Apollation Shows

Not Expenses
Part Of \$200,000

And Beidleman
Part Expenditure
About \$800,000

WASHINGTON, July 9. (AP)—Expenditures in the Pennsylvania Republican primary disclosed before the campaign funds committee \$2,793,583. Includes \$1,804,979 for Pepper-Fisher coalition; \$800,114 for the Beidleman ticket and for Governor Pinehut in Pennsylvania fight for the nomination.

The figures in a testimony before the committee reported to the state of Pennsylvania today by accountants of the committee show expenditures:

Committee \$218,866.
Committee unpaid bills \$1,430,757.
Committees \$21,729.
Expenditures by the Pepper-Fisher group \$88,487.
Beidleman: \$48,000.
Paid by Vire-Beidleman group \$48,000.
Expenditure by eighteen counting \$18,359.
Strasburger modification \$16,506.
Expenditures by Will Vire \$71,436.
Expenditures by Beidleman \$106,544.
Expenditures by eleven Beidleman committees reporting \$36,035.
Bills reported \$96,035.
\$800,114.
Fisher: \$1,000.
Pennsylvania Republicanization \$167,192.
Central campaign committee \$20,007.
Pennsylvania Pepper committee \$958.
Personal expenditures \$2,000.
Pennsylvania committee \$2,737.
Expenditures of counties reported \$23.
Bills and unpaid notes \$1,804,978.

Walton Body Work For Laws Prevent Seining

of the statutes were Sheriff C. M. Hand as the difficulty his death in enforcing the conservation laws of Seminoles. The sheriff was present in the problem to the Walton League of Sanford, meeting today.

World Flyer

Commander Francesco de Pinedo, famous Italian aviator, will start a 44,800 mile flight around the world in August. In the course of it he will try to fly clear across the Pacific ocean, a non-stop flight of 2500 miles.

SANFORD GROUP OF "40 AND 8" TO ATTEND MEETING

Shriners of American Legion Will Visit Tarpon Springs Convention In Replica Of Famous French Box Cars

A replica of the famous French box car, which held forty men and eight horses, will be built by the local "Forty and Eight" section of the American Legion in Sanford. Members of the Sanford organization will travel from Sanford to the convention at Tarpon Springs this Fall in the box car, according to present plans.

H. C. Washburn, who was elected correspondent of the local section of the Forty and Eight on Tuesday night, is charged with the construction of the box car and engine to haul it. The outfit will be made from heavy weight material so that all the 18 members of the Sanford outfit can ride it without putting undue strain on the "locomotive" which will be made with a Ford chassis and an action boiler and engineer's cab.

Coolidge And His Cabinet Differ On Time Of Vacations

WASHINGTON, July 9.—(AP)—President Coolidge and his cabinet differ on the subject of vacations. While the chief executive already is enjoying a holiday, the majority of his cabinet officers either prefer late vacations or have not yet determined on dates for them.

Secretary Mellon is most like his chief in his vacation taste. This year, for he expects to sail the latter part of next week for a trip to Europe. His trip will take him to Rome.

Secretary Kellogg expects to be detained in Washington probably until September.

Wrestling with the radio situation and with creation of a new unit in his department to care for aviation will keep Secretary Hoover in Washington until late summer. He then may take a Pacific trip.

Attorney General Sugg will go to his home in Loudon, Va., the latter part of the month, spending part of his time fishing.

STIRRING PLEA FOR DURKIN IS MADE AT TRIAL

Eugene McGarry, Chief Counsel For Noted Bandit, Begins Jury Address By Asking Members To Bow In Prayer

State's Case Built On Theory, He Says
Prosecutor Demands Conviction; Compares Act To Shanahan Shooting In Chicago

CHICAGO, July 9. (AP)—Dramatic in his delivery and eloquent in his appeal, Eugene L. McGarry, chief counsel for Martin J. Durkin, assumed the task late Thursday of saving his client from the noose. The jury, made up mostly of young men, was aroused from apathy by the first sentence.

After a few introductory remarks, the attorney said: "Let us bow our heads in prayer." For a moment there was utter silence in the crowded court house. After the pause of one minute the defense attorney continued: "I ask now, my the out-of-pocket, misjudged, overzealous Eddie Shanahan rest in peace. I know Eddie. He was my friend for 13 years. I admired him."

For an hour McGarry brushed aside the structure built by the state, "not on evidence but on theory," he stated. Both the state and defense have agreed the issue is "neck or nothing." First degree murder or justifiable homicide.

"This state's chief prosecutor, Mr. Quinn, has argued six hours on the same ground until the jury appeared dazed. They seemed listless until Romano argued that it would be a serious miscarriage of justice if they did not bring in a verdict for murder in the first degree. He compared it to the Shanahan shooting."

Roland Libonati, associate counsel for Durkin, made the first plea for the defense. Over strong objections of the state he read this from a decision of the attorney general of the United States relating to the power of federal agents to make arrests:

"A federal agent has the power to serve a warrant." Backed by quotations from federal rules and the law, McGarry made this clear later. "The man who killed Shanahan," said he, "is Detective Michael Naughton. He was the man sent to arrest Durkin and so timorous was he that he took with him three additional policemen and then, not satisfied, he sent for Shanahan. But when the time came to arrest Durkin he and his policemen were further reinforced. He had given orders to kill Durkin on sight."

Naughton was the man who later set the trap in the Austin flat to kill Durkin, but instead Naughton killed Lloyd Austin, and Detective Gray also was killed in the fusillade.

Justification was the plea of McGarry. "The state has contended Durkin's story of Shanahan coming in a suit down at the garage and turning up to Durkin gun in hand," said McGarry. "Durkin did not see him. His first knowledge of Shanahan's presence was a poke with the gun in the side and the words, 'stick 'em up.' "To convict of murder there must be premeditation and malice," continued McGarry. "Was there any premeditation here. The evidence for both state and defense shows that less than a half minute after they met at the shooting began, and gentlemen, the man with the gun in his hand shot first. Naughton told them all to take no chances—to shoot the minute they got the drop on their man. Where was the malice? Durkin did not know Shanahan, never had met him until that moment. There was no malice."

Fight To Control World's Meat Supply Waged Between English, American Packers

LONDON, July 9.—(AP)—A war is raging between British and American packers for control of the world's meat supply. In the opinion of the London Daily Mail, "The paper declares that the fight for the London market is merely the prelude to a greater trade war in which the interest of the entire British Empire may be at stake. While the United States now is capable of producing its own meat supply, within a few years it will be compelled to import because of the rapid growth of the population. Australian and Canadian exports will be curtailed for similar reasons and Argentina will become in consequence, the world's meat production center."

The Daily Mail believes that if the London fight is won by the American packers they will have more than half won the domination of the world's meat markets, and then "Great Britain will be at the mercy of a nation which will demand the very highest prices for what it consents to supply."

Advices from Buenos Aires are that a price-cutting war between American and British packers in Argentina has been going on for more than a year, and is being waged with increasing bitterness. Some friction over the apportionment of ocean tonnage for beef shipments to England is reported. Packers are understood to have discontinued the exchange of weekly reports on the killings and exports.

FIRST SECTION OF WHITE WAY IS CONNECTED UP

City Manager Williams Claims Entire System Will Be In Operation Within 90 Days; City Hall Section Finished

Lights will be turned on in part of Sanford's White Way system early next week, according to the word of City Manager W. H. Williams. The new lighting system is already working in front of the City Hall, and the posts are ready for erection in the business district.

"Within the next 80 days all the street lights will be turned on," City Manager Williams said Friday. "In the meantime, as fast as new circuits are installed by the electric works the posts will be erected and the lights turned on."

