The 10 top stories in Sanford for a record-breaking year of news... Harman called on 10 Rotarians to give their ideas as to what the south might be for 1957.

## AF Jet Stratotanker Crashes In Everglades

MIAMI (UP)—A big Air Force KC-97 jet Stratotanker, unable to land because of severe rain squalls, crashed in the Everglades west of here early today. At least four of its six crewmen parachuted to safety. The Florida highway patrol said the last report from the plane came about 5 a. m. when the pilot radioed that he was running out of fuel and heading over the Everglades to avoid crashing in a congested area.

## Egypt Undertakes Giant Collective Farm Experiment

CAIRO—One of the biggest and most ambitious experiments in collective farming in the world is being carried out by the Egyptian government. It is slowly shaping desert wasteland into productive fields on the edge of the Nile delta near here.

# Cold Wave Sweeps Over State; Snow Falls In Seminole County

LAKELAND (UP)—A cold wave sweeping over Florida with snow, frost and 20-degree temperatures threatened today to give the state's billion dollar citrus industry a near death blow.

The Frost Warning Service forecast a "hard freeze" in north and central portions and near freezing weather in the tourist-filled southern sections. Temperatures in the low 20's were forecast for the entire citrus section.

The "sunshine" peninsula, plagued for two weeks with near-freeze winds and tropical downpours, even had a snowfall during the morning. Snow fell so heavily in Lakeland, in the middle of the orange and grapefruit belt, that visibility was cut to half a mile.

The colorful orange and grapefruit groves throughout central Florida suffered an estimated \$100 million damages in the Dec. 12-13 freeze, the worse cold wave to hit the sunshine state in nearly 50 years.

Dr. Reitz said the trees simply could not take this second shock following so quickly after the first one.

Many sections of Polk, Lake, Pasco and Hernando counties reported snow. Lakeland apparently had the "heaviest" snow fall.

Others with snow were Tampa, Jacksonville, Winter Haven, Barlow, Plant City, Lake Wales and Auburndale. It started about 8 a. m. and continued steadily for a couple of hours.

Snow also fell over extreme north Florida, including Tallahassee and Marianna. Warren Johnson, chief of the Weather Bureau here, said the heavy blizzards were caused when a cold air mass coming from the northwest at about 6,000 feet collided with a flow of warmer, moisture-laden flow from the southwest at about 10,000 feet.

**Weather**  
Clearing and turning much colder tonight with low 26 to 32. Thursday fair and continued cold.

### U. S. Engineers Find Sanford-Titusville Canal 'Unfavorable'

#### Mayor Lee Gary, Five Councilmen Sworn In At Oviedo

Mayor Lee Gary and the five councilmen were sworn in by City Clerk T. L. Lingo Sr. Members of the council taking the oath of office were the new president, J. Young Harris; vice-president, W. R. Clontz, Karl Daul, Joe I. Beasley and newly elected member W. H. Marlin.

With the Council's approval, Mayor Gary reappointed George A. Kelsey as Chief of Police, T. L. Lingo Sr. as City Clerk, and T. L. Lingo Jr. as Fire Chief. George A. Spear was reappointed as City Attorney.

**Installation Slated**  
The Lake Mary Volunteer Fire Department will hold a meeting at 8 p. m., Jan. 14 at the Lake Mary school.

WASHINGTON (UP)—The U. S. Corps of Engineers has reported "unfavorably" on the Titusville Barge Canal Project, the office of Rep. A. Sydney Herlong Jr. (D-Fla.) said today.

It said the district and South Atlantic Offices of the Corps of Engineers found that flood control benefits in the proposed project were "relatively small" and that navigation benefits were "not economically justified."

The decision may be appealed to the Engineer's Board on Rivers and Harbors here.

Chamber of Commerce Manager John Krider, speaking with Col. Paul Troster, District Engineer for the Corps of Engineers, in Jacksonville, revealed that the district engineer said "I haven't received any official notification that the Sanford-Titusville Canal has been turned down."

and have asked for a text of his report," said Krider, "and when we study that we will determine what our methods will be."

The report that the Sanford-Titusville Canal had been turned down because of the danger to flood control and because of insufficient traffic on the St. Johns River was, in all probability, premature yesterday.

There is a possibility that the report may have leaked in some manner either out of the Jacksonville Office of the District Engineer or from Washington.

Reporters have not been able to pin down today any announcement that the project is "dead".

### Commissioners Elect Warner As New Mayor

MERLE WARNER, Sanford's Mayor for 1958, elected last night at the organizational meeting of the Board of Sanford City Commissioners. (Staff Photo)

Merle Warner, Sanford filling station owner and operator, was elected to serve as Mayor of Sanford the 1958 term at last night's organizational meeting of the Sanford Board of City Commissioners.

Warner was elected by two votes and three abstained votes. Mayor Gatchel called for a unanimous ballot for Warner which was approved.

Prior to the Mayor's election, two commissioners were sealed for three year terms. Robert S. Brown, newly elected and A. L. Wilson, re-elected in last November's city election.

First order of business for the new board was a resolution commending Commissioner F. D. Scott for his term as a member of the Sanford City Commission. He was presented a silver tray for "unfiring service to the City of Sanford."

Scott said "It's been a pleasure. We've had some disagreeable things come up but in the long run I can't remember those who voted against me. It's been a pleasure to serve with you."

Warner was elected by two votes and three abstained votes. Mayor Gatchel called for a unanimous ballot for Warner which was approved.

#### Commission Denies Okay Of Building Inspector Position

The Board of Seminole County Commissioners yesterday refused to approve an appointment of Clifford L. Overman to the position of Building Inspector for the Seminole County Planning Commission on the recommendation of the commission's chairman, Raymond M. Ball.

Also in the recommendation, signed by the Planning Commission's chairman, was an appointment of Mrs. Maxine D. Thompson as secretary.

Commissioner Fred Young stated "I think the Planning and Zoning Board should make more than one recommendation."

In the wake of Commissioner Brown's statement, Commissioner H. C. Duhal said "I wouldn't vote for him (Overman) until after this board interviews him."

Commission Chairman John Krider warned "I would think that the board might get involved in hiring members of the various departments of the county."

#### An Editorial We've Been Hurt, Mr. Engineer! Hurt Bad!

Mr. Engineer, this time you've hit below the belt! This time, Mr. Engineer, you've hit where it hurts and Central Florida has been set back another hundred years with a decision that laymen, even though they are not familiar with the transit and level, know is wrong.

There can be no estimate of the holocaust that will be released by men of integrity who have fought hard, and fought a good fight, for the dream of a century.

No one has argued with you, Mr. Engineer, about the technical data necessary to place dams at strategic points to control the waters of the St. Johns River. No one has argued with engineers over the fact that the St. Johns River would develop into one of the greatest economic advantages Florida has ever known.

But we do argue with you about the fact that you are taking away from Sanford and Central Florida multi-millions of dollars in waterway transportation, in industrial plant locations, in pleasure boating through Central Florida, in housing developments, and most of all—one of the greatest economic measures the Corps of Engineers could have undertaken.

#### Valuable Cockatoo Stolen From Zoo

A very valuable cockatoo was stolen from the Sanford Zoo sometime during the night, Sid Richard reported this morning.

Richard said that the person taking the cockatoo obtained a hole in the wire cage about six inches square. "Just big enough to get the bird out," he said.

The green parrot's cage was also cut, Richard reported this morning, but the parrot would not come to the person and they left without it.

The cockatoo is solid white, Richard said, with a white topknot and faint pink and sulphur colors under the wing.

"We hope that anyone knowing the whereabouts of the bird will call us," Richard stated this morning. "We keep the zoo purely for the entertainment of children and our visitors," he said.

#### U.S. Said Drifting Into Socialism

WASHINGTON (UP)—A former Eisenhower administration official said today, "we are drifting into socialism" and a big tax cut is needed to restore business confidence.

This view was expressed by Lothar Teator, former assistant secretary of commerce for domestic affairs, in testimony prepared for the House Ways & Means Committee.

