

Marciano Quells Critics By Taking Title From Walcott On Knockout

By MURRAY ROSE
PHILADELPHIA (AP)—Rocky Marciano, the guy Jersey Joe Walcott and many others said "can't fight," is the new world heavyweight champion.

"They'll probably say he still can't fight," said trainer Charley Goldman shortly after the dynamic, 28-year-old flattened Walcott in 43 seconds of the 1952 fight with one perfect right and sent him into retirement.

"But who's going to beat him?" Marciano's manager, Al Weill, said, discussing the future of his fighter, said early today that Rocky's next opponent might be Rex Layne, Ro-

land La Starza or Exard Charles.

"Maybe it will be Walcott again," added the portly manager. "Who knows? Maybe he'll change his mind and not quit. All I know is that I signed a contract to meet Walcott again in 90 days and if he wants that fight he can have it. Only it's got to be where I say—maybe Miami and maybe Chicago."

"If Walcott is really through, then we'll see about the others. He's gonna be a fighting champion, ain't he Rocky?"

"Sure," said Rocky as he held a wet towel to a mouse under his left eye while blood trickled from

a cut on his scalp and from a gash between his eyes. It took eight stitches to sew up an ugly inch and a quarter on his head and six to patch up the cut on his forehead.

"But first my wife and I are going to have a wonderful time," said Rocky. "We're going to go to New York and see if we can't get a good fight out of it."

All the while Rocky was in training for the climactic fight of his career, his wife Barbara was barred from camp. Although she expects a child in November, Barbara watched the thrilling slugfest

along with 40,379 paying fans in mammoth Municipal Stadium.

She saw her husband, battered and bleeding, knocked down for the first time in his career, come back to end one of the most exciting battles of modern times with one perfectly executed right hand blow to Walcott's jaw.

When the stricken champion's head as the 38-year-old Walcott slowly fell to the deck. But it was the right that turned the tables just as it was Jersey Joe's one left hook that enabled him to knock the crown off Charles' head in the steaming heat of Pittsburgh on

July 18, 1951.

Walcott's eyes went blank. The old guy, who put up one of the greatest fights of his long career, sank slowly to the canvas. One knee was twisted under him and his forehead rested on the floor as Referee Charley Daggert tolled the fatal 10. Then Walcott stretched out on his back.

By then it was too late for Walcott's way. Jersey Joe floored Marciano in the first round. It was the first time the Rock had ever gone down. But he was up at the four count.

It was a dilly the rest of the way. In the sixth, when they fought

head to head, Walcott came out with a wide cut over his left eye while Rocky suffered his scalp wound.

The old gent was well ahead on the scorecards of all three officials at the end. Referee Charley Daggert had it 7-4-1; Judge Pete Tomasco scored it 7-3 and Judge Zach Taylor saw it 9-2.

The AP scorecard had Walcott in front 7-4-1. There was hardly a dissent in the house.

Thus, as he won the title, Jersey Joe lost it—with one blow.

"He's through," said Walcott's manager, Felix Bocchicchio.

"Whatever Felix says I'll do,"

said the heart-broken ex-champion.

"He looked pathetic against the ropes and I don't want him to get hurt," said Bocchicchio. "He still has all his faculties and has money in the bank. Joe made over a million dollars in the ring. He's retiring. Joe has been a great champ and that's the way we want people to remember him."

Philadelphia, Pa., Sept. 21 (AP)—"I'm through, I'm through. We expect to go into business together. I don't know what kind of a business yet."

Probably millions of dollars (traded hands on 'he one punch. It was one of the biggest betting

lights in years with Rocky winding up as the 9 to 5 favorite. Walcott, oldest champion ever to defend his crown, outweighed Rocky 196 to 184.

The fight grossed \$504,845 at the gate and theater elevations probably will add another \$125,000. Of his 40 per cent, Walcott earned approximately \$188,000. Rocky, cut

Relief pitcher Tom Ferrick of the Washington Senators has played with five teams in the American League since 1941.

New York Nears 10th "Subway" Series Since 1921

Bronx Bombers Move 1½ Games Out In Front Of Indians; Play Bosox Twice

By RALPH ROSEN
Associated Press Sports Writer

The prospect of New York's 10th "subway" World Series since 1921 is extremely bright today with the Brooklyn Dodgers already "in" and the New York Yankees pounding on the door.

Brooklyn's long-suffering fans of Flatbush their first restful sleep in three years last night as they clinched the 1952 National League pennant, their ninth since 1904.

True, the Brooks won the playoff.

The Brooks nailed it up as Johnny Rutherford pitched Drexler's Dodger to a 5-4 victory over Philadelphia in the first game of a two-night doubleheader. The Phils won the anticlimactic game, 1-0, in 12 innings.

Rutherford's seven-hit triumph gave Brooklyn 95 victories and made it impossible for the second-place New York Giants to pull another miracle. The Giants have 88 victories and only six games remaining.

Florida Might Be Set For Georgia Tech If It Rains

By The Associated Press

Florida may be ready to play Georgia Tech Saturday—if it rains.

The Gator practice field, soaked by two hours of heavy rain Tuesday, gave quarterbacks Fred Robinson and Rick Casares plenty of practice in handling a slippery ball.

In Atlanta, Coach Bobby Dodd of Tech predicted the Florida team would test his players with its offensive line. Tech has beaten Florida 16 times in the 23-game series and three games ended in ties.

The Tennessee Vols held lengthy passing and kicking drills in Knoxville. At Stillman, Georgia, Tech (11) were called on for the passing and kicking while Jimmy Wade and Pat Olekajak nursed knee and muscle injuries. The latter may not see action against Mississippi State Saturday.

Mississippi State added another name to its injured list Tuesday. Linebacker Ollie Fairchild was hurt in a pass defense drill. The Maroons worked on pass defense and running plays against the Tennessee single wing formation.

At Baton Rouge, Coach Gwynell Tinsley watched his Louisiana State team scrimmage for an hour on offense and defense and let out a sharp cry of pain.

"Today's practice," he moaned, "showed a very definite lack of sharpness. The Tiger offense must improve considerably if we are to stay on the field here against Alabama Saturday."

Practice at Tusculooon confirmed Tinsley's fears. The Tide's varsity showed well against LSU while Bobby Marlow, Carley Tharp, Bob Conway and Cecil Ingram all making good runs.

Tulane and Georgia played against the tactics of each other and Coach Raymond Wolf of Tulane thought his team's defense looked good. Georgia may be without the services of Dexter Foss, defensive left end, Saturday. Foss said a twisted knee was repairing rapidly but trainers doubted he could start.

Kentucky got another hard workout for its Southeastern Conference opener with Mississippi. Kentucky scouts have passed the word that Mississippi has some of the best backs in the conference. They also praised Jimmy Lear, the Mississippi quarterback who directs the team's split "T" attack.

Croons Gridders Battle Saturday With New Smyrna

By T. V. DAVIN

Croons Academy will open its 1952 football season with New Smyrna Beach Saturday night at 8:00 o'clock in the Memorial Stadium.

The inaugural clash had been originally scheduled for this Friday night, but a conflict with Seminole High School's opener with Euclid here Friday night forced the shift to Saturday evening.

Officials at Croons expect a record breaking crowd in the revamped Memorial Stadium this Saturday night. Handicapped by late arrivals from the north, head Coach Franklin and Athletic Director H. L. Douglas have been doing a terrific job of whipping the Panthers into shape for the Smyrna tilt.

The Croons grid team has yet to name its captain and co-captain for this season. Last year's captain was Robert Felles and George Evan was co-captain.

Celery Fed Season Ducats Are On Sale

Five-game books of season tickets to the Seminole High School football games for 1952 campaign are now on sale at Touriston and Rosmill and Anderson drug stores. The books are priced at \$4. Single game tickets will sell for \$1. The Celery Feds open the season with Euclid in the Memorial Stadium Friday night at 8:00 p.m.

Forecasters Are Not Convinced Tech Can Drub Florida Saturday

By STERLING SLAPPEY

ATLANTA (AP)—There was a time when Florida played Georgia Tech in football that you picked Tech, gladly gave Florida at least 28 points, waited until the game was finished and picked up the pot.

Some Tech supporters practically made living doing that early every fall before Florida's hopes took their annual tumble.

This year, though, no one had better try it—not even if Tech does rate third best in the nation, first in the Southeastern Conference and even if the Tech team may turn out to be the best Tech ever had.

The Gators carry a lot of weight and they want to whip Tech in Atlanta Saturday something terrific.

The game likely will be a running classic with enough passes mixed in to keep the opposition from tightening and to satisfy these pass-happy Southern Conference football fanatics.

Eight of the best runners in Dixie will herd into two strong defensive lines. Florida foot troopers are Rick Casares, very possibly the most underrated man in Southern football, and the best of the 1951 NCAA high jump champ, and Buford Long.

Tech runners are better known because of their undefeated 1951 season and the Orange Bowl victory. They are Leon Haden, Larry Ruffin, Bill Tens, Dick Pate, and Glenn Turner.

Last week each mailed small time—Tech by 54-0 over the Citadel and Florida by 33-6 over Stetson. Neither found it necessary to show the fancy stuff and give accurate diagram matter. Good as each looked, their substitutes are not as deep as expected.

However, each had a better passing game than credited with. Bill Brizman and Pepper Rodgers will do most of Tech's throwing and Casares—an ex-futback now quarterbacking—will do most of Florida's.

