

# Yearlings Stop Sanford Rally To Win 3 To 2 Game

### Delfino, New Third Sacker, Rings Up Only 2 Tallies On Double And Single

### Ocala Here For Double Tonight

### New Hurler, Jones, Fans 5 Men, Gives Only 10 Bingles

Limited to six hits by the Yearling pitcher, Willie Eckenroth, Sanford lost by a close score of 3-2 then it was stopped by a ninth inning rally at the Ocala park last night.

A chance for revenge will be given the Seminoles tonight as they face Ocala in a double header here tonight, giving the local fans their first look at the new third sacker, Al Delfino who last night made the two Seminoles runs and led the local's hitting with a double and a single.

Sanford handed out some hitting behind the ball pitching of the new Seminoles, Clyde Jones of Rollins, by clicking for two double plays, Joe Justice handled two more of his "touch the base runner and throw to first" plays last night, the fourth he has made in two days.

After three up and three down in the opening inning Ocala got going in the second to collect three singles and two runs. Lee struck, Leachman, singled and Lawrick, singled a fast ball

## FASHION NOTE FOR FANS...

What fan is to enjoy the best of the Florida State League? The answer is simple. It is to have the most complete record book. The Florida State League Record Book is the only one of its kind. It contains the names of all the players who have played in the league since its inception in 1902. It also contains the names of all the managers, umpires, and other officials who have been associated with the league. The book is a valuable reference for fans and collectors alike.

## TWO BIG ADDED FEATURES

The new edition of the Florida State League Record Book has two big added features. First, it contains the names of all the players who have played in the league since its inception in 1902. Second, it contains the names of all the managers, umpires, and other officials who have been associated with the league. The book is a valuable reference for fans and collectors alike.

## Girl May Pitch In Twin Bill Tonight

Sanford's bustling manager-catcher, Charlie Girk, has promised to "charge the mound" some time in the near future, to show his arm as good from the pitchers box to home as it is from home to second base. With a double header against Ocala coming up tonight the surprise may be sprung in one of the two games.

The pitching staff has been reduced by the release of Earl Hidy and sale of Frank Hudson, with one pitcher, Clyde Jones coming in to plug the vacancies. With four games in two days the pitching staff is under a strain and Girk may give himself the nod to hurl a game.

Pitcher Jones singled to advance the runner to third and he came in on a ball by Hardman on a walk, while Jones was forced out on second. Ocala increased the lead in the seventh when Andres went to first on a single, second on a sacrifice, third on a single by Simmons and home on the throw in of a fly ball by Wilks. With the score 1 to 2 against them, the Seminoles started fast in the ninth frame, Delfino singled with one out and Pickett Jones was given a walk, while Hardman got to first on an error that allowed Delfino to score. With one man out, a man on third and first the next two men up fanned and hit into a force at second respectively. Jones appeared nervous in the start of his debut in the league but settled down when he found the men behind him as three batters went down and when Justice made his double play and Booth caught a fly ball in right field. Besides limiting the Ocalaans to 10 hits, he struck out five men and did not give a single base on balls.

## Sales Tax Is Proposed To Pay Pensions

### Senators Refuse To Consider Measure Immediately, And Adjourn In Future House Debates

## Inventory Levy Action Is Postponed On Omnibus Appropriation For Aid

TALLAHASSEE, May 29.—The Senate today passed three bills pertaining to Sanford and Seminole County approved by the House Tuesday. The measure was passed to carry on to \$20,000 for municipal purposes, including the creation of a port district and allow Seminole County to levy a water tax to meet the necessary expenses.

## TALLAHASSEE, May 29

A proposed 2 percent general sales tax, to raise about \$12,000,000 a year for old age pensions and aid to dependent children and the blind, was thrown over the budget committee today.

The Senate adjourned in confusion after refusing to consider the tax immediately.

Speaker Burns of Michigan, leader of the pension bloc, said the bill would levy 2 percent on merchants, grocers and retailers that the tax be passed on to the consumer. He said this is the only way to raise the money.

The Senate refused to give the bill a hearing, and the House called the measure committee today.

After an adjournment of 10 minutes the Senate returned to the floor to consider the bill.

The House passed a bill to provide for the construction of a new state highway to connect Sanford and Lake Wales.

## Registration Dates For Civilians In Seminole Set Monday, Tuesday To Repay Company

Civilian registration days in Seminole County have been set for Monday and Tuesday, when all men, women and children from 18 to 99 will be asked to fill out blanks placing themselves at the service of the State Defense Council, Edward J. Nelson, Jr., who has charge of the registration, said today.

"In line with the proclamation of an unlimited national emergency by President Roosevelt, we want to do all we can to help the defense effort," Mr. Nelson declared.

"It is possible that many of those who register Monday and Tuesday will never be called on to serve, but when an emergency does arise, we shall have our organization ready to meet it," Mr. Nelson explained.

Places for registration will be announced later. In Sanford there will be separate registration places for negroes and white persons. Throughout the county, civilians may register in easily accessible places, Mr. Nelson said.

There is no compulsion about the registration, it was explained, but everyone is being asked to volunteer. Boy Scouts, Girl Scouts, civic organizations and even men subject to the draft will be asked to fill the blanks.

## Report Of Veterans' Graves In Seminole County Is Made By WPA

Veterans of wars as far back as the War of 1812 are buried in Seminole County, according to a Report of Deceased Veterans prepared under the supervision of the professional and service division of the Works Projects Administration and presented to the Sanford Public Library for the benefit of relatives and friends of deceased Florida veterans by Campbell-Lewis Post No. 53 of the American Legion.

The first 1812 War veteran was Elias Woodruff born in 1775, who is buried at Lake Wales Cemetery.

Of the veterans listed in the report, 183 are of the World War. The greatest division is the 100th Central Postal Directory, which had 612 men buried in the county. Six are veterans of the Civil War.

In making the survey, 25 cemeteries were visited, 23 were found to have records of graves and 2 were not. There are 342 veterans' graves listed in the report, and four graves which were not listed.

In the index of veterans' names, the war in which he fought is given, in addition to his rank, organization, birth date, time of death, and the place of burial.

