Sanford Is The Only Central Florida City Affording Rail, Highway And Water Transportation

VOLUME XXV Member Associated Press SANFORD, FLORIDA, SATURDAY, FEBRUARY 29, 1936 Established In 1908 NUMBER 100

### \$15,947 Added To School Fund Of The County

Today's Allocation Brings Total For Seminole County To Nearly \$77,000

Total For State Is \$6,014,555.00

Payments To Schools Don't Include Any Chain Store Taxes

Seminole County schools were today allocated \$15,947.15 more of state funds, according to Associated Press dispatches in The Herald. This brings the school year's total of state funds to \$76,962.97, as T. W. Lawton, superintendent of schools, reports that previous allocations amounted to \$60,985.82.

The total appropriation today of state funds to the public schools was \$1,53,056.34, bringing the current year's total distribution to \$6,014,555.00.

Payments so far to the public school fund have not included any revenue from chain store taxes, although \$375,000 has been collected and held in trust, pending the Supreme Court decision. Estimates here placed the chain store revenue at \$2,750,000.

While the chain store law was still in the courts, Governor Phelan and other state officials pledged payment of \$6,000,000 of the Legislature's appropriation of \$10,000,000. If the \$9,000,000 is paid, \$3,968,399.74 still must be provided.

Approximately \$1,000,000 of this is expected from automobile license.

Among the estates on which tax payments become due this year is that of Alfred J. duPont, Jacksonville financier, who died last April.

The state's general revenue fund, out of which state governmental expenses are paid, was drawn upon for \$600,000 of today's school fund. Previously \$500,000 came from this source.

Other sources of the appropriation were \$493,157.08 from an excise license, and \$19,902.76 from the one mill tax.

Amounts to each county will be determined today by the Department of Education.

There have been no transfer funds, the state comptroller's office said, in order to make the school appropriation. There are surpluses available for transfers in several state funds, including about \$400,000 in the Confederate pension fund. Such transfers can be made, however, only on subject to appropriation.

## FLORIDA CANAL PROGRESSES AS CONGRESS ARGUES

While Congress debates the \$142,000,000 Florida ship canal, work continues at a rapid pace on the project designed to link the Atlantic Ocean with the Gulf of Mexico. The group of men and the tractor on the floor of the canal illustrate the relative magnitude of the channel. (AP Photo)

### Easier To Stop Ship Canal Because Of Fiscal Crisis

#### Thinks Senator Vandenberg

WASHINGTON, Feb. 29.—(AP)—It ought to be easier to stop the Panama canal, the Florida ship canal and other indefensible expenditures now that a fiscal crisis is suddenly and steadily developing, declared Senator Vandenberg, Republican, Michigan, New Deal opponent, when the Administration's billion dollar tax program became known yesterday.

### Home Owners Are Co-Operating In Cleaning Up City

#### Inspector Receiving Help In Campaign; Makes Suggestion

Property owners are co-operating in the clean-up campaign, started a month ago, and many owners are taking a whole-hearted interest in the movement, Sanitary Inspector A. R. Marshall stated today in asking The Herald to spread the clean-up idea, who are helping to make Sanford more attractive.

The campaign is progressing fine, far beyond expectations, said the inspector.

The municipality is without funds to pay for cleaning vacant lots, but James Moughton, street superintendent, is furnishing trucks to carry away trash and residents in every section of the city have cleaned alleys and vacant lots next door. Rubbish and trash piled on the curb is being removed if City trucks without charge. If a truck does not show up the same day a lot is cleaned, one will be there a few minutes after a telephone request has been received by City Clerk F. S. Lamson, the official stated.

During this clean-up campaign, Inspector Marshall asks residents to fix their garbage cans so dogs will not turn them over. He suggests that four cans be driven around the block with the top of the stakes about two feet above the ground. These should make it impossible for a dog to tip over the can, Mr. Marshall said, and if fly-tight covers are placed over the cans the garbage receptacles will be practically dog-proof, in his opinion.

