Walk for Multiple Sclerosis is Saturday

The National Multiple Sclerosis Society Mid Florida Chapter is hosting the annual MS Walk on April 8, at Glenridge Middle School. Registration for the 5k walk is 9 a.m. Multiple Sclerosis is a chronic, potentially disabling disease of the central nervous system. Proceeds from the walk support local programs that help Seminole, Orange and Osceola Counties.

For additional information about registering or volunteering for the MS Walk, phone the National MS Society Mid Florida Chapter (toll free) at 888-950-9080. Locally, phone Ruth Gaines, coordinator of volunteers at 407-323-0253.

Lake Mary protest takes strange twist

By Michelle Joris
Managing Editor

LAKE MARY — Controversy over Paradise Park won't die. A press release sent to local media during the weekend indicated residents planned to protest Lake Mary City Commission's decision to scrap plans for Paradise Park. However, only the local media and several curious bystanders showed up at the designated time Monday afternoon if what appears to be political gamesmanship. The news advisory stated a protest was planned for 4:30 p.m. at the corner of Country Club Road and Lake Mary

No one shows for protest; 'Organizer' smells a rat

Boulevard. By 5:30 p.m. Monday, the only indication of a protest were unattended signs and flyers. Lisa Patterson, whose name and phone number appeared as the contact person on the news advisory, said she knew nothing about the scheduled protest until several people called her Monday evening

asking her questions about it. "I did not authorize or initiate this press statement," Patterson said. "It could possibly be politically motivated." Patterson said she believes politics may be involved as a result of a postcard that was mailed this weekend protesting Lake Mary Mayor David Meador and the City

Commission's decision not to go forward with the Preservation 2000 grant for the proposed Paradise Park. Several quotes, including one made by Patterson, are included on the masthead. "I believe someone from the Seminole County Democratic Executive Committee used my name without approval to orchestrate this so-called press conference for their own political gain," Patterson said. "This has nothing to do with the park. It is not fair to the cause, which has always been the preserve." The postcard's return address was listed. See Protest, Page 6A

SANFORD — Neither the city nor its mayor had been as dressed up as they were Sunday afternoon for the Miss Seminole County Scholarship Pageant at the Marina Hotel. Shannon Kelley, a graduate student at Florida International University won the title, receiving her tiara from Mayor Larry Dale, resplendent in tuxedo and boots. Tobin Anne Finwall, a Winter Park resident attending the University of Notre Dame, was First Runner Up; Julie Ann Ruth a Longwood resident attending the University

of Central Florida, was Second Runner Up. "We're pleased — this was a good start for this pageant," said director Martha Yancey. "Someone at the pageant told Mayor Dale that he understood why there is a need for a conference center. I have to agree with that. But everyone is grateful for what the folks at the Marina Hotel did to accommodate us in the first year of the pageant." The Miss Seminole County contest was an "open" pageant, allowing contestants throughout the state of Florida to compete. Kelley, 24, is from

Soup kitchen open or not?

Despite mediated compromise, controversy continues

By Dan Ping
Editor

SANFORD — The compromise between Historic District residents and a local soup kitchen has become a source of controversy between the two groups. Seven residents who filed a lawsuit against the city of Sanford, agreed to drop that suit if Jean Metts, director of Seminole Volunteer Enterprises (SVE) would limit the hours of operation

and number of patrons served. However, those residents are now considering on whether to push ahead with the suit because they say Metts has already violated the agreement and an order by the city to cease serving meals. The residents and their attorney, Clifford Conroy, say Metts violated the agreement when she opened for business Friday night. Despite Thursday's compromise, the agreement states in paragraph 4 that the "mediated settlement agreement is contingent upon approval of the city commission of the city of Sanford, Fla." The City Commission has yet to take up the matter. "The fact of the matter is the

ALTAMONTE SPRINGS — Police are searching for answers as to why a 23-year-old Altamonte Springs woman drowned in a Jacuzzi on Friday. Maxine Moore, who resided in unit 115 in the River Oaks Apartment Complex, 551 Little River Loop, drowned in the

apartment complex's community hot tub Friday morning. Altamonte Springs police are still investigating the cause of her drowning, but consider it to be an accident. "Right now, we have no idea how she drowned," said Officer Mike Nelson, spokesman for the Altamonte Springs police. "We are waiting for results from the toxicology report and the autopsy." At 10:29 a.m., a 911 call was received from the River Oaks Apartment Complex. One of the apartment workers reported

City may demolish troubled apartment complex by May

Inspectors test for asbestos before moving ahead

By Bill Kerns
Staff Writer

SANFORD — The Ridgewood Villas apartment complex located near Seminole High School could be demolished within 30 days. Sanford is accepting bids from demolition contractors. Charles Rowe, director of community development for the

city, said Monday that demolition of the 60-unit apartment complex is expected to take place in about 30 days. Before the demolition can proceed, the city will also contract for an asbestos survey to be performed. The survey is expected to be complete in about one week, at an estimated cost of about \$3,000. The total cost of demolition is expected to be between \$80,000 and \$100,000. "It's impossible to say how much demolition will cost, because that depends on the asbestos issue," Rowe said. "The survey may say there is

only a small amount of asbestos, or there may be quite a bit." City officials expect that any asbestos found within the apartment complex will be non-friable. Friable asbestos is easily released into the air when disturbed, while non-friable asbestos is more easily contained. The apartment complex is about 20 years old. At that time, companies were not using friable asbestos during construction. "We hope this is not friable asbestos," Rowe said. See Demolish, Page 6A

Vice President Al is no pussycat

Al Gore's the Man. Good for him for disagreeing with Bill Clinton and Janet Reno about what's best for Elian Gonzalez. The more Gore disagrees with B. and J. the less he'll need to attack W. (aka, Dubya). Right now, W. is off A.'s back — and on his side.