Both teams are in good physical shape in the line Florida offers a great tackle in Charles LaPradi and a fine guard in Joe D'Agostino. Tech's best are Linebackers George and Larry Morris (not related) and Tackle Hal Miller.

Both coaches justifiably feel a little apprehensive. Bob Woodruff of Florida said his "running game

Sports Roundup

By GAYLE TALBOT

PHILADELPHIA (AP)—This was one that will go down in the history of great heavyweight fights. There hasn't been a greater one in the past 21 years to our certain knowledge.

Going into the 13th round last night at Philadelphia Stadium, we didn't think Rocky Marciano had an earthly chance of winning the title from Jersey Joe Walcott. The boy from Brockton was behind, 7 rounds to 5, on our scorecard, and he appeared to be fading.

Then the Rock shot his right, and it landed flush on Walcott's jaw—almost the first punch of the round. It carried behind it every ounce in the sturdy frame of the shoemaker's son, and from the instant of its sickening impact there was never a doubt of what had happened.

Fighter Joe, an admirable old fighter in his final defense, went down as though he had been poleaxed. A left hook caught him in the face, but it meant nothing. He was insensible as his head struck the floor, and there was never a chance he would get up again.

But as long as he was in there throwing those six punches, the Tappo (fuy from Camden gave the roaring throng as great a thrill as it is ever likely to get at a sports event. Marciano won the respect he had never known before. He fought his powerful young opponent with a heart and a fury which were at times astonishing.

Several times, even toward the end, Walcott ripped into Marciano with lethal left hooks to the body and head which almost sent the new champion down. Only a wonderful constitution kept Rocky on his feet. That is, at course, one of the requisites of a champion.

Will have to improve a great deal if he is to be ready for Tech."

Tech's Bobby Dodd, whose team has more at stake than Woodruff's, considers the game "the key to our season. We've got to win to get on the right foot mentally."

Nationally speaking, Tech is the focal point since the Engineers haven't lost in 15 games.

Talmadge Lafayette Abernathy lost his only three decisions as a pitcher with the Philadelphia Athletics in 1948.

City To Extend Memorial Park's Wall By 15 Feet

New Fence Will Be Complete In Time For Grid Opener

The extension of the Memorial Stadium's left field fence outward by 15 feet will conclude the City's program for the opening prep football game to be played here Friday night when the Celery Feds clash with Euclid, it was reported this morning by Tom Lemon, City manager.

Sid Richard, City superintendent of public buildings and sewers, said that the work was begun today to extend the stadium's northern fence from the left field foul line to a point in centerfield where a diagonal barrier will be extended to meet the old centerfield wall some 15 feet beyond the present left centerfield.

Meanwhile, Lemon said that the ground work was complete with the new turf covering the diamond planted with rye. "Weather conditions of late and the shortness of time has necessarily delayed a substantial growth of grass for the opening football game," he said, "but we will continue to reseed the diamond all through the fall in order to get a good stand of grass."

Following on the footsteps of the Seminole-Euclid game Friday night will be the Croons Academy opening contest with New Smyrna Beach on Saturday night.

Seminole High will display their new orange, black and white uniforms for the first time in Friday night's grid opener.

The Celery Feds concentrated on plays yesterday while taking the links out of their blocking and defense. Earlier fears on the part of Co-coaches Fred Gana and Bill Fleming with regard to the space available for the gridiron in the Memorial Stadium were spelled with Monday's announcement that the field will be enlarged on the north side by some 15 feet.

The High School is erecting the 1000 temporary bleacher seats on the east sideline for Friday night's contest. The gridiron will run north and south with its western edge bordering the old left field foul line.

With the addition of 15 more feet to the playing field, there is now sufficient clearance for the 800-foot football gridiron. There will be 25 more feet than the necessary minimum requirement at the end zones for the game Friday.

Bob Moschetti, Ambridge, Pa., at fullback.

In a workout Tuesday the Miami offense clicked for 12 touchdowns in 30 plays with Freshman Quarterback Frank Tracy, Chicago, firing four passes that went for touchdowns and scoring another himself.

Croons Academy will open its 1952 football season with New Smyrna Beach Saturday night at 8:00 o'clock in the Memorial Stadium.

The inaugural clash had been originally scheduled for this Friday night, but a conflict with Seminole High School's opener with Euclid here Friday night forced the shift to Saturday evening.

Officials at Croons expect a record breaking crowd in the revamped Memorial Stadium this Saturday night. Handicapped by late arrivals from the north, head Coach Franklin and Athletic Director H. L. Douglas have been doing a terrific job of whipping the Panthers into shape for the Smyrna tilt.

The Croons grid team has yet to name its captain and co-captain for this season. Last year's captain was Robert Felles and George Evan was co-captain.

Celery Fed Season Ducats Are On Sale

Five-game books of season tickets to the Seminole High School football games for 1952 campaign are now on sale at Touriston and Rosmill and Anderson drug stores. The books are priced at \$4. Single game tickets will sell for \$1. The Celery Feds open the season with Euclid in the Memorial Stadium Friday night at 8:00 p.m.

Forecasters Are Not Convinced Tech Can Drub Florida Saturday

By STERLING SLAPPEY

ATLANTA (AP)—There was a time when Florida played Georgia Tech in football that you picked Tech, gladly gave Florida at least 28 points, waited until the game was finished and picked up the pot.

Some Tech supporters practically made living doing that early every fall before Florida's hopes took their annual tumble.

This year, though, no one had better try it—not even if Tech does rate third best in the nation, first in the Southeastern Conference and even if the Tech team may turn out to be the best Tech ever had.

The Gators carry a lot of weight and they want to whip Tech in Atlanta Saturday something terrific.

The game likely will be a running classic with enough passes mixed in to keep the opposition from tightening and to satisfy these pass-happy Southern Conference football fanatics.

Eight of the best runners in Dixie will herd into two strong defensive lines. Florida foot troopers are Rick Casares, very possibly the most underrated man in Southern football, and the best of the 1951 NCAA high jump champ, and Buford Long.

Tech runners are better known because of their undefeated 1951 season and the Orange Bowl victory. They are Leon Haden, Larry Ruffin, Bill Tens, Dick Pate, and Glenn Turner.

Last week each mailed small time—Tech by 54-0 over the Citadel and Florida by 33-6 over Stetson. Neither found it necessary to show the fancy stuff and give accurate diagram matter. Good as each looked, their substitutes are not as deep as expected.

However, each had a better passing game than credited with. Bill Brizman and Pepper Rodgers will do most of Tech's throwing and Casares—an ex-futback now quarterbacking—will do most of Florida's.

Both teams are in good physical shape in the line Florida offers a great tackle in Charles LaPradi and a fine guard in Joe D'Agostino. Tech's best are Linebackers George and Larry Morris (not related) and Tackle Hal Miller.

Both coaches justifiably feel a little apprehensive. Bob Woodruff of Florida said his "running game

Florida Might Be Set For Georgia Tech If It Rains

By The Associated Press

Florida may be ready to play Georgia Tech Saturday—if it rains.

The Gator practice field, soaked by two hours of heavy rain Tuesday, gave quarterbacks Fred Robinson and Rick Casares plenty of practice in handling a slippery ball.

In Atlanta, Coach Bobby Dodd of Tech predicted the Florida team would test his players with its offensive line. Tech has beaten Florida 16 times in the 23-game series and three games ended in ties.

The Tennessee Vols held lengthy passing and kicking drills in Knoxville. At Stillman, Georgia, Tech (11) were called on for the passing and kicking while Jimmy Wade and Pat Olekajak nursed knee and muscle injuries. The latter may not see action against Mississippi State Saturday.

Mississippi State added another name to its injured list Tuesday. Linebacker Ollie Fairchild was hurt in a pass defense drill. The Maroons worked on pass defense and running plays against the Tennessee single wing formation.

At Baton Rouge, Coach Gwynell Tinsley watched his Louisiana State team scrimmage for an hour on offense and defense and let out a sharp cry of pain.

"Today's practice," he moaned, "showed a very definite lack of sharpness. The Tiger offense must improve considerably if we are to stay on the field here against Alabama Saturday."

Practice at Tusculooon confirmed Tinsley's fears. The Tide's varsity showed well against LSU while Bobby Marlow, Carley Tharp, Bob Conway and Cecil Ingram all making good runs.

Tulane and Georgia played against the tactics of each other and Coach Raymond Wolf of Tulane thought his team's defense looked good. Georgia may be without the services of Dexter Foss, defensive left end, Saturday. Foss said a twisted knee was repairing rapidly but trainers doubted he could start.

Kentucky got another hard workout for its Southeastern Conference opener with Mississippi. Kentucky scouts have passed the word that Mississippi has some of the best backs in the conference. They also praised Jimmy Lear, the Mississippi quarterback who directs the team's split "T" attack.

Truman Urges Public Report On All Funds

President Refuses To Comment On Vindication Of Nixon; Mum On Stevenson

By D. HAROLD OLIVER
WASHINGTON (AP) — President Truman said today that all congressmen should be required to make an annual accounting of all their income, public and private. He said all top government officials should do the same. But the President declined to comment at his news conference on the Republican Party's "vindication" of Sen. Richard Nixon of any wrongdoing in connection with the use of a private expense fund of \$18,235. And he refused comment also on the special fund used by Gov. Adlai Stevenson to supplement salaries of certain state employees. Truman did say, in answer to a question, that he himself never had such a fund. Truman's plea for an accounting was not new. Last Sept. 27, he sent a message to Congress asking that legislation be enacted requiring an accounting of income for all top public officials. Legislation along that line, he said, would help prevent "improper conduct" and "unfounded suspicions."

