

**NEW HEADQUARTERS** of Allen's Cabinets Inc. at Longwood incorporate a modern, colorful and attractive interior while combining a spacious and well-designed working interior. Allen Harvell, owner of the firm, says

that the building was planned to handle the expected operational and employe increases which are indicated by the growing demand for the special formica cabinet line. (Herald Photo)

### Brandt Raps Paper Protests

BERLIN (UPI) — West Berlin Mayor Willy Brandt told a rally of West Berliners today that "paper protests alone are not enough" to counter Communist actions against this beleaguered city and its people.

But Brandt appeared for calm in his address to 200,000 West Berliners. They massed at a giant rally before City Hall this afternoon to protest against Communist East German closing of the East-West city border.

Earlier today a note from the Soviet commandant in Berlin to his western counterparts said the Russians had no control over East Germany and told the West to stop "meddling" in East German affairs.

### Agricultural Nominees Listed

Seminole County Agricultural Stabilization and Conservation Commissioners will be elected by mail ballot again this year according to Homer Ballard, County Office manager.

Ballots will be mailed to all farmers on Aug. 21, and must be returned or postmarked no later than Aug. 31 to Seminole County ASCS Office, Courthouse, Sanford.

The present County Committee consisting of C. S. Lee as chairman; Fred A. Dyson, vice-chairman; and Henry Schumacher, regular member, have this day named the following slate of 10 required eligible nominees, from which three regular and two alternates will be elected.

### CD Report Gives Grim Death Toll

TALLAHASSEE (UPI) — Gov. Farris Bryant and other state officials were told Monday that 50 to 50 million Americans would be killed "first crack out of the box" if all-out nuclear war broke out.

"Ninety per cent of the 150 to 200 million people left in this country are going to die of fallout within two weeks unless they have shelters," said Leon County Civil Defense Instructor Jim Alexander.

"This very building we're in now (the state Capitol) should have a fallout shelter," Alexander told Bryant, "and so should every other state building."

### Soviets Charged With 'Major' Propaganda Drive

WASHINGTON (UPI) — U. S. officials accused the Soviet Union today of waging a major propaganda campaign to frighten this country's allies and create rifts aimed at weakening the Western stand on Berlin.

They predicted that Moscow would engage in more and more of this propaganda warfare as the Berlin crisis deepens.

### New Federal District

WASHINGTON (UPI) — A bill sponsored by Sen. George A. Smathers, (D-Fla.), to create a new federal judicial district in central Florida will go before the Senate for action soon. The Senate Judiciary Committee approved legislation Monday to create the district.

## I have the Key to your Opportunity To Own Your Own Home!

Tired of moving on short notice? Dissatisfied with high rents? Want to feel the security of your own home? I have the key that lets me help you unlock the door to a home of your own.

There have been many of our Navy friends who have received orders transferring them to new assignments, including members of VAH-13 who left this month. A number of the families have sold their homes, and there are still some on the market for sale.

Many of those who are being transferred have requested me to assist them in selling their homes. In many instances beautiful 3 and 4 bedroom, 1 and 2 bath homes in subdivisions in all sections of Sanford can be bought for very small equities. A number of homes with monthly payments as low as \$75.00 a month and with as little as a \$250.00 down payment are available.

I want to do everything I can to assist these friends in selling their homes. I want the opportunity to show you these excellent home ownership opportunities. Rental rates on similar type homes in Sanford today are from \$100.00 to \$135.00 a month. I honestly believe that this is an excellent opportunity to help many of our fine Navy friends sell their homes and it is also an excellent opportunity for you to own a home. My interest is to help them and to help you.

I will be glad to discuss personally with you any of these home buying opportunities and take you and show you these homes—or, I will arrange an appointment for the homeowners to show you the homes because I am confident that you will agree that these are quality homes at prices you can afford. These homes range in price from \$8,200.00 at \$52.00 a month to \$19,500.00 at \$125.00 a month.

P. S. There were 11 homes sold in beautiful Sunland Estates last week alone, so don't wait, take this opportunity to purchase a beautiful home at a price you can afford.

# City Okays Pay Hikes; Two Additional Firemen

## Fire, Police Budget Sliced

The City Commission Thursday night went chop, chop, chop to the fire and police budgets but at the same time gave all city employees for the second year in a row across the board two percent pay raise and agreed to hire two additional firemen.

At the same time, the commission ruled out a new car for Fire Chief Mack Cleveland Sr. and decided against enclosing Fire Station No. 2 on French Ave. Both of these decreases amounted to close to \$8,000 out of the fire budget. The hiring of two additional men was set at \$8,343.

The commission also sliced off \$2,000 for additional fire hose during the next fiscal year.

The board cut some \$2,500 from the police budget ruling out a Keeler polygraph machine at a cost of \$1,200 and a six week course for one man to study lie detection at \$1,500.

Commissioners also agreed to hire a clerk for the finance office, ruled out paving city hall parking lot and tabled action on slicing off a vehicle from the parks budget.

The hiring of two additional firemen will bring the department's strength to 23. However, the board took no action on any Kelly days and left it up to Chief Cleveland on whether he wanted to institute partial Kelly days with the two new men.

"Who's Kelly anyway?" Commissioner J. H. Crapps said.

The raise for all city employees making under \$350 a month had been approved earlier. However, Thursday the board agreed that higher priced workers were entitled to a raise also.

Mayor Joe Baker said that the higher priced employees were "more out of balance" with the lower paid.

The commissioners, although they met for more than three hours, only went through some six departmental budgets and plan more budget meetings next week to tackle recreation, zoo, library, public works and streets.

At the same time the commission went over its utility budget estimated at slightly under a half million dollars and agreed that it was in line with last year.

Out of the utility budget, \$63,000 has been set aside for a new treatment plant while sharp raises were noted in the sale of metered water (because of increased water consumption), water service charge and hydrant rental.

**By LARRY VERSHEL**

Maybe the County Commission needs an administrative aide after all. This morning the city received a letter from the County Commission with four cents postage due on it. Now, if the board had an administrative aide, he could have carried it across the street himself.

Don't be surprised if the County Zoning Board recommends that the County Commission raise the price of building fees.

The first building permit in the city for a fallout shelter was issued Thursday . . . and it was a city employe that took it out. Sanford Policeman Carl Dodson was the man.

Last week the City Commission okayed the purchase of bump caps to protect its employes against injury while working. Thursday night Commissioner Earl Higginbotham suggested that the city lend some of these caps to the County Commission to prevent any injury during the next county board meeting.

However county board members are looking out for themselves. They called off next Tuesday's meeting.

Look for City Tax Collector Ellen Hoy to retire sometime this year. Miss Hoy has 42 years with the city. And just for the record, after all that service, Miss Hoy's salary is still under \$5,000 a year.

Did you know that Alvan Joe Petty, who was arrested earlier in the week for operating an illegal whiskey still is the same Mr. Petty that opposed Constable Hugh Carroll in the District 4 Constable race last year?

Discussing the terms for a lease of the Sanford pier, one commissioner inquired: "What happens if Lake Monroe should dry up and leave the marina on dry ground?"

The applicant for the lease first said he would have to think of something in that case, but later on figured out that if the lake did go dry, he could keep the land leased, put it in the government soil bank and get paid for not growing anything.

See Ya' Downtown tonight!

# Merchants Helping To Hold Budget Line

Budget-conscious families, shopping in downtown Sanford tonight will find that local merchants are helping them hold the line.

Family needs in every line are being offered by the downtown stores, for men, women and children, for the family as a whole, and for the home.

School needs, especially, are being high-

lighted with only two weeks to go before the big yellow buses begin to roll and the bells begin to ring.

Not only school children, but school teachers, too, are being offered many bargains in the latest styles, shapes, colors, sizes, and lines.

Two \$60 Bulova watches, one for a lady and one for a man are the give-away prizes this

week at the after-closing drawing to be presented from the sound truck on the corner of First and Magnolia.

Contrary to reports carried elsewhere, there will not be a dance band present to play for dancing in the streets tonight.

However, Radio Station WFSR will broadcast music throughout the evening and continue with dance music after closing hours.

# The Sanford Herald

# Commies Strengthen Border Barriers

**BERLIN (UPI)**—The Communist regime of East Germany signed up young men for army service, formed factory defense guards and strengthened border barriers today in obvious preparation for long-term enforcement of its blockade between East and West Berlin.

The enlistment drive was designed to strengthen the existing security forces of 663,000 men. The factory defense guards were a precaution against unrest over closing of the refugee escape route to West Berlin.