A bona fide Gore-Clinton fallout would do more for Gore than his inventing the Internet or discovering the toxic waste at Love Canal. Bubba would learn what "is" is after a confrontation with the re-invented Man from Tennessee, our gubay pal, wise Al.

Being vice president limits a person's opportunities to be confrontational with the fellow in the Oval Office. Presidents — especially the present one — want their own space. The vice president, in fact, sees less of the president than an intern sees.

Some might argue that the recent lot of U.S. vice presidents hasn't contributed much to the

great society. Dan Quayle redefined (for a spell) the vice president's role in Washington.

Hardly a meat and potatoes veep was he. Mr. Quayle was a far more honorable vice president than say, Spiro Agnew. Had Agnew been Bill Clinton's vice president there would have been no need to hire Ken Starr. Brenda Starr would have put them both on the street.

Hubert Humphrey was the quintessential presidential sidekick. a politician with pizzazz. HHHH demonstrated courage as he battled cancer. A good man but not presidential enough for America to elect into the big office at 1600 Pennsylvania Ave.

No recent vice president had the clout and presence of Lyndon Johnson, John Kennedy's running mate in 1960. LBJ was one of the most difficult presidencies ever upon his relieving the assassinated JFK. Some historians regard LBJ as the 10th best president. He would probably be first or sec-

ond if vice presidents were rated.

For the most part, Al Gore has stayed out of harm's way while serving as vice president. Insiders say he's a live wire when at play, resuming a vice presidential pose when in public. Until now, we really don't know how much guff he has given his boss.

As Mr. Gore charts his course to the presidency, he'll probably be letting us know his choice as a running mate. My hunch is that the pick will be Andrew Cuomo. Al & Andy might just be dandy. Florida's Bob Graham also has aspirations to run with Al.

The Society of AIs wants Gore to be president. Attaining the highest office in the land would assure him a place among history's great AIs. Presently, Al Gore is ranked No. 47. Some of those ahead of him include Al Capone, Al Johnson, Alfred Hitchcock, Al Pacino, Al Kaline, Fat Albert, Mary Albert, Alley-Oop, Alan Ladd and Alabama.

You can call each of them Al.

Irrigation necessary to maintain good growth of plants

The demand for water in Florida is always increasing due to a steady population growth. We must learn how to make better use of the limited water resources available by practicing water conservation.

Rainfall in Florida is about 52 inches of water per year, which could be considered adequate if we think that one inch of rain per week is sufficient to cover the needs of most plants. Most of the rainfall occurs during the months of June through September, with little rain occurring the rest of the year. During this period, supplemental irrigation is necessary to maintain good growth for most landscape plants.

cult to establish a general rule that will apply to all cases.

There is only one rule that never fails, most plants will show their need of water by wilting. Some plants will not show obvious symptoms of water stress but sometime other types of symptoms will appear such as leaf drop, browning of leaf tips or leaf margins.

How much Water: As a general rule, plants in full sunlight will need watering every three to five days. Most Florida's soils will hold about 3/4 inches of water per irrigation period.

Irrigation of landscape plants is usually done with sprinklers, which must be calibrated to deliver the 3/4 inches of water required for most plants. A simple method used is to place containers in the area covered by the sprinklers to determine how much time it takes for the

sprinklers to deliver 3/4 inches of water. Simply, measure the depth of the water level in the containers until it reaches the desired amount of water, and record how much time it took to reach that level. Adjust your timer accordingly if you have an automatic watering system or if you do it manually, remember to turn on the sprinklers for just that period of time. It is recommended that if you have an automatic watering system you should install a shutoff device when it rains.

Watering Methods

Sprinklers are one of the most popular method of watering your landscape plants. Sprinkler systems are versatile and can be operated automatically or manually to deliver the necessary amount of water.

A hose-end sprinkler can be used in small areas to cover the water needs of your landscape plants. This method requires more labor to move the sprinkler around but it is very economical.

Micro irrigation is a very efficient method of delivering a small amount of water to the root system of the plants. By wetting only the root zone, the amount of water used is minimal and it also limits weed growth.

Micro-sprinklers can cover areas of three to twenty feet in diameter and are an excellent way to deliver water to specific areas in your landscape.

Watering plants with a hose is not an efficient way to deliver water to plants. Usually water is applied faster than the soil can absorb it, resulting in soil erosion and exposing plant root to direct sunlight.