Teator, now an official of the Perfect Circle Corp., Hazelton, Ind., appeared as spokesman for the Indiana State Chamber of Commerce. The committee is considering proposals for tax revisions. Prospects are dim any major legislation will result this year.

Teator rejected the view expressed by administration officials and congressional leaders of both parties that the government can't afford to grant general tax relief now in view of the need for increased defense efforts.

"All we have to do," Teator said, "is to cut the non-essentials so we can afford the essentials."

#### Sanford Resident, W. R. Dyson, 69, Dies Early Today

W. R. Dyson, 69, a long-time, well-known Sanford resident died at the Orange Memorial Hospital, at 3:40 a. m. this morning after a short illness.

Born Sept. 16, 1888, in White Lake, N. C., he came here in 1925 as general superintendent for Hutson Construction Co. Prior to that he was general superintendent for W. F. Howe Construction Co. of Danville, N. C.

He made his residence in Sanford at 1201 Magnolia Ave. and was a member of the First Baptist Church here; Masonic Lodge, Olanza, S. C.; American Legion here; Sanford Elk's Lodge and was a veteran of World War One.

Survivors include his wife, Mrs. Bhea Truluck Dyson, Sanford; one daughter, Mrs. S. Ward Casselle, Montchanin, Del.; one son, Lt. Col. James H. Dyson, Ft. Monroe, Va.; four grandsons, James H. Dyson Jr., Ft. Monroe; Gregory Wegner Dyson, Ft. Monroe; S. Ward Casselle III, Montchanin; Christopher Dyson Casselle, Montchanin; and one brother Fred A. Dyson of Sanford.

Funeral services will be held at 11 a. m. Friday at the First Baptist Church in Sanford with the Rev. W. P. Brooks Jr. and the Rev. Joseph H. Courson officiating. Burial will be at the Bethel Baptist Church Cemetery, Brison Funeral Home in charge.

#### Koreans Attack GI

PUSAN, Korea (UP)—An American soldier was in a hospital today with a cerebral concussion after being attacked by three Korean civilians. He was identified as Pfc. Madison E. Sepler, of St. Charles, Mo.

He is an avid enthusiast of aviation and a supporter of the Sanford docks and terminals project.

Warner is 63, and resides at 2417 Myrtle Ave. He has three children and three grandchildren.

He is an avid enthusiast of aviation and a supporter of the Sanford docks and terminals project.

#### Top Speedboat Drivers To Enter Regatta Here

"Not since the 1930's has Florida fielded such entries in hydroplane racing as this year," Dr. A. W. Woodall, commissioner of the Sanford Boat and Ski Club announced.

According to Woodall, boat racing has latched onto the lives of leisure men and women of the nation and Florida is feeling the winter impact.

The best of speedboat drivers will be in Sanford Sunday afternoon, Jan. 18 vying for \$50 prize money for each heat of the six race event, each race comprised of two heats, and those all-important early season points that go toward the Colonel Green \$7,000 Trophy that will be presented to the high point man at the end of the circuit tour.

**Jaycees To Hear Talk On Safety**  
Members of the Sanford Seminole County Junior Chamber of Commerce will hear, at their noon luncheon meeting tomorrow, a safety talk by enforcement officer speak on safety.

Sergeant Ben Butler will address the local Jaycees and demonstrate some of the various pieces of equipment used to help keep the streets of Sanford safe.

**Additional Local News On Page 10**

**SOVIET PARLIAMENT MEETS**—The Supreme Soviet holds its opening session in Moscow with members of the Presidium, including Communist Party boss Nikita S. Khrushchev (arrow), in attendance. On the rostrum is Deputy Premier Joseph Kuzmin, economic boss, as he promised lower taxes and more consumer goods. Dominating chamber scene is a large statue of Lenin.

**MODERN-DAY PRESIDENTS ON YOUNGER**—Average age of the first six U. S. Presidents (top row) at death was 79 years, 8 months. Average age of the last six (bottom row) to die was 63 years, 2 months. There have been vast advances in medical care since those early days, too, so exigencies of the modern-day presidency must be every bit as telling as reported. (International)

### Women Dominate Medical Fields In Soviet Russia

By DOROTHY FLANDERS, United Press Staff Correspondent

ST. LOUIS (UP)—Six women doctors from Soviet Russia, on a recent four-day tour of a St. Louis medical center, got these two emphatic points across the language barrier:

They are products of a "classless" society. Their fathers include a peasant, a store clerk, a professor of medicine, a metal worker, a scientific geographer, a railroad worker.

They are grateful to the government that fostered their careers. Having passed compulsory tests, they were sent to state-sponsored medical schools and provided with living quarters, books and equipment, food and pin money.

The women, all attractively groomed and wearing lipstick—one of them wore fingernail polish, too—answered questions with docility and ease in a meeting with reporters.

**10 Far east Women**

Dr. E. A. Vasyukova, the handsome director of the Institute of Experimental Endocrinology of the Ministry of Health, U.S.S.R., was spokesman for the group, all middle-aged or older, except for a 31-year-old beauty described as a cancer research "genius."

Seventy per cent of the medical profession in Russia is made up of women, Dr. Vasyukova said. "Such a humane profession attracts women," she explained. She estimated that Russia has 200,000 physicians "employed by the state, according to the population in a given area."

Asked if the state directs a person's choice of career, she said:

"Everyone in Russia chooses his own profession. Each must compete in tests that reveal if the person is able to qualify for his choice."

On a more personal note, Dr. Vasyukova revealed that all six of the women are married and have families. A translator accompanying them revealed that each of the women, famous in her own field, uses her maiden name professionally.

**Americans To Russia**

The youngest member of the group was Dr. N. T. Ferevichikova, a senior scientific worker of the Institute of Experimental Pathology and Cancer Therapy, Academy of Medical Sciences. She laughed in reply to a query about "the rumor that one member of the delegation won a Miss Russia beauty contest." Dr. Vasyukova, also smiling, said Russia had no such contest.

The other women were Dr. A. K. Shubladze, laboratory head of the Ivanov Institute of Virology, Academy of Medical Sciences; Dr. M. N. Fatyeva, head of the Radiology Clinic of the Institute of Labor Hygiene and Occupational Disease, Academy of Med-

ical Sciences; Dr. N. A. Dzhabakhishvili, head of the Department of Experimental Anatomy of the Institute of Experimental Morphology, Academy of Sciences of the Georgia Socialist Republic, Tbilisi, and Dr. A. M. Shishova, faculty assistant in Therapy of the First Moscow Institute. The group toured Washington University's School of Medicine, one of the six medical centers visited on their four-week tour sponsored by the American Women's Medical Association.

A comparable group of American women doctors, as ELH can women doctors will make a return visit to the Soviet Union at a later date.

### Protestant Creed Making Comeback Under New Name

By LOUIS CASSEDS, United Press Staff Correspondent

The conservative protestant creed which used to be called "fundamentalism" is making a strong comeback under a new name.

The new name is "evangelicalism." It is preferred by most of the leaders of the resurgent conservative movement, including its best-known preacher, Billy Graham.

Graham's popularity is one index of the extent to which fundamentalist theology has recovered from the pounding it took from "modernists" in the period between World Wars I and II.

One strong indication of the strong recovery of Evangelicalism is the rapid growth of such unabashedly fundamentalist denominations as the Southern Baptists and Seventh Day Adventists.

Still another is the soaring circulation of the new "Evangelicalist" magazine "Christianity Today," which in one year of publication has outstripped the liberal, 50-year-old "Christian Century."

Fundamentalism got its name from five "fundamental" doctrines which its adherents hold to be essential to the Christian faith. They are: the infallibility of the Bible; the virgin birth of Jesus Christ; the belief that Christ, in his death on Calvary, achieved a "substitutionary atonement" for the sins of mankind; the bodily resurrection of Christ from the tomb; and the expectation that Christ will come again in person to establish his kingdom on earth.

During the 1920's, fundamentalists fought a bitter and divisive battle with "modernists" theologians who were prepared to water down or sacrifice these doctrines in an effort to "accommodate" Christianity to what then appeared to be an irresistible march of scientific materialism.

