instead of on the economic welfare of her people.

He said Yugoslavia yearns for disarmament, but he did not believe current disarmament proposals were practical until the international tension is eased.

Kardelj urged that efforts toward easing world tension be made by the small and medium-sized powers in the U. N. and not exclusively by the great powers.

Turning to Korea, Kardelj gloomily predicted that even a truce there would only smother the fire and leave the cause which provoked the conflagration untouched. This cause he defined again and again in his speech as Russia's determination to dominate the world.

route to Bordeaux where they were to open a motor pool as part of the Atlantic across France to Germany. The soldier was returning from leave to Germany.

The names of the victims were withheld pending notification of next of kin.

CAMPBELL'S CABINETS
BUILDER'S SUPPLIES
MILLWOOD
PHONE 1447—HIGHWAY SOUTH

THE WORLD TODAY

By JAMES MARLOW

WASHINGTON, Nov. 15.—(AP)—Talk among top Southern Democrats of bolting their party in President Truman runs again and again illustrates a political reality which seems to be overlooked when people speak glibly of our two-party system, Democratic and Republican.

The Southern Democrats, when they choose to vote as a bloc in opposition to the regular Democratic Congress in effect become a third party. They are solid enough enough to hamstring the Democratic majority any time it chooses to do so.

The party winning a congressional election is the one which wins a majority of the seats in Congress. In recent years the majority of members between Democrats and Republicans has been pretty slim. Any time the Southern Democrats wish to break away from the regular Democrats and team up with the Republicans on any one of their legislative proposals the regulars into a minority.

And because of their solidarity the Southern Democrats, when they wish, can block fulfillment of campaign promises made by the Democratic organization. The most spectacular example, of course, always occurs in the field of Civil Rights.

The latest example of this came a couple of years ago, following the 1948 campaign promise of the regular Democratic Party to pass Civil Rights legislation. This undoubtedly drew the vote of a lot of Negroes living in northern cities.

But when the Truman Democrats, having won, attempted to spend the night in the building, the Southern Democrats in the Senate broke away and filibustered. All the Republicans had to do was sit back and enjoy the spectacle of the two factions in the Democratic Party working against each other in the end the Southerners won—for the Trumanites surrendered—and that was the last attempt by the Trumanites to pass any of the Civil Rights legislation proposed in 1948.

Nevertheless, in any election where the Democrats as a national party win a majority of congressional seats the Southern Democrats get the grave. In Congress they are chairman of the committee which carries with it the most power and prestige in Congress.

Automatically members of the newly-elected majority party become chairman of every committee in the Senate and House, who had won a majority in the 1948 elections, headed all the committees but had to surrender them in 1949 to the Democrats who won that majority back again in the 1948 elections.

As an example of gravity to the South in the present Congress where Democrats have a majority, Southerners are chairman of eight of the 15 standing committees in the Senate and 10 of the 19 standing committees in the House.

Chairmanship is based on seniority. In the South, where there are hardly any Republicans at all, almost everyone elected to Congress is a Democrat. Through this one-party system the Southern Democrats manage, a lot of them, to get re-elected year after year.

Under questioning, the President said he would not further changes in the Taft-Hartley Act which has been the frequent target of union leaders, but he would not disclose them at this time.

The President sat on a tree-shaded lawn of the "Little White House" in a blue sea shore, seagull sport shirt open at the neck, blue trousers and white shoes.

He was asked about a story out of Pusan, Korea, in which the U. S. Eighth Army charged the Reds with murdering about 5,600 American prisoners of war.

It's a horrible thing, the President said. No facts have reached him as yet, he said, but he declared it is the most uncivilized thing that has happened in the last century if it is true.

But he wouldn't comment on whether it would bring closer the day when we might use the atom bomb in Korea.

The Pusan story to which the President referred also charged the killing of British, Turkish, Belgian, and other prisoners of war, the U. S. remains covered his narrow at their reported massacre.

WHO'S GUILTY?

'Show Must Go On' Despite Allergy Ban

NEW ORLEANS, Nov. 15.—(AP)—Shrine circus animals were moving into municipal auditorium today after being banned because Margaret Truman is allergic to animals.

Seals, horses, dogs, and elephants, which had been expected to spend the night in the building, were put on a nearby parking lot last night while Miss Truman gave a concert.

William Coker, auditorium manager, said he ordered the animals kept out of the building yesterday after a secret service man told him Miss Truman is allergic to animals—especially elephants.

Some of the animals had already been taken inside by their trainers, however, and had to be removed. The circus opens tomorrow.

Coker even removed his doberman pinscher from the auditorium where it usually stays. He said the dog is named "Harry" for President Truman.

"I certainly wasn't going to have her voice interfered with," Coker said.

Until 1896, Princeton University was called officially the College of New Jersey.

Revenue Inspector Commits Suicide

MANHASSET, N. Y., Nov. 15.—(AP)—Thomas D. Behne, 63, described as an inspector for the Bureau of Internal Revenue in New York City, shot and killed himself last night, police reported.

Behne's body was found by his two children, John, 16, and Susan, 9, who heard a shot in an upstairs room of their home while they were watching television in the basement.

Behne had held a shotgun against his right cheek and fired police said.

Police said no note was found. They called the case a suicide.

Behne's wife, who was attending a civic meeting at the time, later said her husband had shown "no indication of worry about anything."

Rockefeller Hailed For Restoration Plan

WILLIAMSBURG, Va., Nov. 15.—(AP)—This grateful cobbling capital, which has aged two centuries in the past 25 years, last night thanked John D. Rockefeller, Jr., for making the transformation possible.

The multi-millionaire was presented with a town-endorsed resolution praising his "vision and courage" in undertaking the colonial restoration of Williamsburg.

Attorney Vernon M. Geddy former vice president of Colonial Williamsburg, Inc., threw orchids at Rockefeller for the philanthropist's "sincere humility and kindness, keen intellect and sound judgment."

Geddy also pointed out Williamsburg as a living reminder of this country's fundamental principles.

"The lessons of Williamsburg must never die and must be proclaimed throughout the land," he said.

In the days of ancient Rome, a prison was used only as a place for holding, not for punishing criminals.