Time Of Watering

The simplest rule is to water early in the morning. In the mornings, there is minimal evaporation, since wind and temperature are low, and the time that the plants remain wet is also minimal.

Watering during the day results in water loss due to evaporation. Watering at night increases the amount of time that

the plant remains wet, creating a good environment for the development of diseases.

Water Saving Practices:

There are some other practices that result in water conservation:

- **Mulches** — The use of mulches will reduce evaporation and consequently reduce watering.
- **Drought Tolerant Plants** — By landscaping with plants adapted to low soil water levels, you can conserve water because these plants require less water by maintaining a good growth.
- **Windbreaks** — Windbreaks, by cutting wind velocity, decrease evaporation. Trees, fences, hedges, and shrub beds will function as windbreakers in the landscape.

When To Water

Frequency of watering depends on plant species, soil type, time of year and weather conditions. That makes it diff-

Story behind family burial plot may be gravely incomplete

DEAR ABBY: In a recent column you printed a letter from "Outraged in the South," whose stepmother, upon her death, will have herself buried between "Outraged's" father and his first wife in the family burial plot.

You advised her that it would most likely be useless to try to talk this incredibly insensitive stepmother out of it. However, there is something that "Outraged" and her siblings can do. After the stepmother dies — or, perhaps even better, before she dies — the "children" can go together and have another inscription engraved on the stone underneath the first wife's name. It could read: "She did it over our dead bodies — Signed, The Children."

DEE IN WASHINGTON

DEAR DEE: Your suggestion is a hoot. Not everyone viewed the second wife's intentions as we did. Read on:

DEAR ABBY: When I read the letter from "Outraged in the South," my stomach turned. Perhaps the stepmother should not have moved Dad over — it is pretty gross. However, maybe the dad and stepmother discussed where they would like to be buried, and he chose to be next to her instead of in the middle because he had been married to

her for at least 27 years. Over the course of those 27 years, I assume she loved him, cared for him and, most likely, nursed him through his last illness.

The youngest daughter was approximately 17 years old when her father married a much younger woman. He lived to be at least 90 years old. She should be grateful that they had such a long life together and were there for each other.

Give this woman a break. Unless she was a selfish witch, those adult children could use their time more productively. They should console their stepmother, as I am sure she is mourning. She is now approximately 65 years old, and I would expect she could use some "family" around her.

If you print this, please don't use my name. All the relatives live here.

A CALIFORNIAN

DEAR CALIFORNIAN: You're right; there are usually two sides to every story. However, if the matter had been discussed between the father and his second wife, it would have been wise to have shared the burial plans with the adult children well in advance.

DEAR ABBY: My daughter is planning a wedding in July. She would like to use silver and burgundy as her colors. Her soon-to-be mother-in-law said silver is used for second marriages. Is this true?

NEEDS YOUR HELP IN UTAH

DEAR NEEDS: If that's true, it's the first time I've heard of it. Second-time brides often wear pastel colors — or white with color in the trim of the garment or their accessories. If your daughter wants to use silver and burgundy for her wedding, the combination sounds fine to me.

School hosts 'biggest baby shower'

By Bill Karna
Staff Writer

LAKE MARY — Ten-year-old Allie Conti says that she is looking forward to giving to those who are in need throughout her life.

The fifth grader is not alone among the students at Heathrow Elementary School. Nearly all 900 students at the school gave an estimated 1,000 new, usable items to the Coalition for the Homeless of Orlando in a gift drive that culminated Friday with the fourth annual World's Biggest Baby Shower.

"It just feels good to give to people who we know can't afford these items," Allie said. "Before we did this, I didn't know that there were this many homeless people."

Members of the Student Council gathered for the "Baby Shower" Friday to give the items to representatives of the Coalition for the Homeless. The donated items include clothing, diapers and tooth brushes. Fourth grade teacher Denise Glum has been organizing the event for the last four years.

"It's important to instill a desire to help others from an early age," Glum said. "The kids really do get into this, and hopefully this desire to help people will stay with them."

The gifts will be presented to children whose parents are staying at the Coalition for the Homeless, which provides meals to 700 people per day.

"It's wonderful that the children are taught about the value of serving people who are in need," said Roberta Bloom, community volun-

teer coordinator for Coalition for the Homeless. "A lot of people don't know that there is this homeless problem in society."

Fourth grader Allison James said that participating in the project makes her want to help more people.

"I like doing this for the Coalition for the Homeless," Allison said. "I feel like we're helping other people."

Third grader Sydney Archer

said that he enjoyed the project.

"It's good to be doing this for people who don't have things to give enough things for their babies," Sydney said.

Third grader Lake Isard said that collecting the presents was fun.

"It's fun collecting the items," Lake said. "You never know what you're going to get."

Meanwhile, third grader Ashton Light looks forward to participat-

ing in the project next year.

"It's really nice to be able to help the Coalition for the Homeless, and to know that these items will be helpful," Ashton said.

Third graders Nicole Aguiello and Jacob Harin said that they enjoyed the Baby Shower, and hope that the gifts will improve the lives of the children.

Fourth grader Sarah Dill also said that she hopes the gifts will "help make a difference."

