

State Tuition Law Applies To Kindergartens, Adults

TALLAHASSEE (UPI) — Atty. Gen. Richard W. Ervin has ruled that kindergartens, vocational schools, and adult education classes are affected under the law requiring non-residents of Florida to pay a \$50 tuition fee.

Ervin, in making the ruling Monday, also said that both non-resident and resident students may be charged tuition, though the education board has not voted to charge tuition.

The tuition law was passed by the 1959 state Legislature.

The act provides for the \$50 fee in all public education in grades one to 12 inclusive, comprising elementary and secondary schools and vocational departments of schools.

It does not mention kindergartens of which there are only a few supported by public funds in the state. But the general school support law provides that kindergartens shall be considered as part of the elementary school system and supported in the same manner.

Ervin said in a ruling in the State School Dept. that the tuition act applies to kindergartens and vocational schools which are closed with secondary schools.

It applies to adult education classes, he said, if the instruction provided is in grades one to 12.

Gambling Permit Drive On Again

MIAMI (UPI) — Business agent Harry Levy said today Monday that former heavyweight boxing champion Jack Dempsey will help drive to support a new drive to establish legalized gambling casinos in Dade (Miami) County.

Dempsey spearheaded a drive last year to bring legal casinos here, and the county commission passed it on first reading. Heavy opposition from private citizens and public officials caused the ordinance to fail to be brought up for a second reading.

Levy said many Miami beach hotel operators were behind the present move, but he declined to name them. He said the group will begin circulating petitions next month, calling for the Legislature to hold a statewide referendum to create legalized gambling.

He said each of Florida's 17 counties would receive a percentage of the profits under the plan.

"After the noise, I heard an argument start upstairs," said Mrs. Land. "It went on for about five minutes and then I heard Miss Martin scream, 'help me! help me!'"

Another neighbor, Mrs. Gertrude Jumps, said she and her husband also heard the screams. "My husband and I ran out," she told police. "We saw a light at the closed stairway door leading to Kinzie's apartment. We saw this girl standing there, pounding her fists against the door glass. 'It shattered everywhere,' said Mrs. Jumps. 'We could see her face. She was screaming something, 'there's a man in here!' I ran and called the police."

Miss Martin, her nude body splattered by blood, was found collapsed at the bottom of the stairs, still alive but unable to speak. She died several minutes later of three knife wounds in the chest.

An autopsy report showed she had not been sexually molested. A severe bruise over the left eye indicated she may have been struck before the stabbing.

State Cood Loses Argument, Is Killed

MIAMI (UPI) — In a 10-year-old "University of Colorado case" appeal from her husband and will made for five children, the state lost its argument today. They said the woman was someone she will had not named a

Nobody Calls Pearson Bar At House Hearing

WASHINGTON (UPI) — Drew Pearson testified for two hours before the House Armed Services subcommittee, and nobody even called him a liar.

"I can't tell, the initials 'D.D.' never were used, they didn't even call 'Dr. Pearson' throughout."

The subcommittee is investigating no money defense contracts given to many retired military officers. It also has expressed interest in parties and work done in the Bahamas where big contracts might be discussed.

Pearson and his partner, Jack Anderson, have written a book called "U. S. A. — Second Class Power" which includes some chapters on just those ticklish questions. The Chairman, Edward Hebert (D-La.) had called them to tell what they knew.

Pearson has been called a liar by so many congressmen he can't remember the number. He's been called liar, and worse, also by presidents, and by cabinet members and others in assorted high places.

Some of these protests of course have come shortly before the record was sent to the showers, or sent to jail.

Rep. Clare E. Hoffman (R-Mich.) likes to say he got Drew Pearson to admit under oath that he was a liar. I think what Pearson actually said was, he was wrong.

Anyway, this enables Clare now to say, "I just don't know now what to believe. If a fellow says under oath he's a liar, where does that leave you?"

Hebert said the subcommittee had given the witness a book, and had read some of their columns, and had invited them up for whatever help they could give. They had "graciously accepted," he said.

Several newspapermen in the room, including maybe Pearson

Baltimore Doctor Winner At 96

SPRINGFIELD, Mass. (UPI) — Dr. William N. Pannabaker, 96, of Baltimore, Md., has won a \$2,000-a-year bet with vital statistics.

The Massachusetts Mutual Life Insurance Co., said that Pannabaker has received the proceeds from a \$2,000 life insurance policy he purchased in 1920.

Company officials said the doctor, who was 57 when he bought the policy, had less than one chance in 20,000 of reaching the 96.

Postman's Route Bit Repetitious

BOSTON (UPI) — Pity the poor postal worker in Boston, the nation's largest postal district.

Within this district there are 40 routes named Adams, 22 Cleveland, 18 Hancock, 16 Jefferson, 12 Madison, 11 Madison, 10 Adams and 20 Washington streets.

Missing Persons

SPRING VALLEY, N. V. (UPI) — At least one telephone number was accidentally left out of the new Rockland County directory — that of the Spring Valley Police Department.

Quotable Quotes

United Press International

TOMES RIVER, N. J. — Ocean County Prosecutor Howard Evert, tracing a prison fire that killed eight inmates to an inflammable tranquilizer solution and a cigarette slipped to a deranged prisoner by a trusty:

"It was an act of kindness, but he gave it to the wrong guy."

WASHINGTON — Senate Democratic Leader Lyndon Johnson (Tex.), on possible adjournment of Congress to avoid taking part in greeting Soviet Premier Nikita S. Khrushchev next month:

"I don't believe that the fact that the president has invited a visitor to this country and he has accepted is any reason for members of Congress to flee the capital."

MINNEAPOLIS — Vice President Nixon, reiterating that President Eisenhower will not carry on private negotiations on Berlin with Soviet Premier Nikita S. Khrushchev:

"Any settlement of any question will have to be made with all appropriate parties present."

Hospital Costs Up

NEW YORK (UPI) — Hospital costs — at an all-time high — will continue to spiral at about five percent a year, the new president of the American Hospital Assn. said today.

Senator Says Nikita Visit Is Opposed

INDIANAPOLIS, Ind. (UPI) — Sen. Homer E. Caphart (R-Ind.) said Sunday that practically all members of Congress are opposed to the visit of Nikita Khrushchev to this country.

Caphart, a member of the Senate Foreign Relations Committee, added that the senators and representatives in Washington are maintaining a grim silence about the American tour of the Russian dictator, adding:

"It is as if a close relative had died of unknown causes."

Indiana's senior senator said there is talk in Washington that Fidel Castro will fly to New York to meet with Khrushchev.

