

### Iranians Reject New Proposals On British Dispute

By MAX HARRELSON  
NEW YORK, Oct. 17—(AP)—The two Latin American members of the U. N. Security Council tried a new approach today in the British-Iranian oil dispute, but an Iranian spokesman quickly dispelled any hopes that it would be acceptable.

The central idea of the new plan was to avoid a showdown on Russian and Iranian protests that the United Nations is not competent to deal with the controversy.

Jose Carlos Muniz of Brazil, this month's presiding officer, took the position that the council never had taken a formal decision as to its legal competence to deal with any question and that such a decision is not necessary now.

Iran's aged Premier Mohammed Mossadeq and Russia's Semyon G. Tsarapkin have demanded that the whole oil dispute be thrown out of the council on the ground that it is a domestic issue and, therefore, not within the UN's jurisdiction.

Muniz pointed out that in the Dutch-Indonesian dispute the council had sidestepped a decision on just such a contention and then went on to reach a peaceful solution. He said there certainly was nothing to prevent the council from suggesting that the parties to a dispute should get together of their own accord and seek an agreement.

Later, Antonio Quevedo of Ecuador introduced a resolution proposing just that. The new proposal merely stated that the council, without deciding on the question of its own competence, should recommend a resumption of negotiations.

Mossadeq was not present as the council convened this morning. Associates said he was at his hotel working on a speech in which he will sum up his position at an afternoon session of the council.

Britain's Sir Gladwyn Jebb, meanwhile, announced he would accept amendments to a British resolution offered yesterday by India and Yugoslavia. The amended resolution has generally the same provisions as the new Ecuador plan, except that it omits any reference to the competence of the council. Iran and Russia have attacked both the British proposal and the amendments.

Mossadeq threatened yesterday a possible walkout and Tsarapkin hinted at a Soviet veto, if the council tried to adopt any resolution.

After the Ecuadorian resolution was circulated, a spokesman for the Iranian government said he appreciated Quevedo's efforts, but his government still held that the council should take no action. He said Iran is opposed to all proposals before the council, including the Ecuadorian.

**NAME CALLING**  
WASHINGTON, Oct. 17—(AP)—Senator Benton (D-Conn.) told a Senate subcommittee today he has new evidence showing that "a personal copy of a letter to 'Father's payroll' is an admitted homosexual ex-Communist."

The early season football ticket sales at Syracuse University were almost doubled what they were last year just prior to the opening game.

### Blues In The News

By RALPH GASSMAN

Capt. John Chittenden is really a tennis enthusiast. Recently he included, recently the Captain, Lt. John Her and Lt. (jg) William Hopkins, all of NAAS, played doubles with Charlie Morrison. Capt. Chittenden and Mr. Morrison lost two out of three sets to Mr. Her and Mr. Hopkins.

Sidney Jones, Jim Meyers and Phil Mounier, all of FASon 821, returned yesterday from a short leave to their home in New Orleans. Roy Smith, NAAS, spent the past weekend in Jacksonville. Jack Perry, FASon 821, spent Sunday afternoon in Mt. Dora. From the smiles, I would say they all had a very good time.

G. E. Math reported aboard NAAS yesterday from Memphis, Tenn. He just graduated from AD school as fifth in his class of 132 men. Several other men have reported to NAAS for their first duty station after basic training. They are John Manning, Kenny Brendel, Bob Moses and Paul Clark, all from Illinois, Bernie Mueller from Indiana and Bill Wells from Massachusetts.

The station is planning a basketball team for all hands. Tryouts will be held soon in the SIF gym and men are now going there to practice. Several days ago Rick Joyner, Dolph Frost, "Tex" Carnes, Paul Clark, Jim DeHart and Al Panton, all of NAAS, worked out together at the gym.

Jim Proffitt, FASon 821, is being transferred to Bainbridge, Md. today. At Bainbridge Jim will attend the Naval Dental School. Some sailors are "handladders" and others seagoing so while Jim was sent to a shore station, Robert Lovey, NAAS, was transferred to sea duty yesterday.

One of the loves of Howard Haynes, NAAS, is fishing. Recently he spent the day at Lake George. He had the good luck to make a catch of two fine bass, one weighing three pounds and the other weighing six pounds.

Clears are flowing around the station like water. It is an old Naval custom that when a man makes a rate he gives all his friends a cigar. Fifteen NAAS men made rates yesterday. Here is a list of the men and the rates they made: A. B. Singletary, AE2; J. A. Fullinwider, AG1; C. W. Swanson, AO1; R. L. Jackson, SD2; R. H. Mock, EP2; R. L. Smith, TD2; C. M. Whitehurst, TD2; J. D. Schult, PM3; U. D. Schmidt, PM3; F. E. Gresham, PN3; G. W. Sapp, AE1; J. B. Ricketts, EP1; J. T. Hill, AE2; J. C. Wilcox, EP2; and P. H. Pemberton, TD2. Well done, men!

Till tomorrow, when Jimmy takes the wheel, so long.

**BASHBALL RULES**  
WASHINGTON, Oct. 17—(AP)—Baseball manager Phil Rizzuto came out today against giving baseball an outright exemption from anti-trust laws. But he said sports' legal troubles help solve the problem.

The owner of the Chicago Cubs and the Los Angeles Angels gave his views to a House monopoly subcommittee headed by Rep. Celler (D-N.Y.). The group is studying proposals to relax anti-trust laws for baseball.

Wright said he believes organized baseball has evolved a system of rules and regulations that are sound.

### Rail Road Will Restore Sebring Clewiston Line

TALLAHASSEE, Oct. 17—(AP)—Ratified by a United States Supreme Court decision, the Florida Railroad Commission is going to move to restore Atlantic Coast Line Railway passenger traffic between Sebring and Clewiston.

The commission last October denied the Atlantic Coast Line permission to suspend passenger service on the branch line. The railroad company took the case into federal district court here. A three judge court ruled in favor of the railway company last March and issued an injunction restraining the commission from interfering with the suspension of service. The railroad company immediately discontinued the Clewiston-Sebring passenger service.

The commission appealed to the United States Supreme Court. Lewis W. Pettaway, general counsel of the commission, said he was advised today the U. S. Supreme Court had vacated the order and sent the case back to the district court for further consideration in view of the high tribunal's decision in a similar case involving the state of Alabama versus the Southern Railway.

In that case, the United States Supreme Court ruled the Southern Railway had to make any appeal from Alabama's Railroad Commission to the Alabama Supreme Court.

Pettaway said the commission now will ask the federal district court here to dismiss the Atlantic Coast Line's action in the light of the U. S. Supreme Court ruling. Then the commission will order the railroad company to restore the discontinued service.

### Press Ban

(Continued From Page One)  
by Mr. Truman the lack of machinery for appealing from government officials who might seek to classify information of so security value.

They said the President suggested that his press secretary is the "proper appeal tribunal" but at the same time invited suggestions for clarifying the feature of the order.

"The President said he would not hesitate to modify the order on the basis of constructive suggestions as long as the basic safeguards to security were maintained," Wiggins said.

Corn and Wiggins were accompanied by the White House by John Colburn, managing editor of the Richmond Times-Dispatch and Maclean Patterson, managing editor of the Baltimore Sun.

All four made it clear that their original objections to the order remained unchanged after their talks with the President and Short.

They said they would accept the President's invitation to draft changes, but indicated they would adopt a "wait and see" attitude.

**ORLANDO ARRESTED**  
ORLANDO, Oct. 17—(AP)—Sheriff's deputies last night arrested Luther M. Crouse, 32, of Orlando, on a charge of criminally attacking a 19-year-old girl in a downtown park Sunday night.

The Azores are nine volcanic islands.

### Pepper View

(Continued From Page One)

cial interests to stand in the way of that and other improvements the American people need," said Pepper.

"Those who try to solve the medical problem have been crushed by those having a financial interest in the problem they are not helping to solve. I understand some doctors paid a month's income to help defeat me."

Discussing international problems, he said he believed Russia could not hold its satellite countries.

### Prison Riot

(Continued From Page One)

back. The temperature had gone down to 47 during the night. Some of the convicts picked up and ate the nuts scattered in the prison yard for squirrels.

The demonstration was all but broken when Maj. Boyles marched through the exercise yard this morning with fifty heavily armed state troopers rushed here from all over the state to augment the 90 guards.

The 85-year-old prison—built for 900—is back from the Ohio River in the silver of West Virginia that straddles between Ohio and Pennsylvania. It is about 12 miles below Wheeling.

All but about 400 of the 1,750 inmates joined the rebellion. It started when they refused to come in out of the exercise yard for the evening meal late yesterday.

They protested a prison cook was filthy. They said they did not have enough clothing.

Warden Sheen promised he would do something about the cook. He agreed the prisoners might not have enough clothes. The prison does not have enough money for all the supplies it needs, he said.

For several hours the prisoners shouted vulgarities at the administration building. All the 30 guards took posts on the walls. A call went out for state troopers. Sheriff's deputies cleared streets around the prison. Searchlights glared down on the compound.

About 200 of the prisoners, some of them armed with knives and broken scissors, rushed the power plant and the commissary. Apparently they hoped to throw the light switches and get food.

Mechine guns blazed from the walls. The attackers fell back. The shots had been aimed over their heads.

