

### Salvage Branch Of Army Assumes Important Role

ATLANTA, Ga., Nov. 23 — (Special)—The Army is pointing the way for conservation of strategic raw materials by the salvaging annually of millions of dollars worth of waste products, it was announced here today by Lieut. Col. William F. Ritter, supply officer on the staff of Brig. Gen. James L. Frink, fourth corps area quartermaster.

The quartermaster of each post has an officer whose duty it is to see that nothing of value is thrown away. For instance, a single division will salvage enough scrap paper in one month to fill a box car.

A recent innovation of the quartermaster corps is the reclamation of wrecked vehicles. Instead of selling the whole machine as junk, the serviceable parts are removed and sent to Motor Maintenance Districts where they are used as replacement parts. Parts that cannot be repaired are sold as scrap metal. This policy has saved taxpayers millions of dollars since

Under the critical eyes of Army ordnance officials, the "tank destroyer" is demonstrated at Arlington, Va. Designed by William Bigley of Hoboken, N. J., the destroyer is built to carry a 75 mm. cannon across country at 75 miles an hour. It is basically a metal-tread tank, powered by an airplane engine.

its inauguration. Before the first World War, salvage was almost an unknown thing in the Army. The Army was small and the expense then would have made it impracticable. When the Army was increased in size during the war it was found that junk accumulated in such large quantities that it was profitable to sell it. Since that time the salvage branch of the Quartermaster Corps has been one of its most important functions.

### Army Office Set Up In Orlando To Buy Citrus Fruits

ATLANTA, Nov. 23 — (Special)—Florida citrus fruit growers will be paid more than a million dollars by the Quartermaster Corps beginning this week when the field office recently set up in Orlando, starts making purchases of citrus fruits for use in Army posts throughout the United States.

Lt. Norman K. Brown, officer in charge of the field office, 201 First National Bank Building, Orlando, was appointed to maintain the Florida office for the convenience of growers who have oranges, limes, grapefruit, tangerines and possibly vegetables available for sale to the Army.

This is the second field office to be opened in the United States by the Quartermaster Corps. The first is in the Rio Grande Valley, in Weslaco, Tex. The majority of the Quartermaster's perishable food buying has been handled through marketing centers near the major Army posts or

### State Hotel Meeting To Start At Orlando

MIAMI, Nov. 23 — (Special)—Under the leadership of S. D. McCrary, president, Florida State Hotel Association, Florida hotel operators will hold a series of business conferences starting at Orlando on Dec. 1; St. Petersburg on Dec. 2; and Miami Beach on Dec. 4; according to an announcement released by the association's office.

"The theme for this year's business conferences," according to President McCrary, "will be advertising for 1941-42 tourist travel and equipment available to handle Florida winter visitors." The State's leading transportation officials will be in attendance at each meeting for the purpose of discussing this subject, and an opportunity will also be given to the hotel operators in attendance to discuss this subject from the floor."

## Will Electricity Be Available?

New electric lines, except to serve National Defense projects, simply can not be built. Materials must go to defense production. Check your electric service requirements with us before completing any construction plans.

Uncle Sam needs copper, steel, lead, zinc and hundreds of other materials for National Defense. Utility companies must now operate under priorities rules. Under this order—Preference Rating Order P-46, of the Office of Production Management—we are permitted to obtain only "materials required . . . either as Operating Supplies or for the Maintenance or Repair of . . . property."

This order does not permit our company to receive materials for constructing extensions of our lines beyond present service areas.

OFFICIALLY DEFINED

Preference Rating Order P-46, issued by Donald M. Nelson, Director of Priorities, OPM, defines these limitations on materials for utilities, as follows:

**"DEFINITIONS . . ."**

"Maintenance" means the up-keep of a Producer's property and equipment in sound working condition.

"Repair" means the restoration of a Producer's property and equipment to a sound working condition after wear and tear, damage, destruction of parts, or the like, have made such property or equipment unfit or unsafe for service.

"Operating Supplies" means any material which is essential to the operation of any of the industries or services specified above, and which is generally carried

in Producer's stores and charged to operating expense accounts.

"P-46" does not specifically:

"Repair" do not include Material for:

"The improvement of a Producer's property or equipment through the replacement of material which is still usable in the existing installation with material of a better kind, quality or design.

"Additions to, or expansion of, such property or equipment, other than the connection of new consumers to the general lowest pressure or lowest potential system of the Producer, and minor improvements needed to retain him serious overhead and other minor capital additions.

"Expansion of the service area of the Producer."

**FLORIDA POWER & LIGHT COMPANY**

★★★★★

**UNCLE SAM COMES FIRST!**

Our first duty is to Uncle Sam. Our next is to you, our customer. Part of that duty is to inform you of these limitations.