The Communists sealed the dividing line between East and West Berlin still tighter with a huge concrete and barbed wire barricade at Potsdamer Square and by cementing doors to east sector houses fronting on West Berlin streets.

Soldiers already in service were being called on to extend their two and three-year enlistments. The official East German news service ADN said many soldiers announced they would continue to serve as a defense against "any provocation."

In both East and West Berlin

many people were laying in food reserves. Coffee, sugar, flour and salt was in demand.

As the situation grew more tense, Chancellor Konrad Adenauer, delivering a government statement to the parliament in Bonn, urged a NATO defense buildup and warned the Russians that an attack would bring on them "a counter-stroke capable of destroying the Soviet Union."

East German youths were called

on the pledge "eternal loyalty" to chief of state Walter Ulbricht.

"The fatherland calls" the youths were told, "Protect the socialist republic. All youths from 18 to 23 must be won for the armed forces of the democratic republic."

It was considered significant that the Communist had waited to start the enlistment campaign until after they had closed the border to refugees.

## news... BRIEFS

**Aid Urged**  
WASHINGTON (UPI)—Republican Gov. Nelson A. Rockefeller today urged GOP House members to support President Kennedy's request for long-term foreign aid.

**Government Okay**  
WASHINGTON (UPI)—American businessmen have obtained government permission to export almost \$9 million worth of materials to Soviet bloc nations in the last five weeks.

**Maneuvers End**  
FT. BRAGG, N. C. (UPI)—Joint Army and Air Force maneuvers testing America's preparedness to fight a "brushfire" war, end today, completing two weeks of intensive training for thousands of troops.

**Price Cut**  
WASHINGTON (UPI)—A new day dawned for airline passengers today. All three major transcontinental airlines whacked about \$100 off the price of certain coast-to-coast flights.

**Newsprint Use Dips**  
NEW YORK (UPI)—Newsprint consumption during the first seven months of 1961 decreased from the record high set during the comparable period last year, according to the American Newspaper Publishers Association (ANPA).

**Mass Shootings**  
ATLANTA (UPI)—A minister's daughter who police said shot and killed her sleeping husband and three children died Thursday night to complete and apparent murder-suicide which shocked residents of an Atlanta suburb.

**Dud Explodes**  
AVERSA, Italy (UPI)—At least seven children and a woman were killed Thursday in an explosion believed caused by a World War II shell or bomb. One child was reported missing and three others were hospitalized with serious injuries.

**Invests In Resorts**  
PALM DESERT, Calif. (UPI)—Comedian Bob Hope purchased about \$1 million worth of property in this desert resort, Hank Gogerty, Palm Desert motel owner, reported Thursday. Gogerty said Hope bought 280 acres and will announce later how he intends to develop the property.

SEA SCOUTS IN SANFORD got a start on their old paper pickup from Herald circulation manager Frank Voltoline, who contributed 200 pounds of old papers to their drive in which they will collect old paper and sell it to raise money for their activities. Shown, from left, are Leroy Riley, advisor to the Scouts, Peter Kurch and Bill Duxbury of Ship 506 and Voltoline. (Herald Photo)

## Kennedy Approves Buildup

WASHINGTON (UPI)—President Kennedy has signed a record peacetime \$46.7 billion defense appropriation bill aimed at building up U. S. military strength for the Berlin crisis, the White House announced today.

The President signed the measure Thursday night, press secretary Pierre Salinger reported. It included the entire extra \$3.5 billion Kennedy asked to counter the Berlin threats of Soviet Premier Nikita Khrushchev.

The bill also contained \$207.6 million to get a civil defense shelter program under way for the American people.

Congress gave the President several million dollars he hadn't requested. The main increase was \$525 million for continued production of B52 and B58 bombers which are now scheduled for final deliveries late this year.

The bill also contained \$400 million for stepped up production of the B70 bomber. Kennedy had requested \$220 million.

The new money will start a program of shelter construction on federal property, provide for the location and marking of other shelter areas and some stocking of emergency provisions.

## U. S. Grants Cuban Sailors Asylum

NORFOLK, Va. (UPI)—The United States today granted political asylum to "at least 10 Cubans, including the captain" of the Cuban merchant ship Bahia de Nipe which made an unscheduled "freedom stop" in Chesapeake Bay.

A spokesman for the commander of the 5th Naval District said the other crew members would be allowed to resume their voyage aboard the craft. He said the Swiss government, which is filling in the broken diplomatic relations between this country and Cuba, had been notified of the defection.

Cmdr. Nicholas Pope said he had not been advised of the total number of men aboard the ship but instructed him to describe the number of defectors as "at least 10, including the captain." Pope said the State Department had advised him "there is no way possible that we can hold the others."

## City Approves CD Shelter Work

Construction of disaster headquarters for Sanford will get underway in about 30 days, City Manager W. E. Knowles said today after the City Commission Thursday night approved plans for the facility and authorized the spending of \$1,100 for the job.

Knowles said that city crews will do the work on the 20 by 40 foot shelter which will be located east of the reservoir on 13th St. and French Ave.

There will be one large room and three small generator and storage rooms in the building.

Mrs. Rosalie Harkness and her ten children lost everything they had Thursday when a fire totally destroyed their home and almost all its contents at 1808 Hawkins Ave.

An oil stove explosion was the

## Navy To Add 42 Ships To Fleets

WASHINGTON (UPI)—The Navy has announced plans to add 42 ships to the Atlantic and Pacific fleets and step up orders for jet fighters, anti-submarine planes and ship-borne missiles.

The action Thursday was the latest in a series of moves by the armed services as part of the U. S. military buildup ordered by President Kennedy to meet Communist threats against Berlin and elsewhere in the world.

The Navy announced earlier it would extend duty tours of 28,000 officers and men for six to 12 months.

## City Okays Boat Marina Lease Terms

City commissioners agreed to terms Thursday for leasing the city pier and boat ramp and allow construction of a modern marina on Lake Monroe.

Commissioners approved terms of a 20-year lease contract with Jack Trim, who said the marina should be in operation before the end of the year.

City attorney William Hutchison was instructed to complete the details on the lease and Trim told the board that he hopes to finish negotiations for construction of the clubhouse and floating docks within two weeks.

Under the proposal, the pier and boat ramp will be leased for 20 years at a rental of \$1 per year for two years and \$1,000 a year or two percent of the gross receipts of the marina, whichever is greater for 18 years, with renewal option for 20 more years.

The lease provides that the existing boat ramp at the foot of Palmetto Ave. will be improved and

## Sea Scouts Paper Collection Monday

Sanford residents across town from Lake Monroe to Eighth St. are asked to contribute old papers and magazines to the Sea Scouts Monday as the youths begin a week's fund raising effort.

The Scouts will tour all streets from Seminole Blvd. south to Eighth St. and from Virginia Ave. on the east to Persimmon Ave. on the west and will take away any old papers piled in front of homes or businesses between 8 a. m. and 4 p. m.

Anyone desiring to notify the boys that they have papers to be contributed also may telephone FA 2-0940. The pickups will continue through next Friday, with a different area to be covered each day.

Tuesday the Scouts will tour the area from Eighth St. south to 13th St. and from Virginia Ave. west to Persimmon Ave.

The old papers and magazines donated by residents will be sold by the Sea Scouts to help defray the expenses of the group's training and other activities.

## Dunn Lashes State Welfare Agency

District 4 County Commissioner Vernon Dunn today lashed state welfare officials for the care of Sanford cases and stressed the need for a minimum housing code and replacement of many of the slums in the area with low cost housing.

Dunn made the statement after the County Commission inspected two "hovels" Thursday on Cypress and Hickory Aves. where two Negroes were "existing like animals" according to Dunn.

Speaking for the County Commission today was Chairman J. C. Hutchison who said that the board received an anonymous tip that two persons in that area were living in filth.

The commission contacted the local welfare department which reported that nothing could be done to the two because no action could be taken about forcing anyone into a nursing home.

However, commissioners contacted the Sheriff's Office which encouraged the two to enter a home. According to Dunn one was over 90 years of age.

He said that the animals in the city zoo had better housing than these two men and took a verbal slap at the state welfare agencies for letting these "things happen" and asked society to step in to "stop this disgrace."

## Sanford Featured On TV Sunday

Sanford will be the subject of a half-hour television program Sunday at 8 p. m. on Channel 9.

The program, "Sanford: Seminole's Sleeping Beauty," will trace the city's history with the use of authentic, old photographs.