### Six Meetings To Be Held Coming Week By Demonstration Clubs

Six meetings of Yans Demonstration Clubs have been scheduled in the county for next week by Miss Josephine Boyden, demonstration agent for the county. The schedule is as follows:

## Most Rain In February For Sixteen Years

### Precipitation More Than Three Times Normal For Month In This Locality

February of this year has been the wettest February in 16 years, it was reported by G. P. Paxton, custodian of the United States Weather Bureau thermometer. The precipitation this month was 6.77 inches, more than three times the normal February rainfall. Normal is 2.16 inches. The excess above normal for the month was 4.61 inches, or nearly two inches more than three times the usual rainfall recorded for February.

The only other year in which the February rainfall exceeded six inches was in 1923 when a precipitation of 6.48 inches was recorded, one-quarter inch less than the precipitation in February of 1936.

The driest February was that of 1929 when the rain gauge showed a precipitation of only .26 of an inch. February, 1923, had only .35 of an inch rainfall. The months of February in the years of 1931-32-33 were all dry, .57 of an inch in February, 1931, only .34 in February of the following year, and .98 in February of 1933.

Mr. Paxton's record of February rainfall for the last 16 years is as follows:

Year	Rainfall in Inches
1920	6.48
1921	1.78
1922	1.02
1923	6.48
1924	3.75
1925	1.50

## Impeachment Proceedings Against Judge Ritter To Be Called In House Next Week

### Four Charges Filed Against U. S. Judge Sitting In Miami

WASHINGTON, Feb. 29.—(AP)—Impeachment proceedings against Federal Judge Howard L. Ritter of Miami probably will be called up in the House of Representatives during the first week of March. Chairman Sumners of the House Judiciary committee who introduced the impeachment resolution for the committee said it would be brought up next week.

Four articles of impeachment are made against Judge Ritter, who is charged with accepting large fees and gratuities from persons who had business in his court. If the House adopts the resolution it will go to the Senate for consideration on whether it is to be made final. Impeachment was proposed for "misbehavior, and for high crimes and misdemeanors" in office by Judge Ritter, a Republican who was appointed by President Coolidge and was qualified as a United States judge on Feb. 15, 1929.

The first article charges he accepted \$4,500 from A. L. Rankin, an attorney in mortgage foreclosure actions against the Whitehall Building & Operating Company of Palm Beach. It charges the payment was made after Judge Ritter allowed Rankin a fee of \$75,000 for his services, in addition to \$15,000 previously allowed by Federal Judge Alexander Sherman, who considered the fee suing at Judge Ritter's request. Rankin was identified as the law partner of Judge Ritter before the latter's appointment to the bench.

Judge Ritter was charged in the second article with entering into an agreement to continue mortgage litigation against the Palm Beach company even after Bert E. Holland of Boston, who had the proceedings instituted, sought to withdraw his case. It also was charged (Continued on Page Two)

## Police Seeking \$30,000 'Strad' Reported Stolen

NEW YORK, Feb. 29.—(AP)—A \$30,000 Stradivarius violin, mysteriously stolen from a Carnegie Hall dressing room, was sought by police today in the belief it had been snatched for ransom.

The "Strad," favorite instrument of the Polish violinist, Bronislaw Huberman, disappeared from a double case in the artist's dressing room while he was playing a concert last night.

Because of the conspicuous design of the instrument, insured by Lloyd's for about \$30,000, and its small disposal value to the thief, police said they were sure it was being held for ransom. It was the second time the "Strad" had been stolen. In 1919 a thief made off with it in Vienna, but it was promptly recovered and the thief sentenced to three years in prison.

## Fighting Is Resumed On Northern Front

(By The Associated Press)

Fighting between Italian invaders and Ethiopian A-soldiers raged in the Tembe section of the northern front today, the 20th command reported to Rome. Following the reported capture of Amba Alaji by the Italian and an Eritrean army corps attacked the fortress of Ras Kassa, Ethiopian chieftain.