Seminole High Team To Battle Seabreeze In Homecoming Tilt

Final Standings In East Florida Conference Hinge On Tomorrow's Battle

By DEREK DUNN-RANKIN

Seminole High Coaches Bill Fleming and Fred Gains put their coaches through a drill against Seabreeze's formation and double wing plays yesterday in preparation for Friday night's homecoming battle against the Crabs from Daytona.

Seabreeze took the way the B squad did against the varsity on a couple of plays yesterday. The Crabs will get more than one touch. The Seminole mentors hoped to have a defense to trip the Daytona boys when they wind up drills this afternoon.

Seabreeze will sport one of the biggest passing attacks. The Casey kids have faced this year. Two weeks ago the Crabs whipped Perry 20-0. All three Seabreeze touchdowns and two successful conversions came via the aerial route as Quarterback Bill Bender and Halfback Dick Forsythe hit Ends John Ellis and Alvin White on payoff plays.

The East Florida Conference meeting looks big in determining final conference standings. Judging from comparative scores the teams appear to be pretty evenly matched with a slight edge going to Seabreeze. Two weeks the Crabs suffered a 12-9 loss to St. Augustine. A week earlier the Crabs took a 14-13 loss at the hands of the Conference champions from Kettlesville High. But the locals were playing one of their best games of the season.

This will be the last outing of the regular season before a local crowd for the Seminole High squad. Next week they'll hit the road for a game with Leesburg in wind up their schedule.

The Crabs will make their final appearance before the home folks Nov. 30 in a game with the Winter Garden eleven. The post season match is being sponsored by the Kiwanis.

Junior Motte who starred in last week's romp over New Smyrna is expected to see plenty of action tomorrow. Frankie Stenstrom is also expected to be back in uniform for the tilt. The first fullback is still nursing a bruised hip and Coach Bill Fleming says he will see limited action in taking it easy in yesterday's workouts. Gordon is still bothered by a twisted leg muscle picked up in the South Broward game two weeks ago.

The whole High School is keyed up for the event tomorrow. Tonight the school will hold a big bonfire party at 7:30 on the school grounds. Tomorrow morning they will hold another pep rally in the auditorium and tomorrow afternoon they will parade through the downtown section with band and floats.

If the school spirit percolates through the squad, they stand a good chance to walk away with another home game victory.

Ex-Yank Reliever Joe Page Is Up For '51 Baseball Draft

By JACK HAND

NEW YORK, Nov. 15—(AP)—For the price of \$10,000, a good day's hot dog and beer take—any big league club can have Joe Page, the gay reliever of the 1947-48 Champion New York Yankees.

Strykerman Joe and 4,683 other players are on the draft list for Monday's grab bag at Cincinnati. Owners are displaying unusual interest in the brainiac basemen.

If you're a little hazy on the draft, here's how it works. The first place club in the American League—the St. Louis Browns—gets first pick of all eligible minor leaguers. Then the Chicago Cubs, last in the National, and up through the New York Yankees, No. 15, and the New York Giants, 16th and last.

Last year the majors drafted 24 men for \$269,500. That was \$4,000 short of the record \$273,500 when 29 were picked.

First pick of a year ago was Jerry Martin, the ex-Brooklyn lefty who wound up with a fine record for the Philadelphia Phillies. Due to they gave Martin a starting chance in the second of the season, he was termed one of the 28 stuck around.

The 28 men picked in the draft included the pick, George Miskovich, based on his performance in the season. He pitched only 17.5 innings for the Phillies, but he finished at an .81 record, 15-1.

Mike Whitehead is a veteran back of the Sanford line. The speedy guard has turned in a consistently dependable game all season. Defensive coaches will be counting on him to break up Seabreeze's double wing and T plays in tomorrow night's homecoming tilt.

Tennessee Picked As 2 Touchdown Favorite Over Ole Miss This Week

By HAROLD CLAASSEN

NEW YORK, Nov. 15—(AP)—Halfbacks and drawbacks . . . homecomings and short cuttings . . . footballs and highballs . . . long noses and broken noses . . . winners and losers . . . all are parts of the football season.

So here are the winners and losers for this weekend's games: Tennessee over Mississippi: The next three Saturdays will show if Tennessee is a great or simply a good team. Kentucky and Vanderbilt follow on the Vol schedule. Chances are Tennessee is about two touchdowns too strong for Mississippi.

Michigan State over Indiana: Two much to expect Michigan State to keep the edge it showed last week in blanketing Notre Dame, but only half the amount will be needed to handle the Hoosiers.

Alabama over Georgia Tech: Tech already has been invited to the Orange Bowl—and it is a good thing. Alabama was the September choice to be unbeaten when the coming started but it lost five of eight. Princeton over Yale: Dick Kazmaier and his playmates annex the big three title for the fifth straight year. Maryland over North Carolina

in the Kansas City roster. So is pitcher Bob Keegan, 13-9 at Syracuse, and utility infielder permit Wahl.

Brooklyn's St. Paul farm has suffered Dick Whitman (11-1), second baseman Jack Cassin (30-6) and Reliever Al Epperly (13-4). Anybody looking for a utility infielder might nab Gene Mauer, ex-Boston Brave, at Milwaukee.

Montreal has a haul of hot shots although only one can be taken. In the draft list are long hitter Jim Hughes (10-4), Bob Alexander (15-17), Tom Lawrence, Jal Mallette (10-2) and Dan Bankhead. Marv Rickert, a former big leaguer, can be had for \$10,000 from Baltimore where he led the league in 35 homers.

The entire 24-man Syracuse club is in the draft but only one can go.

The Pacific Coast League, waging a battle against having its players drafted, has a flock of eligibles.

Joe Gordon, Sacramento manager, is listed but whoever takes him will have to pay his manager's contract through 1952. Marv Rothblatt, the half pint lefty who had a .45 record for the White Sox, is on the Seattle list as is Earl Johnson, ex-Hot Sox.

Al Gettle, the pitcher the Giants bought last winter only to have him flop with a 1-3 record is among the Oakland eligibles.

Whitey Jones, St. Louis Cardinal first base regular for much of the season, is available only \$7,500 if taken from Cleveland.

And so it goes all down the line. Some bargains. Some busts. The grabbing will be furious.

Sports Roundup

By HUGH FULLERTON JR.