Development Order which granted the off-street parking variance and allowed Ms. Metts to open, has been stayed by the Circuit Court, period," Gonzalez wrote in a letter to Metts' attorney Howard Marks, as well as the city's attorneys. "Unless and until the City Commission approves this stipulated settlement agreement and renders an Amended

Development Order consistent with the terms therein, there is no agreement, Development Order or otherwise, which would allow Seminars Volunteer Enterprises, Inc. to serve meals at 402 W. 4th Street, Sanford, Fla."

Marks contends that Metts can open when she wants because all parties agreed to the settlement.

"I talked to the city attorneys, I talked with Cliff what's his name, and we told them we would open Monday," (Metts actually opened Friday)

Gonzalez would not comment about the controversy, citing a confidentiality agreement.

Sanford City Manager Tony VanDerworp disagreed with Marks.

"I assumed she wasn't going to open until the settlement was complete," VanDerworp said.

Mayor Larry Dale also said he believed the soup kitchen would

not open until the commission took action.

"That's an in-your-face attitude Jean is taking," Dale said.

In another controversy, Metts called Seminole County Sheriff's deputies to her facility and asked about filing stalking charges against Joe DeSantis, one of the plaintiffs in the lawsuit.

DeSantis was taking pictures of

patrons going in and out of the soup kitchen Friday night.

One of the patrons, John Lerehan said DeSantis was not on the property, but was parked across the street for about 45 minutes.

"I don't think he should take my picture without my permission," Lerehan said, later adding, "I'll go to his house and deal with

him personally."

However, according to the agreement and Marks comments, residents can monitor the soup kitchen during hours of operation.

"They have the right to observe and monitor, they have the right to take pictures, and they have the right to come in the facility and court," Marks said.

Longwood considers a tax cut

By Bill Karna
Staff Writer

LONGWOOD — A tax cut may be on the way in Longwood. Longwood Mayor Paul Lovstrand said during Monday's City Commission session that he will propose lowering the city's millage rate during budget hearings this summer. The budget hearings will be held in August, with a final budget adopted by Oct. 1.

Currently, city residents pay \$5.06 per \$1,000 of assessed val-

uation on their home. This means that a Longwood resident who owns a home valued at \$105,000, with a \$25,000 homestead exemption, pays \$404.80 in taxes on the property.

"I am going to ask that the city lower the millage rate to under 5," Lovstrand said. "At least to 4.9. We are doing well financially, and we can afford to give the taxpayers a break. It's not going to break us."

Meanwhile, City Manager John Drago said he will request that Florida Recycling Services look

into lowering solid waste collection rates, which were raised for Longwood two weeks ago because of increased fuel costs.

Seminole County on March 14 lowered the tipping fees at the county landfill, which translates into lower garbage collection costs. Florida Recycling was not aware of the county's actions when the request to raise garbage collection rates in Longwood was made, Drago said.

Residents of Longwood will pay higher solid waste collection rates beginning in May.

In other action, in Longwood, the city is preparing for the Easter Egg Hunt to be held Saturday, April 15 from 9:30 a.m. to 12 p.m. in Candyland Park. In the event of rain, an alternate date for the Easter Egg Hunt is Sunday, April 16, from 9:30 a.m. to 12 p.m. at Candyland Park.

Also, a Blue Grass Pickin' festival will be held Saturday, April 15, from 6 p.m. to 10 p.m. at Reiter Park.

ed as the Seminole County Democratic Executive Committee. The Herald attempted to contact the, but messages were not returned as of press time. The news advisory failed to indicate where it was sent from.

Controversy concerning the park arose following Florida Communities Trust's approval earlier this year of Lake Mary's grant application for an area located on the south side of

Lake Mary Boulevard adjacent to Big Lake. However, as a result of community protest, City Commission voted 4-1 during its Feb. 17 meeting to discontinue plans for the park and turn down \$865,000 in grant money.

Further attempts were made by residents to have Commission reconsider its vote during its March 16 meeting. However, a motion made by City Commissioner Gary Bender to reconsider the park was denied due to a lack of a second.

Demolish

An inspection of the condemned apartment complex performed by city officials on Friday did not find any vagrants on site, Rowe said.

Meanwhile, last Monday the Sanford City Commission rejected a request by two apartment and condominium owners at the complex to delay demolition.

Raymond Ramos, who owns interest in eight units at the complex, and William Reed, with interest in two units, said that they were looking into finding a way to make repairs at the complex.

Despite the request, the City Commission authorized the Community Development Department to continue with the demolition process.

City officials said they want to demolish the complex before anyone gets hurt in the vacated buildings.

"It is an attractive nuisance," Rowe said.

In fact, a building at the condemned Ridgewood Villas apartment complex burned to the ground in December.

On December 16, a fire started on the second floor of Building 2 in the Northwest section of Ridgewood Villas shortly before 1 p.m., and quickly spread into two-thirds of the complex, according to the Sanford Fire Department.

The fire was contained, and only Building two was lost. No one was injured in the blaze.

The complex has been fenced off since November, preventing children or vagrants from entering the condemned buildings.

In recommending demolition in November, City Manager Tony VanDerworp said the complex presents a health and safety threat.

