Bloody Battle Breaks Out In Jackson Jail

Dispute Over What To Do With 11 Hostages Causes Fight Among Prisoners

JACKSON, Mich. in—An angry, tired band of mutinous prisoners staged a bloody battle in their besieged cell block today after a dispute over what to do with 11 Southern Michigan prison guards they hold as hostages.

Two of the prisoners were stabbed and beaten badly in the melee which ended when their bloody hodies were tossed out of the cell block by other convicts.

the cell block by other convicts The civil war among the 179 mulineers, central figures in the riotous, flery 3-day-old outbreak that brought death to one convict and two million dollars damage to the huge Southern Michigan prison, came as negotiations were

underway for a truce.

The mutineers, in tense parleys with prison officials, had indicated a desire to barter the lives of the 11 guards they held as hostages in return for promises of no-punish-ment for their part in the rioting and improved conditions at the

Doing what is best for the country. Doing what is best for the country is an admirable sentiment and should be the concern of every citizen. But it should be pointed out that in a democracy the president is not the ultimate arbiter of what is best.

Those who wrote the Constitution were concerned with "doing what is best for the country." One of their purposes, stated in the preamble, was to provide for the general welfare. They were equally explicit, however, in expressing the division of powers among branches of the government. They made emphatic statements as to the civil rights of individuals. Among those rights was one concerning the owner.

The one excuse is the length of the ballot. At one time the Chicago ballot was compared for its length to a bedsheet, and there is no indication that it is much shorter now. No one could possibly keep track of one tenth of the names listed on it. The only possible course was to leave the ballot unmarked, or to pick out names at random. Perhaps that is what the electors did.

The election of the murdered Gross is one more argument for simplifying the ballot so that the average well-intentioned citizen can have some notion what he is doing when he enters the polling booth.

The United States leads the world in production of television sets and in transmitting television programs. Yet the progress of television in this country was made possible in part by the work of scientists in many lands. The first patent for transmitting pictures by wireless was granted to a German in 1844. Two Frenchmen in 1909 advanced the work and were responsible for naming the process television. Color telecasting was first attempted successfully in England.

The troops got a very severe being ton between the two extremes in parents, the ones who think all education must be painless and effortless and without rules; and those who believe we are too lax, especially with the other person's child. Most patrons are nice, middle-of-the-road people but you have no idea how loud two extremes can be. They need to define their philosophies. We all agree we are trying to teach children to live in a democracy but we are confused about what is meant by democracy. I found these definitions in an old teachers' Journal: (1) Anarchy is freedom without order. It desen't last long for the strongest overpower the weak and we have (2) a dictatorahip where there is order without freedom with order. Nothing can be accomplished without rules and no child will be worth his salt unless he is taught that certain things must be done because they are right, III.

Aleno Gains Third THE SANFORD HERALD Tot Powell Qualifies With 90 Win Of Season In Relief For Blues; Parise Hits No. 3

BY KENT CHETLAIN The two veterans, Chuck Aleno and Joe Parise, rose to the occasion to pace the Seminole Blues to a 6-5 victory last night over the Leesburg Packers in the Lake county seat before 314 fans.

Aleno notched his third atraight relief victory without a defeat as starter David Barrows was spelled in the three-run Packer third inining.

"Joltin Joe" Parise drilled out his third home run in the ton helf his third home run in the top half of the fifth with Lazaro "Go Go"

of the fifth with Lazaro "Go Go" Gomez aboard to put the Blues back in the game.

Gomez jumped in to the team load in batting by getting two singles in four trips to raise his average to .391 from .368. Meantime, Aleno who twirled six innings went hitless in five trips for the first time this year. Aleno was pacing the Blues with a .440 average before the game but dropped to .367.

John Imbra, Parise and Gobez each pounded out two hits to

The Seminoles will be in quest
of their third straight win and

lefty Lloyid will be seeking his second triumph of the year. Swain has not won a game since his opening triumph against Orlando last Monday night.

As in all Blues victories this year, the local nine had to come from behind last night to The Sandoird record now stands at five wins and three losses.

The Blues are expecting pitching help from both Miami Beach and St. Petersburg within the next two days. With the re-newed tatting power being shown in the last two tilts and the arrival of hew pitchers, it is conceivable that the Blues could get hot.

Mobilgas Economy

New Ford Mileage Maker SIX Thriftiest in its Field!

Agoin this year ; ; , as in the past two years . . . Ford was first in gas economy over all other cars in its price class in the Mobilgas Economy Run. In this toughest test, a stock model Ford Six equipped with Overdrive (optional at extra cost) averaged 53.855 ton-miles per gallon and 25.463 actual miles per gallon.

This was a very special triumph for Ford's All-New Mileage Maker high-compression Six. For now, with its new design providing 101-horsepower and free-turning overhead valves. Ford is definitely pound-for-pound the most economical low-priced car to run! Yes . . . Ford's thrift was clearly proved by the 1,415-mile grind from Los Angeles to Sun Valley. And a very important factor contributing to this victory is Ford's Automatic Power Pilot which squeezes the last ounce of power out of every drop of gas.

The AAA Coaled Board determines the winner by a "lon-mile per gallen" formule in history equal chance for all ears in each cline requestion at sice and weight. Ton-miles per gallen counts the cor weight (including passengers) in feet, malit-plant by number of gallen connected, alvided by number of gallen connected.