NEW YORK, Nov. 15—(AP)—Somebody raised the question yesterday: "Why all the fuss about spring football? It's fall football that causes the trouble." But that seems to be the way the editors go about curling football ailments. They operate on the wrong thing. . . . Remember when the Big Three presidents banded competition by transfer students, even when they hadn't played for another college? That one didn't stand up any more than the famous Tad Jones-Bill Roper non-scouting agreement. Lot of "cures" were equally ineffective. . . . Probably spring practice is overdue in a lot of places.

Certainly it can be expensive, although Yale didn't give money as a reason for cutting it out. . . . But can you imagine developing a team like the current Princeton outfit without the benefit of spring drills? Three or four weeks work in the fall isn't enough to carry out such experiments as trans-forming a fourth-string blocking back into a first string running guard. . . . And Penn's George Mungler apparently was right on the beam when he argued that inclusion of spring practice would result in rebuffed efforts to recruit ready-made football players.

So you do away with one "evil" and increase a worse one.

No offense Taken

When the Cleveland Browns and Philly Eagles were playing last Sunday, a couple of players crashed in front of the Philly bench after a tugging match along the sidelines. The Eagles' trainer, picked up the water bucket, apparently trying to revive a flattened athlete, but somehow he managed to hit the Browns with the bucket instead of the contents. . . . In Monday Coach Paul Brown encountered Trainer Leo Murphy in the Cleveland office and pointedly asked: "Do you see the aggressiveness of some trainers?"

PHIS-KIN PICKINGS

Illinois vs. Ohio State
That Illinois team
From Champaign-Urbana
Is harder to move
Than a grand piano.

Georgia Tech vs. Alabama
Start a parade down Peachtree Street.
Tech ain't gonna be beat.

TCU vs. Texas
The Texas Longhorns
Will be looked on the wrong horse.

George Washington vs. Kentucky
On a quick reverse
We have to say
That Kentucky is George—
All the way.

Cleaning The Cuff

Duke's Franck Gault, who has played opposite Ray Beck of Georgia Tech and Ted Daffer of Tennessee this season, gives Beck the edge. . . . Was the squiggle on a 33-year-old pitcher, Hugh Gentry, the first move in the Red Sox Sugar Sox's outdoor tank and field meet here December 30.

Grid De-Emphasis Up To Georgia Schools

ATLANTA, Nov. 15—(AP)—The Georgia Board of Regents agrees with a special subcommittee that the question of football emphasis or de-emphasis should be left to the officials of Georgia and Georgia Tech.

Majors Mapping Expansion Plans

NEW YORK, Nov. 15—(AP)—Baseball is drawing up a master plan to create more major leagues.

Reflecting 10-club or 12-club versions of the current major league "entirely sound," a special committee has outlined plans for a "Pacific Coast League" which would include eight-club leagues might advance to the majors.

Exact details of the steps leading from "open" to major still must be worked out. Big League's special committee on Pacific Coast League problems promises the plan will be ready before the minor league meetings at Columbia, N.Y., early December.

The Pacific Coast League, waging a vigorous battle against the player draft, would qualify for "open" classification under the proposal. The new "open" class would provide a measure of draft relief by letting players exempt themselves from selection.

Defense Accented For Miami-Florida Contest Saturday

GAINESVILLE, Nov. 15—(Special)—The Nation's third best pass defense team will clash with the country's sixth best rushing defense when Miami's Hurricane enters the Florida Gator before some 46,000 fans in the Orange Bowl Saturday night.

Jim Doolley is making a brilliant Miami pass defense that has given up an average of only 69.9 yards per game in seven outings, while tackle Charlie LaPradi anchors a Florida first line defense that has permitted eight opponents an average of only 93.9 yards per game rushing.

With six interceptions, Half-back Doolley leads the way on 15 interceptions that the Hurricane have returned 150 yards. Miami's seven opponents have completed only 46 of 131 passes for a 35.1 completion percentage.

Killing on the accurate throwing without Hurricane ball carriers, the Gators have completed 48.7 per cent of their heaves this year for a passing gain of 741 yards.

The tight Florida defense against rushing goes against five standout Hurricane ball carriers, topped by the 588 yards rushing that Halfback Frank Smith has run up in seven games. Harry Malinos has picked up 346 yards rushing; Doolley has 245; Tony Constantine has 191; and Mike Vaccaro has contributed 148.

Florida has two ball carriers in the 300-yard class: sophomore Halfback Rick Casares and junior football Sam Dosterhoff, plus four other runners who have passed the 100-yard mark.

Casares has turned in 352 yards from scrimmage to maintain a 4.8 yard gain per play, while Dosterhoff has run up 308 yards for an average of 4.2 yards. The other leading Florida gainers are Fullback Floyd Huggins with 216; Halfback Billy Redbill (192); Halfback Buford Long (124); and Halfback J. (Foxy) Hall (112).

Defeated only by Tulane and Kentucky, the Hurricane has swept to victories over Florida State, Purdue, Washington and Mississippi, and Chattanooga.

Florida scouts who have seen Coach Andy Gustafson's Miami outfit in operation this year say that the Gators will have to play their best game of the season to stay in the running.

Finland's Johansson Is Olympic Threat

NEW ORLEANS, Nov. 15—(AP)—Henis Johansson, one of Finland's finest prospects in the 1952 Olympics, is expected to be the outstanding foreign challenger for the 160-meter trophy in the Sugar Sox's outdoor tank and field meet here December 30.

A freshman at Purdue University, Johansson has accepted an invitation to run here. Track Chairman L. Di Benedetto of the New Orleans Mid-Winter Sports Association announced today.

Before coming to America, Johansson established himself as Finland's best prospect for the Olympic 160-meter by running the distance in 3:19.5. Recently he took a severe beating in the last four rounds. It left him with one eye almost shut and the other cut and bloody.

Aragon, as cocky as ever, and fresh, took the play in the opening rounds and the outlook seemed dark for the 27-year-old champion. But Aragon ran into a brilliant left hook that floored him for a three-count in the sixth, and he took a severe beating in the last four rounds. It left him with one eye almost shut and the other cut and bloody.

Aragon, as game as they come, says he would like to fight Carter again. He said the killing left him with one eye almost shut and the other cut and bloody.

The full board adopted in short order yesterday a report by a sub-committee which placed responsibility for athletic affairs on the schools themselves.

