Junior Cage Loop Has Close Games

Three close games were played Saturday in the Junior Basketball League at the National Guard Armory.

With seven seconds to go in the game, Robson's Buddy Burton scored with a layup, defeating Sanford Electric, 30-29.

It looked like a victory for Seminole Sporting Goods when it was leading in the first three quarters, but Stempier Agency found the range and went for a win, 27-17.

Roumillat's remained undefeated, beating Higginbotham's, 33-30.

Neat Saturday's games will see the teams with their new uniforms for the first time.

The standings as of last week's games are: Roumillat's, 3-0; Stempier Agency, 2-1; Seminole Sporting Goods, 2-1; Higginbotham's and Sanford Electric, each 0-3.

Bogus Agents Rob Indicted Tycoon

NEW YORK (UPI)—Two men posing as FBI agents robbed the wife of accused financial manipulator Alexander L. Guterman of \$2,000 worth of jewelry this morning at a midtown hotel.

Mrs. Anita Guterman, 40, said she and her daughter, Carole Jean, 14, were alone in their eleventh floor Lombardy Hotel apartment when the men came to the door around midnight.

Guterman, the Siberian-born financier who resigned as president of the Mutual Broadcasting System Monday, returned to the hotel later but refused to comment on the theft.

Mrs. Guterman said the thief included a \$12,000 diamond necklace, a \$2,300 watch bracelet, and a \$2,700 diamond pin.

Guterman married the former Anita McGrath, heiress to a Boston shoe manufacturing fortune, in Manila in 1941.

Guterman is free on \$50,000 bail on criminal charges in connection with failure to report to the Securities and Exchange Commission on stock transactions.

Crane Again Hits Jackpot With Egg

NEW ORLEANS (UPI)—Crip and Josephine, key figures in the whooping crane's fight against extinction, have done it again.

Officials at Audubon Park Zoo reported Monday that Josephine has laid another egg, which Crip is tending carefully, and that she is expected to produce another today.

The two whoopers already have reared five offspring during their stay in the zoo.

George Douglas, director of the zoo, said since Josephine laid the new egg Saturday, Crip has been sitting on it about 90 per cent of the time, leaving only for food and water.

To date, Crip and Josephine have been left to their own instincts in the rearing of young, although officials have kept a 24-hour watch on their activities during the nesting season.

Douglas said if the second egg appears on schedule, the clutch will be removed from the birds' pen and placed under artificial incubation.

He believes, he says, that the cranes' success of only three live offspring in seven years of egg-laying can be improved upon.

Overdue Bills End Long Separation

MIAMI (UPI)—Charles Colvin, 36, started out to collect an overdue bill Monday and found his 31-year-old brother who was separated from him at birth.

"We are going to find out everything we may have in common and we will just start having some fun together," the delighted Colvin said.

The brother, Walter L. Widger, 31, was just as excited, even though he had thought some one was playing a practical joke at first.

Colvin, whose natural name was Widger, said his mother died in Syracuse, N. Y., a few days after Walter was born.

To date, Crip and Josephine have been left to their own instincts in the rearing of young, although officials have kept a 24-hour watch on their activities during the nesting season.

Douglas said if the second egg appears on schedule, the clutch will be removed from the birds' pen and placed under artificial incubation.

He believes, he says, that the cranes' success of only three live offspring in seven years of egg-laying can be improved upon.

NEW YORK (UPI)—William E. Pouch, 84, board chairman of the Concrete Steel Co. and a leader in the Boy Scout movement for more than 30 years, died Monday after a long illness.

GRANVILLE, N. Y. (UPI)—J. Stanley Brown, 63, retired vice president of the Chemical Corn Exchange Bank and an author of several books on business, died Sunday.

LOS ANGELES (UPI)—Samuel T. Norton, 82, pioneer Los Angeles architect who designed the Wilshire Fox Building and many of the city's other structures, died Monday after a long illness.

PALM SPRINGS, Calif. (UPI)—Mrs. Peary Bull, 32, program scheduler and radio columnist for radio station KCMJ, died Monday after she was struck by an apparent heart attack while working at her desk.

'Resort' Is Bad, Vacation Sought CHICAGO (UPI)—James Rini, 40, appealed to Judge Joseph A. Pope Monday to cut short his "vacation" because "this resort is no good for my health."

The "resort" is Stateville Penitentiary, to which Pope sentenced Rini to nine years imprisonment for burglary.

said he was placed in an orphan home and later adopted by a family in Syracuse named Colvin.

Walter was "given by my father to a lady who wanted a tiny baby very much."

Walter never was officially adopted. He learned his real name at 16 and has used it since.

Colvin came to Miami five years ago to open a radio and television repair shop. Widger came three years ago and has worked since as a bus driver.

Colvin said he picked up the telephone book Monday to look up the number of a man who owed an overdue bill. His eye fell on the name "Walter L. Widger."

"I felt kind of foolish but I had to call," Colvin said. He did, and the reunion was effected.

Oil accounts for \$2,400,000 worth of oil heating fuels used in U.S. homes; gas for \$1,800,000,000 and coal and other fuels for \$1,000,000,000.

Quotable Quotes

MIAMI—Capt. Raymond Ruppert, pilot of an Eastern Airlines propjet Electra, who took violent evasive action to avoid a collision with a military jet.

"That was a mighty big-looking B47."

CINCINNATI—John D. Patterson, deputy surgeon general of the U. S. Public Health Service, on job sickness:

"It is estimated 400,000 new cases of diseases which occur each year are clearly occupational in origin."

LOS ANGELES—Vice President Richard M. Nixon, on the illness of Secretary of State John Foster Dulles:

"It seems a sad commentary that the secretary of state should have to become so ill for people to appreciate him when this period of history is written it will be a record for the doctor in one of the most difficult periods of all time."

OFFUTT AIR FORCE BASE, Neb.—Prince Constantine of Greece, on his tour of the United States:

"My eyes were opened wide by the military fortresses in the United States."

CHICAGO—Dr. William J. Gay of Woodstock, Ill., on the use of tranquilizing pills in preparing animals for slaughter:

"It gives them a feeling of false confidence."

JACKSONVILLE, Fla.—Dancer Joe Greco, promising that the grove will pay on although he and several of his company were injured in a bus crash:

"The kids want to go on, and that's the best way to forget that moment. I guess God was with us. We went smack into those four trees—the trees went right into the bus."

DANVILLE, Ill.—Bryan Early Lake, complaining that federal agents awakened him just as he was falling asleep after toiling over his moonshine still all night:

"I was just dozing off. It was my first batch. The feds were my first customers."

INDIANA, Pa.—Sen. Hugh Scott discussing the defeat of Pennsylvania's statewide GOP state last Nov. 3:

"A wave of demoralization swept over the party like a black tide. Our will to win suffered heavy damage."

PHILADELPHIA — Comedian Jimmy Durante, observing his 66th birthday, discussing how long he'll continue his career:

"The minute I don't feel up to it, you know I won't be there, and the minute it becomes work, you don't feel up to it."

Labor Is Debating 'March' On Capitol

SAN JUAN, P. R. (UPI)—The high command of the AFL-CIO was reported today to be considering the idea of sending "shock troops" to Washington to dramatize the plight of nearly five million unemployed Americans.

Union leaders believed an AFL-CIO-sponsored march on Washington by special bus and train might spur federal action to stimulate the economy.

Walter Reuther, chairman of the executive council's economic policy committee, was reported to favor the idea, which was placed before the committee at a lengthy session Monday.

"I'm afraid Congress and the administration do not realize how serious unemployment is," Reuther said. "We have to use some shock treatment to wake up our government."

Mines Are Closed, Coal Miners Riot

MONS, Belgium (UPI)—Mounted police used tear gas and fire hoses Monday night to break up a mob of about 500 anti-government strikers in this city in the heart of Belgium's "black belt."

About 30 rioters were arrested here and in nearby Guaregnon, where the anti-government demonstration started.

The rioters were protesting a government plan to close coal mines which are producing fuel the nation does not need. Even after months of layoffs running to as much as 12 days a month, the government has a record 7 million tons of coal on hand.

DR. LOUIS E. CIMINO

Doctor To Speak At School Tonight

Dr. Louis E. Cimino will speak tonight at 8 in the Pinecrest School.

The Tampa physician is a specialist in pediatric cardiology, and comes to Sanford under the auspices of the Florida Heart Fund Association.

The lecture is open to the public. Mr. and Mrs. Michael Carlo will host a reception for the doctor and his wife. Letters have been sent to all PTAs and parents, inviting their attendance.