Vast Crowd Greet's Ike And Taft In Cincinnati

ACKNOWLEDGING THE CHEERS OF THE CROWD, Republican Presidential nominee Gen. Dwight D. Eisenhower waves his arms as he rides side by side with Sen. Robert A. Taft down a Cincinnati street in an address in the Cincinnati Music Hall. He accused President Truman and Secretary of State Dean Acheson of having bungled America into the Korean War. The GOP standard bearer assailed Gov. Stevenson for giving "smug answers" on foreign policy in an attempt to stifle criticism. (International Soundphoto)

Truman Declares AMA Has Changed Mind On His Plan

President Thinks His Speech Has Ended Medics' Opposition

WASHINGTON (AP) — President Truman said today he thought his recent Philadelphia speech on medical care for the American people caused the American Medical Association to disband a committee set up to fight his national health program. The President was told at a news conference that the AMA was disbanding the committee on grounds it was no longer necessary—that the AMA felt the Truman plan had been defeated. The president replied that after his Philadelphia speech the AMA is admitting by its action that it was wrong. He said the action was the victory for the medical system. Truman has proposed a system of national health insurance. Under this plan the government would receive deductions from workers' pay checks, much as it now receives Social Security payments. From the health fund, the government would pay doctors for medical care. The plan would allow people to choose their own physicians. This proposal drew bitter opposition from the Medical Association and other groups as "socialized medicine." It made little or no headway in Congress. Truman then appointed a special commission to study the problem of making medical care available to all the people. This commission is still at work. In a speech in Philadelphia Sept. 16, Truman referred to opponents of his plan, who include Dwight D. Eisenhower—as "pull-backs." Truman said "even now" his opponents seem to be advancing "the amazing proposition that government should have nothing to do with health except for locally administered indigent medical care programs." That latter phrase was lifted directly from an Eisenhower statement. "That's about like saying we don't need any form of Social Security except the elderly poor householders," Truman said. "These people really want to go back to the horse and buggy days."

Program Is Given For Observance Of City's Birthday

Fish Memorial Hospital To Be Dedicated On Sunday P.M.

Activities of the celebration of the 74th anniversary of Sanford will get underway Monday at 1:00 p.m. The gala affair will be initiated by a band concert by the Sanford High School Band, according to Ed Lane, general chairman of the celebration, at First Street and Magnolia Avenue. Mr. Lane, who also will act as master of ceremonies at the afternoon festivities, will give a brief address during the concert, he said today. Mayor William H. Stanger will also address the crowd. His speech will be followed by entertainment by the SFS Glee Club. The general chairman stated it was his hope that several in the audience will be 75-year residents of Sanford. Then, he said, would be interviewed over Radio Station WTRK. Evening activities will consist of a street dance at First Street and Magnolia Avenue at 8:00 p.m. and a dance at the Sanford High School Gymnasium at 9:00 p.m. Music will be furnished by Dees Shannon and his five-piece orchestra. Mr. Lane said. Corn meal will be sprinkled on the street to invite late night dancing. Bob Harris and Al Wilson are working with Mr. Lane as co-chairmen.

Hospital Meeting Is Slated Monday By County Board

Fish Memorial Hospital To Be Dedicated On Sunday P.M.

A special meeting of the County Commission will be held Monday morning at 10:30 o'clock for the purpose of studying whether to purchase the proposed County hospital building on the hill for the Nov. 3 election. H. C. Dadd, chairman of the County Commission, announced today. Meanwhile, invitations have been issued for the dedication of the Fish Memorial Hospital in Deland which will be held at 1:00 o'clock Sunday afternoon. A meeting of the trustees of the state has tentatively scheduled for this week-end. Francis P. White has been named as the first and second trustees are W. J. Dadd, H. C. M. Galloway and F. L. A. White of Sanford and James E. Dadd, Jr. of Deland. Immediate action on the purchase of the Fish Memorial Hospital building was deferred until the next meeting of the County Commission, George T. Jones, chairman, who stated that this action is necessary to meet Friday if it will be held on the hill for the election, announced today. "The vote on the bond issue is something that has been pending for some time," Mr. Jones said, "and it is on the ballot for the November election. The County Commission will only be discharging its responsibility at the lower table end to the taxpayers."

Stevenson Is Challenged To Tell All About His Funds; Nixon Remains As Nominee

Flood Of Telegrams And Vote Of GOP Committee Seen As Total Vindication

By JACK BELL
WITH EISENHOWER MO- TORING FOR Gen. Dwight D. Eisenhower told a crowd packed into Hagerstown, Md., Public Square today that the American people are not going to stand for "crookedness" in their government. His police said more than 15,000 persons, including 13,000 new voters, making it the largest political crowd ever assembled in Hagerstown.

Nixon Answers His Critics

Richard M. Nixon, Republican vice-presidential candidate, today told a crowd in Hagerstown, Md., that the American people are not going to stand for "crookedness" in their government.

Governor Adams Raps Stevenson For Seerage Concerning Gifts To Democrats

ADAMTS EISENHOWER SPEAKING at a Doughty E. Eisen- hower campaign today charged that Gov. Adlai Stevenson had made a deal with the Democrats to help them win the election. Adams, Governor of New York, said Stevenson had made a deal with the Democrats to help them win the election. Adams, Governor of New York, said Stevenson had made a deal with the Democrats to help them win the election.

Lake Mary Citizen Has Narrow Escape In Auto Accident

Millard H. Rice, Lake Mary, narrowly escaped serious injury last night at 10:00 o'clock when he lost control of his 1950 Buick sedan in trying to make a right angle turn in the Paola Road and the car plunged into an orange grove and overturned completely, pinning him under it. He leaves Sanford today on his way to the hospital. According to R. D. Harrison, state highway patrolman, who investigated the accident, Mr. Rice managed to work himself out from under the car and was picked up and taken home by a man about a mile from the accident. His injuries were confined to leg bruises and a strain of his left arm did not indicate any broken bones. Mr. Rice is a trainman for the Atlantic Coast Line Railroad. Damage to the automobile was estimated at about \$1,000. A 1951 Dodge coupe, driven by William C. Wilkerson, Orlando, was damaged to an extent estimated at \$1,200, when hit in the rear by a 1952 Cadillac sedan driven by Gus Vargish, Apopka, three quarters of a mile south of Sanford on the Orlando Highway. The Cadillac had hit a low spot, filled with water, causing it to swerve. No arrests were made. The accident occurred at 12:15 p.m. yesterday.

Shoe And Leather Goods Store To Be Opened In Sanford

Shoe and leather goods store will be opened Monday at 150 South Park Avenue by W. Davis, former partner of a similar store at Milledgeville, Ga. Carl Vaughn, formerly of St. Petersburg and North Carolina, will have charge of the shoe repair department, for which the most modern equipment has been installed. Although Mr. Davis has a prosperous business in Milledgeville, he decided to locate in Sanford, he said, not only because of the business opportunities afforded, but because of the fine fishing and hunting in this region. "I have been coming to Florida every two months for 20 years to fish, including the St. Johns River and decided to live here," he declared. He is a former chief petty officer in the Navy, served eight years in the army and is now a master sergeant in the Army Reserve. In addition to shoe repair services, Mr. Davis conducts a mail order business in the manufacture of leather goods such as dog collars, which he advertises, he stated, in Field and Stream and other sport magazines. He has received orders, he added, from Alaska, Japan, Korea, Canada and other foreign countries. The Davis family, now located here, include Mrs. Davis, a son, Chan, 17 and a daughter, Marion, 14. Mr. Vaughn is an orthopedic expert in making shoes and arch supports in accordance with prescription of foot doctors. He has been written up in North Carolina newspapers concerning his skill in making exact miniature models of shoes. While in Bakersfield, Calif., he received publicity for making a complete cowboy outfit in miniature, including saddles, boots and shoes.

Agreements On Public Housing Asked Of Board

George H. Williams, executive director of the Sanford Housing Authority, announced today that tentative agreements will be set for from the County Commission at its next regular meeting, and from the Orlando City Council, relative to housing projects planned. Surveys are to be made in Deland and Geneva to determine the need for housing projects in those communities. The cooperative agreement have been requested by the Public Housing Administration and Home Finance Agency, and are generally, said Mr. Williams, before new projects can be approved. These agreements will include assurance that the properties or projects will not be taxed, but that 10 per cent of the rentals collected by the Housing Authority will be acceptable annually in lieu of taxes. Colored business and professional men of Sanford have agreed to donate prizes to colored student winners of an essay contest sponsored by the Sanford Housing Authority and entitled, "What Public Housing Means to My Community."

Link Kennedy Is Sought By Police In New York Town

SKANEATELES, N. Y. (AP) — A man identified as an escapee from a Florida road gang broke away from a policeman here today after he had been picked up with two companions for questioning. He was identified as a link Kennedy, 25, formerly of Sanford, Fla. In custody were Martin Leon Johns, 26, who told police he and Kennedy had escaped from a Florida road gang, and John's brother, Sherill Crawford Johns, 25, Miami. Patrolman George Davis said he became suspicious after seeing the three men in a car cruising about this central New York village and he stopped them. He said he started to walk the three in the police station nearby and Kennedy broke away and fled. State Trooper Anthony Varisco, who arrived on the scene just after Kennedy had fled, said Martin Johns told him he and Kennedy had escaped from the road gang. Johns told the trooper he had been sentenced to three years for armed robbery and had three months to serve when he escaped. Varisco quoted Johns as saying he understood Kennedy had been in jail since he was 16 and was serving a term for burglary and larceny. When halted by Davis, the three men were in a car owned by a rental service in Del Rio Beach, Fla. A 13-state alarm was broadcast for Kennedy. At Tallahassee, Fla., the State Prison Division said a warrant for Martin Johns will be sent in the Skaneateles chief of police immediately. Johns and Kennedy escaped from the Pompano road gang Sept. 18. As well as the armed robbery conviction, Johns had been convicted of carrying tools in a county jail to aid an escape attempt. He was sentenced from St. Lucie County (Fla. Pierce) to 20 years in prison from Manatee County (Bradenton) for second degree murder.