To safeguard you from possible disappointment and wasted expense, we suggest that you consult with us first, before you build or plan any changes in your electrical requirements. If that way you can have beforehand whether we can make the material available. In many cases we shall be permitted to do this. In others, we must wait until the priorities rules are fixed.

In this emergency, we must ask attention to our plans to clear the way for American defense.

Looking Ahead New year's resolutions... Let's start with your usual New Year's resolutions...

A Slice Of Bread

Appealing to every person in this country to heed the needs of war sufferers abroad, the Golden Rule Foundation declares that "the sum total of war relief gifts of the average American citizen since the war began has been less than one-fifth of one slice of bread per meal."

The average American citizen, the statement declared, "is making little or no real voluntary sacrifice in order to share his prosperity in meeting war hardships and sufferings of his kinsmen, neighbors and friends in Europe who are being killed or robbed, exiled and impoverished by blitzkrieg invasion for which they are no more responsible than we are."

Charles V. Vickery, president of the Foundation, from headquarters at 60 East Forty-second street, New York, in formulating the organization's plea in the interest of all war relief philanthropies, said: "Our nation by a wide margin, is the richest nation in the world."

"Our national income for the current fiscal year is estimated at ninety-five billions (\$95,000,000,000) of dollars. "This is an increase of nearly twenty billion (\$20,000,000,000) or more than 25 percent over the previous year and 15 percent above the highest peak in world history."

"We control the world's gold supply and dominate the world's markets. "We are free from bombs and invasion whether by air, land or sea. "Our food is unrationed. "Our freedom of religion, press, speech and assembly are unreticulated."

"We have comparatively little unemployment, and although a million and more of our men have been mobilized, there has been no wholesale sacrifice of life in line of battle as in our sister nations. "Our present material prosperity is in some measure due to the misfortune of our kinsmen, neighbors, friends and allies in other countries."

"It is our lot as yet to be on the manufacturing and sending, rather than on the receiving end of shot and shell. "The impressive sum of ninety-one million dollars (\$91,000,000) during a period of more than two years was recently announced as the total of war relief gifts from American citizens. But boiled down to a realistic fraction, the sum total of gifts of the average American citizen since the war began, has been less than one-fifth of one slice of bread per meal."

"The increase of our expenditures for distilled liquors alone, or the increase on cigarettes alone, or the expenditures for cosmetics and for many other items of luxury, would each, independent of the others, amount to more than our total gifts for all war relief ministries through all voluntary relief channels. "Our kinsmen in Europe and the lands to which we are indebted for our ancestry, our religions, our languages, literature, music, arts and civilization are giving their lives as well as their freedoms in defense of our borders and our freedoms."

"Any full sense of gratitude and Christian, Jewish or human brotherhood would lead us to make voluntary gifts from our luxuries more nearly commensurate with their life and death sacrifices for our freedoms and world democracy."

Progress Of Science

"Science is freeing man from drudgery," writes Dr. Karl T. Compton, president of Massachusetts Institute of Technology, in the current Rotarian magazine. "In the political sense also, science has contributed to liberty—Science has likewise contributed to liberty of thought—But does science add to man's happiness?"

In answer to his own question, Dr. Compton points out that obviously, science has added superficial things—movies, radio, automobiles, but it has complicated many of the other things that make for the complex state of affairs that we call "happiness."

Yet the combinations of new technologies and discoveries are, one by one, removing the bars to the greater happiness. Science is not only giving us more things to enjoy, it is giving us more time to enjoy the have-nots. Synthetic processes are replacing raw materials with commonly found and widely distributed things.

With all our progress, we have only started, Dr. Compton assures us, and in that lies the hope of the future. "In face of a devastating war and an impoverished world following it, science offers us a proved means of creating new wealth and international stability."

Authorities Make Survey Of Housing In Blanding Area

CAMP BLANDING, Nov. 29.—(Special)—Authorities here, seeking to combat excessive rent now being paid by personnel within 50 miles of the reservation, have launched a survey designed to reach each person affected so that recommendations may be made to the War Department.

The results of this survey will be used as a basis for a War Department request to the Defense Housing Authority for construction of emergency housing facilities in the immediate camp area, thereby making payment of unusually high rents in distant places unnecessary and bringing all personnel closer to their work.

Army authorities have made efforts to have rents reduced in various localities to normal levels so, not succeeding in effecting this completely, the housing plan has been resorted to. It is the plan of the Defense Housing Authority after the present emergency to salvage this housing and rebuild it in those rural and farm areas where adequate housing is not now available.

