

### Farms' Problems Are Explained By Bureau President

#### Tells Of Obstacles Standing In Way Of Food Increase

By LEO BUTNER

The Seminole County Farm Bureau of which I am president now has 80 members and is contributing its efforts to enroll every grower.

The Farm Bureau is new in Florida but not in other states, and the membership is growing by leaps and bounds.

Farm problems are greater today than ever before and without active representation at Washington where conditions are rapidly changing, especially with regard to agriculture, the Seminole grower may well find himself in an awkward position. The ruling of some bureau chief in Washington has all to do with the success or failure of growing a crop, particularly perishables. Such ruling might affect transportation, packing, fertilizer, marketing and labor.

Food production on American farms in 1942 was the largest in history. This was accomplished in spite of restricted supplies of farm machinery and repairs, a dwindling supply of farm labor and a steadily tightening transportation situation due to rubber shortages. Now the government is asking farmers to produce in 1943 a greater volume than the record production in 1942. Farmers are making every effort to discharge this responsibility but it cannot be accomplished unless steps are taken to make available to them the absolute essentials for this larger production.

We need to educate the government to recognize that while untrained people can be helpful in lessening the labor shortage on farms to meet seasonal demands, the maximum production requires men of experience and skill in the arts of producing vegetables and feeding livestock and poultry, dairy production, crop production and the handling of modern machinery and equipment. An inexperienced "hand" can be costly both in time required to train him and in the abuse of farm machinery.

The need for adequate new machinery, equipment, repairs and necessary materials and sup-

### Colleges Should Get Gage Playing Back From Pros

#### By CHIP ROYAL AP Features Writer

NEW YORK, Jan. 12 (AP)—(Phog) Allen, the Kansas University basketball mentor, thinks the colleges should do something about getting the hop game back from the professional.

Dr. James Nasmith discovered basketball in 1891, declared Allen, "and three years later, it was stolen by the professionals. Since then, the pro coach has ruled the game and I think it is about time that we did something about it."

The Kansas, who has been coaching hoopers for 33 years, made his charges during his annual pilgrimage to the big town which he admitted was only because his team collected \$2,000 for playing here.

"The Eastern teams are the greatest offenders because they play the pro game almost exclusively," continued the doctor. "When faced to your metropolitan teams and you will see what I mean."

"They have copied the dribble of the pros. They use the same method of attack, charging down the floor with reckless abandon. On the defense, they think nothing of fouling a man to spoil his shot—typical of the pros."

Allen says the game as played in the west really follows the rules set down by Dr. Nasmith. Just watch some of your metropolitan teams and you will see what I mean.

"They would be at a disadvantage with our style of play, and consequently be defeated by large scores." He said one of Nat Holman's City College of New York teams made a trip west, a few years ago, and suffered a humiliating defeat.

"Since then, we can't get any of your eastern teams out there," smiled Phog.

Continuing, the doctor said sectional play is differing more every year, and he expects it to go on that way until the rules committee wakes up and spends some time on research.

"Every time you bring up a new idea, they stifle it. I say they should stifle the pro game and let the colleges run basketball. Standardize the play all over the country, don't be afraid to change a few rules, don't neglect the high school coach's ideas, and let the colleges run the game. ### Dodger President Says Baseball Is Morale Builder

#### Dorais Believes Pro Football Is Extinct

NEW YORK, Jan. 12 (AP)—Baseball's only reason for continued existence is for morale, and if it is serving a useful function in this way then no apology is needed, says Branch Rickey, president of the Brooklyn Dodgers.

Ruffed by recent contentions from some critics that baseball has not fitted itself into the war program, the veteran major league executive told reporters: "Baseball either should be, or it shouldn't be. And if it should be, then it doesn't have to be ashamed of its apologetic about the way it is conducting itself."

"The only reason for its continued existence is for morale. That is an overworked term, but I don't know any better way of saying it, and it is exactly the word. Moral baseball is a legitimate business and deserves to be considered as such as long as it serves this function of helping to sustain the morale of civilians and servicemen, and the government agrees that it is useful."

"The only thing involved in transportation and we have taken steps to hold that to a minimum. A schedule of 154 games calls for no more travel than 150 games because in either case each club must make three trips into every other city in the league."