The present and future will be discussed by such prominent citizens as: Roy Williams, chief of police; John Krider, Chamber of Commerce manager; Dan Wright, Minute Maid board of directors; Capt. Joe Tully of the Sanford Naval Air Station will also appear on the program.

The Sanford program is one of a series of programs called "Operation—Mid-Florida." The series concerns various communities in the Channel 9, Mid-Florida area.

## Rough!

TALAHASSEE (UPI)—Gov. Farris Bryant said Thursday that the defunct Duval Engineering Co. recently sold to a new group of owners, "will never do business with the state" during his administration.

## Douglas Reps Hold Welcoming Party

A big get-acquainted party for the Douglas Air Force Base and families of Douglas Air Force Base representatives from the Tulsa, Okla., and El Segundo, Calif., plants, who are newly arrived in Sanford, was held Sunday at Sanlando Springs. Highlight of the evening's entertainment was a 6 ft. long decorated "Moon Rocket." The rocket was made up in the form of a pinata, (peen-yata). This is an old Mexican festival custom.

WHEN IS A MOON ROCKET not a moon rocket? When it's a pinata, such as this one. And it's full of all kinds of delightful treats for the children of Douglas Airmen and their families. The pinata was the highlight of a barbecue held Sunday at Sanlando Springs to greet new families. Shown with the rocket are, from left, Mrs. Evelyn Kwiatkowski, El Segundo, Calif.; Mrs. Wanda Frazier, Tulsa; Mrs. Gerald Murphy, El Segundo and Mrs. Mildred Whisenhart, Tulsa. (Herald Photo)

A large paper figure of a rooster, fish, dragon or other animal or a shape such as a ball, star or any other shape which lends itself to the occasion is constructed of wire and paper and gaily decorated.

Blindfolded participants in the game are given a big stick and led up to where the pinata is supposedly hanging, but it is arranged on a pulley and is pulled up and down while various contestants take turns trying to hit it and break it so that the candies, sweets, gifts and other surprises inside will fall out.

This was just what happened at the party held by the Douglas group, with the children of the families taking part in the contest and finally succeeding in "busting" the moon rocket and scrambling for the assorted candies, bubble gum, peanuts and popcorn which it contained.

The Moon Rocket pinata was constructed by Larry Kwiatkowski, Ray Brown, George Avina, Gerald Murphy and Bob Albert. After an afternoon of swimming and games, about 125 people enjoyed a supper of barbecued chicken, spare ribs, baked beans, potato salad, cole slaw, hot rolls, coffee, tea, soft drinks and ice cream.

Later the group held a singing, harmonizing with recorded music by a well-known sing-along band. Floating hostesses were Mrs. Larry Kwiatkowski, Mrs. Al McDaniel, Mrs. Ray Brown, Mrs. George Avina and Mrs. Gerald Murphy.

EXAMINING SOME fascinating antique hat pins which will be displayed at the Hat Fashion Show, a September OWC event sponsored by VAH-1 wives, are Mrs. Louie Bridges, left, owner of the hat pins, and committee member, Mrs. Kenneth Coskey. Looking on is Mrs. Robert Sause.

## Hat Fashion Show Planned

Initial plans were laid for the September OWC social event by a committee composed of VAH-1 officers wives, hostess group for the occasion, when they met recently at the home of Mrs. Barton Bartholomew. Their chosen theme is a Hat Fashion Show combined with a luncheon. Mrs. Louis Bridges was introduced to the committee by Mrs. Robert Sause of VAH-9 officers wives. She brought her collection of exquisite antique hat pins which she is lending for display at the luncheon.

The hat pins, found by Mrs. Bridges' husband in some old packing boxes, include some with silver Indian heads, some with jewel-eyed beetle heads and others with intricate floral and geometric designs in gold. Plain costume jewels and cameos are also employed as heads for the pins which are oversized by today's standards.

Committee members present for the meeting were Misses Charles Dunn, Robert Provencier, L. J. Reinhart and Charles Hodgate.

Italy was ruled by the ancient Etruscans for centuries before the Romans rose to power about the 4th century B. C.

## Oviedo Couple Honored By Family Party

By MARIAN R. JONES  
Mrs. R. W. Estes of Oviedo was hostess at a family get-together on the evening of Aug. 8 honoring Mr. and Mrs. Boyd Bone.

Attending were Mr. and Mrs. Marion Estes and daughter, Nancy; Mr. and Mrs. Martin Estes and Mr. and Mrs. Bob Estes and son, Ronnie, of Maitland; Mr. and Mrs. Jack Dodd and sons, Desi and Doug.

Mr. and Mrs. C. R. Clonts, J. A. Harris, Tommy Estes, Mr. and Mrs. T. H. Daniell Sr. and Mr. and Mrs. T. H. Daniell Jr. and children, Pam and Ray of Atlanta, Ga.

## Friends Invited To Shilling-Dunn Wedding Saturday

Friends of Miss Sandra Jean Shilling and Thomas Harold Dunn are cordially invited to attend their wedding by the bride's parents, Mr. and Mrs. Richard L. Shilling. The ceremony will take place at the First Presbyterian Church Saturday at 7 p.m., officiated by Rev. Grover Sewell.

The bride-to-be is presently employed by the Sanford Atlantic Bank, and the groom is attached to Sanford Naval Air Station with the U. S. Navy.

## Rebekahs Attend Picnic Held In Gainesville

Six members of Seminola Rebekah Lodge No. 43 went to Gainesville Sunday to attend a picnic at the Odd Fellows Home. The affair was sponsored by Orlando Rebekah Lodge No. 38 and was attended by members from St. Petersburg and other lodges throughout the state.

Those from Sanford were Mrs. Eileen Rector, district deputy president of district No. 10, Mrs. Mae Meyers, Mrs. May Rubow, Mrs. Mary Jameson, Mrs. Nell Futrell and Mrs. Bertha Snyder.

## Grace Methodist Joy Circle Meets At Clark Home

When ladies of the Grace Methodist Church met Tuesday morning at the home of Mrs. M. E. Clark, they chose a name for their circle, and will be known henceforth as the Joy Circle.

Two new members, Mrs. J. S. York and Mrs. E. E. Oney, and two visitors, Mrs. Donald G. Jackson and Mrs. William Bennett, were welcomed by the group. The devotionals were given by Mrs. John Doherty and Mrs. Jack Rossman continued the group's study of Biblical women with the story of Ruth.

Mrs. Richard Silvers, circle chairman, gave the closing prayer. Pastry and coffee were served by the hostess.

## Osteen

## Personals

By MRS. CLARENCE SNYDER  
Mr. and Mrs. Alfred Ashton and grandson, Bobby, of Kent, Ohio, spent Monday with Mr. and Mrs. Raymond Lawson. The Ashtons are visiting in Longwood. Tuesday, accompanied by Mr. and Mrs. Lawson, they also enjoyed a fishing trip to New Smyrna Beach.

Mrs. Clarence Snyder visited the Odd Fellows Home in Gainesville, Sunday.

Mr. and Mrs. Vernon Hopper and daughter, Phyllis, of Orlando spent the weekend with her parents, Mr. and Mrs. Robert Williams.

Ray Springer returned home Saturday after a two week visit in East Liverpool, Ohio, where he was called by the death of his sister, Mrs. Ruth Nusser. His niece, Miss Willa Nusser, accompanied him home and will remain for an extended visit with her aunt and uncle, Mr. and Mrs. Raymond Lawson.

Mrs. Frank George, Mrs. Guy Beah, Mrs. Robert Williams and Mrs. Clarence Snyder attended the covered dish supper at the Odd Fellows Hall in Sanford, Saturday evening.

"WHAT A HAPPY BIRTHDAY PARTY!" One-year-old Larry Blythe seems to be saying, as he sits before his beautiful circus-decorated birthday cake, wearing his Happy Birthday hat. (Herald Photo)

## Larry Blythe Is One Year Old

Larry Blythe, who celebrated his first birthday Tuesday was honored at a party given by his parents, Mr. and Mrs. J. L. Blythe at their Ravenna Park home.

Garbed in swimming suits, the guests delighted in splashing and playing in the several plastic pools provided for their enjoyment. The birthday cake, served with ice cream, was elaborately topped with circus decorations. The circus motif was carried out by lily pads and candy sticks, and hats and horns as favors.