Hope Abandoned All Should Help To Improve City, Lemon Tells JCs

W. J. Lemon, president of the City Council, today told the council that he had abandoned hope of seeing the city improved by the present council. He said that the council should help to improve the city. Lemon said that he had abandoned hope of seeing the city improved by the present council. He said that the council should help to improve the city.

French Navy Is Found To Be Down 2100 Feet

PARIS (AP) — The French navy gave up hope today of finding the submarine Sable, which disappeared in the Atlantic Ocean on July 17, 1945. The navy said that the submarine was down 2100 feet. The navy said that the submarine was down 2100 feet.

Planning City's Future Progress

W. J. Lemon, president of the City Council, today told the council that he had abandoned hope of seeing the city improved by the present council. He said that the council should help to improve the city. Lemon said that he had abandoned hope of seeing the city improved by the present council. He said that the council should help to improve the city.

Korean GI Bell

WASHINGTON (AP) — More than 21,000 veterans applied for education and training under the Korean GI Bill during the first 10 days of the program, the Veterans Administration reported today. The education and training provisions of the law, which also provides other benefits for veterans with service anywhere in the world since June 27, 1950, became effective Aug. 20.

WAB DEAD

ANZIO, Italy (AP) — Gen. George C. Marshall, chairman of the U.S. Battle Monuments Commission, today visited the big Anzio-Nettuno Cemetery with his wife, whose son is buried there. Mrs. Marshall, dressed in black, placed a bouquet of red roses on the grave of her son, Lt. Allen Cursey, killed in action in Italy in May, 1944. They remained at the cemetery for an hour. Gen. Marshall, wartime Army chief of staff and later secretary of state, is on a tour of American military cemeteries throughout Europe.

HAT BOXES

B. L. Perkins and Son Men's Wear Store has on hand more than 50 empty hat boxes which will be given away to anyone desiring them. These cardboard boxes are handy for storing things in, said B. L. Perkins, Jr.

14TH BIRTHDAY

COPENHAGEN, Denmark (AP) — Mrs. Anne Boutscher of Honduras is celebrating her 14th birthday today. She says she doesn't want to be 16. "I don't want to live any more," she said. "I can't do any more work or read the Bible."

The Sanford Herald

Established in 1909
Published daily except Saturdays
and Sundays, Christmas and New
Year's. Published on Saturdays
during Christmas and New Year's
season.

Entered on second class matter
October 27, 1919, at the Post Office
at Sanford, Florida, under the Act
of Congress of March 3, 1879.

Represented Nationally by
Associated Press, United Press
and News Service, Inc., and
other news organizations.

THURSDAY, SEPT. 23, 1953
They invest one day at a
time for children, friends, neighbors
show magnificent evidence of
overwhelming love. Greater love
hath no man than this, that a
man lay down his life for his
friends.—John 15:13.

The city of Tallahassee has authorized
the construction of two
new swimming pools.

Tampa, boasting a population of
some 125,000 people, is now talking
in terms of 200,000.

Congratulations to Sanford's city
employees who are going to get a
pay raise.

Wouldn't it be interesting to
know what Joe Stalin thinks of
American political campaigns?

Timbers of the Fish estate sold
another piece of property the other
day for \$90,000.

If politicians went by the rule,
"Let him who is without sin cast
the first stone", there wouldn't be
nearly so much mud-slinging.

The Tampa Tribune reveals that
the consumption of electrical power
has increased 231 percent in the
Tampa area within the last 12
years, Florida grows.

Senator Nixon seems to be
emerging from the mud-slinging
contests with whole shirt, somewhat
cleaner if anything, than it
was before.

Lake county is announcing a
huge school building program to
begin in January which is expected
to cost about two million dollars.
Seminole County needs some new
school buildings, too.

It was nice to see our old friend
Karl Lehmann in Sanford yesterday,
recalling that he came to Sanford
as secretary of the Seminole County
Chamber of Commerce when it was
organized in 1932 under Harry
Papworth as president. Previously,
he had been in Orlando as secretary
of the Orlando Chamber of
Commerce, first coming to Florida in
1920. That just about makes him
a pioneer of this state, if not a
native son.

The biggest cause of traffic
accidents is discourtesy on the part
of automobile drivers. "Such acts
as excessive speed, ignoring the right
of way, driving under the influence
of alcohol, driving on the wrong
side of the road, passing improperly,
and disregarding an officer or
traffic control device," says Florida
Highway Patrol Director Kirkman.
"are at the very least discourteous
behavior, and at the worst, wanton
murder." And isn't it funny how
many times the nicest people can
become the most discourteous when
you put them behind a steering
wheel?

Once there was an honest man.
And the other day the Associated
Press reported an honest woman.
She was a bookkeeper in St. Louis.
And walking down the street she
picked up a check for \$2,066 and
noticing the name of the firm which
had made it out she promptly
returned it. No sooner done than she
stepped out the front door only to
spy a wallet full of bills lying
beside a parked automobile. She
returned that to the owner who was
just getting into his car. Down the
street away she stopped at a newsstand
where someone had left her
bag on the counter. With that she
gave up in despair and walked on.

One thing that the Nixon affair
serves to prove is that the American
people have soon got to make up
their minds what they are going to
do about the expense accounts not
only of office holders but also of
candidates for public office. Whether
we like it or not, the fact remains
that it costs money to run for office
and the money has to come from
somewhere. There are also few public
offices these days which pay
enough to attract capable men to
occupy them. If we are not willing
to pay them, we had better be
willing to let them go.

Truman said it was his recent
experience in coming to
Washington to see the
President's plan, the
President said he believes the
bill is a good one.

Truman said it was his recent
experience in coming to
Washington to see the
President's plan, the
President said he believes the
bill is a good one.

The Wanderers

A news item datelined Reuters, Bonn, Germany, told of
the arrival in West Germany of 100,456 refugees from East
Germany in the first eight months of this year. In most
papers the story was buried among news stories which
seemed more exciting and important.

But the true story of those 100,456 refugees can never
be told in statistics. No statistics yet devised by mathematicians
can calculate the pain and agony in the hearts of
those fugitives from their own homes. Somewhere back of
Iron Curtain the true story might be discovered in the empty
homes, the abandoned and treasures left behind the coat
that hangs forlornly on a nail and the worn doll forgotten
in the haste of the tiny owners departure.

The refugees pour across any border where there is the
slightest hole in the security net set up by the Communist
police. Potato diggers, nurses, doctors, bricklayers, scientists,
children too young to walk and old people too weak are part
of the pathetic parade. They trudge along seeking only the
chance of meeting the dangers and loneliness of the new day
and hoping desperately that tomorrow may be better.

Only by studying and analyzing their story can we appreciate
our own security and freedom. They seek only the things
we already have. We must not forget the refugees for
while one wanderer walks in terror and misery the world
will never be at rest.

Baseball Umpires

The love of Americans for free speech is never more
clearly demonstrated than it is on the baseball field. Several
baseball managers have demonstrated a talent for discussion
and argument which would earn the envy of even the most
loquacious lawyer. At the center of all this oratory stands
the umpire, a man with the most unenviable job in the world.

A baseball umpire seldom makes a decision which is
unanimously popular. Baseball is a game where decisions
are based on an umpire's judgment and often the difference
between a runner who is safe and one who is out is very
slight. On the field, however, the man in the black suit and
the mask is infallible and his rulings are never reversed.

A good umpire must be just, firm, thick-skinned and
have a highly developed sense of humor. There is no room in
umpiring for the man who bears a grudge or lets his temper
interfere with his judgment. The thousands of fans who sit
on the sidelines and heat at the umpires are often unaware
of how much the game of baseball owes to the men who call
the balls and strikes.

For Sounder Taxing

Much unrest in other parts of the world, not to say the
United States, could be removed by better taxing systems.
From the time of the ancient Roman empire, whose destruction
was due more to a bad taxing system than to any other
cause, nations have raised money in ways that inflicted
needless hardship and often seriously endangered the economic
life of the community.

This, like the weather, has long been discussed, and,
like the weather, nothing has been done about it. Now the
Harvard University Law School announces an international
research and training program to improve taxing systems
abroad. The United Nations is helping, through its Department
of Economic Affairs. So also is the Ford Foundation, which
has granted \$200,000 to start the program.

The best mode of taxation has been described as
which gets the most wool with the least cry. For the
Harvard authorities have got beyond this only against the
If they can discover a basis of taxation which the law, the
command as the best, they will have done more for the world
than has been accomplished for many a year.

A-Bombs Are Seen As Cheap Way To Get The Job Done

LONDON (AP)—Killing people with
atomic bombs is a very cheap
operation, a British mathematician
said in a technical journal published
today.

It works out at a rate of about
one pound (\$20) per corpse according
to the calculations of Fred Hoyle
in an article in the Atom
Scientists' News.