To Lonely Heart, May Be Gay Blade

LONDON (UPI)—The London Chronicle carried the following advertisement in its lonely hearts column today:

"Lary, foul-tempered villain, divorced for wife-threatening, tall, dark, 38, interests music and photography when sober, invites correspondence."

George C. Marshall Near Death

Soldier-Statesman Has Severe Stroke In Hospital Today

FT. BRAGG, N. C. (UPI)—Gen. George C. Marshall, the military genius who fashioned the European recovery plan during the statesman years of his career, has suffered a second "more severe stroke" and is regarded in "serious condition."

The Army issued a medical bulletin this morning stating that the 78-year-old retired soldier-statesman experienced the latest stroke Tuesday afternoon. An announcement Tuesday had said that Marshall had become "moderately weaker" in his fight for recovery from a "mild" stroke suffered Jan. 15.

Doctors at Womack General Hospital said the latest stroke was "more severe than the previous one he suffered a month ago."

"His condition is serious and prognosis depends on future developments," said Col. George M. Powell, chief of medicine at the hospital.

"He is conscious and his blood pressure and pulse are stable," said Powell. "At present he shows no evidence of paralysis of his extremities." He had some difficulty in swallowing and seeing.

Marshall was the first man to rise to chief of staff of the Army without graduating from West Point. He directed the Army to victory during World War II and won the Nobel Prize for peace in 1953.

As secretary of state from 1947-50, Marshall developed the Marshall plan which made his name a synonym for American aid to stricken nations.

He retired in 1950, but President Truman recalled him in 1950 as secretary of defense, where he had a hand in getting the country's armed forces into shape at the start of the Korean War.

Causeway 'Dream,' But Request Sent

County Commissioners dismissed as a "dream" the possibility of a causeway across Lake Jessup yesterday, but said they would include the request in suggested projects to the State Road Department.

The causeway would connect Ovidio and Chuluota with South Sanford Ave.

In a discussion of primary road projects for the State Road Department district meeting March 12, Commissioners placed priority on the Oaten Bridge; widening of Geneva Ave. from Mellonville to French Ave.; four-laning State Road 434 from 1192 to State Road 428. The Board will request the resurfacing of State Road 436 from Altamonte Springs to Highway 1792.

Probe Is Started In Crash Of Blimp

PINECAMP, N. C. (UPI)—Investigators today sought the cause of a crash of a Navy blimp in which four crewmen burned to death.

Three other members of the crewman crew were injured when the blimp fell into a remote swamp near here early Tuesday. Rescuers who pushed their way through the mud and thick undergrowth found the injured survivors near the wreckage.

Searchers found the charred bodies of the others Tuesday afternoon in the center of the twisted wreckage. Beaufort County Coroner Bernard Paul said the bodies were burned beyond recognition.

The survivors, all described as "pretty badly burned," were reported in critical condition at a hospital in nearby Washington, N. C.

Tag Time Shorter, Line Gets Longer

Despite early warnings, they're standing in line at the county courthouse.

Men and women, young and old, with a sprinkling of babies and squirming children are waiting to get their 1959 license tags. The office has remained open this week from 9 a. m. to 3 p. m. The lines started forming Monday. Yesterday, the line stretched to the curb on Park Ave.

Clerks in the tax collector's office are too busy to tell how many licenses have been sold to date. They are taking care of the fairly customers as quickly as possible. And while the waiting affords many the opportunity to visit with friends, some get tired. One exhausted woman sat down for a rest and fell asleep yesterday. When she awoke, her place in line was long gone.

The deadline for the tags is Friday. Gov. LeRoy Collins has said "possibly no extensions." After Friday, the 1958 tags will be delinquent. So, those who haven't gotten license plates yet better stand in line. It's cheaper than paying a fine.

Odham Asks Public For Milk Decision

TALLAHASSEE (UPI)—The state Milk Commission today launched a public hearing to determine whether the people of Florida want to keep the controls or put the milk controls under federal administration.

Chairman J. Brantley Odham of Sanford said the purpose of the hearing was to "get on the top of the table" all comments from consumers, distributors, producers, and anybody else, just how they felt about the Commission.

There have been suggestions from various parts of the state that control should be placed under federal administration, as it has been done in Miami and Pensacola.

Odham said various members of the agency would present recommendations for law changes, and he hoped persons appearing before the Commission would do likewise.

Second Egg Laid, But Whooper Jig Means 'Jig Is Up'

NEW ORLEANS (UPI)—Bird keepers anxiously eyed a single whooper crane egg today and hoped the whooper that laid it can be hatched.

The whooper female on whom naturalists are pinning their hopes for perpetuation of the species, laid a second egg Tuesday. But she and her mate, Crip, stayed so frenzied a celebration dance that one of the eggs was broken.

"We don't know what happened," said George Douglas, director of Audubon Park Zoo, "but we're certainly sad."

Crip and Jo are the only mated pair of whooper cranes in captivity and naturalists are pulling for them to add to their brood of five living offspring. Only about 30 of the cranes are known to be still living.

Douglas said if Crip and Jo don't break the remaining egg, it will be placed in artificial incubation in 10 to 12 days. "Then, I think she will lay two more," he predicted.

Students To Show Art Works Here

Art students in Seminole County Schools will have their works on display this week.

The exhibit will be held in the vacant building at the corner of Park Ave. and First St.

Parents and interested persons are invited to see the paintings and drawings Thursday, Friday and Saturday from 3-5 p. m. The exhibit includes students in grades 1-8 from all county schools.

Levees Give Way, River Routs 600; Farmland Covered

RUSSELLVILLE, Ill. (UPI)—The maverick Wabash River cracked through levees in Indiana and Illinois, routing about 600 persons and washing out about 35 square miles of rich valley farmland.

Floodwise residents of farms and small communities in the path of the cascading water fled quickly and safely to higher ground.

The Wabash, on its worst rampage in nearly half a century, tore through weakened levees Tuesday at Oaktown, Ind., and two miles south of Russellville. The break on the Illinois side was the most severe.

A 200-foot hole torn in the levee near Russellville sent tons of water surging over a quarter of a mile of countryside within a 10-minute period. Thousands of acres of winter wheat were destroyed in fields under as much as three feet of water.

Farmers along the fringes of the flood worked through the night by the light of car headlights emptying silos of grain and moving to higher ground.

Others caught by the first rush of the floodwaters fled by row boat, logging skidder equipment and possessions they could hold.

The flooding came unexpectedly as the river had begun receding and levees were expected to hold.

Weather

Partly cloudy and windy with widely scattered showers today. Partly cloudy tonight and Thursday. Somewhat cooler some sections Thursday. High today in the 60's, low tonight upper 50's. Southwesterly winds 15 to 20 miles per hour, slowly diminishing to night.

Old Folks Hospital Bill Pushed; Tax Hike Looms

WASHINGTON (UPI)—House liberals today kicked off a drive to pass a controversial labor-back bill that would expand social security benefits to include medical care for old folks.

The legislation would in effect provide the elder with paid-up hospital and surgical insurance for life.

Bitterly opposed by the American Medical Assn. as a step toward socialized medicine, the measure is almost sure to stir up one of the hottest fights of the 86th Congress.

The bill, introduced today by Sen. Aime J. Forand (D-R.I.), is regarded as a "must" by the AFL-CIO and has wide popularity among oldsters, to whom Congress often caters.

Eventually, it would require big increases in social security taxes on employers and employees to finance it.

If you are a worker making \$4,000 or more a year, you now pay \$120 in social security taxes. Under present law, your tax will jump \$24 next January and climb gradually to a peak of \$216 in 1966.

Any worker earning more than \$4,000 would immediately be hit with a tax increase of more than \$12 a year. This is because the bill would apply social security taxes to the first \$5,000 in annual earnings, instead of the present \$4,000.

As a result, workers earning \$9,000 or more would be required by 1967 to pay \$286 a year in social security taxes. Maximum tax for self-employed covered by the program would then be \$427.50 a year.

Some foes charge that even this tax boost would not be enough to cover long-run costs of the new medical benefits. Forand claims only that his proposed increase would match costs "for some time at least."

Contract Awarded For New Type Ship

WASHINGTON (UPI)—The Maritime Administration has announced award of a \$248,528 contract for the design of a radically new type ship that will literally skim over the waves at 75 knots—three times the speed of ocean liners.