Friends there to join in the festivities were Teresa Johnson, David Robert, Jeffrey Powell, Paul Kudlac, Larry Elliot, Candy Honey and Angel Childs, Butch Wilkinson, Ed Gordon, Allen Taylor, Jerry Rogers, Cathy Kohn, Wendy Hirt and Allen Norman.

The Library of Congress contains more than 30,000,000 items.

## Reception Fetes Engaged Couple

An informal pool side reception in honor of Miss Mary Elizabeth Lewis and Ledr. Kenneth E. Enney who will be married Sept. 9 in Washington, D. C., was given by Mrs. O. S. Brownlee Sunday at her home.

The guests, all friends of long standing of Ledr. Enney, welcomed the opportunity to get acquainted with his fiancée who is the daughter of Mr. and Mrs. Fulton Lewis Jr. of Washington, D. C. The couple will make their home in the Sanford area where he will be attached to VAH 7.

A buffet table set in the charming back yard of Mrs. Brownlee's home held sliced turkey and ham, cheese and small corned beef sandwiches. Daquiri punch was served from a milk glass punch bowl on the side of which sat a bride and a groom made of pipe cleaners. The "bride" eventually fell into the punch, much to the amusement of the guests, while the forlorn "groom" hung on precariously in his rumpled silk top hat.

Several of the guests also enjoyed swimming during the evening.

Miss Lewis wore a striking linen sheath of off-white, the skirt with narrow inset panels of hot pink and Dior blue.

Miss Mary Caine of Washington, D. C. who will serve as maid of honor at the wedding was a special guest.

The guest list also included Mr. and Mrs. Gail Borden, 3rd, of Winter Park, Mr. and Mrs. Wade Snyder, Mrs. Olivia Simmons, Dr. and Mrs. Vann Parker, Capt. and Mrs. Joseph Tully, Cdr. and Mrs. S. R. Johnson, Cdr. and Mrs. LeRoy Heath, Cdr. and Mrs. Ralph Mattus, Cdr. and Mrs. H. E. Fitzwater and Lt. William Hackett (Ret.).

# 3 Drug Firms Indicted On Rigging Prices

NEW YORK (UPI)—Charging that the public is paying "unreasonably high prices" for three "wonder drugs," the Justice Department will take three major drug firms and a top executive of each to court on anti-trust charges.

The four "broad spectrum" drugs are chloromycetin and is made by a firm not involved in the case.

The defendants were indicted on charges of conspiring to restrain trade, conspiring to monopolize, and monopolizing drug sales.

## Elder Springs Church To Open New Kindergarten

An announcement released today from the Elder Springs Baptist Church notified that a church-related kindergarten, to follow the public school calendar through the year, will begin with the opening of the 1961-62 term on Sept. 5.

Church officials say that the purpose of the program will be to "prepare the children for their first year in school in a thoroughly Christian atmosphere" and add that the faculty and curriculum have been selected with this purpose in mind.

Registration, on a "first come, first served" basis since the school will be operating on a limited enrollment, will be held Monday from 9 a. m. until noon in the church office and will be limited to children who are, or will be, five years of age before the first of the year.

Information on the kindergarten and on fees of registration and monthly tuition may be obtained from the church office, FA 2-0282 or from FA 2-4374.

## Mrs. Hendley, 48, Dies In Hospital

Mrs. Mattie Lue Hendley, 48, of Longwood, died early Thursday at Seminole Memorial Hospital following a brief illness.

She had lived at her Longwood residence at 881 Logan Dr., for the past year and had lived for 10 years in Jacksonville before coming to Seminole County.

Survivors include a daughter, Mrs. Carolyn Lane of Sanford; two sons, A. E. Hendley of Camp Pendleton, Calif. and H. D. Hendley of Buford, S. C.; two brothers, Archie Kinnard of Sanford and John Henry Kinnard of Pahokee; three sisters, Mrs. Ethel Simple of Tampa, Mrs. Ruth Ward of Tampa and Mrs. Nancy Weeks of Archer and eight grandchildren.

Funeral services will be held at 2 p. m. from Brissou Funeral Home Chapel with Rev. B. H. Griffin officiating. Burial will be in Oklawaha Memorial Park.

School Bells Are Ringing !!

"Good Morning, Teacher, Here We Are!" Say Bright and Happy First-graders, Sandy Balser and George Willink.

School bells will begin to ring again on Sept. 5th this year for approximately 13,200 girls and boys from the first through the twelfth grades.

For the past several years, Seminole County has been one of the fastest growing counties in the state, in regards to school age children.

This rapid increase has created many problems. Among them, the housing of children and the employment of teachers for the classrooms.

Seminole County School finished last year with 12,000 children in daily attendance.

This year, 1961-62 will see an additional 1,200 or more children to be provided for by the county school system.

The County School Board is employing 46 additional white and Negro teachers throughout the county to take care of the increase and an actual total of 80 new teachers, replacing approximately 35 who

have left for one reason or another.

Negro elementary school children in the Georgetown section of Sanford will attend a brand new school, the Hopper Elementary School on Bay and 13th St., which will open its shiny new doors for the first time.

However, children in the Altamonte School, in the rapidly growing south end of the county, will go on double sessions in grades one through four this year.

The fifth and sixth grades at Altamonte will get by without doubling up by using a new method of group instruction where with the aid of visual-education equipment, 150 children will attend one class.

These classes will encompass social studies, science, geography and history, leaving the personal instruction of the classroom teacher to deal with the basic reading, writing and arithmetic.

# Teachers Have One Goal

Teachers, instructors, principals and superintendents in Seminole County are working steadily and purposefully toward a goal of better education, both vocational and academic for all students.

Evidence of this is shown in the progressive steps toward broadening skills, and intensifying training in every possible way.

Two Seminole County Schools, Lyman and Oviedo high schools, are offering Biology II for the first time this year. This course was also introduced for the first time at Seminole High last year and will be continued.

Algebra I has been dropped to the eighth grade in Lyman and Oviedo, thus widening the advanced math curriculum to students there.

The physics course, which began at Seminole High School last year is the latest result of the 1957 studies made by the Physical Sciences Studies Committee at Massachusetts Institute of Technology. This is an advanced and up-to-date study of physics and will also be taught at Lyman this year by O. M. Smith.

Eighty percent of physics students in Florida last year took this new study as compared to only ten percent nationwide.

James Bowers has been added to the Lyman faculty this year as a full time guidance counselor and Mrs. Louise Stackpole will be director of a new course called Distributive Enterprise, which is similar to the Diversified Cooperative Training program.

Under this program, students are placed in carefully selected jobs where they work a part of each school day, receiving credit and vocational training at the same time, under the careful supervision of the director.

Another modern aid to education that teachers and educators find most helpful are the film

strips and each year at each school the library of film strips grow as teachers make use of this visual education.

Miss Grace Marie Stinecpher has been employed as a teacher at her old Alma Mater, Seminole High School this year, where she will instruct in General Math.

Miss Stinecpher, daughter of Mr. and Mrs. Martin Stinecpher, was born and reared in Sanford and attended schools here. Her mother taught Math and Biology at Seminole High for many years.

She attended Maryville College in Lebanon, Mo., for two years where she was a member of the Maryville Highlanders Marching Band and then transferred to Stetson University where she graduated with a B.A. degree in Elementary Education, with a secondary major in Math.

While at Stetson she was a member of the Stetson Matadors Band.

Miss Stinecpher interned at Killarney Elementary School in Orange County and taught three years at the Lake Silver School there.

At Seminole High she was president of the freshman class, editor of the yearbook, active in Student Council and salutatorian of her graduating class. She was also a member of the band for four years.

**SAFEGUARD THE LIVES OF ALL OUR CHILDREN**

# Altamonte School To Start Year With 1,100 Youngsters

Altamonte Elementary School will start the 1961-62 school year with approximately 1,100 children. The fifth and sixth grade will be in an experimental large block grouping, and the first through fourth grades will be in double sessions.

The large block plan is essentially the Stoddard plan for television teaching except that other audio-visual aids will be employed in place of TV. The building space used is about one half that of a normal day.

The day for a child in this grouping is broken down in this way. He will be in the large block with 150 other children for one and a half hours of social studies, science, and the physical education of the large block teacher.

The group will then divide into smaller groups for music, art project work, committee work and supervised study under the direction of the librarian, large block teachers and teacher aide.

There are one and a half hours of physical education with the physical education teacher and two teacher aides.

The remaining three hours are spent in skills groups of about 15 children with one teacher who teaches reading, writing, arithmetic, language, and spelling. The large blocks will be taught by Mr. Donald Hasley for fifth grade and Mrs. Trene King for sixth grade.

