

# Race Critics Insist There Are No Good 3-Year-Olds After Outcome Of Derby

David J. Walsh  
International News Service  
Special Editor

NEW YORK, May 20.—To hear some tell it, there isn't a real good three-year-old race horse in training today, in spite of the fact that the second of the two major stakes races, the Kentucky Derby, was written into the pages of history, on Saturday. That even the spectators usually thought the boys to stand about the same degree of ability as the boys who were the winners in some degree of the last year's race.

Dr. Fredson, president of the American Horse Shows Association, said that the Derby was "a very good race" and the term, "nihil conversatio", was by no means a conversational reply.

Personally, I think it is possible that the boys are getting their proper money mixed up with some of their street car tokens. Clyde Van Dusen admittedly is no Zerubbabel Over and no Reign Count but neither is he a plug who goes in to find his level between the shafts of somebody's head. As a matter of fact, we have never seen a horse who has won the Derby, for he won the derby so easily that an accurate conception of his worth is not possible.

They say, in one opinion, that he has the cheapest kind of horse in the world, that he has the best of all race horses in spite of the fact that he didn't show it in the derby. They tell you also that those who played Van Dusen in the Derby will get their money back, when he runs in the Belmont Stakes, perhaps is too stolid to be a winning race horse but he must have some redeeming qualities or he wouldn't have run as dog at Van Dusen's on the Saturday to come from seventh place.

The lack of general acceptance of Clyde Van Dusen goes back to the fact that, of the second-year-olds of 1929, only Van Dusen remained to take issue with him. High St. was Jack High Twink and Rough Eye having broken down and others who were among the good ones in 1929; he, therefore, came prominently to the fore in 1930. It is a fact that Van Dusen is an example of it.

Van Dusen's pace showed something of what he could do when the pressure was on him, which was the early part of the race. The perfect horse was in an average of 18 seconds for each eighth and this he was not far from perfection through the first mile. He was clocked at the first quarter in 1:26 and the second in 2:52, it being evident that McAlister was set on finding out what he had to lick. Finding the answer, to be nothing, he came through the next two in 2:26-2-5 and 2:27-2-5 and came home in 2:23. No wonder Nishapur was able to show so much in the stretch. No other horse could show anything and Van Dusen didn't have to.

It might be that without the interference he got, Nishapur would have beaten the winner in a two-horse race. I don't know that this has anything to do with matter. The test of race horse comes only in the big fields of the stable events.

## Arlington To Open For '29 Race Season On Next July First

CHICAGO, May 20.—(INS)—Featured by the American classic a mile and one-quarter event with a purse of \$50,000, Arlington race track will open its 1929 season July 1. The meet closes August 2.

Arlington's stake program this year is one of the most ambitious ever offered in the West and is regarded as certain to attract many of the leading thoroughbreds of the country. The aggregate added monetary value of the stakes races totals \$1,175,000. The values range from \$5,000 to \$50,000.

There will be four stakes of \$5,000 each; three of \$7,000 each; one for \$10,000; one for \$15,000 and one for \$20,000.

The American Classic, which will be run July 12, is for three-year-olds and will carry an additional \$10,000 should the winner have scored in the Kentucky Derby, Preakness, Washington Derby or Belmont Stakes. This added lump of sugar is expected to interest the winners of at least two of the four outstanding turf events of the early summer season.

E. R. Bradley, owner of the famous Idle Hour Farm at Kentucky, has sent a total of \$9 nominations for the various stakes at Arlington and a smaller number of nominations have been made by many of the leading owners of the East and West.

**3 FISHERMEN DROWN**  
MACON, Ga., May 20.—(INS)—Two fishermen were drowned in the Ocmulgee river six miles north of here yesterday, according to reports today. The men, Ed Fisher and Will Womack, drowned when their small craft overturned.

Tampa, 12; Pensacola 7.

# PIRATES DEFEAT CARDINALS 2 OUT OF THREE GAMES

## Burleigh Grimes Wins His Sixth Straight Of Present Season

NEW YORK, May 20.—(INS)—The Pirates can't be declared out of the National League scramble as long as Burleigh Grimes is on the job. That was demonstrated yesterday when the veteran spitball twirler beat the Cardinals out of first place by trouncing them two out of three, and now are out to sweep their three-game series with Chicago, the other leading contender.

A hit by Charley Gelbert, the shortstop who was tried and found wanting and is now being tried again, enabled the Cardinals to nose out the Reds yesterday in the eleventh 2 to 1. Johnson and Luque did the throwing.

Perfect pitching, not needed by the Yankees when murderers' row was going full blast, has enabled the champions to win three straight after dropping five in a row. Three New York hurlers have pitched shutout ball in their last 21 innings, in which they allowed only five hits. Heimlich, who blanked the Red Sox yesterday 3 to 0, in a game held to five innings by rain, yielded only two hits.

Jack Rusanoff also allowed only two hits but they were home runs by Gehrig and Ruth—Lou's ninth and Babe's seventh. It was

but a short time later that the delicious joy of the crowds was turned to stark tragedy in the wild rush of the rain-soaked spectators for shelter.

The Athletics took their fourth straight from the Senators, 7 to 0, with Babe Walberg on the mound.

The White Sox pounded five Detroit pitchers for a 10 to 3 win, breaking even in the series.

Cleveland won its first victory of the year over the Browns, scoring six runs in the eighth for a 10 to 6 landslide. Five St. Louis pitchers were battered for 29 hits, Fonseca getting four. Other clubs did not play.

## Senator Reed Scores Compulsory Service

WASHINGTON, May 20.—(INS)—The compulsory military service bill, sponsored by Senator Reed, of Pennsylvania, general delivery, was a war department measure, he announced today.

Reed said he did not intend to support it, because he favored universal service in the next war. "The last war showed it is unfair to compel compulsory service of some citizens in the trenches without compelling service of those who remain at home," said Reed. "There must not be profiteering in the next war such as disgraced the last one."

**EDDIE QUILLAN**  
Though Eddie Quillan only cast his first vote last fall, he had years of experience in vaudeville before he accepted a contract to work in motion pictures for Pathé. He has been getting good roles in feature pictures recently, which prompts the thought that Eddie has some idea of parts.