The contract, awarded Tuesday to Grumman Aircraft Engineering Corp. of Bethpage, N. Y., calls for the completion of blueprints for a hydrofoil ship within nine months.

Hydrofoils resemble airplane wings, but are smaller and work on the same principle. They are attached by struts to the hull of a ship, extending downward. As the ship's propeller thrusts it forward the hydrofoils lift it.

Health Dept. Told To End Squabbling

"We're all servants of the people of Seminole County and, as such, we should cooperate with each other."

These were the words of County Commissioner Lawrence Swafford yesterday when a dispute between county health department officials was settled amicably at the Board meeting.

The argument arose when Dr. Jack Thurmond, county health officer, told Commissioners that two Health and Welfare Department employees had not complied with

News Briefs

Russ Plan 'Bantam'
LONDON (UPI)—The Soviet Union said today it will mass produce a new bantam car.

Princess To Visit
LONDON (UPI)—Princess Margaret will visit London during the British trade fair in June.

Brandt In Tokyo
TOKYO (UPI)—West German Mayor Willy Brandt arrived here today for a three-day visit.

Ike At Concert
WASHINGTON (UPI)—President Eisenhower attended a concert by the National Symphony Tuesday night.

Want Legal Bingo
ST. PETERSBURG (UPI)—St. Petersburg Post 14 of the American Legion says it will ask the state Legislature to legalize bingo.

More Born Than Die
WASHINGTON (UPI)—Births in the U. S. during 1958 exceeded deaths by nearly a 2 to 1 ratio, Census Bureau figures showed today.

Castro Is Target
MIAMI (UPI)—The Miami News said today a new Cuban revolutionary movement is being organized in Miami against Fidel Castro.

Beck Trial Near End
TACOMA, Wash. (UPI)—Have Beck's income tax evasion trial went to the jury today following final instructions by the judge.

Chosen By Academy
NEW ORLEANS (UPI)—James A. Doolittle, Chicago, was named president of the Law-Science Academy at the group's meeting here yesterday.

Ike Heading South
WASHINGTON (UPI)—President Eisenhower flies south today for two days of short-sleeve diplomacy with the new president of Mexico, Adolfo Lopez Mateos.

Regulation To End
LAKELAND (UPI)—The controversial regulation raising standards on oranges for frozen concentrate will expire March 15, the Citrus Commission ruled Tuesday.

Satellite Can 'Spy'
WASHINGTON (UPI)—Congress was told today that U. S. weather satellites such as the Vanguard now in orbit could be used to detect H-bomb tests in Russia.

Trade Pact Signed
WARSAW (UPI)—Poland and the Soviet Union have concluded a trade agreement that will bring thousands of Russian watches, refrigerators and washing machines into Poland.

Members Sought By Farm Bureau
A membership drive was conducted by the Seminole County Farm Bureau last night. Roland Fairhead, chairman, urged every member to get a new member for the Bureau during the next week.

Mrs. P. J. Westgate told the group about farming in Poland. Her firsthand study was made during a recent trip to Europe.

The covered dish supper was held last night in the PFA building at Seminole High School. President Charles Lawson conducted the meeting.

'Standing' Offer

COLUMBUS, Ohio (UPI)—State Rep. Rhoderic G. Mills reported Monday that a taxpayer sent in this suggestion to boost state revenue.

A tax on bicycle seats "to make children pedal handling up saving wear and tear on their pants and correcting curved spines."

Five Billion Cards

NEW YORK (UPI)—Last year's sales of greeting cards with sentiments ranging from anniversary good wishes to hangover condolences totaled nearly 5 billion. The retail value of this mountain of sentiment was approximately \$550 million.

Shrine Club To Meet

The Sanford Shrine Club will hold an important business meeting Friday at 7:30 p. m. in the Shrine building opposite the Mayfair Inn.

All nobles are requested to be present and wear fun.

Government Asks Court To Settle Air Rights Case

Sanford property owners who think their land is worth more than the government does, are fighting a lawsuit in Orlando today.

The suit was brought by the government for air rights surrounding the Sanford Naval Air Station.

The land involves approximately 143 acres in the Palm Terrace Addition and the B. B. Russell subdivision. Property owners are asking "just compensation" for the air rights, which were seized by the government in a Declaration of Taking, Oct. 29, 1953.

The easement gives aircraft the right of way for free and unobstructed passage over the lands. Many property owners accepted the original government settlement.

The case is being heard in the Federal District Court Robert F. Nines III, assistant U. S. district attorney, is representing the government.

Among the defendants are the Atlantic Coastline Railroad, Florida State Bank, the City of Sanford, Seminole County, and the First Federal Savings and Loan Association.

Ike Lauds Dulles, Is Firm On Berlin

WASHINGTON (UPI)—President Eisenhower said today he wants cancer-stricken John Foster Dulles to stay on as secretary of state as long as he feels like staying on, because he feels like equal in the world in wisdom and knowledge of foreign affairs.

The President said doctors have assured him that the secretary's heart and mind are not affected by his disease.

Eisenhower said he and Dulles agreed during a talk at the Army's Walter Reed Medical Center Tuesday that the U. S. and its allies should go right ahead in their preparations for high level negotiations with Russia on the Berlin crisis and German problems.

On the Berlin crisis itself, the President said that if there is any shooting on this issue it will be the Russians who start it.

He said the Allies are firmly determined to carry out their responsibilities under 1948 agreements for the independence and welfare of the people of West Berlin.

He made it clear that the Allies intend to continue to supply Communist-encircled West Berlin even if the Russians go through with their threat to turn over to the East Germans by May 27 control of East Berlin and the access route to West Berlin.

"From this year forward," Herndon told the board, "the fund will be available for capital improvement and the completion of the unit."

Elks Club To Hold Barbecue Saturday

The Elks Club will hold a "charity barbecue" Saturday from 3:30 to 7:30 p. m.

Places will be available at picnic grounds, or boxed for home consumption.

Barbecued chicken, baked potatoes and "all the trimmings" will be included on the plates.

Funds from the sale of Elks' food will be used for the club's charity and youth activities.

Hot Kills Child

HOLLYWOOD (UPI)—Six-year-old Harold White was killed yesterday when a four-year-old spanion accidentally discharged a pistol he found under a d.

Thousands Attend Fair Opening Here

Thousands came to the American Legion Fair last night in the biggest turnout in history.

Fair officials, headed by President Lynn Lyons, are jubilant over the success of "kid's day."

An estimated 10,000 persons attended, 6,000 of them county children and pre-schoolers.

All Seminole County school children were admitted free yesterday. Rides on the midway were reduced to 5c. Although the difference in the regular price had to be absorbed by the American Legion, fair officials said "it was well worth it."

"Tonight will be Ladies Night. All women will enter the grounds without paying to see the county exhibits and displays in the commercial and American Legion buildings.

Gates will open at 4:30 p. m. daily. On Saturday festivities are slated to begin at noon. Tomorrow

ANOTHER CAPTAIN AT NAS — Cdr. Arthur E. Gustavson, U.S.N., dental officer, receives his certificate of promotion to captain from Capt. Gustavson, NAS commanding officer. Capt. Gustavson entered the Navy in 1941 after graduating from the University of Indiana. He and his family reside in Maitland.

Negroes Integrate, But Find Themselves Alone

FRONT ROYAL, Va. (UPI)—Twenty-two Negroes walked into a million-dollar high school boycotted by its white students today.

None of the more than 800 white students of Warren County High showed up for the first day of classes at the school since it was closed last Sept. 12.

Last fall 24 Negroes applied for enrollment at Warren County High but only 22 appeared today. School officials said there is now nothing to prevent registration of 91 other Negro students who have been attending boarding schools.

The Negroes left the school in a group at 10:30 a. m. after completing registration. They were picked up by their parents in private cars and driven away, refusing to answer any questions from reporters.

Police Lt. Dennis Thompson ordered the crowd of about 50 white spectators who had gathered to watch the Negroes enter the school to disperse about 9:30 a. m. He permitted only the reporters to stay in the street in front of the school.

About a dozen white students from the private schools mingled in the crowd. One of them, Bill Gibbs, 18, said he was "surprised that so many Negroes showed up." He added he believed a few white students would register at the high school later today or Thursday.

Down town, a half mile away, classes were under way for the county's white students in makeshift schools in which their parents chose to leave them in preference to the public school on a racially mixed basis.

Vanguard 'Crude,' Will Bear Fruit

WASHINGTON (UPI)—Scientists fondly described the world's first weather satellite today as "crude and primitive" but bearing the seeds of revolution.