In Addis Ababa, Ethiopian officials declared they had no knowledge of the fall of Amba Alaji, some of a bitter defeat 46 years ago, and confirmed their report that a revolt in Galla province had been suppressed.

## "Resurrection" Kept An Official Secret Until Insurgents Had Capitulated

### Loyal Soldiers Defeat Rebels

#### Tanks, Machine Guns Sent Against 1,000 Rebellious Troops

TOKYO, Feb. 29.—(AP)—Premier Katsuko Okada, proclaimed throughout the world as the victim of assassins' guns in Japan's military purge, reappeared alive and unhurt today as the rebellious movement collapsed. His "resurrection" electrifying the nation which believed the chief cabinet officer had been shot down by bullets of revolting officers, remained an official secret until after the 1,000 rebels had surrendered. Then the cabinet secretary disclosed that the premier still lived and headed the government and that the rebels slain by the excited insurgents was his brother-in-law who closely resembled him.

All rebels surrendered or were captured under imperial orders advanced with tanks and machine guns on positions held by the insurgents. Machine gun fire was heard, but there was no pitched battle. First reports indicated there was no bloodshed, but many public buildings remained closed.

## Heiress Reported Slightly Better By King's Doctor

### Consultation Held At Hospital Bedside Of Barbara Hutton

LONDON, Feb. 29.—(AP)—Physicians attending Countess Barbara Hutton Haugwitz-Reventlow, seriously ill after an operation following the birth of her first child, reported a slight improvement in her condition today. Their report followed a lengthy consultation at the bedside of the countess.

Her personal physician, Dr. James Nicolson, accompanied by a second doctor, entered the Rensley period house where the baby was born Tuesday and where the mother has been seriously ill since an operation Thursday night. They followed an early morning visit by Lord Horder, physician in ordinary to King Edward, who said the countess had had a "fairly restful night."

Count Haugwitz-Reventlow, who remained at his wife's bedside during most of the night, returned to the sickroom after a short rest. The Countess, heiress to the Woolworth millions, was operated on for abdominal symptoms of an obstructive nature.

Franklyn L. Hutton, her stepfather, cancelled a Par's visit scheduled for Sunday, and decided to remain in London indefinitely. Mrs. Hutton was summoned urgently last night after the operation.

She remained with Princess Dahn all of yesterday and only the insistent pleas of the housemaid induced Mrs. Hutton to return to her hotel for rest late last night.

## Screw Worms Appear In Warmer Weather

Stock men are warned by M. S. McCalland, screw worm inspector for the district, to watch more carefully for the worms with the return of warmer weather. He inspected 1,793 head of cattle this week and found nine cases of screw worms. Thirty-three head of horses and the same number of mules were found to be free of the pest.

W. C. Bruce of Ocala, vice superintendent of the inspection service, will address the class in vocational agriculture in Seminole High School next Wednesday afternoon at 1 o'clock. Mr. McCalland announced.

### Legion Warns Public

In other columns of this issue of The Herald appears an advertisement in which the local post of the American Legion warns the Sanford public to beware of solicitors appealing for funds in the guise of Legionnaires or veterans organizations. Whenever such solicitations are authorized, the advertisement indicates, proper credentials will be issued by post authorities.

The current winter season has seen an unusually large number of "floaters" drifting through Sanford trying to pick up as much money as they can on the way while preying on the generosity, or, we fear, the gullibility sometimes, of our local people. They pretend to be raising funds for the local Legion to help crippled children, or to care for wounded veterans, or maybe they have something to sell which was allegedly made by some veterans' organization.

Nine times out of ten these solicitors are fakes. They are not authorized to solicit anything for the local Legion, and if they are selling something, it is not being done for the benefit of, or even with the approval of the local Post. These schemes usually turn out to be plain unadulterated rackets, put on by sharpers and crooks from the North for the benefit of nobody but themselves.

