Official Protest Will Be Made Against Inciting British Workers To Revolution

LONDON, Dec. 4.—(AP)—A radio broadcast from Moscow, which a conservative member described in the house of commons yesterday as "inciting British workers to revolution," will form the subject of an official British protest to the Soviet government.

Arthur Henderson, foreign secretary, as informed the House after questioning by Commander Oliver Locker-Lampson. He added that personally he did not consider the program an incitement to revolution, but said it nevertheless was a departure from the Russo-British agreement regarding the abolition of Soviet propaganda.

The broadcast occurred Tuesday night and was one of a series transmitted from Moscow every Tuesday for the benefit of British workers, and in the opinion of C. G. Allen, manager of an important British radio concern, the British workers run no great risk of contamination. Allen said the program apparently was picked up only by a few radio amateurs.

In describing Tuesday night's broadcast, Allen said it was devoted chiefly to a long account of the trial of eight Russian engineers now going on in Moscow. Much mention was made of the alleged confessions of the eight men, where they admitted conspiring with the object of overthrowing the Soviet regime.

This was followed by the reading of an "open letter" addressed to British workers by Maxim Gorky, famous Russian author.

The letter was alleged to be the trial and described the plotting of White Russians in London and (Continued On Page Four)

Swindler Of Miami Woman Given 2 And 1-Half Years In Pen

BALTIMORE, Dec. 4.—(AP)—Accused of mining stock frauds which the district attorney declared totaled from \$100,000 to \$1,000,000, Albert Wilson Wheeler yesterday was sentenced to two and one-half years in the federal penitentiary in Atlanta. Wheeler, 42, is held here in default of \$20,000 bail since his arrest last May in Boston previously had pleaded guilty to half a dozen indictments of fraud.

His plan was to form stock purchase clubs of 50 members, each contributing \$1000. When he was arrested it was charged he used matrimonial papers to obtain prospects. Mrs. Maude E. Brickell, Miami, Fla., testified Monday she had given Wheeler \$400,000 to invest for her in 1924 and had nothing new to show for it except some worthless stock which were not the securities Wheeler agreed to buy for her.

SAVANNAH, Ga., Dec. 4.—(AP)—The fate of 10 men aboard a disabled motorboat at sea 100 miles from Savannah hangs in the balance today as the United States Coast Guard cutter Yamazawa sped in their rescue.

The Yamazawa left port at 2 P. M. yesterday and expected to reach the motorboat position today.

Capt. Leroy Robinson, commanding the cutter, was notified by the radio operator of the coast guard base at Charleston that the motorboat was in trouble and that the cutter was expected to reach it at 11:30 a. m. today.

Both planes carried mail and equipment for staving the new offices at Clearwater and Kingsport.

Ex-Deputy And Lifetime Parole Given Pardon After One Year

It is understood that efforts to have him pardoned have been going on for the past several months, and that a petition, signed by many prominent Sanford business and professional men, had been presented to the Pardon Board along with the plea.

Labor Federation Head's Estimate Of Unemployed Is High

WASHINGTON, Dec. 4.—(AP)—An estimate of 4,860,000 persons out of work was given yesterday by William Green, president of the American federation of labor.

Green, in giving the number his organization was informed were jobless in November, said if the increase shown during the month continued, more than 7,000,000 would be unemployed by February. The federation's figure for October was 4,500,000. Their figures, Green said, do not include farm and office workers.

Green said it was not possible to give the exact number of those out of work, but that "we believe that this estimate gives a close picture of the situation."

"Unemployment is already as high as in the worst month last winter," Green continued. "More union members were out of work in the first three weeks of November than in October and the percentage rose from 21 percent unemployed in October to 22 percent in November. Part-time also is increasing."

"An increase in unemployment from October to November is normal and the change this year has been about the same as usual. But a many already were out of work in October that any increase cause for concern. This year we enter the winter months with an unemployment crisis already on our hands."

The north bound plane left Cristobal yesterday morning and arrived at Clearwater about 6 p. m. It will continue to Miami today.

Both planes carried mail and equipment for staving the new offices at Clearwater and Kingsport.