## Lifeguards Look After Pupils From Nearby Schools

**SNAPPED AT MIAMI BEACH**—The bronzed young men who look after the safety of too-daring swimmers and supervise the calisthenics and swimming instruction of students from Miami Beach schools when the classes have rooms and scampers from school to the sun-splashed sands of the beach.

## College Athletes To Enter Physical Training Schools

MADISON, Wis., May 20.—(INS)—Twenty three graduates of the University of Wisconsin will enter the field of coaching and instruction in physical education next fall. They will complete their courses in the university next month.

Rube F. Wagner and Glenn Holmes, two of the graduates, will be attached to the university athletic staff.

In September Holmes will assume full charge of Frosh football. Wagner, captain of the cardinal eleven in 1928, will coach the linemen on the reserve football squad. Two other graduates, non-members of the course, will follow coaching.

## NEGRO IN HALLS OF CONGRESS IS DISCUSSED TOPIC

### Widespread Comment Being Made Among Circles Of Capital

WASHINGTON, May 20.—(INS)—The coming to Congress of the first negro member in 28 years has created wide-spread comment, except among students of governmental history, for at one time it was not unusual for a member of the race to be found in Washington legislating for the country.

Fifteen negroes have served in the National House of Representatives and three negroes have sat in the United States Senate.

Whereas the negroes in the past have come to Congress from the South, Rep. DePriest, the present member, hails from Chicago. Born in Alabama, he is one of many negroes who traveled north of the Mason and Dixon line and became active in politics.

The last negro in Congress was

George H. White of North Carolina. He served two terms, from 1897 to 1901.

Rev. Hiram R. Revels of Mississippi, was the first negro Senator. He was elected to succeed Jefferson Davis and afterward became a college president and later a Bishop in the A. M. E. Church.

Pinckney P. Pinchback of Louisiana served acting governor of Louisiana, Congressman-at-large and United States Senator. It took him three years to win his seat in the Senate. Blanche K. Bruce of Mississippi was elected U. S. Senator in 1874, and later was named Register of the Treasury by President Garfield.

Many negro congressmen won their seats in the hectic days following the Civil War and before laws were enacted which have prevented the negroes from exercising their numerical superiority in many states in the South.

Long Was First  
Jefferson Long of Georgia served in the 41st Congress, shortly after the Civil War, and was the first negro member of the national legislative body. Benjamin Turner of Alabama was elected to the 42nd Congress, and Jeremiah Harlanston to the 44th Congress.

Among other negro members were Capt. Robert Small, who al-

so was a captain in the United States Navy. One of the most prominent of the negro congressmen was John R. Lynch of Mississippi, who served two terms, and was temporary chairman of the Republican National Convention in Chicago in 1884.

## Effort To Be Made To Complete Lake To Gulf Waterway

CHICAGO, May 20.—(INS)—An effort will be made shortly with all Mississippi valley states joining forces with Governor L.L. Emerson, of Illinois to attempt to obtain federal aid in completing the lakes-to-gulf waterway, according to Col. Robert L. Randolph, consulting engineer for the Mississippi Valley Association.

"I believe the officials of the Mississippi Valley Association will support Governor Emerson's plan if it is found practicable and full force of the commercial and political influence of the valley can be brought into play within a short time," Col. Randolph said. According to Col. Randolph, steps have already been taken in this direction. Savings on shipments to and from Chicago will amount to \$6,000,000 or \$7,000,000 annually when the waterway is completed, he pointed out, and the estimated cost of finishing the project is only \$5,000,000.

**WEDNESDAY, MAY 22nd**

# DOLLAR DAY

At Hodgkins & Fiske Company

---

Store wide Dollar Day sale—an opportunity of a life time to buy new furniture and rugs at exactly one-half price plus one dollar.

EXAMPLE—A \$300.00 Living Room Suite will be priced at one-half plus \$1.00, or \$151.00.

DOLLAR DAY SALE is for one day only. All sales cash. Purchases will be stored free.

NOTE—Items with established resale prices not included in Dollar Day sale.

To accommodate customers unable to shop here early our store will be open until 9:00 P. M. Wednesday, May 22nd.

## HODGKINS & FISKE COMPANY

Give The Pineapple A Chance

The Palm Beach Independent calls attention to a movement on the East Coast for the restoration of a one time flourishing pineapple industry.

As time passed, however, we are not sure for exactly what reason, the cultivation of pineapples gradually fell off until now there are very few plantations and those that remain are comparatively small and do not seem nearly as prosperous as they once were.

With the slump in the real estate market, it again appears profitable to use land for agricultural purposes.

For that matter it would seem to us that local farmers who believe in the diversification of crops might well give the pineapple a trial.

At least it would be worth the effort to find out if pineapples will grow here. There undoubtedly will be good money in them if the tariff bill goes through as it is almost sure to.

Mexico seems to be going in for prohibition—prohibition of liquor, we mean, not revolutions.

Republican war horses complain that Hoover isn't being "regular," which is probably a good sign that the government is being operated more economically than ever.

"Melbourne," says J. W. H., in the Titusville Star-Advocate, is affecting further economies in her government," which is certainly to her credit but we passed that point a long time ago.

A grandson of the former German Kaiser has been found working in the Los Angeles Ford assembling plant. Some improvement on the work of his father's grandfathers who spent their time assembling armies on various German fronts.

Philadelphia officials are wondering why Al Capone doesn't appeal his sentence of one year in jail for carrying concealed weapons, but some seem to think that may be Capone rather than the quiet safety of a Philadelphia jail to be taken from a side by the Chicago racketeers.

Mr. D. B. Mackie, an entomologist of the Department of Agriculture, suggests that erroneous ideas given as facts are a more serious menace, in the campaign against the Mediterranean fruit fly than the fly itself. He recommends that individuals expressing opinions regarding the fly be sure to label them as opinions.

A fifteen year old Nashville boy enlisted in the Navy during the war and was assigned to submarine duty. His experiences were so real and his age so young that he suffered a nervous breakdown from which he has never recovered. Last week he died as a result of pneumonia brought on by his weakened condition. The law restricting enlistments to men of at least eighteen years is a good one even if many boys impelled by patriotism try to get around it.