In a grim discussion of "the economic
cost of extermination," Hoyle
said the cost of killing in World
War II was "several thousand
pounds per victim. Then he assumed
that a well placed atomic bomb
could kill 25,000 persons, so that
it offers an economical means of
wiping out populations.

"Not this estimate should be
quoted too precisely, since the supply
of human material would very
likely run out before all the bombs
available could be used," Hoyle
said. The bomb, he concluded, "is
a grotesquely cheap means of extermination."

Hoyle added:
"We anticipate that, in the near
future, the production rate of fissionable
material will rise to about
20 tons per year, which would be
sufficient for an annual manufacture
of 6,000 bombs."

Truman Law

WASHINGTON (AP)—The House
passed a bill today which the

informed by former AWP Gen. J.
Howard McGrath that such a
clause was behind Caudle's ouster
and was out to get McGrath, also
fired by the President.

Truman said it was his recent
experience in coming to
Washington to see the
President's plan, the
President said he believes the
bill is a good one.

WE THOUGHT THE DEMOCRATS DIDN'T BELIEVE IN MONOPOLY!

THE WORLD TODAY

By JAMES MARLOW
WASHINGTON (AP)—The next
move—if any—in the Sen. Nixon
case seems to be up to Stephen
Mitchell, chairman of the Democratic
National Committee.

Shortly after the disclosure last
week that California clipped in an
\$1,000,000 expense fund for Nixon,
Mitchell called on Gen. Eisenhower
to sack his vice presidential
running mate.

Mitchell's position was far sterner
than that of Gov. Stevenson,
who merely suggested that judgment
be suspended until all the
facts were in.

But this statement was made
before Nixon explained his side of
it Tuesday night in a nation-wide
radio-TV appearance.

It remains now unclear whether
Mitchell would be hurt. Eisenhower
as explained by Nixon or whether
he had some other facts of his
own.

Since he's running the Democratic
National Convention, if he had
any facts that could blow Nixon
out of the campaign, he could
be expected to cut loose with them.

Eisenhower has had a full week
in which to examine Nixon's case
and reach a deliberate decision on
whether to keep him on the Republican
ticket.

And Eisenhower has said Nixon
is "completely vindicated as man
of honor."

He gave Nixon his blessing in
an emotional reunion at Wheeling,
W. Va., last night.

From that point on, if Mitchell
or other Democrats could produce
anything from up their sleeves that
badly damaged Nixon, more than
Nixon would be hurt. Eisenhower
would be, too, since his own judgment
was involved in giving Nixon a
clean bill of health.

Between the time of the disclosure
of Nixon's expense and last
week and Tuesday night when
he explained it on TV, the Democrats
made plenty of noise.

In comparison, they were fairly
quiet between the time of the TV
appearance and last night when
Eisenhower marshaled Nixon before
the Wheeling crowd with high
praise.

But even if they can't offer anything
else against Nixon, the Democrats
aren't likely to let him
run the general election in his
own party for ever after. They'll
probably bang away at Nixon until
election day.

ADLAI'S LIFE

WASHINGTON (AP)—Gov. Adlai
E. Stevenson's life story was
disclosed today in a 30-page, full-color
picture booklet.

The Democratic National Committee
announced that several million
copies were being distributed
through state Democratic organizations.

The Business Mirror

By Sam Dawson
NEW YORK (AP)—Labor, management
and the consumer are being
drawn into another three-way
dispute—wages vs. profits vs.
prices. Which should get the benefit
of increased productivity?

American industrial supremacy
has been built on this boast: An
American worker putting in an
hour on the job produces more
than any other worker. That's
productivity—or output per man-
hour—and it's gone up over the
years, sometimes by fits and starts
and sometimes in one industry and
sometime in another.

The new battle shaping up is
over how to divide the fruits of
this increased output of goods per
amount of human energy expended.

How much to labor in the form
of yearly hikes in wages for
increased output?

How much to industry in the
form of profits and dividends for
supplying the management and
their machines and taking the
risks?

And how much to the consuming
public in the form of lower
prices? With the cost of living at
a record high, the public suspects
it's low man on the totem pole.

Many companies are facing
demands now for a built-in annual
productivity increase in labor contracts.
The Wage Stabilization Board
was reported almost ready
last June to set an over-all formula
for such an increase—between 2
and 3 per cent for all industries.
It ran into congressional opposition
and is now rumored about
ready to junk the idea.

But "productivity as a wage
determinant is here to stay," accord-

ing to a 96-page study issued today
by the management consulting
firm, Fisher, Hodge & Neblett of
New York and Los Angeles. It
says companies that better find
out quickly, if they can, what the
productivity increase rate is in
their industry and be ready to negotiate.

The trouble is, as the National
Industrial Conference Board pointed
out, there are no official productivity
figures for manufacturing as a
whole. The U. S. Bureau of Labor
Statistics has estimates for 1939
in 1950 for about 20 industries.
From these it figures that the
average gain in output per hour
worked is around 2 per cent a
year.

The conference board, making
tentative estimates of its own for
all manufacturing between 1939
and 1949, shows output per man
hour gained an average of 1.4 per
cent a year.

In just one field, that of office
personnel of insurance companies,
the gain in efficiency between 1940
and 1950 is put at 31 per cent by
Devereux C. Joseph, president of
the New York Life Insurance Co.
He tells the meeting of the Life
Office Management Association
this week in Atlantic City that
most of this is due to the mechanization
of office work.

The Fisher, Hodge & Neblett
study also stressed management's
contention that most of the productivity
increase is due to more efficient
machinery.

It also notes that the BLS report
on 20 industries shows that in one
decade an increase of 166 per cent
in productivity is shown by one
industry, while a second had only
1 per cent, and a third lost 14 per
cent in output per man-hour. Because
of this variation, the study
questions how valid any overall

national percentage figure would
be.

Labor's argument for tying wage
increases to productivity gains is
this: Workers' standards of living
should improve as the nation's
economy continues to spread. Otherwise,
the benefits of continued
national growth will accrue solely
to employers in the form of increased
profits, while the employees' share
divided proportionately.

The long suffering public's side:
Workers' standards of living should
improve as the nation's economy
continues to spread. Otherwise,
the benefits of continued national
growth will accrue solely to
employers in the form of increased
profits, while the employees' share
divided proportionately.

The Third Man

When Buckshot stretched out
two new victims of the ceaseless
struggle for power in Tampa's
gambling racket there was a third
casualty for whom no coroner's
inquest was held.

This third man was Tom Tampan,
honest merchant, professional
man, laborer, school patron,
churchgoer, civic worker; a man
with pride in his community's
progress and confidence in its future.

Tom is the perpetual innocent
bystander. No slug is fired in
Tampa's bloody underworld wars
that doesn't hit him.

He was clipped by the volley of
 pistol bullets that eliminated
Gambler-Politician Jimmy Velasco
the night of Dec. 12, 1948. He
caught a few of the buckshot that
blasted Jimmy Lumis off the top
roost of the racket in a daylight
shooting on a city street June 6,
1950. He was an unidentified casualty
when Gambler Armando Flores
was mowed down in a crowded
West Tampa club Aug. 27, 1951.

Now he bears the fresh wounds
inflicted in the assassination of
Gambler Rene Nunes and Angelo
Giglio.

Outsiders can see plainly
enough the scars on Tom's face;
the injuries to his pocketbook are
less visible but nonetheless painful.

For what hurts Tampa hurts
Tom. He, more than the incidental
victim, is the man for whom the
hustlers of violence in the man
for whom the bell tolls.

Tampa has come a long way in
civil decency as well as material
progress since the old days when
gambling joints trimmed the
corners on downtown streets and
elect-

national percentage figure would
be.

Labor's argument for tying wage
increases to productivity gains is
this: Workers' standards of living
should improve as the nation's
economy continues to spread. Otherwise,
the benefits of continued
national growth will accrue solely
to employers in the form of increased
profits, while the employees' share
divided proportionately.

The long suffering public's side:
Workers' standards of living should
improve as the nation's economy
continues to spread. Otherwise,
the benefits of continued national
growth will accrue solely to
employers in the form of increased
profits, while the employees' share
divided proportionately.

Democrats Rapped For Big Increase In U.S. Crime Wave

WASHINGTON (AP)—The Democratic administration must take responsibility for the nation's crime wave, a Republican leader said today. The New York Republican cited this week's report by the FBI that 1,422,200 major crimes were committed in the United States during the first half of 1952, a 6.1 percent increase over the corresponding period a year ago. Kearney, a member of the House Un-American Activities Committee, said in a statement distributed by the Republican National Committee: "The whole spirit of lawlessness and corruption which the New Deal Fair Deal have built up in the country was bound to have an effect. If we don't have honesty and integrity in high levels of national government how can we expect these moral principles to apply elsewhere?" Kearney also said: "The long-standing tie-up of crime and politics is a characteristic of the Democratic party. You add to it the rank dishonesty and graft which the Democratic national administration is no wonder that we are faced with a sharp increase in crime."

Stevenson Called

WASHINGTON (AP)—The people will not tolerate the usual Truman administration attitude in covering up scandal and corruption by doing nothing about it in a big way, Adams declared. The Eisenhower adviser said there was a big difference between Stevenson's refusal to bare the fund names and the financial report Nixon made on a privately raised \$18,000 fund. "We are not prejudging the Democratic candidate," he privately said. Adams said "We are merely calling these facts to the attention of the people. Like them, we shall wait and see what he will do." "Will he have the courage and honesty of Sen. Nixon and make a full, complete public report, or does he have something to hide?"

