Shipping Expert To Give Address Upon Planned Rate Hike

J. Cuttis Robinson, vice-president and general manager of the Florida Growers and Shippers League which is now in the thick of a Cight against a proposed increase in freight rates on vegetables shipped from this state. will be in Sanford tomorrow night to deliver a talk to members of the Seminole -Agricultural Club and all residents of this city who are interested in the subject. The talk will be heard at the

weekly meeting of the club, to be held at the Seminole High School starting at \$100 o'clock. Upon its conclusion, Mr. Robinson will answer any questions concerning the recent ruling on freight rates and similar subjects.

When it is considered that, based on an average increase of \$35 per ear of celery shipped north from Sa 'ord, more than \$150, 000 may be lost to this section if last year's average of 5500 cars of celery is maintained this year, the seriousness of the situation is apparent, Mr. Robinson declares.

Celery Freight Rates

The information that freight rates on a certain few vegetables are to be increased on an Wastigs of \$36.00 per car comes as somewhat of a shock to our celery farmers who had been under the impression that the recent ruling Caristrom field will be the chief of the Interstate Commerce Commission would react to performers. The visiting flyers their benefit as it does to most of the other fruit and will be given a public reception, vegetable growers of Florida.

It seems that the general decrease in Pirst Class Rates did apply to celery, as at first reported, but a correction of a long existing error in weight schedules of from 50 erease in rates amounting to more than the general depounds per crate to 71 pounds per crate resulted in an increase, thus effecting a net increase. This accounts for the his reports, wheat exports durearly confusion regarding the exact status of the celery fates.

It is particularly unfortunate that the increased rates should be made at this time. The outlook for the coming season is none too good at the present time, and with markets throughout the whole world generally shot to pieces, it seems a poor time to be increasing costs for anything. That it will work an undue hardship on the growers of this section goes without saying.

It should not, however, be too late to do something about it and we are pleased to note that the Executive Committee of the Growers and Shippers League intends to file a petition with the Interstate Commerce Commission asking for a rehearing on the celery rates.

At the same time, we understand that the increased greet thy paths. Proverbs rates are optional with the railroads, and it is quite within the realm of possibility that, if the matter were properly MAYER-Thou, () God, art presented by a representative group of telery farmers, the progress on every hand. > Words ean mean lots of things—but you can always trust your taste. If a cigarette tastes right, If it satisfies you right down to the ground, then it is right.

There are all kinds of tobaccossome good, some not so good. And there's the Chesterfield kind—the best Turkish and the best Domestic that grows. Full-ripe, sun-cured, aged in Nature's thoroughgoing way—and as mild and smooth and sweet as sunripened fruit. Chesterfields taste right

-because they are right. And something you can't taste -that's important too! The finest cigarette paper-so pure it burns without taste or odor!
