

Engineers Expect Failure Of Levee At Shanghai Bend

SAN FRANCISCO (AP)—A mighty river in northern California today, threatening the "green" new levee hastily erected at Shanghai Bend after the holiday floods of Yuba City.

Army engineers said the levee was "likely to fail" because it was thrown up with mud and other readily available materials.

The region's second big rain storm in less than a month and a half left rising currents cascading down the Feather and Yuba rivers, still swollen from Christmas floods that took 25 lives there. The state's total was 89 deaths with an estimated property loss of half a billion dollars. Only two deaths were reported in the latest storm.

A PICTURE of frozen beauty is this scene at Niagara Falls, where the over-cast sky and the low temperature combined to form a winter wonderland. The American Falls are in the background.

Detroit Newspaper Shutdown Is Ended

DETROIT (AP)—A 46-day strike shutdown of Detroit's three metropolitan newspapers ended today.

It was one of the longest shutdowns in a competitive newspaper city in the last 10 years, and was set off Dec. 1 by a walkout of stenographers.

Only contract ratification by truck drivers (teamsters) at the afternoon Times and morning Free Press remained today between full settlement with eight unions.

Drivers at the afternoon News approved a new pact unanimously yesterday and teamster leaders said ratification by the other two units was "a foregone conclusion."

All three newspapers, whose combined employment totals 4,000 and whose daily circulation totals more than 2,500,000, called back workers yesterday to begin publishing the News and Times for publication today and the Free Press to roll tomorrow morning.

Consider Child's Age When Purchasing Toys

WASH. (AP)—A Christmas list should be made for a child's age, according to a report from the National Bureau of Standards.

A baby old enough to sit up and grasp things will get a kick out of toys he can really bang around. Pounding balls, large stuffed dolls, hammer and peg sets and similar items really will be appreciated.

For a baby, rattles, rattles, rattles, just about anything he can handle and love, are good presents for a tot past the age of six months.

By the time he's a year old, a baby is ready for toys he can work with. Simple building blocks, peg and ring sets and such will help develop his eyes and hands as well as his mind.

For a walking or creeping baby, pull toys of all kinds will give him a lot of fun and good exercise. So, maybe you had better slip this out and take it along when you do your shopping for babies of friends or relatives. It might make your job a little easier.

COMMON SENSE ANSWERS

H. J. G.: After the birth of my third child, I developed milk glands under my arms. My physician suggested I have them removed. Is there any medical reason why I should permit surgery?

Answer: It is advisable that you follow your physician's suggestion in this matter. Otherwise, the glands may cause some difficulty.

Ike Sends Budget To Congress Today With Big Increase

WASHINGTON (AP)—President Eisenhower sent his first balanced budget to Congress today. It calls for spending \$65,845,000,000 in the year beginning July 1, an increase of more than 1 1/2 billion dollars over this year, mainly for defense.

A predicted increase of \$1,600,000,000 in revenues, to a total of \$66,300,000,000, foreclosed a surplus of \$45 million dollars in fiscal 1951.

The President asked Congress to forego a tax cut unless the cut would not interfere with small debt reductions planned in the new budget.

He also predicted the government would wind up the current fiscal year \$23 million dollars in the black. He said spending of \$64,270,000,000 will be more than balanced with revenues of \$64,500,000,000.

Large Sum Missing At Quincy Church

QUINCY, Ill. (AP)—More than \$100,000 is believed missing from a Lutheran church account in the Mercantile Bank of Quincy.

The shortage was discovered after the death Nov. 28 of Andrew C. Schneck, treasurer of the Central Illinois District of the Lutheran Church, Missouri Synod, and president of the bank.

The exact amount will not be known until an audit is completed in about three months.

The shortage was announced Saturday by the bank. The bank did not estimate the loss, but the Quincy Herald-Whit learned from church officials that indications were it would run "into six figures."

AIRLINER SKIDS

HUNTINGTON, W. Va. (AP)—Skidding on hard-packed snow during a routine landing, an Eastern Airlines Silver Falcon with 32 passengers and a crew of three left the runway at Huntington Airport last night and narrowly missed plunging 400 feet into a ravine.

The twin-engine plane, en route from Louisville, Ky., to Charlotte, N. C., did drop onto a ledge in scrub growth some 60 feet below the runway, but all aboard escaped injury.

The passengers continued to their destinations on another flight.

NARROW ESCAPE

HENNESSEY, Okla. (AP)—Two teenage cousins narrowly escaped seriously injury yesterday in a hunting accident near Bison, Okla.

Leroy Fukas, 15, said he was holding the barrel of a .22-caliber rifle and poking at some brush with the stock of the gun when it discharged. The bullet struck Bob Fukas, 14, in the right hand below the little finger, then hit Leroy on the left wrist, cutting his watchband in two and lodging in his forearm. Both boys were treated at a doctor's office and released.

REWILDERED COONS

FT. KNOW, Ky. (AP)—The raccoons in this neck of the woods—what's left of 'em—must have thought an army of Davy Crockett passed through Saturday night.

But it was only Brig. Gen. Samuel L. Myers and some 78 pre-draft-age reservists, mostly Easterners who had never been on a coon hunt.

Gen. Myers, commander of the training center, was impressed with a marksmanship score turned in by the 17 and 18-year-olds, so he invited these company to hunt coons with him.

The party brought in 26 coons.

Radio-TV Highlights

LARCHMONT, N.Y. (AP)—There are all kinds of courage. Here is one kind.

Take a 35-year-old man in a gray flannel suit who lives in a comfortable home in the suburbs with his wife and five children, ranging from 1 to 13 years old. Send him down to the station five mornings a week to catch a New York-bound train to a well-paying advertising agency job which he thoroughly detests.

Let his feet drag more loathfully each morning. Let his distaste for the things he does at his job each day increase steadily. But let him never forget that he loves his wife and children and wants to provide for them. Finally let him be physically nauseated one morning at the prospect of his job.

Then he and his wife sit down and agree that the only thing for him to do is to realize his deep desire: quit his job and be a freelance television writer.

Today, nearly a year later, Phil Reisman Jr. is one of the rising new generation of television script writers. It's true that he owns neither a yacht nor a country house—but then he never wanted them. The point is that the kids are eating regularly and the bills are paid on time. Most important, Phil Reisman is a happy man.

Reisman has just turned in his most recent script to David Armstrong, executive producer of Armstrong-Crisis Theater—who named him among the most promising writer "discoveries" of the past year. It's a factual account of eight hours on the women's ward of St. Luke's Hospital in New York, the fifth script he's sold in nine months.

Before somebody who has a yen to be a TV writer and hates his job decides to emulate Reisman and become a free-lance, he should be reminded that Reisman has been a professional writer for many years. After graduating from Brown University in 1930, he spent a dozen years as a writer for Pathe minus a three-year hitch in the Marines during World War II. He wrote several movies before the advertising agency swallowed him.

"And now," he says, "it's good to be free. I try to turn my own personal interests into producible writing. Sometimes I'm in danger of having unproductive ideas, of course."

Bryant Formally In Governor's Race

OCALA (AP)—Rep. Farris Bryant of Marion County is formally in the 1950 governor's race.

The 41-year-old Ocala lawyer announced yesterday he would enter the Democratic primaries in May. He will submit his qualifying fee to the secretary of state during the Feb. 21-March 6 period prescribed by the state election code.

By announcing his candidacy, Bryant comes under the restrictions of the code. He may accept contributions but must report the amounts received and donors each week to the secretary of state. He cannot spend any money in behalf of his campaign, except for personal travel, before Feb. 21.

Bryant is the first major contender for the governorship to announce his candidacy.

With pensions for mentally disabled veterans included plus the cost of building new hospitals, the total cost for the care of American's victims of mental illness comes to over one billion dollars.

A survey in 1946 revealed that 89 per cent of the families of Rhode Island owned television sets. This compares with a national average of 59 per cent of families throughout the country.

Misfortune Strikes On Maiden River Trip

Swiss Bell Program To Be Given Friday At Baptist Church

The oldest and sweetest toned set of Swiss Bells in America, will be featured by the Mason Swiss Bell Ringers in a sacred concert at the First Baptist Church, Sixth and Park, Jan. 20 at 7:30 p. m. There will be no admission charge to this program, but a free will offering will be received.

This set of 30 Swiss Hand Bells was brought to America from England in 1847 and used in concerts all over the nation by the Peake family of Boston, who were known as the original group of all-American Swiss Bell Ringers.

The Mason Swiss Bell Ringers—consisting of the Rev. and Mrs. Leonard Mason of Los Angeles, California, are veteran concert artists. They have given over 4,000 concerts in every state in the union during the last 22 years. They are currently on their 14th concert tour of the nation. They feature a large variety of novel and unique instruments—Swiss Hand Bells, musical glasses, singing saw, vibratory, solovox, the world's largest set of triple octave chimes and the instrument of mystery, the Victor Theremin. The latter instrument has no keyboard, strings, reeds or pipes and responds to the motion of the player's hands waving over it without being touched.

Littlefield Accused Of Accepting Cash As Volusia Sheriff

JACKSONVILLE (AP)—Alex D. Littlefield, charged with income tax evasion, stood accused today of accepting money from gamblers to let them stay in business while he was sheriff of Volusia County.

Two former gambling club operators testified in Federal Court yesterday they paid "protection money" to Littlefield or two of his deputies in 1947-48, the same years the government charges the one-time state Democratic chairman with evading \$10,223 in income taxes.