Mrs. Roberta Richards will serve as librarian and physical education teacher.

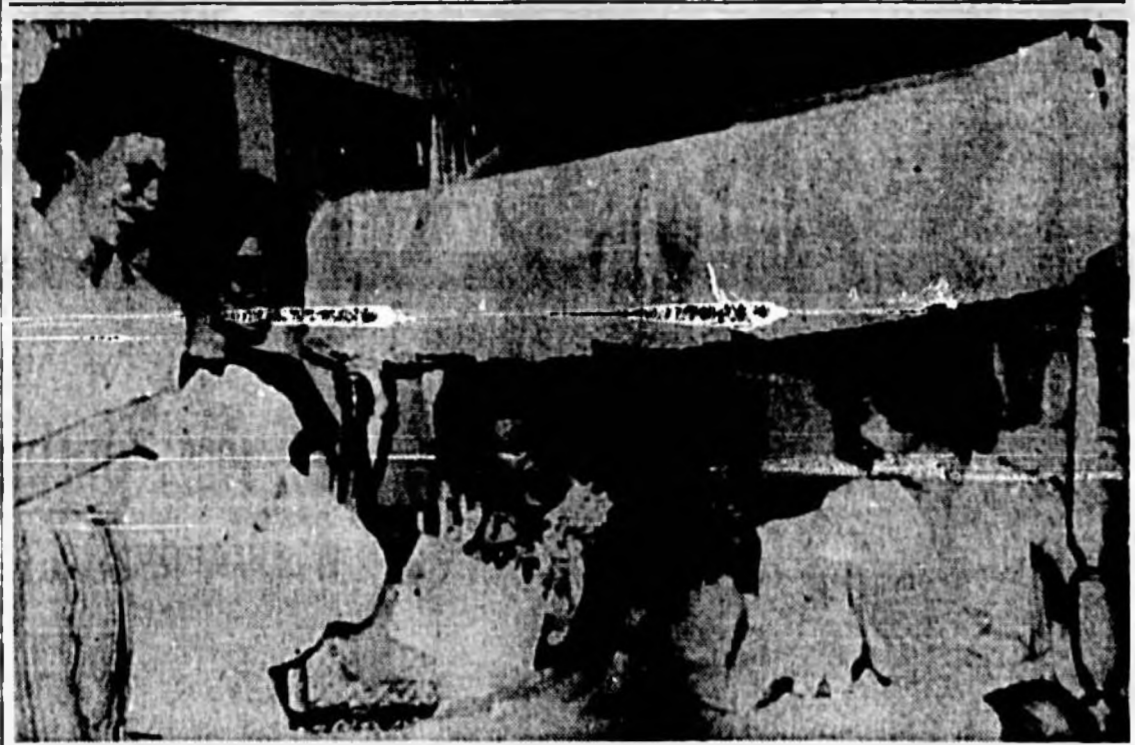

The skills groups will be taught by Miss Anna Bandy, Mrs. Eloise Hall, Mrs. Helen Leinhardt, Miss Eleanor Schultz and Mrs. Shirley Stuart and Mr. James Moseley.

The faculty under the direction of George Dabbs, principal, has spent much time in study and planning for this experiment and expect to see it develop into an excellent educational program.

The first four grades, 28 classes, will be operating under the

plan of double sessions developed successfully by Mr. Dabbs and his faculty over the last three years.

By a type of staff utilization similar to the much publicized "team teaching" it is possible to give each child a great deal of individual attention even though they attend school only four hours.

**COLLEGE BOUND** are these five girls who have gathered to discuss their plans for the future. The girls are in Rosemary Southward's lovely bedroom, with its white canopied bed, as they try to decide how much can be squeezed into a few suitcases. From left, are Rosemary, who will attend Coker College in Hartsville, S. C.; Ethel Lee Riser, who goes to Florida Southern at Lakeland; Deanna Nichols who enters Florida Presbyterian in St. Petersburg, Sept. 1; Nikki Ashby, going to FSU at Tallahassee and Judy Ludwig, who plans to attend Wesleyan College at Macon, Ga. All the girls, except Miss Nichols will leave during the weekend of Sept. 16 and 17. (Herald Photo)

Each child is assigned to one teacher for the entire period but the teachers who teach in the other session take individuals or small groups for remedial work, drill, or enrichment activities.

The children are assigned to the morning or afternoon session by bus area and children from the

same families attend the same session.

The sessions change at mid-year so that the children who attend mornings in the fall attend afternoons in the spring. This is done so that each child gets the opportunity to be in school at the time best for him.

The teachers are: First grade—

Mrs. Thelma Benson, Mrs. Rita Edwards, Mrs. Virginia Kause, Mrs. Elizabeth Miller, Mrs. William Morse, Mrs. Doris Nicholson, Mrs. Katie Peacock, and Mrs. Nancy Perryman.

Second grade — Mrs. Mary Gregory, Mrs. Ruth Johnson, Mrs. Helen Kelly, Mrs. Marian Kint, Mrs. Elizabeth Lang, Mrs. Patricia Olsen and Mrs. Alice Truchelut.

Third grade — Mrs. Joanne Bolder, Mrs. Nadine Callie, Mrs. Eullia Grantham, Miss Marie Knott, Miss Gloria Müller, and Miss Marlene Sherrad.

Fourth grade — Mrs. Margaret Benson, Mrs. Ann Shartraw, Mrs. Frances Fisher, Mrs. Carolyn Gore, Frank Gore, and Mrs. Mary Birchland.

## Something New Added To Two Schools This Year

"Something new has been added" at the Junior High School level in Sanford and Lyman schools this year.

The beginnings of an industrial shop have been set up in both schools to provide 12 weeks of instruction for all seventh grade boys in a general exploratory study of the future utilization of mechanical skills.

This new project is aimed toward developing a Trade and Industrial school, which will eventually go on through the high school level and also be used by adult vocational training classes.

W. H. DeShazo, superintendent of secondary instruction pointed out.

"We are just making a small beginning here, in order to determine the skill and interest of the students, and gauging our future course by their response, we will be able to provide the opportunity for all seventh grade youngsters to learn how to use tools."

"We plan a step by step development," he said, "to provide vocational guidance in the selection of a trade, based on a boy's greatest skill, response and interest."

## B. E. PURCELL CO.

ORLANDO — SANFORD

## Lyman New Gym All Set For Fall Term

The school year of 1961-62 promises to be a big year for

Lyman as the school will have the use of a brand new gymnasium and will begin its mass teaching experiment.

The new gym, complete with bleachers, baskets and other equipment will be ready Sept. 6 for the physical education classes and provide a first class floor for the Lyman basketball team.

The projected plan of mass teaching has now expanded to include three teachers, Bill Edwards, Delton Helms and J. R. Cole, each with a teachers aide to serve with each unit.

Classes utilizing the new system will be the Geography, History and Civics classes of the Seventh, Eighth and Ninth grades.

As many as 150 students at one time will be taught by use of an overhead movie projector, film strips and the accompanying paper supplies. The subjects of the film strips parallels the text of the books and special test grading methods will be used.

Aides assist the teachers in giving and grading tests, checking the large roll and preparation of materials as well as helping in the presentation of the program.

The principal of Lyman School is Ralph Diggs and assistant principal is C. M. Harp. Louise Stackpole is director of the new Distributive Education program and James Bowers is the full time guidance counselor.

Other teachers are Edwin Gratton, Michael Fisher, Dorothea Benson, Virginia Hawkins, Aldia Milwee, Ray Pharr, Fletcher Coe-krell, Barker Houghton, Ramon Delgado, Virginia McEachin.

## Boys' Shoes Gain Stylish Footing

For the rough and tumble age group of school-going lads, leather shoes are not only scuff-resistant, but comfortable and durable, says Shoe Fashion Service of Leather Industries of America.

The moccasin, favored by boys of all ages, has been restyled this year to serve equally well at school or at play. The easy comfort of the all-leather "loafer" moccasin is now available in many slip-on and tie shoes that are appropriate for the dressiest occasions.

As for color—the moccasin is worn in anything from a camel—a new light natural tan—through a soft autumn field brown. Black is handsome in a high gloss smooth leather or in a waxed, pebbled grain.

Boys will go for the new ankle-high boots of soft brushed leather. Nothing like the old-fashioned clodhopper boots, today's rugged, leather chukkas take a youngster to play or school with equal ease and style.

## School Safety Patrols Ready For New Term

More than a half-million boys and girls across the nation will serve their fellow students as members of School Safety Patrol groups, reports the American Automobile Association.