CHICAGO (AP)—A State Supreme Court justice acknowledged today receiving a \$500 Christmas check from Gov. Adlai E. Stevenson while serving in a non-salaried state committee post before his appointment to the court.

At the same time, a Chicago insurance executive said that "two or three" of the governor's close personal friends contributed between \$500 and \$1,000 to a special fund through him because they wished to "remain impersonal."

Stevenson, Illinois state data said, President Eisenhower used a special salary supplementary fund to attract competent men from private occupations to lower paying state jobs. He said Wednesday it would be a "breach of faith on my part" to name officials who received gifts from this fund.

Justice Walter V. Schaefer of the Illinois Supreme Court said he received a \$500 check from Stevenson while serving as chairman of the State Little Hoover Committee in 1950.

"I knew it was going to be tough when I took the job," he said. "I took quite a financial licking. We had to sell every defense bond we owned."

Schaefer, in verifying published reports that he had received the checks, said in an interview that he lost ground financially because he was unable to draw outside income he had been receiving for a period of years. He said this income had come from labor arbitration, writing briefs for lawyers and preparing cases for trial.

The Chicago insurance executive, executive Merion Dunlop Smith, now heads the Volunteers for Stevenson, a national fund raising campaign. He said in a statement: "About a year after Gov. Stevenson took office two or three outstanding Chicago businessmen who were close personal friends of his mentioned that they were so much impressed by the wonderful administration he was giving the state that they were anxious to be of assistance."

"As they had heard that he was having difficulty securing and maintaining a staff of the quality he needed they expressed a desire to contribute to this purpose. In order to remain impersonal, they asked me to transmit the contributions to him. It is my recollection that the total amount of these contributions was between \$500 and \$1,000. They were absolutely unpublicized and were independent of each other."

Stevenson said Wednesday it would be a "breach of faith on my part" to name the officials who received gifts from the special fund.

Smith is chairman of Stevenson's State Board of Public Commissioners, a non-salaried post. He is executive vice president of Marsh & McLennan Inc.

GRAPEFRUIT PRICES
LAKELAND (AP)—The first Florida grapefruit sold at auction from the 1952-53 crop averaged \$5.7 a bushel.

Florida Citrus Mutual reported the pink seedless grapefruit averaged \$5.77 a bushel and white seedless \$5.52. The fruit was shipped from Lake Wales, Fla., to the market.

The 1952-53 grapefruit crop was expected to be 1.5 million bushels, according to the Florida Citrus Mutual.

A grape variety was not in the market until the late 1940s, before the landing of the Russian satellite after the brief period of the Cuban revolution.

The White House was the first building erected by the government in Washington, D. C., and was modeled after the Irish palace of the Duke of Leinster.

After serving in the Russian Air Force for almost four years, Arkady Ludovskiy, 24, smiles after he was sworn into the U.S. Army at Southfield, Germany, under provisions of the alien enlistment program. The new private, who was a Russian senior sergeant, escaped from the Soviet Zone of Austria in April, 1951, while still in service. He was granted political asylum and worked as an aviation mechanic. (International)

Melicious woods burning is a crime against the community!

Barnum And Circus Midgets Were Of Same Root Stock

BUFFALO, N. Y. — Showman P. T. Barnum and the fabulous midget Tom Thumb, were actually fifth cousins, says a meticulous local author, who makes his business as a genealogist to verify such things.

G. A. Cleveland Shrivley, the author, says he was especially careful in his facts to trace the lineage because he found at the outset that he was related to both Barnum and the midget.

Shrivley is trying to bring the memory of the Tom out from under Barnum's hulking shadow by writing a biography of Tom himself. Shrivley discovered that Barnum and Tom were descended from a Thomas Sherwood, who turned up in America at Boston in 1634 and later moved to Fairfield, Conn.

Barnum Mum on Relationship
Barnum was aware that he was related to his money making midget, he was careful not to splash the fact before the public. No mention of their kinship has shown up in thousands of letters Shrivley has received from all over the world since he began research on Tom Thumb's way of life.

Tom Thumb was born Jan. 11, 1830, and christened Charles Sherwood Stratton, a rather pudgy midget for a fellow only 27 inches tall at the peak of his frame and fame.

Midge Found Accidentally
In his autobiography Barnum wrote that he stumbled across the midget on a visit to Bridgewater, Conn., in November, 1842. The showman's fortune as his famous American Museum in New York was starting to ebb and he needed a new attraction.

Drying the visit, Barnum wrote, his brother who owned a tavern casually mentioned little Charlie Stratton. Barnum looked up the child, who was two feet tall then, and signed him up through his father, Charles Sherwood Stratton promptly became General Tom Thumb, aged by Barnum's active mind from 4 to 11.

Added Embellishment
Barnum latched on the seven years to increase Tom's value as attraction. In the same way he embellished the midget as "Just Arrived from England," according to the showman's biographers who accepted Barnum's story of the meeting of the pair.

After years of tours with Barnum in America, Europe and even Australia, Tom Thumb was happily married — at Barnum's expense — to Lavinia Warren, a middle school teacher under contract to the showman.

The White House was the first building erected by the government in Washington, D. C., and was modeled after the Irish palace of the Duke of Leinster.

A grape variety was not in the market until the late 1940s, before the landing of the Russian satellite after the brief period of the Cuban revolution.

Nixon Vindicated

(Continued From Page One) who could be reached — favored keeping young Nixon on the ticket, swamped national headquarters in Washington after Nixon's radio TV explanation of his fund dashed whatever hopes Democrats may have had that disclosure of the donations might force him to quit the wires almost unanimously favored his staying on, officials said. Eisenhower said last night:

"I am only vindicated myself but I feel that he has acted as a man of courage and honor and, to far as I am concerned, stands higher than ever before." Indicating that the politically unprecedented case was closed as far as they are concerned, Eisenhower today took on a whistle stop schedule in West Virginia and Maryland and Nixon flew west to Salt Lake City to resume his 11-day campaign tour of the Far West.

Nixon had flown about 1,700 miles from Missouri Monday, Tuesday at Eisenhower's bidding to confer at Wheeling. The general met the plane and a dramatic scene followed as the two, both with tears in their eyes, clasped hands warmly and half-embraced. Stevenson, meanwhile, mapped plans to patch up political troubles in the Southland. Tomorrow he begins a quick invasion of Indiana and Kentucky, to be followed by a major television radio speech in Chicago Monday and flying visits to Ohio and Iowa next week.

For the time being, at least, Stevenson was saying nothing about the Nixon incident or Nixon's accusation that he was "claiming up" about a fund raised for the Illinois governor. The Democratic candidate was standing pat on what he said yesterday — it would be a "breach of faith" to name key state officials who salaries he said he had supplemented with donations from a special fund.

These gifts, he said, made it possible for him to get competent men who otherwise could not afford to take state jobs.

Sen. John J. Sparkman, the Democratic vice presidential nominee, continued his Midwestern campaign speaking at Des Moines, Worthington, Minn. yesterday. Things have been so good under Democrats that we can now "talk about a turkey in every oven."

Sen. Hubert A. Tamm of Ohio went ahead with his intensive speaking tour for the Republicans with a talk today at Racine, Wis. Yesterday he stumped the sections of Michigan where he is strong and is believed to have put the conviction of following into the Eisenhower camp.

Part of his talks were in defense of the Taft-Hartley Act, under heavy attack by President Truman and Stevenson. He said the spirit of the law is retained, labor leaders in time "will be our bosses."

The McCarthy Club of Wisconsin said Sen. Joseph P. Kamp, Republican, has challenged Truman to tell why he recently met the defense attorney for Alger Hiss, the former State Department man, yesterday. The club says Hiss was convicted of perjury for swearing he had not divulged department secrets to a Soviet courier.

Newsweek magazine said a poll of 50 political writers showed that 28 expect Stevenson to win, 22 believe Eisenhower will.

Hospital Meet

(Continued From Page One) their plans for building a hospital here.

"We are confident the Flah estate will authorize the construction of a sanitarium hospital at the earliest possible moment and our committee will certainly co-operate with them in every way possible."

The County Commission has the alternative within the law of placing the County hospital bond issue on the ballot for the November election. Commissioner H. B. Pope stated this morning, or of calling a special election for that purpose at some later date.

If it is to be put on the November ballot, the Commission must take action on it before Friday of next week. He added, because the law requires it to be advertised for at least 30 days prior to the election.

Jayces Meet

(Continued From Page One) water, police and fire protection. It is indeed a big business.

Mr. Lemon was introduced by President Owen Stratton, who outlined the City Manager's background as a scientist and the first Democratic mayor of Bloomington, Ind., in 24 years.

The Junior Chamber passed a resolution, introduced by William Stemper, endorsing National Empire's Physically Handicap week for approval by the Jaycees board of directors.

Dick Pope, Junior Chamber representative to the Farmers Auction meeting, urged the Jaycees to support the proposed barbecue pit that will be erected for public use at the Auction barn south of town.

Don Sales, formerly of Mount Senn, was introduced to the Jaycees as the new manager of Bob Motels and a newcomer to Mansfield.

Pope that tell-tale look on your face say change of life?

The White House was the first building erected by the government in Washington, D. C., and was modeled after the Irish palace of the Duke of Leinster.