The names of the veterans are: George Cook, a veteran, compiled the record for Seminole County.

## Serious Power Emergency Is Seen In U. S.

### Diverting Electricity To Assure Continued Production Of Arms Is Studied

WASHINGTON, May 29.—The American Medical Association was fined \$2500 and the Columbia Medical Society \$1500 for violation of the Sherman Anti-Trust Act today the Justice Department alleged. The two groups conspired to obstruct the activities of a group health association of Government employees.

WASHINGTON, May 29.—(P)—Forecasting a nationwide power emergency "perhaps the most serious in history," T. R. Tate of the Federal Power Commission today revealed a study is being made of means for diverting electricity from civilian to industrial purposes to assure the uninterrupted production of defense weapons.

Secretary of the Interior Ickes advocated daylight saving time on a nationwide scale and suggested that America may have to resort to restricted use of electricity and institute gasless Sundays to meet the shortages of power and oil. He also advocated oil pipelines from the South to the East where oil shortages are feared because of the transfer of part of the American tanker fleet to the British.

Two vital points bearing closely on the war situation were cleared up yesterday by President Roosevelt at a special press conference.

He will move slowly in assuming any of the vast powers reposed in him under the unlimited national emergency proclamation, Ickes said.

"I see no reason for replying or changing the Neutrality Act."

But touching on the emergency situation he inferred that development will move swiftly and forcefully to correct them.

With the world still discussing his speech Tuesday night the President sent word of the special conference and his office was jammed with reporters eager to hear him.

Answers to both leading questions came quickly and frankly. But there was much the President did not reveal for obvious reasons.

The questions dealt mainly with neutrality and emergency, and it seemed American interest was more deeply concerned with the latter, in view of how business and labor and industry and the people as a whole might fare under terms of the proclamation.

President Roosevelt emphasized that more issuance of the proclamation did not vest him with new powers. The powers are provided in prevailing statutes, but, to invoke them, he must issue specific orders or new proclamations.

At present, he said, he will move cautiously in issuing orders. None, he added, is in immediate prospect. But he said that if appeals to labor and capital are not sufficient to maintain industrial peace, there may be further positive action to keep production rolling.

He refused to apply this rule explicitly when a correspondent asked about the threat of a new walkout by bituminous coal miners.

## Connolly Tells Incidents About His Famous Grandfather On Radio

Some of the interesting historical facts connected with the painting of the famous "Spirit of '76" by Archibald N. Willard were told by his grandson, William Connolly, on the radio today.

Mr. Connolly's grandfather was a drummer boy in a nearby military academy, Mr. Connolly declared.

Later the painting was sold for between \$3,000 and \$4,000 to a resident of Marlborough, Mass., for presentation to that city. It is there today.

Mr. Connolly posed as the drummer boy in a replica of the picture painted in 1912 at the residence of Newton D. Baker, then mayor of Cleveland, who wished to place it in the city hall. This picture was displayed at the First National Bank of Cleveland about 10 or 15 years ago.

Born in Cleveland, the son of the late Joseph D. Connolly and Emma W. Connolly, Mr. Connolly is a graduate of the Cleveland High School. During the World War he served with the United States Navy in the radio corps.

He is a nephew of Mrs. John D. Rockefeller, of the Cleveland family. He is a member of the Cleveland Y. M. C. A. and the Cleveland Club.

He has lived in Sanford since 1922, where he makes his home with Mrs. Leslie West.

## Stores To Begin Half Holiday Starting June 4

### Closing Day Changed To Wednesday Instead Of Thursday

Stores will begin closing next Wednesday, June 4, for the week's half holiday during the three summer months, Forrest Gatchel, chairman of the merchants committee of the Seminole County Chamber of Commerce, said today.

At a recent meeting of the merchants group, which was attended by 21 employers or their representatives, it was decided to set Wednesday instead of the traditional Thursday as the summer closing date, since the majority of other cities in the state are following the same plan and it is felt that both employers and employees will benefit.

Some merchants expressed dissatisfaction with the change, claiming that Orlando stores would continue to close Thursday.

A telephone call was made to the Greater Orlando Chamber of Commerce this morning, however, and officials there stated that most merchants would close their doors on Wednesday afternoons.

Mr. Gatchel explained that employees will now get a complete half holiday under the new plan, since most of the business is done on Saturdays rather than during the middle of the week. Formerly, (Continued on page three)

## Lions Club Ball Loop Champion Will Be Decided

As the climax to the annual series of baseball games sponsored by the Lions Club, the 20th annual loop championship will be decided today at the Municipal Park.

A. A. Ludwig, manager of the Lions Club, is manager of the team which won the pennant in league play-offs this year.

To help the organization defray the expenses for continuing the annual pennant race, the Lions and the ball players are selling tickets to the game Friday, and the public has been urged to purchase a ticket and see the game.

Prizes will be given to the boys who sell the most tickets. It has been announced.

Boys from nine to 14 are eligible to become members of the Lions team and during the past 10 years the series has produced over 2,000 boys who have participated in the games.

The club has been successful in its efforts to raise funds for the purchase of a new stadium, since it teaches good sportsmanship and provides wholesome recreation.

In the past, a number of the boys have developed into professional players. At the end of each season a picnic is given to the winners. The championship game has been played at the Municipal Ball Park for the past three years.

The lineup of the Seminoles, who will oppose the still unnamed all-stars, is as follows:

## Retired Rail Men Suspend Meetings

Activities of the local chapter of the National Association of Retired Railroad Employees were suspended for a time until October 1st, it was reported today.

Ernest Krupp will act as secretary of the organization until Mr. Hanrick returns at the end of the summer from California, where he will spend his vacation. Members pledged their support to the organization at the meeting and expressed the wish that the club will grow. Mr. Hanrick said. Letters of thanks are to be written to the Seminole County Chamber of Commerce and the Herald for their cooperation during the formation of the association.

Collection from designated street letter boxes will be made between the hours of 1:30 o'clock and 2:30 P. M.