James L. Gullmartin, U. S. district attorney, told the jury a "substantial amount" of the protection money was not reported on Littlefield's tax returns. Chester Bedell, defense attorney, countered that none of the money went to Littlefield for his own use but was channeled into political campaign funds.

Arthur Reynolds Robinson, former partner in the 400 Club in South Daytona, said he handed Littlefield in person \$1,000 in cash a month for nine months as "good will" to operate blackjack, roulette, craps and slot machines.

Seminole High Plays Home Tonite

By H. P. GORDIE
The Seminole High School varsity basketball team will be seeking its third win of the season tonight when it meets the sharp-shooting team from Palatka.

In the preliminary contest, the Sanford Parochial School's eighth and ninth graders will tangle with the Sanford Junior varsity.

Both games will be played at the Seminole High School gym. First game is scheduled to get underway at 6:15 this evening.

DOESN'T LIKE KICKING BALTIMORE (AP)—Mrs. Marie Strub said she didn't mind being knocked down, she's used to that, but when her husband kicked her, she was hurt.

The 5-foot-8 husband of the 5-foot-10 Marie, who was once known around the professional wrestling circuit as "Gypsy Lee," denied he floored her or kicked her. Just a case of mistaken identity, said he.

But Magistrate Simon Schonfeld gave the decision to the slender 37-year-old brunette. He fined Strub \$25.

Mrs. Strub made her last wrestling appearance in July, 1954, in Boston.

The Florida River Cruises pleasure boat, "The Nautican", on its maiden trip to Blue Springs yesterday was rammed by an oil barge on its way to Sanford.

The Nautican, just 15 minutes from Blue Springs at the time of the river accident, was badly damaged in the head-on smash leaving a gaping hole in its bow. Richard Sodero, one of the co-captains of the Nautican, was on the trip and all but three of the 39 passengers were on the upper deck at the time of the crash.

Sodero, Captain of the Nautican J. R. Oliver, and most of the passengers said that the barge gave the first blast of its whistle to signify that they would keep their course to the right and the Nautican returned the signal.

However, according to Sodero, the barge, coming around a sharp bend of the river, came across the channel broadside ramming head-on into the pleasure boat.

The passengers and crew were thrown off balance and only minor injuries were received.

The Nautican was hit above the waterline and was damaged only in the wood structure of the bow. The steel hull was not damaged in the river accident.

Eye witnesses G. D. Spring and Floyd Hopkins said that the Nautican was in the clear as far as the pleasure boat was concerned. Captain Oliver said that this is the first accident he has experienced during his time piloting boats.

Captain Oliver said, following the accident and his return to the Sanford pier where a number of people met the vessel, that the Nautican attempted to escape the crash by turning sharply away from the barge. But apparently out of control, the barge rammed the 100 foot pleasure boat.

Sodero and W. R. Kemp, the two operators of the Florida River Cruises, said that the Nautican would be put into shape immediately and would be back in service within a few days after undergoing repairs.

All passengers of the Nautican were given an opportunity to be examined by a Sanford doctor to ascertain the extent of injuries, if any.

Both Kemp and Sodero expressed their regrets that such an accident should happen to the Nautican on its first day and trip but that all haste would be made to have repairs completed in as short a time as possible.

Eye Witnesses G. D. Spring and Floyd Hopkins said that the Nautican was in the clear as far as the pleasure boat was concerned.

Sweeney To Serve Co/C In Outlying Cities In County

Gordon Sweeney is to serve as special representative of the Chamber of Commerce to the outlying cities of the county, it was announced by the trade body office today. The appointment of the local office supply owner was made by President George Touhy who said that Sweeney would work in cooperation with Mr. Forrest Breckenridge in meeting with city officials and civic organizations to help them with particular problems where the actions of the county organization might supplement their own.

The assignment is deemed especially important in cementing the relations between the headquarters of the Chamber of Commerce here and groups striving for the advancement of more localized interests. It is hoped that the diversified services of the county body will be used to supplement the activities of groups within the cities in other parts of the county.

"We are all striving for the same thing—a bigger and constantly improving Seminole County that in turn will advance the business and cultural interests of all of us," President Touhy said, "and by closer teamwork everyone will be benefited."

Sweeney is one of the Co/C directors.

Two Lake Mary Men Held In Jail On Possible Charges Of Robbery

ARRESTED ON ARMED ROBBERY CHARGES are two Lake Mary men. At the Seminole County jail are: (left to right) Constable George Kelsey, Sheriff Denver Cordell, Deputy Billy Lilly, Eugene Scott Greenleaf, Charles Frederick Robbins, and Deputy Sheriff Cotton Brown. (Staff Photo)

Mayor Scott Names Florida Products Festival Period

Mayor F. D. Scott has named the period January 19-26, 1956 as the "First Florida Products Festival" in Sanford.

The proclamation, signed by Mayor Scott and released today, offers the cooperation of the City of Sanford in making the Florida Products Festival a success.

The Mayor calls attention to the festival and cites the event to the citizens of the community.

The Statewide event, spread over a ten-day period, will bring to the attention of Florida citizens the many products grown and manufactured in Florida and asks that the citizens support the use of these items during the celebration.

Here in Sanford, the Seminole County Chamber of Commerce is planning for displays and other events to focus attention on products grown especially within the limits of Seminole County.

Ralph Austin Smith is chairman of the committee for the Chamber of Commerce with James A. Wright and Robert Kilvan serving with him as committee members.

Appropriations Set By County Officials

The Board of Seminole County Commissioners, this morning, appropriated \$6,000 for the Seminole County Chamber of Commerce, \$750 for the Seminole County Junior Chamber of Commerce, \$250 for the Longwood Chamber of Commerce and \$250 for the Lake Mary Chamber of Commerce.

Action on the appropriations came after Larry Jones appeared to the Board of Commissioners on behalf of the Longwood Chamber of Commerce and a brochure that is being printed for distribution.

Commissioner John Melch made the motion for the appropriations which was adopted by the Board. Reports from the various departments and offices of the county government were presented to the Board of County Commissioners along with checks for excess fees in each office. Reports were heard from Sanford Doudney, Tax Assessor, John L. Galloway, Tax Collector, O. P. Herndon, Clerk of the Circuit Court, Ernest Housholder, County and Juvenile Judge, W. Hugh Duncan, Justice of the Peace, and Constable J. Q. "Slim" Galloway. Excess fees turned over to the Board of Commissioners amounted to \$4,847.66 from the Tax Assessor; \$7,581.16 from the Tax Collector; \$7,694.10 from the Clerk of Circuit Court; and \$4,921.82 from the County and Juvenile Judge. The Justice of the Peace reported that earnings in his office amounted to only \$3,066.95 and \$1,848.55 for the Constable.

In a letter to the Board of Seminole County Commissioners, the Orange County Commissioners requested that all prisoners turned over to them to work on work camp crews should be accompanied by a physical examination. The complaint was made due to the fact that some prisoners were turned over to Orange County authorities in no physical condition to work.

The Florida Power and Light Company submitted a 5-year contract for electric power for the Seminole County Court House that would save the county in the neighborhood of \$300,000 a year.

Due to the reclassification of the power service to the County, a saving would be realized. However, Commissioner Melch questioned the contract in lieu of the City of Sanford acquiring the distribution system. It was explained that such a contract would be a part of the sale of the distribution system and service would continue.

Prior to the noon recess for lunch, the Board of County Commissioners agreed, with a dissenting vote by Commissioner John Melch, that one block of 28th St. would be opened as an access road to property in that area.

A reprint of the Tanglewood Section Two was submitted and approved by the Board of Commissioners and certain roads were closed in the Seminole County subdivision known as Glenn Ethel.

Bombay Police Fire On Rioters Protesting Plan

BOMBAY, India (AP)—Bombay police opened fire today on rioters protesting a government plan to make Bombay a separate state. Demonstrators carried black flags inscribed: "Death to Nehru."

The police fired at the rioters three times to disperse them. Official sources said scores of persons were injured and about 100 were arrested.

One crowd of 10,000 refused to disperse until police banded over the body of a demonstrator killed by police fire during disturbances last night.

Buses were stoned in industrial districts by big crowds demonstrating against Prime Minister Nehru's decision to put Bombay under the rule of the central administration in New Delhi.

About half Bombay's three million population want the city included in a proposed state in which Marathi would be the official language.

Robbins, Greenleaf Captured Ballentine Safe After Short Ride

Two Lake Mary men were captured last night after a wild chase that ended in a three-car accident on State Road 436 near Forest City for one of the get-away cars and a docile surrender by the driver of another car.

Charles Frederick Robbins, 30-year-old Lake Mary man, and Eugene Scott Greenleaf, 30-year-old youth, are being held in the Seminole County jail on possible charges of armed robbery and kidnapping.

In the get-away of the two men, from a farm near Slavia, Robbins was driving a 1946 Chevrolet while Greenleaf was driving a 1946 LaSalle which he purchased from Dykes Motors in Orlando last Saturday for \$140.

Constable George Kelsey was called to the Jakubin Farm about 8:30 last night when John Jakubin and C. C. Ballentine found gasoline being pumped from their tank at the rear of a barn. Ballentine was left at the pump while Jakubin ran for help.