What is said here with regard to the American Legion is also true of various advertising schemes which frequently are promoted in Sanford by strangers who generally tell the local merchants that they are doing it for The Herald, or at least are working in connection with The Herald. The Herald makes it an unalterable rule never to "co-operate" in these outside promotional activities. We believe that usually they are nothing more or less than schemes to "hook" the local merchant. Any time The Herald has anything to sell, it will be sold by members of its staff, well known to local people.

The Legion is doing the right thing by trying to put a stop to this dunning of local people who are made to think they are contributing to the local Post, or some other worthy cause. Our people are compelled to contribute to enough enterprises in the name of charity and welfare without being constantly drained for the benefit of a various assortment of rackets. The best policy, it seems to us, is to deal only with local people, or when in doubt, don't do it.

### "Man Mountain" Anderson

"What man can imagine, he can do," someone has said. That, however, was before the fertile brain of Frank Kay Anderson conceived the idea of constructing a mountain out of the dredgings from the cross-state canal. It seems to us that there should be a reasonable limit even for the imagination. Be that as it may, Frank's suggestion seems to have taken hold, particularly in such serious publications as "Life" which devotes considerable space to his suggestion for improving the scenic effects of this fair state.

"Our heart leaps out in a great burst of admiration for Mr. Frank Kay Anderson, associate editor of the Citrus Industry magazine," says Life. Mr. Anderson has conceived, and dedicated to the proposition of a better Florida, the idea of creating a mountain. This mountain is to be made from the dirt excavated from the proposed Florida Cross-State Canal, and will serve to keep Northern and Western visitors from getting homesick, as well as silencing, once and for all, perhaps, California's claims to scenic grandeur.

"The dredges, our fellow-editor estimates, will throw out enough dirt to mould a mountain high enough to maintain snow on its peak throughout a Florida August. A serpentine road would be built to the summit (where, no doubt, three barbecue stands and two postal card booths would be erected), and from this point one could obtain a view of both the Atlantic Ocean and the Gulf of Mexico. Privately we feel that Mr. Anderson is being wanted in Florida. Mr. Roosevelt and the New Deal need men of his stamp."

If Harry Hopkins only had someone in Washington with the imagination to conceive other projects for him as ingeniously as Mr. Anderson has disposed of the canal dirt, it would not be any time at all before this country would be literally covered with one self-liquidating project after another, and "boondoggling" would be a thing of the past. After all, you can't boondoggle a self-respecting canal into a mountain peak. That requires real engineering genius.

### SANFORD TWENTY YEARS AGO

People may not agree with W. J. Bryan, they may call him a theorist but the fact remains that W. J. Bryan is one of the greatest men on the lecture platform today on the subject of political economy. Just now while the country is at white heat over the preparedness program, the lecture of Mr. Bryan on "The War in Europe and Its Lesson for Us" last night at Chautauqua was very timely.

TALLAHASSEE, Feb. 22.—It is very apparent that the attitude of Governor Park Trammell, regarding the basis upon which the 1916 tax assessment should be made upon a fifty percent basis instead of being raised to a full cash value basis as recently ordered by the State Tax Commission. The Governor has already received a majority from the tax assessors agreeing to his position upon the subject.

Among the visitors here yesterday was Claude Johnson, the handsomest man in the Florida Press Association. Claude has just finished his labors on the Tribune Year Book and is now engaged in managing the campaign of Albert Cochran who aspires to the position of U. S. Senator.

At a meeting of the Brotherhood Class of the First Methodist Church on last Sunday morning the annual election of officers took place. Those chosen to serve for the year were: H. H. Pate, president; C. D. Brown, secretary; J. D. Brown, treasurer; and Dr. L. R. Phillips, pastor.