An earlier fire broke out in two units in the apartment complex in August, 1999. Emergency officials were able to contain the fire, and no one was injured.

The fire in August erupted at about 9:30 p.m. in the second story of building four, which had been vacated by the City of

Sanford because of unpaid water bills.

The Sanford Fire Department said the cause of the August fire was suspicious in nature. The fire started in unit 219 and spread into unit 220 of building four. It took 20 to 30 minutes to put out the flames.

The commission condemned all 60 units of Ridgewood Villas in September, 1999. A state health and safety inspector issued a closure notice on the complex July 7 because of code violations. The state revoked the licenses for owners of the complex on July 7 following the health and safety inspection.

Jacksonville.

Each of the 15 contestants prepared for the various segments of the competition in a cramped dressing room area. They came out one-by-one for swimwear, evening gown, talent and interview. The talent portion included mostly singers and dancers. One woman, Melissa Maria Williams, played a classical piano piece, which required the five judges to switch seats from the front of the crowded hall to the rear.

The flag bearer from the honor guard almost lost his staff as he exited after the Pledge of Allegiance. Dale, a late arrival, ended up seated in a walkway. Many of Shannon Kelley's high kicks in her lyrical dance routine were near the ceiling.

Kelley will now compete in the Miss Florida contest. Her platform is awareness and initiatives people can take to assist troubled youth.

Jennifer All Lanier, a student at Lake Mary High School, gave a rousing dance step to the Debby Shapiro Granite number, "I Want To Be a Rockette."

Miriam & Valerie's School of Dance Arts provided entertainment between the segments of the pageant. Robert Kinney, a Sanford resident, was the emcee.

Drug/ Alcohol boating deaths up 20% in 1999

TALLAHASSEE - Florida Fish and Wildlife Conservation Commission (FWC) Executive Director Allan L. Egbert has announced that 58 boating fatalities occurred on Florida waterways in 1999.

This represents a decrease from 73 in 1998, but Florida waterways are still the deadliest in the nation. Statistics compiled by the

Shupe by the FWC

Division of Law Enforcement also show that while the number of fatalities decreased, the percentage of alcohol and drug related fatalities increased, from 35 percent in 1998 to 55 percent in 1999.

"We are encouraged by decreases in the number of boating fatalities, but we are very concerned that alcohol-related fatalities are at record levels in the state," Egbert said. "These accidents are preventable. We need strong deterrents to boating under the influence, and we must raise the public's awareness."

The Division of Law Enforcement is placing an emphasis on reducing alcohol- or drug related boating fatalities. FWC law enforcement officers will increase water patrols and be on the lookout for impaired boat operators.

The FWC reminds all boaters to "Stay Afloat, Don't Drink and Boat."

SHUPE'S SCOOP
The effects of alcohol are intensified while on the water. The rocking motion of the boat along with the reflections of the sun's rays add to the effects of alcohol on the system.

WILDLIFE MANAGEMENT AREAS ARE GREAT PLACES TO HIDE

If you like to hike, fish, camp, watch or photograph wildlife, or just spend time in the great outdoors, Florida's wildlife management areas are for you.

"Many people think wildlife management areas are just for hunting, but they offer so much more for people who love the outdoors," said Joy M. Hill, public information coordinator for the Florida Fish and Wildlife Conservation Commission (FWC). "For example, hikers can access the Florida Trail through several of these

Metalade completes perfect Industrial season, finishes Polar Bear League as only undefeated team in Sanford

By Dean Smith

SANFORD - He may not be Irish and his name is not O'Byrnon, but Metalade's Chris Bryson had a pretty good St. Patrick's Day anyhow.

Behind an outstanding individual performance by Bryson, Metalade eked the End of the Season Tournament title to its regular season crown in the City of Sanford Recreation and Parks

Department Polar Bear Industrial Slow Pitch Softball League and ended the campaign as the only undefeated team in any of the Sanford Polar Bear leagues.

The tournament went according to seeing as Metalade got a forfeit from No. 4 seeded Hitar/BHM Corporation and No. 2 seeded Kemco jumped on Bundy Corporation/11 Auto early and never let the No. 3 seed back into the game, winning 15-5 by

the run rule.

The Championship Game then turned out to be one of the best of the season as Kemco and Metalade were tied at 9-9 entering the bottom of the fifth inning when a three-run home run by Dee Richards keyed a six-run fifth and Metalade held on for the 16-11 victory.

Metalade completed the season with an 11-0 record with Kemco 15-6, Bundy Corporation/11

Auto 14-6) and Hitar/BHM Corporation 11-9 trailing.

None of the teams get much rest as the City of Sanford Recreation and Parks Department Spring Slow Pitch Softball League opens this week. The league is opening a little early because Sanford will be hosting several of the ASA Regional Qualifying Tournaments in late June and early July.

The Church League at Zinn

Beck Field and Co-Ed at Pinehurst Park were to have opened on Monday night, with the Women's League starting at Pinehurst Park on Tuesday. Men's league's playing at Pinehurst Park on both Wednesday and Thursday and the Industrial League opening at Pinehurst Park on Friday.