The Herald is of the opinion that the bond houses would be wise to accept the Speer plan for the settlement of Sanford's financial difficulties. This plan involves the payment of every dollar of indebtedness, both principal and interest, and yet provides a breathing spell for Sanford taxpayers for five years when it is hoped new industries can be induced to come here, new residents to establish their homes, and old residents can have time to recoup financial losses due to the boom and busted banks.

The Herald regrets that Sanford is compelled to join the ranks of those Florida cities which have put on displays of violence this spring. A drunken brawl is said to have been at the bottom of the murder here. The disrespect for the law, engendered by bootlegging and bottle drinking, in the same respect which permits one to kill another, or to do things for which one might well expect to be killed. The reputation of a community for being law-abiding should be as sacred and important to it, as the reputation for decency is to the individual. We cannot have one without the other.

A Case Of Injustice

We hear so much in this country about criminals who escape conviction for the wrongs they do, that we are inclined to forget that sometimes men serve sentences given them for offenses they did not commit.

The Miami paper, full of sympathy for the wronged negro, has been trying to get the legislature to put him on a small pension for the rest of his life, but the senate committee has declined to report favorably on the bill.

"It is quite generally felt," the Miami Herald says, "that the action of the committee is a reflection on the honor and sense of justice of the people of Florida.

"In all probability, if a sufficient number of people feel that the wrong ought to be righted, as far as the state of Florida can now right it, it is possible that, if they will express their views, the legislature might be induced to approve the bill in spite of the committee's adverse report.

"The session is drawing to a close. What is to be done to relieve the unfortunate negro who served the state for seventeen years in enforced employment, nothing short of slavery, must be done without loss of time.

JOHN TEMPLE GRAVES II

From Greenhead's by mountains To India's coral strands...

With each summer visitation exploits the world grows smaller and more mutually sympathetic and dependent.

Aviation, whose greater development was born of war times, bids fair to become a more potent agent of peace than of war.

Tampa has not made nearly enough fuss about the man who fell eight stories there without being seriously hurt.

The lynching at Lake City brings that city its own "shame" which will be double-dyed if the sheriff fails to prosecute the mob or all of those responsible.

It is early to talk of filibustering in the debate over the administration tax measures at Tallahassee.

Striking mill workers in Tennessee and the Carolinas are unlikely to carry many salients for labor so long as there is a surplus of agricultural labor in the south.

The Wall Street Journal is opposed to the increase in tariff on sugar because it believes this will merely increase the sugar production of American dependencies like the Philippines.

A gentleman at the Smithsonian Institution is studying the structure of Marx with the aid of a very delicate membrane from the wing of a housefly.

According to an anonymous treasury official, present stock quotations are "mostly sound." In a good many cases, we should say, they consist entirely of sound-fal-lal-phia errors.

President Hoover hopes to have a farm bill passed by June 1, just about the time fish commence to bite up around Washington.

The University of Chicago has picked a president who is only 39 years old, about the age at which the old-time journeyman football player finally got his degree.

The question before the city officials is the question of extracting out of the property owners the money with which to meet the city's obligations.

The committee has passed a resolution urging property owners to help the city administration to meet the present emergency by paying the past due interest on all assessments and as much of the assessments as they are able to take care of.

SANFORD FORUM

Enter The Herald: Much has been said and considerable has been written regarding the status of the Mediterranean fruit fly and the problem created by its appearance in Florida.

Such articles to say the least are not only good and interesting but do much to hamper the work of the state and federal agencies in their campaign looking to the eradication of the fly.

As a point in question, the statement was made in a recent article appearing in the local press had the Mediterranean fruit fly had attained to numbers of injurious abundance by reason of climatic conditions which had been particularly unfavorable to the agencies which normally act as checks to its increase.

The lynching at Lake City brings that city its own "shame" which will be double-dyed if the sheriff fails to prosecute the mob or all of those responsible.

It is early to talk of filibustering in the debate over the administration tax measures at Tallahassee.

Striking mill workers in Tennessee and the Carolinas are unlikely to carry many salients for labor so long as there is a surplus of agricultural labor in the south.

W. H. LONG MEAT MARKET

The short period required for its life cycle points to the fact that with only natural control the population of one pair of flies can in a year amount to many millions.

The finding of widespread infestations along the East Coast might perhaps justify the belief that the infested fruit was washed ashore near Cape Canaveral.

As a point in question, the statement was made in a recent article appearing in the local press had the Mediterranean fruit fly had attained to numbers of injurious abundance by reason of climatic conditions which had been particularly unfavorable to the agencies which normally act as checks to its increase.

The lynching at Lake City brings that city its own "shame" which will be double-dyed if the sheriff fails to prosecute the mob or all of those responsible.

The committee has passed a resolution urging property owners to help the city administration to meet the present emergency by paying the past due interest on all assessments and as much of the assessments as they are able to take care of.

The University of Chicago has picked a president who is only 39 years old, about the age at which the old-time journeyman football player finally got his degree.

The question before the city officials is the question of extracting out of the property owners the money with which to meet the city's obligations.

# Social And Personal Activities

MISS MARGARET PETERS, Society Editor  
Office Telephone 148. Residence Telephone 443.

## Social Calendar

**TUESDAY**  
The Music Department of the Woman's Club will give a recital at 8 o'clock at the club house, featuring the Cecilia Music Club. All music teachers and pupils of Sanford are invited.

The Music Department of the Woman's Club will hold a business meeting at 3 o'clock in the club rooms.

An important meeting of the Little Theatre Group will be held at the Woman's Club at 8 o'clock.

**FRIDAY**  
The Woman's Missionary Society will entertain the members of the May Lambuth Circle, with an afternoon tea from 3:30 o'clock to 5:30 o'clock at the home of Mrs. S. O. Shiholser, 1608 Oak Avenue.

The South Side Kindergarten will present a program at 8 P. M. in the southside auditorium.

**SATURDAY**  
The Y. M. C. A. Stamp Club will hold its last meeting of the season from 1:30 o'clock to 3 o'clock in the Episcopal parish house.

Circle Number Four of the Methodist Church will give a chicken supper at the Lu-Beth cafeteria beginning at 5:30 P. M.

**Bridge Club Honored Monday Afternoon**  
Complimenting the members of the Tuesday Duplicate Club and their friends, Mrs. F. E. Rountree entertained with a bridge party Monday afternoon at her home, 105 Palmetto Avenue. Duplicate was enjoyed during the afternoon and Mrs. C. E. Henry, Mrs. J. C. Benson, Mrs. LeRoy Chittenden and Mrs. Floyd Palmer, who held high scores were awarded prizes. Mrs. Ollie Johnson cut high and received the cut prize.