Caphart strongly condemned the invitation to the Russian premier and said he believed the presidential campaign of Vice Pres. Nixon would suffer from the effects of the visit.

Senators have to keep their mouths shut when running all through their lives.

TOP HAT BOMBERS are these enlisted men at the Naval Air Station, who have started bombardier training. The name was given them in the tradition of former ace of the carrier squadrons, an enlisted pilot unit called the Top Hatters. Left to right are, standing: G. E. Reichfield, F. W. Lester, G. W. Mitchell and J. H. York. Kneeling: W. F. Kohrman and R. J. Sander. (Navy Photo)

Skeleton Leads To Arrest Of Suspect

ATLANTA (UPI) — Larry Lee Motherwell, 24, charged with the murder of a 12-year-old prominent Washington, D. C., widow, was captured today by the FBI in Atlanta. Just as he was about to board a plane for Cleveland.

J. Edgar Hoover, director of the FBI, announced in Washington that Motherwell, sought for four days in a nation-wide search, was captured. The FBI in Atlanta said Motherwell was unarmed and offered no resistance.

Motherwell was living in Atlanta under the alias, Craig D. Foster, the FBI said.

Motherwell was wanted in connection with the death of Mrs. Pearl Ada Putney, 72. FBI officials said Motherwell only admitted to his identity when apprehended by two FBI agents who arrested him at 1:15 a. m.

Motherwell claimed he had been residing in Atlanta since mid-July in rooming houses and was unemployed. The construction engineer said he was going to Cleveland to seek a job as a salesman with an automotive parts firm.

Motherwell became the object of a nation-wide search last Thursday when Santa Clara County, Calif., Dist. Atty. Gordon I. Smith charged him with the murder of Mrs. Putney, of Washington, D. C.

The elderly widow's bones were found on a lonely logging road in the California mountains Sunday, Aug. 16. The FBI Aug. 30 filed charges against Motherwell in San Francisco for unlawful flight to avoid prosecution for the crime of murder.

Ghostly Error, Woman Says

HAMILTON, Bermuda (UPI) — "Pieces be advised," said the paid ad in The Royal Gazette, a Hamilton newspaper, "that Mrs. Velma Burgess is very well and looking after her children in St. George's. Rumors of her passing away were erroneous."

Mrs. Burgess, a 47-year-old housewife, had no idea how the report of her death got around, but said she took the ad to end the "nightmare." She said, "people even started touching and pinching me to make sure I was alive. Believe me, living the life of a ghost for seven days is no fun, no fun at all!"

Wholesale candy sales in the U. S. totalled \$1,117,000,000 in 1958, according to the National Confectioners Association, up five per cent from 1957.

Quick. Cool. Carefree...

Borden's Cottage Cheese makes any meal quick, cool and carefree!

It's always fresh, creamy, delicious... ready to serve right from the carton to salad plates... with no work.

Here's a whole cool, thrifty meal in a carton... power-packed with pure protein that builds energy and restores vitality.

Use lots of Borden's Cottage Cheese all summer long for quick, cool and carefree meals.

CHEVROLET

most m.p.g.*

one of 7 big bests Chevrolet gives you over any car in its field

Ford that Chevy delivers the most miles from a gallon comes from an indisputable source: this year's Mobilgas Economy Run. For a pair of Chevrolet sizes with Powerglide walked away with the first two places in their class — got top mileage in fact, of one full-sized car. Over the Run's long, rugged course, over mountain and desert in the long, long haul from Los Angeles to Kansas City, the winning Chevrolet averaged a whopping 22.34 miles per gallon. That's the kind of economy-engineering that keeps you saving while you drive!

BEST STYLE — It's the only car in the leading low-priced class that's unambiguously modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in design styling."

BEST BRAKES — In competitive tests of repeated stops from highway speeds, conducted by N.A.S.A., Chevy outstayed both of the "other two." Naturally — Chevy brakes with bonded linings are far larger, built to lengthen brake life by up to 66%.

BEST TRADE-IN — Look at the record — the used car prices in any N.A.D.A. Guide Book. You'll find that Chevy used car prices last year averaged up to \$122 higher than comparable models of the "other two."

BEST ENGINE — Chevrolet engines have long won expert praise and, just recently, Chevrolet received the

NASCAR Outstanding Achievement award for "the creation and continuing development of America's most efficient V-4s engines."

BEST ROOM — Official dimensions reported to A.M.A. make this abundantly clear. Chevy front seat hip room, for instance, is as much as 5.9 inches wider than in comparable cars.

BEST RIDE — MOTOR TREND magazine names Chevy "... the smoothest, most quiet, softest riding car in its price class." But this is one Chevy feature you really should discover for yourself, at your Chevrolet dealer's. Stop by soon.

AF Sergeant Inherits \$40 Million, But Stays \$480-Month Tail Gunner

MERCED, Calif. (UPI)—An Air Force sergeant who inherited a mercury mine valued at \$40 million said today he wants to keep his \$480 a month job as tail gunner on a B-51 jet bomber.

"But, now I've got enough to buy groceries for a while," said Sgt. Thomas L. Howlett, who is stationed at Castle Air Force Base.

The 28-year-old airman inherited the mine from Mrs. Cora Dinmore of Livingston, Calif., the widow of a prospector. It is believed to be the largest mercury mine in the world.

Howlett joined the Pentecostal Church here two years ago and married Nora Mayberry, 12, the daughter of a Merced County turkey grower. Mrs. Dinmore was a friend of the Mayberrys.

The airman and his bride befriended the widow and listened to her stories of prospecting trips throughout the world. But her favorite story was one about a mercury mine in Alaska.

Early this spring, Mrs. Dinmore showed the young couple a metal box containing a map to the multi-million dollar mine. Just five weeks before she died, the widow said that they were to have it.

Howlett went to Alaska, restaked the mine — and obtained the impressive geologist's report.

Schools Already Enroll 9,082

It looks like a record county school enrollment this year county school Administrative Assistant Walter Teague said today.

Monday's registration of students reached 9,082 and the stream of enrollment is still flowing. Enrollment expected has been 10,000. Parents can register any day this week and next Monday.

Teague knows of only one case where the out-of-state tuition fee for non-resident children in state schools was paid. Other newcomers to Florida put their children in county schools, but they had the necessary exemptions, he explained.

Non-residents who move from county to county in Florida must pay the \$50 only once for the year, the State Board of Education committee has decided. The tuition fee must be paid when the pupil is enrolled.