On the return of Jakubin to the farm with Constable Kelsey, Ballentine was found at the gasoline pump being held at the point of a sawed off shotgun by the two men who were out of sight. With a threat that Ballentine would be killed if the two men did not leave the scene, Constable Kelsey and John Jakubin left in Robbins' car. Ballentine was driven to Greenleaf's car at the point of a sawed off shotgun. He was released some three or four miles from the scene of the holdup.

Constable Kelsey said that gasoline had been missing from Slavia and Ovidio gasoline pumps and tanks for several months.

Kelsey radioed for help from the Seminole County Sheriff's office and the Florida Highway Patrol. The two cars, driven by the pair of armed robbers, traveled widely from Slavia to 17-92 where Deputy Sheriff Cotton Brown and Deputy Bill Lilly spotted the LaSalle and gave chase from the intersection of 17-92 and State Road 436 to Forest City where Greenleaf smashed into the rear of a pickup truck with Deputy Brown aiding the Greenleaf car.

The Chevrolet, driven by Robbins, was stopped at the Seminole-Orange County line on 436 by Florida Highway Patrol Trooper Harvey Barrow. Robbins surrendered meekly.

Florida Highway Patrol Trooper T. Mark Mack investigated the smashup following the capture of the get-away armed robbers.

The pickup truck is owned by the Minute Maid Corp., 470 Jack Wilson, 25, of Apopka, Fla. The driver, damaged to the pickup was estimated at three to four hundred dollars and damage to the Sheriff's car is estimated at \$200.

Bill Lilly, riding with Deputy Sheriff Brown fired 12 cartridges at the fleeing LaSalle with nine of them finding their target but none of them stopping the car.

Both men were belligerent at the Seminole County jail and would not answer questions piled to them by the Sheriff, J. Denver Cordell who brought the pair back to jail. Greenleaf refused to give his name to anyone.

B Squad Bounces Into Win Column

By J. P. GORDIE
After being defeated by Lyman Junior High School the Sanford Junior High School "B" Squad bounced back into the win column last night by defeating the All Soul's Catholic Junior High team by a 22-15 margin.

Alex McKibbin racked up eight points for high man while Mike Davis tossed in seven to help outscore All Soul's cagers in every quarter.

Eddie Barbour was outstanding in floor play for the Sanford Junior High School "B" Team.

John Riley Trial Gets Underway

The trial of John Riley alias James Riley on a charge of attempt to commit rape got underway in Circuit Court this morning.

A six-man jury consisting of one woman, two negroes and three white men were drawn for the hearing.

The jury is Mrs. Gertrude C. Huckle, A. J. Peterson, F. C. Bennett, Vester Edge, Paul R. Laws, and Howard A. McNeill.

Paul Perkins, negro attorney, is prosecuting Riley.

Pilot Has Fatal Attack On Plane

ROANOKE, Va. (AP)—The second airplane pilot to suffer a fatal heart attack while in flight in Virginia in a week died upon reaching the hospital here last night.

He was Lacy L. Sutton, 36, of Norfolk, piloting a Piedmont Air Lines DC3 from Norfolk to Cincinnati, and became ill between Lynchburg and Roanoke. He took off from Roanoke but almost immediately complained of sharp pains in his chest and requested permission of the tower to return to the field.

After landing and taxing to the loading ramp, he was driven to a hospital but dropped dead in the emergency ward.

Last Thursday Lt. (jg) Lawrence John Logan, 49, co-piloting a four-engine Navy transport from Key West, Fla., to Norfolk, suffered a heart attack enroute and was pronounced dead on arrival at the Norfolk Naval Air Station dispensary.

Larson To Explain Responsibility Law

State Treasurer and Insurance Commissioner J. Edwin Larson will address the people of Florida by radio tomorrow evening about the increased number of traffic accidents and the state's new Motor Vehicle Financial Responsibility Law.

Larson will speak for 15 minutes and will be heard over Radio Station WTRR beginning at 6:45 p. m.

He will particularly explain certain features of the law which both insured owners and operators still do not seem to understand. He will reveal statistics showing that enforcement of this statute is firm and important.

McKendree, Joe To Hear Sentences

William Oscar McKendree and Ben Joe, both found guilty by Circuit Court jury, will be sentenced Friday by Circuit Court Judge Vassar Carlton.

McKendree, charged with first degree murder, will be sentenced on charges of manslaughter which was the verdict returned by the jury.

Ben Joe, operator of a negro night spot in Volusia County, will be sentenced for shooting into a dwelling.

NOT COURT SEASON LOS ANGELES—Things really got hot in court yesterday.

Something happened over the weekend to the heating system of a building that houses 14 attorneys. When the sun came out the temperature was somewhere in the 20s.

Try and Stop Me

By BENNETT CERF

HOW DID BARNUM and his lesser-known partner, Bailey, first meet? Well, one of many stories has it that Bailey found a great drawing card for his 1880 tour when one of his elephants, named Hebe, became a mother. Advertising the baby elephant as "the first pachyderm ever born in captivity," Bailey attracted such business that Barnum offered a hundred thousand dollars for the two animals. Bailey not only said "nothing doing" but reproduced Barnum's offer on huge posters in every town on his itinerary.

"That's a man I want on my side," declared the appreciative Barnum—and in 1881, Barnum and Bailey's first combined "Greatest Show on Earth" made its tour.

The spoiled son of a multimillionaire was mightily upset when the girl he adored refused to marry him. So he climbed into his imported automobile and said to the chauffeur, "Drive off a bridge. I'm committing suicide."

AN INVITATION... to the man who is driving any car in the medium-price class

How you can own a bigger, more powerful Chrysler Windsor V-8 for the cost of a medium-priced car

Frankly, we believe you will find that the Chrysler Windsor is the only real luxury car that sells at a medium price... a car far in advance of its contemporaries and ahead of its time. We would like to put you behind the wheel of this car... because we've found from actual comparative demonstrations that 3 out of 4 open-minded men who drive a Chrysler for the first time prefer it to anything else.

There are many reasons. In the first place, the 1936 Chrysler is the only car in its price class that has been completely restyled this year. It has that "hair-trigger" look for which designers have been striving many years. We call it "PowerStyle."

But there's more to the Chrysler story than styling. There's power... more power to pass safely when necessary... more power to drive without effort... more power to stop.

There is not a car on the road today as completely power-operated as the "PowerStyle" Chrysler. Its PowerFite transmission is controlled by pushbuttons... the

ultimate in automatic, foolproof control. But do Chrysler's competitors have this mechanical trouble-free system? Not yet! Chrysler's PowerPilot Steering works full time... does 80% of the work, not just in parking, but in long distance driving, in traffic and in rough going. Competitive power steering cuts in and out... does only a fraction of this job.

And what about engines? Chrysler was first to adopt the principles of the airplane-type V-8 engine. Today's engine is a new, and bigger version of this engine... 250 hp in the Windsor Splitfire V-8... 280 hp in the New Yorker FirePower V-8 and now 340 hp in the blazing new Chrysler 300-B.

Then there is the all-important matter of brakes. Chrysler's newly designed PowerSmooth Brakes not only bring you safer, surer, straight-line stops—they outlast the others 2 to 1.

So if you have been driving another make of car in Chrysler's price class... ask yourself this question: Don't I want to know what my money can buy before I spend it? Then make a drive-them-both comparison. We'll leave everything else to your judgment.

With the addition of the Chrysler Power Train at slight extra cost.

"PowerStyle"
CHRYSLER
the year-ahead car!

Missionary Convention Starts At Christian Alliance Church

Notes for the Missionary Convention at the Christian and Missionary Alliance Church are Jan. 18 through Jan. 22. There will be meetings each night, Wednesday through Sunday, at the church which is located at Park Ave. and 14th St. The services will begin at 7:45 p.m. The pastor, the Rev. David S. Carnes, extends a cordial welcome to the public to attend the services. The missionary speakers for the Convention are: the Rev. Elmer Sahlberg and Miss Phyllis Taylor. The Rev. Sahlberg returned home on furlough from Thailand

MISS MARJORIE, "Miss America of 1935" and a TV actress, is shown after she was crowned in New York "Diamond Queen of 1934" by the Diamond Manufacturers and Importers Association of America. The diamond tiara, which Miss Marjorie is wearing, is valued at \$100,000. It once belonged to the Austrian royal family. (International)

Women Do Well in Driving Tests

With power steering, power brakes, push button controls and other modern devices taking the hard work out of motoring, more and more women are taking to the road in shiny new cars. Automotive authorities, in fact, look for a sharp increase in feminine drivers in the next five years. Recent tests show that they're holding their own in competition with masculine drivers, and in some cases bettering masculine marks.

At Richmond, Va., safety officials set up a brake-reaction test, using a device which fired a red check mark into the pavement — on a driver got the signal to stop, one when the brake pedal was depressed, and the third when the car came to a halt.

At 20 miles per hour, the national average is 44 feet. Virtually all of the women taking the test beat the average, showing quicker reaction than the males. The winner stopped at the 25-foot, seven-inch mark, while the best a man could do was 27 feet, eight inches.

Women, too, have shown up remarkably well in a nationally televised "Car for Life" safety quiz contest series. The first two grand winners were women, and in another of the weekly contests a 73-year-old Atlanta grandmother went to the fourth overtime question before losing out to an Illinois railroad man.

Gradually—if it hasn't already—the old prejudice against feminine motorists is vanishing as women become more proficient and better drivers. One Detroit policeman, however, thinks there still are plenty of "crazy drivers" on the road—women as well as men. He reportedly is a judge that a woman he had arrested on a fast expressway was driving only 30 mph in a 55-mile zone, nonchalantly eating a sandwich.