Counsel Accuses Would-be Railroad Strikers Of Stubborn Insistence

WASHINGTON, Nov. 29.—(AP)—Counsel for the railroads of the country accused railroad labor of "blind and stubborn insistence" upon substitution of its views "for those of a governmental board."

(Continued From Page One) about a nation free from tuberculosis. "Victory can be won if the American public will be as generous in the less spectacular future ahead, when there will be less and less tuberculosis, as it has been in the dramatic past, when the disease killed members in almost every home."

"Your gift will further the cause of health, hasten the approach of the day when this communicable disease no longer will threaten your home. It will weaken the hold of tuberculosis on our people and strengthen the forces of defense."

"The double-barred cross of the anti-tuberculosis Christmas Seal Campaign and the American red cross are not the same," Mrs. Minnie Wild. "In 1920, by mutual agreement, the alliance made several years earlier between the American Red Cross and the National Tuberculosis Association was dissolved."

### 15 Cage Artists Report For First Stetson Practice

DELAND, Nov. 29.—(Special) Prospects for Stetson University's participation in the 1942 basketball season as an independent squad took on assumed concrete proportions here as 15 powerful cage artists turned out for Coach Brady Cowell's initial pre-season practice session.

The quartet of returning upperclassmen who are out for berths on the 1942 independent team are Jimmy Golden, Leesburg; Bob Barnes and Frank Poltz, Jacksonville; and Carl Puriz, Sarasota. Last year Poltz held down the center position, while Barnes and Puriz played forward and Golden achieved recognition at guard.

### Florida Facts

There are certain facts about Florida which many of the people of this state are not acquainted. A review of these facts is interesting in that it includes many things which you MAY not have known in the past. The review also includes numerous compilations which are already familiar to you.

The governor of Florida, for the 1940-1944 term, is Spessard Lindsey Holland. Members of the state cabinet are Nathan J. Mayo, commissioner of agriculture; James M. Lee, comptroller; Robert A. Gray, secretary of state; Tom Watson, attorney general; Colin English, superintendent of public instruction; and J. Edwin Larson, treasurer. The State Supreme Court consists of Armated H. Brown, Chief Justice, and Associate Justices Glenn Terrell, Elywn Thomas, James Bryant Whitfield, Rivers Buford, Alto H. Adams, and Roy H. Chapman; while the State Railroad Commission is composed of W. B. Douglass, Eugene Matthews, and Jerry W. Carter.

The Florida delegation in Washington is comprised of Senators Charles O. Andrews of Orlando and Claude D. Pepper of Tallahassee as well as Representatives J. Hardin Peterson of Lakeland, Robert A. "Lex" Green of Starke, Robert F. Sikes of Crestview, A. Patrick Cannon of Miami, and Joe Hendricks of DeLand. In the 1942 congressional elections, Florida will elect a congressman-at-large owing to the fact that the 1940 census showed that Florida was entitled to another seat in the House of Representatives.

The first elected governor of Florida was William D. Moseley; the only two-term governor was William D. Bloxham; the only black governor was Albert W. Gilchrist. Counties named for governors are Duval (William P. Duval), Broward (Napoleon B. Broward), Hardee (Cary A. Hardee), Martin (John W. Martin), and Gilchrist (Albert B. Gilchrist).

Florida's capital is situated at Tallahassee, in Leon County. The state motto is "In God We Trust" while the state flower is the orange blossom, and the state bird is the mockingbird. The orange blossom, designated by a legislative resolution in 1935, is "Sawannee River" by Stephen Foster.

Added facts show that Collier County is the largest political division according to area, and that Union County is the smallest county according to the square miles area. Florida ranks second in size for the states east of the Mississippi River according to area. The oldest city in the United States, St. Augustine, is located in St. Johns County.

Many fine schools of higher education are found in this "Land of Sunshine." They include the two state universities—the University of Florida at Gainesville and the Florida State College for Women at Tallahassee—and the privately endowed institutions—University of Miami, Miami University, Tampa University, Stetson University, DeLand College, Winter Park; Southern College, Lakeland and Webber College, Babson Park.

Noted scenic spots and points of interest include the following: Key West, "city at the end of highway leading to the sea"; Pensacola, location of Naval Air Station and Annapolis of the Air; Camp Blanding, gigantic Army camp near Starke; Jacksonville, Florida's largest city and site of a huge new air training school; Miami, "The Magic City" and Florida's second largest city; Tampa, home of the Old Field, Army air base, and hundreds of cigar factories; Bok Tower, the "Taj Mahal of America" at Lake Wales; Daytona Beach, "world's finest beach"; Silver Springs at Ocala; the "Big Tree" near Sanford; and the Everglades vast swamps in Southern Florida; and the spectacular sections.