"The committee has complete confidence in the ability for these institutions to handle properly all matters pertaining to intercollegiate athletics," said the report, made by Chancellor Harmon Caldwell. "It has found no facts that would indicate an irregularity of any sort."

Victor Carter, Loser Aragon Celebrate Today

To Lincoln (Line) L. Jacobs of DeLand will go this year's gold medal for distinguished work in the field of wildlife conservation, the award to be made at the annual banquet of the Florida State Chamber of Commerce at Palm Beach on Tuesday evening, Nov. 20. Jacobs was recommended for this recognition by the Florida Wildlife Federation and the Florida Outdoor Writers' Association, after screening nominations submitted from all parts of the state.

Jacobs, a business man and civil engineer, at considerable personal expense, has repeatedly moved against forces bent upon exploiting the state's water and wildlife resources, according to information furnished the two sportsmen groups. Jacobs was a "top" sergeant in the Air Force.

Victor Carter, Loser Aragon Celebrate Today

LOS ANGELES, Nov. 15—(AP)—World Lightweight Champion Jimmy Carter and Challenger Art Aragon celebrated contrasting celebrations today.

Carter enjoyed a round of victory guests after successfully defending his crown in a lustrous 16 round fight last night. Aragon, the slightly tarnished golden boy of boxing here, in more subdued fashion belatedly observed his 24th birthday.

Aragon's birthday was two days ago, but he had planned to celebrate it with a victory celebration after last night's battle. Carter belted out a unanimous decision over Aragon. He floored him twice and left him, well beaten at the end.

Paid admissions totaled 7,251 and gross receipts, including \$16,000 for television rights, were \$109,000, at least \$20,000 less than had been expected.

Aragon, as cocky as ever, and fresh, took the play in the opening rounds and the outlook seemed dark for the 27-year-old champion. But Aragon ran into a brilliant left hook that floored him for a three-count in the sixth, and he took a severe beating in the last four rounds. It left him with one eye almost shut and the other cut and bloody.

Aragon, as game as they come, says he would like to fight Carter again. He said the killing left him with one eye almost shut and the other cut and bloody.

The fighters weighed 154½ and Aragon reeled drawn when he entered the ring and apparently began to fade midway in the fight.

Unbeaten Crooms Academy will take on the Leesburg Trojans in the Panther's homecoming game tomorrow afternoon at 3:00 o'clock on the Croom's Academy field.

The homecoming festivities will kick off at 12:30 P. M. with a parade of colorful floats and the fast stepping bands from Leesburg and Crooms Academy.

The Crooms Academy boys have an unannounced date with only one tie in their five outings.

Injuries Plague Tulane Mentor As Green Wave Preps For Vandy

By THE ASSOCIATED PRESS

Injuries caused Tulane Coach Henry Frka to cut short what is usually his Green Waves' busiest day yesterday. Contact work was virtually eliminated as the wave prepared for Saturday's tilt with Vanderbilt at Nashville.

Bobby Sala, Tulane's No. 2 fullback, moved up to the first squad replacing Ronnie Kent.

Vanderbilt's main spring to victory, Bill Wade, was placed on the doubtful list. Wade, who was injured in the LSU game, was nursing a sore knee and took in only a light passing drill before quitting for the day.

Jimmy Holmes and Jim Demain took over the quarterback duties. Demain put in about three quarters in the Commodore's opening game against Middle Tennessee and Coach Bill Edwards said he would start Saturday "if Wade is unable to play."

Bill Turnbaugh and Gene Mulhall added strength to the Auburn Tiger's tackle slots. Coach Ralph Jordan worked out the team in a steady rain and Turnbaugh proved his ability by turning in a top defensive job.

A backfield including Vince Doolley, Homer Williams and Bobby Jordan had a high pull on their offensive work.

Georgia Coach Wally Butts says two comparatively inexperienced players may get a workout in the Auburn game Saturday. Both left halfback Conrad Manisera and left offensive end Gene White have plenty on the back of their work performance in any indication. White has a definite knack for plucking passes from the air and he probably will get plenty of action playing a relief role for regular Halfback Zippy Morocco.

Alabama's Crimson Tide toughened it up in their drill session. They meet un-defeated, once-tied Georgia Tech in Birmingham Saturday.

Coach Red Drew had little praise for the skull-cracking session. Neither the offensive or defensive platoon handed in a particularly impressive performance. Quarterback Duke McCain and Bobby Marley did break away for a few nice runs and End Hyrie Ivy broke up several plays.

Georgia Tech's Yellow Jackets had their toughest workout in two weeks in preparing for the Alabama tilt.

Coach Hobby Dold made the squad battle despite a steady rain. The defensive line ran against Alabama's plays with stout work being performed by Guard Ray Beck, Tackle Lamar Wheat and End Pete Ferris.

Six quarterback Darrell Crawford had an injury suffered in the VMI game but Trainer Huck Andel said he should be ready to go by this week-end.

Coach Gaynell Tinsley spread New Site Sought For Southern Golf Meet

ATLANTA, Nov. 15—(AP)—The Southern Golf Association is looking for a site for its 1952 southern amateur championship, says the Atlanta Constitution.

Sports Writer Bert Prather said in a story today that the tourney was originally set for Belle Meade Country Club in Nashville, Tenn., but the course there is now being revamped by golf architect Robert Trent Jones, and will not be ready by next summer.

Prather said SGA President A. Pollack Boyd has received bids from Holston Hills Country Club at Knoxville, Tenn.; Myers Park Country Club at Charlotte, N. C.; and Montgomery Country Club.

New Gas Turned On For All North Of Sixth Street

The Florida Home Gas Co., today turned on its new liquid petroleum gas in the area north of Sixth Street.

Conversion crews are now working in this area to convert all gas using appliances to the use of the new gas which gives a flame twice as hot as the former gas," said A. J. Greer, local manager of the gas company this morning.

Users within this area have been warned by mail and newspaper advertisements to carefully observe certain rules, and especially not to use gas water heaters or ovens on gas ranges until adjusted by company servicemen.

As soon as the conversions to the new gas have been completed in the area north of Sixth Street, in about a week, the new gas will be turned on in the rest of the City, said Mr. Greer.

Brought here in liquid form in tank cars, the gas is vaporized at the company plant on West Sixth Street.

