It Can Be Done

How other cities in Florida are going after the tour ist business is revealed in the announcement of a WPA project in Lakeland contemplating the expenditure of \$35,000 for the construction of a tourist home and the apending of \$25,000 on a civic center project in Haines

It is pointed out that the completion of the tourist home in Lakeland will give that city extraordinarily complete facilities for entertaining winter guests, with bowling greens, shuffleboard, roque and tennis courts provided, all located within a few hundred feet of the new building. A swimming pool has already been built and its opening to the public is awaiting the installation of chlorinating machinery,

In Haines City the civic center project provides for lub house, grandstand, tennis courts and shuffleboard courts, installation of lights on the athletic field and lay ng out of a trailer camp and beautification of grounds.

It is not only among the towns of the so-called tourist states that we find activity for providing attractions for isitors. Many communities that have never before Ireamed of entertaining guests have become aware that the world is travel conscious, that in every section of the and forth across the river taking years making the same jaunt globe people are moving about to see some new territory. the air and enjoying the cheaging twice Heratofore obscure and forgotten communities are exert-color of the skyline New York. BECAUSE In Firestone Standard Tires -

YOU GET EXTRA PROTECTION AGAINST BLOWOUTS - eight extra pounds of rubber are added to every 100 pounds of cord by the Firestone patented Gum Dipping process. By this process every cord in every ply is saturated with liquid rubber. This counteracts internal friction and heat that ordinarily cause blowouts.

YOU GET EXTRA PROTECTION AGAINST PUNCTURES—because under the tread are two extra layers of Gum-Dipped cords.

YOU GET EXTRA PROTECTION AGAINST SKIDDING-because the tread is scientifically designed.

YOU GET LONGER NON-SKID MILEAGE because of the extra tough, long-wearing tread.

Before leaving on your vacation trip, join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Standard Tires-today's top tire value.