HOOVER VOICES OPPOSITION TO LOWER TAXES

Tells Congress That Treasury Deficit Of \$180,000,000 In View For This Year

WASHINGTON, Dec. 4.—(AP)—President Hoover opposed continuation of reduced income taxes yesterday in notifying Congress a \$180,000,000 treasury deficit for this year is in prospect.

In his second annual budget message, he requested \$3,332,842,000 to finance the government the next fiscal year. He also warned that appropriations looking beyond the next six months to ameliorate unemployment and difficulties caused by the drought might result in another deficit in 1932.

The detailed estimates for 1932 included increases over current appropriations of \$109,620,000 for veterans, \$41,500,000 for Federal aid roads, \$23,480,000 for public buildings, \$2,480,000 for public health enforcement, and \$3,000,000 for the shipping board's construction loan fund. Decreases of \$2,000,000 for national defense, and \$22,000,000 for interest on the public were listed.

Tag Day To Be Held Here Saturday For Benefit Of Orphans

In an effort to aid the education of what is declared a vital and serious need for monetary aid in order that the Florida Children's Home at Jacksonville may properly feed, dress and house an increasing number of orphans, the Sanford American Legion Auxiliary, under the direction of Mrs. J. C. Benson will sponsor a tag day sale on the streets of Sanford, Saturday, Dec. 6.

Mrs. Benson said this morning that conditions are in an almost deplorable state because of the failure of many Florida residents to contribute to what she termed "one of the most worthy causes in the state." At the present time she estimated only six cents per day is available to furnish food for each child at the Jacksonville institution, and every welfare and social or civic organization has been appealed to for aid. The tag day sale Saturday is being repeated in a number of Florida cities, and Mrs. Benson expressed the hope that Sanford residents would respond generously.

Some few weeks ago, a tag sale was conducted for the orphans of the Methodist Orphanage at Benson Springs and a hearty response was accorded the sponsors. Saturday's sale for the benefit of the Children's Home at Jacksonville is expected to be equally successful.

The following members of the Auxiliary will assist in the sale: Mrs. L. M. Linehart, Mrs. H. B. Lewis, Mrs. J. H. Hiltner, Mrs. W. R. Dyson, Mrs. F. E. Roumillat, Mrs. W. T. Langley, Mrs. B. J. Holly, Mrs. Geo. Knight, Mrs. E. B. Stowe, Mrs. W. R. Campbell and Miss Jeanette Laing.

KIWANIS VISITOR RECITES VIRTUES OF FRUIT JUICES

Large Attendance Is Reported At Weekly Meet Yesterday

Furishing what was said to be the high light of the regular weekly luncheon of the Kiwanis Club at the Montezuma Hotel yesterday was the talk by Dr. H. D. Smith, a guest of the club, on the "value of citrus fruit juices to the diet." Another feature of the meeting was reported to be marked by an unusual spirit of optimism.

"Not only will rickets, scurvy, and other deficiency diseases disappear with the use of sufficient quantities of orange juice," said Dr. Smith, but, "the wise mother or father who brings home to the boy and girl a bagful of oranges, instead of a bag of candy, is laying the sure foundation for a healthy body for that child."

One Man Is Killed And One Is Hurt As Blimp Tears Loose

GADSDEN, Ala., Dec. 1.—(AP)—One man was killed and another injured seriously yesterday as the Defender, Goodyear Rubber Company blimp broke away from a landing crew and carried the two high aloft.

Isaac W. Phillips, a workman at the Goodyear plant here, who was helping the landing crew, dropped 150 feet to his death, while Jim Quisenberry, a regular member of the landing crew who also was carried aloft, was knocked loose from the blimp by a pole and fell 25 feet.

The landing crew was walking the blimp to the hangar here following the ship's arrival from Akron when the ship suddenly lifted, carrying the two men from the ground.

The ship was hoisted down to earth a few minutes later and landed without difficulty.

The accident was the second in recent weeks for the Goodyear blimps, the Vigilant, sister ship of the Defender, having crashed against a mountain side near Piedmont, Ala. The crew of the Vigilant escaped injury.

Phillips lived in Gadsden while Quisenberry lived in Oklawaha. He had preceded the Defender from Akron by Automobile, to Nashville and then to Gadsden.