The large gas tank now in use may be used as a reservoir for the new gas, he pointed out. The old coke heating method for producing gas will be discontinued, but the facilities will be retained for emergency in case of liquid fuel shortage.

On a heat per cubic foot basis, the old gas was rated at 500 British thermal units, whereas the new gas will have 1,000 BTU rating. This, said Mr. Greer, makes necessary the changing of orifices in every gas appliance in the city using this fuel.

Instruction cards will be sent to customers of the company south of Sixth Street about the first of next week, Mr. Greer declared. Customers in the conversion districts are warned to use only the top burners of gas ranges until the necessary changes are made. Gas operated refrigerators should be set in the default position during the conversion period.

Conversion was confined this morning to places of business in the downtown section, including restaurants, beauty parlors, etc.

Holland Cement

(Continued From Page One) to \$176,000,000 in cost in the first quarter of 1951 and \$212,000,000 during the second quarter. It is still on the upgrade, constituting a major portion of the building program in the entire southeast.

He added that he was happy to advise that many diversions of cement shipment had been provided for, orders had been accepted by cement firms and would be immediately on the rails.

Of these orders, 127,000 barrels of cement are due from producers in the Kansas, Missouri area. This, he said, will be augmented by 100,000 barrels just arrived from Europe and now at the dockside at Florida east coast ports.

An additional 86,000 barrels of cement will be produced this month in Florida making a total of 313,000 barrels available in Florida from these sources by the first of December.

"I think there was a fairly free supply in early December," he declared. During the next month, he added, 49,000 barrels of cement, originally slated for defense work in Mississippi, Alabama and Georgia, will also be shipped to Florida, he said.

The Florida Portland Cement Co. will complete a new production unit by May 1, with annual capacity of 1,500,000 barrels. An equal amount will be produced at the new Lehigh Plant now under construction at Flagler Beach and due to be opened next fall, he stated.

Senator Holland also announced that the OPS office in Miami

Egyptian Crisis

(Continued From Page One) cheers for "King Farouk, King of Egypt and the Sudan."

Parliament gave Farouk that title when Egypt scrapped the 1899 agreement providing for joint Anglo-Egyptian rule of the rich cotton-growing Sudan.

The speech itself referred to the Sudanese as "our people in the Sudan."

The streets from the King's Abdin Palace to Parliament were lined with solid ranks of Egyptian soldiers as the King drove by in his royal limousine. Thousands milled in front of the Parliament building to witness his arrival.

The speech described the unannounced negotiations with the British toward revision of the 1899 agreement on the Suez Canal zone and the Sudan. It stated that "despite our sincere efforts, the British have maintained their stubborn attitude."

The three speech exactly one year ago declared no longer regarded the 1899 treaty as valid.

This treaty permitted British troops along the strategic Suez waterway.

Britain has announced she will stay in the canal zone until Egypt agrees to some form of joint Anglo-Egyptian Defense Command. Britain already has rejected such a proposal. British troops have been also been in the Sudan since the Sudanese constitution was promulgated in the last three months.

With more than three miles of winding paths through a beautiful wooded area, including rustic bridges across shady streams, Sanlando Springs Park is one of the most beautiful spots in Seminole County. Alongside the paths have been planted many tropical shrubs and flowers. A large additional area is now being landscaped in this manner.

More Than 43,000 Persons Visit Sanlando Springs During Summer

During the summer season, more than 43,000 persons were admitted to Sanlando Springs, which is fast becoming one of Central Florida's most popular recreation spots, J. E. Robinson, lease owner, and J. R. Butts, manager, announced yesterday.

Numerous improvements have been added since the new management took over the project in May, and work is now going on to double the quarter mile area of the park surrounding the springs and pool.

At present, there are more than three miles of landscaped paths through the tropical woods, and adjacent to the stream formed by the spring it is planned to extend these paths clear to the Little Wekiva River, a quarter of a mile from the Springs.

H. L. Haaty, Jr., has charge of the new greenhouse and is raising a large variety of azaleas, camellias and hibiscus and many other plants to border the paths and streams.

It is also planned, said Mr. Robinson, to extend the water area on which the electrically propelled boats cruise.

A high wire fence has been placed around the main picnic grounds to insure safety of those eating in this area, and to keep out dust and dirt from passing vehicles. A large barbecue pit has been added for public use, and many picnic shelters, and as many as 3,000 people at a time have used these facilities. Many firms and organizations have had picnics there this season.

The parking area has been enlarged to take care of as many as 3,500 automobiles at a time.

Admission to the park is now through the recreation building which has been enlarged. New improvements include a tastefully furnished and decorated dining room, a soda fountain and a display of souvenirs and gifts. A modernly equipped kitchen has been added.

Among the projects planned this season at the springs is a water outlet

Korean War

(Continued on Page Eight) have been put out a long time ago."

Hanley said he submitted a memorandum to the Office of the Judge Advocate General of General Headquarters in Tokyo in September asking authority to tell the story. He said, "I notified early this month, he said, that the story could be released."

MUNSON, Korea, Nov. 15 (AP)—The Communists today should insist on their insistence on an immediate cease-fire in Korea. The reversal came after Maj. Gen. Henry H. Hodges, chief of the United Nations Coast-Fire Subcommittee, accused the Reds of wanting to substitute a legal clause in place of good faith.

Hodges called on the Communists to work out a joint proposal for settlement of the touchy buffer zone dispute. He said he would make public announcement of new price ceilings taking into consideration the freight differential, making it necessary for cement to be sold at slightly higher prices. But Florida

refuse, he said, that this is not the only temporary. "Our prosperity in Florida and the government surge of new building brought this shortage upon us," he explained.

Attacking Reds captured the outpost but were quickly routed by a counterattack, the evening communiqué said. United Nations infantrymen chased the Reds back to their own lines.

Allied warplanes struck at Communist front line positions, and killed an estimated 450 Red soldiers. B-29 Superforts dropped 500 pound air-bursting bombs on the Communist front lines and marked new air fields at Namri and Taechon with 100 pounders.

The U. S. Eighth Army reported the only action along the front was a small sea-saw night battle for advance Allied positions. That was fought north-west of Yangju on the Eastern Front.