## Germans Get Bridgehead For Landing Seaborne Troops; Debacle Predicted

### War Aims Told By Anthony Eden

### Official Says Reich Will Not Repeat Peace Violations

Italian troops were reported today to have entered the 10-day-old battle of Crete, landing in the eastern end of the island, while German forces captured the prize harbor of Suda Bay on the west. Thus the British, already in dire straits, are caught in a vise.

Reports of Suda Bay gave the British a headache for landing seaborne troops and military equipment, and it may prove the beginning of another British debacle.

Anthony Eden, the first commander-in-chief of Britain's forces, today declared "our political and military terms of peace will be aimed to prevent a repetition of Germany's mistakes."

He said Germany had violated the peace five times in the last century and "never by its own hand." He said that the British would not allow a repetition of such a disaster.

British third cruiser lost in the battle for the island of Crete, according to the Admiralty, it was reported today.

Washington Secretary of State Cordell Hull today announced a far-reaching undertaking to train 50,000 British troops in the United States.

According to Roosevelt's speech, Hull said the President gave his approval to the five-year program to train 50,000 British troops in the United States.

Prevent The Fires

With April fire losses in the country reported at
\$29,330,000, an increase of 10 percent over the same
month a year ago, and with the total loss for the first
quarter of 1941 at approximately \$118,373,000, it is inter-
esting to note what all this means to the productive ef-
fort of the nation.

It is pointed out that the total value of property de-
stroyed during the first four months of this year is equi-
valent to the cost of 75 "ugly duckling" cargo ships, which
this country is building in a desperate attempt to keep
the supply lines open to Great Britain. If the present rate
of losses is continued for the remainder of the year, the
12-month total will equal almost a third of a billion dol-
lars, sufficient money to build 225 cargo ships having a
total tonnage of nearly two million tons.

When the fire losses are interpreted in terms of our
defense program, then we realize how serious it is to per-
mit this destructive force to continue, and with this real-
ization it should be the duty of everyone to contribute in
some manner towards preventing fires which are eating
into the nation's economy at this critical time.

How easy it is to assist in the prevention of fires
may be seen from the fact that nearly one-sixth of fire
losses are caused by the careless use of matches and the
smoking of cigarettes, cigars, and pipes. This is one cause
of destruction about which the general public can very
definitely do something. By keeping matches in a safe
place, by being sure that a lighted cigar or cigarette is
completely put out before being thrown away, by not leav-
ing burning cigars, cigarettes or pipes on pieces of furni-
ture, are some of the ways by which Mr. and Mrs. aver-
age citizen can aid.

But there are other causes of fires which could be
eliminated in large measure by a little precaution on the
part of the people. Periodic inspection of wiring, chimneys,
stoves and furnaces; extra care when handling petroleum
or its products, and in removing hot ashes or coals; and
use of intelligence about striking matches near anything
that might be combustible are some of the ways open to
everyone to contribute in the very worthy effort of fire
prevention.

An Attempted Squeeze-Play

Not that it is to be taken seriously, but the proposal
by Representative Croft, of Lafayette County, a harbor,
to levy a 20 percent sales tax on razor blades and a five
percent tax on razors indicates how simple-minded some
representatives seem to think the public is.

He says he wants the revenue to go for old age pen-
sions, of course. The revenue from every new tax seems
to be wanted for old age pensions these days. That makes
it sound so much nicer than just coming out and saying
that it is wanted for more political job-holders and for
those who let their vote be influenced by how much money
they can grab.

But could it be possible that Barber Croft wants to
"encourage" more men to get their shaves in barber shops
where they can be charged whatever price is set by the
new State Barber Board? Perish the thought! Barber
Croft simply wants to give more money to elderly Flori-
dians who are already receiving larger pensions than the
elderly citizens of any other Southeastern State and will
get these further increased through Governor Holland's
race track tax bill which will add comparatively little to
the tax burdens of the general public.

The entire Legislature in these last days of the ses-
sion had better be careful that it doesn't put itself in the
position that Representative Croft has placed himself by
his attempted squeeze-play on the man who shaves him-
self. It isn't that easy to fool the public.—Tampa Times.

Soils And Fertilizers For The Garden

This is a copy of the talk
delivered by Dr. R. W. Ruprecht
before the Sanford
Garden Club on May 9 on
"Soils and Fertilizers for the
Garden."

By R. W. RUPRECHT
"A garden is defined as a
rich cultivated spot or tract of
land. Thus the definition em-
phasizes one of the two of
what might be called fundamen-
tals in having a garden, namely
a rich soil. The other fundamen-
tal is water, plenty of water.

Water is really the most im-
portant for you can have a garden
of sorts in poor soil if you
have plenty of water, but you
cannot have a flower garden
worthy of the name, no matter
how rich your soil may be if
you do not have an adequate
water supply.

"As many of our flowers are
grown to be in their full glory
in the early Spring or late winter
when rainfall is usually de-
ficient it behooves all who are
planning a garden to first see
to it that an adequate supply
of water is at hand. To do their
best all plants should have a
fairly uniform supply of mois-
ture. Too many times the flow-
er garden is given a heavy wa-
tering one day and then no more
water until the plants are wilt-
ing. Such treatment will not only
stunt the growth of the plants
but will weaken them to such
an extent that they will be
more susceptible to diseases. Do
not try to see how long your
plants can go without water but
give them a daily drink, enough
so that the ground immediately
below the surface is moist to the
touch.

"With an adequate water sup-
ply must go adequate drainage.
In other words have your gar-
den located so that excess wa-
ter will not drain on it. If nec-
essary put in a bed of cinders
and some drain tile in order to
prevent water standing on it for
any length of time. Amusing
enough you have made provision
for drainage, but the water will
not drain because the soil is
too hard. To remedy this the
soil must be made porous. An
adequate soil is an adequate gar-
den. It is an adequate soil that
will give you the best results.