The intrastate moving policy has been developed since the Aug. 15 meeting of county school superintendents who discussed the tuition law. A committee of five school superintendents, a school law authority, and legislator Cecil Cook drew up the policies for uniform administration of the new tuition law throughout Florida.

Exempt from paying the tuition are people who meet any one of these qualifications:

Residents in Florida for a year, own a home in Florida which is their residence, have filed a declaration of domicile in the county where their child is to attend school, are in the Federal military service, are civilian employees whose children's education is provided partly or wholly by federal subsidy to state-supported schools, or migratory workers.

News Briefs

Housing Bill Passed

WASHINGTON (UPI) — The House Rules Committee approved the \$1,000,000,000 "second try" housing bill today. Debate on the House floor was expected to begin Thursday.

Aid Queria Settled

BELOGRADE, Yugoslavia (UPI) — All technical questions connected with U. S. military aid to Yugoslavia, which stopped in 1947 at Yugoslav request, have been settled, the news agency Tanjug said today.

Collins Okay

BETHESDA, Md. (UPI) — Lt. (jg) LeRoy Collins Jr., son of the governor of Florida, was reported in excellent condition at the Naval Medical Center today following minor surgery for a severe facial laceration received in an airplane crash.

Diplomat Approved

WASHINGTON (UPI) — The Senate Foreign Relations Committee Tuesday approved Walter C. Bowling, a career diplomat, to be assistant secretary of state for European affairs. Bowling, a native of Arkansas, is now ambassador to Korea.

Steal For Kicks

TAMPA (UPI) — Two 17-year-old boys who talked like Beatniks admitted today they committed 13 burglaries "just for kicks," police reported. Officers said Donald Wilton and Geiger Powell took articles and cash amounting to more than \$500.

\$5 Million Fire

LIMERICK, Ireland (UPI) — About 220 persons were left jobless today by a \$5,000,000 fire which gutted a block of offices, shops and homes Tuesday in the heart of Limerick. Officials called the fire the worst in Ireland in many years.

Jet Under Bridge

COLUMBUS, Ohio (UPI) — Capt. John S. Lappo, an aircraft commander of the Strategic Air Command, has been grounded indefinitely for flying a jet at 847 mph beneath the Straits of Mackinac in Michigan. There is about 150 feet clearance between the bridge and the water.

Chinese Cross Line

NEW DELHI, India (UPI) — Chinese Communist troops have entered India from Red-dominated Tibet, according to reports from reliable sources here today. The alleged border violation was said to have taken place in India's North Eastern Frontier Agency, the wild and mountainous region which borders on Tibet and through which the Dalai Lama made his escape from the Communists last March.

Gen. Hutchison Joins Chase Co.

New Chase & Company Executive Committee chairman is Lt. Gen. J. C. Hutchison of Indian Mound Village.

The World War II veteran commander has over 40 years experience in business operations. Gen. Hutchison has served on the Seminoles Memorial Hospital Board, been associated with the Sanford Commercial Library, the Chamber of Commerce and the Grocers and Shoppers League of Florida.

After 21 months combat service in the Pacific during the war the general accepted the surrender of Japanese troops on Mindanao. He retired from the service in 1952.

"Chase & Company is proud and pleased to have Gen. Hutchison associated in the company as executive committee chairman," Randall Chase, president, said in making the announcement.

Texas Bounces Radio Beam Off Moon To England

AUSTIN, Tex. (UPI) — Scientists on two continents celebrated a "first" today after radio contact was established between Texas and England via the moon.

The moon-bounced radio signals were transmitted Tuesday and engineers of the University of Texas, working jointly with engineers at Malvern, England, announced the accomplishment.

It was termed the first time radio signals have been transmitted by moon reflection for a distance equal to one-quarter of the earth's circumference. It was a distance 2,000 miles further than that accomplished recently by the Army at Fort Monmouth, N. J., according to Dr. A. W. Straton of the university.

Straton said the moon must be visible in both England and Texas for the experiment to be made successfully.

100 Soviet Subs Prowl Pacific

SAN DIEGO, Calif. (UPI) — The presence of 100 submarines believed to be Communist in the Pacific has resulted in creation of a staff job for a deputy naval commander to be concerned solely with anti-submarine defense matters.

Adm. Herbert C. Hayward, commander-in-chief of the U. S. Pacific Fleet, made the disclosure Tuesday at the Institute of Aeronautical Sciences' meeting on anti-submarine warfare.

Hayward said the position would be filled by a three-star admiral whose job it will be to consider defense against attacks which could be launched by enemy submarines.

He said the Pacific fleet at present spends "a great deal more than half" of its time in anti-submarine training and operations.

The four-star admiral said he believed 100 of the 400 submarines the Communists now have are operating in the 10-million square miles of the Pacific Ocean.

Congress To Resist Ike Demand

WASHINGTON (UPI) — Congressional sources forecast today the Senate and House would agree to only part of President Eisenhower's three "most" legislative demands before quitting for the year.

They predicted Congress would approve a bill in the Federal Housing Administration's mortgage insurance authority and a gasoline tax increase to finance interstate superhighway construction. But both will be in much different form than Eisenhower sought, the sources said.

His third top-priority request, for authority to boost interest rates on government bonds, has been pigeonholed by the House Ways & Means Committee. Legislative increases in interest on long-term bonds appeared dead for this session. Congress might agree to lift the interest ceiling on government savings bonds.

Eisenhower sent two special messages to the lawmakers Tuesday demanding action on the three matters. He said serious problems could arise if Congress failed to act on them before adjournment, expected sometime in the first half of September.

Senate-House conferees planned a showdown on a Democratic compromise proposal on four controversial issues stalling agreement on a labor reform bill. Sen. Barry Goldwater (R-Ariz.) has said he would move to seek new instructions from the Senate if the conferees were deadlocked at 5 p. m. But he indicated he might scrap the deadline if the talks were making headway then.

Union Chief Back For Steel Talks

NEW YORK (UPI) — Union chief Philip Murray returned today to return to the steel strike negotiations today, even though he contends that up to now they have been "a sham."

McDonald has been absent from the bargaining table since Aug. 7, leaving his assistants to dicker with the representatives of the 12-ribbed steel companies on "non-economic" clauses of a contract, that is, issues other than wages.

No Clues Found In Knife Slaying Of California Coed

LOS ANGELES (UPI) — Police today checked known sex criminals and both men and women friends of slain University of Southern California coed Linda Edna Martin for clues to her killer.

Police admitted they were without any substantial leads in the knife slaying of the 21-year-old USC music student from Rockville Center, N. Y., who had a fear of dying young.