By the early 1930's, the modernists seemed to have won the fight. Fundamentalism was relegated to the fringes of protestant life. Major denominations and theological schools came under virtually complete sway of liberals who de-emphasized the Bible as an authoritative source of revelation and who spoke softly, if at all, about the supernatural aspects of Christian doctrine.

**Little Prospect of Battle**

Although fundamentalism is again becoming a powerful force in protestant thought, there is little prospect of a renewal of the old battle with modernism. The reason is that there are few modernist theologians left to uphold the "winning" side of the 30-year old debate.

The dominant school of theology in protestantism today is what is called "neo-orthodoxy."

By comparison with fundamentalism, neo-orthodoxy may be termed a liberal theology. But it is essentially a conservative reaction against the excesses of modernism.

For example, neo-orthodoxy

leaves room for several viewpoints on the precise nature of atonement, but it takes very seriously the historic Christian affirmation that "God was in Christ, reconciling the world unto himself." It does not insist upon, neither does it deny such doctrines as the virgin birth.

**Differing Views on Bible**

The principal differences between today's "neo-orthodox" and "evangelicalist" theologians stem from differing views of the Bible.

Unlike extreme fundamentalists, modern evangelicals do not, as a rule, uphold the belief that God literally "dictated" the words of the Bible. They admit the possibility that slight errors have occurred in translation or in copying manuscripts.

But with these qualifications, they regard the Bible as the "verbally inspired, inerrant word of God." For example, they read as genuine history the Old Testament accounts of the creation of the world in six days, the flood, and other episodes which many modern Christians regard as symbolic.

A rediscovery of the scriptures as a primary source and testing-ground for all Christian doctrine

has been one of the major features of neo-orthodox theology. But while neo-orthodoxy accepts the Bible as a unique and divinely inspired record of God's revelation, it also recognizes as human role — and therefore the possibility of error — in writing and transmitting the sacred books.

It also believes that the ultimate revelation of the "Word of God" was in his incarnate son, Jesus Christ and that all of the Bible must be read and interpreted in the light of this revelation.

**SOIL RESEARCH**

DAVIS, CALIF. — (UP) — Agriculture scientists are planning to add radioactive gypsum to soil in California ranch lands to determine where the fertilizer goes. By tracing the radioactivity they hope to find out how much of the gypsum goes up into the plants and how much is washed out of the soil by rain.

**DOG TRIF**

MALDEN, MASS. — (UP) — Linda Fillmore, eight, was walking to a store when a dog snatched her purse, containing \$5 her mother had given her to buy groceries, and ran away.

**POPULAR COURSE**

DAVIS, CALIF. — (UP) — A "management" course for farmers and ranchers has become very popular, the University of California agriculture school reports. An increasing number of students are majoring in ranch management. Graduates find job opportunities plentiful on the ranches which cover 37 million acres of California.

Western Reserve university in Cleveland was established in 1826.

**A DEER COLLISION**

RUMFORD, Me. — (NP) — In Andover, Mass. Hunter searched woods near here all day for a deer but failed to find one. Driving home, Philip Caudet struck a deer. But it struggled to its feet and bounded into the forest. Caudet had to pay about \$400 repairs to his auto.

The female green-wing teal, which weighs about 15 ounces, is the smallest of North American ducks.

Give them the ENERGY growing bodies need!

### P. Bresee Found Nazarene Church

The following is in connection with the golden anniversary being observed by the Church of the Nazarene.

**"The Glory Barn"**

Phineas Bresee, who, at the age of 36, went "out under the stars" to found what became the Church of the Nazarene, was fond of admonishing his congregation to "keep the glory down!"

By that he meant to nurture the glow of the Spirit and to make a response when the Spirit so led. His first tabernacle-type church in Los Angeles became widely known as "the glory barn" for that reason.

From these early days, it has been the freedom in the spirit, the spontaneity in the services, and the joy mirrored on members' faces that have been hallmarks of Nazarene evangelistic efforts everywhere.

Prior to the final union in Pilot Point, delegates from churches in the East and West held a preliminary conference in Chicago in 1907. "Fraternal" delegates and guests at the 1907 conference were a committee of seven from the south, who stayed through all the proceedings. Rev. C. B. Jernigan, of Pilot Point, Tex., told the delegates at Chicago. "This is the biggest thing we have ever seen, but Texans are not afraid of big things. We are here to stay!"

And as good as his word, the Rev. Jernigan marshalled support for the national union and helped to make arrangements for the 1908 conference. It was at that time that his group, the Holiness Church of Christ, united.

**Jack Barry's Horse**

Virtually every local congregation has one or several stories of special providential help in getting their work started and a place to ship built.

Chicago First Church has the story of Jack Barry's horse, an animal of rare sagacity, that stopped automatically before the right homes when given its head on Barry's tea and coffee route.

Once the church, facing eviction from a rented hall, was praying desperately for a place to worship. Late that afternoon, Barry fell fast asleep on the seat and the horse strayed off its route for the first time. Finally, the horse stopped and Barry awoke. There he found a vacant church building with a "for sale" sign prominently displayed. This was at 62nd street and Eggleston, site of the huge Chicago First Church edifice until six years ago.

Main business of the church is transacted at quadrennial general assemblies. The Manual, or Discipline, of the church contains articles of faith and general rules for membership.

No major changes have been made in organization since 1923 although provision has been made for amendment by a two-thirds vote of delegates, followed by a two-thirds vote of district assemblies.

General assemblies have been held in 1911, Nashville; 1923, Columbus; 1932, Wichita; 1939, 1923, 1936, 1952, 1956, Kansas City; 1940, Oklahoma City; 1944, Minneapolis; and 1948, St. Louis.

**Emphasis on Sunday School**

Sunday school emphasis has been strong in the church from its beginning. Sunday school attendance and promotion have been at the forefront especially in the last 25 years, since studies show that most members of the church come through the Sunday school.

The Nazarenes created a department of church schools in 1928; in 1937, graded lessons for all ages were instituted; in 1945, boys' and girls' camps and young people's institutes were organized by districts. Daily vacation Bible schools also have been featured.

General's Gift Message  
Chairman Powers prayerfully

### People Are Urged To Speak Out For Disarmament

TALLAHASSEE (UP)—Gov. LeRoy Collins has urged all Florida citizens to join him in speaking out for world disarmament before it becomes too late.

Collins, in his monthly report to the people, said, "This is no time to be keeping quiet. Our whole civilization is in peril."

The governor said the world was headed toward "global suicide" in the race among nations to assemble "greater and greater tools of destruction."

"Our nation seems committed to a course of all-out power and might through military arms," Collins said. "No one questions that we must be strong enough to resist any one who would destroy us. But this should not be our major offensive. Peace must be our aim, not war."

Collins said progress the state has made in the past year pales in significance when we consider the peril which faces Florida and the nation, in fact, the entire world.

"Now is the time for all of us to speak out before it becomes too late," he said.

The best thing that could happen to the nation in the new year, he said, would be a dedication to seeking world disarmament and mutual understanding, and "the development of an effective program to obtain their acceptance throughout the world."

He asks his church to help keep American Protestantism "a vital spiritual force in the world—spiritual and evangelistic in character."

Dr. Samuel Young calls on Nazarenes to reawaken themselves "to the urgency of our world mission."

Dr. D. L. Vanderpool says, "We have challenged ourselves this year to an all-out effort in every department and it should give our church a mighty thrust into the tomorrow." Dr. G. B. Williamson, calling for a "deepened interior life," says, "The distance we cover (in the future) will be decided by the 'power pack' we possess to keep increased machinery operating smoothly and efficiently."

Dr. Hugh C. Benner writes: "The growth, unity, financial strength, training program, and broad world-wide vision of the Church of the Nazarene give to us a basis of faith that within a reasonable time there shall be a half million Nazarenes around the world!"

### Lake Mary News

By ETTIE JANE KEUGH

man, will have charge of the program.

**LAKE MARY**—Mr. and Mrs. A. B. Ayers who live on Fifth St. were the weekend guests of his sister and brother-in-law Mr. and Mrs. R. B. Silloff at their home in Ft. Myers.