### Gymnastics Close Successful Year

By Florence Wells  
 Gymnastics gave their last performance Friday night, Nov. 21, at the Sanford-New Smyrna. This was a brilliant performance and possibly the last that will be given here.

On Friday morning, one of our friends, Mrs. E. D. Brevint, talked to us on a very interesting subject. She drew pictures to illustrate her talk. She told us to have kind eyes, kind mouths, kind ears and find good things in other people.

Several new pupils have come to our school. They are June Davis, Catherine Lee, Diane Johnson, Gertrude Fraser, Mary Hatcher, Billy Moore and Raymond Lindner.

"We thank the Heavenly Father, for sunshine and for rain, for birds and flowers of spring, for autumn's golden grain."

### Industrial Arts Prove Successful

By William Spier  
 The Industrial Arts Club is engaged in making some very interesting articles out of material that would otherwise be trash.

One group of students is working on a barrel chair which, when finished, will be a credit to the entire class. This chair is made outside with maul and chisel on the inside with slacking filled with dried moss.

The weaving for the chair will be done on a loom which will be made with almost any material. Another feature of this chair is that the slacking is a woven web. The slacking is a woven web which is made on a loom.

### Girls Want Equal Sports Rights At School

By Margaret Duncanson Keyes  
 Several years ago the girls' inter-scholastic sports of Seminole High were discontinued for no apparent reason—merely a meeting was called and this was decided.

The various other schools in the state have inter-scholastic sports and find it satisfactory. The Girls Tennis Club of this school have also met opposing out of town teams with no friction. The girls met and mingled with many types of girls and made friendships that today are fast.

Seminole High boys are allowed this pleasure and surely the girls, the prettier sex, can have inter-school sports with quite as much success.

Some of the present S. H. S. teachers remember when, as students here they were allowed this privilege, and the few that have given an opinion express the wish that the present girls may enjoy inter-scholastic sports, if and when the custom is taken up again at this late date.

### Vocational School

By Betty Caldwell  
 When we came back to school Monday, we found that our rooms had been changed. In place of our typing room we now have the English class, and where we had our English class we now have typing. This is much more convenient for Miss Melch, because she now has no interruptions in her dictation classes.

The pupils in the "senior" class are all working toward a certificate. They either can be Secretarial or a Bookkeeping Certificate. Sometimes soon the senior class is going to elect officers, after they get fully organized.

Miss Melch had forbidden the eating of candy and chewing of gum during typing period. One day she became suspicious of a lump in Merrit Slater's chest. "Merrit, are you eating candy or chewing gum?" she asked. "No," replied Merrit. "I'm just soaking a prune to eat at lunch."

In our office practice class we are now learning to apply for a job in the correct way. We are also practicing for a play which we are going to give soon.

The following students are going to be out of town for the Thanksgiving holidays:

Mrs. Freeman, Tampa or to the Merrit Slater, Georgia; Mrs. Carrer, "the woods"; Mrs. Patterson, Deland; Mrs. Wallace, Indian River City; Mrs. Maxwell, Maitland; Miss Melch will be on "retiring" at home; and Betty Colbert, Lakeland. We hope that everyone will have a happy Thanksgiving!

Rebecca: "My brother is playing hockey from correspondence school."

Myra: "How does he do that?"

Rebecca: "He mails them empty envelopes."

### SOUTH SIDE NEWS

For the past two weeks, we have been thinking of the arrangements in Jacksonville and nearby every child in the school has contributed something to their happiness at this Thanksgiving season.

On Friday morning, one of our friends, Mrs. E. D. Brevint, talked to us on a very interesting subject. She drew pictures to illustrate her talk. She told us to have kind eyes, kind mouths, kind ears and find good things in other people.

Several new pupils have come to our school. They are June Davis, Catherine Lee, Diane Johnson, Gertrude Fraser, Mary Hatcher, Billy Moore and Raymond Lindner.

### OVIEDO

The Oviedo Future Farmers Club had a regular meeting Monday night, Nov. 18th. The speaker was Mr. A. B. Brown, who gave a very interesting talk on the importance of the club. The meeting was very successful and the club members were very happy.

### Students Of Three Local Schools Give Program At Seminole High

By Herman Middleton  
 Two songs, "The Lord is My Shepherd" and "Brahm's Lullaby," by the West Side Primary Club, under the direction of Miss Dorothy Stokes, opened the regular school program at Seminole High School last Thursday November 20. An Ensemble from the Ules Club also sang, "Playmates" and "The Monkey Song." The members of this Ules Club are an individual: Richard Hall, Ann Baber, Janice Reed, Carole David, Evelyn Jones, Johnny Mae Jones, Luther David, Jimmie Smith, Mildred Ervin, and Shirley Ervin.