Raiders romp past St. Johns in softball

By Dean Smith
SPORTS EDITOR

PALATKA - Lake Mary's Jeannie Manz and Lake Howell's Jen Gillespie combined to drive in six runs as the Seminole Community College softball team defeated St. Johns River Community College 10-2 in the first game of a Mid-Florida Conference doubleheader in Palatka last Friday.

Manz homered twice and drove in four runs, while Gillespie singled in a pair of runs in a three-run fifth inning during which the Raiders broke a 1-1 tie.

The second game was suspended in the top of the third inning by darkness with SCC on top 6-0. The game will make up at a later date.

With the victory the Raiders improved to 25-20-1 overall and 5-9-1 in the conference.

SCC will be looking to keep the momentum going today when it hosts Lake-Sumter Community College from Leesburg in an M-FC doubleheader starting at 2:30 p.m. at Lady Raider Field.

The Raiders will also play an important conference doubleheader against Santa Fe Community College in Gainesville on Thursday starting at 2:30 p.m. before returning home to host Miami-Dade Community College in a non-conference doubleheader at Lake Mary High School on Friday starting at 3:30 p.m.

The Vikings took a 1-0 lead in the bottom of the first inning as, with one out, Thompson singled and advanced all the way to third on an error before scoring on a ground ball by Ellege.

SCC evened the score when Manz led off the second inning with a home run to center field.

The score remained 1-1 until the fifth inning when the Raiders broke the game open.

Deanna Osborn led off with a walk and advanced to second when Osvelo's Sarah Reeber laid down a sacrifice bunt on which Reeber also reached safely on an error.

Lynnan's Miranda Schultz then walked to lead the bases and Kelli Vetter hit a sacrifice fly to score Osborn with the go-ahead run.

After a pop up for the second out of the inning, Manz was intentionally passed, but Gillespie spoiled the strategy with a single to center, scoring Reeber and Schultz.

St. Johns River got a run back in the bottom half of the fifth inning. Mathis singled to center and moved up on a sacrifice bunt by Thompson.

Ellege then singled, but Mathis could not advance and was then forced at third on a grounder by Rutledge. Oyster then singled to center to host the bases and Harrison walked, forcing home Ellege.

SCC then put the game away in

Lake Mary's Jeannie Manz had another big game for the Seminole Community College softball team last Friday, going 2-for-3 with a pair of home runs, scored two runs and drove in four as the Raiders beat St. Johns River Community College 10-2 in the first game of a Mid-Florida Conference doubleheader in Palatka.

Scots deal double defeat in M-FC to SCC

By Dean Smith

SANFORD - Tommy Parrott drove in seven runs to lead visiting Daytona Beach Community College to a sweep of its Mid-Florida Conference baseball doubleheader with Seminole Community College at Raider Field this past Saturday.

Parrott doubled and drove in two runs in the first game as the Scots handled the Raiders, 9-1, then came back in the nightcap to homer, double and drive in five runs as DBCC prevailed 11-7.

With the sweep the Scots raised their overall record to 23-6, but more importantly are now 14-4 in the conference.

SCC fell to 12-29 overall and 5-13 in the conference. The Raiders will be looking to get back on the winning track today when they host St. Johns River Community College from Palatka in a Mid-Florida Conference game starting at 3 p.m. at Raider Field.

SCC will then travel to Leesburg to challenge Lake-Sumter Community College in a

Sumter Community College in a conference game starting at 3 p.m. on Thursday, before returning to Raider Field on Saturday for a 1 p.m. Mid-Florida Conference doubleheader with Santa Fe Community College from Gainesville.

The Raiders had little for the Scots in the opening game, not scoring until the sixth inning after DBCC had built a 7-0 lead.

In the sixth inning, with one out, Juan Chacon bunted for a single and Todd Babij followed with a single. Oviedo's Rich Rodriguez then hit a grounder that was muffed for an error to load the bases and Ben Johannung followed with a walk to plate Chacon.

The only other hit SCC had in the game was a single by Eugene Ribley.

Mike Wiley was the winning pitcher, giving up no earned runs on three hits, while striking out seven and walking three to raise his record to 6-2.

Providing the offense for the Scots were Lake Brantley's Chad Hall (2-for-4, double, two runs scored), Spruce

Creek's Gary Bell (1-for-4, home run, two runs scored, one RBI), Parrott (1-for-3, double, one run scored, two RBI), Jamie Goldfarb (1-for-1, one double, two runs scored, one RBI), Dan Chamberlain (1-for-4, double, one run scored, two RBI), Jake Hurst (1-for-4, two RBI) and Seabreeze's Bo Hall (one run scored).

The second game was much better with the score tied at 3-3 after one inning and 4-4 after four innings.

DBCC took the lead for good by scoring five runs in the top of the fifth inning, but the Raiders did not go quietly, scoring three runs of their own in the bottom of the fifth inning.

But SCC would not score again as the Scots added single insurance runs in the seventh and ninth innings to preserve the victory.