"As a matter of fact there seems to be some misunderstanding on the transportation score. Our problem is not pullman. The real problem is day coaches."

"When I was in St. Louis recently I got together with some railroad men who told me that they didn't believe any railroad would have a bit of trouble handling one pullman car filled with ball players."

### City Court Docket Was Small Friday

City Court Friday evening revealed a smaller docket than usual with cases of disorderly conduct in the majority.

Interpretation of the "Share the Meat Program" was evidently faulty in the case of Mayola Fudge, negro, accused of selling meat from a local store; formal charge larceny and \$25 bond, estrated.

Other cases were, Coleman Robert Williams, negro, drunkenness and disorderly conduct, continued; Arthur Mickens, disorderly conduct, \$10 and costs or 30 days; Malachi Holloway, disorderly conduct, \$5 and costs or 30 days; Rosella Allen, negro, speeding, \$5 and costs or 15 days; Theodore A. Tice, speeding, \$6 bond estrated; Ulmer Franklin Cleland, drunkenness, \$11 bond estrated; Marion Lowery, 2nd, to take treatment, \$10 and costs or 30 days; and Nathaniel Burke, failure to take treatment, \$10 and costs or 30 days.

The first apartment houses in this country were called "French flats."

About 80,000 Italians are residents of the United States.

## Three Cheers for You from Our Men in Uniform

And Many Thanks from FLORIDA MOTOR LINES!

### With Your Co-operation Florida Motor Lines Got 'Em Home for The Holidays!

Thanks to you, a most critical period in wartime bus transportation has been passed with flying colors.

Just before Christmas, Florida Motor Lines asked you to "Give your Holiday trips to men in the service"—and you who have learned to depend upon Florida Motor Lines for your travel needs, responded!

As a result of your postponing such trips, thousands of men and women in uniform were able to go home by bus to spend precious hours with loved ones.

While helping members of the armed forces, you also made travel smoother and more convenient for war workers and others whose trips could not wait. It's cooperation like this that makes it possible for Florida Motor Lines and other bus lines to carry on the tremendous mass-transportation job that is so completely essential to winning the war.

Now the holiday period is passed, Florida Motor Lines will make every effort to see that the service you count on is available when you need it—and with the utmost comfort and convenience that war conditions will permit.

We suggest, however, that you phone or call upon your nearest Florida Motor Lines agent well in advance of any trip. He can help you choose days and schedules that will be most convenient for you and best for wartime travel.

## Axis Dealt Series Of Heavy Blows On Far-Flung Fronts

### Allied Aircraft Hit Base At Tripoli And Destroy Many Planes In Area

(By Associated Press) United Nations' airmen delivered a series of blows at the Axis in attacks ranging from far off Burma and New Guinea to North Africa. British headquarters today reported Allied bombers attacked the big Axis base at Tripoli and United States warplanes were reported to have destroyed 24 Nazi aircraft in an attack on an airfield 10 miles south. A spokesman said 14 of the planes were downed in a blazing 10-mile running battle high in the air. In the New Guinea land fighting, General MacArthur's headquarters announced further gains against the trapped enemy forces on Papua beach where survivors of the Japanese invasion army, officially estimated at 15,000, were pictured as fighting the last stages of a losing battle.

Delayed messages from Guadalcanal reported United States Army troops and Marines had killed an average of 16 Japanese to each American lost. Major General Milford Harmon, commanding general in the South Pacific, said it is "just a question of time" before control is won of the key island by American troops.

Meanwhile indications that the Japanese have succeeded in putting their Midway air base into effective operation despite continued bombing by American warplanes were given Tuesday in Navy communique reporting an attack by 10 enemy fighters on a night of December 12 in the central Solomon Islands.

Grumman Wildcat fighters protecting the dive-bombers that attacked the base, only one was lost. The aerial engagement was fought Sunday morning (time) and the same day, the communique reported, the army's Martin Marauder medium bombers, with Alacra fighter escort, attacked the base but made no observations.

## H. B. Pope Added To Atlantic Bank Directors' Board

H. B. Pope has been added to the board of directors of the Sanford Atlantic National Bank, it was announced following the annual meeting of the bank's shareholders and directors yesterday afternoon.