The mutiny settled down to a siege, the prisoners locked out of the cell buildings in the cold. A few marched in front of the administration building as the thermometer skidded. The others stretched out on the cold pavement. Some had brought blankets and huddled in them.

A fox moved in over the prison. The convicts stirred as it grew light.

"Warden down some ham and eggs," one yelled. "Send down some ham and eggs," one yelled. "Send down some ham and eggs," one yelled. "Send down some ham and eggs," one yelled. "Send down some ham and eggs," one yelled.

"You promised us food and better conditions," one yelled. "Now where are they?" "There had been some trouble at the evening meal Monday night but it petered out.

Mah Jong has been played in China as a card game for about eight centuries.

### De Bary Doings

By KAY HENNINGER

Sunday in DeBary is like Sunday in many small towns all over the United States. There is a quietness that makes it a little different from all other days of the week.

Early in the morning our Catholic neighbors begin to drive off to church. Most of them have found their church home in Sanford where they attend Mass each Sunday.

Later on, the Protestants leave their homes in time to reach their 11:00 o'clock services. Methodists, Baptists, Presbyterians, Episcopalians, Congregationalists, Scientists, all have found a cordial welcome awaiting them in the churches in the neighboring towns and cities.

Most folks have their Sunday dinners in the middle of the day and thus have the afternoon and evening for sociability. There may follow a trip to some nearby beach or spring for swim and a picnic supper. Others may drive through the country visiting some of the nurseries or groves. Perhaps a boat ride or fishing party is the order of the day or a visitant neighbor who has a new barbecue pit. It is not unusual to find a few strollers on the roads, trying to offset the special Sunday dinner before it gets in its work of adding pounds.

Evening finds most of us back home because we must water our gardens, Sunday or no Sunday. There are those new banana trees just set out and the man said, "Be sure to give them plenty of water." Or Mr. So-and-so has given us a dozen strawberries and we must nurse them so that the birds may have strawberries next February.

Then Vesper Services for some and visits with neighbors for others, or an evening at home. Some music, television, radio, a good book or a pleasant conversation and another lovely Sunday is a thing of the past.

### Korean Talks

(Continued From Page One)  
neutral zones to be set up for armistice negotiations.

**U. S. 8TH ARMY HEADQUARTERS**  
TERB, South Korea, Oct. 17—(AP)—Allied infantrymen drove to within fifty yards of a Communist position on the central front today.

Chinese defenders retreated slowly before the advancing U. S. 24th Division and the South Korean Sixth Division.

The Reds were described officially as "slowly withdrawing."

Whether this was general along the entire 23-mile central sector remained to be seen. It was still possible for the Reds to make a stand south of Kumang.

Allied infantrymen trapped a pocket of Chinese on the highest peak guarding the southern approach to Kumang. First estimates placed the number of trapped Reds at about 800. But a briefing officer said slackening resistance as Americans and Colombian troops attacked the crest indicated the number may have dwindled.

The 24th Division moved 1,000 yards eastward in a last gasp in the trap around the Reds.

Less than five per cent of the nation's homes are equipped with a portable fire extinguisher.

### Acheson Stand

(Continued From Page One)

present situation and that the obligation of all nations towards the preservation of world law and order will be respected."

Acheson voiced his support of the stand taken by the British in response to questions from reporters.

He declined to say that the U. S. will support any action the British may take in defense of their position, but he said British troops are in the Canal Zone under a valid treaty which cannot be set aside by Egypt acting alone.

The British government is entirely within its rights in maintaining its position, he said. Asked what steps might follow Egypt's rejection of the proposal for an international command, Acheson noted that he is appealing for consideration, and that, meantime, discussions are going forward with other Middle East governments, including Israel.

On other foreign developments, Acheson said:

1. The Pacific's security treaties with Japan, Australia, New Zealand and the Philippines, and also the Japanese peace treaty, will be submitted to the Senate early in the next session.

The U. S. believes the Japanese Diet should ratify the peace treaty and the security treaty with the U. S. before Congress is asked to consider them.

2. The proposal by the Communist East German government for all-German elections was just propaganda to delay and confuse the whole movement for integrating West Germany into the European community. The Communists submitted this proposal in previous years but Acheson said they never go forward with actual plans which would allow honest elections.

3. Soviet Russia is charging that Norway has fortified Svalbard and the Bear Islands by repeating tactics used in 1940 when Moscow tried to frighten Norway out of the North Atlantic Alliance. Acheson noted that Norway denied the charge and said that as far as he had knowledge the denials were correct.

4. It would be a great bulwark to peace in the Middle East if the Arab governments and Israel could settle their differences and joined the proposed Middle East defense command.

**FIFTEEN THOUSAND**  
HOF, Germany, Oct. 17—(AP)—Four Czechs blasted their way with submachineguns across the border into west Germany today in a gun fight with Communist police. They brought two women and four children with them.

The political refugees raced to freedom on foot after their bullet-proof truck was halted by a road block 500 yards from the border.

None of the refugees was hurt in the ensuing exchange of bullets.

The National Geographic Society says the sandwich has been traced as far back as the Romans. Street in New York City in 1897.

### Kiwanis Meeting

(Continued From Page One)

a most serious crisis, passed bills that "left us 75 cents income for every dollar we had left," he declared. He added that he had led a fight to reduce appropriations 25 percent as he was not willing to see the State bogged down financially.

Later the Governor called for an extraordinary session and the Revenue Act of 1949, "a common citizens tax" was passed, Mr. Gray said, and referred to this as the most complicated piece of legislation he had ever read.

He stated that he was very happy about how the law had worked out, pointing out that it had resulted in only three lawsuits in Florida as compared to 500 following the passage of a similar sales tax law in Tennessee.

The sales tax in Florida, he said, brought in \$47,424,000 last year, and should produce about \$53,000,000 this year.

He declared that the State is now safe just about as much as it is taking in, added that he was not trying to alarm the legislators, but predicted that they are going to have a real problem with the tax law in Tennessee.

The largest item appropriated was the \$64,000,000 for the State Road Department, he stated. In contrast, he pointed out that last year only \$9,600,000 had been spent for State government operations, including those of the Governor, his cabinet, and for circuit courts.

State Welfare, the second largest spending item, cost \$52,840,000 last year. Mr. Gray added that the Legislature had to do something to keep this in check, particularly in cases of irresponsible parents and "husbands and fathers who could not be found." He told of funds spent for State universities, schools and education.

Mr. Gray warned against removing constitutional bars to a State income tax, stating that such a tax would cut off the influx of people and corporations and businesses to Florida.

Guests at Kiwanis were Lieut. Robert W. Ramey, U.S.N.; G. W. Spencer, Malcolm MacNeill, Volle Williams, Jr., Forrest E. Hrebacker, Robert Syracuse, of Greenville, S. C., and the Misses Jean Wilton and Ada Adams, "sweethearts" of the Key Club.

**REVENUE AGENTS**  
WASHINGTON, Oct. 17—(AP)—House investigators have run into refusal by a number of tax agents in New York to reveal their financial worth. Others have attributed the "spikes" and "holes" to acknowledged outside income of \$3,000 to \$4,000 a year.

Disclosing this today, staff investigators for a House Ways and Means subcommittee said the agents have been directed to appear here for questioning this week, probably on Friday.

They will be asked then the same questions which they failed, or refused, to answer thus far.

A chain of towns in the Blackwald of Germany is called the "Wupperthal" (witches' valley) because of the eerie glare of its steel mills.

### Woman's Club

(Continued From Page One)

She pointed out that it was unusual for her to find time in a crowded agenda to speak to local clubs but that when she asked Director Caldwell if he wanted her to fill a number of requests to speak in his own state, he had replied, "If any Florida clubs want you to speak I hope you will do so."

She said she did not think Sanford would be classed as a target area. She pointed out that it was general opinion in the Civil Defense agency that a Red attack would include one atomic bomb overring blue surrounded by others carrying conventional weapons. The planes carrying biological and chemical warfare weapons might attack the southern states, she said.

Present estimates set the number of enemy planes that could get through U. S. radar-plane defense all but 20 out of 100 or so at the most 30 percent. She added that it was generally believed that the Russians would come over if we are prepared, she said, 80 percent of the people in a bombed area could be saved.

Mrs. Whitehurst urged every American man and woman to take a first aid course. An old course was not good enough, she said, we must learn how to care for new burns and gasses.

The Russians have a nerve gas, she said, that has no smell and can kill in only one and a half minutes. An antidote is known, she said, but it takes millions to provide it and, "Congress has not seen fit to make the funds available."

Civil defense, she pointed out, is a program of self-preservation and just good insurance.

**JESSUP'S REPLY**  
WASHINGTON, Oct. 17—(AP)—Ambassador Philip C. Jessup today accused Harold E. Stassen of resorting to a "grasping technique" in an effort to free himself "from the morass of misstatements in which he has become mired."

Jessup made the charge under oath before a Senate Foreign Relations subcommittee which is studying President Truman's controversial nomination of the ambassador-at-large as a United Nations delegate.

Jessup sharply challenged Stassen's sworn testimony that official records indicate that Jessup took part in preliminary meetings which led to a 1949 proposal that U. S. aid to the Chinese Nationalists be halted. Mr. Truman rejected the proposal after it had been discussed at a White House conference Feb. 5, 1949.

**Odham Reveals**  
(Continued From Page One)  
clared in speeches that he is a gubernatorial candidate. Gray said he had no official knowledge of Hendrix's candidacy.

