## SWOPE BUYS BIG HAM-MOCK TRACT

THE J. L. GILES PROPERTY IN BLACK HAMMOCK IS PURCHASED BY MESSRS. SWOPE, DUTTON AND SYMES OF THIS COUNTY

Mr. O. P. Swope of Oviedo and his associates are to be congratulated on becoming the owners of the valuable tract of land known as the Giles Black Hammock property located near Oviedo.

Mr. J. L. Giles of Orlando some years ago saw the wonderful possibilities of this large tract of rich hammock land, and with his usual characteristic eye for business purchased it, or about twenty-three hundred acres of it, all that could be had at that time, the Van Arsdale Osborne Brokerage Company of Wichita, Kansas, having bought about thirteen hundred acres and other parties having acquired title to the balance, the entire tract consisting of about five thousand acres.

Eight years ago, Mr. O. P. Swope, who is at the head of this new company, came here representing the Van Arsdale Osborne Brokerage Co. After looking over the proposition, and having the soil analyzed he readily realized its great possibilities and value; but, as is the case with all of our very best lands, there was a big task ahead of him. He entered into this with the usual energy. What was the task? To put in a complete drainage system. This of course took time and a large outlay of money. Never daunted he soon organized the drainage district, known as the Black Hammock Drainage District, got his charter and let the contract. The bonds were quickly sold, home capital taking the entire issue, \$46,000.00. There was no trouble in selling the bonds, as the buyers were well acquainted with the lands to be drained. The bonds were 6 per cent, six year bonds, and this year the last ones have been paid off in full.

It looked like a gigantic undertaking, but seemed easy to a man like Swope, who always reaches his goal. Such a thing as failure not being in his vocabulary.

He has disposed of the Van Arsdale Osborne Brokerage Company's holdings, organized another drainage district adjoining this tract, known as the Florida Groves Drainage District. This tract consists of about twelve hundred acres, which he has also closed out. The purchasers of this tract have now, or soon will have more than five hundred acres tiled and in cultivation. Development work is going on as fast as the Company can get material and labor.

Now comes the last deal, which takes the heart of the original Black Hammock Drainage District, and embraces in its area about the same number of acres as the two former ones did combined.

Associated with Mr. Swope in this new enterprise are three equally good business men, and who have the same spirit to do big things that he has, namely: Mr. H. W. Barr, formerly of New York, now of Orlando, Florida; Messrs. F. F. Dutton and Roy Symes of Sanford. Mr. Barr, a capitalist; Mr. Symes and Mr. Dutton, farmers of this section, who have helped to make Sanford and Seminole county what they are, the garden spot of Florida.

With such a combination there are only seven letters in the alphabet that can spell it and they are SUCCESS.

The writer is personally acquainted with each of these men, and were it not against his principles he would envy them, but he can only say that he is proud of them and proud that they are citizens of Sanford and Seminole county.

The proposition that they have taken over is worthy of the very best efforts of such men. Being a native of this state I speak from personal knowledge of the facts. I have been all over south and middle Florida a number of times and can say without fear of successful contradiction, that there is no better, and few, if any, equals it in the state. The land is, with few exceptions, a rich, dark, loamy soil, as rich as any that can be found

and well supplied with artesian water for irrigation. Located on the south east shore of Lake Jessup, which is five or six miles wide and fifteen miles long, affording the best of protection to tender plants and citrus trees, and a good fall from the upper edge to the lake for drainage, of which there is already a complete system in and paid for. Crops can be grown all the year round. Transportation is good, both Seaboard and Atlantic Coast Line Railroads touch this point with daily trains. Boats can ply the lake to the St. Johns river, giving both rail and water routes. Oviedo is a thriving little town right at hand, with good schools and churches, and of its citizenship there is none better.

The writer has no financial interest in this proposition, but feels in justice bound to write the facts as he knows them, both of the proposition itself and of the men who are behind it.

Again I say that SUCCESS is what it means in this business of the term.

The company will soon be incorporated, as may be seen by notice in Sanford Herald of this date, capital stock being \$250,000.00. This means in the near future many more thousands of additional assessed valuations for Seminole county. Means more brick roads, of which we now have, or will very soon have, the most complete system in the state. One of these now runs through part of these lands to Oviedo, a distance of seventeen miles. One of the proposed new roads will run from Oviedo to Geneva, connecting there with the brick back to Sanford, and when built make a loop of thirty-seven miles from Sanford, by Wagner, Oviedo, Geneva and back to Sanford. This road passes through miles of the best citrus fruit growing and farming land in the state.

You can see orange groves on one side and celery farms on the other, vying with each other to see which can swell the owners bank roll the most.

## HIGHLANDERS BAND HERE ON APRIL 16

RETURN ENGAGEMENT OF THIS FAMOUS BAND WILL BE WELCOME BY ALL

Sanford people will be delighted to learn that they will be able to again hear the famous Royal Scotch Highlander's Band which played here during December and which was enjoyed by almost every man, woman and child in the city.

It is with great pleasure that the Woman's Club announces the return engagement of this famous band on April 16th. On this occasion the proceeds will be divided between the Woman's Club and the Boy Scouts, and it is hoped the public will prove their appreciation of this wonderful band by attending and by donating as generously as possible. The band has added attractions and will be able to give two full concerts, one in the afternoon and one during the evening.

The band is returning north after playing a twelve weeks' engagement at St. Petersburg, and the same band that will play all during the summer months at the million dollar pier in Atlantic City, N. J., will give the concerts in Sanford on the 16th of April. Don't forget the date, but we'll tell you more about it in the next issue of the Herald.

### Install Storage Plant

The Western Union office of this city is putting in a new and up-to-date storage battery for their use here, and in the future will be independent of the local power facilities.

One hundred and seventy five large Edison batteries are being installed in the warehouse which is being remodelled for this purpose.

The local A. C. L. train dispatchers will also be furnished with current for the local sets from this plant.

Manager J. P. Hall states that the plant will be in operation in a very short time and that the service of the Western Union will not be interfered with in the future by a failure of the local power plant, to furnish current.

## IMPORTANT RED CROSS MEETING

STATE SUPERVISOR OF HOME SERVICE WORK VISITS LOCAL CHAPTER AND OFFERS GOOD SUGGESTIONS

An interesting meeting of the executive committee of Seminole County Chapter, A. R. C., was held at local headquarters on Tuesday afternoon with L. J. Pepper, state supervisor of home service, an honored guest.

The object of Mr. Pepper's visit was to present the peace program of Red Cross activities, to encourage the drooping spirits of tired workers and to arouse interest in the new program.

As an introduction Mr. Pepper expressed to the committee the appreciation of the Southern Division, A. R. C., of the fine work that had been done by this chapter, especially emphasizing the excellence of the Woman's Work in hospital garments and surgical dressings; the efficient manner in which the influenza situation had been handled and the able and capable conduct of the home service department.

In presenting the peace program Mr. Pepper stated that the purpose of the Red Cross is to carry out a constructive welfare program under one efficient secretary, who will work under supervision of the home service department. The basis for the peace program will be the co-ordination of relief organization with the Red Cross as a community agency, to take care of local conditions along health, educational and philanthropic lines, which do not conflict with organizations already established for these purposes. The program will be constructive and preventive, rather than curative and will be of inestimable value to the community.

Three lines will be definitely included: Home Service, which will look after the welfare of soldiers sailors and their families and all other work of this nature; Nursing, and Junior Membership. A large program has been planned for the children of the Red Cross in which the Junior Red Cross of Seminole county will have an active part.

A fully perfected program of work is ready for the Juniors and this department bids fair to be one of the most influential in the great national organization. The home service work of the Red Cross will continue not only through the period of demobilization but also as a peace time activity and will expand in some communities to include others beside the families of sailors and soldiers. This is particularly true of communities where there are no organized agencies for social service.