General Bob's Son Conversation Topic

By THE ASSOCIATED PRESS They were talking of Neyland around the University of Tennessee campus today, and the conversation—for once—did not center on the general. It directed the Vols' athletic department. They were buzzing about basketball player Lewis Neyland, General Bob's son, who dogged the footsteps of Roger Sigler as deftly last night that the Louisiana state forward was held to eight points in the first half.

Young Neyland's defensive dexterity helped Tennessee to a 91-82 victory over LSU and cemented the Vols' hold on fourth place in the Southeastern Conference standings. Vanderbilt edged into the SEC lead by half a game over idle Kentucky and Alabama by making its league chart 4-0 with a 69-49 verdict over Mississippi State. The loss dropped the winless Maroons into the cellar. Georgia Tech stopped Mississippi 19-0 in the only other conference game.

Neyland drew four personal fouls during his arduous guarding of Sigler in the first half and was sidelined during most of the second half, which saw the LSU star romp with 18 points to grab scoring honors for the game with 28. LSU held Tennessee center Carl Wadsworth, who ranks second only to Sigler as a pointmaker, to 18 points. But guard Herman Thompson helped himself to 23 and two other Vols scored in double figures.

Vanderbilt, sparked by Babe Taylor and Joe Gibbs, began pulling away from Mississippi State after four minutes. The Commodores more than doubled up on the Maroons and led 42-20 at half-time. They coasted after intermission as Coach Bob Polk cleared

his bench. Taylor amassed 22 points and Gibbs totaled 19. Instead of concentrating on high-scoring Joe Gibbs, Georgia Tech slanted its defense at Mississippi guards Jerry Roper and Wade Lindsey. As a result, Gibbs scored to 24 points but Bynum and Lindsey — high scorers normally—were restricted to 12 and 8, respectively. Guard Robby Kimmel topped Tech with 19, and Joe Helms was next with 18.

Last night's activity completed SEC play until Saturday when Kentucky travels to Tennessee, Tech to Vanderbilt and Auburn to Georgia. Alabama is at home to Louisiana College Saturday night and Mississippi State hosts Arkansas State. Mississippi State is at Sewanee tonight and tomorrow night Tech goes to Furman.

JEWELRY CLEANING One Hollywood movie starlet Peggy Castle washes her costume jewelry in tepid soapy water with a soft eyebrow brush, or cotton tipped stick. Oxidized silver jewelry is washed with a thick solution of baking soda and water, rinsed and patted dry with a towel.

Use your sterling silver every day for true beauty and sheen. Keep your holloware where it may be seen. Silver dishes, pitchers, trays, candlesticks, tea and coffee services are lovely to look at. Use a mild silver cleaner, cream or liquid, rubbing each piece lengthwise, using a soft cloth. Wash in hot water, rinse and dry. The sterling silver information bureau claims that liquid dips and other chemical solutions sometimes remove oxidation as well as tarnish. Oxide is usually applied to accent the beauty of sculptured sterling, achieving lights and shadows. If it is destroyed the depth of the design is likely to be blurred and the pattern marred, they say.

ACTRESS GRACE KELLY prepares for her role in her latest movie "High Society" with Frank Sinatra at the MGM Studios, Hollywood, Calif. Looking on is Charles Walters, the film's director. This is the first photo of Miss Kelly back at work since the announcement of her engagement to Prince Rainier III of Monaco. Bing Crosby, who also stars in the movie, is shown (bottom) when he and the actress teamed up in the "Country Girl." This professional partnership also gave the columnist an excuse to view Bing and Grace as "an item." The guessers were wrong again, but not discouraged. (International)

Four Regular Players Left To Sign Contract

By THE ASSOCIATED PRESS The Chicago White Sox, eager to get their contract worries out of the way quickly and concentrate on the coming baseball season, today had all but four of their regular players in the fold. First baseman Walt Droop and pitcher Al Pappal returned their signed 1934 contracts yesterday and brought the number of satisfied Sox players to 16. Of the regulars, only pitchers Jack Harshman and Dick Donovan, catcher Sherm Lollar and second baseman Nellie Fox have yet to sign.

For the American League's fourth best hitter with a .311 average last year, is due for contract talks in Chicago tomorrow. Droop was the club's top home run producer in 1933 with 19. He batted .286 and drove in 79 runs in 141 games.

Pappal, 36, hurled 11 2-3 innings in relief for the Sox after coming up from Oklahoma City in August. His neither won nor lost; however, he started for the Texas League club, amassing a 23-7 record and a 2.65 earned-run average. Other activity on the signing front included third baseman Al

Rosen of Cleveland; first baseman outfielder, Whitey Lockman of the New York Giants; outfielder Monte Irvin of the Chicago Cubs; and shortstop Joe Demasari and right-handed pitcher Bill Herrigan of the Kansas City Athletics.

Rosen had his most disappointing year with the Indians last year when he batted only .244. No salary figures were announced, but he probably took a cut. General manager Hank Greenberg said, "efforts were way below par" included, was being cut the sum 25 per cent.

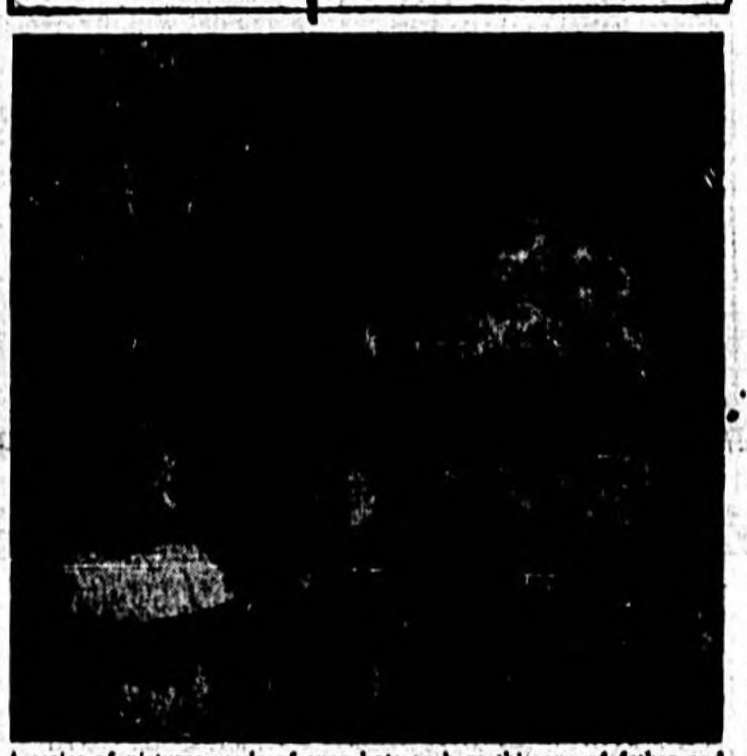

Other Indians who already come to terms are pitchers Ray Narveski, Don Mossi and Herb Score; outfielders Al Smith, Rocky Colavito and infielder Reginald.

Lockman, reportedly bound to the St. Louis Cardinals in a 1934 contract, was expected to become the ninth Giant at \$10,000, despite a sub-standard season. He batted .273 in 142 games, totaling his time between first base and the outfield.

Irvin, who will be 37 next month, may be making his last major league bid. After suffering a compound ankle fracture in 1933, he never consistently regained his peak form. Shipped to Minneapolis by the Giants last season, he batted a hefty .352 for the Minnesota club in 53 runs and 14 homers. The Cubs drafted him last month on the strength of his performance. He became the 15th Cub to sign.

Demasari hit .266 in 129 games for the A's last year. Harshman was drafted from Montgomery, Ala., last fall and, with Donovan, brought the number of signed Athletics players to 10.

the Snapshot Guild

A series of pictures made of snapshots such as this one of father and son working together will be a prized part of any family album.

Focus on Do-It-Yourself Projects

With all the "do-it-yourself" projects that are in progress across the country, we think this could aptly be called the "busy season" for home craftsmen. Because these "do-it-yourself" ventures—though master-minded by Dad—so often become family affairs, they make excellent fare for your picture-taking, too. The story sequence starts at the lumberyard or hardware store, advances to the "blueprint" and tools, goes through all the steps of construction right on down to the finished product itself. And remember that in every shot the people involved will have a real center of interest—a prime rule for good pictures.

Let's just examine some of the possibilities in this type of subject matter—and how your camera can tap them. Suppose your "do-it-yourself" project is something like the one we heard about recently. In this case, the family decided they needed a sturdy but attractive buffet table for the living room as well as one that could be used outdoors for picnics or porch suppers. The man of the house neatly solved the double problem by designing one dual-purpose table that's destined to be the envy of the whole neighborhood.

First, the table top was constructed of stout redwood boards and given a gleaming coat of varnish. Its legs were designed to be removable—so that in warm weather the top can be carried outside and placed on a square brick pedestal that serves as a base for a sundial during the winter months.

While Dad fashioned this ingenious piece, Junior busted himself with building two long redwood benches to flank the table on either side when it's used for outdoor dining. With the men of the household thus engaged, Mother decided to take things in hand, too—namely, her camera and flash.

Step-by-step, she snapped a picture story of the table project. Dad measuring, sawing, studying plans—Junior hammering and polishing—"conferences"—the polished table being set for dinner—all these gave her some of the best snapshots she's ever taken of her family "in action."