Large Quantities Of Vegetables Are Allowed To Spoil

MIAMI BEACH (AP)—Dr. Eric G. Sharvelle, associate plant pathologist at Purdue University, says an estimated 75 million dollars worth of fruits and vegetables spoil in the nation each year. He told the ninth annual convention of the National Vegetable Association Wednesday that much of this loss was caused by certain well recognized molds. Dr. Sharvelle recommended greater care in handling, colder refrigeration, better packing and chemical treatments to kill the molds. James F. Davis, Jacksonville, chairman of the board of Wynn Lovett Grocery Co., said that "Today's housewife, our mutual boss, is demanding more frozen foods." "It is up to us to provide fruits and vegetables in the form the boss demands," Davis declared. He said frozen orange juice, peas, lima beans, broccoli and strawberries were now preferred to the fresh varieties because they were colorful and lasted longer without spoilage.

18 Second String Commies Nabbed By FBI Indicted

WASHINGTON (AP)—Eighteen second-string Communist Party leaders, rounded up by the FBI last week, have been indicted on charges of conspiring to advocate the overthrow of the United States government by force. Federal grand juries yesterday returned indictments against seven in Seattle, Wash., and five in St. Louis, Mo. The six others were indicted in Detroit last Monday. The action, announced by the Justice Department, charges violations of the Smith Act. This law prohibits the advocacy or teaching of the violent overthrow of the federal government "to avoid penalties up to \$10,000 fine, 10 years imprisonment, or both." The 18 party functionaries were picked up Sept. 17 by the FBI in Midwest cities and on the West Coast. They are alleged to have inherited party leadership after the convictions two years ago of the highest Communist officials in this country. Since it began moving against the party under the Smith Act in 1948, the government has obtained more than 80 indictments and has convicted more than a score of party leaders. The Seattle indictment charged the seven defendants with 16 specific overt conspiracy actions. The St. Louis indictment charged the five there with 15 specific overt acts. The six indicted in Detroit were charged with 17 specific overt actions. The 18 named in the indictments, the Justice Department said, include: Seattle — Henry P. Huff, 50; William J. Pennek, 47; Karl Larson, 47; Terry Pettus, 48; Paul Miller Bowen, 30; John Shields Daschbach, 38; Barbara Hartle, 44. St. Louis — James Frederick Forest, 43; his wife Dorothy W. Marcus Alphonse Murphy, 44; William Senter, 45; Robert Mauswitz, 35. Detroit — Saul L. Wellman, 38; Nathan Kaplan, 47; Thomas Derrick Dennis Jr., 31; Philip Schatz, 36; William Allan, 45; Helen Mary Winter, 44. All but one of the 18 are being held in lieu of bail, set variously at from \$10,000 to \$40,000 each. Pennek is at liberty after posting a \$10,000 bail.

POLIO CASES
WASHINGTON (AP)—For the fifth straight week a record number of new cases of infantile paralysis was reported by the Public Health Service today. Listing 4,190 cases for the week ended Sept. 20, the agency said the total for the "disease year" which started with the week ended April 5 reached 31,291, or 4,038 more than in the similar period of 1949, the previous record year. Last week's total of 4,190 compared with a total of 4,083 cases reported in the week ended Sept. 13.

MORE JUDGES NEEDED
WASHINGTON (AP)—United States cases are piling up in many Federal courts because of a lack of judges. It was reported today by Henry P. Chandler, director of the Administrative Office of the United States Courts.

The docket jam, particularly in civil cases, is growing worse year by year and trial delays are causing some litigants to suffer injustices, Chandler said in his annual report.

Michigan State Will Be Favored In Michigan Tilt

Tech Is Choice To Flatten Florida During Week-End

By HAROLD CLAASSEN
NEW YORK—Some of the season's best football games will be played this week end, partly hidden by the approaching World Series.

Perhaps these forecasts should be completely hidden. Anyway, here is how the week-end college football games should come out: Michigan State over Michigan—Last year Michigan State said it was writing off 1951 and looking ahead to 1952—but the Spartans were unbeaten in nine games. Their current team is rated better than its predecessor even though it can't improve its record.

Notre Dame over Pennsylvania—the Quakers have the material, and perhaps the attack but Notre Dame had the benefit of spring practice. That could be decisive this early in the season.

Ohio State over Indiana—Gone Old State over Indiana—Both have opened their seasons with this one. Ohio State was the defense team just over the 100 buck eyes. Indiana is rated better than Princeton is better stocked although it has no Dick Kazmaier.

Texas over North Carolina—On the first game using the split T. Holy Cross over Dartmouth—Charles Mayo's passing will make the difference.

Duke over Southern Methodist—The Dukes got the Duke in this Friday night affair.

Try and Stop Me

By BENNETT CERF

JOE E. LEWIS is a master at putting hecklers in their place while he is doing his act on a nightclub floor, but Peter Lind Hayes remembers one evening a party of drunks at a Chicago cafe was too much even for Joe. Their raucous laughter and insulting drivel grew worse and worse.

Finally, Lewis lost his temper and ordered, "Put the spotlight on those louts! They evidently want to do the floor show themselves!" The light was leashed over the agitators, whereupon the drunkest of the lot lurched to his feet and exalted, "Smile everybody! They're gonna take our picture!" Even Lewis laughed at that.

YOU'RE TELLING ME!

By WILLIAM RITT, Central Press Writer

CHILE has just staged its national presidential election. Smart people, those Chileans—they've saved themselves two months of listening to political speeches.

The town of Smithtown, Ill., sold its schoolhouse for \$5. This is the best idea Junior has heard of in ages.

That newly-invented snowball gun should be just the thing to cool off a hot temper.

That Minnesota who liked a picnic lunch as well he married the girl who prepared it, must be defense a rough afternoon.

There is no law, a court rules, against living in trees. Aside from birds and squirrels, who benefits?

A speech amplifying system is being installed by a legislature. What most parliamentary halls need is a speech amplifying system.

A noted medic says there are one million women who are overweight. Well, that's just about as round a figure as he could find, no doubt.

Caesares, Long and Hall Shine For U-F

GAINESVILLE—One of the most important events on Florida's athletic calendar was just three days off Wednesday, and you could feel it in the running half. Coach Bob Woodruff's grunting gladiators settled down to a long, hard afternoon's practice session with a will and they found a way.

Tampa Is Blamed In Recent Deaths Of Cuba Gamblers

TAMPA (AP)—A minister conducting the funeral of one of the two gamblers slain Monday night said Tampa should share responsibility for the killings.

The Rev. Millard Berquest, pastor of the First Baptist Church, directed the funeral of Angelo Giglio, also killed Monday night by a slayer who lurked in an unfinished building with a shotgun was Rene Nunez.

Berquest said "This whole community must share the responsibility for this dual tragedy and must feel a sense of shame and remorse that such inhuman murders can continue to take place in our community and can continue to go unavenged."

He added: "We are reminded again of our responsibility to keep vigilant, alert and aggressive in lending our wholehearted support to churches, institutions and organizations which are seeking unselfishly to purge and to preserve and to exalt life and make this city a better place in which to live."

Reporters were barred from the Nunez services.

With practically no known clues on which to work, investigators of the slaying expanded their probe.

J. J. Elliott, special investigator for Gov. Warren, entered the case. So did city detectives and an investigator for the state attorney's office.

No suspects have been arrested.

Entertainment Is Interfering With Warren Campaign

MADISON, Wis. (AP)—Midwest hospitality is making it tough for Florida Gov. Fuller Warren to get in his sales talk about the Sun Shine State.

The 10-state flying tour, aimed at attracting more tourists, and resulting in Florida, today included stops here and later at Indianapolis.

Wednesday, Gov. Warren was overwhelmed with gifts and speeches about the advantages of Minnesota and Nebraska.

He accepted a big basket of mixed Minnesota fruit and knelt on the Capitol steps at St. Paul to be made an honorary St. Paulite by the king of the St. Paul Winter Carnival, garbed in his brilliant costume. Television and newspaper cameras added to the gala atmosphere.

Warren also was commissioned a commodore in the Minneapolis Summer Festival Navy by a princess of the event. He got licenses to fish and hunt, a poited white pine and other tokens. Each was presented with a speech about the glories of Minnesota.

Earlier at Lincoln, Neb., Republican Gov. Val Peterson beat Warren to the punch with a welcoming speech about the advantages of living in Nebraska.

The Florida governor kept his vow to talk no politics. Attending Gov. Peterson's news conference, Warren was asked by newsmen what he thought of Sen. Nixon's Tuesday night talk. "It was a very impressively delivered speech," was all Warren would say.

Peterson, an adviser of Dwight Eisenhower, Republican candidate for President, praised the talk by the vice-presidential nominee.

Swank Apartment Permitted Under Veteran Housing

TAMPA (AP)—The Tampa Tribune said today Wilson Wyatt helped get a federal loan for a swank Sarasota apartment house under a law to provide emergency housing for veterans.

It happened in 1949, the Tribune said, four years after Wyatt left the post of federal housing expediter. He now is campaign manager for Adlai Stevenson, the Democratic presidential nominee.

Wyatt, as attorney for Earl, Wilham and Ann Lillian Franklin, was reported to have handled financial and title arrangements for the FHA loan to build the \$745,000 Franklin Manor Apartments.

The Tribune said this was one of a number of projects built at Florida coastal resorts under an FHA act designed to create housing for war workers and later amended to provide emergency quarters for veterans.

Rental rates for the Sarasota apartments were listed as \$100 a week for a one-bedroom apartment and \$125 for a two-bedroom

105 Executions In U. S. Reported During Last Year

WASHINGTON (AP)—The Federal Prison Bureau said today that 105 executions were carried out by civil authorities in the United States during 1951. With the exception of 1950, when there were only 82 legal executions, this was the smallest total for any of the 22 years in which national tabulations have been made.

