

2 Hurt And 30 Boats Burned In Clearwater Fire

Sea Scout Building, Former Fish Canning Plant Burned

CLEARWATER, Apr. 20 (AP)—Two persons were injured, 30 boats were destroyed and the Sea Scout base building, constructed in the early 30s as a fish canning plant, was reduced to a heap of rubble early this morning in a spectacular waterfront fire on Clearwater Beach.

Discovered shortly after 12:30 A.M., the blaze is believed to have started from a cigarette butt in one of the rooms of the Sea Scout headquarters and was fought until daylight by all available apparatus in the Clearwater area.

Loss was estimated at \$20,000, partially covered by insurance. The former fish plant building was owned by the city but the 30 gram sailing boats, most of them owned by Clearwater boys, were not covered and a campaign began this morning to replace them by popular subscription.

Injured in the long battle that saved \$100,000 worth of yachts moored at the adjoining Clearwater yacht club slips as well as at the city-owned yacht club buildings, were:

Paul Park, 32, a city fireman, wrenched back and lost suffered in fall in Morton Plant Hospital, condition not serious.

Ben Magraw, 42, an official of the Clearwater snipe fleet, burns of face and hands, received in attempting to save the boats.

Congress Roundup

Continued From Page One

ment, disability and medical care, he added.

The Senate armed services subcommittee continued its study of the infamous Malmedy massacre of World War II.

German storm troopers violated all rules of warfare by killing 160 American soldiers captured near Malmedy, Belgium during the December, 1914 Battle of the Bulge.

Many of the Nazis responsible for the murders were tried and 12 were sentenced to die. Later, six were given life sentences. The six still facing a death sentence claim confessions were forced from them by starvation and beatings.

American officers deny this. Secretary of the Army Royal said if brutal and illegal methods were used to force the confessions, the Germans should go free. He told Congress he would welcome any recommendation it might make.

The Senate group expects to spend another three weeks investigating. Today it called on Lieut. Col. Burton F. Ellis, who helped prosecute the Nazis, to give his version of the military trial.

Other committee meetings today: Senate labor subcommittee studied the minimum wage bill, already approved by the House.

The Senate appropriations subcommittee continued hearings on the annual Army civil functions and agriculture funds, also passed by the House which is now enjoying a 20-day Easter holiday because it is so far ahead on its work.

The Senate public work subcommittee called state highway commissioners to testify on proposed federal aid for rural roads.

The Senate Commerce Committee studied airlines, with former Civil Aeronautics Board member James Lanala testifying.

The Senate still hasn't decided when it will start open hearings on the North Atlantic Defense Treaty, Chairman Connally (D-Tex.) of the foreign relations committee said he may decide tomorrow.

Secretary of State Acheson plans to place a confidential report on the treatment portion of the program before the committee tomorrow, too.

Connally said the secrecy surrounding the arms plans may not be lifted until after the senate ratifies the treaty.

But sentiment today was growing stronger for stripping all secret from the arms-for-Europe program. Both friends and critics of the North Atlantic treaty called for the State Department and the foreign relations committee to make public what America intends to do.

Spies and saboteurs edged back into the headlines. Senator Mundt (R-Mo.) proposed that the House Un-American Activities Committee investigate whether the United Nations organization at Lake Success, N. Y., was being used to give jobs to former U.S. government workers fired for security reasons.

ARNOLD TO SPEAK GAINESVILLE, Apr. 20 (Special)—Thurman Arnold, 50-year-old former Associate Justice of the United States Court of Appeals, is scheduled to appear on the David Latta Lecture Series at 8:30 Friday night in the University of Florida Auditorium. Arnold will speak on "How the Courts Affect Public Policy." Tickets, \$1.00 and \$2.00, are available at the box office.

As early guests believe that the lecture will be a most interesting one.

Legislature

(Continued From Page One)

has come to my attention that certain lobbyists are trying to start a movement to raise all additional taxes the State must have by a gross receipts tax.

"The scheme, I am advised, is to increase to 2 percent the recommended 1 percent of the gross receipts of retail sales and thereby produce about \$14,000,000 per year of new taxes.

"In a spirit of frankness and cooperation, I feel I should advise the Legislature that I cannot consent to such a scheme. A rate of 2 percent on gross receipts from retail sales would be a general sales tax in disguise, for such a tax at such a rate could and would be passed on to the consumer, which it would not be practicable to pass on at a rate of 1 percent."

The Governor declared such a tax would be "an indirect way of cutting the wages or salaries of every employed person in Florida."

A Senate committee rejected the bookmaker bill by an 8 to 3 vote. The bill would ban use of wire services to carry racing information to bookmakers. This is identical to the bill which brought bribery charges on the House floor after its defeat in 1947.

Proponents of the bill told the miscellaneous legislation committee would curb illegal bookmaking operations in the state and turn lots of money into the state treasury.

Opponents condemned it as an anti-utility bill and one which would favor "special interests."

Senator Haynard of St. Petersburg, one of the introducers of the measure, said he didn't believe it would completely stop bookmaking, but it would hold it to a "minimum."

The committee vote was: For: (3) Gaultier, Leard, Ray. Against: (8) Baker, Gitzner, Moore, McArthur, Rhelidon, Boyl, Gray.

Senator Gaultier of Miami said one gambling syndicate had reported it handled \$21,000,000 in bets during horse racing in Florida.

He said one wire service carrying race information closed down because of this and this materially aided State revenues.

He said the shutdown was "a fight between mobs."

"This bill has brought a lot of disrespect to this Legislature. You know of all the turmoil and impatience in the House over the bill in 1947."

Gaultier asked the committee to "let's show" that no syndicate can control things in Florida.

McArthur asked if agitation over the bookie bill wasn't just a crusade of the newspapers. Gaultier said he didn't think so.

Governor Warren's proposed tax on tobacco products other than cigarettes was introduced in the House under the sponsorship of Rep. Morgan of Duval. Warren estimated it would raise 1,400,000 annually.

The tax rate would be one cent for each five cents or fractional part of five cents of the retail price.

The Senate began a hot debate on the Governor's cattle bill as an effort was made to convert the whole measure into a highway safety bill.

As introduced, the bill would require all cattle to be fenced; but Senator Alford of Grand Ridge proposed that it be changed to do no more than prohibit livestock from roaming on the highways.

Alford said he wanted to convert the "common people" from being required to fence in their livestock.

Senator Haynard of St. Petersburg led the fight for the cattle bill, terming the Governor's measure a big effort to make highways safe in Florida.

Legal Notices

NOTICE TO APPEAR TO HONOR WILLIARD HERRING, II, P. O. No. 1 Baxter, Tennessee. This is to advise you notice that WILLIARD HERRING, your wife, has instituted suit for divorce against you in the Circuit Court of the County of Duval, Florida, in Sanford, Florida. This is to notify you that you are required to be and appear before the above court on the 23rd day of May, 1944 and make whatever defense you have in the said cause, and fail you not to do so a decree pro confesso will be entered against you, and the said case proceed ex parte.

Witness my hand and official seal of the above court at Sanford, Florida, this 14th day of April, 1944.

Kiwanis Meet

(Continued From Page One)

Sanford Kiwanis met last night at the home of Mrs. J. G. Harrison, declared, "I am a real Yankee who came here two years ago and I intend to stay."

Salvation Army Major Allan Whorton declared that he had been overjoyed when he was recently transferred from Pittsburgh back to the South Atlantic Division with headquarters in Jacksonville and home in Ireland, and said that he did not ever want to leave Florida again.

Leon M. Cornell declared that persons who don't like Florida should be sent to Georgia for three years.

Rupert Strickland was inducted as a Kiwanian by Judge J. G. Sharon, and was assigned by President W. A. Morrison to the Boys and Girls Committee.

China War

(Continued From Page One)

trapping a quick landing near Hsiaoan, trying Nationalist officials in the capital.

The general feeling at the moment is that Wuhu is the government's weak point. The river front there provides a good landing area.

Nationalist gunboats stood out in the Yangtze off Hanking firing upon Communist troops attacking Kiangsu and other north bank points.

Severe fighting was reported by official sources to have started east of Hanking, some 150 miles southwest of Nanking. Another sharp engagement started east of Hanking, a few miles north-west of the capital.

Communist attacks on two British warships in the Yangtze preceded the general offensive.

A high ranking ministry of national defense source said the Red attacks seemed to be directed at all Nationalist positions on the north bank of the River. There are only a few Nationalist pockets left on the north bank.

Earlier Premier Ho Ying-Chi told the Chinese parliament the government had rejected Red peace proposals in their present form.

He told the legislators that the Communist plan would not provide for lasting peace, a member disclosed after the secret parliament meeting. The legislator quoted Ho as saying the terms were those laid down by a victor.