With regard to domestic legislation, he said that Congress has not done everything that might have been wished but that it has many accomplishments to its credit. It did not reduce taxes as much as he would have liked, but it cut President Truman's tax demands from ten billion dollars to 5.5 billion dollars. And it cut the appropriations asked by the Administration by four billion dollars.

Jaycee Meeting

(Continued From Page One) secretary Ralph Davis as one who had formerly been a "comrade in arms" of General Joe Hutchison in the 31st Dixie Division during World War II. Senator Holland called attention to the fact that Florida is one of only two states in the union with two major generals in the National Guard, General Hutchison and General Sumner Lowry. He also singled out for praise General James Van Fleet, formerly of Bartow, now commander of the Eighth Army in Korea, and told of the fine work being done by Florida's Millard E. Snow, in Francis Whitehair and Bill Paulay in the defense effort.

He commended the work of the Jaycees in the nation as a whole and particularly in Florida where because of the cosmopolitan population it is especially important that young men coming from various states all over the country can mingle together and undertake objectives that are of sound and valid importance to the state.

Reviewing the work of the first session of the 82nd Congress, Senator Holland said that the big problem had been to know how far to go without going too far, where to cut expenses without cutting too much, how much to spend on national defense without bankrupting the country. He said it was like trying to walk a tight rope and that the country is now in a status where we have got to make good in the defense effort in order to preserve the finest government and country the world has ever known."

He mentioned the fine work which is being done in Korea by General Van Fleet in fighting a "limited warfare," as contrasted with "unlimited warfare," something entirely new in American history in trying to maintain the spirit and morale of his men, and of the great work by General Eisenhower in Europe who was described as the only great military leader in all the democracies in whom all the democracies have confidence and respect.

With regard to domestic legislation, he said that Congress has not done everything that might have been wished but that it has many accomplishments to its credit. It did not reduce taxes as much as he would have liked, but it cut President Truman's tax demands from ten billion dollars to 5.5 billion dollars. And it cut the appropriations asked by the Administration by four billion dollars.

Nobel Prize

(Continued From Page One) dinavia until the appearance of his novel of the renaissance, "The Dwarf" in 1944. It appeared in translation in the U. S. in 1945.

In 1950, he reached the ranks of international bestsellers with "Barabbas," a novel about the thief saved from crucifixion when the Jews chose to have him released instead of Jesus. This novel was translated into 11 languages within a year of its publication in Sweden and was published in America last month.

Early in his career, Lagerkvist caused a sensation in Swedish literary circles by trying to apply the theories of cubistic painting to writing. The experiment was connected with his meeting in Paris with Painter Pablo Picasso during the latter's cubistic period.

A few years later, Lagerkvist adopted "expressionism," in which detailed naturalism was rejected. He contended that only erudite writing could convey strong feeling.

Although these experiments had little popular appeal, Lagerkvist followed his own convictions and succeeded a few years later in evolving a stark, simple style that has won him a wide reputation in Europe. In his later work, he has been less concerned with experiments of form and style, tending more to realism and traditional symbolism.

Man Killed

(Continued From Page One) the road patrol was notified a man was "shooting up" the home of Mrs. Mary Bocanassa in the northwest section. Mrs. Bocanassa is Balady's former wife, since remarried.

Road Patrolmen Harry Brannon and Paul Alcorn rushed to the scene, but the intruder had departed. They learned his identity and started searching the neighborhood.

A few minutes later they spotted the man, Balady whipped out a .31 automatic pistol and fired two shots at the officers. Both shots missed. The road patrolmen fired back and Balady plunged into underbrush and escaped.

About 1 A.M. an anonymous caller told the sheriff's office Balady was in a hotel room. The road patrolmen and Road Patrolmen Pete Vengus cornered Balady in an alcove of the room. There was an exchange of shots and Balady fell with a bullet in his head.

The sheriff's office said a woman had taken a room in the hotel by that Balady could hide there. She first battle with the officer. She was held for investigation but her identity was not divulged.

Cause of the shooting was being investigated. An autopsy will be held later.

Dr. Trenholm said he had no idea what rules or regulations the women were complaining about, but that he was undertaking a complete investigation.

The dormitory houses 385 women, but College President H. C. Trenholm said probably only a small number were involved in the rioting.

Dr. Trenholm said order was restored without help of police and that there was no reason in the first place to call for assistance. He blamed the police on "excitement."

Police Lt. T. H. Goins, who also investigated, said a night watchman fired a pistol one time but hit no one. The college president said he is looking into that to.

Women Riot At Alabama State Negro College

MONTGOMERY, Ala., Nov. 15 (AP)—Women students rioted at the Alabama State College for Negroes here early today and left a dormitory littered with broken glass and "several rooms" flooded with water.

No one was reported injured, however, an apolice said no arrests were made.

Detectives R. C. Houlton and W. T. Sheriff quoted the dean of women, Mais E. L. Gipson, as saying the trouble grew out of "resentment over certain rules and regulations," but did not elaborate.

Senator Taft Says U. S. Likely To Send More Troops To Europe

By JACK BELL
 WASHINGTON, Nov. 15.—(AP)—Senator Taft (R-Ohio) foresees a likelihood that the United States may be asked to commit "far more than six divisions" to the defense of Western Europe.

The Ohio Senator said in a new book, "A Foreign Policy For Americans" that the past history of the Truman Administration's handling of foreign policies makes it likely that "in another year we will be asked for more divisions" to supplement the North Atlantic Treaty Organization (NATO) forces headed by Gen. Dwight D. Eisenhower.

As a candidate for the 1952 Republican presidential nomination, Taft wrote down a barrage of criticism against President Truman, Secretary of State Acheson, Gen. George C. Marshall and other administration figures.

Taft said most presidents "have been imbued with a real determination to keep the country at peace." But he went on in a direct attack on Mr. Truman and President Franklin D. Roosevelt.

"I feel that the last two presidents have put all kinds of political and policy considerations ahead of their interest in liberty and peace."

Senator McMahon (D-Conn.), a supporter of the Administration's foreign policy, promptly described Taft's book as "amazing for its blindness to the nature of the problems we face today." A member of the Senate Foreign Relations Committee, McMahon declared the Taft views reflected "total ignorance of a sound foreign policy for the United States."