A profusion of roses and g'adoli was used for decoration, accentuating a pastel color scheme, while the tables further emphasized the same color motif. At the hour an ice course was served by the hostess, assisted by Mrs. Grant Wilson.

Others present included: Mrs. J. L. Hurt, Mrs. Cassandra Schultz, Mrs. Sanford Doudney, Mrs. Paul E. Forbes, Mrs. H. M. Rumbley, Mrs. Alexander Vaughan, Mrs. M. Minkrik, Mrs. W. A. Leffer, Mrs. John Sneed, Mrs. Cautchen Hutchings, Mrs. W. T. Laird, Mrs. H. W. Backer, Mrs. C. E. Adams, Mrs. J. C. Gibbs, Mrs. W. B. Zachary, Mrs. W. H. Tunnicliff, and Mrs. B. W. Wils.

## "Brown's Follies" To Be Given At Milane

"Brown's Follies," a program which will include a variety of songs and dances, will be presented by the Brown's School of Dancing on Thursday evening at 8 o'clock at the Milane Theatre.

In conjunction with the main feature of the evening, Dolores Costello "The Glad Rag Doll," Little Beth Pippin will sing and dance the theme song of the picture "The Glad Rag Doll."

Miss Julia Ritchie, Miss Conner, Meisch, Miss Nell Stewart and Gene Turner will have the numbers of the program. Mrs. Ritchie and Mr. Turner will appear in "A Mite of a Dream" and will be supported by 22-ton dancers. Miss Ritchie will wear a costume in show while Mr. Turner will wear a white breeches and a top hat.

Gene Turner and a dancing troupe will sing and dance the musical number, "Thirty for Lunch and Hungry for Love." Another feature of the evening will be "Little Mite of a Dream" by Stewart in Brown's Babes.

Mrs. D. B. ... teacher of the Brown's School, will supervise the dancing, while Miss ... have charge of the singing. For announcements will be made at the radio on Wednesday.

## Mrs. Brouse Hostess To Members Of Club

Mrs. J. E. Brouse, hostess to the members of the Wednesday Afternoon Club, will give a luncheon at the Country Club. Several propositions of bridge were enjoyed and high scores were awarded to Mrs. V. G. Wiggins at the conclusion of the games.

Luncheon was served in three courses from the long luncheon table which was overlaid with a blue cloth and adorned with bows of spring and garden flowers.

Those present were: Mrs. M. E. ... Mrs. B. L. Perkins, Mrs. A. W. ... Mrs. D. D. ... Mrs. ... Mrs. ... and Mrs. ...

## Mrs. Carroll Writes Motherhood Article

**Ed Note:**  
The following article on motherhood was written by Mrs. E. M. Carroll for the members of the T. Y. L. Class of the Baptist Church.

Motherhood is life lost in love. Maternity brings with it a joy of the sweetest; a love of the purest, and a care of the tenderest type, known to the human heart.

The mother sways the empire of young hearts; guides young lives.

God has given her a mission, one of love and mercy. She who rocks the cradle, helps to rule the world.

The mother holds in her hands, the secret springs of influence, which govern nations. She moulds the minds which move the world.

The mother sustains one of the most responsible relations to humanity, known to Christian civilization. Her influence through her sons and daughters soon tells, for weal or woe. Boys and girls should never forget their mothers' love. They are their mothers' pride and promise through life.

The Christian mother begins early in life to train her children for heaven. She seeks earnestly a heavenly father's assistance. She spares no pains to gain all the vantage ground possible while their hearts are young and tender. Her Christian influence is powerful. But equally powerful for evil, is the example and influence of a wicked, worldly-minded mother, over her tender confiding child. Such mothers lead their children into the deep rushing current of worldliness.

There are many reasons why mothers should all be Christians. Heaven pity the home with a Christless mother. Mothers do much to make, or mar the characters of their children.

Mothers ought to be wise and well-informed women. The helpless and dependent state of their children gives them grand opportunities to mould their minds and shape their destinies for good.

Fond mothers make the saddest mistakes of their lives, when they sacrifice everything for the pleasure of their children. They are sure to rule the day, when they look upon themselves as the lawgivers of domestic life, and denied themselves all social, intellectual and religious privileges, that their children might appear to better advantage in society. Such mothers soon become servants, if not slaves to their selfish sons and daughters. They do not appreciate her. If they are made to share the burdens and cheerful hearts they will develop into fine, strong men and women.

Mothers are the first tutors of their offspring so they should upon their opening minds, the first rays of mental light and teach them the earliest lessons they learn in life, which time itself cannot erase, lessons which will lead their sons and daughters to womanhood and manhood as bright ornaments in society, models of moral worth and positive powers for good in the world. Mothers select carefully the literature your children handle. Everything they read will make impressions either for good or evil, upon their young minds.

Mothers are character builders, forming characters for time and eternity. This is a fact of fearful and fathomless importance.

If mothers would have their children, honor them when they are grown, they must make them respect them while they are young. Make your children obey you. Disobedience tends to dishonor on the one hand, and to disgrace on the other.

The harmonies of home life, are largely in mothers' hands. The happiness of the entire family depends mainly upon her patience, character and conduct.

The mother can leave no richer legacy to her children than the sweet life long memories of a happy childhood spent in an ideal home and children blessed with such a home, will, when they grow up, leave it with dearest regrets and return often in after years.

Mothers are often richly rewarded for all their lives of sacrifice. For every step taken in after-life by the gallant son or queenly daughter which reflects honor upon the mother, sends a thrill of joy through her heart that proves a perfect feast to her soul.

It is a right royal honor to be the mother of a noble son or daughter.

**PARENTS INTERESTED**  
In entering children in kindergarten, call at Southside Primary, room 2, between 1 and 2 o'clock.

## Personals

Gordon Cherry is spending this week in Daytona Beach attending to business interests.

Mrs. A. C. McLendon, 1300 Park Avenue, has as her guests this week her sister, Mrs. A. E. Morrison and Mrs. T. J. Baggs of Tampa.