Already five hundred thousand families have been cared for by this department and 120 in our own community have been served by the local committee.

The program as outlined by the state supervisor was unanimously adopted by the executive committee and a committee appointed to find an acceptable secretary for this work who will be paid a salary for her services. The work is strenuous and will require practically all of a secretary's time. The secretary will be sent to a training institute and properly equipped for the work.

A two weeks' chapter course will be given in Sanford, gratis, to the members of the chapter who desire to take this course.

## GUARDS ENJOY BIG GET TOGETHER

EXCELLENT GET TOGETHER MEETING WAS HELD ON FRIDAY NIGHT AND RETURNED SOLDIERS ENTERTAINED

The biggest "stunt" yet pulled off by the Seminole County Guards was the banquet held last Friday night at the Hotel Carnes in honor of the newly elected officers and the returned soldiers and sailors.

Fully 150 men took their places at 9:30 o'clock in the big dining room at the hotel. They were arranged at three long tables for the men and a smaller table for the officers and civilian visitors. The returned soldiers and sailors were seated among the guards.

Major Forrest Lake as toastmaster kept the men in good spirits and did not allow the meeting to drag for even a moment. In addition to the regular program which had been prepared the toastmaster called upon many for informal talks and stories, and all responded nobly upon being called. The musical program and readings given by the ladies was evidently enjoyed by the men present as is indicated by the fact that every number called for an encore. After the ladies' program they were escorted to the ladies' parlor where they were served with the good things of the banquet which followed.

The entire company of guards turned out for this occasion which includes the squads from Oviedo, Geneva, Chulota, Longwood and Altamonte. These men, together with the Sanford contingent make up a company of over 100 men and the drill preceding the banquet was participated in by all of these men and a great number of returned soldiers and sailors.

The Seminole Guards are in a prosperous condition and a great deal of interest is being taken by the members. Nine enlistments were received at last Friday's drill.

The new quarters in the Court House will be ready in a few weeks and the new officers are receiving the very best of support from both officers and men. Capt. Geo. DeCottes and Lieut. R. B. Wight, the newly elected officers are both excellent drill masters and are both recently returned from the camps where they have had a great deal of experience in this work.

The following is the program for the evening which was augmented by a great number of impromptu talks and stories by those present: Grand March

### Baptists Entertain

The members of the Berean and Euzelian classes of the Baptist Sunday school delightfully entertained the officers and adult members of the school and of the other Sunday schools of the city last night in the class rooms of the Baptist Temple.

Over 100 were present to partake of the hospitality of these classes and the entertainment was a success in every way. The beautiful get-together spirit seems to have taken hold of the churches and Sunday schools of the city with the result that gatherings of this nature are very common occurrences of late.

The program consisted of an exceptionally fine musical and reading program in which several talented musicians from DeLand took part. Following this was an address by Dr. Blocker of DeLand, formerly pastor of the church at Sanford and an interesting and instructive speaker, a general favorite with Sanford audiences.

The guests were then invited to the third floor where refreshments of ice cream and cake were served, while Supt. Jenkins as toastmaster called upon several of those present for short talks and stories, to which all responded.

The members of the Baptist church are royal entertainers and no visitor leaves their meetings of this character without feeling that he is "glad he came."

## SEMINOLE CO. PREPARES FOR VICTORY LOAN

ORGANIZATION ALREADY PERFECTED AND WORK HAS BEEN STARTED

Seminole county, as usual will be on the job on the opening day of the coming campaign for the Victory Loan.

This campaign opens on Monday, April 21st and the chairman and workers are already making up lists and doing the preliminary work for the campaign. Forrest Lake has been selected as county chairman Mrs. Galloway as women's chairman for this county. In addition Mrs. Galloway has announced the following organization of ladies of the county who will assist as usual in raising the quota allotted to Seminole:

Mrs. E. M. Galloway, county chairman  
Mrs. W. L. Morgan, vice chairman  
Mrs. R. R. Deas, secretary for county  
Mrs. Geo. Fox, publicity  
Mrs. R. C. Bower, Sanford, chairman, Mrs. Endor Curlett, Geneva, chairman, Mrs. R. L. Dann, Chulota, chairman, Mrs. A. F. Crawford, Oviedo chairman, Mrs. M. B. Ballard, Altamonte, chairman, Mrs. J. A. Bistline, Longwood, chairman, Miss G. Ivey, Paola, chairman.

The "fair and square" individual quota system, to be used, is expected to distribute investments in the fifth issue of government securities more fairly throughout the country than any previous campaign has done. By this system, the burden of subscribing to the government's securities will not be put upon that portion of the public which feels its patriotic duty most, but every man will be shown just what his country expected him to do.

We have become accustomed to quotas for states, counties and towns, and in practically every case each such unit has "gone over the top." But there have been many instances where a comparatively small portion of the population has subscribed that quota. In two ad-

## PEACE BY EASTER IS PREDICTED

PEACE CONFERENCE IS NOW BENDING EVERY EFFORT TO BRING ABOUT EARLY PEACE

Paris, Apr. 3.—"I have always thought and think more than ever today that the peace preliminaries to be imposed upon the enemy will be ready before Easter unless some unforeseen obstacle arises," said Stephen Pichon yesterday at a banquet given by French journalists, according to the Matin.

One of the happenings in peace conference circles yesterday is, alluded to by the Matin and the Journal today as a "great event." The council for four months issued a communique, the newspapers point out, but it is added, "it was only to tell us that Gen. Smuts is going to investigate Hungary."

The Smuts appointment is one which by these two papers and most of the others is considered a bad omen. The publications pointed out the work of Gen. Smuts in Switzerland in negotiating with Gen. Deltrichstein, the Austro-Hungarian minister to London, at the outbreak of the war, in which it had been charged by Paris newspapers that the bluntness of Gen. Smuts choked off possible negotiations with Austria Hungary for a separate peace. They profess to see in the Smuts appointment another procrastination in the peace procedure. This step is pointed out as all the more distasteful following the calling into conference of Gen. Mangin, a man of action, who has returned to his headquarters on the Rhine.

The council of four has virtually agreed according to advices from French sources, that the left bank of the Rhine will be neutralized until Germany has paid the indemnities fixed by the peace conference. It is understood that French and Belgian troops will hold this territory, the United States claiming it to be impossible to leave American troops in Europe after the signature of the peace treaty and England having insufficient effective troops to maintain garrisons along the Rhine.

It is surmised that the visit of King Albert of Belgium to Paris was not unconnected with the share that Belgian troops will be asked to undertake in this territory.

The drafting committee of the league of nations commissioned has finished work but has not passed (Continued on Page 4)

joining counties, for instance, in the fourth Liberty Loan campaign, this was forcefully illustrated. One county, with a quota of \$20,000 sold its bonds to 62 persons. The adjoining county, with the same quota used the "fair and square" individual quota system, assigning every citizen his share, and the \$20,000 bonds was distributed among 400 investors.

Under the individual quota system, every man in every county is assigned a definite amount of bonds or notes, and is expected to subscribe to at least that amount. The quota is based on his income and property. There is a local committee to which he may appeal if he believes his quota is unfair. He is under no compulsion to subscribe that amount or any other amount; but it has been found that in the great majority of cases he is glad to have some definite sum fixed for him, as it gives him an idea of what his share in the government loan should be.

Every zone in the Sixth Federal Reserve District where the individual quota system has come up for discussion has adopted it. The district headquarters has been at work for several months preparing the individual quota cards, and it is expected that every man's share will definitely be fixed by the opening of the campaign. The individual quota plan is a fact in the Victory Loan Campaign. It is expected to work wonders in putting the south over the top quickly, and without calling upon the patriotic "regulars" to make up deficits by increased subscriptions on the last day.