Perhaps in reply to Taft's criticism of Mr. Truman and the late President Roosevelt, McMahon said:

"Sentence after sentence of the book contains a quotation out of context or a distorted statement, all woven together to support a politically expedient but factually incorrect conclusion."

Taft said the book "stopped Soviet expansion in every area of the world which Russia did not occupy with its own troops during the war."

Taft wrote that he doesn't go along with those who think this country can withdraw in its own shores. He said he believes the "serious danger to the defense of the liberty and peace of the people of the United States I think we are justified in extending economic aid and military aid to many countries."

But he said he is not for any permanent program calling for "a global plan for general free assistance to all mankind on an organized scale as part of our foreign policy."

Taft, who opposed the North Atlantic Treaty and agreed with reluctance to the contribution of American divisions to the North Atlantic Treaty forces, said it was "encouraging" that Eisenhower "by the force of his personality made so much headway in persuading the European nations of the tremendous importance of arming themselves in a joint defense."

Eisenhower is being honored as some Republicans as a possible candidate against Taft for the 1952 Republican presidential nomination.

Taft said the United States has no choice now but to "complete as rapidly as possible the arming of Western Europe if it desires to be armed."

"That policy was decided on in the Atlantic Pact and I am in favor of carrying out this commitment, as worked out by the council and General Eisenhower under the pact," the Ohioan declared.

Charging that the Truman Administration's "lack of policy" brought on the Korean War, Taft said the same policy should be applied to Asia as to Europe.

"To check Communism at every possible point where it is within our capacity to do it."

He said the Administration had not hesitated in Europe to risk world war but refused to fight the Korean War with all the means at its command a view taken by Gen. Douglas MacArthur.

Taft said it would be better to "maintain an uneasy peace" on the 38th parallel in Korea "than a policy of perpetual war on the 38th parallel."

"But an armistice is likely to leave us in approximately the same position we were in two years ago, before we moved American troops out of South Korea, except that we would have to put up billions of dollars to repair the destruction in South Korea," he said.

In a foreword Taft said he had

WHEN THIS PHOTO WAS TAKEN, seated atop Capt. Eugene Guild (right), of Glenwood Springs, Colo., was receiving from Brig. Gen. Randolph Pete a Navy Cross. It was won by Guild's son, Marine Lt. John Guild, a Korean war hero. Capt. Guild is a letter to President Truman asking him if his criticism of the Administration prevented his dead son from receiving the Congressional Medal of Honor. He noted that Lt. Henry Comstock, awarded the same engagement, was the highest award. After a statement was read to the Little White House in Key West, Fla., Capt. Guild said that he was satisfied that Truman had not withheld the award because of political reasons.

Meeting Is Held By Lake Mary C. Of C. In Community Hall

By VIRGINIA ANDERSON
 The Chamber of Commerce held its monthly meeting Wednesday at the Community Hall, with President Joe Maybury presiding.

Following roll call and the minutes of previous meeting, Treasurer's report and that of standing committees were heard.

Frank Evans reiterated his offer of a picnic to anyone who would dig it, stressing the fact that every gesture of beautification added to the value of each individual's property.

Drainage being carried out by the County Road Department, near and adjacent to the Community Church was discussed.

Various roads and streets have been lately scrapped, and such improvement was a subject of August Phillips, chairman of the Recreation Committee, promised that the shufflerboard court would be cleaned up within a week.

E. Miller, Scoutmaster, reported the organization of the troop and outlined some of its needs and plans for the coming month.

The trophy was presented to Robinson Springs the following night and the boys have suggested making up a Thanksgiving basket for a needy family. The help of the C. of C. members was especially requested as the troop members are anxious to earn money for equipment and uniforms.

Gene Vatey, Jean Ann Nelson, Dorothy Lee and Carol Taylor were in attendance at the meeting as they had heard that a football team would be organized. This President Maybury assured them would be given consideration at a later date.

It further suggested that the Chamber of Commerce announce a sort of entertainment monthly. R. L. Howell thanked everyone for supporting him as the recent school trustee election.

It is his eighteenth year as trustee and he invited everyone to send themselves of the school trustee's book-club which is lighted, etc.

He added with pride to the acquisition of a new, 60 student capacity school bus.

Following the business meeting, members of the Beautification Committee served out coffee. Pies left over were prepared off by Joe Maybury, including a good deal of entertainment.

The trumpet swan, believed to be the largest North American and usually breeds around ponds.

Rural Common Sense By SPUDS JOHNSON

Although there is much trouble, angst, and fear in the world as Thanksgiving approaches, Florida farm people have much to be thankful for at this time.

Most of them have harvested good crops and have received good prices for them.

They have made improvements in their farming, and have advanced in other ways.

Their land from which food and feed and fiber come—is in better condition than in many a year as a result of continuation of soil building and soil improving practices which they began several years ago. This improved condition of their land is reassuring, as it holds promise of good crops in the future.

Many are more comfortable than they have been in years, as they have been, remodel old ones, install electricity and running water and indoor bathrooms, and improve their abodes in other ways.

They have seen their communities prosper and they have taken an active part in much of the progress.

While enjoying these benefits, they have been troubled at how many other Americans, with national and international developments. They have read and heard many reports of dishonour, self-hatred and incompetence in public and private life. They have learned with surprise and distress that there are people in this great country who are not loyal to their own country.

The tragic Korean war has been a source of sorrow and apprehension to them. The opposition of some nations to efforts for world peace and friendship has seriously concerned them and has convinced them that their country must be strong to strive for peace to be made for freedom.

In spite of these troublesome conditions and developments, however, they have much to be thankful for. They are citizens of a great and good land that there are many good men in public and private life, earnest, capable and conscientious people, that they are free and safe in a higher living standard than the people of any other land that the people of many nations are earnestly striving for peace and friendship, and that there is hope for world peace.

In some other lands, people are not free nor nearly as fortunate as we are in spite of difficult and often national and international conditions. The farm people of Florida and all the rest of the states have good reason to love their heads in gratitude for their independence on Thanksgiving Day, 1951.

The three largest breeds in the United States are: Tompeter sows, whooping cranes and California Condors.

Government Rolls Back Prices On Used Automobiles By 6 Percent

By WILLIAM O. VARN
 WASHINGTON, Nov. 15.—(AP)—The government today rolled back ceiling prices on used automobiles six percent below levels of last January.