At the stockholders meeting, J. L. Ingley, executive vice-president, presented a report of the bank's activities for the year 1942. He pointed out a number of changes which took place during that period in the operation of the bank, brought about by war conditions. One of the chief of these was the sale of over \$400,000 in War Bonds in Sanford and Seminole County. Mr. Ingley further reported that on Dec. 1, 1942, the bank's deposits reached the highest point in the bank's history.

At the conclusion of the meeting, Mr. Ingley and Mr. Shindler both expressed their appreciation to the employees of the bank for the fine spirit of cooperation throughout the year.

## Laval Concedes More Of France To Hitler

LONDON, Jan. 12. (AP)—Adolf Hitler has today conceded more of France to Germany, according to a report made by the Associated Press. The report stated that Laval, French premier, had announced that he had agreed to a new agreement with Hitler, under which the French government would recognize the German occupation of the rest of France.

## Delinquents Of Draft Listed By Clerk Of Office

The local Selective Service Board called attention today to a list of registrants who have lost contact with their board and have been classed as delinquents, subject to action by the federal government. E. C. Carter, draft clerk, stated this morning, as he explained that relatives of persons knowing the whereabouts of the men in the list below should get in touch with the Selective Service office.

One, while registrant, Nathan Ray Williams, 21, of 1215 S. 1st St., has been reported to the Federal Bureau of Investigation; Willie Hall, Henry Joseph Brown, Lincy Osborn, Tom McGraw, John Henry McGraw or McGee, Henry Green, John Howe, Walter Worth, Harry Turner, Morris Wallace, James Scott, James David Washington and Monroe Pitts.

Late registrants in the first Selective Service registration who will be reported to the FBI at once, unless they complete questionnaires are: William Clark, LeRoy Kennedy, Eddie Hamilton, James Gibson, Frank Milton and George Wilson.

Notices of "suspected" delinquency have been mailed to the following men of the first Selective Service registration, who have failed to return their questionnaires: Frank Burroughs, Clyde Cameron, Charlie Singleton, James Thomas, Gus Baker, Charlie Edward, William Jones, Robert Jackson, Alton Warren, Robert W. Wells, Willie Walker, Thurley Tuttle Kinsey and Charlie Irvin.

## Two Changes Made In Directors And Officers Of Bank

With the exception of Mr. R. Wiggins and W. E. Kirchoff, directors and officers of the Florida State Bank of Sanford will remain the same during 1943, according to a report made by the Associated Press. The report stated that following the annual directors' and stockholders' meeting, J. E. Rowland replaces Mr. Wiggins as vice-president and C. R. Clontz replaces Mr. Kirchoff as a director.

## China Is Grateful For Allied Treaty

CHUNGKING, Jan. 13. (AP)—Generalissimo Chiang Kai-Shek told his people Tuesday relinquishment of Chinese territorial rights in China by the United States and Great Britain "marks a new epoch in China's history." He said the treaty "marks a new epoch in China's history" and that the Chinese people must work to make a new epoch in their own history.

## City Taxes On "Whistling Willie's" House Are Paid As Result Of Drive

"Whistling" Willie can now whistle again in peace—City taxes on his home have been paid. The campaign to free Willie from the dratted menace of unpaid taxes for a number of years, started Dec. 21, when attorney C. W. Spencer received a letter from Earl Brown, head of the Florida National Exhibits, for whom Willie had worked at various places, that Willie's Fair included collecting \$50 from Exhibits employees for Willie. This, he stated, was contingent upon the people of Sanford raising a like amount to pay Willie's taxes.

## Mero Was In Algerian Battle; Kirtley Was On Carrier Hornet

Two cousins, Bill Kirtley, who was stationed on the aircraft carrier Hornet in the Pacific, and Pete Mero, who was in the first attack on Algeria in North Africa, are here on leave now and both agree that in both wars they—the United Nations—are leading now.

Avinon Machinist Mate Kirtley was on the Hornet during the battle of Midway, Coral Sea, and Santa Cruz, several raids on small Pacific islands and off the Solomon Islands. He was on the Hornet from the time it was sunk on Oct. 26 from the time it was sunk on Oct. 26, 1941.