"We're not dismissing the possibility a woman was the killer," said Inspector Thomas Beddin. "And we're not dismissing the possibility that it was a sex fiend, a friend, or a prowler, either."

Miss Martin, nude and bleeding to death from three stab wounds, was found Sunday night on stairs leading to the apartment of her bearded fiancé, Glenn Robert Kinzie, 21-year-old USC graduate art student.

Kinzie has "passed" a lie detector test and been cleared of the slaying.

Miss Martin was previously married. Her former husband, John Lewis Taylor, 34, told United Press International in Chicago Tuesday that Miss Martin had a premonition she "wouldn't live very long."

"I just kidded her," he said.

New County Home Boiler Okayed

County commissioners yesterday agreed to buy a \$1,200 boiler for the county home and to pay \$200 for installation of an oil tank there.

The bid of Boiler Service Co. was accepted on a boiler which will give 600,000 units of heat radiation, compared with the 160,000 units the present boiler provides. The 1,000 gallon fuel tank will burn about one gallon of oil per hour.

West Germans Hail Eisenhower

BONN, Germany (UPI) — President Eisenhower landed at West Germany's capital city of Bonn today to launch a historic nuclear age crusade for peace.

The man who led the Allied armies 14 years ago to inflict on Germany the most crushing defeat in its history was welcomed back here in triumph today as the free West's leader in the cold war with communism.

West German Chancellor Konrad Adenauer, 68, and most of his government were on hand to greet the president as he stepped from his gigantic jet transport at Wahn Airport near here.

An estimated 25,000 Germans lined the 15-mile route from Wahn to Bonn and his nearby diplomatic suburb of Bad Godesberg where the president was to spend the night at the U. S. embassy residence.

Eisenhower flew to Europe knowing full well that his day of talks with Adenauer Thursday might add to the Soviet bitterness toward West Germany, but the American leader was determined to use his "last atom of energy" in his jet-age quest for peace.

The president and Sec. of State Christian A. Herter will spend seven hours in conference with Adenauer, Foreign Minister Heinrich von Brentano and other West German officials.

Thursday evening Eisenhower flew on to Berlin for a five-day visit, during which he will make a quick trip to Scotland to call on Queen Elizabeth II, hold down-to-earth diplomatic talks with Prime Minister Harold Macmillan and receive Spanish Foreign Minister Fernando Maria Castiella.

On Sept. 2 he hops over to Paris to meet with French President Charles de Gaulle in what may be the toughest part of his mission designed to weld together a solid Western front before his meeting with Soviet Premier Nikita Khrushchev Sept. 15.

The triumphal reception given the president here was dramatic evidence of the way the cold war has switched the world's power from France to the United States since the destruction of Nazi Germany in 1945.

The West German scene in President Eisenhower and the U. S. their main hope ultimately of breaking down Soviet hostility to German reunification. The Bonn government staged a welcome here that reflected the unity hopes not only of 51 million resurgent West Germans, but also of the 17 million Germans under Communist rule in the East.

Thousands of cheering Germans lined the streets in every little town and village, waiting for the Eisenhower motorcade on the 10-mile drive to Bonn.

Banners inscribed "Welcome Mr. President" and "Germany is indivisible" draped village streets.

Casselberry Asks Road, Bridge Work

Casselberry Commission Chairman Graham Wilson asked road and bridge improvements of the county commissioners at their meeting.

Water is trapped in a dip in Lake Catherine Circle as the road leaves Seminole Blvd., Wilson said. He asked for a culvert drain to take off the water. The bridge connecting Lake Catherine with Lake Eola is in poor condition and should be marked with warning lights at night. Wilson stressed.

The function of Dulles Rd. and Seminole Blvd. is in bad way and needs marking, he said, recalling that a dangerous accident occurred there last year.

House Okays Bill Limiting States' Power On Taxes

WASHINGTON (UPI) — The House passed and returned to the Senate legislation temporarily limiting states' powers to tax the income of businesses which cross state lines to seek sales.

The measure, which would apply to the 1960 and 1961 tax years, would exempt firms from state or local income taxes if they merely solicited orders in a state.

A state or its local governments could impose an income tax only if a company or its agents maintained an office, salable inventory, warehouse or other place of business in the state.

The Senate passed a differing version of the bill last week. In contrast to heated Senate debate, the House stamped approval on the measure Tuesday with little discussion.

The Senate bill would permanently exempt from state taxes firms that send only salesmen into a state.

The measure stems from recent Supreme Court rulings permitting a state to tax income from the sale of goods within its borders, even though the goods were shipped from a company in another state.

ON IKE'S ROUTE — Balmoral Castle, Queen Elizabeth's retreat, will be a stop for Pres. Eisenhower on his European trip. He will be a guest of the Queen at the Scottish castle.

Cancer, Heart Cures Predicted

MEMPHIS, Tenn. (UPI) — Dr. Walter C. Alvarez, 75-year-old syndicated medical columnist and former consultant of the Mayo Clinic, said here Tuesday he expects to live to see a cure for some kinds of cancer.

Dr. Alvarez is here to speak today at the opening session of the 5th International convention of the Alpha Kappa Kappa medical fraternity.

Speaking of cancer, the Chicago physician said "one of the biggest things people could do is quit smoking, but they won't."

"Many of my friends died of cancer of the lung and they were chain-smokers every one," he added.

Other diseases, Dr. Alvarez said, "within five or ten years, I hope we'll understand the cause of hardening of the arteries, leading cause of heart disease."

"We're hot on the trail of it now," he explained.

NAS Officers Join In Tribute To Cholain Fuller

Naval Air Station officers are expected at the Seminole Chamber of Commerce Coffee Club tomorrow to help pay tribute to outgoing base Chaplain William C. Fuller.

NAS commanding officer, Capt. Lionel A. Arthur; Capt. James D. Ramag, Cdr. Paul Spinks, and Cdr. William A. Meland are among those officers expected for the 10 a. m. gathering at Mrs. Appleby's Valder Restaurant.

Chaplain Fuller will transfer his duties to eight destroyers at Newport, R. I., headquarters of DESRON 12.

Kirk Plaza office building will be visited after the meeting.

BUDGING SCHOOL ARTISTS will be well supplied as county school supplies manager Roger Harris checks his clipboard and shelves full of art materials for student use. A haul of educational materials went out from the Palmetto Ave. supply office this morning.

Ike Pledges 'Last Atom Of Energy' For Peace

BONN, Germany (UPI) — President Eisenhower landed at West Germany's capital city of Bonn today to launch a historic nuclear age crusade for peace.

The man who led the Allied armies 14 years ago to inflict on Germany the most crushing defeat in its history was welcomed back here in triumph today as the free West's leader in the cold war with communism.