The Premier said that it is very hopeful that the German political leaders in conference at Bonn will soon reach agreement with the military government on the terms of the proposal for self government made to them by Britain, France, and the United States. Terms of the agreement to merge the three Western

(Continued From Page One)

that of this, at least one half was for military aid.

Asked whether the United States would be prepared to recognize a Communist regime if the Communists take over the entire country, he said he could not speculate.

Acheson said he had no information on the fighting in China beyond that reported in news dispatches. On other subjects, Acheson said:

1. The project for withdrawal of American troops from South Korea does not mean the end of American aid to the republican regime there. Acheson said he understands a new economic aid program is being drawn up. He also said the United States will have to supply arms to the Korean constabulary which will preserve order when the U. S. troops go.

2. The United States is set against increasing the size of the Greek army at this time. While he did not discuss an increase in his report of meeting with British Foreign Secretary Bevin, Acheson said, a British army memorandum was submitted by Bevin proposing a reshuffle of Greek forces and a slight increase. Acheson discounted the issue as of slight importance.

The Premier said that it is very hopeful that the German political leaders in conference at Bonn will soon reach agreement with the military government on the terms of the proposal for self government made to them by Britain, France, and the United States. Terms of the agreement to merge the three Western

the streets.

At Traiguera, 50 or more houses were destroyed.

Inhabitants of Temuco and Concepcion and of some of the surrounding villages were in a state of panic when the walls of their buildings cracked. However, damage was lighter in those places than in Traiguera.

Continued slight tremors throughout southern Chile hampered relief work. Only major detail came from quake area because of the breakdown of communications.

Troops were patrolling some areas to prevent looting.

The record rainfall in New Orleans was 15.1 inches in 17 hours.

JOB PLACEMENTS

TALLAHASSEE, Apr. 20 (Special)—Florida leads the southeast and ranks among the top six in the nation in job placements by the State Employment Service, Raymond E. Barnes, chairman of the Florida Industrial Commission, which administers the program, said today.

Barnes added that orders had been placed for 48,427 workers during the first quarter of this year.

Job placements for the first quarter totaled 42,692, with the March placement figures above February despite seasonal contraction in employment opportunities, especially in the trades and services centering around tourist activities and the citrus industry.

House Balks At Bill To Hike Insurance Tax

Legislature Asked To Make Up Shortage Of \$256,016 In School Funds

TALLAHASSEE, Apr. 21.—(AP)—Governor Warren's bill to double insurance taxes ran into trouble in the house today, as the Legislature was asked to make up a deficiency in school funds of \$256,016.
Rep. Hough of Lee county got the House to go along with him in getting the Administration tax bill introduced yesterday referred to the Insurance Committee of which he is chairman. The measure already had been referred to the Finance Committee. This means two committees rather than a single one will have a whack at the bill which increases license fees on insurance companies and boosts the tax on gross receipts from insurance premiums.
The capital stock tax bill introduced doubles some present rates and increases others by 50 percent. The Governor said in his message such a bill would produce about \$500,000 a year extra for the State general fund.
The Legislature was asked to appropriate \$256,016 for the rest of this business year to make up a deficit in the School Foundation Fund by Rep. Beasley of Walton.
He pointed out that although the school system was well within the \$30,000,000 ceiling imposed for 1947-48, the formula for distribution of money ranover the \$42,000,000 ceiling for this year.
The State has made cuts in its money set up for school construction in each county in order to stay within the ceiling. The Beasley bill would restore those cuts.
Nearly 60 House members joined as sponsors of a bill appropriating \$125,000 a year to improve facilities for Florida mental patients.
The measure called for "good economy" in the salaries of personnel at Florida State Hospital and to obtain extra medical and psychiatric staff members for the institution.
A broad civil service system for Florida state employees was sponsored.

Government Says 42 Were Killed In Chile's Quake

SANTIAGO, Chile, Apr. 21.—(AP)—The earthquake which shook south central Chile Tuesday night killed 42 persons, a government communique said today.
A statement from the office of President Gabriel Gonzalez Videla said the destruction was not as severe as that reported. The president is touring the area.
Earlier the interior ministry said the quake killed 57 persons and injured 150.
A presidential spokesman said Gonzalez Videla intended to pardon about 100 prisoners of Troguen jail, reported "completely destroyed" by the quake.
The communique said earlier reports that Angol jail also had collapsed were erroneous. It had been announced previously that 10 prisoners were killed.
The towns of Troguen and Angol, about 350 miles south of Santiago, were centers of the quake.

FEW WET SPOTS

CHICAGO, Apr. 21.—(AP)—There were only a few wet spots on the nation's weather map today. Light rain was reported in the Gulf Coast states and there were showers and thunderstorms in scattered sections of the Central Plains states. Generally, skies were clear or partly cloudy in other parts of the country.

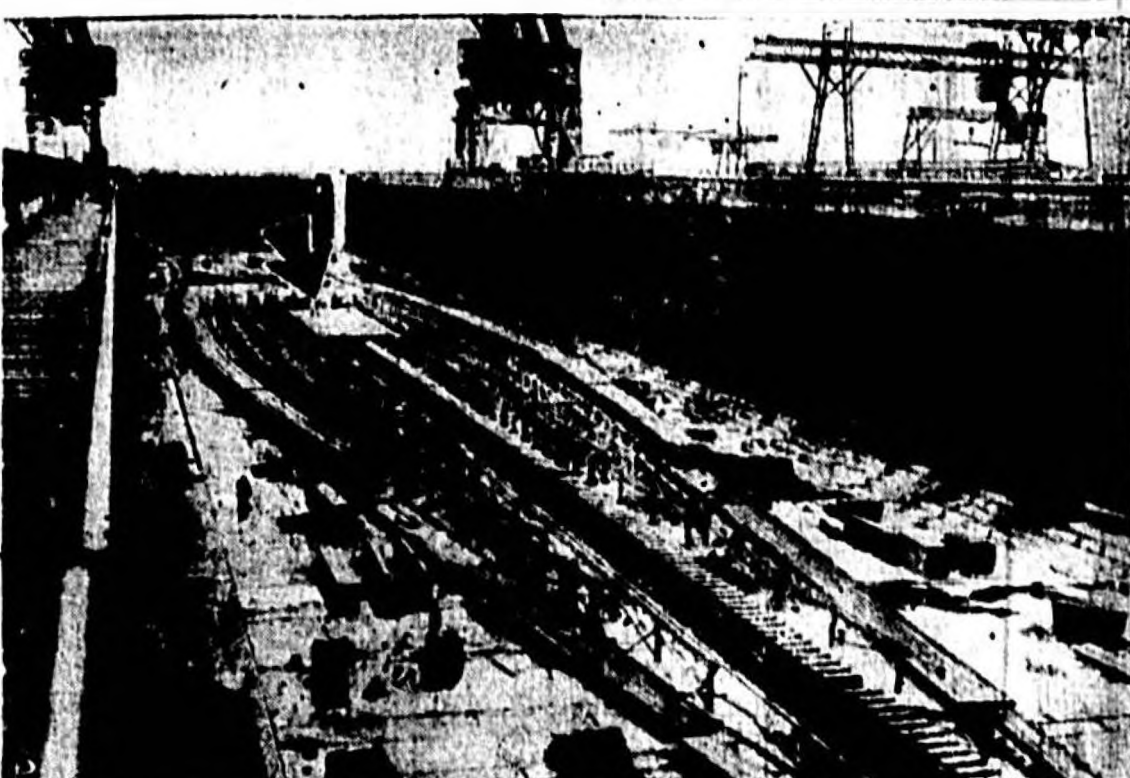

UNDER ARREST

NEW YORK, Apr. 21.—(AP)—Two men and a woman were under arrest today in connection with the theft of more than \$80,000 in federal income tax refund checks from mail boxes here and in other sections of the country.
The arrests were announced by police and U. S. Postal Service inspectors. The three were charged with robbing the mails.

MIGRATORY WORKERS

The Gross Information Center for migratory agricultural workers at Yulee, Fla., will be open 24 hours a day beginning Saturday, April 16, for as long as the demand continues, said Lawrence J. Baker, manager of the Orlando office of the Florida State Employment Service, announced today.
Mr. Baker said that Mrs. Thas M. Barton, Farm Placement representative for the Jacksonville area will be in charge of the center and will have daily contact with all areas where there is a considerable amount of activity.

