Speaking of flood control, Mr. Higgins said that Sanford is included, in an overall federal flood control project for the entire state of Florida which is expected to cost in the neighborhood of \$208,000,000, the first phase of which has already been started in South Florida. The upper St. Johns-Kissimmee River phase will come in the latter part of the project and may not be completed for some time, Mr. Higgins said.

He said "The rank and file of American labor wants unification of the American labor movement."

"Unity has not been possible by reason of the lack of wisdom or unbending attitude of American labor leaders," he said. The responsibility is on those

Monkeys Greet Little Kitten

Visitors at the Fanford Zoo last Wednesday had a delightful time watching the antics of the monkeys as they greeted a small kitten, which in an unknown manner appeared on Monkey Island and was permitted to remain throughout the day by Zoo Keeper Sid RiChard. The monkeys took kindly to the kitten, petted it, searched it for fleas and playfully pulled its fail. The kitten, in turn, appeared to be perfectly at home and pleased with all this attention. It had to be removed, however, due to the fact that it had brought along too many fleas and had the moneys all scratching.