"I had a nice note from Agnes Musgrave Monday. She said that Mr. Musgrave (Bill) returned home from a five day stay at the Florida Sanitarium. He is improving and I'm sure we all hope that he will soon be feeling fine again. Mrs. M. said how wonderful the neighbors and her sister and brother-in-law had all been while Bill was in the hospital."

Also this week came a note from Virginia Anderson reporting as she said "The activities of the P. D. Andersons, when they weren't working 14 hours a day at the Post Office" Dec. 13, Mr. and Mrs. J. V. Richards and Mrs. Louise P. Wilson of Enterprise helped P. D. Anderson celebrate his birthday. Mrs. Anderson served cake, ice cream, coffee, nuts and minis.

Dec. 22 they attended the annual Christmas Tree for Underprivileged children given by Mrs. A. B. Boger in Orlando. That same afternoon they called on Mrs. M. O. Overstreet, Miss Elizabeth Overstreet and Judge and Mrs. E. G. Duckworth, all long time friends of Mrs. Anderson.

Spending Christmas night with his parents were Mr. and Mrs. P. D. Anderson Jr. of Savannah and children Mona and P. D. III and Miss Bobbie Smith. They were on their way to Miami to visit Mrs. Anderson's mother and other relatives. On their return trip, they spent New Year's Eve with the Andersons at their Lake Emma Home.

Sunday afternoon Dec. 29, the Andersons called on his cousins Mr. and Mrs. Raymond Fisher in Mt. Dora and then went to Ocala to see a brother-in-law L. S. McCaughey of Birmingham. Returning to Lake Mary they dropped in at the M. Ball open house.

New Year's afternoon the Andersons with Mr. and Mrs. Sidney Fowler attended the Open House of the Walter Collingswoods who have recently purchased a home near Lake Brantley. Sunday they were dinner guests of the J. V. Richards in Enterprise for a family reunion.

Mrs. Ellen Willard and Kathy returned Saturday by plane after spending a week in Burlington, N. C. and Columbia, S. C. Kathy wanted to see snow so on Sunday they took a trip to the Blue Ridge Mountain in Virginia, but no snow.

Mr. and Mrs. Eliehard Keogh and children Craig, Keith, and Collin spent Sunday in Willwood as guests of the Rev. Don Replogle minister of the Wildwood First Presbyterian Church.

Mr. and Mrs. H. M. Gleason and A. R. Hunkins were Sunday dinner guests of Mrs. J. L. Hobby in Sanford.

The Executive Board of the P. F. A. met Monday at the School. Mrs. W. C. Hopkins presiding.

The school kitchen was the main topic of discussion, a new floor and new baking pans are needed. Mrs. Dale Alexander, study group chairman, announced that a study group will be held the latter part of February on the library. A group under the direction of library chairman Mrs. Robert Lankford will meet Monday at 1 p. m. at the school to repair books. Anyone is invited to this group. The library books are in bad condition and the more coming out to repair them the quicker the job can be completed. Mrs. Morris Steiner announced that Mrs. Marshall Smith would serve as secretary during her absence.

There will be no Lake Mary P. F. A. meeting during February, but all members are invited to the special meeting at Pinecrest School for Founders' Day. The date will be announced later. The next meeting will be Jan. 16 at the school. Mrs. Milla, safety chair-

COURTESY WEEK GUESTS OF SANFORD, Mr. and Mrs. Wendall Saines of Jackson, Mich. enjoy an evening of music and dancing at the Mayfair Inn during the evening cocktail hour. Pete Bukur and his Populaires play nightly at the Mayfair. (Staff Photo)

The Florida Accountants Association — an affiliate of National Society of Public Accountants

Your child may have earned over \$600 in 1957 and you can still claim the dependency deduction for him provided he is under 19 years old; or if he is over 19 years old, he was also a full-time student for at least five months of 1957, at an educational institution which normally maintains a regular faculty and curriculum and normally has a regularly organized body of students in attendance at the place where its educational activities are carried on; or if he was pursuing a full-time course of institutional or farm training under the supervision of an accredited agent of an educational institution or of a state or political subdivision of a state, and you provided over one-half the cost of his support.

This applies only to your children. This is, your son, daughter, his or her spouse, then you cannot claim the dependency deduction.

You should be sure that you first furnish over one-half of the support.

Definition of Support — Support includes food, shelter, clothing, medical and dental care, education, and the like. Generally, these items of support are measured in terms of the amount of expense incurred by the one furnishing such items. However, if the item of support furnished an individual (either by himself or by others) is in the form of goods, services, or other benefits, it will be necessary to measure the amount of such item in terms of its fair market value.

In computing the amount of support include amounts contributed by the dependent for his own support (furnished an individual (either by himself or by others) is in the form of goods, services, or other benefits, it will be necessary to measure the amount of such item in terms of its fair market value.

In figuring whether you provide more than half of the support of a student, you may disregard amounts received by him as scholarships.

**ASIAN PROBLEMS**—The map locates problems that foreign policy planners face in the Southeast Asia Treaty Organization. SEATO nations (in black) are Pakistan, Thailand, the Philippines, Australia and New Zealand. The United States, Great Britain and France are also members of the SEATO pact. (Central Press)

**REVOLT LEADER EXECUTED**  
VIENNA (UP)—Laszlo Ivan Kovacs, a leader in the Hungarian revolt, was executed Thursday shortly after the Communist Hungarian Supreme Court confirmed his death sentence. Budapest Radio reported today. Kovacs was accused of having led an armed group during the 1956 uprising. He also planned to establish an extreme right-wing party after the revolt, Budapest Radio said.

**VEHICLE THEFT**  
PIERRE, S. D.—(UP)—State Police Radio has reported a theft of a motor vehicle of a different sort. A 1954 red tractor near Alliance, Neb.

# THE ECONOMY CAR

## OF THE LOW-PRICE THREE

### THE BIG 58 FORD CUSTOM 300

Here's the best news of the year for people who want to make their car dollars go further:

While prices of other cars have gone up for 1958, Ford has reduced the prices for its popular Custom 300 models... below 1957 prices!

And these new 58 Fords that you can buy for less than 1957 prices are beautifully styled, handsomely trimmed cars that can stand up with pride alongside even the costliest cars. Yet they are the lowest priced cars\* of the low-price three!

\*Based on a comparison of manufacturers' suggested retail delivered prices.

If you go for V-8 performance, you can have your Custom 300 powered by Ford's all-new Interceptor V-8 with Precision Fuel Induction.

Or if a "six" suits your driving style better, you can have Ford's famous Mileage Maker Six.

See and Action Test a new Ford Custom 300 and you'll say what they are all saying: For another riding comfort, top-notch performance, tight-fitted economy, top-dollar value... you can't beat the Ford for '58. See your Ford Dealer!

## There Are "Accident-Prone" Individuals In The World

We've all heard much of "accident-prone" individuals—people who just keep on having one mishap after another for no discernible reason. These unfortunates are considered liabilities when it comes to doing the work of the world. But, as an article in the Journal of the American Medical Association points out, there are some "happy accident-prone" people who are pretty important. They're the researchers, scientists, and doctors who accidentally discover some big things while looking for something else.

A classic example was when Dr. Fleming accidentally left a dish uncovered—and discovered penicillin as a result. And there are many more. Long ago, van Leeuwenhoek focused a magnifying glass on a drop of water instead of a fly's leg as he intended—bacteria was thus discovered and the whole science of medicine revolutionized. Edward Jenner heard a former milkmaid boast that

she was immune to smallpox because she had had cowpox—and cowpox became the agent for mass immunity against smallpox. A Paris physician saw children tapping messages to each other along opposite ends of a plank—and from this devised the principle of the stethoscope. A chemist, who had been working with a strange chemical, forgot to wash his hands before lunch. He wondered about the sugary taste of his beef sandwich—and the end result was saccharine. There is a word for the ability to make some valuable or pleasant discovery without deliberately looking for it—serendipity. But luck doesn't explain the whole story by any means. The American Medical Association article quotes a doctor as saying this: "Discoveries made by accident, are never pure luck. They come about only because the man who makes them are alert enough to fathom their usefulness."