Lay Keel For World's First Atomic-Age Carrier

WITHOUT FANFARE, THE FIFTEEN-TON BOTTOM SHELL (arrow) of the nation's first atomic-age aircraft carrier is lowered onto keel blocks in a 1,000-foot building dock at Newport News, Va. The \$5,000-ton ship, to be christened the United States, will cost \$188,000,000. Construction of the carrier had been approved by the Air Force on the grounds that it was an invasion of its field of long-range strategic bombing. *(International)*

Business Women Receive Charter At Mayfair Inn

Miss Elizabeth Heth, State President, Makes Presentation

More than 150 persons, including many men from local civic clubs, were present last night at the Mayfair Inn ballroom to see a charter presented to the Sanford Business and Professional Women's Club of which Mrs. Sally Mero Williams is president. As toastmaster, Mrs. Mayme Hodgkin introduced the speakers.
Mrs. Williams received the charter from Miss Elizabeth Heth, president of the Florida Business and Professional Women's Clubs, who commended the 120 member club for beginning with the largest charter membership on record in the state, and for having enlarged its membership in the brief period since its organization on Dec. 15.
"All related clubs in Florida around of the Sanford Club," she declared, "and are watching its development and activities in civic clubs here will have to be on their toes, because now they will meet real competition in performing beneficial services to the community," said Miss Heth.
Mrs. Williams expressed thanks in behalf of the organization in accepting the charter, and revealed two aims of the organization: to put a woman in the State Legislature, and to initiate a program to get an auditorium for the benefit of the city and county.
City Manager Clifford McKibbin praised the club for its civic enterprise and offered its cooperation in future activities.
President John Gray of the *(Continued on Page Four)*

Former Greek Communist Draws Life Sentence For Polk's Death

SALONIKA, Greece, Apr. 21.—(AP)—Gregory Staktopoulos, a Greek newspaperman and former Communist, was sentenced to life imprisonment today for complicity in the murder last May of George Polk, American correspondent for the Columbia Broadcasting System.
Staktopoulos, 68 year old, mother, Anna, was acquitted on the same charges, as requested by the prosecution. The prosecution had asked a sentence of only 10 to 20 years for Staktopoulos, who admitted in court that he was with Polk on the night of his death. He contended he was an innocent dupe of the Communists.
Adam Mousenides, the man the prosecution said fired the gun which killed Polk, got a death sentence, as did his accused helper, Evangelos Vavanius. Neither Mousenides nor Vavanius, who are Communists, have been apprehended and both were tried in absentia.
The Communists contend their leader died in action in the guerrilla fighting before Polk was slain.
Only a handful of persons heard the judge pronounce the sentences in a low, calm voice. The jury had been out three hours and 17 minutes. It found Staktopoulos guilty of being an accessory, but not of premeditation. He was found innocent of any other charge.
Both Staktopoulos and his mother sobbed when they heard the verdict.
Although the prosecution had asked 10 to 20 years as the sentence for Staktopoulos, it changed this after the verdict was read and asked for the life sentence. Only yesterday the court had said the penalty under the law would have called for the lighter sentence, but today the court amended this and said the offense called for a penalty of 20 years to life.
Polk was found shot in Salonika Bay last May after killing friends he was on his way to interview Markos Vafliades, then the leader of Greece's Communist guerrillas. *(Continued on Page Four)*

Industry Will Not Squeeze Into Suit Worn Before War, Dawson Says

By NAM DAWSON

NEW YORK, Apr. 21.—(AP)—Business is on a reducing diet. Like all such diets, the process is apt to be unpleasant. But today's news columns are filled with accounts of businessmen reassuring each other that the fat they've been carrying around is unhealthy, and that every one will feel better when they all get back into trim.
But since by and with these accounts are some signals of distress as individual companies trim prices, costs, stocks, profits, wages, employment.
No one should expect American industry to be able to squeeze once more into the suit it wore before the war. Its structure has grown too big for that. The population is bigger, demands greater, plant capacity larger. And many of the costs of doing business have been hiked permanently.
Prices on most things won't be as cheap as they were before the war. In many cases the products themselves won't be the same.
You may be able to buy a car cheaper in a few months—already you can buy most of them for less than a few months ago. But the prices aren't going back to what they were in 1940. And neither are the cars themselves.
You want different cars, refrigerators and, unless other things than you did in 1940. They cost more to make. Chances are you are getting more pay now than you did then, too.
But the reducing process of getting rid of the inflationary blubber which was so pleasant in the acquiring is going to be spar-

tan. Fortunately, industries have not been doing it all at once. Some are well along on their diet already. Others—like copper, steel and oil—are just now reading over the list the doctor made out for them, and making faces.
Declining sales so far this year are reported today by leading companies in woolen, home appliances, oil refining, retailing, mail order and home construction industries. But at the same time, individual steel, auto, and electric products companies report sales this year topping last. There are still plenty of consumer dollars to be had—it takes selling, realistic pricing.
Airlines, moving into their season of greatest activity, report that their enforced reducing diet of the last two or three years is worth while. They've trimmed costs, put in new over-haul services, and most of them are now happily dipping into the black ink bottle.
Farmers have seen their income reduced. Prices for their crops have fallen in most cases as far as government supports allow. Prices for their farm lands are *(Continued on Page Four)*

BACKS BETTER SCHOOLS

LAFAYETTE, Ga., Apr. 21.—(AP)—Two more Georgia counties have voted to support a program of "better schools next fall or no teaching."
Support of the program was pledged yesterday by Walker and Whitfield county units of the Georgia Education Association.
Some 160 teachers attended a special session of the Walker county unit here.

LATE CITRUS

ORLANDO, Apr. 21.—(Special)—The late citrus crop, in all producing areas, is much less than last season, the Florida Farm Bureau reported today.
Figures obtained by the Bureau's Washington office from the U. S. Department of Agriculture this week reveal that 48 million boxes of oranges were available for sale after Apr. 1 this year, compared with 52 million last year. The grapefruit figures were still less. The report continued, after Apr. 1 this year there were 7 million boxes compared with 10 million.

Commie Army Presses Fight Along Yangtze

Reds Cross River At Tikang And Wuhu; Government Troops Open Large Attack

NANKING, Apr. 21.—(AP)—The Chinese Communists in great force today surged across the Yangtze River to the south bank 80 miles southwest of Nanking and seized north-bank positions directly opposite this quaking capital. Flight of the government forces remaining in Nanking began tonight, with all bound for Canton except the national defense ministry and the president's office, which were going to Shanghai.

NANKING, Apr. 21.—(AP)—Communist forces attempted today to consolidate newly won positions south of the Yangtze as the river battle drew four British warships into the fight.
Chinese government spokesmen said successful Communist crossings of the Yangtze, which separated Nationalist territory from Red, had been made at Tikang, 80 miles west of the capital and at Wuhu, 60 miles inland from here.
Government troops were counter-attacking a few planes and gunboats were pressed into the battle by the tattering government.
One foreign military source said 10,000 Red troops were over the river. This had not been confirmed officially.
Red leader Mao Tse Tung and his army chief of staff exhorted their troops to "liberate all China" in a special "communique" broadcast by the Communist radio.
In a joint communique broadcast by the Communist radio and the Red Commander-in-Chief Chu Teh ordered their armies to "advance and liberate all of China." The order was directed to both Communist regulars and Red guerrillas operating in south China.
No mention of the attacks on the British ships was made. The British ships were in the vicinity of the Red capital at Peiping asking that artillery units be instructed to cease firing on the British ships, which may now include the Cruiser London, on its way to the south.

The Red order of the day told the Communists to sweep forward in an offensive that will protect the Yangtze.
The London's captain ordered his subordinates to cease firing on the damaged Amethyst. He said all signs of peaceful intent had been disregarded and heavy fire opened from batteries near the Point and on the southern end of Beaver Island cloth in the vicinity of the Amethyst. This fire was actively replied to but under such conditions it is hardly possible to bring the Amethyst down river.
The British consul and a Red receiver messages from both ships saying they had been damaged.
Meanwhile an RCAF flying boat from Hong Kong took off from Shanghai with doctors and medical supplies but failed in an attempt to reach the Amethyst. The British hoped to land at Shao-shai Creek, which flows into the Yangtze near the Amethyst.

Several hours after the failure of the Hong Kong mission the RCAF abandoned efforts to land. The pilot is Flight Lieut. J. H. F. P. North. Aboard was Group Capt. N. Jefferson, station commander. *(Continued on Page Eight)*

Gardner Services 2:00 P. M. Friday At Baptist Church

General services for Samuel Guy Gardner, 49, who died yesterday at 11:03 A. M. in the local hospital will be held in the First Baptist Church at 2:00 P. M. tomorrow with Rev. W. P. Brooks Jr., assisted by Rev. D. L. Brainard, officiating.
Members of the Women of the World, of which Mr. Gardner was a member, will act as honorary pallbearers and will also conduct services at the graveside. All W. O. W. members have been requested to meet at the church at 1:45 P. M.
Mr. Gardner was born Feb. 27, 1900 in Mt. Pleasant, Ga. and came to Sanford in 1928. For many years he was a member of the Sanford Police Department, later serving as deputy sheriff under the late Sheriff C. M. Hand. For the past few years he had operated a general merchandise store in Lake Morton.
Survivors include the widow, Mrs. Hazel Stiles Gardner; one step-daughter, Mrs. Eugene O'Reilly of New Smyrna Beach; one step-son, Lt. John W. McMahon of Wright Patterson Field Air Corps, Dayton, Ohio; one sister, Mrs. Della Richardson of Ft. Pierce.
Active pallbearers will be Raymond Hass, Herbert Behrens, Ward Sloan, Otis Sloan, E. L. Davis and Charles K. Ellis.