Also: Mary Ellen Lossing, Mildred Baber, Eugene Barlow, Tommy Methrin, Doris Waller, Elizabeth Ann White, Sonny Lodge, Joseph Ervise, and Betty Jean Prescott.

Mrs. George Maffet, who was in charge of the first half of this program, was introduced by Miss Dorothy Sanford. Mrs. Maffet, who is a local expression teacher, continued her program by presenting eight of her expression pupils, who are in the first, second, and third grades. The complete program was as follows:

- "Different Viewpoints", by Dorothy Harrell
- "The Wandering Child", by Joyce Anderson
- "Where It Hurts", by Sally Margaret Miller
- "Growing", by Betty Jean Prescott

### Junior Hi School Notes

By George Spenser  
 The following one-act plays will be presented at the Junior High auditorium, Friday, Dec. 5, at 2:00 P. M. and 8:00 P. M.

The scene in "Spring of the Red," is in the living room of the Johnson home. Walter Johnson, a 12-year-old boy is being punished by his mother because he went swimming without permission. Walter has to sit in a chair until the arrival of his father. Walter's mother wants her husband to spank Walter. So she goes to the kitchen and gets a large yellow rubber hose and beats Walter with both ends and gets much to the attractiveness of their attire.

Harold Hall was sporting an attractive tie which he won at a dance. Strolling not far away was Charlie Part wearing a leather jacket and trying to keep one eye on his two little brothers and the other eye on the game.

Clipped the best dressed boy in the senior class: Philip Kruse, was seen at the game wearing his new Fall tweed suit.

We noticed Ethel McDaniel, a new student from Baltimore, Md., wearing a green dress and demonstrating her fine school spirit.

Delphine Harty, Karlina's admirer, was cheering with all his might in a black sweater and a patriotic tie.

Our mascot, Miss Edna, was cheering in a black redingote with a large pearl necklace and earrings. Pacing up and down in front of the stands were the three teachers responsible for the great performance of the band and Celeryette—looking as attractive as ever was Miss Marie in an aqua wool suit; Miss Takess was professed in a green skirt and yellow peasant blouse and Miss Bradford over so cute in a blue suit with real milk teeth at the neck.

A group of boys from Junior High School, watching the football reporter, looked on as they waited to be admitted so we noticed that Harry Smiley, E. C. Harper, Kelly Smith, Ward Kirby and Davis McArthur were all wearing sport clothes.

During the game we noticed that the game was very exciting and we were very happy to see the boys play so well.

### GRAMMAR SCHOOL Notes

By Adelaide Richter  
 At the Grammar School we are very busy practicing for our assembly which we are going to give on Dec. 11 and 12.

In it we have such interesting groups of performers as color bearers who are dressed in Christmas colors and the Prima and Trina who are introducing a boisterous "ballad" by "The Bath-tub rovers are a comical group in off sized gift robes. Christmas performs comes in for its bit of notice when the perfume bottles give forth with catches and verses. We have Christmas songs, room makers, neckties, tallcoats and other miscent gifts. Shoppers and Christmas rush scenes are introduced in to complete the Christmas scene.

As cherry cherubs we have two boys, Jack Ludwig and Frank Melch, Jolly Johnny is Spencer Harlan and Francis Temple. Five and Betty are Judy, neighbor children; Emma Jane Schenck and Thelma Reynolds; Tom Baxter, neighbor boy; Dan Barton; Miss Neukirk; Dr. Gordon; the minister; Charles Cleveland; Eugene children; Charles and Joyce English brother and sister; Betty Jean Willie and Jimmie Ludwig; Jeannette French—Mary Essie; Jenny, the colored maid—Mary Elizabeth Caldwell.

Time—Thanksgiving. Place—The comfortable home of the three old maid sisters. Select—Annie Alker, "My Sister and I". Announcer—Billie Lambert.

Parents attending the program were: Mrs. W. H. Shingleary, Mrs. Frank W. Hall, Mrs. N. F. Caldwell, Mrs. H. L. Jones, Mrs. E. M. Wadman, Mrs. G. E. White, Mrs. John Lewis and Mrs. J. A. Yarr.

### S.H.S. SOCIETY

By Patsy Hoops  
 Homecoming! We won the game and everybody looked well especially the sponsors. All eyes were on Florence Wells, in a black silk dress with red and gold draped across the bodice. Becoming teal blue suit and hat. As Ella Kirby came down the field everyone noticed her chic appearance in a navy blue wool suit and a matching brocade hat. Accompanying her was Howard Boteiler who never looked more handsome than when he wore a navy blue suit and hat. The large yellow rubber hose and beats Walter with both ends and gets much to the attractiveness of their attire.