## AMUSEMENT

### THE GREATEST THING IN LIFE

Story Dealing with Love and War in This Country and in France Proves Delightful

W. Griffith, master producer, scored another artistic triumph in his latest Arcraft photoplay of love and war, "The Greatest Thing in Life," which will be at the Star Theatre Monday. The photoplay introduces dainty Lillian Gish, one of the most charming screen players in the country, Robert Harron and other notable players, all of whom appear to excellent advantage in this remarkable production.

What is "the greatest thing in life?" The title, which may appeal as unusually comprehensive is suggested by the theme of the play. The greatest thing is somewhat different to nearly every person; but Mr. Griffith has selected what he believes to be the greatest thing for the majority of persons, as the foundation for a drama of fascinating variety and arresting strength.

Mr. Griffith dips again into the ferment of the Western Front for the climax of his story. A young man in the midst of a love affair, and a girl in the midst of a love affair, are the main characters in the cast. The romance of the girl is touched with a charm of internationalism, but the personal part is staunchly typical of America.

The happy blending of delicacy and strength which is conspicuous in Mr. Griffith's unrivaled mastery in screencraft, has seldom appeared to more powerful advantage than in this superb photoplay. General whimsicalities are offered in contrast to situations of electrical suspense and attacking strength. The action mounts with agreeable speed to the intense energy at the close, which is characteristic of all of Mr. Griffith's productions.

The story deals with a young American who is the social harvest of pampering circumstances, with a blithe and merry maiden who is entertained with dreams; and with a sturdy young Frenchman, a green grocer, loyal to his garlic-fed palate until love complicates his menu and many other things.

Mr. Griffith has given his idea in a motion picture that further strengthens his reputation of being one of the master producers of the screen. Its characters are as vivid to the spectator as old friends, definite in their contrasts and tempting in their associations.

The story moves alertly from the moment the characters are introduced, their foibles outlined with mirthful effect. It presents a penetrating study of humanity, but all analysis is immersed in the pleasant excitement that presides as one scene rises to another in fascination com-

plication. The climax is a tumult of forceful action, weighed with suspense.

For each character, Mr. Griffith suggests the greatest thing in life, slightly different perhaps but the same in the final estimate. As a drama it makes attendance a delight, as a profound study of humanity, its momentous theme will recur to the spectator for many weeks.

The picture includes some of the most beautiful photographic scenes Mr. Griffith has ever presented, several of them secured while he was in France. Among them are photographs of the Marne river and Chateau Thierry.

**Adopt French Orphan**  
It will be of interest to the parents and patrons of the East Side Primary School to know that this group of little folks have made application for the adoption of a French child and are eagerly awaiting the name and photograph of "their child."

While one of the most recently organized of the Red Cross Auxiliaries in Seminole county it has been extremely active and interested in the Junior Red Cross work and for several months have been planning and working to raise funds for the purpose stated.

Under the direction of Mrs. Stella Arrington, principal, and her efficient corps of assistants the kiddies have developed eager interest that bespeaks the enthusiastic "mothering" which will be bestowed upon the girl or boy who becomes their protege.

**Mallory Hats**  
A certain young man of careful habits in dress recently told us that the reason he always wore

is that they not only represent his ideas of style better than any other hats, but that he receives better service because they retain their "newness" longer.

Only fine materials can be relied upon to make a hat appear new after considerable wear, and if style also is present the result is most gratifying and "Mallory Hats" always gratify. Even the makers guarantee a source of gratification and the new Spring Shades is another.

**D. W. Griffith Presents "THE GREATEST THING IN LIFE"**  
an Arcraft picture

What would you ask for if the gods decreed that the one thing you wanted you could have? You'd want the greatest thing in life, wouldn't you? Well, what is the greatest thing in life? Victory? Money? Love? The Distinguished Service Cross? The sight of home at the end of war? Or is it—the glorious thing that an unenvied American youth found in France in the midst of battle, the thing that brought him all that's really worth while? Is it that?  
D. W. Griffith has that answer for you in his newest production. Lillian Gish and Robert Harron are in it and the great creator of "The Birth of a Nation," "Intolerance," "Hearts of the World" and "The Greatest Thing in Life" with his magic has woven around them a motion picture story that takes its place among the photoplay masterpieces that will live forever.

### LAKE MARY ITEMS

Mrs. E. S. Montgomery left last week for her home in Johnstown, N. Y., after spending the winter here.

Miss Amanda Sjoblom made a visit to the dental office of Dr. Brown of Sanford Tuesday.

Mr. and Mrs. Frank Evans arrived Friday to make the Evans' family a visit. Sorry to report that Mrs. Evans is in rather poor health. It is hoped the change here will do good.

Mr. E. W. Applegate and two daughters left Monday for their home in Ossining, New York. Mr. Applegate is highly pleased with his new home on the lake, and expects to bring others with him next winter if things are favorable.

H. D. Durant and little daughter attended services at Maitland Sunday.

Mrs. Merry of Maitland was a week end visitor here.

The recent inspection of road masters over the system indicated that the section of H. D. Durant was reported as being in best condition of any on third division. The rating was four points higher than any on system. He was awarded a \$500 prize as a token of appreciation of his efforts. Besides several nice letters of congratulations for the excellence attained one from the general superintendent, one from

engineer of roadway and one from the general road master.

Mrs. Joe Henry and baby of Orlando spent a couple of days here this week with her home folks.

Dr. Puleston has made several trips recently to see Mrs. Frank Evans.

Rev. R. W. Edwards of Jacksonville is expected here last of the week.

### Land Clearing in Florida

By Geo. D. Lowe

The Sanford district holds all the high records for land values in the Coastal Plain, and there is need for a greatly increased acreage of cleared land. Labor to clear land according to the old and inefficient method is lacking, according to County Agent Berry, and in addition there seems to be a sort of trust among the negro contract land clearers which is boosting cost materially.

In an investigation of land clearing which has covered almost all the cutover sections of the northwest and the south diligent inquiry has failed to discover a method, a system, or a machine which is economical under all conditions. Here in Florida the deeply taprooted pine stump is defying machinery that cost many thousand dollars to build. The stump can be pulled, but matters of hitch, of anchorage, or movement in the woods and of breakage due to strain increase cost and reduce speed of operation. It seems that a combination of methods is to be the final solution of speed and economy in land clearing.

### The Tractor Combination

On the Whitcomb development near Sanford an interesting combination is being used with success. Palmettoes are pulled with a tractor which will break the ground later, and pine stumps are also pulled with the tractor after they are shot loose from the soil with moderate charges of explosives. The work has not gone far enough for actual costs to be announced, but it is quite apparent that this combination is susceptible of solving the problem on many tracts. A heavier tractor may be required for the work and there are other experimental phases to be considered. Instead of a straight pull some tractor experts suggest that the cable be used over the drive wheels as a drum.

On the farm of Fish & Fish last week near town an interesting piece of work was done by an explosives' demonstrator on palmettoes to determine the best method of blasting them. This tree has a very peculiar root system, a mass of fibrous roots in light soil. After experimenting there it was apparent that a charge of explosives placed deep in the ground and under the center of the palm would take it out in good shape. County Agent Berry thinks that the cost of this very quick and effective method is little if any more than the cost of hand work at present prices.

This demonstration work was done for County Agent Berry by Guy G. Means, an explosives expert of Bartow who has been assigned to Florida by the DuPont Company to work out agricultural problems where the use of explosives is indicated. As a student of land clearing it would seem to the writer that in the Sanford district it will be advisable to handle the stumps and palmettoes with explosives and have the light work with small trees done by hand. There is sufficient labor to handle this part of the work at reasonable cost, but not to remove the stumps and palms.

NO EXTENSION OF TIME FOR PAYMENT OF STATE AND COUNTY TAXES IN SEMINOLE COUNTY

State and County Taxes remaining unpaid April 1st are delinquent and will be advertised, in accordance with the law. No extension for payment will be made in Seminole county.