In the low-price field

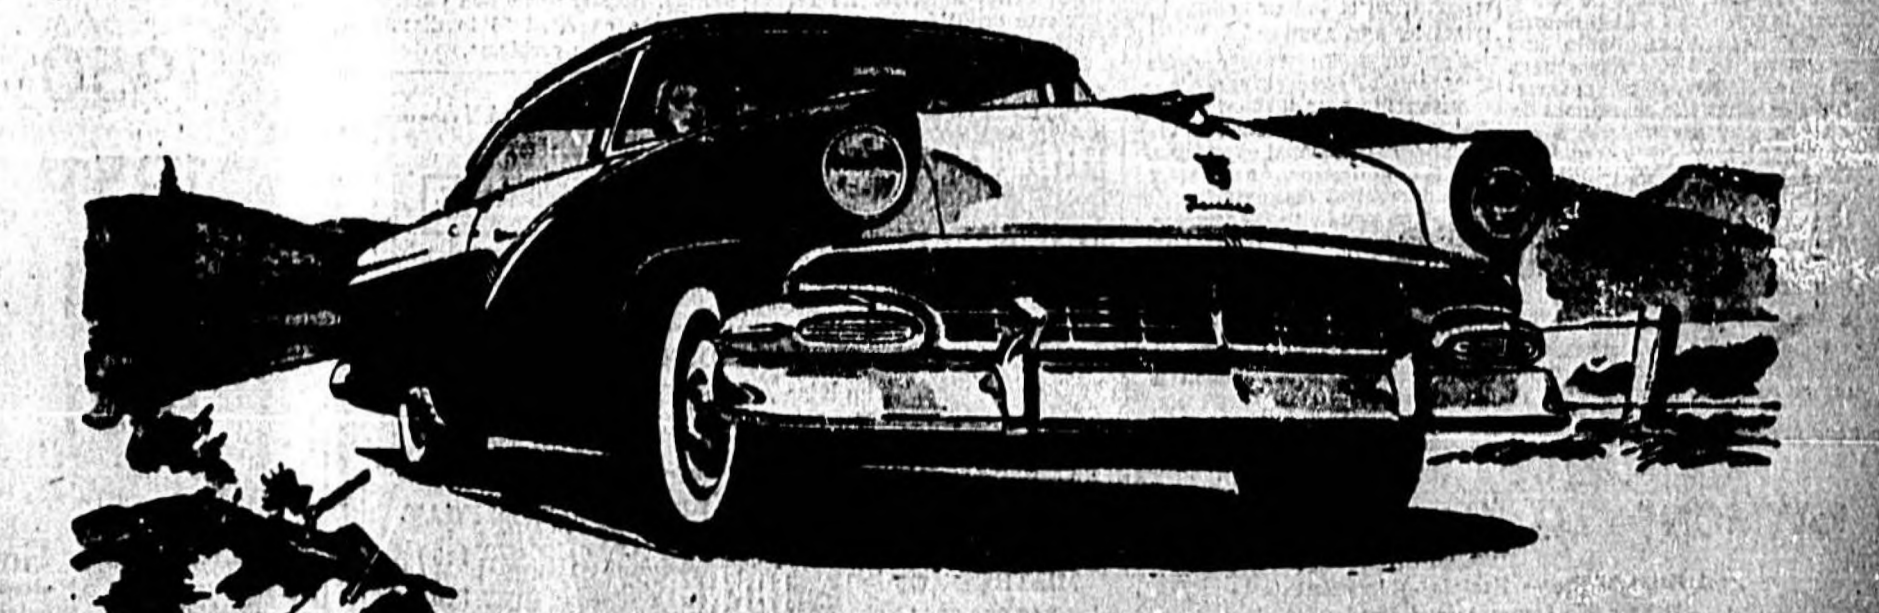

Nobody matches Ford's power!

Ford's Thunderbird V-8 engine, the standard "8" in Fairlanes and Station Wagons, is the most powerful "8" in its field at no extra cost. Ford has built more V-8's than all other makers combined!

and Nobody matches Ford's price!

In virtually every model, a Ford . . . equipped the way more and more people want it . . . costs less* than any other full-sized car in America! Come in and Test Drive the Ford in your future!

Nautican Takes Sightsoors On Untouched Tour Of Nature

Monday will not soon be forgotten by a number of people in the Sanford area. They saw the Nautican pull away from the Sanford Pier in all of its glory to take the most contingent of sightseers along the Johns River to see the historical sights untouched by modern day adventurers. The big pleasure boat piled its way down the "Nile of the Americas", those who could see an area just as the Indians saw it many years ago.

One of the foremost boosters of the St. Johns River was a representative of another country. He has seen the advantages along the river Nile. He knows that we have one of the most valuable attractions the country has because he has seen a probable source in his own country. The river Nile is longer, according to Ahmed Elisak Elhahk, a representative of the Egyptian government in Washington at the Egyptian Embassy.

A visitor could see the gleam in Elhahk's eye as he watched the river and as he watched the enthusiastic boosters of the Florida River Cruises that began its early trips with the Egyptian notable looking on.

"This is wonderful", he said, just as we have said time and time again about the possibilities of the attraction.

News of this event can spread nationwide, and citizens from every corner of the country will be seeking the beauty spot of the nation.

We're watching Sanford grow as these

The best publicity job on a mistake is usually done by those who are asked to keep it quiet.

One difference between good habits and bad habits is how easily they're changed

'55 Set Profit Pace Hard To Beat

NEW YORK (AP)—Businessmen are today tallying up the record of their most profitable year. The first earnings reports indicate that 1955 set a profit pace which the new year will find hard to beat.

The stock market has been doing considerable second-guessing along this line, as traders assess the prospects of individual corporations to continue their growth rate of recent months, to maintain profit margins in the face of rising operating costs, and to declare dividends that would sweeten present yields.

New Drug For Diarrhea

By HERMAN H. DUNNING, M.D.

YOU now know where medical science might find a new drug. Use of the carb, the fruit of the Mediterranean scrub tree, for example, is proving extremely valuable in treating diarrhea. It's especially useful in aiding infants and children, relieving them of diarrhea in less than a single day.

Prepared Four

Manufactured under the name of Arbocin, the new drug is made from specially processed carb and provides a high natural content of pectin, lignin and cellulose. These names mean little to you, but you will be interested in what the substance does. Since they are water-binding, absorbent and demulcent, they form a protective mass which is soothing to the inflamed area.

Arbocin also controls intestinal spasms.

It is the best of diarrhea, this new drug, is not to be used in children.

additions continue to spread out across the country through the facilities of the news wires and the ability of writers whose eyes are opened.

Tragedy Of Fire

All of the taxes involved in an area around Sanford can't bring back a small baby burned to death in a fire yesterday.

It just adds to the many justifications that annexation is important to the residents around the fringe area of Sanford.

It could just as well have been you, or another family, and the children of any family in the area.

Winds will not still just at the bidding of those who are standing around trying to fight a blaze that is out of control.

Water was finally brought to the scene from over a thousand feet from the two homes that burned and from inside the city limits to an area three and a half blocks from the fire hydrant.

It is cause for alarm amongst the people who are not within the protective area of the City of Sanford. It is time for those who live in the fringe areas to ask to be brought into the city. There's more than just the fact that some individual or a few individuals do not like the idea. It has come to the point where it means the saving of lives.

Just chalk up one more point in favor of coming into the city limits of the City of Sanford.

Example Of Safety

One of the fine examples of Safety Organizing can be seen next Saturday morning at 10 o'clock in Fort Mellon Park just behind the Chamber of Commerce Building.

Folks who are intensely interested in the safety of children, especially those who ride bicycles during their playtime and recreation hours, will be forming the "Bicycle Safety Club" then.

Turning such an organization into a recreation group, much will be taught to further the cause of safety on our streets and sidewalks as children ride to school on their bicycles or while away afternoons by riding here and there with friends.

A concerted effort will be made by citizens, and officials who know that some action must be taken to prevent accidents that can happen in the future.

If your child has a bicycle, be sure to see that he or she gets to the initial meeting of the Bicycle Safety Club next Saturday morning: It will be one of the most important steps you have ever taken for the well being of your child or your children.

It's good to grow old gracefully, we're told, but this doesn't mean to go loafing through the years.

JAMES MARLOW

Dulles Looks Back With Pride

WASHINGTON (AP)—Secretary of State Dulles, who seems to have a sunny nature, is able to look back upon his part in events with pride and contentment although the same events may have left others shaken and gloomy.

It may come as a surprise to the Communists that Dulles, recalling his role in the Indochina war, seems to think he scared the daylight out of them although they won half of Viet Nam.

Life magazine, in an interview with Dulles, quotes him as saying—and he says the quotes are substantially correct—the United States has been brought to the brink of war three times in 18 months, once in Indochina.

Dulles seems to think that getting up to the edge, and teetering on it, is artistic. He said, "The ability to get to the verge without getting into the war is the necessary art."

How he came to think this way needs a little explaining:

After World War II the French, who had held Indochina almost 100 years and exploited it, still refused the people their independence. The revolt which broke out came under the control of the Indochinese Reds.

The rebels were only guerrillas, but in a war which lasted from 1946 to 1954, the French couldn't rally the rest of the Vietnamese. They saw little sense in fighting to perpetuate French colonialism. While this war was staggering along, the Eisenhower administration in the fall of 1953 announced its "new look" for the military forces: less money for better protection, the administration said.