West German Chancellor Konrad Adenauer, 68, and most of his government were on hand to greet the president as he stepped from his gigantic jet transport at Wahn Airport near here.

An estimated 25,000 Germans lined the 15-mile route from Wahn to Bonn and his nearby diplomatic suburb of Bad Godesberg where the president was to spend the night at the U. S. embassy residence.

Eisenhower flew to Europe knowing full well that his day of talks with Adenauer Thursday might add to the Soviet bitterness toward West Germany, but the American leader was determined to use his "last atom of energy" in his jet-age quest for peace.

The president and Sec. of State Christian A. Herter will spend seven hours in conference with Adenauer, Foreign Minister Heinrich von Brentano and other West German officials.

Thursday evening Eisenhower flew on to Berlin for a five-day visit, during which he will make a quick trip to Scotland to call on Queen Elizabeth II, hold down-to-earth diplomatic talks with Prime Minister Harold Macmillan and receive Spanish Foreign Minister Fernando Maria Castiella.

On Sept. 2 he hops over to Paris to meet with French President Charles de Gaulle in what may be the toughest part of his mission designed to weld together a solid Western front before his meeting with Soviet Premier Nikita Khrushchev Sept. 15.

The triumphal reception given the president here was dramatic evidence of the way the cold war has switched the world's power from France to the United States since the destruction of Nazi Germany in 1945.

The West German scene in President Eisenhower and the U. S. their main hope ultimately of breaking down Soviet hostility to German reunification. Thousands of cheering Germans lined the streets in every little town and village, waiting for the Eisenhower motorcade on the 10-mile drive to Bonn.

Banners inscribed "Welcome Mr. President" and "Germany is indivisible" draped village streets.

Commission Looks Into Milk War At Jacksonville

TALLAHASSEE (UPI) — The State Milk Commission, acting on a request by Duval County citizens, took a close look today at the Jacksonville price war which has sent milk costs dropping as low as 13 cents a half gallon below normal.

The price war controversy was added to an already crowded agenda for the monthly commission meeting at the request of several Jacksonville area residents.

One wire from the county said small independent dairies could be wiped out if the price war continues.

The commission also was expected today to receive opinions from the milk industry on a proposed order to postpone farm milk over-production.

There has been no retail price control on milk in areas under state jurisdiction since J. Bradley Odham became commission chairman.

On Sept. 2 he hops over to Paris to meet with French President Charles de Gaulle in what may be the toughest part of his mission designed to weld together a solid Western front before his meeting with Soviet Premier Nikita Khrushchev Sept. 15.

The triumphal reception given the president here was dramatic evidence of the way the cold war has switched the world's power from France to the United States since the destruction of Nazi Germany in 1945.

The West German scene in President Eisenhower and the U. S. their main hope ultimately of breaking down Soviet hostility to German reunification. The Bonn government staged a welcome here that reflected the unity hopes not only of 51 million resurgent West Germans, but also of the 17 million Germans under Communist rule in the East.

Thousands of cheering Germans lined the streets in every little town and village, waiting for the Eisenhower motorcade on the 10-mile drive to Bonn.

U. S. Votes Special Laos Military Aid

WASHINGTON (UPI) — The United States has decided to send special military aid to the government of Laos to help it defeat Communist-led rebel forces.

An announcement is expected to be made today outlining the amount of money to be granted the government of the tiny Southeast Asian nation. It will be used to buy small arms, uniforms, and other military equipment.

The decision followed shortly a warning hereby the Laotian government's special representative, Ngon Sannakone, that his government faces collapse if the Communist-led rebellion is not soon stamped out.

Sannakone, the brother of the prime minister of Laos, told State Department officials in a 25-minute conference late Tuesday that the military situation in Laos is "grave" and if allowed to worsen, "it will become a debacle."

Heavy Equipment Needed, Engineer Tells Commission

Seminole County's trucking needs were explained to the county commission at yesterday's meeting.

A new bulldozer is needed for the garbage pits, said Engineer Robert Davis. To help stop the odor out there, liquid fuel would have to be put on the garbage and the pits constantly mixed while burning, Davis told the commissioners.

Three dump trucks, a rubber tired front end loader, and a small car also are needed, the engineer said. Two of the three dump trucks should be 10 yard tandems be explained.

A proposal has been made to allot \$40,000 of the 1959-60 budget for buying this type equipment.

Health Center Bid Ads Due In Month

Advertising of bids on building the Seminole County Health Center should begin in four or five weeks, Architect John Burton told the county commission yesterday.

Acceptance of a bid will probably be three weeks.

Burton told the commissioners, "If we get it on the road by the first of the year we'll be doing well," said Commission Chairman John Kridler, referring to a date for starting to build.

The 8,700 square foot Health Center will be in the block between 9th and 10th streets. It will contain an assembly room, laboratory, offices for a doctor and dentist, X-Ray, heart and cancer, mental health and sanitarium's rooms.

Post Office Nearer

The site for a new Sanford Post Office may be chosen within six months and construction of the building is scheduled to begin in late 1960 or early 1961, the Chamber of Commerce bulletin reports.

The present post office will be modernized and used to house the local U. S. conservation agency and other Federal operations.

Special Assistant to the Postmaster General in charge of facilities, Jack Grant, assured C of C Manager Kridler and County Attorney Mack Cleveland Jr. of the construction dates when they were in Washington this month. The C of C has been working for a new post office for the past three years.

Survey Approved On Ninth Circuit

TALLAHASSEE (UPI) — Gov. LeRoy Collins today appointed a three man commission to find out if the population of the Ninth Judicial Circuit has increased enough to warrant an additional circuit judge.

The circuit is made up of Bradford, Indian River, Martin, Okeechobee, Orange, Osceola, St. Lucie and Seminole counties.

Named to the commission were William H. Dial, Orlando, G. W. Laycock, Rockledge, and W. T. Warren Jr., Fort Pierce.

Collins empowered the commissioners to hold public hearings in their determination of the number of people living in the circuit.

Squall Watched Off Texas Coast

NEW ORLEANS (UPI) — A squally area carrying winds of 35 miles per hour was located about 150 miles off the middle Texas coast early today, the New Orleans Weather Bureau reported.

The Weather Bureau warned small craft along the Texas and West Louisiana coasts to remain in port. The bureau said seas are rough and beaches wash.

The bureau said there were no indications yet that the squalls would develop into the season's sixth tropical storm.

Dowling To Speak

Robert Dowling of the Dowling Appraisal Co., which is making the reappraisal of Seminole County properties, will be guest speaker at the Jaycee meeting tomorrow at noon in the Civic Center.

