HIGHLAND PARK

Sanford's most beautiful and exclusive residential development

HIGH AND DRY, CLOSE IN, HIGHLY RESTRICTED. ARTISTIC, UNIQUE, DISTINCTIVE, DIFFERENT-IN: A CLASS BY ITSELF. ALL CITY UTILITIES ALREADY IN-SEWERS, WATER, GAS-ALL THE PAVING ALREADY CONTRACTED FOR.

In beauty of design and the harmonious and artistic lines along which its development is being worked out there is nothing in or near to Sanford to be compared to Highland Park, and nothing better anywhere. It is developmental seats and some of them-a statue or a fountain. And the larger parks I am working on will be "honest to goodness" parks, not just vacant spaces. Drive out Frank, and nothing better anywhere. It is the graden and on the surface of the pool from the lilies growing there, and in a year or two the flame vines and the Thunbergias and the white and yellow Jasamines, all sufficiently and the pool, and soon the out Frank Avenue and into the growing for Nature to do her work.

The great main entrance and the big fountain just inside, both of which are nearing completion, and the beautiful Spanish Summer House shown in a recent issue of The Herald, are the main features of the social and recreational center, with club house, courts for tennis, rogal And along all the drives the planting will be under the direction of one mind, with all its artistic effects worked out in harmony and beauty.

Teachers 'Exams' Now In Progress

Examinations for State Life and Professional Teachers Certificates are being held today at the San-ford High School under the supervision of County Superintendent of Public Instruction T. W. Lawten, who is conducting the examinations in accordance with the state rules as given ou thy W. S. Cawthon, state superintendent.
Mr. Lawton stated this morning that 15 men and women were in the city today from other towns in the county taking the exams and that

more were expected tomorrow and Saturday, both days being desig-nated for the work.

The examinations for colored teachers are being held at the Sanford colored school.

DRUID PAR

Those who are most enthusiastic about the beauty and the matchless potentialities of Druid Park, are the persons who have accepted our invitation to visit the property. To see its rare natural beauty-its proximity to the recreational, social and commercial activities of the city—the easy accessibility to important centers of the state, and the most impressive of all is to see the great activity and development that is taking place in the entire territory surrounding Druid Park.

Everything reflects the spirit of New Florida, and a new city—to see all the things, is to be impressed with the fact that here is a development that represents the best Florida has to offer, as a homesite, as an investment.

Now Is The Time

Sanford has recently received much valuable advertising throughout the state as a result of the Central Florida Open Golf Tournament. Detailed stories of the various matches were carried in all the papers in Florida and no doubt many persons will come to Sanford because of the interest arous-ed by these articles. This is the kind of advertising which

ed by these articles. This is the kind of advertising which cannot be bought and it is advertising which is priceless in aiding a city's growth.

There is however a kind of advertising which can be bought and which is as effective in definitely putting a town on the map and helping it to stay there. That is the display advertising of the larger newspapers of Florida's larger cities. Sanford has done some of this but Sanford should do more.

Miami spent hendreds of thousands of dollars advertising its beauties, sports and climate before many of those dollars importance.

St. Petersburg too and other Florida cities have become nationally famous and are the winter haven of thousands of northern people simply because their citizens had the keenness of intellect to see the value of printer's ink and white space: What the people wanted was there but they did not come until they knew about it. As soon as they learned of the ideal living conditions of those places they flocked there in droves.

It is almost certain that in most of these cities there are many persons more or less dissatisfied with conditions as they find them there. Some Questions Answered

About Florida Power & Light Co. Cumulative Preferred Stock

What Is Preferred Stock?

A share of Preferred Stock represents a part ownership in the Company's business. It has certain rights over other classes of stock. For instance, its dividends must be paid before any dividend is paid on the common or other classes of stock. It also has preference as to the Company's assets.

What does "Cumulative" Mean?Cumulative refers to the dividends and means that all dividends due on
the stock from the time it is issued must be paid before any dividends are paid on the common stock or other classes of stock.

The cumulative feature is an important safeguard for Preferred Stockholders.

What are Dividends?

Money paid to Stockholders out of a Company's earnings is called dividends.

Are Dividends Guaranteed?