Dulles on Jan. 12, 1954, attempted to explain the "new look." It was designed, he said, to depend "primarily upon a great capacity to retaliate massively."

This may have scared the Reds—although they kept right on fighting the Indochina war. It certainly scared American allies, who had visions of themselves being led into war by this country.

Dulles tried some more explaining. So did other members of the administration. There was a lot of confusion for some weeks. Vice President Nixon said U. S. troops might have to be used in Indochina.

But President Eisenhower said it would be tragic for American forces to become involved there. Sen. Knowland of California, the Senate Republican leader, said he could give "categorical assurance" there was no intention of sending American troops to Indochina.

At a foreign ministers meeting in Berlin on Feb. 18, 1954, the French pressured Dulles into agreeing to meet with the British, French, Russians and Red Chinese in Geneva on April 26 to discuss Southeast Asian problems.

YOU'RE TELLING ME!

By WILLIAM RYTT
Central Press Writer

THOUGH no one was seriously hurt the city hall police headquarters and jail of Santiago, Chile, were knocked over by an earthquake. Results were almost the same as a typical South American revolution.

A Senate subcommittee yesterday saved \$2.5 million on costs of Army tests. That's really cutting down on the overhead!

Massachusetts tops all states in rate of cranberry production. That's natural, since it was there the idea of Thanksgiving dinner originated.

Statistical show that in the year 1954 more than four-and-a-half billion eggs were laid in California.

However, this number does not include any of the Hollywood movie flops you may have seen.

A 22-year-old British blonde has had her name legally changed to *Helen Mary*. It's a lovely idea.

A 12-year-old boy caught a 22-year-old shark breathing in Florida waters. That's only January that could be the best fish story of the year.

In Canada two youths battled a tennis ball back and forth without a miss for a period of 14 hours and 50 minutes. We don't get the idea—and, obviously, neither did either of them!

Your City Charter

Part 41

Section 132. RECLAMATION DISTRICTS, ESTABLISHMENT BY ORDINANCE; WHAT ORDINANCE TO CONTAIN. That should the governing authority of the City of Sanford, Florida, under the authority of this Act determine to create and establish any reclamation district, said ordinance shall set forth:

(a) The manner in which the filling in, reclaiming and improvement of the lands embraced in said reclamation district shall be made.

(b) That the owner of all property embraced in any reclamation district shall begin work on the improvement authorized within a period of sixty days from the adoption and publication of said ordinance.

(c) That if said improvement is not begun by any property owner within said sixty day period, that said work shall be done under and by direction of the Engineering Department of the City of Sanford, Florida.

(d) That the cost of said project shall be assessed against the lands benefited embraced in said reclamation district.

(e) The manner in which special assessments shall be made.

(f) When and how said special assessments shall be paid.

(g) A general description of the lands upon which the special assessments are to be levied.

In describing in any reclamation ordinance the separate parcels and tracts of land embraced in any reclamation district created, it shall be sufficient to describe the lots and lands embraced in the reclamation district as "All lots and lands embraced in Reclamation District No. _____."

Section 133. RECLAMATION DISTRICT, PLANS AND SPECIFICATIONS TO BE ON FILE WITH THE CITY CLERK; TO BE OPEN TO INSPECTION. That at the time of the adoption of said reclamation ordinance, there shall be on file in the office of the City Clerk of the City of Sanford, complete plans and specifications, with the estimated cost of the improvement proposed, which plans, specifications and estimates shall be open to the inspection of the public.

Section 134. RECLAMATION ORDINANCE TO BE PUBLISHED; ORDINANCE ONLY NOTICE GIVEN; CITY TAX ASSESSOR TO PREPARE SPECIAL ASSESSMENT ROLL; WHAT SPECIAL ASSESSMENT ROLL TO CONTAIN. That the reclamation ordinance, upon its adoption, shall be published once in a newspaper published in the City of Sanford, Florida, and the publication of said ordinance shall be the only notice required, under the provisions of this Act to be given to the property owners in any reclamation district, and sixty days from and after the publication of said reclamation ordinance, the City Tax Assessor shall proceed to prepare a special assessment roll in accordance with the method of assessment provided in the reclamation ordinance showing the

1956 Citrus Queen To Receive Great Array Of Prizes

WINTER HAVEN—In addition to many personal appearances on network TV and radio shows, the 1956 Florida Citrus Queen, to be named here during the Florida Citrus Exposition, Feb. 18-19, will receive "the greatest array of prizes in the history of the competition," Jack M. Berry, president of the industry show, said today.

Information and entry blanks for the contest are now being mailed in civic and service clubs, women's groups and other potential sponsors over the state, with instructions that competition for the honor of being named citrus queen will include representatives from all over the state.

The prizes to be awarded to the 1956 citrus queen, in addition to a contract for exclusive representation of the Florida citrus industry during the year, will include at least \$1,000 worth of the latest in wearing apparel, several items of jewelry, a radio, etc., with the probability that a brand new automobile will be added to the list, Berry said.

Phil E. Lacey, general manager of the Exposition, has just returned to Winter Haven from New York, where he conferred with radio and TV officials on setting up appearances for the new queen.

While considerable attention will be focused on the selection of the new citrus queen, all phases of the big Florida citrus industry will be covered in the Exposition displays and exhibits.

One of the features expected to attract considerable attention from Florida citrus men will be the exhibit of the State Plant Board showing the work that is being done in the state on the containment and elimination of the burrowing nematode said to be responsible for a serious infestation of spreading decline. State plant board officials will show by actual demonstrations how the containment and eradication program is being carried on and actual specimens of the minute nematode will be visible through strong magnification or microscope projections.

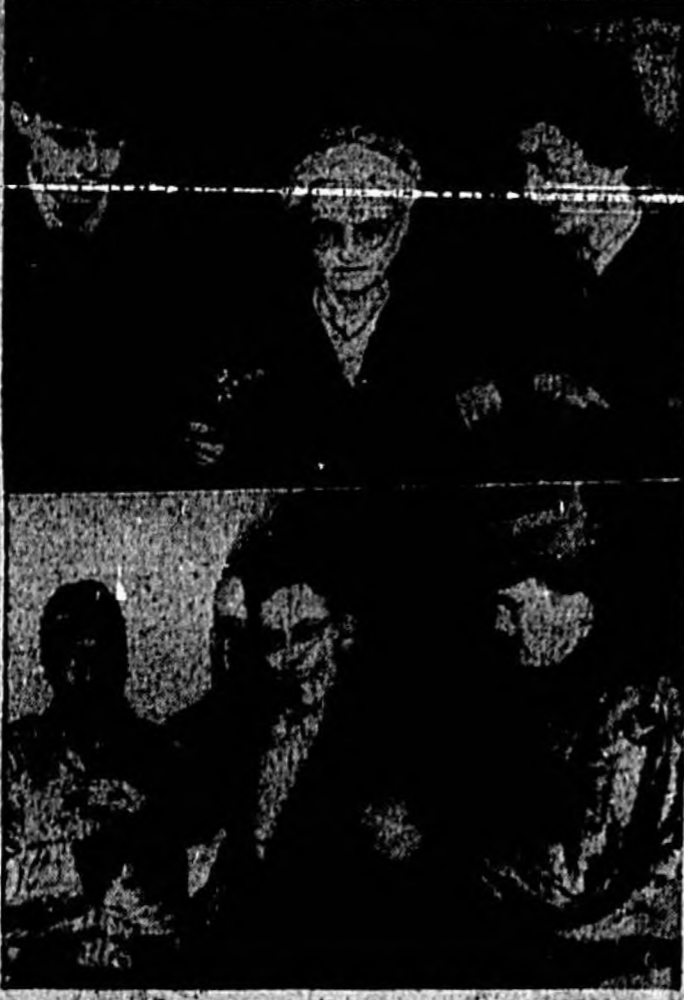

Florida Citrus Mutual said today that it will have available in a few days a definite program for "Fresh Fruit Day," which will be a special event of Thursday, Feb. 16, featuring the climax of the annual fresh fruit contest with premiums and awards for the best commercial packs of recognized varieties of citrus fruits.

The color red does not infuriate a bull any more than green, blue or white. It is the movement that attracts his charge. The bull, like many other animals, is color blind.

JAMES JACK WALKER, 28, is being held by the authorities in Santa Ana, Calif., in connection with the kidnaping and rape of Donna May Schurr (above), 18, who was "Miss California" in last year's "Miss Universe" contest. She was captured after an 11-hour chase in which Miss Schurr's fiancé, Lloyd Schurr, was joined by highway patrolmen. Walker, married and the father of a child, was also identified by Miss Schurr as the man who kidnaped and assaulted her last month.

Mrs. Rebecca BRAGMAN is helped down the steps of an air evacuation plane which brought her and her husband (below) to the Cross Air Force Base, California, from Manila in the Philippines. Dr. and Mrs. Bragman, American missionaries, were recently freed by the Chinese Communists after a five-year confinement in Red China. The couple spent about three weeks in a Manila hospital.

Too Late To Classify

BY RUSSELL KAY
While the "Florida Products Festival" is a most laudable effort and one that will aid materially in advancing the welfare of our state, we should not lose sight of the fact that Florida has had such a show-window for many years in its great State Fair.

The importance of showing as well as telling was recognized over 80 years ago when a small group of Tampa business men launched the first serious effort to stage an exposition of Florida products, laying the groundwork for the development of our present Florida State Fair which ranks among the leading fairs of the nation and has taken its place as America's greatest mid-winter exposition.