Membership in this important safety-minded group is constantly increasing. Schools in every state in the union, totaling about 35,000 schools, are represented.

While the growing enrollment in School Safety Patrols is encouraging, the figure still falls short of the 1,770,000 goal believed necessary for a complete "negative Patrol" program. This is based on a quota of one Patrol member on duty for every 25 students.

"The value of the School Safety Patrols has been demonstrated beyond question," say AAA officials. "Since 1922, the first year of the Patrols, the traffic death rate of school-age children has been cut in half, while the death rate of other age groups has just about doubled. All the more reason that those communities with inadequate Patrol programs should act now."

Despite the fact that School Safety Patrol members, identified by the white Sam Browns belt each one wears are a familiar sight to practically every American, there are some folks who even at this late date are not familiar with how the Patrols function.

To begin with, School Safety Patrol members are never supposed to attempt to direct traffic. That is the function of the police who are trained for it. Furthermore it would be considered dangerous for the youngster to undertake direction of traffic.

Their principal purpose, under the Standard Rules of Operation of School Safety Patrols, published by the AAA in cooperation with school and police officials, is to make sure boys and girls stay on the safe side of the curb at regular crossings, until traffic makes way for them.

Growth of the Women's Crossing

guards, which enlists adult traffic safety workers from among mothers of school children, has been another fine contribution to their safety. More and more frequently the School Safety Patrols are now operating in cooperation with the Crossing Guards.

MISS NANCY CASH

### Southside Gets New Teacher

Miss Nancy Cash, daughter of Mr. and Mrs. Woodrow Cash of Sanford, will teach the second grade at the Southside school this year.

Miss Cash graduated Cum Laude with a Bachelor of Music Degree and the highest grades in the School of Music at Florida State University at ceremonies in May of this year.

She attended Seminole High School and was valedictorian of the class of 1957. While in high school she was active in Glee Club, President of the Tri-Hi-Y, a member of the Student Council, and of the Honor Society.

At Florida State Miss Cash was a member of Delta Zeta, Sigma Alpha Iota, Pi Kappa Lambda and Phi Kappa Phi.

# Little Red School House Ways Sure Have Changed

J. D. STONE

## Geneva Man Gets Teaching Post

J. D. Stone of Geneva, who graduated from Seminole High School four years ago, has been employed there this year to teach in the English Department.

Stone, son of Mr. and Mrs. John D. Stone of Geneva, received a Bachelor of Science degree in education from Florida State University in May of this year and applied for a teaching position in Seminole County.

## New Fabrics For Classroom

In this year's line-up of school clothes you'll find many new fiber and fabric names. Most shoppers are now familiar with the original synthetic fibers—nylon, orlon and dacron.

But many more have joined the lineup of man-made fibers. There is, for instance, a fiber called veta, used in pile fabrics for coats, collars and linings as well as in smooth-textured dress fabrics. It is warm but light, resists moths and mildew, sometimes looks like fur and sometimes like shear wool.

"Abomination," the teacher would pronounce slowly, nodding at the first pupil in line in the little red schoolhouse.

The student, circa 1900, would take a deep breath, because he was expected to recite the following: "A, there's your a; b-o-m, there's your om; i-n, in, there's your in, there's your ina, there's your abomina; t-i-o-n, there's your tion, there's your ation, there's your ination, there's your abomination, there's your abominaton."

Spelling bees today are fun, and you can see national contestants smiling happily on television and in the newspapers, but in those days, spelling was serious business.

The group whose turn it was to spell was called up before the teacher and told to "take the crack" — or line up as evenly as possible along the wooden floor board directly in front of the teacher's desk. The teacher pronounced the words—usually from Webster's old, blue-backed spelling book. Spelling just one word took quite a while, and no wonder!

Just getting to that one room, one teacher, school was also a chore. It was either walk or go via horseback. There were not school buses in those days, and almost any lumpy driver today has a more efficient heater than the horse drawn wagons that were used on especially snowy days.

Many of today's schools are magnificently equipped plants where studying is done in style, but the little red school house (more often brown than red) was a box-like wooden structure, with a hand water pump, woodshed behind the school and outhouses placed discreetly in the background. Heat was provided by a pot-bellied stove that was surrounded by desks and benches.

The clothing worn to school over half a century ago was more utilitarian than interesting. In 1902, when James Cash Penney opened his first dry goods store in Kemerer, Wyoming, he outfitted school girls in simple, high-necked, long sleeved dresses, or sold yard goods to those mothers able to make the one or two dresses considered plenty for a school wardrobe.

Mr. Penney was not privileged to hear then the heated discussions many salespeople hear today about whether or not kilts or bermudas should be allowed on campus. But, according to C. T. Robinson, Penney manager here, today's children are going back to school better dressed than ever before.

Actually, there was little heated discussion permitted about anything for pupils in those days. Teachers were expected to be—

and usually were—strict disciplinarians, and drill and more drill was the rule of the day.

The one room school house was divided into many grades, and a student was in different grades in different subjects, depending on his proficiency.

And while that spelling bee previously described was going on, another part of the class would be learning all about the state capitals by cheating: State of Maine, Augusta, on the

Kennebec River.

New Hampshire, Concord, on the Merrimac River.

Massachusetts, Boston, on the Boston Harbor.

Today, instead of memorizing simple facts of local geography students concern themselves with important world events. "Hygiene" has been substituted for a course called "Bone, Muscle & Nerve Physiology," and community civics is considered more important than learning the Constitu-

tion by heart.

Heard any complaints lately about a difficult Math course? Well, how do you like this simple arithmetic problem that faced earlier scholars:

When first the Marriage Knot was ty'd  
Between my wife and me:  
My age was to that of my bride,  
As three times three to three:  
But now when ten and half ten years,  
We man and wife have been:

Her age to mine exactly bear  
As eight is to sixteen  
Now tell, I pray, from  
What I've said,  
What were our ages when we wed?

If you get the answer to that one, and a few others like it, you might be entitled to a "Reward of Merit," which stated:

"The love of praise was planted to protect and propagate the glories of the mind. This certifies that John Jones, by his good

behavior, diligence and progress in study, is entitled to the increased affection of his friends and teachers in those days.

**Color**

Coordination is the key to young junior sportswear again this fall; with top, tunics, skirts, slacks and jumpers all cut from the same cloth, not to mention a smattering of knickers, knee-length pants and culottes.

# Training Course For Youngsters Set

Distributive Education, designed for junior and senior high school students who are interested in training for sales, distribution or service type occupations for later careers in these fields, has been incorporated for the first time in the Seminole County Educational Program.

Mrs. Louise Stackpole will serve as coordinator for the training courses to be offered at Lyman High where 20 students already have registered for the new program.

This summer she attended classes at Florida State University, majoring in vocational education, where she earned her Masters. She also took two special courses designed for training for working in Distributive Education.

Earlier training was received at the University of Maine where she received her BS degree in Home Economics. In the business fields,

she has served as a fashion news correspondent for Mademoiselle Magazine, worked with the Lennen and Newell Advt. Agency in New York City and has 14 years experience in radio and TV advertising. More recently she has been associated with the Selective Personnel Employment Agency in Orlando and for more than a year before going to FSU this summer, she was manager of the Winter Park branch office.

In explaining the DE program, Mrs. Stackpole advised that students, who should average a "C" or better in their grades in order to participate, will attend regular classes during the morning and will devote their afternoon hours to "on the job" training.

Participants also will get DE classroom instruction in which she, as coordinator, will incorporate use of material from the employers in order to follow the exact phases and progress of the trainees

as they become more experienced in their jobs.

Her afternoons will be spent in the field when visits to the training agencies and supervisors will be made to check on the student's progress. Throughout the program she also will be working with an

advisory lay-committee composed of men from the communities in which the trainees will work.

Area firms already signed for participation in DE include Dynatronics, Railway Express Co., Publix Super Market, Harcar, Standard Oil Service, Winter Park Federal Savings and Loan Assn., Winn-Dixie at Maitland, Larry's Fern Park Automotive Service, Shell Service and Walker's Amoco Service.

Although designed perhaps more especially for those students who are not planning on college, Mrs. Stackpole pointed out that the program will be equally beneficial to college-minded boys and girls who plan on part-time jobs to help finance their education since, even here, she says, special skills acquired during the high school years are more and more in demand.

The DE coordinator comes to the county educational system well qualified for working with young people, for she is the mother of three teenagers. Her husband, Phillip, is district manager of Blue Cross and Blue Shield of Florida.