The telephone and telegraph poles in the business district of Sanford are being removed, with a view to widening the streets in the business section as far out as the railroad station. Underground wires will be used through the heart of the city. Parks along the sidewalks will be cut off, in some instances as much as five feet on either side, making room for the ever increasing automobile traffic on Sanford's thoroughfares.

The Lakeview boulevard will be equipped with lights as sections of the street are finished. Posts are already erected from Oak to Sanford Avenue and in front of the Forest Lake hotel.

Other streets to be lighted are Commercial Street from Park to Sanford Avenue; First Street from the new hotel to Oak; Second Street from Sanford to Oak; Ninth Street from Park Avenue to the depot; Oak, Magnolia and Palmolive Avenues to Fifth Street; Park Avenue to Ninth; and Sanford to Fourteenth.

Pioneer Sanford Resident Succumbs After Brief Illness

Bernard Peters, 83 year old pioneer Sanford resident, died at his home at 2300 Mellonville Avenue shortly after 5:30 o'clock yesterday afternoon following an illness of several days.

Mr. Peters was born in Germany in 1843, coming to America in 1863 and settling in the Sanford section in 1884. He was a skilled cabinet maker and wood worker, and was well known in Seminole county business circles.

Mr. Peters was a member of the Lutheran church and was in his youth active in lodge work. He is survived by a son and a daughter, E. H. Peters and Mrs. Henrietta Edwards, both of Sanford.

FLEET HEAD IS DISMISSED BY SHIPPING BODY

Resignation Placed On File Upon Taking Office Is Accepted At Meeting Of U.S. Board Members On Thursday

Disagreement Over Ship Sale Blamed
Ousted Head Shares Fate Of Predecessor, Leigh Palmer; Dalton Is Chosen New Head

WASHINGTON, July 9.—(AP)—Once more the Shipping Board has bluntly dismissed a president of the Emergency Fleet Corporation. Capt. Elmer E. Crowley, successor of Rear Admiral Leigh S. Palmer, has shared his fate through identical procedure, the acceptance of a resignation placed on file upon taking office. Brigadier General A. C. Dalton is the new head of the corporation.

Acceptance of Crowley's resignation confirmed rumors that have been circulating since he disagreed with the board over the sale of the fleet. Admiral Crowley had a line of President-type vessels operating out of Seattle to the Dollar interests of San Francisco. News Comes From Coolidge Camp

First news of the action came from the "summer executive offices" in the Adirondacks, where President Coolidge is spending his vacation. No explanation of the action was given by Chairman O'Connor, who led the fight for acceptance of the Dollar bid for the Seattle line. Commissioner Walsh seconded his motion to accept the resignation, and Commissioners Teller and Hill voted with them.

Vice-Chairman Plummer and Commissioner Benson voted in the negative and sought to get a statement of the reason for the change from O'Connor. Plummer and Admiral Benson are the only two members remaining on the board who voted last October for the ousting of Palmer, after he had been stripped of his powers over the government fleet conferred upon him at the instance of President Coolidge.

Asked To Quit But Refused
Bert E. Haney of Oregon, and Frederick L. Thompson of Alabama, who voted with Plummer and Benson, since have resigned. Haney had taken a leading part in the fight against Palmer and against separation of the functions of the board and the corporation as advocated by President Coolidge and Secretary Hoover.

He was serving under a recess appointment and shortly before the dismissal of Palmer was asked by President Coolidge to resign, but refused. He was active in the reorganization of the corporation under Crowley and did not resign until three months after the last session of congress began. Thompson quit the board shortly after the Palmer vote, leading a statement taking issue with the president's policies.

General Dalton's war record and business and political references favored his appointment. He was serving as assistant quartermaster-general of the army when he was placed on the retired list yesterday at his own request to permit him to accept the post.

Five-Day Reprieve Is Given Youthful Slayer Upon Plea Of Sister

LINCOLN, Neb., July 9. (AP)—The determined fight of a 16-year-old girl to save her brother from the electric chair resulted today in a five-day reprieve for Donald Ringer, 10, sentenced to death for murder.

Accused

Seven times a bride, and once tried and acquitted on a charge of murdering one of her husbands, Mrs. Georgia Brown of Girard, Kas., is being held on a charge of murdering her seventh husband, James Gilbert Brown. Brown was shot with the same revolver that killed her fourth husband, Fred Morton, four years ago. She says he shot himself accidentally while drunk.

NO PESTS FOUND IN BULB FIELDS AROUND SANFORD

Entomologist Announces That Investigation Fails To Disclose Presence Of Two Flies Injurious To Crops

On the heels of the announcement by the Sanford Farmers Exchange that the pre-cooling plant at Beardsall will be used for the treating, packing and shipping of flower bulbs during the summer months, comes the information from the government entomological experiment station that the two species of bulb flies, detrimental to narcissus, amarullus and gladiolus bulbs are among those absent from the Sanford district.

Last year a specialist in bulb flies was here from Washington, and after spending much time in the fields in and around Sanford, reported that not a single bulb had been uncovered.

The experimental laboratory—the small structure on the lake side of the court house which has been the object of considerable local curiosity—is filled with specimens of the celery type. Entomologist J. A. Reeves is studying the entire life of the celery type, with the view of finding some means of combating it.

Spraying has been found impractical. Mr. Reeves said. The pest seems to fatten on calcium arsenate, the usual spraying poison. Paris green has been found deadly, but the habit of the pest is to tie the leaves—or roll itself into them—or get into the stalk and in either place he is safe from the poison from the spray.

All Past Records Broken By Congress In Passage Of Bills

WASHINGTON, July 9. (AP)—The production of new laws gained momentum during the recent session of Congress, with more measures introduced and a greater number passed by the House than any previous first session of a two-year period.

The 13,909 bills introduced in the House at the session which closed last week eclipses the record of the entire preceding Congress in which 12,772 were originated by representatives. A still greater increase is shown in the number of measures passed, 896, as compared with 393 for the preceding session.

VICTIMS OF SUBMARINE ARE REMOVED

Lieutenant Foster First Of Dead To Be Identified Following Recovery Today

Heroes' Burial Is Planned For Men
Positions Of Men Indicate They Stayed At Posts After Mishap

NEW YORK, July 9. (AP)—Lieut. Frederick D. Foster of Newlyn, N. J., was the first of the dead in the United States Submarine S-51 to be identified when the bodies were removed from the watered hulk today.

As the work of removing the bodies was started, it had not been determined just how many bodies of the 25 men unaccounted for since the submarine was rammed and sunk last September off Block Island, remained in the vessel.

All water had been pumped from the drydock in which the battered undersea boat lay this morning. When the collision occurred between the S-51 and the steamer City of Rome, 38 officers and crew were aboard the submarine. Twenty were saved and eight bodies later were recovered by divers.

The first body removed shortly after noon was taken to the navy hospital. It was announced at 2:45 o'clock that eight bodies had been recovered; that four more were known to be in the wreckage and that the torpedo room had not yet been entered.

Other bodies identified were George Henry Martin, cook, and Frank Lester Mirra, third-class fireman, whose addresses were made public.

NEW YORK, July 9. (AP)—Men of the submarine S-51 died heroes at their posts and will be given heroes' burials in Arlington cemetery at their homes.

"Every man was at his post and died a hero's death," says Lieutenant Commander Richard Ellsberg, who has charge of the salvaging of the craft from the bottom of the Atlantic ocean off Block Island, N. I., and the 150-mile tow to the Brooklyn navy yard.

Referring to divers' observations during the salvaging, Lieutenant Commander Ellsberg says: "The position of the men, many of whom were found with their hands on valves, indicates that at the very last moment they stuck to their posts. They were trying to get out of the sinking submarine. The valves were turned off, which suggests that they were watching the steamship."