## The Best For The Least Results

The reconvened Congress has plenty of business on its hands. It is flooded with proposed laws touching on every conceivable phase of the national life. The problem, so to speak, is to separate the wheat from the chaff of possible legislation.

In the domestic field, a series of laws relating to transportation should be given top priority on the agenda.

The primary purpose of this legislative effort—which has the full support of farm and business organizations, top men in the government, newspapers and magazines throughout the country, and all manner of other groups—is to get rid of outmoded regulatory policies and philosophies which are a hangover from the days when the railroads had a virtual monopoly of commercial transportation.

For instance, if a railroad wants to charge a lower rate for doing a job than is charged by a competitor it frequently finds that it is not allowed to—on the grounds that this would take business away from the competitors. That is much as if a store was denied the right to cut prices because business would be taken away from another store down the street.

These proposed laws would give each and

## Try and Stop Me

By BENNETT CERF

CHAROTOGA SPRINGS once was famous for its mammoth old hotels, with double-decked verandahs, vast dining rooms, inside gardens, and marble-floored lobbies. Alas, they're all torn down by now, but in the last year of the Grand Union Hotel, biggest of them all, Joe E. Lewis, night club star, registered there. At three in the morning, he heard his closet door squeak, and saw a Confederate soldier step out to demand, "Who's winnin'?"

Naturally, Joe couldn't sleep after that. Besides, the railroad station was below, and a switch engine kept shunting cars back and forth. Finally, Lewis called the night clerk. "Maybe you can tell me," he suggested, "what time this hotel reaches Chicago?"

A rock 'n' roller fell in love with a college girl who declared he'd have to improve his education if he ever expected to make time with her. He phoned her happily the very next day to report, "Baby, I'm on my cultural kick! I've joined the Literary Guild!"

### TODAY'S THOUGHT

"I will praise Thee, O Lord, among the people."

### THEIR BIGGEST ALLY!

## Inside Washington

BY HENRY CATHCART  
Central Press Washington Writer  
WASHINGTON — Long-time observers of the capital scene are convinced that the coming session of Congress will be the most serious and frustrating in many years.

All signs point to more politics than usual, a battle royal over defense and missile spending, investigations all over the place, and all this capped by a yearning effort to get home early from the campaign.

Tax cuts are out, of course, and the whole effort in this area will be to forestall or delay the looming possibility of a tax increase until 1959.

Republicans will be in the uncomfortable position of having to defend charges that their was a "do nothing" administration that failed to heed the warning signs of Russian advances in missiles and Sputnik.

Democrats will assail the administration for not spending enough money for satellites and defense while being careful not to unbalance the 1958 budget to the point where they will be responsible for a tax increase.

Actually, as in all election year sessions, this one will be loud, and maybe long, but it probably will end in a stalemate with little legislation but much campaign fodder for each side.

JENNER "DRAFT"—The announced decision of Senator William E. Jenner (R), Indiana, not to seek re-election already has had one result he may have foreseen—a "draft Jenner" movement.

Republican politics in the Hoosier state are, as usual, in a condition of hot-tempered turbulence and no candidate seems likely to emerge as the kind of vote-getter Jenner demonstrated himself to be in past elections.

With Democratic National

BOOKKEEPING EASE  
WASHINGTON (UP) — Labor Secretary James P. Mitchell has proposed easing the bookkeeping chores of firms holding government contracts in excess of \$10,000. These firms now are required to retain wage and hour records of employees for at least four years. Mitchell Thursday proposed cutting this time to three years. Interested persons will have until Jan. 17 to submit their views to him.

A new aluminum anchor, weighing 48 pounds, is said to have the same holding power as a cast iron anchor weighing 150 pounds.

## Foreign News Commentary

By CHARLES M. McCANN  
The United States, British and West German governments are about to decide on the next Allied move in the cold war.

They are now drafting replies to the letters which Soviet Premier Nikolai S. Bulganin sent last month to President Eisenhower, Prime Minister Harold Macmillan and Chancellor Konrad Adenauer. Bulganin proposed a high-level meeting of leaders of the chief Allied powers on cold war issues. Presumably the Allied replies will be coordinated through the North Atlantic Treaty Organization and through direct exchanges between the individual governments.

Replies Forestall Events  
In any event, they may forestall the course of attempts to ease the Cold War during the next few weeks or even months.

Russia, at the moment, is in a strong position after its startling successes in the earth-satellite nuclear missile fields.

The United States also sees no use in holding another "summit" conference unless there is some prospect of success.

There is, in addition, the question whether to make any substantial concessions to Russia if new disarmament negotiations are started.

Macmillan, in a broadcast to the British people Saturday, proposed "a solemn pact of non-aggression" as the first move in easing the cold war.

## Alien Information Is Confidential

Information furnished by aliens in making their annual address report to the Government is confidential.

According to Joseph Savoretti, District Director of the Miami Immigration and Naturalization Service office, the information furnished by aliens in reporting their address has been declared confidential by statute.

These reports must be submitted during January each year by all aliens in the United States, with few exceptions. Forms on which to submit the reports are available at any Post Office or office of the Immigration and Naturalization Service. Persons who are unable to pick up a form because of illness, or other reasons, may have a relative or friend obtain a card for them.

The card should be returned to one of these offices.  
Parents or guardians of aliens under 14 years of age submit reports for such children.

More Not With Taken  
His move was not well received in Washington, and he dragged back a bit on it yesterday. A Foreign Office spokesman was authorized to say that Macmillan felt that a non-aggression pact must be part of a "package" deal on disarmament and other issues.

Adenauer had a private talk Sunday night with Andrei A. Smirnov, Soviet Ambassador to West Germany. It was only a 10-minute chat in a corner of a room in the Schaumburg Palace in Bonn, but

diplomats regarded the talk as most important. Smirnov canceled his Christmas-tide vacation in Russia in hope that he could do some negotiating with Adenauer.

It looks more and more as if Adenauer is going to take the lead in sounding out Russia on a possible Cold War move. It looks more and more also, regarding the Allied replies to Bulganin, that the first stage of any negotiations with Russia will be conducted directly through diplomatic channels.

## YOU'RE TELLING ME!

By HOTT KING  
Central Press Writer

A BRITISH professor thinks that in another 50 years average U.S. income will hit \$11,500. How common can costs get?

J. Edgar Hoover reports that major crimes increased 7.5 percent last year. If just goes it show, we aren't shepherding the world how black we are pointed.

The National Planning Association says we can increase spending by 10 billion dollars by 1960 without increasing taxes. In other words, if we take care of the million, the billions will take care of themselves.

The U.S. and Russia agreed "in principle" to exchange information in the fields of science, industry and the arts. Obviously, what we don't know won't hurt them.

Exchanging information with Russia in the field of art seems hardly revealing. For a long time now they've been telling the world how black we are pointed.

Exchanging scientific information with Russia is academic, too. They've already told us they invented the atomic light, the airplane, etc.

It's in the field of industry that we've got the Russians coming and going. And we've got to keep on going, because they're coming.

## Important Notice To All Voters In Seminole County

In compliance with Florida law which requires verification of registration records every two years, double postcards are being mailed January Ninth to every person whose name is in the County registration books.

All questions on the return portion of card should be answered, the card signed, and mailed in at once.

Failure to return card before January 31st will result in your name being stricken from the books, and it will then be necessary to re-register in person in order to vote.

If you are registered and do not receive card within ten days notify the registration office.

If you have changed your name since registering or wish to register for the first time, come to the office in person.