Mother Arrested in TPA's Death
Police Attempt
 TAMPA (UPI)—A woman mother was held for investigation of her role in the death of her 10-year-old son, a police official said today. The woman, Mrs. Jean Fain, 35, was arrested after her husband, John, 38, was found dead in a local brewery.

Relief Work Set in Tampa Floods
 TAMPA (UPI)—Flood victims in this city's sodden Fourth Street section formally registered today with the Red Cross as the organization began "rehabilitative" relief work. Assistance will include temporary house repairs and replacement of damaged furniture, officials said.

Armed Robber Put On Wanted List
 WASHINGTON (UPI)—James Francis Duffy, a tattooed and sometimes lapsed fugitive who was once an inmate of an institution for the criminally insane, today was placed on the FBI's most wanted list. The FBI described Duffy as a "highly intelligent armed robber," warning the public and searching law enforcement officers nationwide that he should be considered armed and extremely dangerous. He has threatened to open fire on any arresting officers, then use the last bullet to commit suicide.

Quotable Quotes

United Press International
CHICAGO "Fiddie," President of Cuban Premier Fidel Castro, telling what he thought of his first major league baseball game and his vacation trip around Chicago:
"I am having a fine time, but I know people pay attention to me because my father is a great man."

JONESVILLE, Pa. — One of the seven U. S. astronauts being trained for space flight, Leroy G. Cooper of Carbondale, Colo., described his reactions to a simulated flight in a centrifuge:
"I felt a little dizzy, but not bad."

FUGWASH, N. S. — Sir Robert Watson-Watt, one of the inventors of radar, disclosing the existence of a toxic substance so powerful that eight ounces of it could kill everyone in the world:
"This is only one item in the biochemist's chamber of horrors."

LUBBOCK, Tex. — Harry Raymond Pope, one of the FBI's most wanted men, after being seized by federal agents who moved so fast he didn't have a chance to grab any of his three guns:
"It was just a bad day all around."

Legal Notice

ADVERTISEMENT FOR BIDS
The Board of Public Instruction for Seminole County, Florida, will receive bids for the furnishing of all labor, materials, equipment and services required for the construction of **NEW SEMINOLE HIGH SCHOOL**, Seminole County, Florida, consisting of miscellaneous structures totaling approximately 100,000 square feet, until 10:00 a. m. September 17, 1955, at the School Administration Building, Commercial Avenue, Sanford, Florida, at which time and place the bids will be publicly opened and read aloud. Drawings and specifications may be obtained by depositing \$100.00 with the Architect, John A. Dorton IV, Corner First Street and Malloryville Avenue, Sanford, Florida, for the first set of documents obtained. Such deposit will be returned in full to each person who returns the documents in good condition within 10 days after the bid opening; with exception as noted below. Additional sets may be obtained at the cost of \$45.00 each, which is not refundable. General Contractors securing documents and not submitting proposals shall be refunded one-half the deposit on return of documents in good condition. A certified check or bank draft, payable to the Board of Public Instruction for Seminole County, Florida, U. S. Government Bonds, or a satisfactory bid bond executed by the bidder and approved by the Board of Public Instruction in an amount equal to five per cent of the bid shall be submitted with each bid. The successful bidder will be required to furnish and pay for satisfactory performance and payment bond or bonds. Attention is called to the fact that not less than the minimum estimate and wages as set forth in the Specifications must be paid on this project. The Board of Public Instruction for Seminole County, Florida, reserves the right to reject any and/or all bids or to waive any informalities in the bidding. No bid shall be withdrawn for a period of fifteen (15) days subsequent to the opening of bids without the consent of the Board.
JOHN L. BRUNLEY
Chairman, Board of Public Instruction for Seminole County, Florida
R. T. MILLER
Seminole County Superintendent of Public Instruction and Ex-Officio Secretary to the Board of Public Instruction

Khrushchev Talks May Help Break Cold War, Ike Says

Be Cautious With Nikita, U. S. Urged

MINNEAPOLIS, Minn. (UPI) — Senate Democratic leader Lyndon B. Johnson warned today that the "greatest tragedy" would result if Soviet Premier Nikita Khrushchev's forthcoming visit was viewed as indicating a thaw in the cold war.

Johnson spoke at the American Legion convention and said a hot racial battle and prepared to vote for a new national commander.

"This is the delusion that could lead us into letting down our guard," Johnson told the national Legion convention.

The Texas Democrat said, "There are those who feel that Mr. Khrushchev's visit is simply an elaborate facade for a two-man summit conference, which has been his publicly expressed goal since he attained power."

Mr. Khrushchev's planned itinerary certainly does nothing to dispel this feeling," Johnson added. This was an apparent reference to the fact that five of Khrushchev's 18 days in the United States would be spent in Washington.

"But at this point the wisdom of the invitation is academic," Johnson said. "The issue remaining is whether we conduct ourselves in such a way as to serve the best interests of America."

"On this we must, and we shall, stand behind our president," he declared.

For the second night, Johnson presided over the convention, drawing the Legion on the evening subject of Khrushchev's visit. Vice President Richard M. Nixon earlier struck back at criticism of the visit and urged Americans to give Khrushchev a "courteous reception."

Many Legion members oppose the Russian leader's U. S. tour, starting Sept. 15. Resolutions condemning Khrushchev and his visit are before the convention.

Part of the crowd of youngsters who turned out for yesterday's Jaycee Fishing Rodeo are shown lined up around Lake Carolina bobbing their cane poles for a prize winner. Kids from all over Seminole County attended the fishathon. Little Nancy Hennig, visiting her grandparents at DeBary, Mr. and Mrs. C. B. McMillan, had to ask "which one" when offered a "cracker pole" by one of the Jaycees, who sponsor the annual event. (Bergstrom Photos)

Firm Berlin Stand Assured Germans By President

BONN, Germany (UPI) — President Eisenhower talked for two hours with West German Chancellor Konrad Adenauer today and then told newsmen his forthcoming exchange of visits with Soviet Premier Nikita S. Khrushchev may help break the cold war ice jam.

The president added that both he and Adenauer hoped "something good" would come out of his meetings with the Soviet leader.

News Briefs

Hotel Sold

MIAMI BEACH (UPI) — The Doric Co. of Seattle has purchased the Saxon Hotel, one of the first luxury hotels built here after World War II. The sale price was "in excess of \$8 million."

Company Coming

WASHINGTON (UPI) — The White House announced today that King Phumpon Adunet and Queen Sirikit of Thailand have accepted President Eisenhower's invitation to visit the United States.