Wilbur Will Be Present
Secretary of the Navy Wilbur sent word that he would be present today at the removal of the bodies from the wreck.

Commander Ellsberg said it would not be necessary to search through the side of the wrecked submarine with acetylene torches. Divers entered through the hatch on the bottom of the sea, he said, and they could enter the same way more easily now that the submarine is in drydock.

Dewey Kyle, engineer first-class, the last of the three survivors to leave the vessel after she was rammed, has come from the submarine base at New London to assist in the work of recovering his former mates' remains.

Tribute To Salvage Crew
WASHINGTON, July 9.—(AP)—High tribute to the courage of navy divers and others of the salvage crew which took the wrecked submarine S-51 safely to drydock at the New York navy yard was expressed in messages exchanged by Rear Admiral Parkes, commander of the New York division, and Secretary Wilbur.

The docking of the craft completed a salvage operation running credit on all the officers and men so long engaged in the work. The admiral wired to the secretary.

Construction Of Stations Begin

Construction of two new stations in Sanford will begin quickly as the \$150,000 work bonds voted for their erection are sold, according to City Manager Williams, who estimated the sale of all the bonds at approximately \$150,000.

The stations will be built on property which the city owns at Sanford Avenue and Tenth Street. The stations will be built on property which the city owns at Sanford Avenue and Tenth Street. The stations will be built on property which the city owns at Sanford Avenue and Tenth Street.

City Court Hears Few Cases Today

An unusually small number of cases was tried in police court Friday morning, and most of these were minor offenses by negroes. W. J. Hopkins, who was arrested by C. E. Williams, for being drunk and a trifle noisy, forfeited a \$10 bond. Other cases were Doby Washington, contempt of court, dismissed; Harry Hall, tortious dismissal; Idle Price, tortious dismissal; Atha Smith, and Cora Smith, arrested by C. E. Williams for disorderly conduct, dismissed.

West Florida May Furnish Presiding Officers In Both Bodies Of Next Legislature

TALLAHASSEE, Fla., July 9.—If present indications materialize, the third Congressional district of Florida, at the 1927 session of the legislature, will have presiding officers in both branches of the lawmaking body.

Of the two are finally given the gavel, the third Congressional district will offer its second speaker and third president of the Senate to the people of Florida.

The first Congressional district, according to a compilation of past speakers and senate presidents, made here, has had six presiding officers in the lower branch and eight in the upper; the second district, four speakers and seven presidents, and the fourth district, eleven speakers and four presidents.

Twenty-one sessions of the legislature have been held under the constitution of 1885, with 22 speakers.

The extra gavel wielder of the House was brought about through the election of S. Pasco as United States Senator, vacating his office at the sessions of 1887, G. H. Browne, of Orange county, was elected speaker to succeed him.

Following is a list of the speakers and senate presidents, since the 1885 session:

1885—Robert W. Davis, Clay county, speaker; M. H. Mabry, lieutenant governor, president of the Senate; J. G. Speer, Orange county, president pro tem.

1887—S. Pasco, Jefferson county, speaker, (elected U. S. Senator); G. H. Browne, speaker, Orange, after Pasco was elected U. S. Senator; M. H. Mabry, lieutenant governor, president of the Senate (the office of lieutenant governor ceased in this year).

1889—John L. Gaskins, Bradford county, speaker; J. B. Vall, Hillsborough, president of the Senate.

1891—John L. Gaskins, Bradford county, speaker; Jefferson B. Browne, Monroe, president of Senate.

1893—John B. Johnston, Pasco, speaker; W. H. Reynolds, Polk, president of Senate.

1895—W. S. Jennings, Hernando county, speaker; Fred T. Myers, Leon, president of Senate.

1897—Dannette H. Hays, Jefferson, speaker; Charles J. Perrenot, Santa Rosa, president of Senate.

1899—Robert McNamee, Lake, speaker; Frank Adams, Hamilton, president of Senate.

1901—John W. Watson, Osceola, speaker; Thomas Palmer, Hillsborough, president of Senate.

1903—Cromwell Gibbons, Duval, speaker; Frank Adams, Hamilton county, president of Senate.

1905—Albert V. Gilchrist, DeSoto, speaker; Park Trammell, Polk, president of Senate.

1907—Eugene S. Matthews, Bradford, speaker; W. Hunt Harris, Monroe, president of Senate.

1909—Lon L. Farris, Duval,

FLORIDA HIGH IN MILES OF ROADS BUILT LAST YEAR

State Stands Twenty-Sixth In Forty-Eight, Having 218 Miles Constructed In 1925 To Bring Total To 2,194.7

TALLAHASSEE, Fla., July 9.—(AP)—Florida stood twenty-sixth among the 48 states of the Union in surfaced mileage constructed during 1925 in the state highway system, according to statistics sent out by the United States Department of Agriculture.

The statistics disclose the total construction of the state highways for 1925, that existing at the end of that year, and the mileage of the state systems.

During 1925, Florida completed 218.4 miles of surfacing in its system, bringing the total of such construction at the end of the past year, to 2,194.7.

The end of 1925, the statistics show, found Florida about at the halfway mark in its state system surfacing as a total of 4,450 miles must be surfaced before the present system is completed.

The end of 1925, the statistics show, found Florida about at the halfway mark in its state system surfacing as a total of 4,450 miles must be surfaced before the present system is completed.

The statistics disclose the total construction of the state highways for 1925, that existing at the end of that year, and the mileage of the state systems.

During 1925, Florida completed 218.4 miles of surfacing in its system, bringing the total of such construction at the end of the past year, to 2,194.7.

by the state highway departments. In addition, 5,316 miles of earth road was graded and drained according to engineering standards, making a total of 23,182 miles improved during the year, of which a little more than 10,000 miles was constructed with federal aid.

At the end of the year, the total surfaced mileage in the state systems reached 145,608 miles, and there were 32,218 miles of earth road, graded and drained according to engineering standards. The total of 270,654 miles included in the state systems embraces the important roads of the country which have been laid out to serve the needs of the states. It was upon these systems that the important through routes of the federal system and the United States highways have been almost entirely laid down.

The statistics disclose the total construction of the state highways for 1925, that existing at the end of that year, and the mileage of the state systems.

Louisiana Solons End 60-Day Session

BATON ROUGE, La., July 9.—(AP)—The biennial session of the Louisiana legislature adjourned early today after a meeting of 60 days.

Outstanding among measures enacted into law were:

Raising the consumer's tax on gasoline from two to four cents. A 10 per cent consumer's tax on all forms of tobacco, the funds derived therefrom to be used for state schools.

Making "life" sentences for a term of natural life instead of fifteen years as at present.

SORE BURNING FEET

Tired, swollen, sweating feet smart, burn, itchy and ache. Don't suffer from sore, burning feet.

Apply Licarbo liquid to each and soothe the pain at once. It stops itching between the toes and kills foot infections. Licarbo makes your feet feel cool. 50 cents and \$1.00 at your druggist.

Every morning sprinkle Licarbo Dusting Powder on your feet and between the toes. It keeps your feet dry and free from pain. It prevents blisters and sore spots.

Licarbo Dusting Powder 50c at all druggists

Negro Confidence Men Jailed In Attempt To Fleece Sanford Victim

older the game the easier it is to play. The confidence men were jailed in an attempt to fleece a Sanford victim. The negro who was selected for the job was Esau. The pair of easy money men were caught in a trap set by the Sanford police. The victim, a white man, was lured to a place where they knew he would be vulnerable. The confidence men were caught in a trap set by the Sanford police. The victim, a white man, was lured to a place where they knew he would be vulnerable.