## Color, Fabric Crop for Spring Said Bountiful

**By GAY PAULKY**  
United Press Women's Editor  
**NEW YORK**—The spring crop of colors and fabrics is bountiful this season, even if there is a famine in silhouettes.  
It's as if designers were saying to women, "Okay, we're giving you little other than the loose-fitted chemise and its variations in silhouette. But we'll make it up to you otherwise."  
Bold solid colors and splashy floral prints are featured by the 30 firms who this week are participating in the semi-annual showings by the couture group of the New York Dress Institute.  
Fabrics are extravagant—thick, downy tweeds in silk, silk crepes, chiffons and sarahs, silk twills, brushed fleecy wools, hand-painted chintilly laces, pure linens and silks which look like linen, and rustic cottons woven to look like Harris tweed.  
Manufacturer Harvey Berin showed party dresses in white lace embroidered with pink floss. Cell Chapman's cocktail and evening dress collections were full of glossy floral cottons rich as silk in texture.  
And Samuel Winston bragged that the fabric in a white re-embroidered and appliqued lace evening dress cost him \$146 a yard.  
**Colors Are Vibrant**  
Colors in both daytime and evening wear are vibrant rather than subdued. Miss Chapman featured a whole group of figure-revealing evening dresses in flame red chiffon. And bright red suits and coats show through most collections. The firm of Originals showed coats in bougainvillea red, clear yellow, melon, azalea pink, flame red and tobacco brown.  
Navy remains the spring favorite, usually combined with white. And white stands alone in many collections. Miss Chapman showed one slim-cut short cocktail dress in white silk crepe, topped by a white wool jersey jacket fastened below the waist with a big jeweled button.  
**NEW EATING RECORD**  
**BURLINGTON, England (UPI)**—Joe Steel, who claims the title of "world eating champion," set another record Wednesday. He ate seven feet, 10-inch of sausage in five and a half minutes. He said he would have done better but he already had a hearty breakfast only a few hours earlier.  
**VALGRANDE JUST PRACTICE**  
**BOLZANO, Italy (AP)**—Two young German climbers said today they were going to try a mid-winter climb of 15,781-foot Mount Blanc, Europe's highest mountain. The two mountaineers, George Ekman and Hubert Baumgartner, both 20, said their unprecedented winter climb of the 10,600-foot Valgrande tower in the Civetta group of the Dolomites this week was "just practice" for the Mount Blanc climb.

**Individual Flavor**  
One firm, Davis Cabinet Co. of Nashville, Tenn. featured a new Renaissance-inspired line of solid walnut and sturdy oak furniture.  
The home fashion trend for 1958—if there is a trend—is a more pronounced blend of the functional elements of modern contemporary with the warmth, romance and nostalgia of the traditional, industry spokesman said today.  
The "melded-style" collections were apparent everywhere as the international home furnishings market opened Monday in the Merchandise Mart and the American Furniture Mart.  
More than 25,000 dealers began selecting the furniture that will appear within a few months in showrooms across the country. The market closed to the public, runs through Jan. 17.  
Many manufacturers showed collections of contemporary pieces in which old world influences were used to add elegance and romantic charm.  
The "sterile modern" has been modified by an aura of romance, so makers of traditional furniture have incorporated modern influences in their lines.  
One longtime maker of Early American furniture, Williams Furniture Corp. of Sumner, S. C. exhibited a new correlated line in which a triple dresser embodied modern drawer arrangement with basic Colonial design. A buffet in the same line featured a Colonial-type raised panel door on a compartment on one side and a functional, multiple-size drawers on the opposite side and in the middle.  
Correlated groupings for the living, dining and bedrooms—well established in the high price brackets—have been extended to the mass market. A maker of low-price furniture, Dixie Furniture Co. of Lexington, N. C. showed a new collection of more than 80 pieces from which the homemaker can furnish her bedrooms, living room and dining room.

**YOU'RE AN HONORARY SHERIFF** now, said Deputy Sheriff James Singletary, representing Seminole County Sheriff J. L. Hobby, as he pinned a badge on Courtesy Week guests of Sanford, Mr. and Mrs. Wendall Saines. (Staff Photo)

## Educators Start Series Of Meetings

**MIAMI BEACH (UPI)**—The educators who will have the job of producing the scientists to match Russia's technological advances started a week long series of meetings Monday.  
The 4th annual convention of the Association of American Colleges AAC opens with a banquet tonight. But 13 subsidiary groups of educators, most of them representing religious institutions, began meetings Monday.  
The AAC and companion organizations has attracted more than 1,000 high ranking educators, and uppermost in their minds is discussion of how to turn out more scientists and finding the money to do it.  
Principal speaker at the meetings will be President John A. Hannah of Michigan State University. Hannah recently was named by President Eisenhower to head the federal Civil Rights Commission. He will address tonight's banquet of the association.  
Gov. LeRoy Collins will welcome the delegates at the banquet.  
Largest of the meetings is that of the Council for the Advancement of Small Colleges which represents 66 colleges in 32 states.  
The AAC is composed of 150 colleges and universities—85 per cent of the nation's accredited four-year liberal arts and sciences colleges.

**LATE VISITOR**  
**ENDICOTT, N. Y.**—(UP)—Mr. and Mrs. Roy Stager couldn't figure who was banging on their front door about midnight. They got up from bed, went to the front door, opened it and met the steady stare of a deer.

Wed. Jan. 8, 1958—Page 9

**STRENGTH FOR YOUR DAY**  
In the day of my trouble I will call upon Thee; for Thou wilt answer me.—(Psalm 54, 7)  
How wonderfully great are those who are so strong and steadfast in their faith—who, whenever it wavers for an instant, affirm it at once restored! They shall never be long desolate or sorrowed, for they live in God.

## Oviedo Lassies Nose Out Lyman Five 51-48

By Marian Jones

OVIDEO—In a game that was packed with excitement, the Oviedo Lassies nosed out the Lyman Quintet by a score of 51-48.

Unusual to see was the small crowd which attended an Oviedo-Lyman turnout last night. When the two teams clash in the gymnasium it is usually filled to capacity. However, quite a few did have the cold to see the two ancient rivals.

The Oviedo Girls game got off to a quick start when Capt. Melanie Jackson tossed in two points for the local quintet. Lyman missed on two free shots but quickly made a free shot making it 3-2 Oviedo. Ann DeShazo then came through with another field goal making it 5-2 Oviedo. Lyman tallied with a field goal and then a free shot which tied the game at 5-5.

This is the way the game went throughout.

It was Capt. Melanie Jackson all the way last night as she tallied 22 points for the local quintet. Mary Ann Slaton was second high in points making 16 of the other 18. In the final few minutes of the game, with the local girls leading by a lead of 7 points and the clock in the red indicating the near end of the game, the local girls lost control of a field goal and then came through to within three points of the final score. The Oviedo girls again gained possession of the ball as Coach Marguerite Partin called "time out" with one minute to go. The girls came back into the game and followed the instructions of the crowd to freeze the ball. And the game ended 51-48 with the local girls in the lead.

In the boys game, Coach Mikler started off with Carl Fabry, Mike Duda, Andy Duda, Joseph Duda and Jimmy Brookshire. These boys went almost all the way. Coach only changed in the last few minutes of play, despite the fact that the local lads had the lead by a large majority all the way. Having covered the Lyman game so many years I was amazed not being able to believe that this was Lyman playing. The first quarter was just two teams racing up and down the court as both sides missed many chances to tally.

The first quarter ended at 5-2 in favor of Oviedo.

In the second quarter the game

## Legislative Group Calls For Early Meet With Collins

TALLAHASSEE (UP)—The powerful Legislative Council has called for an early meeting with Gov. LeRoy Collins to "clear the air" of misunderstandings over Collins' recent demand that local property be assessed at its full cash value.

The council, indicating that assessment of property at 100 per cent of its value for tax purposes should be accompanied by a law requiring that tax millages be reduced accordingly, directed its Special Finance and Taxation Committee to schedule the conference with Collins.

Chairman of the committee is Sen. B. C. Pearce of Palatka.

At its annual meeting here, the council elected Rep. W. C. Herrell of Dade as chairman, succeeding former Rep. James Moody of Hillsborough who resigned from the House to become a circuit judge.

Rep. Williams Chappell of Marion was appointed to the council to succeed Henry Land of Orange who resigned from the House to run unsuccessfully for the Senate. Rep. Emmett S. Roberts of Palm Beach was named to the council to succeed Rep. A. J. Musselman of Broward.