Bus Law Changed

TALLAHASSEE (UPI) — The State Patrol today reminded Florida motorists they no longer have to stop for a school bus if they are in the opposite lane of a four-lane divided highway.

Expensive Impulse

LOS ANGELES (UPI) — Salesman Michael Reid, 45, was fined \$200 Wednesday for giving in to an almost irresistible impulse during an argument — he acquired his neighbor with a garden hose.

No Progress

NEW YORK (UPI) — United States Secretary of State David D. Eisenhower returned for the second straight day today to the bargaining table, asserting that both sides in the steel strike are far from agreement "on any issue."

Fight Czar Goal

NEW YORK (UPI) — Chairman Estes Kefauver (D-Tenn.) disclosed today that his Senate subcommittee's brand new investigation of professional boxing hopes to stimulate legislation providing for a national boxing commission.

Lights Knocked Out

SURFIDE (UPI) — Little Litta seaside resort north of Miami Beach was without lights for an hour today after Nick Condos, former husband of Martha Raye, rammied his sports car into a utility pole. He was charged with drunk driving and released on \$250 bond.

A New Tax Joke

LONDON (UPI) — Comedian Victor Borge arrived here Wednesday and said there is a definite connection between his trip to Europe and that of President Eisenhower. "I paid so much tax that Eisenhower is coming over here to thank me personally," Borge said.

Talked Too Soon

HILLO, Hawaii (UPI) — News vendor Amadeo V. Rivero celebrated his 72nd birthday Wednesday and remarked to customers that he had outlived all his friends. Moments later, he was struck by an automobile — and injured fatally.

Boat Registration Lags In County

Seminole County boat owners are following a statewide boat registration lag that will catch a lot of people if registration is put off too long.

Only 386 of the approximately 1,500 boats in the county have been registered, Tax Collector John L. Galloway said today. In all Florida, the ratio is about 20,000 boats registered to 225,000 that should be. "It's been going on since after Oct. 20, which will be 90 days after registration started. Up to \$75 may be charged persons who fail to register a boat powered by more than 10 horsepower.

'Nature Boy' Who Steals To Live In Style Sought

FRANKLIN, N. E. (UPI) — A piece of pulp and bloodhounds today stalked a handsome 28-year-old "nature boy" accused of stealing to live in style in the woods.

The searchers trekked through the rugged forest near the Franklin flood control dam in search of Frank D. Gibbs, who is wanted on burglary charges in three New England states.

Franklin Police Chief John Picor said two of Gibbs' elaborately furnished camp sites were found Wednesday. He had been living in the woods about three months.

Gibbs' sylvan homes were equipped with stolen items, including a generator taken from the dam's repair shop.

Kadet Fete Slated At Casselberry

The South Seminole Unit of The Kadets of America will be honored at a buffet supper at 7 p. m. tomorrow at the Women's Club.

Kadets and their families will be guests of their new sponsor, the South Seminole VFW Post. Commander Harold Matz and VFW officers, Art Block, Arvid Berdahl, Laurence Chumant and Paul Faford will be hosts.

Kadets who attended training camp will tell about camp and show pictures of the activities in Savannah, Tenn.

Special guests will be Gen. William Dyson, commanding officer Kadets in the state of Florida and his assistant, Gen. J. P. Greene.

Ministers Agree To Sponsor Talks

The Seminole County Ministerial Assn. has decided to sponsor a Bible Study Conference offered by the University of Florida Extension Division.

The association voted at a special meeting this morning to sponsor the lectures on the Book of Isaiah which will be given by Dr. Elmer Leslie.

Arrangements for the conference will be completed at the Sept. 3 meeting of the minister's association.

Mickey Must Pay

LOS ANGELES (UPI) — A judge Wednesday ordered Mickey Cohen to pay \$4,000 damages to a writer he attacked last year in a Hollywood nightclub. Superior Court Judge Joseph L. Call set the amount after a long hearing of a \$20,000 civil damage suit filed by Arthur Black, 35.

South Protests Butler Loyalty Oath Proposal

WASHINGTON (UPI) — Southern Democrats protested angrily today against the reported plan of Democratic National Chairman Paul M. Butler to renew the "loyalty oath" issue at the 1960 Democratic convention.

Some Southerners demanded that Butler resign his party post. They have demanded Butler's resignation in the past because of his insistence on a strong civil rights plank next year and his criticism of the party's congressional leaders.

The latest Dixie protest stemmed from reports that Butler planned to ask the national committee to continue the rule adopted at the 1956 convention that delegates be required to see to it that the national nominees are on the ballot in southern states.

His aim was to undermine plans for some southern states to omit the names of the national nominees and put up instead a slate of electors pledged to vote for Dixie party candidates.

Sen. Strom Thurmond (D-S.C.), who bolted the Democratic Party in 1948 to head the states' rights ticket, and Sen. Herman Talmadge (D-Ga.) were among the first to denounce Butler's move. They demanded his ouster as party chairman.

Family Night Ends Season Tomorrow

The Sanford Greyhounds will close out the home baseball season Friday night with Family Night, admitting one whole family of fans for only \$1. A cut rate of 50 cents for individual admissions will be in effect also.

The Greyhounds end the season here with Tampa's Tarpons, still given a mathematical chance for the Florida State League second half title. Jerry Patenande is the probable pitcher for the final home game.

Fishing Rodeo

Part of the crowd of youngsters who turned out for yesterday's Jaycee Fishing Rodeo are shown lined up around Lake Carolina bobbing their cane poles for a prize winner. Kids from all over Seminole County attended the fishathon. Little Nancy Hennig, visiting her grandparents at DeBary, Mr. and Mrs. C. B. McMillan, had to ask "which one" when offered a "cracker pole" by one of the Jaycees, who sponsor the annual event. (Bergstrom Photos)

Crash Kills Sanford Pilot; Two Escape

By JACK PHILLIPS

The crash of a Sanford Naval Air Station jet bomber near East Moxbo, N. C. brought death to the pilot, Lt. Cmdr. John B. Sangster, 34, 7:30 p. m. yesterday.

Photographer 1st Class Delton E. Wilson, 118 Summerlin Dr., Sanford and Engineer William P. Mitchell of St. Petersburg were ordered to bail out by Sangster.

No reason has been found why Sangster didn't parachute while he was trying to save the plane, NAS authorities said.

The NASD bomber left the Naval Air Station at 4:46 p. m. yesterday on a routine training flight. Mechanical difficulties are believed to have caused the crash. The jet exploded upon impact, near the Cawtawba River. Wilson and Mitchell suffered minor injuries.