Explorer Of Everglades Called Hero Of Florida

Mr. Ingraham, the first white man to explore the Everglades of Florida, is being honored as the hero of Florida. His expedition, which was reported in the Sanford Herald, was a landmark in the history of the state. He was the first to traverse the swampy land, and his discovery of the Florida Everglades is a source of pride for the state.

MARKETS

WALL STREET OPENING
NEW YORK, July 29. (AP)—The usual week end re-orientation of speculative accounts dominated considerable irregularity in opening prices in today's stock market. One of the early features was the sale of a block of 2,000 shares of Trans-Continental Oil at 4 1/2, unchanged from the previous close. Chesapeake & Ohio open at a point higher at 111, a record top, and U. S. Cast Iron Pipe showed an initial gain of one point while Allied Chemical sold down 1 1/2.

NEW HOME FOR EXCHANGE

CHICAGO, July 29. (AP)—The Chicago Stock Exchange is to have a new home. The Board of Governors has ratified an offer of a long-time leasehold in a new building to be erected in La Salle street by the State Bank of Chicago.

Determination

SULPHUR HEALS SKIN ERUPTIONS
Menthio Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly pimples, or is rough or dry. Nothing so subtle, so quickly, says a noted skin specialist.

LET Us Feed Your Cows

The most of this sulphur preparation is applied the itching stop and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or discomfort. Mentio Sulphur always heals eczema right up.

Carawin Faces Charge Of Obtaining Money On False Pretenses

Roy Carawin, 29, is under \$100,000 following his arrest Thursday afternoon on a charge of obtaining money on false pretenses. He is charged with obtaining \$100,000 from a bank in Sanford, Fla. The charge is based on a report that Carawin had obtained the money by promising to invest it in a business that never materialized.

NAVAL CONFERENCE HELD

TOKIO, July 29. (AP)—It was learned at the Navy Department this afternoon that a conference of high naval officials today at which the minister of the navy presided, tentatively fixed the naval estimates of the fiscal year of 1927 at 320,000,000 yen (about \$160,000,000), which is an increase of 80,000,000 yen over the present fiscal year.

Fitch takes Shampoo out of Shampoo

WHETHER your hair is bobbed or long, whether you have straight or wavy hair and scalp should be kept clean and healthy by the regular use of the Fitch Shampoo.

No other shampoo can do what Fitch's will. The Fitch Shampoo cleanses and removes from the very first application every particle of dirt, dandruff and foreign matter, leaving the scalp clean and healthy and the hair soft and shiny.

The Fitch Shampoo is crystal clear. Every particle is washed out and can easily be rinsed out. After a Fitch Shampoo there is no necessity for an acid rinse which tends to dull and discolor the hair.

Make your next shampoo a Fitch. Buy a bottle at any better drug counter or write direct to the F. W. Fitch Co., Des Moines, Ia. Send for a trial bottle. See for yourself how beautiful your hair can be. The joy of a really clean scalp. If Fitch's isn't all we say, take it back and your money will be refunded.

"There's Beauty for You—in the Fitch Shampoo"