## Anti-Roosevelt Democrats Offer Greatest Difficulties To FDR's Political 'Fixers'

By BYRON FRICK

WASHINGTON, Feb. 22.—(AP)—Administration political leaders, whose first job it is to get Mr. Roosevelt renominated in June with the least possible friction, are finding plenty to think about.

The most conspicuous of their difficulties arises, of course, from the activities of the anti-Roosevelt Democrats. Expectations of a perfectly harmonious renomination have about disappeared. A dispute of greater or lesser magnitude over the platform likewise has come to be regarded as inevitable.

It is not the dissenters from the Roosevelt policies, however, who are receiving first attention in the present cogitations of the convention planners. They are faced with a less publicized, but possibly more hazardous situation within their own ranks.

In several states very troublesome tangles have arisen between rival factions which are friendly to the President, but cannot agree among themselves. Usually these schisms go far back into local politics, but they head up nationally in quarrels over the selection of convention delegates and a sane management of the presidential campaign.

So far as the anti-Roosevelt movement is concerned, the effort of the Administration leaders is, as they say in diplomacy, to "localize the conflict."

Skirmishing at some points is expected, but the Roosevelt managers are predicting that it will be confined to a very few states. They hope that in far more than enough states to nominate, solid Roosevelt delegations will be chosen without a contest.

In four or five places only has there appeared, thus far, any organized attempt to send anti-Roosevelt delegates to the Philadelphia convention. There is opposition elsewhere, of course, but adverse sentiment and actual pre-convention organization work are two quite different things.

In Massachusetts, former Governor Fly has announced he would work for an anti-Roosevelt

delegation. Governor Tallmadge is definitely seeking a similar delegation from Georgia.

Less definite movements are under consideration in Wisconsin and one or two other states. In New York it appears that Al Smith and some of his associates will become delegates to opposition to a renomination.

Such movements may appear later over a wider territory, notably in the East, but few anti-Roosevelt men predict that the total number of delegates against the President will be more than a small minority.

One way of keeping this total down is for the national Democratic organization to promote harmony in the various state organizations. Every campaign year, many an incipient insurgent has been mollified and quieted by recognition in the state campaign set-up, and a place on the delegation.

In this effort, the Administration has one advantage. Three-fourths of the states elect governors in 1936. Each rival candidate for governor hopes to be nominated, and neither he nor his faction is anxious, in case he is nominated, to be openly at odds with the head of the national ticket. The natural inclination is to "go along" nationally.

Nevertheless, serious differences persist. In California the Sinclair EPIC faction and the old McAdoo faction have been basting over the make-up of the delegation to Philadelphia, and in Ohio the friends and opponents of Governor Dewey are in similar difficulties. There are less open complications in other states among factions all of whom favor a Roosevelt renomination.

To have things as harmonious as possible after the convention, the Administration political "fixers" have had to step in. It is probably their most delicate and dangerous duty.

They are learning from bitter experience the political aptness of the old adage, "I can take care of my enemies, but God save me from my friends."

Coras Lee Hill, accused of stabbing another negro woman, pleaded guilty to aggravated assault when taken before County Judge Sharon yesterday and was sentenced to pay a fine of \$25. Harry Bradley, charged with assault and battery, paid costs of prosecution.

Following numerous requests from interested parties, F. F. Dutton has decided to open his gardens, especially beautiful at this time of the year, at his home on Melville Avenue to all persons who would like to view them. However, Mr. Dutton has asked that carpools enter the grounds through the next street. In that way they can see both front and back gardens from their automobiles.

### Noted Explorer To Give Address Monday Evening

A new lecture by Captain Donald B. MacMillan, the world's leading authority on Arctic exploration, will be presented at the Congressional Church Monday evening at 8 o'clock.

Captain MacMillan spent a large part of his time for the last 25 years in the North Polar region, and they were years filled with the most arduous, hazardous, and almost unbroken adventures.

In 1906, when MacMillan was the commander of the Peary Expedition, he was the first to reach the North Pole. He was also the first to reach the North Pole by air.