"The question is sometimes
asked how much organic mater-
ial should be used. My answer
generally is as much as you can
afford. To be more specific, half
to three quarters of the soil is
a depth of eight or twelve
inches can safely be replaced
with well decomposed manure
or compost. If the garden is of
good size a layer of organic
material six inches deep dis-
carded or hoed into the soil is the
best way to add this material. If
the garden is small dig out the soil
to a depth of about a foot and
mix the organic materials with
about half of the top soil and
then put this mixture back. It
is cheaper in the long run
and the results are more satis-
factory if the soil is thoroughly
prepared before planting than to
try and build it up after you
have your garden started.

"Having built up your soil
with organic matter we now
come to the question of fertiliz-
ers. Fertilizers are needed by
practically all flowering plants
and shrubbery grown in your
garden. If plants of organic mat-
ter has been added to the soil, while
plants need some 14 or more
different elements to make nor-
mal growth, ordinarily we buy
our fertilizer on the basis of only
three of these, namely nitro-
gen, phosphoric acid, and potash.
Of course all fertilizers contain
some of the other elements as
well as these three but these are
sold on the basis of the three
mentioned.

"We now have fertilizers on
the market that contain a con-
siderable number of the ele-
ments in addition to the three
mentioned.

Large Call Issued
For Draft Service

ST. AUGUSTINE, May 29.—
(Special)—A call for 1400 Flor-
idians—1210 whites and 190 ne-
groes—was issued Wednesday by
Adl. Gen. Vivian Collins state se-
lective service director to fill the
June requirements from the

state. It is one of the largest
calls to date.
A break down of the county
quotas shows that Dade (Miami)
is expected to contribute the
greatest number 250; Hillsborough
is second with 151, and Duval
county (Jacksonville) is third
with 125.
Seminole will send four whites
and two negroes, it was an-
nounced.

## Junior High Pupils Offer School Gift

Members of the eighth grade of Sanford Junior High School, who will receive their diplomas tomorrow morning at 10:00 o'clock, will present a punch bowl to the school as a parting gift.

The bowl was purchased with the proceeds of a play which was given in the Junior High School auditorium on Tuesday evening by the Little Theater, under the direction of Mrs. Boyd Coleman.

The play, "Which Shall Be Mary?" had the following cast of characters:  
Mrs. Randolph (Annette Abrams) a sweet faced, middle-aged, stately woman.  
Elsie (Anne Lovell), a natural beauty who added to her loveliness by her skill with clothes.

Patience (Martha Hagan), a rather pretty girl with a mainly expression.  
Frankie (Nancy Jo Gonzales), the "good sport" of the family, very athletic, with a definite swagger and stride.  
Mary Jane (Lucy Ward), a small, attractive, saucy looking girl, and the youngest member of this interesting family.

Magnolia (Martha Page), black of face and with a tully figure.  
Mr. Hinman (Frank Robinson), a middle-aged lawyer, tall, dignified and somewhat pompous.  
Dick Evans (Gerald Leasing), young, good looking and slightly spoiled.

## Juniors And Seniors Plan Banquet Tonight

The annual junior-senior banquet of the students of Seminole High School will be held this evening in the Parish House beginning at 7:30 o'clock.

Following the banquet a dance will be given in the Armory from 10:00 o'clock until 2:00 o'clock. Tussey Branan and his orchestra will furnish music for the dance, which is being sponsored for the Phi Alpha Kappa sorority.

## Margaret Myers Is Honored With Party

Complimenting Miss Margaret Myers, who plans to leave soon for Orlando to make her future home, Miss Marjorie Jones entertained last evening at her home on Geneva Avenue with a party.

Marigolds, blue delphinium, sinias and other garden flowers formed the floral decorations, emphasizing a color theme of gold and blue. Miss Myers received many lovely gifts, which were hidden about the rooms.

Games and dancing were enjoyed throughout the evening after which refreshments were served by Mrs. Jones to the following:

Miss Myers, guest of honor, Miss Joyce Steele, Miss Jean Harper, Miss Ruth Stenstrom, Miss Satchel, Miss Evelyn Rarburn, Miss Marjorie Jones and Judith Jones.

## Report Is Made On Sponsoring Picture

Members of the Junior Woman's Club this morning announced that the \$45 had been realized from the recent picture show, "The Devil and Miss Jones," which was sponsored by the club.

The ticket sales committee was composed of Mrs. E. J. Nelson, Jr., Mrs. John Miller and Miss Christine Stoudenmire. Part of the proceeds will be used in the work of the Seminole County Defense Council, and the rest will go toward other worthy projects of the club.

## Girl Scouts Give Play At Meeting

The Girl Scouts, under the direction of Miss Irene Hinton, presented a program at the meeting of the Civic Department of the Women's Club which was held yesterday beginning at 12:30 o'clock in the club house on Oak Avenue.

Three units of the Scouts, under the leadership of Miss Hinton, Dutton, Mary Ann Wheelchel and Elizabeth Fite, entertained the assembly with a "toy orchestra" and a play which was written and acted by Laurette Dutton. Those taking part in the play were:

Nancy Thomason, Sally Kate Williams, Mary Elizabeth Carver, Betty Jo Brock, Daphne Connolly, Dorothy Crumley, Nancy Jo Gonzales, Evelyn Matthews, Mary Helen Tew, Joan Swingle, Jane Clapman, June Rose Dutton, Betty Jen Coppeland, Nancy Fite, Shirley Moreland, Frances Cobb and Roberta Evans.

Hostesses for the affair were Mrs. R. E. True and Mrs. R. M. Hall. Following luncheon and the program members of the club spent the remainder of the afternoon sewing for the Red Cross.

## Sales Tax Is Proposed To Pay Pensions

or Miller around places selling liquor or other intoxicating drinks.

Representative Johnson, Lake county, who introduced it, said the bill was supported by school teachers, Parent-Teacher Associations, and other organizations interested in child welfare.

It provides the fine or imprisonment for any person who knowingly allows children in liquor places. It now goes to the Senate.

The House approved, 70 to 49, and sent to the Senate a bill sponsored by Governor Holland to broaden the intangible tax law, which covers money, stocks, bonds, mortgages and other evidences of indebtedness.

The bill is designed to raise about \$2,000,000 a year for general State expenses. To make the tax effective, the Governor proposed legislation of collection procedure and allotment of 25 percent of the money to the counties, to give county officials a new incentive to collect the tax.