JNO. D. JINKINS, Tax Collector.

**What She Was Looking For.**  
One of the many excellent stories told by Lady Jenson in her "Notes of a Nonpad" concerns her godfather. "He came often to our house," writes the authoress, "having an obvious admiration for the pretty young aunt who lived with us. One day he called as usual and I at once climbed on his knees and stared searchingly into his clear, brown eyes. 'What's the matter, child?' said he, 'and what are you looking at?' 'Ma'mma said to papa, 'quoth I, 'that you had a wife in your eye and I'm looking to see if I can find her.'"

This original frock for dressy wear is in blue tricolette, trimmed with bands of nutria. It is mounted on a foundation of black satin and the deep girdle is of the same material. The fur is used for collar, cuffs and bands of the tunic. Medium size requires 3 1/2 yards 54-inch tricolette and 2 1/2 yards 35-inch satin. Pictorial Review Dress No. 7471. Sizes, 34 to 44 inches bust. Price, 25 cents.

**Gray Copper.**  
The work of a Swiss investigator suggests that absolutely pure copper may have a light-gray color like that of most other metals, since it is found that copper which has been ten times distilled in vacuo has only a pale rose color, while the yellow color of gold becomes much lighter under similar treatment.

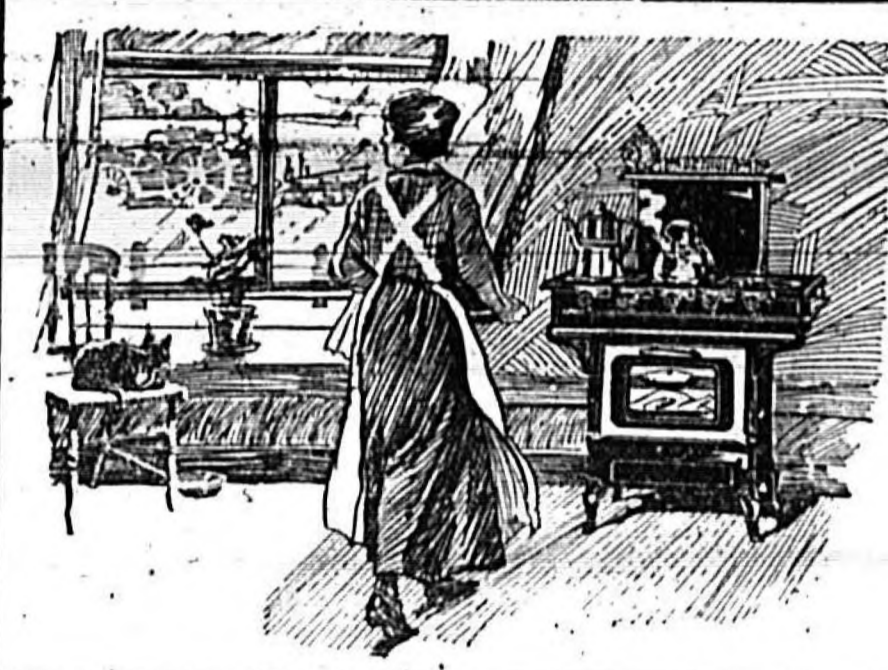

**Commonplace.**  
One of the persistent charges of the intellectuals against the majority of people is that they are commonplace. That, of course, is a thing only a few avoid. Out of every hundred, ninety-seven are certainly commonplace, and what we call the intellectuals are not the exceptions.—E. W. Howe's Monthly.

## DETROIT VAPOR STOVES

*"Work Like Gas"*  
**BURN OIL, GASOLINE OR DISTILLATE**  
There are no wicks, no asbestos rings, and no substitutes for either in a Detroit Vapor stove. Durable 8 1/2 pound iron burners vaporize the oil so that they burn a gas instead of a liquid. The flame is intensely hot right under the cooking utensils, and can be regulated to any requirement. Detroit Vapor Stoves "work like gas." The kettles go on as soon as the match is struck. Double-walled ovens and flues carry the heat twice round the roasting or baking. They cook as fast as gas and at a cost less than with gas, coal or wood. One gallon of fuel gives 19 hours of perfect cooking and baking. Each stove is complete in itself. No pipes or pressure tanks. Call and ask to see them.

## We Have Taken the Agency for the "PATHE" PHONOGRAPHS AND RECORDS

The PATHE all-wood amplifying tone chamber, built entirely upon the violin principle, eliminates all metallic tone and makes possible the reproducing of every vocal or instrumental selection in a clear, sweet, natural manner that is distinctively PATHE. PATHE records are played with a genuine Sapphire Ball that is round and smooth, plays the selection in a clear, sweet, natural tone, will not cut or wear the record as all sharp metal needles will do. The PATHE Tone Control is the only scientifically correct method of governing the volume of music as the record is played.

Germany's Bill will cost her forty billion dollars.

The horse is disappearing so fast that it is doubtful whether there will be a dark horse left by the summer of 1920.

Perhaps the senate thought they were in appropriate appropriation bills, and that is why they passed them up.

The new Victory loan will amount to six billion dollars. Put your hand into your pocket, and see how much of it is there.

If William Hohenzollern years ago had confined himself to sawing wood instead of planning wars, what a difference it would have made to the world at large!

How can a boy who has to pay a luxury tax of ten percent on his ball bats and mitts expect to grow up into a man and a soldier?

The notable things about the month of March were the March hare and the senatorial filibuster and President Wilson's departure and the March winds and the vernal equinox.

The Victory Loan Campaign begins on April 21st. As usual Seminole county will be among those who go "over the top" but to do this the cooperation of every citizen is necessary.

If you object to the loss of an hour between March 30th and April 1st remember that it would not have been a "crowded hour of glorious life" you would only have spent it in sleep.

It is reported that Mexico and the Central American and South American countries do not especially favor incorporation of the Monroe doctrine in the League of Nations covenant. A pretty sure sign that the incorporation should be made.

The lectures at the Star Theatre on Wednesday afternoon and night by Dr. Wm. H. Gillette of the State Board of Health Bureau of Venereal Diseases, were well attended and were both interesting and instructive. The country is fast awakening to the need of giving attention to matters along this line and the sooner we are aroused to its importance the better.

The churches of the city seem to be badly mixed up on the matter of time. It doesn't seem to make much difference what time these services are held but we would suggest that they get together and conform to uniform hours for worship. In any event the change of time will work a hardship on the church and Sunday school attendance, but with all churches working on the same schedule this will be overcome to some extent.

As has always been predicted by the Herald, the Black Hammock tract near Oviedo is coming into its own. This week Mr. O. P. Swope and his associates have taken over a large part of this property and will put it under cultivation, with the result that it will add many thousands of dollars to Seminole's value.

While Seminole is a small county in area it is there, with the goods just the same and has no equal in this state or any other state for its size.

We certainly have all of us excellent reasons for trusting to Mr. Hoover's opinions in regard to food. And he has just informed us why American food should be shipped to Germany, taking the subject from nine different points of view. One of the most practical of these

We Still Have Good Envelopes at 5c a Pkg. HERALD PRINTING COMPANY Office Supply Dept. Phone 148 Sanford, Florida

reasons is that famine breeds anarchy, and anarchy is infectious. If hungry Germany received the gospel of Bolshevism, and it spread from Germany to France and England, it would be more than likely to trouble us in the United States.

Another reason is that Germany must have food in order to get back to production and have the wherewithal to pay indemnities.

Mr. Hoover does not neglect humanitarian reasons, and he also says that we have not been and are not fighting women and children.

JOBS "Returning soldiers can't get jobs." Some of them can't certainly.

And there are some jobs that can't get soldiers. These jobs are on the farms.

Twelve months ago the farmers were wondering how to get through the year after losing the boys. And, by achieving the impossible, they did.