No. No Company honestly conducted can guarantee its dividends because any such so-called "guarantee' must rest upon the earning power of the Company itself, and who can guarantee that? But this Company does guarantee to pay quarterly dividends at the present rate on its Preferred Stock before paying any dividends on its common stock or other classes of stock.

...Will the Preferred Stock ever pay bigger dividends?... No. The dividend rate is always fixed in high grade investments of this kind because of the safeguards around the issue—such as being Preferred, Cumulative, etc.

If, for Some Unforeseen Reason, a Dividend is Not Paid

What Happens?

The dividends on this Stock are CUMULATIVE. This means that if one or more dividends are not paid when due, they must later be paid in full before any dividends on the common stock are paid.

Many stocks are NOT cumulative but this Company's Preferred Stock has that special safeguard.

When are dividends paid on this Stock?

Dividend check are mailed to stockholders every three months on January 1, April 1, July 1, and October 1.

How do I know that the Company will treat me fairly as a Stockholder?

Your knowledge of the standing and character of the Company should dispel any doubts on this score. The Company wants you as a partner primarily to increase the public friendship and goodwill which it enjoys. What could it gain by securing a large list of local shareholders and then not respecting their rights?

What are you going to do with the money from the sale of Stock?

Large sums of money are required each year for the purchase of equipment to meet the growing demand for service. This requires the permanent investment of large sums of money, which must come from the sale of securities.

Where Can I Sell My Stock in case I need the money?

Any representative of the Company will be glad to put you in touch with the proper Company official, who will assist you in selling your stock. The Company maintains a resale department at its offices for the benefit of local stockholders who may wish to sell their shares.

If location-character of land-quality of improvements-accessibility and value are the outstanding features you investigate before you buy a property either for a home site or an investment-look the map of Sanford of ten years ago-five years ago-two years ago-and of today squarely in the face. All indications point to the Eastern section as the goal to which Sanford is expanding-and a careful investigation of the fine properties in this section will single out