It levies 10 cents annually on each \$1000 of money and certificates of deposit \$1 annually on each \$1000 of stocks \$3 payable only once on each \$1000 of mortgage records after next Jan. 1 and \$1 a year on Florida owned mortgages recorded before next Jan. 1.

The measure amends the present intangibles tax law to strengthen assessment and collection machinery. It doubles the tax rate on money by requiring taxes to be paid on full valuation on Jan. 1 of each year. The present law provides 50 percent valuation.

# Sanford Splits Twin Bill With Ocala, 5-1, 1-5

### Ashton Pitches 3 Hit Game For Victory In Opener At Locals Field Well

### McRaney Bats Out Pair Of Doubles

### Home Defense Sags After Disputed Umpire's Decision

Ray Ashton pitched a three hit game in the opener and Willie Finch of Ocala pitched a four hit game in the night cap.

Sanford bats came out of their slump in the early game to collect nine hits but slipped back in again during the second contest and failed to get hits when they would have meant runs.

Ray Ashton turned in a neat job on the first game limiting the visiting team to three hits and striking out three men while giving no walks. Once or twice his game was in danger but good pitching and close fielding set it on its feet.

Pete Mellaney started Sanford's scoring streak in the fourth frame of the opener by doubling and making speed on an error on the shortstop. Charlie Girk got to first on another error and McRaney came home. Ernie LaValley whipped out a triple to left field driving in Girk for the second run. LaValley came in on a single by Booth but the next two men up went down retiring the side.

Justice got it going in the fifth inning with a double and scored on a double by Mellaney. Girk got a single hitting in McRaney for the last run of the game.

With the score at 2-0 in the second game the umpire in the field, Morgan, made a decision that brought the crowd to its feet in a rage. Players rushed to the field and it looked as though blows would be struck as LaValley and Girk argued with the umpire.

On the play Leonhardt was caught between first and second on an attempted steal with Erl-

BREAD and CAKE  
... your guide to convenience, thrift and economy

ONE WAY to get the most for your money is to buy the products that lead in new ideas. The bakers of Southern Twin Pack Bread and Red-Cut Cake have continually pioneered in better quality and better packaging. Look at these money-saving ideas.

**Southern**  
Twin Pack BREAD  
THREE KINDS FOR VARIETY

(1) - Twin Pack White (2) - Twin Pack Wheat  
(3) - Twin Pack Salt-Rise - Half White, Half Wheat

Two half loaves individually wrapped inside Twin Pack wrapper. Tastes like one loaf. Keeps fresh longer. Twin Pack is an exclusive Southern Bread feature. Extra double loaf, because you get two loaves in one Twin Pack - you get more food energy.

Red-Cut CAKE  
8 BIG SLICES  
29

Big slices of tender, moist, three gold color, ribbon lined cake. Keeps fresh longer. Ready sliced, ready to serve. Makes 8 squares.

Remember this! If you serve only a few slices, replace the rest with another Red-Cut Cake. No other cake can compare with Southern Red-Cut Cake.

man in third. Justice took the ball on a throw from Girk and chased the runner almost back to first and then threw it to LaValley who tagged the man out according to the fans and players.

When Morgan called the man safe it so enraged the crowd and the players that the game was forgotten and the man on third was allowed to steal home and the disputed baserunner to steal second.

After that had happened the Sanford offense and defense sagged. Ocala scored two in the sixth on an error double and single while Sanford got one in the fifth on a walk and two singles.

New Soft Drink, B-1, Placed On Market In City

Called "the first basically new soft drink to be offered since the discovery of carbonate beverages," the drink B-1 is now on the market, Harry Thompson, distributor for the Central Florida Beverage Co., DeLand, said today.

"In every seven-ounce bottle we have blended in a minimum of 86 International Units of Vitamin B1 (thiamin) — now known to be an essential factor in human energy, and in calm relaxed nerves," Mr. Thompson said.