They say they can't do it twice. They must have the boys back. And it seems only reasonable to release skilled farm help from the army and keep those who have no jobs waiting for them. No one could call it favoritism, for a farmer's job is not an easy money proposition. And there could be no difficulty in picking the men out, as they were classified according to vocations when the draft took them away.

The pastor's message at the noon service will be "In Sight of the Cross." The ordinance of the Lord's Supper will be observed. In the evening the pastor begins a series of discourses in connection with the Lord's Prayer. This study based upon the address, "Our Father."

Soldiers Retain Uniforms. On account of a number of letters making inquiry upon the subject Senator Park Trammell desires to inform all Florida soldiers who have been discharged from the military service that under a law approved February 28th, they are entitled to retain as their own property the uniform and outfit they had at the time of their release from the service.

TWEED ALL DRESSED UP. Some unusually clever things are done with the novelty tweed this season, because they are impressed into service hitherto given by other materials. The new tweeds are exceedingly soft and pretty. The simplest designs are used for the development, as pictured here. The contrasting notes are copied in pipings of black satin and collar of white crepe. Medium size requires 4 yards 45-inch material, with 1/2 yard crepe. Satin ribbon may be used for the piping. Pictorial Review Dress No. 7889. Sizes, 16 to 20 years. Price, 25 cents.

IN JERSEY AND SATIN. Jersey, both silk and wool, is receiving its share of modish approval and comes in lovely colorings. Combined with satin, as in the frock pictured above, it is unusually smart. Two shades of taupe, brown, blue or green are suggested as fashionable color schemes. The scarf of nutria is lined with fancy silk. Medium size requires 3 1/2 yards 54-inch Jersey and 2 1/2 yards satin. Pictorial Review Costume No. 7973. Sizes, 16 to 20 years. Price, 20 cents.

The meeting begins at eleven o'clock, new time. "Being a Christian" is the theme for the evening, with service of song. Mrs. Takach will sing a special oratorio number. Meeting opens at 7:30. Sunday school begins at 9:45, new time, and Christian Endeavor at 6:30. The mid-week meeting is special next week, and Mrs. Takach's oratorio numbers will be given about 9:00. See notice elsewhere. Her Wednesday evening recitals have been of rich value, and no lover of the best sacred music should miss them.

Capt. Ed. Giles Here. Captain Ed. Giles arrived in the city on Wednesday evening from France, having received his discharge from the army. He is meeting at the home of his brother, Frank Giles.

Capt. Giles is a former Sanford boy and still calls Sanford his home. He enlisted at the outbreak of the war with Mexico as a private and has followed the fortunes of war through the various campaigns and stations to the present rank of captain. He is a capable, capable soldier for a man so young and has acquired a great deal of credit for this remarkable record.

Centenary Movement. E. F. Loy. The largest Missionary Celebration ever attempted in the history of the world is proposed for the closing of the Centenary Drive of American Methodism.

The novelty of camping out in the parks of each city with the same freedom and simplicity that campers out enjoy in the wilds of the forest will be enjoyed by hundreds of thousands of Methodists who attend the Joint Centenary Celebration to be held at Columbus, Ohio, June 20 to July 7. The celebration, which is one of the outstanding features of the Missionary Centenary is to be one of the largest missionary undertakings ever attempted in the world and the fact that hundreds of thousands of visitors will come in their cars from all over the country has made the Park Commission of Columbus decide to turn the parks of the city over to them for their use while attending the celebration.

Over a quarter of a million guests are expected and these coming in cars will be allowed to keep them in the city parks which offer excellent facilities for parking them. The guests will also be given the use of the rest and comfort rooms, shower baths and provision will be made for ample police protection for those using the parks during the time of the celebration.

The idea of the Joint Centenary Celebration at Columbus is to make the Methodists, both north and south, familiar with the work being done by the denomination for missions both at home and abroad, and the whole plans have been developed upon a large and an interesting scale.

Florida Methodism will do its share of the Centenary work and will share in the great celebration. Wilson Poster for Centenary. A beautiful new poster has just been issued by the Centenary of the Methodist Episcopal Church, South. It will be one of the most effective pieces of advertising issued in their campaign for \$35,000,000. It is a photograph of President Wilson in a frame and over his signature the following quotation: "Let no man suppose that progress can be divorced from religion, or that there is any platform other than the platform written in the utterance of our Lord and Savior."

WE WILL OURSELVES INTO GROWTH. There is not a weakness that cannot be cured by exercise. Your Brain has many eyes—how many of them have seen the light of progress and power? IF YOU WILL YOU CAN. (Continued from page 1) upon the French amendments to Articles VIII and IX as well as American and Japanese suggestions as to the Monroe doctrine and the equality of nationalities. It is expected that the league of nations commission will meet on Saturday to adopt a definite text of the covenant. President Wilson will act as chairman of the meeting.

Florida Legislature Meets Monday

The Florida legislature will convene in regular session on Monday next in Tallahassee.

Many important matters are to come before this session. One of the most important is the bonding of the state for two or more million dollars, to meet the national appropriation for roads; there is considerable difference of opinion over this proposition. Florida at present is entirely free of bonds of any kind not owing a dollar of interest bearing debt. Many people prefer to pay a tax of two or even three mills for state road purposes and not to vote bonds. Bonds can be legalized only by the vote of the people.

Another important road matter that is to come up is the placing of all through state roads absolutely in the hands of the state road department and taking the boards of county commissioners. There are good arguments on both sides of this question, too.

Another question that will require deep thought is the abolition of the leasing of state prisoners to private parties and the using of these prisoners on state road work. This question also has two sides, one is that the present lease fees pay the cost of the state prison farm; the human side of this question is opposed to leasing the prisoners and will doubtless prevail.

Woman suffrage will be a thorn in the flesh until some definite action is taken to give the people of Florida the privilege of voting on the question. Non-fence laws will be proposed from many of the counties of the state. Most of them will have the referendum clause, putting the final decision up to the people themselves for final determination.

There will be delegations from all over Florida, each with one or more propositions, all demanding appropriations which must be raised by taxation, and if half or one-tenth of them are granted, state taxes will have to be higher next year than in the past.

Tick eradication, hog cholera serum, venereal diseases and a thousand and one important matters are to come before the session of 1919, which promises to be one of the most important the state has ever known.—DeLand News.

Save Space. If you have not a kitchen closet to hang cooking utensils in, get a large box, place it in the corner nearest your stove, paper it inside and drive nails in the sides, on which to hang different articles. Have curtains for the front and cover top with oilcloth, which will also give you a handy kitchen table at a very small expense.

Security Against Pellagra. The United States public health service reports that the disease, pellagra, is largely, if not entirely, due to a faulty diet. When meat and milk are supplied in adequate quantity there is a practical security against this disease, which last year caused 3,700 deaths.

"Know Thyself." When God gave you your talent, he knew what he was doing. Don't be ashamed of it. Don't try to hide it, because it is not of the showy sort. Don't try to twist it into something it was never meant to be. Nobody ever yet made a success, who was not content to use without apology the gifts that were his.—Exchange.

A SHIRT OF TWEED NOVELTY. The stripes jamies are still the most fashionable materials for separate skirts, and many wonderful effects are worked out by smart designers. The skirt illustrated shows the striped tunic and is cut to give the greatest variety in the arrangement of the stripes, while they run vertically on the bodice. The blouse is a clever creation of a Georgette, trimmed with embroidery and "shot" revers. For the skirt medium size requires 2 1/2 yards 45-inch material; for the waist, 2 1/2 yards 44-inch Georgette. Pictorial Review House No. 7873. Sizes, 34 to 44 inches bust. Price, 20 cents. Why Business Men Should Urge Thrift. American business is being reduced to a cash basis. This is as it should be. But business cannot successfully operate on such basis until the people establish a margin of savings with which to tide over short periods of illness, unemployment or other misfortunes. Business can be conducted with greater economy on a cash basis. Goods can be purchased cheaper. The preliminary education necessary to the establishment of the cash system is that of thrift and savings. Business must apply itself to encouraging its customers to start saving. Plant the seed, even if it is only a thrift stamp. It will have a leavening effect. Sell War Saving Stamps. Build up a financial reserve in our community. We will help you. A Correction In our issue of last week we stated that Forrest Lake was president of the new hotel company. This was an error. Mr. Lake is chairman of the board of directors and H. R. Stevens is president of the company, and F. P. Forster is chairman of the finance committee.