Mrs. Stella P. Arrington, Mrs. R. C. Maxwell, Miss Love Turner, Miss Charlott Smith and Miss Julia Peck of Deland, formed a party motoring to DeLeon Springs Saturday night where they attended the Psi Sigma Phi banquet at the DeLeon Springs Hotel.

## Otis Harlan Plays Important Role In Picture At Milane

For over forty years Otis Harlan has been entertaining audiences, first as a romantic leading man, and later as clever character actor and comedian of the screen.

Universal gave him a long term contract some time ago. Since then he has appeared in a great number of Universal's screen successes. The greatest role in recent years came to him when he was given the part of Capt. Andy Hawks in "Show Boat," the super talking picture at the Milane Theatre today.

In the other super production of the year, "Broadway," he plays the part of "Porky." He has been much of a fixture in Denny comedies, playing the sympathetic director in "Where Was I?" in "What Happened to Ome?" he was the chief funmaker next to the star. In "The Cheerful Fraud," "Clear the Decks," "His Lucky Day," "Good Morning Judge," he supported Denny. Others of his latest Universal pictures are "Port of Dreams," "Silks and Saddles," "Grip of the Yukon."

Undoubtedly he is appreciated by musical historians and students for centuries to come, contains manuscripts of the modern and manuscripts that date back to the earliest compositions of Adolphe Sax, the Belgian who discovered the saxophone in 1840.

**Musician Gathers Music From All Over World**  
New York City.—The only complete collection of saxophone music in the world is owned by Merle Johnston, internationally famous saxophone player.

While traveling abroad, the merest hint or rumour of an original or unknown manuscript on saxophone music will send Johnston hurrying off to out-of-the-way hamlets, keep him for days pouring over the musical records of continental libraries and universities and send him down by-streets of Belgian and German cities to leaf over lattered music for sale in dirty little music shops.

This busy modern musician who is now playing an average of seventy-seven hours a week over the radio to an audience of twenty-five million people, has found time to make not only a hobby but a fetish of his library.

Johnston's library, which will undoubtedly be appreciated by musical historians and students for centuries to come, contains manuscripts that date back to the earliest compositions of Adolphe Sax, the Belgian who discovered the saxophone in 1840.

**A.C.L. Is Favored By Supreme Court Writ**  
WASHINGTON, May 21.—(INS) The Supreme Court granted the petition of the Atlantic Coast Line Railroad for a writ of mandamus requiring federal Judge William B. Sheppard of the Northern Florida District to join the Florida Railroad Commission from enforcing an order alleged to limit the scope of a rate decision of the Interstate Commerce Commission.

After the commerce commission had ordered rates on interstate movement of logs in Georgia changed to correspond with rates on logs from Florida to Georgia, the state commission attempted to limit the order by excluding the railroad's Perry branch, and one other line destined for Palatka.

**"Poppy Day" Will Be Observed Saturday**  
The American Legion Auxiliary will have its annual sale of poppies on Saturday, May 25, better known as "Poppy Day." Mrs. J. C. Henson has been appointed chairman of the committee in charge of the poppies and has arranged for booths about the town so that everyone may have an opportunity to buy a poppy.

The proceeds of "Poppy Day" will go to the soldiers at the hospital at Lake City and also will be used for welfare work among disabled veterans and their families.

The best proof of his own real worth are most readily seen in the greatness of her honored children.

The history of the world proves that the destinies of nations rest largely in the hands of mothers of their rulers. For her wise and good rulers, the world is indebted to good and wise mothers. To wicked and wayward rulers, to wicked and wayward mothers who gave them birth.

## New Yorker Collects Saxophone Manuscripts

MERLE JOHNSTON

Merle Johnston, internationally famous saxophone player.

Adolphe Sax, while trying to produce a clarinet that would overblow the octave like the flute and oboe, gave the musical world the saxophone. The new instrument became popular immediately, and soon superseded the bassoon in many military bands. It was used in an orchestra for the first time in Paris in 1844.

"A Bangalow, A Radio And You" a fox-trot song I play to millions over the air daily," explains Mr. Johnston, "is a number that may be called a real contribution to saxophone music. It has the musical nuances which have made the saxophone the world's most popular instrument."

"It is pieces of this type which have made the saxophone and dance music synonymous."

**Plane, Seeking Flight Record, In Air 2 Days**  
FORT WORTH, Texas, May 21.—(INS)—The "Fort Worth," a rebuilt Ryan Brougham monoplane, piloted by Reg Robbins and Jim Kelly, on to break the refuelling endurance record set by the Army plane, the "Question Mark," had been in the air 48 hours at 11:33 A. M. today.

Notes dropped by the pilots stated that the plane was functioning smoothly and that they were getting more sleep. They also stated that Robbins who had suffered from an attack of air sickness since a few hours after the flight began, was feeling much better. A prescription for sickness was lowered to Robbins from another plane yesterday.

Miss Mary Sanderson of Kissimmee left Monday afternoon for her home after spending a week here with Miss Louella Hagan at her home on Park Avenue.

**Brother Of Mexican Rebel Dies Of Grief**  
NOGALES, Sonora, Mexico, May 21.—(INS)—Grief stricken over the disappearance of his brother, Dr. Pablo C. Escobar, a prominent Mexican physician, was dead here today. His brother, General Jose Gonzalo Escobar, chief of the rebel armies in the recent revolution, was last heard from at Agua Prieta. Authorities reported that Dr. Escobar committed suicide by taking poison.

## Helen Wills Leads Americans In First Rounds of Tourney

ANNUAL, May 21.—(INS)—ROLAND GARROS STADIUM Helen Wills and Edith Cross advanced to the second round in the doubles of the French tennis championship today when their opponents, the Frenchwomen Danel and Spinaud, defaulted.

The heat was terrific here today. The Britisher Gilt, playing in the doubles with Austria against the Frenchmen Duplax and Redel collapsed on the center court and play was interrupted for 15 minutes.

Wills and Cross, youthfully American tennis stars, paired with Edouard Borotra, brother of the famous Jean, defeated Zahar and Dannon of Greece, 6-2, 11-9, 8-6 in the doubles of the second round.

Coen appeared to be off from this was particularly evident in the second set when he repeatedly double-faulted and failed to put his smashing drives across the net. Borotra saved the set by magnificent playing. Danel's second set by the third set with many dazzling shots.