Comdr. Nelson E. Harris, USN, Mrs. Harris and children of Norfolk, Va., left yesterday after visiting in Sanford with Mrs. Harris sister and brother-in-law, Mr. and Mrs. H. Q. Touchton, and her brother and sister-in-law Mr. and Mrs. S. J. Brooks.

Hints to Housewives

A new non-stir method of laundering wool blankets in automatic washers proved the solution to the shrinkage problem in tests by Elaine Knowles Weaver of the Ohio Experiment Station. Mrs. Weaver developed the idea of moving wool by soaking rather than agitation after 500 laundering tests of new and used wool blankets in different washers.
Blankets were measured for shrinkage after five washings. Those given four-minute washings shrank twice as much as those in the washer only two minutes. Both were given two deep rinses of one minute each. Mrs. Weaver concluded that agitation of wool caused most of the shrinkage, matting and loss of fluffiness. Gentle handling of wool wool has long been advised in laundering not only blankets but other wool fabrics.

100 Attend Civic Department Meeting

About 100 persons attended the meeting of the Civic Department of the Women's Club which was held at 1:30 o'clock Tuesday at the home of Mrs. John L. Whitehurst, special assistant to Civil Defense Administrator Millard Caldwell in Washington, D. C. Guests present included members of the Civic clubs of Sanford, members of the Women's Clubs of Oviedo, Altamonte Springs and Deland, the Longwood Civic League, Daughters of the American Revolution, Irene Hinton, Girl Scouts and school men of Sanford.
Mrs. Whitehurst was introduced by A. B. Peterson, chairman of Civil Defense of Seminole County. Mrs. Miriam Russell, chairman of the Civic Department presented Mr. Peterson. Mrs. Whitehurst stressed the importance of women's parts in the defense program in the country. She added that the fine arts must not be neglected as they will help preserve the sanity of the people during the difficulties ahead.
The meeting was conducted by Mrs. Crumley and Mrs. A. M. Phillips led in singing "The Star Spangled Banner". Mrs. F. E. Bole conducted the salute to the flag and the invocation was given by Mrs. Cecel Carlton asked for names to place on the birthday calendar and Mrs. O. P. Herndon a director of District 7 of the Florida Federation of Women's Clubs announced that a meeting of the group will be held in Winter Park on Nov. 9.
Attractive and colorful decorations in the club were of hibiscus and green leaves. On the speaker's table was a fan shaped arrangement of yellow and green crotons based on bright scarlet hibiscus. The business meeting and Mrs. Whitehurst's talk was preceded with a luncheon at 1:30 o'clock. Hostesses for the occasion were Mrs. R. T. Warren, Mrs. James Huff, Mrs. S. C. Graham, Mrs. Willie Peacock, Mrs. D. C. H. Stewart, Mrs. C. S. Stewart, Mrs. Clayton Smith and Mrs. Joe Baker.

Mrs. Golden Speaks At Christian Meet

Mrs. John Golden, wife of the interim minister of the Sanford Christian Church, was among the speakers of the District Convention of the Disciples of Christ, Christian Churches, held on Monday at New Smyrna. Other speakers were Rev. McPheny of the First Christian Church in Tampa, and Miss Betty Cannon of Deland.
A banquet was held at 6:30 P. M. in the new church annex. Those attending one or both sessions from Sanford included Mrs. W. H. Young, Mrs. W. C. Tison, Mr. O. T. Pearson, Mrs. George Roland, Mrs. J. H. Horton, Mr. and Mrs. Andy Anderson, Mr. and Mrs. D. Landrus, Rev. and Mrs. Golden, Miss Ruth Williams and Joy Walter. Mrs. Tison was elected secretary-treasurer of the convention for 1951-52.

Barbara Ann Pearce To Wed Mr. Reagan

Barbara Ann Pearce whose engagement and approaching marriage is being announced today by her parents to Donald Thomas Reagan. Miss Pearce graduated from the local high school in June and Mr. Reagan is stationed at the Air Station in Sanford.

LAKE MARY

By VIRGINIA P. ANDERSON

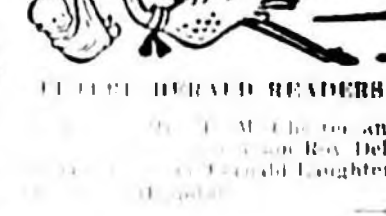

Thursday night the Lake Mary Boy Scout Committee attended the District Council meeting at McKinley Hall, in Sanford. Members of the committee from Lake Mary were Wm. Pugh, chairman; Joe Maybury, R. E. True, C. P. Brantington, P. D. Anderson, I. I. Hobby, J. A. Yates and C. E. Milsted.
Mr. and Mrs. Samuel Anderson of Dayton, Ohio, were recent guests of H. B. Benton.
Mr. and Mrs. N. J. Fischer are occupying one of the cottages at Sanford, N.A.S.
He is with the Navy stationed at Norfolk, Va.
Friends of Mrs. Frieda Garban will be interested to learn that she is a patient at the Eversall Laughton Hospital in Sanford.
Mr. and Mrs. John C. Cochran, Mrs. Stoudermyer and Frank Cochran of Sanford, spent Sunday, Oct. 7, in Jacksonville.
Lt. James Tate, who has been a patient at the Naval Hospital in Jacksonville for some time, is sufficiently recovered to be at home again.
Joe Douglas of Zellwood arrived Friday to spend some time with his brother and sister, E. A. Douglas and Mrs. Betty D. Sorrell.
Mrs. Florence Roteler and daughter, Mrs. Ted Brooklyn and Rita, returned Thursday from Charlottesville, Va.
Mrs. Roteler had visited relatives Mrs. Roteler's parents, Mr. and Mrs. Z. I. Smith accompanied them home.
Wednesday evening the Business Women's Club of the Community Church met at the home of Mrs. R. E. True. Reading of the minutes of the previous meeting constituted the only business as both president and vice-president were unable to attend.
New plans were discussed for various activities of the club. At a later hour, the hostess served coffee and doughnuts, escorted male couples of chess and billiard playing.
Attending were Miss M. H. Rice, Frank Evans, E. E. Lyles, Jr., F. G. Lee, P. D. Anderson and Joe M. Thompson.
Mrs. H. M. Young of Macclura is spending a week with her family in Sanford.
Mrs. George Lee, who is attending school in St. Augustine, was visiting her parents, Mr. and Mrs. F. G. Lee over the weekend.
Mr. and Mrs. E. M. Clifton are

# Sanford Meets Palatka In First Home Game Tomorrow

## Rugged Palatka Club Boasts Pair Of Fleet Halfbacks, Four Wins In Row

Somewhat stale after a week with an open date, the Sanford Colery Feds scrimmaged hard yesterday to get in shape for a rough tough Palatka team that will meet the Seminole High eleven in the first home game of the season tomorrow night.

Kick off time is 8 P. M. on the high school field.

Sanford coaches were not too happy with the showing of the local squad as the game with the undefeated Palatka Maroons drew near. "We're a little sloppy and that open date didn't help us any," said Linecoach Fred Gans.

A rained out Tuesday practice didn't help the Seminoles sharpen their play.

Only for both of the teams have met in the DeLand eleven. Palatka pulled the DeLand game out of the fire in the last three minutes. A rain soaked ball game had pum from a DeLand back. The Maroons took over deep in DeLand territory and drove 28 yards to paydirt to win the game 9-0 as time ran out.

Sanford played the DeLand team a week later in a game that might have gone either way. It went to DeLand as they finished on top of a 7-0 score by taking advantage of a Sanford fumble in the final quarter.

This would seem to give the Palatka boys a little edge. But comparative scores aside, the Maroons boast a powerful varsity with an impressive record.

Here's the way the Palatka team stacks up:

They can boast wins over Green Cove Springs, DeLand, Starke and last week they whipped Macclenny 22-7 to make it four in a row.

The Maroons carry a hard running attack from their split T formation, and they have a unit of swift halfbacks to run the ball.

Dough Miller, fleet 135 pound halfback, starred in last week's victory over Macclenny. Number 77 in the Maroon lineup will be a man to watch tomorrow night. Last week he averaged 9.1 yards for the 21 times he carried the ball.

Miller's running mate in the halfback slot, Claude Harner, led the pigskin 77 yards in 11 tries to average 5.5 yards a try.

Quarterback Eddie Mathews does the signal calling and passing for the Maroons but almost never carries the ball. Mathews switches to end on defense.

Fullback is the weak spot in the Palatka running attack and Louis Tenney who started for the Maroons made only 11 of the 288 yards gained rushing. Either Bunky Roberts or George Willis is likely to start in this slot against Sanford. Willis racked up 77 yards against the Macclenny team as a substitute at full and halfback.

The passing attack of the Maroons is not impressive. They gained 48 yards from four completed passes, one of them for a TD but the Palatka quarterback tried 13 times and suffered one interception to gain those four completions.

In the line the Palatka squad lost star tackle Ray Owens when he was injured in an auto accident last week. From end to end the Sanford club may be more than a match for the visitors though any edge they do have will be small.

Whether or not the Colery Fed line can stop the hard running Palatka wingmen may spell the difference between victory and defeat.