PRISONERS OUT

Police and sheriff's deputies have been alerted to be on the lookout for two white prisoners who escaped from a State Road Camp at Plymouth yesterday at noon. One convict, 21 years of age is six feet one inch tall, 10 inches, about 26, is five feet, 10 inches tall.

HEARING SLATED

TRANTON, Ga., Apr. 21.—(AP)—The Dade County grand jury will meet in special session here May 10 to investigate the flouting of seven negroes near Hooper, Ga., on Apr. 2, Judge J. H. Paschall said last night.
Dade Sheriff J. W. Lynch reported that the negroes were taken from his custody by Ku Klux Klan members after he had arrested them at a house where "wild parties" had been reported.

President To Send Health Program To Congress Tomorrow

British Cruiser And Sloop Meet Heavy Red Fire

2 Ships Steam For Shanghai With 50 Casualties Aboard

SHANGHAI, Apr. 21.—(AP)—The known death toll from Chinese Communist attacks on four British warships reached 42 tonight. British naval authorities said the Cruiser London had 15 dead and 20 wounded and the Sloop Swan had five wounded. Three other vessels to be hit by Communist artillery on the Yangtze River near Nanking arrived back in Shanghai late tonight.

SHANGHAI, Apr. 21.—(AP)—The British Cruiser London and the Sloop Black Swan steamed for Shanghai late today after engaging Communist shore guns below Nanking on the Yangtze river.
Some 20 casualties were known to be aboard the two vessels, the third and fourth British naval craft to be hit in the renewed Chinese assault.
Behind them they left the crippled Sloop Amethyst which they had sought to aid. The Amethyst had some 30 dead and 40 to 45 wounded aboard, survivors who reached here said late today. Among the Amethyst wounded was her captain.
In port here undergoing repairs from yesterday's battle is the Destroyer Consort, which discharged 10 wounded and 10 dead.
At least 27 British dead have been reported. The London and Black Swan are feared to have several additional dead among their casualties.

The London's captain ordered his subordinates to cease firing on the damaged Amethyst. He said all signs of peaceful intent had been disregarded and heavy fire opened from batteries near the Point and on the southern end of Beaver Island cloth in the vicinity of the Amethyst. This fire was actively replied to but under such conditions it is hardly possible to bring the Amethyst down river.
The British consul and a Red receiver messages from both ships saying they had been damaged.
Meanwhile an RCAF flying boat from Hong Kong took off from Shanghai with doctors and medical supplies but failed in an attempt to reach the Amethyst. The British hoped to land at Shao-shai Creek, which flows into the Yangtze near the Amethyst.

Several hours after the failure of the Hong Kong mission the RCAF abandoned efforts to land. The pilot is Flight Lieut. J. H. F. P. North. Aboard was Group Capt. N. Jefferson, station commander. *(Continued on Page Eight)*

Air Force Intelligence Experts Prepare "Bombing Map" Of World

WASHINGTON, Apr. 21.—(AP)—Air Force intelligence experts are preparing a "bombing encyclopedia" to show what enemy targets should be hit in any future war.
The volume of their work has doubled since last summer and the Air Force is now asking Congress to provide funds for more intelligence workers.
Information available to the lawmakers and others showed today.
The folders in the top secret files which make up the encyclopedia constitute a list of world targets of strategic importance.
The list is part of the annual national defense program which calls for the preparation and continuing revision of precautionary and alternate sets of plans for fighting an aggressor nation on various combinations of national resources.
Whether it includes the recently rumored list of 70 targets in Russia is not known.
The folders are the product of analysis of scraps of information, statistics available from trade journals, reports by commercial attaches abroad, newspaper clippings and, in a minor percentage, presumably material provided by undercover workers.
Into the folders go an appraisal of the relative importance of a target; the importance of a particular installation within a target city; details of construction and operation of that particular industry; secondary aiming points

"Propaganda Of Truth" Programs Praised By ASNE

Wiggins Asks Voice Of America Broadcasts Be Increased

WASHINGTON, Apr. 21.—(AP)—The "propaganda of truth" program planned by the State Department is a major weapon of the cold war and should be strengthened, a committee of the American Society of Newspaper Editors declared today.
The ASNE group, which met at the ASNE annual meeting were told by J. Paul C. Wiggins, chairman of the special committee on the foreign information program.
But the program is even more important than it was when first conceived, that it is effective as it is able to get that it is adequate to the requirements of foreign policy in today's world crisis.
The committee said that a "truth program" is required that the Department of State should be asked to request the Voice of America broadcasts and other information activity in the year starting next July 1.
Concerning with a recent finding of the congressional committee on the foreign information program, the ASNE group said the information budget should be brought up to date along with the country's multi-billion dollar military and foreign aid programs.
The great struggle for the minds of men was a conspicuous part of the old war, a war ago," said Wiggins, who is managing editor of the Washington Post.
"It is now more clearly than ever the crucial battle of our time."
The committee of national brought together by the Atlantic Council cannot become a great force in peace, the committee reported, unless it includes a vocal, logical, and pointed power of Western civilization.
These allies are not at the disposal of economists and generals," Wiggins said. "They can be brought into the struggle by the propaganda of truth and by other means."
We need to get into the contest for men's minds, with spirit, vigor and enthusiasm."
The report urged that the American Peace and the United Press be added to the foreign information program of the State Department. The news agency, that they require to combat an effective program of foreign information.
The AP board of directors, in declining to grant state Department requests for use of the government-owned news agency, said the AP would not be able to do so without losing its independence. The board *(Continued on Page Eight)*

WASHINGTON, Apr. 21.—(AP)—President Truman's national health program based on compulsory government health insurance goes to Congress tomorrow.
Charles G. Ross, White House press secretary, said the President will send up a 1,000 or 1,500 word message on the subject, detailing what he wants.
The Senate Education and Labor Committee has promised prompt hearings. However, Chairman Elbert Dornan (D-Ich) has estimated there is a "slight chance" of the legislation being approved this session.
Meanwhile the Christian Science Church is set to amend its constitution to amend its national health program legislation. The church's constitution will be completely exempted of the health insurance program.
The church is set to exempt from the proposed health program of the law, paying a question of religious freedom is involved.
James Watt of Washington, speaking for the church, told the House Ways and Means committee that the Administration's proposal to add disability insurance to the old age and survivors insurance is something very objectionable to Christian Scientists.
"It would require them," he testified, "to pay for and accept disability benefits exclusively of a medical nature and under medical supervision." He added:
"Christian Scientists successfully rely wholly upon prayer and *(Continued on Page Eight)*

Taft Says Speedy Action Is Needed On Housing Plan; Home Costs Rapped

WASHINGTON, Apr. 21.—(AP)—President Truman's national health program based on compulsory government health insurance goes to Congress tomorrow.
Charles G. Ross, White House press secretary, said the President will send up a 1,000 or 1,500 word message on the subject, detailing what he wants.
The Senate Education and Labor Committee has promised prompt hearings. However, Chairman Elbert Dornan (D-Ich) has estimated there is a "slight chance" of the legislation being approved this session.
Meanwhile the Christian Science Church is set to amend its constitution to amend its national health program legislation. The church's constitution will be completely exempted of the health insurance program.
The church is set to exempt from the proposed health program of the law, paying a question of religious freedom is involved.
James Watt of Washington, speaking for the church, told the House Ways and Means committee that the Administration's proposal to add disability insurance to the old age and survivors insurance is something very objectionable to Christian Scientists.
"It would require them," he testified, "to pay for and accept disability benefits exclusively of a medical nature and under medical supervision." He added:

Celery Growers, Shippers Agree On Another Holiday

A group of celery growers and shippers, representing 80 percent of the volume of celery shipped from this section, met yesterday afternoon at the Mayfair Inn, and voted to have another shipping holiday next Wednesday, May 1. William J. Cullum, who served as secretary of the group, announced today. J. B. Davidson served as chairman.
The Vegetable Association, which was present, shipping executives and shippers, including W. E. Allen, A. Duke, R. F. Wheeler, J. M. Smithers, John Caraway, J. C. Hutcherson, R. W. Gates, John Eck and John Dinglefield.
Since the cutting holiday for this week started only yesterday and continued today, reduction in stock holdings is expected later, said Mr. Cullum. Cutting will be resumed tomorrow and will be discontinued during Saturday. Another meeting will be held Wednesday.