Big Bill Tilden who watched the match from the sidelines said to an International News Service staff correspondent.

### QUARTER HELD IN MURK CASE IS RELEASED

(Continued From Page One)

...that those who are interested should be advised.

"Upon the finding of the body of the deceased a preliminary examination was made of the situation by a coroner's jury, which determined that the deceased came to his death by a gunshot wound from a gun in the hands of a party or parties unknown."

The sheriff's office instituted an investigation and on Saturday afternoon placed my clients in the County Jail with two other parties, with the apparent intention of carrying my clients with being connected with the crime.

"In the early days of criminal procedure in Europe it was a principle of the law that a person was presumed to be guilty of the crime when charged with such crime, but our forefathers recognized that justice could not be administered under such principle. Our present system of law provides that every person is presumed to be innocent of crime until proven guilty beyond a reasonable doubt, and this principle is the foundation of American liberty."

"To this date direct evidence as to who committed this crime has not been discovered. To this date circumstantial evidence of a legal character has not been discovered to identify the person who committed the murder. The circumstances developed to this date do not in any legal manner connect my clients with the murder, and under the principles of law in this State there should have been evidence of such character as to raise a probable cause that they committed the crime and to one else."

"Great caution should be used in charging a person with a crime based upon circumstantial evidence as our Supreme Court has repeatedly held the law to be that:

"When circumstantial evidence is relied on for conviction, the circumstances, when taken together, must be of a conclusive nature and tendency, leading on the whole to a reasonable and moral certainty that the accused and no one else committed the offense charged. It is not sufficient that the facts create a strong probability of guilt and be consistent with guilt. They must be inconsistent with innocence."

With this as a principle of law well established in this State, my clients should not be charged with this crime.

"I have been repeatedly asked why a preliminary hearing was not held, and in such a hearing that with the law well established as hereinabove referred to, and the facts and circumstances within the knowledge of the Sheriff, there could be no crime established against my clients. If, therefore, appearing that there was no legal reason for the arrest and custody of my clients they were discharged without any further proceedings."

### EDITOR DIES

NASHVILLE, TENN., May 21 (INS)—Walter Cain, 66, editor-in-chief of the Nashville Banner, was dead here today. Cain was editor-in-chief of the Banner six weeks ago.

### BRITISH NAVAL LORD TALKS ON DISARMAMENT

(Continued From Page One)

When it was pointed out that certain sections of American public opinion objected to this proposal because it apparently would have prevented the United States from building battleships to balance the British "Rodney" and "Nelson" super-dreadnoughts and replied that the British ships and the United States ships were built under the Washington agreement to balance ships belonging to the United States and Japan.

The people who said that my proposals were intended to give a permanent advantage did not read my proposal or did not read it carefully. In them I suggested that adjustments might be made to maintain parity.

Mr. Bridgeman indicated that the adjustments he had in mind were that the United States be allowed to build ships if necessary to maintain the balance arrived at in Washington.

The Geneva conference broke up over the question of cruiser limitation. The United States delegation proposed a global cruiser tonnage, with the right to use as much as they liked of the allotted tonnage in 10,000 ton 8-inch gun cruisers.

The British delegation proposed limitation of cruisers in two classes, one of 10,000-ton cruisers with 8-inch guns, and another class of smaller cruisers with 6-inch guns, numbers being fixed according to the British admiral's for the protection of British trade routes.

Mr. Bridgeman does not think this difficulty should be insurmountable in any future negotiation for agreement on naval restriction. "Personally I should not be alarmed," he said, "if we said to each other, 'build as many cruisers as you think you need of the type you want, if we each accept the idea of equality.'"

### TO DISCUSS STUDY

CHAPEL HILL, N. C., May 21 (INS)—Various problems of adult education are scheduled to be treated out of the annual meeting of the American Association for Adult Education which opens here today.

### Delay Incurred In Solving Bond Problem Of City

(Continued from page one)

study of the following information which is self explanatory as to its relation to the proposition outlined by Commissioner Speer. For the sake of clarity the figures are presented in round numbers being approximately the amounts denoted. The assessed valuation to be paid in terms of millions of dollars and taxes assessed and collected in thousands of dollars.

Year	Assessed Valuation	Milage	Tax Asses.	Taxes Col.	P.C. Pop
1919	\$3 1-2	15	\$ 51	\$ 35 1-2	89
1920	4 1-2	17	73	60 1-2	95 5,538
1921	5	17	81	77	92
1922	6	18	111	106 1-2	96
1923	6 3-4	18	121 1-2	118	97
1924	8	18	147 1-2	141	96 11,617
1925	11 3-4	18	202	193 1-2	95
1926	19 1-2	15	292	282 1-2	89 13,461
1927	21 3-4	25	543	320	50
1928	15 3-4	20	319		9,629

From the above table, it is seen that at no time has the City's collection of tax been sufficient to handle an item of \$376,250.00, which represents interest due annually on the bonded indebtedness. With the assessment of approximately \$319,000.00 of taxes on a present valuation of about

excise report of Nov. 10, 1928 which follows:

Total population 9,629  
Whites 5,995  
Colored 4,531  
Total tax payers 1,193  
White tax payers 893  
Colored tax payers 305  
Vacant houses, white 141  
Vacant houses, colored 28  
Vacant stores, white 17  
Vacant stores, colored 22

Only a slight calculation is necessary to show that the 1,193 tax payers in the City, with the burden to be carried by the 893 white tax payers, are hard pressed to

\$76,000,000.00 it is evident that even with a 100 per cent collection the City would fall short of the annual interest. It is now obligated for taxes collected to date are approximately \$173,000.00 of \$14 per cent of the total assessment. This sum is made up to a large extent of taxes collected from large property owners, corporations and outside interests with the possibility of a much larger increase in payments the balance of the year being remits.

The plan's frank declaration that the payment of more than \$300,000.00 is impractical is further supported by statistics of the

meet the interest payments annually, not to mention the expense of operating City administration. And with a decreasing population and the business slump due to various conditions which are beyond control, the sincere efforts of the people to take up their just debt are hindered to a great extent.

The amount due on July 1, \$518,812.50, is made up of the following items: Bond due, \$100,000.00; certificates of indebtedness due, \$161,000.00 and interest due, \$197,812.50.