Vanguard II, launched Tuesday at Cape Canaveral, Fla., will do today's forecasters no good. But its descendants, weather experts predicted, will.

Spot the lurch, track, and report the intensity of hurricanes, and possibly tornadoes.

For the first time observe and report global weather on a global basis.

Make possible accurate language forecasts and, perhaps, predictions of climate changes centuries in advance.

Give man the fuller understanding of weather he must have before he can hope to control it.

Vanguard II, a 30-inch sphere weighing 21½ pounds, is circling the globe every 126 minutes in an orbit which will keep it aloft for the life of the mission.

Estimates vary from 10 to hundreds of years and perhaps forever.

Jaycees To Attend Winter Conference

Some 500 Jaycees will arrive in Tallahassee tomorrow for the opening of the annual four-day winter conference of the Florida Junior Chamber of Commerce.

Former Gov. Millard Caldwell will address the president's luncheon Saturday. The convention will climax Saturday night with the announcement of Florida's "Outstanding Young Man" of the year.

Attending from Sanford will be Mr. and Mrs. G. Andrew Spear, Mr. and Mrs. Mason Wharton, Jack Wilber, David Klitzgenmith, Art Harris and Tom McDonald.

Truck Hits Auto

Minor damage was caused yesterday afternoon when a 1½-ton truck backed into a car driven by James B. Hutton at Third St. and Cedar Ave. Driver of the truck was W. J. Reed, NAS, Sanford.

His daily column from the nation's capital reports the human sidelights that are so often more revealing than dry facts. Read it daily in THE HERALD Starting Today

Congress To Put 'Bite' On Insurance Companies

WASHINGTON (UPI) — The House prepared today to pass the first tax bite of the young 84th Congress, but the increase would affect the average taxpayer only indirectly.

Called up for floor action was a controversial bill that would levy some 226 million dollars a year in additional income taxes on the life insurance industry. Its enactment would require the industry to pay about 345 million dollars in taxes on its 1953 income. That compares with the

219 million dollars in taxes exacted under a formula applied to income from 1935 to 1957.

The Treasury-backed measure appeared to have a good chance of passage. The insurance industry argued any tax increase might mean lower dividends for policyholders or higher premium rates. Other congressional news: Social Security: House liberals kicked off a drive to pass a labor-backed bill that would expand Social Security benefits to include medical care for old folks. Atomic: Democrats on the Congressional Atomic Energy Committee challenged the administration's latest nuclear power proposals as a sweetened rehash of old ideas.

Farm: Chairman Allen J. Ellender (D-La.) of the Senate Agriculture Committee said he would try to win approval by May 15 of a bill revising the government's wheat price support program.

Budget: Senate Democratic Leader Lyndon B. Johnson told the Senate that President Eisenhower has asked money increases of up to 80 per cent of a number of agencies, including the Budget Bureau which is cutting manpower in all other government units.

Gun Battle Fatal To One; 2 Injured

GLENDALE, Calif. (UPI)—The wife of jazz musician Johnny Zorro was critically wounded and her mother killed Tuesday night by a disgruntled suitor of the younger woman in a gun battle. Mrs. Susan Jamerson, about 60, was slain and her daughter, Mrs. Roma Parrazzo, 31, was near death at Glendale Memorial Hospital with a gunshot wound in the head. Mrs. Parrazzo, a former singer, is Zorro's wife. His legal name is David Parrazzo.

Mrs. Parrazzo's 4-year-old son witnessed the shooting melee which erupted, police said, when Robert Stason, 40, the would-be boyfriend, jumped from a closet in the Parrazzo home and opened fire on the musician's wife when she arrived home with her son and her mother. Mrs. Jamerson, the mother, recently moved here from Boston to protect her daughter from Mason who had criminally attacked Mrs. Parrazzo once and beat her two times in the past year, police said.

A trail of blood leading from the driveway of the home indicated Mason was wounded. Mrs. Parrazzo carried a small gun around with her because of her fear of Mason, police said. She returned Mason's fire when he emerged from the closet. Zorro achieved fame with the Page Cavanaugh Trio and later left the group to help form the combo with which he is presently working.

House 'Thrown In' LONDON (UPI)—The following advertisement appeared in the personal column of The Times: "Unlucky old Etonian forced to sell garage in heart of West End; three bedroom house thrown in."

F. WADE TYE

Sanfordite Given Architect License

F. Wade Tye of Sanford, has been awarded a license to practice architecture.

The license was granted by the Florida State Board of Architecture, after Tye successfully completed examinations last month. Tye has been employed by John A. Burton IV, Architect, since June, 1951. He came to Sanford from Jacksonville, where he was employed by Reynolds, Smith and Hills, Architects and Engineers. He attended Valdosta College, Valdosta, Ga., and holds a degree in architecture from the University of Florida.

Active in civic organizations, Tye was instrumental in the formation of the Sanford Civitan Club. He is a member of the Jaycees and the American Institute of Architects. Tye and his wife, Darlene, live in a house of his own design at 2417 Summerlin Ave. They have ten children, Gil, 3 and Robin, 3 months.

University Denies Report On Morals

GAINESVILLE (UPI) — University of Florida President J. Wayne Reitz has labeled as "completely false" newspaper reports that 500 students were involved in a morals investigation at the university.

Reitz issued a 200-word statement Tuesday as the first official mention of the nature of the investigation by Sen. Charles E. Johns' legislative committee. Reitz said he wanted to put the matter in its "proper perspective" after "specific statements made in one or more newspapers today concerning the extent of homosexuality at the University of Florida.

New Tune Expected In Juke Box Probe

WASHINGTON (UPI) — Senate investigators were expected to expose a new type of juke box scandal today by tracing loans made to gamblers and narcotics dealers.

Chief Counsel Robert F. Kennedy of the Senate Rackets Committee said the hearing would involve "one of the major juke box distributors in New York and his activities in the factoring business—the lending business."

The financial inquiry followed a week-long investigation of mobster violence and "sacket union" activities in the coin machine business.

Kennedy said he viewed it as one of the most important matters to come before the committee. He was particularly cautious in discussing this phase with newsmen, declining to name witnesses in advance or to outline in detail what the testimony would disclose.

Kennedy said only that the committee would try to develop information on whether "loans, on a cash basis at high rate of interest, were made to underworld characters."

Chairman John L. McClellan (D-Ark.) closed out Tuesday's hearing with a blast at Teamster Local 266 and its president, Joseph DeGrandis.

He charged that the union label has become a "badge of extortion" in the New York area because of the local's alleged tieups with mobsters and shady coin machine operators.

DeGrandis invoked the Fifth Amendment when asked whether the local was a tool of racketeers trying to monopolize the coin machine business. So did a group of operators who were accused of having underworld connections.

Since World War II, damage claims totaling nearly eight million dollars have been filed with Russia for five American planes shot down by Soviet fighters. Russia has paid only \$24,947—half of one claim.

The United States took two of the claims to the World Court but Russia refused to submit to the court's jurisdiction.

A claim for the transport plane, which this country charges was shot down by Soviet fighters, hasn't been figured yet. The plane, less its extensive communications equipment, originally cost about \$2,450,000.

State Department officials declined to speculate on damages that would be asked for the 17 airplanes around the plane. Russia has returned six bodies but maintains it has no information on the other 11.

Snow, Freezing Rain Hit Mid-Nation

United Press International

A fast-moving storm, which dumped up to eight inches of snow in Montana, tapered off in light snow and occasional freezing rain in the Midwest today.

About an inch of snow accumulated during the night in central Iowa, northern Illinois and southern Michigan, with traces of snow or sleet reported elsewhere in the Ohio Valley and Great Lakes.

Snow flurries also continued during the night along the eastern slopes of the Rockies in Montana, Colorado and Wyoming and the high plains of the Dakotas and Nebraska.

Tuesday's heavy snow in the northern plains was blamed for at least three traffic deaths, two in Montana and one in Idaho.

Meanwhile, the Washash River unleashed fresh floods in Indiana and Illinois when it ripped through levees and forced hundreds of farmers and their families to evacuate.

Colder air accompanied the snow, dropping temperatures from 15 to 25 degrees as far south as northern Texas and Oklahoma. By contrast, warm gulf air spread through the Southeast into Tennessee, holding overnight temperatures in the warm 50s and 60s.

Colder weather was predicted Tuesday from the Rockies to the Atlantic with the exception of Florida. Snow flurries in the Great Lakes were expected to spread into northern New England, with rain mixed with snow seen for southern New England and upper New York.