### WHY PEOPLE GO TO LONDON

By Mena Ruth Hill  
 London is the largest city in the world. This city has more than 8,000,000. The Thames River has made London a very large seaport. Many people visit this city to study art or music and to see its famous gardens, cathedrals, galleries, London Bridge, London Tower and Westminster Abbey. The King and Queen live there too. Every morning there are huge crowds of people outside Buckingham Palace hoping to get a glimpse of the King.

The most famous garden in Kensington Gardens. Children love to go there to see Peter Pan's statue. The school children of London loved Peter Pan's story of Peter Pan to much that they gave their pennies to have a statue of Peter Pan made.

Westminster Abbey is a very interesting place. The choir in which for 800 years the Kings of England have been crowned is there in the east of the choir there is a rock which James used as a pillow when he dreamt of the land.

The Tower of London is another interesting place. There is little interesting story about this place which were kept prisoners in this tower and later they were executed to death by a cruel man who wanted the throne.

### GIRLS CLUB

By Helen Bates  
 The Girls Club went to the Big Tree in Longwood Friday, Nov. 21, for the 16th of counting Miss Hatcher and Miss Caldwell who took us there. We each carried a lunch and had a very nice time.

There had never been the Thanksgiving dinner at the Big Tree and we were very happy to see the boys play so well.

### Thespians Elect Officers For School Year

By Lois Caldwell  
 A meeting of the Thespian Club members and twenty five enthusiastic new members was presided over by Mack Cleveland at the home of Lois Caldwell, Nov. 18.

Officers for the coming semester were elected and they are as follows: President, Mack Cleveland; vice president, Kenneth Eckel; secretary, Patsy Hoops; treasurer, David Gatchel; clerk, Martha Wright.

Miss Betty Buchanan explained that the new members would be in the dramatic club until they had gained the points necessary to be Thespians.

Patsy Hoops gave the aims and purpose of the Thespians, after which the history of the local troupe was given by David Gatchel. Then membership requirements were explained by Herbert Moreland and Miss Buchanan told of the plans for this year.

It was decided that the club would have a whole page in the Seminole—half for the Thespians and half for the Dramatic Club.

Dues for the semester were set at 25 cents.

A motion was made and carried that the club be limited to 60 members and if any member should miss two consecutive meetings without an excuse he will be dropped. The meeting was then adjourned.

Thespians at the meeting were as follows:

Helen Hutchison, Orien Farrell, Mary Wright, Bill Brown, Mack Cleveland, Herbert Brown, Kenny Eckel, Lucille Hill, Patsy Hoops, David Gatchel, Sherwood Jacobson, Jack Herring, New members were: Lois Caldwell, Kirby Pitt, Larry Hodge, Billy Brunner, Billy Hillybrand, Philip Krensen, Jane Thielen, Shirley Kiek, Martha Perkins, Louise Nordgren, Audrey Bath, Martha Page, Betty Wilkinson, Betty King, Lucy Ward, Catherine Clark, Minnie Ruth Odham, Anne Stue, Alma Grantham, Kathleen Bryant, Jean Whigham, Paula McCalland, Shirley Smith, Guine McCalland and Eva Jo Kennedy.

### West Side Primary

Wednesday morning at 11:00 o'clock the second grade pupils presented a play "The Thanksgiving Story." The following children took part: Tommy Wilkinson, Jean Ericson, Walter Zenth, Mary Lee, Evelyn Jones, Eugene Barlow, Conale Ludwig, Bob John, Mildred Lee, Shirley Ervin, Ray Thomas, Sally Margaret Miller, Dick Butler, Harold Stempel, Louise Naugher, Dorothy Harrell, John Rivers, Pennie Hardy, Jacqueline Harris, Doris Cole, and Mena Ruth Hill.

First Graders presenting "The First Thanksgiving" who were girls are as follows: Janice Reed, Ann Baber, Carolyn Stanley, Irene White, Harry Wilkeson, Ray Thomas, Sally Margaret Miller, Dick Butler, Harold Stempel, Louise Naugher, Dorothy Harrell, John Rivers, Pennie Hardy, Jacqueline Harris, Doris Cole, and Mena Ruth Hill.

The 16:15 was collected for the Oviedo Home in Jacksonville. The Thanksgiving offering for the Oviedo Home in Jacksonville. The children of West Side have really learned the true meaning of Thanksgiving—to help others. Each of this money was the contribution of the children's own money.

We regret very much that Mr. Freeman on Friday, in ill. Mr. Cleveland is now better.

We have a new pupil in the first grade, Mrs. H. B. Hill, the little son of Mrs. Hill.

Miss Hatcher is being taken in the drive for the Oviedo Home in Jacksonville.