## Georgia Tech-Auburn Clash Has Bearing On Conference Title

ATLANTA, Oct. 18 (AP)—Georgia Tech and Auburn renew a 59-year football rivalry here Saturday and for the first time in years the contest will have a direct bearing on the top places in the South-Eastern Conference standings.

Neither school was considered a contender for the SEC crown before the season began, but now are unbeaten and untied—an almost unbelievable record in view of their performances in 1936.

Last fall Auburn played 10 games, won seven, lost 10, failed to score seven times and managed to score only 31 points all season. Tech opened 1936 with two losses and wound up the season losing six and winning five for its worst record in five years.

Ralph Jordan, Auburn's new coach who is principally responsible for the Plainsmen's climb, says hard work, good assistants and spirit are the main reasons for Auburn's arrival on Grant Field Saturday as an unbeaten team.

Bobby Dodd, Tech head coach, said fast development of several sophomores, great improvements in the play of Guard Ray Beck and Quarterback Darrell Crawford and general team speed and brain, are principally responsible for Tech's return to the top of American football.

Auburn progressively has improved each week. Against Vanderbilt Auburn rushed 80 times to break the Southeastern Conference record of 80 formerly held by Mississippi. In the same game Auburn ran off 93 plays to tie the old mark held by Georgia Tech.

The Plainsmen are the best ball backs in the Southeastern. Eleven fumbles have been recovered. After taking had ticks from the Vandy and Wofford passing attack, Auburn did well in holding pass happy Florida last week to eight completions in 24 tries. Auburn has intercepted eight passes.

Tech's record in whipping four major opponents on four Saturdays is among the four or five best showings in the country. And the Yellow Jackets mark in staying unscathed Fred Benner of S. M. U., Haywood Sullivan of Florida and Dabe Parill of Kentucky, is unsurpassed.

Second string fullback Art Ross is the only Tech player definitely out of the game. Center-linebacker George Morris has an injured hip but hopes to see action. Two other injured players—Tackle Bill Thaden and Back Jackie Rudolph—have recovered.

Auburn Tackle Joe Tiburzi and End Dave Ridgway are definitely out. Ridgway, a top-flight pass receiver, re-injured his left knee yesterday. Also ailing are defensive Tackle Bobby Griffin, who was expected to replace Tiburzi, and defensive backs Vince Doolley and Robert Duke.

The Plainsmen are expected to branch out this week with more

Here are some of the winners in the city tennis tournament after they had been presented their trophies by Recreation Director Tommy Stringer on the Mayfair courts last Sunday. Left to right are: Joanne Strawder, junior women's doubles winner; Betty Doris Williams, women's singles; Betty Ann Cagle, junior women's singles, runner up junior women's doubles; Clay Williams, men's doubles; George Herndon, junior men's singles, runner-up junior men's doubles, junior mixed doubles;

Gene Tucker, men's singles, mixed doubles; Gordon Dean, men's doubles, Charlie and Laura Morrison, runners-up mixed doubles; Helen Tucker mixed doubles; Barbara McNabb, runner up women's singles, runner-up women's doubles, runner-up junior mixed doubles; Zaks McNabb runner-up junior mixed doubles.

## Tampa Clash With Stetson Features Big Show At Half

DELAND, Oct. 18 (Special)—The University of Tampa Marching Band will accompany the Spartan squad to DeLand Saturday as interest in the Stetson-Hatter game in Municipal Stadium continues to mount.

The Hatters, the only undefeated team in Florida this season, will try to keep their record clear and to increase their margin of wins over the Spartans in the all-time records. Since Tampa fielded its first team in 1933, Stetson has won six games while Tampa has won five. One game ended in a tie. If Tampa wins this year, the all-time record will be even.

The Stetson Band will share the halftime period with the Tampa band. Stetson will present for the first time with the band Miss Marian Flynn, of Paw Paw, Mich., the national champion baton twirler who enrolled at Stetson this fall.

The Hatters worked under the lights Wednesday night and after a brisk scrimmage Head Coach Joe McMullen was still puzzled over his starting lineup for the Tanon game. With Dave Lauda definitely out of the Tampa game and Herb Werner still a question mark, McMullen was trying out several men in those two positions.

As Lauda and Werner play well on the offense and defense, McMullen had the problem of filling in vacancies on both platoons.

An entire section of the east stands has been reserved for Tampa fans and another section has been set aside for Tampa students. The Spartans will arrive Friday and will spend the night at the Hotel Putnam. The band will come by train Saturday.

HAPPILY PERUSING PLANS for the home they intend to move into in Palm Beach, Calif., are tennis star Nancy Chaffee and baseball ace Ralph Kiner. They were just married in Santa Barbara, Calif. (International)

## Sports Scribes To Testify For Investigators

WASHINGTON, Oct. 18 (AP)—Men who are paid to watch and write about ball games get a chance today to tell Congress what they know about baseball.

The House Monopoly Committee called R. G. Lynch of the Milwaukee Journal and Franklin V. Yetter of the Philadelphia Bulletin for their opinions.

Others are on schedule for testimony before the group consisting bills to exempt organized baseball from anti-trust laws.

The committee, headed by Rep. Celler (D-N.Y.), heard Philip K. Wigley predict yesterday the time isn't far off when the Pacific Coast League will get a major league label.

Wigley, the multi-millionaire owner of the Chicago Cubs and Los Angeles Angels, said he wanted to see the coast loop go big time as a whole.

And he told the investigators "progress" is being made in ironing out difficulties between the westerners and the majors.

The big stumbling block, he indicated, is the rule which permits the Pacific Coast League to play each Pacific Coast League team after every season. That's called the draft.

And freedom from the draft rule is what the Pacific Coast League is demanding, he said, under a bonafide threat to become an independent if a change isn't made.

He said there is no scarcity of good ball players, there are enough for a third major loop and the Pacific Coast League eventually will be strong enough to get "the top-grade label."

Wigley also went on record that he doesn't favor baseball getting a blank check to violate anti-trust laws.

He said some legislation might serve to clarify the legality of baseball's rules which have led to the filing of numerous lawsuits.

## Muddy Ruel To Hunt New Detroit Talent

DETROIT, Oct. 18 (AP)—Herold (Muddy) Ruel, a shrewd baseball veteran, will take over the task of finding young players to replace aging Detroit Tiger stars.

The one-time major league catcher, coach, manager and assistant to former Baseball Commissioner A. B. Chandler, yesterday was named farm director of the Detroit baseball club.

He replaces Ray Kennedy, who announced Tuesday that he had been "fired." Ruel quit only last Sunday as farm director of the Cleveland Indians. There were line reports then that he would come to Detroit.

The announcement of his appointment, however, was made yesterday by Tiger General Manager Charles Gehringer.

New York's first elevated train was powered by cables attached to steam winches at one end of the

## Gator Football Fans Likely To See Aerial Battle

GAINESVILLE, Oct. 18 (AP)—If Florida's Haywood Sullivan vanes Bill Wade can true to form, the expected turnout of 38,000 homecoming fans at Florida Field Saturday may see one of the top aerial exhibitions of the year.

Both of these men are ace pitchers in their team's offense. Sullivan quarterbacked the Gators while Wade holds forth in the same slot for the Commodores.

Vanderbilt holds a firm edge in the four-game series with three wins against a lone Florida victory. That Gator win was chalked up in a 31-27 upset last year at Vanderbilt's homecoming. The Commodores won 7-0 in 1946, 20-0 in 1946, and 22-17 in 1949.

This year both squads have displayed potential brilliance only to see it fade on an "off" afternoon. The deciding factor in Saturday's tilt will be the "home run pitch." Coach Bob Woodruff said earlier.

"If we can throw our good, then we will give them a battle. If we can stop theirs, we will show them a ball game," Woodruff predicted.

Woodruff, asked to single out any one outstanding player on the defensive line which has become spotlighted nationally by its defensive tenacity, smiled, "Well, there's about eight of them," and named the front line and linebacker staffs.

The Gator defensive platoon has held the opposition to an anemic 58.5 yards a game, ranking Woodruff's crew eighth in the nation in rushing defense.

The injury list may be cleared of all except punter Reed Quinn for the Vandy battle. Quinn is expected to be ready for Kentucky. Guards Hubert Brooks and Jim Reeves, Halfback Bill Redell and End Bob Horton were previously on the doubtful list.

## Vandy's Bill Wade, Gator's Sullivan To Spark Offense

News was scarce from Tech's workout. The Jackets held a brief line scrimmage and continued to marvel at their slim injury list, almost a Tidy year. Only Art Ross, junior fullback, is definitely out as Tech goes after its 10th straight victory over Auburn.

In Athens, Georgia Coach Wiley Butts released his attack boys after a light scrimmage on Tuesday. His defenders all afternoon, in a rugged drill, Freshman Ed Francis Malinowski, wearing a plastic mask to protect a broken nose, starred at both defensive flankers. The Bulldogs, who have lost two in a row Mississippi State and Maryland, face Louisiana State Saturday night.

L. S. U. gridgers continued to please Coach Gaynell Tinsley, who thought they played a "big" game in losing to Georgia Tech last week. The Tiger boss used four freshmen backs extensively on his offensive team during a two-hour scrimmage. They were Al Doggett, Gene Hedger, Dick Prescott and Russ Gautreaux.

Vanderbilt looked good passing but coaches were depressed with other phases of the attack in the Commodores drilled for Florida. Job Gouginour, 130-pound, Charleston, W. Va., center, broke his leg during scrimmage.