Outer Space Calling, Students To Answer

It is encouraging to know that Seminole High science students are interested in outer space.

Explorations into the "great unknown" hold more interest for local students than any other scientific subject, according to data compiled by teachers. From 100 student semester projects, approximately 85 per cent selected a topic relating to some phase of missiles, rockets and space explorations.

Teachers reported that class discussions on space have more participants, and are more interesting to students than other scientific subjects.

This, no doubt, is true all over America. The challenge of the unknown always is heard by youth; the challenge always is accepted. It always has been so.

Not too many years ago, the challenge to youth was conquest of the air. A young man named Charles A. Lindbergh did the "impossible" when he flew the Atlantic in "The Spirit of St. Louis."

Before that, challenges to youth revolved around the electric light, radio, the telephone and telegraph and all of the other things which today are accepted as a part of ordinary living.

These things were not possible, however, until the challenge of something new and different was accepted, and met. It is possible that today's school children will become some of the space age's great scientists. A flight to Mars, Venus and the moon may be in the lifetime of these youngsters, as "ordinary" as a non-stop flight from New York to San Francisco.

Detractors of the American public school system will might take note of the interest in space exhibited at Seminole High. So might the chroniclers who complain continually that American youth has "gone to the dogs."

Students of today aren't interested in the things which amazed their mothers and fathers in the old schoolhouse. This is only natural. Today's youngsters wear "crew cuts" and blue jeans; some get into trouble.

All in all, they appear to be normal, growing youngsters, fully capable of accepting the challenge when this generation is gone. When all of the chips are counted, the present adult generation hasn't done too well with this old world.

Harness Horse Racing

Why not have harness racing in Seminole County?

The voters overwhelmingly approved of the idea in 1946. The track is here, the horses are here, the officials at Seminole Raceway anxious to start.

We are not interested in all of the legal ramifications which developed in the last session of the Legislature. Neither are we interested in promoting one endeavor at the expense of another.

The Herald doesn't plan to take the side of those in favor, nor with those opposed. From our standpoint, there is only one side: that of the people. If a majority of Seminole voters want harness horse racing, they should have it.

12 Die In Crash; Turk Premier Hurt

LONDON (UPI)—The Cyprus conference was postponed today pending the recovery of Turkish Premier Adnan Menderes from injuries received in a plane crash that took 12 lives Tuesday.

Menderes, who was reported suffering from shock and bruised ribs, will undergo a full physical examination to determine whether he will be able to withstand the tension and stress of a major diplomatic conference.

The premier was one of 10 persons who survived when their plane crashed in a wood in a dense fog near Gatwick Airport south of London. The Turkish turbo-prop Viscount airliner had been diverted from London's airport because of the fog.

Greek Premier Constantine Karamanlis, also arriving for the conference that was in lead to independence for Cyprus, landed at Gatwick Airport a short time later without any difficulty.

Mr. McMillan immediately cancelled all further tripartite meetings.

The Cyprus conference pending a report on Menderes' condition.

VIDEO'S DELIGHT

Assignment Washington

By Ed Kotzba

WASHINGTON — In his private office, I found there a gentleman who took the controversy with a grain of — uh, rice.

Instead, he turned out to be such an overpowering cereal salesman that a half hour later I walked out grudgingly with an armload of packaged rice and a recipe for the first lady of our house.

"Let me tell you about rice," he said. And he did. Told about his good friend, John H. McMillan, president of the Cargill Co., Inc. who came down with a coronary six years ago.

"The doctors gave him only three months to live," said the lawmaker. "A professor from Duke University had a rice diet that Mr. McMillan went on. After nothing but rice and dissolved tomatoes. The third year it was rice, stewed tomatoes, and chicken with all the animal salts boiled out."

Not long ago, Mr. McMillan invited the Congressman down to his yacht. "That man," said the lawmaker, "is still on rice. He's about 68 and down to 140 pounds from 185. He's so physically fit that he can run five miles at the drop of a hat."

But back to spuds, there is also a gentleman who has his eye on the potato — Sen. Henry Dworshak (R., Idaho). His state grows potatoes, too.

Mr. Dworshak lamented that the Federal government ships in 60,000 pounds of free rice for Idaho's school lunch programs while his state's bumper potato crop — some of it grown just two blocks from the schoolhouses — is fed to animals instead of to kids. The Senator called it a fiasco.

"I'm not taking sides in this 'vegetable hashup, calorie-wise or otherwise, but to the girls who may be curious about Mrs. Smith's complete daily diet menu, here it is:

For breakfast, toast and honey with coffee (black); lunch, fruit and cottage cheese salad; dinner, broiled steak, medium-rare, tossed salad, and baked potato with a pat of butter.

The Senate lady eats the jacket of the potato, too. "Nutritious," she says, "especially if it's a Maine potato."

Senator Will Ask House Seats Cut If Voting Denied

WASHINGTON (UPI)—Sen. Pat McNamara said today he would introduce legislation to cut the number of House seats allowed any state which deprives citizens of voting rights.

The Michigan Democrat also said he would propose a constitutional amendment to establish maximum national standards for voting in federal elections.

McNamara proposed an 18-member committee on congressional representation. It would meet every two years to determine whether any state had deprived citizens of voting rights and decide how much any such state's House delegation should be trimmed.

McNamara said the Constitution provides for reduction in a state's representation but that Congress has never spelled out by law how it could be done.

News Of Men In Service

James A. Burfield, commissary man second class, USN, son of Mrs. Esther McRay, 808 Maple Ave., Sanford, returned to Long Beach, Calif., Feb. 6 aboard the heavy cruiser USS Columbus after a six and a half month cruise with the U. S. Seventh Fleet in the Western Pacific.

While with the fleet the Columbus, flagship of Commander, Cruiser Division Three, took part in escorting Chinese Nationalist vessels which were delivering supplies during the Quemoy and Matsu crisis.

The cruiser also made short visits to Yokohama and Sasebo, Japan, Okinawa, the Philippines, and the British Crown Colony of Hong Kong.

Washington Calling

By Marquis Childs

WASHINGTON — In the many-sided dispute over labor legislation, one thing should be clear even to the leaders of the big unions. The truly appalling abuses of labor power exposed over recent months have created a widespread demand for reform.

Those who are jockeying for position and power in the struggle will ignore this at their peril. What may seem a temporary advantage to be gained by blocking moderate and limited reform can turn into a serious backfire if the end result is no legislation at all. The fight will be waged from three — perhaps four — vantage points. Here in general is the alignment:

1. Senator John F. Kennedy was first in the field with a broad reform bill to put an end to the notorious abuses disclosed in the investigation of James Hoffa and his Teamsters union. But the Kennedy bill, co-sponsored by Senator Sam Ervin Jr. of North Carolina with wide Democratic support, also contains as a kind of sweetener minor amendments in the Taft-Hartley Act that labor wants. Without these amendments the AFL-CIO might oppose the measure and perhaps succeed in killing it.

2. The Administration has put in its own measure which contains the reform proposals aimed at union corruption. It goes further in Taft-Hartley amendments, taking in new ground on secondary boycotts and certain forms of picketing strongly opposed by labor. This is a triumph for Secretary of Labor James Mitchell who held off the conservatives in the Administration in order to present a "moderate" but allegedly comprehensive bill.

3. Senator John McClellan whose committee exposed the abuses is expected to come up with his own proposals going way beyond both Mitchell and Kennedy.

Officials Confirm Wheat Radioactive

WASHINGTON (UPI)—The Atomic Energy Commission today confirmed reports that a sample of Minnesota wheat grown in 1957 contained an unusually high amount of radioactive strontium — 20 from atomic fallout.

But officials said there is no indication anybody in the world is getting anywhere near the maximum permissible dose of strontium — 20 from food. They said the average of Minnesota wheat sample for 1956-57-58 was far below the permissible level.

In general, the northern hemisphere gets more fallout from nuclear tests than does the southern hemisphere. Among northern hemisphere nations the U. S. receives the biggest dose. Among the states, fallout is greater on the average in the northern tier.

Strontium-90 is considered the worst long-term hazard among the various fallout particles. It is long-lived and, being chemically similar to calcium, is absorbed by the bones. In large enough amounts its radiation can cause bone cancer and possibly leukemia.

After 28 Years, Chief Is Retiring

After 28 years of service in the Navy, Aviation Structural Mechanic Stanley Janowski of Heavy Attack Squadron Nine, (VAH-9) has retired in the fleet reserve.