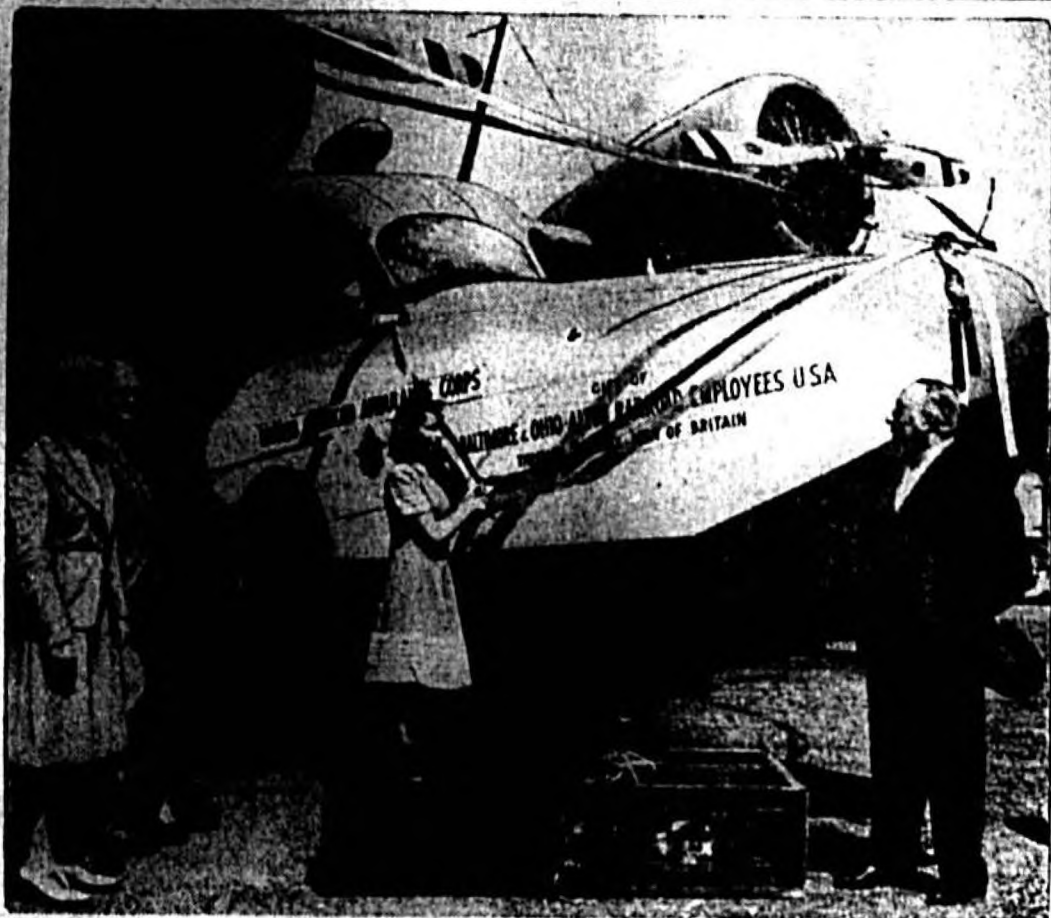

This all-important vitamin has now been added to a soft drink which, on flavor alone, is winning thousands. B-1's rich flavor is truly a double one—combining the tang of lemon with the "dry" lime flavor loved by young and old. Satisfying—yet not too sweet, he added.

Medical discoveries about Vitamin B1 have made this substance known to everyone. Yet, though everyone knows about it, it is said that the average man's diet is more lacking in Vitamin B1 than in any other dietary constituent essential to health and well-being.

Everyone is familiar with the symptoms that a B-1 deficiency often causes—such as nervousness, lack of energy and poor appetite, Mr. Thompson stated.

The new drink, B-1, is the direct result of a doctor's study. While working with cases of people suffering from vitamin B1 deficiency, he became interested in adding this vitamin to a soft drink. Over 2 years of experimenting produced the formula for the blending of Vitamin B1 in the beverage, B-1.

One important function of Vitamin B1, it is known, is the promotion of normal growth in children. For this reason, parents will be interested in B-1 beverage as a method of helping secure more of this vitamin in their own diet. As a St. Louis physician remarks: "Children are going to drink soft drinks anyway. Why not give them a well-drink something that is good for them?"

Florida Troops At Camp Blanding Complete Half Of Year's Training

CAMP BLANDING, May 28.—(Special)—Florida boys at Camp Blanding, who were formerly National Guardsmen, are completing their sixth month at this huge training center—with only six more months to go under present plans. These men were literally raw recruits when they came to Camp Blanding last December following the abolition of the National Guard. Many of them were from offices and other jobs where they had

field tactics and long marches. In the field of tactics, the soldier has concentrated on taking care of himself under actual battle conditions.

How to dig a fox hole has been a big issue; how to advance under fire; how to fire from cover when under fire. He has learned how to take commands by signals and to relay the command to his fellow soldier. Long marches, strength and build up, reserve train the soldier to conserve his stamina.

No substitute has been found for marching to make a tough soldier in these long marches. The soldier carries his pack, in which

Southern College Yearbook Issued; Dedication Made

LAKELAND, May 29.—(Special)—The 1941 "Interlachen," Florida Southern College yearbook, now has been distributed to students, featuring a theme depicting the "Year of 1941," the growth of the student in a multitude of ways during his stay on the campus.

Dedication of the annual was to Bishop Arthur J. Moore of Atlanta, who was given the first copy at a college chapel program Tuesday morning.

Sam Womack, Key West, editor of the book; David Reddick, Kingsland, Ga., its business manager; and Dr. G. W. Weber, its faculty advisor, Reddick was recently re-elected to serve on the 1942 annual.

Featured in the beauty section with Betty Moore of Avonlea, "Miss Southern" for 1941, are Rilda Moore, New Port Richey; Eleanor Crane, Tampa; Jeanne Atherton, Lakeland; and Gloria Miller, Monticello, Ga.

Emily Jane, Daytona Beach, is the first pictured in the picture. The yearbook is contained enough equipment for the soldier to live under fighting conditions. Discipline plays a great part in the life of a soldier. The Army here, as everywhere else, has the utmost words of meaning in giving the soldier proper training in discipline. An officer gives a command and immediately it is executed, he is the sole governor of the soldier under him. When he says march the soldier marches. This is as necessary in the functions of the Army as the teacher is to the classroom. On the field at Camp Blanding one may walk through the training areas where men are drilling in camouflage and pass by thousands of troops, never seeing them. Most in warfare is a simulated, a large part of it, from the air. This makes it necessary for troops to know how to protect themselves. From an aerial attack they must stay scattered and at the same time maintain a systematic advance. As stressed to the Florida boys here, the only way to protect oneself in a drill, drill, drill, and they are doing just that.

Picking ripe fruit from the tree was one of the thrills that 800 editors enjoyed on their recent Florida tour. President Ray B. Howard is shown here with a cluster of chairs representing

## Clyde-Mallory Lines Will Provide Three Sailings To New York Weekly

JACKSONVILLE, May 29 (Special).—Announcement has been made by the Clyde-Mallory Lines that the same reduced fares placed in effect last Fall will be continued throughout the summer months. These rates, lower than in former seasons, will be effective throughout the summer and Fall until Dec. 31, carrying limit of 90 days, or a longer limit of nine months at slightly higher cost.

For the first time in several years, the company will provide three sailings each week between the Florida ports and New York City, these consisting of the T. S. S. Shamrock from Jacksonville each Wednesday at 4:00 P. M., in express service, with arrival in New York Friday at 12:00 noon; also the S. S. Cherokee leaving Jacksonville on Fridays at 5:00 P. M., with arrival at New York 7:00 A. M. Monday, and the S. S. Seminole each Sunday at 5:00 P. M., with arrival at New York 7:00 A. M. Wednesday. Both the Cherokee and Seminole make a call at Charleston.

A wide variety of accommodations is available on all steamers, including many rooms with private toilet—bath, and shower with or without hot and cold water.

The lower fares are made effective for the benefit of Florida Jacksonville residents, who will be available likewise to Northern persons, many of whom are coming to Florida during the summer period, as is evidenced by the development of summer travel to Florida during the past few years.