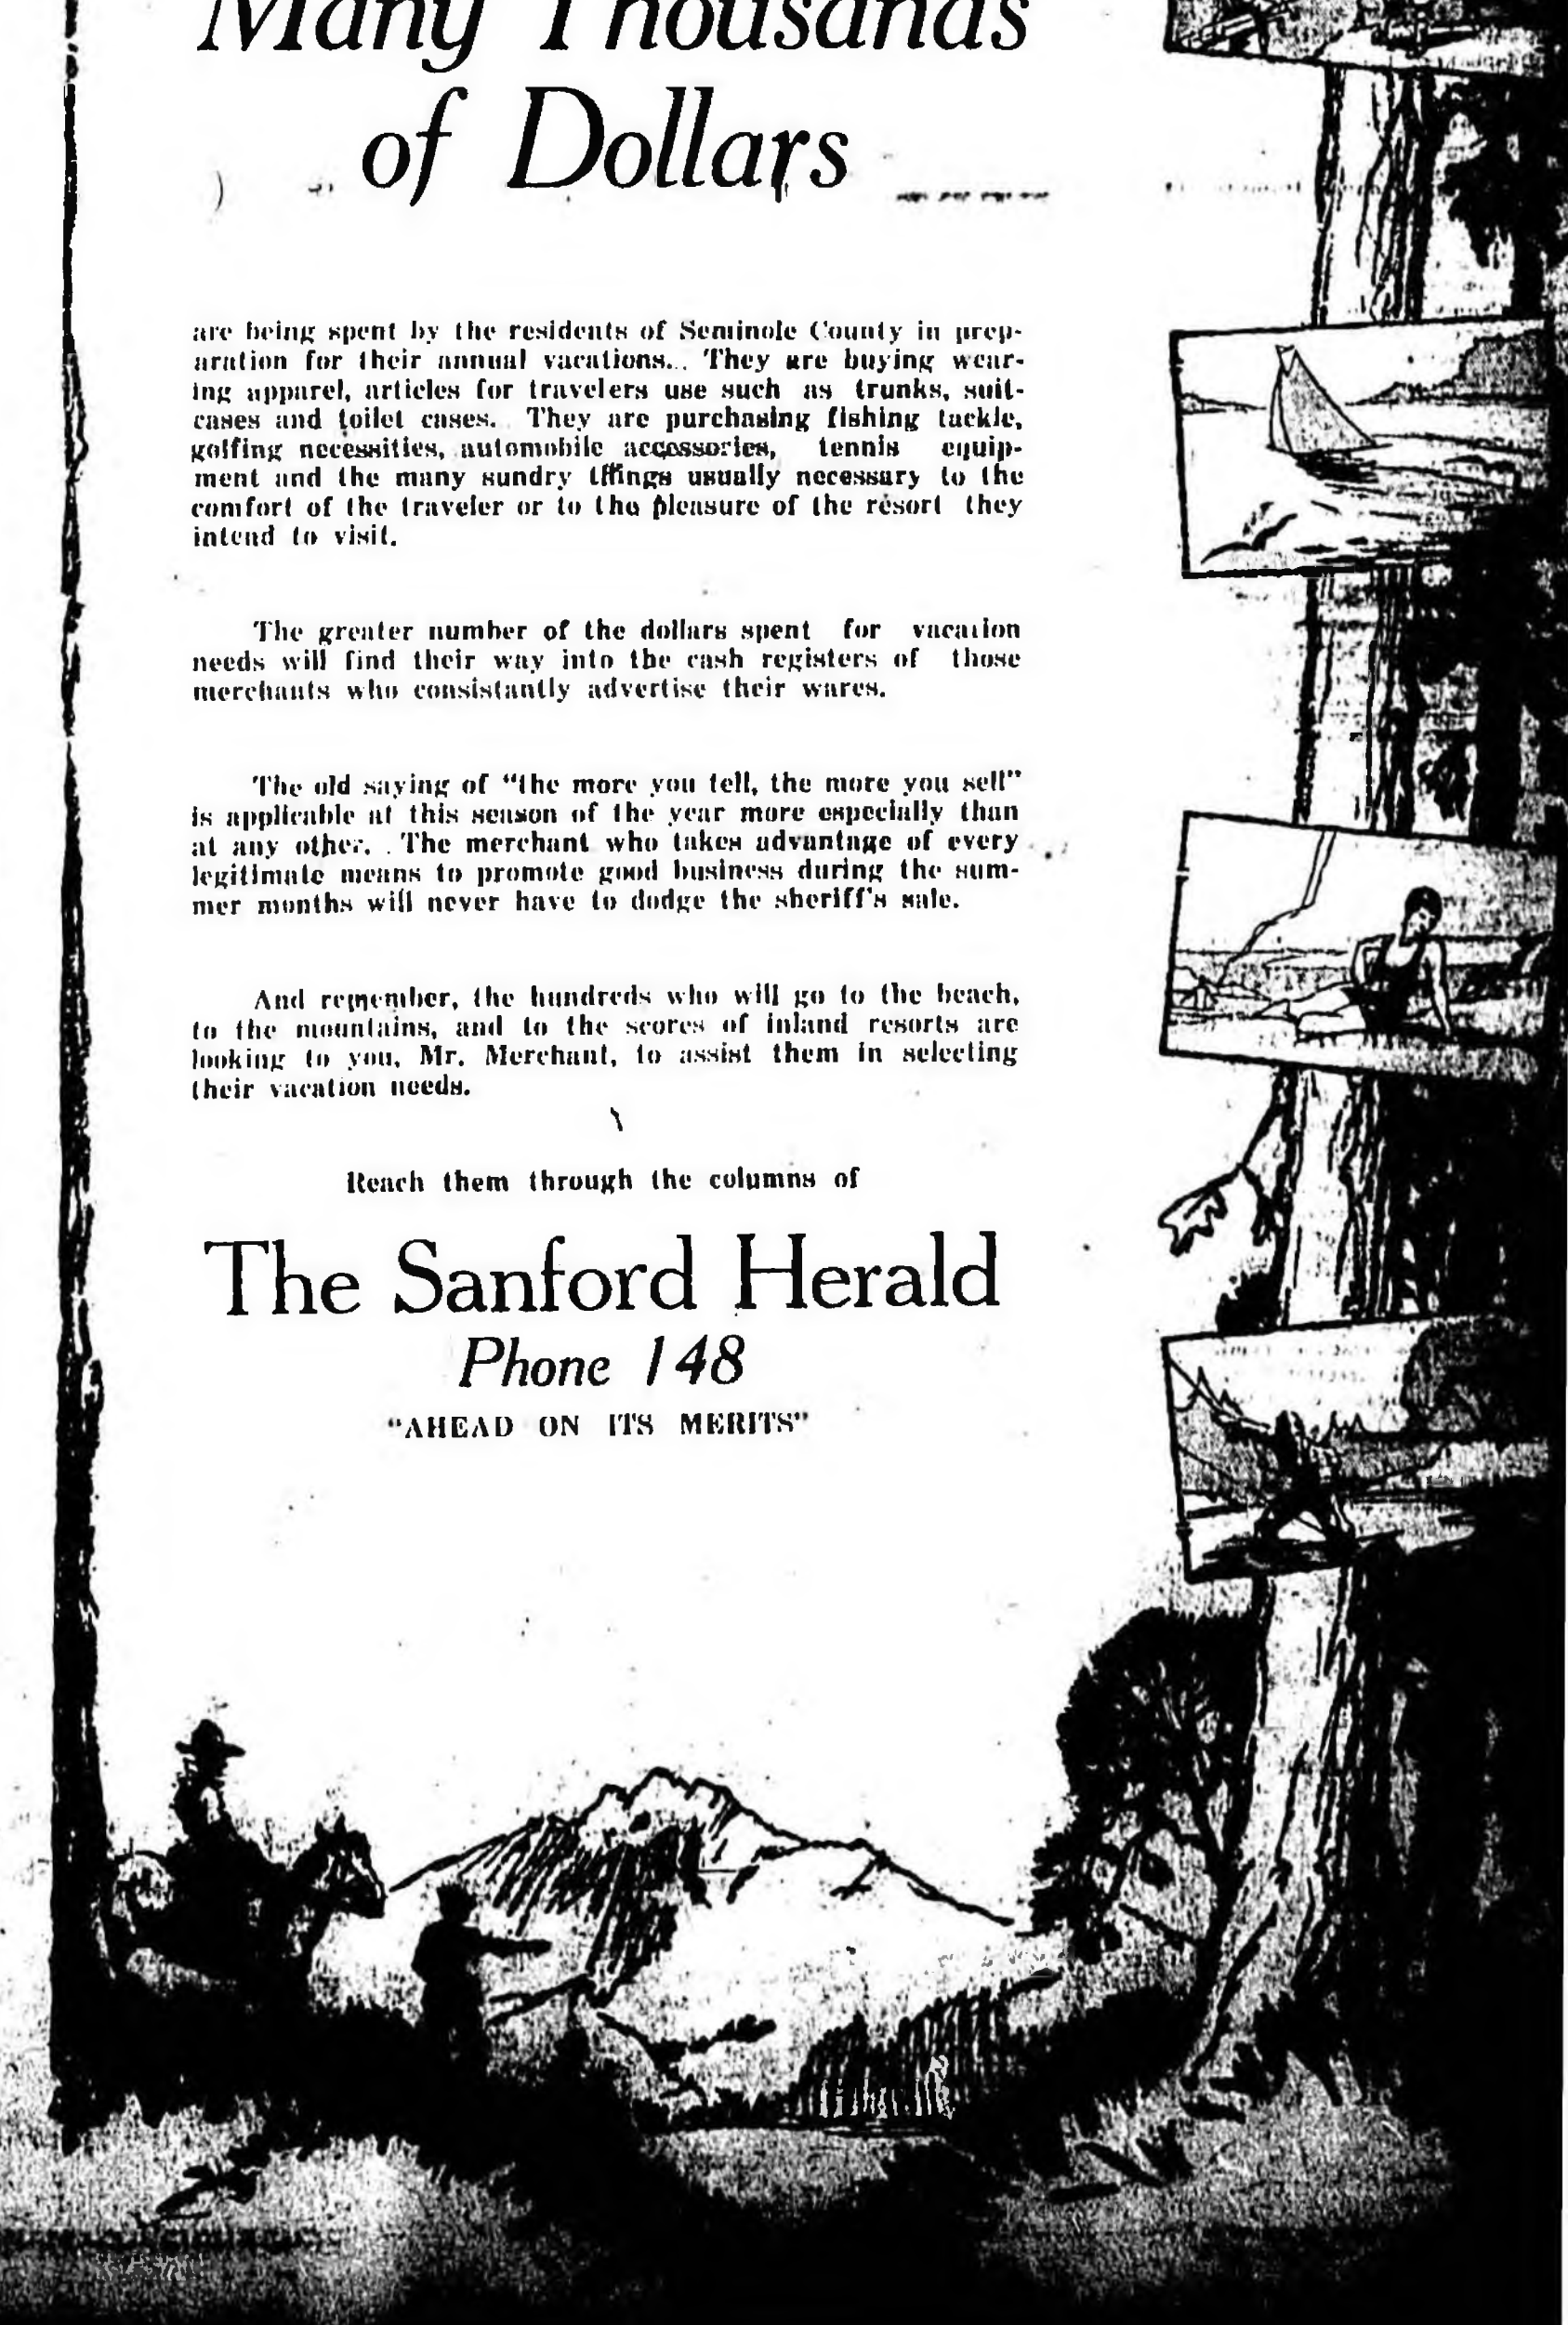

After the Shampoo, there is a FITCH TONIC for every hair and scalp condition.

For further news, itching scalp, FITCH'S IDEAL.

If the hair is inclined to be oily, FITCH'S QUININE or SUPRESE to train the hair to stay in place.

FITCH'S LA FONIA (Copyright, 1926, F. W. Fitch Co.)