That all are excellent executives is evidenced by the fact that the work is going steadily forward and stock sales this week are better than any recent week during the past month. The directors are doing excellent work along this line and one of them at least is giving the greater part of his time to this work with the result that he is rolling up a nice bunch of cash and subscriptions with which to start operations in the near future.

I. O. O. F. Entertainment Sanford Lodge of I. O. O. F. spent one of their most pleasant meetings last Monday evening.

Gold Fellowship is growing in Sanford. No. 27 has work each four meeting nights in the month conferring the initiatory degree the first Monday night in the month and continues first, second and third degrees, so when a fifth meeting night occurs the debate comes as to how to spend it most prosperously, so agreed an open meeting, plenty of refreshments and good talks. So Monday evening being the fifth meeting night was a grand success. Several Brothers from Kissimmee were present, accompanied by District Deputy Grand Master Overstreet. A large crowd was present and all Sanford Odd Fellows who were not present missed a grand treat.

Justice Holloway Seminole county now boasts of a new Justice of the Peace, and while the new Justice has had his commission about a month, yet he is just getting under way as a Court. Justice Holloway now presides over the peace and dignity of the Longwood Justice's District. Justice Holloway was a visitor to Sanford Tuesday.

Try The Want Column GET-TOGETHER MEETING—Members and friends of the Congregational church are called to a supper and special subject meeting Wednesday, April 9. Begin to gather at 7:30, supper at 8. Mrs. Takach's solos after the business meeting, about 9.

Mrs. W. T. Shell and her son, Anderson and her daughter, Mrs. Lillian Berry, who have been the guests of her daughter, Mrs. H. B. Crowder returned to their winter home in Clearwater. Mrs. Berry leaves on Saturday for her home in New York. The family will later re-assemble at the Shell cottage at Algonac, Mich.

Florence Shimmons Mr. Shimmons was recently called to Michigan by the death of his youngest sister, Miss Florence. After severe suffering she passed to her eternal reward at the age of 18 years 2 months and 9 days. Florence was light hearted and of cheerful disposition, always had a smile and a good word for those about her. She was a favorite among her young friends. She bore her sufferings patiently indeed. Her kind and gentle ways will always linger in our memory and while we feel our loss is heavy we know our loss is Heaven's gain.

Miss Shimmons will be remembered by her friends at Sanford as spending the winter here with her brother a year ago and was employed a portion of her time at H. B. Crowder's store.

She leaves to mourn her loss a father, two brothers and four sisters and a host of friends.

W. F. Bartlett Oakfield, Ga., May 10, 1917. Old Kentucky Mfg. Co., Paducah, Ky.

Gentlemen: Please allow me to state that I have sold your hog cholera remedy for one season and have ordered more for this season. Last year I sold it to 12 or 15 men who raise hogs. I told each of them to take the remedy, feed it to their hogs and if they lost a single hog from disease of any kind not to pay me a cent for the remedy, but when they began to sell cotton every man came in and paid me for the medicine and every one of them told me that it was the best hog medicine they ever used. One man paid me for the small package and bought \$5 worth more and said it was the best that he had ever tried.

Yours very truly, W. F. Bartlett. Merchants Grocery Co., Sanford, Fla. 44-3tc

Carelessness Results in Failure That is why we say "Feed B. A. Thomas" Hog Powder according to directions. DO NOT FEED IT SLOPPY, but mix it with ground feed and moisten with just enough water to make a crumbly mass. Then each hog gets a beneficial dose. See full directions on package. A Queer Old Bird is The Pelican

Its bill holds more than its bellican.

But at that, its heart is bigger than its bill. It is the only bird which shares its food with other and weaker fowl.

So the queer old pelican looms up handsome in Goodrich's eyes—eyes which see beauty that is more than skin deep.

Goodrich, it is true, makes Silvertown Cords the handsomest tires—the very Beau Brummel tires of smart cars.

Yet if clumsiness and ugliness would add one mile to their service, Goodrich would make them clumsy and ugly as the queer old pelican.

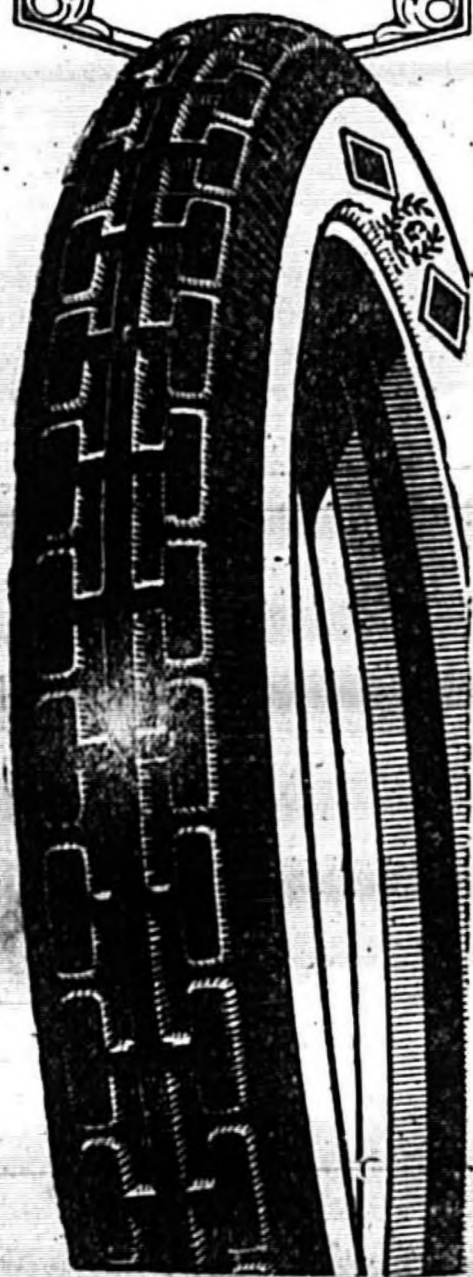

"Quality First," rules in the manufacture of Silvertowns; and they render quality service first and last.

GROWING RICE IN FLORIDA

Muck Land Over the State Sulted to This Crop

Many acres of land suitable for rice growing are scattered over the entire state of Florida. A. P. Spencer of the Extension Division of the College of Agriculture, says that the soils that are suitable for good crops of rice are those having uniform supplies of moisture, but with drainage provided so that there will be no standing water. The soil must have a fair amount of organic matter. There are many drained ponds throughout the state that have the required soil conditions, and as a summer crop, there is nothing better to plant in these places than rice.

Rice may also be grown on drier lands, and where the seasons are favorable good crops are produced; but there is more uncertainty than in the wetter soils, due to a lack of moisture, particularly during the early summer months. In some of the larger lakes where much of the water has been taken out, there is usually a layer of alluvial soil that will give good crops. As such soils are usually thoroughly seeded with weeds, the crop should be planted so that it can be cultivated during the summer.

Much of the truck lands may be planted in rice after the winter crop is harvested. These soils are usually well fertilized and produce good crops. In many sections, particularly in south Florida, rice is preferable to corn, especially where the truck crop is not harvested early enough to plant corn before April 1. On suitable land, no fertilizer is necessary. However, like every other crop, good mature seed should be used, and nothing but the upland variety is planted. If the rice is sown broadcast, six pecks of seed will be sufficient. If planted in 3 1/2 foot rows only half that amount will be necessary.