The suggestion for the conference with Collins over tax evaluations came from Sen. Merrill Barber of Vero Beach. Barber charged that Collins' 100 per cent evaluation order—if carried out—could become a "Frankenstein that would eat us up."

"In my opinion, it would be very dangerous to force the tax assessors to assess real property at full value without having a legislative restriction on tax millage," he said.

In directing tax assessors to jack up real property values, Collins made it plain that he expected that tax millages would be reduced by the county commissions at the same time.

Sen. Paul Kiehl of Tampa said without pegging millages at reduced figures, property tax increased assessments would be "disastrous" to the state.

Collins hinted strongly that he would use his powers to suspend tax officials who ignore his orders. But Senate President W. A. Shands of Gainesville said it is a "100 to one shot" that any tax assessor so removed would be reinstated by the Senate "so it is ineffective from the practical approach except to cause confusion."

Members of the group, representing the Symphonie Radio and Electronic Corporation of Brunswick, N. J., were guests of the track in the Clubhouse for the Monday racing program.

A special event, tagged the Symphonie Handicap, was run off in the ninth race to honor the visitors. Free Coq, former Daytona Beach champ, won the five-sixteenth mile test handily.

And while rain prevented a presentation ceremony on the track, Trainer Jim Swafford brought the beautiful black dog into the comfortable, glass-enclosed clubhouse for pictures with the "Symphonie" delegation.

Mrs. Al Leon and Mrs. Ray Clemons presented a silver platter to Swafford in the unique post-race ceremonies.

Departure from Japan by a native was an offense punishable by death until 1876.

ly brings out a good crowd. The cheer leaders did more playing than the boys last night.

Members of the committee to meet with Collins in addition to Pearce, Barber and Shands are Sen. Wilson Carraway, Tallahassee, House Speaker Doyle Conner of Bradford and Rep. Roy Surles of Polk.

A COMMENDATION WAS PRESENTED to Roland De Jong, AQC (left) by CDR. J. M. Tully Jr., Commanding Officer of Heavy Attack Squadron Five, Monday morning. Chief DeJong worked out a service change to the bombing computer used in the A3D Skywarrior and his innovation has been adopted by the Navy Department. The invention will add to bombing accuracy and be an aid to navigation by better utilization of already existing parts.

ISRAEL SENTENCES THREE

JERUSALEM, Israel (UP)—A Tel Aviv court has sentenced three Israelis to life imprisonment in the slaying of Dr. Rudolf Kastner, former chairman of the Jewish Rescue Committee in Nazi-occupied Budapest. Sentenced Tuesday for the March 3, 1954, slaying were Joseph Menkes, Zeev Eckstein and Dan Shermer. Earlier the court had branded Kastner as a man "who sold his soul to the devil" by cooperating with the Nazis in the extermination of Jews in Hungary during World War II.

## Womanpower Lag Cited By Expert

AUSTIN, Tex (UP)—A University of Texas sociologist believes the United States is not developing its "womanpower" to its full capacity.

Dr. Robert L. Sutherland, director of the University's Hoag Foundation for Mental Health, said there is a need for more research and educational planning that take into account up-to-date vital statistics on birth, marriage only 32 years of age.

Sutherland pointed out today's American woman is through with bringing up children earlier than ever before and has time on her hands for more years than any other woman in the modern world.

The sociologist said that in half the cases a married woman will have her youngest child in the first grade when the mother is only 21 years of age.

"By age 22, middle life for half our married women begins. Their definite objectives of marrying and having a family have been realized. A woman entering middle life in her thirties knows that the chances are she will live at least 40 more years. What will she do with these years?" Sutherland asked.

Major Issues Facing Congress

WASHINGTON, (UP)—Current prospects on major issues facing the new session of Congress:

Tax cut—No chance unless economic slump gets worse. No prospect of tax rise.

Missiles—Many investigations of why U. S. is behind. In the end probably as much or more money than Eisenhower asks to catch up. Much congressional shouting about shakeup of the military command but little if any legislative action.

Foreign aid—Sharp cut in Eisenhower's four-billion-dollar spending program. Size of cut depending on impact of Soviet military and economic challenge and administration persuasiveness.

Trade—Administration won't get its requested five-year extension of reciprocal trade program with 25 per cent more tariff-cutting power. Concessions to protectionists may allow three-year extension with smaller tariff-cut authority.

Farm—Efforts to give farmers higher price guarantees depend on whether farm bloc can reunite. Any successful bill faces probable veto.

Federal pay—Administration to ask for average pay raise of six per cent for civilian and military. Congress likely to approve somewhat higher boost.

Postal rates—Increase in letter rate to four cents probable.

Labor—Bill to regulate employee welfare funds may be passed but other proposals less likely to win approval.

Education—Senate likely to approve administration plan or bigger one for federal scholarships. House prospect more uncertain. Civil rights—Oratory but no action.

Public works—Administration efforts to cut public works will run into heavy opposition.

Statehood—Prospects dim for statehood for Hawaii and Alaska. Debt ceiling—Congress likely to have to raise present 275 billion dollar ceiling on national debt to make way for higher defense spending.

## East-West Battle For TV Supremacy Ends This Week

By VERNON SCOTT

HOLLYWOOD (UP)—The East-West battle for television supremacy quietly ended this week when "Studio One," bell cow of New York video, moved local, stock and producer to greener Hollywood pastures.

This was the crusher for Eastern TV. It ended all arguments as to which coast is the TV capital.

"Live" Productions Popular

Popularity of film shows over "live" productions tipped the scales in favor of movie land three years ago. But Gotham continued to turn out consistently superior live dramas—"Studio One," "Kraft Theater," "Robert Montgomery Presents," "Circle Theater" and others.

Gradually the West coast came up with its own live ones—"Chick" and "Playhouse 90"—which out-pulled the Eastern shows.

Then came the Western trend which almost put New York out of the TV business altogether. For every network show that bit the dust back East a made-in-Hollywood Western galloped in as a replacement.

Only two major league dramatic shows remain in the East, "Kraft" and "Steel Hour." All others, filmed and live, emanate from tinsel town.

East Still Quizz Mecca

New York still lays claim to being headquarters for quiz and panel shows. It also points with pride to Steve Allen and Ed Sullivan. But "Maverick," a Warner Brothers Western has trampled them both in Sunday night ratings.

More than 70 per cent of all network TV now beams from Hollywood.

New Yorkers formerly cried "West Coast has quantity, but we produce the quality, artistic successes." The "Studio One" move ruined that argument.

Robson's Moves To Magnolia Ave.

Jim Robson, proprietor of the popular Jim Robson Men's Wear that for the past 8 years has been located at 306 E. First street, today officially announced his moving to a new location.

The Jim Robson firm will be in the new address at 115 S. Magnolia avenue on Friday, January 10th. Though the store will be open and conducting business as usual, extensive remodeling and decoration is still not completed at the new location.

Robson is a recognized authority on men's fashions, having specialized in this field during his entire business career in San Francisco in his chosen field this year.

When all work is complete, the new Jim Robson store will be one of the most modern men's head-to-foot outfitting establishments in Seminole County.

### N. J. Commuters Like Drafty Ride

CHATHAM, N. J. — 75-teen commuters known as the Polar Bears said-shoulder the humid interior of a passenger train they ride to work.

They like to stand in the rear vestibule of a front coach Monday through Friday with their collars turned up against the morning chill.

The Polar Bears have organized into an informal club, but they have no records, no dues, no officers. Anyone can become a member if he can stand the drafty journey.

The 18 ride the same Delaware Lackawanna & Western Railroad train from Chatham to Hoboken daily.

"We just seem to be a bunch of fellows who get along well together," said William T. Shoener of Chatham. "No matter what the weather's like—and once last year it was 14 below outside—we're out there every morning."

William O. Ten Eyck, also of Chatham, said the 18 "just don't like the idea of getting down and reading a newspaper in a stuffy coach."

"Our way relieves the monotony of commuting and the trip goes faster," Ten Eyck added.

Three Women  
Maurice J. Dalby, another Chathamite, said the members are called Polar Bears "because we're brave enough to roll up our coat collars and stand out there when it gets cold."