FITCH PRODUCTS ARE On Sale at All Toilet Goods Counters in Your Community Since for Home Use Applications at Barber Shops and Beauty Parlors

Many Thousands of Dollars

are being spent by the residents of Seminole County in preparation for their annual vacations. They are buying wearing apparel, articles for travelers use such as trunks, suitcases and toilet cases. They are purchasing fishing tackle, golfing necessities, automobile accessories, tennis equipment and the many sundry things usually necessary to the comfort of the traveler or to the pleasure of the resort they intend to visit.

The greater number of the dollars spent for vacation needs will find their way into the cash registers of those merchants who consistently advertise their wares.

The old saying of "the more you tell, the more you sell" is applicable at this season of the year more especially than at any other. The merchant who takes advantage of every legitimate means to promote good business during the summer months will never have to dodge the sheriff's sale.

And remember, the hundreds who will go to the beach, to the mountains, and to the scores of inland resorts are looking to you, Mr. Merchant, to assist them in selecting their vacation needs.

THE NEW Idea that is Abroad in the Land
Unprecedented Thousands Now Turning to the New Cadillac For the Only Thing That Really Counts

...is this thing which is making new thousands turn to the new, 90-degree, eight-cylinder Cadillac and registering sales records unprecedented even in Cadillac history?

...people's minds and people's pocketbooks—it is the different kind of days and weeks and the different kind of hours and months which people enjoy in the new Cadillac—it is a turning away from the old idea of any sort of motor transportation will do the sounder idea that the kind of transportation is the only thing that really counts.

...is a reaction and a revulsion away from the type of motoring which made the

...miles uncertain and miserable and costly. It is a widespread awakening to the realization that there is no substitute for the satisfied thoughts which Cadillac engenders—for the zestful, restful miles and the careful hours, days, weeks and months—for the only worth-while things in motoring and the things which alone spell value.

Cadillac is entering upon a new era of expansion and appreciation for the quite simple reason that more people than ever before have come to realize that while a motor car may be only a motor car, a Cadillac is always a Cadillac.

An All Important Meeting

As Brisbane Sees It

PROLONGING THE AGONY

Published every afternoon except Sunday at Sanford, Florida, 111 Magnolia Avenue.

Subscription Rates: Year—\$7.00; Six Months—\$4.00; Three Months—\$2.00.

Editorial Notice: All ordinary correspondence of thanks, resolutions and notices of entertainments should be sent to the office.

Sanford Associated Press: The Associated Press is authorized to use for the publication of all news dispatches.

Friday, July 9, 1926

THE HERALD PLATFORM

- 1. Deeper water route to Jacksonville.
2. Construction of St. Johns-Indian River canal.
3. Extension of white way.
4. Swimming pool, tennis courts, etc.
5. Amalgamating of building program houses, hotels, apartment houses.
6. Extension of street paving program.
7. Construction of haulway and ground Lake Monroe.
8. Completion of city beautification program.
9. Expansion of school system with provision for increased facilities.

BIBLICAL VERSE FOR TODAY: My tailor says, the while I stand before his oval mirror grand.

PRAYER: We will rejoice in the Lord always.

A TAILOR'S DIFFICULTIES: My tailor says, the while I stand before his oval mirror grand.

A few days later, head erect, I sat the wife that suit inspect.

Oh, tailor, do the best you can, but do not stop with pleasing man.

Every time the subject of the Francha debt comes up, the frau goes down.

It might have been a ragged game, but it looks mighty good in our percentage column.

President Coolidge might a three-pound pike on the first day of his vacation, indicating that he is no piker when it comes to fishing.

West First Street and its bumps do not improve with age. It's about time the State Road Department was making a promise as to when this part of the highway will be repaired.

By starting a movement to get the Detroit Tigers to team here next Spring, the Sanford Lion-Club is undertaking a worthwhile task and its members deserve a great deal of commendation for their enterprise.

The subject of the sermon at the Christian church tomorrow will be "Trust." Told Me—"Church notice in Myville (Ill.) Union. Can you give me anything more pitiful?"

Double time is being lost by property owners and city officials have not gotten together on the widening and paving work in the downtown section. Work should be done before fall and winter seasons approach. Why delay the matter?

Amalgamation: Either due to a concentration in some newspaper or to the fact that some people in Fort Lee like to create a "Friedrick Engels, wish someone that I am not married to." (Signed) Fredrick Engels.

Card in Fort Lee: Wonder if Alice is particularly pleased with the new Country Club.

Notes from J. E. Ingraham's Trip Through Florida Everglades

Editor's Note: The original record of the first white expedition to cross the Everglades in 1892 was secured by The Herald through the courtesy of Frank P. Forster and will be published in serial form daily in this paper.

In camp, Ft. Myers, Fla., March 15, 1892.

The members of the expedition consist of the following named white persons: J. E. Ingraham, commander; J. W. Newman, W. R. Moses, S. O. Chase, A. Church, A. W. Clark, of Sanford; D. M. Baker Orange Home; G. E. Matthies, Geneva; W. E. Gradick, Geneva; T. Anderson, S. L. Carithers and T. C. Shepard, Hawkinsville, Ga.; P. H. Hensley, Lewisburg, W. Va.; J. E. Mincham, Chipley, Fla.; Wesley Boyd, W. M. Wilson, H. W. Lucky and Robert Dean, Fort Myers.

"Colored books are Reese Livingston and Jeff Bookman, of Sanford.

March 16.—Broke camp at Fort Myers. Team failed and began march to Fort Snickett. Rest into Camp No. 2 at Half Way Pond, 18 miles from Myers. Country flat. Scrub

and sapling cypress; ground poor.

Broke camp at 6 a. m. Marched 2 miles through open scrub pine country. Cypress ponds and grass ponds. Poor timber, country flat and dry. Went into Camp No. 3 at 5 p. m., about two miles north of Fort Simon Drum.

Broke camp at 6:10 a. m. Marched 20 miles through open prairie pine islands hammock clumps and cypress heads. Big cypress on the south, Okaloosa-cochecher Swamp on north. Prairie open, good grass and water. Crossed Okaloosa-cayaway at 11 a. m.

Heavy storm broke over us here, drenching all. Stopped at Shirt Tail Camp for dinner. Moses burned his shirt tail here while drying it on his person. Mercury fell from 70 at noon to 40 at 7 p. m. Went into Camp No. 4 at a point 10 miles N. W. of Fort Snickett. Wading in eight inches to a foot of water all day. Prairie here begins to show strata of rock on surface. Grazing very fine; cattle look extremely well, though weather during winter has been cold. All suffered terribly from cold and chafes and biliousness.

(To be continued tomorrow)

Realizing the importance of beginning street widening in the down-town district before the fall press of traffic sets in, the City Commissioners have requested affected tax payers to meet with them Monday for the purpose of expediting preliminary operations, and in view of the actual necessity of the work under consideration no public spirited citizen on any of the avenues to be widened can afford to neglect the invitation.

Sanford is ahead of many Florida cities in numerous ways, and we cannot afford to jeopardize this leadership by small town wrangling over improving our streets, a work that is essential to civic expansion. What material is to be used in street widening is not the principal issue. The avenues must be improved, and as soon as this fact sinks in, tax payers and the commissioners can decide on a type of paving that will prove satisfactory to the majority.

Besides the practical traffic relief that will result from the widening of all avenues below Third Street, the early commencement of street work on a large scale will have a tremendous psychological effect that we cannot afford to neglect at this time.

Grossly exaggerated accounts of Florida depression have focused the eyes of the nation on the peninsula, and business men and prospective investors are rightfully rating Florida cities according to the size of their construction and civic improvement programs. The City of Sanford is spending upwards of one hundred thousand dollars a month in street work but the bulk of this activity is being carried on in the outskirts of the community, out of sight of the stranger passing through town.