Florida's defensive squad impressed Coach Bob Woodruff in a long drill against Vandy play. The feeling in Gainesville is that Saturday's clash will be a passing duel between the Gators' Haywood Sullivan and Bill Wade of Vanderbilt.

Another pitching duel may develop Saturday during Mississippi's Jimmy Lear and Rocky King and Tulane's Pete Clement. Lear and Bird have been passing madly all week. Clement threw two playoff heaves in Tulane's upset victory last week over Holy Cross, Mississippi State, which doesn't play this week because of its offense yesterday. The Maroons are looking ahead to Alabama Oct. 27.

## Bear Bryant Says His Boys Can Whip Unbeaten Villanova Squad

By ASSOCIATED PRESS  
"We have a lot of tough games left but it is going to take a good team to beat us from now on."

Thus spoke Kentucky Coach Paul "Bear" Bryant yesterday after watching his improving Wildcats sharpen their defense, attack and kicking game in their last long workout before tackling unbeaten Villanova Saturday night.

Said Bryant of the upcoming tilt with the contenders of Army, Penn State and Alabama:

"I believe our boys can beat them."

Tennessee honed its ground and air attack to razor sharpness while Alabama shored up its defenses. The unbeaten Vols and Alabama's ebullient Crimson Tide renew their brilliant rivalry in Birmingham Saturday. Tennessee, ranked second in the national Associated Press Poll, is a heavy favorite, but past performance means little in this bone-rattling series.

Coach Bob Neyland gave his Tennessee offensive platoon a full afternoon of downhill blocking, while he had the general in previous games.

A pair of sophomores stood out in the Alabama workout. Linebacker Joe Fulcum and Guard Bob Wilks sparked a scrumwork test in which they were expected to stop Tennessee's single-wing power.

Several injuries hit the unbeaten Auburn Tigers as they prepared to test Georgia Tech's perfect record in Atlanta. End Dave Ridgway, who only returned to action Tuesday, re-injured his left knee. The nose-catching ace may miss the Tech tussle. Defensive Tackle Bobby Griffin hurt his shoulder. Griffin is rubbing for injured Joe Tiburzi, who is definitely out of Saturday's game.

Defensive backs Vince Doolley and Robert Duke missed yesterday's practice but are expected to be able to play against the Yellow Jackets.

News was scarce from Tech's workout. The Jackets held a brief line scrimmage and continued to marvel at their slim injury list, almost a Tidy year. Only Art Ross, junior fullback, is definitely out as Tech goes after its 10th straight victory over Auburn.

In Athens, Georgia Coach Wiley Butts released his attack boys after a light scrimmage on Tuesday. His defenders all afternoon, in a rugged drill, Freshman Ed Francis Malinowski, wearing a plastic mask to protect a broken nose, starred at both defensive flankers. Clement threw two playoff heaves in Tulane's upset victory last week over Holy Cross, Mississippi State, which doesn't play this week because of its offense yesterday. The Maroons are looking ahead to Alabama Oct. 27.

## De-Emphasis Is Still Long Way Off At Virginia

CHARLOTTESVILLE, Va., Oct. 18 (AP)—The University of Virginia has taken the first step toward abolition of its big-time football program, but actual de-emphasis appears still a long way off.

Opposition to a committee report advocating "less professional" teams for the school was weak and ineffective yesterday as the academic faculty endorsed the report by a whopping 68-9 vote.

The report was not adopted yesterday by the academic faculty without dissenting voices. And when the vote finally was taken, 53 of the 130 professors present at the closed meeting abstained from casting ballots.

Drawn up by a three-member committee appointed by the faculty, the report calls for an end to athletic scholarships and athletic subsidies at the University, and tighter faculty control over the entire sports program. It calls on the University to become a pace-setter in de-emphasis of football.

The report, though sharply critical of "big time sports," does not mention any mismanagement of the sports program.

The U. S. Navy had a base in the Azores during World War I. Hundreds of U. S. airmen were stationed in the Azores in World War II.

**Mrs. Stengel Wants Casey In Baseball**  
LOS ANGELES, Oct. 18 (AP)—If Mrs. Casey Stengel has her way, the manager of the New York Yankees will stay in baseball next year and try to make it four world championships in a row.

"Casey hasn't come up with the Yankee officials yet about his future plans," Mrs. Stengel said yesterday in an interview, "but I feel he wants to continue in baseball and this is the first time I agree with him."

"For the last 10 years I've urged Casey, even threatened him, to quit baseball. He has everything he wants and baseball can never bring him the financial satisfaction he can realize in other, less demanding fields. But now I think he owes it to baseball to go on. Baseball needs him more than I do."

### Churchill Stands Out As Issue In British Election Campaign

By REIMAN MORIN

LONDON, Oct. 18.—(AP)—Majestic old Winston Churchill still the greatest single force in British politics, is both a liability and an asset to his Conservative Party's fight to overthrow the Socialist government in the national election next week.

Churchill himself, as an individual and a leader, is one of the "issues" in this campaign.

There are people who are afraid of him, and will vote against the Conservatives solely because he is the party leader. They want his name alone, as always, will be a magic lodestone for an army of voters, who might otherwise vote Labor or Liberal.

In each case, British prestige in the world, along with the danger of war, is a motivating sentiment.

On the one hand, today, Britons will tell you, "There isn't a country in the world that respects us more. If Winnie had been in, that couldn't have happened."

The opposite attitude is this: "Churchill doesn't realize that we are no longer in the 19th century. He's had us in a war 'by this time.'"

Iran and Egypt have dramatized, and badly inflamed, these divergent views.

The loss of Iranian oil is bad enough. But the loss of prestige to thousands of average people, is even worse.

Originally, the Iranian case apparently hurt the Labor campaign and helped the Conservatives. But government spokesmen have been quick to claim that Iran, basically, represented a dreadful decision—peace or war.

They have asserted Britain could have held the Anglo-Iranian establishments only with troops. They reminded the people that Russia could then have put her troops into Iran, under terms of a treaty. And they now have Egypt as a talking-point to add to the bell-tollings for the loss of former imperial holdings in the Far East.

"Today," they say, "anybody can kick us around." On a broader base, as well, both parties have presented to the voter what is, essentially, the issue of Churchillism.

The Labor Party program warns that "the Tory reaction to crisis is force." They are acutely aware that the British people, like the people of most Western nations, would go to almost any length to avoid another war.

Thus the effort is made to make Churchill's anonymous with "war." Judging from the victim that usually follow this murmur of agreement and conline of argument, the point has been struck home.

Churchill, hitting back, reminds the people that after World War II, "we were respected, honored and admired throughout the world." Retreat, humiliation and diminishing prestige are all the more bitter today, when they are contrasted with Britain's high position in the summer of 1946—when Labor came into government.

People are badly divided on the question. Some are afraid of Churchill, in the same vague unspecified way that some Americans are afraid of a military man in the White House. Others believe Churchill could have avoided all the disasters of the past few years; how, they don't precisely know.

They respect and cherish the old warrior, but they also worry because he is a warrior.

Don't "Bribe" Child To Go To Dentist

WASHINGTON, Oct. 17.—(AP)—Don't try to "bribe" your child into going to the dentist for the first time, mothers were advised today.

Reward him afterwards—if he behaves well—and praise him in his old man for being such a good soldier, a group of Rhode Island dentists suggested.

These were among "Pointers to Parents" suggested by the Rhode Island Society of Dentistry for Children in an exhibit at the 124th meeting of the American Dental Association (ADA). Among others:

1. Tell the child what to expect. But don't use the word "hurt" in any way—not even to say the dentist doesn't hurt.

2. Build up the child's faith in the dentist as a friend—"your child trusts you; help him to trust his dentist; the child with you on a dental appointment of your own as he'll know what the place looks like, and meet the dentist before his own trip.

4. When you bring him to the doctor for his own first appointment, "let the dentist do the talking" and—

5. Be prepared to stay outside in the reception room if the dentist requests it.

The Asnora stretch from 800 to 1,200 miles west of Portugal.

### Chaotic World Is Having Bad Effect On Food Markets

By SAM DAWSON

NEW YORK, Oct. 18.—(AP)—Riots and assassinations in the Moslem world are unsettling the commodity markets. Together with weather damage to crops in some parts of the world, they are giving prices a boost at a time when many traders thought the market might turn weak.

Fear that the Rice "ceiling" will be closed by the feuding between Egypt and Britain apparently has traders in London worried and they are bidding up the price of rubber and tin.

Prospects of a better export market for American grain because of crop damage in Canada, Australia and Argentina sent cereal prices higher in Chicago.

Cotton prices have stiffened recently—in spite of the large crop being picked—because the farmers are putting their cotton under the protection of the government loan and not putting it on the market.

The assassination of the Pakistan premier has traders in commodities here nervous because of the increased danger of open warfare between India and Pakistan. Trade in that part of the world is already upset by the friction between the two countries.

What happens in remote sections of the globe now affects Americans quickly, as involved have international politics and trade become.

Loss of Iran's oil refinery upset the world oil tanker routes for a time, and still puts an increased burden on oil shipments from other sources.

And open warfare in the Middle East over the dispute between Egypt and Britain could still further scramble the world commodity situation.

All of these international complications come at a time when the commodity dealers and the industries they serve were pretty well at sea as to what the future course of commodity prices might be.