During 1911-12 he was engaged in arduous work among the Eskimos of Northern Labrador. From 1913-17 he was the leader of the American Museum Expedition to Crocker Land. Returning from this expedition he found the world at war and became Ensign U. S. N. R. Y. World War assistant at Hampton Roads, aviation 1918-1919.

He is the author of many books and magazine articles and in 1927 was awarded the Eliza Kent Kane Gold Medal for daring exploration and scientific research. He has recently returned after three months exploration in his plane, the Viking, during which time he mapped 1500 miles of uncharted country and studied 50,000 square miles of little known land. He took hundreds of pictures not only recording the scenery but also the modes of living of the natives of the far North.

### WPA Writes Capital Guide, But Nobody Knows What For

WASHINGTON, Feb. 22.—Under massive, gilded chandeliers in the paneled ballroom of the former Edward B. McLean home, a staff of news writers now on the employment rolls of the Works Progress Administration is completing a 350,000-word guide to the City of Washington.

Officials of the project, known as the writers' project, said that the guide would be in final form within a month. But exactly what use would be made of it no one connected with the project could say. No provision has been made to publish it and no funds are available for that purpose. It was thought that if the guide was considered good enough the government Bureau of Engraving and Printing might issue it in book form and distribute it at a nominal price, but the bureau prints only what is authorized to print.

The staff at work in the McLean mansion is only a small part of a nation-wide writers' project engaged in the writing of a national guide which in its final form is to fill five or six volumes.

The writing of the Washington guide is but an intermediary step in the amassing of material for the national guide.

Relief writers in other large cities, including New York, are engaged in writing similar local guides and a guide is being written in each of the forty-eight states. As rapidly as the material amassed for these projects is assembled it is sent to Washington to form the basis for the national guide.

No one connected with the project could say exactly how many million words would be turned in from the cities and the time before the job of combining them into the five or six volume national guide is begun.

The government funds are available for the printing of any of the city or state guides, but W. P. A. does plan to print the national guide. It is the hope of the project officials, however, that the funds will be secured by the sale of the guides.

## Where Men Are Men

Trust Mae West to have a couple of men around her, wherever she may be. In this scene from "Klondike Annie," which opens Sunday at the Miami Theater, she is shown with Phillip Reed and little John Rogers. Maybe Phillip Reed would rather be in the sled, but Mae has her own ideas!

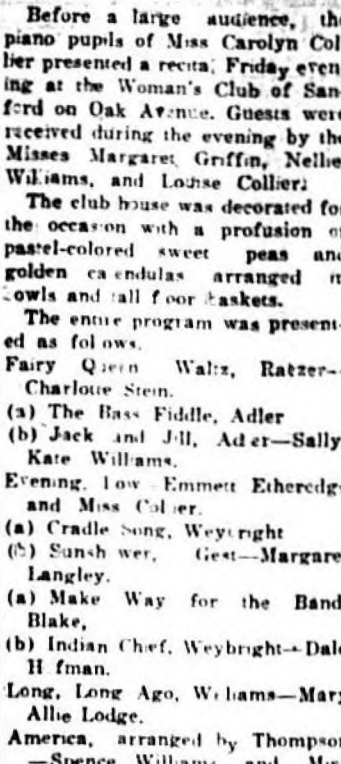

## Mae West Wears Furs In New Movie

Not even heavy fur swatches can keep Mae West of a bit of her charm and allure.  
 This is proven by her new film "Klondike Annie," which comes to the Miami Theater on Sunday for a three-day engagement. West, in the frozen regions of the Arctic, is wrapped from head to foot in enormous rolls of fur. The fact that she is every bit as fascinating and appealing speaks volumes for the personality which has captured for her the admiration of millions of motion picture fans throughout the country.  
 "I like the idea of dressing in furs for a good part of the actor of 'Klondike Annie,'" says Miss West. "After all, every woman's got curves—there's nothing unusual in that."  
 "But in 'Klondike Annie' where I'm all wrapped up like an Eskimo mummy, I think it's very flattering that Victor McLaglen and Phillip Reed fight over me all the time! Fascinating!"  
 Invocation was made by the Rev. E. D. Brownlee after which