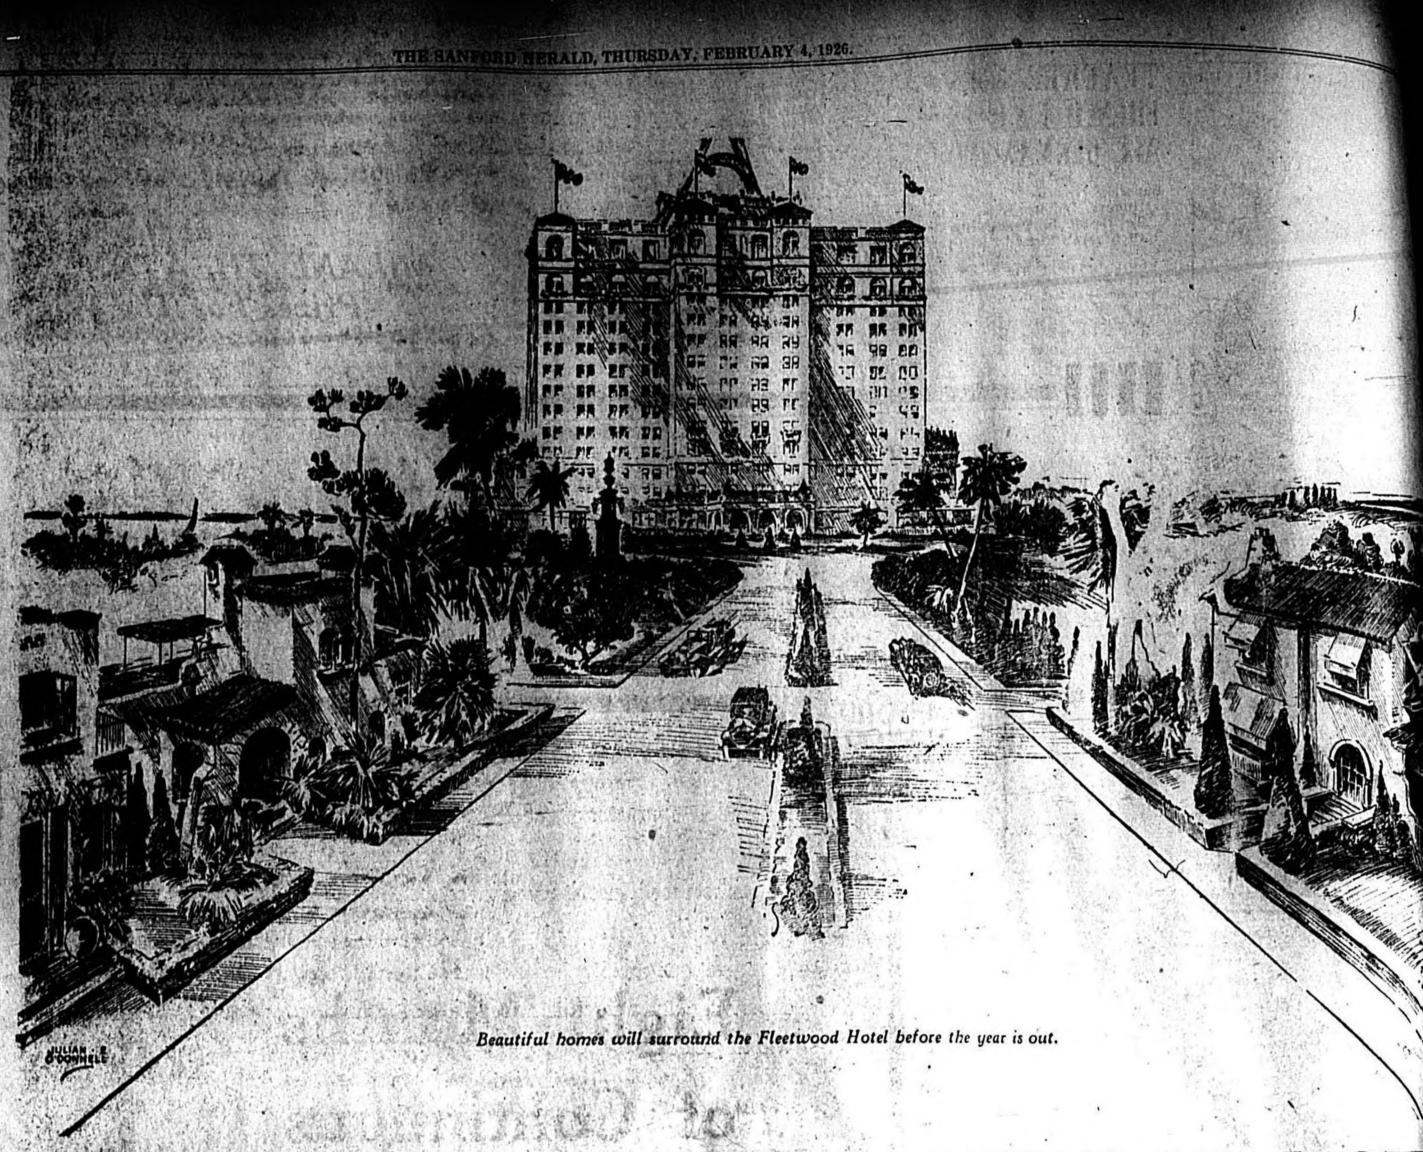

MARVANIA

"The Best of the Eastern Lake Section"

For here on the shores of beautiful Lake Monroe, within a whisper of the Hotel Forrest Lake surrounded by developments where activity of great magnitudes is taking place, and public improvements envolving millions will be installed as soon as it is possible to obtain labor and material.

"GE DAYTONA SHORES FLEETWOOD HOTEL WILL BE BUILL AT ONCE"

Owner of the FLEETWOOD HOTEL System_

Construction Company of Asheville, N. C.
The hotel will be fifteen stories high and will cost \$2,000,000. It will be completed this year and will be opened formally on New Year's Eve.

Steel will be delivered from the J. E. Moss Iron Works of Wheeling, W. Va., by the second week in March. Not later than twelve weeks from that date, the contract calls for the steel skeleton to be erected.

Do You Realize What This Means?

When this announcement appears, workmen already are clearing ground for the site of the Fleetwood, and for streets, as the first step in our big program for the development of the property around this hotel.