Chief Janowski, enlisted in the Navy as a seaman apprentice in Scranton, Pa., in 1931.

He served with Naval aviation from its earliest stages. Besides his experiences in aviation, he had many adventures as a Navy diver, working on salvage missions with the fleet.

Chief Janowski recalled his years aboard cruisers in the 1930's, and World War II, where he saw action in the North African campaign.

The veteran confided, "I'll miss the Navy, it was good to me and I had a lot of good times. But I am looking forward to retirement and a quiet home in Jacksonville.

Janowski is entering a partnership in Jacksonville with the D & R Body and Paint Shop on Normandie Blvd.

Let Reds Visit, Senator Suggests

MIAMI BEACH (UPI)—Sen. Gale McGee (D-Wyo.) proposes that the U.S. open its borders to Russian visitors to let them have a first-hand look at democracy in action.

"We have nothing to hide," McGee told the Dade County Bar Assn. Monday. "Just get them over here to see, and let the Russians send the toughest ones (Communists) they want."

"They may write the party line when they get back, but they will talk and whisper about what they saw here."

Allen Widow Weds

NEW YORK (UPI)—Portland Hoffa, widow of comedian Fred Allen, and advertising executive Joseph Rines were married Monday at St. Malachy's Roman Catholic Church.

Oriental Art Is Club Topic At Sanford Garden Circles

"Simplicity is the keynote in oriental flower arranging," stated Mrs. H. B. Moore of Ft. Pierce in an outstanding talk before members of the Driftwood and Isora Circles of the Sanford Garden Club. The meeting was held Friday morning at the home of Mrs. John Morgan in Mayfair.

Mrs. Moore, introduced by her sister, Mrs. Fred Ganas, explained that she had studied the oriental art under Mrs. Thomas Gilbert of Ft. Pierce who holds a Japanese degree in flower arranging. She said that there are numerous schools in Japan dedicated to this art and are supported by the Ministry of Education. In telling of the history of flower ar-

rangements in the Far East she pointed out that the color of the flowers is less important in the foreign arrangements than line and design. Very little rare and out of season material is used and in all arrangements the materials are used as nearly as possible to the way they grow. Profusion is not admired as the vacant spaces are as meaningful and beautiful to the people as the flowers are to them. Contrary to the popular belief that in each arrangement heaven, man and earth are represented, Mrs. Moore stated that Japanese rules are very flexible.

Annual Ball Is Held By Boat And Ski Club

The first annual Commodore's Ball, given by the Sanford Boat and Ski Club to honor the incoming Commodore, Charlie Powell, was to date, the highlight of this year's social calendar.

Held on Friday the 13th at the Club house of the Florida Power Corporation, the dance was enjoyed by both members and friends of the club, proving them as adept on the dance floor as they are on skis. A presentation

was made by Leon Taylor to the retiring commodore, Dave Mac Gillis, praising him for his tireless efforts in behalf of the club. Mr. Mac Gillis promised his support to the new commodore.

Other officers who were honored at the dance were Jim Young, Vice Commodore; Bea Hart, Corresponding Secretary; Lucky Payne, Recording Secretary; and Edna Mac Gillis, Treasurer.

Many thanks go to the committee members whose efforts made this a most successful dance.

The monthly Moonlight Cruise will be held this Saturday, the 14th. There will be a cookout at Frenchman's Landing. Members may leave Sanford at their convenience, and return as a group by moonlight.

Church Calendar

WEDNESDAY

The senior choir of the First Presbyterian Church will meet for supper at 6 p. m. and for rehearsal at 6:30.

The Mid-Week Bible Hour of the First Presbyterian Church will be conducted by the Pastor, at 7 p. m.

The Chancel Choir of First Presbyterian Church will be conducted by the Pastor, at 7 p. m.

The Woman's Society of Christian Service of First Methodist Church will have a study entitled "Middle East Pilgrimage," at 9 a. m. closing with an Arabic Tea Nursery Open.

Prayer meeting and study of Soul-Winning at First Baptist Church, 7:30 p. m.

A Prayer group will meet in the Daughters of Wesley Classroom.

The Shut-In Prayer group will meet at the home of Mrs. Alice Palmer, 914 Myrtle Ave.

The third session of the W. S. C. S. study course, "Middle East Pilgrimage," will meet in McKinley Hall.

Chapel Choir rehearsal at 8:00 p. m.

Senior Choir rehearsal at 6:15 p. m.

7:30 p. m.—The Commission on Membership and Evangelism will meet in McKinley Hall.

Lenten Lines

BY
Good Shepherd
United Lutheran Church
Rev. Ernest B. Holck, Jr.

When the prophet Joel was talking about the seeing of visions by the young men, and the dreaming of dreams by the old.

He must have foreseen the vision of Leonardo Da Vinci who wrote "Man shall fly" on the outside of his drawings of the first flying machines.

As each jet cuts its trail across the sky.

The dream has become a vision the vision a reality.

Man flies.

Personals

Robert F. Sheldon, group manager of Southern Bell Telephone Co. is confined to his home with the mumps.

Mrs. C. W. Hamill Sr. of Clewiston arrived today to visit Mrs. George Maffett while in Sanford. Mrs. Hamill will attend the wedding of Allan Maffett and Miss Nancy Pilot. Mr. and Mrs. C. W. Hamill Jr. will arrive Friday for the wedding.

Mr. and Mrs. Harold H. Kastner, Twin Lakes, are home after attending the United Fresh Fruit and Vegetable Convention at the Statler Hilton Hotel in Dallas, Texas.

In a letter to Sanford, Mrs. Kastner described their trip which included much sightseeing in New Orleans where they saw the Mardi Gras Parade. In Dallas they attended the Texas "Round Up" party at the Dallas Memorial Auditorium and also went to the Elks Club to pay their respect from Sanford. High lights of the Dallas visit, for Mrs. Kastner, included a Neiman Marcus fashion show and having an artist use pure gold in sketching a picture of her.

Notice To Club

Mrs. C. M. Flowers, president of the Seminole County Federation of Women's Clubs wishes to call the attention of all club women to the forthcoming telecast of the General Federation President on February 20, 1959.

Miss Gifford will appear over the Edward J. Murrow Person to Person program at 10:30 p. m. E. S. T. on the Columbia Broadcasting System. Mrs. Murrow's visit to Headquarters will give women all over the country an opportunity to see the Headquarters Building in Washington, D. C.

Bridge Club Meets

The next meeting of the Sanford Duplicate Bridge Club will be on Thursday evening at 8 o'clock at the Community Center, 10th and Magnolia.

At the last evening of bridge high scores went to Mrs. E. E. Anderson and Mrs. Rosa Adams. Mrs. Denver Cordell and Clude Ramsey won second and Dr. and Mrs. L. Munson won third.

Story Book League Has Recent Meet

The Little Women's Story League met recently in the home of Sandra and Danell Wright, Loch Arbor.

The meeting was presided over by Dottie Jardine, vice-president and reports and letters were read by Linda Williams, secretary.

During this time an Easter program for the aged at different rest homes, was planned.

Members present were Margie Kay Lippincott, Karen Metler, Dottie Jardine, Susan Dekle, Linda Williams, Pat Mooreen, Linda Mitchell, Sandra Wright, Danell Wright, Mrs. Virginia Roche and sponsors, Mrs. E. C. Williams and Mrs. C. T. Jardine.

The program included stories by Sandra Wright and Pat Mooreen and the girls read poems and verses from red hearts and presented them to their former sponsor, Mrs. Roche. Mrs. Roche showed the girls a hand puppet she had made and used it in the telling of stories.

New Filling For Eclair
SAN FRANCISCO (UPI)—The California Foods Research Institute recommends this dessert: Fill eclairs with banana ice cream and well-drained fruit cocktail and top with chocolate sauce.

CAMPUS BEAUTY

Miss Janice Luxen Is College Beauty

Miss Janice Luxen, daughter of Mr. and Mrs. Sumner H. Lux, Longwood, has been named one of the freshmen beauties at Snead College. Janice was elected to her honor by the entire student body and will be featured in the 1959 edition of The Pines, the college yearbook.

Local Events

Mrs. Lil Seick of Fort Park School in Orlando will be the guest speaker at the African Home department of the Woman's Club on Thursday Jan. at eight o'clock.

Hostesses for the day are Mrs. Alford Chiles, Joseph Terlap, Mrs. Earl Pitt, Mrs. George Pittar, C. Welch Coleman and Mrs. C. Welch Coleman.