Year after year, since 1914, Florida's growth and progress have been faithfully and impressively presented. To millions of visitors and home folks alike, depicting the state's agricultural, industrial and business growth and bringing to their attention innumerable products of Florida's fast-growing industry.

The 1954 Florida State Fair promises to be another great exposition of Florida's limitless opportunities and resources. Coupled with the gala Gasparilla Carnival it will attract hundreds of thousands and again serve, as it always has, to present an unforgettable show-window of Florida for the information of young and old, native and visitor.

The Florida Products Festival is more than justified because of the state's amazing industrial growth. It will help localize attention of all areas of the state and reach many additional thousands who might not be reached through the State Fair. One effort complements the other and both deserve great credit and support from all interests.

Over the years the Florida State Fair has played a dominant role in advancing Florida's agricultural development. Much of the progress of such major industries as cattle, poultry, citrus, vegetable growing, packing, processing, etc., has been demonstrated to the public through the State Fair.

According to a recent announcement by Major W. F. Lane, USMC Officer in Charge of Marine Corps recruiting in Florida, a new policy has been adopted for eligible applicants desiring to enlist in the Marine Corps.

Effective Jan. 1, 1956, men 17-24 may apply for immediate assignment to active duty for a period of two years. The Major pointed out, however, that this new policy does not change the recruiting program for the regular Marine Corps. Recruit enlistments for three and four years will continue to be accepted.

Probers Assigned To Study Reports On Milk Prices

MIAMI (AP)—Two investigators from the federal Department of Justice have been assigned to look into reports that milk prices are being held up artificially here.

The two, George H. Davis, Jr., and Samuel Flalow, are expected to determine if monopolistic practices are being followed by milk dealers and associations.

Federal authorities are believed to have become interested after two retail dealers cut prices and then were unable to obtain further supplies until they went back to their old prices.

The Florida Milk Commission, which formerly set prices has dropped controls for a year.

C. Raymond Lee of Clearwater, its chairman, said "according to our records, the milk interests haven't violated any federal laws."

Watchful Eyes Kept On Raging Waters

SAN FRANCISCO (AP)—Engineers on the Feather River at Yuba City today as fresh areas in the state counted fresh flood losses.

Major new damage appeared to be at two coastal resort villages, Bolinas and Sausalito, both in Marin County, which yesterday was included in flood disaster areas by President Eisenhower.

Although Yuba City's 8,000 people were spared a second flooding, Col. John J. Livingstone, Air Force engineer, said the levees at Shanghai Bend where the big Christmas break occurred "is still a frail state."

The combined Feather and Yuba rivers, draining a huge watershed on the western slope of the Sierra Nevada Mountains, created at 68.2 feet yesterday and were falling gradually. The weather was clear and crisp.

Police Get Rare Chance To Query 'Murder' Victim

MONROE, La. (AP)—City police get a rare chance to question a "murder" victim today.

Five youths opened fire on a man standing in front of a downtown restaurant yesterday. They tossed the "victim's" body in the car and sped away.

Police officers, tipped that there might be a holdup at the restaurant, chased the car, but lost it.

Officers traced the youths through the automobile's license plates. It turned out the affair was a hoax and the bullets blank.

Chief of Detectives Hugh Tolbert did not identify the youth, but said some kind of charges probably would be filed.

He said the boys were lucky. His men had orders to open fire if a hold up were tried at the restaurant.

Bison is the true name of the animal Americans call a buffalo. A year.

Winter Haven Meet Attended

The local congregation of Jehovah's Witnesses returned recently from a three-day assembly at Winter Haven.

Rush G. Stafford, local Presiding Minister, said the assembly was successful in every way. The city of Winter Haven welcomed the Convention and rooming accommodations were provided for more than 900 delegates from Central Florida.

A. A. Catanzaro, district supervisor for the Watchtower Bible and Tract Society, delivered the key lecture of the assembly Sunday. His subject, "Overcoming the Fears of This Generation," centered around the theme of mankind's fears today and how they can be overcome. Excerpts of his talk follow:

Pointing to Luke 21:26 which states, "Men's hearts failing them for fear and 'looking' after those things which are coming on the earth," Catanzaro said that at no time in history has this prophecy been nearer complete fulfillment. He showed the cause and meaning of the world's fears by explaining that Satan the Devil was the "god of this system of things," 2 Cor. 4:4, and showed that the fears gripping the world are signs of the "last days of Satan's World" spoken about in the 21st chapter of Luke.

Showing how to overcome the fears of this generation, Catanzaro quoted Psalm 111:10, "The fear of Jehovah is the beginning of wisdom." We must declare war on fear with accurate knowledge of God's Word and put out faith in Him. This is the only way to overcome the fears of this generation."

D. D. Fellow, Circuit Minister, also spoke and gave Christian counsel, "Keep your balance in all things and return to your various congregations over Central and South Florida with renewed vigor for the ministry."

New Zealand's kiwi bird has no tail and almost no wings. It burrows like a groundhog, lays an egg a quarter of its own weight, has whiskers like a cat and nestles at the tip of its long beak.

\$64.50 Price Tag Put On Ford Stock

WASHINGTON (AP)—A price of \$64.50 a share was placed today on tomorrow's vast public offering of Ford Motor Co. stock.

The Ford Foundation, Inc., will reap \$642,600,000 from the biggest corporate equity financing in history.

The price was reported to the Securities and Exchange Commission as the final legal step required before the 10,200,000 common shares are offered tomorrow morning.

The underwriters — some 722 securities firms across the country — have reported almost unprecedented investor interest in the issue which admits the public into coownership with the heirs of the company founder, the late Henry Ford.

The price was supplied by an amendment to the original Ford registration statement filed with SEC last Dec. 21 as required by law to protect investors.

DON'T SAY COPS.
URGES CITY COUNCIL
LOS ANGELES (AP)— Please, the city council urges, don't call 'em cops.

A resolution adopted unanimously yesterday says: "Law enforcement officers, generally, resent being called 'cops,' and consider it derogatory and tending to lower the public's respect for their profession as guardians of the public safety."

Councilman Harold Henry, who introduced the measure, said the word "cop" is a Scotland Yard abbreviation for "Constable of the Peace."

13 MEANS NOTHING
PALM SPRINGS, Calif. (AP)—The number 13 means nothing to actor Gene Evans and his new bride, singer-actress Patti Powers. They obtained a marriage license Friday the 13th and were married Saturday in a ceremony attended by 13 guests. He is 31, she, 24.

The puma, panther, cougar, catamount, mountain and American lion are all the same animal.

ACTRESS GRACE KELLY tells reporters in Pasadena, Calif., that where she is married "makes no difference" to her. She was bombarded with questions on plans for her wedding in Prince Ranieri III of Monaco. There are no definite arrangements, she said, but the ceremony will take place "sometime after Easter." Speaks softly and packs a powerful wallop!

THE BEL AIR SPORT COUPE—one of 19 high-priced-looking Chevrolets, all with Body by Fisher.

Whether idling at curbside or cruising, this new Chevrolet talks in a well-mannered whisper. You scarcely ever hear more than a soft undertone of power from its deep-chested V8. (One reason is the hydraulic-hushed valve lifters now in all Chevrolet engines—V8 or 6.)

Soft-spoken, yes—but this handsome traveler packs a wallop that ranges up to 205 h.p.! It's charged with sheer action!

Action that can save you precious seconds for safer passing on the highway! Action that lets you take steep hills in stride!

Action that helps you zoom out of trouble spots almost as quickly as they develop!

And action isn't all. Chevy holds the road like part of the pavement! You feel added assurance in the way it clings to curves.

Of course, Chevrolet brings you the security of safety door latches in all models. Instrument panel padding and seat belts, with or without shoulder harness, are offered at extra cost.

Come in and drive a new Chevrolet. We've got one ready and waiting for you.

There's Been a Lot In the
Paper About

SOUTH PINECREST

... and a lot of people have been talking about the wonderful things happening in this quietly distinctive community of homes.

As a matter of fact, you may not know that 75 families have already bought homes, and have moved into South Pinecrest.

Your home can be completed in 10 days to 3 weeks. We will provide a place to live FREE, while your home is being finished.

South Pinecrest offers:

- Luxury homes in a moderate price range
- Spacious country living with all city conveniences
- City water and City sewers—Paved Streets etc.
- Intelligent zoning restrictions to maintain high property value
- Ultra modern design in homes and surroundings to meet today's high standards for Comfort, Convenience and that "Luxury Look".

YES . . .