MRS. LOUISE STACKPOLE

## New Hooper Academy To Accomodate 300

The new Hooper Elementary School will accommodate in excess of 300 Negro children in the Sanford area when it opens its new doors on September 5th.

There will be 11 classrooms ready to provide housing for the first six grades.

Principal will be Lucian Newbanks, who is the principal of the old school and all the teachers of the old school will also transfer over to the new building.

The school is of contemporary design, composed of 22 buildings, joined together with inside corridors.

There is 22,000 square feet of space in the rambling yet compact building which includes the 11 classrooms, the cafeteria, kitchen, administrative suite, teachers lounge, music room, library infirmary and equipment and boiler room.

The concrete block walls are gray on the outside with a white aluminum roof and accented with an aqua-blue fascia border.

The floors are covered with asphalt tile, except for the terrazzo floors in the kitchen. Walls are gray with green chalk boards in the classrooms and each room is lighted by four sky-lights of blue corrugated plastic and has its own exhaust fan.

The combination cafeteria-auditorium has not yet been completed, but will be ready for use later in the fall. The same staff that ran the old Hooper school lunchroom will transfer to the new school.

## Plan Cheery Room For Studying

Whether it's away to college or day-hopping from home to school, a bedroom is usually an all purpose room for a girl—a place to sleep; entertain; and study.

If she's the tailored type, a girl will undoubtedly like her bedspread crisp and textured and a window treatment with a casual look. If she's the feminine type, she'll veer towards a gay floral or a light, airy window treatment and a bedspread design of a more romantic nature.

No longer is it a question of beauty versus practicality. Today's fabrics take work, worry and wear out of housekeeping—are easy to live with. Diversified in color, mood and design, the collection contains a bed covering to fit every need.

## New Fads

Gals will be wearing some of the shortest skirts with some of the "longest" tops . . . capes and ponchos in oh-so gay colors are going to top everything, especially skinny, skinny pants . . . very-low-waisted jumpers are "way out" with the young set—and loads and loads of stretch pants in all kinds of colors and patterns are going places this fall.

CLYDE HOLDER

## Oviedo Gets New Principal

Clyde Holder, new principal of Oviedo school is a native of Texas who had visited Florida many times and finally came here to make his home.

Both Mr. and Mrs. Holder attended Paris Junior College in Texas and graduated from East State College at Commerce, Texas.

Holder has a B.S. and an M.S. degree and has taken his graduate work at the University of Colorado and Southern Methodist University at Dallas.

He was formerly principal of schools at Grand Saline, Orange and Marshall, Texas and has experience in elementary school and junior and senior high school.

The new Oviedo principal enjoys playing golf and lists his favorite hobby as painting. He works mainly in charcoal and oils. He has already met and made many friends in the county and is looking forward to the beginning of school.

## Wash And Wear An Easy Care

Simplicity is for little girls—at least that's the fashion-news for back to school.

With this season's styling emphasis on simple lines—the gored or flared skirt, the box pleats with loose overblouse, and, of course, the always-popular gathers, keeping outfits neat and fresh is easier than ever.

Combine this simple styling with wash- and wear fabrics, clothes all but "launder themselves."

## 'Dressed Right Look' Rates Big

America's 40,000,000 students in the fall of 1961 will record an all-time high in neat, well-dressed appearance.

A nation-wide school survey points the way in revealing that upwards of 60 per cent of all high schools have student-led "dress right" programs, the American Institute of Men's and Boys' Wear reports.

Teenagers in particular are running counter to past "sloppy" form by imposing these codes of good grooming and proper dress on themselves and sticking to them throughout the school year.

The dress-right movement, launched by Buffalo, N. Y. high school students five years ago, has spread in various forms to secondary-school campuses in every state. It has also taken firm hold in private schools, universities and colleges. Its effect is even being felt among young try in elementary schools.

Scholastic Magazine, sponsoring the first nationwide study of its kind, found that in the 600 high schools where students are systematically involved in upgrading their appearance, study habits are likewise on the upswing.

Some 98 per cent of teachers and school officials in the poll agreed that better dress has led to better behavior. They also predict that the new pride in appearance will be a big plus factor for students when they move into the job market upon graduation.

Hailing the trend, the teachers further pointed out that students themselves are leading the way, receiving only quiet encouragement and counsel from their elders. The AIMBW offers free help to the student groups with how-to-dress-right film strips, fashion show scripts, hint-packed handbooks, charts and other aids.

Underlining what the teachers have to say, students at a typical high school reported in another poll they prefer to dress right and present a neat appearance. The

111 boys and girls at Fort Hamilton High School, Brooklyn, N. Y., in this survey listed three big reasons why:

—They get along better with other people, including their dates;  
—Better dress tends to promote better study habits and higher grades; and,  
—Dressing right is a big help in getting part-time and summer-time jobs.

By a score of 80 per cent, these high schoolers believed good grooming and "right" dress—as a regular habit—will prove to be an important assist to them when seeking good permanent jobs and rapid career advancement.

Educators and parents have been joined by law enforcement officers and behavior experts in welcoming the new dress-right trend among the nation's young people.

## LOOK! High Risers for Little Girls!

Slipons styled just like big sister's. High at the vamp, with lots of newness in shape and detail. Soft and comfy heel to toe—Billiken fashion!

STACKS AND STACKS of new books are unloaded and unpacked by these three boys, as the beginning of school draws near and over 13,000 students troop back to classrooms to begin this year's studies. (Herald Photo)

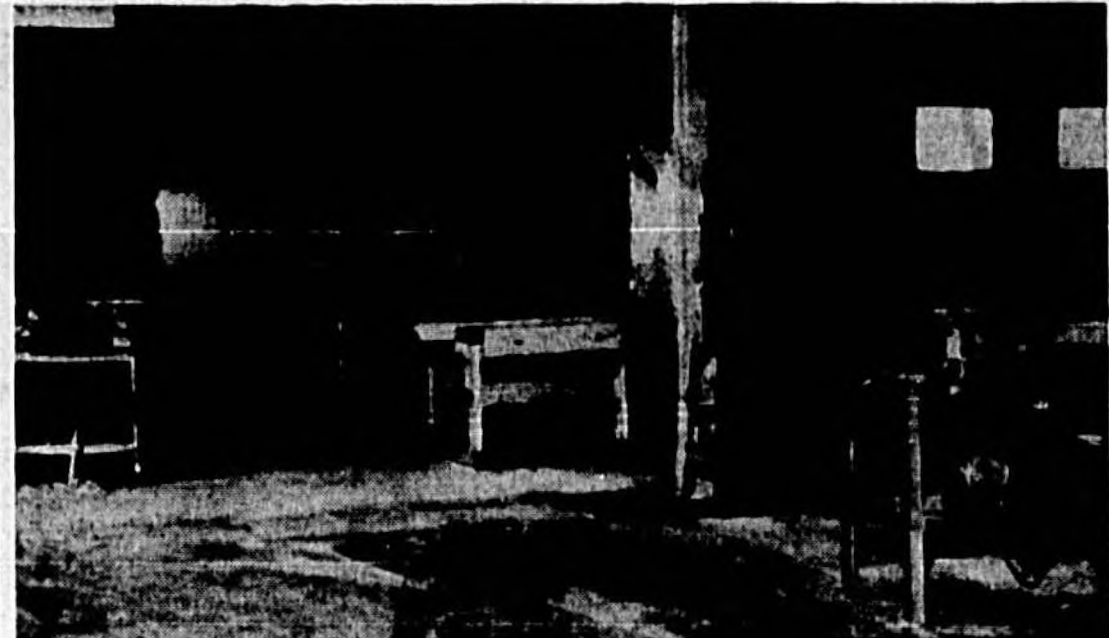

### Hosiery Care Hints For Girls

This season, good grooming is coming in for some studious attention from teenagers!

Topping the list are common sense rules for stocking care and wear—for classroom and social activities.

Grace Jones, advisor to the Hanes Company, world's largest manufacturer of seamless stockings, offers some important tips:

- Always keep hands, feet and shoe lining smooth—to avoid snags and runs. If hands are rough, wear gloves when putting stockings on or taking them off.
- Be seated when putting on stockings; gently crumple the stocking down to its full length before putting your foot in—then slowly draw the stocking up the length of the leg. Always fasten garters in the middle of the welt. Never tug at your stockings to adjust them.
- If you wear seamless stockings, you save extra wear on your hosiery by not having to straighten any seams.
- After each wearing, be sure to dunk your stockings in mild suds. Rinse, squeeze out gently and hang to dry over a smooth rod or towel.
- Always store your hosiery in a box, case or cellophane envelope—to eliminate accidental snags or rips.
- Make it a habit to buy three pairs alike thus having a bonus pair at all times.
- Plan a stocking wardrobe.