Powering DBCC to victory were Gary Bell (3-for-5, two home runs, three runs scored, three RBI), Parrott (2-for-5, one home run, one double, one run scored, five RBI), Chamberlain (2-for-5, one double, one run scored, one RBI), Chad Hall (2-for-5, one double, one run scored, one RBI), Parrott (1-for-3, double, one run scored), Adam Miller (1-for-4, home run, one run scored, one RBI) and Goldfarb (1-for-4, two runs scored, one RBI).

Doing the hitting for the Raiders were Chacon (2-for-4, two home runs, two runs scored, three RBI), Ribley (2-for-4, one home run, one run scored, two RBI), Todd Babij (2-for-4, one triple, two runs scored), Jared Bahnsen (1-for-3, one double, one RBI) and Rodriguez and Adam Shorts (one run scored each).

the first inning as Kemco took a lead it would not relinquish over Bundy Corporation/TI Auto.

Kemco then scored three runs in each of the second and third innings to build a 10-0 lead before Bundy Corporation/TI Auto scored all five of its points in the bottom of the third inning.

Doing the damage for Kemco were David Rivera (one triple, two singles, two runs scored, two RBI), Don Christy (one double, two singles, two runs scored, two RBI), Willy Marquez (one double, two singles, two runs scored), Augie Franco (one triple, one double, two runs scored, two RBI) and Samuel Velazquez (one triple, one double, two runs scored, one RBI).

Also contributing were George Martin (one double, one single, one run scored, one RBI), Oly Velazquez (one double, one single, two RBI), John Levesque (two singles, two runs scored, one RBI), Javier Camacho (one double, one run scored, one RBI) and Kirk Butler (one single, one run scored, two RBI).

Providing the offense for Bundy Corporation/TI Auto were Jimmy Kuche (one double, two singles), Josue Ramos (two singles, one run scored), Scott Meck (two singles, one RBI), Andrew McQuiggin (one triple, one run scored, two RBI), Steve Jones (one double, one run scored, one RBI), John Kelly (one single, one run scored), Gabe Ramos (one single), J. Lannon (one run scored) and Jeff McNair (one RBI).

Bryson got his night started off with an RBI double in the bottom of the first inning as Metalade took a quick 2-0 lead in the Championship Game.

But Kemco answered back with six runs in the top of the second inning, with a home run by Samuel Velazquez and a two-run double by Oly Velazquez being the big hits, and the battle was on. Metalade tied the game in the bottom half of the second inning on the strength of a two-run double by Bobby Brown and then regained the lead by scoring three runs in the bottom of the fourth inning on Bryson's three-run inside the park home run.

Kemco came back again with three runs in the top of the fifth inning to tie the game at 9-9 with

Javier Camacho ripping a run-scoring triple. But then Metalade took the lead for good in the bottom of the fifth inning scoring six runs, all after two were out.

Bill Michaels opened the frame with a single, but James Evans flew out and Jaime Ray forced Michaels at second.

Louis Armstrong kept the inning going with a single and Chip Smith put Metalade ahead to stay with an RBI double. Donny Cerve then walked and Bryson cleared the bases with his triple. Richard then followed with his home run to cap the inning.

Powering Metalade to victory were Chris Bryson (one home run, one triple, one double, one single, four runs scored, eight RBI), Chip Smith (two doubles, two singles, four runs scored, one RBI), Bill Michaels (one double, two singles, one run scored) and Dee Richards (one home run, one single, one run scored, three RBI).

Other hitters were Donny Cerve (two singles, three runs scored, one RBI), James Evans (two singles), Bobby Brown (one double, two RBI), Louis Armstrong (one single, one run scored), Jaime Ray (two runs scored, one RBI) and Terry Atkinson also played for the new champions.

Doing the hitting for Kemco were Augie Franco and David Rivers (one triple, two singles and two runs scored each), Oly Velazquez (one double, two singles, one run scored, four RBI), George Martin (three singles, one run scored, one RBI) and Willy Marquez (two singles, one RBI).

Also, Samuel Velazquez (one home run, one run scored, two RBI), Javier Camacho (one triple, one run scored, one RBI), Don Christy (one single, one run scored, one RBI), Kirk Butler (one single, two runs scored) and John Levesque (one single, one RBI).

the sixth inning, putting five runs on the board.

Osborn singled to center and advanced on a Reeber sacrifice. Schultz then bunted for a single and Osborn scored on a single to center by Vetter.

Amy Fazio followed with another single to center, scoring Schultz, and Mans followed with a three-run home run to left field to make the score 9-2.

The Raiders finished the scoring in the seventh inning as Heck Rodak led off with a single and advanced to second when Osborn was thrown out, right field to first base.

Kat Ciccarone then got a pinch-hit single, scoring Rodak.

Contributing to a 10-hit SCC attack were Jeanne Mans (2-for-3, two home runs, two runs scored, four RBI), Jen Gillespie (2-for-3, two RBI), Kelli Vetter (1-for-2, one run scored, two RBI), Miranda Schultz and Deanna Osborn (both 1-for-3 with two runs scored), Becki Rodak (1-for-3, one run scored), Kat Ciccarone (1-for-1, one RBI), Amy Fazio (1-for-5, one run scored, one RBI) and Sarah Reeber (one run scored).

Jodi Wood was the winning pitcher, going the first six innings to raise her record to 11-8.