## Card of Thanks

**GENESEE 12-HORSE TEAM**  
 THE ONLY 12-HORSE HITCH IN AMERICA  
 While in Sanford The 12-Horse Team Will Be Quartered at Colonial Oil Station, 820 West First Street. You are invited to visit there... Bring The Children... They'll enjoy it... and be sure to get a colored picture of the horses.  
 You'll get a real thrill when you see this nationally famous team, for it's probably the only 12-horse hitch in the world. Owned by the Genesee Brewing Company of Rochester, N. Y., it is composed of magnificent Belgian Roans, beautifully matched for color and size, and weighing over a ton apiece. It's fascinating to see how perfectly they pull together. They visit Sanford in the course of a tour of the Southern states, during which they have been seen and admired by thousands of men, women and children, and come direct from a "personal appearance" at the Florida State Fair, where they were a major attraction. Look for them as they parade Sanford streets, accompanied by their famous palace horse car. They're true champions, like the 12 HORSE ALE to which they gave a name, and which Florida enjoys so much.

# Ocala Wins Basketball Game By Margin Of Three Points; Feds Play Orlando Tonight

## Score Tied 18 To 18 At Third Quarter; B Team Also Loses

Ocala defeated Sanford on Seminoles High's basketball court last night by the narrow score of 27 to 24. It was one of the fastest games played on the local court this season and was crammed with interest. The Celery Feds led 18 to 18 at the half, tied 18 to 18 in the third quarter, but in the last three minutes of play the visiting team scored heavily and the game ended with a three point lead for Ocala.

Thompson was easily the outstanding man on both teams, and Origa also played well. Furdon was high scorer for Sanford. Substitutes during the game were: Sanford: Robinson, Phillips and Wright; Ocala: Hodges, Nicholson was put out on fouls in the third quarter.

Ocala also won the "B" squad game, 30 to 21. The Feds go to Orlando tonight for their last game before the conference, playing in the Orlando Coliseum at 8 o'clock. There will be only one game.

Even though Sanford is not along the leaders, Coach McLucas said that the Celery Feds still have a chance to win the district tournament at Tavares next week. The coach intends to spend all of next week in Tavares working on the fundamental details of the game.

The score of last night's game between the "A" squads of Sanford and Ocala was as follows:

	FG	FLG	FT
Whiten	3	1	7
Zachry	2	1	5
Furdon	3	2	8
Ferguson	1	0	2
Morgan	0	0	0
Robinson	0	0	0

# Andrew Jackson, Robert E. Lee and Leesburg Victors

JACKSONVILLE, Feb. 23.—Quintets from Andrew Jackson and Robert E. Lee schools of Jacksonville's won and the Landon High quintet lost at basketball last night.

Robert E. Lee concluded its regular 1936 basketball schedule by taking out a 19 to 17 decision over West Palm Beach on the home court. All of the meager excitement that the game provided was packed into the closing portion of the contest. Lee was ahead by 10 to 9 at the end of the third period and seemingly had nothing over which to be worried.

Leesburg's group of husky Yellow Jackets proved without doubt that they are superior to Landon's Lions by securing a convincing victory last night over the conference rivals on the latter's home court by a 23-23 decision in a bitterly fought basketball tilt.

In a game that brought together the champions of two of Florida's leading scholastic conferences, Andrew Jackson, winner of the Big Ten crown, defeated Daytona Beach, Northeast titleholder, by a 30-22 score last night in the Kirby-Smith gym. It was the Tigers' second victory of the season over the Buccaneers, they having triumphed last week at Daytona Beach, 22-20.