Parachute Jumping And Stunt Flying To Be Seen On Sunday

Staged under the auspices of the Campbell-Lessing Post of the American Legion, an exhibition of airplane stunt flying and parachute jumping which will be held all-day Sunday, Dec. 6, at E. M. Snyder, Shanty Wiley, and Otto Ashley, well-known Florida aviators, is expected to draw another large throng to the emergency landing field on the lake front.

Last Sunday some 2000 persons gathered at that place during the afternoon and were given a demonstration of glider flying and boat racing which, in connection with the band concert by the Eiks Band, apparently pleased the large throng.

Next Sunday, because of the fact that some racing and glider flying will be performed, another big crowd is expected. Two new model biplanes will be on exhibition during the day and will be used both for stunt flying and passenger carrying trips. E. M. Snyder and Otto Ashley, the pilots, are members in the aviation game, and both are residents of Florida. Shanty Wiley has been jumping from planes for years, and has in his repertoire many tricks to thrill the spectators.

Mrs. Lee Slightly Hurt In Automobile Crash Early Today

An early morning automobile accident, declared unavoidable, almost resulted in serious injuries to Mrs. C. C. Lee, the occupant of a car, driven by Emory Lee, which crashed into a telephone pole near Rand's Siding. Rushed to the hospital in an apparently serious condition, Mrs. Lee was found to be suffering from shock and slight cuts about the head, and was allowed to return to her home this afternoon.

The accident occurred at about 7 o'clock this morning when Mr. Lee was on his way to Sanford from his West First Street home. According to Geo. W. Gray, motorcycle officer who investigated, Mr. Lee was following another car, and was preparing to pass it when an automobile coming from the direction of Sanford suddenly loomed up in front of him. To avoid being caught between the two cars as they passed, Mr. Lee swerved to the right and crashed into the telephone pole. Passing motorists hurried Mrs. Lee to the hospital before the Emerson Ambulance, which had been called, reached the spot. The Lee car was partly wrecked.

At about 7:30 another accident was reported in which J. J. Catlett and P. D. Parker were involved. It occurred at the corner of Fourth Street and French Avenue, and resulted in Mr. Catlett's car being turned over on its side and damaged considerably. Mr. Parker was said to have been driving west on Fourth Street when he crashed into the side of Mr. Catlett's car which was going south on French. No one was injured, and the damage was satisfactorily settled this afternoon when the two men met at the Police Station.

The Lions Club is making an effort to bring the all-Florida air race to Sanford. This is a good move. The title of "The Crossroads of the Air" will carry a significance in the future which will mean much to any city. And besides there is good publicity in being progressive.

Mrs. Keith Miller tried to fly from Havana to Miami in a ramshackle plane without modern flying devices in an effort to improve the aviation world with her prowess. It appears to us that such action could give only one impression and that isn't that she had good intelligence.

WORLD'S WINDOW

Seldom have the French shown such interest in American politics as on the occasion of the recent elections. Not only were the newspapers at it for days prognosticating, analyzing and examining the respective chances of Democrats and Republicans, and after the election with speculations and prophecies on the future, but private citizens were as absorbed in the matter as if it concerned their own community.

Florida Engineering and Construction, a monthly magazine of the state which undertakes to give useful information and sometimes advice, is now saying that if Florida is not over-run by the jobless from other states during the winter there needs be but little thought of unemployment troubles. The condition most desirable is scarcely to be hoped for. Already there have been a great many wanderers into the state, seeking work, although some come who ask for it and hope not to get it.

The magazine, however, hoping for a chance for the Florida people who need employment, declares that there will be a lot of work to be done in this state during the next six months. Ahead of us we have 125,000 carloads of citrus fruits and winter vegetables to harvest, pack, preserve and ship to market, it says. To handle this great crop in a satisfactory manner means the employment of many thousands of workers with a fairly well-balanced opportunity offered for the various classes of labor available.

It is then remarked that in the field work of harvesting, common labor will predominate and an army of laborers will be employed. Skilled and semi-skilled labor will be given work in the packing houses and canneries to the number of many thousands. The crate and box factories and the places where barrels are made, will take up another big army of workers. And the movement of the big golden crop will mean many added to the forces of the railroad.