The cruises and low fares likewise will appeal to many persons in border states who during the past summer have used the Clyde-Mallory Lines in connection with stopover at our wonderful Jacksonville beaches.

Arrivals from New York at Jacksonville will be the T. S. S. Cherokee each Monday, the S. S. Shawnee each Monday, the S. S. Seminole each Sunday, and the S. S. Shamrock each Tuesday.

Three field offices have been planned for the district by May 30, Jay E. Benedict and his staff at Jacksonville, headquarters in nearby Jacksonville.

The managers will proceed to the third army maneuvers which will be staged during August and September in Louisiana and Texas.

## Chance for a bright idea

There's only one reason why so many people use advertising — they haven't found a cheaper way to do what advertising does.

And what it does is save time in finding enough customers to keep factories and stores busy.

There's a chance here for a bright idea. But it's got to be mighty good. Advertising is.

## Legislature Vetoes Welfare Tax Bills

### Senate Finance Committee Kills Gross Receipts Measure; Holland Opposed It

### Cigarette Levy Also Rejected

### Appropriations For Old Age Pensions Being Considered

TALLAHASSEE, May 30.—(AP)—On the heels of a statement by Governor Holland that a "well job" already had been done in providing money for old age pensions, aid to dependent children and relief for the blind, the Legislature killed welfare tax bills right and left today.

The House, by a vote of 46 to 13, refused even to consider a 2 percent gross receipts tax backed by Rep. Commander of Holmes to provide welfare funds.

The Senate finance committee turned down a whole series of new tax proposals, after Senator Williams of Tampa declared "it's common street talk that all you have to do to pass a tax bill is to wrap an old age pension around it."

One of these was defeated 10 to 1. It was the gross receipts tax that in effect was a sales tax on the gross receipts of all businesses.

Another proposal was a tax on the gross receipts of all businesses, which would have been a 2 percent tax on the gross receipts of all businesses.

The House committee also put the cigarette tax to a vote, but it was defeated 10 to 1. The House committee also put the cigarette tax to a vote, but it was defeated 10 to 1.

## Parade Of America Is Theme Of Graduation Exercises At Geneva

With the Geneva School band leading the colorful parade with a stirring march, "Military Escort," and a detail from the Orlando Air Force serving as color guard, the exercises for the graduating class of the Geneva School were held Wednesday night on the outdoor basketball court.

The theme of the exercises was "Parade of America" and children from the Kaleke and Geneva colored schools, assisted by the Snow Hill choir, Mrs. Bills related.

"As group after group was added to the picture we sensed anew that our way of life had been won and will be maintained by united efforts of many people, that our power is in united action," Mrs. Bills declared.

The roll was called of the 11 boys from the Geneva school who are now serving with the armed forces of the United States.

Following the parade, diplomas were presented to the 11 graduates by Mrs. Bills.

Mrs. Bills said that "Geneva wishes to express her appreciation to the corps of teachers, Principals W. L. Ray and Mrs. J. B. Smith, who have made it possible for them to lead an opportunity in their work and play. Thanks are also due Mrs. J. B. Smith for her generous contribution to the purchase of the new building for the school."

The regular meeting of June 3 of the Geneva School was postponed until June 3 because of the school's participation in the parade.

## Some Relief From Drought Is In Sight

### Power Emergency Is Still Facing Areas; Southeastern Loop Cuts Night Games

Light, scattered thundershowers will afford some relief today or tomorrow to the sweltering southeast, but it will be of scant value to rain-hungry crops or drought-depleted rivers, the Weather Bureau said today.

Rain already has fallen today at Mobile, Vicksburg, and on the Tennessee-Virginia line. It appears to be advancing eastward toward the Atlantic Coast.

The power emergency facing the southeast continued. President Stuart X. Stephenson of the Southeastern League announced that members had voted to eliminate two night games a week to conserve power.

Secretary Ikeke said yesterday it might be very well to consider nationwide daylight saving time system to conserve power.

Ikeke said President Roosevelt perhaps could employ measures under his authority to issue a proclamation to conserve power if citizens decline to do it.

(An act of June 10, 1920, would provide the vehicle for such presidential action. The law authorizes the Federal Power Commission to require such temporary connections of facilities for generation, delivery, interchange, or transmission of electric energy as in its judgment will best meet the emergency and serve the public interest.)

Roosevelt, in a special letter to the House, has warned that oil rationing in the east was "disturbingly" in the next few months.

A shortage threat in the greatest industrial area of the world is now being met by the nation's oil tankers from domestic service to shuttle service for transshipment of oil to Britain.

In observance of Memorial Day a committee of members from the Camp Hill Post of the American Legion, the Legion Auxiliary and the Sons of the Legion placed flags and flowers on the graves of the deceased veterans of the World War I morning, Mrs. F. E. Roumillat, said today.

Flowers were also placed on the graves of the Gold Star Mothers and other members of the Auxiliary at the local cemetery. George Cook represented the American Legion, Mrs. Roumillat, the Legion Auxiliary, and Stewart Quartermaster, Buddy Richard, Paul Pezold and Eugene Kendall represented the Sons of the Legion at the ceremony.

## Jack Russell Is Honored At Florida

Jack C. Russell, Sanford resident who is now studying for a Ph. D. degree in Tallahassee, will be initiated tomorrow into the University of Florida chapter of Phi Kappa Phi, national honorary scholastic fraternity.

Mr. Russell will be one of eight graduates initiates. Others are George B. Davis, Jr., Leesburg; George T. Gunter, Tampa; Russell H. McIntosh, Lake Worth; Domingo Donate Torres, Gainesville; Wilbur M. Benson, Grand Forks, N. D.; Hans Hammond, New York; and Clifford T. Patten, Fort Valley, Pa.

## Fire Burns 3 Cars At 500 Mile Race

INDIANAPOLIS, May 30.—(AP)—Thirty-one sleek, shiny racing automobiles, the smallest field in five years, roared away at 11:00 A. M. (C.S.T.) today in a delayed start, due to a fire in the garage section, of the annual 500 mile Indianapolis Speedway classic.