The bureau noted that for the years 1930-1950, the average was 141 per year.

Of the 105 executions in 1951, 87 were for murder, 17 for rape and one for armed robbery. Those put to death, by electrocution, lethal gas, hanging and shooting, included 57 white persons, 17 Negroes and one American Indian. One was a woman, the first since 1917.

Their ages ranged from 18 to 71 with the largest number in the 25-to-29 group. However, in the rape cases the largest concentration was in the 20-to-24 age bracket.

The 1951 executions were carried out in 26 of the 48 states where capital punishment may be imposed under ordinary circumstances. There was none by the federal government last year.

Seven of the 26 states accounted for 61, or more than half the 1951 total. These were Texas, 13; Virginia, 10; Florida, Mississippi and New York, eight each; and Georgia and Alabama, seven each.

Idaho, for the first time in the 22-year record period, invoked the death penalty and carried out two executions for murder.

The grand total for the 22-year period, the bureau reported, is 3,126.

The bureau's statistics do not include executions by military authorities. However, the report noted that the Navy has had none since 1917 while the Army, including the Air Force, carried out a total of 118 from 1912 to 1950.

Dewey Hits Truman On Korean Policy

NEW YORK (AP)—Gov. Thomas E. Dewey says the Democratic administration invited the Korean War "by two acts of supreme folly."

Dewey, urging the election of GOP nominee Dwight D. Eisenhower on a radio and television program last night, said the administration's withdrawal of troops from Korea and its announced that Korea and Formosa were outside our defense perimeter.

"They might just as well have sent a telegram to Stalin saying, 'We do not want this country to stay free; you may go ahead and conquer it!'"

Assault Conviction Crawfordville

CRAWFORDVILLE (AP)—A six-man jury convicted Iverson Dillard Martin, former Georgia and Kentucky lawyer, of assault with intent to murder for the shooting of A. C. Eubanks, Atlanta tire dealer.

Sentencing was deferred after the verdict was returned late Wednesday.

Eubanks, seriously wounded in the shooting at a Panama fishing lodge last May 17, said he had entered Dillard Martin's room after hearing sounds which led him to believe someone was in pain.

Dillard Martin said he awoke to find a stranger in his room, ordered him to leave and when he did not do so, fired at him.

Miami Registration

MIAMI (AP)—A single day's record registration of 1,250 Wednesday sent the total of Dade County voters to 273,000, according to Mrs. Roger Fox, chief deputy in the supervisor of registration's office.

Mrs. Fox said another record was set with 2,006 absentee ballots already mailed out for the Nov. 4 general election.

Bug Meeting Fort Pierce

FORT PIERCE (AP)—The Florida Entomological Society is meeting here Oct. 9-10 instead of Sept. 25-26 as previously announced.

Norman C. Hayslip, assistant entomologist at the Indian River Field Laboratory, announced the change in dates Wednesday.

Government Controls Jacksonville

JACKSONVILLE (AP)—The Department of Labor says government contracts have been awarded to these Florida firms:

Clearwater: K. S. Industries, (Army) rifle parts, \$18,000.

St. Augustine: Rex Bassett, (Army) crystal units, \$123,000.

Palatka: Hudson Pulp & Paper Co., (Army) paper bags, \$30,000.

A GROUP OF REPORTERS interview Sen. Joseph McCarthy (R-Wis.) upon his arrival at LaGuardia Airport, N. Y. The controversial legislator said he would campaign in any state for Gen. Dwight Eisenhower. He added he hadn't invited him in campaign as yet. (International)

American Beauty

LAKELAND (AP)—Nothing like it ever happened here—that noisy reception given Neva Jane Langley, the hometown girl who became Miss America.

Cheers, shouts, football-type yells greeted the beauty as she rode in a motorcade Wednesday. Later she was the guest at a luncheon, water ski show, dinner and a ball.

School children were turned out of classes and they made the most of it. Flocks of them followed the beauty's car as it inched through the throngs gathered to see her.

King's English

OSAKA, Japan (AP)—Derek Smith, a British sailor appealing his conviction of robbery, testified today in a Japanese court in the purest Cockney.

The Japanese interpreter complained: "I understand American English but I have difficulty with the King's English."

Arthur British Consul D. W. Perloff, an observer, remarked: "That's not exactly King's English."

Burma Is Hottest Spot For Commies

By ROBERT HEWETT
 RANGOON (AP)—This "neutral" capital of Burma is the hottest spot of Communist propaganda in Southeast Asia.

Two out of every three bookstalls splash expensively printed magazines extolling the glories of Stalin.

At the downtown King Theater, leased by the Soviet Embassy, such Russian-made motion pictures as "The Great Zerkov" and "The Soviet Union" are shown. The propaganda campaign is directed by people who know their business.

Tons of literature, given away or sold for a few cents, pour into Burma from Red China and the Soviet Union. The propaganda campaign is directed by people who know their business.

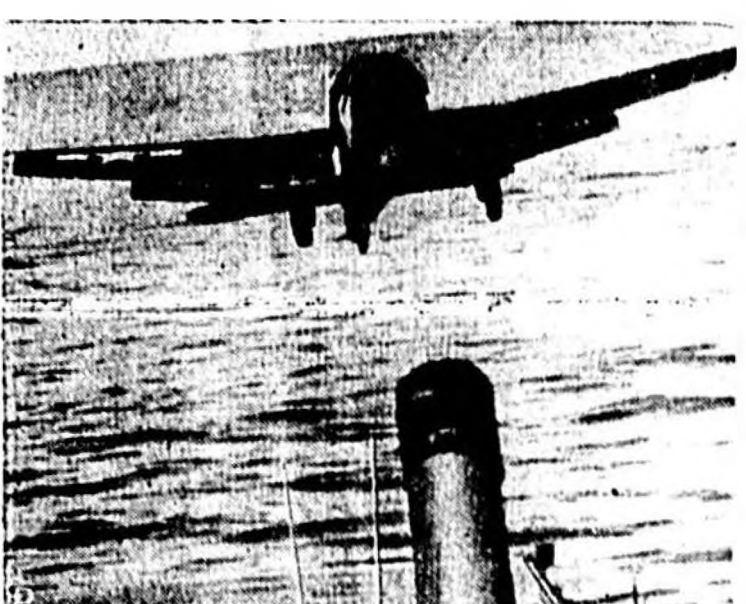

Such of this has been effective, particularly in winning the appreciation of some government officials, but in the streets among the masses, the Communists are far ahead of America in this propaganda battle.

The usual tracts on Marxism are outshone by dozens of slick paper magazines with color printing fully as good as America's best. The Soviet-leased theater, which operates like an ordinary movie house, mixes its out-and-out propaganda films with some of Russia's best movies. The Communists have subsidized a Burmese motion picture company to make Red slanted movies in the local language.

To meet this propaganda challenge in the same arena, a privately financed American organization, the Committee for Free Asia, has set up shop in Rangoon and other Asian areas. It is headed by Alan Valentine as president, with headquarters in San Francisco.

The CFA project in Rangoon is a "Free World" bookstore selling anti-Communist books and magazines at or below cost. Its aim is to out-propagandize the Reds at their own game.

CFA is meeting the movie challenge by assisting in the production process.

A P-51 Mustang Navy Hellcat, similar to ones now being used to attack against the Communists in Korea, leaves the flight deck of a carrier during test flight off Atlantic City, N. J. The obsolescent dive bomber, outfitted with television eyes and electronic gadgets, are now being used by the U. S. to blast enemy targets. When the missile makes a dive on the target the guide plane is miles away. (International)

Stronger Sex

BOSTON (AP)—A noted physician says women "tolerate most of life's difficulties better than their husbands."

Dr. Robert S. Palmer of the Massachusetts General Hospital said Tuesday night that as a result women are less susceptible to high blood pressure than men.

3 Year Old Girl Reported Kidnaped

WICHITA, Kan. (AP)—A 3-year-old girl, who Denver police said had been reported kidnaped, was taken into custody by police Tuesday night together with her father and the two men on fugitive warrants.

The plane landed here about 7 p. m. CST after a flight from Denver. Police arrested the two men on fugitive warrants.

They gave their names as George Landrum, Miami, Fla., father of the little girl, Patricia Pratt, and Edward Murphy, the pilot.

In Denver, Police Capt. William Flor and Mrs. Patricia Pratt had reported the girl kidnaped by two men who had followed her in a car. Mrs. Pratt, according to her mother, Mrs. Ann Doshing, Denver.

Landrum told Wichita police a Florida court had given him half time custody of the child and that he had searched for her for some time. Both Landrum and Murphy said they would fight extradition to Denver.

Mrs. Pratt told officers she went out in her automobile and noticed she was being followed by two cars, each carrying two men. She and one car pulled alongside and two men grabbed the child from her car. She ran after them and they knocked her to the street.

Flor and Mr. Pratt told detectives that she recognized her former husband in one of the automobiles but he did not take part in the kidnap on her.

Landrum told Wichita police a Florida court had given him half time custody of the child and that he had searched for her for some time. Both Landrum and Murphy said they would fight extradition to Denver.

 YOU GUYS GET ANY SLEEP LAST NIGHT?
 WITH THOSE OLD GRADS HOWLING? - ARE YOU KIDDING?
 I COULDN'T STUDY EITHER - IF I PLUNG MY FATHER WILL BLAST ME - AND SAY IT'S MY FAULT!
 COME ON! WE HAVE TO MAKE CLASS! YOU GUYS HAVING ANY QUESTIONS?
 ARE THEY ON THE MENU?