That some action will be taken by the bond representatives of the plan as presented was hinted at in the statement of Mr. Keefe that he would return to Sanford as soon as possible for a further discussion into the affairs of the City.

### HOOVER CRIME INQUISITERS TO MEET TUESDAY

(Continued from page one)

M. Lemann of Tulane University, Col. Henry W. Anderson, Republican leader of Democratic Virginia, is rated dry, at last politically.

Frank J. Loesch, vice-president of the Chicago Crime Commission, was appointed because of his intimate knowledge of racketeering and crime in Chicago, and the "fixity" there of criminal prosecution.

The others are federal district judges, William H. Grubb of Alabama, Kenneth R. McIntosh of Washington, and Paul J. McCormack of California.

How much latitude this commission is going to have in pro-

hibition remains to be seen. It depends almost entirely upon President Hoover. He conceived the idea, he appointed the commission, and he will outline the scope of its work when it is assembled here last of the week. The commission can hardly go beyond his instructions.

It is expected that most of the work will be done in Washington, although it has not been decided whether hearings will be held outside. Like so many other things, this depends largely on the President's instructions.

The wets and drys in Congress were cautious in their public comment today concerning the personnel. There are so many members of the commission whose views are not generally known that both sides were inclined to "wait and see" before rushing into print with statements that later might come back to plague them.

Senator Jones, author of the five-and-ten law, said he would give made "other selections." However, Jones said several weeks ago that if he were naming the commission he would name only those who wanted to see prohibition a success.

JACKSONVILLE, Fla., May 21 (INS)—Two ex-officials of Charlotte County and an alleged rum king were charged with conspiracy to violate the national prohibition laws in an indictment which has been returned by the federal grand jury here, it was revealed today.

Those named in the indictment included James Lipscomb, an ex-sheriff; T. S. Griggs, an ex-deput-

state, his column "Pine Needles" attracting wide attention for its philosophical teachings.

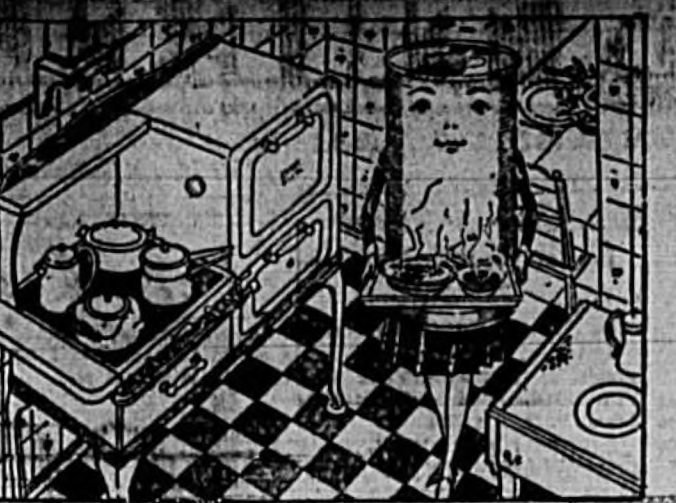

"Piney Woods Philosophy" was another column formerly conducted by Dr. MacKenzie.

Dr. MacKenzie was born Chester, Ill., Nov. 22, 1878. He was a Nova Scotian family. His medical training was had at Leake Medical college from which he was graduated in 1900. He remained in St. Louis until while he was a practicing physician and also a lecturer in commercial enterprises.

In 1911 Dr. MacKenzie came to Fruitland Park, Lake county, as organizer and president of the Lake County Land Owners Association. His idea was to see Lake county become the home of 100,000 persons. He was interested in citrus groves, vineyards and many business enterprises in the county. Survivors are Mrs. MacKenzie, who was Miss Carolina Virginia Nichols, of Lebanon, Ill., whom Dr. MacKenzie married in 1903, and a daughter, Grethe. A ward, Willburn Robins, also made his home here with the family. Mrs. Nellie MacKenzie, the physician's mother, who lives at Chester, also survives.

Dr. MacKenzie, who was a speaker of note, was to have left today for Moultrie, Ga., where he was to address a home coming celebration tomorrow.

Local insurance agencies carried Dr. MacKenzie's car for \$150,000 in life insurance.

### Canny Servants

SERVANTS, housewives say, are not so good as they used to be, nor yet so plentiful. Good servants are hard to find and their wages are so high that fewer and fewer people can afford them. Have you ever stopped to think that this mechanical age has accomplished a lot toward doing away with the necessity for servants? We have not yet evolved an efficient Robot who can dust, sweep and clean, and also have the presence of mind to say "not at home" when you are not prepared to receive visitors. But we have something else.

The New Competition

Do you realize that more than 9,000,000,000 separate mechanical tasks which used to be performed every year in the home are now accomplished in the commercial can-

### PLAN TO CHANGE DRY LAW GROUP IS BEING TALKED

#### Complete Reorganization of Prohibition System May Result

**WASHINGTON, May 21**—A complete reorganization of the prohibition system, including the elimination of district administrators, was understood today to be under consideration by Attorney General Mitchell, who is preparing a bill to transfer the dry bureau to the Department of Justice.

In the place of the administrators, the United States marshals or district attorneys would function to investigate cases, make arrests, and present them to the courts.

This would end the enforcement system set up several years ago by General Lincoln C. Andrews, who gained fame by reorganizing the military police service in France during the war.

The Treasury, which has carried on enforcement since the Volstead Act went into effect, has not been consulted by Mitchell, nor by Mrs. Mable Walker Williams, assistant attorney general in charge of prohibition, as to the plans for reorganization. Prohibition officials are in the dark as to what method the justice department will take to meet what is one of the government's most difficult problems. They all speculated as to their status should Congress authorize the transfer.

There is a possibility that the so-called "permissive" end of prohibition enforcement, will be permitted to remain in the Treasury, in which case the dry bureau probably will be abolished and the branch of the work transferred back to the international revenue bureau.

Permissive operations, that is the issuance of the thousands of various permits for the legal use of alcohol, medicinal and sacramental liquors, comprises nearly half of the work of the bureau.