Robert Morris Gets Life Scout Degree

Life Scouts in Boy Scouting were conferred upon Robert Morris of Troop 3 and son of Mr. and Mrs. R. F. Morris by Bob Lippincott at the Court of Honor held Monday night at the Parish House, Ralph A. Smith, scout executive, announced today.
Two members of Troop 34, Bill Clark and Gene Wilkinson, received first class awards from H. E. Morris, second class awards were presented by Capt. Byrd Hudson to these members of Troop 5, Thomas Spier, Thomas Swales and Harvey Wilkinson.
Merit badges were received by Robert Morris, Alan Hetzel, and Walter Miller, who also conducted the pledge of allegiance to the flag. Troop 5 was represented by 14 members, Troop 34 by eight and Troop 341 by nine members.

Business Women

(Continued From Page One)

Seminole County Chamber of Commerce predicted that the club would accomplish much. In behalf of the County Commission, H. B. Pope, chairman, commended the club women for assistance given the Commission, termed the organization one of the most progressive groups of business women ever gathered here, and praised its way of pushing forward until its goal is reached.

Mrs. Frances Thurman, vice president of the State organization, and member of the Halifax Club of Daytona Beach, spoke briefly of the fine progress made by the local club.

County Judge Douglas Stenstrom attributed most of the success of the club to its president, Mrs. Williams, whom he said had served as a member of the bar of the District of Columbia and was twice president of the Na-

tional Woman's Bar Association, numbering 400 members. He commended the local club for its outstanding accomplishments.

Five members of the Orlando women's organization were present, including the president, Mrs. Kathleen Gable, Miss Mary Lindeman, president of the Mt. Dora Club and four members, and 11 members of the Eustis Club were present.

The musical program included singing of "The Lord's Prayer" by Evens McCoy, Mrs. McCoy accompanying, and numbers by the club's double quartette directed by Mrs. Esmer Price.

Popula of the Duxbury School of Dancing entertained. The routine included a Samba Tap by Jane Davis and Jean Humphrey, aerobics by Norma Fae Harvey, "The Serenade" by Doris Duxbury and a solo dance by

decorations provided by Mrs. M. Gingles and her committee, included table trim of gladioluses,

snap dragons, statia and queen Ann lace, the club colors, green and gold. Mrs. Mary Cash and Miss Mary George were thanked for the programs.

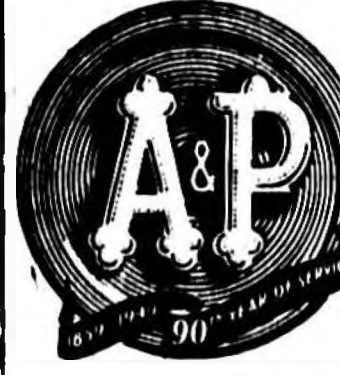

Mrs. Ruth Scott, president of the Pilot Club, extended a welcome to the new club.

COLLEGE PRAISED

BOSTON, Apr. 21 (AP)—A Methodist weekly publication defended Boston College today for firing three teachers who claimed it taught heresy to Roman Catholics and added it was "the kind of heresy we like."

Zinn's Weekly praised the Rev. William L. Keleher, S. J., head of the Catholic institution, for discharging the trio after they contended the college taught there could be salvation outside the Roman Catholic Church.

"Needless to say, we thoroughly approve of Fr. Keleher's heresy—if heresy this be," the editorial stated.

Japanese Student Tells Of Bombing Of Tokyo During World War II

LAKELAND, Apr. 21 (Special).—An eye witness account of a city's destruction by aerial bombs and a nation's betrayal by powerful militarists was told yesterday by Geoffrey Ueyehara, 18, Japanese citizen and student at Florida Southern College.

Geoffrey, the son of a Japanese father and English mother, arrived in the U. S. in January from Tokyo, Japan. He was born in China in 1931 while his father was the deputy commissioner of Shanghai's International Police and remained there until 1941 when the family returned to Japan.

During the war Mr. Ueyehara resigned his post because of anti-militaristic leanings. Geoffrey's American sponsor is Ernest Feltus of Tampa who became a friend of the Ueyehara family while a member of the U. S. occupation force in Tokyo in February, 1948.

Geoffrey's story of the conduct of Tokyo's citizens during the night of terror when American bombers raved the skies at will is a tribute to man's inborn humanity. He said that when the initial shock of the fire raids passed, the city was a cauldron of flames and homeless, frightened people.

Funeral Services For Dr. Wise To Be Held On Friday

NEW YORK, Apr. 21 (AP).—The body of Dr. Stephen S. Wise, well-known Jewish leader and militant defender of liberal causes, will lie in state today at the Free Synagogue which he founded 42 years ago.

The noted, 75-year-old rabbi, who spent a lifetime preaching for peace, freedom and tolerance died last night at Lenox hospital.

He had undergone an operation early this month for what the hospital called a "malignant stomach ailment."

Rural Common Sense

By SPUDS JOHNSON

BETTER HEALTH AMONG RURAL PEOPLE IS AIM OF FEDERAL PROGRAM

The need for improvement of health and health facilities in rural areas is being considered by a number of interested groups. Considerable improvement has been made already, but the need is still great.

At present, rural areas of Florida and many other states, are at a point where the health and medical care to rural communities was adopted at a national rural health conference in Chicago recently.

The Federal Bureau of Hospital where the people of a community extend their efforts for such facilities.

Star Explosion Is Reported By Harvard Scientist

CAMBRIDGE, Mass., Apr. 21.—(AP)—The explosion of a star with the force of a billion Hiroshima-type atom bombs was reported last night by an internationally-known Harvard scientist.

Dr. Harlow Shapley, director of Harvard College Observatory, said the explosion must have occurred six years ago. The flareup, however, was recorded on earth for only 20 minutes last Dec. 7.

The discovery was made by Dr. William Luyten of the University of Minnesota.

Dr. Shapley said that the star, known as "L. 724.8" is about six light years away from the earth. It is one of a pair of stars believed to be nearest the earth. The other is Alpha Centauri—four and one-half light years away.

Describing the flareup as "unique phenomenon," Dr. Shapley said that if the sun were to explode the same way "people on earth would have been unaccountably not for a quarter of an hour."

The Harvard scientist said the exploding star, located in the constellation Centa (the whole) is probably the nearest star visible in the United States. The other is observed chiefly in the southern hemisphere.

They revolve around each other in 20 to 25 years and are three times as far apart as the earth from the sun. Both were described as "extremely red." They are surrounded by great clouds of shining hydrogen and calcium gas.

The discovery was made by Dr. Luyten while comparing plates taken by him in South Africa in 1940 with those made at Harvard Observatory in 1944.

Dr. Shapley explained the plate actually proved the explosion although the flareup was not visible until last December.

He also based his conclusions on observations at the University of Arizona Observatory, the McDonald Observatory in Texas, the Mount Wilson Observatory in California and the Union Observatory in South Africa.

Natives of Bikini, who moved to permit the bomb test, have finally found a permanent home on the island of Kili, 500 miles northwest of Bikini.

Commie Army

(Continued from Page One)

China's "sovereignty and territorial integrity." It instructed Red troops to seize all "war criminals," particularly reformed President Chiang Kai-Shek.

The announcement by the Communist chieflets left some room for negotiation on the basis of Red surrender terms rejected yesterday by the government.

It stipulated that if any local region is willing to make peace on Red terms it will be accepted. The broadcast said also that if the government is still in Nanking when Red forces surround the capital, Nationalist leaders will be given another opportunity to sign a peace agreement with the Communists. Such an agreement would amount to outright surrender.

The Communist communiqué said that the order to fire was issued because the Nanking government had rejected the Communist proposal. The announcement charged the Nationalists refused to accept the peace terms because the Nanking government still "obeys American imperialists and Kuomintang government party."

The Communist communiqué said the Nationalist government party is in their effort to prevent the liberation of the Chinese people and a settlement of domestic problems by peaceful means.

Meanwhile, the government in formulating office released the full text of the reply made yesterday to the Communists through the Nationalist delegation in Peiping. The release was given as all branches of the government are remaining in Nanking prepared to fire.

The government stated that even if it had signed, Red peace proposals "narrow minded attitude and oppressive spirit" would have been unacceptable to both the Nationalist army and the people. The reply charged that the entire proposed agreement "smacks of Communist military control of the entire nation."

The statement expressed the belief that the government could not accept the Red terms because no lasting peace would result. The agreement, the government statement continued, provided for "total abolition of the Nationalist army" through amalgamation into the Communist forces. Politically the government would be placed at the beck and call of the Communists, it said.

The government statement asked the Communists to change

Race Equality Policy Set In Armed Forces

WASHINGTON, Apr. 21.—(AP)—The Armed Forces' new policy on treatment of negroes requires that when qualified, they shall be assigned to military duties of any type "without regard to race."

This was disclosed with an announcement yesterday that Secretary of Defense Louis Johnson has ordered the Army, Navy and Air Force to furnish by May 1 their plans for forwarding "equality of treatment and opportunity" in line with instructions from President Truman.