## Desperate Attempt Made By Germans To Hold Oil Fields

### Ralph Chapman Addresses Civic Group At Meeting

Problems confronting farmers and growers of this section in view of President Roosevelt's recent farm mobilization appeal for more food products for the nation and its fighting allies were today the subject of a talk by Ralph B. Chapman, who addressed the Seminole County, U. S. D. A. War Board. Mr. Chapman is also chairman of the County Selective Service Board.

## Fred R. Wilson Makes Address To Selectees

"The people of Seminole County are deeply indebted to Mrs. F. H. Housholder and her committee for promoting the gathering at the time of entry into the service of the men from Seminole County and the giving of City Certificates and cigarettes as tokens of esteem," said Fred R. Wilson, chairman of the Salvation Army advisory board, speaking before selectees, their friends and relatives at a send-off program yesterday morning at the City Theatre.

Mr. Wilson also charged Adolf Hitler as being the arch villain of the war and stated that he believed that the leaders of the United Nations saw the danger of a prematurely negotiated peace and were determined to fight the war to a victorious conclusion, destroy Hitlerism and try to effect lasting peace.

Mr. Wilson also stated that upon the return of our men from the service, they could have a greater honor conferred upon them than the one of being able to say that they had served in the armies of the United States.

Invitation was by Capt. George Woods, who also presented the selectees with the certificates and cigarettes. A vocal selection, "Wonder Guide," was given by Mrs. Woods. Benediction was by the Rev. W. P. Brooks Jr.

### Mrs. L. E. Spencer Discusses Azalea

The Central Garden Club Circle met at the home of Mrs. L. E. Spencer on Jan. 9 with Mrs. G. C. Collins presiding. Regular monthly committee reports were made and the members were urged to attend a nutrition class which will be held on the last Monday evening in each month at the Florida Power and Light Co. office.

Miss H. M. Papworth was elected chairman for the New Year with Mrs. Ralph B. Chapman, vice chairman and Mrs. Z. B. Ratliff, secretary and treasurer.

The first speaker for the afternoon was Mrs. L. E. Spencer, a member of Azalea Circle, who made an interesting talk on Azalea in growing azaleas, she said it is most important to give the soil proper care. Azaleas must be planted in soil which is rich with matter, acid or decayed leaves and, preferably, oak leaves.

"In order to determine whether the soil is correct," she continued, "it should be analyzed at the Garden Center. If leaves of azaleas are pale or yellow they need aluminum sulphate or a little cotton sulphate. Do not use manure, as this will be injurious to the soil and will thoroughly with the soil and prevent the roots from being able to breathe.

"Do not bank azaleas with leaf mold, dirt or straw as high banks make the roots grow to the surface and serious damage may be done during a dry spell. It will cause water to drain away from the plants. The roots are fine and deep and the moisture they need must get to them. Do not plant too close to the surface.

### Garden Club Notes

"WHY I LIKE TREES" BY CHARLIE RUSSELL, Kindergarten

I like trees in the summer because I don't get hot.

We like Christmas trees because they are so pretty decorated.

I like trees because birds are in them.

I like leaf trees because they give me leaves to eat and that's all.

I like big trees because they give me shade to sit under.

A tree that looks at God all day.

And lifts her leaves to pray.

## R. A. F. Planes Unload 100 Tons Of Bombs On Nazi Armament Works

### 50-Mile - Retreat Of Nazi Caucasus Armies Reported In Red Dispatch

WASHINGTON, Jan. 10. (AP)—Motor Torpedo Boats, sinking into battle against Japanese destroyers, damaged two and possibly three enemy destroyers off Guadalcanal, the Navy reported today.

The enemy vessels presumably were attempting to carry reinforcements to Guadalcanal, strategic island in the Solomon, but were forced to withdraw.

Following up a thunderous daylight assault on France and Holland the R.A.F. continued a powerful new aerial offensive last night by hitting Germany's industrial Ruhr and unloading 100 tons of bombs in 12 minutes over the Essen home of the mighty Krupp armament works.

On the Russian front, a new 80-mile retreat by Hitler's Caucasian armies was reported in Soviet dispatches today. Russian crushed Nazi counter-attacks and captured 12 more towns in the north-west drive toward the great German base at Rostov.

London heard a broadcast by the German news agency DNB admitting Soviet tanks had broken the Axis main line in the Caucasus.