As a whole, commodity prices turned weak last spring and didn't reverse the trend until mid-September. Many traders expected further weakness this winter in grains and cotton because of the large crops, and in materials such as tin, rubber and wool because of the expected slow down in civilian goods production and the increasing production of raw materials.

Many traders still are betting that the general course of commodity prices next year will be downward. They scoff at the government officials and those in finance and industry who warn of inflation to come. Many traders think a mild deflation is much more likely.

In all of their calculations, however, they have to make allowance for an unknown quantity: Whether the Kremlin will increase world friction and thus strengthen commodity markets, and 2. What the U.S. government will do in time to come to settle prices.

Traders have an example of the government's part always at hand in the price parity floors. And the cotton farmers use of this to stem the drop in cotton prices is a reminder that parity and other forms of government controls play an increasingly large role in keeping commodity prices upward.

The government has given an other example today Sugar prices have been dropping recently. So the Agriculture Department announced that it will permit 350,000 tons less to enter the country the rest of this year than it had first said it would. The Department acting under the sugar quota law originally set a quota of 2,200,000 tons for sugar consumption this year.

But consumers haven't been buying as much sugar as first expected. Traders suggest. Directed by law to keep sugar prices at a level deemed "in the mutual interests of producers and consumers," the agriculture department now sets its 1951 total quota at 2,000,000 tons. With less sugar coming into the country, the price will rise, or at least hold firm.

Sugar users may question whether that's to their mutual interest. But sugar growers in this country will appreciate it.

### Building Of St. Lawrence Seaway Appears Certain

AP Newfeatures

The St. Lawrence Seaway, designed to give cities on the Great Lakes advantages of ocean ports, appears destined to be built.

Prime Minister Louis St. Laurent of Canada has informed President Truman that Canada is ready to go ahead with the project alone if the United States does not want to take part.

President Truman said he would prefer joint action by the United States and Canada, but unless Congress decides soon he would support Canada's action as a "second best" solution of the problem.

Congress has been deadlocked over the seaway since it was first proposed formally 17 years ago.

It's Called a Bonding Project. Opponents of the project, through the National St. Lawrence Project Conference, declared the Canadian decision "nothing more than a propaganda maneuver designed to get Congress to accept this monstrous bonding project."

Canada proposes to deepen and lock the St. Lawrence River to enable ocean-going vessels to steam directly as far as Detroit. This would be the first phase of the project. A second stage would involve the deepening of the channel from Detroit to Lake Huron, which would open the way for sea traffic all the way to Chicago, Milwaukee, Fort William and Duluth.

The prospect of shortening the shipping route to and from the vast Middle West has enlisted strong support for the seaway from that section.

Big Power Project. Although Eastern seaboard interests have fought the development, Sen. Herbert H. Lehman, D-N.Y., has especially interested in the joint development of a \$100,000,000 hydroelectric power project opposite Massena, N.Y.

The St. Lawrence seaway would be built by agreement between Ontario and either the United States or the New York State Power Authority.

This plan on Barbours Island in the international rapids on the river would develop more than 2,000,000 kilowatts of power annually.

Cost of the power plant, the part of the seaway which would cost \$210,000,000. This would be built by Canada alone.

### Signposts Given For Wife-Waiting American Husband

By HAL BOYLE  
NEW YORK—(AP)—Are you a wife-waiter?

The average American husband is convinced he spends more time waiting for his wife to get dressed to go out than he does in earning her a living.

And he is more than half right. How can he ever teach his wife to get ready on time? There is no perfect solution to this problem—or any other problem in life or marriage. But there are some signposts along the way. Here are some wife-waiters I have known:

1. The delicious newlywed—This damp-eyed boy chortles to his bride. "Take your time, sweetie. My mother won't mind if we're late to her dinner party. She's a very understanding mother." Two hours later he is grinning aware he'll have to enquire between his understanding mother and his procrastinating bride.
2. The rug-fretter—He is the old-fashioned type who stomps back and forth wearing out the carpet as he bellows, "Oh for God's sake, Mable, please!"
3. The cunning husband—If he has tickets for a Wednesday night show, he tells his wife they're for Tuesday. That way, they only miss the first act.
4. The either-or-else giver—This ultimatum-maker shouts, "Either you're ready in five minutes or else we don't go." An hour later they leave, barking at each other like angry dogs.
5. The Boy Scout or fetch-and-carry type—He trots around grabbing up his wife's shoes and stockings and trying to button up the back of her dress. His reward from the frau is this: "If you don't get out of my way, I'll never be ready."
6. The strong silent type—he buys his wife a television set and refuses to take her out at all except to go to the funerals of her relatives.
7. The weak or life-is-hopeless type—he goes out into the kitchen, drinks a fifth of gin straight, then breaks out crying.
8. The give-em-a-dose-of-their-own-medicine lad—he simply goes to bed and falls asleep. When his wife storms in demanding to know what he isn't dressed, he leers drowsily, "It's your turn to wait, dear."
9. The patience-on-a-monument fellow—he just sits waiting in a glassy-eyed trance until his wife emerges, takes his paw in hers, and leads him out the door.
10. The self-improvement type—this is a new brand of husband that rather worries thoughtful wives, and may force them to correct the age-old feminine penchant for always being late.

He does useful things while

### Blues In The News

By JIM MEYERS

Farewell to Bill Cochran, D.K.I. NAAS, who's leaving us today. His shipmates in Disbursing Office gave him a party last night. All wish him well at his new station. We also have five men from FASHION leaving temporarily for training at Jet School, Cecil Field, Garrett, J. M., Carlson, R. C., Kirsch, R. J., Martin, E., and third graders respectively, Hoff, G. F.

Welcome aboard! Phil Baugh, just reported to NAAS from AD School in Memphis. SAM halls from North Carolina.

The Navy Center in Sanford affords a fine place for recreation for the men on the station. The other night we saw there to name a few, Jerry Phillips, Jerry Lois Stallard, Betty Cagle, J. & Perry, Gloria Studstill, T. J. Tarbutton, Rosemary and Betty Cullum, Raymond Bahlo, Jack Stout, "Ditty" and Margaret Von Herold, Bobbie, Martin, and Tommy Moran. Come on down and meet the gang. There's dancing, group singing, ping-pong, and a writing room in the rear of the building. Many of your friends will be there to greet you.

T. DeMaria, R. Joyner, and W. Anderson, NAAS, and "Jack" Horl, FASHION, received their Civil Aeronautics Administration identifications the other day. Many more of the fellows will be receiving theirs soon. Many of these fellows also have their applications in for pilot's license.

FASHION has scheduled their trip to Nassau this weekend for the winners of the recent squadron insignia contest. "Pete" Van Dusen, "Larry" Serpas, and Allen Negrotto, who won first, second, and third prizes respectively, will fly down for a weekend in Nassau.

FASHION has scheduled their trip to Nassau this weekend for the winners of the recent squadron insignia contest. "Pete" Van Dusen, "Larry" Serpas, and Allen Negrotto, who won first, second, and third prizes respectively, will fly down for a weekend in Nassau.

waiting—such as charcoal drawings, reading up on gardening, building bookends, or repainting the living room walls.

I heard of one fellow who took a correspondence course in executive management during the last hours his wife dawdled at her dressing table waiting for her fingernail polish to dry.

He passed the course with flying colors, and received several fine promotions at his office. That gave him a salary large enough to finance a divorce, which he promptly did. Then he married a younger and prettier woman.

"I still have to wait just as long for my wife," he tells friends.

"But when that loudir door finally opens, you ought to see who comes out now. She makes the old one look like Nelson's flagship."

As you can see, girls, this new self-improvement type of husband is a dangerous man to fool with. Don't keep him waiting too long—even if you have to go out in a bathing suit to get where he wants to take you on time.

FILM ACTRESS Mariene Dietrich is kissed on the cheek by Ambassador Henri Bonnet following a ceremony in the French Embassy, Washington, at which Mariene was made a chevalier in the French Legion of Honor. The star was given the award for her part in providing entertainment for French troops during World War II. (International)

### De Bary Doings

By KAY HENNINGER

Have you heard people say that De Bary is a community of elderly, retired people? It started out to be just that but it is rapidly attracting younger families and now has as many as 50 or more children of school age and younger.

Because of this situation, Mr. and Mrs. Vincent Guruchari, who have six of their own, offered their home for the use of a nursery school of children of pre-school age. Mrs. Guruchari made contact with as many mothers of young children as she could reach and due to their co-operation and zeal the school was opened on Oct. 5 with a register of 14 boys and girls.

Although the Gurucharis must be credited with having originated the idea and also with having given a great deal of time and work to it, they asked that the following women be thanked publicly for their help in getting the school started. Mrs. Blodgett, Mrs. Joseph W. Branner, Mrs. Joseph Christberger, Mrs. Gaston Crosby, Mrs. William Feece, Mrs. Perry Ford, Mrs. Charles Gard, Mrs. Charles Lee, Mrs. Nolte, Mrs. Eric Simmons, Mrs. Stone, and Mrs. Wason. P. T. A. has been organized and will meet once a month.