The transfer of paving operations to the business section of the city, and the energetic commencement of street widening and general improvement would be certain to impress visitors favorably.

Puffing steam rollers, torn up roadbeds and gangs laboring lustily would convince the stranger that Sanford is doing something, is expanding and going right ahead with its civic program despite rumors of "Florida's collapse."

And visitors arriving after the work had been completed would be no less impressed with the wide, smooth asphalt streets supplanting the narrow, rough, and almost medieval arteries that we have now.

The street widening program must be carried out, and common sense tells us that it would be advisable to complete the work before the fall rush, but this is impossible unless the property owners on these streets attend the meeting Monday and co-operate with the commissioners in every way possible.

The early commencement of the program is a matter of vital importance to Sanford, and nothing short of illness in the family should prevent affected property owners from attending the conference.

A Test For Accident Witnesses

The absolute confusion that usually marks the witness on the stand in accident trials, particularly in cases where a street car or automobile has collided with a pedestrian, or another vehicle, accounts for the recently devised tests that the American City Magazine has compiled, and the carelessness and tangled testimony that the majority of eye witnesses give in court indicates the advisability of giving these tests serious consideration.

Boldly contending that nine out of every ten patrolmen are incompetent witnesses because their powers of observation have been neglected, the American City Magazine suggests the following examination for policemen in large cities: First, the class is presented a picture of a street car and an automobile wrapped around each other at a street intersection. After studying the picture for one and one-half minutes, candidates are required to answer the following questions without again referring to the illustration:

- "1. At what street intersection did the accident occur?
2. What is the condition of the weather?
3. From what State is the automobile?
4. On which side was the automobile struck?
5. About what hour of the day did the accident occur?
6. Name three ways in which the automobile was damaged?
7. What is the number of the street car?
8. To whom does the automobile belong?
9. Name two things which show the driver lost control of the automobile.
10. What is the route of the street car?
11. What is the number of the street car employee?
12. What is the date of the accident?
13. Name two things which indicate that the chauffeur was killed rather than only injured.
14. Who is the first person you would call as a witness of the accident?
15. How is the policeman attempting to identify the chauffeur?"

Certainly any man who could correctly answer these queries after glancing at the picture for only a minute and a half would prove an excellent witness, capable of giving valuable testimony for the court's arrival at justice.

But the one great fault with the American City Magazine's test is that few patrolmen could pass it in fact few well educated and memory trained individuals could pass it.

It is too detailed, too exacting for the average policeman, but something in its order would do much toward expediting accident trials.

Money Well Lent. Tired of the Harum. The Unpleasant Zarrote. For Advertising Men. BY ARTHUR BRISBANE (Copyright 1926, by Star Co.)

THE PUBLIC sees with pleasure J. P. Morgan financing ten million of bonds for the Fiat automobile company of Italy, and Clarence Dillon employing his financial genius in behalf of German industries.

Americans gladly send money to Europe to be used to building up industries, give work to mechanics and building prosperity of friendly nations.

What Americans dislike is that United States funds should be used to finance equipment of armies to help our European friends to kill each other.

TURKISH GIRLS, you will be glad to hear have lost interest in the barren, with its thick cushions, mattresses, cushions, sweetmeats, nectar of roses, low-strings and conspiracies.

Young girl graduates from the Constantinople W. S. college turn their backs on "Sarag-lio and the veil. One of them is going to take a job in Henry Ford's hospital in Detroit.

SOON THERE will be no barren romance except a Mohammedan's "Pearl of Love." Read that book Laube will be possibly interested in the description of a Mohammedan leaves for a lady Mohammedan with her own young gentleman angel, take the place of the hours promised to Mohammedan warriors in the original Mohammedan paradise.

You will marvel that the man who wrote "The Spirit of Laws," could turn his thought to the "Pearl of Love." Wonderfully adaptable are the French.

UNLESS PLANS are changed, Salvadore Aguilera will be garroted in Cuba, this morning for being too late to death by aunt Caridad Suarez.

Death by the garrote sounds and unpleasant. The condemned man sits against a post. Around his neck is a brass collar with a screw adjusted to strike the backbone just below the brain. A half turn of the screw breaks the spinal column and death is said to be practically painless. It is probably less painful than the new fangled killing by electricity or lethal chamber.

BAD HUMAN beings devoted to helping and reforming each other half the ingenuity they have devoted to killing each other, the world might be better off. But you can't be sure. Providence works mysteriously.

PURITICITY AND advertising men, bring this up in large type from Felix Shay's book on Eliot Hubbard.

Hubbard denied that the world "Make a better mess than your neighbor, and though you build your house in the woods, the world will make a beaten path to your door." What Hubbard did say was "The world will never make a beaten path to your door unless you advertise. If you send automobiles to meet all the trains, and a free lunch on the front porch, so much the better."

MEXICO CITY is in danger of complete isolation by heavy floods, all railway tracks within ten miles of the capital are under water and famine is feared because of crop destruction throughout the Mexican plateau.

Many, deeply religious, believe that floods and famine are sent to punish Mexico's drastic anti-religious legislation.

THAT MAY be true, but this is certain. Religious warfare, its hatreds and bitternesses, are far more dangerous than any flood.

It isn't our business to criticize our neighbors in Mexico. They may do as they please, in their country. Conditions there emphasize the wisdom of those that established this country, giving absolute freedom to all religions, without interference or confiscation and without government recognition or subsidy for any religion.

ITALY'S KING next Monday will dedicate a monument at the Brenner Pass of the Tyrol, and D'Annunzio has written for the monument an eight line poem warning foreigners to end forever their "presumptuous dreams of a march southward." That is a dream often realized, and often to be realized perhaps in the future. Humboldt marched southward, coming around through Spain, Gauls, Goth, blue-eyed longbeards, came down over the Alps from the earliest times to the day of Napoleon.

THE IMPORTANT thing is that Rome and Italy always conquered their conquerors, assassinating them, making them Roman or Italian. You cannot keep Saturn, or man, from "Going to and fro on the earth, and walking up and down in it."

The power of nationality shows itself not so much in keeping people out as in absorbing and conquering them after they get in. The thing is to keep out the sort you cannot absorb.

Women are so brave. In Seattle one married a cello player.

Wouldn't it be a great streak of luck if you could convince your face that whiskers are out of style?

Strange things happen every day. The wife of the ex-kaiser denies the rumor that she will get a divorce.

THE NEWS MIAMI HERALD

THE recent action of Mussolini in cutting down the number and the size of the newspapers in Italy should please a good many people in this country who believe they know just how a paper should be run. Every editor receives frequent communications from earnest people who protest against this or that feature. If these protests were all followed there would be left about what the dictator of Italy has left or perhaps less.

Mussolini proposes that the newspaper of Italy, such as he permit to live, shall devote themselves to news of fascism, and of what is actually being constructed. They will be government organs, pure and simple, under a strict censorship. From them there will be eliminated all of the incidental features, such as sport news, and all that is not news, and a large part of the foreign news.

As a result of the decision of which constitutes a large part of the modern newspaper, Mussolini believes the press may become a factor in the education of the people and in their moral uplift. He hopes to bring about savings that will help to create a better financial condition in the country.

Mussolini has taken a peculiar method of accomplishing his purpose. It is hardly conceivable that the press can ever accomplish such an educational and moral force unless it is free. Freedom involves the right to present all the news, and to give the reader a fair picture of life in all its aspects.