LYMAN HIGH'S Industrial Arts Workshop is getting new equipment daily in preparation for school's opening. The course, which is a completely new program for the school this year, will be offered to boys of the seventh and eighth grades. (Herald Photo)

### New Program Offered At Lyman

One of the several completely new programs to be offered at Lyman High School this year is the Industrial Arts Course.

Millard Lerch, coming to Lyman from the Maitland Junior High where he taught last year, will be in charge of the program which is being offered to boys of the seventh and eighth grades.

According to Principal Ralph Diggs, these students are getting first opportunity since the program is on an exploratory basis and school officials want to get their reactions before enlarging it on up through the higher grades.

To be offered in 12-week introductory periods handling 120 students, the abbreviated course will teach the identification and use of common-type hand tools in lecture and machine shop classes.

### Good Sweaters Girl's Best Friend

Diamonds used to be, but now sweaters are a gal's best friend!

This season there's a sweater for every occasion, for every taste, for everyone, for each day of the year—and then some!

The sweater story is in print, in trims, lengths, styling stitches, etc.—in a word NEW.

Printed Shetland-type sweaters, generally following the more classic lines, are set for school. They're being shown in dressmaker, hooded, cardigan and pullover styles.

## Gay, Relaxed Look In Pre-Teen Fashions

The two-piece look is influencing fall fashions everywhere, even among the sub-teen set. Many back-to-school dresses are either two-piece or belted low for the same effect, creating a line that is both relaxed and young.

Some dress styles are dispensing entirely with the waistline for even greater freedom. Most have low-flare or low-pleated skirts with the accent on mobility.

Jumpers are also taking on the low-waisted look, with pleats or flare often starting at the hip. Popular fabrics for back-to-school are home-spun cotton, slubbed synthetics, cotton ticking, corduroy, denim, cotton knit and wool or wool blends. Colors are bright . . . and plaid, a perennial favorite, is very much in view again.

Coats for back-to-school are designed to go everywhere this fall, from everyday school to Sunday school. "Suburban" type fabrics such as cotton sueded cloth, laminated poplin, twill and corduroy, give the fall coat a new sportswear look well-suited to the suburban's casual way of life.

Fake fur (and the real thing too), is seen frequently on collars or fashioning the coat itself.

In raincoats, fabrics run the gamut from pile-lined silk to poplin and corduroy. Styles include the classic raglan sleeve topcoats, belted trench-coats and cape-collars. The exciting inside story is one of bright cotton novelty prints, striped taffeta or pile linings. Some pile linings zip-out for lighter-weight wear.

Jackets and bulky sweaters feature hoods and pile linings for nippy days, follow the new sportswear look trend. In line with the growing enthusiasm among youngsters for skiing, stores are showing parkas and bulky sweaters in bright patterns and colors for the ski set, to be paired with stretch nylon ski pants.

The ski look carries over into other fall sweaters by virtue of Scandinavian trimming, patterns, or jacquard weaves. Sweater interest also centers on stand-away collars, squared-away shaping, extra length and bright patterns.

Blouses continue to favor the smaller-collared look, with the new small "gentry" collar attracting interest.

Away from the classroom, blouses and sweaters are going over long, slinky, and brightly colored pants . . . many of which come with coordinated tops for a smart ensemble look.

## New Teacher Set For Oviedo

Mrs. Louise Gore who will be a new teacher in the fourth grade at Oviedo this year has lived in the county for 30 years. Mrs. Gore has just completed the earning of her degree in Ele-

mentary Education at Rollins College and has interned in the fourth grade with Mrs. Katherine Teague last year.

She is the mother of two daughters, Judy and Beth. Judy graduated from Oviedo High School with the class of 1961 and was valedictorian of her class. Beth is in elementary school.

Mrs. Gore's husband, Milton, is employed at Neison and Co. and both husband and wife are active in the First Baptist Church. Mrs. Gore is a former president of the Oviedo P-T.A.

MRS. LOUISE GORE

## Smart Luggage Light, Bright

With six of every ten students attending an out-of-town college this year, one of the most important purchases a freshman makes, is his luggage. Lightweight leather luggage that takes hard knocks without showing scuffs, scars or scratches is a good investment for the next four years—and beyond.

A bag of rugged, mellow luggage is traditionally a sign of quality on the campus, notes Leather Industries of America. This year there are new bags made of a smooth, waxy self-renewable leather. Processed in new chemical waxes, the leather erases surface scars. Waxes in the leather come into the scratch mark, filling and coloring it in a matter of days.

## Fashion Rates Leather Tops

Back-to-school time is leather jacket time. Neatly styled and brightly colored to match fall foliage, smooth grained and suede leather coats and jackets come in every length to please individual tastes. Durable, easy-to-clean and styled to add versatility to the wardrobe, leather coats and jackets are a "best buy" in school apparel.

In new smooth and sueded tan-nages, leather jackets are lightweight though wind and weather-proof, according to Leather Industries of America. In late fall and winter, a wool shearing lined leather coat or jacket is warm enough for all outdoors.

In length, the leather coats and jackets range all the way from a traditional windbreaker that ends at the waist to a well-over-the-hip car coat that has swept the high school crowd. One very popular school garment this fall is the

tailored "Eisenhower" styled smooth-leather jacket.

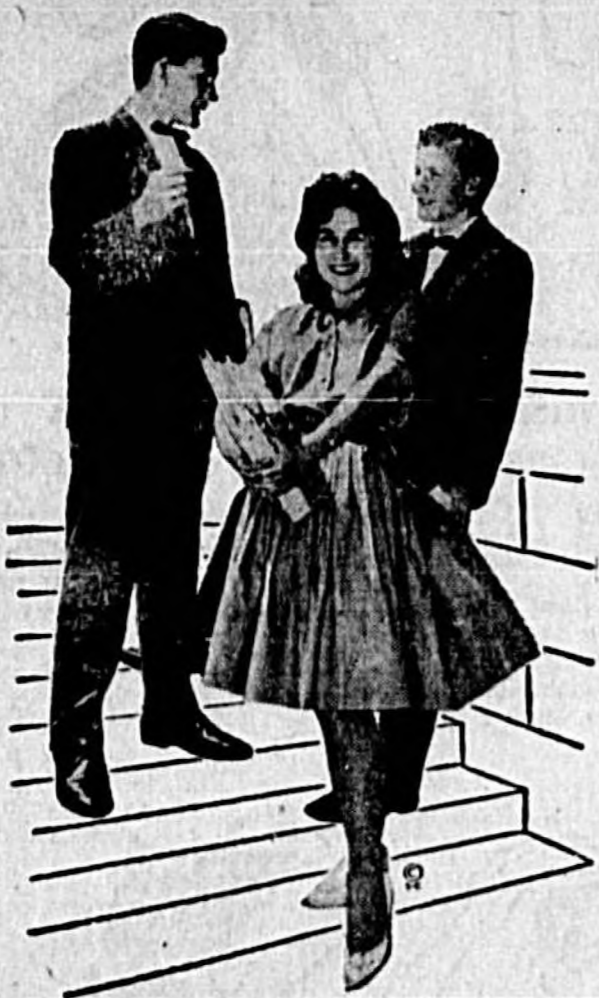

For boys and young men knit cuffs, collars and under-the-arm insets offer freedom of movement. Across the shoulder yokes, slash pockets and toggle closings add male fashion interest.

High colors mark girls' smooth luster and suede leather coats this season. Warm greens, rich browns, sky blues and crimson share honors with creamier tans and bones for young girls and high school co-eds.

Shearling lined, belted, double-breasted coats are a great favorite with all the girls, as are zip-out, three-quarter length coats. Soil-resistant suede leather jackets stay dainty all day long.

The soft feel and look of suede leather makes it a perfect companion for tweed, wool and twill skirts and dresses seen on the nation's campuses this year.

## Go Back To School!

Prepare NOW For Life In This Age of Miracles!

HIGH-SCHOOLERS, START PLANNING FOR YOUR COLLEGE EDUCATION AND FUTURE CAREER NOW!

Engineer...physicist...chemist? What are your plans for taking your place in this new world of tomorrow?