I was amazed to see both the amount and the quality of the equipment that has already been secured. The children have at their disposal an enclosed porch and an outdoor playground with swings, teeters, slides, and sand box. The car-port is available for rainy days. Inside there is a schoolroom with its traditional blackboard and low tables and chairs. Just off this room is the children's bathroom where everything is scaled to the size of the youngsters. A step-drawer can be pulled out so that the shortest may wash his hands in comfort. Just outside of these rooms, a long table has been set up where the mid-morning snack is served.

Mrs. Eric Simmons, who has five young children of her own, and who has had a wide experience in Kindergarten work in New York, is the teacher. Those mothers, who have no infants to care for, have volunteered to give one morning a week to assist Mrs. Simmons. They will care for the younger children while Mrs. Simmons has a special period with the five year olds, preparing them for school.

Let me give you a picture of what I saw this morning and remember that it was only the second morning in the history of this project. I arrived shortly after 9:00 o'clock and there they were on the enclosed porch busy coloring pictures. There ensued a clean-up time when all supplies were put away and then a parade. Out to the lawn where the flag will be raised daily and saluted and

PROTECTED FROM THE SPRAY by a waterproof slicker, Princess Elizabeth listens as Mayor Ernest Hawkins of Niagara Falls, Ont., describes the Falls to her. Later, the Princess and her husband, the Duke of Edinburgh, were well doused with water when they viewed the giant cataract from a tunnel under the 160-foot-high Horseshoe Falls. (International)

suitable opening exercises will take place.

After this there was free play which was followed by a wholesome washing of hands; first the girls, then the boys, during which time Mrs. Lee read a story to the "clean ones" in an effort to keep them so until eating time. Another parade with the child who had a birthday leading while the others sang "Happy Birthday to You". It had been decided to limit the mid-morning snack to fruit juice and crackers but in honor of the birthday, the crackers were spread with frosting and one of them bore four candles.

When I left, the children were having a wonderful time and already it had become evident what this sort of supervised play and instruction will do for the child who has become accustomed to playing by himself or without much supervision. Much remains to be done and many plans are being considered. I hope I shall be invited to visit again in a few months from now. I feel quite sure there will be many new developments and I shall be happy to give you another picture of this most interesting and worthy project.

The marble tops of pieces of Victorian furniture—chairs, commodes, or tables—may be cleaned with soap and water. But if there's a rust stain on the marble wash with oxalic acid and then rinse well.

The Food and Drug Administration warns vacationers not to eat mushrooms unless there is sure proof that they are the edible kind. Mushroom poisoning is too dangerous to take a chance on.

Lemons of a deep yellow color are usually more mature and have more juice than fruit of a lighter or greenish-yellow color.

There are lots of greens with which to vary summer salads. Here are some to choose from: chloery, escarole, endive, spinach, dandelion greens, watercress, romaine, lettuce, and Chinese cabbage.

## House Passes Civil Service Pay Boosts

### Committee Says U.S. Can Launch Dreadful Counter Blow To Atomic Attack

WASHINGTON, Oct. 19—(AP)—Separate bills raising postal rates \$117,000,000 annually and hiking the pay of 2,000,000 civil service and postal workers were passed today by the House and sent to the Senate.

The three measures were compromises of bills passed previously by both branches. Prompt Senate approval was expected.

The civil service pay raises would be 10 per cent, with a minimum of \$24 and a top of \$800 per year. This bill was estimated to cost \$418,000,000.

The bill giving most postal employees raises of \$400 a year passed by a roll call vote of 320 to 7.

The raises, affecting an estimated 500,000 postal workers, range as high as \$800 annually for some postmasters and supervisors. Hourly workers would receive a raise of 20 cents per hour.

The estimated annual cost of the bill is \$250,000,000.

Since the Senate already has passed a similar measure and today's bill was a compromise worked out by Senators and House members, quick Senate approval was expected.

Bills raising the pay of 1,500,000 Federal employees by (Continued On Page Two)

## Swamped With Inquiries

Chamber of Commerce Manager Forrest E. Breckenridge is finding his desk piled high with inquiries every day from editors, firms and tourists, all asking information about Sanford and Seminole County. Only recently arrived from his former C. of C. post in Lake Park, he is making a careful study of Seminole County in order to prepare magazine and newspaper articles about the recreational and industrial advantages of this immediate area, and the Central Florida area of which it is the hub.

## Big Guns Pound Reds As Allies Battle Forward

U. S. 8TH ARMY HEADQUARTERS, Korea, Oct. 19—(AP)—Allied big guns pounded Kumung today as tank-supported U. N. infantrymen fought to within two miles of the former Red bastion on the central front.

Reds stubbornly resisted attacking United Nations troops in last night's fighting sector. Allies failed to take two hills on the western front in day-long battles.

Planes, tanks and infantrymen battled fresh Chinese replacements deeply entrenched in it.

South Korean troops captured mortar and artillery fire in an attempt to slow U. N. infantry men pushing northward in the seventh day of their central offensive.

But southwest of Kumung, Allied ground forces captured two hills against "surprisingly light resistance," a briefing officer reported. Fifty-two Chinese were taken prisoner.

Artillery supporting the Kumung offensive fired 1,000 rounds into the Communist road hub. They concentrated on stores of supplies left there by Reds who appeared to have deserted their former stronghold.

Piercing resistance was southwest of Kumung. Air strikes, tank fire and infantry assaults failed to bulge Reds clinging to a sharp, high peak overlooking a valley.

To the east, U. N. forces battling through the ridges between the Kumung sector and Heartbreak Ridge attacked Communist units dug in on high ground.

South Koreans on the coastal sector beat back five light probing attacks the Reds hurled at them during the night and morning. All were north-west of Kumung, 25 air miles north of the 38th Parallel.

Farther up the east coast, U. N. warships carried their siege of Wonsan into the 34th day.

A North Korean communique broadcast by Pyongyang radio in the Red capital said "Peoples' (Continued On Page Four)

## C. Of C. Manager Busy Preparing Publicity For Seminole County

Magazines and other nationally known mediums are already seeking information about Sanford and Seminole County. Forrest E. Breckenridge, manager of the Seminole County Chamber of Commerce, announced this morning.

He pointed out that hardly a day passes but some inquiry is not made about this section from the editor of some magazine or newspaper.

One inquiry, suggesting an article about this city and county, was recently received from Ray Cook, editor of the Atlantic Coast Life News. Mr. Breckenridge added that he is now preparing a story for this publication.

Recently writes for information to add to an article which he is writing for the New York Times concerning steel fishing on the St. Johns River, and which will contain much information about the recreational facilities offered by Sanford and Ireland to winter visitors.

Mr. Breckenridge is now also preparing an article about Sanford and Seminole County which will appear in the Florida Sheriff's Association, which will hold its 30th annual convention in Sanford next June. Last year the convention was held at Lake City, which with Columbia County received valuable publicity in the publication.

Local and county publicity will be supplied in the form of press releases to the Nash Motor Co. for its coming display program during November in Niagara Falls, N. Y.

Committee chairman of the Chamber of Commerce have already ready to accept as soon as all acceptances have been received a meeting will be called to select members of the various committees and prepare a program of work.

"In getting the committees together," said Mr. Breckenridge, "we will seek to organize our efforts not only for the coming year, but for years following. Now projects will be worked into the existing program as they arrive.

"We will also try to tie our development scheme into that of the Central Florida trading area, with its 180,000 or more population of which Seminole County is the hub. This area has grown so in the last few years that it is able to support its own distribution center without having to depend on the Jacksonville and Tampa trading areas that it lies midway between.

"With a yearly net income of around \$200,000,000, much inducement is offered in this area to progressive business enterprises to locate in Central Florida," he stated.

"We are trying to get all of the publicity we can for the Sanford, Don, 7 and Gary, 5, will arrive here from Live Oak tonight for a "get acquainted visit" and will remain through Sunday, said Mr. Breckenridge. They plan to move into a home here about Nov. 1.

## Legion Chief

Donald R. Wilson of Clarkburg, W. Va., was elected national commander of the American Legion at its Miami convention which adjourned yesterday. He is an attorney and succeeds Eric Gucke, Jr. of Dawson, Ga.

## Drowned Body Of Local NAAS Man Found In Creek

The body of Frederick Morgan Holley, AN, USNR, who was drowned Tuesday in the rough surf at Daytona Beach in spite of the heroic efforts of life guards to rescue him, was recovered yesterday afternoon in New Smyrna Creek.

It was sighted at 1:00 P. M. by a fisherman, who saw it floating in the creek and notified persons at King's Fishing Camp who in turn contacted the Coast Guard Station of which Chief Boatwain Olson is commanding officer. The Coast Guard radio boat was sent and the body was picked up.

Mr. Holley was a member of the FABRON 821 at the Sanford Naval Air Station. The Squadron has conducted a search for the body since the drowning on Tuesday, and yesterday a party was searching only three miles from where the body was found.

In the party were Chief J. C. Keoman, R. L. Simpson, W. C. Watson, C. B. Weisshoff and R. R. Bernard.

The Coast Guard radio boat brought the body to the dock and signalled to the FABRON searching party who made the identification at the Coast Guard Station.

Lieut. A. L. King, FABRON 821 flight surgeon, provided the identification from medical and dental records. The body was brought to the Brisson Funeral Home.

## Boisterous Ranch City Extends Rousing Welcome For Royal Pair

CALGARY, Alta., Oct. 19—(AP)—This boisterous ranchland city donned cowboy and Indian regalia yesterday to give Princess Elizabeth and the Duke of Edinburgh a rousing reception with the accent on informal entertainment.