This great institution and the Fleetwood Section of Daytona Shores will grow up together---and in record time. The end of the year will find a splendid community on this river-bound peninsula. The Fleetwood will be completed, with its docks, casino, swimming pool, tennis courts, broadcasting station, etc. And the Fleetwood Section will be crisscrossed with paved riverside

drives and connecting boulevards, while happy families will be living in delightful homes.

This Means Profits Derived From Performance

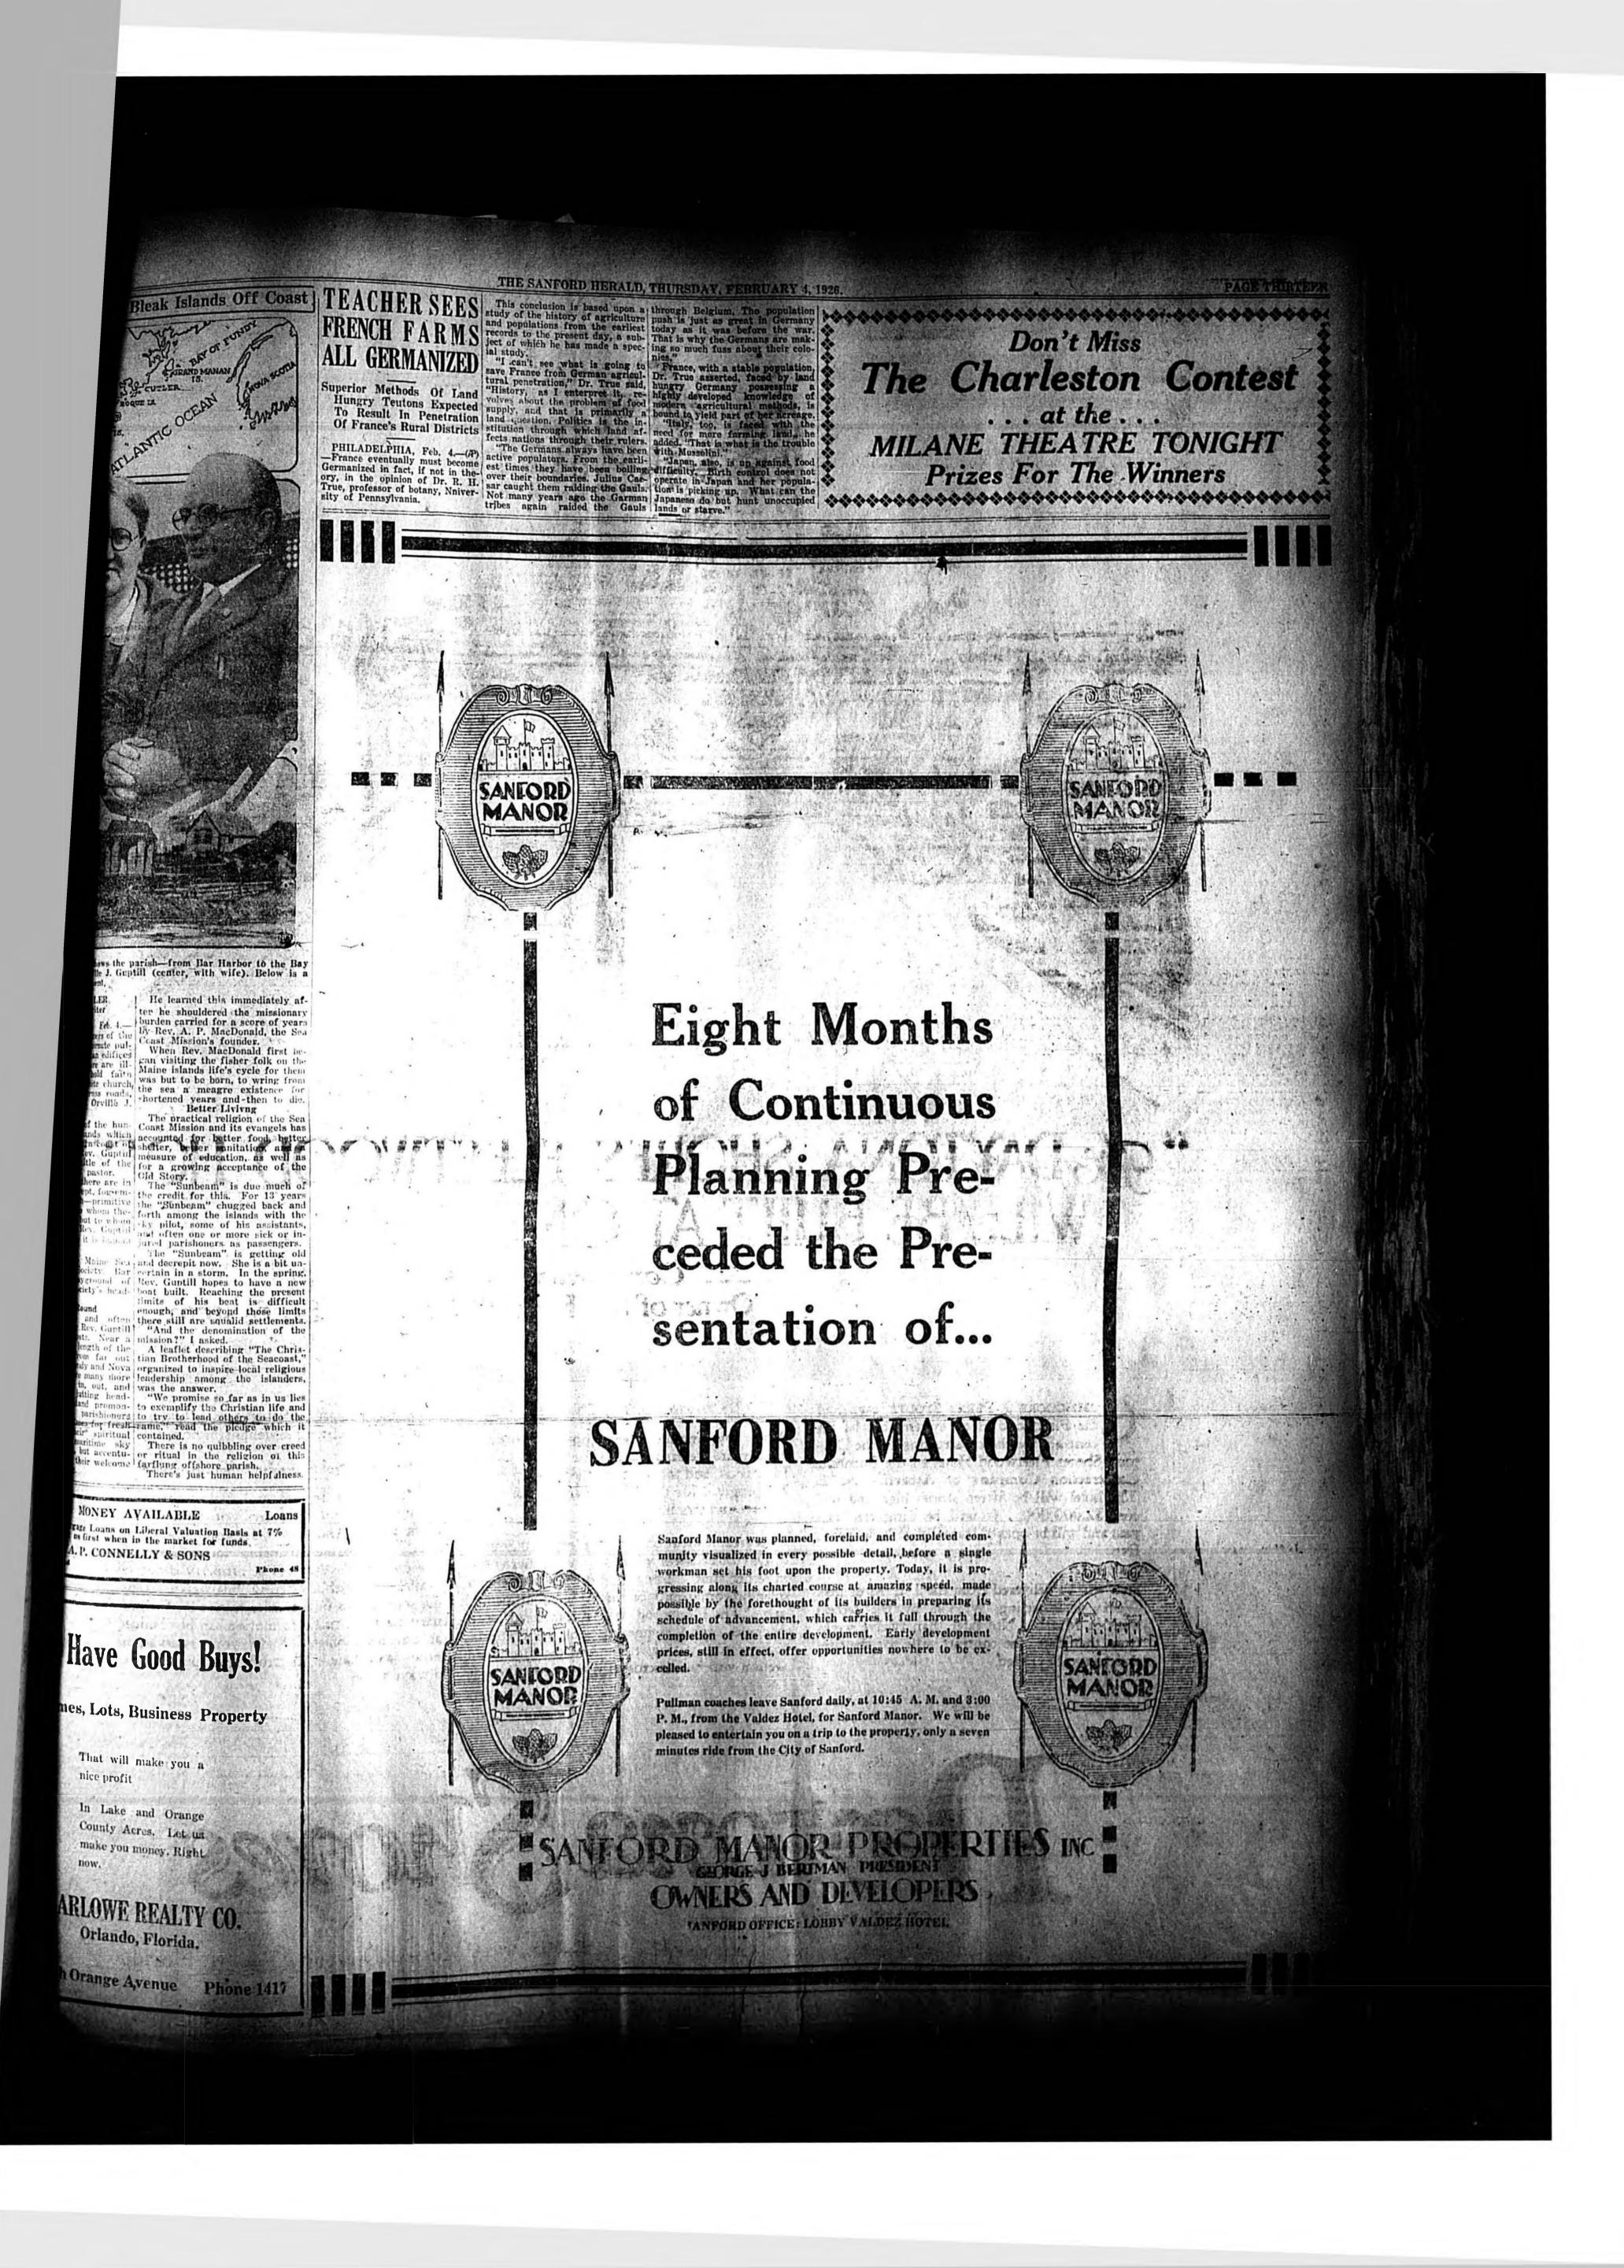

The Fleetwood Section will make money for investors. Early investors, of course, will profit most. And they will profit quickly because every value-enhancing factor promised already is under way. The property is not yet available for public offering, but we are accepting reservations in the order received. Preliminary plats and full information can be obtained at our local office. Make your reservations now---and share in the profits that performance always brings.