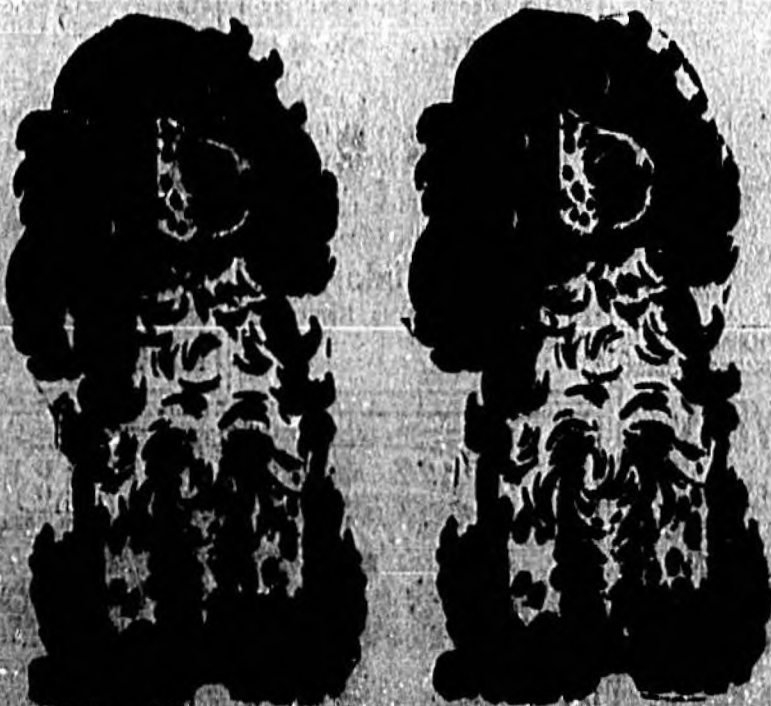

More people are choosing to live in South Pinecrest

BECAUSE . . .

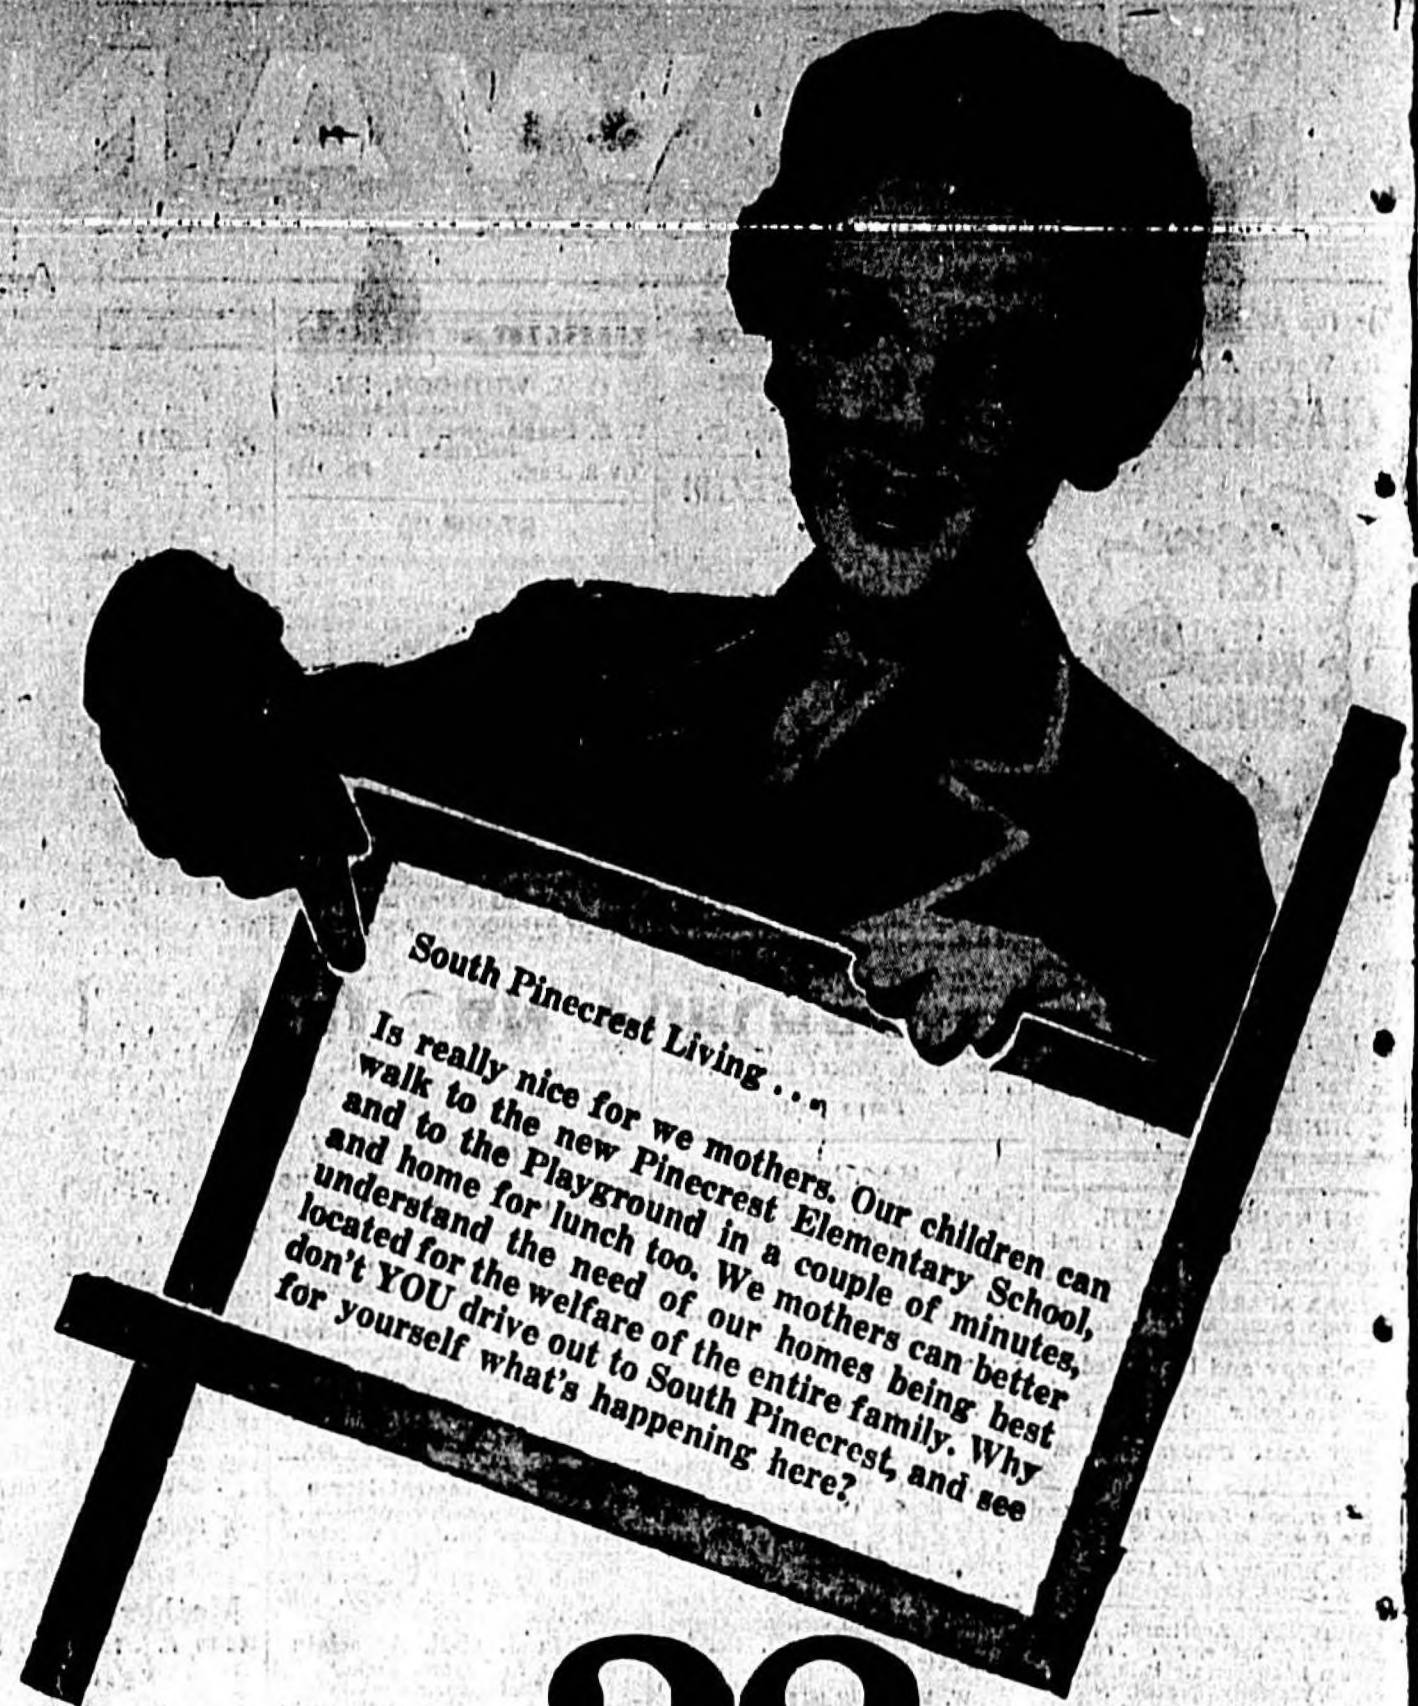

Built into every South Pinecrest home is the BEST that expert engineering, high quality materials and most modern methods can buy.

it's fashionable to live at—

SOUTH PINECREST

Act now and you can choose your paint colors inside and out. Also bath tile and brick trim on any house not completed.

South Pinecrest Living . . .
Is really nice for we mothers. Our children can walk to the new Pinecrest Elementary School, and to the Playground in a couple of minutes, and home for lunch too. We mothers can better understand the need of our homes being better located for the welfare of the entire family. Why don't YOU drive out to South Pinecrest, and see for yourself what's happening here?

28 HOMES

are now under construction immediately south of the new Pinecrest Elementary School and its 25 acre school playground.