A. D. C. & W. conductor, William Murtha, who first called the 18 "polar bears," liked their idea so much that he joined them. He dropped out recently when he retired after 45 years service with the road. Another conductor took his place.

Eight men make up the hard core of the club. They absolutely refuse to mix with regular commuters who like to curl up with a cigaret or the morning papers in the warmth of the passenger cars. Four others are employed by the D. L. & W. and the remaining three are women.

DINNER FOR COURTESY WEEK GUEST, Mr. and Mrs. Wendall Saines at the Mayfair Inn. They are shown being served in the spacious Mayfair Inn dining room where they stayed overnight. (Staff Photo)

### Wednesday Night Television Battle

By WILLIAM EWALD  
United Press Staff Correspondent  
NEW YORK (AP)—There is this comedian, see? His name is Bill Brogan and for seven years his TV show has been top, Nielsen, 42.5.  
This Brogan has knocked over everything the other network has thrown at him—quiz shows, other comedies, the North Atlantic war games, King Farouk and his talent scouts, let's all sing with Charlie Chan. This Brogan is so big he could probably introduce Ed Sullivan from his audience.

Well, finally that other network gets smart and decides to fight Brogan with a crooner named Danny Smith. He is a relaxed crooner, but not too relaxed—after all, who can relax opposite a 42.5 Nielsen?

Anyway, this is about the way the lines were laid in "the battle for Wednesday night," an NBC-TV "Kraft Theatre" drama about the TV business.

Now for some reason I got this creepy feeling that in what they call real TV life I had encountered a situation before roughly like this Kraft plot. "Mr. Wizard" versus "Joe and Mabel," you say? No, not quite. But you're getting warm.

No matter. The important thing is that by the time the first commercial for orange muffins rolls around, the comedians Jack O'Leary and the crooner Earl Holliman are locked in a ratings battle, are insulating each other in the newspapers and the crooner is trying to steal a girl singer Virginia Gibson from the comic's show.

From that point, Brogan starts stealing the crooner's ratings in order to parody them. Brogan fires the girl singer but she de-

rides to go back to Ohio instead of to the crooner and everybody is very unhappy.  
Well, if you are still with us, after a noodle casserole commercial, the crooner goes to the girl's apartment and tells her that he loves her. Now in an ordinary play this might be the end, but Kraft still had about 15 minutes and one more commercial to go (it turned out it was for melted cheese and bacon and by this point I was dripping saliva on my TV set) so we had some more of what is called action.

It all ended happily, of course, with the comic and the crooner friends and the crooner and the girl singer all mushy about each other and me with a bacon and noodle sandwich on orange muffins.

But I tell you, after watching the shows of both the comic and the crooner, I figure they both were wrong to look so happy at the end. The way I see it, by next season, they'll both be replaced by westerns.

### SEVERNS WINS TROPHY

WASHINGTON (AP)—Outfielder Roy Sievers of the Washington Senators, who led the American League last season with 42 home runs and 114 runs batted in, has been named winner of the Washington Touchdown Club's Clark Griffith Memorial Trophy. He will receive the award next Saturday at the club's annual banquet.

### ADMIRALS TO RETIRE

LONDON (UP)—Britain will retire 20 of its 28 admirals next year in the Defense Ministry's economy drive, the Sunday Express reported Sunday. This is double the normal retirement quota. Of the Royal Navy's 98 admirals, 30 hold commands, 20 are assigned to administrative posts, 28 are on "other duties" and one has no present job.

Last river, which flows at the bottom of Meramec caverns, in Stanton, Mo., pours forth some four million gallons of water a day.

# Ike To Give Prescription For Winning Space Age Supremacy Today

By MERRIMAN SMITH  
Called Press White House Writer  
WASHINGTON (UP)— President Eisenhower gives Congress and the nation today his prescription for winning U. S. space age supremacy. The occasion was widely regarded as the acid test of the former

five-star general's leadership in the new era opened by Soviet Sputniks. The President planned to appear in person before a joint Senate-House session to deliver his most important State of the Union message since he entered the White House.

Assurances to Nation  
From all indications, he was expected to assure the nation that it is militarily stronger than Russia despite recent Soviet missile and space technology advances. But acknowledging Russia's giant military strides, he was ex-

pected to warn against complacency and lay down a positive program for outdistancing the Soviet Union in weapons technology. The President was expected also to put heavy stress on the need to help other countries, particularly the world of the under-developed nations, to counter a mounting Rus-

ian economic offensive. There was no sign the President would make startling revelations of U. S. weapons progress, or that he would pinpoint U. S. military weakness as reported by some high military and civilian officials.

His 28-minute speech, on which he was making revisions almost up to the hour of delivery, was to be broadcast and telecast to the nation and relayed to the world via the radio "Voice of America". The 14-billion-dollar question was whether his blueprint for strength would ease the fears of

foreign nations eyeing Russia's Sputniks and of critics at home both political and military. That is the expected total of the new budget to be presented Monday. Senate Democratic Leader Lyndon B. Johnson, (Tex.) had sounded a clear warning the nation demands positive leadership from

the Chief Executive in meeting the Soviet challenge. If Democrats do not feel this is forthcoming—and thus far they have indicated they do not—they are certain to seek the initiative in a bigger program of missile and space weaponry.

**Weather**  
Fair and cold again tonight with frost and freezing or slightly below. Low 25 to 32.

# State Awaits Hard Freeze Again Tonight

Farmers in the Sanford area are pretty gloomy about last night's freeze and the damage that is yet to be totaled. Temperatures dropped to 24 on the westside and on the Sanford State Farmers Market it was 26, according to Sandy Anderson, Assistant Manager of the market.

"It is too early yet to determine what damage has been done especially since the sun is out this morning," said Sandy Anderson. Apparently there were few smudge pots burned in the Sanford-Seminole County citrus area to ward off possible freezing of citrus and trees here.

Ice appeared everywhere this morning and where sprinklers were left on, solid sheets of ice were in evidence. Rain accumulated in streets was frozen and became slush as automobiles came into the city this morning. However, the cold was not as severe as expected since predicted

temperatures ranged down to 30 in this area. A heavy, snow-like frost covered the city during the early morning hours. Elsewhere throughout Florida today freezing temperatures gripped most of the state in the wake of the heaviest snowfall in 30 years, threatening multi-million dollar damage to the huge citrus belt.

Another freeze was expected tonight. Temperatures plummeted to 22 degrees in north Florida and were well below freezing through central Florida's lush orange and grapefruit groves. Readings were even lower in low-lying regions. Downtown Miami silvered under 38 degrees, but an unofficial reading of 31 was reported in North Miami.

# Officials Disappointed By Barge Canal Refusal

Florida's Washington delegation was outspoken in its "disappointment" at action of the Army Corps of Engineers' refusal to approve the Sanford-Titusville Canal. In telegrams to the Sanford Herald, Congressman George S. Hurling Jr., Senator George Spessard Holland and Senator Spessard Holland spoke out in their support of the canal.

Florida's Washington delegation was outspoken in its "disappointment" at action of the Army Corps of Engineers' refusal to approve the Sanford-Titusville Canal. In telegrams to the Sanford Herald, Congressman George S. Hurling Jr., Senator George Spessard Holland and Senator Spessard Holland spoke out in their support of the canal.

"Also, from the report it is fairly obvious that no consideration was given to the use of the project for recreational boating, an enterprise which has grown and is growing at such a rate that it is one of the big businesses of Florida."

Senator Spessard Holland (D-Fla.) said, "I am seriously disappointed at the action of Army Engineers in refusing to approve the Sanford-Titusville Canal."

# Italian Soldier Gets Leave To Visit Ailing Sweetheart

COMO, Italy (UP)—Italian army Pvt. Giulio Compagni was too overcome with emotion to say thanks when the army told him that he would be given a 30-day leave and sent him to England to visit his ailing sweetheart. The girl is 22-year-old Shirley Holmes who met and fell in love with Compagni last summer when she vacationed in Italy. Although she has a perforated heart she said last week she would make another journey to Italy to visit him even if it meant her death.