Johnson's policy statement said "Some units may continue to be manned by negro personnel; however, all negroes will not necessarily be assigned to negro units. Qualified personnel shall be assigned to fill any type of position vacancy in organizations or overhead if E. administrative and supervisory installations with out regard to race."

British Ship

(Continued from Page One)

The RAF Kaitak Airfield at Hong Kong.

Late today funeral services for the 10 men who died on the Consort were held.

Early in the evening 50 survivors of the Amethyst arrived here by train from the north. Among them were five wounded.

Survivors said 89 officers and crewmen were still aboard the ship.

Chief Petty Officer David Heath and the Amethyst went aground when a Communist shell hit the wheel house and jammed her controls.

The ship's guns, trained on Communist positions, were quickly put out of commission by Red fire, he said.

Heath said at this point a white flag was raised but the Communists kept on firing. The British sailors were ordered to abandon ship and the men swam 200 yards to the south shore of the river.

More British ships, the Belfast and Constance, are en route to the Yangtze a London admiralty statement said.

Voice Of America

(Continued from Page One)

"necessarily would reflect upon the objectivity of the news services from which such newscasts are prepared."

The Wiggins report said most newspaper editors share the "misgivings" of AP and UP about releasing their news for government use, since "the independence and impartiality of the wire services is so important as ever."

The report concluded, however, "such misgivings now have less force in view of the 'responsibility' in which the State Department agencies have used the news given them."

"We have more reason to run whatever risk there is, now that the danger points of the cold war are at hand," he report added.

"As long as Western civilization is worth a struggle, its wars, either cold or hot, will bring forth honest conscientious objectors, who dislike the measures essential to survive."

"The hard facts of life, however, force most of us into the realistic choice between the lesser and the greater risk. We come out of our soul-searching convinced that it is wiser to give up something of our way of life for a short time than to let our risk giving up all of it for all time."

The proposal is expected to reach the membership in a resolution to be considered Saturday morning. Virginia's colleagues on the committee are Lloyd M. Felt, editor of the News News, and Harold F. Wheeler, managing editor of the Boston Traveler.

ASNE President Edwin D. Cannon told the meeting that American efforts to bring about a United Nations agreement on freedom of information may backfire and "leave us further back than we started."

given miners who leave the pits before the scheduled end of the work day. Under the UMW-AFL pact, the miners' agreement, an early quitting time is permitted when working conditions in the mines are considered "bad."

The sitdowns spent their second straight night underground last night in the coal company's north-est mine here. They had fresh air piped in by mine fans, electric lights and cooked food sent down from the surface.

The "stay home" request made last night was sent to the company's miners at pits at Tannous, Lonsford, Coaldale, Summit Hill and Respechoning.

Congress Roundup

(Continued from Page One)

apical means for the treatment, supervision and treatment are directly contrary to the teachings of their religion and, if forced upon them, would interfere with their constitutional rights to practice their religion freely."

Therefore, he said:

"We would like to request that H. R. 2803 (the Social Security expansion bill) be amended so that Christian Scientists will be completely exempted if they so elect; or if not, so that they will receive benefits upon certification of an accredited practitioner of healing by prayer or apical means and without medical examination, supervision or treatment."

And Senator Taft (R-Ohio) told the Senate that 45 per cent of the people of the nation can't afford to build a four-room house. He figured the cost around \$7,000.

Urging approval of a pending housing measure, the Ohioan said he thinks Congress must act speedily on housing aid.

"It is one of the most important social and economic problems before the people of the United States," he said.

The pending measure would authorize the government to help finance the building of 80,000 public housing units during the next six years. It also carries authority for slum clearance loans and grants, as well as a four-year farm housing program.

The House is still on its Easter vacation. It swings back into action Monday, probably with debate on the dynamite-packed labor program.

The Senate Foreign Relations Committee was called into an afternoon closed session to hear Secretary of State Acheson report on the hush-hush arms-for-Europe program, and its possible cost.

Other senators not on this committee have been insisting that the plans be made public before the Senate votes to ratify the North Atlantic Defense Treaty. Senator Taft (R-Ohio) said he has been promised this will be done.

The Senate Armed Services Subcommittee continued its investigation into whether American troops were guilty of brutality in forcing confessions from Nazis responsible for the Malmedy massacre.

German storm troops murdered American captives in the Battle of the Bulge. Many were tried

Legislature

(Continued from Page One)

in the House by Rep. Cobb of Volusia. It would prohibit state employees from taking part in political activities and would prevent their being discharged for political or religious reasons.

Governor Warren recommended to the Legislature a civil service law, "with emphasis on protection of state employees from political pressure and coercion." However, Rep. Cobb said he had not discussed his bill with the Governor. The Governor would appoint the three commissioners to staggered four-year terms. They would employ the director of personnel at a salary not to exceed \$7,000 a year.

The commission would have an appropriation of \$225,000 on which to operate for the next two years.

A series of bills revising Florida election laws was put into both branches of the Legislature. One of the proposals would repeal the law passed by the 1948 extra session giving the States Rights Democrats and Progressive parties places on the general election ballot for the 1948 election alone.

Another proposal would fix Mar. 10 as the qualifying deadline for all candidates for national, state and county offices in primary elections. At present, all candidates must qualify by Feb. 1, except those running for governor and railroad commissioner, who have until 45 days before the first May primary.

The committee proposals also would repeal the law requiring publication of lists of qualified voters; authorize the secretary of state to fix the order in which candidates would be listed on the general election ballot and provide for instructions to voters.

Senator Mathews of Jacksonville

WILLIAMS NAMED

TAMPA, Apr. 21.—(AP)—The Tampa Times said President Truman today signed nomination of Boyce A. Williams, Leesburg citrus grower, to replace Allie J. Angle of Tampa as customs collector for South Florida.

introduced a bill to provide for the election of delegations to national political conventions in the second primary election. They are now elected in the first primary and there have been complaints that they make the ballot too unwieldy and slow down voting.

The House adopted a resolution commending Florida Gov. Scott leaders for "invaluable loyalty to our youth," and Rep. Cobb of Volusia asked the Legislature memorialize Congress in favor of a "limited world federal government."

A Senate-approved resolution expressing opposition to federal control over state tidelands was adopted by the House today. It "expresses the opinion of the Legislature that the State favors continued State ownership and control of lands and resources under the sea," Rep. Bryant of Marion said.

The U. S. frigate "Constitution" once carried a statue of Andrew Jackson as a figurehead.

NOTICE OF INTENTION TO APPLY FOR PASSAGE OF LOCAL ACTS OF LEGISLATION

Notice is hereby given that the Board of Public Instruction of Seminole County, Florida, will apply to the 1949 session of the Legislature of the State of Florida for the passage of local or special legislation providing for the division of Seminole County, Florida, into two counties, Florida, and said legislation shall be placed on the agenda of the Board of Public Instruction of Seminole County, Florida, and said legislation shall be placed on the agenda of the Board of Public Instruction of Seminole County, Florida, and said legislation shall be placed on the agenda of the Board of Public Instruction of Seminole County, Florida.

T. W. LAWTON, Superintendent of Public Instruction of Seminole County, Florida, and Secretary of the Board of Public Instruction of Seminole County, Florida.

13,700 On Strike

(Continued from Page One)

Ford Local 600, the UAW's Rouge group, has scheduled the completion of its strike vote for tomorrow.

In the Packard dispute Ralph Urban, president of the UAW Packard local, said employees protested conditions from men in a gold point spray for cars being prepared for the company's 50th anniversary celebration.

A management spokesman, however, said proper safeguards had been set up and that health authorities had approved the methods.

Two thousand miners walked off their jobs at Lehigh Navigation Coal Company operations yesterday and the additional 1,000 followed suit this morning.

In carrying out the work stoppage, the miners responded by a "stay home" request made last night by the United Mine Workers-Panther Valley Committee.

UMW officials in announcing the planned stoppage last night said it would continue until the coal company agreed to settle the pay dispute grievances which the sit-downs were blamed for the action.

The sitdown was started on Tuesday by 13 miners but three tired members of the group returned to the surface yesterday.

The strike is the third sitdown stemming from a long-standing dispute over the amount of pay

LEAPS TO DEATH

TAMPA, Apr. 21.—(AP)—A man registered at a hotel here as Zack Phelps Kaye, about 55, leaped to his death today from the 10th floor of the Hotel Floridan.

Detective A. Y. Myers said the man registered Sunday under that name but laundry marks found on his trousers led officers to believe the name used was fictitious.

Insurance Tax Bill Recovers From Setback

Rep. McClure Introduces Measure To Remove All Rent Controls In State

TALLAHASSEE, Apr. 22—(AP)—The Senate passed House Bill 384 today calling for re-registration of all Seminole County voters in 1950. The measure has previously passed the House.

TALLAHASSEE, Apr. 22—(AP)—Governor Warren's bill to double the tax on insurance companies' premium receipts recovered today from a temporary setback.