The coming of the tourists call for the employment of a large number of people in the hotels and wherever visitors are entertained. It takes some thousands of helpers to give attention to this part of a Florida season's activities. And then the magazine suggests plenty of work for artisans and workers in construction. Predicting an expenditure of \$25,000,000 in new building and improvements before next spring, there is shown to be a demand for skilled mechanics and every sort of labor.

The Engineering and Construction Magazine is strong for the Florida laborer, and urges the patronage of Florida home labor and industry. This is reasonable and right. Unless we look after our own people, the state will be regarded as derelict in its duty. If there shall be an overflow from elsewhere it would be just as well to send the indigent and idle back where they came from. We need have no unemployment, if the situation is not brought about through a drift from outside.

The Dime Giver?

Famed for his custom of giving away ten-cent pieces to his friends and visitors, John D. Rockefeller has probably gained as much publicity on account of this practice as he has for his great exploits. Why Mr. Rockefeller hands out coins and thereby, courts the inevitable suggestion that he is stingy, is only known to the money wizard himself. But it is safe to say that there is a good reason whether founded on serious principles of psychology or merely to give play to a sense of humor.

The reaction of the public to stories about the dime gifts can hardly be anything else but unfavorable. Most of us imagine that if we had as much money as Rockefeller we would hand out ten dollar bills to every person we meet. Therefore it is only natural that the ten-cent gifts of the world's richest man must necessarily carry with them the subtle connotation that the donor is a trifle "tight".

That such a deduction is erroneous is perfectly clear when it is known that Rockefeller has given away over a hundred million dollars for charitable purposes. The contrast between the small money presents given in person and the huge disbursement of charity funds through wise and organized methods, is disclosed in two news stories which appeared recently on consecutive days.

The first article was written in a humorous vein and described the aged oil baron's hesitancy about giving his partner a new coin for the well execution of a golf shot. Of course the whole story was a joke but, nevertheless, it was predicated on the theme of a rich man giving small gifts. The article appearing the following day told of Rockefeller's gift of a million dollars to aid New York's unemployed.

So it appears that Mr. Rockefeller bestows big portions of his fortune by means designed to give the greatest good to the greatest number and that he offers ten-cent pieces just for the fun of it and to mock those who would fain think him stingy.

JUST HOW ITS DONE The confession of a football expert, or how I pick my All-American team:

Picking an All-American team is easy when you know the ropes. There are eleven men on a football team, which makes 8 3-4 per cent easier than selecting a jury. Moreover, an All-American team does not have to bring in a verdict. As soon as you have made it up, the team promptly disbands.

I always start at left end in picking my teams because I am left handed. I try to think of all the left ends I have heard about this season, even if only from Graham McNamee. In case I leave a good one out, I can always claim he slumped in the Uralian game and is not entitled to consideration.

When I have a list of about a dozen left ends, I begin discarding, following Milton C. Work's directions. Finally I have three men left for the position. Follop of Otterbein, Reakwsktmal of Purdue and O'Flanagan of Harvard. Reakwsktmal would be my first choice. I am not certain, but I feel that leaves my final selection between Follop and O'Flanagan. If we have a profile photo of Follop in our reference he gets the job. Otherwise I give it to O'Flanagan on account of his weight.

But the whole thing taught me a lesson and you don't catch me picking anyone but a roving center now. I also try to avoid picking cripples for my team, although I once named a half back who had a goitre. I explained this away by

A Trustworthy Business Associate

A SUCCESSFUL HOUSEKEEPER these days is a business woman. She has to be. She has her budget systems and account books. She figures closely to keep expenses down. She is a wise, shrewd buyer.

She wastes neither time nor money. She knows exactly what she wants and where to get it as the most advantageous price.

She'll tell you that she is a diligent reader of newspaper advertising. She considers it a trustworthy business associate. It brings her cleaner food—improves her personal appearance—eases her daily task—helps take the humdrum out of life—tells her when, where and how to find things pleasurable and profitable—makes it possible for her to get one hundred cent's worth of real value for every dollar she spends.

Every one can profit by reading the advertisements in this newspaper. That's the one best way to keep in touch with the lowest prices, best qualities and newest commodities that stores are offering and manufacturers are putting out for your benefit.

Remember, you can depend on advertised products. Read advertisements. They'll help you in lots of ways.