The Office of Price Stabilization (OPS) said its new dollar-and-cents ceilings set prices at about current market levels. An exception to the immediate roll back will be 1951 models which may be sold at the same market price.

However, OPS said 1951 models along with all others, will be subject to a two percent deduction for depreciation on Jan. 1. Every three months thereafter, on the first day of each calendar quarter, another two percent must be cut from the price of all the named 16 makes of cars manufactured between 1940 and 1951.

The ceiling price of pre-1940 cars will be that of the oldest model listed for the same make.

The new dollar-and-cents ceiling replaces previous orders setting ceilings on the basis of prices in several used car guide books. Provisions of the regulation are effective Nov. 15. However, the dollar-and-cents price does not go into effect until 30 days after that date.

The order divides the country into three geographical areas for pricing. The areas generally reflect differences in shipping costs of the cars originally. Those in Region A will have the lowest price and those in Region C the highest under the lengthy table.

OPS gave this example of how the two percent depreciation will apply:

A 1950 Chevrolet Sixline Special Sedan sedan in Region A is listed at \$1,655. On Jan. 1, 1952, the ceiling price will be 1% per cent less than that price, or \$1,629.38. On Apr. 1, 1952, the ceiling price will be two percent less than \$1,629.38, or \$1,596.78, and so on for each calendar quarter.

The ceiling prices include all standard equipment, as well as radio, heater and other items on the car at the time the ceiling

Kissimmee Valley Livestock Show Is Set For February

KISSIMMEE, Nov. 15.—(Special)—The 1952 Kissimmee Valley Livestock Show will be confined to registered Angus, Brahman and Hereford cattle, exhibited from herds located in Orange, Osceola, Polk, Highlands, DeSoto, Brevard and St. Lucie counties. It was agreed Wednesday by directors of the newly formed Kissimmee Valley Livestock Show and Fair Association.

The show has been set for Friday and Saturday, Feb. 22 and 23, with entries to be received on Thursday, Feb. 21. It will be in conjunction with the midwinter Silver Spurs Rodeo which will run Feb. 22-24.

Progress toward formal incorporation of the association was made as tentative by-laws were adopted. Articles of incorporation are being reviewed by attorneys and will be ready for approval at a meeting planned for Nov. 28.

Incorporating directors include President Frank Poffenbarger, Rt. 1, Cloud; and the following representatives of Osceola county club group: O. L. "Bill" Partha and Pat Johnston, Jr., 190 Kissimmee Valley Show Committee; Cecil Norris, City of Kissimmee; Sherwood Brown, mayor, City of St. Cloud; Charles Patten, veteran training program, Clifford Chapman, Silver Spurs; W. S. Combs, Osceola County Cattlemen's Association; Dave Nunn, Kissimmee junior chamber of commerce; Al Goby, Rotary Club of Kissimmee; Pete Lucas, Kissimmee chamber of commerce; Norman Mallett, St. Cloud chamber of commerce; M. M. Woodbury, Lions Club of St. Cloud; Jack Robertson, Lions Club of Kissimmee; Liburn Godwin, Kiwanis Club of St. Cloud; Roy Hansel, Kiwanis Club of Kissimmee; W. G. Miller, Osceola Boat Club; J. R. Ginn, wife

published his book "To emphasize the fact that the freedom of the people of the United States is in serious danger from the foreign policy of the present administration."

Contending that the executive departments were claiming more and more power, he declared:

"If the present trend continues it seems obvious that the President will become a complete dictator in the entire field of foreign policy and thereby acquire power to force upon Congress all sorts of domestic policies which must necessarily follow."

In his statement concerning Taft's book, McMahon stated it "essentially negative and defeatist" and said Taft's "mass difficulty is that he is still an isolationist."

"He is still the same man who said in 1940: 'War is even worse than a German victory. He fails utterly to relate the peace and liberty of our people to the men and liberty of other parts of the world,'" McMahon said.

"He would have us put a ceiling price on our liberty and shop for security at the bargain counter."

In essence, Senator Taft appears to say that the Kissimmee Livestock Show is serious and real and that we must do all we can to contain it. But when he states his views as to what he thinks we can do, it appears that in his mind the problem is too large and measures to cope with it too expensive.

"Senator Taft's record of against and against against shows his heart is not behind the positive program we need to defend America."

Twins occur once in 88 births. The battle of the Herring is the name given to action in 1499 between the French and English when the latter were bearing Lenten provisions—mostly herring to the besieging troops at Orleans during the Hundred Years' War.

Following the business meeting, members of the Beautification Committee served out coffee. Pies left over were prepared off by Joe Maybury, including a good deal of entertainment.

No. 63

Seminole High School Band

A new spirit of enthusiasm is reported among the members of the Seminole High School band which number 65 students, and which is directed by Ernest H. Cawley, graduate of the Stetson University Music Department. Aiding also in the band program is a group of parents and interested adults who have formed a Seminole

High School Band and Orchestra Association, designed to promote the interests of the band and an orchestra, to help secure uniforms and instruments. Last year the band tried hard but could not achieve a first division rating. This year the boys and girls are reported to be practicing diligently under the baton of Mr. Cawley, in order

to secure a first division rating at Orlando, Nov. 18 in the district contest. This would enable the band to compete in the State contest with the foremost high school bands in Florida.

Russia Offers UN New 4-Point Plan For Disarmament

Atrocities Told Troops At Front For First Time

U. N. Admits Plane Violation Over Pannumom Area

By Associated Press
The United Nations today by day broadcast to American front line troops in Korea for the first time the report that the Communists have slaughtered 5,000 captured U. S. fighting men.

Vishinsky Suggests Control Of A-Bomb Be Placed Within UN Security Council

By STANLEY JOHNSON
PARIS, Nov. 16 (AP)—Soviet Russia presented today a new proposal today for a four-point disarmament plan, but insisted again that international control be vested in the United Nations Security Council, where the U. S. has no veto power.

Pep Rally Held At High School For Homecoming

Mack Cleveland, Jr. Tells Students Of Need For Education

Drenching rain, thunder and lightning failed to dampen the ardor last night of Seminole High School students on the eve of their homecoming game with Seabreeze, and they celebrated with an Indian war dance around a fire on the school grounds.