Attractive Missionary Pageant The Missionary Pageant, "Christ in America," which was presented at the Methodist church Thursday evening, March 27th, under the direction of Mrs. F. L. Nixon, was one of the most attractive and interesting programs ever presented by the churches of Sanford.

A large audience greeted the presentation, which was perfect in every detail and given with the spirit and charm which characterizes all patriotic productions. Much credit is due the director for the splendid way in which the various characters were impersonated, showing the excellent training given by Mrs. Nixon. The various countries of the world were interestingly impersonated by a group of efficient young people.

"The Living Church" was ably presented by the pastor, Rev. C. W. White. Miss Edna Lee Owens, as "Lumina" was a very delightful representation of this far famed lady of Liberty. Antoinette Shinholser and Mary Elizabeth Nixon, two little Americans, were adorably charming, typical of American childhood.

The music for the occasion was beautifully rendered by Mrs. Fannie Stenbridge, Mrs. M. J. Stone, Mr. A. H. Stone, organ, and Mrs. Robert Herndon, director of Sanford's most popular musicians.

Under the direction of Mr. Malloy Horne, Jr., the choir rendered a fine program of songs.

The costumes for the pageant were appropriate and furnished through the courtesy of Mrs. B. J. Starling. The hats worn by the choir were loaned by Mrs. Wilmot of the French Shop.

The personnel of the directors' committee were Mrs. C. W. White, Mrs. B. J. Starling, Mrs. C. L. Wick and others.

Mrs. Nixon, whose excellent training made possible the beautiful production, is the daughter of Capt. James C. Flemister, lecturer at

Cyclorama, Grant Park, Atlanta, Ga.

Card of Thanks I desire to express my appreciation and thanks to all those who contributed so largely to the success of the Missionary Pageant presented at the Methodist church on March 27th.

Lack of space prohibits the naming of each person, but especially are thanks extended to Columbia and other members of the pageant; Mr. Horne, musical director for the occasion; to Mrs. Munson, Mr. Stone, Mrs. Robert Herndon and Mrs. Terwilliger in grateful appreciation for their beautiful music and to Mrs. Wilmot for the use of hats, also to the members of the Presbyterian choir who assisted. Mrs. F. L. Nixon.

Superstitions of Seamen. If a man is ill at sea, his most critical time is when land is first sighted. If he survives an hour after the sighting of land he will recover. On some trawlers whistling is forbidden—it scares away the fish. Other skippers believe that to wash your face in the middle of a trip will break a spell of calm weather.

The Last Word. The sweet young thing thought she was making a huge success. "There is only one thing I can't understand," he started to say, "Only one?" she asked, without letting him finish. "There was one. Now there are two. The second is why some girls never learn that it is only the pretty ones who can afford to be impertinent."

Shocks Retard Drug Action. "Shock retards the action of drugs," says the Revue de Medecine. "Frogs in a state of shock from a blow on the head or an electric shock did not respond to the effect of a poison until after a period of eight or ten times longer than under normal circumstances, even when strychnine, for example, was injected by the vein."

Birth of Great Organization. The first organization under the name of the Young Men's Christian association was effected June 6, 1844, in England, due to the efforts of George Williams, for the purpose of prayer and Bible study. Library and reading room were later added, and lecture and other courses provided. The association in America is the outgrowth of the English movement in 1844. The organization in America now has almost a million members.

Hugo's Description of Rhine. The Rhine is a stream of varied aspects. Victor Hugo, who wrote what was perhaps the finest article ever written about it said: "The Rhine is unique; it combines the qualities of every river. Like the Loire, it is rapid; like the Moselle, serpentine, like the Seine; limpid and green like the Somme; historical like the Tiber; royal like the Danube; mysterious like the Nile; stanzled with gold, like an American river; and, like a river of Asia, abounding with phantoms and fables."

American soldiers is safe at home again and every dollar of the gigantic war bill paid. The fathers and mothers of the boys who went overseas or to camp, who risked their lives for their country—and many of them gave life or limb—will not quit until the job is finished, any more than the soldiers quit over there.

The Victory Loan campaign will soon be on. The government has decided upon a five billion dollar issue of short term securities, to be repaid within five years, and bearing attractive interest rates. Secretary Glass believes this form of security will command a better market price after the campaign than would bonds issued for a longer term of years.

A FAMILY MEDICINE In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theodor's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it. Theodor's Black-Draught has saved us a lot of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit. If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

### The Most Closely Priced Fine Car

NOW that you are ready to buy that new car, try to find one that gives you so much in mechanical excellence and in beauty and comfort of bodies at so fair a price as does the Chandler Six.

Search the whole market if you wish. Search for such a motor. Search for such a sturdy chassis. Search for such features of essential equipment: Bosch magneto for sure ignition, silent chain drive for motor shafts—three chains running in constant spray of oil, solid cast aluminum motor base extending from frame to frame, annular ball bearings to carry the power back to the rear wheels with the minimum loss through friction.

The Chandler is the most closely priced fine car in the American market. A determined Chandler policy, pursued now for nearly six years, has made it so.

When you really know the Chandler Six, no "competitive" car will interest you. Cars for which you are asked to pay more will not interest you.

No other car, in the whole medium-priced field, offers you such a motor. No other offers you such features of essential, high-grade design and equipment.

Asking you to pay more wouldn't give you more. To mark up the price doesn't make a car better. The Chandler is sold at a lower price than any other fine car. You can prove this by your own comparisons.

come back, is told by W. J. Baker of Portchester, N. Y., who served eleven months as a Y. M. C. A. worker with the 26th Division. His particular charge was the third battalion of the 103rd infantry. He joined that unit on the St. Mihiel front, went with them to Chateau Thierry, and later was in the famous St. Mihiel clean-up and the drive before Verdun.

"It was just before that action began," said Baker, "that I saw the finest example of the characteristic unselfishness of the boys. They 'cleaned their pockets' for the folks at home. They knew they were going against the real thing, and they wanted all their money to go home in case they never came back. In all, I was entrusted with 8,000,000 francs—upwards of \$1,500,000—before that attack. We handled such funds through the regular Y. M. C. A. service established for sending money from soldiers to relatives in America."

Baker lived with his battalion, and saw lively times, as the "Yankee Division," as it was called, was kept on the fighting front almost continuously.

#### Busy At Work On Plans For Great Victory Loan

Atlanta, Feb. 3.—Headquarters of the Sixth Federal Reserve District in Atlanta is almost as busy as though the campaign were actually under way. A vast amount of preliminary work has been made necessary by the individual quota system to be tried out for the first time in the South. The "fair and square" idea is to be carried out in this, every citizen being assigned a quota based on his tax returns and income. If he regards the quota as unjust, he has the right of appeal to an adjustment committee.

The fifth, or "Victory" Loan will be necessary if the United States is to finish the job it started. The war did not end with the signing of the armistice. It will not end even with the conclusion of the peace terms. The war will not be over until the bills are paid, and it is up to the people of the United States to pay them—to feed the soldiers and bring them home.

### HAYNES M'FADDEN HEADS CAMPAIGN IN VICTORY LOAN

Widely-Known Financial Editor Succeeds W. C. Wardlaw, Who Becomes Associate Director

Haynes McFadden, of Atlanta, publisher of the Southern Banker, has been appointed chairman of the executive committee for the Sixth Federal District in the Victory Loan campaign. It was announced this week by Governor Joseph A. McCorde, head of

the district war loan organization. He succeeds W. C. Wardlaw, chairman for four successful campaigns, who has been made associate director and assistant to Governor McCorde in the war loan work. Mr. McFadden has been active in former campaigns, and was vice chairman in the fourth Liberty Loan drive.