Business interests, especially those using large quantities of industrial alcohol, have opposed the transfer to the justice department, being satisfied with the system of distribution set up by Prohibition Commissioner J. M. Doran. Much of the opposition to the transfer would be eliminated

### CONSTANCE BENNETT

Constance Bennett, daughter of Richard Bennett, and sister of Barbara and Joan, has just signed a contract for feature pictures with Pathé. Miss Bennett has been living abroad for several years with her husband, Phil Plant, the well known actor, but prior to that was considered one of the most promising of the younger actresses. Her sister Barbara recently married Motion Downey, who is starring in singing and talking pictures for Pathé.

### Liquor Raid Results In Death Of One And Wounding Of 2 More

**LOUISVILLE, Ky., May 21**—(INS)—During a liquor raid at the home of Mrs. Ruth Hatcher at Happy Hollow near Pikeville, Ky. early yesterday patrolman Lon Robinson, 39, of Pikeville, was shot to death and U. S. Commissioner Sidney Trivette was seriously injured by several shots fired by Bruce Little, 35, of Malvin, Floyd County.

Little had been searched by the officers and after a 45 calibre pistol was taken from him, opened fire with another revolver, Trivette, drawing his gun, shot Little four times in the head and body. Little was rushed to a Pikeville hospital and is not expected to live.

**KEEP FRIENDSHIPS ALIVE BY TELEPHONE**

Haven't you often wished that you could be with friends who have moved to other cities? They may be far away, yet you can easily keep in touch with them; talk over old times, and make plans for the future. When they're ill or when anniversaries and birthdays come around you can join them with your voice.

Recent service improvements have made distant telephonic conversations a pleasure. Generally, connections are made almost as quickly as with local calls. In most cases you can hear just as clearly as if you were talking to a friend around the corner.

You'll be surprised, too, to learn how inexpensive these voice visits now are. At seven o'clock in the evening, and again at eight-thirty, reductions are made in the station-to-station rates. And long distance calls return so much in the way of friendship and satisfaction. Keep friendships alive—by telephone.

**Adults Contract Children's Diseases**

Adults can, and do, contract many children's diseases. And, usually, they suffer from them much more than children do. For instance, many adults contract worms, an ailment usually associated with children. Sometimes they suffer intensely and take expensive medical treatments, without realizing that worms are the cause of their troubles. Yet, the symptoms are the same as in children, loss of appetite and weight, grinding the teeth and restlessness, itching of the nose and anus, and abdominal pains. And, the same medicine that cures and harmlessly expels round and pin worms from children will do the same for adults—White's Cream Vermifuge, which you can get at Sanford Drug Co., Laney Drug Store, Roumillat & Anderson, Union Pharmacy.

**Y. P. BOYLE**, Special Master  
**GILES & GURNEY**, Solicitors for Complainant  
Orlando, Florida.

**FORT PIERCE, Fla., May 21**—(INS)—Authorities today worked to break up an alleged bandit ring responsible for a series of crimes committed along the East Coast of the state following confessions by two prisoners, one a woman, in jail here.

Mrs. Julia Harner, mother of three children, who is awaiting trial on charges of highway robbery, and Jack Sanletur, convicted on the three counts of a similar nature, were said by police to have confessed their part in the robberies and implicated several others. Highway robberies, hold-ups, and theft of crop shipments are some of the crimes laid to the ring by authorities.

### New York and San Francisco Linked by Radio

#### New Circuit Joins World Wireless Networks

New trans-continental service provides a connecting link between America's globe-girdling radio circuits across the Atlantic and the Pacific coast. Nation-wide domestic wireless between 35 U. S. cities planned for near future. Map shows extentiveness of American radio networks and the new cross-country circuit.

Radio spanned the American continent for the first time in commercial telegraph service when R.C.A. Communications, Inc. opened its New York-San Francisco circuit to the public on May 16th. An exchange of congratulatory messages and news pictures between high civic officials and newspapers in New York and San Francisco marked the inauguration of the new domestic radio circuit. Messages may now be sent from New York, Boston and Washington for transmission to San Francisco, and vice versa, at the same rates which apply to land wire telegraph service.

The new service includes photostatic transmission as well as messages, and is the first step in a plan for establishing a nation-wide domestic radio system, according to General James G. Harbord, president of the Radio Corporation of America and R.C.A. Communications, Inc. An application on behalf of R.C.A. Communications, Inc. is now pending before the Federal Radio Commission at Washington for short wave frequencies sufficient to serve thirty cities in an inland network of radio communication.

The New York-San Francisco circuit will bridge the 3,000-mile trans-continental span without a relay, utilizing an improved "projector" system. The transmitting and receiving stations represent a capital outlay of more than \$200,000. The circuit has been tested under all operating conditions and weather variations for a period of two years, and in experimental operation speeds as high as 500 and 600 words a minute have been maintained.

"The opening of the new circuit is a significant step in communications development in the United States," declared General Harbord. "Business men in San Francisco may now com-

municate by radio to all the principal countries of Europe and South America without the necessity of utilizing 3,000 miles of a competitive wireline system."

In the central operating office at New York and San Francisco, the radio-grams are translated into perforations on a type-writer passing through a machine called the Wheatstone transmitter, the perforated tape sends dot and dash impulses along a wire to the transmitting station at Rocky Point, Long Island, where the signals are amplified and sent on their transcontinental journey by the beam projector with its directional antenna.

Traveling with the speed of light, the signals require exactly one sixty-second part of a second to complete the transcontinental journey. As its destination, the message is automatically written on a moving tape by an ink-receiver, and retyped for delivery.

### HURT TO STOOP TO LACE SHOES

#### Kentucky Lady Was In a Suffering Condition — Didn't Feel Like Eating.

Lexington, Ky.—Mrs. J. H. Nichols, who lives at 613 Elm Tree Lane, this city, says:

"Some few years ago, my health was bad. I had very severe pains in my sides. My nerves were in a terrible condition. I could not rest. The lower part of my body was very sore. I could hardly stoop over to lace my shoes. I would have to put my foot on a chair. I did not feel like eating, and did not sleep well at all at night.

"A friend of mine recommended Cardui. I began taking it and saw quite an improvement in my condition. I kept it up until I felt strong and well."

About a year ago, Mrs. Nichols says, she found herself in a nervous, run-down condition. "I took Cardui again," she adds, "and it helped me wonderfully. It is a splendid tonic."

Cardui is made from purely vegetable ingredients, and may be safely taken by women of all ages. Try Cardui in your case. Sold by all druggists.