The royal couple enjoyed a ranch-house dinner, a stage-coach ride and a miniature rodeo, as well as officials and guards but they didn't seem to care.

Outside they stepped into a blue stage coach drawn by four dapple-grey percherons for the drive to the stampede grounds, where they were awaited by a crowd of 20,000 mostly children who had started filling the seats 6 1/2 hours before.

Seated on a platform and warmed by electrically-heated blankets they showed great interest as cowboys ran through one hour of bronc and steer riding, calf roping, steer decorating and wild horse and chuckwagon races.

Princess Philip especially enjoyed this part of the welcome program, receiving explanations from stampede officials and passing them on enthusiastically to his wife.

Here they received more gift-complete cowboy outfits for Princess Charles and Princess Anne, Moroccan slippers for Elizabeth and her daughter and a gaily-colored cowboy shirt for Philip.

## British-Egyptian Tension Grows In Suez Canal Zone

### Security Council Drops Debate On Iranian Dispute

NEW YORK, Oct. 19—(AP)—The United Nations Security Council decided today to drop its debate on the British-Iranian oil dispute until the International Court of Justice can rule on the council's legal competence to deal with the question.

This means a delay of weeks, if not months, in further consideration of the case, which Britain contended is threatening the peace in the Middle East.

The postponement was proposed by French delegate Francis Luce after it became apparent the council was not evenly split on the question of competence that no further action was possible.

The vote was 8 to 1, with Russia casting the only negative vote. No vote was cast by Yugoslavia since the question was of a procedural nature. Britain, as a party to the dispute, and Yugoslavia abstained.

Iran's apol Premier Mohammed Mossadegh had sought a formal intervention, bitterly on the ground that the oil dispute was a domestic question and thus not subject to U. N. action. He was backed by Russia and several other council members.

When the postponement was voted neither Mossadegh nor any other representative of Iran was present. They had taken part in the week of debate here at Flushing Meadows but had not returned to the Security Council when they had expressed their views and would not participate further.

This was the last meeting of the Security Council before transferring its operations to Paris for the winter. It also was the last U. N. meeting at Flushing Meadows, where the big city owned midtown has been used for the U. N. since the Paris meeting of the General Assembly. All U. N. meetings will be held at the new permanent headquarters in Manhattan.

Before the vote was taken, Sir Luce expressed his regret at the council's refusal to deal with the Iranian question, now "well diminish the authority of the council" in the future.

"There will be a tendency," he said, "to slip back to the Security Council in the future. Since we reject the rule of law, then we get to the rule of force." (Continued On Page Four)

### British Open Fire On Suez Rioters

COMMANDER-IN-CHIEF of British forces in Egypt, Lt. Gen. Sir George S. Gurne (left) has told his troops to be ready to protect themselves as violent anti-British riots and arson broke out in the Suez Canal zone area. Opening fire with machine guns and rifles, a British force clashed with an Egyptian mob that attacked them in Port Said (above). At least 12 persons were killed and scores injured in the fighting that spread to Ismailia and Alexandria. Egyptian police joined the British in firing on the rioters.

### British Reinforcements Move In To Back Up Intention To Retain Control

BEIRUT, Lebanon, Oct. 19—(AP)—The Lebanon chamber of deputies adopted unanimously today a resolution supporting Egypt in her dispute with Britain over the Suez Canal area and the Sudan, and calling upon other Arab states to act in unison for Egyptian success.

DAMASCUS, Syria, Oct. 19—(AP)—More than 3,000 demonstrators led by Muslim brotherhood leaders marched through Damascus streets today calling on Syria to back Egypt in her dispute with Britain over the Suez and the Sudan. Placards carried by the demonstrators condemned British colonialism as "The Orient's Most Deadly Disease" and urged Muslims to rally to a holy war.

LONDON, Oct. 19—(AP)—British troops today moved into the Suez Canal zone to back up British property in the Suez Canal zone in Egypt. The British war office has estimated riot damage in the canal area town of Ismailia alone at \$1,100,000.

TEHRAN, Iran, Oct. 19—(AP)—Communists estimated to number 6,000 demonstrated in Tehran today, shouting "down with the Truman-Mossadegh government." A thousand police guarded the square in which the demonstration took place but made no effort to prevent it, despite an earlier police ban.

PALESTINE, Oct. 19—(AP)—The U. N. Palestine Conciliation Commission has advised Israel there are no grounds for Israeli force that the Arab states are trying to saddle the United Nations with a new interpretation of the Holy Land agreement.

### South Florida Crop Damage Is Reported Heavy

ORLANDO, Oct. 19—(AP)—Storm-lane rains caused heavy damage to South Florida's vegetable crops, shown early today by the U. S. Bureau of Agricultural Economics reported today.

"On Oct. 1-2 the tropical disturbance accompanied by heavy rains caused extensive losses in the Ft. Myers, Immokalee, Okeechobee and Ft. Pierce sections," said the bureau.

"On Oct. 19, a very dry, gusty rain, sufficiently reported at 7 to 8 inches, fell on the Pompano-Belray area along the lower East Coast. Several locally heavy rains occurred on the South Florida areas during the mid-part of this period.

"At Ft. Myers, the heaviest losses occurred in cucumbers, pepper and sweet corn. Most of the cucumber and corn average has been replanted. The state's pepper crop is in poor to fair condition and recovery is expected to make a fast recovery, the bureau said. At Immokalee, the fall tomato crop received rather heavy damage in the Everglades section. Most extensive losses were to the fall snap beans crop. Some early cucumbers, celery and potatoes also (Continued On Page Two)

### Three New York Revenue Agents Are Suspended

WASHINGTON, Oct. 19—(AP)—The Internal Revenue Bureau today suspended three more agents in New York after pending an investigation of their testimony before a House subcommittee on the budget committee in the bureau.

The three are:

—William H. Dettmer, Jr., who yesterday was called to report 2,000 in race track bet winnings on his 1948 income tax returns.

—Jack Neustadt, who refused to answer subcommittee questions about his financial affairs and those of his father-in-law, Rep. Kenneth C. Neustadt, chairman of the subcommittee. Neustadt had declared net worth at \$2,400 when he joined the bureau in 1946 and estimated it at \$25,000 when questioned recently.

—William H. Dettmer, Jr., who told the subcommittee he made about \$5,000 betting on harness racing in the last five years.

Each yesterday another Internal Revenue agent in New York was suspended. He was Moshecat Miller, who flatly refused to answer some subcommittee questions about his financial affairs.

Internal Revenue Commissioner (Continued On Page Four)

### Atomic Explosion Is Postponed By AEC Commission

WASHINGTON, Oct. 19—(AP)—The Atomic Energy Commission's expert Desert Rock was postponed this morning because of a mechanical failure.

The AEC issued this statement in connection with its delay of the blast which was originally scheduled for next time after 5 A. M. Pacific Standard Time.

"A nuclear detonation scheduled for this morning was postponed because of mechanical fault in a key electrical test circuit between the control point and the tower."

It was the first official confirmation that the A-weapon was being detonated from a tower. Estimates on the height of the cloud tower range upwards of 75 feet. But an AEC spokesman declined to comment.

"Weather permitting, we have every confidence that the mechanical fault can be fixed in time to hold the test tomorrow," the spokesman said.

However, the official word on resumption of the test will not be available until at least 1 A. M. Pacific Standard Time tomorrow morning, at which time it is AEC practice to notify the Civil Aeronautics Administration to close off the surrounding area to all planes.

The AEC had issued a notice at 12:55 A. M. to the Civil Aeronautics Administration to warn all pilots not to fly within a 200-mile radius of Las Vegas.

The notice said only that a test would be made on the range 75 miles northwest of Las Vegas, "sometimes after 5 o'clock this morning."

An AEC spokesman earlier said that the weather conditions could delay the explosion until as late as noon.

Other details of the start of exercise desert rock, the first atomic test to utilize Army troops were cloaked in secrecy.

## Federal Agency Still Interested In Old Age Law

WASHINGTON, Oct. 19—(AP)—The Federal Treasury has issued November checks for aid on the Federal Security Agency still wants more information about Florida's new old age aid law.

The law, passed by the 1951 Legislature, allows the state, receiving the help to have a garden, one cow, one pig and 10 chickens for his own use.

Approval of Federal funds for November was scheduled prior to Oct. 1 but had been held up by the Security Agency. The checks for November were issued yesterday. Checks for December so far have not been issued.

Senator Smathers (D-Fla.) told a reporter today he got in touch with the agency in an effort to get the money released on the ground the Florida law had specified that the foodstuffs delivered to the garden, cow and chickens would be for the personal use of the pensioner and were prohibited from sale or exchange.

Smathers said he sought to convince the agency that there was no violation of the purpose of the old age assistance program as a result of the act by the Florida Legislature.

Commissioner A. J. Altmyer of the Social Security Administration advised Smathers today:

"The possible question raised by this law is whether, under it, all income and resources will be taken into account as required by the Federal law.

"We are currently dwelling information from the state relating to the interpretation of the law and how it will operate.

"If the state can substantiate a finding that the law does not result in a net gain, there will be no question of compliance with the Federal law."

Smathers said he hoped that Florida officials would furnish the agency the information so that there will be no delay in approval of funds for the first quarter of 1952.