The freshman from Colonial gave up one earned run on eight hits and struck out four, while walking only one.

Ciccarone worked a scoreless seventh inning, giving up one hit.

Ellege was 3-for-4, including a double, scored one run and drove in the other for St. Johns River Community College, while Thompson was 2-for-3 with a run scored, Oyster was 2-for-4, Surrency was 1-for-3, Mathias was 1-for-4 and Harrison had an RBI.

areas, and now is the perfect time of year to hike." You can begin your hiking adventure in the Ocala National Forest, where the famous Florida National Scenic Trail was started by a handful of volunteers about 30 years ago. The Ocala Wildlife Management Area (WMA) is a 382,409-acre expanse of Florida scrub habitat located in Putnam, Marion and Lake counties. The trail runs in a north-south direction through the middle of the area, and you're likely to see a large variety of wildlife including deer, fox, alligator, bear, and a wide assortment of birds, including scrub jays and bald eagles. "If you venture into the forest, don't forget your fishing gear and fishing license," said Hill. "Numerous fishing holes along the way offer excellent opportunities for those who want to stop and cast a line."

If you continue south on the Florida Trail you'll end up in the 6,000-acre Seminole Ranch WMA, which borders the St. Johns River in east Orange County. The area is a wildlife haven consisting primarily of river marsh, open pasture land, hardwood hammocks and cabbage palm hammocks.

The Tosoatchee WMA is next along the way. It consists of 28,000 acres in Orange County near the community of Christmas. Here the famous trail runs beside swamps, through pine flatlands, oak forests and along tree-lined dikes along the St. Johns River flood plain. The loop trails in Tosoatchee make good day hikes for those who don't want to spend days in the woods, and there's plenty there for a few hours or a few days.

In fact, right now is a great time to head to Jim Creek Swamp on the north side of Tosoatchee to see a virgin bald cypress stand. The area is home to a wide variety of wildlife including deer, turkey, osprey and bald eagle. In the spring-time it bursts with colorful

wildflowers including wild iris whose purple blooms blanket the woods, drainage areas and the edges of the swamp. Don't forget the camera for some unforgettable pictures!

In addition to the wide variety of flora and fauna, there are at least 30 known Indian mounds on Tosoatchee WMA.

Bull Creek WMA is the next stop along the Florida Trail. It's a 22,000-acre expanse of pine/palmetto flatwoods, scattered bay-heads and creek swamps in Ocala County. Remnants of the old turpentine, pitch and resin industries are still evident in Bull Creek in the form of rail and tram roads used for logging during the early 20th century. Pines in the northeast corner of Bull Creek WMA still have "catfaces" - areas on trees where iron gutters were attached to harvest the pitch.

The trail passes through stands of cabbage palms, hardwoods and cypress, scrub oak and sand pine communities. The west leg winds through pine flatwoods and prairies dotted with cypress domes.

Before the Florida Trail leaves the FWC's Central Region, it passes through beautiful Three Lakes WMA, a 45,300-acre area in Ocala County. The WMA includes the Prairie Lakes Unit, which is open from 8 a.m. until sunset, and requires a permit for camping. Call the FWC's Ocala Regional Office at 352-732-1225 for more details.

Much of Three Lakes WMA is open pine/palmetto flatwoods, but there are some scattered cypress domes and small oak hammocks. There is an abundance of wildlife, including sandhill cranes and a population of whooping cranes, which have been introduced by the FWC in an effort to establish a resident population of these beautiful and endangered birds.

Hiking any area of the Florida Trail can offer exciting, memorable experiences, depending upon how much planning you do, the time of day and year, and

weather conditions. Early morning and evening are the best times to view wildlife, when they are out and about feeding.

Now that you know where to go, it's time to get your family and friends together and head out to see some of Florida's wild areas. Be sure to wear comfortable hiking shoes and suitable clothing and bring along bug spray, binoculars, field guides, a camera, and a canteen of water. Also remember that most of these areas are primitive, with few or no modern amenities.

"Before you set off, let someone at home know where you're headed and when you plan to return, and learn how to use a compass so you can find your way out if you wander off the trail," said Hill.

For more information on wildlife management areas in Central Florida, call the FWC's Ocala Regional Office or log onto the FWC's website at www.state.fl.us/fwc/. Happy Trails!

FISHING FORECAST

Sebastian Inlet has good catch-and-release snook action with fish to 20 pounds. Bare headhead jigs tipped with a large live shrimp is the top offering. Also expect trout, redbull, ladyfish, and jack crevalle.

River action is great with bass, bream, catfish, and specks. Bass are hot from Puzik Lake south to Lake Winder, while bream, catfish, and specks prefer deep bends. Use tiny Rapalas and light spinning tackle to really sly the bass.

Captain Jack at Port Canaveral reports that offshore action is slow due to high seas. Inside the Port, look for flounder and sheepshead. Trout and redfish are fair in the Banana and Indian rivers.

Ponce Inlet has fast action with sheepshead, small bluefish, drum, redbull, jack crevalle and ladyfish. Live or dead shrimp is the top bait. Trout and redfish are rated as good in Mosquito Lagoon.