The fire, which damaged 30 garages, destroyed three race cars and injured seven men, caused doubt for a time as to whether the race would be run.

Harold Joseph Franklin of Orlando and Mrs. Margaret Arnsperger of Longwood were issued a marriage license at the Court House yesterday.

The regular meeting of June 3 of the Geneva School was postponed until June 3 because of the school's participation in the parade.

## Crete Defenders Are Reported In Flight

### Will Rogers, Jr., Weds

Will Rogers, Jr., son of the late cowboy humorist, and Catherine Connell, society girl, are shown before leaving Beverly Hills, Calif., for Las Vegas, Nev., where they were wed. Young Rogers publishes a Beverly Hills newspaper. He expects to join the army soon.

## Oil Storage Plants On Lake Front Guarded After Sabotage Warning

Armed guards were thrown around four of the seven big oil storage plants on Sanford's lake front last night following a warning from the Federal Bureau of Investigation that sabotage would be attempted on United States oil resources this weekend.

Orders to add night guards immediately came from district offices at the plants at Jacksonville, Tampa and Atlanta. Chief of Police Roy Williams said today the received orders called for night guards from the storage plants and furnished watches.

The Tampa State Oil Company said it had received no word from its district office at Miami to increase the number of watchmen, but added an order was expected. The office at Miami was contacted and replied that it would notify the company later, an official said.

The Texas Company added an extra watchman during the day some time ago, and no further guards have been hired, it was announced.

At the Gulf Oil Company, the guard unit remains permanently. H. H. Thomas said he declared that the night guard for the protection of the oil plant was a full-time job. The company's American Oil Company said its order to place extra guards on the night shift was a precautionary measure. The company in Tampa, and the no reason was given.

Chief Williams said he and the Police Department were "cooperating fully" with the oil companies in furnishing guards and keeping a close watch.

## Essay Winners Will Get Medals Tonight

O. P. Herndon, past exalted ruler of the Elks and former vice president of the State Elks Association, will present medals to the four winners of the Elks patriotic essay contest at the Lake Monroe school tonight at 8:00 o'clock.

The names of the winners will not be announced until presentation of the medals. Subject of the essays was "What Uncle Sam Means to Me." The public is invited to attend the ceremony.

## Promotion Exercises Are Held At Wilson School, Paola, For Eight

With County Judge R. W. Ware delivering the principal address, the promotion exercises were held at the Wilson School at Paola yesterday, when eight children received diplomas. They were as follows:

Dorothy Thomas, Thomas A. Hanson, Mary Margaret Bendon, Charlotte A. True, Woodrow Davis, Arthur Finner, Laurence Peppers, Cecil Lee and third to Dorothy Thomas.

The eighth grade presented two blue vases for the stage and gifts to the faculty and the janitor.

Entertainment was provided by an operetta, "Mulligan's Magic," given by the upper grades, followed by Mother Goose rhymes by the primary grades. Entertainment was under the direction of Mrs. J. R. Houghton and Mrs. F. E. Foltz. R. E. Trus is principal of the school.

## Allies Said Wandering Around Island In Artificial Fog Laid By Invaders

### Battle Decided, Berlin Declares

### Italian Press Says Surrender Before Night Inevitable

British and Greeks, fleeing before the German conquest of Crete, now are attempting to reach Egypt aboard small fishing boats in another Dunkerque, the Germans asserted today. The first group of fugitive soldiers was reported already arrived in Egypt, it was said.

Germany meanwhile claimed victory in the fierce battle for the strategic island. The Nazis described the Allies' defense as "crumbling."

The British defenders of Crete were reported "in full flight" in the 11-day-old struggle today, and Axis dispatches pictured the Allies as wandering around the island, lost and demoralized in an artificial fog laid down by Adolf Hitler's aerial invaders.

Groups of British soldiers were reported stumbling along the rocky southern shores, hoping ships might come to evacuate them. Fishing boats had taken off a few, it was said.

Berlin said thousands of Allied prisoners had been seized, and asserted the battle for the strategic Mediterranean island "has been decided."

The British declared their forces "again sustained a heavy toll" of the Nazi blitzkrieg.

The Italian press asserted that surrender of the Allies before nightfall was inevitable.

With the conflict fast shaping toward another Nazi triumph, the British accelerated their drive to prevent the rich Middle East oil kingdom of Iraq from falling into Hitler's grasp.

British imperial troops advanced within five miles of Baghdad, 4,000 year old capital of Iraq. Emir Abdul Ilah, deposed regent of Iraq, was said to be following the British columns, ready to establish a new government.

There was scant activity in the western air war. London passed its nine-hour bombing period in succession.

Trapped between two fires and hopelessly outnumbered, exhausted British "troops of doom" fell back from western Crete last night.

Some 30,000 German invaders were reported to have captured the harbor of Suda Bay, a strategic base for the landing of sea-borne troops—and occupied the city of Candia, in central Crete.

Newly-arrived Italian blue-jackets and soldiers striking from the eastern end of the 140-mile island, creating a second front against the hard-pressed British and Greek allies, the struggle which began 10 days ago when Nazi "chute troops" swarmed down from the skies appeared nearing an end.

Candia, the bomb-blasted capital of Crete, already had fallen and British Middle East headquarters conceded its capture. Then swiftly, the Germans reported, Nazi sky troops seized the island's biggest city, Candia, 85 miles east of Suda Bay, and gained another vital foothold against the Allies.

The German official news agency DNB said German planes raided British troops concentrated (Continued on Page Three)

## Warning To Observe Parity Price Made

WASHINGTON, May 30.—(AP)—The American Farm Federation demanded Congress today forbid the Commodity Credit Corporation from buying or selling farm products for less than parity prices, warning that otherwise the nation's farmers are "headed for a grave disaster."

## Large Bass Caught By Lake Mary Man

Robert Ramsey of Lake Mary, dropping his line in Crystal Lake Thursday, caught an eight-pound bass. It was reported today. Mr. Ramsey used frog as bait. It was one of the largest fish caught this year at Lake Mary.