Dispatches from Allied headquarters in North Africa said the French stormed and captured two strategic Tunisian heights north of the Kairouan rail and highway junction while a French column driving into Libya from Equatorial Africa was reported to have made contact with Gen. Girard's headquarters.

United States Flying Fortresses, soaring 50 miles across the northern corner of France, hurled tons of demolition bombs into war factories at Lille yesterday while hundreds of Allied planes bombed two Nazi airfields and swept the skies for enemy fighters.

Nearly 400 British fighters participated in subsidiary and covering raids, the Air Ministry said. The Flying Fortresses swept over their targets at high altitude and the United States Army Air Force communicated numerous bomb bursts were seen on factories known to be turning out war supplies for Germany, as well as on nearby railway yards.

### Mysterious Men Hold Up Unarmed Dispatch Rider

#### Army Private Forced To Allow Inspection Of Documents

NORTH KINGSTOWN, R. I. (AP)—Four men who held up an unarmed Army dispatch rider at gunpoint and rifled through official Army papers, only to return them with the remark that "It isn't here," still were at large today despite a state police dragnet.

The men forced Pvt. Raymond Mosher of Springfield, Mass. to drive a small army truck to a secluded area where they carefully examined the documents, then sped away in a small sedan. There was no indication what they sought.

### "Watchdogs" Of British Sea Lanes Have Good Record

(By Associated Press) From London a report says the aerial watchdogs of Britain's coast and sea lanes flew 55 million miles in the first two years of the war, escorted 4947 convoys and made 597 attacks on enemy submarines, the air ministry reported in a new booklet entitled "Coastal Command."

The booklet published Wednesday is one of a series on the British heritage of aerial warfare. It tells of the intrepid young men in whom are combined the British heritage of nautical skill and the R.A.F.'s aeronautical genius and fighting spirit.

American-made Hudsons, Catalinas and later Liberators played a big part in the coastal command's invaluable service to the cause of the United Nations, the booklet said.

Another new booklet illustrated, the 144-page publication shows many pictures never before published, including a striking reconnaissance photograph of the German battleship Blumark in Heligoland fjord just before she weighed anchor for her last fateful trip.

### Citizens Asked For Opinions On River Fishing

L. B. Mann, state representative, said there seems to be considerable interest among the people of Seminole County over the possibility of opening the St. Johns River for commercial fishing.