### SEMINOLE HIGH SCHOOL LIBRARY NOTES

The Junior Guild selections for November is a most interesting one to both boys and girls. The girls' selection is "Home Handicraft for Girls" by Ruth M. Hall and A. Wooly Hall. It is a guide book for girls in a game plan for their homes and how to make and operate marionettes and to build a stage for them. There are directions for drawing, coloring, and for making their own rooms with lovely, original accessories and for making clever dolls from soda and milk cans that are fun to have appearing on their beds. They will find chapters on photography and gardening and games.

The authors of the book father and daughter, Mrs. E. H. Emlinger, III, where their work with crafts and books have made them authorities in this field.

"How of the Sucky Sea," by Neustadt is the selection for boys and they are sure to enjoy the biography of Neustadt's mother, who is known as Queen Oliver when he grows in the country.

The dramatic struggle of the old Indians with the white man, a strange new life in an American colony, and the battle to do justice for the Indians, are the main theme of "The Story of the Seminole War" by A. P. Marshall.

"The Story of the Seminole War" by A. P. Marshall is a most interesting and instructive book. It tells of the brave fight of the Seminole Indians against the white man's army. It is a story of courage and heroism, and it is a story that should be read by all who are interested in the history of Florida.

## German Caucasus Oilfield Campaign Apparently Ended

Since Recapture Of Rostov By Reds, Nazis Retreating Toward Mariupol

### Admit Superior Russian Strength

### 35 Villages Retaken In Fierce Counter-Attacks In Sector

BERLIN, Dec. 1.—(AP)—German soldiers in advance units battling toward the Russian capital now "can be maneuvered with the aid of good field glasses," a Nazi military spokesman asserted today.

The spokesman did not say on what part of the driving Moscow front the advance had been made.

(By Associated Press) The Russian recapture of Rostov, gateway to the Caucasus oilfields, apparently ended Nazi hopes of an immediate campaign into the Caucasus, and the Russians also reported that Germans were fleeing westward toward Mariupol before the reinforced Red army.

Before Moscow, the Russians claimed recapture of 35 villages and towns in fierce counter-attacks. The Germans admitted superior Russian strength in the Rostov sector.

The Germans also acknowledged recapture from R. A. P. units in the Rostov sector, and claimed that British bombers were downed.

Far to the south the Red Army was reported to have captured Mariupol before they took from the Caucasus approaches in a battle which sent the German commander there, Field Marshal von Kluge, fleeing to Mariupol on the shore of the Sea of Azov.

The only German answer to the Red victory claims in the Rostov-Donets basin region was that the language of attacking Russian troops was reaching "fantastic proportions."

In the Russian defense of the vital Soviet Caucasus oil supplies, German dispatches described waves after waves of Red crawling into the Nazi lines pushing up almost unopposed fire.

But the Moscow radio said these waves had hurled the Germans from Rostov clear back to Taganrog, 40 miles to the west which the Germans took six weeks ago.

## Seven Permits Issued At City Hall Last Week

Among the seven permits issued at the City Hall last week were two to re-roof buildings. The Temple Beth Israel will contract F. M. English to re-roof a synagogue on Sixteenth Street. Arnsbach Tabor has contracted F. M. English to re-roof her dwelling located on Eleventh Street between Park and Oak Avenues.

Lulu Price was issued a permit to contract Henry Williams to make repairs on her dwelling on Third Street and W. E. Kirshoff secured permission to repair a wash house on Cedar Avenue.

Annade Hart will contract George Martin to tear down and rebuild a three-room house on West Seventeenth Street and George Peterson will erect a garage on Sixteenth Street.

Frank Bower secured permission to erect an eleven-room apartment house on the corner of First and Second Streets.

W. S. Barry has had only one permit issued and destroyed by the city.

## Newsman Captured

One of the two American newspaper correspondents captured by Axis forces in Libya, Geoffrey Anderson, presumably will be brought to Rome and released after a short time, according to report. Anderson was with the advance British forces when captured.

## Students Who Have Jobs Required To Get Certificates

School children between the ages of 16 and 18 must have a certificate from the State Labor Board in order to accept either full or part-time jobs according to information received by T. W. Lewiston, county school supervisor.

This rule also will affect students now working. All will have to sign certificates at Mr. Lewiston's office. At present there are five temporary forms to be filled out. They are certificates of age for minors, health certificate, school record, statement of need by parent or guardian, and record of documentary evidence of age.

Complete information on the rule has not been obtained. Mr. Lewiston added, The State Board is working in Tallahassee now and more information on the various conditions of the law is expected soon.

The main purpose of the rule is to prevent children from quitting school to work unless it is absolutely necessary.