Only a free people can be educated, intellectually or morally. The idea which Mussolini has is the idea of a good many people in this country, that a nation may be

Insure Today

How much is any Automobile worth without complete and Dependable Insurance Coverage? Not much! In fact, any automobile is a tremendous liability. An accident occurring in an instant can wipe out investment and make the owner liable for huge damages. An automobile's value can only be determined by the insurance carried on it.

OUR LATEST TAX CUT CENTRAL FLORIDA TIMES

Governor Martin has again demonstrated his capacity as an executive and has shown his good faith to the public by the large tax reduction which he has just announced to the press. When he assumed office he pledged himself to the cutting of taxes, and in his first year made a small cut as an evidence of his good faith. He has now ordered a cut amounting to nearly one-third of the total tax.

This great boon to the taxpayer has been brought about by the general prosperity and growth of the state, and by the careful administration of all the departments of the government. The governor is fortunate in that the state's prosperity has helped to bring about a healthy condition in the treasury that such a cut could be made possible, but this fortunate circumstance can in no way detract from the credit due him for his careful stewardship. It is his insistence upon economy and efficiency in all departments which has gone far towards building up a surplus in the treasury so as to make practical the easing of the taxpayer's burden thus appreciable.

It is particularly appropriate that an announcement of this nature should be made at this time, Propaganda is still rife throughout the north to the effect that the

state's prosperity has vanished. There could be no better means of refuting this than the governor's action. Caring as it does upon the needs of his demand for greater expenditures upon our roads in order to take care of the excess funds available for this purpose, it proves beyond all doubt the solidity of the state's financial foundation. It shows that Florida's prosperity is unshaken, that she is going to carry on her plan of development and expansion on an even more extensive scale, and that her condition is so healthy that she can at the same time reduce her demands upon her people without curtailing the development of our state.

This is a condition for which Florida may well be envied. The eyes of the entire country have been turned upon her by virtue of her rapid rise, jealousy has been rampant in less fortunate states that Florida should have prospered so speedily. But Florida, confident of her own destiny is carrying on. For this latest proof of her solidity the state has to thank both her splendid citizenry who have refused absolutely to listen to the wails of northern crepe hangers and have retained their solid faith in the future of the state, and the watchdog of her treasury, John W. Martin.

A WISE BOY WALL STREET JOURNAL

The following is an excerpt from the will of a Wall Street man, which has been probated recently in the New York courts: "To my wife, I leave her lover and the knowledge that I wasn't the fool she thought I was."

"To my daughter, I leave \$100,000. She will need it. The only good piece of business her husband ever did was to marry her."

band ever did was to marry her. "To my wife, I leave the clothes that he has been stealing from me regularly for the past ten years. Also my fur coat that he wore last winter when I was in Palm Beach."

"To my chauffeur, I leave my car. He almost ruined them and I want him to have the satisfaction of finishing the job."

"To my partner, I leave the suggestion that he take some other clever man in with him at once if he expects to do any business."

"To my daughter, I leave \$100,000. She will need it. The only good piece of business her husband ever did was to marry her."

Mr. and Mrs. Bishop Entertain At Dinner At Orange And Black

Mr. and Mrs. George D. Bishop delightfully entertained a few of their friends at dinner Wednesday evening at the Orange and Black Hotel at Longwood. Centering the attractively appointed dinner table was a large silver basket filled with cut flowers in the shades of lavender and yellow with sprigs of asparagus ferns. Marking the places of the guests were place cards in keeping with the decorations, and at 7 o'clock a delicious six-course dinner was served. After dinner dancing and music were enjoyed until a late hour.

Eastern Stars Enjoy An Outing At Mount Plymouth Thursday

One of the most delightful outings with which the members of the Seminole Chapter Number Two of the Eastern Star have been entertained with was that of Thursday when they enjoyed an all day picnic at Mount Plymouth. The members met at an early hour and motored in a body to this picturesque spot so ideally located and arranged for an affair of this kind. At noon a sumptuous picnic lunch with all accessories was served. Among those enjoying the delightful day were: Mr. and Mrs. Glenn E. McKay, Miss Florence McKay, Mr. and Mrs. L. H. Gibbs, Miss Dorothy Gibbs, Mr. and Mrs. Ira D. Martin, Mrs. A. D. Shoemaker, Miss Elizabeth Shoemaker, Mrs. J. D. Parker, Mrs. E. N. Scott, Mrs. G. B. Elliott, Mrs. Tony Pittsford, Mrs. Therranot, Miss Leola Evans, Mrs. S. E. Gillon, Mrs. Tharpe, Mrs. E. C. Brady and Mrs. Mitchell.

MUNICIPAL LIBRARY ADDS MANY NEW BOOKS TO ITS COLLECTION

The following books have recently been received at the library and placed in circulation:

Non-Fiction
Clark, "How to Produce Amateur Plays." A practical discussion, based on experience, of the technique of acting, properties, costumes, make-up and other points of interest to the amateur.
Dorsey, "Why We Behave Like Human Beings." A comprehensive account, written in popular style, of the reasons for human behavior. One of the popular successes of the season.
Greenie, "Japan, Real and Imaginary." An impartial description of intimate pictures of common life from all points of view as Japan is today.
Koller, "Artistic Alphabets for Show-cards and Signs." Describes brush practice, Gothic and Roman styles and a wide variety of modern and up-to-date alphabets, with appropriate sign ornament.
Manley and Rickett, "Content of British Literature." Valuable hand book, giving brief biographies and critical references, representing the characteristics of recent writers.
Mayazza, "Representative One-Act Plays by American Authors." A collection of the most significant one-act plays produced by the Little Theatres of this country. They are grouped by style and are full of promise though uneven in merit.
"New International Year-Book of 1925." A compendium of this World's progress from 1925, supplementing the last edition of the New International Encyclopedia.
"Who's Who in Literature." A very recent publication in a new series of literary year books, giving present day English and American authors. Useful for reference work.

Fiction
Boerholm, "Zuleika Dobson." A humorous fantasy of undergraduate life at Oxford.
Fairbank, "The Smiths." A picture of growing Chicago, depicting a self-made man and his charming wife and their children. A popular book with all classes of readers.
Futabatei, "An Adopted Husband." One of the modern Japanese novels, giving an interesting picture of certain phases of family life in Japan, with excellent character drawing.
Garnett, "Lady Into Fox." An English story which won the Hawthorne prize in 1922. The book has deep poetic emotion and represents fantasy, satire, allegory and realism well blended together.
Lardner, "How to Write Short Stories." With humor and skill the author describes his methods of writing short stories and gives several examples as samples of his laid in the open spaces of Canada, method.
Lewis, "Mantram." The scene is and the characters are as real and as lifelike as George Babbitt and Carol Kennicott.
McKenna, "An Affair of Honor." An entertaining and sparkling comedy of a mystery duel staged by Oxford students in order to furnish a newspaper story which would prolong the life of the Oxford Post.
Phillipotts, "George Westover."

Mrs. Harry B. Lewis Hostess To Members Of The Duplicate Club

The lovely home of Mrs. Harry B. Lewis was a picture of beauty Wednesday when she entertained at luncheon and bridge, the guests including the members of the Duplicate Bridge Club. Baskets and bowls of zinnias in the varying shades of pink combined with greenery were arranged with pleasing effect both in the living and dining rooms. The daintily appointed luncheon table was laid with an Italian cut work luncheon cloth, the center being graced with a silver basket filled with pink zinnias and ferns. Surrounding this were silver candlesticks holding lighted pink tapers, and the place cards added a pleasing touch, being in the forms of blue birds. At 1 o'clock a tempting four-course luncheon was served. The afternoon hours passed quickly in the interesting game of duplicate and when scores had been added, Mrs. Samuel Puleston and Mrs. Frank Miller received hand-some decks for having held high score.