Administration supporters, who apparently had been caught napping yesterday when an insurance broker member had it assigned to his committee on insurance, lost no time this morning in getting it withdrawn again.

The House took it away from the insurance committee on a voice vote and left it solely before the finance committee. A double committee reference increases the chances for defeat of a bill because either committee can keep it off the calendar.

Both Senate and House spent most of their time on comparatively non-controversial bills, but the House set up a battle royal for next Thursday.

It agreed to start debate then on the Senate-approved bill requiring fencing of all Florida (Continued on Page Two)

Douglas Stenstrom Presented Award At Jaycee Meet

Judge O. Douglas Stenstrom yesterday received a Mahanov cigar humidor from President Gordon Bradley on behalf of the U. S. Junior Chamber of Commerce at the noon meeting of the Seminole County Junior Chamber of Commerce at the Tourist Center. The award was in recognition for having been selected the outstanding man in Seminole County for 1948.

Clifford A. Ahles, program chairman, presented a motion picture presenting information on the operation of the Florida Unemployment Insurance program. Beneficiaries of the program are listed on the following page.

Guard Is Commended For Soil Day Help

The National Guard was commended at a meeting held last night in the Sanford Army in a letter from Edward Higgins, steering committee chairman, for the fine job done by the organization on the Soil Conservation Day, Apr. 7. He added that without the National Guard's help completion of the project would have been impossible.

Along with the from Mr. Higgins, Company Commander Raymond Kader also read a letter from Col. Clyde Traveled, battalion commander of Orlando, complimenting the local unit for the fine showing made during Federal inspection held a few weeks ago.

Announcement was made that the National Guardsmen will go to Camp Pendleton for rifle practice the last three weeks in May. A report was heard from Lieut. John L. Sauls on the local recruit drive which is now underway with the unit being divided into two groups: "A" and "B".

Lieut. Sauls stated that many new members are being recruited by the two sides and added that anyone desiring information pertaining to enlistment may contact Lieut. Kader, Sgt. T. V. Brown or himself. The next meeting of the Guard unit will be held at the Army on Thursday night at 8:00 P. M.

MINISTERS SPONSORS

The following additional sponsors of the Seminole High School Band fund have been received:

- Family Loan Co. \$10.00
- Carl Higginbotham 5.00
- Gene's Texas Station 5.00
- Robert F. True 5.00

Senators Tour Capital Slums

IN SUPPORT OF HIS SPEECH in the U. S. Senate urging the passing of the long range housing bill and its slum clearance provisions, Sen. Paul H. Douglas (D-IL), led several colleagues on a personal tour of the slums within sight of the Capitol. Here, talking to a resident of the area, are (left to right): Senators Theodore F. Green (D-R. I.); Douglas; and Wayne Morse, Republican of Oregon. (International Soundphoto)

Tomorrow's Most Promising Citizen To Be Selected In Herald Contest

Who is Sanford's "Most Promising Citizen of Tomorrow?" This will be decided in a contest starting today and sponsored by the Sanford Herald in co-operation with Cox the Photographer of Excess Studios, Kader's Jewelry Store and the Ritz Theater.

Nominations are now in order and may be made for the contest by any permanent resident of Sanford simply by filling in the ballot appearing on the society page of this edition of the Herald. Nominations are limited to children under five years of age and will be handled by the selection committee in the order in which they are received.

The names of the successful nominations will be published, beginning Monday, and one each day thereafter, in the classified ad columns of the Herald. Mothers of children nominated are asked to take their child to the Excess Studios where his picture will be taken to be published in the Herald.

There will be five habes pictures published each Friday during the contest and the public will be asked to select from among them "The Most Promising Citizen of Tomorrow." Another ballot will be published in the Herald at that time for this purpose.

Parents of the winners of each week's contest will receive two passes to the Ritz Theater. At the close of the contest the pictures of all runners-up will again be published, and the public will be asked to select "The Most Promising Citizen of Tomorrow" from among them.

The winner in this balloting will receive a sterling silver purrington awarded by W. E. Kader, jeweler. Before coming to Florida in 1917, Robert L. Cox will serve as photographer in this contest, operating a studio in Spring Lake, N. J. where he specialized in baby pictures. His father was a noted New York photographer whose work is now on exhibit in the Museum of New York, and among the pictures still retained by Mr. Cox is an autographed photograph of (Continued on Page Four)

U. S. Order Seeks To Keep Milk Free From All Traces Of DDT

WASHINGTON, Apr. 22—(AP)—A new Agriculture Department order is aimed at keeping all traces of DDT out of the U. S. milk supply. Officials say very small amounts of the insecticide are not alarming, but they want to keep the total amount in all food as low as possible.

Experiments have shown that DDT may appear in the milk of dairy animals after it is used on them or their feed.

W. G. Reed, chief of the livestock insecticide division of the Agriculture Department's Production and Marketing Administration, has notified insecticide manufacturers not to recommend DDT for use:

1. On dairy animals.
2. On feed consumed by dairy cows or animals being fed for slaughter.
3. As a residual spray in dairy barns. Residual sprays are ones that last indefinitely, clinging to walls, floors, etc.

This means that the labels on any DDT shipment in interstate commerce may not contain recommendations that the insecticide be used for these three purposes. Labels now are being revised.

The Department of Agriculture also has revised its recommendations to farmers and is "telling them not to use DDT on dairy cows."

Thus DDT, one of the most widely publicized fly killers, is being relieved of one of its major assignments—killing flies and insects around dairy barns and milk processing plants.

Other insecticides which may be used in dairies are good fly killers but do not appear in significant amounts in the milk of the animals.

Commie Army Advances At Will In China

Capital Of Nanking Is Cut Off Both On East And West; Li Calls Meeting

NANKING, Apr. 22—(AP)—A Chinese communique late tonight said Generalissimo Chiang Kai-Shek and acting President Li Tsung-Jen had jointly decided the government "must fight for the people's freedom and National Independence in the end." The statement on results of a conference of the two leaders at Hangchow during the day, came as Communist armies were streaming almost at will on broad fronts south of the Yangtze river on both sides of this capital. It announced that Premier Ho Ying-Chin, who also attended the meeting, was given full command of all Nationalist forces.

NANKING, Apr. 22—(AP)—South Yangtze valley ports, cities and towns fell like clay pigeons today before a mounting Red onslaught.

So weak was government opposition that wholesale desertions to the Communists were feared. Foreign military observers said a general troop withdrawal may have been ordered.

Nanking was last emptying of officialdom. High level Chinese, wearing white helmets for the troops and many wearing tennis rackets, bolted for departing planes.

Acting President Li Tsung-Jen Premier Ho Ying-Chin and General Pai Chung-chin, commander of the central front, flew to Hangchow for an important meeting with retired President Chiang Kai-Shek. Chiang may be asked to take over the government again.

Most important cities below the Yangtze in Red hands were Kainyung, 85 miles east of here, Kweichih, 130 miles southwest, and dozens of less places between Wuhan, 60 miles southwest of here and Anking, 150 miles southwest.

From Kweichih the Communists could march straight to the sea at Hangchow, less than 200 miles away. Such a move would isolate Shanghai and Nanking to the north.

There was no way of estimating the Communist strength across the river. The Red radio said 300,000 troops had swarmed over the river in small wooden boats between Wuhan and Anking along the Yangtze.

Fires from Communist shells burned in Pukow, across the river from Nanking. The capital's populace was not overly excited.

Most people had become resigned to the Red's taking the capital. The foreign office urged foreign embassies to follow it to Shanghai or Canton. U. S. Ambassador J. Leighton Stuart had made no plans to leave Nanking.

With Communists to the east threatening to cut off all roads, (Continued on Page Two)

Song Team To Attend Rotary Convention

Charles Morrison, Rotary song leader, and Harry Kudell, accompanist, will lead the singing at the Rotary district meeting at Sarasota Sunday.

Last night they helped Winter Park Rotary celebrate its second birthday. The program included singing and playing by Rollins students.

Sanford Men Named To WOW Offices

Two Sanford members of the Woodmen of the World were elected to important offices at the organization's bi-annual state convention at Miami Tuesday.

John A. Lane was elected as an auditor of the Florida (Head Camp Jurisdiction, and H. J. Finch was named as one of three members to serve as a Florida delegate at the Woodman national convention in San Antonio, Texas in June.

Mr. Finch, G. W. Pitts of Tampa, and W. C. Henry, Deale will represent the 12,000 Florida members at the convention.

U OF F JOURNALIST GAINESVILLE, Apr. 22—(AP)—

Rae O. Welmer, veteran middle-western newspaper reporter and editor, will join the staff of the University of Florida's department of Journalism July 1.

Outstanding in his newspaper career in the eight years he served as assistant and managing editor of PM, widely read New York newspaper during the late 30's and middle 40's.