## Building In South Records Big Gain

BALTIMORE, Dec. 1.—(AP)—Southern construction for the first 11 months of 1941 is valued at \$1,731,146,000, the largest total ever recorded for such activity in the area below the Mason and Dixon Line, the Manufacturers Record reported Sunday.

Large portions of these expenditures were used directly in development of Southern industry, and mass migrations of workers have taxed the facilities of many towns and small cities in the South, the publication added.

## British Are In Position To Halt foe

### English Troops Have Marched 300 Miles To Gulf Of Sirtre From Egypt Coast

LONDON, Dec. 1.—(AP)—Arrival in Britain of the first group of British tank units from the United States, was announced today by Canada.

By Associated Press—British Cairo Headquarters today announced the advance into Libya has carried 300 miles from the Egyptian border to the Gulf of Sirtre, south of Benghazi, placing the British in position to cut off the westward retreat of Axis troops trapped to the east in Libya.

The British have widened their corridor into Tobruk to 10 miles and have separated the two main remnants of German General Erwin Rommel's two battered armored divisions engaged in the battle for Libya.

One Nazi division, the 15th, last night was southwest of the corridor with British tanks pressing in from the south. These Germans were reported trying desperately to break westward through the British trap.

The most confident British communique in the 13-day-old battle declared that Imperial forces had thrust to the Gulf of Sirtre beyond Benghazi, seizing across the last supply line for the main desert battle.

British sources indicated Axis resistance was crumbling and that the final phase of a fierce desert tank struggle may be near at hand.

### American Pilots And Planes Will Defend Burma Road Against Japanese

MANILA, Dec. 1.—(AP)—In near future the vital Burma Road supplying China will be defended from Japanese attack by an All-American air unit composed of American planes flown by American pilots under the Chinese flag, it was disclosed here today.

All personnel of the force are listed officially as members of the Chinese Air Force. The majority of the men already serving in this unique branch of Chungking government's air force are former regular members of the U. S. Army and Navy.

There are more than 100 of these veteran service pilots. Officers and enlisted men were permitted to leave the United States armed forces for the China.

## Sergeant Vickery Joins Army Class

FORT BENNING, Ga., Dec. 1.—(Special)—Start of the officer candidate class here at arrival of Sgt. Philip M. Vickery as a member of that class was announced today by Lt. Col. R. E. Courway, commanding officer of the Candidate Battalion.

The officer candidate course is under the supervision of the Infantry School, and is the first of its kind in 23 years, estimated to offer opportunity to rise from the ranks.

Candidates are selected on the basis of leadership ability, taken from army clubs and organizations. Successful completion of the rigorous three-month course results in commissions as Second Lieutenants of Infantry.

The new candidate is the son of Mrs. Lillian Vickery, 208 West Third St., Sanford. He entered the army in Nov. 1940 as a National Guardsman and was formerly with the 124th Infantry.

## Winter Visitors From Numerous States Arrive For Tourist Season

Winter visitors have begun to arrive in Seminole County from New Hampshire, Massachusetts, New York, North Carolina, Washington, D. C., Virginia, Georgia, Tennessee and Pennsylvania, Mrs. Mayne Hodgkin, recreation director, stated today.

## Rotarians Hear Address On Guns From Byrd Goode

Demonstrating guns from the earliest muzzle-loaders to the most modern machine guns, Byrd Goode, president of the Seminole Gun Club and a former instructor of the New York police force, told the Rotarians today that accurate shooting depends upon the trigger squeeze and advised holding the thumb against the latch so as to counteract the pressure of the trigger finger.

Mr. Goode also paid high tribute to Chief Roy Williams and the Sanford Police Department for their courage in protecting the public against criminals and for their efficiency in maintaining a modern and well equipped law enforcement department.

In view of his wide knowledge of foreign affairs Dean Lambert's remarks are expected to deal with the present European and Far Eastern conflicts, pointing out how they directly and indirectly affect the American way of life, as well as how, in his opinion, our economic structure will be changed.

## Seminole County Has 120 Active Cases of T. B.

Florida has over 10,000 active cases of tuberculosis and Seminole County has 120 active cases, Mrs. Volie Williams, president of the local association, stated this morning in making an appeal for co-operation from the area during this year's seal sale which began Nov. 24.

Mrs. Williams continued by stating that the number of deaths caused by the disease reported from the county last year. The total number of deaths from tuberculosis was 12 and the report estimated that there are ten active cases to each death.

The sale of Christmas seals is the only means the Tuberculosis Association has of collecting money, Mrs. J. L. Ingley, chairman of the sale, pointed out and the proceeds of the sale are used to discover tuberculosis cases in the first stages, that is early enough to be able to cure the patients.