The Tigers will finish up their regular schedule tonight, playing Leesburg, runner-up to Daytona Beach in the North-east Conference tournament, in the Kirby-Smith gym at 8:30 o'clock. If Jackson, defeated by the Yellow Jackets last week at Leesburg, can turn the tables on the redoubtable Frankenstein Phillips and his mates, they will have achieved a record of 22 victories against but 11 setbacks this season.

## Double Jackets Seal Freshness In 'Old Gold'

Browning's beloved organist, it will be remembered, added one tone to four others and made a star. By a somewhat similar analogy, the P. Lorillard Company, makers of "Old Gold" cigarettes, has added a new feature to the "Old Gold" package that is believed will make it a star of the first magnitude with smokers everywhere.

When there was only one thing more that could be done to add to the satisfaction of "Old Gold" cigarettes, the Lorillard Company went right ahead and did it. That was to put the new double jacket of transparent cellophane around the familiar "Old Gold" package so as to seal in all the goodness of the cigarettes are made.

# 11 Races Will Be Run Every Night Until Season End

## Hurdle Races Are To Be On Program Two Nights Each Week

A change in policy which should satisfy the most ardent sportsman in central Florida was announced by Myer Goldberg, general manager of the Leesburg greyhound race track last night. Starting tonight, 11 races will be run every night until the end of the season Apr. 15. In addition, hurdle races will be presented every Tuesday and Friday nights, and women will be admitted free, except for payment of 10 cents state tax, every Wednesday and Thursday nights.

Tonight's feature event is the ninth over the futurity distance. Two dogs recently imported from Miami—Hawkes Light and Oala Girl—will be seeking victory over the sensational Chance Charlie, Molly Malone, Newt, Bert Jones, and Traffic Chance.

Tonight's entries and selections, with the latter capitalized, are as follows: 1st race, quarter mile: Ann Faith, Ken Regue, SMART MC-CURT (3), June Time, Captain Squire, 11 TIMES (1), Peabody Pitt, MORTIMER (1). 2nd race, futurity, 1st half daily double: Gladys Nell, Lady Bingham, MIDNIGHT LEAR (1), Ever-ger Hip, QUICK FOTO (1), Buck Creek, Bobbie Lane, BLUE PAL (1). 3rd race, futurity, last half daily double: Morgallant, Trach Master, Chetna Flower, JACK MARYER (1), SILVER BARK (1), Highland Forge, Galeosa Pride, OOD BLUM (1). 4th race, futurity: WIM MATEO, Mr. Sahara, UNTAMER (1), IVAN-ITCH (1), HAPPY MAN (1), Raymond Warrior, Ash Tray, 5th race, quarter mile: Darlene Dictator, Mercedes, MOVE ACHE (1), Land Lord, ARMED LADY (1), WIR FIDLER, Carvina Brock, BERTYER (1). 6th race, 1-16 mile: Horsa Burns Crown, Marsha's Double, XI TOPS (1), Hellbender, Torada, BERT ROY (1), LAM Count, RED DIAMOND (1). 7th race, futurity: MY LARVIN (1), Ashie, CAPTAIN MARTIN (1), Traffic, Traveler, Dexter Park, Duke Pal, LITTLE SUGAR (1), Jose Chole. 8th race, 1-16 mile: INKY DOT (1), Lady Traffic, Serrada, ELMO QUIREN (1), May 13th CARELESS GIBBS (1), Short Rich, Ooss Joint. 9th race, futurity: HAWKES LIGHT (1), CUTL GIRL (1), Par Fe, Bert Jones, NEWT (1), Molly Malone, Chance Charlie, Traffic Chance. 10th race, futurity: JANT (1), WIM Patriot, Martin Pacific, CARTON RED (1), PICKWICK (1), Flight Officer, Victorious Officer, Fighting Chance.

atches to the "fisherman's effect" which will be a kind of a free-for-all for the championship with entries using most any kind of tackle. This is a "handy" even and open to experts and "duffers" alike.