Haynes McFadden

A very large proportion of the counties in the Southern States have adopted the individual quota system for the Victory Loan, and expect thereby to distribute the investments in securities over wider ground. By this system, every citizen will be assigned a definite quota which he is expected to take, just as states and counties have their quotas. This will be based on his income and property, and will be subject to change by a local appeals committee if he feels his quota has been fixed at too high a figure. In previous campaigns, counties which used the individual quota plan went over the top quickly and by a large margin, without placing the burden of heavy investments on compar-

### SOUTHERN AVIATOR DIGS FROM PRISON AND SWIMS RHINE

Calls "Y" Work in German Prison Camp "Life Saver," While Confined At Villingen.

New York, Feb. 3.—Lieutenant George Puryear, of Memphis, Tenn., an aviator, was one of a trio of hardy American adventurers who were successful in a wild dash for liberty from the Villingen prison camp on October 6. Sixteen men made the attempt, but only Puryear, Lieutenant Harold Willis of Boston, and Naval Lieutenant Isaacs of Portsmouth, Va., got away. Word has just been received at Y. M. C. A. headquarters here concerning their almost hopeless escape.

The men brought back remarkable accounts of Y. M. C. A. work even at Villingen.

"The 'Y' sent us books of all kinds and even sporting goods," said Lieut. Puryear. "We played basketball and volley ball incessantly—our space was too small for baseball and football. I tell you, those games were life savers to us, and they kept us in fair physical condition."

It is reported that Puryear and his comrades slipped out of the camp through a tunnel under the wire. All but the three named were headed off before they reached the river Rhine, but the intrepid trio swam the river—a terrible feat in itself—and made their way into Holland.

A Chief Is Among Ye Taking Notes and Faith, "He'll Print 'em" So Says Saunterer.

Friends o' Mine

I should like to send you a Sunbeam, or the twinkle of some bright star, or a tiny piece of the downy fleece that clings to a cloud afar.

I should like to send you the essence of a myriad sun-kissed flowers, or the lilting song, as it floats along, of a brook through fairy bowers.

I should like to send you the dew-drops, that glisten at break of day, and then at night the eerie light that mantles the milky way.

I should like to send you the power that nothing can overthrow—the power to smile and laugh the while.

As journey through life you go, But these are mere fanciful wishes; I'll send you a Godspeed instead.

And I'll clasp your hand—then you'll understand. All the things I have left unsaid.—W. Daytona Wegleforth.

I feel in duty bound to acknowledge with thanks the letter written in the Herald last week by one of our citizens explaining the band situation. This letter not only explains to me the condition of band affairs in my town but it also shows that people read my humble offerings. I feel deeply grateful to the gentleman for the information and also for the demonstration of showing some results of my work. And right here, while I am at it, I will say that I have been advised by the management of the Herald that the columns of the Herald are open for discussion to anyone who will carry their discussion on in a clean way and will sign their articles. It is not always necessary for the signed name to be printed, but the article must be signed in order to protect the Herald—you understand that. I feel that a good come back now and then will live the spirit of the best of men.

A lady came to my house last Friday night and I was sitting on the porch enjoying a good evening smoke from a threefer, and she says: "Come on down town and let's see the boys drill—they're going to have some regulars with the Homers tonight." That interested me and I joined the procession and we stood on the curb out there—and all the while I was takin' notes—and watched the boys drill. My, but that was good drilling. One thing I noticed though, and that is, they have dropped the old "Carry-Arms" that used to be in the manual, and for that reason I expect I would get mixed up on that new fangled drilling. Well, we stood there until the boys went and put up their guns and I thought they were going home but here they come up again and made a charge on the hotel dining hall over there. That was some charge. I understand that they are until after twelve o'clock. But the thought I wanted to get before the public is that Seminole ought to be proud of her Guards. Seminole is proud of her boys that went over and did their bit, and I know that she is no less proud of the fellow that stayed at home backing up his man at the front, and did his bit minding the property and the loved ones at home. The Guard also appreciates the boys who went over, and they tried to show that by giving the returned boys a bite to eat. Seminole ought to and will support the Guards.

**SAD DEATH:** One of the saddest deaths for awhile was that of the trash man for the past two weeks—people did not think that he would be missed, they thought because he had missed them so much he could not miss himself and so there. You ask how do I know him to be dead well, what else could be the matter with him, he hasn't been around for some time, don't look like no way. I tell you the fellow who has charge of the trash man ought to get a schedule for that personage and see that he keeps it and also see that the good people who happen to have trash put in the trash cans and boxes along the alley ways so that it can be hauled off, in time. Now I wish this could be done and I wish that the alleys could present a nice clean appearance for once. It is just about as easy to arrange for the trash man to come regular trips and for the merchants and housekeepers to put trash out at regular intervals as it is for them to just happen so with it. Come on, now fellows, let's all help to keep our back yards clean.

I thought for once that I was through with this new kind of time, but it's a shame the way some folks butcher it all up. It is a shame too, how some folks make work out of serving under this new time. There is no use of making things hard for yourself when it is just as easy to run without it. Now you take the time the churches are having preaching. Why it proves for a fact that the different denominations are further apart on their time than they are on religion. Now you know as well as I do if they can't get together on a small matter of time, they need never try to get together on the great question of religion. But now you take the preaching service—most all these churches are now having their morning service in the afternoon, some of them 12:30 p. m., some 12:15 p. m. and others have adhered to the morning habit and are having it at 11:45 a. m. while I am advised that at least one is having preaching at the same old time, 11:30 a. m. Of course the Catholic church has always had services just about as early as the folks would get up, and I think they are sticking to the old practice, time or no time. I was down town last Sunday and a regular goer was down there too, and I heard him say that he was mixed up on the time at his own church. Who wouldn't be? Then,

too, what you think about going to church as late as nine o'clock at night? Well its by me—only thing I know to do is just go, and if you hit it wrong at your own try another, maybe they have forgotten to look at the watch and you can get in.

**An Appreciation**  
In the recent death of Mr. J. M. Lewis, Altamonte Springs has met with a grievous and irreparable loss. He was identified with this place for over thirty years and had a hand in all its growth and development. There is almost no home here that has not some of his fine handiwork in its construction and our grounds and groves bear witness to his thorough knowledge of horticulture. He was an authority on orange trees and his opinion and advice on orange culture were sought far and wide.

He loved all trees and did more than anyone else to beautify and adorn our lovely avenues. The magnificent oaks that line our streets were mostly planted by his hands and he needs no finer monument to prove his generosity and altruism than these miles of shady avenues through which we walk in comfort and enjoyment. He was generous to a fault in all things. No man ever went to him asking a favor or assistance and came away disappointed. He did not know how to say no to any appeal for aid, and no matter how busy he was, he always had time to give help to a friend or neighbor.

No one will be more sadly missed than "Joe Lewis," as everybody loved to call him.

His last illness was no doubt superinduced by his great anxiety about his two boys who enlisted for service when America entered the war and went to France. They wrote regularly at first but since the middle of last October no word had been received from them until a day or two before their father's death.

### Daily Fashion Hint

**A NEW NECKLINE MODEL.**  
Estimate simplicity characteristic of the latest of the new line. The neckline illustrates a today in its own lavender crepe of fine ribbons with flat lace and is set on. The strongly little bow is a soft elegant ribbon with pleated ends. The blouse also the model is made of yards 44-inch material, runs front and 5 yards of collar.

Those were terrible months of strain and uncertainty and it is hoped that when the good news from his sons did arrive, that Mr. Lewis was able to comprehend and be comforted by it before he went away to the Other Land.

This bereaved community will forever hold in grateful remembrance this kind friend who has left us, and

extends to his sorrowing family its heartfelt sympathy. M.