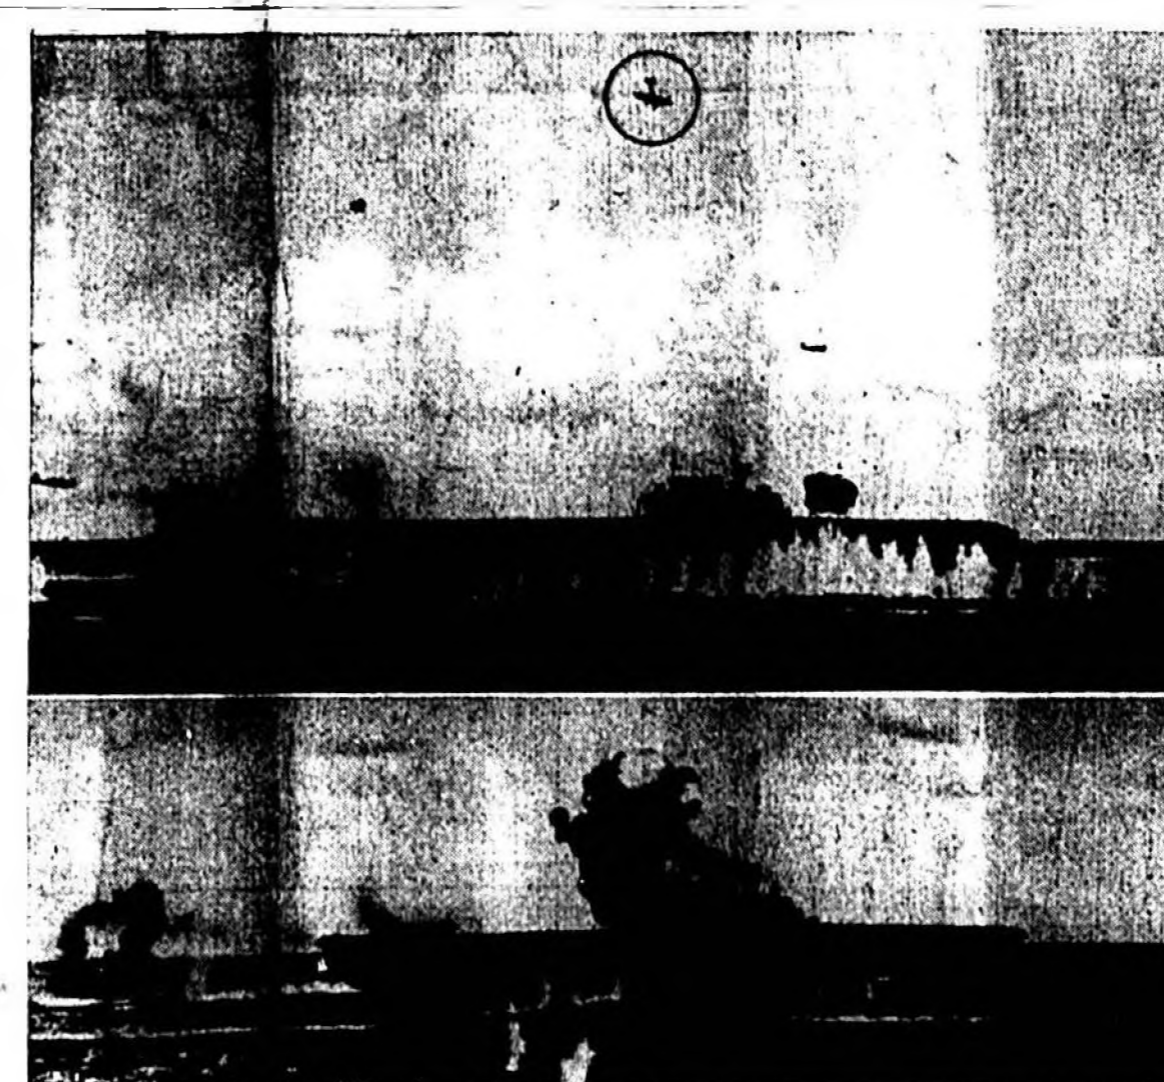

Mr. Mann disclosed that he has received a number of letters from citizens in the area who are suggesting the idea of opening the St. Johns River for commercial fishing.

### Draft Complications Break Down Morale

WASHINGTON, Jan. 10. (AP)—Strenuous complaints that the "morale of the people" is breaking down under complicated draft regulations were made by Senator Wheeler (D-Mont.) and other members of Congress at a hearing on the drafting of farm labor.

Demands for more liberal deferment rules with regard to agricultural workers were heard as a Senate Agriculture Subcommittee examined manpower Chairman Paul W. McNutt, Secretary of Agriculture Wickard, and other members of the committee.

## When Japanese Suicide Plane Hit Carrier Hornet

These unusual official U.S. Navy photos show (top) several Japanese planes above the U.S. Navy aircraft carrier Hornet during the battle of Santa Cruz. The plane in the circle is the one piloted by the Japanese suicide pilot who crashed his craft on the deck of the carrier. The Hornet, mortally wounded, did not sink until it was sent to the bottom by U.S. surface craft. The bottom photo shows the Japanese dive bomber, aimed on a suicide plunge, hitting the signal tower of the carrier.

### State Patrolmen List Instructions On Pleasure Ban

Locally stationed State Highway Patrolmen today revealed the fact that definite instructions have been given them in regard to enforcement of the OPA's ruling against pleasure driving.

According to the patrolmen, they have been instructed by Director Gilliam to take the tag numbers of cars parked at places of amusement, and turn them in to the district office which will in turn forward them to OPA.

Patrolmen called attention to the following exempt from the regulation: (1) cars parked at places of amusement, and (2) cars parked at places of amusement, and (3) cars parked at places of amusement.

### U.S. Sets All-Time High For Marriage

NEW YORK, Jan. 10. (AP)—More than three and a half million men and women in the United States said "I do," and became husbands and wives during 1944, setting an all-time high for marriages in America, statisticians of the Metropolitan Life Insurance Co. reported yesterday.

They estimated that about 1,800,000 marriages were performed during the year, an increase of 50 percent over the number for 1943.