The monthly picnic of the Seminole Evening Demonstration Club will be held Thursday evening Feb. 19th, at 5 o'clock, at the Jer on 25th street.

Program for evening will be "Furniture eton and Arrangement" and "Pat Fletcher and Mrs. Edith Myers."

Free Facts

KING'S R. I. (UPI)—Can foot save you money? That depends on how much frozen food your family is willing to eat. James D. Bromley, nutrition education specialist at the University of Rhode Island, says a freerzer pay its way. You can use it often. It means having most of your vegetables and fruits from a freerzer, said Bromley. It fills a 18-cubic foot freerzer once a year (about 40 pounds of frozen foods), the cost of operating the freerzer amount to about 200 full pounds, he said. If you fill a freerzer 2 1/2 times a year (4 pounds of food) the cost of operating the freerzer drops to 12 cents per pound of frozen food.

Influence Of Color
T. PAUL, Minn. (UPI)—Color in a room has more to it than gets the eye. Some colors may induce fatigue, or a bright turquoise against light red, while other color combinations may cut down working efficiency or cause adverse moods, warned home economist Gertrude Esteros. She said color selections for homes are too often based on fashion or personal whim, with no consideration for practical factors.

MISS BETTY JOYCE LAWRENCE

Engagement Told

Mr. and Mrs. C. C. Lawrence of Longwood announce the engagement of their daughter, Betty Joyce, to Ernest H. Wright, son of Mr. and Mrs. Barlow Wright of Sanford.

Miss Lawrence is a graduate of Luman High School and is employed by the Coca-Cola Bottling Company.

The wedding will be an event of April 18th and nuptial plans will be announced later.

Newcomers

Mr. and Mrs. C. J. Letigande, Navy, W. 3rd Street from Houston, Tex.

Mr. and Mrs. J. C. Robertson, Navy, W. 3rd Street and from Walters, Okla.

Mr. and Mrs. V. R. Aiken, Navy, W. 9th Street from Lima, Ohio.

Mr. and Mrs. M. J. White, with Westinghouse, W. 3rd Street from Hartwell, Ga.

Mr. and Mrs. R. H. Register, employed by Atlantic Coast Line, W. 1st Street from Tampa, Fla.

Mr. and Mrs. A. P. Robinson, Navy, Mangrove Ave. from Eddsville, Ky.

Mr. and Mrs. B. Reynolds with Capital Const. Co., W. 3rd Street from Abingdon, Va.

Mr. and Mrs. V. E. Garrison with Bollinger & Martin, West 1st Street from Lexington, N. C.

Mr. and Mrs. N. Heitman, retired minister, Elm Ave. and from Indianapolis, Ind.

Dr. Darby Speaks

The Magnolia Circle met at the home of Mrs. William Watson with Mrs. James Hunt as hostess.

Guest speaker was Dr. J. F. Darby from the local Experiment Station who explained about the various diseases and pests in the Florida gardens and recommended ways to eradicate these pests. He also showed a set of interesting slides.

The hostesses served coffee and cake with Mrs. J. E. Nigh as presiding at the coffee table.

Bridge Club Meets

The next meeting of the Sanford Duplicate Bridge Club will be on Thursday evening at 8 o'clock at the Community Center, 10th and Magnolia.

At the last evening of bridge high scores went to Mrs. E. E. Anderson and Mrs. Rosa Adams. Mrs. Denver Cordell and Clude Ramsey won second and Dr. and Mrs. L. Munson won third.

Party For Peggy On 7th Birthday

Little Miss Peggy Lynn Rabun recently celebrated her 7th birthday with a party at the home of her parents, Mr. and Mrs. Carl Rabun, Jr., West First Street.

The children gathered on the back lawn where they played games and were told stories by Dottie Jardine and her puppet, Ollie.

Traditional birthday cake, in pink and white, was served with ice cream and candy to the following guests: Carole Ann Leasure, July Smith, Janet Tripp, Nancy Moore, Julia Ramsey, Susan Dabbe, Beverly Morris, Charlotte Scruggs, Mollie Fleischman, Lisa Sawyers, Donna Sawyers, Janette Wolf, Sylvia Parker, and Carol Hardin.

To locate a leak in a gas pipe, brush soap suds on the pipe. The suds will bubble where the gas is escaping.

Integration Showdown Set In Florida Legislature

Negroes May Find Whites Departed

MIAMI (UPI) — Four Negro children assigned to Miami's Orchard Villa white elementary school may find no white children to mix with them when they enroll next September.

White residents are moving out of the Orchard Villa neighborhood rapidly. And those white children remaining will be permitted to transfer to an all-white school if they meet "pink slip" requirements of the Dade County School Board.

Orchard Villa is on the fringe of a mushrooming Negro residential area. Three years ago, 480 white children crowded into its classrooms. There were about 250 when school opened last September, but only 170 on Feb. 1, 1959, the school board found in a detailed study of the case.

The school board members refused to make any predictions Wednesday.

"I don't think anybody knows," said Chairman C. Raymond Van Dusen. "We'll just have to wait and see."

The board concluded in its 23-page study, which included interviews with all the 143 white families, that approximately 100 white pupils might remain at Orchard Villa in the four Negroes enter. Eighty-five families said they would seek to transfer their children.

Deb Sheds Eddie; He Can Marry Liz

HOLLYWOOD (UPI) — Movie-land's "perfect" marriage crumbles to an end today when Debbie Reynolds divorces singer Eddie Fisher, shattering a classic triangle involving the couple and actress Elizabeth Taylor.

In seeking an uncontested divorce, the 26-year-old Debbie asked custody of the couple's children, Carrie, 3, and Todd, 1, in addition to a cash settlement and the family home.

Tousle-haired Eddie, 30, gains his freedom and an opportunity to marry Liz, 26, widow of his late friend Mike Todd.

The 3½ year Debbie-Eddie marriage flourished last summer when the widow Todd and Fisher journeyed to New York for a whirl of nightclubs and a side trip to Eddie and Debbie's honeymoon kiosk in the Catskills.

Resultant publicity led to a separation Sept. 9 which triggered today's divorce action.

Mrs. Kinlaw Dies; Funeral Saturday

Mrs. Sallie E. Kinlaw, 69, 515 Myrtle Ave., died at 8 a. m. today in a local nursing home after a lingering illness.

She was born July 16, 1889, in Bladenboro, N. C., and had lived in Sanford for the past 10 years. She was a member of the First Baptist Church.

Survivors include her husband, Samuel Kinlaw, five children, Mrs. Bonnie Mae Perry, Bailey, S. C.; Mrs. Arthur Bradshaw, Winter Park; Gregory Kinlaw, Stinson Park; and Mrs. Margaret Watson, all of Sanford; nine grandchildren, three great-grandchildren and one sister, Mrs. Fred Nance, Bladenboro.

Funeral services will be held at 2:30 p. m. Saturday at Hrisson Funeral Home, Dr. W. P. Brooks will officiate. Burial will follow in Greengate Cemetery.

Sanford Juniors Get Tourney Win

Sanford Junior High beat the All Souls Parochial basketball team in yesterday afternoon's game which opened the Seminole County Junior High tournament.

Coach Howard Gordie's fast team left the courts with a 48-30 victory.

The Lake Monroe eagles defeated the Lyman squad in another tilt, 29-25.

Three games are scheduled for tonight. The Sanford Juniors seek a victory over Blavia. Oviedo meets Lake Monroe and the Oviedo girls' squad plays the Blavia girls.

ONLY ONE MORE DAY TO GO — The line was long this morning at the courthouse, as people waited to buy their 1959 license tags. Tomorrow is the last day, and Gov. LeRoy Collins has said, "no extensions." The courthouse will be open tomorrow from 9 a. m. to 5 p. m. (Herald Staff Photo)

Famed Blue Angels Stage Trick Show

For 15 breathtaking minutes today, the Navy's famed Blue Angels gave spectators at Kamey Field a demonstration of their skill in precision flying.

After a "feel-out" pass to test the turbulence of the air, four of the jets performed diamond rolls, echelon rolls and other examples of split-second timing.

While the four regrouped after each maneuver, the two "solos" did horizontal rolls, vertical climbs and back to back, or sandwich, passes. A specialty is the knife edge pass with each plane at a 90 degree angle, going in different directions at 500 miles per hour.

Spreads varied through the show from 150 to 600 miles per hour. In conclusion, the six planes passed over the field in two "vees." Then, while four of the planes flew at slow speed, the two solos passed beneath them at 500 miles per hour.