Sangster, 34, lived here in Sanford at 106 Woodland Dr., but his hometown was Nathrop, Colo.

United Press reports said Mitchell landed near a farmhouse and was taken to Charlotte Memorial Hospital for treatment of facial lacerations.

Witnesses said he saw the plane go up in flames as he floated through the rain-filled sky.

He said he was ordered by Sangster to bail out at 10,000 feet after two dives failed to restart two compressors on the jet engine that cut out.

He said the plane's radio and radar stopped working minutes before the crash. The three thought they were near Charlotte when the trouble developed.

Mitchell said he bailed out at 14,000 feet.

Milk Commission Refuses To Set Floor On Prices

TALLAHASSEE (UPI) — The State Milk Commission has refused to set an emergency retail price floor in Jacksonville's price war. But the agency agreed to take a second look at the problem within 10 days or two weeks.

The commission voted 3-2 against establishing the price floor Wednesday although milk prices in Jacksonville have fallen as low as 13 cents per half gallon below normal.

Commissioner Wilmer Bassett of Monticello, a milk distributor, suggested the state agency set a floor price of 22 cents a gallon, 43 cents a half-gallon, and 23 cents a quart.

But the commission rejected the proposal.

Commission Chairman J. Bralley Odham, Sanford, said the agency should keep out of any price wars. He said competition was a "healthy thing" and when distributors are hurt by it, they should not come running for state help.

Odham said the squabble would be halted simply by distributors refusing to give discounts to grocery chains.

Milk wholesalers in Jacksonville have been forced to lower their prices to meet competition. H. B. Pownall, Miami, president of Velda Dairy Co., said he planned to take the matter to the Federal Trade Commission.

(See another story of Page 8.)

Thor With Movie Camera On Flight Down Atlantic

CAPE CANAVERAL, Fla. (UPI) — A gleaming Thor ballistic missile roars off today on another "eye-in-the-sky" flight that could aid space projects of both the present and future.

The blunt nose cone of the stubby rocket contained a movie camera to photograph separation of the cone from the body of the rocket, informed sources said. It was the fourth camera-carrying Thor in a current set series.

The Air Force said a team of ships and planes in the Antigua Island area 1,500 miles south of here recovered the data capsule one hour and 22 minutes after the Thor blasted off on its 10,000-mile-an-hour flight.

Goldwyn Is 77

HOLLYWOOD (UPI) — Movie magnate Samuel Goldwyn celebrated his 77th birthday today. Goldwyn rose from a 13-a-week glove-maker to become one of Hollywood's fabulous pioneer movie-makers.

Lake Mary Scouts Plan Saturday Sale

Lake Mary Boy Scout Troop No. 242 will hold a bake and food sale Saturday starting at 11 a. m.

Anyone wishing to donate baked goods or food is asked to contact Mrs. William Blumhagen at FA 2-5225, or leave goods with Mrs. Damon Scott across from the Post Office.

Proceeds from this sale will be used to meet current expenses in the building of the new Scout hut and any excess will go toward furnishings for the hut.

Donations of furnishings would be appreciated. Scoutmaster E. J. Demers Jr. said that 50 folding chairs are needed.

Boosters To Begin Activity Tonight

The Seminole Boosters Club will hold its first meeting of the season at 7:30 p. m. today in the music room at Seminole High School.

Plans will be made for the membership drive at a business meeting after a showing of movies of the Cletary Bowl game. The public is invited to attend.

'Urgent' Bills Pass In Flurry By Congress

WASHINGTON (UPI) — Our lawmakers are off on their annual heading dash for adjournment. The aim is to get out of town before Khrushchev arrives.

A measure naming the "Petals River" in California, for example, was rushed through the Senate and on to the White House. This stream formerly was known as "Petals Creek," but you know how it's been raising some places.

The House passed and sent to the Senate a bill to remove the 10 per cent tax from men, the breath sweeter. This may mollycoddle drinkers and others for whom Congress has specifically refused to reduce the taxes on whiskey.

One way or another, other urgent measures also are being cleared from the calendars. The House is to adjourn by Sept. 3. Many problems remain and some members don't think they will make it.

There was unfortunate publicity earlier this year about wives, sons, daughters and other kindfolks on congressional payrolls. To help clear the decks for adjournment, the House Administration Committee has taken care of the resolutions offered to stop this. They have been filed, in case anybody ever wants to see them again.

A bill to publicize the travel expenses of judging congressmen, which total about a half million dollars a year, also has been put in shape for possible passage—some other year.

Senators meantime have acted to ease the pain of making public their payrolls, an event set for sometime in the fall. Fearing me of the homefolks might not understand how a clerk or administrative assistant could be worth \$14,300 a year, they have authorized fancier titles, each senator to make up his own.

House members have geared for the recess by voting themselves an extra \$600 for stationary, raising the annual allowance per member from \$1,300 to \$1,900. They also voted to ease restrictions on their free telephone and telegraph service.

One adjournment hurdle was cleared when the House announced to the world, for the 15th time, that it opposes admission of Red China to the United Nations. The Senate may act on this shortly.

In another move to clear the air, Rep. Daniel J. Flood (D-Pa.) announced that Congress, through the House Appropriations Committee, has reaffirmed its faith in government operation of the Panama Line.

The line runs cruise ships between the Panama Canal Zone and New York. Flood said putting the line under private operators, as proposed by a firm of consultants, would be contrary to the national interest. Among other change, a private operator could start charging congressmen for their fares.

A big roadblock to early adjournment is the peanut bill passed by the House. It says for purposes of acreage allotments peanuts that are balled aren't to be counted as peanuts.

Southern sponsors thought this measure had a straight furrow ahead in the Senate. But Sen. Kenneth B. Keating (R-N. Y.) has thrown in an amendment. It's a civil rights bill he couldn't get out of committee over strong southern opposition.

Under Senate rules amendments don't have to be germane to the bill. Senators hoping to revise the rules have postponed until Janu-

any their effort to change "em."

Sen. Wayne L. Morse (Ore.) held the Senate indignantly a kindergarten couldn't be run under present Senate rules. Sen. Thomas J. Kuchel (R-Calif.) replied that if Morse and others get around to rewriting them, he hopes they include one to say laws hereafter have got to be written in English. A change that radical, of course, isn't likely.

Members look to the recess as a chance to see how they stand with the voters.

Sen. Stephen M. Young (D-Ohio) is one who has determined for sure it's safe for him to go home. He took a poll in his state. It showed, he announced, that the homophiles like Young, 285 to 4.