BANKS TO CLOSE All banks in Seminole County will be closed Tuesday to observe Memorial Day.

Truman Asks Congress For Medical Insurance Plan; Wherry Raps Arms Aid Cost

Nebraskan Says Program Must Be Cut To Fit Pattern Of Government Income

WASHINGTON, Apr. 22—(AP)—Senator Wherry of Nebraska, the GOP floor leader, asserted today that the whole program of foreign aid-including arms for Western Europe-must be "cut to fit the pattern" of government income.

Wherry told reporters he thinks Secretary of State Acheson was "taking a course out of the air" for his estimate of the cost. Acheson told the foreign relations committee yesterday that helping rearmations which would cost \$1,100,000,000 in the year beginning July 1.

This would be the major share of a proposed \$1,450,000,000 for foreign aid program.

Acheson's estimate of this amount, he thinks, is based on a few dollars' worth of other spending programs. Wherry said he wants Congress to "lay the whole thing on the table at once."

"These expenditures must be cut to fit the pattern of income and the President should have the responsibility of doing just that," the Nebraska Senator said.

Several senators said privately they were surprised that Acheson had not put a bigger price tag on the arms program.

The long range housing bill was sent to the House today after the Senate approved it a few minutes before midnight last night. The bill to cut vote came as a climax to five days of bitter debate, topped off with one of the year's stormiest sessions.

The bill, requested by the President, authorized a vast slum clearance program, construction of 400,000 public housing units in the next six years, a farm housing project and research to cut the cost of home building.

House opposition—and in the Senate, too, for that matter—centered on the public housing program. (Continued on Page Four)

FBI Catches Enemy No. 1 After Chase In Indianapolis

INDIANAPOLIS, Apr. 22—(AP)—Clayton Milton Johnson, the FBI public enemy No. 1, lay in critical condition at General Hospital today with a bullet in his back.

Johnson was wounded in a running gun fight with three FBI agents on crowded Monument Circle last night. He is recovering in the hospital.

FBI Agent Harvey Foster said Johnson was charged with causing the North Side branch of the First National Bank at Memphis, Tenn., Feb. 8 and with escaping from the State County Jail at Miami, Fla., Mar. 1.

Foster said Johnson "is the man the FBI across the nation wanted more than any other man at this time."

Johnson's wife, Billie Glaze Johnson, 25, was arrested at a downtown hotel a few minutes after he was captured. Foster said she was charged with helping in the Miami escape and with being an accessory after the fact to the bank robbery.

Hack Pleads Guilty To Gambling Charge

DELAND, Apr. 22—(AP)—George L. Hack, charged with keeping a gambling room at the Club Diamond south of here, pleaded guilty before circuit judge Herbert Frederick today and was fined \$1,500 or one year in jail.

Hack's trial had been scheduled for Monday but he elected to come into court today and plead guilty.

He was arrested Aug. 21 with seven others in a series of county-wide raids on suspected gambling establishments. The others have all pleaded guilty, also.

GOLF TOURNAMENT MIAMI, Apr. 22—(AP)—W. A. (Dub) Page, West Palm Beach, moved into the semi-finals of the Florida State Amateur Golf Tournament today by defeating William Y. Stember, Miami, in the 19th hole.

Carl Dann, Jr., of Orlando, four times winner of the tournament, turned back Jim Spencer of Sanford 2 and J. Dann was 2 under par on the first nine and held a 1-up advantage.

Lays and Dann are paired for the semi-finals round.

British Ship Is Still Trapped By Communist Guns

Admiralty Denounces Attack As Deliberate, Unprovoked

SHANGHAI, Apr. 22—(AP)—The crippled British ship Amethyst was hit again today by Communist artillery when she tried to move up the Yangtze to Nanking. It was reliably reported tonight. It was not known if there were any new casualties. In all, 11 British seamen have been killed and at least 82 wounded by Communist gunners in attacks on four British warships, beginning Wednesday.

The long range housing bill was sent to the House today after the Senate approved it a few minutes before midnight last night. The bill to cut vote came as a climax to five days of bitter debate, topped off with one of the year's stormiest sessions.

The bill, requested by the President, authorized a vast slum clearance program, construction of 400,000 public housing units in the next six years, a farm housing project and research to cut the cost of home building.

House opposition—and in the Senate, too, for that matter—centered on the public housing program. (Continued on Page Four)

At her new anchorage the vessel was reported out of Communist gun range but unable to proceed down the river because of threatening shore batteries on the 150 mile course to Shanghai. Earlier there had been some indication the ship might be for a slight escape.

Meanwhile in London Britain's first lord of the admiralty denounced the Chinese Communist shelling of British warships in the Yangtze River as "an unprovoked attack deliberately carried out for what purpose we have yet to learn."

The first sea lord, Viscount Hall, addressed an audience at Cardiff, Wales. He said Britain had kept a naval vessel in the Yangtze for Nanking for some time "for the purpose of giving some security to the British people for the progress of communication."

Viscount Hall said he had no information on the shelling of the British ships beyond what already has been made public.

The conservative Evening Standard editorially carried out for what purpose we have yet to learn."

The British foreign office acknowledged it had not told the Chinese Communist about the trip of the British ship Amethyst up the Yangtze before the ship was fired on by shore batteries. The foreign office repeated how (Continued on Page Four)

Plans Are Made To Launch '49 Hospital Drive

Ratigan Outlines Need Of \$25,000 To Complete Year

Plans for an intensive campaign to raise \$25,000 in order that Federal Memorial Hospital may continue operation throughout the rest of the year, were outlined at a directors meeting yesterday by Dick Ratigan, chairman of a committee for the hospital drive, which has been meeting two nights a week for the past month in an effort to plan a solution for the hospital's financial difficulties.

The plan was accepted upon motion of R. W. Ware. The starting date for the campaign is tentatively set for May 8. I. W. Lawton, president of the Association, expressed approval of the plan, and commended Mr. Ratigan and his committee for their work.

Members of the voluntary committee which met to plan the hospital drive are: Mr. Ratigan, Judge Douglas, Sgt. Strom, Edwin Stenstrom, L. J. Moughton, J. and T. E. Tucker.

Sydney J. Barnes, hospital administrator, presented such a report of the hospital, pointed out that a deficit of \$20,000 exists and that it had accumulated over a two year period.

Mr. Lawton read a letter from Randall Clinch, chairman of the Executive Committee of the Board of Directors, pointing out that it had been decided not to present a bill to the Legislature asking tax aid for the hospital, due to a State law which makes it illegal for the county or state to support any but public hospitals. If the hospital attempted to do its property in the County, it might encounter difficulties with the War Assets Administration, he stated.

This statement was confirmed by Edwin Stenstrom, attorney for the board, who pointed out that one of the chief titles of the hospital, negotiations would have to be reopened with the Federal Government.

Mr. Lawton stated that the Board had been hopeful of getting financial support from the County but due to the requirements of the State law, it was deemed not advisable to make the effort.

It could the fact be pointed out to the hospital? inquired W. A. Morrison.

Mr. Stenholm had a lot of light on this situation by pointing out that the Board Fish will had made no specific request, and that the same trustees of the estate of whom is Fred R. Ware, are scattered over the state and are difficult to contact.

Mr. Ratigan is making his (Continued on Page Four)

Blood Bank Clinic Termed Success By Sanford Lions Club

The Blood Bank clinic sponsored Monday by the Lions Club was most successful. Cliff Alder, chairman of the program, told Lions today that 100 units of blood were collected.

Twenty six volunteers appeared, and of these 21 were chosen for donation by the technicians from the Central Florida Blood Bank. The donations were given from 10:00 A. M. at the Sanford Club.

After a three months' interval donations from 12 persons will be asked, and these will assure continued adequate supplies for a time in the Seminole Blood Bank. Mr. Alder thanked Mrs. Mary Rawlings of the clinic as stating that the program was a success.

The Blood Bank Office was indicated as a Lion L. Henry Witte, who stressed the service of the club to the community, told of its ideals, and warned the new Lion against the Tail Twister, even seeking a hospital whereby a member may be fined 10 cents for being late or forgetting his pin, or other offense.

E. S. McCall asked that more managers and umpires turn out for games in the club's sponsored Junior Baseball League.

R. J. Spellman of the Florida Industrial Commission, presented a sound film, showing how workers, eligible for unemployment compensation, are benefitted and often aided in getting other work during periods of layoffs due to material shortages, damage to plants because of storms or fires, and for other reasons.

For-Get-Me-Not Sale Nets \$175 For DAV

Sale of for-get-me-nots by school students and members of the D. A. V. proved a success and the \$175 netted will be used for disabled veterans in Seminole County. Post Commander Charles Volodich reported at the meeting last night at the Legion Hut.

Gilbert Erickson, disabled veteran who was sent to Bay Pines yesterday, will be given a box of cigarettes.

All members are urged to be present at the May 5 meeting when a membership drive will be planned.