Naturally, a team like the Blue Angels couldn't use a normal landing break, so they peeled off from a diamond in a tucked under break.

Team leader of the Blue Angels is Lt. Z. V. Knott. Other members are Marine Capt. R. S. Maguire, Lt. H. P. Hunter, Lt. W. L. Rasmussen, Lt. G. R. Dewinter and Lt. J. L. Danian. All are stationed at Sbermar Field, NAS Pensacola, between air shows.

The Blue Angels will remain at Sanford through Sunday, flying daily at the International Speedway at Daytona Beach. Heavy Attack Squadron Nine will join the famous team in a fly-over during the three days.

Lt. J. B. Revis, Blue Angels maintenance officer, is also in Sanford to supervise the aircraft, which will remain on the flight line at Payson 51 when not in the air.

The planes are F1F Tiger, made by Grumman Aircraft Corp.

First School Day, Negroes All Alone

FRONT ROYAL, Va. (UPI) — Twenty-two Negro students began their first day of studies in Warren County High today, with 10 teachers and 30 classrooms at their disposal, but not a single white classmate.

Fourteen girls and eight boys, the only ones to register Wednesday when the school reopened under federal court orders, split up in groups as small as two and three in the huge brick building that will accommodate 1,000 students.

The Negro children again arrived in private cars and trooped up the driveway to the school heavily bundled up against 20-degree cold. Police were stationed at the entrance to the grounds to keep out all but students and teachers, but about 15 reporters and photographers were the only spectators on hand.

About 800 white children continued their classes in a private system that utilizes churches and other buildings. Their parents chose to keep them there rather than send them back to the high school with the Negro pupils.

Rep. Daniel Reed, New York, Is Dead

WASHINGTON (UPI) — Rep. Daniel A. Reed, who served long Republican terms, died today at Walter Reed Army Medical Center. He was 83.

Reed, who was also senior GOP member of the Tax-writing House Ways and Means Committee, had entered the hospital 14 weeks ago for treatment of an infected foot. Reed liked to describe himself as an old-fashioned Republican. He was strong for high tariffs and low taxes.

His views on these matters brought him into sharp conflict with President Eisenhower, who was the seventh President to occupy the White House since Reed entered Congress in 1918.

Property Survey Begins Next Week

A survey of county-owned public buildings and property will be made next week by a Winter Park Engineering firm.

A representative of James Gamble Rogers, Lovelock and Fritz toured Seminole County yesterday with Commission Chairman John Fowler.

Harold Johnson glanced at the buildings in question and was introduced to county department heads. His firm will evaluate the property and prepare a report for capital improvement.

The buildings under inspection will be the jail, built in 1925; courthouse, 1918; health center, 1909, and county home, 1926.

The survey was authorized several weeks ago by the Board of County Commissioners.

False Alarms Only

LITTLE CHUTE, Wis. (UPI) — Town board members complained today that corner fire alarm boxes were a nuisance. They have been used only for false alarms for the past two years, the board said.

First Hole Opens, NAACP Planning All-Out Campaign

TAMPA (UPI) — Florida Negroes, after punching their first hole in the state's public school color barrier, beefed up their efforts today to flatten the barriers from the Panhandle to the Gulf Coast.

NAACP President A. Leon Lowry of Tampa said the admission order of the Negro children to a Miami white school next September was "only a token thing."

He urged Florida Negroes not to be lulled by the move but to "press forward toward total compliance and acceptance of the laws."

He said the Florida NAACP is "pledged to continue its fight to end segregation by calling on all freedom-loving citizens to join hands in the preservation of our type of government."

Lowry said "we hope the Dade County School Board will promptly begin to extend the action taken to all areas of the county in the immediate future."

The Negro minister criticized members of the Legislature for calling the action "against the Constitution of Florida." He said such statements make "each intelligent citizen wonder if these men realize that they cannot place Florida's Constitution above the Constitution of the United States."

Lowry singled out President-designate of the Senate Dewey Johnson for his criticism. "We hope that the leader of the Senate will not use his office to cause Florida to march backward," he said.

Twirling Fantasy Set For Seminole

The Seminole High School "Twirling Seminoles" will lead the high school Friday at 8 p. m.

The routine to be presented is one they learned at a clinic in December.

The Central Florida Corps, Orlando, will present two routines at the Fantasy.

Boone, Edgewater, Ajopka and Seecreer High Schools will be on hand to present solos, ensembles and state routines.

The Orlando Corps will present a drill dance, which tells the dramatic story of dolls that come to life and dance around hunting their bears. This dance is presented by the Edgewater Majorettes, who won the Target Rifle Band championship. These majorettes also will present other routines and solos.

Tickets for this show can be bought from any majorette or band member. A dance will follow the show.

Weather

Generally fair and colder through Friday. High today in low 70's, low tonight 36 to 41. Northerly winds 12 to 25 miles per hour, becoming northeasterly during Friday. Small craft warnings displayed on the coast.

Symphony To Play Here On March 10

The Florida Symphony Orchestra will appear in Sanford, March 10.

Under the sponsorship of the Sanford Recreation Department, the orchestra will play in the Civic Center.

Although the Florida Symphony is only nine years old, it has won national acclaim from the nation's top music critics. This will be the first season in which "pops" will be presented, and Sanford audiences will hear the rousing tones and romantic ballads.

'Mixing' Ordered By Dade Officials

MIAMI (UPI) — Voluntary assignment of four Negro children to an all-white school in Miami next fall has set the stage for a pitched battle in the 1959 Legislature.

Arrayed on one side will be Gov. LeRoy Collins and his advisors on race relations, who favor moderation. On the other side will be most of the leaders of the Legislature, including several prospective candidates for governor, prepared to demand continuing resistance to racial mixing.

In voting unanimously Wednesday to admit four Negroes to Orchard Villa elementary school in September, the Dade County School Board said it could follow no other course under Florida's pupil assignment law. The Negro children live less than two blocks from Orchard Villa and are walking nearly a mile now to attend a Negro school.

Parents of the Negro pupils had requested relief under the pupil assignment law but had not filed suit in court.

A number of legislative leaders said they will see that the state gets measures during the April-May session that would halt even token integration at Orchard Villa or any other school.

Reaction to move came swiftly from all over the state. Key legislators predicted drastic action, probably in the form of the "last resort" bill and the parent option plan, would be taken to forestall or prevent integration at any school.

The so-called last resort bill would authorize county school boards to close down any school threatened with integration. Collins vetoed such a measure after it passed the 1957 session, but legislators said the Miami action will give them enough votes this year to override a veto.

Bank Bandits Caught

KENNESAW, S. C. (UPI) — Bandits robbed the Bank of Kenesaw of about \$20,000 today but were captured within an hour after their getaway car wrecked. Two of them were injured.

Ike Visits Mateos

ACAPULCO, Mexico (UPI) — President Eisenhower flew across the Rio Grande to this sunny resort city today to pay a get-acquainted visit to Mexico's new president, Adolfo Lopez Mateos.

Orange Orange Okay

WASHINGTON (UPI) — The House Commerce Committee today approved a Senate-passed bill to permit Florida and Texas orange growers to continue using artificial coloring for oranges.

To Attend Ceremony

BERLIN (UPI) — Former Premier Robert Schuman of France will attend celebrations marking the tenth anniversary May 12, of the ending of the Berlin blockade.

The People Of Paris

PARIS (UPI) — Figures released by the National Institute of Statistics today reported that the population of the city of Paris reached 3,020,000 on Jan. 1.

\$2 Million 'Siphoned'

NEW YORK (UPI) — Federal investigators have charged that financial wizard Alexander L. Guterman "siphoned" more than two million dollars from a Detroit firm into a dummy corporation that now has less than \$1,000 in its bank account.

Rites Held For 95

COPENHAGEN, Denmark (UPI) — King Frederick, Queen Ingrid and other members of the royal family attended memorial services Wednesday for the 95 persons who died when the Hans Hild left sank off Greenland last month.

Youth Must Copy Driver's Manual

A juvenile who had broken the requirements of his restricted driver's license was sentenced yesterday by Juvenile Judge Wilson Alexander.

His driver's license was suspended for 30 days and he must copy the state driver's manual to long hand before he is allowed to drive again.

Beef Bruising Bill

ATLANTA (UPI) — A bill in the state Legislature would require the use of electric buzzers or canvas flaps to be used in driving cattle.

Too many bruises on the beef has been costing Georgia cattlemen more than a million dollars a year.
